CMT - CONSTRUCTION MANAGEMENT TECHNOLOGY

CMT 3000 Construction Estimating and Bidding Cr. 3
Fundamental cost estimating principles, processes and methods used in residential and commercial construction. Offered Fall.
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.

CMT 3010 Introduction to Construction Management Cr. 3
Overview of construction industry; processes involved in construction projects from conception to final delivery. Offered Fall.
Prerequisites: ([CMT 21X0 with a minimum grade of C])
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.

CMT 3020 Residential and Commercial Land Development and Design Cr. 3
Role and responsibilities of a developer, financing strategies and new trends in lending; forming an effective partnership. Technical processes: from undeveloped land to surveying, conceptual drawing, site planning process, engineering and design, permits, and construction. Offered Winter.
Prerequisites: ([CMT 2X20 with a minimum grade of C])
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.

CMT 3030 Construction Safety Management Cr. 3
Construction safety and health management as applicable to contractors, owners, and designers. Construction injury and fatality statistics; humanitarian, legal and economic justification for safety; accident causation and control theories; OSHA standards and safe construction procedures. Safety policy, project safety rules, communications network, accident investigation and record keeping, worker orientation and training, and safety program evaluation and audits. Offered Fall.
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.

CMT 3040 Building Codes Cr. 3
Requirements by regulatory agencies pertaining to the construction industry; current International Building Code and other regulations; emphasis on Michigan applications. Offered Winter.
Prerequisites: ([CMT 21X0 with a minimum grade of C])
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.

CMT 3050 Construction Accounting and Financial Management Cr. 3
Successful management of finances of the construction project and companies. Accounting systems, financial statements, overhead and profits, cash flows for construction projects and companies, project financing, and financial decision making. Offered Fall.
Prerequisites: ([IECO 2020 with a minimum grade of C])
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.

CMT 3060 Planning and Scheduling Cr. 3
Principles and use of Primavera Project Planner scheduling software: project planning, scheduling, control, and analysis. Project scheduling methods and construction activity analysis, including Critical Path Method (CPM) and networking techniques. Offered Winter.
Prerequisites: ([ET 5870 with a minimum grade of C])

CMT 3070 Introduction to Green Construction Cr. 3
Sustainable or green-building design and construction: efficient use of resources to create healthier and more energy-efficient buildings. Motivations for green construction projects, technical aspects of their design, obstacles, future directions. Knowledge and capabilities to project-manage a green building. Offered Fall.
Prerequisites: ([BIO 1030 with a minimum grade of C])
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.

CMT 3080 Advanced Computers in Construction Cr. 3
Advanced applications of MS Excel software in estimating and financial management of construction projects; making effective project presentations using MS PowerPoint. Field applications of computers; use of PDAs and handheld devices in data acquisition and management. Use of REVIT software in Building Information Modeling (BIM). Offered Winter.
Prerequisites: ([ICE 3010 with a minimum grade of C] OR [ET 2140 with a minimum grade of C])
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.

CMT 3090 Facilities Management Principles Cr. 3
Aspects of facilities management: buildings and grounds, custodial services, design and construction, operations and maintenance management. Offered Fall.
Prerequisites: ([CMT 21X0 with a minimum grade of C])
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.

CMT 4030 Facilities Management Principles Cr. 3
Overview of construction practices in industry; processes and equipment involved in construction projects from conception to final delivery. Offered Fall.
Prerequisites: ([CMT 21X0 with a minimum grade of C])
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.

CMT 4050 Construction Methods Cr. 3
Principles and applications of basic mechanical and electrical systems; design examples; emerging technology and environmental issues; essential engineering calculations and data. Offered Fall.
Prerequisites: ([IPHY 2130 with a minimum grade of C])
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.

CMT 4140 Project Administration Cr. 3
Overview of construction project and contract administration and management. Use of Excel, Expedition, and Prolog software. Offered Winter.
Prerequisites: ([CMT 2X00 with a minimum grade of C])
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.

CMT 4200 (WI) Senior Project Cr. 3
Capstone project; senior students work in teams; application of skills, knowledge, techniques and concepts. Satisfies the University General Education Writing Intensive Course in the Major requirement. Offered Winter.
Restriction(s): Enrollment limited to students with a class of Senior; enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.
