Anthropology is a comparative social science that seeks to uncover principles that govern human behavior. Anthropology is divided into the fields of cultural, physical, archaeological, and linguistic anthropology. Wayne State's department offers a broad-based Master of Arts degree in anthropology. Additionally, the Ph.D. with a major in anthropology is offered in the major subfields of the discipline as well as specialties in urban, medical, business/organizational, and applied anthropology. Today, anthropologists are employed in a wide range of areas. Some work in traditional institutions such as colleges, universities, and museums, but the general and specialized skills of anthropology also prepare them for employment in numerous other public and private settings. These include not only health, governmental, international, and social agencies, business and organizational settings, and institutions supporting historic preservation and public archaeology. Accordingly, graduate programs in this department are designed to accommodate a variety of specific student interests and objectives.

Individuals who hold degrees in fields other than anthropology and desire admission to graduate degree programs will be individually reviewed. Admission will be granted at the discretion of the Graduate Committee after review of the applicant's background, training, and academic standing; supplementary work may also be individually prescribed.

Academic Scholarship: All course work completed to satisfy the following degree requirements must be done in accordance with the regulations of the Graduate School (http://bulletins.wayne.edu/graduate/general-information/academic-regulations) and the College of Liberal Arts and Sciences (http://bulletins.wayne.edu/graduate/college-liberal-arts-sciences/academic-regulations). All students are required to maintain a 'B' average. A grade of 'B-minus' or below in two courses will be sufficient reason to dismiss a student from a graduate program. For the purposes of evaluating this condition, a grade of 'WF' is considered to be a failing grade.

To repeat a course, a student will need to submit a "Petition to Repeat a Graduate Course" form to the Graduate Committee for consideration. Students may not repeat a class without prior approval.

The Department only allows two course repeats for a class where a student receives an insufficient grade.
