PHA - PHARMACY

PHA 3030 Pharmacy Calculations and Descriptive Biostatistics Cr. 1
Basics of pharmacy weights and measures; conversions between
English, metric, and avoirdupois systems. Basic concepts in biostatistics:
means, medians, modes. Offered Fall.

PHA 4105 Pathophysiology I Cr. 3
Advanced pathophysiologic concepts affecting the adult human
using a research-based, system-focused approach, including etiology,
pathogenesis and clinical manifestations of commonly found/seen
altered health states. Offered Fall.

PHA 4125 Drug Literature Evaluation and Foundations of Research Cr. 3
Critical evaluation of the medical literature and provision of foundational
research skills. Offered Fall.

PHA 4205 Pathophysiology II Cr. 2
Advanced pathophysiologic concepts affecting the adult human
using a research-based, system-focused approach, including etiology,
pathogenesis and clinical manifestations of commonly found/seen
altered health states. Offered Winter.
Prerequisite: PHA 4105,

PHA 4210 Principles of Pharmacotherapy III Cr. 4-5
Pharmacotherapeutic principles in infectious diseases and respiratory
diseases. Offered Winter.
Prerequisites: PHA 4215 with a minimum grade of C
Corequisite: PHA 4215

PHA 4225 Principles of Pharmacotherapy I: Respiratory,
Gastroenterology, Allergy, Ophthalmology Cr. 4
Principles of medicinal chemistry, pharmacology, and therapeutics as
applied to the treatment of gastroenterologic, pulmonary, ophthalmologic,
and allergic disorders, and basic self-care. Offered Winter.
Prerequisite: PHA 4105,

PHA 4235 Pharmacotherapeutic Problem Solving I: Respiratory,
Gastroenterology, Allergy, Ophthalmology Cr. 2
Problem-based learning focusing on pathophysiologic, pharmacology, medicinal chemistry and pharmacotherapeutics of respiratory,gastroenterologic, allergic, and ophthalmologic disorders, and basic self-care. Offered Winter.

PHA 4260 Principles of Pharmacotherapy IV Cr. 4-5
Pharmacotherapeutic principles of cardiovascular diseases. Offered Fall.
Prerequisites: PHA 4010 with a minimum grade of C, PHA 4110 with
a minimum grade of C, and PSC 4320 with a minimum grade of C
Corequisite: PHA 4215

PHA 4395 Research Scholars: Research Development Cr. 2
Development of basic foundations of research practices for students
pursuing the Research Scholars path. Offered Spring/Summer.

PHA 5110 Pharmacogenomics Cr. 2
Principles and applications of human genetics and genomics in drug
therapy optimization, patient care, and counseling. Offered Spring/Summer.

PHA 5115 Principles of Pharmacotherapy II: Cardiology, Nephrology Cr. 5
Principles of medicinal chemistry, pharmacology, and therapeutics as
applied to the treatment of cardiovascular and renal disease. Offered Fall.

PHA 5125 Principles of Pharmacotherapy III: Endocrinology, Gynecology,
Urology Cr. 4
Principles of medicinal chemistry, pharmacology, and therapeutics as applied to the treatment of endocrinologic, gynecologic, and urologic disorders. Offered Fall.
Equivalent: PHA 5165

PHA 5135 Pharmacotherapeutic Problem Solving II: Nephrology,
Cardiology, Endocrinology, Gynecology, Urology Cr. 2
Problem-based learning focusing on pathophysiology, pharmacology, medicinal chemistry and pharmacotherapeutics of nephrologic,
cardiologic, endocrinologic, and gynecologic conditions.

PHA 5155 Principles of Pharmacotherapy V Cr. 4-5
Pharmacotherapeutic principles in neurology, psychiatry, and drug abuse.
Offered Fall.
Corequisite: PHA 5175

PHA 5165 Principles of Pharmacotherapy VI Cr. 4-5
Pharmacotherapeutic principles of endocrine, renal, and gastrointestinal
diseases. Offered Fall.
Corequisite: PHA 5175

PHA 5175 Pharmacotherapeutic Problem Solving III Cr. 2
Third in a four-semester sequence focusing on the learning of pathophysiology, pharmacology, medicinal chemistry and pharmacotherapeutics within the context of patient-based problems. Offered Fall.
Corequisite: PHA 5155, PHA 5165

PHA 5195 Research Scholars: Research Conduct Elective Cr. 1-4
Conducting research project for students pursuing the Research Scholars
path. Offered Every Term.
Prerequisites: PHA 4395
Repeatable for 4 Credits

PHA 5215 Principles of Pharmacotherapy IV: Infectious Diseases Cr. 4
The chemistry, pharmacology, and toxicology of anti-infective agents
and the pathophysiology, microbiology, and therapeutics of infectious
diseases. Offered Winter.
Equivalent: PHA 4210

PHA 5225 Principles of Pharmacotherapy V: Neurology, Psychiatry Cr. 4
Medicinal chemistry, pharmacology and therapeutics of neurologic and psychiatric disorders. Offered Winter.
Equivalent: PHA 5155

PHA 5235 Pharmacotherapeutic Problem Solving III: Infectious Diseases,
Neurology, Psychiatry Cr. 2
Problem-based learning focusing on pathophysiologic, pharmacology, medicinal chemistry and pharmacotherapeutics of infectious, neurologic, and psychiatric diseases. Offered Winter.
Equivalent: PHA 5175

PHA 5270 Principles of Pharmacotherapy VII Cr. 4-5
Pharmacotherapeutic principles in oncology, toxicology, dermatology,
and drug-induced diseases. Offered Winter.
Corequisite: PHA 5275

PHA 5275 Pharmacotherapeutic Problem Solving IV Cr. 2
Fourth in a four-semester sequence focusing on the learning of pathophysiology, pharmacology, medicinal chemistry and pharmacotherapeutics within the context of patient-based problems. Offered Winter.
Corequisite: PHA 5270, PHA 5280
PHA 5280 Principles of Pharmacotherapy VIII Cr. 2-3
Pharmacotherapeutic principles of special populations, men’s and women’s health, patient problem solving. Offered Winter.
Corequisite: PHA 5275

PHA 6125 Principles of Pharmacotherapy VI: Oncology, Advanced Immunology Cr. 3
Principles of medicinal chemistry, pharmacology, and therapeutics as applied to the treatment of oncologic and immunologic disorders Offered Fall.
Equivalent: PHA 5270

PHA 6135 Pharmacotherapeutic Problem Solving IV: Oncology and Advanced Pharmacotherapeutics Cr. 3
Problem-based learning focusing on pathophysiology, pharmacology, medicinal chemistry and pharmacotherapeutics of neoplastic disorders and advanced pharmacotherapeutics. Offered Fall.
Equivalent: PHA 5275

PHA 6235 Pharmacotherapeutic Problem Solving V: Drug Induced Diseases Cr. 2
Problem-based learning focusing on pathophysiology, pharmacology, medicinal chemistry, and pharmacotherapeutics of drug-induced diseases. Offered Winter.

PHA 9995 Candidate Maintenance Status: Doctoral Dissertation Research and Direction Cr. 0
Offered Every Term.
Repeatable for 998.99 Credits
