TABLE OF CONTENTS

Undergraduate Bulletin: 2024-2025	9	Management	88
Academic Calendar 2024-2025	10	Management (B.A.)	88
Administration of the University	12	Management (B.S.)	89
General Information	13	Marketing	90
Accreditation	15	Marketing (B.A.)	90
University Policies	18	Marketing (B.S.)	90
Bachelor's Degree Requirements	21	Technology, Information Systems and Analytics	92
General Education Program	22	Technology, Information Systems and Analytics (B.A.)	92
Competency Requirements	23	Technology, Information Systems and Analytics (B.S.)	92
Group Requirements (Inquiry Courses)	24	College of Education	93
Wayne Experience	29	Academic Regulations: College of Education	94
Honors Curricula	30	Academic Services: College of Education	96
Admission: Undergraduate	32	Administrative and Organizational Studies	97
Admission: Graduate School	34	Learning Design and Technology (B.S.)	97
Academic Regulations	38	Educational Leadership AGRADE	97
Tuition and Fees	44	Kinesiology, Health and Sport Studies	98
Financial Aid	50	Community Health (B.S.)	98
Records and Registration	53	Exercise and Sport Science (B.S.)	100
Student Academic Success Services	56	Health and Physical Education Teaching (B.S.)	102
Campus Life	60	Sport Management (B.S.)	104
Office of International Programs	63	Athletic Training AGRADE Program	106
Educational Outreach	67	Community Health Minor	106
Computing and Information Technology Division (C&IT)	69	Sport Coaching Minor	107
University Libraries and Archives	70	Exercise and Sport Science Minor	107
Centers and Institutes (Undergraduate Programs)	72	Sport and Exercise Psychology Minor	107
Mike Ilitch School of Business	75	Sport Management Minor	108
Academic Regulations: Mike Ilitch School of Business	76	Yoga and Mindfulness Minor	108
Business Administration (B.A. and B.S.)	80	Teacher Education	109
Business Administration Minor	82	Early and Elementary Education (B.S.)	110
Law Minor	82	Secondary Education (B.S.)	114
Entrepreneurship and Innovation (Undergraduate Certificate)	83	Special Education (B.S.)	117
Accounting	84	Deaf Studies Minor	121
Accounting (B.A.)	84	Urban Education and Equity Studies Minor	121
Accounting (B.S.)	84	Visual Arts Education (Teacher Certification)	121
Accounting (Post-Bachelor Certificate)	84	Theoretical and Behavioral Foundations	122
Finance	85	College of Engineering	123
Finance (B.A.)	85	Academic Regulations: Engineering Division	126
Finance (B.S.)	86	Bachelor of Science: Engineering Division	128
Global Supply Chain Management	87	General Engineering (B.S.)	134
Global Supply Chain Management (B.A.)	87	Biomedical Engineering	135
Global Supply Chain Management (B.S.)	88	Biomedical Engineering (B.S.)	135
		Chemical Engineering and Materials Science	137
		Chemical Engineering (B.S.)	137
		Nanoengineering (Undergraduate Certificate)	139

Civil and Environmental Engineering	140	Digital Art and Photography Minor	181
Civil Engineering (B.S.)	140	Fashion Design Minor	181
Computer Science	142	Graphic Design Minor	182
Computer Science (B.S.)	142	Illustration Minor	182
Computer Science Minor	144	Industrial Design Minor	182
Information Technology (B.S.)	145	Interior Design Minor	182
Electrical and Computer Engineering	147	Jewelry Minor	183
Electrical and Computer Engineering (B.S.)	147	Painting and Drawing Minor	183
Electrical and Computer Engineering Minor	148	Printmaking Minor	183
Industrial and Systems Engineering	149	Sculpture Minor	184
Industrial Engineering (B.S.)	149	Textile Design Minor	184
Industrial Engineering Minor	150	Communication	185
Mechanical Engineering	151	Bachelor of Arts Program Requirements	185
Mechanical Engineering (B.S.)	151	Communication Studies (B.A.)	186
Mechanical Engineering Minor	153	Film (B.A.)	187
Engineering Technology Division	154	Journalism (B.A.)	188
Advanced Energy Storage Systems (Undergraduate Certificate)	157	Media Arts and Studies (B.A.)	189
Computer Technology (B.S.)	157	Public Relations (B.A.)	190
Construction Management (B.S.)	159	Communication Studies Minor	191
Electrical/Electronic Engineering Technology (B.S.)	160	Film Minor	191
Electromechanical Engineering Technology (B.S.)	161	Health Communication Minor	191
Manufacturing Engineering Technology (B.S.M.A.E.T.) ...	163	Journalism Minor	191
Mechanical Engineering Technology (B.S.)	163	Media Arts and Studies Minor	192
Welding and Metallurgical Engineering Technology (B.S.)	164	New Media Minor	192
College of Fine, Performing and Communication Arts	166	Public Relations Minor	192
Academic Regulations: Fine, Performing and Communication Arts	167	Music	193
Bachelor's Degree Requirements: Fine, Performing and Communication Arts	169	Bachelor Degree Requirements	193

UNDERGRADUATE BULLETIN: 2024-2025

University Mission

Wayne State's mission is to create and advance knowledge, prepare a diverse student body to thrive, and positively impact local and global communities.

Our vision

Wayne State will be a pre-eminent, public, urban research university known for academic and research excellence, success across a diverse student body, and meaningful engagement in its urban community.

Our values

While our vision and mission show where we want to go, our values guide us on the way. They cut across organizational boundaries, bind us culturally, and permeate our strategic and tactical initiatives. They are the defining traits of the Wayne State community.

Collaboration: When we work together, drawing upon various talents and perspectives, we achieve better results.

Integrity: We keep our word, live up to our commitments and are accountable to ourselves and each other.

Innovation: We are unafraid to try new things and learn by both failure and success.

Excellence: We strive for the highest quality outcomes in everything we do.

Diversity and Inclusion: We value all people and understand that their unique experiences, talents and perspectives make us a stronger organization and better people.

Wayne State intends to remain one of the nation's most respected public research universities, and feels that these goals provide a way to make that happen. National recognition is not an end in itself; what matters most is how Wayne State's progress as shaped by these goals will position the university to benefit its students and, ultimately, its city, state, nation and the world.

Accreditation

Since 1915, Wayne State University has been accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools, one of six regional accrediting agencies in the United States that provides accreditation to colleges and universities at the institutional level.

Academic Calendar 2024-2025

The following academic calendar includes deadlines for the academic year as determined by full-term classes meeting from the first day through final exams.

Parts of term/adjusted deadlines: Some classes may meet for shorter parts of term and their deadlines are adjusted accordingly. Deadlines for these class sections are available in the class details panel (<https://wayne.edu/registrar/classdetails/>) of the schedule of classes.

Religious holidays: Because of the extraordinary variety of religious affiliations of the University student body and staff, the Academic Calendar makes no provisions for religious holidays. However, it is University policy to respect the faith and religious obligations of the individual. Students with classes or examinations that conflict with their religious observances are expected to notify their instructors well in advance so that mutually agreeable alternatives may be worked out.

Fall Term: 2024

University Year Appointments Begin ¹	August 16, 2024
Priority Registration	March 25 - August 18, 2024
Open Registration	August 19-25, 2024
Semester Begins	August 26, 2024
Classes Begin	August 26, 2024
Holiday - University Closed	September 2, 2024
Late Registration and 1st Week Late Add	August 26 - September 2, 2024
Late Registration and 2nd Week late Add Override required	September 3-9, 2024
Last Day for Tuition Cancellation - Full Term Courses/ Census Date	September 9, 2024
Early Assessment/Mid-Term Grading	September 16 - October 16, 2024
Degree Applications Due	September 27, 2024
Holiday - No Classes	October 14-15, 2024
Last Day to Withdraw	November 4, 2024
Federal Election Holiday - University Closed	November 5, 2024
Holiday - No Classes	November 27, 2024
Holiday - University Closed	November 28-30, 2024
Classes End	December 10, 2024

Study Day - Final Exams May Not Be Scheduled	December 11, 2024
Final Exams	December 12-18, 2024
Commencement	December 14, 2024
Semester Ends	December 31, 2024
Holiday - University Closed	December 25, 2024 - January 1, 2025

Winter Term: 2025

Priority Registration	October 28 - December 29, 2024
Open Registration	December 30, 2024 - January 5, 2025
Semester Begins	January 1, 2025
Classes Begin	January 6, 2025
Holiday - University Closed	January 20, 2025
Late Registration and 1st Week Late Add	January 6-12, 2025
Late Registration and 2nd Week late Add Override required	January 13-17, 2025
Last Day for Tuition Cancellation - Full Term Courses/ Census Date	January 17, 2025
Early Assessment/Mid-Term Grading	January 27 - February 26, 2025
Degree Applications Due	February 7, 2025
Last Day to Withdraw	March 24, 2025
Spring Break - No Classes	March 10-16, 2025
Classes End	April 21, 2025
Study Day - Final Exams May Not Be Scheduled	April 22, 2025
Final Exams	April 23-29, 2025
Semester Ends	April 29, 2025
Commencement	April 30 - May 2, 2025
University Year Appointments End ¹	May 14, 2025

Spring/Summer Term: 2025

Priority Registration	February 3 - May 1, 2025
Classes Begin	May 2, 2025
Late Registration	May 2-15, 2025
Last Day to Drop w/ Tuition Canceled	May 15, 2025

Holiday	May 26, 2025
University Closed	
Day Scheduled as	May 23, 2025
a Monday ²	
Degree	May 30, 2025
Applications Due	
Holiday - No	June 19, 2025
Classes	
Day Scheduled as	June 20, 2025
a Thursday ²	
Census Date	July 1, 2025
Holiday	July 4, 2025
University Closed	
Last Day to	July 10, 2025
Withdraw	
Classes End	July 25, 2025
Study Day - Final	July 26, 2025
Exams May Not	
Be Scheduled	
Final Exams	July 28-31, 2025

Census Date	July 1, 2025
Holiday	July 4, 2025
University Closed	
Last Day to	July 29, 2025
Withdraw	
Classes End	August 12, 2025
Study Day - Final	August 13, 2025
Exams May Not	
Be Scheduled	
Final Exams	August 14-15, 2025

¹ University Year Appointments are a full nine months in length. Individual service assignments are the responsibility of the appropriate Dean, or, by delegation, the Department Chairperson
² An equal number of class days is needed for courses.

Spring Term: 2025

Priority	February 3 - May 1, 2025
Registration	
Classes Begin	May 2, 2025
Late Registration	May 2-8, 2025
Last Day to	May 8, 2025
Drop w/ Tuition	
Canceled	
Holiday	May 26, 2025
University Closed	
Day Scheduled as	May 23, 2025
a Monday ²	
Degree	May 30, 2025
Applications Due	
Holiday - No	June 19, 2025
Classes	
Day Scheduled as	June 19, 2025
a Thursday ²	
Last Day to	June 5, 2025
Withdraw	
Classes End	June 20, 2025
Study Day - Final	June 21, 2025
Exams May Not	
Be Scheduled	
Final Exams	June 23-24, 2025
Census Date	July 1, 2025

Summer Term: 2025

Priority	February 3 - May 1, 2025
Registration	
Degree	May 30, 2025
Applications Due	
Classes Begin	June 25, 2025
Late Registration	June 25 - July 1, 2025

Administration of the University

The general governance of Wayne State University is constitutionally vested in the Board of Governors, consisting of eight popularly elected members and the President of the University, who is named by the elected members. The president is the chief executive officer of the university and is charged by the Board of Governors with responsibility for its administration. For educational and administrative purposes, the university is organized into major academic units – schools, colleges, divisions, centers and institutes. The following schools, colleges and divisions constitute the heart of the University:

- Mike Ilitch School of Business
- College of Education
- College of Engineering
- College of Fine, Performing and Communication Arts
- Irvin D. Reid Honors College
- Graduate School
- Law School
- College of Liberal Arts and Sciences
- School of Information Sciences
- School of Medicine
- College of Nursing
- Eugene Applebaum College of Pharmacy and Health Sciences
- School of Social Work

The dean of the college or school is its chief executive officer. More than half the colleges and schools are organized into departments or divisions, each administered by a chairperson (or assistant dean). Academic standards, curricular development, course revision and similar academic matters are the primary responsibility of the faculty and dean of the college or school, although these matters are subject to review and approval by the Provost and Senior Vice President for Academic Affairs and by the President of the University. Major educational policy decisions are also subject to review by the Academic Senate.

The Graduate School is the central unit for the supervision and encouragement of graduate work in the university and has basic responsibility for the improvement and review of existing programs and the approval of new graduate programs. Except for applicants and candidates for the Doctor of Philosophy degree, the detailed supervision of graduate students' work is conducted by the college and school and, where appropriate, by the departments.

All degrees are granted by the university through the colleges and schools, except that the Dean of the Graduate School, with the approval of the Graduate Council, recommends candidates for the Doctor of Philosophy degree.

Board of Governors

- BRYAN C. BARNHILL, II
- MICHAEL BUSUITO
- MARK GAFFNEY
- MARILYN KELLY, Chair
- ANIL KUMAR
- TERRI LYNN LAND
- SHIRLEY STANCATO
- DANA THOMPSON

KIMBERLY ANDREWS ESPY, *ex officio*

University Leadership

KIMBERLY ANDREWS ESPY, Ph.D., President of the University

LAURIE LAUZON CLABO, Ph.D., Provost and Senior Vice President for Academic Affairs

Academics and Research

- ALI ABOLMAALI, Ph.D., Dean of the College of Engineering
- BORIS BALTES, Ph.D., Associate Provost Faculty Affairs and Associate Vice President of Academic Personnel
- DENISE TALIAFERRO BASZILE, Ph.D., Dean of the College of Education
- RICHARD BIERSCHBACH, J.D., Dean of the Law School
- PAUL BRACKE, Ph.D., Dean of the University Libraries and the School of Information Sciences
- AMANDA BRYANT-FRIEDRICH, Ph.D., Dean of the Graduate School
- JOHN CORVINO, Ph.D., Dean of the Irvin D. Reid Honors College
- HASAN ELAHI, M.F.A., Dean of the College of Fine, Performing and Communication Arts
- R. DARIN ELLIS, Ph.D., Associate Provost for Academic Programs and Associate Vice President for Institutional Effectiveness
- AHMAD EZZEDDINE, Ph.D., Vice President for Academic Student Affairs and Global Engagement
- STEPHANIE HARTWELL, Ph.D., Dean of the College of Liberal Arts and Sciences
- VIRGINIA KLEIST, Ph.D., Dean of the Mike Ilitch School of Business
- SHERYL KUBIAK, Ph.D., Dean of the School of Social Work
- EZEMENARI OBASI, Ph.D., Vice President for Research
- DONYALE R. PADGETT, Ph.D., Interim Associate Provost for Diversity and Inclusion and Chief Diversity Officer
- ROB THOMPSON, Chief Information Officer and Associate Vice President for Computing and Information Technology

Health

- RAMONA BENKERT, Ph.D., Acting Dean of the College of Nursing
- BRIAN CUMMINGS, Ph.D., Dean of the Eugene Applebaum College of Pharmacy and Health Sciences
- WAEL SAKR, M.D., Dean of the School of Medicine
- MARK SCHWEITZER, M.D., Vice President of Health Affairs

Business Operations

- ROBERT DAVENPORT, Associate Vice President for Facilities Planning and Management
- BETHANY GIELCZYK, M.P.P., Interim Senior Vice President for Business Affairs; Senior Associate Vice President for Finance and Business; Chief Financial Officer
- CAROLYN P. HAFNER, B.B.A., Associate Vice President & Chief Human Resources Officer

Engagement and Advocacy

- PATRICK O. LINDSEY, M.A., Vice President for Government and Community Affairs
- DAVID RIPPLE, M.A., Vice President for Development and Alumni Affairs
- MELISSA SMILEY, Ph.D., Chief of Staff and University Relations Officer
- EDWARD (NED) STAEBLER, M.S., Vice President for Economic Development
- ERIKA WALLACE, M.P.A., Director of Athletics

University Governance

- JULIE MILLER, M.A., Vice President and Secretary to the Board of Governors
- MIKE POTERALA, J.D., Vice President and General Counsel

General Information

History of the University

Wayne State University's story begins in 1868 with the founding of the Detroit Medical College, now the School of Medicine. In 1881, the Detroit Normal Training School was established, which is now the College of Education. The now-iconic Old Main Hall was built in 1896 as Central High School, which began adding college classes in 1913. Those classes evolved into the Detroit Junior College (offering a two-year general education program) in 1917, which became the College of the City of Detroit (with four-year degree programs) in 1923, and now is the College of Liberal Arts and Sciences.

In 1924, the College of Pharmacy was organized, and six years later the first regular graduate courses were offered in liberal arts and education. Frank Cody became the first president in 1933, with the existing colleges united into a university organization, eventually named Wayne University, taken from Wayne County in honor of General Anthony Wayne.

Wayne University continued to grow, adding the School of Social Work, the Law School, and the School of Business Administration. In 1956, it was renamed Wayne State University. In 1963, Wayne State was designated one of Michigan's three constitutionally established universities. Wayne State has since grown to become one of the 50 largest public universities in the United States, offering nearly 350 degree and certificate programs through 13 schools and colleges.

Timeline

1868 — The Detroit Medical College, forerunner of the School of Medicine, was established.

1881 — The Detroit Normal Training School, forerunner of the College of Education, was established.

1917 — The Detroit Junior College, offering a two-year program in general education, was established in 'Old Main' and later developed into the College of Liberal Arts.

1923 — The Detroit Normal Training School became a four-year degree-granting institution under the name of the Detroit Teachers College. The first degrees were granted in 1924. The Detroit Junior College became the College of the City of Detroit with four-year degree programs. The first degrees were conferred in 1925.

1924 — The College of Pharmacy was organized.

1930 — The first regular graduate courses were offered in Liberal Arts and Education. The first Master's degrees were conferred in 1932.

1933 — The College of Engineering and the Graduate School were established.

1933 — The Colleges of Liberal Arts, Education, Engineering, Medicine and Pharmacy and the Graduate School were united by action of the Detroit Board of Education into a university organization, temporarily called the Colleges of the City of Detroit.

1934 — The name Wayne University was adopted, taken from Wayne County and, ultimately, from General Anthony Wayne.

1935 — The School of Public Affairs and Social Work was organized. In 1950 it became the present School of Social Work.

1937 — The Law School, established in 1927 as Detroit City Law School, came into the University.

1945 — The first doctoral programs were authorized in the fields of Chemistry, Physiological Chemistry and Education.

1945 — The College of Nursing, which began as a program in the College of the City of Detroit, became a separate college.

1946 — The School of Business Administration, originating in the College of Liberal Arts, became the tenth academic unit in the University.

1956 — Wayne University became Wayne State University by Act 183 of Michigan Public Acts of 1956.

1959 — Monteith College was established.

1959 — Wayne State University became a constitutionally established University by popularly adopted amendment to the Michigan Constitution.

1964 — The Division of Urban Extension was established.

1973 — The College of Lifelong Learning was established as successor to the Division of Urban Extension.

1973 — The College of Pharmacy and Allied Health Professions was established.

1974 — The College of Pharmacy and Allied Health Professions was formed from merger of the College of Pharmacy and the Division of Allied Health Professions, School of Medicine.

1985 — The School of Fine and Performing Arts and the College of Urban, Labor and Metropolitan Affairs were established.

1989 — The name of the School of Fine and Performing Arts was changed to the College of Fine, Performing and Communication Arts.

1993 — The College of Science was established.

2001 — The name of the College of Pharmacy and Allied Health Professions was changed to the Eugene Applebaum College of Pharmacy and Health Sciences.

2002 — The College of Lifelong Learning was discontinued and its programs transferred to other units.

2004 — The College of Liberal Arts and the College of Science were merged into the College of Liberal Arts and Sciences.

2005 — The College of Urban, Labor and Metropolitan Affairs was discontinued and its programs transferred to other units.

2008 — The Irvin D. Reid Honors College was established.

2009 — The Library and Information Science Program was established as the School of Library and Information Science.

2011 — The Warrior football team made its first appearance in the NCAA Division II championship game.

2014 — The Advanced Technology Education Center opens in Warren, Michigan.

2015 — The Integrative Biosciences Center, a \$90 million facility dedicated to eliminating health disparities in Detroit, opens.

2015 — The name of the School of Business Administration was changed to the Mike Ilitch School of Business.

2017 — The name of the School of Library and Information Science was changed to the School of Information Sciences.

2018 – The Mike Ilitch School of Business opens its new facility.

2019 – Wayne State opens the Anthony Wayne Drive Apartments.

Location of the University

More than 100 buildings provide housing for the services, instructional and research needs of the University and its students and staff. Most academic and service units of the University are located on the main campus in Midtown Detroit, largely bounded by York Street on the north, Woodward Avenue on the east, Forest Avenue on the south and Trumbull Street on the west. The major classroom, laboratory, library and other academic buildings are located east of the John C. Lodge Freeway; most of the athletics and recreational facilities are on the west side of the freeway.

The School of Medicine and its affiliated teaching hospitals and clinics are located a short distance south and east of the main campus in the Detroit Medical Center. The Eugene Applebaum College of Pharmacy and Health Sciences is also located on the medical campus. The Mike Ilitch School of Business is located south of main campus in the District Detroit area. Certain smaller instructional and service units are located in other parts of the metropolitan area.

Accreditation

Wayne State University as a whole is accredited as a doctoral degree-granting institution by the regional accrediting agency:

The Higher Learning Commission
 230 South LaSalle St., Suite 7-500
 Chicago, Illinois 60604-1411
 telephone: 800-621-7440

In addition, many specific programs and curricula are accredited individually by specialized or professional accrediting agencies. A report is produced annually for the Board of Governors which designates the accrediting agencies of the University's programs; the report is available from the Office of the Provost (<https://provost.wayne.edu/apr/accreditations/>). The principal accreditation agencies are as follows:

Accreditation Statuses (as of December 2023)				
S/C/D	Program(s)	Accreditor	Accreditation Status	Accredited Through
Institutional Accreditation

University Policies

University Equality of Opportunity Policy

Wayne State University is committed to a policy of non-discrimination and equal opportunity in all of its operations, employment opportunities, educational programs and related activities.

This policy embraces all persons regardless of race, gender, color, sex (including gender identity), national origin, religion, age, sexual orientation, marital status, familial status, disability, arrest record, weight, qualified Vietnam era veterans, qualified special disabled veterans, recently separated veterans and other protected veterans, or any other characteristic protected by applicable federal or state law. It expressly forbids discrimination, sexual harassment or any form of harassment in hiring, terms of employment, tenure, promotion, placement and discharge of employees, admission, training and treatment of students, extra-curricular activities, the use of University services, facilities and in the awarding of contracts.

This policy also forbids retaliation and/or any form of harassment against an individual as a result of filing a complaint of discrimination or harassment, or participating in an investigation of a complaint of discrimination or harassment.

Wayne State University, as an equal opportunity/affirmative action institution, complies with all applicable federal and state laws regarding non-discrimination and affirmative action. In furtherance of this policy, the University is also committed to promoting institutional diversity to achieve full equity in all areas of University life and service and in those private clubs and accommodations that are used by University personnel. No off-campus activities sponsored by or on behalf of Wayne State University shall be held in private club facilities or accommodations which operate from an established policy barring membership or participation on the basis of race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability or veteran status. Affirmative action procedures, measures and program may be used to the extent permitted by law to establish, monitor and implement affirmative action plans for all budgetary units and the University as a whole.

Inquiries regarding equal opportunity Academic/Administrative policies or complaints may be made to:

Office of Equal Opportunity
4324 Faculty/Administration Building
Wayne State University
Detroit, Michigan 48202
Telephone: 313-577-2280
or <http://www.oeo.wayne.edu>

Disability Non-Discrimination Policy

In accordance with federal requirements of the Americans with Disabilities Act of 1990 and the Rehabilitation Act of 1973, there shall be no discrimination on the basis of disability in Wayne State University's programs, operations and activities, in the hiring, terms and conditions or privileges of employment or any matter directly or indirectly related to such employment, or in the admission, education and treatment of students. The Student Disability Services Office (<http://studentdisability.wayne.edu/>) has complete information on services available to students.

Drug and Alcohol Free Workplace Policy

Wayne State University is committed to providing a drug-free environment for its faculty, staff, and students. The Board of Governors

has made this commitment a formal policy of the University. All faculty, staff and students must abide by the terms of the Board policy as a condition of employment or enrollment at the University. The unlawful possession, use, distribution, sale or manufacture of drugs or alcohol is prohibited on University premises, at University activities, and at University work sites.

Pursuant to that policy, the unlawful possession, use, distribution, dispensation, sale or manufacture of any illicit drugs, and the unlawful possession, use or distribution of alcohol on University property, or at any University work site, or as part of any University activity, is prohibited.

Any employee or student employee who is convicted of a criminal drug offense occurring at the workplace is subject to appropriate employee discipline in accordance with established University policies and collective bargaining agreements, and may be required to participate satisfactorily in a drug abuse or rehabilitation program as a condition of further employment or enrollment.

Any student or employee who, while on University premises or at any University activity, engages in the unlawful possession, sale, manufacture, distribution, or use of drugs or alcohol shall be subject to appropriate sanctions, in accordance with established University policies, the Student Code of Conduct, and collective bargaining agreements, and in conformity with local, state and federal law, up to and including expulsion or termination.

The University encourages employees who may have a problem with the use of illicit drugs or with the abuse of alcohol to seek professional advice and treatment. Individuals who seek assistance with such problems may obtain additional information on a confidential basis by telephoning the Employee Assistance Program (EAP) at 1-800-448-8326. Students may also seek referral assistance by contacting University Counseling and Psychological Services (CAPS), at 313-577-3398.

Policy Governing the Use of Alcoholic Beverages on Campus

The use or possession of alcoholic beverages is expressly prohibited in classrooms, lecture halls, laboratories, the libraries, the chapel and within buildings or arenas where athletic events, lectures, and concerts are held. The use of alcoholic beverages is expressly prohibited in all public areas of campus buildings except as follows: the use of alcoholic beverages, subject to State law, is permitted in areas designated by, and with the approval of, the Office of the President, and the use of alcoholic beverages at student social events, subject to State law, is permitted in areas designated by, and with the approval of, the Office of the President.

Sexual Discrimination, Harassment, and Assault Policy

Title IX of the Education Amendments of 1972 is a federal civil rights law that prohibits discrimination on the basis of sex in education programs and activities. Under Title IX, discrimination on the basis of sex includes sexual harassment.

Sexual discrimination is prohibited by Title IX and by University Policy. (WSU Statute 2.28.01).

Sexual harassment is a form of sex discrimination that is prohibited by Title IX and by the University's Interim Title IX Policy [cite]. It is the policy of Wayne State University that no member of the University community may sexually harass another. (WSU Statute 2.28.06).

Under the regulations that went into effect on August 14, 2020, and which are reflected in the Interim Title IX Policy, “sexual harassment” means conduct on the basis of sex that satisfies one or more of the following:

1. An employee of the University conditioning the provision of an aid, benefit, or service of the University on an individual's participation in unwelcome sexual conduct;
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the University's education program or activity; or
3. "Sexual assault" as defined in 20 U.S.C. 1092(f)(6)(A)(v), "dating violence" as defined in 34 U.S.C. 12291(a)(10), "domestic violence" as defined in 34 U.S.C. 12291(a)(8), or "stalking" as defined in 34 U.S.C. 12291(a)(30).
 - a. sexual assault - The term "sexual assault" means an offense classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.
 - b. dating violence – violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim; and where the existence of such a relationship shall be determined based on a consideration of the following factors:
 - i. The length of the relationship.
 - ii. The type of relationship.
 - iii. The frequency of interaction between the persons involved in the relationship.
 - c. domestic violence – includes felony or misdemeanor crimes of violence committed by:
 - i. a current or former spouse or intimate partner of the victim,
 - ii. by a person with whom the victim shares a child in common,
 - iii. by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner,
 - iv. by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies, or
 - v. by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of Michigan.
 - d. Stalking - means engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others; or suffer substantial emotional distress.

For the purpose of the Interim Title IX Policy, “consent” means knowing, voluntary and clear permission by word or action to engage in sexual activity. Since individuals may experience the same interaction in different ways, it is the responsibility of each party to determine that the other has consented before engaging in the activity. Consent cannot be given if force, coercion, or incapacitation as defined below are present:

1. **Force** is the use of physical strength or action (no matter how slight), violence, threats of violence or intimidation (implied threats of violence) as a means to engage in sexual activity. A person who is the object of actual or threatened force is not required to physically, verbally or otherwise resist the aggressor.
2. **Coercion** is unreasonable pressure for sexual activity. Coercive conduct differs from seductive conduct based on factors such as the type and/or extent of the pressure used to obtain consent. When someone makes it clear that they do not want to engage in certain sexual activity, that they want to stop, or that they do not want to go past a certain point of sexual interaction, continued pressure beyond that point can be coercive.

3. **Incapacitation**– A person is incapacitated when they are unable to understand what is happening or is disoriented, helpless, asleep, or unconscious, for any reason, including by alcohol or other drugs. Incapacitation is determined through consideration of all relevant indicators of an individual's state and is not synonymous with intoxication, impairment, blackout, and/or being drunk.

Reporting Sexual Misconduct

There are several options for reporting sexual misconduct:

Title IX coordinator

All reports of sexual misconduct, including sex discrimination, sexual harassment and retaliation, may be made to the university's Title IX coordinator:

Brandy Banks, Title IX coordinator
656 W. Kirby,
Suite 4249 Faculty/Administration Building
Detroit, MI 48202
Phone: 313-577-9999
Email: titleix@wayne.edu
Website: <https://titleix.wayne.edu/>

Deputy Title IX coordinators

These University officials are available to assist individuals with reporting sexual harassment, seeking supportive measures and filing a formal complaint.

Deputy Title IX coordinator for students: David J. Strauss, Ph.D.,
Dean of Students 301 Student Center Building 5221 Gullen Mall
Detroit, MI 48202 313-577-1010 davidstrauss@wayne.edu.

Deputy Title IX coordinator for employees: Shalandria Cooper,
OEO lead secretary Office of Equal Opportunity 656 W. Kirby, Suite
432442 Detroit, MI 48202 313-577-2280 oeo@wayne.edu.

Deputy Title IX coordinator for athletics: Theresa Arist, Senior
Woman Administrator/Associate Athletics Director 5101
John C. Lodge 101 Matthaei Detroit, MI 48202 313-577-4282
theresa.arist@wayne.edu.

Deputy Title IX coordinator for the School of Medicine: Dr. Beena
G. Sood, Associate Dean for Professional Development, School
of Medicine Scott Hall, Room 1310 540 E. Canfield St. Detroit, MI
313-577-9877 bsood@med.wayne.edu.

Deputy Title IX coordinator for residential life: Nikki Dunham,
Director of residential Life, 582 Student Center Building 5221 Gullen
Mall Detroit, MI 48202 313-577-2116 ndunham@wayne.edu.

WSU Police

Individuals are encouraged to report sexual misconduct that may also violate criminal law to the Wayne State police at 313-577-2222.

Violence in the Workplace Policy

Wayne State University is committed to providing a work and educational environment that is free from threats, assaults, or acts of violence. Threats of violence or of physical harm, and any form of physical or sexual assault or threats of physical assault are prohibited. This includes conduct that harasses, disrupts, or interferes with another person's work performance or creates an intimidating, offensive or hostile work or educational environment.

The University has also adopted a Campus Safety Ordinance (WSU Statute 2.87.03) which applies to all property owned, leased or otherwise controlled by Wayne State University and applies to all individuals when present on such property, regardless of whether the individual has a

concealed weapons permit or is otherwise authorized by law to possess, discharge or use any device referenced in therein. The ordinance states that no person shall, while on any property owned, leased, or otherwise controlled by WSU:

1. possess or carry on his or her person any firearm, explosive or chemical weapon;
2. carry on his or her person any sword, switchblade knife, or other knife with a blade longer than three inches; and
3. carry on his or her person any other object or device with the intent of intimidating or injuring another person.

Upon conviction of any violation of this ordinance, the violator shall be sentenced to a fine not to exceed \$500.00. In addition, violations of this policy may result in disciplinary action under existing University administrative policies. Limited exceptions to this policy exist for University employees expressly authorized to possess or use such weapons, devices or substances, law enforcement officials so authorized, and any individual whose possession or use is in connection with a research or regularly scheduled educational program authorized by the University, for which the Chief of the Wayne State University Police Department has been given at least one week's advance notice.

University personnel are expected to notify appropriate management personnel of any violent or threatening behavior, when that behavior is work-related, carried out on University property, or is connected to University employment. Any individual who has obtained a personal protection order that identifies the workplace as a protected area should provide that information to the Wayne State University Police Department.

Bachelor's Degree Requirements

Bachelor's Degree

To earn a bachelor's degree at Wayne State University, a student must satisfy the following *minimum* requirements, as well as any other requirements for specific degrees stipulated by the Schools/Colleges, Departments, and Programs of the University:

1. Complete a minimum of 120 credits with a cumulative grade point average of 2.00 or higher for all Wayne State University course work.
2. Complete the University General Education Requirements (p. 22).
3. Complete all School/College, Departmental and Program requirements.
4. Complete a minimum of thirty credits at Wayne State University.
5. Observe the following credit limitations:
 - a. Credit by special examination may not be counted as resident credit, but such credit, if earned during a semester in which the student is registered for a regular course(s), will not be considered an interruption of residence.
 - b. There shall be no limit to the number of credit hours earned through one or more of the following programs: credit earned by the College-Level Examination Program, Advanced Placement, International Baccalaureate, Credit by Special Examination, or other credit earned for a course in which the student has not been regularly enrolled in a University course.
 - c. Not more than sixteen credits by Special Examination may be earned in any one subject.

Concurrent Degrees

A student who wishes to simultaneously receive two different bachelor's degrees from Wayne State University must complete all University, School/College, Department, and Program requirements for each degree.

Second Bachelor's Degree

A student who holds a bachelor's degree from any accredited institution may receive a second bachelor's degree from Wayne State University by satisfying the following minimum requirements:

1. Complete at least thirty credits at Wayne State University beyond the first bachelor's degree.
2. Meet all School/College, Department, and Program requirements for the degree.

Statement on School/College Requirements

Schools/Colleges, Departments, and Programs may establish degree requirements above and beyond those stated here. For statements of any such specific degree requirements, students should consult the School/College and Departmental sections of this bulletin.

Bulletin-in-Effect Graduation Policy

All undergraduate students at Wayne State University may choose to graduate under the academic regulations and degree requirements as stated in the Bulletin in effect at the time of their graduation or any of the bulletins in the previous seven academic years, provided one of the Bulletins covers a period of the student's registration. All requirements of the chosen Bulletin must be met. However, if necessary, the university-wide Bulletin-in-Effect Committee, Colleges, and Schools can make appropriate adjustments in order to accommodate students as best they can to adapt their previous coursework to a new Bulletin.

Graduation

Degrees are NOT awarded automatically upon completion of scholastic requirements. To be considered as a candidate for a degree, students must file an Application for Degree form with Student Records by the degree application deadline published in each term's Academic Calendar, for the term in which the student expects to graduate.

Application for Degree or Certificate: Each candidate for a degree or certificate must file an Application for Degree (<https://wayne.edu/registrar/graduation/>), no later than the Friday of the fourth week of classes for the semester in which the student expects to complete the requirements for the degree or certificate. If an application for a degree was filed for a previous graduation term in which the student did not graduate, a new application is required.

Commencement: Information concerning commencement announcements, caps and gowns, invitations, tickets, time and place, assembling and other relevant items will be mailed to the graduates by the Commencement Office (<http://commencement.wayne.edu>) prior to the event. Candidates for advanced degrees are requested and expected to attend the commencement at which the University confers upon them the honor of the degree earned.

General Education Program

Wayne State has had a University-wide Program in General Education since 1987 for all undergraduate students pursuing bachelor's degrees regardless of their academic specialties. These requirements contribute to the goal of ensuring that all students have the basic skills fundamental to success in college while simultaneously achieving the intellectual breadth necessary to place specialized and professional curricula in proper perspective. By means of the General Education Program, undergraduate students improve their skills and are introduced to methods of inquiry, modes of thought, bodies of knowledge, and representative ideas drawn from a wide range of academic disciplines.

Effective Fall 2018, the university has adopted major revisions to the general education curriculum. While aspects of the new curriculum are shared with the old curriculum, existing topics were revised and new topics created to specifically align with university's mission and strategic plan. This includes commitments to global learning, diversity, equity and inclusion, and support for students' transition into the Wayne State University academic community. A maximum of 35 credits of Competencies, Group Requirements, and Wayne Experience Requirements shall comprise the General Education Program.

The General Education Requirements for students matriculating or graduating under the 2018-19 University Bulletin are organized into the categories below. Please contact your advisor if you have questions about General Education Requirements specific to your academic plan of work.

Competency Requirements

Learning Objectives: Competency Requirements ensure that students develop and demonstrate early in their academic careers fundamental skills in the following areas that underlie and make possible the acquisition of knowledge.

- Quantitative Experience (QE), satisfied through an appropriate course in mathematics, statistics, or quantitative reasoning.
- Oral Communication (OC)
- Written Communication (Basic Composition - BC, and Intermediate Composition - IC)

General Education Group Requirements

Learning Objectives: Group Requirements have a two-fold purpose:

1. to enable students to acquire knowledge and demonstrate understanding in a broad range of representative branches of knowledge; and
2. to enable students to develop and demonstrate the ability to apply methodological skills which encourage continued exploration on an independent level throughout their lives.

Group Requirements are organized in the following categories of inquiry:

- Cultural Inquiry (CI)
- Natural Scientific Inquiry (NSI)
- Social Inquiry (SI)
- Diversity, Equity and Inclusion Inquiry (DEI)
- Global Learning Inquiry (GL)
- Civic Literacy (CIV)

Wayne Experience Requirements

The Wayne Experience (WE), a one-credit course a required group of various one credit courses required of all first-year students, will play an instrumental role in socializing students into the university

community by providing activities that will increase their connections with fellow students, academic advising staff, and their instructors. The essential goals for this requirement are to enhance student engagement, success, and retention by implementing high-impact practices (HIPS) within a student's first year in college. Wayne Experience will also help students build key skills and habits that will allow them to successfully navigate the university and manage their busy lives. These range from time management to, study and test-taking skills to and engaging in community activities both on and off campus. Student motivation, engagement, learning, achievement, persistence and degree attainment all can be fostered by these transformative educational experiences.

Exemptions for Second Degree and Transfer Students (General Education Program)

Students who hold a bachelor's degree from an accredited institution and who seek a second bachelor's degree are exempt from the University-wide General Education Requirements, but must satisfy all School/College, department and program requirements.

Equivalent courses taken at another institution may satisfy General Education Requirements. In cases where this would exceed the limitation of sixty-four credits from a community college accepted on a transfer basis, such courses shall satisfy the requirements, but the credits will not count towards the degree. Transfer students who have satisfied all requirements of the Michigan Transfer Agreement (MTA) are exempted from University General Education Requirements, but must satisfy all School/College, department and program requirements.

Competency Requirements

Competency requirements include the following three components:

- **Written Communication (BC, IC)**
- **Oral Communication (OC)**
- **Quantitative Experience (QE)**

Success in college and the ability to function as an educated citizen require not only the ability to master areas of foundational knowledge, but also a series of fundamental skills that underlie and make possible the acquisition of knowledge. Since competencies or skills are preconditions for higher education, basic competencies should be demonstrated early in one's academic career. Multiple methods of demonstrating competency are available, including satisfactory completion of designated courses or earning appropriate scores on designated examinations.

Competency Requirements should be met early in a baccalaureate degree program. Students who fail to meet the specified deadline will be allowed two additional semesters (or equivalent) in which to satisfy the competency requirement. During this time, they must be actively involved in taking the appropriate course or otherwise preparing themselves to demonstrate competence. After the two-semester limit, students who have not satisfied the requirement may be barred from enrolling in courses other than those which satisfy the competency requirement until the requirement has been completed.

The following general principles apply to all competency requirements:

1. Students who satisfy any Competency Requirement by passing a prescribed Wayne State University placement, qualifying, screening, competency or proficiency examination shall be excused from equivalent course work but shall receive NO course credit.
2. Course credit granted for satisfactory completion of an Advanced Placement, CLEP, International Baccalaureate, or Departmental Examination will satisfy the appropriate Competency or Group Requirement; credit so earned will be applicable to a baccalaureate degree.
3. Courses used to satisfy Competency Requirements shall not generally be used to satisfy Group Requirements.
4. **All Competency Requirements must be completed with a grade of C or higher.**

Written Communication (BC, IC)

Writing ability is a cornerstone of academic studies and is often considered the touchstone of a university education. Skill and effectiveness in writing serve the individual throughout life — in career, in community, and in social and leisure activities. The ability to write well must be developed so that specialized audiences within professional fields as well as general audiences can be addressed effectively. While writing proficiency may be honed and refined in composition courses, writing is a skill that serves many purposes; one that requires constant renewal. The requirement in Written Communication is structured not only to provide training in how to write well, but also to insure that writing skills continue to be exercised and enhanced throughout the undergraduate years. The progression of the Written Communication requirements reflects the important notion of 'writing across the curriculum,' and Intermediate Composition courses are expected to build from the skills learned in Basic Composition.

Basic Composition (BC) Requirement

All students must demonstrate competence in basic English composition prior to completing thirty credits. Basic composition competence shall be determined by satisfactory completion of a designated course that

includes instruction in multiple genres of writing, or its course equivalent or earning credit for basic composition through a national standardized test.

BC has four program learning outcomes.

After successful completion of this requirement, students will be able to demonstrate their ability to:

1. Describe the arguments, purpose, context, and audience in college level texts.
2. Integrate credible, relevant sources in ethical ways.
3. Employ the conventions of a genre.
4. Explain their own writing choices and process.

Satisfactory completion requires a grade of C or better. Course(s) satisfying the basic composition requirement include:

Code	Title	Credits
ENG 1020	Introductory College Writing	3

Students can also demonstrate competence in basic composition by:

1. Earning credit for basic composition through Advanced Placement CLEP or International Baccalaureate; OR
2. Transferring credit received for successful completion of a comparable course completed with a grade of C or better at another college or university.

Intermediate Composition (IC) Requirement

All students must complete satisfactorily a designated intermediate, or more advanced, course in which the teaching of English composition and rhetoric is a major component prior to completing seventy-five credits.

IC has four program learning outcomes.

After successful completion of this requirement, students will be able to demonstrate their ability to:

1. Employ the practices of specific discourse community.
2. Use sources in ethical ways when writing texts.
3. Synthesize academic research that is relevant and appropriate for a specific discourse community.
4. Construct a research argument that adequately responds to scholarly questions in a specific discourse community.

Satisfactory completion requires a grade of C or better. Courses currently approved for intermediate composition are:

Code	Title	Credits
AFS/ENG 2390	Introduction to African-American Literature: Writing about Texts	3
ENG 3010	Intermediate Writing	3
ENG 3020	Writing and Community	3
ENG 3050	Technical Communication I: Reports	3

Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements.

Oral Communication (OC) Requirement

Educated persons should be comfortable in situations which require them to make oral presentations, be able to convince others of a point of view, or make appropriate remarks in an informal setting. Along with

an ability to write cogently, communicating orally is mentioned most frequently by employers and others who evaluate the preparedness of college students as a fundamental skill to be able to compete in contemporary society. Consequently, oral communication is a crucial skill needed for success in virtually every field of endeavor.

OC has five program learning outcomes.

After successful completion of this requirement, students will be able to demonstrate their ability to:

1. Adapt to the needs of a distinct speaking situation.
2. Integrate credible, relevant sources in ethical ways.
3. Incorporate relevant presentation aids or technology in an oral presentation.
4. Employ verbal techniques for effective delivery in an oral presentation.
5. Employ non-verbal techniques for effective delivery in an oral presentation.

Courses satisfying the basic composition requirement include:

Code	Title	Credits
COM 1010	Oral Communication: Basic Speech	3
ENG 3060	Technical Communication II: Presentations	3

Students can also demonstrate competence in oral communication by:

1. Passing the Oral Communication Competency Examination; OR
2. Transferring credit received for successful completion of a comparable course taken at another college or university.

Quantitative Experience (QE) Requirement

Individuals with competency in quantitative skills possess the ability to reason and solve problems from a wide range of authentic contexts and everyday life situations. They can interpret quantitative data and use that analysis to provide support for sophisticated arguments. They can clearly communicate those arguments in a variety of formats as appropriate. This requirement is aimed at developing those skills in all of our students.

QE has four program learning outcomes.

After successful completion of the QE requirement, students will be able to:

1. Convert real-world information into appropriate mathematical form.
2. Perform mathematical or symbolic computations relevant to a multistep problem.
3. Draw reasonable conclusions based on quantitative evidence.
4. Communicate arguments or interpretations supported by quantitative evidence.

**Please note, revised QE Learning Outcomes were approved on 3/24/2023. Previous versions are available in archived editions (<http://bulletins.wayne.edu/archive/>) of the bulletin.*

Competency in quantitative skills must be demonstrated by all students prior to completion of the first thirty credits taken at Wayne State University. Quantitative skills competency shall be demonstrated by: a) Satisfactory completion of any QE designated course with a grade of C or better if taken at Wayne State University; OR b) Placing into a mathematics course above the level of MAT 1000 or MAT 1070 on the Mathematics Placement Examination; OR c) Achieving appropriate scores on national standardized tests; OR d) Transferring credit received for successful completion of a course equivalent to or higher than MAT 1000 completed with a grade of C or better at another college or university.

Courses satisfying the quantitative experience requirement include:

Code	Title	Credits
AST 2030	Life in the Universe	3
BA 1200	Personal Finance Planning	3
BA 2300	Quantitative Methods I: Probability and Statistical Inference	3
COM 3150	Science Communication	3
FPC 1010	Math for the Arts	3
MAE 1000	Detroit by the Numbers	3
MAT 1000	Mathematics in Today's World	3
MAT 1070	College Algebra	5
MAT 1110	Mathematics for Elementary School Teachers I	3
MAT 1120	Mathematics for Elementary School Teachers II	3
MAT 1800	Elementary Functions	4
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
PHI 1070	Games, Risk, and Logic	3
PHY 1020	Conceptual Physics: The Basic Science	3
PS 1050	Understanding Political Science Statistics	4
SOC 2211	Numbers in Society	3
STA 1020	Elementary Statistics	3
STA 2210	Probability and Statistics	4
THR 2651	Introduction to Life Skills for the Creative Entrepreneur	3

Group Requirements (Inquiry Courses)

Inquiry groups include:

- Civic Literacy Inquiry (CIV) (p. 25)
- Cultural Inquiry (CI) (p. 25)
- Diversity, Equity, and Inclusion Inquiry (DEI) (p. 26)
- Global Learning Inquiry (GL) (p. 27)
- Natural Scientific Inquiry (NSI) (p. 28)
- Social Inquiry (SI) (p. 29)

Inquiry courses are designed to help introduce students to the different perspectives, methodologies, and questions that shape the production of knowledge. As suggested by the title, in these courses students will learn how scholars think in different disciplines, and they will also begin to engage in inquiry themselves, using diverse disciplinary methodologies to ask questions, analyze data, and make their own evidence-based arguments.

Through courses that fulfill Inquiry requirements, students will:

1. Gain exposure to different disciplinary ways of understanding the world.
2. Develop basic competencies in these disciplinary methodologies.
3. Apply disciplinary methodologies to analyze relevant data or examples.

There are three primary categories of Inquiry. They include Social Inquiry, Cultural Inquiry, and Natural Scientific Inquiry. In addition to these categories, there are three additional cross-inquiry categories: Civic Literacy, Global Learning, and Diversity, Equity, and Inclusion. *Cross-Inquiry* courses are specially-designated courses that provide focus on themes that may cut across the primary Inquiry categories, therefore all cross-inquiry courses could be conceivably be found in a primary inquiry

category. For example, one could imagine a course focused on Global Learning outcomes from the perspective of the social sciences and/or the arts and humanities.

Each student must complete a minimum of seven courses of at least 3 credits each from the following Inquiry groups, with at least two courses from the Natural Science Inquiry (NSI), one with a lab section, and one course from the remaining Inquiry groups, all of which are listed below.

NOTE: Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements.

Civic Literacy Inquiry (CIV)

Civic literacy is a critical component of preparing students to contribute to local, national, and international communities. Inquiry into civic literacy entails asking questions about the relationship of the individual with the public sphere. This inquiry will provide students with foundational knowledge about the diversity of interests in American society over time, both domestic and abroad, especially those pertaining to race, ethnicity, and gender; the mechanisms by which individuals and groups have pursued their interests; and the role of institutions in addressing conflict. Students completing the course will apply the knowledge, concepts, and critical thinking skills from the course to make well-reasoned, informed, and ethical political decisions.

CIV has five program learning outcomes.

After successful completion of the CIV requirement, each student will be able to:

1. Exhibit knowledge of U.S. history, political institutions, and democratic principles.
2. Explain the meaning and significance of citizenship and national identity, past and present.
3. Explain forms of participation by individuals and groups.
4. Explain the economic, historic, political, and social bases for conflict and cooperation between groups.
5. Explain the economic, historic, political, and social marginalization of groups in civic life.

Code	Title	Credits
AFS 2210	Black Social and Political Thought	4

PS 1010	American Government	4
PS 1030	The American Governmental System	3
PS 1100	Changing Detroit	4
PS 3080	Gender and Politics	4

Cultural Inquiry (CI)

CI has three program learning outcomes.

After successful completion of the CI requirement, each student will be able to:

1. Explain basic concepts in artistic or humanistic analysis..
2. Analyze an artistic practice, cultural form, artifact, or philosophical idea.
3. Compare artistic practices, cultural forms, artifacts or philosophical ideas.

Diversity, Equity and Inclusion Inquiry (DEI)

DEI has four program learning outcomes, which focus on the U.S as their primary context:

After successful completion of the DEI requirement, each student will be able to:

1. Explain current diversity, equity, or inclusion issues within the context of U.S. history, institutions, practices, or policies.
2. Explain how cultural values and prejudices influence individual or group behavior.
3. Explain the ethical and moral issues related to diversity, equity, or inclusion present in complex domestic (U.S.) situations.
4. Explain strategies that promote diversity, equity, or inclusion at the local or national level.

*Please note, revised DEI Learning Outcomes were approved on 3/24/2023. Previous versions are available in archived editions (<http://bulletins.wayne.edu/archive/>) of the bulletin.

Global Learning Inquiry (GL)

GL has three program learning outcomes.

After successful completion of the GL requirement, each student will be able to:

1. Analyze social, economic, cultural and/or political phenomena in a past or present global context.
2. Explain how worldviews are shaped by differing historical, scientific, and/or cultural contexts.
3. Compare their worldview to those in communities outside of the US.

Natural Scientific Inquiry (NSI)

NSI has four program learning outcomes.

After successful completion of the NSI requirement, students will be able to demonstrate their ability to:

1. Explain natural phenomena using scientific concepts, theories and/or principles.
2. Describe the process of scientific inquiry.
3. Analyze historical or contemporary societal subjects using scientific concepts and principles.
4. Apply the scientific method to evaluate data (For lab courses only).

Code	Title	Credits
ANT 2110	Introduction to Biological Anthropology	3
AST 2010	Descriptive Astronomy (Satisfies the NSI Lab requirement when taken concurrently with AST 2011.)	4
AST 2030	Life in the Universe	3
BIO 1030	Biology Today (Satisfies the NSI Lab requirement when taken concurrently with BIO 1040.)	3
BIO 1050	An Introduction to Life (Satisfies the NSI Lab requirement when taken concurrently with BIO 1040.)	3
BIO 1500	Basic Life Diversity (Satisfies the NSI Lab requirement when taken concurrently with BIO 1501.)	3
BIO 1510	Basic Life Mechanisms (Satisfies the NSI Lab requirement when taken concurrently with BIO 1511.)	3
CHM 1000	Chemistry and Your World (Satisfies the NSI Lab requirement when elected for 4 credits.)	4
CHM 1020	Survey of General Chemistry (CHM 1020 is a lecture/lab course and satisfies the NSI Lab requirement)	4
CHM 1060	General, Organic and Biochemistry (CHM 1060 is a lecture/lab course and satisfies the NSI Lab requirement)	5
CHM 1100	General Chemistry I (Satisfies the NSI Lab requirement upon completion of both CHM 1100 and CHM 1130.)	4
CHM 1125	General Chemistry I for Engineers (Satisfies the NSI Lab requirement upon completion of both CHM 1125 and CHM 1130)	3
DNC 2180	Anatomy of Human Movement	3
ESG 1010	Geology: The Science of the Earth (Satisfies the NSI Lab requirement when taken concurrently with ESG 1011.)	3

PH 2100	Introduction to Public Health	3
PHY 1020	Conceptual Physics: The Basic Science (Satisfies the NSI Lab requirement when taken concurrently with PHY 1021.)	3

PHY 2130	Physics for the Life Sciences I (Satisfies the NSI Lab requirement when taken concurrently with PHY 2131.)	4
PHY 2170	University Physics for Scientists I (Satisfies the NSI Lab requirement when taken concurrently with PHY 2171.)	4
PHY 2175	University Physics for Engineers I	4
PHY 3100	The Sounds of Music (PHY 3100 is a lecture/lab course and meets the NSI Lab requirement)	4
PSY 1010	Introductory Psychology (PSY 1010 is a lecture/lab course and meets the NSI Lab requirement)	4
PSY 1020	Elements of Psychology	3
SCE 2100	Integrated Science Content PK-6 (Satisfies the NSI Lab requirement when taken concurrently with SCE 2105.)	3

Social Inquiry (SI)

SI has three program learning outcomes:

After successful completion of the SI requirement, students will be able to:

1. Explain the behaviors, practices, institutions, and/or systems that define a society or social group.
2. Explain concepts or methods in analyzing societies or social groups.
3. Explain social institutions and social interactions.

*Please note, revised SI Learning Outcomes were approved on 3/24/2023. Previous versions are available in archived editions (<http://bulletins.wayne.edu/archive/>) of the bulletin.

Wayne Experience

The Wayne Experience (WE) requirement is currently suspended. While a number of WE courses will continue to be offered, all students are encouraged to discuss the election of a WE course with an advisor before officially registering for the course.

The Wayne Experience (WE), a one-credit course required of all first-year students, will play an instrumental role in socializing students into the university community by providing activities that will increase their connections with fellow students, academic advising staff, and their instructors. The essential goals for this requirement are to enhance student engagement, success, and retention by implementing high-impact practices (HIPS) within a student's first year in college. Wayne Experience will also help students build key skills and habits that will allow them to successfully navigate the university and manage their busy lives. These would range from time management, studying, and test-taking skills to engaging in community activities both on and off-campus. Student motivation, engagement, learning, achievement, persistence and degree attainment all can be fostered by these transformative educational experiences.

Transfer students: Wayne Experience (WE) will be automatically waived if a student transfers a minimum of 24 credits to WSU. Advanced Placement (AP) tests, International Baccalaureate (IB) tests, CLEP exams,

High School Dual Enrollment, and Early/Middle College DO NOT count towards waiving WE.

Goals

1. **Belonging:** will foster a sense of belonging and connection; cultivate the development and expanding of relationships; meet students where they are; and promote their sense of personal purpose at Wayne State University.
2. **Acculturation to the academic community:** will promote an understanding of what it means to be a Wayne State Student, including grasping the value of a liberal education and general education along with linking theory to practice by participating as a member of a diverse and inclusive academic community.
3. **WSU in Detroit:** will cultivate an understanding of WSU's role in local cultures and history as well as develop an appreciation of how public service can transform individuals and diverse communities.
4. **Academic Support and Study Skills:** will promote the understanding of and use of the full spectrum of academic support services to collectively empower students to transform themselves into self-directed learners and powerful problem-solving.

Learning Outcomes

In this broad category, specific learning outcomes may vary from offering to offering but draw from the LEAP Essential Learning Outcomes, as adapted through our general education reform process.

After successful completion of this requirement, students will be able to demonstrate their ability to:

- Describe meaningful connections with Wayne State peers, faculty, staff, and campus resources..
- Demonstrate foundational skills necessary for undergraduate-level academic and personal achievement at Wayne State University.
- Relate the value of attending WSU to the student's own academic and personal pursuits.
- Develop self-advocacy to optimize the use of campus resources and academic opportunities.

Courses

Courses currently approved for Wayne Experience include:

Code	Title	Credits
BA 1100	Warrior Success	1
BE 1060	Building a Foundation for College Success	1
FPC 1020	Building a Foundation for College Success	1
FYS 1010	Learning with the Brain in Mind	1
HON 1110	Passport to Success	1
KHS 1010	Wellness at Wayne	1
RSE 1010	Building a Foundation for College Success	1
UGR 1050	Research Methods - BUILD Scholars	1

Honors Curricula

The University's honors curricula serve to challenge highly motivated students through courses of advanced study; to provide academic programs of unusual breadth and depth; to provide recognition of outstanding scholastic achievement; to foster interest in research and scholarly activity; and to provide students an opportunity to work with outstanding faculty.

Dual Recognition: Students who complete the requirements for University Honors and, in addition, the requirements of a College/Department Honors Program, shall have both designations on the transcript and the diploma. Only a single senior essay, thesis, or project shall be required.

More information about both University Honors and departmental Honors is available online (<http://www.honors.wayne.edu>) and at the Honors College as well as through the respective departments/colleges.

University Honors Curriculum

The University-wide Honors curriculum, managed by the Irvin D. Reid Honors College, allows undergraduate students in any College or School to pursue individually-designed Honors Programs which complement their majors.

Benefits of membership in the Honors College include Honors advising, Honors pre-priority registration, Honors sections of general education and major courses, and designation of completion of the Honors curriculum on the diploma and transcript.

Admission

Students with excellent academic records are eligible to apply to the University's Irvin D. Reid Honors College. Normally, the following are required:

Entering Freshmen: Entering freshmen admitted to the University by December 1 are considered for acceptance to the University Honors curriculum. Consideration is based on regular University admission; no further application is required. Invited freshmen are invited to participate in the Honors College scholarship event, Scholars Day.

Matriculated Students and Transfer Students: Students who have a minimum cumulative grade point average of 3.3 or above at Wayne State University may apply for acceptance to the Honors College. Applications are available at the College.

Eligibility to register for Honors courses: Students whose cumulative grade point average is at least 3.3, but who are not formally in the Honors College, are eligible to elect honors courses to enrich their educational experiences.

Retention: The academic record of each student shall be reviewed at regular intervals. To remain in the University Honors College, a student normally shall be expected:

1. to pursue a course of study consistent with the objectives of the Honors College, as recommended by the University Honors Council and approved by the President or his/her designee; and
2. to maintain a cumulative grade point average greater than or equal to 3.3; however, Colleges/Departments may establish a higher g.p.a. requirements for retention in a College/Department program.

A student whose cumulative grade point average is below 3.3 and is, for that reason, dropped from the Honors College, may reapply when his/her cumulative g.p.a. is 3.3 or higher.

University Honors Requirements

The College shall require Honors-designated course work totaling a minimum of twenty-eight credits for the baccalaureate program the student is pursuing. Students in this College MUST SATISFY THE GENERAL EDUCATION REQUIREMENTS, but the approved General Education courses may differ for the Honors College after review by the Honors Council and the General Education Implementation Committee and approval by the President or his/her designee. The Honors College General Education core curriculum will define a common body of knowledge beginning with the freshman Honors first-year sequence, and including a specified complement of Honors courses chosen from existing General Education options as determined by individual departments in consultation with the College.

Graduation: For graduation with University Honors, students must have a minimum cumulative grade point average of 3.3, and must complete a minimum of twenty-eight credits in honors-designated course work (including HON 1000, an Honors Foundational Seminar course, a service learning course with HON 3000, at least one HON 4200-level Honors seminar and a minimum of three credits in an independent research project, essay, or thesis). Graduates of the University Honors College will be so recognized on the transcript and diploma.

College or Department Honors Requirements

Undergraduate departments in Colleges and Schools have developed programs leading to honors degrees. Details of these programs are included in the College and Department sections of this Bulletin.

College or Department Honors Curricula require a minimum of twelve credits in honors-designated course work of which at least three credits may be in an independent research project, essay, or thesis in the student's College/Department and at least one HON 4200-level Honors seminar. Students also must meet the requirements of their major fields. The honors requirements for the major may include approved modifications of normal major requirements.

Graduation: For graduation with department honors, students must meet the requirements approved by their department/college/school, including a minimum 3.30 grade point average, an Honors thesis and at least one Honors seminar.

Graduation with Distinction

Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: Cum Laude, Magna Cum Laude, and Summa Cum Laude.

Graduation with distinction will be indicated on the student's diploma and on the transcript.

Graduation with Distinction will recognize at each graduation the top twenty per cent of students in each College who have earned the highest grade point average in their Colleges, with the following approximate distribution:

- *Summa Cum Laude:* Top five percent
- *Magna Cum Laude:* Next five percent
- *Cum Laude:* Next ten percent

The specific minimum grade point averages will be determined each year in the following manner, but graduation with distinction will not be awarded in cases of any g.p.a. less than 3.0.

Based on the grade point average distributions of the previous year's senior class, the grade point average cut-offs for each College will be established to provide for recognition of the top eighteen to twenty per cent of the graduating students.

The criteria for Graduation with Distinction include:

1. A minimum of fifty-six credits in residence at Wayne State University.
2. A qualifying minimum grade point average (calculated as explained above) on all course work at Wayne State University must be completed by the end of the semester of graduation. (For notation in the commencement program, the grade point average on all course work completed prior to the semester of graduation will be used.)

Admission: Undergraduate

Office of Undergraduate Admissions

Welcome Center
42 W. Warren Avenue
PO Box 02759
Detroit, MI 48202
Telephone: 313-577-2100, Fax: 313-577-7536
<https://wayne.edu/admissions> (<https://wayne.edu/admissions/>)

Service Hours: The Office of Undergraduate Admissions assists students by telephone and on a walk-in basis during posted service hours.

The Office of Undergraduate Admissions has the primary function of recruiting, admitting, and enrolling new undergraduate students to the University. This office also helps to coordinate the recruitment activities of individual departments, alumni groups, and students. The office organizes visits and programs at local high schools and community colleges in the State of Michigan and selected regions outside of the state.

Also included in functions of the Office of Undergraduate Admissions are administration of the Presidential and Wayne State merit-based scholarships.

Application for Undergraduate Admission

An official application for Undergraduate Admission (<http://www.apply.wayne.edu>) should be completed online. There is a \$25.00 application fee.

Guidelines for Freshmen Admission

Admission to Wayne State is selective. In order to qualify for admission an applicant must submit an official high school transcript indicating college preparation, standardized test scores (ACT or SAT), and ability to undertake a college degree program. Admission decisions will be based on a full evaluation of each student's academic record. Students still in high school may apply after completion of their junior year.

Guidelines for International Applicants

A student from another country desiring admission who is not a permanent resident or citizen of the U.S. should complete the International Admissions Application (<https://wayne.edu/admissions/international/>). A student from a country in which English is not the native language must take an English Language Proficiency Examination prior to admission or have a minimum Test of English as a Foreign Language (TOEFL) score of 550 (213 on computerized version).

Guidelines for Canadian Applicants

The Office of Admissions website includes information specific to Canadian students (<https://wayne.edu/admissions/canadian/>) applying to Wayne State University.

Special Undergraduate Programs for Admission

The Center for Latino and Latin American Studies (CLLAS) and Academic Pathways for Excellence (APEX) both offer special undergraduate programs with additional admission standards. See the following sections for more information: Center for Latino/a and Latin American Studies (p. 282) and Academic Pathways for Excellence (APEX) (p. 56).

Recommended High School Preparation

1. **English (four years recommended):** Effective use of the English language is central to one's ability to succeed at the University

and in the professions and occupations for which our students are preparing. Students entering the University should be able to:

- a. comprehend the main and subordinate ideas in written works, lectures, and discussions; and
 - b. conceive ideas about a topic and be able to organize them for presentation in both verbal and written forms.
2. **Mathematics (four years recommended):** While most careers for which University students are preparing require mathematical competency, an increasing number of careers in science and technical curricula require advanced preparation in mathematics. Entering students should be able to:
 - a. understand ratios, proportions, percentages, roots and powers; and
 - b. perform the mathematical operations of algebra and geometry.
 3. **Biological and Physical Sciences (three years recommended):** A basic understanding of the physical and biological sciences is essential for many fields of college-level study and is necessary if one is to comprehend our world and the impact of science and technology on it. Students should be acquainted with:
 - a. concepts of matter, energy, motion and force and the natural laws and processes of the physical sciences in general;
 - b. the science of life and living matter with special reference to growth, reproduction and structure; and
 - c. laboratory methods.
 4. **Social Sciences/History (three years recommended):** Students should study different cultures and societies — their social systems, customs, communities, values, economies, governments, and politics. A knowledge of the main events and ideas that have shaped our nation and its place in the world should also be possessed by entering students. They should understand how the past bears upon the present condition and future course of mankind. As the social sciences improve one's appreciation of the scientific method and other approaches to critical analysis, an understanding of history is required for an informed exercise of citizenship in a free society.
 5. **Foreign Languages (two years recommended):** Proficiency in a foreign language not only introduces students to non-English speaking cultures but also heightens awareness and comprehension of one's native tongue. Language is the basic instrument of thought, and the ability to read, speak and write in a foreign language permits one to understand another culture in a more fundamental way. Foreign language competency will open up career opportunities denied to those without it.
 6. **Fine Arts (two years recommended):** Students entering the University should be acquainted with the visual and performing arts, through study and/or participation. Several academic disciplines at the University require high levels of skill in the arts. Study in this area enriches life and heightens one's sense of beauty and aesthetic perception.
 7. **Computer Literacy:** Some formal instruction in the logic and use of computers in problem solving and data retrieval is increasingly important in all fields of study.

Special Requirements and Professional Admission

The following Schools, Colleges and programs have requirements beyond those of regular undergraduate admission:

- Business (p. 75)
- Engineering (p. 123)
- Engineering Technology (p. 154)
- Fine, Performing and Communication Arts (p. 167)

- Nursing (p. 340)
- Pharmacy and Health Sciences (p. 347)
- Social Work (p. 369)

Transfer Admission

Transfer students are considered for admission if they meet the following minimum requirements:

A transfer applicant may be admitted, without consideration of high school work, upon completion of at least twenty-four semester credits of transferable college-level coursework from an accredited college or university with an overall grade point average of 2.5 and with no courses below a C grade for transferable credit. If the applicant has fewer than twenty-four semester credits of transferable college-level coursework, the applicant may be admitted provided freshmen admissions guidelines are met, subject to a holistic evaluation of each student's record. Students who have attended unaccredited institutions should consult with an admission counselor to determine admissibility.

Michigan Transfer Agreement (MTA)

One main area of focus for transfer students is General Education Requirements. These are classes in addition to courses within your major that are required to ensure fundamental skills and a well-rounded education. The Michigan Transfer Agreement (MTA) was designed to facilitate the transfer of general education requirements from one institution to another. Students may complete the MTA as part of an associate's degree or as a stand-alone package at a Michigan community college.

MTA Requirements

Students must successfully complete at least 30 credits at a Michigan community college in six defined areas with at least a grade of 2.0 (or C) in each course in order to be MTA satisfied. These areas are:

- One course in English Composition
- A second course in English Composition or one course in Communication
- One course in Mathematics
- Two courses in Social Sciences from different disciplines
- Two courses in Humanities and Fine Arts from different disciplines
- Two courses in Natural Sciences (one lab science required) from two disciplines

Prior to Fall 2018: WSU requires students to take either a second course in English Composition or one course in Communications beyond the MTA requirements. This additional course can be taken at a Michigan community college or at WSU.

Starting Fall 2018: The additional course stated above is no longer required. Students transferring to WSU with MTA in fall 2018 and beyond will have satisfied all of Wayne State General Education requirements.

All college, program, major and minor requirements must also be completed (at least 120 credits) for students who fulfill the MTA requirements.

Your community college will provide detailed information, including approved courses, for completing the MTA. We recommend that you review our transfer plans (<https://wayne.edu/transfercredit/plans/>) and consult your community college advisor about fulfilling MTA requirements and request your community college to review your record to add the MTA endorsement to your transcript.

Non-Matriculated Status

Non-matriculated status enables students to take undergraduate courses for which the prerequisites are met. Courses, credits and grades will be posted to the University's transcript. However, these will be used toward fulfillment of a degree only after formal admissions is granted through the Office of Undergraduate Admissions. Students are encouraged to meet with an academic advisor prior to registering for courses. The non-matriculated application (<https://wayne.edu/admissions/non-matriculate/>) should be completed online. There is a \$25.00 non-refundable application fee. The holder of non-matriculated status is ineligible for any type of loan, grant or scholarship that is administered by Wayne State University.

Post-Bachelor Admission

Post-bachelor admission is an optimal choice for students who have already completed a bachelor's degree and are interested in either earning college credit without intending to use it toward another degree, and those students needing to complete prerequisite course work to gain admission to a graduate program.

Undergraduate Guest Admission

Students currently attending an accredited institution of higher education who are interested in taking undergraduate courses at Wayne State for one semester, or who wish to register for courses concurrently, are eligible to apply for Guest Admission (<https://wayne.edu/admissions/guest/>). Requirements include the completion of twelve semester credits at the home institution and a minimum cumulative 'C' grade point average (equivalent to a 2.0 grade point average at Wayne State).

Re-Entry Following an Interruption in Attendance

Undergraduate students who were previously admitted and registered at Wayne State University and whose attendance has been interrupted need not reapply at the Office of Undergraduate Admissions. It is expected that students who left in good standing report to the College of their choice for any special instructions regarding their return to classes.

Phoenix Program (Second Start)

The Phoenix Program (<https://wayne.edu/advising/center/phoenix-reentry-program/>) provides undergraduate students who left Wayne State University on Probation or Dismissal with the opportunity to petition for return under a second-start policy. To be eligible for such admission, the student must not have enrolled at Wayne State University for at least three consecutive years, immediately prior to petition for the Phoenix Program. Petitions for re-entry are decided by the Dean of the School or College in which the student is matriculated or seeks to enter. With the approval of the Dean, the student and an academic advisor develop an academic contract, and the advisor closely monitors the student through the first twelve credits of course work.

To return to regular status, students must complete twelve semester credits with a grade of C or better within two years under the Phoenix Program (NOTE: a grade of C-minus is considered to be lower than a C). Students will be expected to complete both the general education and degree requirements in effect at the time of their return to the University. In addition to earn a Wayne State degree, the student must have thirty graded credits of which five courses or fifteen credits must be in the major and/or core. The thirty credits may include credits taken prior to admission to the Phoenix Program in consultation with the academic advisor. Should students earn any grade below C in their first twelve credits in the Phoenix Program, they will be excluded from the University. To maintain the integrity of students' academic records, previous course

work will remain on the transcripts; however, the credits and grade point average (g.p.a.) will be adjusted to reflect the grade point average earned since the start of the Phoenix Program.

For information about the Phoenix Program, students should contact the Dean's office of the School or College in which they have matriculated or wish to enter.

Admission: Graduate School

<https://gradschool.wayne.edu/admissions> (<https://gradschool.wayne.edu/admissions/>)

Admission: Graduate

To be considered for graduate admission, an applicant must hold or be completing an earned baccalaureate degree or its equivalent from a college or university of recognized standing and have adequate preparation with discernible ability to pursue graduate studies in the major field elected. These criteria are subject to standards set by the individual Colleges and Schools, which reserve the right to revise or amend their entrance requirements beyond the minimal requirements of the University. Note: Proof of the earned bachelor's degree must be submitted before regular admission will be granted.

Before any student can be considered for admission to graduate study, the following must be submitted to the Office of Graduate Admissions or an approved Centralized Application Service: a completed online application and an official transcript from any college or university at which a bachelor's degree was earned. A transcript is considered official only if it is sent directly from the institution where the course work was completed and bears an official seal. International applicants are expected to submit additional documentation for regular admission. Note: The applicant is also responsible for arranging to take any examinations that may be specified by the Office of Graduate Admissions, the College, or the Department in which the student intends matriculation.

Some academic programs may require an additional departmental application for admission. Students are advised to contact the department to which they are applying and request full particulars on admission procedures.

In most departments (see the departmental sections of this bulletin for variants), a regular admission may be authorized for the domestic master's degree applicant upon the department's recommendation, if the applicant's grade point average is 2.75 (C=2.00) or above for the upper division (approximately the last sixty semester credits) of his/ her undergraduate course work and if he/she holds a bachelor's degree from a regionally accredited institution.

All baccalaureate graduates of unaccredited institutions must present a 3.00 (B) or better upper-division grade point average to be considered for graduate admission. Course work completed after the baccalaureate which is presented as the qualifying basis for graduate admission cannot be applied toward a graduate degree at Wayne State University.

Doctoral applicants must present higher entrance qualifications than those required of master's degree applicants. A doctoral applicant is required to have an undergraduate grade point average of 3.0 (B=3) or above for the upper division of the undergraduate, bachelor's degree course work and must have completed an undergraduate major or substantial specialized work in his/her proposed doctoral major field. Certain departments require the completion of a master's degree with superior scholarship before considering acceptance of a student as a doctoral applicant. Applicants with less than a 3.0 grade point average in undergraduate course work may be eligible for admission to doctoral study if they have subsequently achieved a grade point average of 3.0 or better in substantial graduate course work in the proposed doctoral field.

The individual colleges reserve the right to refuse a non-resident admission if such admission prevents registration of a qualified Michigan resident. This ruling may not be invoked to secure admission to a Michigan resident if his/her grade point average entitles him/her to qualified status only.

Admission: Qualified Graduate

In most Departments, qualified admission to a master's or certificate program may be authorized if an applicant's grade point average is between 2.50 and 2.74 or if his/her degree is from a non-accredited institution, provided the major Department and the Graduate Officer of the appropriate School or College have reviewed the applicant's academic experience, extra-scholastic qualifications and reasons for pursuing graduate study and have recommended his/her admission to the Graduate School.

Upon recommendation of the Department and the Graduate Officer of the appropriate College or School, qualified status may be granted to an applicant whose grade point average is below 2.5, if, since the time his/her baccalaureate degree was conferred, he/she has shown substantial evidence of academic or extra-scholastic qualifications of such merit as to warrant special consideration.

Applications from students who have completed substantial course work at, and/or graduated from, institutions which were not accredited by one of the six regional U. S. accrediting institutions (MSCHE, NEASC, HLC, NWCCU, SACS, or WSCUC) at the time studies were undertaken, will have a special review. If requested, the applicant will be required to furnish documentation of the nature and level of the credit obtained, the bases on which the credit was awarded, institutional operating practices, library holdings, physical facilities, faculty qualifications, and any other matters that may be relevant to an evaluation of credit.

All graduate admission procedures and regulations are subject to revision by the University's Graduate Council, the President, or the President's Designee at any time.

Graduate Application Dates

The Office of Graduate Admission will make every effort to process applications in time for the semester of the student's choice. However, only complete applications received by the last recommended dates shown below are ensured academic review before the semester starts. Unless an application and all supporting materials are received by the date indicated, there may not be adequate time for the desired program to review the application and make the admission decision.

Fall Term – Classes begin Late August: **apply by June 1**

Winter Term – Classes begin Early January: **apply by October 1**

Spring Term – Classes begin Early May: **apply by February 1**

For international students, the application form and all transcripts and documents must be on file in the Office of Graduate Admission at least four months prior to the start of the term in which the applicant plans to begin graduate studies.

Several Colleges and Departments have earlier deadlines. Doctoral programs also have earlier application deadlines. Students should consult the School/College and Department sections of this bulletin, the program's website, or the Office of Graduate Admissions for complete information.

Change of Graduate Status

A Change of Graduate Status is a type of admission only for those students who have previously been admitted to and registered as regular

graduate students at WSU. For such students, a Change of Graduate Status is used to request:

1. to change from one graduate program or level to another graduate program or level; or
2. to add a second graduate program to the one in which the student is already enrolled.

A department's normal admission criteria apply to Change of Graduate Status applicants. The application form (<http://gradschool.wayne.edu/current/forms.php>) is downloadable from the Graduate School.

Students should submit the form and transcripts, if needed, to the Graduate Office of the School/College of the new program. Other admission documents required by the department should be submitted directly to the department. The School/College Graduate Office prepares and sends the application and documents to the department for decision. The Graduate Office notifies the student of the admission decision, and, if admission was approved, notifies the Records Office of the change to be made to the student's record. The department's regular admission deadlines apply. No fees are charged for a Change of Status application.

The Change of Graduate Status application should NOT be used by the following students: those who have never been admitted through the Office of Graduate Admissions, those who were admitted but did not register, those who were admitted on a Permit to Register or as Guest students, and those who have been registered in graduate classes only as Non-Matriculated students through the College of Liberal Arts and Sciences.

Graduate Non-Degree Admission

An applicant who wishes to take graduate courses but does not wish to be in a degree program may request admission on a non-degree basis. The eligible applicant will be admitted to a particular College but not to an individual major program. In most instances, a non-degree student may, with the Department's approval, register for any courses for which he/she has the necessary preparation.

The applicant for a non-degree graduate classification is cautioned that *only one semester of full-time graduate study, or part-time registrations not to exceed nine credits, is normally permitted in this classification.* Beyond these limits, registration as a non-degree student requires the approval of the Graduate Officer of the student's College. Not more than nine credits, subject to the approval of the Graduate Officer, may be applied at a later date toward the residency and credit requirements for either the master's or Ph.D. degree. For the Ed.D. degree, credit earned beyond the nine-credit limitation will be reviewed by the appropriate Division and the Education Graduate Officer for possible application toward the degree.

If a student in non-degree status decides to seek admission to a graduate degree program, he/she should apply to the appropriate College Graduate Office for a Change of Status *before* completing nine credits. There is no assurance that credits earned while holding a non-degree classification will be acceptable in a degree program, or that prerequisites may not have to be specified if the student later becomes a degree applicant. Also, financial aid is not available to students in Non-Degree status.

Graduate Guest Admission

Graduate students actively pursuing degrees and who are in good standing at other accredited colleges and universities may be admitted to elect a limited number of credits at Wayne State University. Interested students may obtain a Graduate Guest Application (<http://wayne.edu/admissions/graduate/applying/app-instructions/>) from the Office of Graduate Admissions. This must be signed by their home institution before it can be accepted for consideration. **A guest admission is valid**

for only one semester and must be renewed with each subsequent registration. A maximum of twelve semester credits may be earned as a Graduate Guest Student. Admission as a Graduate Guest student does not constitute permission to register as a degree applicant.

Senior Rule

In their last undergraduate semester, Wayne State students with a 3.0 (or above) upper division grade point average have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree course work. A Senior Rule student must register for at least one credit which is required for the undergraduate degree in order to be eligible for this status. Students who have completed all required registrations for the baccalaureate may not obtain Senior Rule status. Completion of the *Application for Graduate Admission* is required, and students are advised to consult their advisors and the Office of Graduate Admissions. Application deadlines for Senior Rule admission are the same as for regular graduate admission. Students who qualify and are recommended by the Department or College will be admitted for one semester. Graduate admission will be regularized upon evidence that the student has completed all requirements for the bachelor's degree; it is the student's responsibility to provide this transcript.

As a courtesy, the University permits a student to pay undergraduate fees for the graduate courses elected in a Senior Rule status. It is recommended that students elect only courses numbered 5000-6999 in their Senior Rule semester. Senior Rule may not be used in conjunction with AGRADE.

AGRADE: Accelerated Graduate Enrollment

Several Colleges have established an accelerated combined undergraduate and graduate program (AGRADE) in which highly qualified seniors in the college may enroll simultaneously in some undergraduate and graduate programs of the College. A maximum of sixteen credits may be applied towards both undergraduate and graduate degrees in a student's major field if that program is an AGRADE participant. Those who elect the AGRADE program may expect to complete the Bachelor's and Master's degrees in five years of full-time study. AGRADE may not be used in conjunction with Senior Rule.

AGRADE Credits: Students may elect a minimum of three and a maximum of sixteen AGRADE credits. These will be used to complete the baccalaureate degree as well as to serve as the beginning of graduate study. Upon formal admission to a master's program, AGRADE credits are transferred as if they were graduate credits transferred from a graduate program at another university. The remaining graduate credits required for the master's degree will be earned in the conventional manner following formal admission to the graduate program.

