PHYSICAL MEDICINE AND REHABILITATION- OAKWOOD

Oakwood Office: 18181 Oakwood Blvd. Suite 411: Dearborn, MI 48124; Tel.: 313-438-7373 Fax: 313-438-7375
Chairperson: Jay M. Meythaler, J.D., M.D.

Rehabilitation Sciences Administration (Graduate Certificate)

An admissions moratorium is currently in effect for this program.

The Department of Physical Medicine and Rehabilitation Oakwood encourages students to acquire knowledge of the patient as a person, not merely of his/her disease. The student is taught to assess the neuromuscular and musculoskeletal systems and to manage the disorders of these systems. In addition, a concept of rehabilitation is presented which considers not only the disease or injury that leads to chronic disability, but emphasizes the coordination of effective therapies and forces which will ameliorate the social, psychological and vocational problems created by the impairment. Teaching is conducted through lectures, demonstrations, staff conferences and seminars, with the major emphasis upon office practice instruction. Clinical instruction is provided at the Beaumont Oakwood Hospitals, primarily in Dearborn and Taylor, the principal teaching facilities of the Department for the PM&R Oakwood.

CASEY, KENNETH: M.D., New Jersey Medical School; B.S., Georgetown University; Clinical Associate Professor

DESHPANDE, AASHISH: M.D., Wayne State University; B.S., University of Michigan; Clinical Assistant Professor
