

CONSTRUCTION MANAGEMENT (M.S.)

The master's degree in construction management is designed to meet the needs of adults who wish to expand or upgrade their knowledge within the areas of their previous training or current profession related to construction management. It provides management and technical aspects of the construction industry. It is offered in both the traditional and online format.

Admission to this program is contingent upon admission to the Graduate School (<http://bulletins.wayne.edu/graduate/general-information/admission/>) and the College of Engineering (<http://bulletins.wayne.edu/graduate/college-engineering/academic-regulations/#mastersdegreestext>).

This Master of Science in Construction Management can be completed fully online or in the traditional, in-person format.

The degree will be offered under the following option:

Plan C (Coursework): Thirty credits of coursework in an approved Plan of Work, including 15 credits of required courses and 15 credits of elective courses. Students in the traditional, in-person program may apply a maximum of 6 credits of Graduate Industrial Internship toward elective course requirements.

All course work must be completed in accordance with the regulations of the Graduate School (<http://bulletins.wayne.edu/graduate/general-information/academic-regulations/>) and the College of Engineering (<http://bulletins.wayne.edu/graduate/college-engineering/academic-regulations/>).