Eligibility: AGRADE applicants must have an outstanding overall g.p.a. and have performed at a superior level in their major, as determined by the major department. The earliest date by which a student may apply for the AGRADE program is during the semester in which he/she completes ninety credits toward the undergraduate degree.

Application: A student seeking AGRADE status should present to the Graduate Admissions Committee of his/her major department all of the materials which that department requires for normal admission (except the GRE; where required, the GRE scores should be forwarded at the normal point in the formal graduate admission process).

Admission and program requirements are described in the respective School and College sections of this bulletin, the Undergraduate Bulletin, and department advising offices.

Permit to Register Status

This is a one-term-only admission status which may be granted to applicants with incomplete applications for graduate admission, at the discretion of the academic department, and upon presentation of evidence of an earned baccalaureate degree with an acceptable grade point average and the application fee. Registration beyond the initial semester requires the submission of a regular graduate admission application, official transcripts and other required documentation as determined by the university and department. Admission as a graduate Permit-to-Register student does not obligate Wayne State University to accept the applicant in the future for a graduate degree, nor is there any assurance that credit earned in this status will be accepted toward a graduate degree.

This option is not available in all University Schools and Colleges. Applicants are encouraged to discuss admission options with the staff of the Office of Graduate Admissions. In addition, financial aid is not available to students in Permit to Register status.

Michigan Intercollegiate Graduate Studies (MIGS) Program

The Michigan Intercollegiate Graduate Studies (MIGS) Program enables graduate students of Michigan public institutions to take advantage of educational opportunities at other Michigan public institutions offering graduate degrees. Any graduate student in good standing in a master's, specialist, or doctoral program at a member institution is eligible to participate with approval of the appropriate academic unit. Students on a MIGS enrollment pay tuition and other fees at the host institution. All credits earned under a MIGS enrollment are accepted by a student's home institution as if offered by that institution. *This type of enrollment is limited to one term for master's or specialist degree students, or two terms for doctoral degree students.* Students interested in this program should contact the Office of Graduate Admissions (<https://wayne.edu/admissions/graduate/application-types/>) for further information.

University of Windsor – WSU Exchange Program Agreement

Wayne State University and the University of Windsor have entered into an exchange agreement whereby students from each institution may enroll in selected courses at the other institution. Courses available are limited to those not offered at the student's home institution. Limitations also apply to the number of courses and credits a student may take under this agreement. Wayne State University and the University of Windsor students who wish to participate in the program must be in good standing at their home institution and must have prior approval of the appropriate academic unit that the course(s) will be accepted as part of the student's course of study. Students who participate in the Wayne State University/University of Windsor program pay tuition and fees at the home institution and receive credit for the course(s) only at the home institution. Students should consult the Director of the Office of Study Abroad for further information.

Post-Bachelor Admission

The Post-Bachelor status is granted to college/university graduates who wish to take Wayne State University courses through the 6000 level *for undergraduate credit only*. The status serves two groups of students:

1. Those who wish to pursue vocational or avocational interests without intending to use Wayne State University credit to earn another degree at Wayne State University;
2. Those who seek admission to a graduate program but need to raise their undergraduate grade point average and/or fulfill specific undergraduate course requirements for graduate admission consideration.

The following special rules apply to Post-Bachelor Admission:

1. **Under no circumstances will credit earned in this status apply toward a graduate degree program.**
2. The applicant must present evidence of a degree earned from an accredited institution (official transcript or diploma).
3. Post-Bachelor status students are not eligible for financial aid from Wayne State University, except in certain circumstances depending on the program; students should consult the Office of Student Financial Aid (<http://www.finaid.wayne.edu>) for a list of eligible programs.
4. Applications for Post-Bachelor status from students new to Wayne State University should be made to the Office of Undergraduate Admissions, Welcome Center, 42 W. Warren, Wayne State University.
5. An applicant who earned an undergraduate degree from Wayne State University, or who was previously admitted and registered in a Wayne State graduate program, should contact the Records Office to be re-admitted to the University as a Post-Bachelor student. Post-Bachelor applicants in the Colleges of Education and Nursing must obtain authorization directly from the College.

International Graduate Students

To be considered for graduate admission, international applicants must have completed an appropriate university-level program comparable in subject matter and credits to a program for which a bachelor's degree is awarded at Wayne State University.

The fact that a degree in another country may have a similar name to a degree offered in the United States does not mean the two degrees require similar lengths and content of study or that they should be accepted as equivalents. *All graduate applicants must:*

1. present an excellent scholastic record;
2. have sufficient financial resources for minimum tuition, supplies and living expenses; and
3. have a sufficient proficiency in English (see the section on English Proficiency Requirement – International Students, below).

FINANCIAL AID: University-sponsored financial assistance for international students is extremely limited and unconfirmed awards should not be included in financial projections.

English Proficiency Requirements

Graduate applicants who graduated from colleges/universities in other countries must demonstrate proficiency in English. To fulfill this requirement an applicant must satisfy one of the following criteria:

1. Complete baccalaureate degree requirements at an accredited U.S. institution or in a country where English is the native language.
2. Present an acceptable score on the Michigan English Language Assessment Battery (MELAB).
3. Present an acceptable score on the Test of English as a Foreign Language (TOEFL) or equivalent tests such as the IELTS or PTE.

Some units may elect to grant qualified graduate admission to academically-talented International Students whose TOEFL scores fall slightly below the University minimum score. Interested students should

contact the chairperson or director of their prospective program, to determine whether the program offers such qualified admission. For further information on the English Proficiency policy, please consult the Office of Graduate Admissions.

Faculty Admission

Tenured Wayne State University faculty members holding the rank of Assistant Professor or above may be admitted to Wayne State graduate degree programs outside the faculty member's school/college, under certain specified conditions. Untenured tenure-track faculty members are not eligible to pursue a graduate or professional degree at Wayne State while in University employment. Faculty members who are not tenured and not on the tenure track may enroll in degree programs outside their own unit with the approval of the dean of their college. For further information, contact the Dean of the Graduate School.

Special Status Students

Visiting Doctoral Guest

The Graduate School may issue a Visiting Doctoral Guest certificate to persons with an earned doctorate who come to Wayne State for scholarly study under the sponsorship of a department. Such Guests may obtain University library privileges and attend classes upon invitation of the department. No official record of attendance is kept on such Guests. For further information, contact the Graduate School.

Visiting Scholar

The Graduate School may issue a Visiting Scholar certificate to persons who have an advanced degree, such as an M.D., or are earning a doctoral degree, and who have come to Wayne State for scholarly study under the sponsorship of a department. Scholars may obtain University library privileges and attend classes upon invitation of the department. No official record of attendance is kept on such Scholars. For further information, contact the Graduate School.

Academic Regulations

Class Ranking

Ranks are determined according to the number of degree credits which the student has satisfactorily completed. The classifications are:

FRESHMAN	0 to 28.99 credits, inclusive
SOPHOMORE	29 to 55.99 credits, inclusive
JUNIOR	56 to 87.99 credits, inclusive
SENIOR	88 credits or above

Undergraduate Course Numbering Systems

For the College of Education

0000-4999 — Undergraduate credit only.

5000-6999 — Undergraduate or graduate credit.

For Pharmacy Departments

0000-2999 — Preprofessional Courses.

3000-3999 — First Professional Year Courses.

4000-4999 — Second Professional Year Courses.

5000-5999 — Third Professional Year Courses.

6000-6999 — Undergraduate/Graduate Courses.

For All Other Schools and Colleges

0000-0999 — No degree credit; graded S and U.

— *Mike Ilitch School of Business*: Elementary courses auxiliary to the usual academic program.

— *College of Engineering*: Orientation courses.

1000-1999 — Primarily freshman courses; open to all undergraduates.

2000-2999 — Primarily freshman and sophomore courses; open to all undergraduates who have completed course prerequisites.

— *Mike Ilitch School of Business*: Primarily junior college courses.

— *College of Engineering*: Lower division courses; open to all undergraduates.

3000-4999 — Junior and senior courses; undergraduate credit. (Ordinarily freshmen and sophomores will not be permitted to register for these courses.)

— *College of Engineering*: Upper division courses.

5000-6999 — Junior and senior courses; undergraduate and graduate credit.

Definition of Credits

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that reasonably approximates not less than:

1. one hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester hour of credit, or the equivalent amount of work over a different amount of time; or
2. at least an equivalent amount of work for other activities, including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

Normal Program Load

A full-time undergraduate student is one who is enrolled for twelve or more credits during a semester. The definition of a normal course load will vary depending upon the requirements of each program. In general, for completion of undergraduate degree requirements in four years, full-time students should average fifteen to eighteen credits each semester

during the academic year. Undergraduate students may not elect more than eighteen credits per semester except by written consent of the Dean or advisor. Individual Schools and Colleges may set credit restrictions below those specified here; for details see their respective sections of this bulletin.

Dual Enrollment

Undergraduate Election of a Graduate Course

Highly qualified undergraduate students may, under special circumstances, take a 7000-level course for undergraduate credit only. A written petition initiated by the student's advisor must be approved by the graduate officer of the School or College, the professor teaching the course, and the Dean of the Graduate School. The petition, with all required signatures, must be turned in at the time of registration.

Graduate Election of an Undergraduate Course

Graduate students may register for undergraduate courses, however these courses will be recorded on the undergraduate transcript. All courses elected under this status will be assessed at the graduate rate. These courses cannot be used as graduate credit nor to meet requirements for any graduate degree.

Accelerated Graduate Enrollment Program (AGRADE)

Several Colleges have established an accelerated combined undergraduate and graduate program (AGRADE) in which highly qualified seniors in the college may enroll simultaneously in some undergraduate and graduate programs of the College. A maximum of sixteen credits may be applied towards both undergraduate and graduate degrees in a student's major field if that program is an AGRADE participant. Those who elect the AGRADE program may expect to complete the Bachelor's and Master's degrees in five years of full-time study. AGRADE may not be used in conjunction with Senior Rule.

AGRADE Credits: Students may elect a minimum of three and a maximum of sixteen AGRADE credits. These will be used to complete the baccalaureate degree as well as to serve as the beginning of graduate study. Upon formal admission to a master's program, AGRADE credits are transferred as if they were graduate credits transferred from a graduate program at another university. The remaining graduate credits required for the master's degree will be earned in the conventional manner following formal admission to the graduate program.

Eligibility: AGRADE applicants must have an outstanding overall g.p.a. and have performed at a superior level in their major, as determined by the major department. The earliest date by which a student may apply for the AGRADE program is during the semester in which he/she completes ninety credits toward the undergraduate degree.

Application: A student seeking AGRADE status should present to the Graduate Admissions Committee of his/her major department all of the materials which that department requires for normal admission (except the GRE; where required, the GRE scores should be forwarded at the normal point in the formal graduate admission process).

Admission and program requirements are described in the respective School and College sections of this bulletin, the Undergraduate Bulletin, and department advising offices.

Senior Rule Graduate School Admission

In their last undergraduate semester, Wayne State students with a 3.0 (or above) upper division grade point average have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree course work.

A Senior Rule student must register for at least one credit which is required for the undergraduate degree in order to be eligible for this status. Students who have completed all required registrations for the baccalaureate may not obtain Senior Rule status. Completion of the *Application for Graduate Admission* is required, and students are advised to consult their advisors and the Office of Graduate Admissions. Application deadlines for Senior Rule admission are the same as for regular graduate admission. Students who qualify and are recommended by the Department or College will be admitted for one semester. Graduate admission will be regularized upon evidence that the student has completed all requirements for the bachelor's degree; it is the student's responsibility to provide this transcript.

As a courtesy, the University permits a student to pay undergraduate fees for the graduate courses elected in a Senior Rule status. It is recommended that students elect only courses numbered 5000-6999 in their Senior Rule semester. Senior Rule may not be used in conjunction with AGRADE.

Enrollment in Online Programs

A select number of programs have received authorization from the university to be offered in a fully online format. All students who are eligible to enroll in a fully online major will be assessed regular Michigan resident tuition rates. Students enrolled in a fully online major are limited to registering for courses listed in the Schedule of Classes with the Instructional Methods: Online – No Scheduled Meetings or Online – Scheduled Meetings. The limits on course registration apply to both Michigan residents and non-residents.

International students residing outside of the United States can enroll in and complete online programs, and these students would qualify regular Michigan resident tuition rates. International students on F-1 or J-1 visas are ineligible for fully online programs

A list of the university's approved fully online programs is available in the annual Statement on Tuition and Fee Regulations (<https://wayne.edu/registrar/tuition/tuition-and-fee-regulations/>).

Undergraduate Grading System

Final grades are available on Academics (<http://academics.wayne.edu/>). Grades are not mailed to students. Final grades are recorded under the following system.

Undergraduate Grades

A	Excellent	4.00 grade points per credit
A -	Excellent	3.67 grade points per credit
ANC	Excellent	no credit
B +	Good	3.33 grade points per credit
B	Good	3.00 grade points per credit
B -	Good	2.67 grade points per credit
BNC	Good	no credit
C +	Fair	2.33 grade points per credit
C	Fair	2.00 grade points per credit
C -	Fair	1.67 grade points per credit
CNC	Fair	no credit

D +	Poor	1.33 grade points per credit
D	Poor	1.00 grade points per credit
D -	Poor	0.67 grade points per credit
F	Failure	0.00 grade points per credit
P	Passed	
PNC	Pass	no credit
N	Not passed	
NNC	Not passed	no credit
S	Satisfactory	
SNC	Satisfactory	no credit
U	Unsatisfactory	
UNC	Unsatisfactory	no credit
M	Marginal pass	

* P, N, S, U, M, ANC, BNC, CNC, UNC, SNC, PNC, MNC, and NNC grades are not reflected in the grade point average. NR – No grade reported by the instructor

Passed – Not Passed Program

The University has a program whereby undergraduate students may elect to take courses in which they will be marked as *Passed (P)* or *Not Passed (N)* in place of a letter grade. The following regulations apply:

1. The student may elect one P-N course per semester with the consent of an advisor, but he/she may not elect more than six courses in all.
2. After classes have begun, a student may not change from Passed/ Not Passed to a letter grade election or vice versa.
3. Courses taken for P-N may be used to satisfy competency requirements; however, no course taken on this basis may be used to fulfill specific group or major requirements.
4. Credits for a P-N course may be used to fulfill graduation requirements but will not count in the grade point average. In the event the student enrolls in more than six P-N courses, those beyond the permissible maximum will be designated on the permanent record as not applicable toward graduation.

Mike Ilitch School of Business: Students in the School of Business may *not* take courses offered by the School of Business on a passed / not passed basis.

Incomplete – The mark of I

The mark of I is given to a student when he/she has not completed all of the course work as planned for the term and when there is, in the judgment of the instructor, a reasonable probability that the student will complete the course successfully without again attending regular class sessions. The student should be passing at the time the grade of I is given. A written contract specifying the work to be completed should be signed by the student and instructor. Responsibility for completing all course work rests with the student.

The mark of I will be changed to a letter grade when the student completes the course work as arranged with the instructor or, if the instructor has left the University, with the Chairperson of the department or other instructional unit. Work must be completed within one calendar year. There are NO extensions.

The mark of I will not be awarded if, in the instructor's judgment, it is necessary for the student to attend subsequent sessions of the

class. If regular attendance is necessary to complete coursework, the student must register for the class for the semester in which attendance is planned. The student will be assessed tuition and applicable fees for the second registration. If the student decides to register for the course, subsequent to the assignment of an I, then the mark of I for the original election will be changed to a Withdrawal (W), and the student will be responsible for tuition and applicable fees for the second registration. Students are responsible for notifying their department and the department offering the course that they have re-registered for the course so that the I is not changed to an F.

Any unchanged mark of I will, within one calendar year from the time it was received, be changed to a grade of F or failure. This will not be changed after the I is replaced.

Withdrawals – The mark of W

The mark of W is given when a student voluntarily withdraws from a class during the official withdrawal period for that class as denoted in the Schedule of Classes. The mark of W is not used in the calculation of grade point average.

Deferred – The mark of Y

The mark of Y is given when the student is up-to-date in the work of a course planned to continue beyond the semester (i.e., essay, thesis, dissertation and certain courses taken in sequence).

Auditor – The mark of Z

The mark of Z is given when the student has formally registered for the course for audit. The student's Academic Dean or his/ her designee must provide written audit authorization to the student at the time of registration.

Repeating Courses – The mark of R

COURSES REPEATED PRIOR TO WINTER TERM 1998:

If an undergraduate student repeats a course and completes it with a grade of A, B, C, D, or E, the following rules will apply in posting the student's cumulative record:

1. The grade, grade points and credits for an earlier attempt will be eliminated from the student's grade point average computation.
2. The grade, grade points and credits of only the latest repetition will be included in the student's grade point average computation.
3. An R on the student's academic record will replace the original grade in the course repeated under this rule. Thus, the indicator R will appear for all attempts in a course except the last.

COURSES REPEATED WINTER TERM 1998 TO SPRING/SUMMER TERM 2006:

If an undergraduate student repeats a course and completes it with a grade of A, A-minus, ANC, B-plus, B, B-minus, BNC, C-plus, C, C- minus, CNC, D-plus, D, D-minus, or E, the following rules will apply in posting the student's cumulative record:

1. The grade, grade points and credits for an earlier attempt will be eliminated from the student's grade point average computation.
2. The grade, grade points and credits of only the latest retake will be included in the student's grade point average computation.
3. The original grade in the course repeated under this rule will remain on the student's academic record. Earlier attempts will be flagged for exclusion in the g.p.a. calculation and the latest attempt will be flagged for inclusion in the g.p.a. calculation.

COURSES REPEATED FROM FALL TERM 2006 TO THE PRESENT:

If an undergraduate student repeats a course and completes it with a grade of A, A-minus, ANC, B-plus, B, B-minus, BNC, C-plus, C, C- minus, CNC, D-plus, D, D-minus, or F, the following rules will apply in posting the student's cumulative record:

1. No student shall attempt to take a class more than four (4) times (for a definition of "attempt," see 5, below).
2. If a student anticipates an attempt to take a class for the third (3rd) time, he/she must meet with an academic advisor to receive permission for this attempt.
3. If a student anticipates an attempt to take a class for the fourth (4th) time, he/she must obtain written permission from the chair (or his/ her designee) of the department offering the course and the chair (or his/her designee) of the student's home department.
4. When a course is repeated, credit is only granted once. The last grade and credit hours for a repeated course are used in computing a student's grade point average and for awarding credit hours applicable for a degree even if lower than the previous grade. However, a grade of W (Withdrawal) will not replace a previous grade or credit hours for a course. All attempts to take a course will be recorded on a student's transcript, whatever the last grade and credit hours awarded may be.
5. Withdrawals, incompletes, as well as courses repeated in an effort to earn higher grades will count as attempts. If a student drops the class before a W would appear on the transcript, this is not counted as an attempt, i.e. the student does a drop or a drop/add to another course. If tuition has been assessed and the time for refunding tuition has passed but the time for having a W appear on the transcript has not, the tuition will not be refunded, but the registration will not count towards the allowed attempts.
6. Any student who has repeated three different courses must meet with an academic advisor for permission to repeat another course.
7. There shall be an appeals process to the dean's office of the colleges offering the course and the student's home department.

After a degree has been granted, no grade computed in that degree may be changed.

If a post-bachelor status student repeats a course originally taken under regular undergraduate status, the repeat will in no way modify the earlier attempt. The second election, however, will be averaged in the grade point base.

Mike Ilitch School of Business: No course in which a student has received a passing grade or mark may be retaken without the prior written approval of the Director of Student Services of the Mike Ilitch School of Business.

Eugene Applebaum College of Pharmacy and Health Sciences: No course may be retaken without the consent of the advisor(s) delegated for each professional curriculum.

Auditing Courses

To audit a course, a student must indicate that he/she wishes to audit the course rather than receive academic credit, at the time of registration. Registration to audit a course is subject to the following regulations:

1. Students must pay the tuition assessment for the course, which is the same as if it were taken for academic credit;
2. A student is not permitted to take quizzes and examinations in audited courses;
3. A student may not normally change from audit status after registering for the course. In some cases, exceptions may be permitted during the term with the written recommendation of the instructor and the written approval of the Dean of the college/school

in which the student is enrolled. The instructor's recommendation and Dean's approval must be included with the student's Drop/Add Form indicating the desired change.

- mathematics
- natural sciences
- social sciences

Change of Grades or Marks

Once recorded in the Office of the Registrar, grades/marks will be changed only if the instructor posts the grade change in the online grade/mark change system in Academica. Most changes must be posted within one calendar year. (Deferred (Y) grades are the exception.) Failure grades that are posted as a result of a student not completing an incomplete course may not be changed. After a degree has been awarded, the grades associated with that degree may not be changed. Other change of grades or marks older than a year must be approved by the department chair and the Associate Dean of the school or college that offered the course.

Credit by Special Examination

Upon the recommendation of the Department Chairperson and with the written approval of the appropriate College or School office, a student may earn credit in a course in which he/she has not been regularly enrolled in this University, but which is offered by a Department, by passing a special examination. Credit by a special examination is restricted as follows:

1. Not more than sixteen credits may be earned in any one subject.
2. Credit will be recorded with grade to indicate the level of performance in the examination but will not be considered in computing grade point average.
3. Credit will not be considered residence credit.
4. To be eligible to earn Credit by Special Examination, a student must have been regularly admitted or have attended with guest status, have enrolled for one semester and have completed at least one course.

Students who intend to transfer to other schools are cautioned that Credit by Special Examination at one institution is infrequently accepted for transfer credit by another institution.

Advanced Placement Tests

Superior performance in the College Board Advanced Placement Tests will entitle an entering freshman to consideration for advanced placement and/or advanced standing credit in the areas covered by the examination. These areas include American history, European history, art history, studio art, biology, chemistry, computer science, English, French, German, Latin, Spanish, mathematics, music literature, music theory, and physics. Advanced placement and/or advanced standing credit will be awarded and such credit may satisfy General Education Requirements (see General Education Program (p. 22)) in accordance with policies adopted by the appropriate Department. Interested students should contact the Office of Undergraduate Admissions (<https://admissions.wayne.edu>).

College-Level Examination Program

The College Board sponsors the College-Level Examination Program (CLEP). This program gives students and prospective students the opportunity to demonstrate their academic proficiency at the freshman-sophomore college level in various areas and in specific subjects whether or not they have had previous formal college instruction in materials covered by the tests. As described by the College Board, the examinations are intended to provide a comprehensive measure of undergraduate achievement in the five basic areas of the liberal arts:

- English composition
- humanities

They are not intended to measure advanced training in any specific discipline, but rather to assess a student's knowledge of fundamental facts and concepts, his/her ability to perceive relationships and his/her understanding of the basic principles of a subject. The content of the Examinations is similar to the content of those subjects ordinarily included in the program of study required of most general education students in the first two years of college.

The Subject Examinations are essentially end-of-course tests developed for widely taught undergraduate courses. They measure understanding of basic facts and concepts, as well as the ability to apply such understanding to the solution of problems and the interpretation of materials. Questions that require of a student only rote recall are avoided.

Superior performance in these examinations will be considered as a basis for granting advanced placement and/or advanced standing credit as well as for waiving parts of the General Education Requirements of the University (see General Education Program (p. 22)). For further information, please consult advisors, school or college offices, or University Advising Center at 313-577-8889.

Transfer of Undergraduate Credits

Wayne State University policy accepts transfer credit from all accredited institutions of higher education, both community colleges and baccalaureate-granting colleges and universities.

No transfer grades apply in computing Wayne State grade point averages.

Transfer Credit from Regionally Accredited Institutions: Wayne State University will accept equivalent academic credit from regionally accredited baccalaureate-granting institutions and community colleges and other regionally accredited institutions which offer associate degrees. Courses must be completed with a grade of C or higher to transfer in to Wayne State.

Credit from Institutions NOT Regionally Accredited: Wayne State University will accept transfer credit from other accredited institutions, provided that the institution:

1. grants a baccalaureate or associate degree;
2. is fully accredited by an agency recognized by the Council for Higher Education Accreditation (CHEA); and
3. the courses presented for transfer are shown to have equivalency or are determined to be of a traditional academic nature.

Transfer Credit from Institutions in Candidacy Status: Wayne State University will accept for transfer those credits from institutions with candidacy status from a regional accrediting agency.

Technical, Vocational and Applied Credit: To facilitate transfer of students, Wayne State University will accept transfer credits earned in technical, vocational and applied (TVA) courses at two- and four-year colleges if such courses are determined to be related to a student's intended program.

Transfer of Remedial or Developmental Course Work: Credit earned in courses designated remedial or developmental will not transfer.

Transfer of Redundant or Duplicative Course Work: Transfer credit will not be awarded for redundant course work (i.e., courses with substantially duplicative content). Credit will be awarded for only one course in any set of redundant courses.

Residency and Upper Division Requirements: Transfer students will be required to meet the University and College residency requirements and to obtain the same number of upper division credits in fulfillment of the baccalaureate degree as are required of native students in specific major programs.

Junior Standing: Wayne State University will award junior standing to all transfer students for whom fifty-six or more transferable semester credits have been accumulated, whether they are transferred credits or credit earned at Wayne State University. Junior standing will not guarantee automatic entry to major and professional programs in the Schools and Colleges. Transcripts will be individually evaluated to determine whether all prerequisites for major and professional standing have been met by native and transfer students.

Grade Point Average

The grade point average (g.p.a.) is the numerical index of the student's scholastic average across all transcript credit earned at a given student level (i.e. undergraduate or graduate). Points are assigned to each letter grade (see University Grading System, above) for each hour of credit. To compute your grade point average, multiply the grade points assigned to each course grade by the number of credits for each course; add the results and divide by the total number of credits.

For example, a grade of A in a class carrying 3 credits would be assigned 12 grade points (3 x 4), and a grade of C in a class carrying 4 credits would be assigned 8 grade points (4 x 2). In this example, the grade point average is: 20 (total grade points) divided by 7 (total credits attempted) = 2.85 g.p.a.

Credit for special examinations, transfer credit, and courses in which a mark of I or W or a grade of S, U, M, P, and N, has been earned are excluded from grade point average computation.

Law School: This grade point system does not apply to Law School students.

Undergraduate Academic Probation

An undergraduate student whose cumulative grade point average (g.p.a.) falls below 2.00 will be placed on Academic Probation. An 'Academic Probation' status is placed on the student's record and the student shall be permitted to register only after consultation with, and approval has been granted by, a designated University advisor.

A student shall be given two subsequent terms for enrollment on probationary status. At the conclusion of the two terms, a student who has not achieved a cumulative g.p.a. of at least 2.00 shall be excluded from his/her program. A student excluded from the University may not apply for readmission or reinstatement for one calendar year.

Each School and College may establish more stringent Probation, Exclusion, and Appeal policies, and students should consult the appropriate Dean's Office. Students must consult with an academic advisor regarding appropriate deadlines for academic hold releases and/or reinstatement procedures.

Grade Appeal Procedure

Students should first seek to settle grade disputes informally with the instructor. Each College and School has established formal grade appeal procedures. These procedures are available from the Dean's Office of the College or School. In most instances, formal grade appeals must be filed within thirty days of the time the student has or should have received his/her final grade.

Academic Appeal Procedure

In matters where a College's signed final decision is based upon the evaluation of a student's academic performance, and when review procedures available to him/her within the College have been exhausted, the student may request the Associate Provost for Academic Programs to review that decision on the record. The academic appeal form (<https://provost.wayne.edu/academic-policy/>) must be submitted by the student himself/herself, **within thirty calendar days** of the postmark of the College's final decision, which is to be sent to the address provided by the student in the College's review procedures. The Associate Provost's review of the College's decision will proceed as soon as practicable after submission by the student of his/her wish to seek review.

Classroom Attendance Policy for Undergraduate Students

Whenever attendance forms a basis for a portion or all of a course grade, students must be provided with explicit written information concerning that fact during the first week of classes. Such information shall be specific with regard to the penalty incurred for each absence and the means, if any, to compensate for the absence. It should be recognized that there may be certain situations where the student may not be permitted to make up the absence(s).

It is recognized that students may be required to miss classes on occasion as a result of their participation in approved University activities. Examples of such activities include formal participation on University sports teams, debate teams, and performing arts groups. These activities are generally directed by a University official, such as a coach, and usually have a set schedule of events.

Students participating in approved University activities should consult with instructors prior to registration, but no later than the end of the second week after the start of classes, to determine the class attendance policy. At this time, the student should provide the instructor with a schedule of planned absences, preferably signed by the University official directing the activity (e.g., Athletic or Program Director or his/her designee), in order to allow the instructor to evaluate and advise the student on the possible impact of the planned absences. In this case, the instructor will consider absences due to participation in approved University activities, as outlined above, to be excused absences, on par with those due to other unavoidable circumstances such as illness. For classes requiring mandatory attendance incompatible with the number of planned absences, students will be advised to register, if possible, during a semester in which they will not be participating in the University activity (for example, during the off-season for a sports team or during the summer).

It is the student's responsibility to learn the course material. When classes are missed, for whatever reason, it is the student's obligation to obtain copies of the class materials and students are responsible for all materials covered in the lectures. An excused absence does not excuse the student from completing assigned work, including exams.

This policy shall be applicable to all courses within the University.

Religious Holidays

Because of the extraordinary variety of religious affiliations of the University student body and staff, the Academic Calendar makes no provisions for religious holidays. However, it is University policy to respect the faith and religious obligations of the individual. Students with classes or examinations that conflict with their religious observances are expected to notify their instructors well in advance so that mutually agreeable alternatives may be worked out.

Responsible Attendance and Performance

Students must show diligence and are normally expected to complete the courses they elect. Irresponsible attendance is wasteful of both student and University resources. Those students who consistently receive excessive marks of I (incomplete) or W (Withdrawal) may be refused the privilege of further registration by the dean or the dean's designee of their school or college.

Student Rights and Responsibilities

Upon the recommendation of the Student-Faculty Council, the University (Faculty) Council, the President-Deans Conference and the President, the Board of Governors, in January, 1967, approved a comprehensive statement of Student Rights and Responsibilities for the University. Copies of this document are available to students and faculty in the offices of the deans of each College and the Dean of Students Office.

Law School: The faculty of the Law School has approved a set of academic regulations specifically applicable to Law School students, copies of which are available to all students enrolled in the Law School.

Student Academic Ethics

Academic Records: The submission of fraudulent academic records for admission or transfer of credit by a student may be cause for the student's dismissal.

Academic Work: Academic work submitted by a student for credit is assumed to be of his/her own creation, and if found not to be, will constitute cause for the student's dismissal.

Student Code of Conduct

High standards of student conduct play a major role in creating an environment of excellence and the Student Code of Conduct is used to maintain these standards. The code:

1. establishes the expectations that students are accountable for their behavior;
2. describes acceptable student conduct, both academic and non-academic;
3. describes disciplinary policies and procedures;
4. specifies the rights of students and other parties; and
5. specifies prohibited conduct and sanctions to be imposed if such conduct occurs.

Examples of prohibited conduct subject to the Student Code of Conduct include, but are not limited to, academic misbehavior, knowingly furnishing false information to the University, disorderly behavior, theft, damage of property, illegal drugs, weapons on campus, physical assault, unauthorized entry, violation of criminal law, etc.

The University Student Conduct Officer, housed in the Dean of Students Office, monitors the student disciplinary process and is responsible for coordinating matters involving student discipline; describing the disciplinary procedures; and informing students and other parties of their rights. The Student Code of Conduct (<https://doso.wayne.edu/conduct/>) is published by the Dean of Students Office.

Obligations to the Instructional Process

Since education is a cooperative effort between teacher and student, both parties must fulfill obligations if the integrity and efficacy of the instructional process are to be preserved.

Responsibilities of Faculty Members

1. To contribute to and remain abreast of the latest developments in their fields;
2. To continually pursue teaching excellence;
3. To treat all students with respect and fairness without regard to ancestry, race, color, religion, political belief, national origin, gender, sexual orientation, age, marital status, disability, or veteran status;
4. To encourage differing viewpoints and demonstrate integrity in evaluating their merit;
5. To attend regularly and punctually, adhere to the scheduled class and final examination times, and arrange for notification of absence and coverage of classes;
6. To establish and maintain appropriate office hours;
7. To present, early in the semester, the following course information:
 - a. course objectives and general outline;
 - b. classroom procedures to be followed, expectations concerning class attendance, and proposed dates of major evaluations (including examinations, papers, and other projects);
 - c. grading policy;
 - d. where appropriate, a schedule of class-related activities, including class meetings and laboratory sessions;
 - e. lists of texts and/or other materials needed for the course;
 - f. late enrollment, withdrawal, and other special policies.
8. To provide and adhere, within reasonable limits, to the written syllabus of the course;
9. To know course matter thoroughly and prepare and present the material conscientiously;
10. To be informed of University services and recommend their use to students when advisable;
11. To follow these policies concerning written work and grades:
 - a. grade and return written work promptly;
 - b. submit final grades by the scheduled time;
 - c. retain written materials not returned within the semester (e.g., final examinations, major term papers) for one academic semester in accordance with unit policy and allow students to examine such materials;
12. To implement unit procedures for student evaluation of faculty teaching, with attention to preserving student anonymity;
13. To behave appropriately in dealing with students so as to maintain a scholarly atmosphere

Responsibilities of Students

1. To inform themselves of and to fulfill all requirements of the University and those of the College and Department from which they expect to receive their degree;
2. To fulfill conscientiously all assignments and requirements of their courses;
3. To attend classes regularly and punctually;
4. To maintain a scholarly, courteous demeanor in class;
5. To uphold academic honesty in all activities;
6. To notify the instructor as early as possible if prevented from keeping an appointment or carrying out an assignment;
7. To discuss with the instructor any class-related problem and follow established procedures in the resolution of these problems;
8. To adhere to the instructor's and general University policies on attendance, withdrawal, or other special procedures.

It is expected that faculty and students will fulfill their obligations to the instructional process. If, however, a complaint does arise, the parties should meet in an effort to resolve the matter. When such a discussion

fails to resolve the problem or is inappropriate given the circumstances, the head of the academic unit should be contacted. If this contact fails to satisfy the complaint, the College's published procedures should be followed. Although University Ombuds Services is not a direct part of the appeal process, students and faculty may consult Ombuds Services at any point during such proceedings.

Academic Nepotism Policy

Faculty members are not to place themselves, or allow themselves to be placed, in situations amounting to 'academic nepotism,' i.e., teaching or otherwise directing the credit study or research of a student who is also a close relative. Concomitantly, students are not to take courses from close relatives or engage in research for academic credit under the direction of close relatives. All such credit will be disallowed.

Fraud and Misuse of Documents

Intentionally furnishing false information to the University is explicitly prohibited, as is forgery, alteration, unauthorized possession, or misuse of University documents, records and identification cards. The University reserves the right to rescind degrees if the award of the degree was based in whole or in part on deception, fraud, other unacceptable academic conduct, or misuse of University documents.

Tuition and Fees

Listed below are the Tuition and Fees, as adopted by the Board of Governors, at the time of preparation of this Bulletin. Please see the Graduate Bulletin (<http://bulletins.wayne.edu/graduate/>) for rates in Graduate and Professional programs. Additional information about current tuition and fees (<https://wayne.edu/registrar/tuition/>) is available via the Office of the Registrar. **Tuition and Fees are subject to change without notice by action of the Board of Governors.**

Flat Rate Tuition

Beginning Fall 2023, Wayne State University will offer a flat rate tuition (<https://wayne.edu/registrar/flat-rate-faq/>) structure for undergraduate students registered for 12-18 credits. Undergraduate students registered for 11 credits or fewer will be assessed per credit hour. Undergraduate students registered for more than 18 credits will be assessed the flat rate plus the per credit rate for each credit exceeding the 18 credits covered by the flat rate.

Undergraduate Tuition and Fees All Schools (other than listed below)*

Resident Lower Division (Per Credit, \$519.46 per credit
1-11 cr.)

Resident Lower Division (Flat Rate, \$6,246.49
12-18 cr.)

Resident Upper Division (Per Credit, \$616.48 per credit
1-11 cr.)

Resident Upper Division (Flat Rate, \$7,413.08
12-18 cr.)

Non-Resident Lower Division (Per Credit, 1-11 cr.) \$1,189.80 per credit

Non-Resident Lower Division (Flat Rate, 12-18 cr.) \$14,307.28

Non-Resident Upper Division (Per Credit, 1-11 cr.) \$1,417.61 per credit

Non-Resident Upper Division (Flat Rate, 12-18 cr.) \$17,046.62

* Includes: Education (except for Division of Kinesiology), Liberal Arts and Sciences (excluding public health majors and science majors), Pharmacy, and Social Work.

Business; Education (Division of Kinesiology); Engineering; Fine, Performing and Communication Arts; and Liberal Arts and Sciences (Public Health majors)

Nursing

Resident Lower Division (Per Credit, 1-11 cr.) \$555.30 per credit

Resident Lower Division (Flat Rate, 12-18 cr.) \$6,677.43

Resident Upper Division (Per Credit, 1-11 cr.) \$808.30 per credit

Resident Upper Division (Flat Rate, 12-18 cr.) \$9,719.75

Non-Resident Lower Division (Per Credit, 1-11 cr.) \$1,225.64 per credit

Non-Resident Lower Division (Flat Rate, 12-18 cr.) \$14,738.21

Non-Resident Upper Division (Per Credit 1-11 cr.) \$1,609.43 per credit

Non-Resident Upper Division (Flat Rate, 12-18 cr.) \$19,353.28

Junior Year in Munich - Per Semester Rate

WSU Students \$7,350.00

Affiliated Schools \$16,000.00

Non-affiliated Schools \$18,000.00

Registration Fee

There is a \$264.26 registration fee for undergraduates. The registration fee is refundable according to the same principles as tuition and other fees.

Late Registration Fee

Any student registering after the priority registration date (<https://wayne.edu/registrar/registration/>) must pay either a non-refundable \$35.00 Late Registration Fee if registration is completed before the start of classes, or \$70.00 if completed after the start of classes. Late Registration Fees will be waived for new students in their first term of WSU enrollment.

Student Services Fee

Undergraduate students are assessed a \$42.50 fee per credit. The Student Services Fee is used primarily to maintain, upgrade and replace student computing and technology resources on campus. A small

portion is also used to fund student activities on campus, and to enhance programs directed toward improving on-campus activities, including athletics.

Student Support Fees

Engineering Support Fee - Lower Div. Full-Time \$100.00

Engineering Support Fee - Lower Div. Part-Time \$50.00

Engineering Support Fee - Upper Div. Full-Time \$350.00

Engineering Support Fee - Upper Div. Part-Time \$175.00

Sciences Support Fee - Lower Div. Full-Time** \$50.00

Sciences Support Fee - Lower Div. Part-Time** \$25.00

Sciences Support Fee - Upper Div. Full-Time** \$100.00

Sciences Support Fee - Upper Div. Part-Time** \$50.00

Honors Support Fee - Full-Time \$50.00

Honors Support Fee - Part-Time \$25.00

** The Sciences Support Fee is charged to these majors in the College of Liberal Arts and Sciences: Actuarial Mathematics, Astronomy, Biochemistry & Chemical Biology, Biological Sciences, Biomedical Physics, Chemistry, Computer Science, Communication Sciences & Disorders, Dietetics, Environmental Science, Geology, Information System Technology, Mathematics, Neurosciences, Nutrition & Food Science, Physics, Psychology, Public Health, and Statistics (including those with departmental honors).

Matriculation Fee

New undergraduate freshmen and transfers will pay a \$250.00 Matriculation Fee.

Student Exchange and Visitors Information Service (SEVIS) Fee

International students and scholars/visitors who must be reported through the federal SEVIS system shall be charged a \$50.00 non-refundable fee for each term of enrollment.

Course Material Fees

These fees are required of some classes in which a relatively large portion of instructional costs is due to the necessary use of consumable resources. The fee is automatically assessed; a fee card is not required. The fee may be canceled when a course is officially dropped within the tuition and fee cancellation period specified in each semester's term calendar. For additional information, contact the Department offering the course. Courses listed as having special fees require payment of the fee in addition to the tuition.

Music Fees

Students registering for music courses taken as private lessons pay an additional fee. In the event of withdrawal, the student will receive a refund of the difference between the fee assessed and the cost to the University of any lessons that were provided.

Examination Fee for Credit by Examination

The fee for an examination taken to establish credit by examination is \$10.00 per credit. Such examinations will be approved under provisions

established by the Schools and Colleges. Credit allowed on the basis of transcript entries from another institution is not applicable to this provision.

Graduation/Certificate Fee

There shall be a \$40.00 fee for students who apply for a degree or certificate/diploma. Graduate applicants for graduate degrees will not be charged the Graduation Fee as they pay a higher Registration Fee. Undergraduates who are new to the university in fall 2014 or after will pay a Matriculation Fee in lieu of a Graduation Fee and in lieu of an Orientation Fee.

Payment of Tuition and Fees

Student Financial Obligation for Payment of Tuition and Fees

When registering for courses each semester students are required to electronically sign a "Financial Responsibility Agreement." This agreement represents a binding contract obligating the student to pay all tuition and fees assessed including any collection, attorney, and/or litigation costs associated with collecting those fees, in the event of non-payment.

Payment Due Dates

- FALL TERM: Payment is due August 15.
- WINTER TERM: Payment is due December 15.
- SPRING/SUMMER TERM: Payment is due April 15.

Students registering on or after these payment dates are expected to pay the balance in full at the time of registration.

Payments not received by the due date(s) are subject to late payment fees. Failure to make payment because a statement of account or invoice is not received does not exempt students from late payment fees. Please refer to the published tuition due dates and the complete eBill Posting Schedule and Payment Due Dates on the Office of University Bursar's website (<http://fisops.wayne.edu/bursar/e-bills/eBill-Schedule.php>).

Payment Options

Wayne State University provides various options for paying tuition and fees:

1. in person at the Cashier Office, Room 217; Welcome Center, 42 W. Warren; or
2. by mail to Wayne State University, P.O. Box 02788, Detroit, MI 48202; or
3. online via the "Student Account Dashboard" in Academica.

Checks, Money Orders, and Cash

Wayne State University accepts personal and certified checks, money orders, and cash as payment for tuition and fees. Payments can be mailed. However, please do not mail cash. Checks or money orders should be made payable to Wayne State University. The student's name and University AccessID number should be written on the check or money order.

Fee-free ACH Checks

Wayne State University also accepts fee-free automated clearing house (ACH) check payments via the "Student Account Dashboard" in Academica. Checks (paper or ACH) returned by the bank are subject to returned check fees.

Credit Card Payments

Wayne State University does not accept credit card payments directly. Online credit card payments are accepted and processed by CASHNet Smartpay. CASHNET Smartpay is a third-party payment processor

operating under an agreement with Wayne State University to process electronic payments on your behalf. Please be advised that to utilize their service the third-party processor charges a convenience fee of \$3 for transactions between \$22 and \$105, and 2.9% for all other transactions.

To make a credit card payment log into Academica and select the "Student Account Dashboard" option under "Student Resources" link. American Express, Discover, MasterCard and Visa cards are accepted.

Student Account Dashboard Payment Plans

Wayne State University offers interest free installment payment plans for students on a semester-by-semester basis. To enroll, select the "Student Account Dashboard" option under the "Student Resources" link in Academica. Then select "Payment Plans" to see options available. There is a nominal fee for enrolling.

Sponsored Tuition Program

Certain employers participate in direct tuition billing arrangements as part of their employee benefits programs. Students with questions about the University's procedures or required documentation for a specific plan should contact the Student Accounts Receivable Office at 313-577-6623.

Holds on Records

Initial eligibility to register for classes each semester is based on a student's admission status with the University. All students must be authorized by the University in order to enroll in classes. 'Holds' may be placed on student records, and registration denied to a student, for academic reasons (e.g., probation or dismissal), a disciplinary problem, money owed to the University, failure to return library books and/or other supplies and equipment, and/or non-compliance with program, Departmental, School/College, or University regulations.

A 'Hold' will be placed on the records of any student who has past due indebtedness to the University. While the hold is in effect, registration for a subsequent term will not be permitted, official transcripts of academic work taken at the University will not be furnished, degree or enrollment certification will not be provided, nor will a diploma be issued.

Transcript Request Policy

Transcripts are not issued to anyone outside the University without the written permission of the student. Request for official transcripts will not be honored if the student or former student has an outstanding financial obligation to the University. Exceptions are permitted for employment purposes only with an agreed upon payment plan and acceptable down payment.

Delinquent Prior Term Balances

Personal checks are not accepted as payment for delinquent balances. Payment must be made by cash, certified check, money order or credit card.

IMPORTANT: Students who do not drop their courses during the tuition cancellation period for the term are financially obligated to pay for the courses even if they have not attended any class sessions. Specific dates are available in the Academic Calendar (p. 10).

Students with questions regarding any information presented in Payment of Tuition and Fees section above should contact the Office of the University Bursar at 313-577-3653.

Disclosure Statement

The University reserves the right to update and/or change this information at anytime.

Late Registration

Registration is not permitted beyond the prescribed registration date unless extenuating circumstances beyond the control of the student warrant an exception to University Policy as determined by the University Registrar. In such cases, full tuition, Registration Fee and Late Registration Fee is due on the day of registration.

Short Term Courses

Payment of the full tuition and the non-refundable Registration Fee is required on the date of registration or no later than the first class meeting date. Late Payment Fees are assessed to any student who has not paid his/her tuition and fee assessment by the eBill due date.

Special Adjustments

The University Registrar is authorized to make adjustments in the application of the policies stated in this section when unusual circumstances warrant. Examples of circumstances which may warrant special consideration include: serious illness or death of the student or someone closely related, or mis-advisement by a University representative. Tuition cannot be canceled for reasons such as changes in work schedule or other employment demands, claims of lack of information, insufficient funds, unawareness of the difference between tuition and student financial aid, undocumented reasons, or for reasons that are within the control of the student. Non-attendance, except for situations falling under the University non-attendance policy (below), is not in and of itself a reason for tuition and fee cancellation. Students (or an authorized representative in the case of death or serious illness) must submit their applications and supporting documentation to the Office of the Registrar. A medical withdrawal is a complete withdrawal from all courses, supported by medical reports from the attending physician. Requests for exceptions to tuition and fee policies must be submitted within approximately two months of the end of the term, as follows:

- Fall Term - March 1
- Winter Term - July 1
- Spring/Summer Term - November 1

Deadlines falling on weekends will be extended to the next business day.

University Non-Attendance Policy

The University Non-Attendance Policy will allow 100% tuition cancellation only for students in their first term of attendance at Wayne State University. Instructors for all courses must verify the student did not attend classes after the tuition cancellation deadline. This policy is designed to provide relief to those students who in their first semester at Wayne State may not be familiar with the University's Tuition Cancellation Policy.

Where the student has otherwise proceeded properly, (s)he may be granted full cancellation of tuition and fees assessed for the class(es) involved:

- If the University cancels the class(es), or
- If the University re-schedules the class(es) after the student has registered and (s)he is now unable to attend, or
- If an authorized University representative has taken action which causes financial loss related to tuition, e.g., authorizing a student's schedule when the student does not have the necessary prerequisite(s).

Appeal Procedures: If a student (or an authorized representative in the case of death or serious illness) is dissatisfied with the Registrar's decision with reference to this policy, the student (or an authorized

representative) may appeal to the Tuition and Fee Appeals Board through the University Ombudsperson.

University policy allows for a Request for Medical Withdrawal. A medical withdrawal is a complete withdrawal from all courses. For approved requests, the University Medical Withdrawal Policy will grant 100% tuition and fee cancellation if a student stops attending ALL classes before the end of the 10th week of the scheduled class meeting period in a full fall/winter term. Medical documentation will need to confirm that medical attention was provided during this time period. For medical withdrawals occurring during the 11th or 12th week, tuition cancellation will be granted at the rate of 60%. There is no tuition cancellation after the twelfth week of the term. These periods are adjusted proportionally for courses that do not run the full term. While a request is under review tuition payments should be made as scheduled.

Tuition Cancellation

Tuition may be canceled in accordance with the following schedule when students officially drop classes using the Academics on-line portal, by submitting a properly completed Register/Drop/Add form, or by sending a certified letter to the Office of the Registrar. A certified letter requesting to drop classes sent through the U.S. Postal Service shall be considered effective on the date it is received in the Office of the Registrar.

Students who officially drop classes before the conclusion of the first two weeks of classes (for the Fall and Winter full-term courses) are entitled to 100% tuition cancellation, and the dropped classes do not appear on the academic record.

Students are contractually liable for tuition unless they take official action during the tuition cancellation period to drop classes.

Students who officially withdraw from fifteen-week classes after the second week of classes (for the Fall and Winter terms) are not entitled to any tuition cancellation.

The tuition cancellation schedule shown below applies to courses that start in accordance with the Official University Academic Calendar. The tuition cancellation schedule for courses with specially approved starting dates is dependent upon the starting date of the course. Questions about the tuition cancellation schedule should be referred to the University Registrar.

Classes meeting fewer than four weeks: Students who officially drop scheduled classes before the first day of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Classes meeting four to eight weeks: Students who officially drop scheduled classes before the second week of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Classes meeting nine to fifteen weeks: Students who officially drop scheduled classes before the third week of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Classes meeting sixteen to twenty-seven weeks: Students who officially drop scheduled classes before the fourth week of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Classes meeting twenty-eight or more weeks: Students who officially drop scheduled classes before the seventh week of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Residency Regulations and Review Procedures: In-State Tuition

The following regulations and review procedures are established by Wayne State University for tuition and fee purposes. Wayne State University recognizes three means by which an individual may establish eligibility for in-state tuition and fees:

- By establishing residence by presence in the State of Michigan;
- By establishing attendance at Michigan high schools; or
- By establishing military service status.

Establishing Residence by Presence in Michigan

Generally, in order to establish residence by presence in the State of Michigan, an individual must document at least six months of continuous physical presence in the State. The six months continuous residence must be completed before the first day of classes for the semester in which in-state tuition is sought. Even if someone is present in Michigan for six months, the person may not qualify for in-state tuition; it depends on whether the person is in Michigan for educational purposes or some other reason. Under limited circumstances which clearly demonstrate that a student's presence in the State of Michigan is not primarily for educational purposes, the student may be eligible for in-state tuition prior to the passage of the six-month presence requirement.

Temporary Absences

In general, a person's residence is the place where he or she actually lives with the intention of making it the person's permanent home and to which he or she intends to return from temporary absences. A person may be temporarily absent from Michigan without affecting his or her previously established residence. Full-time attendance at a school outside Michigan or enlistment in a military service are examples of temporary absences. Other types of absences for more than six months will be presumed not to be temporary.

Presence for Educational Purposes

Coming to Michigan from another state or country in order to attend Wayne State University or another school does not establish residence. A non-resident at the time of his or her enrollment remains a non-resident throughout his or her presence as a student, except where it can be established that presence in the State of Michigan is primarily for purposes that are not educational, with enrollment only incidental to the primary purpose of being in Michigan. If a student enrolls in undergraduate school for more than eight credits, or in graduate school for more than six credits, or in Law School for more than ten credits in any one full length semester, within six months after arrival in Michigan, Wayne State University normally presumes that the student is in Michigan for the purpose of attending school. Applicants must demonstrate that their presence in Michigan is primarily for purposes that are not related to enrollment.

Factors Considered in a Residence Classification

The following circumstances, although not conclusive, support a claim for in-state tuition on the basis of residence:

1. The student is employed in Michigan on a permanent, full-time basis or has accepted an offer of permanent employment in Michigan.
2. The student's parents (or in the case of divorce, one parent) are legal residents of Michigan as shown by their permanent employment in Michigan and/or their establishment of a primary household in Michigan, and the applicant previously was a resident of Michigan and has maintained significant connections to Michigan.

3. The student's spouse or partner is employed in Michigan on a permanent, full-time basis and the applicant moved to Michigan as a consequence of that employment; and
4. The student has severed ties to his or her previous state of residence so that he or she no longer can reasonably be considered to be a resident of another state.

Factors Typically Not Supporting Residence Classification

The following circumstances, standing alone, do not typically support residence, inasmuch as they may be common to a temporary or short-term presence in Michigan:

1. Employment by the University as a fellow, scholar, assistant, or in any position normally filled by students;
2. A statement of intention to establish residence in this state;
3. Payment of local and state taxes; or
4. Automobile registration, driver's license, continued presence in Michigan during vacation periods.

Although insufficient to establish residence, certain of these factors may be taken into consideration in determining whether a student has severed ties to the student's previous state of residence.

For purposes of these regulations, the age of majority is eighteen years. Except as provided in paragraph 7 of this section, a minor does not have the capacity to establish his or her own legal residence. Normally, the legal residence of a minor follows:

1. That of the parents or surviving parent; or
2. That of the parent to whom custody of the minor has been awarded by a divorce or other judicial decree; or
3. That of the parent with whom the minor in fact makes his or her home, if there has been a separation without a judicial award of custody; or
4. That of an adoptive parent, where there has been a legal adoption, even though the natural parents or parent may be living; or
5. That of a "natural" guardian, such as grandparent with whom the minor in fact makes his or her home, where the minor has permanently left his or her parental home and reasonable expectation of substantial financial support from the parents has been dissolved. A natural guardian is someone who, although not legally the minor's parent or guardian, performs the same sort of parental duties.
6. If a Michigan resident parent or guardian of a minor moves his or her residence to another state, the minor shall remain eligible for resident tuition status as long as he or she continues to attend school regularly in this state.
7. A minor who has permanently left his or her parental home, and who has no reasonable expectation of significant financial support from his or her parents or legal guardian, etc., may qualify for resident status even if under eighteen years of age.

Non-U.S. Citizen

A non-U.S. citizen may apply for resident status in the same manner as a citizen, if he or she is in the United States for other than a temporary educational purpose. In order to demonstrate this, applicants must provide evidence from the U.S. Department of Citizenship and Immigration Services of one of the following:

1. A U.S. permanent resident alien with a green card.
2. An applicant for U.S. permanent residence whose Petition for Alien Relative, or Employment-based Immigration Petition for Alien Worker has been approved, or who has been issued an Employment Authorization document pending adjustment of status. These

individuals will have documentation of this status such as an I-130 (Petition for Alien Relative) or I-140 (Immigration Petition for Alien Working) Approval Notice, or an I-151 or I-551 Notice of Action indicating approval of petition to become an immigrant.

3. An alien with a current valid visa type issued for purposes of working in the United States, and currently working in the State of Michigan. These currently include visa types of A, E, G, H, I, L, R, and TN.
4. An Alien granted asylum or refugee status.

Attendance of Michigan High Schools

An individual may be eligible for in-state tuition on the basis of high school attendance if he or she demonstrates that he or she:

1. Attended an accredited Michigan high school for at least three years and thereafter graduated from an accredited Michigan high school or obtained his or her GED in Michigan; and
2. Enrolls at Wayne State University within twenty-eight months of graduating from high school or obtaining a GED.

An individual does not need to be a legal resident of Michigan or a citizen of the United States to qualify for in-state tuition on the basis of attendance at Michigan schools.

Military Service

Individuals on active duty in the U.S. Military who are stationed in Michigan and their dependents are eligible for Michigan in-state tuition. Stationing orders and proof of relationship (for dependents) must be provided with the application.

Veterans and their dependents are eligible for Michigan in-state tuition. The term "veteran" means a citizen of the United States or a resident alien whose most recent separation from any branch of the armed forces of the United States was under conditions other than dishonorable after having served on active duty for 90 consecutive days or more or by reason of disability incurred while serving on active duty.

Individuals who are members of the National Guard of any state, or who were separated from the National Guard of any state under conditions other than dishonorable, and their dependents are eligible for Michigan in-state tuition.

Without regard to the foregoing, any individual using educational assistance under either Chapter 30 (Montgomery GI Bill® – Active Duty Program), Chapter 33 (Post-9/11 GI Bill®), of title 38, United States Code, and/or the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)) who lives in the State of Michigan while attending Wayne State University (regardless of his/her formal state of residence) is eligible for Michigan in-state tuition.

Good Neighbor Policy (Graduate Students Only)

Residents of Fulton, Lucas, Ottawa, and Williams counties in Ohio, or residents of Ontario, Canada, who are enrolled in eligible graduate programs will pay in-state tuition. This tuition benefit does not apply to certain academic programs, including School of Medicine MD program and the Doctor of Pharmacy program. Please refer to the Tuition and Fee Regulations (http://reg.wayne.edu/students/tuition_and_fee_regulations.php) for additional details.

Great Lakes Policy (Undergraduate Students Only)

Residents of the states of Indiana, Illinois, Wisconsin, Minnesota, New York, Ohio, or Pennsylvania, or the province of Ontario, Canada, who are enrolled in eligible undergraduate programs and who are not eligible for the Good Neighbor Policy may pay Michigan resident tuition rate plus 10 percent.

Online Programs

Students enrolled in programs which are offered online in their entirety will have the out-state portion of their tuition waived. WSU Tuition and Fee Regulations published each academic year will identify the specific academic programs eligible for this provision.

Review Procedures

Initial Classification and Appeal

1. The student is responsible for registering under proper residence or tuition status and advising the University of changes in circumstances, which might affect tuition status. Questions concerning a student's residence or tuition status prior to enrollment should be raised with the Office of Admissions. Questions arising after enrollment should be raised with the Registrar's Office.
2. After enrolling, a student may challenge the initial classification made by the Office of Admissions by filing an Application for Residence Classification or Change in Tuition Status with the Registrar's Office.
3. Except for documented delays caused by University personnel, such applications must be filed by:
 - a. September 30 for the Fall semester and the Medical Year semester
 - b. January 31 for the Winter semester
 - c. July 31 for the Spring/Summer semester

Deadlines falling on weekends or on days when the University is closed will be extended to the next business day. Applications received after these dates will be processed for the following semester.

Further Appeal

A student may appeal the initial tuition decision as follows:

1. By filing a written notice of appeal with the Registrar within thirty (30) days after the student is notified of the classification decision. The notice of appeal shall include reasons for the appeal, the period for which resident status is claimed, and a complete statement of the facts on which the appeal is based, together with supporting affidavits or other documentary evidence. Failure to file notice within thirty (30) days shall constitute a waiver of any right to further appeal. The student has the right to consult the University Ombuds Office at any time, and the student may particularly want to utilize the Ombuds' services at this point in the review procedures.
2. A student may appeal the Registrar's decision by filing a written notice of appeal with the Office of the General Counsel within fifteen (15) days from the date of the Registrar's decision. Failure to file written notice of appeal of the Registrar's decision with the Office of the General Counsel within fifteen (15) days shall constitute a waiver of any right to further appeal.
3. A student may appeal the decision of the Office of the General Counsel within fifteen (15) days with the Office of the President. Failure to file written notice of appeal of the General Counsel's decision with the Office of the President within fifteen (15) days shall constitute a waiver of any right to further appeal. After the notice of appeal, the President or his designee shall review the student's appeal and render a final decision.

Erroneous Classification

1. If an erroneous classification of non-residence occurs, an adjustment for the appropriate period and amount will be made.
2. If an erroneous classification of residence occurs, the student shall be reclassified as a non-resident student. If the cause of his or her incorrect classification shall be found to be due to any material concealment of facts or false statement made by the student before the time of the original classification, the student will be required to pay all tuition and fees which would have been charged to him or her

and also will be subject also to appropriate discipline in accordance with University Student Code of Conduct. If it is determined that there is no such concealment of facts by the student, fees shall be adjusted only for current and future semesters.

Effective Dates of Residence Regulations

Amended statute as adopted on September 20, 2013, will be effective for the Winter Semester 2014.

Financial Aid

Office of Student Financial Aid (OSFA)

Welcome Center, 42 W. Warren Avenue

P.O. Box 2340, Detroit, MI 48202

Telephone: 313-577-2100, Fax: 313-577-6648

<https://wayne.edu/financial-aid> (<https://wayne.edu/financial-aid/>)

The Office of Student Financial Aid (OSFA) provides need-based and non-need-based financial aid to help eligible students meet the expenses of their education. Financial aid is intended to supplement, not to replace, students' financial resources. Financial need is determined from the information that students submit on the Free Application for Federal Student Aid (FAFSA).

Information concerning merit scholarships (<https://wayne.edu/scholarships/>) is available on our website. Wayne State University offers a variety of university-wide scholarships that are awarded based on financial need, scholastic achievement, and/or leadership qualities. To apply for university-wide scholarships, current and admitted students can login to search and apply for scholarships (<https://wayne.scholarshipuniverse.com//public/>). WSU Scholarship Universe connects Wayne State University students to internal and vetted external scholarship opportunities. Note: Scholarships that have need as a criterion require submission of the annual FAFSA.

Service Hours: Walk-in financial aid assistance is provided in the lobby of the Welcome Center Monday through Friday, 9:00 a.m. to 5:00 p.m. You also may email studentservice@wayne.edu or call 313-577-2100.

The Office of Student Financial Aid will send email and notices to your WSU email account (<https://tech.wayne.edu/kb/communication-collaboration/wayne-connect/>). Information about your award and award requirements is available in the Financial Aid Portal (<http://studentss.prod.wayne.edu/StudentSelfService/ssb/financialAid/>) in Academica. More information about using Academica is available on our website (<https://wayne.edu/financial-aid/receiving/pipeline/>).

Financial Aid Types

Financial aid at Wayne State University is awarded in the form of a 'package,' or combination of aid sources, and generally consists of four types: grants, scholarships, loans, and employment. The amount of aid a student can receive cannot exceed the estimated cost of attendance. The amount of need-based financial aid that a student may receive cannot exceed their financial need, which is based on the information provided on the FAFSA. Students may be eligible for non-need-based aid in the form of scholarships or unsubsidized federal loans.

Grants

Grants are gift assistance awarded on the basis of financial need and do not require repayment. The Free Application for Federal Student Aid (FAFSA) is required. Federal grants include the Federal Pell Grant, the Supplemental Educational Opportunity Grant (SEOG) and the Federal TEACH Grant.

Scholarships

Scholarships are gift assistance awarded based on academic achievement or other special ability and do not require repayment. For some awards, financial need is a factor and a FAFSA is required.

Loans

Loans are money that must be repaid at a future date, usually following graduation or when the student ceases to be enrolled on at least a half-time basis. Federal loans require submission of the FAFSA.

Need- and non-need-based loans are available. Need-based loans for undergraduates include the Federal Direct Subsidized loan. Non-need-based loans include the Federal Direct Unsubsidized loan. Parents of dependent undergraduates may apply for a Federal PLUS loan to assist with educational expenses.

Federal Work-Study

Federal work-study is on- or off-campus part-time employment with eligible employers. Work-study is awarded based on financial need. Students interested in work-study should complete the annual FAFSA. The Work-Study Request Form available on our website. The Student Guide to On-Campus Employment, which explains the hiring process and the terms and conditions of employment is available from the Office of Career Services (<http://careerservices.wayne.edu/student-employment.php>).

Free Application for Federal Student Aid (FAFSA)

How and When to Apply for Financial Aid: Each academic year, submit the Free Application for Federal Student Aid (FAFSA) (<https://studentaid.gov/h/apply-for-aid/fafsa/>) and include the WSU federal code, 002329. The federal processor, the U.S. Department of Education will electronically transmit the FAFSA data to the Office of Student Financial Aid.

Help Completing the FAFSA: Help completing the FAFSA is provided online throughout the application process. Help also is available by telephone from the Federal Student Aid Information Center: 1-800-4-FED-AID (1-800-433-3243) during regular business hours (Eastern Time), Monday through Friday.

Application Deadlines

Application Priority Date: The application priority date for financial aid consideration at WSU is the date by which the FAFSA should be submitted to facilitate determination of student eligibility for financial aid before the beginning of the fall semester. The priority date is not a deadline. See our website (<https://wayne.edu/financial-aid/resources/dates/>) for current information.

The 2024-25 aid year includes the fall 2024, winter 2025 and spring/summer 2025 semesters.

- You can file the 2024-25 FAFSA starting, January 2024 through June 30, 2025.
- New first-year undergraduates are encouraged to file the FAFSA early to be considered for all available funding options.

Academic Calendar: At WSU, the spring/summer semester is the third term of the school year. For example: The spring/summer semester 2024 is part of the 2023-24 school year; the spring/summer semester 2025 is part of the 2024-25 school year.

Financial Need Determination

FAFSA Submission Summary (FSS): A summary of your completed FAFSA information. This replaces the Student Aid Report (SAR) that was used in previous years. Based on the FAFSA information, the FSS either states the student's Student Aid Index (SAI) or instructs the student to take additional action which will allow an SAI to be determined. The SAI is used in determining financial need. The FSS also indicates whether the financial aid application has been selected for the verification process.

How Financial Need Is Determined: To determine financial need, OSFA subtracts the student's student aid index (SAI) from the average cost of attendance (COA) for their program at Wayne State University. A negative

SAI is counted as a zero in this formula. COA minus SAI equals financial need.

Verification: The process by which an educational institution confirms the accuracy of the data reported on an individual student's FAFSA is called verification. The federal processor selects the FAFSA applications for which the data submitted must be verified. If a student is selected for verification, they must provide documentation to confirm the information on the FAFSA.

Note: If an application is selected for verification, the student must complete the verification process before eligibility for financial aid can be confirmed, and before financial aid can be paid.

The Cost of Attendance (COA): The cost of attendance (COA), which is also called a budget, components include: tuition, fees, books and supplies, housing allowance (based on the living arrangements reported on the FAFSA) and miscellaneous expenses. If a loan is awarded, loan fees will be an included component. All students are initially assigned estimated tuition costs and estimated costs for books and supplies based on full-time enrollment status for their academic programs. Financial aid awards are offered based on the estimated budgets. At the time of disbursement, each student's financial aid award is adjusted based on current enrollment status (full-time, three-quarter time, or half-time).

The COA may be adjusted to include dependent care directly related to attendance at WSU; costs related to a disability; computer purchase for educational purposes; costs to obtain a first professional license; and an allowance for reasonable costs directly related to one's program of study.

Michigan Resident and Out-of-State Resident Cost of Attendance (<http://wayne.edu/financial-aid/resources/cost-of-attendance/>): Please access our website for detailed information concerning how student budgets are assigned and cost of attendance component amounts.

Current Tuition and Fees (<http://reg.wayne.edu/students/tuition.php>): Tuition and fees are subject to change by the WSU Board of Governors without notice.

Special Circumstances (<https://wayne.edu/financial-aid/forms/appeal/>): The Office of Student Financial Aid recognizes that students may have extenuating financial circumstances that the standard need analysis form (FAFSA) does not consider. Applicants may request a review of extenuating circumstances that they believe affect their financial aid eligibility by submitting a Special Circumstances Appeal Form.

Eligibility and Conditions of Financial Aid

Students must be enrolled in an eligible degree- or certificate-granting program to receive financial aid funds. Enrollment must be at least half-time to be considered eligible for most types of aid. At the undergraduate level, enrollment for six credits is considered half-time and enrollment for twelve or more credits is considered full-time. Some scholarships may require enrollment in fifteen credit hours each fall and winter semester.

Non-degree programs have aid limitations and not all programs are eligible for financial aid. OSFA can provide more information about non-degree programs, including a list of specific certificate programs that are ineligible for financial aid.

Prerequisite coursework aid eligibility is limited. Determination of aid eligibility requires submission of the Prerequisite Coursework Aid Request Form, which is available on our website.

Repeat Coursework

Federal financial aid will pay for only one repeat registration in a course for which the student has previously earned a passing grade. That is, students are only eligible to receive financial aid the first time the course is repeated.

Financial Aid Enrollment Policy and the Census Date

Financial aid recipients are expected to attend all courses throughout the semester. If your participation in class is not confirmed by your instructor, your aid may be reduced or cancelled. The census date is the date on which WSU counts the number of students enrolled at the institution, which is the tenth day of each semester. It is the policy of the Office of Student Financial Aid to lock or "freeze" the number of enrollment credits after the census date each semester. After the credits are locked or "frozen," **grants and scholarships** will not be adjusted (increased or decreased) unless a student withdraws from all classes. Therefore, the number of credits for which a student is enrolled on the census date determines the amount of grant funds that they will receive for the semester.

If, after the census date, a student increases enrollment credits, the grant amount(s) will not be increased. If, after the census date, a student decreases their credits of enrollment, the grant amount(s) will not be decreased. However, if a student withdraws from all classes, federal financial aid regulations require OSFA to determine the amount of financial aid the student has "earned" based on the portion of the semester that has been completed. The "unearned" part of the student's award must be returned to the financial aid program(s) from which the award(s) was/were made. As a result, withdrawing from all classes may cause cancellation of a portion or of all financial aid.

Calculating "Earned" versus "Unearned" Financial Aid

OSFA must follow federal regulations in determining the amount of "earned" versus "unearned" federal financial aid disbursed to a student who then leaves school without completing the semester. The refund percentage is determined by the student's effective date of withdrawal from all classes, which is the last recorded date of attendance.

A student who completes 60% or less of a semester will be considered to have "earned" the same percentage of financial aid as the percentage of the semester completed. The percentage will be calculated by dividing the completed number of days by the total number of days in the semester. The percentage of "unearned" aid will correspond to the percentage of the semester not completed. A student who completes more than 60% of a semester will be considered to have earned 100% of the financial aid disbursed for that semester and no return of federal financial aid will be calculated.

A student has not "earned" all of the financial aid received may be required to repay those funds. Detailed information is provided in the WSU Withdrawals and Return of Title IV Policy (<https://wayne.edu/financial-aid/receiving/cancellation/>).

Enrollment Requirements for Federal Direct Loans

A student must be enrolled at least half-time to receive a federal loan disbursement. At the undergraduate level, enrollment for six credits is considered half-time.

Satisfactory Academic Progress (SAP)

Federal financial aid regulations require OSFA to apply reasonable standards for measuring whether a student is making progress toward a degree or certificate. The standards, which are called satisfactory academic progress (SAP), must be met for a student to remain eligible to receive financial aid. Academic progress is measured each semester.

WSU Satisfactory Academic Progress Standards are comprised of three components:

1. The cumulative grade point average of at least 2.0 is required at the undergraduate level.
2. The pace of progress toward the degree or certificate must be at least 67%, which is determined by dividing the cumulative number of credits completed by the cumulative number of credits attempted.
3. The maximum time frame for completing the degree or certificate, is 150% of the average published length in credits of the program.

Note: Full-time or part-time enrollment is not a factor in determining the pace of progress or the time frame since only credits are the units of measurement.

Financial aid warning status

If you are failing to make satisfactory academic progress, your financial aid eligibility will be reinstated for one warning semester. No SAP appeal is necessary. During the warning semester, you are expected to improve your academic standing and degree progress, to meet standards of SAP at the end of the semester. If you fail to achieve SAP at the end of the semester, you will be denied financial aid beginning the following semester. You may submit a SAP Appeal to request financial aid consideration.

SAP status notification

Check your SAP status in t (<https://academica.aws.wayne.edu>)he Financial Aid Portal (<http://studentss.prod.wayne.edu/StudentSelfService/ssb/financialAid/>) in Academica. If you are an active student with a FAFSA on file, you will be notified by email if you fail to meet SAP standards.

The WSU Satisfactory Academic Progress Policy is available online (<https://wayne.edu/financial-aid/receiving/sap/>).

Consequences of Withdrawing from Courses

A student's satisfactory academic progress (<https://wayne.edu/financial-aid/receiving/sap/>) may be affected if the student withdraws from courses during a semester. A student who does not comply with SAP standards may be denied financial aid for subsequent semesters. The university has specific instructions for SAP appeals (<https://wayne.edu/financial-aid/receiving/sap/sapappeal/>).

A student who withdraws from all courses may be required to repay a portion of the financial aid received. Please see the section above titled Calculating "Earned" versus "Unearned" Financial Aid. If a student's withdrawal from one or more courses results in less-than-half-time enrollment status, the student will not be eligible for new federal loan funds. At the end of the grace period on the loans received, repayment will begin.

The U.S. Department of Education's Office of Federal Student Aid (<https://studentaid.gov/>) governs the policies and procedures for loan repayments, deferment, forbearance, and limits. Detailed information about grace periods and loan repayment is available on the Federal Student Aid website. Students should contact their loan servicer to make repayment arrangements or request a loan deferment or forbearance.

The amount in federal student loans that a student can receive has annual and aggregate limits. Students are strongly encouraged to consider these limits in developing their education plan.

Financial Aid Disbursement

Financial Aid Disbursement: Financial aid (except work-study) is paid in two disbursements if the award is for the academic year (fall and winter

semesters). Half of the award is paid in the fall semester and half is paid in the winter semester.

Financial aid recipients are expected to attend courses throughout the semester. Aid will not disburse after courses begin unless the instructor confirms participation in courses. If participation in class is not confirmed, the amount of financial aid may be affected.

Financial aid funds are applied directly to institutional charges (tuition, fees, room and board). Any excess funds will be available within 14 days of the date the credit balance occurs or within 14 days of the first day of classes – whichever is later.

Federal Work-Study Payments: Work-study earnings are paid biweekly in the form of a paycheck. The department in which the student is employed submits a record of the hours worked to the Payroll Office, and the Payroll Office authorizes payments.

Note: Students cannot earn more than the amount of their work-study award. Spring/summer semester is separate from the fall and winter semesters. Unused funds from a fall and/or winter work-study award cannot be earned in the spring/summer semester.

Enrollment Requirements for Federal Direct Loans: A student must be enrolled at least half-time to receive a federal loan disbursement. At the undergraduate level, enrollment for six credits is considered half-time.

Records and Registration

Office of the Registrar

In Person Services: Student Service Center, Welcome Center, 42 West Warren

Mailing Address: 5057 Woodward; Suite 5101, Detroit, MI 48202

Telephone: 313-577-3550, Fax: 313-577-7870

h (<http://www.reg.wayne.edu/>)<http://wayne.edu/registrar/> (<http://wayne.edu/registrar/>)

The Office of the Registrar supports the instructional, research and service missions of the University by providing a wide variety of academic services to students, faculty and staff. The office consists of several units: The Office of the Registrar prepares academic calendars, assesses tuition and fees, determines residency, and reviews all appeals for exceptions to University enrollment policies. Records and Registration oversees registration, adds, drops, course withdrawals, grading, student personal and academic data, and transcripts/academic records. Curricular Services oversees the preparation of each term's Schedule of Classes, degree audit tools, graduation applications and diplomas. Transfer Credit evaluates coursework from other universities for undergraduate credit at Wayne State University.

Registration

Registration (<https://wayne.edu/registrar/registration/>) is the process of officially enrolling in classes for a particular term. Students can view the Class Schedule (<http://classschedule.wayne.edu>) online, add courses to their cart, and complete registration within Academica. A student may not attend any class for which he/she is not officially registered.

POST-BACHELOR STATUS: Students wanting graduate credit should NOT register 'post-bachelor.' This status allows students holding bachelor's degrees from accredited institutions to elect only courses open to undergraduate students (numbered below 7000), which may be used to fulfill prerequisite requirements for graduate admission. Credits for courses elected as a post-bachelor student do *not* count toward graduate credit.

Academica

Academica (<http://academica.wayne.edu>) is a secure gateway that provides unified access to Wayne State information, services, and computing systems. This comprehensive environment is a one-stop location where WSU students, faculty, and staff can conveniently use online self-service functions and easily access many computing systems, such as the Wayne Connect Email system and the Canvas learning management system. Using Academica, students also have continual access to specific information and helpful tools needed for communication, collaboration, teaching and learning, and University administration. Current students can use secure self-services to check financial aid, register for and drop/add classes, pay tuition and fees, check holds and final grades, obtain enrollment verifications and transcripts, self-register for training programs/workshops, and more.

Accessing Academica requires a valid WSU Access ID (<https://tech.wayne.edu/kb/accessid-accounts/accessid/>) (e.g., xy6789) and password. As soon as a student applies for admission or an employee is hired, a unique Access ID is automatically created. The university's Help Desk (<https://tech.wayne.edu/helpdesk/>) services can provide technical assistance if necessary.

Degree Works

Degree Works (<http://wayne.edu/degreeworks/>) is a degree tracking tool that allows you to see your progress toward graduation and help you and

your advisor determine which courses you still need to take. Along with your advisor, you can also map out which courses you will take in future semesters, putting you on the right path for graduation.

Drop/Add – Adjusting Your Schedule

Registered students may drop and/or add classes on the date(s) indicated on the Registration Calendar. Note the following requirements:

1. The regulations pertaining to dropping and adding courses are stated as they pertain to regular courses fifteen weeks or more in duration. These regulations are applied proportionately to courses that are offered for less than fifteen weeks. Students can click on the Course Reference Number (CRN) on the class schedule website to view specific deadline dates for each course(s). Students can also contact the Registration Office for any questions regarding these regulations.
2. Students who do not officially drop their courses within the first two weeks of classes are financially obligated to pay for the courses even if they have not attended any class sessions.
3. Students who officially drop full term courses before the conclusion of the first two weeks of classes (for the Fall and Winter terms) are entitled to 100% tuition cancellation, and the courses do not appear on the students' academic records.
4. Students are not permitted to add courses after the first week of the term without instructor and departmental permission. Departments are required to enter a late add permit/override for students if exceptions are made to permit adding of classes during the second week.
5. Students are not permitted to withdraw from courses after the end of the tenth week of class for full term classes. The withdrawal deadlines are published in each term's academic and registration calendar. Withdrawal dates for less than full term courses are adjusted proportionally. Late withdrawal requests will not be approved. Medical withdrawal requests have separate deadlines.
6. Effective Fall 2022, all withdrawals will show as a W on the transcript. W marks are not calculated in your g.p.a, and there is no tuition cancellation for withdrawn courses. The request to withdraw can be made on Academics in the Student Resource area of the Registration menu.
7. Classes for which a grade has been earned cannot be withdrawn.

College of Engineering: Students are not permitted to withdraw from courses after the fifth week of classes without written approval of their advisor. Some departments have more stringent restrictions on withdrawing from courses.

Transcript Request Policy

Official transcripts bear the seal of the University and the signature of the Registrar.

Wayne State University has partnered with the National Student Clearinghouse (NSC) to provide online ordering of WSU official transcripts. Ordering a transcript from NSC is easy, secure, and a more convenient way to order online at any time. Once a transcript is ordered it can be tracked through text message and email.

The National Student Clearinghouse transcript request is the only method in which official transcripts may be requested. Wayne State University does not accept transcript requests over the phone.

- **Electronic transcript:** A transcript requested electronically is typically received the same day it is ordered.
- **Mail transcript:** A transcript being mailed through the United States Postal Service could take up to 2-3 days processing time before mailing. Additional delivery options are available on the NSC site.

- **Students who attended prior to 1998:** There may be a 3-5 day delay in processing your order.
- **Transcript Attachment Options:** You may include up to three documents to be sent with your Wayne State University transcripts, such as application forms required by recipient graduate/scholarship programs or for licensing. These documents must be in pdf, doc, docx, or jpg formats. Upon review, we reserve the right not to include certain documents with your transcripts. We do not assume responsibility regarding the legibility of your document.

Transcript orders cannot be processed until all financial requirements are satisfied. If you have questions regarding your student account, please contact Student Accounts Receivable at 313-577-3653 or by email at bursar@wayne.edu.

Visit the Office of the Registrar's transcript webpage (<https://wayne.edu/registrar/records/transcript-requests/>) to submit a request for an official transcript.

Release of Student Records

The University recognizes the educational records of students as being privileged and has a policy designed to ensure that this information is not improperly divulged without the consent of the student. The University is subject to the Family Education Rights and Privacy Act (<https://wayne.edu/registrar/faculty/privacy/>) (FERPA) and has promulgated regulations pursuant thereto. Copies of the regulations and a list of student records maintained by the University are available for inspection in the Office of the Registrar. The University reserves the right to provide anonymous academic information to other schools and colleges when it is to be used for curriculum evaluation purposes.

Michigan's Freedom of Information Act

The Freedom of Information Act (PA 242) provides that a member of the public, in accordance with certain guidelines, has a right to inspect and receive copies of public records maintained by the University. A public record is broadly defined and includes written documents, pictures, recordings, punch cards, magnetic cards, etc., which are maintained by the University in the course of official responsibilities. However, certain records are exempt from disclosure.

The Media Relations Office, located in 3100 Academic/Administrative Building, is responsible for accepting requests for public records, and the Director of that office is the University officer in charge of providing this service. Under statute, a fee can be charged for records released and is based on the cost of labor involved in the search, examination and duplication of records, as well as the mailing costs. Only the Office of General Counsel may authorize the denial of a FOIA request.

Student Directory Information

Under the Family Education Rights and Privacy Act (FERPA), the university can designate information as directory information, which may be released to third parties. Wayne State University considers the following information to directory information: name, university-provided e-mail address, major, classification (freshman, sophomore, etc.), enrollment status (full-time, three-quarters-time, half-time, less-than-half-time, withdrawn), dates of attendance, participation in officially recognized university activities (including sports), height and weight of members of athletic teams, degree(s) received from Wayne State, and Honors and/or academic awards received.

Wayne State does not release directory information to third parties for commercial or non-educational purposes. Requesters are expected to explain the benefit to our students.

You may opt in or opt out of the release of directory information by filing a Request to Restrict Release of Directory Information Form (<https://wayne.edu/registrar/faculty/forms/>) with the Records and Registration Office.

* Source: IPEDS Graduation Rates 2023-2024 submission.

The University will release student information made under the Solomon Amendment (10 USC Section 983) by Department of Defense recruiters. Accordingly, students may **not** opt out of this type of release.

WSU OneCard

The WSU OneCard is a multi-purpose identification and debit card all in one. It is a convenient, easy-to-use card designed to provide students with access to a wide variety of campus services including parking, door access, copying and printing services food and book-store purchases, and more, all without having to use cash. The OneCard is needed to access the fitness center, the complimentary campus shuttle and serves as the Library Card for the WSU Libraries. Students should contact the OneCard Office (<http://www.onecard.wayne.edu/>) for complete details.

Retention and Graduation Data

The Office of Institutional Research and Data Analysis (IRDA) submits the following retention and graduation rates to the Integrated Postsecondary Education Data System (IPEDS) on behalf of the university. More information on the university's retention and graduation rates can be found on the IRDA website (<https://irda.wayne.edu/>).

2nd Year Retention Rates for First-time Students Pursuing Bachelor Degrees (fall 2022 students returning in fall 2023)*

Full Time: 82%

Part Time: 47%

* Source: IPEDS Fall Enrollment 2023-2024 submission.

Graduation Rates for First-time Full-time Students Pursuing Bachelor Degrees (Fall 2017 cohort)*

Description	At the End of 4-years	At the End of 6-years

White	36%	62%
Two or more races	18%	37%
Race and ethnicity unknown	33%	56%

Student Academic Success Services

University Advising Center

1600 David Adamany Undergraduate Library; 313-577-2680
<https://wayne.edu/advising/center> (<https://wayne.edu/advising/center/>)

The mission of the University Advising Center is to help all undergraduate students reach their educational goals, with high academic achievement, and to graduate.

The University Advising Center provides academic advising to all undergraduate students with undeclared majors and to preprofessional students in the College of Liberal Arts and Sciences, and the College of Fine, Performing and Communication Arts. The Center is staffed by professional advisors whose major responsibilities include the following.

New Student Orientation

The University Advising Center holds new student orientation (<https://wayne.edu/orientation/>) sessions prior to the start of each semester for incoming students. All incoming freshman and transfer students are required to attend a new student orientation session.

Exploratory Student Advising

Advisors provide specialized advising support to students entering WSU still deciding on a major/program of study. With their advisor, students will have an opportunity to explore majors and careers through exploratory activities.

Pre-Medicine/Pre-Dental/Pre-Veterinary Advising

Students in pre-medical, pre-dental, pre-osteopathic and pre-veterinary medicine are advised on specific curricula, co-curricular activities, preparation for admission exams and procedures for applying to the professional school. Credential file services are available to students and letters of recommendation are sent to professional schools as requested by the student.

Pre-professional Advising

Advisors assist students in planning programs which will fulfill requirements for admission to the various professional programs offered by Wayne State University, including those of the School of Social Work, the College of Nursing, and the Eugene Applebaum College of Pharmacy and Health Sciences.

Academic Deficiency Advising

Students whose grade point averages fall below 2.0 are placed on academic probation and are required to discuss their progress with an academic advisor. Advisors help probationary students consider ways to overcome academic deficiencies. Referrals may be made to other University services where students can find assistance for specific problems or difficulties.

Early Academic Assessment

Academic progress for students enrolled in 0000-3999-level courses is assessed by faculty from the beginning of the third week to the end of the sixth week of classes. If a student's performance is assessed below the C level, the student receives an alert notification referring them to appropriate campus resources.

Academic Success Center

1600 David Adamany Undergraduate Library; 313-577-3165
<https://success.wayne.edu/>

The mission of the Academic Success Center (ASC) is to ensure that all Wayne State University undergraduate students become self-disciplined,

motivated and independent learners. The ASC accomplishes this through instruction and services that support students in the development of skills to promote academic excellence and enhance success.

Study Skills Counseling: Professional learning specialists are available to support students' academic success. Any undergraduate Wayne State student may work with a learning specialist to identify specific study skill difficulties and formulate personalized strategies for success. Each plan identifies the student's strengths, opportunities for development and action steps necessary to help the student become a more effective learner. Programs are designed to improve students' study skills including reading comprehension, memory improvement and test preparation.

Study Skills Workshops: The Academic Success Center offers a series of study skills workshops for all students each semester. Sessions provide strategies and techniques to help students effectively manage their time, prepare for exams, reduce test anxiety, improve memory and concentration, understand the relationships between wellness and academic performance and strengthen other skills. Additionally, workshops may be scheduled for groups, student organizations and academic departments to address specific needs.

Tutoring: The Academic Success Center offers tutoring by appointment for a variety of undergraduate courses. In addition to subject material, tutoring sessions address study skill areas such as note-taking and reading comprehension when necessary. All tutors have received faculty recommendation and maintain at least a 3.2 g.p.a.

Supplemental Instruction (SI) supports many 1000- and 2000-level courses by offering collaborative learning sessions facilitated by an SI leader. Sessions are designed to help students understand the course's key concepts, organize the material and develop strategies to effectively prepare for exams. Research suggests that students who consistently participate in SI typically earn a half to a full letter grade better than students who do not take part in SI. All SI leaders have received faculty recommendation, maintain at least a 3.3 g.p.a. and are required to attend the lecture.

First-Year Success Seminar (FYS 1010): This one-credit course supports first-year students' academic and personal development to promote success at Wayne State University and establish learning as a lifelong experience. Coursework and discussions assist students in understanding themselves as learners, setting goals and strengthening time management and study skills while developing a greater awareness of the factors that influence success and the habits that can support success.

Warrior 360

W360 will travel to our students and greet them where they are. Our strategic initiatives will hold space for each student's unique background and path to WSU. We understand that this support system will need to advance student success outcomes and move at a pace that keeps us alongside our students for every milestone to graduation.

Mission

We will build a student success system that connects students to critical resources, extends sustainable care and support, and improves student success outcomes while centering students' happiness and well-being.

Vision

The Warrior 360 (W360) framework centers on the evolution of what success means for the Wayne State University student. W360 maximizes campus resources and partnerships to surround students with care and support. We understand that simply providing students with resources is not enough. This work is heavily influenced by the idea that W360 is centrally positioned to liaise between students and service. Through

professional success coaching and peer partnerships, we ensure that students connect and actively engage with campus resources in the most meaningful ways. W360 develops strategies in concert with our campus community that help students succeed and graduate.

Features

- Professional Success & Persistence Coaching
- Academic Partnerships
 - Direct and early contact with Faculty and academic departments
 - Faculty and Academic Advisor engagement with W360 Programs & Initiatives
 - Major Exploration Programming Series
 - W360 Student Success Advisory Council
 - W360 Faculty Features Speaking Series
- Academic Monitoring and Progress Reporting & Green Button
- FYS 1010 and First-Year Interest Group (FIG) Engagement
- Peer Success Partnering
- Student Advisory Council
- Degree Completion Plans
- Community Building
- Pre-First-Year Experience/Momentum Week
- Campus Resource Formal Partnerships
 - Office of Student Financial Aid
 - Undergraduate Advising
 - Dean of Students
 - Office of Multicultural Student Engagement
 - Housing
 - Other campus partners
- Direct and early contact with Faculty and academic departments

Counseling and Psychological Services (CAPS)

552 Student Center Building; 313-577-3398
<https://caps.wayne.edu/>

Counseling and Psychological Services (CAPS) provides free and confidential mental health assessment, counseling, case management, and referrals to currently-registered Wayne State students, along with consultation and outreach to the Wayne State University community. CAPS promotes a culture of understanding and growth through professional collaboration among our dynamic staff of licensed professional counselors, psychologists, and social workers. CAPS is fully accredited by the International Association of Counseling Services.

Service hours: Monday - Friday 8:30 am to 5:00 pm. Visit the CAPS website for details.

Eligibility: All currently enrolled students are eligible for counseling evaluation to assess whether their needs can be addressed effectively via short-term counseling at CAPS or require more specialized or longer-term counseling at another facility. Faculty, staff, alumni, children, or spouses are not eligible.

Crisis Services: In the case of a non-life-threatening crisis, students, faculty, or staff can contact CAPS and indicate that a student needs immediate assistance. If assistance is needed during evening or weekend hours, contact the Wayne State University Police Department at 313-577-2222 or call the CAPS After Hours Crisis Line 313-577-9982. In the event of a life-threatening emergency at any time, contact the Wayne State Police Department.

Career Services

1001 Faculty/Administration Building; 313-577-3390
<https://careerservices.wayne.edu/>

Career Services provides support to students and alumni in defining career and employment goals and assists them in their search for employment opportunities. In addition to the following services, Career Services offers topical workshops, career events, and group and individual career/employment counseling. Career Services welcomes the opportunity to discuss customized services to meet individual needs.

Career Development: The main focus of this service is to help students explore career options, clarify their career goals, and link those goals to appropriate academic paths. Individual and group services are available.

Cooperative Education, Internships, and Summer

Employment: Comprehensive paid professional, career- and non-career related work experiences are available, including a wide variety of part- and full-time experiential learning situations. Orientation workshops are offered on an ongoing basis.

On-campus Student Employment: Students may work on-campus up to twenty hours per week as a Student Assistant or College Work-Study employee. Job openings may be viewed in-house or online via our open posting system.

Professional Employment: Graduating students and alumni may increase professional full-time employment opportunities through on-campus interviews, resume referral, career fairs, in-house and on-line job postings, along with a myriad of career-related support services.

Testing, Evaluation, and Research Services

686 Student Center; 313-577-3400
<https://testing.wayne.edu/>

Testing

We provide:

- A secure, standardized, testing environment where students can demonstrate their academic skills for placement, course credit, or high stakes decisions.
- The opportunity for students to earn course credit in courses accepted by the transfer credit office through the College Level Examination Program (CLEP).
- Placement testing for students interested in meeting general education and other requirements targeted toward their personal skill level in Biology, Chemistry, English Composition and Mathematics.
- Outside exams: Graduate Record Exam (GRE), Testing for the Law School Admission Council (LSAC), Medical College Admission Test (MCAT), Miller Analogies Test (MAT), Test of English as a Foreign Language (TOEFL), Written and Oral exams for the American Council on the Teaching of Foreign Languages (ACTFL), and written exams for doctoral students in the College of Education.

Evaluation

We collect student opinions about faculty teaching through Student Evaluation of Teaching (SET). We share SET reports with students, administrators and faculty members toward the goal of improving quality of teaching at the University.

We survey students and faculty regarding the quality of their education through

1. the Cooperative Institutional Research Program (CIRP) Freshman Survey,
2. National Survey of Student Engagement (NSSE) and
3. Faculty Survey of Student Engagement (FSSE).

Research Services

We offer consulting on best practice in testing for faculty and academic staff. We offer machine scoring of exams, including tabulation of test scores and statistical output to help faculty improve their tests.

Student Disability Services (SDS)

1600 David Adamany Undergraduate Library; 313-577-1851;
313-202-4216 (Videophone)
<https://studentdisability.wayne.edu/>

Student Disability Services is the office at Wayne State University that determines eligibility and implements academic accommodations, services and support for students with disabilities pursuant to the Americans with Disabilities Act (ADA), the ADA Amendments Act of 2008, and Section 504 of the Vocational Rehabilitation Act of 1973. SDS is committed to teaching students to advocate for themselves in order to fulfill their academic goals. SDS also provides training and outreach throughout the university to ensure equal access to all university programs.

Disability Determination: In order to register for SDS services, students must self-identify by providing documentation of their disability. Students will meet with disability specialists to discuss appropriate and reasonable accommodations. Once accommodations are determined, students are guided through the process of providing faculty with their accommodation letters and securing appropriate services. Students receiving accommodations are held to the same academic standards as all other WSU students and are responsible for requesting services and following procedures in a timely manner.

Academic Accommodations: Accommodations and services are individualized and based upon the student's documentation. It is for this reason that students should ensure that they have sufficient documentation that supports the need for appropriate and reasonable accommodations. Some of the accommodations and services provided by SDS might include alternative testing, interpreter and CART reporting services, alternative text format, note-taking assistance, furniture requests, use of assistive technology, and use of SDS exam/study rooms. Students registered with SDS are also eligible for pre-priority registration for classes. Through the SDS liaison program with University departments and programs, SDS ensures that members of the University community understand the types of support offered to enhance collaboration in providing accommodations.

Assistive Technology: SDS will work to secure alternative text formats and similar technologies for students and teaches students how to use the various assistive technologies. SDS exam/study rooms house CCTV magnification equipment, computers with software such as Zoomtext, JAWS, Kurzweil Educational Systems, Dragon Naturally Speaking and Inspiration. Students are also informed about free downloadable software programs for reading and recording.

Community Resources: SDS collaborates with various community agencies that assist students with disabilities at the university. Students are connected to agencies such as Michigan Rehabilitation Services and the Bureau of Services for Blind Persons.

Federal TRIO Office

5700 Cass Ave, Suite 1330; 313-577-5050

<https://federaltrio.wayne.edu/>

The Office of Federal TRIO provides academic assistance and support services to promising youth and adults who have been historically under-represented in higher education due to their economic condition, first generation status, or educational preparation. This office provides academic support services, instruction, and college preparation workshops for pre-college students in the metropolitan Detroit area and students enrolled at WSU. Federal TRIO serves an extremely diverse student population that ranges from twelve to nineteen years of age, veterans of the armed services, and other adult learners. Federal TRIO Programs serve over 6,000 students residing in Wayne, Oakland, and Macomb Counties or enrolled at Wayne State University.

Federal TRIO is comprised of six state and federally funded programs designed to increase the post-secondary admission rates of the diverse populations it serves, and to increase the graduation rates of these students in the University. Through continuous improvement of services, the department aims to maximize the academic achievement of its participants and to promote equity and excellence at Wayne State University.

The Educational Opportunity Center (EOC)

5700 Cass Avenue, Suite 2701, Academic/Administrative Bldg., 313-577-5050, provides a comprehensive career counseling program that offers free academic, vocational career and financial aid information to eligible applicants nineteen years of age and older, who wish to pursue a postsecondary education.

Michigan Gaining Early Awareness and Readiness for Undergraduate Programs (MI-GEARUP)

5700 Cass Ave., Suite 1330, Academic/Administrative Bldg., 313-577-5050, offers life skills programs, career counseling services and college visitations designed to educate parents and encourage seventh-through twelfth-grade students in targeted schools to complete high school and enroll in higher education.

Upward Bound Program

5425 Woodward, 313-577-1943, provides services for low income and first generation college students in grades nine to twelve with the potential and motivation to be successful in higher education. The students must attend target area high schools. Upward Bound provides students with a head start on improving the skills required to succeed in college, through academic instruction, tutoring, academic and career guidance, personal counseling, and a six week summer residential program.

Veterans' Educational Opportunity Program (VEOP)

5425 Woodward, 313-577-9710, provides a program of instruction, academic and career guidance, personal counseling, tutoring, and post-secondary placement to veterans who have served in the U.S. Armed Forces from December 31, 1955 to present.

McNair Scholars Post-baccalaureate Achievement Program

5700 Cass Avenue, Suite 1330, 313-577-5050, provides faculty mentors, student-faculty research projects, GRE preparation services, stipend support and travel funds to present research for WSU junior and senior students. The goal of the McNair Scholars Program is to prepare low-income, first generation and underrepresented students to successfully complete doctoral studies. in the areas of science, technology, engineering and mathematics.

Office of Military and Veterans Academic Excellence (OMVAE)

Suite 687 Student Center Building;
313-577-9180; Fax: 313-577-5020
<https://omvae.wayne.edu/>

This office assists veterans, active-duty service members, reservists, National Guard and eligible dependents/survivors in utilizing educational benefits. Specifically, students are aided in applying for Federal benefits outlined under Title 38, and Title 10, USC., including: the Montgomery GI Bill[®] (chapter 30), Vocational Rehabilitation (chapter 31), Post 9/11 GI Bill[®] (Chapter 33), Reserve Educational Assistance Program, the Reserve GI Bill[®] (chapter 1606), REAP (chapter 1607), and the Survivors'/ Dependents' Educational Assistance (chapter 35). All eligible students must officially request (<http://omvae.wayne.edu/va-certification.php>) to use their educational benefits each semester. GI Bill[®] is a registered trademark of the US Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official US government website (<https://www.benefits.va.gov/gibill/>).

Non-Degree Status: Students must be in a degree program to receive benefits. Those not currently admitted to a degree program and enrolled in classes must verify to the OMVAE via an academic advisor (<http://advising.wayne.edu/makeappt.php>) the reason for enrollment (i.e., completing foundation courses for a master's-level program).

Transfer Credits: Wayne State University will give four transfer credits for veterans, reservists, National Guard, and active-duty service members for service in the US military. The University will require military discharge document DD-Form 214 (<http://www.dd214.us/>).

Wayne State University will accept up to twelve transfer credits from veterans upon receiving their Joint Service Transcript of military training. These credits are to be evaluated according to the 'Guide to the Evaluation of Educational Experiences in the Armed Services,' published by the American Council on Education.

This policy shall be in effect for all veterans, reservists, National Guard, and active-duty service members currently enrolled Fall 2005 and thereafter.

Late Tuition and Late Registration Fee Waiver: Late fees, Partial Payment fees and Late Registration fees can be waived for all students currently receiving VA Educational Benefits. Contact OMVAE for assistance.

Licensing/Certification Reimbursement: In most instances, students receiving VA educational benefits (<http://www.gibill.va.gov>) are eligible for reimbursement (https://www.benefits.va.gov/gibill/licensing_certification.asp) for licensing test fees.

Tutorial Assistance is also available as part of all benefit packages as noted above. Eligible recipients may receive \$100.00 per month, up to twelve months to help defray tutoring costs. Contact the OMVAE for further details. No charge to benefit entitlement is incurred for the first six months received of Tutorial Assistance (https://www.benefits.va.gov/gibill/tutorial_assistance.asp).

In-State Tuition Waiver: Individuals on active duty in the US Military who are stationed in Michigan and their dependents are eligible for Michigan in-state tuition. Stationing orders and proof of relationship (for dependents) must be provided with the application.

Students utilizing Chapter 31 or Chapter 33 GI Bill[®] benefits will be granted a deferment of tuition and fees for the current enrollment period upon submission of a corresponding Certificate of Eligibility (or suitable documentation which demonstrates benefit eligibility). The deferment

will be placed proportionally based on the student's percentage of eligibility.

Veterans and their dependents are eligible for Michigan in-state tuition. The term "veteran" means a citizen of the United States or a resident alien whose most recent separation from any branch of the armed forces of the United States was under conditions other than dishonorable after having served on active duty for 90 consecutive days or more by reason of disability incurred while serving on active duty.

Individuals who are members of the National Guard of any state, or who were separated from the National Guard of any state under conditions other than dishonorable, and their dependents are eligible for Michigan in-state tuition.

Without regard to the foregoing, any individual using educational assistance under either Chapter 30 (Montgomery GI Bill[®] – Active Duty Program), Chapter 33 (Post-9/11 GI Bill[®]), of title 38, United States Code, and/or the Marine Gunnery Sergeant John David Fry Scholarship (38 USC § 3311 (b)(9) who lives in the State of Michigan while attending Wayne State University (regardless of his/her formal state of residence) is eligible for Michigan in-state tuition.

VA Work-study Program: The VA work-study (<https://www.benefits.va.gov/gibill/workstudy.asp>) allowance is available to all students eligible for VA Educational Benefits. Those eligible who are at least a three-quarter-time student in a college degree program, or a vocational or professional program, can 'earn while they learn.' Pay for VA Work-study is the equal to the Federal minimum wage or your state minimum wage, whichever is greater.

Services performed under a VA work-study program must be related to VA work. Examples of acceptable work are:

- Processing VA paperwork at any university or college having a VA Office (e.g., you may be enrolled at WSU but work at Oakland or Macomb Community College VA Offices)
- Outreach services under VA supervision
- Work at VA medical facilities or National Cemetery System offices
- Work with the Veterans counselor at any of the MESC offices
- Work in the Education or Transition offices at local base
- Work at Department of Defense facilities related to education benefits under the GI Bill[®].

National Guard Students: Please note that Wayne State does not currently participate in the Guard's Tuition Grant Program. However, if your branch provides Tuition Assistance and/or Tuition Reimbursement the OMVAE will provide assistance as necessary with regard to grade and tuition certifications to your unit.

Reserve Officer Training Corps (ROTC): Wayne State University offers an Army ROTC (<http://omvae.wayne.edu/rotc/>) program. Students interested in joining the Army ROTC program at Wayne State University should contact MSG Nicholas Lachance 734-647-3034.

Recalled To Active Duty (Reservists / National Guard): Students serving in the Selected Reserves or National Guard who are called up to Active Duty during a semester may request full reimbursement of tuition and fees. Students must file an *Exception to Enrollment Policy* form and submit a copy of their orders to OMVAE. Students called up active near the end of a semester are encouraged to consider requesting Incomplete grades for coursework.

Early-Out Requests: Potential Students on Active Duty requesting a verification of enrollment to be sent to their Commands must be admitted to Wayne State University and have registered for classes. Please contact the Graduate Admissions Office and the Registration Office for

assistance. Once these conditions are met, the VA Certifying Official can complete an enrollment verification for active duty members seeking an 'early out' from military service. Hard copy proof of student's admittance and registration for classes is NOT required for the VA Certifying Official to complete the enrollment verification.

Training Time Equivalencies: For purposes of GI Bill® benefit use, the following tables identify the training time equivalencies for standard and non-standard enrollment periods.

Fall or Winter Semester

Enrollment Status	Undergraduate	Graduate	Pharm.D.	J.D.
Full Time	12+ Credits	8+ Credits	8+ Credits	10+ Credits

Campus Life

Dean of Students Office

301 Student Center; 313-577-1010
<https://doso.wayne.edu/>

The Dean of Students Office provides services and affords opportunities to enhance student life and campus activities. The Office coordinates major campus student activities and events, including Orientation Part 2 (O2), New Student Convocation and Festifall, Student Organizations Day, Homecoming, and the Finals Week Late Night Breakfast.

The office coordinates the campus calendar of student activities, community service programs; advises fraternities and sororities; and promotes student involvement in co-curricular life at Wayne State and Detroit, including the Campus Activities Team program board. The office also coordinates the Warrior Pride program focused on school spirit, and the Warrior Zone athletic events student section. The University Student Conduct Officer is housed in the Dean of Students Office and the office also coordinates the Student Care Report process

The Dean of Students serves as the Deputy Coordinator for Title IX and the Student Life Wellness Coordinator resides in the Dean of Students Office and focuses on sexual violence prevention education, substance abuse prevention education, and digital citizenship education.

Student Organizations

There are over 400 recognized student organizations including such diverse categories as academic/professional, social action, political, sororities/fraternities, honoraries, ethnic and religious groups, as well as student governments. Student organizations use the Dean of Students Office to process their event planning and all students use the Dean of Students Office to learn about getting involved in campus life. The Office staff also assists students who want to organize new student groups. The staff also coordinates various campus publications including the online newsletter Get Involved at Wayne. Student organizations can apply to the Student Activities Funding Board for funds to present events, programs, and activities on-campus.

The official student newspaper is the South End (<http://www.thesouthend.wayne.edu>).

Parent and Family Services

The Dean of Students Office coordinates Wayne State's Parent and Family Services. Through this office, parents and family members receive the twice monthly parent and family newsletter and have services available to them to help them help their students be successful, including the parents helpline: 1-877-WSU-PARENT. The office may be e-mailed at: parents@wayne.edu.

Student Senate

382 Student Center
<https://studentsenate.wayne.edu/>

The Student Senate is the recognized student government of Wayne State University. It consists of twenty-eight members, fourteen members at large elected in a University-wide election, and fourteen appointed members, one student representative appointed by the Office of Housing and Residential Life, and one representative appointed by the Associate Vice President for Educational Outreach to represent the extension centers. The Student Senate has an official advisory responsibility in policy formation for the governing of student activities at Wayne State. The Student Senate is advised by the Dean of Students Office.

Office of Housing and Residential Life

582 Student Center; 313-577-2116
<https://housing.wayne.edu/>

Housing and Residential Life at Wayne State fosters student learning and success through engaging residents in an intentional living-learning community. Supported by safe, comfortable and convenient residence hall, apartment and dining environments, residents grow in self-awareness and cross-cultural understanding as they practice social and group development as members of a diverse group of Wayne State learners.

Facilities and programs administered by this office are located just steps away from classrooms, libraries, the Student Center, and the Recreation and Fitness Center and combine the convenience and activity of the campus with the energy and pace of downtown urban living.

Parking: Faculty, Staff, and Visitor

42 W. Warren, Suite 257, Welcome Center; 313-577-2273
<https://parking.wayne.edu>

The Parking and Transportation Services department has the responsibility to provide well-maintained, safe parking facilities and transportation for employees, students and visitors. The present parking system is comprised of 8 structures and 25 surface lots. Parking and Transportation Services provides parking services to students, staff, and visitors of Wayne State University. Parking Services is a self-supporting auxiliary that is not funded by state taxes or student tuition. Parking operations, maintenance, and development expenses are funded by revenue generated from the sale of parking services.

Campus Health Center

5285 Anthony Wayne Drive; 313-577-5041
<https://health.wayne.edu/>

The Campus Health Center provides comprehensive health care services for students, including physical examinations, family planning, illness visits, and immunizations (including flu, meningitis, hepatitis B, etc.). Visits are by appointment, but walk-ins are accepted for students experiencing an illness. Counseling referral services are also available. All currently enrolled students receive one free office visit per semester. Additional visits are billed to student's health insurance with most health care plans accepted. Students without insurance have reduced fees based on a sliding scale and ability to pay for additional office visits per semester.

Police and Public Safety Services

6050 Cass; 313-577-2222
<https://police.wayne.edu/>

The Wayne State University Police Department patrols and services the University including the city streets, businesses, and private residences within and between the various campus areas. The Department, to the extent that resources allow, also patrols and provides other police services to the neighborhoods and businesses in the area surrounding the University.

Police service is provided twenty-four hours a day, seven days a week. All officers have, at minimum, a bachelor's degree. They are commissioned as Detroit Police Officers, with full police authority on and off campus, after training at a State-certified Police Academy. Any matter requiring the services of a police officer can be reported at any hour of the day or night.

- Blue Light System – Emergency Telephones (7-2222): The University has installed outdoor emergency telephones throughout the campus. These emergency telephones are identified by bright blue lights.
- Emergencies (313-577-2222): All emergencies should be reported immediately, i.e.: all crimes, missing/stolen property, automobile accidents, suspicious persons, injured persons, vandalism, break-ins or burglaries.
- Accidents (313-577-2222): Ambulatory patients will be transported, by officers, to either Detroit Receiving Hospital or the University Health Center. The Police Department does not provide ambulance service but utilizes the Detroit Fire Department Emergency Medical Service to handle other than minor injuries.

- Fire or Other Extreme Hazards (313-577-2222): Emergencies such as fire, smoke, explosions, broken gas or water mains, severe electrical hazards, etc., should be reported.
- Crime Prevention Section (313-577-6064): The Police Department's Crime Prevention Section provides a number of crime prevention services, including personal safety seminars, crime prevention programs, and services. Examples of services provided include:
 - Security Services
 - Street Smarts seminars
 - Operation Identification
 - Alcohol Awareness
 - Rape Aggression Defense Training
- The Crime Prevention Section also publishes monthly 'CampusWatch' articles. Email inquiries may be made to: campuswatch@wayne.edu.

Athletics, Intramurals and Recreation

Matthaei Facility: 126 Matthaei Building; 313-577-4295
Intramural Sports: Mort Harris Recreation and Fitness Center; 313-577-2348
Intercollegiate Athletics: 101 Matthaei Building; 313-577-4280
<http://wsuathletics.com>. (<http://wsuathletics.com/>)

Wayne State University has a rich athletic tradition dating back to the fall of 1917 and recently celebrated 100 years of singular outreach and academic success. The first Detroit Junior College athletic event (precursor of Wayne State University) was a basketball game against the Detroit College of Law on January 19, 1918. Since then WSU student-athletes have captured numerous honors, including national championships awarded by the NCAA and conference championships. In the past 16 years, 406 WSU student-athletes have been recognized as All-American. In the 106-year history, 750 students have been so recognized. Over seventy-eight percent (78.32%) of the 400-plus student-athletes currently involved in competitive athletics have a 3.00 or better cumulative grade point average with every team having a GPA of at least 3.15 or better. According to the latest federally mandated report, WSU student-athletes Academic Success Rate is seventy-eight percent (78%). The athletic department provides competitive opportunities in the following sports: baseball, men's and women's basketball, men's and women's cross country, men's and women's fencing, football, men's and women's golf, softball, men's and women's swimming/diving, men's and women's tennis, volleyball, and women's indoor/outdoor track. During the 2022-23 academic year, 11 out of 18 programs competed in NCAA championships. In 2012, women's swimming and diving won the NCAA National Championship joining 10 other programs to be so honored. WSU Athletics has finished in the top 10% nationally each of the last three years in the annual NACDA Cup in Division II, which ranks schools based on competitive success.

The University competes at the NCAA Division II level, while the men's and women's fencing programs participate in the NCAA Collegiate National Championship. WSU student-athletes have served nearly 100,000 community service hours over the last 11 years.

Many new facilities adorn the WSU athletic campus, including the 3,000-seat Wayne State Fieldhouse (shared with the Detroit Pistons G-League franchise Motor City Cruise).

The Harwell Museum which contains numerous exhibits which pay tribute to Ernie's marriage to Lulu, audio and video of Harwell's signature calls and moments and the controversial Jose Feliciano national anthem during the 1968 World Series. Harwell Field has a replica Fenway Park outfield fence, Major League size dugouts and through an arrangement with the Detroit Historical Society, the left field scoreboard from the former Tiger Stadium is attached to the base of the left field wall.

The Doris J. & Donald L. Duchene, Sr. Athletic Facility has 35,000 square feet of space with a maximum ceiling height of 35 feet. Enclosed are four tennis courts, a sprint track (60 yards), locker rooms for the men's and women's tennis, and baseball squads along with six offices for coaches and staff.

The nearly 12,000 square foot, state-of-the-art Athletic Performance Center was completed and opened in May of 2018 and gives student-athletes access to 24 work stations.

The softball facility was completed in three phases with the complex paid entirely by private revenue sources. On Nov. 12, 2016, the field was named Gary L. Bryce Field in honor of the long-time head coach with the installation of a new scoreboard. Previous upgrades included a locker room, offices, training room, batting and pitching cages, and outdoor bullpens.

The University offers a wide and varied program of recreational and intramural activities. The Matthaei Complex, and the surrounding athletic campus on 43 acres of land, located on the west end of campus, offers a myriad of drop-in activity areas that include courts and fields for basketball, football, jogging, racquetball, soccer, squash, tennis, and volleyball, a weight training/exercise room, and swimming facilities. Use of these facilities is free with a current University ID or with a membership through the Mort Harris Recreation and Fitness Center. The Doris J. & Donald L. Duchene, Sr. Athletic Facility features 35,000 square feet of usable space, four tennis courts and a sprint track. Rental information (<http://rfc.wayne.edu/multipurpose/>) for this facility is available online.

Ticket and schedule information is available on the Athletics website (<https://wsuathletics.com/>) or by calling 313-577-4069. All men's basketball and football games are broadcast on the Warrior Radio Network at WDTK-AM 1400 and FM 101.5 and are also available for free through WDTK the Patriot (<https://patriotdetroit.com/>). All home athletic contests for football, volleyball, both basketballs, baseball and softball are streamed online through an agreement with FloSports. Students are admitted free to all University-controlled WSU athletic events with a One Card.

Matthaei Building

MMatthaei is normally open from 7:00 a.m. to 8:00 p.m., Monday through Friday; and is closed to recreation on Saturday and Sunday, during the fall and winter semesters. During the spring/summer semester the building is open from 7:00 a.m. to 7:00 p.m., Monday through Friday. Outdoor tennis courts and track are available during posted hours. A facility schedule is published monthly. Operational hours are subject to change, and not all areas of the complex will be always available, due to scheduled classes, intramural activities, and varsity athletics. All lap swim updates will be added to the monthly recreation schedule, available online or hard copy at the Matthaei. For charges and additional facility information, visit the Matthaei Shop in the Matthaei Building; or call 313-577-4295.

Mort Harris Recreation and Fitness Center

The Mort Harris Recreation and Fitness Center is open from 5:30 a.m. to 11:00 p.m., Monday through Friday; and 10:00 a.m. to 7:00 p.m. on Saturday and Sunday, during the fall, winter and spring/summer semesters. Operational hours are subject to change, and not all areas of the complex will be available for open recreation at all times, due to scheduled group fitness classes, intramural activities, club sport activities, and varsity athletics. Locker and towel services are available for all students and members with a current OneCard. For charges and additional facility information, please visit the Mort Harris Recreation and Fitness Center (<http://rfc.wayne.edu/>) website or call 313-577-2348.

Group Fitness Classes (non-credit)

These classes include a variety of programming, conducted by trained, certified and experienced instructors. Class options include yoga, cycling, Zumba, High Intensity, and more. Classes are in person and virtual. Checkout a full class schedule and our virtual options (<https://rfc.wayne.edu/fitness/group-classes/>).

Open Recreation: The fitness areas, multi-purpose courts, walking track and climbing wall offer opportunities for unstructured play and participation. Basketball, volleyball, and a variety of equipment and areas for working out, stretching, and socializing are also available.

Intramural Sports Programs: Open and co-rec intramural sports leagues are available for all currently enrolled WSU students as well as WSU faculty and staff members of the facility. Leagues and tournaments are available in a variety of sports, including basketball, volleyball, dodgeball, flag football, soccer, cricket and more.

Club Sports: The Mort Harris RFC is also the home for all Club Sports. Students interested in starting a particular club sport or joining a current team, are invited to consult our website to view the registration process and to become familiar with GPA, credit load, and insurance guidelines. All WSU Club Sports are fully funded by the participating students themselves. Current clubs include men's and women's soccer, men's and women's volleyball, figure skating, tennis, and more.

Fitness and Wellness Programs: Fitness assessments, personal training, and group fitness programs for every level of fitness are available to all students and members. All students and members have a free consultation included with their membership every year.

Climbing Wall: The Mort Harris RFC climbing wall features both bouldering and ropes routes to climb. Our routes are changed weekly and are graded on difficulty. We have all the equipment you need to climb or you can bring your own. Our wall is designed to accommodate climbers of all skill level even if you have never climbed before. Our staff is ready to get you going. Day and year passes are available.

Adventure Trips: The Mort Harris Recreation and Fitness Center offers a variety of outdoor excursions for novices to seasoned adventures. Trips include but are not limited to camping, hiking, ice climbing, rock climbing, and more.

Team Building: The high ropes course is designed to foster interpersonal and intra-personal growth in a fun and challenging environment. Your student organization, department, corporation or group will climb up 30 feet and traverse through 15 different elements that focus on teamwork and interdependency. Groups will learn to communicate effectively, listen to each member, recognize individual strengths and utilize collaborative efforts.

Student Center Administration: Student Center Administration (313-577-4585) is located in the lower level of the Student Center. This office schedules rooms and audio-visual equipment available for meetings, seminars, conferences and special programs. Bake sale, literature and vendor tables as well as Community Arts and St. Andrews reservations are also provided.

Student Center Administration provides the following services for a fee: duplicating service, SMART and DDOT bus passes, fax service, and State Hall locker rentals. In addition, Student Center Graphics, University Lost and Found, and the campus bulletin board posting service are located here.

Student Center Graphics: (313-577-3730): Student Center Graphics is a student operated design and print shop. They provide design services and large format printing for the campus community and outside clients.

SCG also provides items such as banners, posters, logo designs and consultations for a fee.

Religious Organizations: Various religious denominations have offices on the sixth and seventh floors of the Student Center. Programs and personal and spiritual counseling are available from various denominations. A reflection room is available on the 3rd floor of the Student Center.

Office of International Programs

4228 Faculty/Administration Building; Phone: 313-577-8968; Fax: 313-577-5666

Email: oiip@wayne.edu

Vice President for Academic Student Affairs and Global Engagement: Ahmad Ezzeddine

Assistant Vice President for International Partnerships: Huajing Maske

Director of Operations: Rebecca Journigan

Associate Director, Student Programs: Fareed Shalhout

Marketing Coordinator: Carol Baldwin

Project Coordinators: Jessica Hoffmeyer, Catherine Franklin, Zane Harvey

Coordinator of Faculty Engagement and Global Learning: Nicole Coleman

Fellowships Faculty Coordinator: Kevin Deegan-Krause

<http://www.oiip.wayne.edu> (<http://www.oiip.wayne.edu/>)

The Office of International Programs (OIP) is responsible for coordinating the University's resources and expertise to support international education on and off campus, to expand the university's global presence, and to facilitate the engagement of students, faculty, and staff with its global agenda. It also connects the metropolitan Detroit community with other university constituencies, locally and abroad. OIP encompasses the followings programs and activities:

- Office of International Students and Scholars
- Study Abroad and Global Programs
- English Language Institute

Fellowships Initiative

The Fellowships Initiative offers services to help students gain a competitive edge in the application process and grow personally from the experience of applying to a nationally competitive fellowship. Typically, fellowships fund study, research, or teaching in the U.S. or abroad. These awards are competitive and are awarded to students who are energetic and high achieving, with the potential to make significant contributions for the public good. More information is available on the Office of International Programs website (<https://oiip.wayne.edu/fellowships/>).

Office of International Students and Scholars (OISS)

416 Welcome Center; 313-577-3422; Fax: 313-577-2962

Director: Kelli Dixon

<http://www.oiss.wayne.edu> (<http://www.oiss.wayne.edu/>)

The mission of OISS is to support and enhance the educational, cultural, and social experiences of the more than 1200 international students and scholars at Wayne State University. OISS is the University's main point of contact for issues related to international students and scholars' immigration regulation compliance.

OISS staff advise students and scholars on immigration regulations and issues of cross-cultural adjustment; provide educational, cultural and social programs and activities, including a comprehensive orientation program and written materials designed to help arriving students and scholars achieve their educational and personal goals; assist University departments in the hiring of foreign national employees, consult and interact with University units, governmental organizations and other agencies.

Academic Progress for International Students

Department of Homeland Security regulations require:

1. That F-1 and J-1 students maintain a full course of study and make normal academic progress toward program completion at the institution they have been authorized to attend.
2. Graduate students must successfully complete at least eight credits each semester (excluding continuing students who qualify for an annual vacation semester during Spring/Summer or have been granted an exception to full-time enrollment). Undergraduate students must successfully complete at least twelve credits each semester (excluding continuing students who qualify for an annual vacation semester during Spring/Summer or have been granted an exception for full-time enrollment).
3. Graduate Teaching Assistants and Graduate Research Assistants must successfully complete at least eight credits each semester (excluding students who qualify for a vacation semester during Spring/Summer or an approved annual vacation). If GTAs/GRAs need to take less than eight credits, they must complete the OISS Request for Exception to Full Time Enrollment form and obtain approval from OISS. Students should consult an OISS advisor for details on compliance with this and other requirements.

New International Students and Scholars

New International Students and Scholars receive the OISS welcome booklet with their visa document (Form I-20 or DS 2019) before they leave their home country. The booklet provides information on a wide variety of important topics such as housing, health insurance, expenses, immigration status, local climate, and air transportation. New students and scholars from abroad must report to OISS as soon as they arrive and must participate in a comprehensive orientation program. This program is designed to meet immediate needs in terms of housing information and University registration procedures; introduce them to U.S. culture and the University's educational system; and provide information on banking, health insurance, safety, and immigration regulations. In addition, a number of social and recreational programs and activities are planned to assist students and scholars in making a smooth transition to their new environment

Non-Immigrant International Students

Upon arrival to campus when entering the US on an initial I-20, all non-immigrant international students must report to OISS to complete check-in procedures and have immigration documents reviewed, purchase mandatory health insurance (see below), and obtain an orientation schedule. Transferring F-1 students from other U.S. institutions must have their previous school release their Student and Exchange Visitor Information System (SEVIS) record to Wayne State University and must complete transfer procedures as provided in the federal regulations within fifteen days of the first day of class. F-1 students must notify the OISS of any change in name, address, program (including changes in level and field of study), and full-time enrollment. OISS must provide this information to Immigration and Customs Enforcement (ICE) through the Student and Exchange Visitor Information System (SEVIS). J-1 exchange visitors, including students, may not make a change in level, field, or category without the advance approval of the Department of State, and may be precluded from change of visa status until a two-year home country residency requirement is met.

Commuting Canadian Students

Canadian students (commuters) enrolled less than full time must obtain a part-time I-20 from OISS each semester they are enrolled and should consult with an OISS advisor to determine the impact of their status on future immigration benefits including the availability of practical training.

International Faculty and Research Scholars

The University provides foreign professors and research scholars with opportunities to engage in research, teaching, consulting, and lecturing with colleagues at Wayne State; to participate actively in cross-cultural activities; and to share their experience as well as increase their knowledge about the United States, Wayne State University, and the metropolitan Detroit community. OISS provides centralized support services necessary to enable and assure the employability of such non-U.S. citizens within government regulations. Offers of employment to foreign nationals must be authorized by OISS, and only this Office may sign immigration forms and petitions related to employment on behalf of the University. All foreign national employees must complete USCIS Form I-9, 'Employment Eligibility Verification' and present evidence of their identity and employment eligibility at OISS before commencing employment at Wayne State University.

Health Insurance (International Students and Scholars)

416 Welcome Center; 313-577-3422; Fax: 577-2962
Health Insurance Advocate: 313-577-0724

International students and scholars, and their dependents holding F1/F-2 status and J-1 exchange visitors and their dependents holding J-1/J-2 status are required to comply with the health insurance requirements of the University. Commuting Canadian students may waive the health insurance requirement by providing proof of OHIP coverage prior to each semester of enrollment. The mandatory international insurance program is designed to provide international students, exchange visitors, and their eligible dependents with continuous insurance protection and access to quality affordable health care services. The University is mandated by federal law to terminate from its program all exchange visitors and their dependents who do not meet minimum insurance requirements. For additional information or to purchase health insurance please access the OISS website (<http://www.oiss.wayne.edu>) or contact the Health Insurance Advocate in OISS; telephone: 577-0724 or e-mail oissmail@wayne.edu

Cross-Cultural Activities

The OISS provides cross-cultural activities in order to provide exposure to American society, culture, and institutions. Activities include: International Education Week, new international student welcome events, and international coffee hours. Coffee hour provides opportunity for dialogue with and among international students and scholars, American students, and the WSU community. Other activities include monthly sessions on employment options, internships, cross cultural adjustment and more.

Study Abroad and Global Programs Office

906 W. Warren Avenue; 131 Manoogian Hall; 313-577-3207
Director: Kelli Dixon
<http://www.Studyabroad.wayne.edu> (<http://www.studyabroad.wayne.edu/>)

Study Abroad and Global Programs coordinates international educational activities at Wayne State University. Key activities include:

1. the management of WSU faculty-led study abroad programs and exchange agreements;
2. the administration of the Hostelling International Travel Award for students to encourage international study, research and internship abroad initiatives;

3. the administration for the NSEP - David Boren Scholarship;
4. the administration of the U.S. Student Fulbright Program;
5. the coordination and support of internationally-themed events; and
6. the development and management of international outreach activities and off-campus programs including agreements between Wayne State University and universities outside the United States.

Study Abroad programs are offered in collaboration between academic departments and faculty of both U.S. and foreign institutions, in order to combine academic study with a cross-cultural learning experience in a foreign environment. A variety of program options have been developed to address the diverse needs of students. Programs vary in length, level, academic focus, teaching format, language requirements, cost, and degree of independence demanded of the participant.

The office provides a full range of support services to students on such issues as program selection, academic planning, registration, credit, financial aid, and cultural adjustment. In addition, program materials have been designed specifically to assist students in preparing for their study abroad experience. Books, brochures, catalogs on academic and travel/study programs in foreign countries are available at the Study Abroad Resource Center, including information on Wayne State's thirty-three study abroad programs and other programs sponsored by American and foreign institutions.

For a complete and current list of WSU Study Abroad programs, learning experiences, and services, please contact the Study Abroad and Global Programs Office (<http://studyabroad.wayne.edu>).

Arabic Language and Culture at the Lebanese American University, Beirut

This program provides opportunities for WSU students to study Arabic language and culture abroad. During the summer, WSU students may take a variety of language and culture classes while living abroad in Lebanon.

Japan Center for Michigan Universities

The Japan Center for Michigan Universities (JCMU) is a consortium consisting of the fifteen State-supported Michigan public universities, the Michigan Japan Foundation, and Shiga Prefecture. JCMU offers semester- and year-long study opportunities in Hikone, Japan.

The Center's academic program is designed for students interested in acquiring knowledge about Japanese language and culture, including those not majoring in Japanese studies. It provides semi-intensive Japanese language courses and several core courses on Japanese culture to Michigan and other American university students. Academic credit may be granted by a student's home institution upon successful completion of JCMU courses; independent study is also available. The program also features home-stays in a Japanese community, field trips, and participation in cultural events.

Other International Opportunities: Numerous short-term special international study programs for credit are available to Wayne State students.

International Students requiring information on study at Wayne State University should contact the Office of International Students and Scholars (<http://www.oiss.wayne.edu>).

Resource Center

Books, brochures, catalogs and advising on travel/study programs in foreign countries are available at the Resource Center, including information on Wayne State sponsored study abroad programs and programs sponsored by U.S. and foreign institutions. Course credit is available on approval for many study abroad programs; credit approval usually must be obtained prior to entering a study abroad program.

Honors College

The Irvin D. Reid Honors College has study abroad experiences; for information, see the Honors College section in the WSU Undergraduate Bulletin.

Fulbright Grants and other grants for graduate study abroad

The U.S. Fulbright student program (<http://us.fulbrightonline.org/>) is designed to give recent B.S and B.A. graduates, masters and doctoral candidates, and young professionals and artists opportunities for personal growth and international experience. Each year the Fulbright Program allows Americans to study or conduct research in over 100 nations. Application deadline depends on the specific program but generally it must be submitted to the campus Fulbright advisor by September of the year prior to the foreign study experience.

Fulbright-Hays Doctoral Dissertation Research Abroad Program (<http://eca.state.gov/fulbright/fulbright-programs/program-summaries/fulbright-hays-program/>): Provides grants to colleges and universities to fund individual doctoral students to conduct research in other countries in modern foreign languages and area studies for periods of 6 to 12 months. Proposals focusing on Western Europe are not eligible.

Information about other national fellowships and scholarships may be found here: <https://oip.wayne.edu/fellowships> (<https://oip.wayne.edu/fellowships/>)

English Language Institute (ELI)

351 Manoogian Hall, 313-577-2729
<http://www.Eli.wayne.edu> (<http://www.eli.wayne.edu/>)

As the only intensive English language program in the metropolitan Detroit area, the English Language Institute (ELI) has specialized in teaching academic preparation skills, English communication, and cultural orientation to non-native speakers of English from all over the world for more than forty years. The ELI is committed to assisting individuals at all levels to develop their communication skills in the shortest possible time by using the newest language-teaching methodology and the most up-to-date audio, video, and computer technology available. Small classes and highly trained instructors make it possible for students to improve their English rapidly and effectively.

Programs

Intensive Program: For students interested in improving their academic skills in a relatively short period of time, the ELI offers up to twenty hours per week of instruction at varying levels from beginning to advanced. While beginning levels focus on basic communicative skills, advanced classes emphasize mastery of the academic skills needed to succeed in the university such as essay writing, note-taking, and presenting information to an audience.

In addition to attending class, ELI students are encouraged to participate in weekly extracurricular activities in order to become integrated into the English-speaking community. Each semester the ELI offers field trips around the metro-Detroit area, conversation partner practice with native speakers, and socio-cultural activities while at the same time encouraging students to take advantage of all university facilities and services.

Graduate Teaching Assistant (GTA) Training and Testing: All prospective GTAs whose native language is not English must pass the SPEAK® test, rated by ELI faculty, with a score of at least fifty (out of sixty) to be cleared for teaching. A score of forty-five allows a person to teach while enrolling in ELI 0520, a course taught by two ELI faculty members. The final exam, also rated by ELI faculty as well as a faculty member from the academic department, is a teaching demonstration in the GTA's field

of study. The SPEAK® test is offered at various times throughout the academic year. ELI 0520 is offered fall and winter semesters.

ENG 5850 is a course supported by the Graduate School and taught by ELI faculty each semester.

English Language Institute Courses (ELI)

The following courses, numbered 0100-0999, are not offered for degree credit. For registration in any of these courses students should contact the English Language Institute.

ELI 0300 Intermediate Speaking and Listening Cr. 2

The focus of this course is to develop students' emerging academic listening and speaking skills. Students will apply listening and speaking strategies. They will also give short presentations. Emphasis will be on generating compound and complex sentences using simple academic vocabulary. Students will pronounce English sounds accurately and follow intonation and stress patterns appropriately. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0310 Intermediate Writing and Grammar Cr. 2

The focus of this course is to produce well-developed paragraphs in a variety of rhetorical modes on academic topics. This course will culminate in an introduction to essay writing. Intermediate grammatical structures, such as complex sentences, adjective clauses, and the present perfect, will be introduced. Error-correction tasks, peer evaluations, and self-evaluations will develop self-editing skills. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0325 Intermediate Reading and Vocabulary Cr. 2

The focus of this course is to increase students' vocabulary and comprehension of longer and more varied reading passages and to increase students' reading fluency and speed by reading multiple books from ELI library. In intensive reading activities, students will be to identify the topic, main ideas, and details in a passage as well as recognize the writers' point of view, purpose, and tone in simple academic texts when guided by questions. Students will also be able to understand the structure of a text with transition words and the relationship between the main points and the supporting details. The focus of the extensive reading activities will be on identifying overall meaning of texts and increasing reading speed. Class Readers will give the teacher the opportunity to help students acquire the art of extensive reading, to improve their skills, and to monitor their progress closely. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0400 High-Intermediate Speaking and Listening Cr. 2

The focus of this course is to develop students' academic listening and speaking skills needed for successful extended academic discourse. Students will demonstrate detailed understanding of academic listening passages. Students will use speaking strategies for academic discussions and to summarize information. They will give speeches using visuals, transitions, and grammatically-correct sentences with academic vocabulary. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0410 High-Intermediate Writing and Grammar Cr. 2

The focus of this course is to develop students' essay writing skills and improve accuracy in grammar, mechanics, and spelling. Essays will be produced in a variety of rhetorical modes on academic topics that include some authentic sources. Students will also be introduced to summarizing and citing authentic sources. Complex grammatical structures will be introduced. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0425 High-Intermediate Reading and Vocabulary Cr. 2

The focus of this course is to increase students' academic vocabulary and comprehension of academic reading passages and to increase students' reading fluency and speed by reading multiple books from the ELI library. In intensive reading activities, students will identify the structure, purpose, and connection between ideas in academic texts by finding main ideas, topic sentences, and supporting details in a passage, and recognize the writer's point of view, purpose, and tone in academic texts. Students will use strategies to discern meaning of words from context. They will acquire knowledge of word forms and will use dictionary skills to build vocabulary. The focus of the extensive reading activities will be on identifying overall meaning of texts and increasing reading speed. Class Readers will give the teacher the opportunity to help the students acquire the art of extensive reading, to improve their skills, and to monitor their progress closely. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0500 Advanced Speaking and Listening Cr. 2

The focus of this course is to develop students' academic listening and speaking skills needed for successful extended academic discourse. Students will use listening strategies to show detailed understanding of lengthy academic listening passages. They will apply speaking strategies to share information and communicate with automaticity. Concentration will be on consistently speaking intelligibly and fluently. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0510 Advanced Reading and Writing Cr. 2

Students will develop critical thinking skills through reading, writing, and classroom discussion. Students will write well-developed five- to eight-paragraph essays and relate assigned readings to their own experience. Students will learn how to incorporate outside sources into their essays and use appropriate citations. Advanced grammatical structures will be reviewed and expanded as necessary. Offered Every Term.

Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.

ELI 0515 Research Skills Cr. 1

The focus of this course is to introduce skills essential to conduct academic research at the university level. Students will learn how to search for and evaluate academic sources in the library and online databases as well as how to read, analyze, and use the information gathered. The course also focuses on paraphrasing and summarizing. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0520 English for Teaching Assistants Cr. 1

American English language skills to improve teaching effectiveness of non-native speakers of English. Pronunciation, stress, intonation, speaking rate; oral presentation practice; cultural factors in U.S. university classroom. Not offered for degree credit. Offered Every Term.

Repeatable for 4 Credits

ELI 0535 Advanced Grammar Cr. 1

The focus of this course is to master students' communicative competence, or their ability to communicate effectively and appropriately, in writing and speaking. Advanced grammar points will be studied and practiced in ways that simulate academic discussions, scenarios, and assignments. Students will engage in a variety of communicative activities that demand grammatical accuracy. Offered Every Term.

Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0699 Directed Study Cr. 1-4

Meets the needs of English as a Second Language (ESL) students in their last stages of preparation for matriculation. Based on students' particular needs, instruction will be provided to strengthen various academic preparation skills, including listening and note-taking practice in an academic context, extensive and intensive reading, and expository and research paper writing. Offered Every Term.

Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.

Repeatable for 8 Credits

Educational Outreach

5057 Woodward Avenue, Suite 3101, Detroit MI 48202; Telephone: (313) 577-4682

Email: educationaloutreach@wayne.edu

<http://www.educationaloutreach.wayne.edu> (<http://www.educationaloutreach.wayne.edu/>)

Vice President for Academic Student Affairs and Global Engagement: Ahmad Ezzeddine

Sr. Director, Business Affairs: Arthurine Turner

Associate Director, Administrative Services: Heather Howell

Director of Operations: Rebecca Journigan

Director, Educational Outreach and Transfer Initiatives: Michael Quattro

Associate Director, Educational Outreach: Stacy Jackson

Program Manager, Schoolcraft Center: Gail Stanford

Program Coordinator: Brandi Walthall-Johnson

Associate Director, Executive and Professional Development:

Marketing Coordinator: Carol Baldwin

Educational Outreach is principally responsible for Wayne State University's off-campus offerings including online programs and courses. This division administers academic off-campus course offerings and programs for most Schools and Colleges of the University; the University Summer Session; and the partnership degree programs at University centers located on community college campuses. Educational Outreach staff coordinate relationships with community colleges partners and oversee transfer student recruitment and retention via the Transfer Student Success Center. Additionally, the division oversees credit and non-credit executive education, certificate, professional development and continuing education programs for the University.

The Division operates several instructional centers in the Detroit metropolitan area as well as in other selected locations in Michigan, and delivers distance learning and online instructional programs. Through these outreach efforts, WSU is able to serve and meet the educational needs of a diverse student audience: working adults who are unable to pursue traditional on-campus programs of study; persons who desire courses of instruction at or near their place of employment; and others who are simply taking courses to enrich their educational background or improve their technical skills.

Dual Enrollment Cohort Programs

Educational Outreach coordinates dual enrollment cohort programs for eligible high school students in interested school districts. Dual enrollment cohort programs may be offered on site within the school district or at any of the Wayne State University campuses. For information regarding Dual Enrollment Cohort Programs, telephone: 313-577-1430.

Visitor Program (Non-Credit)

Educational Outreach also administers the University's Visitor Program. Under this program, adults can attend a wide range of selected University courses, both on and off campus, provided classroom space is available. No grade or academic credit may be earned, and students may not be registered for courses taken for credit simultaneously with courses taken under the Visitor Program.

The Visitor Program allows any adult who is not currently enrolled in credit courses at Wayne State University to attend a wide range of University courses in a noncredit status. Visitor status students do not receive academic credit and do not receive acknowledgement on transcripts. Provided space is available and permission has been granted, adults may enroll as visitors in most of the courses listed in the Schedule of Classes.

It is not necessary to be formally admitted to the University to take advantage of the Visitor Program. Visitor status students do not submit written work or take examinations. Registration for both on-campus and off-campus classes takes place the first two weeks of classes and is processed by the Division of Educational Outreach, located on the main campus.

Students enrolled in the Visitor Program are assessed one-half of the undergraduate resident lower division credit hour rate for each credit hour plus a non-refundable Registration Fee equal to one-half of the regular Registration fee and the full per credit hour undergraduate Student Service Credit Hour Fee. Payment of tuition and fees are due at the time of registration. Tuition must be paid in full at the time of registration. Payment is accepted by money order, check, Discover, Master or Visa Card. Money orders or checks must be drawn from a United States bank and cannot be starter checks. Students may register in person or by calling: 313-577-4682.

Travel Study

Sponsoring schools and colleges in the University offer travel study programs through the Division of Educational Outreach. Most programs occur in the spring/summer sessions; times and locales vary each year. Travel study refers to programs in the United States. Please refer to the Office of International Programs (p. 63) for study abroad programs. Recent travel study programs include:

College of Liberal Arts and Sciences: Biological Sciences: marine lab at the Florida Keys; field studies at Fish Lake, Michigan

College of Education: Science Education: ecology courses at Higgins Lake, Michigan

College of Fine, Performing and Communication Arts: Fashion Merchandising: design in New York City

Extension Centers

Director, Educational Outreach and Transfer Initiatives: Michael Quattro

Associate Director, Educational Outreach: Stacy Jackson

Program Manager, Schoolcraft Center: Gail Stanford

The Division of Educational Outreach operates several instructional centers in the Detroit metropolitan area as well as in other selected

locations in Michigan. Through these outreach locations, the University is able to serve and meet the educational needs of a diverse student audience. The locations of the centers are listed below.

SCHOOLCRAFT COLLEGE
39201 W. Seven Mile Road
Jeffress Center, Suite 320
Livonia, MI 48152
Telephone: 734-853-3450
Fax: 734-853-3446
Email: schoolcraft@wayne.edu

UNIVERSITY CENTER AT MACOMB
44575 Garfield Road
Clinton Township, MI 48038
Telephone: 586-263-6700; 313-577-6261
Fax: 586-263-6120
Email: macomb@wayne.edu

ADVANCED TECHNOLOGY EDUCATION CENTER
14601 East 12 Mile Road
Warren, MI 48088
Telephone: 586-447-3905; Fax: 586-447-3907
Email: atec@wayne.edu

Registration for Off-Campus Courses

Registration for off-campus academic courses is held during the regular registration periods for each semester. For specific registration information, telephone: 313-577-3541 or 313-577-4682.

Fees for credit classes are the regularly established fees of Wayne State University, which are published each semester in the University Schedule of Classes (<http://classschedule.wayne.edu/>). All fees are subject to change at any time without notice by action of the Board of Governors of the University.

Non-Matriculant Advising

Persons who wish to enroll in credit courses offered through this division and who have NOT been formally admitted to the University are registered as non-matriculated students in the College of Liberal Arts and Sciences. Students are advised to consult the non-matriculant advisor as well as the specific degree program requirements cited in this bulletin, and are urged to process formal application and admission documents as soon as possible. Upon admission to a Wayne State school or college, credits earned in non-matriculant status may be applied toward degrees subject to the approval of the admitting school or college.

Admission Requirements

Most credit courses offered through Educational Outreach are open to all students who are qualified by virtue of meeting the prerequisites for individual courses or, in cases where there are no prerequisites, on the basis of their own assessment of their aptitudes. Those individuals who have been formally admitted to Wayne State University for a degree or certificate program, or post-baccalaureate study, and who are in good academic standing, will have course credits and grades earned through extension recorded on their transcripts in the same manner as credits earned on campus. Guest students should consult with their home institution when formulating their registration plans and submit an application for guest admission (<http://admissions.wayne.edu/guest/requirements.php>).

Programs Offered Through Educational Outreach

Educational Outreach offers entire curricula or selected courses applicable to many Wayne State University degrees and certificates at convenient times and places. Students should visit the Educational Outreach (<https://wayne.edu/educationaloutreach/programs/>) website for more details about complete degree programs offered at various extension centers.

Transfer Student Success Center

Director, Educational Outreach and Transfer Initiatives: Michael Quattro
Manager: Ranae Hamama
Advisers: Nicole Saez and Kaleigh Webber
Telephone: 313-577-2487
Email: transfer@wayne.edu

The Transfer Student Success Center (TSSC) is a hub for transfer students to obtain the help they need to successfully complete their degree at Wayne State University. The TSSC is designed to help those transferring from a community college or other four-year institution navigate the administrative and academic units of the university and ensure a timely and successful completion of their degree.

The TSSC provides direct service to students, community college staff, and WSU departments.

Direct service to students includes support with:

- Transfer credit evaluation
- Academic advising
- Student organizations
- Engaging students with the larger Wayne State community
- Providing opportunities for prospective students to visit campus

Direct service to community college staff includes:

- Information about Transfer Plans and transferring of credit
- Development of articulation agreements
- Hosting/coordinating staff and faculty visits to WSU
- Providing counselors/advisors and other staff with current/updated WSU information

Direct service to WSU departments includes:

- Facilitating and coordinating the development of articulation agreements
- Acting as a resource and clearinghouse for information on transfer students
- Participating in and leading development of events and activities for transfer students

Executive and Professional Development Programs (Non-Credit)

Interim Associate Director: Kim White-Jenkins
Project Manager: Abby Cheatham
Telephone: 313-577-4665
<http://www.ExecEd.wayne.edu> (<http://www.ExecEd.wayne.edu/>)

Executive and Professional Development (EPD) provides proven practical solutions to business challenges through executive education, business training and consulting. Offering a unique blend of expertise and flexible design, EPD moves beyond off-the-shelf, pre-packaged education, training and consulting 'services' by applying problem-solving strategies to assess and meet the needs of its clients. EPD is committed to providing customized, fully integrated, in-depth programs to address

specific organizational needs and improve individual and organizational capabilities and performance. The EPD portfolio includes:

Business Training and Executive Education

EPD offers programs that respond to problems currently facing business, government and industry. Programs are offered in a variety of formats and deliver the strategies, tools, and knowledge needed to succeed in today's changing business environment. EPD mobilizes the resources of WSU to serve the specific and unique needs of the community by offering customized degree and non-degree programs, be they an onsite MBA program offered for a specific company, an Engineering Management Master program offered for a group of engineering executives, or a master of social work offered at one of the university's extension sites.

EPD provides a blended training approach by using a variety of alternative delivery methods including on-site facilitated sessions, video-conferencing, online training and computer-based programs.

Certificate Programs

EPD responds to industry's demand for a more comprehensive approach to continuing education by offering certificate programs that encompass several current management and business issues. These multiple-session programs offer participants the opportunity for higher mastery and competency in a particular subject area and can be customized to meet each organization's specific needs.

On-Site Consulting Services

In conjunction with training, EPD's expert staff provides consulting services in a variety of areas including training and design development, leadership and organizational development, succession planning, business process improvement, strategic planning, and executive coaching.

Procurement Technical Assistance Center

The Procurement Technical Assistance Center (PTAC) works with qualified businesses in the Detroit area to prepare them to bid for government contracts. PTAC's goal is to provide small business owners with a competitive edge in selling to the public sector by educating them about opportunities, and offering marketing and technical assistance. Recently, PTAC services resulted in awarded contracts totaling more than \$5 million.

For further information on any Executive and Professional Development services or activities, call: 313-577-4665.

Computing and Information Technology Division (C&IT)

Office: 5925 Woodward Ave.

Tel.: 313-577-4722; Fax: 313-577-5500

Associate Vice President and Chief Information Officer: Rob Thompson
<https://tech.wayne.edu/>

Computing and Information Technology (C&IT) provides IT services and resources that support and enhance Wayne State University's teaching, learning, research, and administrative activities. C&IT's primary goal is to provide technology services that enable our students, faculty, and staff to be successful at WSU. C&IT employees strive to provide excellent customer service, respond to the changing needs of the University community, and make it easy and convenient for everyone to use technology at Wayne State. Functional C&IT organization charts are available on our website (<https://computing.wayne.edu/about/org-charts.php>).

AccessID

Everyone at Wayne State receives a unique identification code (AccessID) consisting of two letters and four numbers, for example: xy1234. The AccessID and password are key to accessing many University online systems; the Access ID can be found on the One-Card; passwords are assigned with initial email communications in the admissions application process.

Email and Communication Tools

Wayne Connect: The University's Wayne Connect system is a campus-wide method of communication. It is powered by Microsoft and features email, calendars, online storage, mobile apps, and more.

Broadcast Messaging (Emergency Alerts) (<https://broadcast.wayne.edu/>): This University-wide service delivers emergency alerts and other significant messages to faculty, students, and staff. Recipients can register their cell phones to get emergency alerts, grades, and other important information via text messages.

Mobile Apps

Wayne State Mobile App offers students, faculty, staff, and alumni an easy way to access University information like email, calendar, parking availability, class schedules, campus maps, OneCard balances, and more. Apps are available for free download on Android and iOS devices.

Academic IT Services

Canvas (<https://tech.wayne.edu/kb/academic-services/>) is Wayne State's online learning management system. Students can take quizzes, upload assignments, participate in message boards and more. Free mobile apps for teachers and students are available.

Computer Labs (<https://library.wayne.edu/services/computing/labs/>): The University libraries have both open and restricted-access computing areas, with more than 600 computers and a variety of applications. Additionally, many Schools, Colleges, and academic departments provide special-purpose computers and software for their students and faculty.

Grid Computing (<https://tech.wayne.edu/hpc/>): WSU researchers with projects requiring high performance computing can use Wayne State University's scalable, Grid-enabled computing system.

Administrative IT Services

Academica is the primary online means to securely register for classes, apply for financial aid, pay tuition, and more.

Internet Access (<https://tech.wayne.edu/kb/internet-networks/wired-wireless-networks/>): WSU's wireless networks offer high-speed Internet access within campus buildings including the residence halls. We recommend connecting to WSU-SECURE whenever possible.

Research Networks: Internet2 and MiLR (<https://tech.wayne.edu/kb/academic-services/grid-computing/266731/>): Wayne State's membership in the Internet2 advanced networking consortium offers researchers countless opportunities for participation and collaboration. The Internet2 Network addresses researchers' bandwidth-intensive requirements, such as: collaborative applications, distributed research experiments, and grid-based data analysis.

Software Purchases and Discounts (<https://tech.wayne.edu/software-hardware/discounted-software/>): The C&IT Help Desk provides free and discounted software to current students, faculty and staff for academic, departmental and personal use.

Computer Security (<https://tech.wayne.edu/kb/security/>): Students can rely on C&IT to protect the confidentiality, integrity, and availability of information on WSU computer systems, but security is everyone's responsibility.

Help Desk (<https://tech.wayne.edu/helpdesk/>): The C&IT Help Desk is Wayne State's campus technology headquarters - a one-stop shop for all your tech support needs. Call, email, or live chat for one-on-one help with any of Wayne State's IT systems, like email, Canvas, or Academica.

Qualtrics Online Survey Software (<https://tech.wayne.edu/kb/academic-services/qualtrics/>): The Qualtrics Research Suite is a user-friendly, feature rich, web-based survey tool that allows users to build, distribute, and analyze online surveys, collaborate in real-time, and export data in multiple formats. All Wayne State students have access to a free account for this service.

University Libraries and Archives

Office: 3100 David Adamany Undergraduate Library
Tel.: 313-577-4023; Fax: 313-577-5525
library.wayne.edu (<https://library.wayne.edu/>)

The University Libraries support the education, research and service missions of the University and its communities through comprehensive, high-quality resources, services and programs. The libraries are leaders in providing accurate and timely information to Wayne State University as well as the metropolitan Detroit area and Michigan. Scholarly materials in the University Libraries offer total more than three million volumes, over 56,000 journal titles and a broad range of electronic resources, including electronic journals and over 800,000 e-books, all available through the Libraries' website.

The Library System includes the David Adamany Undergraduate Library, the Arthur Neef Law Library, the Purdy/Kresge Library, the Vera P. Shiffman Medical Library and its Learning Resource Center at the Eugene Applebaum College of Pharmacy and Health Sciences, and the Walter P. Reuther Library of Labor and Urban Affairs and University Archives. The School of Information Sciences and the Detroit Area Library Network (DALNET) are also under the Library System's charge.

The University Libraries offer in-person reference consultations, research support, interlibrary loan, circulation and course reserve services, document delivery and 24/7 online research support. The latest information technologies provide state-of-the-art access to instructional and research materials. The libraries provide silent and collaborative study spaces.

David Adamany Undergraduate Library

The David Adamany Undergraduate Library (<https://library.wayne.edu/>) (UGL) is designed to enhance the learning experience of undergraduate students by offering open spaces for collaboration and silent study as well as hundreds of computers for student use. The library features instructional labs, open spaces with flexible furniture and technology, collaborative study rooms that can be reserved online, course reserves and the Tech Bunker, a technologically-rich immersive learning space that invites users to develop, design, dream and discover. The UGL also houses the Writing Center, Student Academic Success Services, the Irvin D. Reid Honors College, the Humanities Commons and other student-facing services throughout the building.

Purdy/Kresge Library

The Purdy/Kresge Library (<https://library.wayne.edu/>) supports the research and instructional needs of faculty, graduate students and upper-level undergraduates. The library provides access to over sixty 60 computers as well as ample study space in a traditional library atmosphere.

The Purdy/Kresge Library houses a book collection of over 1.5 million volumes, an extensive microform collection, a large document collection and a number of special collections including the Leonard Simons Collection of rare Michigan history texts, the Arthur L. Johnson Endowment collection, and the Ramsey Collection of Children's Literature. This library is also the home of the Teaching Commons, a collaborative effort of the Libraries, the Office for Teaching and Learning, and Computing & Information Technology, which assists faculty and instructors in designing and developing instructional experiences for the classroom and online teaching environments.

Arthur Neef Law Library

Located at the north end of the University's main campus, Wayne State University's Arthur Neef Law Library (<https://library.wayne.edu/neef/>) offers researchers a comprehensive legal research center. Its collection of more than 620,000 print and microform equivalent volumes, plus an expansive collection of e-books, databases and other digital resources makes it a leading legal research facility in the State of Michigan. The Law Library is also a depository for U.S. government publications and for the records and briefs filed with the Michigan Supreme Court.

Shiffman Medical Library and Learning Resources Centers

The Shiffman Medical Library (<https://library.wayne.edu/shiffman/>) supports the research, education and clinical and public health care information needs for the University, major hospitals within the Detroit Medical Center, and unaffiliated health care providers and trainees throughout Michigan. The library maintains access to all the major health sciences, bio-scientific and consumer health databases; a core collection of journals dating to the mid-19th century; and books in print and electronically reproduced. Health information learning programs and informatics workshops, listed on the Shiffman website, are open to all members of the University community. The Learning Resources Center focuses on the daily information and computing needs of students of the Applebaum College.

Walter P. Reuther Library of Labor and Urban Affairs and University Archives

The Walter P. Reuther Library (<https://www.reuther.wayne.edu>) has an international reputation as the largest labor archives in the world and additionally holds significant collections relating to social and urban affairs in the metro Detroit area. It collects and preserves records of the American labor movement, related social, economic, and political reform groups, and twentieth century urban America. The archival collections held in the Reuther Library cover a variety of topics, organizations and individuals. In all, the Reuther Library has more than 95 million documents, 20,000 books, monographs, union publications and proceedings, 2 million photographic images; and 20,000 audio and moving image recordings. Due to issues of format, size, and security, the collection stacks are not open to the public and researchers work with these materials in the Reuther reading room during established hours of business.

The Reuther Library has become the official depository for the inactive files of several labor unions and organizations, including the United Auto Workers, the American Federation of Teachers, the National Association of Letter Carriers, The Newspaper Guild, the United Farm Workers, the Service Employees International Union, the American Federation of State, County and Municipal Employees, the Air Line Pilots Association, the Association of Flight Attendants, the Industrial Workers of the World, the Society of Women Engineers, and many state and local organizations. Records have also been received from urban and civil rights groups as the Citizens Crusade Against Poverty, the Michigan Chapter of the American Civil Liberties Union, the Detroit Branch of the National Association for the Advancement of Colored People, the United Community Services of Detroit, United Way for Southeastern Michigan, and New Detroit, Inc. A unique portion of the holdings is a labor journal and newspaper collection, which has nearly 1,600 current and non-current titles dating from the late 1800s to the present. Many individuals who played leading roles in labor and urban affairs have also placed their papers in the Reuther Library.

The Reuther Library also houses the Wayne State University Archives which provides historical information about WSU and its predecessor

institutions that date to 1868. In addition to collecting the University's historical records, the WSU Archives holds the papers of presidents and administrative leaders, the papers of selected faculty members, and the papers of student and professional organizations that document the development of the University and higher education in Michigan. The WSU Archives also collects all publications created by and pertaining to the University, including the student newspaper from 1917 to present, as well as departmental newsletters.

Centers and Institutes (Undergraduate Programs)

Center for Excellence and Equity in Mathematics

Director: Steven Kahn, Ph.D.
1309 Faculty Administration Building
313-577-2558
<http://clas.wayne.edu/ceem/>

The Center for Excellence and Equity in Mathematics, in the College of Liberal Arts and Sciences, is a research and educational center with a two-fold mission: to find ways to significantly improve the quality of K-12 and introductory college-level mathematics instruction across the United States; and, by using mathematics as a tool, to provide students from inner cities and underrepresented minority groups with the kinds of educational and lifetime opportunities that should be available to all students.

The Center currently operates five core programs: the WSU Math Corps, an outreach program serving Detroit middle and high school students; the WSU Middle and High School Math Network, which provides day to day instructional and/or operational resources to Detroit area middle and high school math departments; the Math Corps Learning Community at WSU, a University support and retention program for Math Corps "kids" now attending WSU; and the Emerging Scholars Program (ESP), a WSU honors-level calculus and pre-calculus program; and the Rising Scholars Program (RSP), serving WSU students at the developmental level.

Center for Latino/a and Latin American Studies

Director: Jorge L. Chinea, Ph.D.
3324 Faculty/Admin. Bldg.
313-577-4378
<https://las.wayne.edu/>

The Center for Latino/a and Latin American Studies is a multi-service unit engaged in teaching, research, and service. The Center plays an important role in the urban mission of Wayne State University and involves four components:

1. The Center hosts two learning communities: the CBS Scholars Program and the College-to-Career Program. The first one recruits students into the University, facilitates their transition between high school and college, and promotes increased retention. The second program supports students through completion of their degrees and beyond, especially in the areas of career development and graduate school preparedness. It also offers courses and related educational activities for students interested in Latino and Latin American Studies.
2. It promotes research on issues relevant to the Latino/a community, especially in the urban and workplace environment; and Latin American cultural studies and current issues.
3. It creates and fosters the interaction and exchange of personnel and resources between the University and the Latino/a community; and it serves as a source of expertise on Latino issues to the larger metropolitan community.
4. As an advocate for the awareness and advancement of Latino/a issues within the University, the Center contributes to the University's continuing efforts to create a richer multicultural campus environment.

Center for Molecular Medicine and Genetics

Director: Lawrence I. Grossman, Ph.D.
3127 Scott Hall, 540 E. Canfield
313-577-5323
<https://genetics.wayne.edu/>

The Center for Molecular Medicine and Genetics is interdisciplinary by design, built around modern molecular genetics, and comprising basic researchers, physician-scientists, computational scientists, and genetic counselors. The diversity of the Center's members and their backgrounds enables activities that range from basic research to clinical genetics to translation to the bedside and, in some cases, to a biotech company. The underlying goal is excellence in molecular biology, molecular medicine, and genetics to increase the understanding, diagnosis, treatment and prevention of human disease. The Center occupies over 28,000 sq. ft. of state-of-the-art space, including both open and closed laboratories, faculty offices, equipment and special procedure rooms, conference and interaction areas, and a server room to support the Center's faculty, staff and students.

Students in the Center participate in research on gene expression and regulation, including the role of DNA-protein interactions and DNA methylation; the structure, function, and evolution of genes; molecular cytogenetics, genome organization, and mammalian gene mapping; long non-coding RNA discovery and characterization; human reproductive biology; protein-protein interactions; cellular stress responses; mitochondrial biology and genetics; neuroscience and the genetic basis for neurological disease; computational biology and bioinformatics. Considerable emphasis is placed on human and mammalian model systems and on understanding human molecular genetic diseases.

Faculty members of the Center often invite undergraduate students to volunteer in their laboratories, which is an outstanding opportunity for undergraduates to gain experience. The Center encourages students to view the profiles of the faculty and directly contact a professor to inquire about volunteering. In addition, each summer the Center hosts an exclusive Summer Undergraduate Research Program (SURP), from which many undergraduate students have moved on to prestigious universities and programs to pursue graduate degrees.

Summer Undergraduate Research Program (SURP)

Opportunities for research in Molecular Medicine and Genetics are available each summer as part of the Center for Molecular Medicine and Genetics SURP. The program provides sophomore and junior undergraduate students with experience in the research laboratories of the Center, located at the Wayne State University School of Medicine. Over the course of the summer students work in the laboratories of Center faculty members and attended weekly research seminars. When the program ends in August the students present their work to their mentors, peers, and the WSU research community at a symposium.

Center for Peace and Conflict Studies

Director: Pontus Leander, Ph.D.
2320 Faculty/Administration Building
313-577-3453
<https://cpcs.wayne.edu/>

On November 20, 1965, the Center for Teaching about War and Peace opened its doors under the leadership of Director Russell Broadhead and a committee of distinguished faculty members. The mission then was to provide interdisciplinary, University-wide, academic programs in the field of domestic and international conflict and peace issues. In 1987, the WSU

Board of Governors, building upon this rich heritage, created the Center for Peace and Conflict Studies.

The mission of the Center for Peace and Conflict Studies is to develop and implement projects, programs, curricula, research, and publications in areas of scholarship related to international and domestic peace, war, social justice, arms control, globalization, multi-cultural awareness and constructive conflict resolution. The Center addresses this mission in three ways. CPCS supports undergraduate and graduate student excellence through its academic programs. CPCS staff and students engage in scholarly research initiatives on aspects of domestic and international conflict management. CPCS provides community outreach programs that emphasize: conflict resolution, development of intercultural understanding, and enhance local knowledge of global affairs.

Center for Urban Studies

Director: Lyke Thompson, Ph.D.

Managing Director: Charo Hulleza, M.P.A.

5700 Cass Avenue, Room 2207 Academic/Administration Building
313-577-2208

<http://www.cus.wayne.edu> (<http://www.cus.wayne.edu/>)

The Center for Urban Studies improves understanding of and provides innovative responses to urban challenges and opportunities. The Center conducts and disseminates research, develops policies and programs, and provides training, capacity-building, and technical assistance. The Center participates in defining and influencing local, regional, State, and urban policy. The Center's current initiatives have a real, substantial and lasting impact on Detroit's challenges across a number of areas ranging from crime reduction to healthy homes. Committed to serving Detroit and its metropolitan area, the Center exemplifies Wayne State's urban research and service mission. The Center employs a highly trained multidisciplinary team consisting of social science Ph.D. and master's-level researchers, as well as WSU graduate and undergraduate students.

Center to Advance Palliative-Care Excellence (CAPEWAYNE)

4201 St. Antoine, Suite 5C-UHC

313-576-3997

<http://www.capewayne.med.wayne.edu> (<http://www.capewayne.med.wayne.edu/>)

CAPEWAYNE is an interdisciplinary academic center bringing together scholars, educators, researchers and clinicians dedicated to improving the quality of end-of-life care. The main focus areas of this center are education, research and clinical practice, all of which permeated by the field of humanities.

Education: The Center offers an end-of-life curriculum for students, trainees and clinicians across disciplines and levels of training.

Research: The Center gathers researchers who have a shared interest in the conduct of collaborative, interdisciplinary interdepartmental research. Current research projects include evaluating the impact of a palliative care curriculum, called the Compassionate Allies, sponsored by Seasons Hospice Foundation, on the skills and attitudes of pre-medical students.

Clinical Practice: The Center provides resources to clinicians across disciplines and settings that practice palliative care, through a paradigm of sharing and ensuring optimization of clinical care in our community.

Developmental Disabilities Institute

Director: Sharon Milberger, Sc.D.

Leonard Simons Building

4809 Woodward Avenue, Suite 268

313-577-2654 or 888-978-4334

<https://ddi.wayne.edu/>

The Developmental Disabilities Institute is one of a national network of over sixty University Affiliated Programs, nationally and in U.S. territories. The Institute's mission is to contribute to the development of inclusive communities, which enhance the quality of life of people with disabilities and their families through a culturally-sensitive statewide program of interdisciplinary education, community support and services, and research and dissemination of information.

Staff and faculty engage in technical assistance, training, and research programs throughout Michigan via collaborative efforts with schools, community agencies, community colleges, and other Universities. Over 10,000 individuals with disabilities benefit from these activities annually. The Institute offers a wide range of opportunities for students and faculty to engage in state-of-the-art community-based research, education, and technical assistance.

The Institute develops activities and projects based on needs of persons with disabilities and the communities in which they live and work. The Community Advisory Council, composed of representatives of twenty-five key statewide organizations, meets bi-annually to provide information and assistance to Institute staff and faculty in establishing priorities and evaluating activities.

Humanities Center

Director: Jaime Goodrich, Ph.D.

2226 Faculty/Administration Building; 656 W. Kirby; 313-577-5471

<https://humanities.wayne.edu/>

The mission of the Humanities Center is to nurture interdisciplinary, transdisciplinary and intradisciplinary work in the humanities and the arts through competitions, conferences, discussion groups and other programs for Wayne State's humanities and arts faculty and students, and for visiting scholars and artists. The Center promotes excellence in research and creative endeavors through rigorous peer review of proposals submitted to it for funding. By sponsoring programs that involve community participants, the Center supports the University's urban mission. Through its various programs, the Center brings humanists of diverse talents and interests together for conversation and collaboration, and fosters innovation and creativity across the humanistic disciplines.

The Humanities Center provides funding support to both faculty members and students. Two of the Center's most prominent faculty programs are the Marilyn Williamson Endowed Distinguished Faculty Fellowship (MWEDF) and an annual themed Faculty Fellowship Competition. The Center awards either one or two Williamson fellowships a year, each worth \$20,000, depending on the funds available in the budget. Other faculty award programs include an annual themed the Faculty Fellowship Competition with between eight and ten recipients awarded up to \$6,000 each. Prominent student programs are the Doctoral Dissertation Fellowship and the Graduate Travel program. The Doctoral Dissertation Fellow will receive \$15,000 plus health care coverage if it is requested. Up to three smaller awards of \$500 may be made at the discretion of the Center to applicants for the award. The Graduate Travel program encourages graduate students in the humanities and the arts to present their research or artistic work at national conferences and exhibitions by offering up to \$300 in travel assistance to applicants. Please check the Humanities Center Web site for additional programs that provide funding opportunities for faculty.

Labor Studies Center

Director: Elizabeth Faue, Ph.D.
249 Walter P. Reuther Library, 5401 Cass Ave.
313-577-2191
<https://labor.wayne.edu>

The Labor Studies Center is a comprehensive labor education center committed to strengthening the capacity of organized labor to represent the needs and interests of workers, while at the same time strengthening the University's interdisciplinary research and teaching on labor and labor relations issues. The Center's primary areas of research and practice include: training and technical assistance to unions on labor relations and workplace issues; an undergraduate labor studies major and internship program; interventions to increase the organizational effectiveness of unions; the development and diffusion of constructive labor-management relations practices, particularly in the public sector; the formation and institutionalization of labor-community coalitions; and the impact of lean production systems on workers and labor relations practice in the North American auto industry.

Merrill Palmer Skillman Institute

Director: Alissa Huth-Bocks, Ph.D.
71 East Ferry Ave.
313-664-2500
<https://mpsi.wayne.edu/>

The Merrill-Palmer Skillman Institute is an interdisciplinary research institute focusing on urban children and families. It has a long and distinguished history as a research and educational institution, serving as a pioneer in the field of child development and early education. Since it became a part of Wayne State University in 1982, the Institute has encouraged collaborations among faculty from many departments within the University.

The Institute emphasizes research, research training and community engagement and service in the areas of children's health and development. Current research strengths range from prenatal exposures and child development, infant mental health, cognitive development of high risk infants as well as adolescent health and development. The service programs of the Institute are an outgrowth of its research mission. MPSI operates one of the nation's oldest preschools. Community outreach and engagement through MPSI's Healthier Urban Families Program includes training of mental health workers who serve very young children in the care of public and non-profit agencies; consultation to education and child care organizations; workshops for teachers, parents and the public; and the annual Metropolitan Detroit Teen Conference.

Mike Ilitch School of Business

Dean: Virginia Kleist

The Mike Ilitch School of Business is a professional school concerned with the theory and practice of business. The primary objectives of the School are to provide relevant education of high quality for business students, and to develop new knowledge through research and encourage application of its findings. To this end, in addition to their instructional services, the faculty has been a continuing source of notable scholarly publications and it is a special strength of the School that it brings a fine research faculty to the teaching of undergraduate as well as graduate courses.

The School has a tradition of instructional programs exemplifying high standards for both faculty and students as is acknowledged by the accreditation of the AACSB International – The Association to Advance Collegiate Schools of Business, the international association for management education, for all degree programs. The School provides relevant, comprehensive business education through programs that serve recent high school graduates as well as older student populations. The student body is racially and ethnically diverse, residential and commuting, and often working and raising families. To meet the needs of these students, the School schedules classes throughout the metropolitan area, during both day and evening hours. Extension Centers are located in Livonia and Warren.

The undergraduate program begins during the freshman year. Freshmen are admitted directly to the Mike Ilitch School of Business. The first two years of undergraduate work are focused on developing an educational foundation in the basic sciences and arts. During the third and fourth years, the student follows a program of professional education. Students may select majors in accounting, finance, global supply chain management, information systems management, management, and marketing. The degrees of Bachelor of Arts and Bachelor of Science in Business Administration are awarded.

The Undergraduate Certificate in Entrepreneurship and Innovation was designed by the Mike Ilitch School of Business to provide students with the specialized knowledge and skills to develop and launch startup ventures. The 15-credit certificate is open to students of all majors. The Post-bachelor Certificate in Accounting enables students who already hold a bachelor's degree in business or accounting to obtain the required educational background to be licensed as a Certified Public Accountant (CPA) in Michigan.

The graduate program leading to the Master of Business Administration (M.B.A.) degree is dedicated to educating graduate students for professional careers in business. The Master of Science in Accounting (M.S.A.) program prepares individuals for professional careers in public accounting. The Master of Science in Data Science and Business Analytics (M.S.D.S.B.A.) is a novel interdisciplinary degree program that leverages the strengths of Wayne State in statistics, operations research, computing and business by combining the world-class expertise of the College of Engineering and the Mike Ilitch School of Business. The Master of Science in Finance (M.S.F.) is designed for both recent graduates and working professionals with a bachelor's degree in finance, accounting or another quantitative field who want to advance or shift their careers. The Executive Master of Science in Automotive Supply Chain Management is designed for working professionals with a bachelor's degree who want to progress in the dynamic field of supply chain management in the automotive industry, as well as new graduates who want to immediately pursue advanced studies. The Graduate Certificate in Business is designed to provide non-business undergraduates fundamental knowledge in the basic functional areas of business administration: Accounting, Finance, Management and Marketing. For additional graduate program information, consult the Wayne State University Graduate Bulletin.

The Doctor of Philosophy Program in the Mike Ilitch School of Business prepares students for teaching and research at major universities. The program focuses on quantitative skills, enabling students to engage in research projects with faculty, and places a heavy emphasis on a global perspective.

The Mike Ilitch School of Business also recognizes its obligation to community service. As a central part of an urban university, the School makes a special commitment to foster training, and basic and applied research that will benefit business enterprises. Of primary importance is the dedication to excellence in the instructional programs that prepare the business leadership that is critical to the continuing revitalization of southeastern Michigan.

Mission Statement

Our mission is to prepare our students for challenging and rewarding careers, advance the boundaries of scholarly and practitioner knowledge, and enhance the economic vitality of the city of Detroit, the state of Michigan and beyond through our programs, research and community engagement.

Aspiration and Vision

The Wayne State University Mike Ilitch School of Business aspires to establish itself as one of the leading business schools in the nation as noted in published national rankings (e.g., Business Week, U.S News and World Report, etc.), that reflect favorable student evaluations and recruiter perceptions of both the undergraduate and M.B.A. programs, and the scholarly achievements of the faculty. The School strives to achieve a positive reputation for contributions to knowledge development, for the role it plays in the economic prosperity of the region, and for becoming a school of choice - one which prospective students see as providing a pathway to academic and professional achievement.

Academic Regulations: Mike Ilitch School of Business

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 38) section of this bulletin. The following additions and amendments pertain to the Mike Ilitch School of Business.

All students must fulfill the upper-division requirements of the Mike Ilitch School of Business in effect at the time of admission to the Mike Ilitch School of Business.

Admission to Class

Please consult each term's Schedule of Classes for appropriate dates and deadlines for registration, late registration, and add/drop period. *Students may not attend a class for which they are not officially registered and will not be added retroactively.*

Admission to the School

Students seeking a business degree must be granted regular admission (p. 32) to the University to be eligible for admission to the Mike Ilitch School of Business.

AGRADE - Accelerated Graduate Enrollment

The Mike Ilitch School of Business has established an accelerated combined undergraduate and graduate program ('AGRADE') whereby qualified students in the Mike Ilitch School of Business may enroll simultaneously in undergraduate and graduate courses of the School. A maximum of twelve credits may be applied towards both undergraduate and graduate degrees in a student's major field if the major department is an AGRADE participant. Those who elect the 'AGRADE' program may expect to complete the Bachelor's and Master's degrees in five years of full-time study.

AGRADE accelerated graduate program option

Save money and time toward your graduate business degree with the Accelerated Graduate Enrollment (AGRADE) program.

Highly qualified Wayne State University Mike Ilitch School of Business students are eligible to participate in the AGRADE program. AGRADE students can cut substantial time and as much as one-third off the total cost of a WSU graduate business degree program by applying up to 12 credits toward both their undergraduate and select graduate degrees.

AGRADE benefits

- Start earning your master of business administration (M.B.A.) (<https://ilitchbusiness.wayne.edu/mba/>), master of science in accounting (M.S.A.) (<https://ilitchbusiness.wayne.edu/accounting/ms.php>), master of science in finance (<https://ilitchbusiness.wayne.edu/finance/masters.php>) or executive master of science in automotive supply chain management (<https://ilitchbusiness.wayne.edu/supply-chain/masters.php>) while completing your bachelor's degree
- Earn graduate credits at undergraduate tuition rates
- Apply up to 12 credits of selected graduate courses (<https://ilitchbusiness.wayne.edu/students/agrade.php#agradecourses>) as dual credit for undergraduate and eligible graduate programs
- Option to move immediately to the graduate program or rejoin the program later

- Earn both your bachelor's and master's degrees in as little as five years

AGRADE requirements

- Undergraduate major in accounting, finance, global supply chain management, technology information systems & analytics, management or marketing
- Senior standing (~90 credits earned)
- Overall GPA of 3.5 or higher at WSU
- Major GPA of 3.6 or higher at WSU
- Meet with undergraduate and graduate advisors to discuss program requirements
- Complete the Dual Credit Enrollment Form
- Courses apply to M.B.A., M.S.A., master of science in finance or executive master of science in automotive supply chain management degrees only

Transfer of courses

Only those AGRADE-approved courses in which the student has earned a B or higher will transfer to the graduate transcript. Once in the master's program, students may be required to repeat an AGRADE course in which they earn less than a B grade. AGRADE courses will not be transferred to the student's graduate transcript until one semester of graduate course work has been successfully completed.

Approved AGRADE courses

For students approved to participate in the AGRADE program, four of the following courses from any one of the program areas listed below may be counted toward both their bachelor's degree and M.B.A. All courses are three credits.

Take no more than four courses or 12 credits from any one of the following program areas.

Code	Title	Credits
Accounting		
ACC 7120	Introduction to Taxation: Individuals	3
ACC 7122	Advanced Accounting I	3
ACC 7130	Intermediate Managerial Accounting	3
ACC 7145	Accounting Systems: Design and Controls	3
ACC 7148	ERP Systems and Business Integration	3
ACC 7165	Internal Audit I	3
ACC 7180	Auditing	3
ACC 7188	Governmental and Not-for-Profit Accounting	3
ACC 7320	Introduction to Taxation: Business Entities	3
Finance		
FIN 7000	Applied Financial Analysis	3
FIN 7220	Advanced Managerial Finance	3
FIN 7230	Investment Policies	3
FIN 7280	Entrepreneurial Finance and Venture Capital	3
FIN 7870	International Finance	3
FIN 7990	Portfolio Management/Student Managed Investment Fund (SMIF)	3
Global Supply Chain Management		
GSC 7620	Global Logistics Management	3
GSC 7650	Strategic Procurement	3
GSC 7670	Special Topics in Supply Chain Management	3
GSC 7680	Manufacturing Planning and Control	3
GSC 7920	Supply Chain Process Analysis and Costing	3
GSC 7991	Principles of Quality Management	3

Management

MGT 7620	Complex Organizations	3
MGT 7640	Management of Human Resources	3
MGT 7650	Strategic Human Resource Management	3
MGT 7660	Entrepreneurial Management	3
MGT 7730	People Analytics	3
MGT 7750	Managing Employee Relations	3
MGT 7900	Project Management	3

Marketing

MKT 7150	Global Automotive Marketing Strategy	3
MKT 7430	Advertising Management	3
MKT 7450	Business Research and Methodology	3
MKT 7470	Consumer and Industrial Buying Behavior	3
MKT 7500	International Marketing Strategy	3
MKT 7700	Management of Retail Enterprises	3

Technology, Information Systems and Analytics

TIS 7505	Information Analytics: Inbound Information Technology	3
TIS 7510	Database Management	3
TIS 7520	Information Systems Design	3
TIS 7530	Societal and Ethical Issues in the Information Age	3
TIS 7560	Survey of E-Commerce	3
TIS 7570	Advanced Business Analytics	3
TIS 7900	Project Management	3
TIS 7994	Digital Content Development	3

Eligibility

'AGRADE' applicants must have an overall g.p.a. of 3.5 through their junior year. Applicants are also expected to have performed at a superior level in their major, as determined by the major department and reflected in a g.p.a. in the major of at least 3.6 at the time of application. Students approved for AGRADE cannot complete Senior Rule.

Application

A student seeking 'AGRADE' status should present to the Mike Ilitch School of Business Graduate Programs Office all of the materials which that department requires for normal graduate admission, EXCEPT for the GMAT or Graduate Record Examination (GRE). Specific graduate admission requirements can be found in this bulletin or obtained from the Graduate Programs Office of the Mike Ilitch School of Business at 313-577-4511.

The earliest date by which a student may apply for the 'AGRADE' program is during the semester in which he/she completes ninety credits toward the undergraduate degree. AGRADE application deadlines are the same as graduate admissions deadlines as posted on the Mike Ilitch School of Business Admissions Web Page.

AGRADE Credits

Students may elect a minimum of three and a maximum of twelve 'AGRADE' credits. These will be used to complete the baccalaureate degree as well as to serve as the beginning of graduate study. Upon formal admission to a master's program, 'AGRADE' credits are transferred as if they were graduate credits transferred from a graduate program at another university. The remaining graduate credits required for the master's degree will be earned in the conventional manner following formal admission to the graduate program.

For more details about the 'AGRADE' program, contact the Frederick Hessler Student Success Center by calling 313-577-4505, or

contact the Graduate Programs Office at 313-577-4511 or email gradbusiness@wayne.edu.

Application for Degree

Each candidate must file an Application for Degree (<https://wayne.edu/commencement/apply-for-graduation/>), NO LATER THAN FRIDAY OF THE FOURTH WEEK OF CLASSES for that semester, in which he or she expects to complete the requirements for the degree. If an Application for Degree was filed for a previous semester in which the student did not graduate, a new application and fee is required.

Attendance Policy

Regular attendance is a necessary condition for success in college study. This policy recognizes that the course content includes classroom lecture and discussion, certain aspects of which may be covered on examinations, quizzes, term papers, or homework assignments. Each instructor will announce his or her attendance standards at the beginning of the term.

Change of Major

Students wishing to change majors or their *Academic Plan* within the Mike Ilitch School of Business must submit a request in writing to the Undergraduate Advisor in the Hessler Student Success Center. An *Academic Plan* for the requested major will then be mailed. Students are advised that such changes occurring late in their program may result in additional coursework beyond the minimum requirement of 120 credits.

Dean's List

The Mike Ilitch School of Business Dean's List is a means of recognizing undergraduate students who have excelled academically in a given semester. The Dean's List will be compiled for each semester in the academic year. Inclusion requires a 3.75 g.p.a. for students enrolled for twelve or more semester credits (full-time). Students registered for six to eleven-semester credits (half-time) must earn a 4.00 g.p.a. Students registered for fewer than six-semester credits are not eligible and students who received marks of I, W, N, or U are not eligible.

Degrees

Degrees are granted upon the recommendation of the faculty of the Mike Ilitch School of Business. Consideration is given to both scholastic attainment and to compliance with the standards and rules of the School.

Directed Study

A directed study is intended to give students the opportunity to conduct research in an area of interest to them under the supervision of a faculty member; credits vary between one and three. A cumulative grade point average of 3.00 is required to be eligible for consideration for directed study work. Students must complete the *Undergraduate Directed Study* form and obtain the required signatures prior to registration. No more than three credits of directed study in one Department are permitted in any semester. A total of no more than six credits of directed study may be used to fulfill graduation requirements. Contact the Frederick Hessler Student Success Center, 313-577-4505 or 313-577-4510, for further information.

Double Major

Students may pursue a double major within the Business School. For more information, contact an advisor in the Hessler Student Success Center, 313-577-4505 or 313-577-4510.

Grade Appeals Procedure

It is the instructor's prerogative to evaluate student work and assign grades in accordance with his or her academic and professional judgment. Grounds for appeal of grades include:

1. the application of non-academic criteria in the grading process, as listed in the university's non-discrimination/affirmative action statute: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status;
2. sexual harassment or discrimination; or
3. evaluation of student work by criteria not directly reflective of performance relative to course requirements.

In those instances where a student disputes the final grade awarded, for one of more of the above reasons, the following steps should be taken to appeal the grade in question.

Informal review

The student should discuss the disputed grade with the instructor of the course. If the dispute is not resolved informally, the student may initiate a formal appeal.

Formal appeal procedure

1. Within 30 calendar days following official notification of final grades for the term in which the disputed grade was awarded, and when the informal review fails to resolve the dispute, the student shall submit a written appeal detailing his/her objection, along with supporting documentation in writing, to the instructor. The instructor should respond in writing within 10 work days.
2. If the dispute remains unresolved, the student shall submit a written statement detailing his or her objections, including a rationale why the department chair should consider this appeal (along with supporting documentation), to the department chair within 10 work days following receipt of the instructor's written response.

The chairperson shall review the complaint and provide a copy of the written complaint to the instructor. The instructor of the course shall be invited to reply in writing to the objections of the student. Where appropriate, the chairperson may consult with a Grade Appeals Committee for advice in grade disputes. Students will be notified of the chairperson's decision within 20 business days of receiving the request.

3. Matters not resolved at the program level may be appealed to the dean's office. The department chair file folder containing the course syllabus from the semester in which the student took the course, plus the student's letter, the instructor's letter, and the department chair's letter, and the student's written rationale why the dean's office should reconsider this appeal, should be sent to the dean's office. Where appropriate, the dean's office may consult with a Grade Appeals Committee for advice in grade disputes.

Students shall be notified in writing of the dean's office decision within 30 business days of receiving the request. The dean's office decision shall be the final decision at the college level.

University-level academic appeals procedure

When the procedures within the School have been exhausted, the decision on the record may be appealed with the student's written rationale why the provost's office should reconsider this appeal. Procedures for requesting a provost review are published in the University Bulletin see Academic Appeal Procedures (p. 42).

Graduation with Distinction

Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: *Cum Laude*, *Magna Cum Laude*, and *Summa Cum Laude*. Graduation with distinction is indicated on the student's diploma and on the transcript.

Graduation with Distinction will recognize at each graduation the top twenty percent of students in each College who have earned the highest grade point average in their Colleges, with the following approximate distribution:

Summa Cum Laude: Top five percent
Magna Cum Laude: Next five percent
Cum Laude: Next ten percent

Specific minimum grade point averages will be determined each year in the following manner: based on the grade point average distributions of the previous year's senior class, the grade point average cutoffs for each College will be established to provide for recognition of the top eighteen to twenty percent of the graduation students. Graduation with distinction will not be awarded in cases of any g. p. a. less than 3.0.

The criteria for Graduation with Distinction include:

1. A minimum of fifty-six credits in residence at Wayne State University.
2. A qualifying minimum grade point average (calculated as explained above) on all course work at Wayne State University must be completed by the end of the semester of graduation. (For notation in the commencement program, the grade point average on coursework completed prior to the semester of graduation will be used.)

Honors Program

Current WSU business students with a cumulative grade point average of 3.5 or higher may enroll in courses with an honors component assignment option, and complete the fifteen credit required program (contact the Hessler Student Success Center for details) to qualify for an honors distinction on their transcript and diploma at graduation.

Incomplete Marks

The mark of 'I' is appropriate only when a student has completed all of the requirements for a course except for a specific assignment, such as a project or final examination, and only when the instructor agrees that a student has a valid reason for not completing the assignment.

The mark of 'I' which is not converted to a letter grade within one year from the time it was received will be automatically changed to an 'F'.

Normal Program Load

The normal academic load for an undergraduate student in the Mike Ilitch School of Business is from nine to sixteen credits each semester, depending upon the particular courses elected. No student should expect to carry a full load and at the same time be employed full-time. Students desiring to carry more than eighteen credits must obtain written permission from the Hessler Student Success Center prior to registration. Excess credits will not be honored when taken without prior written approval.

Passed/Not Passed Registration

Undergraduate students in the Mike Ilitch School of Business may *not* take courses offered by the Mike Ilitch School of Business on a *passed/not passed* basis.

Probation and Exclusion

Probation

If a student's cumulative grade point average falls below 2.0, the student will be placed on academic probation. A probation hold will need to be released each term before he or she registers. To obtain this release, the student must see his or her academic advisor.

A student will be off of academic probation at the end of any term in which he or she achieves a cumulative G.P.A. of 2.0 or better.

Exclusion

Students on academic probation will be given two subsequent terms to enroll while on probationary status. At the conclusion of the third consecutive term below 2.0, a student will be excluded from the University. An excluded student may not apply for reinstatement for one calendar year.

The decision to reinstate will be made by the Ilitch School of Business Probation Committee and based upon evidence presented by the student that circumstances have changed during the year away and that the probability of success has increased. Students seeking reinstatement should consult with their academic advisor.

In the event of a exclusion, reinstatement to the Mike Ilitch School of Business will be considered only with the recommendation of the Ilitch School of Business Probation Committee. If, after readmission to the Mike Ilitch School of Business, the academic deficiency is not removed within the first nine credits attempted, the student will be permanently dismissed from the School.

The exclusion of any student will be reviewed by the Probation Committee of the Mike Ilitch School of Business. A student on probation who fails to complete the courses for which he or she registers, without good reason as determined by the Dean or designee, shall not be permitted to re-register in the Mike Ilitch School of Business.

The Ilitch School of Business Probation Committee, upon the recommendation of the student's Department Chairperson, may permanently exclude a student from a major, if the student fails to remove himself or herself from probationary status within the prescribed number of credits.

In matters where the School's final decision is based upon the evaluation of a student's academic performance and when review procedures available to him or her within the School have been exhausted, the student may request the Provost to review that decision on the record.

While on probation, a student may not represent the School in student activities.

Retaking Courses

The University policy on retaking courses is stated at: Repeating Courses – The mark of R. No course in which a student has received a passing grade or mark may be repeated without the prior written approval of the Assistant Dean of Student Services of the Mike Ilitch School of Business.

Records Retention by Instructors

Term papers and examinations shall either be returned to the student or retained by the instructor for a period of ninety days. Thereafter, they may be destroyed.

Residence Requirement

To qualify for a Baccalaureate Degree from the Mike Ilitch School of Business, the final year and the last thirty credits must be taken at Wayne State University. In exceptional cases, a limited number of the last thirty credits toward a degree may be taken at another accredited college or university. All such cases must receive the approval of the Assistant Dean of Student Services before the work is undertaken.

Students returning to the School after a five-year absence are required to conform to the program requirements in effect at the time of their return.

Student Conduct

Each student is subject to official regulations governing student activities and student behavior. Students should familiarize themselves with the obligations of students in the instructional process; see Obligations of Faculty and Students to the Instructional Process. Furthermore, it is the responsibility of each student to adhere to the principles of academic integrity. Academic integrity means that a student is honest with him/herself, fellow students, instructors, and the University in matters concerning his or her educational endeavors. Thus, a student should not falsely claim the work of another as one's own, or misrepresent him/herself so that the measures of one's academic performance do not reflect his/her own work or personal knowledge. Assignments submitted for any class are expected to be original, i.e., not resubmissions of work submitted in a previous or concurrent class.

If there are reasonable grounds to believe that a student has disregarded the regulations or student responsibilities, he or she may be disciplined. Such discipline may include suspension or dismissal, but no dismissal will be directed without reasonable opportunity for an appropriate hearing, as provided in the Student Due Process statute. For the copies of Student Code of Conduct, please refer to the Dean of Students Office (<http://www.doso.wayne.edu/assets/codeofconduct.pdf>) where the entire document is available for review.

Transfer of Courses in Major

No more than six semester transfer credits may be applied toward a student's major requirements. These courses must have received a grade of 'C' or better. Transfer of major credit beyond six semester hours may be applied toward free elective requirements. Only transfer courses taken at an AACSB accredited college or university or via community college Articulation Agreements will be considered.

Waiver of Degree Requirements

Students must comply with degree requirements as listed in this bulletin and on their Academic Plan. Students may petition for a modification in degree requirements by completing a waiver form and submitting it to the Frederick Hessler Student Success Center of the Mike Ilitch School of Business. Waiver of a *School requirement* requires the approval of the Dean or his/her designee. Waiver of a *departmental requirement* requires the recommendation of the departmental chairperson. Undergraduate students are advised that no faculty member is authorized to approve a change in degree requirements.

Withdrawals from Class

Students must follow the university procedures for dropping and adding courses (p. 53).

Business Administration (B.A. and B.S.)

Admission Requirements

Effective for students admitted Fall 2009 and thereafter admission to the Mike Ilitch School of Business Undergraduate Program is based upon two criteria: Preprofessional Program Standing and Professional Program Standing, as defined below.

Preprofessional Program Standing is the classification for entering high school students or transfer students admitted directly to the Mike Ilitch School of Business through the WSU Undergraduate Admissions Office. Typically, students are admitted at the freshmen or sophomore levels and pursue Business Foundation requirements, entry level Business Core classes and General Education Requirements. The purpose of the preprofessional coursework is to provide students with business instruction that prepares them for advanced level Business Core courses and business major courses.

Professional Program Standing is the classification for students entering or continuing in the Mike Ilitch School of Business with the completion of fifty-four semester credits at Wayne State University or fifty-four transferable semester credits, and requires a minimum 2.50 grade point average as described in the Mike Ilitch School of Business requirements (consult Frederick Hessler Student Success Center, Room 101 Mike Ilitch School of Business). Entry into Professional Program Standing grants students approval to enroll in advanced Business Core courses and degree-applicable major courses. Students not meeting the grade point average requirement will NOT be allowed to enroll in either of these course groups until the required grade point average is achieved.

High School Students

High School students who meet the University requirements for regular admission (p. 32) are eligible for admission to the Mike Ilitch School of Business.

Transfer Students

Students must meet University requirements for regular admission (p. 32). Students currently in another program at WSU must have a minimum 2.00 g.p.a. to be admitted to the Business School. WSU students with less than a 2.00 g.p.a. will not be considered for admission. Transfer students from outside WSU are required to have a minimum 2.00 g.p.a. from their transfer institution. Transfer students with a 2.0-2.49 g.p.a. will not be allowed to take any Business School Core Courses beyond MGT 2530 and MKT 2300, at the 3000 level or higher or major courses until a minimum 2.5 WSU g.p.a. is achieved. The maximum number of transfer credits that will be accepted from a junior or community college is ninety-six quarter credits or sixty-four semester credits. Equivalency tables have been developed with area community colleges which identify lower division community college courses that are equivalent to the lower-division business foundation courses at Wayne State University. Articulation Agreements have been signed with Henry Ford CC, Jackson CC, Macomb CC, Oakland CC, Schoolcraft CC and Washtenaw CC to transfer 82 hours for certain Associate Degrees. Contact an Ilitch Business Advisor for more details.

Application

Application for admission and all official collegiate transcripts must be submitted by transfer students to the Undergraduate Admissions Office of Wayne State University. Qualified applicants will then be referred to the Mike Ilitch School of Business' Frederick Hessler Student Success Center.

Admission Appeals

There is no guarantee of admission to the Mike Ilitch School of Business. Formal written appeals of admission denial may be made to the Assistant Dean of Undergraduate Student Services of the Mike Ilitch School of Business.

Program Requirements

Candidates for the **Bachelor of Science in Business Administration** must satisfactorily complete 120 credits including: General Education Requirements, Business Foundation Curriculum, Business Core, Major, and Elective Requirements as outlined below. Within the student's degree program, no more than sixty-four credits in business subjects and upper division economics may be applied toward the degree. All course work must be completed in accordance with the academic rules of the University (p. 13) and those of the Mike Ilitch School of Business (p. 76). *The courses listed below are required of all business students. No substitute courses are permitted except as noted.*

Candidates for the **Bachelor of Arts in Business Administration** must complete the same degree requirements as for the Bachelor of Science with the additional requirement that a student must attain a level of proficiency in a single foreign language equivalent to the completion of eleven credits through university-level course work or placement by examination administered by the University's Department of Classical and Modern Languages, Literatures and Cultures. In some instances, completion of the Bachelor of Arts foreign language requirements may result in course work beyond the 120 credit minimum.

To be eligible for the degree, students must have earned a minimum 2.0 grade point average in the major requirements and a minimum overall grade point average of 2.0 in all undergraduate course work completed at Wayne State University.

Students must also satisfy University General Education Competency and Group Requirements (p. 22) as part of the Business Administration curriculum.

Foundation Requirements

In the following curricula all courses satisfying General Education Requirements are cited with their appropriate title-prefix codes. Students should consult the Schedule of Classes for all prerequisites.

Code	Title	Credits
ACC 3010	Introduction to Financial Accounting ¹	3
ACC 3020	Introduction to Managerial Accounting ¹	3
BA 1000	Student Success and Career Development for Business Students	1
BA 1100	Warrior Success (Wayne Experience)	1
BA 1500	Business Tools and Applications ¹	3
BA 2300	Quantitative Methods I: Probability and Statistical Inference ¹	3
BLW 2510	Business Law I	3
COM 1010	Oral Communication: Basic Speech (Minimum 'C' Pre-requisite for COM 3300)	3
COM 3300	Business and Professional Presentations ¹	3
ECO 2010	Principles of Microeconomics ¹	4
ECO 2020	Principles of Macroeconomics ¹	4

MGT 6890	Strategic Management and Business Policy ¹	3
MKT 2300	Marketing Management	3
Total Credits		21

¹ To be taken as one of the last five courses toward bachelor's degree and after completion of all other core courses.

Major Requirements

Majors and specializations are offered through four academic departments:

- Accounting
- Finance
- Management and Information Systems
- Marketing and Supply Chain Management

Majors in Accounting, Finance, Global Supply Chain Management, Information Systems Management, Management, and Marketing require six courses (eighteen credits). Students also have the option to double major. Each of the undergraduate majors employs a capstone course as a vehicle to assess a student's knowledge of the discipline. Students in all of the majors also complete the capstone course for the undergraduate program.

Students should refer to the respective departmental section of this bulletin for specific majors and specializations. After selecting a major, students must consult the Frederick Hessler Student Success Center of the Mike Ilitch School of Business to obtain an official Academic Plan. All courses must be taken in accordance with an approved Academic Plan and all course prerequisites and limitations must be observed.

Electives

Electives form an integral part of an education in business. A student's selection of elective courses should be guided, in part, by his or her career objectives. Elective courses constitute study in addition to the business foundation, core, and major requirements listed on the student's Academic Plan.

Each student is encouraged to use elective courses to pursue a double major within the Ilitch School of Business or within another discipline at the University. Elective courses also allow a student to pursue Ilitch Business School Study Abroad opportunities, a Certificate in Entrepreneurship and Innovation, Law minor, and minors in other disciplines at the University.

Language Electives

Students who are preparing for careers in the global economy or employment opportunities overseas or with multinational corporations should consider electing foreign language courses. In addition, students who wish to earn the Bachelor of Arts degree may utilize their

electives toward the satisfying of the Bachelor of Arts foreign language requirements.

Cooperative Education Program

The Mike Ilitch School of Business actively participates in the University Cooperative Education (Co-op) Program in which students alternate semesters of work and academic study. Eligibility begins in the junior year or upon having earned more than the minimum fifty-four semester credits. Students interested in this program should contact the Mike Ilitch School of Business Career Planning and Placement Office, Suite 299, Mike Ilitch School of Business, 2771 Woodward, 313-577-4871.

Students admitted to the program with minimum junior standing should recognize that an additional calendar year may be needed to fulfill the requirements for the bachelor's degree. No academic credit is granted for participation in the Co-op Program; Satisfactory/Unsatisfactory ('S/U') grades are given, however, and are entered on the official University transcript.

Business Administration Minor

The Mike Ilitch School of Business offers a minor in business for undergraduate students majoring in disciplines other than Business. The Business Minor consists of six courses, totaling eighteen credits. Students must also complete prerequisite courses with a minimum grade of C (2.0 g.p.a.) for each course. The minor provides an excellent opportunity for non-business majors to broaden their knowledge of the business disciplines. In addition, the program enhances career prospects and establishes a solid business base for pursuing a Master of Business Administration degree. To be eligible to apply for the Business Minor, students must have a minimum overall grade point average of 2.5.

Entrepreneurship and Innovation (Undergraduate Certificate)

Entrepreneurs and innovators are critical to the long-term health and prosperity of our economy and society. The certificate is designed for students from any background or area of study passionate about understanding and being active participants in the process of starting or nurturing startup ventures, including founders, co-founders, team members and those providing support services. The certificate will benefit current and future for-profit and nonprofit professionals in business, arts and entertainment, communication and information technology, manufacturing, engineering, science and technology, health care, community and economic development, and other fields. This multidisciplinary program, offered through a collaboration of several schools and colleges, provides an opportunity for students from diverse academic disciplines and areas of interest to learn from each other and exposes students to entrepreneurial action in a variety of settings. The use of an integrative curriculum framework and tool kit across all core and elective courses, experiential learning opportunities built into each of these courses, and consistent interactions with and among students, instructors, coaches, mentors, entrepreneurs, innovators and others engaged in the entrepreneurial environment, provides each student a unique pathway to deeper learning, mastery and higher levels of confidence in applying the specialized knowledge and skills required to develop and launch new venture.

Through this certificate program, students will:

- Demonstrate knowledge of the stages of the new venture creation process, from discovering, creating and refining ideas, to building, testing and evaluating a value proposition and viable business model, to launching, sustaining and growing this new venture by acquiring and managing financial and human resources.
- Learn how lead, manage, and work effectively within teams to achieve success, and to create a positive and ethical work culture.
- Develop a personal network within the entrepreneurial ecosystem with a special emphasis on Detroit and the state of Michigan.
- Tailor their program of study to their unique talents and interests as they explore what it takes to translate ideas into reality, and plan the next steps on their journey of discovery, experimentation and action.

Students who participate in the Entrepreneurship and Innovation Certificate program are eligible to apply for support from the Belinsky Entrepreneurial Learning Laboratory (BELL). The BELL assists sustainable, investment-ready student startups and supports the development of commercialization pathways for WSU intellectual property by providing mentors and subject matter experts, direct support and limited funding to assist in the process of attracting additional funding in the form of revenue growth, grants, loans or direct investment.

Direct support will be provided by BELL Fellows, and certificate program students are eligible to apply for these fellowships. Contact the program director for further information.

Students wishing to pursue the Undergraduate Certificate in Entrepreneurship and Innovation should meet with the program director and the undergraduate advisor for the school or college providing oversight of their undergraduate degree program and major.

Candidates must complete 15 credits in course work satisfying the requirements cited below. All course work must be completed in accordance with the academic procedures of the University governing undergraduate scholarship and degrees; see Academic Regulations stipulated by the school of college which provides oversight of your undergraduate degree program and major.

Accounting

Office: 391 Mike Ilitch School of Business

Chairperson: Cheol Lee

- Accounting (B.A.) (p. 84)
- Accounting (B.S.) (p. 84)
- Accounting Post-Bachelor's Certificate (p. 84)

Accounting (B.A.)

The accounting program is designed to prepare students for professional careers in public, corporate, or governmental accounting. While stressing fundamental accounting theory, the curriculum provides thorough application of these concepts to practical situations. A student who is interested in sitting for the Certified Public Accountant (CPA) Exam or other professional certification should seek advice from the Chair of the Accounting Department or the Chair's designee.

Admission Requirements

Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Degree Requirements

Candidates for the bachelor's degree must complete 120 credits including satisfaction of the degree requirements (p. 21). All course work must be completed in accordance with the academic rules of the University (p. 13) and those of the Mike Ilitch School of Business (p. 76).

The requirements for the Bachelor of Arts are the same as for the Bachelor of Science with the additional requirement that a student must attain a level of proficiency in a single foreign language equivalent to the completion of eleven credits through university-level course work or placement by examination administered by the University's Department of Classical and Modern Languages, Literatures and Cultures. In some instances, completion of the Bachelor of Arts foreign language requirements may result in course work beyond the 120 credit minimum.

The major program in accounting employs a capstone course, ACC 5115, to assess students' knowledge of the discipline. Students who concentrate in accounting must complete the following courses.

Core

Code	Title	Credits
ACC 5100	Intermediate Financial Accounting I	3
ACC 5110	Intermediate Financial Accounting II	3
ACC 5115	Intermediate Financial Accounting III	3
ACC 5130	Accounting Systems Design and Control	3
ACC 5160	Managerial Accounting	3
ACC 5170	Introduction to Taxation: Individuals	3
ACC 5220	Data Analytics and Technologies for Accounting	3
Total Credits		21

Accounting (B.S.)

The accounting program is designed to prepare students for professional careers in public, corporate, or governmental accounting. While stressing fundamental accounting theory, the curriculum provides thorough application of these concepts to practical situations. A student who is interested in sitting for the Certified Public Accountant (CPA) Exam or other professional certification should seek advice from the Chair of the Accounting Department or the Chair's designee.

Total Credits		21

Accounting (Post-Bachelor Certificate)

The post-baccalaureate certificate program in accounting is designed to enable students who already hold a bachelor's degree in business administration or accounting to obtain the required educational background to be licensed as a Certified Public Accountant in Michigan.

Admission Requirements

Students must have a bachelor's degree from an accredited institution, with a grade point average of at least 2.0.

Students who have received their undergraduate degree from Wayne State University should process a change in their status at the Registrar's Office to 'Post-Baccalaureate.' Students who have received an undergraduate degree in these areas from another institution must complete the Application for Undergraduate Admission form and request that official transcripts be sent directly to the Office of Admissions.

Certificate Requirements

Candidates for this certificate must successfully complete a minimum of twenty-four credits in course work at Wayne State University following completion of the bachelor's degree, with a cumulative grade point average of not less than 2.0. Of these twenty-four credits, students must complete a minimum of six credits from courses offered by the Department of Accounting. Additionally, a minimum of twelve credits must be from courses offered within the School (Accounting, Finance,

Information Systems, Marketing, and Management). Students, who have not completed ACC 3010 and ACC 3020 (or equivalent courses), must complete ACC 3010 and ACC 3020 in addition to the minimum twenty-four credits required for the Certificate.

Each student's *Academic Plan* will be individually designed. Students intending to use this certificate to meet the requirements for licensure as a Certified Public Accountant in Michigan will work with their advisor to ensure that the courses chosen meet the requirements of the licensing body.

Finance

Office: 392 Mike Ilitch School of Business; 313-577-0408

Chairperson: Anand Jha

- Finance (B.A.) (p. 85)
- Finance (B.S.) (p. 86)

Finance (B.A.)

Finance is primarily concerned with the determination of value and making decisions about allocation of funds in corporate and individual settings.

Students who major in Finance can apply their knowledge working in corporations and public finance in determining optimum investment strategies, raising funds to finance these investments, and managing daily operations. Students employed in investment banking and other financial institutions trade in varying types of financial assets such as stocks, bonds, and derivatives, allocate wealth across these assets, and manage and hedge risk.

With increasing globalization of the economy, many corporations employ people who are experts at analyzing potential future investments in foreign markets. Finance specialists become involved with currency exchange rates, foreign economic conditions and forecasts, and techniques for reducing the risk of investments.

Admission Requirements

Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Program Requirements

Candidates for the bachelor's degree must complete 120 credits including satisfaction of the degree requirements (p. 21). All course work must be completed in accordance with the academic rules of the University (p. 13) and those of the Mike Ilitch School of Business (p. 76).

The requirements for the Bachelor of Arts are the same as for the Bachelor of Science with the additional requirement that a student must attain a level of proficiency in a single foreign language equivalent to the completion of eleven credits through university-level course work or placement by examination administered by the University's Department of Classical and Modern Languages, Literatures and Cultures. In some instances, completion of the Bachelor of Arts foreign language requirements may result in course work beyond the 120 credit minimum.

FIN 5340	Valuation	
FIN 5890	Internship in Finance	

Total Credits 18

Students earning a Bachelor's Degree with a major in Finance may find employment in several different areas, including corporate finance, financial institutions, and investments.

Corporate Finance

This area is for the student who wants to concentrate on those aspects of finance that will relate directly to financial decision-making in a business or non-profit organization. The corporate finance area offers careers as financial managers in non-financial corporations. Entry level positions are generally as financial analysts or staff accountants, while potential future responsibilities include management of working capital, operating budgets, financial statement preparation, bank relationships, long term financial planning, capital budgeting, treasury operations and stockholder relations.

Suggested courses to include in final choice of electives for students seeking a career in Corporate Finance:

Code	Title	Credits
FIN 5320	Principles of International Finance	3
FIN 5890	Internship in Finance	3

Financial Markets and Investments

This area is for the student who is interested in working for organizations which offer financial and investment services such as banks, insurance companies and mutual and pension funds. Investment careers can also be found in other financial intermediaries such as investment banking firms, security and investment brokerage houses, and security and commodity exchanges. Responsibilities within such firms are highly varied and include commercial and personal lending, branch management, security analysis, portfolio and trust management, real estate management, and insurance, commodity and security brokerage.

Recommended electives for students seeking a career in Financial Markets and Investments:

Global Supply Chain Management

Office: Mike Ilitch School of Business

Chairperson: Hakan Yildiz

- Global Supply Chain Management B.A. (p. 87)
- Global Supply Chain Management B.S. (p. 88)

Global Supply Chain Management (B.A.)

The Global Supply Chain Management major focuses on management of the flow of goods and information from the source of components and materials through the channels of distribution to the final customer, and beyond, to recycling and disposal. In today's highly competitive environment, the management of purchasing, operations, quality, transportation, inventory, scheduling, and information flows are ever more critical to an organization's ability to satisfy customers and create a competitive advantage. Whether sourcing from non-domestic suppliers, outsourcing business functions, or attempting to market goods and services to consumers in other areas of the world, today's business leaders need a detailed understanding of all the challenges and opportunities arising from a supply chain that is fundamentally global.

Admission Requirements

Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Degree Requirements

Candidates for the bachelor's degree must complete 120 credits including satisfaction of the degree requirements (p. 21). All course work must be completed in accordance with the academic rules of the University (p. 13) and those of the Mike Ilitch School of Business (p. 76).

Total Credits		18

Students are strongly advised to take an Internship in Supply Chain Management, either without credit or for credit. Students taking the internship for credit need to take it through GSC 5890. Students are also encouraged to take additional courses as electives to obtain depth in field and enhance placement opportunities.

Global Supply Chain Management (B.S.)

The Global Supply Chain Management major focuses on management of the flow of goods and information from the source of components and materials through the channels of distribution to the final customer, and beyond, to recycling and disposal. In today's highly competitive environment, the management of purchasing, operations, quality, transportation, inventory, scheduling, and information flows are ever more critical to an organization's ability to satisfy customers and create a competitive advantage. Whether sourcing from non-domestic suppliers, outsourcing business functions, or attempting to market goods and services to consumers in other areas of the world, today's business leaders need a detailed understanding of all the challenges and opportunities arising from a supply chain that is fundamentally global.

Admission Requirements

Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Degree Requirements

Candidates for the bachelor's degree must complete 120 credits including satisfaction of the degree requirements (p. 21). All course work must be completed in accordance with the academic rules of the University (p. 13) and those of the Mike Ilitch School of Business (p. 76).

Code	Title	Credits

Management

Office: 393 Mike Ilitch School of Business; 313-577-4525
 Chairperson: Christine Jackson

- Management B.A. (p. 88)
- Management B.S. (p. 89)

Management (B.A.)

The Management major prepares individuals to compete in a technology-intensive manufacturing or service economy. The required courses have students analyze contemporary management problems, participate in team projects and develop skills in managing people to drive organizational effectiveness.

Admissions Requirements

Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Degree Requirements

Candidates for the bachelor's degree must complete 120 credits including satisfaction of the degree requirements (p. 21). All course work must be completed in accordance with the academic rules of the University (p. 13) and those of the Mike Ilitch School of Business (p. 76).

Students majoring in management will complete the following three core courses, and then select from the designated elective courses listed below.

Code	Title	Credits

Concentration in Human Resource Management

The concentration in Human Resource Management prepares Management majors for a career in the human resource management field by providing additional depth in specific functional areas of human resources beyond the major's required courses. Students will learn advanced human resource management techniques and how to demonstrate the value of human resource management practices to support business strategy. This concentration is only available to students majoring in Management. Management majors with a concentration in Human Resource Management must complete the following courses.

Marketing

Office: 279 Mike Ilitch School of Business; 313-577-4525
 Chairperson: Abhijit Biswas

- Marketing (B.A.) (p. 90)
- Marketing (B.S.) (p. 90)

Marketing (B.A.)

The Marketing major is designed to prepare students for a variety of careers in marketing. Marketing is the activity and institution involved in creating, communicating, delivering and exchanging offerings that have value for customers and society. Marketing management involves situation analysis, selection of marketing strategies and target markets, and coordination of product development, pricing, promotion and distribution elements.

Admission Requirements

Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Degree Requirements

Candidates for the bachelor's degree must complete 120 credits including satisfaction of the degree requirements (p. 21). All course work must be completed in accordance with the academic rules of the University (p. 13) and those of the Mike Ilitch School of Business (p. 76).

Marketing majors must select a concentration in advertising strategy (p. 90), marketing management (p. 90), or digital marketing and analytics (p. 90). All students majoring in marketing must complete the requirements of their concentrations and subsequently take MKT 6996.

Advertising Strategy Concentration

This concentration prepares students for work in a wide variety of businesses, advertising agencies, public institutions, and other organizations. It may serve as a background for people who plan to work in the advertising/marketing communications industry, or for general marketing jobs where promotional issues play a particularly prominent role.

Technology, Information Systems and Analytics

Office: Mike Ilitch School of Business
 Chairperson: Rhoda Joseph

- Technology, Information Systems and Analytics (B.A.) (p. 92)
- Technology, Information Systems and Analytics (B.S.) (p. 92)

Technology, Information Systems and Analytics (B.A.)

Technology, Information Systems and Analytics (TIS) refers to the use of computer-based systems to gather and analyze complex information about all aspects of a business. This information is used by managers to make business decisions. Students specializing in TIS frequently pursue career positions as business analysts, data base analysts, ERP specialists, social media specialist, web content manager, and information systems managers. The courses offered in the TIS program emphasize hands-on technical application of relevant software and coverage of content for course-related certification exams.

Admission Requirements

Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Program Requirements

Candidates for the bachelor's degree must complete 120 credits including satisfaction of the degree requirements (p. 21). All course work must be completed in accordance with the academic rules of the University (p. 13) and those of the Mike Ilitch School of Business (p. 76).

Online Program

The Technology, Information Systems and Analytics B.A. and B.S. pathway program is available in a fully online format. This online pathway program is only available to students who earned an associate degree in business.

Students enrolled in a fully online major are limited to registering for courses listed in the Schedule of Classes with the Instructional Methods: Online – No Scheduled Meetings or Online – Scheduled Meetings. Students who are eligible to enroll in the online program will qualify for Michigan resident tuition rates, more details are available in the Academic Regulations section of the Undergraduate Bulletin.

Contact an advisor in the Mike Ilitch School of Business for more information about the online Information Systems Management B.A. and B.S. pathway program.

College of Education

Dean: Denise Taliaferro Baszile

The College of Education at Wayne State University is located in, and serves the needs of, one of the nation's largest metropolitan areas. Thus, the College reflects the dynamic character of urban life, and, in its concern with urban problems, places great faith in education as the means by which human circumstances can be improved. To this end, the College prepares educators who have the knowledge, commitment and competence to help young people achieve academic success, preserve individuality, develop democratic values, and realize self-fulfillment.

Professional field experiences are an important aspect of the preparation program; they bring the prospective teacher face-to-face with the realities of the classroom, the school and the community, as well as provide opportunities for participation in the study, research and analysis of contemporary educational issues. These field experiences are scheduled in numerous school districts, community and cultural institutions throughout the metropolitan Detroit area.

As society has been altered by such factors as the development of knowledge, technological advances and population growth, the purposes and processes of education have changed. New technologies of instruction are evolving rapidly and offer the prospective teacher many opportunities for developing a high level of teaching competence. Problems generated in our urban society are complex, and those related to education are no exception. Yet, the opportunities for curriculum innovation, experimentation and leadership have never been greater.

Accreditation

Wayne State University is accredited by the Higher Learning Commission.

The College of Education's teacher certification programs are accredited by the Council for the Accreditation of Educator Preparation (CAEP).

Art Therapy is approved by the American Art Therapy Association (AATA).

Counselor Education is accredited through the Council for Accreditation of Counseling and Related Educational Programs (CACREP) and now includes Rehabilitation Counseling and Community Inclusion, which was formerly accredited through the Council on Rehabilitation Education (CORE). CORE and CACREP have merged.

School and Community Psychology is accredited through the National Association of School Psychologists.

Academic Regulations: College of Education

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 38) section of this bulletin. The following additions and amendments pertain to the College of Education.

Normal Program Load

The normal undergraduate student load is twelve to eighteen credits per semester. Only in exceptional cases is a student allowed to elect a heavier load. Approval of the advisor is needed in those cases where the student petitions to carry more than eighteen credits within a full semester.

If a significant portion of a student's time is spent in outside work, corresponding adjustments must be made in his/her college schedule.

Admission to Programs

Students are admitted directly into the College of Education from high school or other universities or colleges by completing an undergraduate admission application to the University, selection of a College of Education program on the admission application, and acceptance to Wayne State University. Undergraduate and Post-Bachelor applications are processed by the Office of Undergraduate Admissions:

University Office of Undergraduate Admission, Welcome Center
42 W. Warren Ave., P.O. Box 02759
Detroit, Michigan 48202
telephone 313-577-2100

Transfer of College within the University for Teacher Preparation Programs

Undergraduate students at Wayne State University seeking to transfer to a teacher preparation program complete an online Admission Application (https://waynestate.az1.qualtrics.com/jfe/form/SV_5t2MppxZKaWgm5T/). Students must have at least a cumulative g.p.a. of 2.5 for regular admission. Students on university academic probation with a g.p.a. less than 2.5 may seek qualified admission by completing the online Alternative Admission Application (https://waynestate.az1.qualtrics.com/jfe/form/SV_6WfMEXHc299K0Sx/).

Transfer of College within the University for Community Health, Exercise and Sport Science, and Sport Management Programs

Undergraduate students at Wayne State University seeking to transfer to the majors listed above complete an online Admission Application (https://waynestate.az1.qualtrics.com/jfe/form/SV_5t2MppxZKaWgm5T/). Students must have at least a cumulative g.p.a. of 2.0 for regular admission. Students on university academic probation with a g.p.a. less than 2.0 may seek qualified admission by completing the online Alternative Admission Application (https://waynestate.az1.qualtrics.com/jfe/form/SV_6WfMEXHc299K0Sx/).

Accelerated Graduate Enrollment (AGRADE) Program

Some programs in the College of Education permit academically strong majors to apply for admission into the college's Accelerated Graduate Enrollment (AGRADE) program. AGRADE procedures enable qualified juniors in the College of Education to apply for an AGRADE master's program and upon admission, begin the program in the senior year by enrolling simultaneously in the undergraduate and graduate programs of

the college and apply up to a maximum of sixteen credits towards both a bachelor's and master's degree. Some programs permit less than the maximum number of credits to be applied.

Qualified students may apply for the AGRADE program no earlier than the semester in which ninety credits are being completed. Applicants must have a minimum overall grade point average of 3.30. After admission, continuation in the AGRADE program requires a continuing undergraduate cumulative grade point average of at least a 3.30 and a grade of B or higher in AGRADE coursework, which is consistent for satisfactory academic progress for graduate coursework. Some programs may require a grade point average higher than a 3.30. For more details about the AGRADE program, contact the Division of Academic Services. Students can apply to the program using the AGRADE Application (https://waynestate.az1.qualtrics.com/jfe/form/SV_9MLSkc9yEYmxqld/).

Alternative Admission and Reinstatement from Academic Exclusion

Alternative admission or reinstatement from academic exclusion is a process for students meeting either of the conditions below:

1. Students currently excluded may appeal for reinstatement to the College of Education after not attending classes at Wayne State University for more than one year.
2. Students from another college of Wayne State University that currently have less than the minimum GPA required for regular admission and are seeking Alternative Admission into the College of Education.

The application for alternative admission or reinstatement is online (https://waynestate.az1.qualtrics.com/jfe/form/SV_6WfMEXHc299K0Sx/).

Not all applicants will be admitted or reinstated. Applications for alternative admission or reinstatement are considered on an individual basis and reviewed by a committee based on academic criteria and merit with the final decision resting with the Assistant Dean of Academic Services.

Readmission Following an Interruption in Residence

Undergraduate students whose attendance at Wayne State has been interrupted for three or more years will be required to apply at the College of Education Division of Academic Services for readmission to the College. Deadline dates for such applications are the same as those for regular admission to the College. In instances of prolonged absences of five years or more, it may be necessary to revalidate credits, either through examinations or refresher courses, within the student's major and the professional education sequences.

Attendance

Regularity in attendance and performance is necessary for success in college work. Although there are no officially excused absences as far as College policy is concerned, the conscientious student is expected to explain absences to the instructor. Such absences may be due to illness; to participation in inter-college activities certified by the sponsoring faculty member; or other similar types of absence for which the student can present to the instructor evidence that he/she was engaged in authorized University activities. Each instructor, at the beginning of the course, will announce his/her attendance requirements.

Education Honors Program

Students with a 3.3 minimum grade point average are eligible for admission to the Education Honors program. Satisfactory completion of the Education Honors Program will lead to a major with honors on the diploma. The requirements consist of 12 credits, including two Honors Option courses from the major (6cr), a HON 4200-level seminar (3cr), and ED 4998 Education Honors Thesis with a College of Education faculty mentor (3cr). Honors courses must be completed with grades of "B" or better. Students interested in the program should speak with their advisor.

Criminal History Check

Students in certification or licensure programs must supply a criminal history check before admission or transfer to the College of Education, clinical experiences or internships, and when applying for licensure or certification. Criminal history checks must be completed through the Wayne State University portal from CastleBranch for a fee. A criminal history check remains valid for six months. Additional criminal history checks may be required at the discretion of the College.

Any person in a certification or licensure program who has been convicted of any offense must provide certified copies of all documents relative to his/her conviction, including the Judgement of Sentence or Register of Actions from the court(s) in which the matter was adjudicated and a narrative describing each incident from his/her perspective. Persons determined by the criminal history check process to have been convicted of any offense and do not provide the required documentation will have their admission or certification/licensure recommendation denied. In other cases, incomplete or non-submission of documentation may result in a program pause, removal from clinical experiences or internships, or exclusion from the College. After reviewing the documentation by College officials or the College's Criminal History Review Board, the applicant will be notified in writing of the decision.

Michigan Public Act 68 of 1993 Sec. 1230 requires public and nonpublic schools to conduct a criminal history check of new teachers, school administrators, school psychologists, and other personnel required to hold State Board of Education approvals.

Note the State Board of Education Teacher Certificate Code: R 390.1201 Certificates; denial, suspension, or revocation.

1. The superintendent of public instruction may refuse to grant or renew, or may suspend for a fixed term, or revoke, or may impose reasonable conditions on, a teaching certificate or state board approval granted pursuant to these rules for the following reasons:
 - a. Fraud, or material misrepresentation, concealment or omission of fact in the application for, or the use of, a teaching certificate or state board approval.
 - b. Conviction of an offense listed in MCL 380.1535a or MCL 380.1539b.
2. The superintendent of public instruction may refuse to grant or renew a teaching certificate or a state board approval for failure or ineligibility of the applicant to meet the criteria for the applicable certification or state board approval.

Dean's List

The College of Education Dean's List is a means of recognizing undergraduate students who have excelled academically in a given semester. The Dean's List will be compiled for each semester in the academic year. Inclusion requires a 3.75 g.p.a. for students enrolled for twelve or more semester credits (full-time). Students registered for six to eleven-semester credits (half-time) must earn a 4.00 g.p.a. Students registered for fewer than six-semester credits are not eligible

and students who receive marks of 'I', 'WN', 'WP', 'WF', 'N', or 'U' are not eligible.

Students will be notified of inclusion in the Dean's List by electronic communication. The Dean's List will be displayed in the College of Education for each semester and posted on the college's website (<https://education.wayne.edu/students/deans-list/>).

Graduating with Distinction

Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: Cum Laude, Magna Cum Laude, and Summa Cum Laude. Graduation with distinction will be indicated on the student's diploma and on the transcript.

Graduation with Distinction will recognize at each graduation the top twenty percent of students in each College who have earned the highest grade point average in their Colleges, with the following approximate distribution:

Summa Cum Laude: Top five percent
Magna Cum Laude: Next five percent
Cum Laude: Next ten percent

Specific minimum grade point averages will be determined each year in the following manner: based on the grade point average distributions of the previous year's senior class, the grade point average cutoffs for each College will be established to provide for recognition of the top eighteen to twenty percent of the graduating students. Graduation with distinction will not be awarded in cases of any g.p.a. less than 3.0.

The criteria for Graduation with Distinction include:

1. A minimum of fifty-six credits in residence at Wayne State University.
2. A qualifying minimum grade point average (calculated as explained above) on all course work at Wayne State University must be completed by the end of the semester of graduation. (For notation in the commencement program, the grade point average on coursework completed prior to the semester of graduation will be used.)

Probation Policy and Academic Exclusion University Policy

Undergraduate students whose cumulative grade point average falls below 2.00 will be placed on "Academic Probation." Subject to the approval of the President or his/her designee, individual Colleges and Schools may establish higher minimum grade point averages for academic probation in their programs.

An "Academic Probation" hold shall be placed on the student's record when the cumulative grade point average (G.P.A.) falls below 2.00. The student shall be permitted to register only after consultation with and approval by a designated university advisor.

An "academic recovery plan" refers to a written agreement between a student and designated university advisor that identifies factors contributing to subpar academic performance and specifies requirements for a student to be permitted additional terms of academic eligibility rather than being academically excluded. Academic recovery plans must include specific efforts and activities the student will engage in to return to good academic standing. Terms of an academic recovery plan are determined at the discretion of the Schools and Colleges. Failure to comply with terms of the academic recovery plan may result in early termination of the academic recovery plan and academic exclusion.

The statement "Academic Probation" shall be printed on the unofficial transcript for the first term in which the cumulative average falls below 2.00. Thereafter, the statement "Academic Probation" shall appear on the unofficial transcript until the student attains "Regular Status" or is subject to "Academic Exclusion". "Regular Status" is restored when the student achieves a cumulative G.P.A. of 2.00. In any subsequent term where the cumulative G.P.A. is below 2.00, probation will be reinstated.

Students shall be given two subsequent terms of enrollment after going on probation to achieve a cumulative 2.00 G.P.A. At the conclusion of the two subsequent terms, students who have not achieved a cumulative G.P.A. of at least 2.00 shall be excluded from their program and may not apply for readmission or reinstatement for one calendar year, unless they have entered into an academic recovery plan with a designated university advisor.

A student on academic probation may remain academically eligible after two subsequent terms of enrollment if they have consulted with a designated university advisor and entered into an academic recovery plan. Academic recovery plans may not extend beyond an additional two terms of enrollment without approval from the academic Dean or his/her designee.

College of Education Policy for Undergraduate Students in Teacher Preparation Programs

If, at any time, an undergraduate's overall g.p.a. falls below 2.50, the student is automatically placed on College academic probation. Before registering for the next semester, a student on probation must secure approval from their advisor. The College reserves the right to require a student to withdraw at any time from specific courses or from the College entirely if progress does not warrant a continuance.

Residency Requirement

Applicants for a degree from the College of Education must complete at least thirty credits as a registered student in the College. The student must be in residence (enrolled in courses at Wayne State University) during the semester in which he/she completes requirements for the degree.

Transferred Credits

College credits earned at accredited institutions other than Wayne State University may be transferred by an undergraduate student to meet requirements for the bachelor's degrees in the College, provided:

1. the student has been accepted as a matriculated student in the College;
2. the grades received in courses where transfer is desired have been satisfactory; and,
3. credits so earned are applicable to the student's curriculum.

Students should contact their assigned advisor to discuss transfer of credit.

Students currently enrolled or returning students who have taken courses at another institution, should forward official transcripts to the address below or submitted electronically to admissions@wayne.edu.

Wayne State University
Transfer Credit Evaluation
PO Box 02759
Detroit, MI 48202-0759

Students must consult their advisor prior to registering for any course outside of Wayne State University to discuss the limitations of

transferring credits. During the senior year, no more than 10 transfer credits will be accepted.

When the student has a degree from an accredited institution and is meeting the requirements for a Michigan Standard Teaching Certificate, some credits may be applied toward the certificate by transfer but at least fifteen credits must be completed at Wayne State.

Bulletin-in-Effect Policy Restriction

Teacher preparation programs must abide by all current requirements set forth by the Michigan Department of Education and other state, federal, and national requirements. As such, in accordance with Wayne State University policy, the Teacher Education Division (TED) restricts the extent to which *the Bulletin in Effect* policy can be utilized. In cases when the Bulletin in Effect policy is restricted due to required program closures, certification changes, etc., students will be notified and will be provided a timeline by which they must complete their current program.

Time Limit for Candidate Certification Recommendation

Any candidate requesting Wayne State University's recommendation of his/her/their application for certification and/or endorsement *more than 24 months after program completion* must complete and submit to Wayne State University's College of Education an "Educator Credential Recommendation: Post-Time Limit Request"; this is separate and distinct from the application to MDE for certification and/or endorsement.

- A candidate may need to retake or complete additional coursework or current assessments in order to meet the current requirements of the educator credential he/she/they seeks.
- A candidate will not be considered for a recommendation unless the candidate documents that he/she/they meets the current MDE requirements of the credential for which he/she/they seek recommendation.

Academic Services: College of Education

Office: 489 Education; 313-577-1601

Assistant Dean: Paul W. Johnson

Undergraduate Advising: Fawne Allossery, Jeffrey Lisiecki, Kurt Troutman, Yan Chen

Pre-Admission Graduate Advising: LaSondra Dawn, Deborah Gibson, KaRie Jorah-Rood, Mary Waker

Purposes of the Division

The Division of Academic Services in the College of Education is responsible for Undergraduate Advising, Graduate Admissions, Graduation & Certification, Curriculum: Course & Program Proposals, Course Scheduling & the Bulletin, Education Scholars Alliance Program, Rumble Fellowships, and Graduate Faculty Appointments.

Advising Services

Advising in the College of Education is centralized for undergraduate students in the Division of Academic Services and decentralized for graduate students in the four academic divisions of the college: 1) Administrative and Organization Studies, 2) Kinesiology, Health and Sport Studies, 3) Theoretical and Behavioral Foundations, and 4) Teacher Education. Undergraduate students have professional advisors and graduate students are advised by faculty in the student's program. Every student admitted to the College of Education is assigned an advisor.

Undergraduate Advising

Advising at the undergraduate level is from “start to finish” meaning students typically have the same advisor from the time of admission through graduation. Having the same advisor allows for deeper relationships and connections to form between student and advisor. Start to finish advising results in consistent advising and messaging with students and creates a culture of expectations and accountability, for both the advisor and student. This level of support fosters the student’s connection to the university, resourcefulness, and leads to maintaining or improving student persistence towards academic goals.

Undergraduate advisors also engage in group advising efforts by visiting courses taken by students early in their major and making presentations related to program requirements. Advisors utilize and encourage students to take advantage of university tools such as Advising Works, Degree Works, and STARS to maintain satisfactory academic progress.

Undergraduate students are encouraged to meet with the advisor at least once per semester. Students schedule appointments online with their advisor through the university’s Advising Works system. In addition, Academic Services provides “Virtual Open Advising” each Tuesday from 9:00 am to 4:00 pm. Virtual Open Advising is through Zoom on a first-come, first-serve basis and is an ideal time for students to resolve registration problems, completion of verification forms and appeals, submission of applications and general advising questions. Scheduled appointments are for at least 30 minutes for completion of plans of work, establishing multi-year plans, reviewing student progress toward degree completion, discussion of challenges to matriculation, referral to other university offices and support centers and to keep students focused and on track for completion of degree and certification requirements.

Students seeking admission information should contact Academic Services by calling 313-577-1601, via e-mail at askcoe@wayne.edu, or by attending Virtual Open Advising on Zoom every Tuesday from 9:00 a.m. to 4:00 p.m. in room 489 Education.

Undergraduate Student Services

In addition to advising, the Division of Academic Services provides the following services to students:

- Degree and certificate audits for graduation.
- Recommendations to the Michigan Department of Education for certification and licensure (see the Certification section below).
- Monitoring of the university’s academic probation system.

Certification

As a liaison to the Michigan Department of Education, the Division of Academic Services recommends candidates for initial certification as teachers and administrators; approvals for supervisors and directors of Special Education; and licensure for school counselors.

Administrative and Organizational Studies

Office: 341 Education Building; 313-577-1728
Interim Assistant Dean: William E. Hill
<https://education.wayne.edu/>

The Division of Administrative and Organizational Studies has as its primary goal the development and enhancement of leadership and organizational learning. It is within the scope of this division to study emergent trends, technologies and educational innovations; to develop rationales for supporting educational change; to present viable programs of study for advanced students in education which will enable them to function skillfully as educational leaders in facilitating change, and in developing and conducting on-going programs; and to design and implement learning innovations, and the impact of instructional methodologies on the improvement of human and organizational performance. The program areas – Educational Leadership and Policy Studies and Learning Design and Technology – are under the guidance of this Division.

- Educational Leadership AGRADE (p. 97)

Educational Leadership AGRADE

The Educational Leadership AGRADE program is available to academically strong students completing B.S. degrees in Health and Physical Education Teaching and Sport Management that are interested in K-12 leadership positions and earning a state credential to be a school administrator. The benefit of the AGRADE program is that undergraduate students can begin a master’s degree while simultaneously completing their bachelor’s degree. Coursework taken during a student’s senior year (up to 16 credits) can simultaneously qualify toward the bachelor’s and master’s degrees.

Students, in consultation with their advisor, can select Educational Leadership graduate courses that will count toward electives in the student’s bachelor’s degree program and as required courses in the master’s degree program. The graduate coursework completed while enrolled as an undergraduate is assessed at the undergraduate tuition rate, resulting in significant tuition savings.

Admission Criteria

Students may apply for the Educational Leadership AGRADE program no earlier than the semester in which ninety credits are being completed. Applicants must have a minimum overall grade point average of 3.30. After admission, the AGRADE program requires a continuing undergraduate cumulative grade point average of at least a 3.30 and a grade of B or higher in Educational Leadership master’s coursework.

For more details about the Educational Leadership AGRADE program, contact the Division of Academic Services.

Educational Leadership AGRADE Advising

AGRADE advising is provided by the Division of Academic Services College of Education.

Eligible AGRADE Courses and Sequence

The following master’s courses in Educational Leadership may be included in the undergraduate plan of work. Students may take up to a maximum of 16 credits from the following list. Based on the credit hours available, students will most likely earn a maximum of 14 to 15 credit

hours. In addition, other courses may qualify as exceptions with advisor approval.

Code	Title	Credits
EDA 7625	Leadership, Administration and the Principalship	4
EDA 7660	Administrative Leadership in School-Community Relations and Public Relations	3
EDA 7675	Public School Finance and Budgeting	4
EDA 7690	Introduction to Michigan School Law	4
EDA 8650	Staff Development and School Improvement	2-6

Note: The master's program in Educational Leadership is completed under Plan B (Essay/Project) or Plan C (coursework only).

Kinesiology, Health and Sport Studies

Office: 2152 Faculty Administration Building; 313-577-4249

Assistant Dean: Nate McCaughtry

<https://education.wayne.edu/health-exercise-sports> (<https://education.wayne.edu/health-exercise-sports/>)

The Division of Kinesiology, Health and Sport Studies offers Bachelor of Science degrees in Community Health, Exercise and Sport Science, Health and Physical Education Teaching, and Sport Management. The Division also offers minors in Community Health, Exercise and Sport Science, Sport and Exercise Psychology, Sport Coaching, Sport Management, and Yoga and Mindfulness. In addition, the Division offers Accelerated Graduate (AGRADE) programs, where students can link any bachelor degree with any master's degree (Community Health, Exercise and Sport Science, Health and Physical Education Teaching, Sport Administration) allowing undergraduate students who have accumulated 90 credit hours and maintained a 3.0 GPA to take master's level courses (up to 16 credits) during their senior year, which will double-count toward both their bachelor and master's degrees, reducing both the time and cost associated with attaining multiple advanced professional degrees. Beyond degree programs, the Division offers courses in Lifestyle Fitness Activities available to all Wayne State University students. The Lifestyle Fitness Activities (LFA) program offers a collection of 2-credit health, wellness, exercise, and sport courses designed to facilitate students' optimal physical and mental health.

- Community Health (B.S.) (p. 98)
- Exercise and Sport Science (B.S.) (p. 100)
- Health and Physical Education Teaching (B.S.) (p. 102)
- Sport Management (B.S.) (p. 104)
- Community Health Minor (p. 106)
- Exercise and Sport Science Minor (p. 107)
- Sport and Exercise Psychology Minor (p. 107)
- Sport Coaching Minor (p. 107)
- Sport Management Minor (p. 108)
- Yoga and Mindfulness Minor (p. 108)

Community Health (B.S.)

The Bachelor of Science in Community Health prepares students for careers in the broad field of community health. Coursework includes training in health topics, intervention development and evaluation, health behavior theory, policy and teaching methods. The program also prepares students to take the Certified Health Education Specialist (CHES) exam, which is given by the National Commission for Health Education Credentialing, Inc. (NCHEC). This credential ensures that students are trained and qualified to plan and coordinate community health education programs. The B.S. in Community Health provides practical field experiences and experiential coursework to prepare students for employment in public or private agencies; local health departments; volunteer organizations; hospitals; health insurance companies; worksite/employee health promotion and wellness programs; and a variety of community-based organizations.

Mission Statement

Our mission is to advance health equity through the preparation of Community Health Education Specialists who explore the multiple levels (individual, family, community, policy, systems) and social determinants that influence behavior and health. Community health professionals focus on the community as the setting for analysis, assessment,

advocacy, program planning, intervention, evaluation, and research, and are committed to developing, enhancing and using evidence-informed strategies to improve population health.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission to the University.

Advising questions should be directed to the Division of Academic Services, College of Education, 489 Education, phone 313-577-1601.

Program Requirements

A minimum of 120 credits are required for completion of this degree: satisfaction of the University General Education Program (p. 22). All coursework must be completed in accordance with the academic procedures of the College of Education (p. 94) and the University (p. 13) governing undergraduate scholarship and degrees. All courses must be completed with grades of 'C' or better and an overall 2.0 grade point average, to meet College graduation requirements. Course changes may occur through periodic curriculum revision and students are urged to consult assigned advisors prior to each registration period to ensure that all requirements are met.

Community Health AGRADE Overview

The Division of Kinesiology, Health, and Sports Studies (KHS) in the College of Education offers degrees that focus on the broad careers of health, wellness, exercise, sport, and human performance. With programs in Community Health (CH), Exercise and Sport Science (ESS), Health and Physical Education Teaching (HPET), and Sport Administration and Management (SAM), KHS prepares students to excel in a range of health-related professions.

The Community Health AGRADE program is available to academically strong students completing B.S. degrees in Community Health; Exercise and Sport Science; Health and Physical Education Teaching; and Sport Management so they can begin a master's degree while simultaneously completing their bachelor's degree. Coursework taken during a student's senior year (up to 16 credits) can simultaneously qualify toward the bachelor's and master's degrees. In this case, after completing any bachelor's degree in this division, students would have also completed a substantial portion of the coursework required for the Master of Science in Community Health. This allows motivated students the opportunity to complete the requirements for both degrees in an accelerated format.

Our bachelor's programs typically have between 15-25 elective courses in their plans of work. This AGRADE program allows students to utilize graduate courses in Community Health to fulfill these elective requirements. Students, in consultation with their advisor, can select Community Health graduate courses that count toward the student's bachelor's and master's degrees. The graduate coursework completed while enrolled as an undergraduate is assessed at the undergraduate tuition rate, resulting in significant tuition savings.

Admission Criteria

Students may apply for the Community Health AGRADE program no earlier than the semester in which ninety credits are being completed. Applicants must have a minimum overall grade point average of 3.30. After admission, the AGRADE program requires a continuing undergraduate cumulative grade point average of at least a 3.30 and a grade of B or higher in Community Health master's coursework.

Advising

AGRADE advising is provided by the Division of Academic Services College of Education.

Eligible AGRADE Courses

The following table outlines the Community Health master's courses that could be included in an undergraduate plan of work. Students may take up to a maximum of 16 credits from the following list. In addition, other master's courses may qualify as exceptions.

Code	Title	Credits
HE 5522	Health Psychology	3
HE 6100	Health Communication Methods and Techniques	3
HE 6310	Reproductive Health Education	3
or HE 6320	Mental Health and Substance Abuse

HE 6570	Advancing Community Health and Health Equity	3
KHS 8540	Theories of Health Behavior	3

Exercise and Sport Science (B.S.)

The Exercise and Sport Science degree provides students with a scientific-based curriculum for improving human performance and wellness, and is an ideal preparation for successful entry into a variety of graduate professional programs such as nursing, occupational therapy, physician assistant, physical therapy, athletic training, or medical school.

Students develop application skills for sport and fitness activities, assessment and evaluation of various populations and fitness levels, and human movement systems from all of the subdisciplines of kinesiology (e.g., exercise physiology, exercise and physical activity psychology, motor learning and development, biomechanics, and others). Career options include corporate wellness, exercise physiologist, cardiac rehabilitation, strength and condition coach, and a wide variety of therapeutic exercise and recreation positions.

Admission Requirements

Undergraduate students entering Wayne State University, either from high school or transferring from other accredited universities or colleges, are admitted directly into the bachelor's degree program.

Admission questions should be directed to the Division of Academic Services, College of Education, 489 Education, phone 313-577-1601.

Program Requirements

A student must complete all University General Education (p. 22) requirements, all College (p. 94) and program requirements, and a minimum of 120 credits with a cumulative grade point average of 2.0 or higher to earn a bachelor's degree in the College of Education.

No grade below a "C" may be used to meet College requirements, electives, courses in the major or courses in a College of Education minor. Note: All students must receive a "C" or higher in Basic and Intermediate Composition if these requirements are completed or transferred in Fall 2008 or thereafter.

Elective Requirements (21 credits)

Complete a minimum of 21 semester credits of electives related to the field of Exercise and Sport Science.

- ¹ All courses in this list, except for BIO 2870, also satisfy the Natural Scientific Inquiry (NSI) requirement of the University's General Education Program.
- ² Students are responsible for satisfying the prerequisite and placement requirements prior to enrolling in the listed courses. See the individual courses or contact an advisor for more information.

The Bachelor of Science (B.S.) with a major in Exercise and Sport Science requires the completion of 21 credits of approved program electives. Students can use these electives to pursue university minors in certain areas or fulfill requirements for admission to a professional program. Other electives not listed can be approved by your assigned academic advisor.

Exercise and Sport Science AGRADE Overview

The Division of Kinesiology, Health, and Sports Studies (KHS) in the College of Education offers degrees that focus on the broad careers of health, wellness, exercise, sport, and human performance. With programs in Athletic Training (AT), Community Health (CH), Exercise and Sport Science (ESS), Health and Physical Education Teaching (HPET), and Sport Administration and Management (SAM), KHS prepares students to excel in a range of health-related professions.

The Exercise and Sport Science AGRADE program is available to academically strong students completing B.S. degrees in Community

Health; Exercise and Sport Science; Health and Physical Education Teaching; and Sport Management so they can begin a master's degree while simultaneously completing their bachelor's degree. Coursework taken during a student's senior year (up to 16 credits) can simultaneously qualify toward the bachelor's and master's degrees. In this case, after completing any bachelor's degree in this division, students would have also completed a substantial portion of the coursework required for the Master of Science in Exercise and Sport Science. This allows motivated students the opportunity to complete the requirements for both degrees in an accelerated format.

Our bachelor's programs typically have between 15-25 elective courses in their plans of work. This AGRADE program allows students to utilize graduate courses in Exercise and Sport Science to fulfill these elective requirements. Students, in consultation with their advisor, can select Exercise and Sport Science graduate courses that count toward the student's bachelor's and master's degrees. The graduate coursework completed while enrolled as an undergraduate is assessed at the undergraduate tuition rate, resulting in significant tuition savings.

Admission Criteria

Students may apply for the Exercise and Sport Science AGRADE program no earlier than the semester in which ninety credits are being completed. Applicants must have a minimum overall grade point average of 3.30. After admission, the AGRADE program requires a continuing undergraduate cumulative grade point average of at least a 3.30 and a grade of B or higher in Exercise and Sport Science master's coursework.

For more details about the Exercise and Sport Science AGRADE program, contact the Division of Academic Services.

Exercise and Sport Science AGRADE Advising

AGRADE advising is provided by the Division of Academic Services College of Education.

Eligible AGRADE Courses and Sequence

The following table outlines the Exercise and Sport Science master's courses that could be included in the undergraduate plan of work. Students may take up to a maximum of 16 credits from the following list. In addition, other courses may qualify as exceptions.

Code	Title	Credits
KIN 5100	Anatomical and Physiological Bases of Physical Activity	3
KIN 5523	Physical Activity and Exercise Psychology	3
KIN 6100	Methods of Group Training	3
KIN 6120	Strength and Conditioning	3
KIN 6300	Exercise Physiology I	3
KIN 6310	Exercise Physiology II	3
KIN 7580	Biomechanical Analysis of Motor Activity	3
KIN 8530	Motor Learning	3

Health and Physical Education Teaching (B.S.)

The B.S. in Health and Physical Education Teaching emphasizes obtaining knowledge in content areas and subdisciplines of Health and Physical Education. Candidates who successfully complete coursework and pass the Michigan Test for Teacher Certification in both content areas receive an initial teaching certificate in Health and Physical Education (grades K - 12) by the Michigan Department of Education.

The curriculum includes: curriculum development for school Health and Physical Education teaching, implementing developmentally appropriate instructional for diverse learners, assessing Health and Physical Education content knowledge and skill proficiency, using instructional technology effectively, and demonstrating the qualities of a professional educator.

The program prepares candidates to meet proficiencies defined in several accreditation standards:

- The Michigan Interstate Teacher Assessment and Support Consortium (MI INTASC) Model Core Teaching Standards, adopted by the State Board of Education (SBE) in 2013, define the theoretical and practical knowledge, skills, and dispositions that all entry-level teachers should possess upon completion of an approved teacher preparation program.
- Michigan-specific content standards define the central concepts, tools of inquiry, and structures of the specific discipline(s) in which teacher candidates seek endorsement, as well as pedagogical applications of that disciplinary knowledge." *"Standards for the preparation of Health and Physical Education Teachers in Michigan."*

Admission Requirements

Undergraduate students entering Wayne State University, either from high school or transferring from other universities or colleges, are admitted directly into the Bachelors program. Admission questions should be directed to the Division of Academic Services, College of Education, 489 Education, phone 313-577-1601.

Program Requirements

A minimum of 120 credits are required for completion of this degree: satisfaction of the University General Education Program (p. 22); All course work must be completed in accordance with the academic procedures of the College of Education (p. 94) and University (p. 13) governing undergraduate scholarship and degrees. All major, minor, and education courses, must be completed with grades of 'C' or better and an overall 2.5 grade point average, to meet College graduation requirements. Course changes may occur through periodic curriculum revision and students are urged to consult assigned advisors prior to each registration period to insure that all requirements are met.

Sport Management (B.S.)

The major in sport management leads to a bachelor of science degree and prepares students for entry-level professional positions in the sport industry. Coursework includes industry-specific training in management, marketing, finance, governance and ethics. Students will additionally have the opportunity to select from a host of advanced courses that focus on specialized issues related to different segments of the sports industry, including collegiate, interscholastic, professional, and recreation. As a capstone experience, students will apply the knowledge they gained in the classroom to field experiences and internships to maximize their professional preparation. (For additional information, please see the Sport Management homepage (<https://education.wayne.edu/sports-administration-management/>)).

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22), as well as the major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 94) governing undergraduate scholarship and degrees.

No grade below a "C" may be used to meet College requirements for the major in Sport Management.

Community Health Minor

The College of Education offers a minor in Community Health (CH) Education for undergraduate students majoring in other disciplines. The minor provides an excellent opportunity for students to broaden their knowledge of the social and behavioral aspects of health promotion and policy. In addition, the program enhances career prospects and establishes a solid base for pursuing a Master of Education in Health Education. To be eligible to apply for the CH Minor, students must have a minimum cumulative grade point average of 2.75.

The Community Health Minor consists of six courses, totaling eighteen credit hours. All coursework must be completed in accordance with the academic procedures of the College of Education (p. 94) and the University (p. 13) governing undergraduate scholarship and degrees. All major, minor, and education courses, must be completed with grades of 'C' or better and an overall 2.0 grade point average, to meet College graduation requirements.

Exercise and Sport Science Minor

The College of Education offers a minor in Exercise and Sport Science for undergraduate students majoring in a range of disciplines. The minor provides an excellent opportunity for students to broaden their knowledge of the exercise and sport science by building skills and knowledge in exercise and sport science. The addition of a minor in Exercise and Sport Science can expand employment opportunities and add capabilities for students interested in pursuing a career in healthcare or related fields. To be eligible to apply for this minor, students must have a minimum overall grade point average of a 2.0.

The minor is a minimum of 15 credit hours consisting of the courses listed below. The electives allow the student to further develop exercise and sport science skills and knowledge by applying them to specific aspects of the sport industry.

Code	Title	Credits
KIN 3000	Professional Perspectives in Kinesiology and Exercise Science	3
KIN 5100	Anatomical and Physiological Bases of Physical Activity	3
or BIO 2870	Anatomy and Physiology	
Choose 9 credits from the following:		9
KIN 3400	Lifespan Growth and Development	
KIN 3540	Cultural Foundations of Kinesiology	
KIN 3550	Motor Learning and Control	
KIN 3580	Biomechanics	
KIN 6100	Methods of Group Training	
KIN 6120	Strength and Conditioning	
KIN 6300	Exercise Physiology I	
KIN 6310	Exercise Physiology II	
KIN 6320	Fitness Assessment and Exercise Prescription	

A three-credit elective within KHS approved by the academic advisor that focuses on the core learning outcomes of the ESS minor.

Total Credits 15

Please be aware that prerequisite coursework may be required for the above courses.

Sport and Exercise Psychology Minor

The Sport and Exercise Psychology minor consists of five courses, totaling 15-credit hours. To be eligible to apply for the Sport and Exercise

Psychology minor, students must have a minimum overall grade point average of a 2.0. Students who pursue a minor in sport and exercise psychology can complete the minor in two semesters, due to the year-round course offerings and the way the courses flow with one another.

Code	Title	Credits
Required Courses		9
KIN 5520	Sport Psychology	
KIN 5523	Physical Activity and Exercise Psychology

PSY 1010	Introductory Psychology	
	or PSY 1020 Elements of Psychology	
SAM 5510	Principles of Coaching	
SAM 5700	Sport Leadership	

In addition to the elective courses listed above, another three-credit course within KHS that focuses on the core learning outcomes of the sport psychology minor can be used with approval by the academic advisor.

Total Credits 15

Sport Management Minor

The College of Education offers a minor in Sport Management for undergraduate students majoring in other disciplines. The minor provides an excellent opportunity for students to broaden their knowledge of the sport industry and the managerial practices unique to sports. In addition, the program enhances career prospects and establishes foundational knowledge for pursuing a Master of Arts in Sports Administration. To be eligible to apply for the minor, students must have a minimum cumulative grade point average of 2.0.

The Sport Management Minor consists of six courses, totaling eighteen credit hours. All course work must be completed in accordance with the academic procedures of the College of Education (p. 94) and University (p. 13) governing undergraduate scholarship and degrees. All major, minor, and education courses, must be completed with grades of 'C' or better and an overall 2.0 grade point average, to meet College graduation requirements.

Yoga and Mindfulness Minor

The Division of Kinesiology, Health and Sport Studies in the College of Education offers a minor in Yoga and Mindfulness for undergraduate and graduate students majoring in any discipline. The minor provides an excellent opportunity for students to broaden their knowledge of yoga and mindfulness philosophy, practice, and teaching skills. In addition, the program enhances career prospects across all professions as students learn how to integrate and design yoga and mindfulness activities and programs within their area of study. As restorative practices, yoga and mindfulness enables anyone working in health care, social work, education, exercise, etc. professions to practice self-care and better serve the individuals they serve in their respective careers.

To be eligible to apply for the Yoga and Mindfulness minor, students must have a minimum overall grade point average of 2.75. For advising regarding the yoga and mindfulness minor, students with last names A-K should contact Fawne Allossery (ac9010@wayne.edu). Students with last names L-Z should contact Kurt Troutman (fz4394@wayne.edu).

The Yoga and Mindfulness minor allows students in any department across all schools and colleges at WSU to add yoga and mindfulness skills and knowledge as an added credential to their degree programs. The addition of a Yoga and Mindfulness minor will expand employment opportunities and add expertise in yoga and mindfulness philosophy and theory, holistic health promotion, knowledge of body movement and mechanics, and leading others in yoga and mindfulness programs in many different career settings.

The minor is a minimum of 15 credit hours consisting of the courses listed below (9 credit hours of required cores and 6 credit hours of elective courses). The electives allow the student to further develop yoga and mindfulness skills by applying them to specific content areas. Additional courses can qualify as electives in consultation with an advisor in the Division of Academic Services in the College of Education.

Teacher Education

Office: 241 Education Building; 313-577-0902
Assistant Dean: Nimisha H. Patel, Ph.D.

There are a number of pathways to teacher certification at Wayne State University, and all prepare future teachers to be knowledgeable, skillful, and caring professionals who are able to make a difference in the lives of children and youth. Students in our teacher certification programs benefit from coursework taught by outstanding faculty and from clinical experiences in Detroit and surrounding areas. Program faculty prepare students to effectively engage and work with diverse students; they conduct research and teach courses that focus on creating school experiences that are academically rigorous, personally meaningful, and sustain a vibrant democracy.

Bachelor's of Science Degree Requirements

Candidates for Bachelor of Science in Education must complete at least 120 credits in coursework with a minimum grade point average of 2.5. No grade below a 'C' may be used to meet requirements specific to any certification and/or endorsement program; a grade of 'C-minus' is not acceptable.

The following outline presents the general distribution of credits to be fulfilled for initial certification programs at the Bachelor's level. NOTE: Some programs require more than 120 credits.

1. Forty credits in pre-professional coursework including 6-8 credits in English to fulfill Basic and Intermediate Composition requirements and courses specified by individual program areas.
2. Completion of the appropriate professional education sequence.
3. Completion of University General Education Requirements (see General Education Program).

Michigan Standard Teaching Certificate Requirements

In addition to successfully completing all requirements for a Bachelors of Science in Education certification programs, candidates must also pass their respective Michigan Test for Teacher Certification (MTTC). The MTTC is required by the State of Michigan. Candidates must attain a passing score in order to be recommended for and to attain a State of Michigan Standard Teaching Certification. Each certification area requires a specific MTTC. Some certification areas may require multiple MTTCs. All endorsements also require successful completion of program requirements and passing MTTC scores.

Michigan Teaching Certificates

Teaching Certification are granted by the State of Michigan. The College of Education recommends certification to those who successfully complete all requirements for a certification program and for whom we have the required official passing MTTC scores.

Standard Teaching Certificate The Standard Certificate is the initial certificate issued by the State of Michigan for a five-year period. Renewal of the Standard Certificate adds five years to the certificate's validity and renewals are currently unlimited.

Professional Teaching Certificate Teachers may advance to a five-year Professional Certificate after completing additional requirements. The Professional Certificate currently has unlimited renewals. The requirements for the Professional Certificate can be found at <https://>

www.michigan.gov/mde/services/ed-serv/ed-cert/cert-guidance/teacher-recertification/progress-to-professional

Contact a College of Education advisor for additional information.

Certification for Post-Baccalaureate Students

One who graduates from an accredited higher education institution may seek a teaching certificate by completing a post-baccalaureate program. This program does not lead to a degree, but completion of the program, along with passing MTTC scores will make the candidate eligible for a Michigan Standard Teaching Certificate.

Endorsements

Students may enroll in one of the endorsement programs while also enrolled in one of the Bachelor's of Science certification programs. However, certification in one of the B.S. programs must be attained in order for an endorsement to be awarded.

Bilingual/Bicultural Endorsement (BBE). The Bilingual Education certifies a teacher who is qualified to teach classes of bilingual children. The BBE K-12 endorsement is 24 credit hours. All students in the BBE program must successfully complete the language proficiency examinations specified by the Graduate School, if applicable, and the designated language of his/her/their individual program prior to taking courses for this program. Interested students should consult their advisor.

English as a Second Language Endorsement (ESL). The English as a Second Language (ESL) Endorsement certifies a teacher who is qualified to teach learners with limited English proficiency. The ESL K-12 endorsement is 24 credit hours. Interested students should consult their advisor.

Grade Level Endorsements. Candidates may add grade bands (e.g., adding a 3-6 grade band to a PK-3 grade band)

Content Endorsements. Candidates may add content area endorsements (e.g., adding a 7-12 science certification to a 7-12 mathematics certification)

For more information regarding endorsements, consult an advisor.

Applications for an endorsement must be made within five years of meeting the endorsement requirements. State examinations must be passed for all endorsements.

Office of Educational Partnerships and Experiences

Director: Dr. Linda Hicks
Office: 221 Education Building; 313-577-1644

Prerequisite requirements for student teaching eligibility are:

1. Admission to the College of Education.
2. Completion of all TED Certification Program coursework with grades of 'C' or better, as required.
3. Meet all TED Certification Program requirements
4. Submission of the Student Teaching Application by the deadline. Those who submit a late application are not guaranteed a student teaching clinical placement.

Application Procedures

Submit completed application forms to the Office of Educational Partnerships and Experiences prior to the deadline of the appropriate application period (see below).

Application Deadlines

If you want to intern during FALL TERM, materials must be filed online by March 15.

If you want to intern during WINTER TERM, materials must be filed online by October 15.

- Urban Education and Equity Studies Minor (p. 121)
- Visual Arts Education (Teacher Certification) (p. 121)

Early and Elementary Education (B.S.)

Admission Requirements

Currently, students may be entered into one of our teacher certification programs upon admission to Wayne State University.

Degree Requirements

All students must complete the college requirements for the specific grade band concentration as outlined below. A minimum of 120 credit hours is required for the degree. Students have a choice of selecting a single band concentration (B-K, PK-3, 3-6, or Teach Detroit 3-6) or they can complete multiple grade bands. When electing the B-K Grand Band, it must be your primary program[^]. Additional endorsement areas can be added to any of the grade bands; these include: Special Education, Bilingual-Bicultural Education, English as a Second Language, and/or World Languages.

Some of the courses cited in each of the grade bands may satisfy the University General Education Requirements. (p. 22)

Secondary Education (B.S.)

The secondary education curriculum leads to a bachelor's degree in education and secondary school teaching certification. Whereas this degree is granted by the College of Education, students also have the option of earning secondary school certification in conjunction with a bachelor's degree from the College of Fine, Performing and Communication Arts or the College of Liberal Arts and Sciences. For information regarding these combined degree programs, see an advisor. No grade below 'C' may be used to meet requirements specific to secondary education certification program; a grade of 'C-minus' is not acceptable.

Admission Requirements

Currently, students may be entered into one of our teacher certification programs upon admission (p. 32) to Wayne State University.

Degree Requirements

All students must complete the college requirements for the specific grade band concentration as outlined below. A minimum of 120 credit hours is required for the degree. Students have a choice of selecting a single band concentration (5-9 or 7-12) or they can complete an additional grade band to be certified in both bands. Additional Endorsement areas can be added to the grade bands which include Bilingual-Bicultural Education, English as a Second Language, or Special Education.

Some of the courses cited in the grade bands may satisfy the University General Education Requirements (p. 22) (35 hours maximum).

Secondary Social Studies or Science Concentrations (Legacy)-Level 2 Coursework

Code **Title** **Credits**

The following courses are required of all students seeking secondary (grades 6-12) certification. The selection of courses to fulfill the methods requirements is predicated on the student's choice of major/minor.

The following courses may be taken in Level 1 or 2:		
TED 2020	Technology Integration in Teaching	3
TED 2210	Foundations II: Intersections of Culture, Language, Identity & Schooling	2
TED 2220	Foundations III: Foundations of Inclusive Schooling	2

The following courses may be elected at any time after admission to Level 2 and must be completed prior to TED 5780:

EHP 3600	Introduction to the Philosophy of Education	3
EDP 5480	Adolescent Psychology	3
RLL 6121	Teaching Reading in the Content Areas: Grades 6-12	3
TED 5650	Pre-Student Teaching Field Experience for Secondary Majors ³	5
Teaching methods in the major (two courses)		6
Teaching methods in the minor (one course)		3

The Teaching Major and Teaching Minor and the Michigan Test for Teacher Certification (MTTC) subject area tests are required for certification recommendation.

Final clinical experience		
TED 5780	Student Teaching & Seminar	6-12
Total Credits		36-42

Special Education (B.S.)

The Bachelor's of Science in Special Education leads to a grade-band certification (e.g., B-K; PK-3, 3-6, etc.) along with certification in Special Education in the area of Cognitive Impairment or Autism Spectrum Disorder. Candidates must meet the grade-band certification requirements and attain a Michigan Standard Teaching Certification in

that grade-band in order to attain the Cognitive Impairment or Autism Spectrum Disorder certification.

Admission Requirements

Currently, students may be entered into one of our teacher certification programs upon admission to Wayne State University.

Degree Requirements

All students must complete University General Education Requirements (p. 22), the Autism Spectrum Disorder or Cognitive Impairment concentration (some of these courses may also satisfy the University General Education Requirements), and the required courses for at least one grade band concentration (e.g., B-K, PK-3, 3-6, 5-9, or 7-12 grade band concentrations). If electing both the B-K and PK-3 grade band, note the course exceptions listed in the footnote^a.

The total number of credit hours for the degree varies from 130 to 142 depending on how General Education Requirements are met and which grade band concentrations are elected. A minimum of 120 credit hours are required for the degree. Students may elect to complete the Adapted Physical Education K-12 concentration in addition to the requirements listed above. Electing to add the Adapted Physical Education K-12 concentration will result in 15 additional credit hours.

No grade below 'C' may be used to meet any requirement specific to the Special Education major or the PK-3 and 3-6 grade band concentrations.

General Education

When electing the B-K, PK-3, or 3-6 grade bands: Quantitative Experience (QE) will be satisfied by MAT 1110 or MAT 1120. One of the Natural Scientific Inquiry (NSI) required courses and the Natural Scientific Inquiry with Lab (NSIL) requirement will be satisfied by the combination of SCE 2100 and SCE 2105. The remaining General Education requirements will be satisfied by required coursework for a maximum of 28 credits.

When electing the 5-9 and 7-12 grade bands: Some of the courses cited in the grade bands may satisfy the University General Education Requirements (p. 22) (35 hours maximum).

Special Education

Students pursuing a bachelor's degree in Special Education must complete one of the following concentrations: Autism Spectrum Disorder or Cognitive Impairment.

Autism Spectrum Disorder K-12

Code	Title	Credits
Block A		
SED 5000	History, Philosophy, and Ethics of Teaching Students with Disabilities	2

Code	Title	Credits
Courses that are included in Cognitive Impairment or in either of the grade bands listed above:		
SED 5000	History, Philosophy, and Ethics of Teaching Students with Disabilities	2
SED 5080	Supportive Environments, Engaged Learning	2
TED 2220	Foundations III: Foundations of Inclusive Schooling	2
Additional courses required for the Adapted PE Concentration:		
HPE 6400	Physical Activity in Pediatric Disabilities (Additional courses required for the Adapted PE Concentration:)	3
HPE 6410	Teaching Adapted Physical Activity and Sport	3
HPE 6420	Teaching Aquatics to Special Populations	3
HPE 6430	Physical Activity Assessment in Special Populations	3
HPE 6440	Leadership Training and Practicum in Adapted Physical Education	3
Total Credits		21

Deaf Studies Minor

The Minor in Deaf Studies is a minimum of 21 credit hours. The 21 credit hours must have a minimum cumulative grade point average of 2.0 with no course grade below 'C-minus'.

Code	Title	Credits
ASE 2050	Deaf Culture	3
ASE 3000	American Sign Language I	3
ASE 3020	American Sign Language II	3
ASE 3030	American Sign Language III	3
ASE 3040	American Sign Language IV	3
ASE 5060	Fingerspelling and Numbers	3
ASE 5070	Non-Manual Grammatical Features of American Sign Language	3
Total Credits		21

Urban Education and Equity Studies Minor

The College of Education offers a Minor in Urban Education and Equity Studies for undergraduate students majoring in other disciplines. This minor provides an excellent opportunity for students interested in pursuing a career in education, social service and community organizations, in planning, policy, and program development roles, as well as graduate and professional studies centered in urban ecologies.

The Minor in Urban Education and Equity Studies is a minimum of 18 credit hours consisting of at least 8 credits of required courses and 10 credits of elective courses. The 18 credit hours must have a minimum cumulative grade point average of 2.0, with no course grade below 'C'. A grade of 'C-minus' or lower is not acceptable.

Code	Title	Credits
Required Courses		
TED 2200 & TED 2205	Foundations I: Foundations of Education in Urban Spaces and Foundations Field Experience	3
TED 2210	Foundations II: Intersections of Culture, Language, Identity & Schooling	2
ELE 6010	Equitable Partnerships with Families and Communities	3

Elective Courses

A minimum of 10 credits from the College of Education and/or the College of Liberal Arts and Sciences. Students may select from any of the courses below. Other relevant electives can be approved by advisors in consultation with the Division of Teacher Education.

College of Education

TED 2220	Foundations III: Foundations of Inclusive Schooling	
MAE 1000	Detroit by the Numbers (Gen Ed: QE)	
EDP 3310	Educational Psychology	
TED/ASN 2500	Introduction to Asian American Studies (Gen Ed: DEI)	

College of Liberal Arts and Sciences

African American Studies

AFS/HIS/US 2350	Black Detroit	
AFS/ENG 2390	Introduction to African-American Literature: Writing about Texts	

AFS/HIS 3140	African American History I: 1400-1865	
AFS/HIS 3150	African American History II: 1865-1968	
AFS/HIS 3155	African American History III: 1968 - Present	
AFS/HIS 5261	African Americans, History and Memory	
English		
ENG 2530	Queer Literatures: Writing about Texts	
ENG 2540	Global Literatures: Writing about Texts	
ENG 2570	Women Writers: Writing about Texts	
Geography		
GPH/HIS/PS/US 2000/SOC 2500	Introduction to Urban Studies	
GPH 3130	Introductory Urban Geography	
GPH 3600	Introduction to Geographic Information Systems	
Gender, Sexuality and Women's Studies		
GSW 2500	Humanities Perspectives on Gender, Sexuality, and Women	
GSW 2600/HIS 2605	History of Women, Gender and Sexuality in the Modern World	
GSW 2700	Social Science Perspectives on Gender, Sexuality, and Women	
History		
HIS/AFS 3170	Ethnicity and Race in American Life	
HIS/US 3650	History of Detroit	
Latino/a and Latin American Studies		
LAS 2100/SPA 2400	Chicano/a Literature and Culture	
LAS 2110/SPA 2500	Puerto Rican Literature and Culture	
LAS/AFS 2250	AfroLatino/a History and Culture	
LAS/HIS 2430	History of Latino/as in the United States	
LAS 3610	Seminar in Latino/a Urban Problems	
Political Science		
PS 2240	Introduction to Urban Politics and Policy	
Sociology		
SOC 2201	Race Relations in Metro Detroit	
SOC 2202	Gendered Worlds	
SOC 2300	Social Inequality	
SOC/AFS 2600	Race and Racism in America	
Total Credits		18

Visual Arts Education (Teacher Certification)

The Visual Arts Education Teacher Certification requires thirty prerequisite course credits prior to admission to the program (usually taken during undergraduate studies in art), forty-four credits taken after admission to the College of Education, as well as Student Teaching. Potential students should make an appointment with coordinator Anita Ricks-Bates to discuss program requirements by calling 313-577-0490 or via e-mail at ad8045@wayne.edu.

Code	Title	Credits
Foundation Requirements (30 credit hours)		
ADR 1050	Drawing I	3
ADR 1060	Drawing II	3
AH 1110	Survey of Art History: Ancient through Medieval	3

AH 1120	Survey of Art History: Renaissance through Modern	3
ACO 1200	Surface Studio	3
ACO 1230	Space Studio	3
or ACO 1270	Time Studio	
ADR 2070	Beginning Life Drawing	3
ADR 3070	Intermediate Life Drawing	3
APA 2000	Oil Painting I	3
ASL 2150	Beginning Sculpture	3
Intermediate Requirements (6 credit hours)		
AED 5000	Introduction to Art Education	3
AED 5160	Theory and Practice in Art Education	3
Advanced Studio and Methodology Requirements (21 credit hours)		
AED 5020	Painting: Methods and Materials	3
AED 5890	The Art of Indigenous Cultures: Inclusion in the K-12 Curriculum	3
AED 5070	Methods and Materials of Sculptural Expression	3
AED 5280	Printmaking: Methods and Materials	3
AED 5690	Collage, Assemblage, and Multi-Media: Methods and Materials	3
AED 5150	Computer Graphics in the Classroom	3
AED 5230	Ceramics Education I	3
Professional Education Requirements (17 credit hours)		
The following courses must be completed prior to student teaching.		
AT 7500	Cultural and Social Diversity in Art Therapy	3
EDP 3310	Educational Psychology	3
SED 5010	Inclusive Teaching	2
RLL 6121	Teaching Reading in the Content Areas: Grades 6-12	3
AED 5100	Topics in Art Education	3
AED 5650	Art Teaching Laboratory (coreq: AED 5100)	3
Student Teaching Requirements (6 credit hours)		
Students must take and pass the Michigan Test for Teacher Certification (MTTC) Visual Arts Education Test #095 prior to student teaching.		
TED 5780	Student Teaching & Seminar (Half day field placement at the elementary or secondary level to meet State K-12 certification requirements)	2
TED 5790	Directed Teaching and Conference for Special Groups (Full day placement at the level you wish to teach full time: elementary or secondary)	4
Total Credits		80

Theoretical and Behavioral Foundations

Interim Assistant Dean: William Hill

Office: 341 Education Building; (313) 577-1670

<https://education.wayne.edu/>

The Division of Theoretical and Behavioral Foundations includes degree programs in educational evaluation and research, counseling, educational psychology, school and community psychology, counseling psychology, and rehabilitation counseling and community inclusion. There are also certificate programs in applied behavior analysis. The Division is designed to facilitate a realization of the following aims:

1. to integrate the educational experiences and course offerings;
2. to perform a service function in meeting the needs of those enrolled in other divisions within the College;
3. to provide degree and specialist programs for those who are majoring in a particular field of the division;
4. to provide students with an opportunity to study those aspects of educational thought and practice that are interdisciplinary as well as foundational;
5. to formulate programs looking toward the development of new combinations of specialties, as in
 - a. counseling-psychology,
 - b. pupil personnel managers in school systems,
 - c. utilization of theoretical and behavioral foundations in teacher education,
 - d. underlying philosophical premises of educational programs and practices;
6. to design interdisciplinary, cross disciplinary, and multidisciplinary experiences for and with students.

College of Engineering

Dean: Ali Abolmaali

College Mission Statement

The College of Engineering has three important missions: teaching, research, and outreach – serving the region, State and nation as part of an urban comprehensive research university. Students are prepared for professional practice, graduate study, lifelong learning, and for leadership roles in society. Faculty members develop the scientific and technological base for the engineering profession, and disseminate advanced technical knowledge to engineers, other professionals, and the public. A balance among the three missions is sought through a partnership built among students, faculty, staff, alumni, government, and private industry. This is achieved by maintaining an academic environment that is both intellectually stimulating and supportive of all of its constituents, regardless of race, gender, or ethnic background.

College Organization

The academic programs of the College of Engineering are organized into two Divisions: Engineering and Engineering Technology.

The Division of Engineering includes seven academic departments:

- Biomedical Engineering
- Chemical Engineering and Materials Science
- Computer Science
- Civil and Environmental Engineering
- Electrical and Computer Engineering
- Industrial and Manufacturing Engineering
- Mechanical Engineering

Programs leading to the Bachelor of Science, Master of Science, and Doctor of Philosophy degrees in engineering are offered by these departments. Five programs leading to a Bachelor of Science in Engineering Technology and a Master of Science in Engineering Technology are offered in the Division of Engineering Technology.

Profession of Engineering

Engineering requires people of imagination who can plan and create. Engineers design, simplify, refine and economize. They are pragmatists serving the needs of society through the development and improvement of technology. The engineer's resources include an intimate knowledge of scientific laws and their applications to engineering problems as well as ability to use mathematics and computers and, above all, an imaginative and an inquiring mind.

Engineers can start their careers in many functional roles – designer, test engineer, manufacturing engineer, sales engineer, researcher, or a combination of these and other roles. Engineering has become a profession that often leads to executive management positions. As more and more of the decisions of management in government and business are based on technical considerations, engineers with the necessary background are called upon to make these choices. Engineers do not devote their attention solely to innovations in technology. In all of these roles they look beyond their inventions and conceptions to consider the societal effect of their work, including its economic, aesthetic, safety, and environmental aspects.

At present, the minimum education required for general competence in the practice of engineering is a bachelor's degree in one of the fields of engineering. However, many engineering positions require an additional year or two of education at the graduate level leading to the master's degree. Whenever possible, students are urged to continue their education to this point. For engineering research or teaching, and in some areas of practice, the doctoral degree is recommended. For further information about graduate programs in engineering, consult the Wayne State University Graduate Bulletin.

For all engineers, continuing professional competence in the midst of our constantly changing technology requires educational renewal and a life-long dedication to continuing education. The College offers seminars, institutes and off-campus programs to meet this need. In addition, regular College courses are available on an elective, post-degree basis.

Engineering Technologist

The evolution of our civilization has always been closely associated with technology and science. Now, and in the future, this association will become even more important. New knowledge has inspired advances in technology, resulting in new career opportunities. Far-reaching developments in communications and instrumentation technology, highly sophisticated machine tools and manufacturing processes, new energy sources and new man-made materials, and computer applications have all revolutionized the techniques of industrial manufacturing and management.

This on-going expansion of scientific and engineering knowledge has changed the make-up of the engineering team through the inclusion of the engineering technologist. The engineering technologist, in cooperation with the engineer, organizes people, materials and equipment to design, construct, operate, maintain and manage technical engineering projects. He or she should have a commitment to that technological progress which will create a better life for everyone. Because of the increasing challenges in this information age, it is no longer possible for one person to master all of the knowledge and skills necessary to execute technical projects. Quite often, a team effort is required – with each member of the team highly

trained in a specific area. Today's engineering teams involve engineers and engineering technologists and may also include technicians, scientists, physicians, craftsmen, and other specialists.

Engineering technology supports engineering activities through a combination of scientific and professional knowledge with technological skills and concentrates on the industrial applications of engineering. Because of the extensive variety of functional opportunities, and the wide variety of industrial enterprises available to the engineering technologist, there has been a great deal of specialization. An engineering technologist can specialize in three related ways: discipline, function and industry.

For example, the discipline could be mechanical, the function could be design, and the industry could be automotive; or the discipline could be electrical, the function field installation, and the industry electric power generation. Through its undergraduate and graduate programs, the Division of Engineering Technology allows students to gain the specialization that they desire to contribute to interdisciplinary teams as engineering technologists.

College Facilities

The College of Engineering's facilities include five separate buildings with almost 300,000 square feet of classroom, office, and laboratory space. The newest of these is the Marvin I. Danto Engineering Development Center, featuring research and educational space that is dedicated to interdisciplinary work in areas of nanotechnology, automotive engineering, urban infrastructure, and alternative energies. Among the college's facilities are multimedia classrooms, a comprehensive computer center, electronics and machine shops, student project space, dedicated teaching laboratories, and sophisticated research laboratories. The four multimedia classrooms support innovative course delivery techniques, including interactive distance learning with classrooms at a variety of sites within Wayne State, at other colleges and universities, and at industrial sites. The PACE Teaming Center is designed to promote interdisciplinary project work with links to real-world engineering problems. The computer facilities include dedicated computer graphics, design, and personal computing hardware and software.

The Division of Engineering Technology is housed in a dedicated building of approximately 24,000 square feet, located at 4855 Fourth Street.

The undergraduate laboratories provide facilities in such areas as computer graphics, fluid mechanics, thermal sciences, system dynamics, statistical computation, materials science, and rapid prototyping. Some specific laboratories associated with departmental engineering specializations include: chemical measurements; chemical unit operations; materials testing and processing; nanomaterials synthesis, characterization, and device manufacturing; electron microscopy; optical metallography; soil mechanics; environmental and hydraulic engineering; roadway and building materials; structural modeling; analog and digital communications systems; computer systems; control systems; analog circuits; digital systems; microcomputers and microprocessor applications; power systems; electronics; optics; computer vision; artificial neural networks; integrated circuits fabrication; automotive engineering; human factors engineering; computer aided manufacturing; 3D printing, 3D CNC; robotics; sand casting and testing; and stress analysis.

These laboratories are used for instructional and research purposes along with such research facilities as a molecular beam laboratory; a clean room facility for device materials research; a biomechanics accelerator and impact laboratory; an acoustics and noise control laboratory; and a structural behavior laboratory. All of these are available for experimentation and research in connection with the undergraduate curricula on a college-wide basis.

The College provides support for the various instructional and research laboratories in the construction, modification, repair, calibration and installation of experimental equipment. In addition, the College offers sophisticated assistance in the design of electronic and instrumentation equipment and devices. Qualified students are encouraged to use these facilities under the supervision of trained professionals.

Many undergraduate and graduate students pursue their studies in the College while working in local industry, either full-time or part-time, where unique research facilities unavailable on campus may be found. In such situations, students are encouraged to pursue their college-credit research at the employment site, where they work under the joint supervision of their faculty advisor and a company representative. Such research can take the form of undergraduate directed study courses, Master of Science theses, or Ph.D. dissertations.

Accreditation

In addition to the accreditation of Wayne State University by the Higher Learning Commission of the North Central Association of Colleges and Secondary Schools, the undergraduate programs listed below are accredited by ABET Inc. In the Division of Engineering, the programs below that lead to a Bachelor of Science degree are accredited by the Engineering Accreditation Commission (EAC) of ABET Inc. The Electrical/Electronic Engineering Technology program and the Mechanical Engineering Technology program, offered by the Division of Engineering Technology, are accredited by the Technology Accreditation Commission (TAC) of ABET. Program accreditation is based upon careful, periodic appraisal of the faculty, curriculum, and facilities of the College. This approval provides assurance of an up-to-date, high quality education pertinent to the engineering profession. Such accreditation is recognized by other universities, prospective employers, and state professional licensing agencies.

DIVISION OF ENGINEERING (undergraduate)

Bachelor of Science Programs in:

- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Electrical Engineering
- Industrial Engineering
- Mechanical Engineering

are accredited by the:

Engineering Accreditation Commission of ABET
111 Market Place, Suite 1150
Baltimore MD 21202-4012
(Telephone 410-347-7700).

DIVISION OF ENGINEERING TECHNOLOGY (undergraduate)

Electrical/Electronic Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and the Electrical/Electronic(s) Engineering Technology Program Criteria.

Mechanical Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <https://www.abet.org>, under the General Criteria and the Mechanical Engineering Technology Program Criteria.

Location of the College

The College is located in the heart of Detroit, Michigan, renowned as a center of automotive engineering and production. The Michigan economy is in transition, with new focus on the emerging fields of biomedical and alternative energy technologies. This industrial center provides a wealth of examples of modern engineering practice and opportunities to explore the latest in vehicle design and production, automation design, transportation planning, telemetry, hydraulic and pneumatic controls, electric power generation, and computer design and production. The research and educational strengths of Wayne State's College of Engineering mesh well with the traditional and new engineering industries within Michigan, preparing students for those fields. The many industries of southeastern Michigan provide engineering students with rich and varied work experiences through full or part-time employment or through the Cooperative Education Program (p. 128).

The College is affiliated with the eleven other schools and colleges of the University which, with its 29,000 students, provides a broad selection of educational opportunities on an interdisciplinary basis.

Academic Regulations: Engineering Division

Undergraduate Registration

All Division of Engineering undergraduate students are required to meet with their Engineering advisor a minimum of once per academic year in order to discuss their academic progress and curriculum. It is strongly recommended that these meetings take place before each semester's registration. Special attention should be paid to course pre- and co-requisites as well as College grade requirements in prerequisites. It is the student's responsibility to ensure that all pre-requisite and co-requisite requirements are satisfied. Students will be removed from courses entered without satisfying these requirements. Students wishing to receive a waiver of pre- or co-requisite requirements must submit an Academic Petition *prior* to registering for the affected course.

Some courses may be offered only once a year; others may have multiple sections running every semester. The University Schedule of Classes (<http://www.classschedule.wayne.edu>), published prior to each semester, shows when and where the classes will meet and outlines registration procedures and times.

Attendance Policy

Regular attendance in classes is necessary for success in college work. Excessive unexcused absences may result in a student failing a course. The student should arrange with the course instructor in advance for all predictable absences. Absences due to illness or conditions beyond the student's control should be reported as soon as possible via phone or e-mail to the instructor, and substantiating documentation provided upon the student's return to class.

Dean's List of Honor Students

A student who achieves a term grade point average of 3.75 or more, based on a program of twelve credits or more, is cited by the Dean for distinguished scholarship and is included on the Dean's List of Honor Students.

AGRADE Program (Accelerated Graduate Enrollment)

Accelerated Graduate Enrollment: The College of Engineering enables academically superior undergraduate seniors to enroll simultaneously in undergraduate and graduate programs and apply a maximum of sixteen credits toward both an undergraduate and graduate degree in the student's major field. Students who elect the 'AGRADE' Program may expect to complete the bachelor's and master's degrees in one additional year of full-time study.

To be eligible, applicants must have completed a minimum of ninety credits of course work applied towards the engineering degree and be accepted in the professional program of their major. The minimum grade point averages for acceptance into the program are a 3.3 g.p.a. overall and a 3.45 g.p.a. for courses in their department of specialization, as computed by the rules of the Division of Engineering. See the departmental academic advisor for further details.

Student Conduct

Each student is subject to official regulations governing student activities and student behavior. Furthermore, it is the responsibility of each student to adhere to the principles of academic integrity. Thus, a student should not falsely claim the work of another as his/her own, or misrepresent

him/herself so that the measures of his/her academic performance do not reflect his/her own work or personal knowledge.

If there are reasonable grounds to believe that a student has violated the regulations or student responsibilities, he or she may be disciplined. Such discipline may include failure in the course, suspension or dismissal from the program. A description of the University's Student Due Process Policy and a discussion of academic integrity can be found at the Dean of Students Office (<http://www.doso.wayne.edu/assets/codeofconduct.pdf>).

Engineering Division Rules for Calculating Grade Point Average

The Division of Engineering computes Departmental and College grade point averages using rules that differ from those used to compute the cumulative grade point average on the official University transcript: the College g.p.a. is calculated based on all engineering and technical courses, as well as required English courses (Students should consult their academic advisors for details). The Departmental g.p.a. includes all courses taken within the major department. The College g.p.a. includes all engineering courses and those courses that are prerequisite to an engineering course. The preprofessional g.p.a. is calculated to determine eligibility for admission to the professional program. Preprofessional requirements that have been satisfied through transfer credit will be included in the assessment of the pre-professional g.p.a.; however, they will not be included in the official University g.p.a. or final calculation of the College or Department g.p.a.

Substandard Academic Performance

If a grade below 'C-minus' is received in any course to be applied towards the degree, the student will be required to repeat that course in the next semester in which it is available. The course must be repeated and a satisfactory grade earned before the next course in the sequence is taken. Students will be administratively withdrawn from courses for which they have not satisfied course prerequisites. General education and technical elective courses, which are not specifically required for the degree, may be repeated or a different course may be chosen to satisfy that requirement. If a different course is selected, the first grade will not be replaced in the calculation of the g.p.a.

A course in which a grade below 'C-minus' has been earned may not be subsequently passed by special examination.

Auditing Courses

Undergraduate students may elect to formally audit a course that interests them. In order to audit a course, a student must register for the class and pay the appropriate tuition. However, this course will not apply towards any degree requirements. Any course that has been completed for audit may not be subsequently enrolled in for credit, nor may credit be obtained by special examination.

Courses used to satisfy engineering program requirements may not be taken on a Pass-Fail basis, except for industry sponsored project courses taken for elective credit (maximum of 3 credit hours). Capstone design courses, even if they include an industry sponsored project, may not be taken on a Pass-Fail basis.

Repeating Courses

Courses in which a grade lower than a 'C-minus' is earned must be repeated in the next regular (i.e., fall or winter) semester in which the course is offered. Exceptions to this rule must be approved by the Undergraduate Program Director, Department Chair, or the Associate Dean for Academic Affairs. If a student receives a substandard grade in

a course at Wayne State University, they will be required to repeat that course at Wayne State University. Exceptions to this policy require prior written approval from the Associate Dean for Academic Affairs in order to take the course at another designated institution.

Students are directed to Repeating Courses – The mark of R (p. 40) for University policies related to repeating courses and credit by special examination. See also ‘Division of Engineering Rules for Calculating Grade Point Average,’ above.

Exclusion from the College of Engineering

Students will be allowed to repeat a maximum of five courses in which they have earned a grade less than C-, or grades of WF or WN. If a student must repeat a sixth course in order to complete their degree, they will be excluded from the College of Engineering.

Additionally, failure to pass a course with at least a ‘C-minus’ grade after three attempts constitutes grounds for exclusion from the College of Engineering. Prerequisite math and science courses that do not count for degree credit, but are required if students did not place into MAT 2010 and CHM 1125, are also counted towards exclusion from the College. Students who elect to repeat a course to improve their understanding of the material even though a satisfactory (‘C-minus’ or higher) grade was received will not have this counted towards the number of allowed repeats.

Following exclusion from the College of Engineering, the privilege of registering in the College will be withheld for at least one calendar year.

A student who has been refused the privilege of registering in the College of Engineering may request a re-consideration of his or her status by the Academic Standards Committee (ASC) after the one-year exclusionary period. He or she should not make the request, however, unless evidence can be provided of changes in academic preparation or circumstances that will substantially increase the likelihood of academic success. A formal written request for reconsideration must be presented to the Associate Dean for Academic Affairs. Students who plan to petition for readmission are encouraged to meet with their academic advisor as early as possible during the exclusion period to discuss what changes may provide an opportunity for readmission. In no case is readmission to the College of Engineering guaranteed.

Academic Probation

A student is considered to be on academic probation from the University whenever his or her cumulative grade point average falls below 2.0. All students on academic probation are required to meet with their academic advisor to discuss what steps should be taken to remedy the academic deficiencies. While on probation, a student may not represent the College of Engineering in student activities.

A student on probation is expected to remove the grade point deficiency promptly. If, at the end of the first semester on probation, the student’s cumulative grade point average has not increased to at least 2.0, they will be excluded from the College of Engineering. For part-time students, a semester will be considered to consist of twelve consecutive credits. If the student’s cumulative g.p.a. reaches at least 2.0 by the end of the first semester after being placed on probation, they will be returned to regular status. Multiple occurrences of probation in non-consecutive semesters may also result in the student’s exclusion from the College. A student may also be refused the privilege of registering in the College of Engineering for irresponsible attendance and performance in class, regardless of any probationary status.

For complete information regarding academic rules and regulations of the University, students should see the Academic Regulations (p. 38) section of this bulletin.

Withdrawal From Courses

General rules governing withdrawal from courses and changes of program can be found on Drop/Add – Adjusting Your Schedule. (p. 53) When a student withdraws from courses, resulting in a transcript displaying a mark of W, these instances are considered attempts at the course and are factored into the assessment of permissible repeats. If a student believes that factors beyond their control, such as a family emergency or a shift in work schedule, warrant the withdrawal, they have the option to submit a written petition to the Associate Dean for Academic Affairs before the conclusion of the semester in which the course was undertaken. Approval of the petition will be documented in the student’s advising record, ensuring that the course does not contribute to the Engineering repeat allowances.

Graduation

Students must apply for graduation at the beginning of the semester in which they plan on completing their degree requirements. At graduation, the University requires a minimum 2.0 grade point average in the total residence credit.

Graduates with a minimum of sixty credits in residence at Wayne State University and a grade point average of at least 3.0 may qualify for a special diploma under the following conditions:

Summa Cum Laude: Student must have a grade point average in the 95th percentile of the College of Engineering graduating class.

Magna Cum Laude: Student must have a grade point average in the 90th percentile of the graduating class.

Cum Laude: Student must have a grade point average in the 80th percentile of the graduating class.

Commencement: Each year, commencement exercises are held May and December. College *Order of the Engineer* and *Professional Order of Engineering Technology* ceremonies will be held in May to induct graduates into these organizations.

Guest Students

A student attending another engineering college who wishes to take course work at Wayne State for the purpose of credit transfer to the home institution may be admitted as a guest student for one term. This is done by applying through the University Office of Admissions using either the Application for Undergraduate Admission or the Graduate Guest Application. These applications require certification by an official of the home institution. For information on graduate guest admission and visiting doctoral guests, see the Wayne State University Graduate Bulletin. Guest students are expected to have met the listed prerequisite requirements for courses in which they wish to enroll. Students wishing to register for 3000- or 4000-level engineering classes must first receive permission from the department that teaches the course.

Second and Concurrent Degree

In accordance with the University requirements, students may earn a Bachelor of Science in engineering concurrently with or subsequent to another bachelor’s degree at Wayne State University. Such students must satisfy applicable departmental and college requirements; consult an Engineering academic advisor to review these requirements.

Engineering: Minor Options

A number of undergraduate programs within the University allow students to pursue a minor in the field. Engineering students may elect to complete a minor through another school or college in conjunction with

their Bachelor of Science in Engineering. This minor will generally require course credit in addition to that required for the engineering degree.

Bachelor of Science: Engineering Division

Undergraduate Program Goals

The overall goal of the undergraduate engineering degree programs at Wayne State University is to prepare students for success in their immediate and long-term professional careers as engineering practitioners as well as for pursuing graduate and professional studies and lifelong learning.

Undergraduate programs in the College of Engineering are divided into three phases. All students must complete the professional program in order to earn their Bachelor of Science degree. The majority of students begin their engineering curriculum through the pre-professional program, which allows them to complete a limited number of courses while demonstrating their academic preparedness for the professional program. Students who require additional background in math and science before entering the pre-professional program enter the College through the Eos Program and progress to the pre-professional program upon successful completion of a defined set of foundational courses.

Recommended High School Preparation

In order to place sufficient emphasis on the English, mathematics, physics, and chemistry required for normal progress in engineering, the recommended high school preparation for admission to the College of Engineering is:

Algebra	2 units
Chemistry	1 unit
English	4 units
Physics	1 unit
Plane and Solid Geometry	1.5 units
Social Science or Foreign Language	2 units
Trigonometry	0.5 unit
Electives	3 units

An incoming freshman with this background enters the pre-professional program if he or she earns satisfactory scores on the placement examinations in mathematics, chemistry and English (see below).

Students who are interested in pursuing a degree in engineering but who may not have the requisite background in science and mathematics, as demonstrated by their high school record, ACT or SAT scores, or placement exam results, will be admitted to the Eos Program (p. 131). This program is designed to provide students with the necessary background to proceed into and succeed in the pre-professional and professional programs in the engineering major of their choice.

Admission

Admission to the undergraduate programs in the College of Engineering is dependent upon high school grade point average (g.p.a.) and ACT or SAT scores for those students entering directly from high school, and upon grade point average and level of curriculum completion for transfer students from community colleges or other universities. The following admissions criteria cite minimum values used to place students in the professional, pre-professional, and Eos programs. Admission to all of these programs is contingent upon satisfaction of the general undergraduate admission requirements (p. 32) of the University. (p. 32)

Admission: Professional Engineering Program

Upon Successful completion of all departmental Pre-professional course requirements, students will be admitted into the Professional Level program of their Engineering Major.

Code	Title	Credits
BE 1200	Basic Engineering I: Design in Engineering	3
BE 1300	Basic Engineering II: Materials Science for Engineering Applications	3

MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
CHM 1125 & CHM 1130	General Chemistry I for Engineers and General Chemistry I Laboratory	4
PHY 2175	University Physics for Engineers I	4
PHY 2185	University Physics for Engineers II	4
ENG 1020	Introductory College Writing	3

Students who do not meet the minimum requirements for admission to the professional program may be admitted to the pre-professional program as follows.

Admission: Pre-professional Engineering Program

Students entering the College directly from high school will be admitted to the pre-professional program if they have earned at least a 3.0 overall g.p.a. and placement into MAT 1800 or higher (score of 26 on the Math ACT or 620 on the Math SAT).

Students who have completed at least twelve credits of college-level coursework may be admitted to the pre-professional program if they have a minimum of a 3.0 overall g.p.a.. Students must also have placed into, or transferred the equivalent of, MAT 1800 and ENG 1020 (see below for descriptions of placement exam requirements). If fewer than twelve credits of college-level work have been completed, students must also submit their high school transcripts and ACT or SAT results.

Matriculation

Entering Freshmen

Students should plan on attending an Engineering Orientation session, scheduled in concordance with University Orientation, as early as possible to allow maximum flexibility in course scheduling. Students must take their placement exams and receive their results before attending an orientation session - allow at least seven days for the test results to post following the exam.

Transfer Students

For the student who has attended another institution and been admitted to the College of Engineering, the amount of advanced standing will be determined by the College and will depend upon the quantity and quality of the degree work completed prior to enrollment in this institution. Whether all, or only in part, such transferred credit may be applied toward a degree at Wayne State depending on the requirements of the curriculum chosen. No grade below a 'C' may be transferred into the College to satisfy a degree requirement. The student should consult the department academic advisor if he or she has any questions on their transfer status.

Course equivalency tables (<http://www.transfercredit.wayne.edu>) are designed to provide initial guidance. The decision of the Department and the College regarding the acceptance of transfer credit to be applied to the undergraduate degree in engineering is final and supersedes the published transfer tables. Any request for reconsideration of the evaluation of transfer credits accepted by the College of Engineering

should be made in writing within one year of the date of the student's first enrollment in the College of Engineering, or within one year of the date of the evaluation if the latter is made subsequent to the student's enrollment in the College of Engineering.

Pre-professional Engineering Programs

Students in the pre-professional programs complete thirty-five to forty-five credits of their engineering curriculum, depending on their intended major. This program consists of the following courses that are required of all Division of Engineering students:

Code	Title	Credits
BE 1200	Basic Engineering I: Design in Engineering	3
BE 1300	Basic Engineering II: Materials Science for Engineering Applications	3
BE 1310	Materials Science for Engineering: Laboratory	1
ENG 1020	Introductory College Writing	3
CHM 1125 & CHM 1130	General Chemistry I for Engineers and General Chemistry I Laboratory	4
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
Select one of the following: ¹		5-8
PHY 2175 & PHY 2185	University Physics for Engineers I and University Physics for Engineers II	
PHY 2170 & PHY 2171	University Physics for Scientists I and University Physics Laboratory	
Total Credits		31-34

¹ PHY 2170 & PHY 2171 for ECE majors

Most departments also require that students complete one or more 2000-level courses within their department (contact the academic advisor for more information).

In order to be admitted to the professional program of their choice, a student must complete the pre-professional courses with no grade lower than a 'C-minus' and a College grade point average for these courses of at least 2.5. Calculation of this pre-professional g.p.a. will include the grades earned in all courses listed above in addition to departmental pre-professional requirements. The required courses may have been completed at Wayne State or transferred from another institution. If a course was completed at Wayne State, the highest WSU grade will be included in this g.p.a. calculation. For courses taken only outside of WSU, the highest grade earned at another institution will be factored into the College's calculation of the pre-professional g.p.a. (transfer grades are not included in the calculation of the official University g.p.a.). Students in the pre-professional program may opt to complete MAT 2150 and BE 2100, or defer them until after acceptance into the professional program; however, they will not be included in the calculation of the pre-professional grade point average.

Students who do not satisfy these pre-professional requirements will become ineligible to enter the professional program and are prohibited from enrolling in professional level (3000- and 4000-level) engineering courses. Students enrolled in the pre-professional program who fail to meet the 2.5 g.p.a. requirement after completion of the pre-professional courses will be subject to exclusion from the College of Engineering.

Professional Engineering Programs

Students must qualify for the professional program in order to complete their advanced engineering courses and apply for their bachelor's

degrees. Only students in the professional program in Engineering may register for 3000- and 4000-level engineering courses and, as an undergraduate, 5000-level technical electives. Exceptional students may be granted direct admission to the professional program – the majority of students will progress through the pre-professional program first.

Honors Options

Students who qualify, either as incoming freshmen or continuing students, may opt to pursue Engineering Honors and/or University Honors as they complete their Bachelor of Science degree. Students interested in pursuing University Honors will be enrolled in both the College of Engineering (primary College) and the Irvin D. Reid Honors College (secondary College). Students should work closely with both their Engineering and Honors advisor to select courses. In order to graduate with University Honors, students must maintain a cumulative g.p.a. of 3.3 or higher and must complete at least twenty-eight credits of honors designated courses (please refer to the University Honors College (p. 213) requirements). To qualify for Engineering Honors in addition to University Honors, twenty-four credits of this coursework must include the following:

Code	Title	Credits
BE 2100	Basic Engineering III: Probability and Statistics in Engineering	3
BE 5998	Engineering Honors Thesis	4
HON 42XX	Honors Seminar that will satisfy General Education Requirements	3-4
Eight credits of honors designated courses within the major department. Students should consult their department advisor for more information.		8
Total Credits		18-19

The additional credits of honors courses can be taken in any department, either as honors designated or honors option sections. Students can obtain a list of courses that will also satisfy College requirements (such as MAT 2010 or ECO 2010) from their advisor. Students may elect to pursue only Engineering Honors through the listed twenty-four credits of requirements without completing the requirements for University Honors.

Cooperative Education Program

Students who wish to enrich their education with on-the-job engineering experience may enroll in the Cooperative Education Program. In this program, full-time study terms are alternated with full-time work assignments in cooperating industries. The program may be entered at the beginning of the junior year. Special cooperative programs are available on a limited basis and provide special arrangements in the definition of the work-study period. Most of the work assignments are in the Metropolitan Detroit area on a commuting basis; however, job opportunities are available in other cities and states. The Co-op program is available in all undergraduate engineering curricula.

Each Co-op student may enroll for one academic course while on work assignment. This must be done with the approval of the student's advisor and Co-op supervisor. Following each work assignment, the student may elect to enroll in BE 3510 or CHE 3510 for one credit. Election of the course requires the completion of a report on the work experience to the department advisor and to the Co-op Coordinator. This credit for work will not be counted toward graduation unless permission is specifically recommended by the department chairperson. Students are automatically enrolled for a zero credit course (BE 3500) each term that they are on a Co-op assignment to insure that the experience appears on their transcript. A brief evaluation report covering each work assignment is to be submitted to the Co-op Coordinator, whether there has been enrollment in the above one credit courses or not. The student's

performance on the job is rated by his/her industrial supervisor. Salaries and other benefits are paid for the time spent on each work assignment. For details and enrollment procedures, contact the Co-op Coordinator in the Career Planning and Placement Office.

Degree Requirements

The normal program of study for each of the degrees awarded in the College of Engineering requires from 120 to 136 credits. Of the total credits for the degree, at least thirty-four credits must be completed as resident credits in the degree program of the College. Departments may impose additional requirements.

Although the curriculum plans of the departmental sections which follow indicate a four-year program, many students will require additional time to complete all degree requirements. The national average time required for students to complete an engineering degree is approximately 4.5 years after beginning the calculus sequence (MAT 2010). Completion of the degree requirements in four years requires the election of an average of seventeen credits each term during the academic year. A student who participates in the Cooperative Education Program will require longer. Students may attend the University on either a full-time or part-time basis (twelve credits are considered by the University as a minimum full-time load).

Students who pursue degrees on a part-time basis may require much more than 4.5 years to complete all degree requirements. The actual amount of time required will depend upon the student's academic preparedness and the amount of time available for academic activities. The maximum load that a student carries should be consistent with the student's ability and available time. However, since a credit is defined as one class hour requiring about two hours of preparation per week carried through a semester, the fifteen to twenty-one credit programs shown in the curricular plans represent a full forty-hour academic work week. A three-hour laboratory period is generally regarded as the equivalent of one credit. Students who wish to graduate in four calendar years but who wish to schedule sixteen or fewer credits per semester may accomplish this by deferring certain courses until the spring or summer term. Students should check with their advisors regarding the courses that can best be taken in Spring/Summer term. Students who do not follow the sequence as outlined by their department must make sure that all course prerequisites are satisfied.

Specific requirements for these bachelors degrees may be found in the departmental sections for this College. These requirements are in effect as of the publication date of this bulletin; however, students should consult an academic advisor for verification of current requirements. The following discussion concerns generic aspects common to all Bachelor of Science engineering programs with the exception of Computer Science.

Basic Science Requirement

In order to meet accreditation requirements, all undergraduate engineering students are required to complete at least fifteen credits of basic science courses, including CHM 1125 and CHM 1130, PHY 2170 or PHY 2175 and PHY 2185. These courses are required in all of the engineering curricula (with the exception of computer science), and it should be noted that certain curricula require the completion of prescribed science laboratories and/or additional chemistry and physics courses.

In addition, each student must elect a basic or advanced science course. Students should consult with their advisor for the current list of acceptable courses.

Mathematics Requirement

Engineering students use mathematics as a tool in all engineering and science courses in their college curricula, as well as later upon entry into the engineering profession. All prospective engineering students are encouraged to complete the number of units of mathematics stipulated in the section entitled Recommended High School Preparation, see High School Preparation, Recommended. Ideally, engineering students elect the first course in calculus (MAT 2010) in their first freshman term; however, many incoming students are not prepared to begin the mathematics program with calculus, and additional foundational coursework is necessary to strengthen the student's background. This foundational coursework is not included in the total credits required for an engineering degree. All students entering the Division of Engineering with no transfer credit in calculus must take the Mathematics Placement Examination (see above).

General Education Requirements

All students must satisfy the General Education Requirements (p. 22) of the University. In some cases, the College prescribes a more limited set of alternatives than permitted by the University in order to meet accreditation requirements while optimizing a path towards the degree. Students are cautioned to observe the following College requirements when selecting courses to satisfy General Education Requirements.

Communication Skills

In addition to the basic composition course ENG 1020 (BC), six credits in communication skills (ENG 3050 and ENG 3060) are required of all Engineering students, and these satisfy the Intermediate Composition (IC) and Oral Communication (OC) requirements of the University.

Inquiries

Engineering today extends far beyond technical decisions. Far-reaching effects of man-made technology require the engineer to be aware of and sensitive to his or her social responsibilities. Courses involving the engineer in sociological, economic, and aesthetic study are incorporated into the engineering program in order to insure an understanding beyond technical problems, which will enable the complete engineer to make value judgments concerning the impact of this technology upon society.

The College has, therefore, included a program in the social sciences and the humanities as a part of all engineering curricula. This program is integrated with the non-science portion of the University's General Education Program, which requires a student to elect one course from each of six categories. The Engineering Division imposes requirements in addition to the University-wide restrictions on some of the courses that satisfy General Education Requirements. These restrictions are described above and are shown in the degree requirements for each engineering program.

Technical Electives

Technical electives may be chosen from a selection of course offerings of the College of Engineering and the advanced science and mathematics courses of the College of Liberal Arts and Sciences. Other courses, such as advanced courses in the Mike Ilitch School of Business, may be elected with the prior approval of the undergraduate program director. The purpose of the technical elective is to increase the depth or breadth of one's professional knowledge. Courses should be selected so as to meet this objective. Engineering courses elected as technical electives are normally selected at the 5000-level. These courses are open to both undergraduate and graduate students. Technical electives require the approval of a student's department and should be discussed with his or her academic advisor.

Placement and Qualifying Examinations

All entering freshmen must take the placement examinations in mathematics, chemistry and English. Transfer students who do not have transfer credit equivalent to MAT 2010, CHM 1125/CHM 1130, and ENG 1020 (with a grade of 'C' or higher) must take the appropriate placement examination. Consult the Office of Testing, Evaluation, and Student Life Research Services (<http://www.testing.wayne.edu>) for information regarding the schedule for the examinations.

Chemistry (Qualification Exam)

The sequence of chemistry courses for the engineering student normally begins with CHM 1125 and CHM 1130. Qualification for CHM 1125 and CHM 1130 requires a satisfactory score on the Chemistry Placement Examination. If a student is not properly prepared to consider placement in CHM 1125 and CHM 1130, direct entry into CHM 1040 is permissible.

English (Placement Exam)

All entering freshmen and transfer students shall determine their aptitude in English composition by taking the English Placement Examination unless they have earned credit equivalent to ENG 1020 through transferred courses, AP examinations, or the CLEP program. Students whose score on the English Placement Examination indicates a need for additional instruction and practice in writing must elect and pass ENG 1010 before they can enroll in ENG 1020.

Mathematics (Qualification Exam)

The sequence of mathematics courses for the engineering student normally begins with MAT 2010. For admission to MAT 2010, a qualifying examination must be passed. The placement examination must be taken by all students who have not transferred in the equivalent of MAT 2010, completed with at least a grade of 'C', or through AP credit. Students may apply to take the placement examination for either MAT 1800 or MAT 2010 depending upon their preparation in mathematics. The MAT 1800 Placement Examination is based upon one and one-half years of high school algebra and one year of high school geometry. The MAT 2010 Placement Examination is based upon a total of three and one-half to four years of college preparatory mathematics covering algebra, plane and solid geometry and trigonometry.

Failure to qualify for MAT 2010 may result in the student being placed in a lower level course such as MAT 0993, MAT 1070, or MAT 1800 depending upon the student's performance. Engineering students who do not take the Mathematics Placement Examination prior to registration for the first semester of the freshman year must enroll in MAT 0993.

Emerging Scholars and Rising Scholars Programs

All engineering students who place into MAT 1070, MAT 1800 or MAT 2010 are encouraged to apply to the Emerging Scholars Program. Students who place into MAT 0993 are required to apply to the Rising Scholars Program. These are enhanced mathematics programs that provide additional experience in mathematical applications and problem solving, better preparing students for engineering problem solving. Contact the Department of Mathematics for more information: 1150 Faculty/Administration Building; 313-577-2479.

Eos Program

Students who meet the requirements for University admission but do not meet the academic record or placement requirements of the pre-professional or professional programs will be admitted to the Eos Program.

The Eos Program is designed for those students who are interested in pursuing a degree in engineering but who may need some additional

foundational work in mathematics and science in order to obtain the requisite background to succeed. Eos students participate in the following two-semester sequence of courses with a cohort of students:

Code	Title	Credits
Fall Semester		
MAT 1070	College Algebra	5
MAT 1075	Problem Solving for College Algebra	2
BE 1200	Basic Engineering I: Design in Engineering	3
ENG 1020	Introductory College Writing	3
FYS 1010	Learning with the Brain in Mind	1
or BE 1060	Building a Foundation for College Success	
Winter Semester		
CHM 1040	Chemistry Skills and Reasoning	4
MAT 1800	Elementary Functions	4
MAT 1990	Precalculus Workshop	2
General Education Course (Consult your advisor)		3-4
Total Credits		27-28

In order to progress from the Eos Program to the pre-professional program, a student must complete each of the required courses with a grade of 'C-minus' or higher and an overall grade point average of at least 2.5. Only two substandard grades (p. 126) are permitted within the Eos requirements if a student wishes to remain in the College. Students receive close attention from the engineering advisors so that early intervention may be arranged for students who face academic difficulties. As part of this course work, each Eos student meets on a weekly basis with an engineering mentorship group to provide an opportunity for discussion and peer support.

Students who place into MAT 0993 must complete this course in addition to those listed above. This requirement will delay completion of the Eos Program until the end of the spring/summer semester. Students who place into MAT 0993 should work closely with their academic advisor to develop a three-semester plan of courses to satisfy the Eos requirements.

BE 1001 Engineering Bridge Mentorship Program Participant I Cr. 1

Required peer mentorship program for Engineering Bridge students. Offered Every Term.

Corequisite: BE 1060

Restriction(s): Enrollment is limited to students with a major in Engineering.

BE 1002 Engineering Bridge Mentorship Program Participant II Cr. 0

Required peer mentorship program for Engineering Bridge students. Offered Winter.

Corequisite: BE 1060

BE 1050 Career Readiness for Engineering Students Cr. 1

The design of the Career Readiness for Engineering Students series is set to help you identify and apply the steps necessary to reaching your goals related to your career and professional development. The materials & activities provided throughout the course will help you define your career goals, build your personal career materials, identify and apply the skills that are most sought after by employers to prepare you for success at your co-op and throughout your career. Offered Fall.

BE 1060 Building a Foundation for College Success Cr. 1

Satisfies General Education Requirement: Wayne Experience

This course is designed to expose students to the Wayne State University undergraduate experience. Students will gain an understanding of campus resources, institutional values, and the merits of a liberal arts education from an urban research one university. This course will aid in the development of critical and analytical thinking skills necessary for college success while determining one's academic and professional goals. Offered Fall, Winter.

Restriction(s): Enrollment limited to students with a class of Freshman.

Equivalent: FPC 1020, RSE 1010

BE 1101 Introduction to Officership Cr. 1

Classroom introduction to leadership, and the experiential examination of leadership, followership, decision-making, and group accomplishment of tasks. Offered Every Other Year.

BE 1102 Introduction to Leadership Cr. 1

Continuation of B E 1101; focus on communications, leadership, and problem-solving. The light infantry platoon and the troop leading process. Offered Every Other Year.

Prerequisite: BE 1101 with a minimum grade of C-

BE 1200 Basic Engineering I: Design in Engineering Cr. 3

Core principles of engineering practice: design, teamwork, professional ethics. Offered Fall, Winter.

Prerequisites: MAT 1050 with a minimum grade of C (may be taken concurrently), MAT 1070 with a minimum grade of C (may be taken concurrently), MAT 1800 with a minimum grade of C (may be taken concurrently), MAT 2010 with a minimum grade of C- (may be taken concurrently), MAT 2020 with a minimum grade of C- (may be taken concurrently), or MAT 2030 with a minimum grade of C- (may be taken concurrently)

Course Material Fees: \$50

BE 1300 Basic Engineering II: Materials Science for Engineering Applications Cr. 3

Fundamentals of materials science; emphasis on how material properties and behavior affect engineering applications. Offered Every Term.

Prerequisites: (CHM 1125 with a minimum grade of C- or CHM 1100 with a minimum grade of C-), CHM 1130 with a minimum grade of C-, BE 1200 with a minimum grade of C- (may be taken concurrently), (PHY 2170 with a minimum grade of C- (may be taken concurrently) or PHY 2175 with a minimum grade of C- (may be taken concurrently)), and MAT 2020 with a minimum grade of C- (may be taken concurrently)

Corequisite: BE 1310

BE 1310 Materials Science for Engineering: Laboratory Cr. 1

Laboratory component of B E 1300. Offered Every Term.

Corequisite: BE 1300

Course Material Fees: \$35

BE 1500 Introduction to Programming and Computation for Engineers Cr. 3

Use of computational tools, such as Excel and MATLAB, to solve engineering problems. Topics include general engineering problem solving, algorithm development, programming, and computational analysis. Offered Fall, Winter.

Prerequisites: MAT 2010 with a minimum grade of C-

Restriction(s): Enrollment is limited to Undergraduate level students.

BE 1600 Introduction to Programming and Computation: Python Cr. 3

An introduction to programming using Python for students with no programming experience. Basic control structures (sequence, selection, repetition) and all core data types using objects. Practice on core data structures (string, list, tuple, dictionary, and set). Design, implementation and testing of programs to solve problems with an emphasis on data manipulation using real world, practical examples. Offered Fall, Winter.

BE 2100 Basic Engineering III: Probability and Statistics in Engineering Cr. 3

An introduction to application of probability theory and statistical methods in engineering, including design and manufacturing. Offered Every Term.

Prerequisites: MAT 2020 with a minimum grade of C- (may be taken concurrently)

BE 2201 Innovative Tactical Leadership Cr. 1

Military organizational leadership with focus on leadership development and interpersonal group dynamics. Offered Every Other Year.

Prerequisite: BE 1102 with a minimum grade of C-

BE 2202 Leadership in Changing Environments Cr. 2

Challenges of leading in complex contemporary operational environments. Cross-cultural challenges of leadership applied to practical Army leadership tasks and situations. Offered Every Other Year.

Prerequisite: BE 1102 with a minimum grade of C-

BE 2600 Global Tech Internship Cr. 3

The Global Tech Experience is a virtual, equity-driven experiential learning program that enables undergraduate students from all backgrounds to build career-focused intercultural and technical skills. Offered Every Term.

BE 3000 Engineering Bridge Mentorship Program Leader Cr. 0

Documentation of mentor participation in Engineering Bridge Program. Offered Every Term.

Restriction(s): Enrollment limited to students in the following programs:

BS in Chemical Engineering, BS in Civil Engineering, BS in Electrical Engineering, BS in Electrical and Comp Engg, BS in Industrial Engineering, BS in Mechanical Engineering; enrollment limited to students in the College of Engineering.

BE 3301 Leading Small Organizations I Cr. 2

Leadership development and interpersonal and group dynamics. Methods of visualizing, planning and leading organizations to achieve set goals. Offered Every Other Year.

BE 3302 Leading Small Organizations II Cr. 2

Offered Every Other Year.

Prerequisite: BE 3301 with a minimum grade of C-

BE 3500 Co-Op Record Cr. 0

Engineering practice under supervision in cooperative education program. Offered Every Term.

Restriction(s): Enrollment limited to students in the following programs:

BS in Chemical Engineering, BS in Civil Engineering, BS in Computer Science, BS in Electrical Engineering, BS in Electrical and Comp Engg, BS in Industrial Engineering, BS in Mechanical Engineering; enrollment limited to students in the College of Engineering.

BE 3510 Internship Experience Cr. 1-3

Engineering practice under supervision in cooperative/internship education program. Written report required. Offered Every Term.

Restriction(s): Enrollment limited to students in the following programs:

BS in Chemical Engineering, BS in Civil Engineering, BS in Electrical Engineering, BS in Industrial Engineering, BS in Mechanical Engineering; enrollment limited to students in the College of Engineering.

Repeatable for 6 Credits

BE 3900 National Design Competition Participant Cr. 0

For engineering undergraduates who are active team members in national engineering design competition projects. Satisfactory completion of this course will document active participation throughout the semester. Offered Every Term.

BE 4401 Leadership and Management Cr. 3

Multiple styles and theories of leadership; ethical decision making, especially as relating to changing organizational and individual behavior; accomplishing goals in resource-constrained environments. Offered Every Other Year.

Prerequisite: BE 3302 with a minimum grade of D-

BE 4402 Military Professionalism and Professional Ethics Cr. 3

Evaluation and assessment of needs of subordinate units and individuals; near-term and short-term plans to address these needs. Analysis of a historical battle as well as analysis of moral and leadership dilemmas in history. Offered Every Other Year.

Prerequisite: BE 4401 with a minimum grade of C-

BE 5900 National Design Competition Projects Cr. 1-4

Primarily for engineering undergraduates who are dedicating a substantial amount of effort towards college-sponsored national design competition projects. Offered Every Term.

Repeatable for 99 Credits

BE 5995 Special Topics in Engineering Cr. 4

Special topics not covered in other courses; topics announced in Schedule of Classes. Offered Every Term.

Repeatable for 99 Credits

BE 5998 Engineering Honors Thesis Cr. 1-4

Completion of required Honors Thesis. Offered for undergraduate credit only. Offered Every Term.

Restriction(s): Enrollment limited to students in the following programs:

BS in Biomedical Engineering, BS in Chemical Engineering, BS in Civil Engineering, BS in Electrical Engineering, BS in Industrial Engineering, BS in Mechanical Engineering; enrollment is limited to Undergraduate level students; enrollment limited to students in the College of Engineering.

Repeatable for 4 Credits

EGR 5655 Innovation & Entrepreneurship I Cr. 3

Provides education and hands-on experience in innovation and entrepreneurship applied to enterprise, product and service design and delivery. The first of a 2-semester sequence, this course teaches methods and tools to find, formulate, and develop engineering innovation and entrepreneurship, leading to practical, relevant, and productive new commercial and social enterprises. Offered Fall.

Restriction(s): Enrollment limited to students in the College of Engineering.

EGR 5656 Innovation & Entrepreneurship II Cr. 3

Provides education and hands-on experience in innovation and entrepreneurship applied to enterprise, product and service design and delivery. This course is the second of a 2-semester sequence. This course teaches methods and tools to find, formulate and develop engineering innovation and entrepreneurship, leading to practical, relevant, and productive new commercial and social enterprises. Offered Winter.

Restriction(s): Enrollment limited to students in the College of Engineering.

EGR 5657 Innovation & Entrepreneurship Lab Cr. 1

Provides hands-on application of Lean LaunchPad principles in innovation and entrepreneurship applied to enterprise, product and service and delivery. Offered Every Term.

Restriction(s): Enrollment limited to students in the College of Engineering.

Repeatable for 2 Credits

EGR 5658 Global Collaborative Projects Involving Sustainability, Innovation and Cultural Diversity Cr. 3

Participate in an authentic, global project experience that replicates how you will work in your career. This course, is designed for senior and graduate engineering students from diverse backgrounds. It aims to foster global collaboration, emphasizing sustainability, innovation, and building cross-cultural awareness and diversity. Students will engage in collaborative engineering projects, case studies, presentations, and discussions while gaining insights into different cultures, sustainable engineering practices, innovation, and global sustainability challenges. Offered Spring/Summer.

EGR 5990 Competition Team Cr. 2

This course is based on the students' contribution to a team participating in reputed regional/national/international competitions. Participation in the competition gives students a unique, multifaceted learning opportunity entirely led and run by students under the supervision of faculty member. Project teams collaboratively solve the complex engineering problems while gaining real-world experience. Participation in the competition provides students with hands-on laboratory learning experience and gives opportunities to hone leadership and professional skills. The faculty advisor is expected to provide technical and administrative support to the team and the overall program. Offered Every Term.

Repeatable for 4 Credits

EGR 5995 Special Topics in Engineering Cr. 1-4

State of the art research, development and practice topics from across the fields of engineering; emphasis on interdisciplinary topics. Offered Every Term.

Restriction(s): Enrollment limited to students in the College of Engineering.

Repeatable for 4 Credits

EGR 7995 Special Topics in Engineering Cr. 1-4

State of the art research, development and practice topics from across the fields of engineering; emphasis on interdisciplinary topics. Offered Every Term.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the College of Engineering.

Repeatable for 4 Credits

EGR 7999 Elements of Graduate Research Cr. 2

Key elements of graduate research. Topics covered include developing research ideas and library search skills, constructing a research proposal/prospectus, identifying research funding and fellowship opportunities, interdisciplinary research, and research ethics. Offered Winter.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Doctor of Philosophy degree.

General Engineering (B.S.)

The Bachelor of Science in General Engineering program is an interdisciplinary, broadly focused major studying concepts related to several engineering disciplines.

For admission to the B.S. in General Engineering, students must satisfy the admission criteria of the University (p. 32) and the bachelor of science programs in the College of Engineering (p. 128).

The Bachelor of Science in General Engineering requires the completion of 120-123 credits total credits, depending on the selection of directed electives. The first two years of the B.S. in General Engineering will follow the general education, basic engineering, mathematics, and science curriculum of the College of Engineering. Students can choose a minor in the third year of the program from various engineering programs, business, law, and entrepreneurship.

Students can go deeper within a selected area of specialization together with industry internships in the fourth year of the program in areas such as Data Analytics, Systems Engineering, AI, Mechatronics, etc.

Biomedical Engineering

Office: 818 W. Hancock; 313-577-1344

Chairperson: Cynthia Bir

<http://engineering.wayne.edu/bme/>

Biomedical engineering (BME) is one of the fastest growing disciplines in engineering. This field has developed from the knowledge that engineering principles can be applied to better understand how the human body functions as well as the effect that outside forces have on it, whether they be diagnostic or traumatic. A biomedical engineer brings together traditional engineering principles with the life sciences in a completely integrated fashion. The result is an engineer who views the human body as a complex system, its diseases and injuries as breakdowns in that system, and medical interventions as design alternatives for the repair of the system. As the population ages and medical costs increase, biomedical engineers are required both to understand the mechanistic causes of injury and disease and to design and implement interventions to prevent and mitigate the suffering of individuals and to reduce the cost of medical care to society.

Wayne State has a long history with respect to biomedical engineering research. In 1939, faculty from the College of Engineering and School of Medicine began collaborating to investigate the mechanisms of injuries to the human body, and educational programs in the area of biomedical engineering have existed at Wayne State since the 1950s. They have developed from a few courses taken within traditional engineering departments to the graduate degree program in biomedical engineering, introduced in 1998. The Department of Biomedical Engineering, interdisciplinary between the College of Engineering and the School of Medicine, was established in 2002. Drawing upon the strengths of the biomedical engineering graduate program, the Department has established a new undergraduate program that accepted its first students for the Fall 2010 semester.

- Biomedical Engineering (B.S.) (p. 135)

Biomedical Engineering (B.S.)

Wayne State's undergraduate program in biomedical engineering is built upon a strong foundation of engineering that integrates biomedical sciences early in the curriculum and continuously throughout subsequent coursework. To prepare students for careers and/or further education, traditional lectures are combined with problem-based and project-based learning to allow students to immediately apply their foundational knowledge to biomedical engineering challenges. From the first week of the program, through an ongoing partnership with the Medical School and affiliated hospitals, students are introduced to real-world biomedical engineering problems and tools to develop a thorough understanding of the challenges faced in clinical medicine. All students are also encouraged to become actively involved in one of the research groups of the Department for which opportunities are available as early as freshman year. Before the junior year, all biomedical engineering students must select one of three concentrations: biomaterials, biomechanics, or bio-medical instrumentation.

The program's objectives are to prepare graduates who, within a few years of graduation, will be able to

1. Work in multidisciplinary teams to translate biomedical science into applications that will improve people's quality of life
2. Utilize and advance engineering, mathematical, and biomedical tools to solve biomedical engineering problems and design biomedical engineering systems

3. Continue the practice of lifelong learning in engineering and/or biomedical fields based on a strong underlying foundation in both areas of study

The B.S.B.M.E. program is coordinated by the Undergraduate Program Chairperson with the assistance of the Departmental academic advisor. These individuals are available to support students in selecting courses, identifying research and internship opportunities, and discussing plans for after graduation. Students are encouraged to join and actively participate in the campus chapter of the Biomedical Engineering Society (BMES) for networking and professional development opportunities.

Admission Requirements

Students qualifying for admission to the College of Engineering must select the B.S.B.M.E. program in the online application. The applicant must provide supporting documentation as instructed. Due to the challenging nature of biomedical engineering, the undergraduate program is highly selective and admits students who have a demonstrated ability in math and science. In addition, the program is structured as a cohort-based program. Therefore, admission for transfer students requires completion of a minimum set of prerequisite courses. They must complete all of the first-year coursework to join the second-year program.

Students are only able to join the second-year program as transfer students regardless of transfer credits.

Freshman Admission

Students wishing to enter the program immediately following high school are expected to have a minimum high school g.p.a. of 3.2 and a minimum Math ACT/SAT score of 23/620. Students who have completed college-level coursework through dual enrollment programs will still be considered freshmen. For full consideration for fall admission, including all scholarship opportunities, students should apply to the University and the Biomedical Engineering Program by December 1. Following admission, students must confirm placement into Calculus I (MAT 2010) and General Chemistry + lab (CHM 1125 and CHM 1130) through either testing (ACT/SAT, AP, Placement Exams) or transfer credit. Admitted students who do not meet these criteria will be admitted as Pre BME.

Transfer Admission

Students may apply to transfer into the program after completing college-level coursework at Wayne State or at another post-secondary institution. Transfer students may apply to join the program as part of a first-year or second-year cohort depending on the coursework that they have previously completed. Students wishing to join the program in the second year are required to complete the program's first-year coursework. The following classes should be completed, or in progress, for transfer students to be considered to join each cohort:

Code	Title	Credits
First Year Cohort		
Placement into Calculus I, General Chemistry (with lab), and Basic Composition		
Second Year Cohort		
Mathematics: Calculus I and Calculus II		
English: Basic Composition		
The following Basic Engineering coursework		
BE 1200	Basic Engineering I: Design in Engineering	3
BE 1300	Basic Engineering II: Materials Science for Engineering Applications	3
BE 1310	Materials Science for Engineering: Laboratory	1
BE 1500	Introduction to Programming and Computation for Engineers	3

Applicants without all of the expected placement or coursework will be required to complete the missing items during the spring/summer term.

Transfer students are accepted on a space-available basis. Prospective students are expected to have earned a minimum math/science g.p.a. of 3.2 in their college coursework.

Candidates for the Bachelor of Science degree must complete 121 credits of coursework, including the University General Education (p. 22) requirements. A maximum of 35 credits shall comprise the General Education Program. Forty-five credits of coursework must be in engineering sciences or engineering design. Most courses offered by other engineering departments count toward this forty-eight engineering credit requirement. Note: BME 2050, BME 4010, and BME 5070 count as life science courses and not engineering courses. All coursework must be completed in accordance with the academic procedures of the University (p. 13) and the College of Engineering (p. 126) governing undergraduate scholarships and degrees. All prerequisite coursework must be completed; any waivers to listed prerequisite courses must be approved by the Undergraduate Program Chairperson. In compliance with the academic requirements of the College of Engineering, students must earn a grade of C- or higher in all courses applied to the B.S.B.M.E. degree requirements. The 8-semester curriculum for the program is provided below. Students interested in attending medical or dental school after graduation may add any remaining pre-professional requirements into their curriculum with minimal difficulty.

Biomedical Engineering Curriculum

First Year		
First Semester		Credits
BE 1200	Basic Engineering I: Design in Engineering (Biomedical and Chemical)	3
CHM 1125	General Chemistry I for Engineers	3
CHM 1130	General Chemistry I Laboratory	1
ENG 1020	Introductory College Writing	3
MAT 2010	Calculus I	4
BME 1900	Biomedical Engineering Freshmen Seminar	1
Credits		15
Second Semester		
BE 1300	Basic Engineering II: Materials Science for Engineering Applications	3
BE 1310	Materials Science for Engineering: Laboratory	1
BE 1500	Introduction to Programming and Computation for Engineers	3
MAT 2020	Calculus II	4
PHY 2175	University Physics for Engineers I	4
Credits		15
Second Year		
First Semester		
BE 2100	Basic Engineering III: Probability and Statistics in Engineering	3
BIO 1510 & BIO 1511	Basic Life Mechanisms and Basic Life Mechanisms Laboratory	4
BME 2910	Biomedical Engineering Design Lab I	1
MAT 2030	Calculus III	4
ME 2410	Statics	3
Credits		15
Second Semester		
BME 2050	Introduction to Anatomy and Physiology for Biomedical Engineers	4
BME 2920	Biomedical Engineering Design Lab II	1
MAT 2150	Differential Equations and Matrix Algebra	4
ME 2420	Elementary Mechanics of Materials	3
PHY 2185	University Physics for Engineers II	4
Credits		16

Third Year		
First Semester		
BME 3470	Biomedical Signals and Systems	3
BME 3910	Biomedical Engineering Design Lab III	1
BME 3010	Biomedical Transport	3
ENG 3050	Technical Communication I: Reports	3
ECE 3300	Introduction to Electrical Circuits	4
General Education Course		3
Credits		17
Second Semester		
BME 3920	Biomedical Engineering Design Lab IV	2
BME 4010	Engineering Physiology Laboratory	2
BME 4X10-	First Course in Concentration Elective	3
ENG 3060	Technical Communication II: Presentations	3
General Education Course		3
Credits		13
Fourth Year		
First Semester		
BME 4910	Biomedical Engineering Capstone Design I	3
Concentration Electives		8
General Education Course		3
Credits		14
Second Semester		
BME 4920	Biomedical Engineering Capstone Design II	3
BME 4X10—	Second course in Concentration Elective	3
Concentration Elective		4
General Education Courses		6
Credits		16
Total Credits		121

Honors and Accelerated Master's AGRADE Program

All students in the B.S.B.M.E. program are encouraged to pursue their degree with Engineering and/or University Honors. Students can complete their requirements for Honors within the 125 credits required for the program. The required Honors thesis will satisfy the requirement for one of the concentration electives.

Students who have earned at least a 3.45 g.p.a. through their junior year may apply to the AGRADE Program. Through this program, students may earn their M.S. in biomedical engineering with one additional year of coursework (18 credits).

Chemical Engineering and Materials Science

Office: 1100 W. Engineering Building; 313-577-3800

Chairperson: Jeffrey Potoff

<http://engineering.wayne.edu/che/>

Chemical engineering applies the sciences of chemistry, biology, physics and mathematics in a synergistic way to develop new or improved technologies, products and processes for the benefit of mankind.

The chemical engineering B.S. degree provides a strong technical background, from which graduates may enter into professional careers in fields such as petrochemical processing, energy, pharmaceuticals, medical devices, advanced materials, semiconductor processing, biotechnology, environmental control, natural and synthetic rubbers and plastics, surface coatings, food processing, cosmetics, and consumer products. Many chemical engineering undergraduates continue their studies in graduate programs (M.S. or Ph.D.) in chemical engineering, or in related disciplines such as materials science and biomedical engineering, in preparation for careers in research and development. Chemical engineering also provides excellent undergraduate preparation for professional programs in medicine (M.D.), law (J.D.), and business (M.B.A.).

The undergraduate program in chemical engineering includes studies in chemistry, mathematics, and physics, as well as an understanding of physical, biological and chemical systems and processes. Engineering science courses cover material and energy balances, transport phenomena, thermodynamics, reaction kinetics, separation processes, and dynamics, simulation, and control of systems and processes.

In addition to the Undergraduate Program Goals, the specific objectives of the chemical engineering B.S. program are:

1. *Engineering Practice.* Graduates of the B.S. in Chemical Engineering program will have the ability to successfully pursue professional employment in an entry-level position in chemical engineering or related disciplines.
2. *Graduate Education.* Graduates of the B.S. in Chemical Engineering program will be academically well-prepared to pursue graduate study in chemical engineering and related disciplines.
3. *Science and Mathematics.* Graduates of the B.S. in Chemical Engineering program will be able to apply fundamental knowledge in chemistry, physics, biology, mathematics, and engineering to practical problems in chemical engineering, and related disciplines.
4. *Engineering Analysis.* Graduates of the B.S. in Chemical Engineering program will be able to apply theoretical, computational, and experimental methods to solve engineering problems.
5. *Design.* Graduates of the B.S. in Chemical Engineering program will be able to apply principles and methods of chemical engineering to the design of chemical processes and products.
6. *Communications.* Graduates of the B.S. in Chemical Engineering program will be able to communicate effectively in oral and written technical presentations and reports.
7. *Professionalism.* Graduates of the B.S. in Chemical Engineering program will be aware of the social responsibility of engineers and the importance of ethics in the engineering profession.
8. *Self-learning.* Graduates of the B.S. in Chemical Engineering program will be able to acquire new knowledge through self-learning and continuing education, as needed in their professional careers.
9. *Co-op and Undergraduate Research Experience.* Graduates of the B.S. in Chemical Engineering program will have received opportunities to enrich their preparation for professional practice and/or graduate

studies through co-op experience and internships, and through undergraduate research experiences.

10. *Advanced Technical Knowledge.* Through the program's curriculum options, graduates of the B.S. in Chemical Engineering program will have acquired in-depth knowledge in one of the following areas: Product and Process Engineering; Biological Engineering; Molecular Engineering and Nanotechnology.

- Chemical Engineering (B.S.) (p. 137)
- Nanoengineering (Undergraduate Certificate) (p. 139)

Chemical Engineering (B.S.)

Chemical engineering applies the sciences of chemistry, biology, physics and mathematics in a synergistic way to develop new or improved technologies, products and processes for the benefit of mankind.

The chemical engineering B.S. degree provides a strong technical background, from which graduates may enter into professional careers in fields such as petrochemical processing, energy, pharmaceuticals, medical devices, advanced materials, semiconductor processing, biotechnology, environmental control, natural and synthetic rubbers and plastics, surface coatings, food processing, cosmetics, and consumer products. Many chemical engineering undergraduates continue their studies in graduate programs (M.S. or Ph.D.) in chemical engineering, or in related disciplines such as materials science and biomedical engineering, in preparation for careers in research and development. Chemical engineering also provides excellent undergraduate preparation for professional programs in medicine (M.D.), law (J.D.), and business (M.B.A.).

The undergraduate program in chemical engineering includes studies in chemistry, mathematics, and physics, as well as an understanding of physical, biological and chemical systems and processes. Engineering science courses cover material and energy balances, transport phenomena, thermodynamics, reaction kinetics, separation processes, and dynamics, simulation, and control of systems and processes.

Admission Requirements

Admission is contingent upon satisfaction of the general undergraduate admission requirements of the University (p. 32) and the bachelor of science programs in the College of Engineering (p. 128).

Program Requirements

Candidates for the Bachelor of Science degree must complete 128-129 credits of coursework, including the University General Education (p. 22) requirements. Forty-eight credits of coursework must be in engineering sciences or engineering design. All course work must be completed in accordance with the academic procedures of the University (p. 13) and the College of Engineering (p. 126) governing undergraduate scholarship and degrees. Non-engineering entries, cited below by subject rather than individual course number, indicate courses to be selected in fulfillment of the University General Education Requirements. Degree requirements shown in the curricula below are in effect as of the publication date of this Bulletin. Students should consult their advisors for verification of current requirements.

First Year		Credits
First Semester		
BE 1200	Basic Engineering I: Design in Engineering	3
MAT 2010	Calculus I	4
CHM 1125	General Chemistry I for Engineers	3
CHM 1130	General Chemistry I Laboratory	1
ENG 1020	Introductory College Writing	3
(WE) Wayne Experience		1
Credits		15

Second Semester

BE 1600	Introduction to Programming and Computation: Python	3
MAT 2020	Calculus II	4
CHM 1145	General Chemistry II for Engineers	3
CHM 1150	General Chemistry II Laboratory	1
PHY 2175	University Physics for Engineers I	4
Credits		15

Second Year**First Semester**

BE 1300	Basic Engineering II: Materials Science for Engineering Applications	3
BE 1310	Materials Science for Engineering: Laboratory	1
MAT 2030	Calculus III	4
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
CHE 2800	Material and Energy Balances	4

(CIV) Civic Literacy		3
Credits		14-15

Second Semester

CHE 4800	Chemical Process Integration	3
CHE 6570	Safety in the Chemical Process Industry	3
Chemical Engineering Technical Electives		6
(GL) Global Learning		3
(DEI) Diversity, Equity and Inclusion		3
Credits		18

Total Credits 128-129

¹ Elect either CHM 5440 and 8 Technical Elective Credits, or CHM 5600 and 9 Technical Elective Credits.

Technical Electives for Chemical Engineering

- Chemical Engineering students are required to complete 8 or 9 credits from the list below, or other courses with the approval of the undergraduate program coordinator.
- Combination of BE 1050 and BE 3510 may be counted as technical elective credit; BE 1050 must be completed first in the sequence
- A maximum of 2 credits of BE 3510 can be taken as technical electives
- No more than 1 credit per semester of BE 3510

Code	Title	Credits
CHE 4990	Directed Study	1-3
CHE 5050	Statistics and Design of Experiments	3
CHE 5100	Quantitative Physiology	4
CHE 5110	Fundamental Fuel Cell Systems	4
CHE 5120	Fundamentals of Battery Systems for Electric and Hybrid Vehicles	4
CHE 5350	Polymer Science	3
CHE 5360	Polymer Processing	3
CHE 5995	Special Topics in Chemical Engineering I	1-4
CHE 5996	Chemical Engineering Research	1-3
CHE 6100	Introduction to Sustainable Engineering	3
CHE 6450	Biochemical Engineering	3
CHE 6610	Risk Assessment	3
MSE 5650	Surface Science	3
BME 5370	Introduction to Biomaterials	4
IE 6560	Deterministic Optimization	3
IE 6611	Fundamentals of Six Sigma	3
IE 6310	Lean Operations and Manufacturing	3
IE 6840	Project Management	3

PHY 6450	Introduction to Material and Device Characterizations	4
BE 1050	Career Readiness for Engineering Students	1
BE 3510	Internship Experience	1

Mission Statement

As an urban research university, our mission is to discover, examine, transmit, and apply knowledge that contributes to the positive development and well-being of individuals, organizations, and society.

Wayne State University is a national research institution dedicated to preparing students to excel in an increasingly advanced and interconnected, global society.

Program Educational Objectives

1. The overall objective of the BS CHE program at Wayne State University is to prepare students for a) success in their immediate and long-term careers as practicing chemical engineers; and b) success in continuing education in graduate and professional schools.
2. The program supports the university's urban mission by promoting diversity and encouraging disadvantaged and nontraditional students to enter the engineering profession.
3. We utilize our faculty's strengths in research to enrich undergraduate education through: a) individual undergraduate research experiences; and b) we engage in educational partnerships with our industrial

constituents in southeastern Michigan through an active undergraduate coop program.

Student Outcomes

The Student Outcomes are described below, and the contribution of each Program Outcome to the ABET Criterion 3, components 1-7 is explained. ABET Criterion 3 1-7 can be found at: <https://www.abet.org/accreditation/accreditation-criteria/criteria-for-accrediting-engineering-programs-2020-2021/>

1. Chemistry. Graduates of the BS CHE program will possess a strong grounding in Chemistry, together with a working knowledge of organic chemistry and materials science. Graduates will possess a working knowledge of either physical chemistry or biochemistry, depending on their choice of Curriculum Options. Contributes to the Science portion of Criterion 3 component (1).

2. Math and Science. Graduates of the BS CHE program will possess a working knowledge of mathematics, including calculus through differential equations, and they will be able to apply modern mathematical and computational techniques to the solution of engineering problems. Graduates will be well grounded in physics. Contributes to the Math and Science parts of Criterion 3, component (1).

3. Chemical Engineering Fundamentals. Graduates of the BS CHE program will possess a working knowledge of material and energy balances applied to chemical processes; thermodynamics of physical and chemical equilibrium; fluid flow and heat transfer; chemical reaction kinetics and reaction engineering; mass transfer and separation processes, and they will be able to apply this knowledge to identify, formulate, and solve engineering problems. Contributes to Criterion 3, components (1) and (7).

4. Chemical Process Engineering. Graduates of the BS CHE program will possess a working knowledge of process dynamics and control and product and process design. Contributes to the Engineering part of Criterion 3, component (1). Contributes intensively to Criterion 3, components (2), (4), and (6) through the design project in CHE 4200 (Product and Process Design).

5. Design Experience. Graduates of the BS CHE program will develop skills in engineering design via content throughout the curriculum that includes identification, formulation, and solution of open-ended problems, scale-up concepts, consideration of safety and environmental issues, and understanding of economic factors. Contributes to the engineering part of Criterion 3, component (1). Contributes intensively to Criterion 3, components (2), (3), (4), (5), and (7) through the capstone design projects in CHE 4200 (Product and Process Design) and CHE 4800 (Chemical Process Integration).

6. Laboratory Experience. Graduates of the BS CHE program will develop experimental skills via laboratory experiences relevant to chemical engineering principles, covering design of appropriate experiments for measurement of engineering properties and process variables, the analysis and interpretation of data, written and oral presentation of results, and teamwork skills including project management and multidisciplinary team functions. Contributes broadly to Criterion 3, component (1). Contributes intensively to Criterion 3, components (5), (6), and (7)

7. Advanced Technical Knowledge. Graduates of the BS CHE program will develop in-depth knowledge of an advanced area of chemical engineering through a variety of technical elective course options. Contributes to Criterion 3, component (1).

8. Communication Skills. Graduates of the BS CHE program will be able to communicate effectively in oral presentations, electronic

communications, and written technical reports. Contributes to Criterion 3, component (3).

9. Professionalism. The BS CHE program will develop awareness in staying current with the changing chemical engineering profession through lifelong learning and continuing professional development. The BS CHE program will foster the development of professional conduct through awareness of the importance of ethics, safety, environmental issues, and sustainability to the practice of chemical engineering. Contributes to Criterion 3, components (4), and (7).

Nanoengineering (Undergraduate Certificate)

Nanoengineering is the study and implementation of techniques to work with small collections atoms and molecules at the "nano"-scale (i.e., 1-100 nanometers), at which new physical properties and phenomena emerge. The undergraduate nanoengineering certificate program of the College of Engineering is distinct from existing undergraduate programs in that students take courses toward this certificate program while pursuing their B.S. degree. Four courses plus a seminar course are required for completion of the certificate. This program offers nanoengineering courses that provide students with knowledge and hands-on experience in this newly developing field.

The Certificate Program's learning objectives include:

- To provide students in-depth training in nanotechnology and nanomedicine in one unified certificate program that crosses traditional departmental and disciplinary boundaries
- To increase students' knowledge in engineered materials, processes, and devices by linking less familiar nanoscale phenomena with more familiar bulk materials and phenomena
- To offer students hands-on laboratory training in nanotechnology
- To offer students research experience either in faculty labs or industrial labs
- To prepare students for a career in nanotechnology, high tech, and advanced manufacturing industries or research institutions
- To enable students to develop a strong multidisciplinary educational background to be competitive in a global economic environment
- To enable students to develop professional, communication, and teamwork skills that will widen their career options

Admission Requirements include current enrollment in a related bachelor's degree program or previous award of a related bachelor's degree. The program will be open only to:

1. current WSU undergraduate students who have completed at least sixty credits and have a g.p.a. of 3.0 or above; and
2. students who have previously earned a bachelor's degree at WSU or another accredited institution with a final cumulative g.p.a. of 3.0 or above.

Eligible students not currently enrolled at WSU may apply for direct admission to the program.

Certificate Requirements: Fifteen credits including all of the following courses:

Code	Title	Credits
NEN 5000	Introduction to Nanotechnology and Nanomedicine	4
NEN 5100	Nanoengineering Lab	2

NEN 5200	Scale-down Engineering - from Engineered Systems to Nanotechnology	4
NEN 5300	Nanoengineering Research and Capstone Design	4
NEN 5400	Nanoengineering Seminar	1
Total Credits		15

All students must earn at least a grade of B in each of the courses to be applied toward the certificate and complete all the coursework with an overall g.p.a. of at least 3.0. Students concurrently enrolled in an engineering undergraduate program will be governed by the College's overall policy on substandard grades for students pursuing a B.S. degree. Students who have completed a B.S. degree and are pursuing only the certificate will be allowed one substandard grade, with a subsequent successful repeat of the course, during completion of the program.

Civil and Environmental Engineering

Office: 2100 E. Engineering Building; 313-577-3789
Chairperson: William Shuster
<http://www.engineering.wayne.edu/cee> (<http://www.engineering.wayne.edu/cee/>)

Civil and environmental engineers apply the principles and techniques of engineering to the analysis, design, and integration of complex infrastructure and environmental systems. They have traditionally been leaders in many aspects of urban development, and aid in addressing uniquely urban issues associated with providing critical services to residents. We respond to crises like ageing infrastructure, and how to sustain critical services without undue pressure on the environment at large. The civil and environmental engineer is trained to be a leader in such diverse areas as:

- the design and control of structural systems, including tall buildings, bridges and transportation systems necessary for urban development and redevelopment, demolition, commerce and industry;
- water resources planning and management;
- fate, transport, and remediation of contaminants in water, soil resources;
- design of collection and treatment systems for sanitary sewage and stormwater management;
- integrated waste management;
- drinking water treatment and distribution systems;
- construction engineering and management; and
- the integration and management of public works projects designed to improve equity and availability in municipal services.

In these ways, the responsibilities of the civil and environmental engineer directly involve sustaining the health, safety and welfare of the public.

The Civil and Environmental Engineering Department maintains laboratories for teaching and research with facilities for testing structural components under static and dynamic loads; strain measurement; transportation network sensing and assessment, traffic simulation; environmental microbiological, biogeochemical characterization; air quality sampling and characterization; and hydraulic, hydrologic assessments. The Department and the University maintain excellent computer facilities for data acquisition and analysis.

- Civil Engineering (B.S.) (p. 140)

Civil Engineering (B.S.)

The mission of the Civil and Environmental Engineering Department is to provide high-quality, state-of-the-art educational and research programs. The Department strives for excellence in its academic programs, its research endeavors, and its university, community and professional service activities. The program is designed to prepare graduates for success in their immediate, as well as long-term, professional careers as practitioners, for obtaining a professional license, and for pursuing advanced studies and lifelong learning.

Admission Requirements

Admission is contingent upon satisfaction of the general undergraduate admission requirements of the University (p. 32) and the bachelor of science programs in the College of Engineering (p. 128).

Program Requirements

Candidates for the Bachelor of Science degree must complete 124 -126 credits of coursework, including the General Education (p. 22)

requirements. All course work must be completed in accordance with the academic procedures of the University (p. 13) and the College of Engineering (p. 126) governing undergraduate scholarship and degrees. Non-engineering entries, cited below by subject rather than individual course number, indicate courses to be selected in fulfillment of the University General Education Requirements. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin. Students should consult their advisors for verification of current requirements.

¹ Students may select from BIO 1050, BIO 1500, BIO 1510, ESG 1500, or ESG 1010 to meet the Physical Science elective requirement.

Technical Electives: Civil Engineering students are required to complete at least six credits in technical electives. Applicable courses include ET 2140, CE 3070, CE 4640, IE 4850, any CE course at the 5000 or 6000 level, or other courses approved by the undergraduate program coordinator.

The combination of BE 1050 (1 credit) and BE 3510 (2 credits) may be counted as technical elective credit. BE 1050 must be completed first in the sequence. A maximum of two credits of BE 3510 can be taken as technical elective credits. No more than 1 credit per semester of BE 3510.

Design Electives: Students are required to complete two courses from:

Code	Title	Credits
CE 4610	Highway Design	3
CE 5230	Water Supply and Wastewater Engineering	3
CE 5240	Air Pollution Engineering	3
CE 5390	Design of Prestressed Concrete Structures	3
CE 5410	Energy, Emissions, Environment (E3) Design	3
CE 5510	Geotechnical Engineering I	4
CE 5520	Geotechnical Engineering II	3
CE 5610	Advanced Highway Design	3
CE 6130	Open Channel Hydraulics	3
CE 6150	Hydrologic Analysis and Design	3
CE 6170	River Assessment and Restoration I	3
CE 6190	Groundwater	3
CE 6270	Sustainability Assessment and Management	3
CE 6340	Bridge Design and Evaluation	3
CE 6370	Advanced Reinforced Concrete Design	3
CE 6410	Advanced Steel Design	3
CE 6580	Geoenvironmental Engineering I	4
CE 6660	Pavement Asset Management	3

Other courses with approval of the undergraduate program coordinator.

Courses used to satisfy core requirements may not also be used to satisfy technical or design elective requirements.

Program Educational Objectives

Graduates of the CEE Program, within a few years of graduation, are expected to: 1) **Apply** their knowledge and skills as effective, productive civil engineers within private corporations, engineering consulting firms, as well as local, state, and federal government agencies in the design of innovative civil engineering systems and processes; 2) **Work and communicate** effectively with others on multidisciplinary teams to develop practical, technically sound, cost-effective solutions to complex and diverse civil engineering problems; 3) **Build upon the fundamental knowledge** gained in the undergraduate program of study, allowing

analysis and design in alternative and innovative conditions; 4) **Engage in the profession** in an ethical and responsible manner; 5) **Seek leadership roles** as practitioners; and 6) Become and remain **active members** within professional and technical societies.

Student Outcomes

Graduates of the Civil and Environmental Engineering Department will demonstrate the following skills and attributes when they receive their B.S. degrees:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. an ability to communicate effectively with a range of audiences.
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

The civil engineering curriculum has been designed to provide a broad education in the basic sciences, mathematics, and engineering sciences, civil engineering analysis and design, and their application to civil engineering practice. The courses in civil engineering may be considered as an array of groups, each representing an area of concern to contemporary society and industry. Technical electives may be selected from one of these major areas according to the student's particular interest or may be chosen from several areas in order to broaden one's knowledge. A student who contemplates continuing study at the graduate level should seek the advice of his/her faculty counselor in the selection of elective courses. Realizing the social implications of the practice of civil engineering, the program provides for the development of a background in economics, the social sciences, humanities, communication skills, ethics, and related non-technical areas.

Computer Science

Office: 5057 Woodward, Suite 3010; 313-577-2477

Chairperson: Nathan Fisher

Academic Advisor: Colleen McKenney and Michael Williams

<https://engineering.wayne.edu/computer-science/> (<https://engineering.wayne.edu/computer-science/>)

Mission Statement

The mission of the Department of Computer Science at Wayne State University is to provide excellence in teaching, research, public service, and leadership in the computer science profession and the community. The Department provides a high-quality, innovative, baccalaureate and graduate education that emphasizes the fundamentals of computer science as well as the most recent technological innovations, preparing students for employment and advanced studies. Students are encouraged to become involved in research programs to enhance their education and their employment opportunities. Through the use of our state-of-the-art laboratory facilities, students can conduct basic and applied research of high quality, influence, visibility, and potential community impact. The Department continues to develop cooperative research relationships within and outside the computer science discipline, as well as with industry, government and alumni, and local community organizations. This worldwide interaction with professional organizations provides our students with the highest standards, goals, and professional practices.

Research and Instructional Laboratories

The Department of Computer Science operates a number of teaching and research laboratories. Research laboratories are organized around individual fields of research interest. The teaching laboratories are supported by the Department and are available to all students for class work and research.

- Computer Science (B.S.) (p. 142)
- Computer Science Minor (p. 144)
- Information Technology (B.S.) (p. 145)

Computer Science (B.S.)

The mission of the Computer Science B.S. program is to provide undergraduate students with a strong foundation in both Computer Science theory and programming practice that is necessary to solve real-world engineering problems. Through the use of state of the art software and hardware, students will learn to develop their theoretical and programming skills in order to allow them to apply these learned techniques to analyze a problem, evaluate possible solutions, and create a solution as part of a program development team. The program prepares students for engineering careers in software design, intelligent systems, big data systems and analytics, computer systems and network design, software system security, and bioinformatics. Graduates will be prepared to take positions in these areas in academia, industry and government, the local community, and will be prepared for graduate studies in Computer Science as well. In addition the program provides students with opportunities to interact with other professional institutions and exhibit the highest ethical standards in the practice of their profession.

Admission Requirements

For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 128). Students planning to major in computer science should consult with a departmental advisor as soon as possible prior to enrolling in courses. In general, the requirements in effect when a student

declares a major in computer science will be those that the student must satisfy. Students should check with the department for the latest information concerning the program and requirements.

Admission following an interruption in enrollment: A student attempting to complete a computer science major after a prolonged interruption of his/her education may find that some of his/her course work in computer science is out of date. In this case, the student's record will be reviewed and the Department may require the student to fulfill additional computer science course requirements existing at the time of his/her return, and/or to retake some courses previously taken.

Transfer students should consult with an undergraduate departmental academic advisor prior to their transfer. Determination of course equivalency will be made by the Transfer Credit Evaluation Unit in conjunction with the Undergraduate Committee. The Department reserves the right of final determination of course equivalency.

Introductory Course Work

The Department of Computer Science offers a number of courses introducing students to basic computer and computing concepts. Some of these courses also serve as prerequisites for more advanced study in computer science. Some introductory courses require mathematics preparation equivalent to MAT 2010. (See course descriptions regarding the required prerequisite math courses.) CSC 1000, offered as computer-based instruction, is for non-majors who desire to learn basic computing concepts. Students who intend to major or minor in computer science will not normally take this course.

Bachelor of Science Degree Requirements

Candidates for the Bachelor of Science degree must complete 120 credits of coursework, including the University General Education (p. 22) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 13) and the College of Engineering (p. 126) governing undergraduate scholarship and degrees.

Total Credits		15

(Please note that the four-credit core CSC courses include mandatory instructional labs linked to the lecture course. These laboratories must be taken concurrently with their corresponding lecture.)

A minimum of twenty-eight credits in computer science must be earned at Wayne State University. A minimum grade of 'C' is required in CSC 1100, CSC 1500, CSC 2110, and CSC 2200. All other courses including CSC, MAT, BE, and courses within the General Education program must adhere to the requirements of the Engineering Division as stated above.

Students declaring their major must consult with a departmental academic advisor about their individual plan of work and degree requirements

Cooperative Work-Study Program

Students who wish to enrich their education with on-the-job engineering experience may enroll in a zero credit course (BE 3500) with approval from their academic advisor (<http://engineering.wayne.edu/cs/students/advising.php#undergraduate>) and the Engineering Career Resource Center (<http://engineering.wayne.edu/career/co-ops.php>). Registration in BE 3500 allows the university to provide additional support services and safe guards to students. BE 3500 registration also ensures that the co-op experience is well documented to employers when students apply for their first job after graduation. At the end of the semester, students will submit a final report or PowerPoint showcasing co-op activities to the Assistant Dean of Student Services. Student's performance on the job is rated by his/her industrial supervisor. Salaries and other benefits are paid for the time spent on each work assignment. For details and enrollment procedures, contact the Engineering Career Resource Center (<http://engineering.wayne.edu/career/contact.php>). Students interested in registering for Professional Practice in Computer Science (CSC 4995) for academic credits should consult with their departmental academic advisor.

'AGRADE' Program (Accelerated Graduate Enrollment)

Accelerated Graduate Enrollment: This program enables qualified seniors to enroll simultaneously in the undergraduate and graduate programs and apply a maximum of 16 credits towards both the bachelor's and master's degrees. Students electing the 'AGRADE' Program may expect to complete the bachelor's and master's degrees in five years of full-time study.

Admission Requirements: An 'AGRADE' applicant may petition the Graduate Committee of the Computer Science Department for acceptance into the program no earlier than the first semester in which ninety credits will be completed. Following Departmental Graduate Committee approval, students must seek the approval of the Graduate Officer of the College. Applicants must have an overall grade point average (g.p.a.) of 3.3 or better and a 3.45 g.p.a. or better in the major courses already completed. If the student's petition is accepted, the student shall submit a graduate Plan of Work, specifying 'AGRADE' courses to be included in subsequent semesters.

Departmental Honors

Candidates for the Bachelor of Science degree must complete 120 credits of coursework, including the University General Education (p. 22) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 13) and the College of Engineering (p. 126) governing undergraduate scholarship and degrees.

Department Honors Thesis		
CSC 4999	Honors Thesis	3-6
One semester of an Honors Program 4000 level seminar		
HON 4200 or HON 4230 or HON 4250 or HON 4260 or HON 4280	Seminar in Philosophy and Letters Seminar in Physical Science Seminar: Global Perspectives on Historical Studies Seminar in Foreign Culture General Honors Seminar	3

3-6 additional honors credits in Computer Science courses depending on thesis credits

Total Honors Credits **12**

A minimum of twenty-eight credits in computer science must be earned at Wayne State University. A minimum grade of 'C' is required in CSC 1100, CSC 1500, CSC 2110, and CSC 2200 .

All other courses including CSC, MAT, BE, and courses within the General Education program must adhere to the requirements of the Engineering Division as stated above.

The Honors Thesis is a paper presenting the results of the student's independent research. The length of the thesis may vary according to the nature of the topic and method of approach, but is typically a minimum of 20 pages in length. A minimum of two semesters should be allowed for completion of all of the thesis requirements. It is expected that the Honors Thesis will conform to the University master's thesis format requirements (copies available from the Graduate School).

Students are responsible for identifying their own research project and full-time faculty member. Students must submit a completed and signed Honors Thesis Registration form to their departmental academic advisor before registration overrides will be provided. At the end of the first semester a deferred grade of Y will be assigned, with a grade change processed at the completion of the thesis in a subsequent semester. A grade is awarded for CSC 4999 after approval of the thesis by the faculty advisor and one other full-time faculty member.

An overall Wayne State University cumulative grade point average of at least 3.3.

Students should consult with the Honors College (<https://honors.wayne.edu/>) regarding additional honors-designated course work available each semester.

Computer Science Minor

The Minor Program provides a background in computer science for students who are majoring in other fields of study at Wayne State University.

Code	Title	Credits

(Please note that the four-credit core CSC courses include mandatory instructional labs linked to the lecture course. labs. These laboratories must be taken concurrently with their corresponding co-requisite lecture.)

Total Credits **25**

¹ A minimum grade of 'C' is required in these courses. For all other MAT, BE and CSC courses, a minimum grade of 'C-' is required.

² excluding CSC 3010, CSC 4990 and CSC 4995

A minimum of twelve credits in computer science must be earned at Wayne State University.

Students may wish to modify the minor program to fit their special needs. For any changes or adjustments to the above course requirements, students should contact the computer science undergraduate academic advisors for approval. Students declaring their minor should consult an advisor for the most recent requirements and plan of work.

Information Technology (B.S.)

This program prepares the student for a challenging workplace with an enhanced knowledge of business applications. The curriculum for the degree is designed to provide students with a solid foundation in computer and information systems and business administration.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Academic Regulations

Academic Probation

A student is considered to be on academic probation whenever his or her cumulative grade point average, or his or her grade point average in the computer science program, falls below 2.0. A student may also be placed on probation whenever his or her academic performance is deemed unsatisfactory. If, at the end of the first semester on probation, the student's cumulative grade point average has not increased to at least 2.0, he or she will be excluded from the Department of Computer Science. If the student's cumulative g.p.a. reaches at least 2.0 by the end of the first semester after being placed on probation, he or she will be returned to regular status. Following exclusion from the Department of Computer Science, the privilege of registering in the Department will be withheld for at least one calendar year.

Exclusion

A student who has been refused the privilege of registering in the Department may request a reconsideration of his or her status by the Academic Standards Committee (ASC) after the one-year exclusionary period. He or she should not make the request, however, unless evidence can be provided of changes in academic preparation or circumstances that will substantially increase the likelihood of academic success. A formal written request for reconsideration must be presented to the Associate Dean for Academic Affairs. Students who plan to petition for readmission are encouraged to request a meeting with the ASC as early as possible during the exclusion period to discuss what changes may provide an opportunity for readmission. In no case is readmission to the Department of Computer Science guaranteed.

Repeated Courses and Substandard Grades

Students will be allowed up to a maximum of five repeated courses, one repeated course for a substandard grade. If a student must repeat a subsequent course in order to complete their degree, he or she will be excluded from the Department of Computer Science (i.e., students must complete a course within three attempts). Prerequisite math and science courses that do not satisfy degree requirements, but are required if students did not place into MAT 2010, are also counted towards exclusion from the Department. A substandard grade is defined as a grade lower than the minimum requirement (i.e., a grade of C-minus in CSC 1100/1101, or a WP/WF/WN).

Degree Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22), as well as the departmental major and business administration minor requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College of Engineering (p. 126) governing undergraduate scholarship and degrees.

Students are strongly encouraged to meet with their assigned academic advisor (<http://engineering.wayne.edu/cs/students/advising.php#undergraduate>) to discuss degree requirements as soon as possible after admittance into the program.

Business Administration Minor

The Mike Ilitch School of Business offers a minor in business for undergraduate students majoring in other disciplines. The Business Minor consists of six courses, totaling eighteen credits. Students must also complete prerequisite courses with a minimum grade of C (2.0 g.p.a.) for each course. The minor provides an excellent opportunity for non-business majors to broaden their knowledge of the business disciplines. In addition, the program enhances career prospects and establishes a solid business base for pursuing a Master of Business Administration degree. To be eligible to apply for the Business Minor, students must have a minimum overall grade point average of 2.5.

Information Technology students must meet with a business advisor to officially declare a minor.

Code	Title	Credits
Prerequisite Courses (11 credits)		
BA 2300	Quantitative Methods I: Probability and Statistical Inference	3
or ET 3850	Reliability and Engineering Statistics	
ECO 2010	Principles of Microeconomics ((Social Inquiry))	4
ECO 2020	Principles of Macroeconomics ((Social Inquiry))	4
Required Courses (18 credits)		
ACC 3010	Introduction to Financial Accounting	3
MGT 2530	Management of Organizational Behavior	3
MKT 2300	Marketing Management	3
TIS 3630	Business Information Systems	3
Two electives from Mike Ilitch School of Business ISM courses		6
Total Credits		29

A minimum grade of C is required for the following respectively:

Code	Title	Credits
CSC 1100	Problem Solving and Programming	4
CSC 2110	Computer Science I	4

All other courses including CSC, MAT, BE, EET, ET, and courses within the General Education program must adhere to the requirements of the Engineering Division (grades of C-minus or better, unless otherwise specified).

Information Technology Honors

To qualify for Departmental Honors, students must maintain a cumulative g.p.a. of 3.3 or higher and must complete the following coursework:

Code	Title	Credits
Department Honors Thesis (BE 5998)		3
One semester of an Honors Program 42XX level seminar		3
Six additional honors credits in Computer Science or Engineering Technology (CSC, EET, and ET) courses		6
Total Credits		12

Students should consult with the Honors College (<https://honors.wayne.edu/>) regarding additional honors-designated course work available each semester.

Electrical and Computer Engineering

Office: 3101 W. Engineering Building; 313-577-9046

Chairperson: Mohammed Ismail Elnaggar

<http://engineering.wayne.edu/ece/>

In the field of electrical and computer engineering, basic physical and mathematical principles are utilized to develop new devices, technologies, and techniques of constantly broadening application. Examples are the development of smaller, cheaper, and more powerful computers, microprocessors, and other data processors, stemming from advances in solid-state and integrated circuit technology, and their utilization in a growing range of system applications; the growing use of data communications and sophisticated communication networks; the use of lasers, and the development of fiber optic and integrated optical devices for various applications ranging from optical data processing to communication; development of sophisticated control techniques, smart sensors, and transducers for advanced automation and electric power systems; the application of electronics to health care and diagnostics (such as noninvasive measurements and ultrasound imaging); and energy conversion devices.

The areas of study available in the Department include: solid-state devices, lasers, smart sensors, information sciences, digital circuits, computer engineering, analog and mixed signal integrated circuits, semiconductor and nanotechnology, biomedical electronics and systems, image processing, neural networks, machine learning, artificial intelligence, robotics and modern control systems.

Programs of both experimental and theoretical study are available in all these areas, as well as other interdisciplinary programs through the Electrical and Computer Engineering Department.

A more detailed exposition of the Department's research activities is available on our website. Senior students are encouraged to participate in research activities by means of independent study projects and student assistantships. Graduate students normally participate in the research program as graduate teaching assistants and research assistants.

The College of Engineering laboratory building contains seven instructional laboratories for experimental work in control systems, analog circuits, digital systems, microcomputers, instrumentation, optics, and communication systems; these laboratories are an integral part of the instructional program. In addition, the Departmental faculty have eight research laboratories dealing with computer systems, multi-media systems, semiconductor device materials including a clean-room facility, opto-electronics, computation and neural networks, image processing, nanotechnology, telematics, and embedded systems. Computer facilities are available for student use; the College Computer Center as well as the University Computing Services Center are available to all students through individual student accounts.

- Electrical and Computer Engineering (B.S.) (p. 147)
- Electrical and Computer Engineering Minor (p. 148)

Electrical and Computer Engineering (B.S.)

In addition to the Undergraduate Program Goals for the College of Engineering, the specific objectives of the Bachelor of Science program in Electrical Engineering include the following:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. an ability to communicate effectively with a range of audiences.
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Admission Requirements

For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 128).

Program Requirements

Candidates for the Bachelor of Science degree must complete **127-130 credits of coursework**, including the University General Education (p. 22) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 13) and the College of Engineering (p. 126) governing undergraduate scholarship and degrees. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin. However, students should consult an academic advisor for verification of current requirements.

In the freshman and sophomore years, the student acquires a foundation in the principles of science and mathematics required for the study of engineering. In addition, general education studies are provided to ensure a well-rounded education. Basic concepts of electrical circuits, electronics, computers and electromagnetic fields are studied after prerequisite mathematics and science backgrounds are mastered. In the senior year, a choice of electrical and computer engineering electives permits the student to specialize in one or more areas.

* Students are required to take either PHY 2171 along with PHY 2175 **OR** or take PHY 2181 along with PHY 2185. The Electrical Engineering department recommends taking PHY 2181.

Substitution of a course not on this list requires approval of the department chairperson or delegated faculty advisor.

Course Material Fee

A course material fee is charged for laboratory courses using expendable materials.

Industrial and Systems Engineering

Office: 2143 Manufacturing Engineering Building, 4815 Fourth St.;
313-577-3821

Chairperson: Ratna Babu Chinnam

<https://engineering.wayne.edu/industrial-systems> (<https://engineering.wayne.edu/industrial-systems/>)

The industrial engineer is a broadly-trained integration engineer, concerned with enabling complex systems to function effectively. Managing the inventory of a production facility, for example, involves issues of production and stocking policy, manufacturing equipment, human resources, customer demand, and supplier relationships. The industrial engineer must understand the interaction of the components of a system, and coordinate the flow of materials and information to effectively manage the operation. The industrial engineer plays an important role in defining information needs and developing strategies for decision-making based on incomplete knowledge. However, the skills of the industrial engineer have much greater application than to traditional production environments. In a growing service sector of the economy including health care delivery, public safety, air transportation, and banking, for example, issues of resource management, scheduling, quality of service, and systems design are important.

Traditionally, the manufacturing engineer was responsible for developing the process capability to realize the output of design engineering. Today the boundary between design and manufacturing engineering is becoming blurred; both groups work together in teams to assure the soundness of design and production capability. The manufacturing engineer must have an understanding of the design process, but the manufacturing engineer's special expertise is the knowledge of the production process.

Today's production is computer-based and provides flexibility through computer control. The manufacturing engineer is responsible for designing and implementing the cells and production lines which become the basic units of manufacturing. Increasingly, such production units are becoming parts of an integrated factory system, not simply islands of automation. The manufacturing engineer must understand the multi-layered control architecture of the integrated factory, and the computer-based technologies which enable it.

The Department maintains laboratories in systems simulation, computer-aided manufacturing, human systems, and concurrent engineering design.

- Industrial Engineering (B.S.) (p. 149)
- Industrial Engineering Minor (p. 150)

Industrial Engineering (B.S.)

Program Mission: The mission of the undergraduate program in Industrial Engineering is to educate our students for leadership positions in a broad spectrum of employment including: manufacturing, supply chain management and logistics, health care, banking, information management, and related disciplines.

Program Vision: The Department of Industrial and Systems Engineering offers the B.S. in Industrial Engineering to prepare students for a broad range of employment opportunities that include operations management, manufacturing, and healthcare. Our vision is to produce graduates who will lead their organizations to competitive advantage by applying the tools and techniques of industrial engineering. We believe that exposing students to diverse industries in our educational program will enhance their professional skills.

Program Educational Objectives: Building on skills developed in the academic program, and extended by experience and personal self-improvement, the graduates of our program have the ability to:

1. Utilize technical know-how and apply practical problem-solving to deliver significant organizational value as recognized via promotions, raises, awards, publications, inventions, patents, and/or leadership positions.
2. Demonstrate commitment to industrial engineering as a global service profession and practice with integrity, innovation, and objectivity as indicated by professional affiliations, public speaking, thought leadership, publishing, reputation, volunteering, public recognitions, and other related activities.
3. Display the know-how and motivation for continual development by enhancing personal and professional skills via self-study, post-undergraduate degrees, professional certificates, and various other life-long learning experiences.

Admission Requirements

For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 128).

Program Requirements

Candidates for the Bachelor of Science degree must complete 122 credits of coursework, including the University General Education (p. 22) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 13) and the College of Engineering (p. 126) governing undergraduate scholarship and degrees. Non-engineering courses, cited below by subject rather than by individual course numbers, indicate courses to be selected in fulfillment of University General Education Requirements. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin. However, students should consult an academic advisor for verification of current requirements.

The Bachelor of Science degree programs are built on a strong core of common courses. In the junior and senior years, students must choose an area of study leading to the industrial engineering degree. These options are described below, including the Data Science and Analytics concentration (p. 150).

The directed elective must be approved by the program director or undergraduate advisor. A list of courses appropriate for the directed elective is available from the Department.

Engineering Breadth Options: In the following curricula engineering Breadth Options are courses selected from an approved list of those deemed most suitable as contributing to the industrial engineering degree program. In the sophomore year these options are limited to courses numbered below 3000 for all students who have NOT completed their preprofessional coursework.

The Engineering Design Project course sequence (IE 4800 and IE 4880) is a capstone endeavor and is intended to build on and integrate the knowledge that the student has accumulated throughout the undergraduate program. It is intended to be taken in the student's last academic year, within forty credits of graduation. This sequence is a year-long undertaking. Students enroll in IE 4800 (two credits) in their last Fall semester, and spend the term building their teamwork skills and selecting and planning their project. Practical, professionally-relevant projects are usually selected in concert with the Department's industrial partners. In the Winter semester, students enroll in IE 4880 (2 credits) and engage in an intensive effort to bring their industrial engineering skills

and knowledge to bear on the problem. Students who intend to take the capstone sequence should first consult their academic advisor.

Project Requirements: In order to qualify to take IE 4800, students must be in the last year of his/her program (within forty credits of graduating). To enroll in IE 4800, the student must have taken and passed IE 3120, IE 4250, IE 4850, and should have taken and passed or be taking at least two of the IE 4420, IE 4330, IE 4560 in the same semester of IE 4800.

In order to register for IE 4880, students must have taken IE 4800 in the immediately previous term they must be finished with all eight IE core courses by the end of the semester in which they take IE 4880. Students are encouraged to meet with the industrial engineering program academic advisor for a plan of work to ensure they meet these requirements.

Data Science and Analytics Concentration

The Data Science and Analytics concentration is designed to give industrial engineering undergraduate students a core of data science related skills to identify, analyze, and solve problems in manufacturing and service domains.

The program requires students to complete a minimum of **nine credits** in course work, **at least one** course from Data Science and Analytics (DSA), **at most one** course from Data Science for Business (DSB), and **at most one** course from Data Science for Engineering (DSE). All DSA, DSB, and DSE courses are three credits each and are offered in the M.S. in Data Science and Business Analytics program, which is offered by The Mike Ilitch School of Business and Industrial and Systems Engineering and Computer Science Departments in College of Engineering. This curriculum will give students an integrated breadth of industrial engineering tailored to their specific interests and career goals in the field of data science. A minimum 2.50 grade point average among the courses taken towards data science concentration is required to complete the program.

Honors Program

Students in the B.S.I.E. program are encouraged to pursue their degree with Engineering and/or University Honors. Honors requirements for the ISE Department include the following:

- Minimum overall GPA of 3.3 and 3.45 Honors GPA
- Complete a minimum of 16 credits, including the following courses:
 - HON 42XX –Honors Seminar (3 cr.)
 - BE 5998 – Engineering Honors Thesis (4 cr.)
 - Honors Option in IE 4310 (3 cr.)
 - Two IE graduate level courses (IE 5000-6999) (6 cr.)

Industrial Engineering Minor

The minor in IE will provide an integrated breadth of industrial engineering tailored to students' specific interests and career goals. The program requires students to complete a minimum of eighteen credits in course work, including the following:

Code	Title	Credits
BE 2100	Basic Engineering III: Probability and Statistics in Engineering	3
Select two IE core courses from the following list:		6
IE 3120	Work Design	
IE 4250	Data Science and Analysis	
IE 4260	Principles of Quality Control	

IE 4310	Production Control	
IE 4330	Facilities Design	
IE 4420	Systems Simulation

IE 4850	Engineering Economy	
IE 6210	Applied Engineering Statistics	
IE 6560	Deterministic Optimization	
IE 6611	Fundamentals of Six Sigma	
IE 6840	Project Management	
DSA 6100	Statistical Learning for Data Science and Analytics	
DSA 6200	Operations Research	
Select 3 additional IE courses numbered 3000 or above.		9
Total Credits		18

All course work must be completed in accordance with the academic procedures of the University (<https://bulletins.wayne.edu/undergraduate/general-information/>) and the College of Engineering (<https://bulletins.wayne.edu/undergraduate/college-engineering/academic-regulations/>) governing undergraduate scholarship and degrees.

Mechanical Engineering

Office: 2100 Engineering Building; 313-577-3843

Chairperson: Nabil G. Chalhoub; ab9714@wayne.edu

Director of Undergraduate Studies: Omid Samimi-Abiane; eg8067@wayne.edu

Undergraduate Academic Advisor: Keith L. Wadley; ab8541@wayne.edu

<https://engineering.wayne.edu/mechanical> (<https://engineering.wayne.edu/mechanical/>)

The opportunities and challenges in the field of mechanical engineering are many and diverse. The broad variety of career possibilities includes research and development, design analysis and synthesis, manufacturing and production engineering, testing, sales engineering, maintenance and administration. The challenge of a mechanical engineer may lie in the perfection of a device that will be duplicated a million-fold or in the control optimization of a single complex system of unique design. To prepare undergraduate students for these opportunities, the Wayne State University Mechanical Engineering curriculum is designed to give a basic core education in the humanities, mathematics, natural sciences, basic applied sciences, engineering fundamentals, and to provide advanced electives in many applied fields.

Fields of departmental expertise include such important areas as biomimetic soft robots, artificial muscles, advanced materials and manufacturing, nonlinear dynamics, vehicle dynamics and controls, autonomous vehicles and marine surface vessels, combustion, multi-phase flow, computational fluid dynamics (CFD), topological acoustics, wave propagation, noise control, metamaterials, nanomaterials, energy storage, conversion and harvesting, thermal management, mechanisms, design, machine tool design, manufacturing, laser diagnostics, and mechanics of composite materials. Research and teaching is carried out in all of these areas.

- Mechanical Engineering (B.S.) (p. 151)
- Mechanical Engineering Minor (p. 153)

Mechanical Engineering (B.S.)

The Bachelor of Science in Mechanical Engineering is accredited by the Accreditation Board for Engineering and Technology. Mechanical engineering B.S. graduates will be able to apply basic engineering principles to identify and solve problems, and to design, specify the manufacturing of, and evaluate the performance of mechanical systems and processes.

Admission Requirements

For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 128). The Department has an Academic Advisor and a Director of Undergraduate Studies. The former is responsible for assisting students with course selections and maintaining academic progress, and the latter is responsible for enforcing Departmental academic policy. Students are encouraged to meet with the Academic Advisor once every semester, for up-to-date feedback on their academic progress and a review of course plans for the next semester or two. The student and advisor together plan a complete program of study, including electives, which meet Departmental requirements and the interests of the individual student.

Mechanical Engineering Curriculum

Candidates for the Bachelor of Science degree must complete 123 credits of coursework, including the University General Education (p. 22) requirements. All course work must be completed in accordance with

the academic procedures of the University (p. 13) and the College of Engineering (p. 126) governing undergraduate scholarship and degrees.

Evening courses and cooperative programs allow professionals working in local industry to pursue an undergraduate degree while continuing employment. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin; however, students should consult an academic advisor for verification of current requirements.

ME 5180/ BME 5370	Introduction to Biomaterials	4
ME 6180/ BME 6480/ ECE 6180	Biomedical Instrumentation	4
Solid Mechanics and Design		
ME 5040	Finite Element Methods I	4
ME 5620	Fracture Mechanics in Engineering Design	4
ME 5700	Fundamentals of Mechanics	4
ME 5720	Mechanics of Composite Materials	4
Design and Manufacturing		
ME 5453	Product and Manufacturing Systems and Processes	4
ME 5580	Computer-Aided Mechanical Design	4
Thermal/Fluid Science		
ME 5110/ EVE 5130/ AET 5110/CHE 5110	Fundamental Fuel Cell Systems	4
ME 5115/ EVE 5110	Fundamentals of Electric-drive Vehicle Modeling	4
ME 5215/ EVE 5120/ AET 5310/ CHE 5120	Fundamentals of Battery Systems for Electric and Hybrid Vehicles	4
ME 5300	Intermediate Fluid Mechanics	4
ME 5800	Combustion Engines	4
ME 5810	Combustion and Emissions	4

In addition, students may choose to do directed study and research in an area of mutual interest to the student and a faculty member.

Program Educational Objectives

Program Educational Objectives are broad in scope and describe the expected accomplishments of our graduates during the first few years after graduation, while Student Outcomes are narrower and describe what our students are expected to know and be able to do by the time of graduation. The objectives of the undergraduate program in Mechanical Engineering at Wayne State University are to provide the education and training that will enable its graduates to:

1. successfully pursue intermediate level engineering positions or additional degrees;
2. demonstrate technical competency in applying broad, fundamental-based knowledge and up-to-date skills to perform professional work in mechanical engineering related disciplines;
3. demonstrate competency in applying comprehensive design methodology pertaining to mechanical engineering, incorporating the use of the economic, environmental, and social impact of design;
4. engage in professional societies, and to always apply best practices in professional ethics; and
5. be committed to life-long learning activities through self-reliance, creativity and leadership.

ABET Student Outcomes (as revised on October 20, 2017)

It is expected that by the time of graduation, our B.S.M.E. students will have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

In support of these educational objectives, faculty members will seek outstanding levels of achievement in their research and engineering practices. To further foster professionalism, the Department encourages students to be active participants in ASME, Pi Tau Sigma, Tau Beta Pi, SAE and other student professional organizations.

Mechanical Engineering Minor

The minor in mechanical engineering provides students enrolled in the General Engineering program with an opportunity to specialize in either solid mechanics and design or in thermal-fluid system design.

Students are required to successfully complete 14 credits in the mechanical engineering curriculum. Students must satisfy the math prerequisites prior to registering.

Code	Title	Credits
ME 2200	Thermodynamics	3
ME 3300	Fluid Mechanics: Theory and Laboratory	4
ME 3450	Manufacturing Processes I	3
Select one of the following courses:		4
ME 4150	Design of Machine Elements	
ME 4210	Heat Transfer: Theory and Laboratory	
Total Credits		14

All course work must be completed in accordance with the academic procedures of the University (p. 13) and the College of Engineering (p. 126) governing undergraduate scholarship and degrees.

Engineering Technology Division

Office: 4855 Fourth Street; 313-577-0800

Chairperson: Ece Yaprak

<http://www.engineering.wayne.edu/et/>

The Division of Engineering Technology was founded in 1973 and offers both undergraduate (upper-division: junior and senior level) and graduate programs. It stresses the application of current technology to typical industrial problems. Entering students in the upper division program are assumed to have a background equivalent to an associate degree in engineering technology or in a related discipline. The program complements a community college education by providing more application-oriented analytical techniques. In the curriculum a close relationship is maintained between the theoretical principles taught in the classroom and their applications in corresponding laboratories.

Engineering technology is a profession closely related to engineering and deals with the application of knowledge and skill to industrial processes, production, and management. Technologists are organizers of people, materials, and equipment for the effective planning, construction and maintenance of technical facilities and operations. They are responsible for work requiring technical and practical knowledge. They can apply their abilities in using technical equipment, selling technical products, serving as manufacturers' technical representatives, or supervising varied construction projects and manufacturing processes. They work with engineers in many aspects of project development, production planning, and final testing of industrial, military, or consumer products. Their talents are used in virtually every activity where technical expertise is required. They may be involved with electronic and mechanical instruments, experimental equipment, computing devices, tool design, manufacturing, or drafting.

Technical skills in the use of electronic equipment, machinery, tools, and drafting instruments are characteristic of this type of work. Thus, engineering technology students can find challenging employment in business and industry. Graduates of Wayne State's Engineering Technology program have been employed in areas such as manufacturing engineering, engineering production, marketing, maintenance, quality control, product testing, field engineering, consulting engineering, design, and technical supervision. Baccalaureate engineering technology graduates are often called technologists to distinguish them from baccalaureate graduates of engineering programs. However, the National Bureau of Labor Statistics does not have a category called 'technologist,' and consequently, many industrial job titles show little distinction between technologists and engineers. Graduates of Engineering Technology and Engineering programs complement each other in their skills and interests, and together with technicians and scientists, they form a technological team which has been able to produce an ever-increasing rate of technological advancement.

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 38) section of this bulletin. The following additions and amendments pertain to the Division of Engineering Technology.

Undergraduate Registration

Engineering Technology students are required to meet with their academic advisor a minimum of once per academic year in order to discuss their academic progress and curriculum. It is strongly recommended that these meetings take place before each semester's registration. Special attention should be paid to course pre- and co-requisites requirements in prerequisites. It is the student's responsibility to ensure that all pre-requisite and co-requisite requirements are satisfied. Students will be removed from courses entered without satisfying these

requirements. The Division will adhere strictly to this established policy, and waivers may be considered for truly exceptional cases only.

Some courses may be offered only once a year; others may have multiple sections running every semester. The University Schedule of Classes (http://www.classschedule.wayne.edu/?_gl=1*1ajwq5r*_ga*MTgyNTYxMzc4NS4xNjkzNDAYOTAY*_ga_ZYEBRZJFL1*MTY5N) published prior to each semester, shows when and where the classes will meet and outlines registration procedures and times.

Attendance Policy

Regular attendance in classes is necessary for success in college work. Excessive unexcused absences may result in a student failing a course. The student should arrange with the course instructor in advance for all predictable absences. Absences due to illness or conditions beyond the student's control should be reported in writing to the instructor as soon as possible, and substantiating documentation provided upon the student's return to class.

Dean's List of Honor Students

A student who achieves a term grade point average of 3.5 or more, based on a load of twelve credits or more, is cited by the Dean for distinguished scholarship and is included on the Dean's List of Honor Students.

AGRADE Program (Accelerated Graduate Enrollment)

The Engineering Technology Division allows academically superior undergraduate seniors to enroll simultaneously in undergraduate and graduate programs and apply a maximum of sixteen credits toward both an undergraduate and graduate degree in the student's major field. Students who elect the AGRADE Program may expect to complete the bachelor's and master's degrees in one additional year of full-time study.

To be eligible, applicants must have completed a minimum of ninety credits of course work applied towards the engineering technology degree and be accepted in the professional program of their major. The minimum grade point averages for acceptance into the program are a 3.3 g.p.a. overall and not less than a 3.45 g.p.a. in their program of specialization, as computed by the rules of the Division of Engineering Technology. See the academic advisor for further details.

Student Conduct

Each student is subject to official regulations governing student activities and student behavior. Furthermore, it is the responsibility of each student to adhere to the principles of academic integrity. Thus, a student should not falsely claim the work of another as their own or misrepresent themselves so that the measures of their academic performance do not reflect their own work or personal knowledge.

If there are reasonable grounds to believe that a student has violated the regulations or student responsibilities, they may be disciplined. Such discipline may include failure in the course, suspension or dismissal from the program. A description of the University's Student Due Process Policy and a discussion of academic integrity can be found at the Dean of Students Office (<http://www.doso.wayne.edu/assets/codeofconduct.pdf>).

Division of Engineering Technology Rules for Calculating Grade Point Average

Engineering Technology computes grade point averages of major requirement courses using rules that differ from those used to compute the cumulative grade point average on the official University transcript:

Engineering Technology g.p.a. is calculated based on all upper division courses (3000 level or higher) required for the program of study. For students admitted to the College of Engineering for the Winter 2004 semester or later, repeated courses will not be included in the grade point average calculations (following standard University regulations). The new grade will replace the old grade in the g.p.a. calculation, but only a maximum of five repeated courses will be allowed.

For students admitted to the College of Engineering prior to Winter 2004, the inclusion of repeated courses in the grade point calculation follows different rules. When a course is repeated, the new grade will replace the previous grade unless the student exceeds the maximum number of repeats: one repeat for each thirty-four credits completed at Wayne State University. After the maximum number of repeats is exceeded, both grades are used in computing the student's grade point average.

Substandard Performance

A minimum grade of C- is required for all courses. If a grade below C- is received in any course to be applied towards the degree, the student will be required to repeat that course in the next semester in which it is available. The course must be repeated, and a satisfactory grade earned before the next course in the sequence is taken. **Students will be administratively withdrawn from courses for which they have not satisfied course prerequisites.** A course in which a grade below C- has been earned cannot be subsequently passed by special examination. When repeating a course, failure for the third time to pass it with a grade satisfactory to the Division constitutes grounds for denying a student further registration in the Division of Engineering Technology.

For part-time students, a semester will be considered to consist of twelve consecutive credits.

A student may be refused the privilege of registering in the Division if, at any time, their grade point average falls below 2.0. A student may also be refused the privilege of registering in the Division for irresponsible attendance and performance in class, regardless of any probationary status.

A student who has been refused registration may request that the Division Head or Academic Standards Committee reconsider their status. Such request should only be made when evidence of extenuating circumstances can be provided.

Auditing Courses

Undergraduate students may elect to formally audit a course that interests them. In order to audit a course, a student must register for the class and pay the appropriate tuition. However, this course will not apply towards any degree requirements. Any course that has been completed for audit may not be subsequently enrolled in for credit, nor may credit be obtained by special examination.

Courses used to satisfy program requirements may not be taken on a Pass-Fail basis, except for industry sponsored project courses taken for elective credit (maximum of 3 credit hours). Capstone design course, even if they include an industry sponsored project, may not be taken on a Pass-Fail basis.

Repeating Courses

If a student receives a substandard grade in a course at Wayne State University, they will be required to repeat that course at Wayne State University. Exceptions to this policy require prior written approval from the Associate Dean for Academic Affairs in order to take the course at another designated institution.

Students are directed to Repeating Courses – The mark of R (<https://bulletins.wayne.edu/undergraduate/general-information/academic-regulations/#repeats>) for University policies related to repeating courses and credit by special examination. See also 'Division of Engineering Rules for Calculating Grade Point Average,' above.

General education and technical elective courses, which are not specifically required for the degree, may be repeated or a different course may be chosen to satisfy that requirement. If a different course is selected, the first grade will not be replaced in the calculation of the g.p.a.

Exclusion from the College of Engineering

Students may repeat up to five courses in which they obtained a grade below C-, or received grades of WF or WN. Should a student need to retake a sixth course to fulfill degree requirements, they will face exclusion from the College of Engineering. Moreover, failing to achieve a grade of at least 'C-minus' after three attempts in a course will serve as grounds for exclusion from the College of Engineering. Prerequisite math courses, although not credited towards the degree, become part of the exclusion count if students didn't place into MAT 1800. It's important to note that repeating a course for a better understanding, even if a satisfactory grade ('C-minus' or higher) was initially earned, will not contribute to the tally of permitted repeats.

Following exclusion from College of Engineering, the privilege of registering in the College will be withheld for at least one calendar year.

A student who has been denied the opportunity to enroll in the College of Engineering may seek a review of their status by the Academic Standards Committee (ASC) following a one-year exclusionary period. However, such a request should only be made if there is supporting evidence of academic preparation or circumstantial changes that significantly enhance the chances of academic success. To initiate the reconsideration process, a formal written request must be submitted to the Associate Dean for Academic Affairs. Students planning to petition for readmission are advised to consult with their academic advisor early in the exclusion period to explore potential changes that could facilitate readmission. It is important to note that readmission to the College of Engineering is not guaranteed in any circumstance.

Probation Policy

A student enters probationary status when their cumulative grade point average (g.p.a.) falls below 2.0 or when their academic performance is considered unsatisfactory. During this period, the student must meet with their academic advisor to address academic deficiencies and devise an academic recovery plan for the next two semesters. While on probation, participation in student activities representing the Division of Engineering Technology is not allowed. The Academic Standards Committee of the Division establishes probationary regulations and reviews exception requests.

A student is granted two consecutive terms on probation. If, after these terms, the cumulative g.p.a. remains below 2.00, the student faces exclusion from their program. At the end of the initial semester on probation, if the cumulative grade point average has not improved to at least 2.0, the student is prohibited from applying to the Division of Engineering Technology for readmission or reinstatement for a minimum of one calendar year.

Changes of Election and Withdrawal

In addition to the University policies regarding changes of program and withdrawal from courses (<https://bulletins.wayne.edu/undergraduate/general-information/records-registration/>), the following additions and amendments apply to the Division of Engineering Technology:

Registration and Adding Courses

A student may register for courses through the last day of the second week of classes for fifteen-week courses. A registered student may add a course through the last day of the second week of classes by submitting a completed Drop/Add form. Students are not permitted to add courses after the first week of the term without instructor and departmental permission.

A student may not change from one section of a course to another section of the same course after the fourth week of classes. Drop/Add forms will be valid for ten calendar days from the date of the earliest signature of approval. Once a student is admitted to Wayne State University, he/she does not have to go through the admissions procedure again. If a student does not register for two or more terms, he/she must first have his/her status upgraded at the University Records Office.

Withdrawals

Courses from which a student withdraws, such that a mark of WP, WF, or WN appears on the transcript, are counted as an attempt at the course and are taken into account when assessing the allowed number of repeats. If a student feels that circumstances beyond their control (e.g., family emergency, change of work schedule) justify the withdrawal, a written petition may be submitted to the Associate Dean for Academic Affairs before the end of the semester in which the course was taken. If the petition is approved, it will be noted in the student's advising record that the course will not be counted towards Engineering repeat allowances.

Transfer Credit Policy

There is no limit to the number of credits a student can transfer in. However, the applicability of transfer credits to specific programs in the Division will vary with the **articulation agreements/transfer pathways** with the individual institutions. For more information on transferring credits, see the following link:

Transferring credit - Transfer to Wayne State University - Wayne State University

Students must take a minimum of 34 credit hours from WSU, including 24 hours, which must be delivered by the Division of Engineering Technology. In order for a transfer course to be utilized in a student's plan of study, it cannot be lower than a C. (In other words, C-, D+, D, D-, and F are considered unsuitable for transfer).

Course Prerequisite Policy

The Division of Engineering Technology has instituted a system of prerequisites and co-requisites for technical courses. These requirements are designed to ensure that students have the necessary background knowledge for the subsequent courses. Thus, the Division will adhere strictly to this established policy, and waivers may be considered for truly exceptional cases only.

Request to petition any established Division or College rules must be submitted to the academic advisor in writing.

Although we rely primarily on the Banner system for prerequisite checks, students will be administratively withdrawn at any time during the term if through any other means we find them lacking the necessary requirements.

Graduation

Students must apply for graduation at the beginning of the semester in which they plan on completing their degree requirements. At graduation, the University requires a minimum 2.0 grade point average in the total

residence credit. Additionally, Engineering Technology programs require a minimum 2.0 grade point average in the Division. The student's total g.p.a., as well as division grade point average, is calculated using the Division of Engineering Technology rules as described above.

Students must take a minimum of 34 credit hours from WSU, including 24 hours, which must be delivered by the Division of Engineering Technology. And a grade point average of at least 3.0 may qualify for a special diploma under the following conditions:

Summa Cum Laude: Student must have a grade point average in the 95th percentile of the College of Engineering graduating class.

Magna Cum Laude: Student must have a grade point average in the 90th percentile of the graduating class.

Cum Laude: Student must have a grade point average in the 80th percentile of the graduating class.

Commencement

Each year, commencement exercises are held in both May and December. College Order of the Engineer and Professional Order of Engineering Technology ceremonies will be held in May to induct graduates into these organizations. Students who are graduating in December are eligible to participate in the induction ceremony for the following May.

Guest Students

A student attending another engineering college who wishes to take course work at Wayne State for the purpose of credit transfer to the home institution may be admitted as a guest student for one term. This is done by applying through the University Office of Admissions using either the Application for Undergraduate Admission or the Graduate Guest Application. These applications require certification by an official of the home institution. For information on graduate guest admission and visiting doctoral guests, see the Wayne State University Graduate Bulletin. Guest students are expected to have met the listed prerequisite requirements for courses in which they wish to enroll. Students wishing to register for 3000- or 4000-level engineering classes must first receive permission from the department that teaches the course.

Second and Concurrent Degree

In accordance with the University requirements, students may earn a Bachelor of Science in one of the Division programs concurrently with or subsequent to another bachelor's degree at Wayne State University. Such students must satisfy applicable departmental and college requirements; consult an academic advisor to review these requirements.

- Computer Technology (B.S.) (p. 157)
- Construction Management (B.S.) (p. 159)
- Electrical/Electronic Engineering Technology (B.S.) (p. 160)
- Electromechanical Engineering Technology (B.S.) (p. 161)
- Mechanical Engineering Technology (B.S.) (p. 163)
- Welding and Metallurgical Engineering Technology (B.S.) (p. 164)
- Advanced Energy Storage Systems (Undergraduate Certificate) (p. 157)

Advanced Energy Storage Systems (Undergraduate Certificate)

An admissions moratorium is currently in effect for this program.

The alternative energy economy relies heavily on advanced energy storage systems to prolong the life of energy generated by solar and wind systems. The changing nature of energy resources will increase the need for energy storage in both supply and demand. Energy storage facilities hold a key position in energy supply systems; the benefits of electric energy storage include increasing grid reliability, reducing system transmission congestion, helping manage load, and making renewable electricity sources more suitable as base load providers. Energy storage technologies are also critical to the future of the automotive industry, which is innovating rapidly around vehicle electrification.

The Undergraduate Certificate Program in Advanced Energy Storage Systems provides technically-oriented education that emphasizes the application of advanced technology to solve problems, design and develop products, and improve processes, procedures, equipment, and facilities. This program aims to prepare students for application-oriented careers in Advanced Energy Storage System industry, including storage in automotive, consumer, nuclear and green industries; advanced battery systems and hydrogen electro-chemical cells; mechanical energy storage; thermal and chemical storage; inductive storage based on superconducting magnetic field; and, social and economical aspects of storage technology.

Students must be concurrently enrolled in or have completed an undergraduate degree (B.S.) in Engineering, Engineering Technology, Chemistry, or Physics. Students who are currently pursuing a B.S. must have completed at least sixty credits of undergraduate engineering, engineering technology, chemistry, or physics coursework with a minimum of a 2.0 cumulative major g.p.a. Students must document satisfactory completion of all prerequisite courses (or their equivalent) with a grade of C- or higher.

Students interested in earning an Undergraduate Certificate in Advanced Energy Storage Systems must complete five courses:

Code	Title	Credits
ETT 4150	Fundamentals of Hybrid and Electric Vehicles	3
ETT 4310	Energy Storage Systems for Hybrid and Electric Vehicles	3
ETT 4410	Introduction to Advanced Energy Storage	3
MCT 4150	Applied Thermodynamics	3
MCT 5210	Energy Sources and Conversion	3
Total Credits		15

Program Standards

All students must earn at least a C grade in each of the courses to be applied towards the Certificate and complete the coursework with an overall g.p.a. of at least 2.0. Students concurrently enrolled in an engineering or engineering technology undergraduate program will be governed by overall policy on substandard grades for students pursuing a B.S. degree (one substandard grade allowed for every twenty-four credits completed at WSU). Students who have completed a B.S. degree and are pursuing only the Certificate will be allowed one substandard grade, with a subsequent successful repeat of the course, during completion of this academic program.

Computer Technology (B.S.)

The Bachelor of Science in Computer Technology (B.S.C.T.) prepares students for professional work relating advancements in basic science to practical computer applications. This degree is an interdisciplinary program of study which provides a combination of professional courses in computer science, information systems, electronics, and information technology. The particular strengths of the program include:

- applied hands-on curriculum;
- hardware oriented laboratory experiences;
- scientific advancement merged with applications; and
- the various skills and knowledge required for the enhanced job market in this field.

The computer technology program offers excellent prospects for professional positions in both business and industry where the sophistication and implementation of computers dominate a broad spectrum of employment opportunities. This region of the state has a large concentration of technology firms that employ information system designers and application integrators. Classes are usually offered both during the day and in the evening.

Admission Requirements

The B.S.C.T. degree program is designed to admit students who satisfy the general undergraduate admission (p. 32) requirements of the University and have an associate degree or equivalent course work in preparatory programs such as computer information systems, computer technology, data processing or closely related disciplines. A minimum grade point average (g.p.a.) of 2.5 is required for admission into the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as Pre-Engineering Technology students, and may be transferred into the B.S.C.T. program upon successful completion of pre-calculus (MAT 1800) and physical science courses, with a g.p.a. of 2.5 or above.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Program Requirements

Candidates for the B.S.C.T. degree must earn a minimum of 124 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 22). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 38) and the College (p. 126) and must conform to Division (p. 154) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements.

Plan of Study: Due to wide variation in backgrounds of associate degree holders, as well as differing rates of progress of full- or part-time students, an individually-tailored plan of study will be developed for each student, in conjunction with a faculty advisor. Courses will be selected based on the student's academic preparation, course prerequisites, and proposed scheduling of courses.

Required Background: Any student deficient in any courses listed under Lower Division (Community College) Technical Transfer Credit will be required to remove the deficiency before completion of fifteen credits in basic science/mathematics and technical core courses.

The Bachelor of Science in Computer Technology requires at least 124 credits as outlined below:

Code	Title	Credits
Basic Science and Mathematics		
CSC 1100	Problem Solving and Programming	4
MAT 1800	Elementary Functions (QE)	4
ET 3430	Applied Differential and Integral Calculus	4
(NSI) Natural Science Inquiry Courses (minimum 2)		6
(NSI) Natural Science Inquiry Lab		1
B.S.C.T. Technical Core		
CSC 3750	Introduction to Web Technology	3
CSC 4110	Software Engineering	4
CSC 4420	Computer Operating Systems	4
CSC 4710	Introduction to Database Management Systems	3
ET 3850	Reliability and Engineering Statistics	3
ET 3870	Engineering Economic Analysis	3
or ET 5870	Engineering Project Management	
ET 4999	Senior Design Project	3
EET 3100	Advanced Digital Design	3
EET 3720	Micro and Programmable Controllers	3
EET 4100	Computer Hardware Design	3
EET 5720	Computer Networking Applications	4
CSC/EET Upper Division Technical Electives		6
Lower Division Technical Transfer Credit		
CSC 2110	Computer Science I	4
CSC 2200	Computer Science II	4
EET 2100	Principles of Digital Design	3
EET 2720	Microprocessor Fundamentals	3
Lower Division Tech Electives		25
Communication Requirements		
(BC) Basic Composition courses		3
(IC) Intermediate Composition course (ENG 3050 required)		3
(OC) Oral Communication course		3
Other General Education Requirements		
(CI) Cultural Inquiry		3
(SI) Social Inquiry		3
(DEI) Diversity, Equity and Inclusion		3
(GL) Global Learning		3
(CL) Civic Literacy		3
Total Credits		124

Engineering Technology Honors

Engineering Technology Honors demands a higher level of performance and offers more personal supervision by faculty than the regular curriculum. It is recommended for qualified students who have an interest in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science in Computer Technology, Electrical/Electronic Engineering Technology, Electromechanical Engineering Technology, and Mechanical Engineering Technology. A cumulative grade point average of at least 3.3 is required for consideration for admission to and continuance in the program. Students are admitted on the recommendation of the Departmental

Honors Program advisor. Interested students should contact the advisor and complete the Honors Plan of Work form when declaring their engineering technology major or at the beginning of the senior year. If a student has declared a major in engineering technology prior to entering the Honors Program, a new Declaration of Major must be completed for the Bachelor of Science with Honors.

Department Honors Requirements (12 credits minimum)

- Students must meet all the ordinary requirements of the Engineering Technology major, and must have a 3.3 GPA overall
- One 42XX honors seminar (HON 4200-4280) (Cr. 3)
- Thesis-Honors Option with ET 4999 (Cr. 3)
- Two Honors Options courses within the engineering technology major, taught by full-time faculty member (Cr. 3-4 each)

Construction Management (B.S.)

A professional construction manager is someone who coordinates all that goes into a construction project. The overall goal of a construction manager is to produce a financially sound project that is completed on time and meets the specific needs of the client as well as the codes put forth by governmental agencies. Responsibilities of a construction manager are project planning, cost, time, safety, quality, and contracts.

Working professionals seeking to advance their education, students interested in construction management, or seasoned employees looking to start their own companies often choose construction management to help achieve career goals. People with construction management degrees often work as project managers, superintendents, estimators, schedulers, or green construction/LEED specialists. Many people in the construction industry own and operate their own businesses.

The program offered in construction management specialization includes course work on construction project management, estimating, scheduling, safety, legal and professional aspects, specifications, computer applications and a capstone project. Additional courses from the Business School on accounting, marketing, and management complement the program. Co-op and internship opportunities are available to the students in summers as well as the academic year.

Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 32) requirements of the University and have an associate degree or equivalent course work in architectural technology, construction technology, and civil technology. A minimum grade point average (g.p.a.) of 2.5 is required for admission into the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the B.S.C.M. program upon successful completion of pre-calculus (MAT 1800) and physical science courses, with a g.p.a. of 2.5 or above.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Program Requirements

Candidates for the B.S.C.M. degree must earn a minimum of 120 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 22). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 38) and the College (p. 126) and must conform to Division (p. 154) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements.

The Bachelor of Science in Construction Management degree requires a minimum of 120 credits as outlined in the following curriculum.

Code	Title	Credits
Basic Sciences and Mathematics		
MAT 1800	Elementary Functions (QE)	4
ET 3430	Applied Differential and Integral Calculus	4

CHM 1020	Survey of General Chemistry (NSI)	4
PHY 2130	Physics for the Life Sciences I (NSI)	4
PHY 2131	Physics for the Life Sciences Laboratory (NSI)	1
Business and Management

Total Credits		120

Electrical/Electronic Engineering Technology (B.S.)

The Bachelor of Science in Electrical/Electronic Engineering Technology (B.S.E.T.E.E.) Program prepares students for diverse and dynamic careers in industry. Electrical/Electronic Engineering Technologists use the principals of science and math to solve problems in industry and business. The B.S.E.T.E.E. program emphasizes hands-on laboratory experiences, and courses stress the practical application of mathematics, science, and engineering to solve real world problems. Possible applications for this degree include: the automotive industry, business machines/professional and scientific equipment, computers and electronics, defense, and electronic utilities. Electrical/Electronic Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org/>).

Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 32) requirements of the University and have an associate degree and a minimum grade point average (g.p.a.) of 2.50. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the engineering technology program upon successful completion of MAT 1800 and PHY 2130 with a g.p.a. of 2.50.

Required Background: Any student deficient in any courses listed under Lower Division Technical Transfer Credit will be required to remove the deficiencies before electing any EET courses

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Program Requirements

This program extends the practical and applied base of the associate degree program with theoretical courses in electrical engineering and engineering technology, and additional courses in mathematics, science, and socio-humanities. Candidates for the B.S.E.T.E.E. degree must earn a minimum of 124 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 22). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 38) and the College (p. 126) and must conform to Division (p. 154) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements.

Plan of Study: Due to the various educational backgrounds of associate degree graduates and the different rates of progress of full-time and part-time students, individual plans of study are developed for students in conjunction with faculty advisors.

NOTE: A student who, after receiving one undergraduate degree at Wayne State University, wishes to obtain a second bachelor's degree must complete at least thirty credits beyond those applied toward the first degree.

The Bachelor of Science in Electrical/Electronic Engineering Technology requires a minimum of 124 credits as outlined in the following curriculum.

Code	Title	Credits
Basic Science and Mathematics		
MAT 1800	Elementary Functions (QE)	4
ET 3430	Applied Differential and Integral Calculus	4

Engineering Technology Honors

Engineering Technology Honors demands a higher level of performance and offers more personal supervision by faculty than the regular curriculum. It is recommended for qualified students who have an interest in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science in Computer Technology, Electrical/Electronic Engineering Technology, Electromechanical Engineering Technology, and Mechanical Engineering Technology. A cumulative grade point average of at least 3.3 is required for consideration for admission to and continuance in the program. Students are admitted on the recommendation of the Departmental Honors Program advisor. Interested students should contact the advisor and complete the Honors Plan of Work form when declaring their

engineering technology major or at the beginning of the senior year. If a student has declared a major in engineering technology prior to entering the Honors Program, a new Declaration of Major must be completed for the Bachelor of Science with Honors.

Department Honors Requirements (12 credits minimum)

- Students must meet all the ordinary requirements of the Engineering Technology major, and must have a 3.3 GPA overall
- One 42XX honors seminar (HON 4200-4280) (Cr. 3)
- Thesis-Honors Option with ET 4999 (Cr. 3)
- Two Honors Options courses within the engineering technology major, taught by full-time faculty member (Cr. 3-4 each)

Electromechanical Engineering Technology (B.S.)

The Bachelor of Science in Electromechanical Engineering Technology (B.S.E.T.E.M.) offers an interdisciplinary education, resulting from the integration of electronics and computers in engineering systems. This major offers an individual plan of study with coursework in electronics, electrical, manufacturing, and mechanical areas, with appropriate prerequisite courses. The program is designed to extend the practical and applied base of the associate degree program with more theoretical and comprehensive engineering technology courses, and additional courses in mathematics, science, and socio-humanities.

Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 32) requirements of the University and have an associate degree in electrical, electronics, industrial, manufacturing, mechanical, or related technology from a community college or equivalent college-level course-work. A minimum grade point average (g.p.a.) of 2.50 is required for admission to the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the engineering technology program upon successful completion of MAT 1800 and PHY 2130 with a g.p.a. of 2.50.

Required Background: Any student deficient in any courses listed under Lower Division Technical Transfer Credit will be required to remove deficiencies before completing fifteen credits in basic science/mathematics and technical core courses.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Program Requirements

Candidates for the B.S.E.T.E.M. degree must earn a minimum of 124 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 22). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 38) and the College (p. 126) and must conform to Division (p. 154) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements.

The Bachelor of Science in Electromechanical Engineering Technology requires a minimum of 124 credits as outlined in the following curriculum.

- Two Honors Options courses within the engineering technology major, taught by full-time faculty member (Cr. 3-4 each)

Engineering Technology Honors

Engineering Technology Honors demands a higher level of performance and offers more personal supervision by faculty than the regular curriculum. It is recommended for qualified students who have an interest in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science in Computer Technology, Electrical/Electronic Engineering Technology, Electromechanical Engineering Technology, and Mechanical Engineering Technology. A cumulative grade point average of at least 3.3 is required for consideration for admission to and continuance in the program. Students are admitted on the recommendation of the Departmental Honors Program advisor. Interested students should contact the advisor and complete the Honors Plan of Work form when declaring their engineering technology major or at the beginning of the senior year. If a student has declared a major in engineering technology prior to entering the Honors Program, a new Declaration of Major must be completed for the Bachelor of Science with Honors.

Department Honors Requirements (12 credits minimum)

- Students must meet all the ordinary requirements of the Engineering Technology major, and must have a 3.3 GPA overall
- One 42XX honors seminar (HON 4200-4280) (Cr. 3)
- Thesis-Honors Option with ET 4999 (Cr. 3)

Mechanical Engineering Technology (B.S.)

The Mechanical Engineering Technology (B.S.E.T.M.E.) Program prepares students for diverse and dynamic careers in industry. B.S.E.T.M.E. graduates work in fields that require understanding of the relationships and dependencies among materials, product development, manufacturing systems and processes, or energy production, transformation and transmission (including alternative energy). The program emphasizes hands-on laboratory experiences, and courses stress the practical application of mathematics, science, and engineering to solve real world problems. The B.S.E.T.M.E. program provides students with a well-rounded education focused on the knowledge of existing and new developments in their technical specialty. The program offers students the opportunity to specialize in one of three tracks: design, energy, or manufacturing. B.S.E.T.M.E. graduates work with their minds as well as their hands to solve problems related to their chosen area of specialization.

The Bachelor of Science in Mechanical Engineering Technology (B.S.E.T.M.E.) program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org/>).

Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 32) requirements of the University and have an associate degree or equivalent college-level course work in one of the following or related technical areas:

- Aerospace Technology
- Automotive Technology
- Climate Control
- Computer-Aided Design
- Drafting
- Energy Technology
- Fluid Power
- Manufacturing
- Mechanical Design
- Mechanical Technology
- Powerplant

A minimum grade point average (g.p.a.) of 2.50 is required for admission to the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may transfer into the engineering technology program upon successful completion of MAT 1800 and PHY 2130 with a g.p.a. of 2.50.

Required Background: Any student deficient in any course listed under Lower Division Technical Transfer Credit will be required to remove the deficiency before completing fifteen credits in basic science/mathematics and technical core courses.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Program Requirements

Candidates for the B.S.E.T.M.E. degree must earn a minimum of 124 credits, which includes University General Education requirements (p. 22). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum

of thirty semester credits must be earned from Wayne State, and at least twenty-four must be in the Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 38) and the College (p. 126) and must conform to Division (p. 154) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education requirements.

The Bachelor of Science in Mechanical Engineering Technology requires a minimum of 124 credits as outlined in the following curriculum.

Code	Title	Credits
Basic Science and Mathematics		
MAT 1800	Elementary Functions (QE)	4
ET 3430	Applied Differential and Integral Calculus	4
ET 3450	Applied Calculus and Differential Equations	4
CHM 1020	Survey of General Chemistry (NSI)	4
PHY 2130	Physics for the Life Sciences I (NSI)	4
PHY 2131	Physics for the Life Sciences Laboratory (NSI)	1
PHY 2140	Physics for the Life Sciences II	4

Engineering Technology Honors

Engineering Technology Honors demands a higher level of performance and offers more personal supervision by faculty than the regular curriculum. It is recommended for qualified students who have an interest in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science in Computer Technology, Electrical/Electronic Engineering Technology, Electromechanical Engineering Technology, and Mechanical Engineering Technology. A cumulative grade point average of at least 3.3 is required for consideration for admission to and continuance in the program. Students are admitted on the recommendation of the Departmental Honors Program advisor. Interested students should contact the advisor and complete the Honors Plan of Work form when declaring their engineering technology major or at the beginning of the senior year. If a student has declared a major in engineering technology prior to entering the Honors Program, a new Declaration of Major must be completed for the Bachelor of Science with Honors.

Department Honors Requirements (12 credits minimum)

- Students must meet all the ordinary requirements of the Engineering Technology major, and must have a 3.3 GPA overall
- One 42XX honors seminar (HON 4200-4280) (Cr. 3)
- Thesis-Honors Option with ET 4999 (Cr. 3)
- Two Honors Options courses within the engineering technology major, taught by full-time faculty member (Cr. 3-4 each)

Welding and Metallurgical Engineering Technology (B.S.)

Metallurgy and Welding are two technologies that both have their roots in the Industrial Revolution, where the joining of metals began with the forge welding of pig or wrought iron. Because of their fundamental nature, these technologies are intertwined. The ability to develop and join metals have made immeasurable contribution to the transportation, aerospace, agricultural and defense industries.

The Wayne State University's B.S. in Welding and Metallurgical Engineering Technology (B.S.W.M.E.T.) program will bring together the theoretical and practical aspects of welding and metallurgy to provide industry with engineers proficient in both areas.

Admissions Requirements

The B.S.W.M.E.T. is designed to admit students who satisfy the undergraduate admission (p. 32) requirements of the University and have an associate degree or equivalent course work in preparatory programs such as welding technology or closely related disciplines. A minimum g.p.a. of 2.5 is required for admission into the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as Pre-Engineering Technology students, and may be transferred into the B.S.W.M.E.T. program upon successful completion of pre-calculus (MAT 1800) and physical science courses, with a g.p.a. of 2.5 or above. A Mathematics Placement Examination is required of students who have not already earned advanced credit in pre-calculus.

Program Requirements

Candidates for the B.S.W.M.E.T. degree must earn a minimum of 121 credits, which includes University General Education requirements (p. 22). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, and at least twenty-four must be in the Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 38) and the College (p. 126) and must conform to Division (p. 154) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education requirements.

The Bachelors of Science in Welding and Metallurgical Engineering Technology requires a minimum of 121 credits as outlined in the following curriculum.

Code	Title	Credits
Science Requirements		17
MAT 1800	Elementary Functions (QE)	
ET 3430	Applied Differential and Integral Calculus

College of Fine, Performing and Communication Arts

Dean: Hasan Elahi

The College of Fine, Performing and Communication Arts at Wayne State University provides the highest quality education for practitioners, scholars, and consumers in art, art history, communication, dance, music and theatre. This education leads to careers, uses for the arts in other disciplines, enhanced critical abilities, the enrichment of everyday life and the building of new generations of artists, professionals and scholars. Programs of study focus on the integration of theory and practice through the creation, discovery, preservation and transmission of knowledge in fine, performing and communication arts.

The College serves the University and the larger community by creating partnerships that emphasize its own rich, diverse curriculum, interdisciplinary studies, reciprocal professional interaction and outreach activities appropriate to each area of work. Special emphasis is placed on forging alliances with local, state and national constituencies such that the College is both a leader and a resource providing expertise, information and guidance.

Within an appropriate and attractive academic environment the College promotes an atmosphere conducive to intellectual and artistic growth, risk-taking and personal and professional development at all levels in both individual and collaborative endeavors. This environment also assists the College in its role as a national center for creative, research and teaching excellence.

As the cultural gateway of the University, the College provides public events and curricular offerings that nurture creative development, enrich aesthetic values and sensitivity, heighten awareness of the arts experience and reflect the disciplinary diversity of its areas of study. Cultural, racial, ethnic and gender diversity is an important commitment in public events and educational efforts.

Ultimately, the mission of the College is the integration of theory and practice through the creation, discovery, preservation and transmission of knowledge in the fine, performing and communication arts.

Campus Resources: Traditional courses of study are augmented by a variety of performance and presentation resources considered integral to many of the creative programs. Included in these are the Hilberry Gateway theatre, the Wayne State University Dance Company, the Wind Symphony and University Symphony Orchestra, the Intercollegiate Debate and Speech Teams, plus exhibitions in the Elaine L. Jacob Gallery and the Art Department Gallery that feature work created by students and studio faculty. These are only a few of the campus resources that are especially important for majors in the College. A more comprehensive listing can be found under each of the specific Departments.

Detroit Resources: The proximity of the Wayne State campus to institutions of the Detroit Cultural Center (which includes the Detroit Institute of Arts, Museum of Contemporary Art Detroit, the Charles H. Wright Museum of African American History, Michigan Opera Theatre and Orchestra Hall, among other institutions) provides further unique and enriching benefits for students. Professional staff members of these institutions often serve as adjunct faculty in College programs. Nearby, too, are major print and electronic communications resources that similarly provide both adjunct faculty and professional assistance to other programs in the College.

Accrediting Agencies: Programs in the Department of Music are accredited by the National Association of Schools of Music. The Public Relations program in the Department of Communication is accredited by the Public Relations Society of America.

Academic Regulations: Fine, Performing and Communication Arts

For complete information regarding academic rules and regulations of the University, students should consult Academic Regulations (p. 38) section of this bulletin. The following additions and amendments apply to the College of Fine, Performing and Communication Arts.

Academic Advising

The College provides comprehensive academic advising for each major in the department in which the major resides. In consultation with their academic advisor, students are expected to create an academic Plan of Work and review their progress with the advisor on a regular basis. Freshmen and sophomores should meet with their academic advisor at least once each semester. Juniors and seniors should meet with their advisor at least once per year and should also be consulting with their faculty mentors. Students should always seek advising immediately if they are having difficulties in their academic work.

Attendance

Regular attendance and performance is necessary for success in college work. Each instructor, at the beginning of the course, will announce attendance requirements.

Normal Program Load

The requirements for graduation are based upon an average program of fifteen credits per semester for eight semesters. The normal load shall not exceed eighteen credits.

Because two hours of outside preparation are normally expected for each class hour in each course, a fifteen credit program calls for approximately forty-five hours of class attendance and study per week. Students who undertake such a program should expect to give it their full time and energy. A few hours of employment a week may be safely added to this program by a capable student.

Extra Credits: Extra credits are any credits taken in excess of the normal load of eighteen credits per term. A student with a 3.0 grade point average may take more than eighteen credits, but not to exceed twenty-one credits, only when the proposed program carries the written approval of the academic advisor.

Retention of Student Records

Term papers and examinations shall either be returned to the student or retained by the instructor for a minimum of six months. Thereafter they may be destroyed. Instructors shall retain grade records for at least five years following the end of a term, and instructors who leave the institution shall give grade records for courses conducted during the past five years to their department chairperson. Five years after the end of a course, grade records may be returned to the instructor or destroyed by the department.

Dean's List

The Dean's List of academically exemplary students is compiled each fall and winter term based on the following criteria: a 3.75 grade point average for students registered for full-time programs of twelve credits or more that contribute to the grade point base; and a 4.0 grade point average for students registered for between six and eleven credits. Students who receive marks of I, WN, or WF, or grades of N or U (p. 53) are not eligible.

Academic Probation

Low Grade Point Average

If a student's work averages below 2.0, the student will be placed on academic probation (p. 38). The student will be required to obtain permission from an advisor before registering, as outlined in an email to the student, with instructions for addressing the Probation status. Such permission to register will be granted only after the student meets with his/her departmental advisor and/or the College's Success Coach (<https://cfpca.wayne.edu/successcoach.php>), depending on the student's level of Probation and the instructions provided in the Probation notification email. The student and advisor/Success Coach will identify previous causes of academic difficulty and will formulate a plan for future academic success.

Registration and Holds on Records

A student on academic probation has an academic probationary 'hold' placed on his/her record, and must obtain a release of this hold each term before being permitted to register. To obtain this release, the student must meet with his/her departmental advisor and/or the College's Success Coach (<https://cfpca.wayne.edu/successcoach.php>), as indicated above under 'Low Grade Point Average.' The hold will not be released after the last day of the final registration period for the term in which the student intends to register.

Restriction

While on academic probation, a student may not represent the College in student activities.

Removal of Probation

Academic probation will be removed at the end of any term in which the student achieves a cumulative grade point average of 2.0 (C) or higher for all degree work taken at the University.

Exclusion

Low Grade Point Average

A student on academic probation shall be allowed three subsequent terms for enrollment in probationary status. At the conclusion of the three terms, a student who has not achieved a cumulative grade point average of at least 2.0 shall be dismissed from the College. This dismissal may be reviewed by the Reinstatement & Appeals Committee of the College if the student submits appropriate paperwork evidencing his/her eligibility to return and remain successful. A student dismissed from the College may not be reinstated until one calendar year has passed; however, reinstatement paperwork may be submitted as early as one semester prior to the student's eligible reinstatement date. A student may appeal dismissal during the semester following the dismissal notification.

Reinstatement

After one year of exclusion, the student may apply for reinstatement (<http://cfpca.wayne.edu/reinstatement.php>) to the College. The reinstatement application must be returned to the CFPCA Dean's Office on or before whichever following deadline precedes the student's eligible reinstatement semester: October 15th, February 15th, or June 15th. The decision to reinstate the student will be based upon evidence presented by the student that circumstances have changed and that the probability for success has increased. For further information, visit the College's website (<http://cfpca.wayne.edu/reinstatement.php>).

Cheating and Plagiarism

The principle of honesty is recognized as fundamental to a scholarly and creative community. Students are expected to honor this principle and instructors are expected to take appropriate action when instances of academic dishonesty are discovered. An instructor, on discovering such an instance, may give a failing grade on the assignment or for the course. Serious acts of dishonesty may lead to suspension or exclusion.

The instructor has the responsibility to notify the student of the alleged violation and the action being taken. Both the student and the instructor are entitled to academic due process in all such cases. Information on procedures is available through the Dean of Students Office.

Grade Appeal Procedure

It is the instructor's prerogative to evaluate student work and assign grades in accordance with his or her academic and professional judgment. Grounds to appeal a final grade include the following:

1. The application of nonacademic criteria in the grading process: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status
2. Evaluation of student work by criteria not directly related to course requirements
3. A miscalculation of the grade according to information contained on the course syllabus or other posted or distributed information

Note: These policy guidelines do not apply to:

1. allegations of academic dishonesty. Academic dishonesty matters should be addressed under Section 10.1 of the (<https://doso.wayne.edu/pdf/student-code-of-conduct.pdf>) WSU Student Code of Conduct (<https://doso.wayne.edu/pdf/student-code-of-conduct.pdf>).
2. allegations of harassment or discrimination in the learning environment. These matters should be addressed to the Office of Equal Opportunity (<https://oeo.wayne.edu>).

Coursework Grades

Disputes over grades should first be addressed informally between the student and the course instructor. If the student and instructor cannot reach a mutually agreeable resolution, the student can formally appeal the final course grade.

If a student seeks to formally appeal a final course grade, the following steps need to be taken.

Final Grade Appeal - for Undergraduate and Graduate Students

1. The student must initiate any final grade appeal in writing, including any supporting documentation, within thirty (30) days following official notification of grades for the term. The appeal is to be addressed to the course instructor. The instructor is to respond within ten (10) days of receiving the appeal.

• If the instructor notifies the student of the grade to be assigned BEFORE a course is officially concluded, the student can initiate the grade appeal process as soon as they have received the written notification from the instructor of the grade. This written notification of the grade must be given by the student to the Department Chair as part of the appeal documentation.

2. If the student is not satisfied with the response or receives no response from the instructor, the student has ten (10) days to submit a written appeal directed to the Department Chair.

3. The student will be notified in writing of the Department's decision within thirty (30) days of receiving the appeal. Appropriate departmental committees may be consulted for advice in grade appeals and the instructor will be invited to reply to the issues raised by the student. In all cases, appeals at the Department level will result in a written response from the Department Chair that is sent to the student and to the instructor.

4. If the student is not satisfied with the response from the Department level, the student may, within ten (10) days of receiving the Department decision, submit a written appeal directed to the Dean of the College and copy it to the Department Chair. This written appeal is to contain a copy of the written appeal that was directed to the Department Chair and a statement explaining the student's dissatisfaction with the Department level response. The College will provide a written decision within thirty (30) days of receipt of the student's appeal.

5. If the student wishes to continue the final grade appeal, the student may request a formal review by the Provost's office within thirty (30) days of the date of the College's response. Such requests are subject to the university's Academic Appeal Procedure found under "Academic Regulations" in the respective Undergraduate or Graduate Bulletin <http://bulletins.wayne.edu>. The request should be submitted via the online form located at <https://provost.wayne.edu/academic-policy>.

6. Any meetings held in relation to the appeal shall provide parties the opportunity to present additional information orally or in writing. No additional persons should be permitted at such meetings without advance approval by the Chair or Dean, as appropriate.

7. Students/faculty may contact Ombuds Services (<https://wayne.edu/ombuds/>) at any time for assistance with any problem associated with a grade decision or grade appeal.

Graduation With Distinction

Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: *Cum Laude*, *Magna Cum Laude*, and *Summa Cum Laude*. Graduation with Distinction will be indicated on the student's diploma and on the transcript.

Graduation with Distinction will recognize at each commencement the top twenty percent of students in the College of Fine, Performing and Communication Arts who have earned the highest grade point average in the College with the following approximate distribution:

Top 5%: Summa Cum Laude
Next 5%: Magna Cum Laude
Next 10%: Cum Laude

The specific minimum grade point average for these distinctions will be determined each year in the following manner (except that it shall not be less than 3.0).

Based on the grade point average distributions of the previous year's senior class, the grade point average cut-offs for the College will be established for the current academic year. The criteria for Graduation with Distinction include:

1. A minimum of fifty-six credits in residence at Wayne State University;
2. A minimum grade point average, as established above, on all work at Wayne State University completed by the end of the term of graduation. (For notation in the Commencement Program, the grade

point average on all work completed prior to the term of graduation will be used.)

Commencement

All students must formally apply for degree certification by the deadline established by the Office of the Registrar for the term of intended graduation.

Information concerning commencement announcements, caps and gowns, invitations, tickets, time and place, assembling and other relevant items will be provided to graduates by the Commencement Office prior to the event.

Bachelor's Degree Requirements: Fine, Performing and Communication Arts

Credits

A candidate for a Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music, or Bachelor of Science degree must complete at least 120 credits. Certain curricula may require additional credits. Also see Restrictions on Credit below. Degree components comprising these credits are: 1) General Education Requirements; 2) Department Requirements; and 3) Major Requirements.

General Education Requirements

University-wide General Education Requirements are designed to enhance students' basic skills and the diversity of their intellectual background. These requirements assure minimal competence in those skills needed to succeed in college and professional life and provide a selective introduction to the increasingly broad range of academic disciplines represented at the University. They serve to emphasize the fundamental means and essential knowledge required for continuing self-education and intellectual growth.

Entering undergraduate students in the College of Fine, Performing and Communication Arts are required to satisfy the University General Education requirements (p. 22).

Department Requirements

Some of the courses listed in the University General Education program are also courses required by for specific majors within this College. With careful course selection, students may satisfy both General Education Requirements and Department Requirements in some majors (and concentrations, where applicable). For more information, please consult an academic advisor in the major Department.

Major Requirements

A major is a program of intensive study in a Department within the College. The specific course requirements for all such majors are listed in this bulletin under each of the Departmental sections. Some degree programs offer students a choice of concentrations within the major. Students who plan to elect a major should consult with a departmental academic advisor prior to initial course registration. Courses in the major (and concentration, as applicable) must be completed with the grade of 'C' (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the major of 'C' (2.0) or higher in order to complete the major. In addition, the student is required to maintain a cumulative g.p.a. of 'C' (2.0) or higher for all University coursework.

Students who have not decided on a particular major area of study may initially select an exploratory option thereby indicating only the intention to take a degree in one of the Departments of the College. These options are Exploratory Communication Arts, Exploratory Fine Arts, Exploratory Music, and Exploratory Performing Arts. In partnership with academic advisors, students are encouraged to choose a specific degree program in one of the Departments within thirty credit hours. The exploratory option is not available for transfer students.

Course requirements vary with each curriculum. Exceptions are permitted to the College rules governing the minimum and maximum credits in the major subject and the maximum credits allowed in restricted courses if provision for such exceptions are stated or implied in the curriculum requirements outlined in this bulletin. Descriptions of courses

and the various curricula may be found in this Bulletin, under each of the Departmental sections of the College of Fine, Performing and Communication Arts.

Capstone Course: All undergraduate students must successfully complete a capstone course within their major. This course will be taken during the senior year (last thirty credits in course work) and provides a systematic focus on and assessment of the knowledge and skills obtained in the major.

Credits: The major must include at least twenty credits in one subject, exclusive of the introductory courses and inclusive of some advanced work. No more than forty-six credits in the major subject (including introductory courses) may be counted toward a degree, except in specific curricula in which additional courses are specified in the curriculum outline.

For majors that require intensive study in a particular subject, more than forty-six credits are allowed.

Within the above limits and the University's Bulletin-in-Effect (p. 22) Graduation Policy (p. 21), each major program has specific requirements, and these requirements may be modified from time to time; therefore, it is the student's responsibility to stay informed of current requirements from the major Department.

The major completed is part of the degree designation on the diploma.

Double Major (one degree, 2 majors, minimum of 120 credit hours)

If a student wishes to declare a double major, the approval of the chairperson or designated representatives of each of the departments of the intended majors must be obtained. In order for a student to graduate with a double major, the major requirements in both majors (and areas of concentration, as applicable) must be fulfilled and at least 120 credit hours must be earned. All courses in the major must meet the minimum grade requirement designated by the department and an overall GPA in the major of C (2.0) or higher. In addition, the student is required to maintain a cumulative g.p.a. of 'C' (2.0) or higher for all University coursework.

PLEASE NOTE:

1. If the majors are in two different colleges, the student must complete the General Education curriculum of the college that has the most comprehensive requirements;
2. only the name of the first of the two majors will appear on the diploma; and
3. the names of both majors will appear on the transcript. Students who wish to pursue dual concentrations within a single department must secure the permission of the chairperson or designated representative of the department. However, only one concentration will appear on the transcript.

Concurrent Degrees (2 degrees)

A student who has completed all the University, School/College, and Department requirements for two different degree programs may apply for both degrees simultaneously. A separate diploma will be issued for each degree and both degrees will be listed on the transcript. Students must inform the academic advisors in each degree program of their intention to pursue concurrent degrees. All courses in the major must meet the minimum grade requirement designated by the department and an overall GPA in the major of 'C' (2.0) or higher. In addition, the student

is required to maintain a cumulative g.p.a. of 'C' (2.0) or higher for all University coursework.

Second Degree

A student who has received a Fine, Performing and Communication Arts degree from Wayne State University or any other accredited institution may obtain a second bachelor's degree in another academic area by registering in the College/School sponsoring the degree program. A graduate of Wayne State University who has earned a degree from the College of Fine, Performing and Communication Arts may be ranked as an undergraduate by declaring a new major (in a departmentally approved area of concentration, as applicable) and indicating a desire to earn a second undergraduate degree. Other Wayne State University graduates must transfer to the College of Fine, Performing and Communication Arts. A student from another institution must be admitted to the College by the University Admissions Office. Courses in the major (and concentration, as applicable) must be completed with the grade of 'C' (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the major of 'C' (2.0) or higher in order to complete the major. In addition, the student is required to maintain a cumulative g.p.a. of 'C' (2.0) or higher for all University coursework.

It is assumed that the second degree major will be different than that of the first degree and the student is not earning redundant credit; generally, no second degree will be granted in the academic area in which the first degree was earned. The University also requires that the student complete at least thirty credits in coursework at Wayne State University beyond the first degree, in order to be granted a second bachelor's degree from Wayne State University.

Fine, Performing and Communication Arts: Minor Options

The College of Fine, Performing and Communication Arts offers the option of minor concentrations in various subjects both to students in this college and other schools and colleges of the University. Students are strongly encouraged to consult with departmental academic advisors for course selections. Courses in the minor must be completed with the grade of 'C' (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the minor courses of 'C' (2.0) or higher in order to complete the minor. Minors are optional for College majors and students may choose not to fulfill the typical 18-21 credits of course work that make up a minor.

The notation of the minor will appear on the transcript but not on the diploma. Early declaration of the minor is encouraged so that coursework can be incorporated into the student's ongoing Plan of Work, see above under Academic Procedures (Majors and Minors).

Academic Procedures (Majors and Minors)

For procedures on declaring a major, adding a second major or second degree, or adding a minor, students should consult the sponsoring departmental academic advisor. Students should consult with their academic advisor as soon as possible to establish a comprehensive Plan of Work in order to pursue their academic goals as efficiently and effectively as possible.

Senior Rule

In addition to the University policy, the College requires that all competency requirements must be met before Senior Rule (p. 32) registrations can be considered. No student who has competency requirements to fulfill in the final semester of his or her undergraduate program will be eligible to apply for Senior Rule.

'AGRADE' (Accelerated Graduate Enrollment Program)

Accelerated Graduate Enrollment: Some departments of the College permit academically strong majors to apply for admission into the College's 'AGRADE' program. 'AGRADE' procedures enable qualified seniors in the College of Fine, Performing and Communication Arts to enroll simultaneously in the undergraduate and graduate programs of the College and apply up to a maximum of sixteen credits towards both a bachelor's and master's degree in the major field. Some programs permit less than the maximum number of credits to be applied so check with the major department.

Qualified students may apply for the AGRADE program no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average of 3.5 and not less than a 3.6 grade point average in the major courses already completed.

For more details about the 'AGRADE' program, contact the Graduate Director of the major department.

Teacher Preparation & Certification

CFPCA music and dance students interested in teaching may choose to complete coursework and clinical experiences leading to K-12 certification as part of a combined program with the College of Education (COE). Students follow the curriculum for their respective major (B.S. or B.F.A. in dance) or concentration (B. M. in music education).

Typically, CFPCA teacher candidates in music or dance begin their academic studies in the College of Fine, Performing and Communication Arts. During the sophomore year, students consult with their academic advisor in their major Department concerning the Level 2 application to the College of Education. This is a separate application leading to dual enrollment in both the CFPCA and the COE. See Level 2 application details below.

Once approved by the College of Education as a candidate for teacher certification, program requests will be signed by both a College of Fine, Performing and Communication Arts major academic advisor and by the appropriate advisor in the College of Education. Required coursework for the COE including fieldwork is completed during the junior and senior years. Students will not be allowed to register for the professional courses taught through the College of Education until they have been officially admitted to the COE.

Admission to the College of Education

Students submit the Level 2 application when all Level 2 admission requirements have been fulfilled. These requirements vary by program and students are encouraged to meet with a departmental academic advisor to review requirements specific to their program. The admission requirements include but are not limited to the following:

1. Successful completion of the Michigan Basic Skills Requirement: SAT Evidence Based Reading & Writing with a score of 480 and Math with a score of 530, or Michigan Department of Education approved alternative pass measure (see a departmental academic advisor for more information).
2. A Negative TB Test within the past three years.
3. A criminal history background check completed through an approved College of Education vendor. There is a fee paid by the student for the check.

Level 2 applications are processed three times per year and must be submitted by the deadlines listed on the COE admissions website. Click here to view additional information including deadlines, and complete

the Level 2 Application: <http://coe.wayne.edu/admissions/undergrad-requirements.php>.

Note: Near the end of the program and at the time of recommending the teacher candidate to the Michigan Department of Education (MDE), Adult and Child CPR and First Aid Certification is required from an approved MDE provider.

Study Abroad

Various opportunities for study abroad are available through the University. Students should contact their major Department and the Study Abroad Office for further information regarding these programs.

Honors Courses

All departments in the College of Fine, Performing and Communication Arts offer Departmental Honors. Students enrolled in the College of Fine, Performing and Communication Arts who are interested in pursuing University or Departmental Honors curricula should refer to Undergraduate Honors Curricula (p. 30), or contact the departmental honors advisor.

Restrictions on Credit

The College imposes the following restrictions on credit:

Maximum Credits in One Subject: A student may not count as credit toward a degree more than forty-six credits in courses in any one subject except in specific curricula in which additional courses are specified in the curriculum outline.

Over-Age Credits: A student attempting to complete a major after a protracted interruption in education, or on a part-time basis over an extended period of time, may find that some of the early course work is out of date. In such cases, a Department may require refresher work or demonstration of preparation for advanced courses in the Department.

Restrictions on Transfer Credit – Two-year Schools: No more than sixty-four semester credits may be transferred from two-year colleges unless the student is following an articulation agreement that allows the transfer of additional two-year college credit.

Life Fitness Activity: No more than eight credits may be earned.

Advanced Courses: At least fifteen credits in courses numbered 3000 or above must be earned.

Repeated Subjects: It is understood that degree credit will not be granted for coursework for which credit has already been granted. Since similar courses may have different names at different times and at different colleges, students are advised to make sure they do not offer repeated coursework as credit toward a degree.

Grade Point Average

All students are required to maintain a cumulative grade point average of 'C' (2.0) for all University coursework. In addition, courses in the major (and concentration, as applicable) must be completed with the grade of 'C' (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the major of 'C' (2.0) or higher in order to complete the major.

Residence Requirement

To qualify for a baccalaureate degree in the College of Fine, Performing and Communication Arts a minimum of thirty credits must be earned in the College.

Law Minor

The Law minor requires a minimum of 18 credits. Students take three classes each in Law and in Communication.

Code	Title	Credits

Art, Art History, and Design

Office: 150 Art Building, 450 Reuther Mall; 313-577-2980

Chairperson: Lauren Kalman

<https://art.wayne.edu/>

Our Mission

The James Pearson Duffy Department of Art, Art History, and Design is a community of students, staff, and faculty that advances the study and practice of art history, design, and fine art.

Our Vision

We sustain and further these disciplines through rigorous research, creative production, instruction, and community engagement within the context of an urban research university.

To realize this vision the department will:

1. Offer relevant and innovative programs grounded in faculty expertise
2. Support the research and creative activity of students and faculty
3. Develop lectures, workshops, exhibitions, and events that engage diverse audiences
4. Cultivate a supportive and collaborative environment for critical thinking, visual literacy, and creative practice
5. Provide safe and professional facilities for our students, staff, and faculty
6. Promote the importance of an arts education within a university context

The James Pearson Duffy Department of Art, Art History, and Design is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity. By receiving a comprehensive training in the visual arts within the context of a liberal arts education, students are encouraged to master the various avenues of creative investigation and learning within the Department as well as in other departments of the College and the University at large. Each student is thereby able to progress from fundamentals to creative and intellectual maturity and given the tools of professionalization in a variety of different areas while immersed in the rich diversity of cultural and research opportunities offered by the University as a whole.

Academic Work Retention Policy

The Department reserves the right to retain, for its permanent collection, the work submitted by students for credit in any course, and to exhibit or reproduce such work in University publications. Students are encouraged to retain work as they proceed through their program, so as to have at least twenty works for a final portfolio review and demonstration of progress.

Advising

All students in the Department of Art, Art History, and Design are encouraged to meet regularly with their advisors regarding their selected program of study every semester. Students are advised to register as early as allowable to ensure that classes are available to them. Students are encouraged to take courses pertaining to their major as soon as the first semester of study in the Department of Art, Art History, and

Design. They are also encouraged to consult a Department advisor for information regarding the declaration of major.

Transfer Students

Transfer students must complete a minimum of twenty-seven resident credits in art courses for the B.F.A. degree with a studio major; a minimum of twelve resident credits with B.A. degree with a studio major; a minimum of twelve resident credits with an art history major; or a minimum of twelve resident credits for either the B.A. or B.S. degree with a major in design and merchandising. The minimum grade for each course required in the major, which must be taken in the Department of Art, Art History, and Design, must be no less than a C- in order for the course credit to count toward completion of the degree. A minimum of fifty-six credits must be completed for the degree from a Bachelor Degree granting institution.

Articulation Agreements (Transfer of Credit)

Articulation agreements are formal arrangements by which Wayne State University enters into agreement with other institutions for the transfer of college credits in certain designated degree programs. Students who have come to the Department of Art, Art History, and Design to pursue a degree in Art, Design, Art History or Fashion Design and Merchandising under an articulation agreement with another school or college program are required to meet with the Department academic advisor on a regular basis to ensure compliance with the terms of the agreement.

- Art (B.A.) (p. 173)
- Art History (B.A.) (p. 176)
- Design and Merchandising (B.A.) (p. 178)
- Design and Merchandising (B.S.) (p. 179)

- Textile Design Minor (p. 184)

Art (B.A.)

The James Pearson Duffy Department of Art, Art History, and Design is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims

to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity.

Admission Requirements

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Candidates for the Bachelor of Arts in Art must complete a minimum of 120 credits including satisfaction of the University (p. 22) General Education requirements and a minimum of forty-eight credits in art courses, including the Course Requirements Sections A, B, and C as cited below. No grade lower than a 'C-' in a major course may be applied toward the completion of the degree. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 167) governing undergraduate scholarship and degrees.

Major Requirements

48 credits total – courses in sections A, B, and C

Code	Title	Credits
Section A		
Select three of the following:		9
ACO 1200	Surface Studio	
ACO 1230	Space Studio	
ACO 1270	Time Studio	
ADR 1050	Drawing I	
Section B		
Select two of the following:		6
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
Section C		
Select thirty-three credits from the following:		33
Art History Elective, AH 3000-level or above (3 cr.)		
2000-level Art Studio (9-15 cr.)		
3000-level Art Studio (6-12 cr.)		
4000-level or above Art Studio (3 cr.)		
Department Elective: ACO, ACR, ADA, ADN, ADR, AFA, AFI, AGD, AH, AIA, AID, AME, APA, APR, ASL, ACS (3 cr.)		
ACS 3997	Professional Practices in the Visual Arts I (3 cr.)	
Total Credits		48

Art Honors Curriculum (B.F.A. and B.A. Programs)

(15 Credits required)

The Department of Art and Art History Honors program offers capable students the opportunity to pursue independent study and to work closely with department full-time faculty members. Completion of the honors major results in an honors degree designation on the diploma.

Departmental Honors Requirements

In order to enter the Departmental Honors program a student must have achieved academic excellence with a college or university with a g.p.a. of 3.3. A student must meet all regular major requirements including the following:

Code	Title	Credits
Honors Option Required Courses		
Two Honors Option studio art courses at the 2000-level or 3000-level (internships cannot satisfy this requirement)		6
One Honors Option course of an advanced art studio elective at 4000-level or above		3
One Honors Seminar (HON 4200 through HON 4280)		3
One Honors Project (ACS 5996 – Honors Project)		3
Total Credits		15

The student must maintain a minimum g.p.a. of 3.3 overall and in the major.

Art (B.F.A.)

The James Pearson Duffy Department of Art, Art History, and Design is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity.

Admission Requirements

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Degree Requirements

Candidates for the Bachelor of Fine Arts degree must complete a minimum of 120 credits including satisfaction of the University General Education requirements (p. 22). Departmental requirements as cited under the Bachelor of Arts with a Major in Art (p. 173) must be met, as well as the concentration requirements below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 167) governing undergraduate scholarship and degrees.

Major Requirements

Students pursuing a B.F.A. in Art must complete courses listed in sections A, B, and C and all courses listed under a selected concentration. The minimum grade for each course required in the major must be no less than a C- in order for the course credit to count toward completion of the degree.

Code	Title	Credits
Section A		
ACO 1200	Surface Studio	3
ACO 1230	Space Studio	3
ACO 1270	Time Studio	3
ADR 1050	Drawing I	3
Section B		
Select two of the following:		6
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
Section C		
Five, 2000-level Fine Arts Electives:		15

Course must be taken from different subject areas in Fine Art including : ACR, ADA, ADR, AFI, AME, APA, APH, APR, ASL		
One, 3000-level Fine Arts Elective:		3
Course may be taken from offerings in: ACR, ADA, ADR, AFI, AME, APA, APH, APR, ASL		
One, 2000-Level or above Fine Art or Design Elective:		3
Course may be taken from offerings in: ACR, ADA, ADR, AFA, AFI, AGD, AIA, AID, AME, APA, APH, APR, ASL		
Two Art History electives (AH 3000 level or above)		6
ACS 5550	Special Topics	3
Select one from the following:		3
ACS 5550	Special Topics	
ACS 5300	Studio Art Internship	
ACS 3997	Professional Practices in the Visual Arts I (Junior Seminar in the Visual Arts)	3
ACS 5997	Professional Practices in the Visual Arts II	3
Total Credits		57

Concentration Requirements

Students must complete eighteen credits at the advanced level (from courses numbered 3000 and above) within a selected concentration. The minimum grade for each course required in the concentration, which must be taken in the Department of Art and Art History, must be no less than a C- in order for the course credit to count toward completion of the degree. Curriculum outlines with suggested scheduling patterns for the below concentrations are available from the Department of Art and Art History (<http://www.art.wayne.edu/>). All work within the following Concentration Requirements (18 credit hours) must be completed in addition to the courses from the Major Requirements (57 credit hours). Required courses in each concentration for the B.F.A. with a major in Art are given below; exceptions may be made only with the consent of advisor.

Ceramics

Code	Title	Credits
ACR 3550	Intermediate Ceramics	3
ACR 4000	Ceramic Multiples I	3
ACR 4550	Advanced Ceramics I	3
ACR 5000	Ceramic Multiples II (must be taken once)	3
ACR 5550	Advanced Ceramics II	3
One of the following courses must be taken once more. Select one:		3
ACR 5000	Ceramic Multiples II	
ACR 5550	Advanced Ceramics II	
Total Credits		18

Digital Arts

Code	Title	Credits
ADA 3210	Time-Based Media I: Video Art	3
ADA 3220	Introduction to Interactivity in Art	3
ADA 4220	Time-Based Media II: Experimental Animation	3
ADA 4230	Time-Based Media III: Experimental 3D Animation	3
Choose 6 credits from the following courses:		6
ADA 5240	Advanced Interactivity: Experimental Video Games	
ADA 5250	Advanced Time-Based Media	
ADA 5000 Elective		
Total Credits		18

Drawing

Code	Title	Credits
ADR 3070	Intermediate Life Drawing	3
ADR 3000-level or above:	Nine credits (topics include: Life Drawing, Alternative Materials and Methods, Landscape, and Anatomy)	9
ADR 5060	Advanced Concepts in Drawing and Painting	3
ADR 5100	Contexts of Studio Practice	3
Total Credits		18

Fibers

Code	Title	Credits
AFI 3640	Fibers: Digital Textile Design	3
AFI 3650	Fibers: Weaving	3
AFI 3660	Fibers: Print and Dye	3
AFI 4650	Fibers: Studio I	3
AFI 5650	Fibers: Studio II	3
AFI 5870	Directed Projects: Fibers	3
Total Credits		18

Metalsmithing

Code	Title	Credits
AME 3600	Intermediate Jewelry I	3
AME 3601	Intermediate Jewelry II	3
AME 4600	Metalsmithing I	3
AME 4601	Metalsmithing II	3
AME 5600	Advanced Jewelry and Metalsmithing (taken twice)	6
Total Credits		18

Painting

Code	Title	Credits
APA 3000-level or above:	Twelve credits (topics include: Oil Painting, Watercolor Painting, Alternative Painting Media, Mural Painting, Figure Painting, and Landscape Painting)	12
APA 5060	Advanced Concepts in Drawing and Painting	3
APA 5100	Contexts of Studio Practice	3

APR 5490	Lithography II	3
Total Credits		18

Sculpture

Code	Title	Credits
3-15 credits from the following courses:		
ASL 3150	Intermediate Sculpture	
ASL 3170	Figurative Sculpture I	
ASL 3190	Sculpture Foundry I	
ASL 3200	Wood Shop Practice I	
ASL 3300	Moldmaking I	
3-15 credits from the following courses:		
ASL 5150	Advanced Sculpture	
ASL 5170	Figurative Sculpture II	
ASL 5180	Sculpture: Advanced Technology	
ASL 5190	Sculpture Foundry II	
ASL 5810	Special Topics in Sculpture	
ASL 5200	Wood Shop Practice II	
ASL 5300	Moldmaking II	
Total Credits		18

Art Honors Curriculum (B.F.A. and B.A. Programs)

(15 Credits required)

The Department of Art and Art History Honors program offers capable students the opportunity to pursue independent study and to work closely with department full-time faculty members. Completion of the honors major results in an honors degree designation on the diploma.

Departmental Honors Requirements

In order to enter the Departmental Honors program a student must have achieved academic excellence with a college or university with a g.p.a. of 3.3. A student must meet all regular major requirements including the following:

Code	Title	Credits
Honors Option Required Courses		
Two Honors Option studio art courses at the 2000-level or 3000-level (internships cannot satisfy this requirement)		6
One Honors Option course of an advanced art studio elective at 4000-level or above		3
One Honors Seminar (HON 4200 through HON 4280)		3
One Honors Project (ACS 5996 – Honors Project)		3
Total Credits		15

The student must maintain a minimum g.p.a. of 3.3 overall and in the major.

Art History (B.A.)

The James Pearson Duffy Department of Art, Art History and Design is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity.

Admissions Requirements

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Candidates must complete a minimum of 120 credit hours, including satisfaction of the University General Education Requirements (p. 22) and the major requirements listed below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 167) governing undergraduate scholarship and degrees.

Major Requirements

Students must complete a minimum of thirty-three credit hours in art history and an additional eight credit hours in a language, which includes the courses below:

Code	Title	Credits
Select two of the following: 6		
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
Language Requirement - two courses in the same language; any language other than English		
Language 1010		4
Language 1020		4
Upper Level Art History Courses		
Select twelve credits at the 3000-level or above		12
Select three credit hours at the 5000-level or above		3
Select one course from EACH of the following groups of upper-level categories:		
Classical		3
AH 5210	Hellenistic Art	
AH 5250	Ancient Rome	
AH 5260	Classical Greek Art	
AH 5270	Roman Painting and Sculpture	
AH 5310	The Ancient City of Athens	
Renaissance/Baroque		3
AH 5500	Early Renaissance in Italy	
AH 5510	High Renaissance and Mannerism in Italy	
Modern		3
AH 5710	Trends in Nineteenth Century Art	
AH 5715	Modernism: Nineteenth and Twentieth Centuries	
AH 5720	Twentieth Century Art	
AH 5780	Topics in Twentieth-Century Art	
African Diaspora		3
AH 5560	Special Topics	
Total Credits		41

Each course in the major must be completed with a minimum grade of 'C-'. In addition to the credits in art history, students are required to complete three semesters of a single foreign language, with minimum grades of C. Please note that many graduate programs in Art History across the nation require a minimum of 4 semesters of either French or German Language, therefore French or German are the encouraged languages in this field.

Art History Honors Curriculum (B.A. Program)

(15 Credits required)

The Department of Art and Art History Honors program offers capable students the opportunity to pursue independent study and to work closely with full-time department faculty members. Completion of the honors major results in an honors degree designation on the diploma.

Departmental Honors Requirements

In order to enter the Departmental Honors program a student must have achieved academic excellence in a college or university with a g.p.a. of 3.3. A student must meet all regular major requirements including the following:

Code	Title	Credits
Honors Option Required Courses		
Three Honors Option art history courses at the 3000-level to 5000-level		9
One Directed Study course (AH 5990)		3
One Honors Seminar offered (HON 4200 through HON 4280)		3
Total Credits		15

The student must maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Design (B.F.A.)

The James Pearson Duffy Department of Art and Art History is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity.

Admission Requirements

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Degree Requirements

Candidates for the Bachelor of Fine Arts degree with a major in Design must complete a minimum of 120 credits including satisfaction of the University General Education requirements (p. 22), the Departmental and the Concentration (<http://bulletins.wayne.edu/undergraduate/college-fine-performing-communication-arts/art-art-history-design/fine-arts-bfa-design/#concentrationtext>) requirements. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 167) governing undergraduate scholarship and degrees.

Major Requirements

24 credits total – courses in sections A, B, and C in addition to the courses in your selected concentration.

AH 1130	Encounters with the Arts of Global Africa	
SECTION C		
ADN 3100	Design Process	3
Art or Design History Course 3000-level or above		3
Total Credits		24

Concentration Requirements

Students must complete forty-five credit hours in design courses, eighteen of which must be at the advanced level (from courses numbered 3000 and above) within the selected concentration *plus the appropriate senior seminar for the selected concentration*. The minimum grade for each course required in the concentration, which must be taken in the Department of Art and Art History, must be no less than a C- in order for the course credit to count toward completion of the degree. Curriculum outlines with suggested scheduling patterns for the below concentrations are available from the Department of Art and Art History (<http://www.art.wayne.edu/>). All work within the following Concentration Requirements (45 credit hours) must be completed in addition to the courses from the Major Requirements (24 credit hours). Required courses in each concentration for the B.F.A. with a major in Design are given below; exceptions may be made only with the consent of advisor.

Fashion Design

Code	Title	Credits
ADN 2410	Textiles	3
AFA 2420	Construction Methods I	3
AFA 3420	Construction Methods II	3
AFA 3400	Clothing and Culture	3

Two Art or Design studio electives ¹		6
Total Credits		45

¹ May be chosen from the following subject areas: ACO, ACR, ACS, ADA, ADN, ADR, AFA, AFI, AGD, AIA, AID, AME, APA, APH, APR or ASL.

Design Honors Curriculum (B.F.A. Program)

(15 Credits required)

The Department of Art and Art History Honors program offers capable students the opportunity to pursue independent study and to work closely with department full-time faculty members. Completion of the honors major results in an honors degree designation on the diploma.

Department Honors Requirements

In order to enter the Departmental Honors program a student must have achieved academic excellence in a college or university with a g.p.a. of 3.3. A student must meet all regular major requirements including the following:

Code	Title	Credits
Honors Option Required Courses		
Two Honors Option design studio courses at the 2000-level to 4000-level (internships cannot satisfy this requirement)		6
One Honors Option course of an advanced design studio elective at 5000-level or above		3
One Honors Seminar offered (HON 4200 through HON 4280)		3
One Honors Project (ACS 5996 – Honors Project)		3
Total Credits		15

The student must maintain a 3.3 g.p.a overall and in the major.

Design and Merchandising (B.A.)

Curricula in this area provide a liberal education as well as the opportunity for a professional concentration in the fields of apparel design and fashion merchandising.

Admission Requirements

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Degree Requirements

Candidates must complete a minimum of 120 credits including satisfaction of the University General Education requirements (p. 22) and all departmental and area requirements as indicated below. A minimum grade of C- must be earned in each required course in the major in order for the course credit to count toward completion of the degree. All

course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 167) governing undergraduate scholarship and degrees.

Major Requirements

Code	Title	Credits
Core Requirements		
ADN 2410	Textiles	3
AFA 3400	Clothing and Culture	3
AFA 3460	Introduction to Merchandising	3
ADN 5430	History of Costume	3
AFA 5997	Seminar	3
Language Requirement: two courses of the same language; any language other than English ¹		
Language 1010		4
Language 1020		4
Total Credits		23

Fashion Merchandising Concentration

This concentration develops understanding and practical skills related to the planning, buying and selling of fashion merchandise. Students gain insights into the various aspects of the apparel industries including marketing, sales, styling, publicity, advertising, visual presentation, fashion coordination, and merchandising. Possible careers include positions in management, buying, and fashion promotion and sales.

Code	Title	Credits
Fashion Merchandising Option Requirements		
AFA 3470	Global Issues in Fashion Merchandising	3
AFA 5460	Merchandising II	3
AFA 5470	Visual Merchandising: Display	3
AFA 5490	Retail Math	3
AFA 5992	Supervised Field Experience	3
One Fashion Design or Merchandising Elective (select one of the following):		3
AFA 2420	Construction Methods I	
AFA 5410	Fashion Entrepreneurship	
AFA 5472	Special Topics in Fashion	
Cognate Requirements		
AFA 3480	Fashion Marketing Management	3
AFA 4660	Fashion Retail Management	3
9 credit hours of Business electives from the following areas:		9
Accounting (ACC); Business Administration (BA); Finance (FIN); Global Supply Chain (GSC); Marketing (MKT); Management (MGT)		
Total Credits		33

Design and Merchandising Honors Curriculum (B.A. and B.S. Programs)

(15 Credits required)

The Department of Art and Art History Honors program offers capable students the opportunity to pursue independent study and to work closely with department full-time faculty members. Completion of the honors major results in an honors degree designation on the diploma.

Departmental Honors Requirements

In order to enter the Departmental Honors program a student must have achieved academic excellence in a college or university with a g.p.a. of

3.3. A student must meet all regular major requirements including the following:

Code	Title	Credits
Honors Option Required Courses		
Three Honors Option AFA or AFI courses at the 2000-level to 5000-level (internships cannot satisfy this requirement)		9
One Honors Seminar offered (HON 4200 through HON 4280)		3
One Honors Project (ACS 5996 – Honors Project)		3
Total Credits		15

The student must maintain a 3.3 g.p.a overall and in the major.

Design and Merchandising (B.S.)

Curricula in this area provide a liberal education as well as the opportunity for a professional concentration in the fields of apparel design and fashion merchandising.

Admission Requirements

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Degree Requirements

Candidates must complete a minimum of 120 credits including satisfaction of the University General Education requirements (p. 22) and all departmental and area requirements as indicated below. A minimum grade of C- must be earned in each required course in the major in order for the course credit to count toward completion of the degree. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 167) governing undergraduate scholarship and degrees.

Students pursuing the *Bachelor of Science Degree* with a Major in Design and Merchandising must complete a minimum of fifteen credits in Natural Science courses. Science courses can be taken in the following subjects areas: Astronomy, Biology, Chemistry, Geology, Nutrition and Food Science, or Psychology. This course selection should be done in consultation with a departmental advisor.

Major Requirements

Code	Title	Credits
Core Requirements		
ADN 2410	Textiles	3
AFA 3400	Clothing and Culture	3
AFA 3460	Introduction to Merchandising	3
ADN 5430	History of Costume	3
AFA 5997	Seminar	3
Science Requirement: 15 credits in Natural Sciences. May be chosen from the following areas: AST, BIO, CHM, ESG, NFS, PH, PHY, or PSY		15
Total Credits		30

Fashion Merchandising Concentration

This concentration develops understanding and practical skills related to the planning, buying and selling of fashion merchandise. Students gain insights into the various aspects of the apparel industries including marketing, sales, styling, publicity, advertising, visual presentation, fashion coordination, and merchandising. Possible careers include positions in management, buying, and fashion promotion and sales.

Design and Merchandising Honors Curriculum (B.A. and B.S. Programs)

(15 Credits required)

The Department of Art and Art History Honors program offers capable students the opportunity to pursue independent study and to work closely with department full-time faculty members. Completion of the honors major results in an honors degree designation on the diploma.

Departmental Honors Requirements

In order to enter the Departmental Honors program a student must have achieved academic excellence in a college or university with a g.p.a. of 3.3. A student must meet all regular major requirements including the following:

Code	Title	Credits
Honors Option Required Courses		
Three Honors Option AFA or AFI courses at the 2000-level to 5000-level (internships cannot satisfy this requirement)		9
One Honors Seminar offered (HON 4200 through HON 4280)		3
One Honors Project (ACS 5996 – Honors Project)		3
Total Credits		15

The student must maintain a 3.3 g.p.a overall and in the major.

Animation and Interactivity Minor

This minor provides a thorough focus on the study of Animation and Interactivity through the lens of New Media developments in Contemporary Arts. Explore the topics through a fine arts perspective; research and develop ideas as creative producers; foster innovative and critical thinking within digital media.

Students must complete 21 credits as specified below:

Code	Title	Credits
Select one of the following:		
AH 1000	Introduction to Art	3
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	

AH 1130	Encounters with the Arts of Global Africa	
Required courses:		
ACO 1270	Time Studio	3
ADA 2210	Introduction to Digital Practices	3
ADA 3220	Introduction to Interactivity in Art	3
ADA 4220	Time-Based Media II: Experimental Animation	3
ADA 4230	Time-Based Media III: Experimental 3D Animation	3
ADA 5240	Advanced Interactivity: Experimental Video Games	3
Total Credits		21

All courses in the minor must be completed with the grade of C- or higher.

Art History Minor

Study art as the human visual and physical record. Investigate the time and circumstances in which works of art were created as a way to understand their cultural meaning and significance.

Students must complete 15 credits in art history courses, including:

Code	Title	Credits
Select one of the following: 3		
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
Select twelve credits at the 2000 level or above		12
Total Credits		15

All courses in the minor must be completed with the grade of C- or higher.

Art Minor

This minor broadens understanding of artistic expression from the past to the present. Learn fundamental concepts and then apply them in a studio setting. Fine Art electives may be taken from any of the nine Fine Art areas: Ceramics, Digital Art, Drawing, Fibers, Metalsmithing, Painting, Photography, Printmaking or Sculpture.

Students must complete 21 credits as specified below:

Code	Title	Credits
ADR 1050	Drawing I	3
ACO 1200	Surface Studio	3
or ACO 1230	Space Studio	
Select one of the following: 3		
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
Select four studio electives		12
Total Credits		21

All courses in the minor must be completed with the grade of C- or higher.

Blacksmithing Minor

The Blacksmithing minor is intended for students who wish to hone their critical thinking and creative problem solving by using a variety of blacksmithing skills including handwork, machining and digital fabrication to refine their ability to produce artwork, commissions and utilitarian tools. With a minor offering such as Blacksmithing, students in

art, design, physics, engineering, education and other interested majors will be able to have a "physical" material application to apply to their field and creative/research projects.

Students pursuing a Blacksmithing minor must complete the following courses from the list below totaling 21 credits.

Code	Title	Credits
Select one of the following: 3		
ADR 1050	Drawing I	
ACO 1200	Surface Studio	
ACO 1230	Space Studio	
ACO 1270	Time Studio	
Select one of the following: 3		
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
ADN 6320	History of Modern Design I	
Art: Metalsmithing (AME) Requirements:		12
AME 2600	Introduction to Jewelry and Metalsmithing	
AME 2650	Blacksmithing I	
AME 3650	Blacksmithing II	
AME 4650	Blacksmithing III	
Elective: 3		
Complete a 2000 level Studio Art course from the Fine Art areas: ACR, ADA, AFI, ADR, APA, APR, APH or ASL. (http://bulletins.wayne.edu/undergraduate/college-fine-performing-communication-arts/art-art-history/#coursestext)		
Total Credits		21

Ceramics Minor

The ceramics minor offers undergraduate students the opportunity to supplement their major field of study with a rigorous investigation of the ceramic material. Lower level coursework provides students with a foundation of art and an introduction to ceramics in effort to prepare them for more advanced courses. Students have the option of taking upper level coursework that explores sculptural and conceptual concerns and/or production skills and functional ceramics.

Students pursuing the ceramics minor must complete 18 credits as specified below.

Code	Title	Credits
Core 3		
Select one of the following:		
ACO 1200	Surface Studio	
ACO 1230	Space Studio	
ACO 1270	Time Studio	
ADR 1050	Drawing I	
Art History 3		
Select one of the following:		
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
Ceramics 12		
ACR 2550	Introduction to Ceramics	
Select three of the following (9 credits):		

ACR 3550	Intermediate Ceramics
ACR 4000	Ceramic Multiples I
ACR 4550	Advanced Ceramics I
ACR 5000	Ceramic Multiples II
ACR 5550	Advanced Ceramics II
ACR 5880	Directed Projects in Ceramics

Total Credits 18

Design Minor

This minor offers students the opportunity to learn fundamental visual concepts in design and apply these in a studio setting. The minor also broadens understanding of creative expression from the past to the present.

Students must complete 21 credits as specified below:

Code	Title	Credits
ADR 1050	Drawing I	3
Select one course from the following:		3
ACO 1200	Surface Studio	
ACO 1230	Space Studio	
ACO 1270	Time Studio	
ADN 3100	Design Process	3
Art and Design History - choose one		3
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
ADN 5430	History of Costume	
ADN 6320	History of Modern Design I	
ADN 6330	History of Modern Design II	
Design Studio Electives - select from the following courses: ¹		9
Fashion		
AFA 2410	Textiles	
AFA 2420	Construction Methods I	
AFA 3400	Clothing and Culture	
AFA 3420	Construction Methods II	
AFA 3460	Introduction to Merchandising	
AFA 3470	Global Issues in Fashion Merchandising	
AFA 4430	Fashion Illustration	
Graphic Design		
AGD 2240	Introduction to Graphic Design: Skills and Concepts	
AGD 2250	Typography	
AGD 3250	Graphic Design I: Principles and Problem Solving	
AGD 3260	Introduction to Interactivity in Graphic Design	
AGD 4250	Graphic Design II: Word, Image, and Visual Organization	
Industrial Design		
ADN 5200	Ethnographic Research Methods for Designers	
AID 3300	Introduction to Industrial Design	
AID 3310	Presentation	
AID 4300	Product Design Engineering	
AID 4600	Transportation Design/Engineering	
Interior Design		
AIA 1610	Architectural Drafting and Perspective Drawing	

AIA 2600	Interior Design: CAD I
AIA 2610	Interior Design Studio I
AIA 3610	Interior Design Studio II
AIA 3620	Interior Design: CAD II
AIA 4600	Environmental Design Theory
AIA 4610	Interior Design Studio III
AIA 4620	Interior Perspective and Illustration

Total Credits 21

¹ Choose design studio electives in discussion with your art advisor.

Digital Art and Photography Minor

This minor offers students the opportunity to supplement their major field of study with a rigorous investigation of digital art and photography. The program will provide a rich academic environment that will foster creativity and spur innovative thinking. The three required courses provide students with a deep understanding of the production of visual language in video, photography, and other time-based methods. From this dynamic foundation, they will choose a line of study to more thoroughly investigate advanced photography techniques, interactive art, or 2D/3D animation in a fine arts context.

Students must complete 18 credits as specified below:

Code	Title	Credits
Required courses		9
ACO 1270	Time Studio	
ADA 3210	Time-Based Media I: Video Art	
APH 2400	Introduction to Photography	
Art History - choose one		3
AH 1000	Introduction to Art	
AH 1110	Survey of Art History: Ancient through Medieval	
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
Studio Electives - choose two		6
ADA 2210	Introduction to Digital Practices	
ADA 3220	Introduction to Interactivity in Art	
ADA 4220	Time-Based Media II: Experimental Animation	
ADA 4230	Time-Based Media III: Experimental 3D Animation	
ADA 5240	Advanced Interactivity: Experimental Video Games	
ADA 5250	Advanced Time-Based Media	
APH 2410	Black and White Darkroom Photography I	
APH 2420	Digital Photography I	
APH 3410	Darkroom Photography	
APH 3420	Digital Photography	
APH 4410	Advanced Camera	
APH 4420	Advanced Printing	

Total Credits 18

All courses in the minor must be completed with the grade of C- or higher.

Fashion Design Minor

The Fashion Design Minor offers students the opportunity to gain skills in the techniques and concepts specific to garment construction and the fashion industry. Students will have the opportunity to learn through demonstrations, lectures, and projects in which they apply learned

material. The minor broadens understanding of fashion design and its role in the future of dress.

The Fashion Design Minor requires 21 credits as specified below.

Code	Title	Credits
Required Course		
ADN 3100	Design Process	3
Design History		
Select one of the following:		3
ADN 5430	History of Costume	
ADN 6320	History of Modern Design I

AIA 5610	Interior Materials and Systems	3
or AIA 5630	Interior Lighting Design and Application	
AIA 3610	Interior Design Studio II	3
or AIA 5010	Furniture/Product Workshop	
Total Credits		21

Jewelry Minor

The Jewelry minor offers undergraduate students a rich experience of materials, process and interpretation to complement their degree work. The minor is open to both Art and Non-Art majors and is designed to give students a range of experiences including use of hand processes, machines and digital fabrication through the scope of Jewelry. This minor will blend historic and contemporary theory and awareness of practitioners to help students contextualize their work within jewelry making.

Students pursuing a minor in jewelry must complete the following courses from the list below totaling 18 credits.

Code	Title	Credits
Select one of the following courses:		
ADR 1050	Drawing I	3
ACO 1230	Space Studio	
Select one of the following courses:		
AH 1110	Survey of Art History: Ancient through Medieval	3
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	
AME Requirements		
AME 2600	Introduction to Jewelry and Metalsmithing	12
AME 3600	Intermediate Jewelry I	
AME 3601	Intermediate Jewelry II	
AME 4600	Metalsmithing I	
Total Credits		18

Painting and Drawing Minor

This minor provides students the opportunity to supplement their major field of study with an exploration of the media, techniques, and concerns of contemporary painting and drawing. The wide array of courses allows students to follow individualized paths through the curriculum, whether their interests lay in working from live models, in the landscape, with non-objective imagery, or either alternative or traditional media in both painting and drawing. The breadth of the Painting and Drawing program comprises a rich and stimulating environment through which students are invited to express their ideas and stretch their creativity.

The Minor in Painting and Drawing requires 21 credits.

Code	Title	Credits
ACO 1200	Surface Studio	3
ADR 1050	Drawing I	3
AH 1120	Survey of Art History: Renaissance through Modern	3
Select two of the following courses:		6
ADR 2070	Beginning Life Drawing	
ADR 2130	Introduction to Alternative Drawing Methods and Materials	
APA 2000	Oil Painting I	
APA 2110	Watercolor Painting I	
APA 2130	Introduction to Alternative Painting Media	
Select two of the following intermediate and advanced courses:		6
ADR 3070	Intermediate Life Drawing	
ADR 5070	Advanced Life Drawing	
ADR 5080	Landscape Drawing	
ADR 5100	Contexts of Studio Practice	
or APA 5100	Contexts of Studio Practice

APA 5200	Advanced Mural Painting	
Total Credits		21

Printmaking Minor

This minor offers students the opportunity to supplement their major field of study to focus on printmaking as a means of visual expression. Students pursuing a Minor in Printmaking must complete 18 credits distributed as follows:

Code	Title	Credits
Select one of the following:		
ACO 1200	Surface Studio	3
ADR 1050	Drawing I	
Select one of the following:		
AH 1110	Survey of Art History: Ancient through Medieval	3
AH 1120	Survey of Art History: Renaissance through Modern	
AH 1130	Encounters with the Arts of Global Africa	

APR 2300	Printmaking	3
Select three of the following:		9
APR 3470	Photo-Processes for Printmaking I	
APR 3480	Intaglio I	
APR 3490	Lithography I	
APR 3500	Screen Printing I	
APR 3510	Relief and Experimental Printmaking I	
APR 5470	Photo-Processes for Printmaking II	
APR 5480	Intaglio II	
APR 5490	Lithography II	
APR 5500	Screen Printing II	
APR 5510	Relief and Experimental Printmaking II	

Total Credits **18**

All courses in the minor must be completed with the grade of C- or higher.

Sculpture Minor

This minor provides students the opportunity to supplement their major field of study with an exploration of contemporary sculpture through hands on exposure to the variety of sculptural capacities available at Wayne State: foundry work for bronze and aluminum casting, mold-making and casting for contemporary applications, clay modeling from the figure, steel fabrication and welding, and woodworking.

The Minor in Sculpture requires 18 credits.

Code	Title	Credits
Core		
Select one of the following:		3

Total Credits **18**

Textile Design Minor

This minor offers students the opportunity to learn textile design skills and apply these in a studio/industry setting. The minor provides course

options in both print and woven textile design. The minor combines elements of the fibers and fashion programs.

Students must complete 24 credits as specified below:

Code	Title	Credits
Drawing		3
ADR 1050	Drawing I	
Core		3
ACO 1200	Surface Studio	
Graphic Design		3
AGD 2240	Introduction to Graphic Design: Skills and Concepts	
Textile Design		6
AFI 3640	Fibers: Digital Textile Design	
AFI 3660	Fibers: Print and Dye	
Design History (select one of the following):		3
ADN 5430	History of Costume	
ADN 6320	History of Modern Design I	
ADN 6330	History of Modern Design II	
Textile Design Studio Electives		6

Total Credits **24**

In discussion with your art advisor, select two studio electives from fibers.

All courses in the minor must be completed with the grade of C- or higher.

Communication

Office: 585 Manoogian Hall; 313-577-2943

Interim Chairperson: Pradeep Sopory

Undergraduate Program Director: Jessica Greenwald

<https://comm.wayne.edu/>

The primary aim of this department is to assist students in developing the ability to communicate effectively and to understand the principles of the communication process. The variety of degree programs provides broad liberal arts education as well as specific career training. Undergraduate and graduate majors may prepare for careers in several fields: industrial relations; sales; personnel; public relations; radio, television, film; journalism; teaching; law; and, the ministry.

The department sponsors several student activities that are available to all University students. These include intercollegiate debate and speech teams. Wayne State University has undergraduate chapters of Lambda Pi Eta, Forensic Union, Delta Sigma Rho-Tau Kappa Alpha, the Film Association, the Society of Professional Journalists and the Public Relations Student Society of America. Talent scholarships are also available to students interested in forensics or debate.

COM 1010 is designed for those who wish to improve their general communicative ability. This course can be taken to fulfill the University's General Education Competency Requirement in Oral Communication (OC). This requirement should be completed within the first 60 credit hours. Courses in persuasive speaking, discussion, debate, interpersonal communication and small group offer additional opportunities to study and practice general communication skills.

- Communication Studies (B.A.) (p. 186)
- Film (B.A.) (p. 187)
- Journalism (B.A.) (p. 188)
- Media Arts and Studies (B.A.) (p. 189)
- Public Relations (B.A.) (p. 190)

Communication Department Minors and Cognate Study

The following minors are available in the department and should be pursued in consultation with an advisor in each of the specialized areas of concentration. Please note that some minors are not available to students who also major in the department. While a minor designation does not appear on the diploma, it will be noted on the student's transcript.

- Film Minor (p. 191)
- Communication Studies Minor (p. 191)
- Health Communication Minor (p. 191)
- Journalism Minor (p. 191)
- Law Minor (p. 172)
- Media Arts and Studies Minor (p. 192)
- New Media Minor (p. 192)
- Public Relations Minor (p. 192)

Bachelor of Arts Program Requirements

At the undergraduate level the Department of Communication offers Bachelor of Arts degrees with majors in: Communication Studies

(p. 186), Film (p. 187), Journalism (p. 188), Media Arts and Studies (p. 189), and Public Relations (p. 190).

The following requirements apply to all of these degrees; specific requirements are listed within each major program.

Admission Requirements

Admission requirements are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Degree Requirements

Candidates for the Bachelor's degree must complete 120 credits of course work including satisfaction of the University General Education requirements, department degree requirements including completion of a foreign language through the third semester or two semesters of foreign language and one semester of foreign culture, as well as the major requirements of one of the programs. All courses in the major or the minor must be completed with a grade of C or better and be completed in accordance with the regulations of the University (p. 21) and the College (p. 169) governing undergraduate scholarship and degrees.

A major will complete at least thirty but not more than forty-six credits in the Department. Any course work elected over the forty-six credit maximum must have prior approval of both advisor and chairperson if the additional credits are to count toward the degree (120 credits). This required approval includes students who plan to double major in the Department. Double majors are not allowed in some combined concentrations: Public Relations and Communication Studies, or Public Relations and Journalism. At least twelve credits are required in residence within the major. Students should consult their advisor in selecting a proper distribution of courses.

Foreign Language Requirement

Students will be required to complete two semesters of a single foreign language to fulfill the requirements for a bachelor of arts in communication. Two semesters of American Sign Language will count as fulfilling that requirement.

General Education Requirements

University-wide General Education Requirements are designed to enhance students' basic skills and the diversity of their intellectual background. These requirements assure minimal competence in those skills needed to succeed in college and professional life and provide a selective introduction to the increasingly broad range of academic disciplines represented at the University. They serve to emphasize the fundamental means and essential knowledge required for continuing self-education and intellectual growth. The College adheres to specified timelines for completion of General Education requirements (p. 22).

Some of the courses listed in the University General Education program are also courses required in some majors. With careful course selection, students may satisfy both General Education Requirements and Department Requirements in some majors (and concentrations, where applicable). Students should consult the table in the College introductory section in order to take advantage of these occasions of overlapping requirements.

Writing Intensive Requirement

The requirement of a writing intensive course in the major may be fulfilled by taking one of the following:

Code	Title	Credits
COM 2230	Broadcast News Writing and Digital Editing (broadcast journalism)	3
COM 3400	Theories of Communication (communication studies)	3
COM 5270	Screenwriting (film)	4
COM 4170	Public Relations Writing (public relations)	3
COM 4100	Feature Writing (journalism)	3
COM 3010	Media Analysis and Criticism (media arts and studies)	3
or COM 4560	Telecommunications Policy: A Political Economy Approach	

The writing intensive course should be taken during the junior year after satisfactory completion of the Intermediate Composition (IC) requirement.

Communication Studies (B.A.)

A major in Communication Studies offers students an opportunity to develop excellent communication skills and a thorough knowledge of the process of human communication. Communication studies majors take a variety of courses in public speaking, interpersonal communication, group communication and communication theory.

Employers in business, government, and education identify excellent communication skills as the most important quality they desire in hiring employees. Communication studies majors find careers in many different fields including business, government, education, law and religion.

In addition to the course work below, students must complete all of the department's general degree requirements (p. 185).

All Communication Studies majors must elect the following core courses:

Code	Title	Credits
COM 1010	Oral Communication: Basic Speech	3
COM 2000	Introduction to Communication Studies	3
COM 2110	Argumentation and Debate	3
COM 3400	Theories of Communication	3
COM 4190	Rhetorical Criticism	3
or COM 4210	Research Methods in Communication	
COM 5900	Senior Project in Communication Studies	3
Select at least six credits from the following 2000/3000-level courses:		6
COM 2160	Campaigns and Social Movements	
COM 2170	Persuasive Speaking	
COM 2200	Interpersonal Communication	
COM 2300	Intercultural Communication	
COM 3150	Science Communication	
COM 3170	Fundamentals of Public Relations	
COM 3250	Introduction to Organizational Communication	
COM 3300	Business and Professional Presentations	
Select at least six elective credits from the following 4000-level courses:		6
COM 4041	Rhetoric and the Body	
COM 4110	Studies of Legal Argument	
COM 4130	Communication Ethics	
COM 4140	Popular and Celebrity Culture	
COM 4150	Communication and Conflict	
COM 4200	Nonverbal Communication	
COM 4270	Group Communication	
COM 4500	Leadership Communication	
Select at least six elective credits from the following 5000/6000-level courses:		6
COM 5070	Culture, Communication, and Media	
COM 5120	Public Address	
COM 5130	Communication and Social Marketing	
COM 5190	Special Topics in Communication Studies	
COM 5320	Health Communication	
COM 5330	Rhetoric of Visual Culture	
COM 5360	Gender and Communication	
COM 6190	Internship	
Total Credits		36

COM 5900 is the senior assessment capstone course and should be taken in the last twenty-one credits of the student's program.

Departmental Honors Program

The Communication Department Honors program offers capable students the opportunity to pursue independent study and to work closely with department faculty members. Completion of the honors major results in an honors degree designation on the diploma.

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major at the 2000 level or above, taught by full-time faculty members (internships cannot satisfy this requirement), at least one HON 42xx-level seminar offered through the Honors College, a senior honors thesis under the direction of a faculty advisor in their major area (COM 4996) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Departmental AGRADE Program

The AGRADE program enables highly qualified seniors majoring in Communication Studies or Public Relations to enroll simultaneously in undergraduate and graduate programs and to apply a maximum of 15 credits toward both the undergraduate and graduate degrees. The program encourages such students to continue to graduate school at Wayne State by reducing the time to the master's degree. Only AGRADE-approved courses in which the student has earned a B or higher will transfer to the graduate transcript. Once in the master's program, students may be required to repeat an AGRADE course in which they earn less than a B grade.

Eligibility: AGRADE applicants must have an overall undergraduate GPA of 3.5. Applicants are also expected to have performed at a superior level in their major, as determined by the major department and reflected in a GPA in the major of at least 3.6 at the time of application.

Application: A student seeking AGRADE status should present to the Department of Communication Graduate Committee all of the materials which that department requires for normal admission to the M.A. program with a concentration in Communication Studies. Specific departmental admission requirements can be found in this bulletin or obtained from the Graduate Advisor in the Department of Communication (313-577-2959).

The earliest date by which a student may apply for the AGRADE program is during the semester in which he/she completes 90 credits toward the undergraduate degree.

AGRADE Credits: Students may elect a minimum of three and a maximum of 15 AGRADE credits. These credits will be used to complete the baccalaureate degree as well as to serve as the beginning of graduate study. Upon formal admission to a master's program, AGRADE credits are transferred as if they were graduate credits transferred from a graduate program at another university. The remaining graduate credits required for the master's degree will be earned in the conventional manner following formal admission to the graduate program. Formal admission to the graduate program occurs as AGRADE students complete their baccalaureate degree.

Students admitted into an AGRADE program will develop a Plan of Work for the master's program, specifying the courses that will be taken in the AGRADE status as well as the courses required for the balance of the undergraduate degree. **Note that COM 7000 must be taken in the first semester of AGRADE coursework.** The remaining AGRADE courses must be approved by both the student's undergraduate program advisor and

the graduate director of the master's program. In courses permitting both undergraduate and graduate students to enroll, AGRADE students will be held to the graduate standard.

For more details about the AGRADE program, contact the Graduate Advisor in the Department of Communication (313-577-2959)

Film (B.A.)

The major in Film prepares students for careers as film/video makers, professionals and scholars who can create, interpret and critique film as a visual and narrative art form. Students acquire knowledge of film history and film/media theory as they gain training and experience in the art of storytelling through screenwriting, cinematography, sound recording, editing, producing and directing. Students develop skills in the planning, acquisition and management of resources and logistics as they engage in the conceptualization, realization and exhibition of engaging narratives.

Additional work at the graduate level is recommended for some of these careers.

In addition to the course work below, students must complete all of the department's general degree requirements (p. 185).

Major Requirements: The major in Film requires completion of 45-46 credits in coursework as outlined below.

Code	Title	Credits
Required Courses		33
COM 1600	Introduction to Audio-Television-Film Production	
COM 1610	Fundamentals of New Media Production	
COM 2010	Introduction to Film	
COM 2020	History of Film	
COM 2210	Media Writing and Storytelling	
COM 3380	Editing and Field Production	
COM 5270	Screenwriting	
COM 5400	Techniques of Film and Video Production	
COM 5410	Producer's Workshop	
COM 5540	Film Criticism and Theory	
Portfolio Requirement (select one)		3-4
COM 5420	Director's Workshop	
COM 5440	Film, Cinematography and Lighting	
Electives		
Select nine credits of the following:		9
COM 3010	Media Analysis and Criticism	
COM 3230	The African-American Film Experience	
COM 3240	Queer Film and Media	
COM 4310	Audio Production	
COM 4410	Television Production	
COM 4510	Immersive Media Production	
COM 5020	Studies in Film History	
COM 5060	Documentary and Non-Fiction Film and Television	
COM 5270	Screenwriting (can be twice for an additional 4 credits)	
COM 5440	Film, Cinematography and Lighting (if not taken as portfolio req.)	
COM 5390	Digital Animation	
COM 5420	Director's Workshop	
COM 6190	Internship	
COM 6310	Allesee Lectures in Media (Max. 3)	
COM 6390	Documentary Storytelling I	

COM 6410	Allesee Master Class (Max. 6)
COM 6680	Directed Projects in Film and Media

Total Credits **45-46**

Note: Students interested in Sound Design may fulfill some elective requirements through the Music Technology program in consultation with their advisor.

Film majors are encouraged to take additional film-related courses, offered throughout the university, toward fulfillment of their undergraduate degree requirements. These include, but are not limited to:

Code	Title	Credits
ADA 4220	Time-Based Media II: Experimental Animation	3
AID 3300	Introduction to Industrial Design	3
APH 2400	Introduction to Photography	3
COM 4240	African Americans in Television	4
COM 5610	Advanced TV Production	3
ITA 5150	Italian Cinema	3
SLA 3710	Russian and East European Film	3-4
SLA 3750	Polish and Yugoslavian Cinema	3
THR 4271	Acting for the Camera	3

Departmental Honors Program

The Communication Department Honors program offers capable students the opportunity to pursue independent study and to work closely with department faculty members. Completion of the honors major results in an honors degree designation on the diploma.

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major at the 2000 level or above, taught by full-time faculty members (internships cannot satisfy this requirement), at least one HON 42xx-level seminar offered through the Honors College, a senior honors thesis under the direction of a faculty advisor in their major area (COM 4996) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Journalism (B.A.)

Journalism majors plan careers in news editorial, broadcast, media relations or marketing and advertising. Students have a choice between a concentration in Print and Online journalism or one in Broadcast and Digital Media.

Journalism Institute for Media Diversity: The Journalism Institute for Media Diversity is designed to recruit and train talented undergraduate students interested in diversity in the media. Members of all racial and ethnic groups as well as anyone interested in studying the importance of diversity in the nation's media are particularly urged to apply. The Institute pools the resources of the University, the business community and Detroit area media professionals to provide scholarships and internships for some of its students. For additional information contact:

Director, Journalism Institute for Media Diversity
Wayne State University Journalism Program
559 Manoogian
Detroit, MI 48201
Telephone: 313-577-6304

Major Requirements

Journalism majors plan careers in news editorial, broadcast, media relations or marketing and advertising. Students have a choice between a concentration in Print and Online (p. 188) journalism or one in Broadcast News and Digital Media (p. 188). A journalism advisor must be consulted for verification of requirements, which includes at least one required three-credit internship.

In addition to the course work below, students must complete all of the department's general degree requirements (p. 185).

Print and Online Concentration

Departmental Honors Program

The Communication Department Honors program offers capable students the opportunity to pursue independent study and to work closely with department faculty members. Completion of the honors major results in an honors degree designation on the diploma.

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major at the 2000 level or above, taught by full-time faculty members (internships cannot satisfy this requirement), at least one HON 42xx-level seminar offered through the Honors College, a senior honors thesis under the direction of a faculty advisor in their major area (COM 4996) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Media Arts and Studies (B.A.)

The major in Media Arts and Studies prepares students for careers in a wide range of media industries (such as radio, television, film and interactive media), for graduate programs in production and media studies, and to compete in a rapidly changing technological world. By

integrating the history, theory and analysis of media culture, practices, and technology with production experience and internship opportunities, the program prepares students to think critically and creatively about media and become skilled communicators who are socially, ethically and aesthetically astute.

In addition to the course work below, students must complete all of the department's general degree requirements (p. 185).

Major Requirements: The major in Media Arts and Studies requires completion of a minimum of forty to forty-two credits in coursework as outlined below.

Code	Title	Credits

Departmental Honors Program

The Communication Department Honors program offers capable students the opportunity to pursue independent study and to work closely with department faculty members. Completion of the honors major results in an honors degree designation on the diploma.

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major at the 2000 level or above, taught by full-time faculty members (internships cannot satisfy this requirement), at least one HON 42xx-level seminar offered through the Honors College, a senior honors thesis under the direction of a faculty advisor in their major area (COM 4996) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Public Relations (B.A.)

Students electing this major typically seek employment in one of the many career opportunities in public relations: business and industry; non-profit organizations; trade associations; government service; education; or account executive positions in an agency. Some students later pursue graduate-level study in fields such as organizational communication. The Public Relations program at Wayne State is one of two programs in Michigan accredited by The Public Relations Society of America.

In addition to the course work below, students must complete all of the department's general degree requirements (p. 185).

The major in Public Relations requires completion of a minimum of forty-two credits in coursework as outlined below.

Code	Title	Credits
Core Courses		
All of the following are required		
COM 1500	Survey of Mass Communication	3
COM 2030	Journalistic Grammar and Style	3
COM 2100	News Reporting	3
COM 2170	Persuasive Speaking	3
or COM 3300	Business and Professional Presentations	
COM 3170	Fundamentals of Public Relations	3
COM 3210	News Editing	3
COM 3250	Introduction to Organizational Communication	3
COM 3400	Theories of Communication	3

COM 4130	Communication Ethics	3
COM 4170	Public Relations Writing	3
COM 4210	Research Methods in Communication	3
COM 5160	Public Relations Campaigns and Issues Management ¹	3
COM 5130	Communication and Social Marketing	3
Select one of the following:		
COM 5140	Public Relations and Social Media	
COM 5300	Layout and Design	
COM 5500	Journalism and New Media	

¹ COM 5160 is the senior level capstone course. To be taken in last twenty-one credits of study

Recommended electives include: COM 2200 Interpersonal Communication, COM 2260 Digital Writing and Research Methods, COM 2290 Fundamentals of New Media Communication, COM 6190 Internship, as well as courses in Journalism (COM 4100 Feature Writing). An advisor should be consulted early in the student's program. Direct inquiries to 585 Manoogian Hall (313-577-2946).

Departmental Honors Program

The Communication Department Honors program offers capable students the opportunity to pursue independent study and to work closely with department faculty members. Completion of the honors major results in an honors degree designation on the diploma.

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major at the 2000 level or above, taught by full-time faculty members (internships cannot satisfy this requirement), at least one HON 42xx-level seminar offered through the Honors College, a senior honors thesis under the direction of a faculty advisor in their major area (COM 4996) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Departmental AGRADE Program

The AGRADE program enables highly qualified seniors majoring in Communication Studies or Public Relations to enroll simultaneously in undergraduate and graduate programs and to apply a maximum of 15 credits toward both the undergraduate and graduate degrees. The program encourages such students to continue to graduate school at Wayne State by reducing the time to the master's degree. Only AGRADE-approved courses in which the student has earned a B or higher will transfer to the graduate transcript. Once in the master's program, students may be required to repeat an AGRADE course in which they earn less than a B grade.

Eligibility: AGRADE applicants must have an overall undergraduate GPA of 3.5. Applicants are also expected to have performed at a superior level in their major, as determined by the major department and reflected in a GPA in the major of at least 3.6 at the time of application.

Application: A student seeking AGRADE status should present to the Department of Communication Graduate Committee all of the materials which that department requires for normal admission to the M.A. program with a concentration in Communication Studies. Specific departmental admission requirements can be found in this bulletin or

obtained from the Graduate Advisor in the Department of Communication (313-577-2959).

The earliest date by which a student may apply for the AGRADE program is during the semester in which he/she completes 90 credits toward the undergraduate degree.

AGRADE Credits: Students may elect a minimum of three and a maximum of 15 AGRADE credits. These credits will be used to complete the baccalaureate degree as well as to serve as the beginning of graduate study. Upon formal admission to a master's program, AGRADE credits are transferred as if they were graduate credits transferred from a graduate program at another university. The remaining graduate credits required for the master's degree will be earned in the conventional manner following formal admission to the graduate program. Formal admission to the graduate program occurs as AGRADE students complete their baccalaureate degree.

Students admitted into an AGRADE program will develop a Plan of Work for the master's program, specifying the courses that will be taken in the AGRADE status as well as the courses required for the balance of the undergraduate degree. **Note that COM 7000 must be taken in the first semester of AGRADE coursework.** The remaining AGRADE courses must be approved by both the student's undergraduate program advisor and the graduate director of the master's program. In courses permitting both undergraduate and graduate students to enroll, AGRADE students will be held to the graduate standard.

For more details about the AGRADE program, contact the Graduate Advisor in the Department of Communication (313-577-2959)

Communication Studies Minor

A minor in this area requires:

Code	Title	Credits
COM 1010	Oral Communication: Basic Speech	3
COM 2000	Introduction to Communication Studies	3
COM 2110	Argumentation and Debate	3
COM 3400	Theories of Communication	3
Two additional communication studies courses selected in consultation with an advisor		6
Total Credits		18

Film Minor

Students pursuing a minor in Film must complete **19 credits** including:

Code	Title	Credits
COM 1600	Introduction to Audio-Television-Film Production	3
COM 2010	Introduction to Film	4
COM 2210	Media Writing and Storytelling	3
Select an additional nine credits of film-related courses in consultation with advisor. See course list below:		9
COM 2020	History of Film	
COM 3230	The African-American Film Experience	
COM 4310	Audio Production	
COM 3380	Editing and Field Production	
COM 5020	Studies in Film History	
COM 5060	Documentary and Non-Fiction Film and Television	
COM 5270	Screenwriting	
COM 5390	Digital Animation	
COM 5400	Techniques of Film and Video Production	

COM 5410	Producer's Workshop
COM 5420	Director's Workshop
COM 5440	Film, Cinematography and Lighting
COM 5540	Film Criticism and Theory
COM 6190	Internship
COM 6310	Allesee Lectures in Media
COM 6390	Documentary Storytelling I
COM 6410	Allesee Master Class

Total Credits **19**

Health Communication Minor

A minor in this area requires the following:

Code	Title	Credits
COM 2000	Introduction to Communication Studies	3
COM 3170	Fundamentals of Public Relations	3
COM 3250	Introduction to Organizational Communication	3
COM 4210	Research Methods in Communication	3
COM 5130	Communication and Social Marketing	3
COM 5320	Health Communication	3

Total Credits **18**

Journalism Minor

Print and Online Concentration

A minor in this area requires:

Code	Title	Credits
COM 1500	Survey of Mass Communication ¹	3
or COM 1700	Media Literacy	
COM 2030	Journalistic Grammar and Style	3
COM 2100	News Reporting	3
COM 3210	News Editing	3
COM 4100	Feature Writing	3
COM 5080	History of Journalism and Mass Media ²	3
or COM 5710	Law and Ethics in Journalism and Mass Media	
One additional skills course with advisor approval:		1-3
COM 2280	Digital Photojournalism	
COM 3100	Public Affairs Reporting	
COM 5500	Journalism and New Media	
COM 6190	Internship	

Total Credits **19-21**

¹ Only 3 credits of either COM 1500 or COM 1700.

² Only 3 credits of either COM 5080 or COM 5710.

Broadcast News and Digital Concentration

A minor in this area requires:

Code	Title	Credits
COM 1500	Survey of Mass Communication ¹	3
or COM 1700	Media Literacy	
COM 2030	Journalistic Grammar and Style	3
COM 2100	News Reporting	3
COM 2230	Broadcast News Writing and Digital Editing	3
COM 5080	History of Journalism and Mass Media ²	3

or COM 5710	Law and Ethics in Journalism and Mass Media	
COM 5381	TV News Reporting and Digital Editing	3
One additional skills course with advisor approval:		1-3
COM 2280	Digital Photojournalism	
COM 5500	Journalism and New Media	
COM 5610	Advanced TV Production	
COM 6190	Internship	
Total Credits		19-21

¹ Only 3 credits of either COM 1500 or COM 1700.

² Only 3 credits of either COM 5080 or COM 5710.

Media Arts and Studies Minor

A minor in Media Arts and Studies requires a total of 18 credits:

Code	Title	Credits
Media Production Core (three credits):		3
COM 1600	Introduction to Audio-Television-Film Production	
Media Studies Core (Select three credits from the following):		3
COM 1500	Survey of Mass Communication	
COM 1700	Media Literacy	
Media Writing Core (Select three credits from the following):		3
COM 2210	Media Writing and Storytelling	
COM 3010	Media Analysis and Criticism	
Electives (Select nine credits from the following, including at least three credits at the 4000 level or above):		9
COM 1610	Fundamentals of New Media Production	
COM 2010	Introduction to Film	
COM 2210	Media Writing and Storytelling	
COM 3010	Media Analysis and Criticism	
COM 3380	Editing and Field Production	
COM 4240	African Americans in Television	
COM 4310	Audio Production	
COM 4410	Television Production	
COM 4560	Telecommunications Policy: A Political Economy Approach	
COM 5010	History of Communication Technologies	
COM 5060	Documentary and Non-Fiction Film and Television	
COM 5270	Screenwriting	
COM 5510	Societal Effects of New Technologies	
COM 5520	International Communications	
COM 5610	Advanced TV Production	
Total Credits		18

New Media Minor

A minor in this area requires:

Code	Title	Credits
COM 1500	Survey of Mass Communication	3
or COM 3400	Theories of Communication	
COM 2260	Digital Writing and Research Methods	3
COM 2290	Fundamentals of New Media Communication	3
COM 2310	Introduction to Web Design	3
or COM 5500	Journalism and New Media	

Two additional new media electives selected in consultation with a departmental advisor 6

Total Credits 18

Public Relations Minor

A minor in this area requires:

Code	Title	Credits
COM 1500	Survey of Mass Communication	3
COM 2030	Journalistic Grammar and Style	3
COM 2100	News Reporting	3
COM 3170	Fundamentals of Public Relations	3
COM 4170	Public Relations Writing	3
COM 3210	News Editing	3

Graduate Officer: Joshua Duchan

Academic Advisor: Dan Hanrath

Academic Services Officer: Mickayla Chapman

Supervisor; Personnel and Scheduling: Evelyn Williams

<http://www.music.wayne.edu> (<http://www.music.wayne.edu/>)

The Department of Music cultivates music as a modern and global art, grounded in a long historical tradition, by combining higher education with professional training and experience for its undergraduate and graduate/professional students.

The Department offers serious students of music opportunities to learn, grow, and develop their skills and disciplines in an urban cultural setting. With close proximity to Detroit's cultural center, students have access to the resources of such premiere institutions as the Chamber Music Society, the Detroit Institute of Arts, the Detroit Jazz Festival, the Detroit Public Library, the Detroit Opera House, and Orchestra Hall. The long historical relationship between the Detroit Symphony Orchestra and the

Department allows students to study and coach with exceptional guest artists and resident artist-faculty who are specialists in all musical styles and media.

Building on the strengths of its geographic and cultural setting, the Department maintains public access to its performances and degree programs, offers high-level professional and academic standards and unique creative and scholarly opportunities appropriate to a large research university, and cultivates a deep aesthetic understanding of music in our students and the larger urban arts community.

- Music (B.A.) (p. 196)
- Music (B.Mus.) (p. 196)
- Music Minor (p. 201)
- Music Industry Studies Minor (p. 202)
- Music Technology Minor (p. 202)
- Jazz Studies Minor for Instrumental Music Education Majors (p. 202)
- Law Minor (p. 172)

Bachelor Degree Requirements

Department of Music

Registration: All students must meet with a Department of Music advisor prior to initial course registration and at least once per term for early registration advising. Enrollment in all MUP courses requires departmental permission.

Scholarship: All course credit applicable to the degree programs described in the following pages must be completed in accordance with the academic procedures of the University (p. 38) and the College (p. 167) governing undergraduate scholarship and degrees.

Music majors pursuing undergraduate degrees must earn the grade of C or better in all music courses required in the music curriculum they are pursuing. The grade of C-minus or below is not an acceptable grade for degree credit. If the grade of C-minus or below (or a mark of WF) is received by a music major in any required course in a music curriculum, the student must repeat the course and earn a grade of C or better. Students who fail to achieve a grade of C or better in required music courses following two attempts may not be allowed to continue to register as Music Majors.

DOUBLE MAJORS: Music majors in any concentration may seek a second major outside Music with the approval of the Department of Music and the Department offering the second major. Double concentrations within a single major, however, are not granted by the University.

Ensemble Participation

The Music Department encourages all musically inclined students to join its ensembles. Participation gives music majors and non-majors the opportunity to improve their musical skills and perform in internationally recognized groups. Conductors audition new students during the week before classes begin; the level of skill necessary varies by ensemble, however, most require music literacy. Music majors must elect designated Major Ensembles (MUA 2800, MUA 2810, MUA 2820, MUA 2822, MUA 2840, or MUA 2850) for degree credit.

BANDS: Woodwind, brass and percussion players are welcome to join the Concert Band. Wind Symphony members are chosen through competitive auditions.

CHORUSES: Non-music majors are encouraged to register for Choral Union (the large mixed-voice choir), Men's Chorus or Women's Chorale. Concert Chorale is the Department's most select vocal ensemble, and auditions are especially competitive. Music majors who are required to participate in a choral ensemble must elect Choral Union (MUA 2840) or Concert Chorale (MUA 2850) for degree credit.

JAZZ: Jazz studies and other music majors are given highest priority for jazz big band positions (MUA 2820) and jazz guitar ensembles (MUA 2822). Non-music majors are welcome to audition for all jazz ensembles and combos.

ORCHESTRA: Positions in the Orchestra are assigned through auditions with the conductor of the Orchestra.

General Education Requirements

University-wide General Education Requirements are designed to enhance students' basic skills and the diversity of their intellectual background. These requirements assure minimal competence in those skills needed to succeed in college and professional life and provide a selective introduction to the increasingly broad range of academic disciplines represented at the University. They serve to emphasize the fundamental means and essential knowledge required for continuing self-education and intellectual growth. The College adheres to specified timelines for completion of General Education requirements (p. 22).

Some of the courses listed in the University General Education program are also courses required in some majors. With careful course selection, students may satisfy both General Education Requirements and Department Requirements in some majors (and concentrations, where applicable). Students should consult the department academic advisors in order to take advantage of these occasions of overlapping requirements.

Music: Private Instruction

Private instruction in instruments and voice are required in all B.A. and B.Mus. concentrations. The courses listed in the following table under *Principal and Secondary Private Instruction*, MUP 1xxx and 3xxx, are available for one credit each and are intended for students studying instruments as required in the concentrations:

- B.A. in Music
- Composition
- Instrumental Music Education
- Vocal Music Education
- Music Business
- Music Technology
- Jazz Studies
- secondary instrument study in the Performance concentration

All students must successfully pass a junior-standing jury for permission to continue elections at the 3xxx level.

The courses listed in the following table under *Major Private Instruction*, MUP 2xxx and 4xxx, are available for three credits each and are intended for students studying major instruments as required in all performance concentrations. All students must successfully pass a junior-standing jury for permission to continue elections at the 4xxx level.

Corequisite: Students enrolled in MUP Private Instruction must concurrently register in an appropriate major ensemble selected from the following:

Code	Title	Credits
MUA 2800	University Bands	1
MUA 2810	University Symphony Orchestra	1
MUA 2820	Jazz Big Band	1
MUA 2822	Jazz Guitar Ensemble	1
MUA 2840	Choral Union	1
MUA 2850	Concert Chorale	1

Fees: MUP courses have applied music fees as stated in course list in the bulletin as well as the schedule of classes.

Music (B.A.)

The Bachelor of Arts curriculum is designed for students who want to develop their musical knowledge and ability while obtaining a broad liberal arts education. It provides students with the academic and musical prerequisites necessary for continuing graduate study in such fields as music theory, musicology and ethnomusicology.

Admission Requirements for the Bachelor of Arts program are satisfied by

1. general requirements for admission (p. 32) to the University;
2. a successful audition on a principal instrument or voice.

Candidates for this degree must complete a minimum of 120 credits including satisfaction of the University General Education requirements (p. 22), College degree requirements (p. 169), and Bachelor of Arts curriculum requirements listed below.

ONLY SIXTY CREDITS IN MUSIC ARE APPLICABLE TO THIS DEGREE.

General Education Requirements (35 Credits)

Code	Title	Credits
MUH 1345	Music Cultures (to satisfy the Global Learning distribution requirement)	3
Other requirements		32

Music Requirements (47 – 48 Total Credits)

Code	Title	Credits
Piano Competency, Applied Music, and Ensembles		
MUA 1795	Piano Skills I	2
MUA 2795	Piano Skills II	2
Four terms of appropriate MUP: private instruction in principal instrument or voice. See Principal and Secondary Private Instruction Courses for courses.		4
Select four terms of the same ensemble (must be elected concurrently with MUP private instruction) from the following:		4
MUA 2800	University Bands	
MUA 2810	University Symphony Orchestra	
MUA 2820	Jazz Big Band	
MUA 2822	Jazz Guitar Ensemble	
MUA 2840	Choral Union	
MUA 2850	Concert Chorale

Music Elective	
Select one of the following: 2-3	
MUA 3670	Conducting Techniques I
MUH 3360	Jazz History
MUH 5300	Music Research
MUT 2100	Counterpoint
MUT 5085	History of Theory
MUT 5220	Introduction to Schenkerian Analysis
MUT 5240	Analysis of Twentieth-Century Music
MUT 5200	Special Topics in Theory
B.A. Project	
Select one of the following: 2	
MUA 4990	BA Project
MUH 4990	BA Project
MUT 4990	BA Project

Total Credits 47-48

Outline of Departmental Honors (12 credits):

-HON 42XX – Junior/Senior level Seminar (3 credits)

-Undergraduate Thesis in conjunction with MUT 5997 – Analytical Techniques (3 credits)

-Six honors credits of MED, MUA, MUH, or MUT courses 3000-level or above (6 credits)

Music (B.Mus.)

The Bachelor of Music degree provides a program for talented students with prior musical experience and skills who seek professional training in music. A wide range of concentrations is available under the program to meet the specialized interests and career plans of serious music students. Depending on the student's qualifications, he or she may choose from seven professional areas of concentration: composition; instrumental music education; vocal music education; music business; music technology; jazz studies; or performance.

Admission Requirements

Admission to this program is contingent upon

1. satisfaction of the general requirements for undergraduate admission (p. 32) to the University;
2. a successful audition on a principal instrument or voice.

Audition dates are scheduled throughout the year and prospective students should contact the Music Office at 313-577-1795 for scheduling information. Entering students must consult a departmental advisor prior to their first registration.

Program Requirements

Candidates for the Bachelor of Music must complete 120 to 127 credits including satisfaction of the University General Education requirements (p. 22), College degree requirements (p. 169), as well as the specific course requirements for each concentration listed below. In addition, all Bachelor of Music students are required to successfully complete a junior-standing performance jury and, depending upon concentration, other junior-standing assessments during the fourth semester of enrollment.

Concentrations (B.Mus. Program)

Composition (120 Credits minimum)

Code	Title	Credits
General Education Requirements		
MUH 1345	Music Cultures (to satisfy the Global Learning distribution requirement)	3
PHI 3700	Philosophy of Art (to satisfy the Cultural inquiry, Philosophy and Letters General Education distribution requirement)	3
Other requirements		29
Piano Competency, Applied Music, and Ensembles		
MUA 1795	Piano Skills I	2
MUA 2795	Piano Skills II	2
Six terms of appropriate MUP courses (private instruction in principal instrument or voice, one credit per term - total six credits). See Principal and Secondary Private Instruction Courses for courses		6
If Piano is not the principal instrument, two terms of MUP 1215, Secondary Piano and two terms of MUP 3215, Secondary Piano (Students whose principal instrument is not piano may apply these four credits to satisfy the elective requirement).		0-4
Select six terms of major ensemble (must be elected concurrently with MUP private instruction) of the following:		6
MUA 2800	University Bands	
MUA 2810	University Symphony Orchestra	
MUA 2820	Jazz Big Band	
MUA 2822	Jazz Guitar Ensemble	
MUA 2840	Choral Union	
MUA 2850	Concert Chorale	
Select one term of chamber music of the following:		1
MUA 2826	Jazz Combos	
MUA 2880	Chamber Music and Special Ensembles	
MUA 2891	Electronic Music Ensemble	
General Lectures and Concerts		
MUA 0900	General Lectures and Concerts (four terms)	0
Music History, Music Theory, Conducting and Technology		
MUH 3310	Music History and Literature I	3

MUH 3330	Music History and Literature III	
Performance Ensemble		
Select four credits in one ensemble from the following:		4
MUA 2800	University Bands	
MUA 2810	University Symphony Orchestra	
MUA 2820	Jazz Big Band	
MUA 2822	Jazz Guitar Ensemble	
MUA 2840	Choral Union	
MUA 2850	Concert Chorale	
Total Credits		22

Jazz Studies Minor for Instrumental Music Education Majors

The minor in jazz studies is designed for instrumental music education majors who wish to gain experience in jazz. Requirements for the jazz studies minor consist of eighteen credits in the following courses:

Code	Title	Credits
Music History and Theory		
MUH 3360	Jazz History	3
MUT 2120	Jazz Theory and Harmony	3
MUT 2885	Jazz Improvisation I	1
MUT 2887	Jazz Improvisation II	1
MUT 5110	Jazz Arranging and Composition I	3
MUT 5120	Jazz Arranging and Composition II	3
Ensemble and Piano Competency		
MUA 2820	Jazz Big Band	1
MUA 2826	Jazz Combos	1
MUA 3795	Advanced Piano Skills	2
Total Credits		18

Music Industry Studies Minor

The Music Department offers a minor in Music Industry Studies to undergraduate students majoring in other disciplines. The program is designed for students who wish to engage with and explore the theoretical and practical fundamentals of the music industry.

Students pursuing the minor in Music Industry Studies must complete a minimum of 18-19 credits by taking the classes listed below.

Code	Title	Credits
MUH 1351	History and Styles of Rock and Roll	3
or MUH 1350	History of American Popular Music	
MUA 2400	Survey of the Music Business	3
MUA 3500	Music IP and Stakeholders	3
ECO 2010	Principles of Microeconomics	4
Select two or more of the following (to reach a minimum of 18 credits):		5-6
MUA 4000	Marketing and Artist Management in Music	
MUA 4500	Music Entrepreneurship and Leadership	
MUA 5800	Strategy and Organization in Music	
MUA 5900	Music Industry Seminar	
FPC 5660	Creativity	
COM 4680	WAYN Radio	
THR 3651	Principles of Theatre Management	
THR 3681	Theatre Management: Patron Services and Development	
Additionally, students may elect any course in MUP, MUA, MUT, or MUH to meet the elective requirements.		
Total Credits		18-19

Music Technology Minor

The Music Department offers a minor in music technology for undergraduate students majoring in other disciplines. The program is designed for the students who wish to learn fundamental knowledge in sound engineering and electronic music production.

Students pursuing the minor in Music Technology must complete a minimum of 18 credits by taking the classes listed below.

Code	Title	Credits
MUA 2500	Music Technology	3
MUA 2510	Studio Recording Techniques	2
MUA 2530	Electronic Music Synthesis	3
MUA 3510	Mixing and Mastering	2
MUA 3530	Advanced Music Synthesis	3
Select two of the following:		5-7
MUA 3550	Advanced Studio Techniques	
MUA 4010	Audio Electronics	
MUA 4020	Theories of Electronic Music	
MUA 4030	Sound Design for Visual Media	
MUA 4040	Electroacoustic Music	
MUT 5280	Interactive Electronic Music Composition	
PHY 3100	The Sounds of Music	
Total Credits		18-20

Theatre and Dance

Office: 3226 Old Main; 313-577-3508

Chairperson: Michael J. Barnes

<http://www.theatreanddance.wayne.edu> ([http://](http://www.theatreanddance.wayne.edu/)

www.theatreanddance.wayne.edu/)

The Theatre and Dance Programs prepare students for professional careers as performing artists, choreographers, designer/technicians, stage managers, and informed audience members within the urban, metropolitan context of Wayne State University. The Department of Theatre and Dance is committed to providing student the opportunity to develop within their disciplines through an extensive performance program that includes twelve theatrical productions and dance concerts, four community outreach performance companies that target the city schools, a summer children's theatre tour designed to bring affordable quality summer entertainment to the youth of Detroit, the Underground Theatre Company—a student-run summer theatre, and Baira WSU Professional Resident Dance Company.

Theatre and Dance Mission Statement: We engage, educate, and empower diverse/student/artists through the rigorous study, practice, and production of theatre and dance to enrich Detroit and the Global Community.

Dance

The Dance Program prepares students for professional careers as performing artists, choreographers, dance teachers, and informed dance audience members. The dance program offers curricular choices at the undergraduate and post-degree levels, integrating a thorough understanding of applied and theoretical principles of movement with the newest forms and ideas in contemporary dance performance, choreography, and dance education. Undergraduate studies in dance are reflected in the following major and minor designations: Major in Dance leading to the Bachelor of Science degree; Major in Dance leading to the Bachelor of Fine Arts degree.

The Wayne State University Dance Company, Dance Workshop, and To Sangana African Dance Company are performing groups composed of skilled dance students who must qualify for membership through auditions. They present concerts, lecture/demonstrations, and performances on campus and in the community, choreographed by visiting artists, faculty, and talented students. Students must have a minimum 2.5 overall GPA to participate in a performance ensemble. The Dance Program also provides dance instruction for non-majors and develops general appreciation for dance as an art form.

Theatre

The various theatre programs in the Department offer creative opportunities for preprofessional training at every academic level. Undergraduate majors may prepare for careers in teaching, acting, design/technology and related fields. The Department sponsors a large number of production activities and practicum experiences including performances in the Hilberly Gateway theatre complex, Underground Theatre, Freedom Players, Motor City Cabaret, and Summer Children's Theatre. Participation in these activities is available to all University students.

- Dance (B.F.A.) (p. 203)
- Dance (B.S.) (p. 205)
- Theatre (B.A.) (p. 209)
- Theatre (B.F.A.) (p. 206)
- Africana Theatre and Dance Minor (p. 210)
- Dance Minor (p. 210)

- General Theatre Minor (p. 210)
- Musical Theatre Minor (p. 211)
- Studio and Community Dance Minor (p. 211)
- Theatre Design and Technology Minor (p. 212)
- Theatre Management Minor (p. 212)
- Law Minor (p. 172)

Dance (B.F.A.)

The Bachelor of Fine Arts with a major in dance provides a professional degree program for talented students with prior dance experience and skills who seek professional careers as performing artists and choreographers. Dance technique and the history, philosophies, and aesthetics of dance are all central to this program.

Admission Requirements

Admission to this program is contingent upon satisfaction of the general requirements for undergraduate admission (p. 32) to the University and a successful audition conducted by the Department faculty. Audition dates are scheduled throughout the year prior to admission. Prospective students should contact the Theatre and Dance Office for audition schedule information.

All B.F.A. dance majors must be enrolled in appropriate level technique classes each semester and evidence successful progress in their respective degree programs in order to maintain dance major status. Any dance major who does not comply and/or does not register and complete appropriate dance coursework for one semester MUST AUDITION FOR THE DANCE PROGRAM for re-admission. Students out of the dance program for two semesters or more are rarely re-admitted to the program.

Program Requirements

Candidates must complete a minimum of 120 credits in course work, including satisfaction of the University General Education requirements (p. 22), College degree requirements (p. 169) and a minimum of eighty credits in dance courses (specified below). B.F.A students must comply with the following department policies – any student who does not meet these standards will be placed on Departmental probation and may be denied continuation in the program: the credits in specified Dance courses must be completed with grades of C minus or better; dance technique and choreography classes must be completed with a B plus or better; and a 3.0 cumulative g.p.a must be maintained. Students must be current in their plan of work and all Basic Competency courses must be completed prior to enrolling in the Capstone course.

All course work must be completed in accordance with the academic procedures of the University (p. 38) and the College of Fine, Performing and Communication Arts (p. 169) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

General Education Course Progress

Majors must complete the Basic Composition (BC) requirement by the time forty-five credits have been earned, and the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time sixty credits have been earned. Failure to meet these limits on matriculation will result in the student being placed on departmental probation: the student will be ineligible to be cast in or participate as a member of the artistic/production staff of department productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

B.F.A. Major Requirements

Code	Title	Credits
Required Technique Credits		
Students must complete 32 credits of Technique coursework.		32
DNC 1220	Fundamentals of Classic Ballet II	
DNC 1300	Pilates Conditioning for Performing Artists	
DNC 2010	Contemporary Dance II: Part I	
DNC 2610	African Diasporic Dance Technique I	
DNC 3010	Contemporary Dance III	
DNC 3200	Ballet III	
DNC 3410	African Diasporic Dance Technique II	
DNC 2600	African Dance II	
DNC 3300	Pilates Equipment Lab	
Performance		
Students must complete nine credits of performance coursework.		9
Select from the following:		
DNC 4000	Performance Tour	
DNC 4710	Dance Company	
DNC 4800	Repertory	
Creative Practice		
DNC 2460	Dance Improvisation	2
DNC 2500	Choreography I	2
DNC 3500	Choreography II	2
DNC 5560	Choreography III	2
DNC 5996	Senior Capstone Research (1 Credit in Fall, 2 Credits in Winter)	3
Required Theory Courses		
DNC 1330	Production Practicum	2
DNC 2400	Introduction to African Dance	3
DNC 2000	Introduction to World Dance	3
DNC 2310	History of Dance from 1800 to the Present	3
DNC 2180	Anatomy of Human Movement	3
THR 3341	Design Skills - Digital I	2

DNC 3810	Dance Pedagogy	3
Core Theory Courses		
Select two of the following:		6
DNC 1810	Introduction to Dance Professions	
DNC 2410	Music and Dance Relationships	
DNC 4810	Dance Teaching Methods	
DNC 3180	Dance Science	
DNC 4910	Dance in Community	
Total Credits		80

Performance Opportunities

There are three performance ensembles: the W.S.U. Dance Company One, Dance Workshop, and To Sangana African Dance Company composed of skilled dance students who must qualify for membership through auditions. They present concerts, lecture/demonstrations, and performances on campus and in the community, choreographed by visiting artists, faculty, and talented students. Students must have a minimum 2.5 overall g.p.a. to participate in a performance ensemble.

Dance Honors Program (B.S. and B.F.A. degrees)

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major taught by full-time faculty members (internships cannot satisfy this requirement), at least one 42XX honors seminar offered through the Honors College, a senior honors thesis under the direction of a faculty advisor in their major area (DNC 5997) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Dance Honors Curriculum (15 credits required)

Code	Title	Credits
Select the Honors Option in three of the following:		9-10
DNC 2000	Introduction to World Dance	
DNC 2300	History of Dance to 1800	
DNC 2310	History of Dance from 1800 to the Present	
DNC 3180	Dance Science	
DNC 3310	Dance Production	
DNC 3810	Dance Pedagogy	
DNC 4810	Dance Teaching Methods	
DNC 5810	Teaching Creative Dance for Children	
DNC 5997	Departmental Honors Thesis	3
HON 42xx	Honors Seminar	3
Total Credits		15-16

Student must maintain an overall 3.3 g.p.a.

For additional information, students should consult the Irvin D. Reid Honors College (<http://www.honors.wayne.edu>).

Dance Teaching Majors (B.F.A. and B.S. Programs)

Professional Education Sequence: The additional following courses are required for a K-12 teaching major in dance, K-12 certification, and a major in dance, secondary certification for both the B.F.A. and the B.S. degrees:

Code	Title	Credits
DNC 3190	Movement Analysis	3
DNC 3810	Dance Pedagogy	3
DNC 4410	Student Teaching and Seminar I	5
DNC 4420	Student Teaching and Seminar II	5
DNC 4810	Dance Teaching Methods	3
DNC 4820	Assisting in Dance	1
DNC 4910	Dance in Community	3

DNC 5830	Field Work in Creative Dance	2-8
EDP 5480	Adolescent Psychology	3
LFA 2330	First Aid and CPR	3
or HE 3300	Health of the School Child	
RLL 6121	Teaching Reading in the Content Areas: Grades 6-12	3
Total Credits		37-43

Dance (B.S.)

This degree program is for students with prior dance experience who wish to combine university-level dance studies with targeted general study in the arts and sciences. The Bachelor of Science in Dance offers an integrative program of dance professions, culture and community providing students multiple opportunities to enhance technical skill, investigate shifting social and global concerns, and cultivate innovative approaches for dance career preparation in diverse contexts and related professions.

Admission Requirements

Admission to this program is contingent upon satisfaction of the general requirements for undergraduate admission (p. 32) to the University and a successful audition conducted by the Department faculty. Audition dates are scheduled each November, December and February in the year prior to admission; prospective students should contact the Theatre and Dance Office (<http://theatreanddance.wayne.edu/dance/>) for audition schedule information. Entering students are required to consult the Departmental advising staff prior to their first registration for classes.

All B.S. dance majors must be enrolled in required curriculum each semester and evidence successful progress in the B.S. degree program in order to maintain dance major status. Any dance major who does not comply and/or does not register and complete appropriate dance coursework for one semester MUST AUDITION FOR THE DANCE PROGRAM for re-admission.

Program Requirements

Candidates must complete a minimum of 120 credits in course work, including satisfaction of the University General Education requirements (p. 22), College degree requirements (p. 169), minimum fifty-nine credits in dance courses (specified below) and minimum twenty-nine credits in electives. B.S students must comply with the following department policies – any student who does not meet these standards will be placed on Departmental probation and may be denied continuation in the program: the credits in specified Dance courses must be completed with grades of C minus or better and 2.5 cumulative g.p.a must be maintained. Students must be current in their plan of work and all Basic Competency courses must be completed prior to enrolling in the Capstone course.

All course work must be completed in accordance with the academic procedures of the University (p. 38) and the College of Fine, Performing and Communication Arts (p. 169) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

General Education Course Progress

majors must complete the Basic Composition (BC) requirement by the time forty-five credits have been earned, the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time sixty credits have been earned. Failure to meet these limits on matriculation will result in the student being placed on departmental probation: the student will be ineligible to be cast in or participate as a member of the artistic/production staff of department productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

Pre-Dance/Movement Therapy Concentration (B.S. Program)

Students completing this concentration will gear their capstone internship in dance towards human services or a related mental health discipline. Students who complete this concentration will graduate with a B.S. in Dance and minor in Psychology.

In addition to the regular B.S. requirements, the following courses are required:

Code	Title	Credits
DNC 3180	Dance Science	3
PSY 1010	Introductory Psychology	4
PSY 2020	Research Methods In Psychology	4
PSY 2400	Developmental Psychology	4
PSY 2410	Health Psychology	4
PSY 3310	Introduction to Psychopathology	4
Capstone Internship		3

SOC 2203 Social Psychology is a not required course, but it supports the concentration in Movement Therapy and may support entrance into specific master's programs. DNC 1330 Production Practicum and DNC 3310 Dance Production are not required for the Movement Therapy concentration.

Dance Honors Program (B.S. and B.F.A. degrees)

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major taught by full-time faculty members (internships cannot satisfy this requirement), at least one 42XX honors seminar offered through the Honors College, a senior honors thesis under the direction of a faculty advisor in their major area (DNC 5997) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Dance Honors Curriculum (15 credits required)

Code	Title	Credits
Select the Honors Option in three of the following:		9-10
DNC 2000	Introduction to World Dance	
DNC 2300	History of Dance to 1800	
DNC 2310	History of Dance from 1800 to the Present	
DNC 3180	Dance Science	
DNC 3310	Dance Production	
DNC 3810	Dance Pedagogy	
DNC 4810	Dance Teaching Methods	
DNC 5810	Teaching Creative Dance for Children	
DNC 5997	Departmental Honors Thesis	3
HON 42xx	Honors Seminar	3
Total Credits		15-16

Student must maintain an overall 3.3 g.p.a.

For additional information, students should consult the Irvin D. Reid Honors College (<http://www.honors.wayne.edu>).

Dance Teaching Majors (B.F.A. and B.S. Programs)

Professional Education Sequence: The additional following courses are required for a K-12 teaching major in dance, K-12 certification, and a major in dance, secondary certification for both the B.F.A. and the B.S. degrees:

Code	Title	Credits

LFA 2330	First Aid and CPR	3
or HE 3300	Health of the School Child	
RLL 6121	Teaching Reading in the Content Areas: Grades 6-12	3

Total Credits **37-43**

Theatre (B.F.A.)

The Bachelor of Fine Arts with a Major in Theatre is an intensive pre-professional curriculum that combines foundational studies, rigorous training and extensive production assignments. The B.F.A. program is divided into two areas: a) performance and b) design and technical theatre including stage management.

Admission Requirements

Students seeking admission to the performance program must: 1) satisfy the general requirements for undergraduate admission (p. 32) to the University; 2) complete a minimum of forty-five credits, including all program-specific prerequisite courses; 3) be selected for the program through an audition process. Admissions to the performance program typically take place at the end of the Fall semester of a student's sophomore year.

Students seeking admission to the design and technical theatre program must satisfy the general requirements for undergraduate admission (p. 32) to the University and be selected for the program through an interview with the faculty.

Program Requirements

Candidates must complete a minimum of 120 credits in course work, including satisfaction of the University General Education requirements (p. 22), College degree requirements (p. 169), and seventy-seven credits in theatre courses including the major requirements listed below. The minimum grade for each course required in the major, which must be taken in the Department of Theatre, must be no less than a C-minus in order for the course credit to count toward completion of the degree. B.F.A students must comply with the following department policies – any student who does not meet these standards will be placed on Departmental probation and may be denied continuation in the program: the seventy-seven credits in specified Theatre courses must be completed with grades of C minus or better and a minimum of 3.0 Theatre major g.p.a must be maintained. Students must be current in their plan of work and all Basic Competency courses must be completed prior to enrolling in the Capstone course. Departmental information published in this Bulletin is intended for use in conjunction with advising, but in all cases, regardless of advice given, students are responsible for meeting and satisfying requirements as set forth in this Bulletin.

All course work must be completed in accordance with the academic procedures of the University (p. 38) and the College of Fine, Performing and Communication Arts (p. 169) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

General Education Course Progress: Majors must complete the Basic Composition (BC) and Quantitative Experience (QE) requirement by the time forty-five credits have been earned, the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time sixty credits

have been earned. Failure to meet these limits on matriculation will result in the student being placed on departmental probation; the student will be ineligible to be cast in or participate as a member of the artistic/production staff of department productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

THR 5426	Advanced Scene Painting	3

² Additional Design/Tech/Management Electives may be taken in consultation with design area mentor.

Theatre Honors Programs (B.F.A degrees)

In order to enter the Departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including: the three of the following honors-option courses within their major taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (THR 4998) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Bachelor of Fine Arts (B.F.A.) Departmental Honors in Theatre (fifteen credits)

Code	Title	Credits
Select the Honors Option in three of the following:		9
THR 5841		
THR 5811	Development of the Drama I: Greek to Eighteenth Century	
THR 5842		
THR 5821	Black Dramatic Literature and Performance	
THR 5831	Makers of the Modern Theatre	
THR 5812	Development of the Drama II: Nineteenth Century to Modern	
THR 5721	Playwriting	

Students may select the Honors Option in one of the following B.F.A. courses (three credits) to substitute for a course in the above requirement:

THR 2301	Introduction to Design for the Theatre	
THR 3215	Acting IV	
or THR 4211 Acting V		
THR 5311	Stage Design	
THR 5325	Entertainment Design - Costume I	
THR 5331	Entertainment Design - Lighting I	
THR 4998	Capstone Honors Thesis	3
Honors Seminars ¹		3
Total Credits		15

¹ HON 4200-4280 Honors Seminars (select one)

Student must maintain an overall 3.3 g.p.a.

For additional information, students should consult the Irvin D. Reid Honors College (<http://www.honors.wayne.edu/>).

Theatre (B.A.)

The Bachelor of Arts with a Major in Theatre is designed to introduce students to the multiple facets of theatre scholarship and theatre practice. It provides a flexible and extensive education in dramatic literature, theatre history, performance practice and theatrical design for students interested in careers in theatre and related entertainment arts, education, communication and television, and other professions.

Admission Requirements

Admission requirements for the program include an audition or interview with the Theatre Faculty and satisfying the general requirements for undergraduate admission (p. 32) to the University.

Matriculation: All students in baccalaureate theatre degree programs begin as B.A. students and subsequently may change to the B.F.A. program depending on interest and ability. Classes for theatre students begin immediately in the freshman year. Students should consult with departmental advisors before beginning the program.

Program Requirements

Candidates must complete a minimum of 120 credits in course work, including satisfaction of the University General Education requirements (p. 22), College degree requirements (p. 169), and specific theatre courses required in the individual degree and/or concentrations. The minimum grade for each course required in the major, which must be taken in the Department of Theatre, must be no less than a C-minus in order for the course credit to count toward completion of the degree. Students must be current in their plan of work and all Basic Competency courses must be completed prior to enrolling in the Capstone course. Departmental information published in this Bulletin is intended for use in conjunction with advising, but in all cases, regardless of advice given, students are responsible for meeting and satisfying requirements as set forth in this Bulletin.

All course work must be completed in accordance with the academic procedures of the University (p. 38) and the College of Fine, Performing and Communication Arts (p. 169) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

General Education Course Progress: Majors must complete the Basic Composition (BC) requirement by the time forty-five credits have been earned, the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time sixty credits have been earned. Failure to meet these limits on matriculation will result in the student being placed on departmental probation: the student will be ineligible to be cast in or participate as a member of the artistic/production staff of department productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

Major Requirements: All students pursuing a Bachelor of Arts degree in theatre must complete the following courses:

Code	Title	Credits
Core Courses		
THR 1121	Play Analysis	3
THR 1030	Introduction to Black Theatre and Performance	3
THR 1211	Acting I	3

Africana Theatre and Dance Minor

This minor offers an examination of key concepts in Africana theatre and dance theory and practice through the analysis of performance and popular culture.

A minor in this area requires:

Code	Title	Credits
DNC 2400	Introduction to African Dance	3
DNC 2600	African Dance II	2
THR 1030	Introduction to Black Theatre and Performance	3
THR 3811	Africana Theatre and Dance: Concepts and Practices	3
THR 5821	Black Dramatic Literature and Performance	3
Select four credits of the following:		4
AFS 2010	African American Culture	
AFS 2390	Introduction to African-American Literature: Writing about Texts	
DNC 2000	Introduction to World Dance	
THR 3581	Advanced Theatre Studio - Performance (max. 4 Cr.)	
	or DNC 4710 Dance Company	
THR 1010	Introduction to the Theatre	
Total Credits		18

Dance Minor

Completion of a minor in dance requires nineteen credits in dance classes including ten credits in technique classes and nine credits in academic dance classes. Students should consult with the Department Academic Advisor for approval of courses satisfying this requirement. The department will accept up to ten transfer credits towards the Dance minor. A minimum of four technique credits and three academic dance credits must be taken at WSU. All courses older than ten years are subject to department review.

General Theatre Minor

The minor is designed to be an overview of the theatre arts for those who wish to enhance their interests in theatre. It offers a variety of studies and practice courses across the discipline of theatre. The variety of offerings provide the opportunity to focus studies in the areas of acting, dramaturgy, or directing, if so desired.

A minor in this area requires:

Code	Title	Credits
THR 1010	Introduction to the Theatre	3
or THR 1111	Fundamentals of Theatre	
THR 1121	Play Analysis	3
Select 12 additional credits of the following:		12
THR 1030	Introduction to Black Theatre and Performance	
THR 1211	Acting I	
THR 1411	Fundamentals of Crafts: Scenery and Costumes	
THR 1461	Fundamentals of Crafts: Lighting and Stage Management	
THR 2211	Acting: Scene Study	
THR 2301	Introduction to Design for the Theatre	
THR 2611	Stage Management	
THR 3841	History of Theatre and Drama I	
THR 3842	History of Theatre and Drama II	
THR 3651	Principles of Theatre Management	
THR 3731	Applied Theatre Studies: Community Possibilities	
THR 5711	Play Direction	
THR 5721	Playwriting	
THR 5811	Development of the Drama I: Greek to Eighteenth Century	
THR 5812	Development of the Drama II: Nineteenth Century to Modern	
THR 5821	Black Dramatic Literature and Performance	
THR 5831	Makers of the Modern Theatre	
Total Credits		18

Musical Theatre Minor

This minor offers an opportunity for students to further develop their performance skills in musical theatre through course work and practical application. Please note: Students majoring in Theatre, Dance or Music who are electing to declare the Minor in Musical Theatre may NOT count classes or credits required in their major toward the minor. Specifically:

- Theatre students may not apply to the minor credits earned in: Acting I and Acting II or Acting: Scene Study;
- Music students may not apply to the minor credits earned in: Private Voice, Elementary Music Theory, Ear Training 1, or Ear Training 2;
- Dance majors may not apply to the minor credits earned in: Modern Dance 1, Ballet 1, Tap Dance, Jazz Dance 1 or Jazz Dance II.

To receive the minor in Musical Theatre students must complete:

Code	Title	Credits
THR 1041	Musical Theatre Appreciation	3
THR 2251	Musical Theatre Performance I	3
Select two credits of the following:		2
THR 3581	Advanced Theatre Studio - Performance	
THR 2251	Musical Theatre Performance I	
Select 10 or 11 credits of the following:		10-11
DNC 1010	Introduction to Contemporary Dance	
DNC 1210	Fundamentals of Classic Ballet I	
DNC 2610	African Diasporic Dance Technique I	
DNC 2620	Tap Dance	
DNC 3410	African Diasporic Dance Technique II	
MUP 1225	Voice: Secondary Instruction (max. 3 Cr.)	
MUT 1100	Introduction to Contemporary Music Theory	

MUT 1150	Ear Training I	
THR 1211	Acting I	
THR 2211	Acting: Scene Study	
Non-dance majors must select four to six credits of DNC courses		4-6
Total Credits		22-25

Studio and Community Dance Minor

The Studio and Community Dance Minor provides students the opportunity to supplement their major field program with the rigorous study of private sector dance in studios and community settings. The program offers an artistic and academic environment that will enrich methods and skills in dance teaching and pedagogy, dance kinesiology, outreach, and community engagement, while stimulating students' creativity and innovation.

In order for any minor in the Department of Theatre & Dance to be fulfilled, it must include at least nine credits that have not been used to fulfill requirements for any other major or minor.

A maximum of nine credits in a Theatre or Dance major may share with any other major or minor.

The Studio and Community Dance Minor requires the completion of 20 credits.

Code	Title	Credits
Core Courses		15
DNC 3180	Dance Science	
DNC 3810	Dance Pedagogy	
DNC 4810	Dance Teaching Methods	
DNC 4910	Dance in Community	
THR 3671	Theatre Management: Marketing and Public Relations	

Elective Courses		
Select 3 credits from the following courses:		3
DNC 1330	Production Practicum	
DNC 2500	Choreography I	
ACC 3010	Introduction to Financial Accounting	
Select 2 credits of dance technique and movement:		2
Modern Dance		
DNC 1010	Introduction to Contemporary Dance	
DNC 1020	Contemporary Dance I	
DNC 2010	Contemporary Dance II: Part I	
DNC 2020	Contemporary Dance II: Part II	
DNC 3010	Contemporary Dance III	
DNC 4010	Contemporary Dance IV	
Ballet		
DNC 1210	Fundamentals of Classic Ballet I	
DNC 1220	Fundamentals of Classic Ballet II	
DNC 3200	Ballet III	
DNC 4200	Ballet IV	
Jazz Dance		
DNC 2610	African Diasporic Dance Technique I	
DNC 3410	African Diasporic Dance Technique II	
African Dance		
DNC 2600	African Dance II	
Pilates Mat for Performing Artists		
DNC 1300	Pilates Conditioning for Performing Artists	

Theatre Design and Technology Minor

The design and technology minor provides students in related areas of study with the opportunity to enhance and apply their design and/or technical and craft skills in a theatrical context.

In order for any minor in the Department of Theatre & Dance to be fulfilled, it must include at least nine credits that have not been used to fulfill requirements for any other major or minor.

A maximum of nine credits in a Theatre or Dance major may share with any other major or minor.

A minor in this area requires:

Code	Title	Credits
THR 1010 or THR 1111	Introduction to the Theatre Fundamentals of Theatre	3
THR 1121	Play Analysis	3
Select twelve elective credits of the following in consultation with a departmental advisor:		12
THR 1411	Fundamentals of Crafts: Scenery and Costumes	
THR 3301	Design Skills - Drafting I	
THR 3303	Design Skills - Drafting II	
THR 1461	Fundamentals of Crafts: Lighting and Stage Management	
THR 3315	Entertainment Design - Scenery I	
THR 3325	Entertainment Design - Costume I	
THR 3331	Entertainment Design - Lighting I	
THR 3341	Design Skills - Digital I	
THR 3351	Visual Communication for Theatre and Dance	
THR 3352	Visual Communication - Costumes	
THR 4311	Entertainment Design - Scenery II	
THR 4321	Entertainment Design - Costume II	
THR 4331	Entertainment Design - Lighting II	
THR 4342	Design Skills - Digital II	
THR 4371	Entertainment Design - Projection Design	
THR 3582	Advanced Production Practice: Pre-Production ¹	
THR 3601	Stage Management Studio - Principles	
THR 3603	Stage Management Studio - AEA Contracts	
THR 3605	Stage Management Studio - Health and Safety	
THR 4601	Stage Management Studio: Event Management	
THR 4603	Stage Management Studio - Commerce of Theatre	
THR 4605	Stage Management Studio - Performance Management

THR 5325	Entertainment Design - Costume I	
THR 5331	Entertainment Design - Lighting I	
THR 5335	Advanced Stage Lighting Design	
THR 5422	Introduction to Scene Painting	
Total Credits		18

¹ Max 3 cr. from THR 3582, THR 3583, THR 3584 and/or THR 3586

Theatre Management Minor

This minor provides students in related areas of study with the opportunity to expand management, marketing, and public relations skills with direct application and practice in theatre management.

A minor in this area requires:

Code	Title	Credits
THR 1010 or THR 1111	Introduction to the Theatre Fundamentals of Theatre	3
THR 3585	Advanced Theatre Studio - Theatre Management	1
THR 3651	Principles of Theatre Management	3
THR 3671	Theatre Management: Marketing and Public Relations	3
THR 3675	Theatre Management: Marketing Design and Layout	3
THR 3681	Theatre Management: Patron Services and Development	3
Total Credits		16

Irvin D. Reid Honors College

Dean: John Corvino

The Irvin D. Reid Honors College provides Wayne State's highest-achieving undergraduates with a program that is both academically rigorous and culturally engaged. Founded in 2008, it is home to roughly 2000 students, comprising both University Honors and Departmental Honors tracks.

The University Honors track is an interdisciplinary and multidisciplinary program that includes a distinctive first-year sequence, field learning experiences, and Honors courses across the curriculum. The Departmental Honors track is a discipline-specific program that varies by major; students apply after taking at least a semester of courses at Wayne State. Honors students may pursue either or both tracks.

The College offers many benefits, including:

- a small community of high-achieving students
- pre-priority class registration
- dedicated Honors academic advisors
- close mentoring by full-time faculty
- unique opportunities for undergraduate research
- field-learning experiences in the city of Detroit
- available private scholarships
- Honors floors in residence halls, for first-year students who live on campus
- special recognition at graduation, with Honors designation on degree and transcript

Note that all Honors College students pursue a traditional major in conjunction with their Honors experience, with access to the full range of faculty, courses, and programs at Wayne State. The college thus combines the opportunities of a premier urban research university with the personal attention typical of a small liberal arts college—all in the heart of the City of Detroit.

Academic Regulations

For complete information regarding academic rules and regulations of the university, students should consult the general information (p. 38) section of this bulletin. The following additions and amendments apply to the Irvin D. Reid Honors College.

Academic Advising

Advising for Honors requirements is available on a walk-in basis on select days and via e-mail. All students are encouraged to consult their undergraduate advisor in their prospective major department. See the Honors College Advising webpage (<https://honors.wayne.edu/students/advising/>) for walk-in hours and other helpful information.

Accelerated Graduate Enrollment Program ('AGRADE')

Accelerated Graduate Enrollment: Some departments of the university permit academically superior majors to petition for admission into the college's 'AGRADE' program. 'AGRADE' procedures enable qualified seniors to enroll simultaneously in the undergraduate and graduate programs and apply a maximum of fifteen credits towards both a bachelor's and master's degree in the major field. Students electing 'AGRADE' programs may expect to complete the bachelor's and master's degrees in five years of full-time study.

An 'AGRADE' applicant may petition the Graduate Committee of the major department for acceptance into the program no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average at the *cum laude* level and not less than a 3.6 grade point average in the major courses already completed. If the student's petition is accepted, the student's faculty advisor shall develop a graduate Plan of Work, specifying the 'AGRADE' courses to be included in subsequent semesters.

Credits earned through 'AGRADE' are considered Honors credits towards graduation with University and/or Departmental Honors. Students are asked to submit a copy of the approved 'AGRADE' plan of work to the Honors Advisor. Each 'AGRADE' class will be processed as an Honors Option and the notation added to the student's transcript.

Courses completed as part of an approved AGRADE plan of work may be applied as Honors credits towards Departmental and/or University Honors. To receive Honors credit via Honors Option, students must submit a copy of the approved plan of work with the Honors academic advisor.

For more details about the 'AGRADE' program, contact the chairperson of the major department.

Attendance

Regularity in attendance and performance is necessary for success in college work. Attendance requirements will be announced by instructors at the beginning of each course.

Cheating and Plagiarism

The principle of honesty is recognized as fundamental to a scholarly community. Students are expected to honor this principle and instructors are expected to take appropriate action when instances of academic dishonesty are discovered. An instructor, on discovering such an instance, may give a failing grade on the assignment or for the course. The instructor has the responsibility of notifying the student of the alleged violation and the action being taken. Both the student and the instructor are entitled to academic due process in all such cases. Acts

of dishonesty may lead to suspension or exclusion. Information on procedures is available in the Office of the Dean.

Extra Credits

Extra credits are credits taken in excess of the normal program load of eighteen credits. Students with 3.0 (or above) grade point averages may take more than eighteen credits when their proposed programs carry the approval of the Honors advisor.

Graduation with Academic Distinction

Graduation with distinction (*Summa Cum Laude*, *Magna Cum Laude*, and *Cum Laude*) is determined by the college granting the student's degree.

Normal Program Load

The requirements for graduation are based upon an average program of fifteen credits per semester for eight semesters. A normal program load should not exceed eighteen credits.

Because two hours of outside preparation are normally expected for each class hour, a fifteen credit program calls for approximately forty-five hours of class attendance and study per week. Students who undertake such a program should expect to give it their full time and energy. A few hours of employment a week may be safely added by capable students.

Probation

Low Grade Point Average: Honors students need a cumulative 3.30 or higher grade point average to maintain good standing in the Honors College. Honors academic status is assessed prior to fall pre-priority registration. A student may reapply to the Honors College once his/her cumulative grade point average is at 3.30 or above.

Grade Appeals Policy and Procedure

This policy applies to courses offered directly by the Honors College (e.g. HON 1000, HON 2000, HON 42XX-level seminars, etc.). Grade appeals for Honors sections of other courses should be resolved through the home department where those courses are offered. If in doubt, students should consult the Honors Advisor when initiating an appeal. Please consult the Honors Grade Appeal Policy and Procedure (https://honors.wayne.edu/pdf/grade_appeals_policy_and_procedure_070119.pdf).

It is the instructor's prerogative to evaluate student work and assign grades in accordance with his or her academic and professional judgment.

Grounds for appeals are:

1. the application of non-academic criteria in the grading process, as listed in the university's non-discrimination/affirmative action statute: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status;
2. sexual harassment or discrimination; or
3. evaluation of student work by criteria not directly reflective of performance relative to course requirements.

Coursework Grades

Disputes over coursework grades should be addressed informally between the student and the course instructor. If the student and instructor cannot reach a mutually agreeable resolution, the matter should be referred to the Dean of the College, who will initiate appropriate procedures for resolution.

Final Grades

In those instances where a student disputes the final grade assigned, the following steps should be taken to appeal the grade in question.

Informal Review

The student should discuss the disputed grade with the instructor of the course. If the dispute is not resolved informally, the student may initiate a formal appeal.

Formal Appeal Procedure

Within 30 calendar days following official notification of final grades for the term in which the disputed grade was awarded, and when the informal review fails to resolve the dispute, the student shall submit a written appeal detailing his/her objection, along with supporting documentation in writing, to the instructor. The instructor should respond in writing within 10 work days.

Matters not resolved at the instructor level may be appealed to the Dean's Office. A written appeal should be filed by the student within 10 work days following receipt of the instructor's written response. A file folder containing the course syllabus from the semester in which the student took the course, plus the student's letter, the instructor's letter, and the student's written rationale explaining why the Dean's Office should reconsider this appeal, should be sent to the Dean's Office. The student should forward to the instructor of the course a copy of the written appeal. Where appropriate, the Dean's Office may consult with a Grade Appeals Committee for advice in grade disputes. Students shall be notified in writing of the Dean's Office decision within 30 work days of receiving the request. The Dean's Office decision shall be the final decision at the college level.

University Level Academic Appeals Procedure

Following the Dean's final response, a student may request a formal review by the Provost.

Such requests are subject to the University Academic Appeal Procedure (p. 42) and must be submitted in writing, with a copy sent to the Dean of the College, within thirty (30) calendar days of the postmark on the Dean's final determination.

Irvin D. Reid Honors College Grade Appeal Procedure, revised March 31, 2015

Special Programs

President's Scholars

The President's Scholarship was established to attract National Merit Scholarship Finalists to Wayne State University. These highly talented students join the Honors College as President's Scholars and take part in the President's Scholars Seminar. The President's Scholars receive our most prestigious merit scholarship at WSU; they also receive funding to study abroad at some point during their undergraduate studies. Our goal is for this group of students to establish a community on campus that excels academically, socially and civically. In order to be invited to join the President's Scholars, students must first become National Merit Scholarship Finalists and accept their invitation to join the Irvin D. Reid Honors College. More information about the President's Award is available here (<https://wayne.edu/scholarships/president/>).

Wayne Med Direct

Wayne Med Direct is a program within the Irvin D. Reid Honors College that is a unique B.S./B.A. to M.D. program that admits 10 students each year to Wayne State University's College of Liberal Arts and Sciences and creates a pipeline for admission to Wayne State's School of Medicine. It emphasizes mentoring and training to help scholars become leaders in the medical community, determined to reduce urban health disparities

in their communities. During undergraduate studies, Wayne Med-Direct scholars have the opportunity to engage in patient care and research. They learn about health disparities by becoming a part of the School of Medicine community, leading to Wayne State's M.D. program. More information about Wayne Med Direct is available here (<https://provost.wayne.edu/wayne-med-direct/>).

Other Curricular Opportunities

Detroit Fellows Tutoring Project

Detroit Fellows earn two to four Honors credits while teaching reading skills to Detroit Public School students in kindergarten through fourth grade. This is a special opportunity for Honors College students and is open to all majors. On an hours-per-week basis Detroit Fellows work three hours (earning two credits), five hours (earning three credits) or seven hours (earning four credits) at a designated school. Tutors work during regularly scheduled school hours: 7:30 a.m. to 3:30 p.m.

Detroit Fellows receive training and participate in a weekly seminar to discuss various tutoring techniques. Writing assignments reflective of this experience and an end-of-semester evaluation are also required.

Emerging Scholars Program (ESP)

Wayne State University's Emerging Scholars Program (<http://www.clas.wayne.edu/ceem/emerging-scholars/>) is a special Honors-level calculus and pre-calculus program designed to support students who want and/or need to excel in mathematics and who are willing to do the work required for such success. It is available to students in MAT 1800 (pre-calculus), MAT 2010 and MAT 2020. Honors credits are awarded for MAT 2010 and/or MAT 2020.

Any student who hopes to pursue a degree in science, engineering, medicine, mathematics or math education is strongly urged to take his or her math courses within ESP. Students enroll in designated sections of MAT 1800, MAT 2010 and MAT 2020, taught by specially trained faculty members. They also attend a two-hour workshop, twice a week, where they work together in groups on challenging problems, gaining a deeper understanding of the mathematics involved.

Honors Student Association (HSA)

The Honors Student Association (HSA) provides networking experiences for students from various academic disciplines throughout WSU. The organization also serves to provide Honors students with the opportunity to become involved in diverse social, academic, and service activities. The Honors Student Association has eight executive board members; the positions include: president, vice president, secretary, treasurer, two public relations officers, and two webmasters. Elections for executive board positions are held annually at the end of winter semester.

The faculty advisor for HSA is Dr. Beth Fowler, Senior Lecturer for the Honors College.

Study Abroad

The Honors College, in partnership with the Office for Study Abroad (p. 64), provides a number of opportunities for study and travel. The college encourages these learning experiences as ways for students to acquire broader perspectives and more deeply felt education than is often possible in the classroom. Study/travel options may be linked to the Junior/Senior seminar (HON 4260) and may meet the Global Learning (GL) University requirement. Some programs include service assignments and fulfill the Honors College field learning (HON 3000) requirement. Past study trip destinations have included Belize, France, South Africa, Ghana and China.

Honors College Programs

University-wide Honors Curricula

Honors curricula are designed to meet the needs of highly motivated students who want to be challenged to reach their full potential. Honors courses are of four kinds: regular courses with Honors designated sections; Honors courses offered under various departmental subject areas (for a list of these see below); Honors College courses offered under the HON subject area code; and, regular courses taken as Honors-level course work by individual students (see below under Honors-Option Course Work).

Many Honors courses fulfill University General Education requirements (p. 22). There are no maximum credit restrictions on the number of Honors credits applicable towards graduation. Completion of any Honors course leads to Honors-designated transcript notation for the course.

Students whose cumulative grade point average (g.p.a.) is at least 3.3, but who are not formally admitted to the Honors College, are eligible to elect Honors courses to enrich their educational experiences. Such requests should be directed via e-mail to honors@wayne.edu.

Students who are invited into the Honors College as incoming first-year students are expected to pursue University Honors, with the option of Departmental Honors in their major as well. Students who are accepted to the Honors College as current Wayne State University students or as transfer students are invited to pursue Departmental Honors and/or University Honors.

Admission

There are three pathways into the Honors College:

- Incoming first-year students are considered for the Honors College during the regular Wayne State admission process based on 1. a combination of their high school GPA and SAT/ACT score or 2. only their high school GPA, if they are a test optional applicant; there is no separate application. The selected students are invited to pursue University Honors; they may also later pursue Departmental Honors.
- Transfer students are invited to join Honors based on cumulative GPA and transferable credits from their previous institution. The selected students may pursue Departmental and/or University Honors.
- Current Wayne State students with a 3.3 GPA and at least 12 Wayne State credits may apply to the Honors College by filling out the Honors College application online. Applications are processed after Feb. 15, June 15 and Oct. 15. The selected students may pursue Departmental and/or University Honors.

College Requirements

To remain in the Honors College, a student normally will be expected to:

1. pursue University and/or Departmental Honors;
2. maintain a cumulative g.p.a. of 3.3 or higher; however, colleges/departments may establish a higher g.p.a. for retention in a college/department program; and
3. satisfy the University General Education requirements (p. 22).

A student whose cumulative g.p.a. falls below 3.3 and is, for that reason, dropped from the Honors College, may reapply when his/her cumulative g.p.a. is 3.3 or higher.

For first-year Honors students, HON 1000 and the Honors Foundational Seminar are required to be taken in Fall and Winter semesters, respectively.

Departmental Honors Requirements

Students seeking a degree with Departmental Honors must contact their major department or the Honors College for specific requirements (see the appropriate departmental section of this bulletin). However, all Departmental Honors programs require at least twelve credits in Honors-designated coursework, including:

1. a senior essay or thesis or project done in the student's major department, and
2. at least one 42xx-level seminar offered through the Honors College (HON 4200-4280), and
3. a minimum cumulative g.p.a. of 3.3 (higher in some departments) is required for graduation

Honors Degrees

Most departments offer Departmental Honors. Please visit the Honors website (<https://honors.wayne.edu/academics/honors-requirements/department/>) or the Honors college for a current list of available programs. Graduation with University Honors is reserved for students who complete twenty-eight Honors credits as outlined under University Honors Requirements.

A student who satisfactorily completes a Departmental Honors curriculum or a University Honors curriculum will receive the appropriate Honors designation on both the diploma and the academic transcript. Approval of the Honors College is necessary for graduation with University Honors. Students who complete the requirements of both the university-wide Honors College and a college/department/school Honors Program shall have both designations on the transcript and the diploma. Only a single senior essay, thesis, or project shall be required unless a student is pursuing Departmental Honors in multiple majors.

University Honors Requirements

Students who have been invited to the Honors College as freshmen are expected to complete:

1. at least twenty-eight credits in Honors-designated course work, including HON 1000, and the Honors Foundational Seminar;
2. a field learning through HON 3000
3. a 42XX-level seminar offered by the Honors College (HON 4200-HON 4280);
4. a minimum three-credit Honors Thesis or creative project (HON 4998 or Departmental Honors thesis).

Honors-Option Course Work

The Honors Option allows a student in any course which is 2000 level or above and taught by a regular faculty member to elect Honors caliber coursework, provided the instructor agrees to furnish commensurate extra instruction. If a grade of 'B' (3.00) or above is earned in the course and in the additional work, the student will receive Honors credit for the course on his/her transcript. Application forms for the Honors Option are available in the Honors College office and online (<http://www.honors.wayne.edu>). The application form must be signed by the instructor and should be returned to the Honors College Office by the assigned due date on the form. At the end of the semester the instructor will be asked to submit a final grade for the Honors Option project and the final grade for the class via e-mail to honors@wayne.edu. The number of Honors credits assigned shall be equivalent to the number of credits allotted to the general section.

Field Learning Requirement (HON 3000)

Effective Fall 2019, field learning is required for graduation with University Honors. The purpose of the requirement is to better prepare students for productive lives in a diverse urban and global setting through community-based education and civic engagement. A student will pair HON 3000 (0 credits) with a field learning experience approved by the Honors College (<https://honors.wayne.edu/students/universityhonorsrequirements/hon3000/>). Students can opt to complete HON 3000 via service-learning, undergraduate research, study abroad, or an internship/co-op/practicum.

Objectives of the Honors Field Learning Requirement are: to enhance academic learning opportunities by integrating theory with service to the community; to learn how to work effectively with diverse populations; to develop communication, negotiation, and problem solving abilities; and, to increase research skills.

Examples of field learning opportunities include the Detroit Fellows Tutoring Project (<https://honors.wayne.edu/academics/detroit-fellows/>), specially-designated sections of General Education and department courses, and some study abroad experiences.

Honors Thesis

To graduate with University and/or Departmental Honors, students must complete an Honors thesis or creative project during junior/ senior year. The thesis or project must be supervised by a full-time member of a department and the paper must be a minimum of twenty pages in length. University Honors students should plan to take at least two semesters to complete the HON 4998 course. Departmental Honors students who complete a thesis course specific to their major department must follow departmental guidelines. Students pursuing both Department and University Honors may use the department thesis to fulfill the University Honors thesis requirement.

School of Information Sciences

Dean: Paul Bracke

The Information Profession

The School of Information Sciences (SIS) prepares information professionals to assume leadership roles in libraries and information organizations. By emphasizing the practical application of knowledge and skills, students are trained in the core principles of information management - information access, organization, services, and management - as well as emerging competencies such as digitization, competitive intelligence, information architecture, and website development. SIS faculty research issues that improve library and information services as an essential component to cultural enrichment, knowledge dissemination, economic development, and the overall quality of life.

Qualified information professionals work in varied settings all over the globe. SIS graduates work in libraries as well as diverse information careers in the public, private, and nonprofit sectors. As organizations continue to view their information as a critical resource and place greater importance on its cultivation, SIS graduates can be found enjoying engaging and exciting careers throughout business, law, health sciences, publishing, government, archives and museums, communications and media, engineering, academia, pre-K-12 education, information organizations and industries.

Graduate Degrees

The School of Information Sciences offers two master's level degree options. The Master of Library and Information Science (MLIS) degree is recognized by the American Library Association (ALA) as the first professional degree in this field and serves as the credential for entry-level professional employment. The Master of Science in Information Science (MSIS) expands the school's current Graduate Certificate in Information Management (GCIM) into a degree that complements the school's Master of Library and Information Science (MLIS) degree. The MSIS appeals to prospective graduate students with an interest in working as information professionals in organizations and industries outside the typical venues for MLIS degree holders (e.g., libraries, archives, or school media centers) where a foundational core of library science coursework is not required.

Accreditation

The School of Information Sciences' MLIS degree has been accredited continuously by the American Library Association since 1967. The School's most recent continuing accreditation was granted by the ALA Committee on Accreditation in 2017. The School's next comprehensive accreditation review occurs in the Fall of 2024.

Mission and Goals of the School

Mission Statement

We create and advance knowledge through our research and teaching in library and information science and cultivate a diverse and professionally equipped student body to positively affect our communities, including the disciplines and professions we represent.

Goals and Objectives

TEACHING EXCELLENCE: SIS will encourage and teach professional approaches and a service philosophy.

- SIS will educate students in the history, philosophies, theories, principles, policies, and ethics of library and information science.
- SIS will expose students to the historical, social, cultural, educational, political, and economic dimensions of information and information agencies.
- SIS will provide the skills and dispositions for excellence in information service delivery.
- SIS will continuously evaluate and apply evolving technologies to its teaching, learning, research, and service programs.

STUDENT SUCCESS: SIS will cultivate a culture of student success.

- SIS will incorporate career enhancement skills development into all courses.
- SIS will promote relationships between students and other members of the campus community who support student learning and success.
- SIS will deliver a "Distinctively Wayne State" experience that leverages our Detroit location, diversity, and academic and research excellence to better prepare students for success.
- SIS will stress the importance of lifelong learning and will promote opportunities to sustain professional growth and achievement, including career mentoring.

RESEARCH: SIS will foster, facilitate, and support research by faculty and students.

- SIS will support faculty research and scholarly communication.
- SIS will cultivate faculty engagement with student research experiences and skill development.
- SIS will encourage and support students in presenting their research in courses, at conferences, and through publication.

DIVERSITY AND INCLUSION: SIS will be engaged within the diverse communities and world of which we are a part.

- SIS will seek diversity among the faculty.
- SIS will seek diversity and facilitate inclusion among the student body.
- SIS will address the roles of library and information services in a diverse global society, paying particular attention to the underserved.
- SIS will facilitate student experience in multicultural and multiethnic information environments.

COMMUNITY ENGAGEMENT: SIS will practice and foster engagement in traditional as well as interdisciplinary research, scholarship, and practices that address important societal as well as information and library issues.

- SIS will engage the library community, alumni, and employers.
- SIS will promote commitment and involvement in professional associations and organizations.
- SIS will encourage involvement in the community and community organizations.
- SIS will support service activities and participation in leadership roles at the School, University, local, state, national, and international levels.

Technology Support

The School of Information Sciences provides SIS students, faculty, and staff with a variety of computing resources that support the School's on-campus and online programs. The School offers students a variety of software products at no cost, including major productivity suites, powerful database software, diagramming tools, and current operating systems. The School provides free technical support to all of its students through several mediums, including email and over the phone. The School maintains a web server for student use, as well as provides access to synchronous online meeting tools for classes and student groups. SIS students have full access to the resources provided by University Computing and the University Library System, including public access computing labs, email and calendaring services, learning management systems, library databases, and full-text e-journals and other resources.

School of Information Sciences Undergraduate Program

Undergraduates interested in enrolling in information sciences courses should contact the School of Information Sciences regarding admission requirements, sequence of courses, the curriculum, career planning, professional development, job opportunities, and Senior Rule requirements. View the Graduate Bulletin (<http://bulletins.wayne.edu/graduate/school-information-sciences/>) for more information about degree and certificates options offered by the School of Information Sciences.

Law School

Dean: Richard Bierschbach

Wayne State University Law School, founded in 1927, is located in the heart of Detroit's historic cultural center, offering a unique urban experience. Detroit's vibrant legal market - including government offices, state and federal courts, multinational corporations, unions and major law firms - provides students with a wide range of opportunities for employment and externships. Our students are bright, mature, conscientious and altruistic. They come from unique backgrounds and professions, some having previously served as doctors, musicians, actors, engineers and law enforcement officers before pursuing the law. Wayne Law also offers a network of more than 11,000 living alumni, including established leaders of the legal community, practicing throughout the nation and in more than a dozen foreign countries. Our expert faculty's nationally and internationally recognized scholarship adds depth to our students' understanding of legal theory, doctrine and practice. Wayne Law students, faculty and alumni are deeply engaged in the community and profession.

Accreditation

Wayne State University Law School is accredited by the American Bar Association and is a member of the Association of American Law Schools. The Law School has a chapter of the Order of the Coif, the national honorary society dedicated to the highest standards of legal scholarship.

Setting & Facilities

The Law School is a flagship unit of Wayne State University, a major metropolitan research university located in the heart of Midtown, about four miles from downtown Detroit. Within blocks of the Law School are the Detroit Public Library, Detroit Institute of Arts, Charles H. Wright Museum of African American History, Detroit Science Center and other cultural attractions. The city of Detroit shares an international border with Canada and offers access to Michigan's largest concentration of law firms and state and federal courts.

The Law School complex includes four buildings - Classroom Building, Damon J. Keith Center for Civil Rights, Law Building and Arthur Neef Law Library - with lounges, gathering areas and meeting rooms. The three-floor Arthur Neef Law Library offers print and digital resources, a computer lab, 14 study rooms and wireless access. Special collections cover antitrust law, international law, Jewish law and Michigan law.

Degrees

The Law School offers academic programs leading to the degrees of Juris Doctor (J.D.) (<http://bulletins.wayne.edu/graduate/law-school/law-jd/>) and Master of Laws (LL.M.) (<http://bulletins.wayne.edu/graduate/law-school/law-llm/>). The J.D. is a graduate degree requiring a baccalaureate degree as a prerequisite. The LL.M. is a graduate degree offered by the Law School in the fields of and corporate and finance law, labor and employment law, and taxation which requires the J.D. or its equivalent as a prerequisite. The Law School also participates in joint degree programs with other Schools and Colleges within the University.

Damon J. Keith Center for Civil Rights

The Damon J. Keith Center for Civil Rights at Wayne Law is a regional hub for civil rights teaching, research and advocacy, training and inspiring the next generation of civil rights leaders in honor of the legacy of Judge Damon J. Keith. At the center, stakeholders gather to analyze policy, law students teach a civil rights curriculum to high school students and leaders dive into the issues of the day, such as tax foreclosures, water shutoffs and police-community relations. The center welcomes the public for lectures by civil rights icons, supports community-based organizations and publishes scholarship about how the law and social justice impact one another. The center offers the nation's first and only repository dedicated to African-American legal history, along with a traveling exhibit about the 14th Amendment's guarantee of equal protection under the law.

In summer 2014, WSU was awarded a three-year, \$1.3 million grant from the W.K. Kellogg Foundation to launch the Detroit Equity Action Lab at the Keith Center. Through this initiative, 60 leaders working in the many dimensions of racial equity, including arts and media, community development, education, environment, food security, health care and housing, will address issues of structural racism in Detroit.

Arthur Neef Law Library

The Arthur Neef Law Library provides a major legal research center for Wayne Law students and faculty. Its special collections include the Alwyn V. Freeman International Law Collection, Drinker Antitrust Law Collection, Jewish Law Collection and a comprehensive collection of current and historical Michigan law materials that include the Michigan Supreme Court Records and Briefs, Michigan probate court opinions and Michigan Superfund site documents. The law library is a selective depository for U.S. government publications.

Databases and other e-resources are easily discoverable and remotely accessible.

The law library building was designed to make optimal use of natural light in reading and study areas. Tables, carrels and soft-seating areas are available throughout the law library and offer wired and wireless access to networked resources. Our students may reserve any of the 14 study rooms through an online reservation system. A computer lab featuring desktop computers, printers and scanners is reserved for the exclusive use of Wayne Law students.

Law (B.A.)

The Bachelor of Arts (B.A.) degree in Law provides a distinctive, interdisciplinary program for those with an interest in law. Students will emerge with a strong foundation in law, critical thinking and writing, ethics, political and legal theory, and legal and justice systems that will make them competitive for innovative and emerging employment opportunities in a variety of fields and industries or for pursuing graduate studies, potentially including law school. Moreover, this program will build on the distinctive training associated with law school combined with the expertise of Wayne State's liberal arts programs to promote informed, well-rounded, and civic-minded undergraduates who will be well-prepared to be the leaders of the future.

Admissions Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the Departmental major requirements cited below.

All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees. A maximum of three courses for the major may be at the 1000-level.

Code	Title	Credits
Required LEX Courses		
Students must have junior status to enroll in LEX courses.		
LEX 5000	Law in Social Context	3
LEX 5010	Law and Harm	3
LEX 5020	Legal Procedure	3
LEX 5030	Law and Transactions	3
Core Skills: Writing, Critical Thinking, and Ethical Reasoning		
Select two of the following courses:		6-8
CRJ 3710	Legal Writing for Criminal Justice	
ENG 3050	Technical Communication I: Reports	
ENG 3085	Introduction to Rhetorical Theory	
PHI 1050	Critical Thinking	
PHI 1070	Games, Risk, and Logic	
PHI 1100	Contemporary Moral Issues	
PHI 1110	Ethical Issues in Health Care	
PHI 1120	Professional Ethics	
PHI 1130	Environmental Ethics	
PHI 1500	Race, Sex, and Religion	
PHI 2320	Introduction to Ethics	
PS 2420	Ethics and Politics of Public Policy	
PS 2460	Policy and Rationality: Dilemmas of Choice	
Political and Legal Theory		
Select two of the following courses:		6-8
CRJ/PS 3120	Politics of the Criminal Justice Process	
PHI 2330	Introduction to Social and Political Philosophy	
PHI 2390	Philosophy of Human Rights	
PHI 3270	Foundations of Law	
PS 3520	Theories of Justice	
PS 3530	Great Political Thinkers I	

PS 3540	Great Political Thinkers II	
PS 5850	Human Rights	
Legal and Justice System		
Select one of the following courses:		3-4
CRJ 3700	The Judicial Process	
CRJ 4740	Constitutional Criminal Procedure	
PS 3040	The Legislative Process	
PS 3100	American Legal Systems and Processes	
PS 4710	Democracy	
PS 5110	Constitutional Law	
PS 5120	Constitutional Rights and Liberties	
PS 5820	International Law	
Electives		
Select three elective courses from the list in the section below, at least one must be an LEX course.		9-11
Total Credits		36-43

Elective Courses

NOTE: Students must complete any prerequisites listed for a course (please reference this bulletin). Many of these electives are included in the current curriculum for the Minor in Law. This list of electives also includes courses listed under the Political and Legal Theory and Legal and Justice System sections of the major requirements.

Code	Title	Credits
Law School		
LEX 5100	Law and Regulation	3
The Law School may approve additional elective LEX courses to be added from time to time to this list through its normal course approval processes.		
College of Liberal Arts and Sciences

SW 5755	Introduction to Child Welfare	3
SW 6100	Child Welfare and Social Systems: Context for Case Management Practice	3
SW 6500	Social Work and the Law	2
SW 6535	Youth, Delinquency, and Juvenile Justice	3
SW 6585	Introduction to International Social Work	3

Law Minor

A minor in law is available through the the Mike Ilitch School of Business, the College of Fine, Performing and Communication Arts, the College of Liberal Arts and Sciences, and the School of Social Work. The minor in law offers students the opportunity to study law as undergraduates. The minor gives special attention to developing skills in logical and critical thinking. The minors provide training and knowledge relevant for law-related fields, as well as a valuable credential for those seeking to enter those fields. The minor requires three core law classes taught by full-time Law School faculty. Additional requirements for the minor can be found in the school/college sections of the bulletin:

- Law Minor (Business) (p. 82)
- Law Minor (Fine, Performing and Communication Arts) (p. 172)
- Law Minor (Liberal Arts and Sciences) (p. 280)
- Law Minor (Social Work) (p. 383)

College of Liberal Arts and Sciences

Dean: Stephanie Hartwell

The College of Liberal Arts and Sciences is home to more than forty undergraduate degree programs in a wide variety of disciplines, from the humanities and social sciences to the physical and life sciences. We serve a diverse student population with a wide range of programs and courses. Our dedicated advisors provide individual advising to all our major students, and we strive to provide student engagement and undergraduate research opportunities for all students in the College.

Our bachelor degree programs provide a balance of broad studies and specialization, taking advantage of both the intellectual breadth of the College and the availability of course offerings taught by scholars and researchers who are leaders in their fields. All programs emphasize communication, both written and spoken, and the use of precise and thoughtful language. Students are stimulated to think and read critically and to become familiar with the tools of research so that learning may be a lifelong process. Intellectual growth is encouraged by developing in students the necessary independence, resourcefulness and judgment in early studies so that advanced courses may be selected with confidence.

Most fields of study in the College offer students both theoretical and practical training. Our programs are designed such that a solid knowledge of underlying principles is strengthened by practical training and experience.

The College of Liberal Arts and Sciences also serves students whose academic interests extend over several Departments. Such students have the opportunity to declare minors, pursue a co-major or take elective courses in a wide variety of fields. In addition, interdisciplinary programs such as Environmental Science, Linguistics, Global Studies, and Gender, Sexuality and Women's Studies offer varied individualized curricula.

The undergraduate programs of the College of Liberal Arts and Sciences are strengthened by graduate programs that lead to the master's and doctoral degrees in various disciplines. Professors in the College teach both graduates and undergraduates; research projects may involve both graduates and undergraduates; some specialized classes are available to both graduate students and those undergraduates enrolled in the upper division. This opportunity for association with graduate students and research personnel enriches the experience of many undergraduate students.

In the College of Liberal Arts and Sciences, students are provided with the skills, knowledge, and understanding on which to build professional and personal development in today's rapidly changing world.

Academic Regulations: Liberal Arts and Sciences

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 38) section of this bulletin. The following additions and amendments apply to the College of Liberal Arts and Sciences.

Attendance

Regularity in attendance and performance is necessary for success in college work. Attendance requirements will be announced by instructors at the beginning of each course.

Normal Program Load

To graduate in four years, students should take at least fifteen credits per semester for eight consecutive semesters. A normal load should not exceed eighteen credits.

Because at least two hours of outside preparation are normally expected for each class hour, a fifteen credit program calls for approximately forty-five hours of class attendance and study per week. Students who undertake such a program should expect to give it their full time and energy.

Extra Credits

Extra credits are credits taken in excess of the normal maximum load of eighteen credits. Students with 3.0 (or above) grade point averages may take more than eighteen credits with approval of the advisor.

'AGRADE' (Accelerated Graduate Enrollment Program)

Some departments of the College permit academically superior majors to apply for admission into the College's 'AGRADE' program. 'AGRADE' procedures enable qualified seniors in the College of Liberal Arts and Sciences to enroll simultaneously in the undergraduate and graduate programs of the College and apply a maximum of sixteen credits towards both a bachelor's and master's degree in the major field.

Qualified students may apply for the AGRADE program no earlier than the semester in which ninety credits are completed. Applicants must meet overall and major minimum grade point average requirements, which vary dependent on program; see specific programs for details.

For more details about the 'AGRADE' program, contact the Graduate Director of the major department or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2516).

Graduation with Academic Distinction

Candidates eligible for the bachelor's degree may receive a special citation on their diplomas under the following circumstances: The designations of 'Summa Cum Laude,' 'Magna Cum Laude,' and 'Cum Laude' will be conferred upon graduating students whose cumulative grade point averages at Wayne State University fall within approximately the upper five percent, the next five percent, and the next ten percent of the senior class, respectively. The grade points used to identify the lower limits for each designation will be based upon the grade points attained by seniors at these percentile levels during the preceding academic year. Only students who have earned 56 or more credits at Wayne State University are eligible to graduate with one of the above distinction citations.

Dean's List

The Dean's List of academically superior students is compiled each fall and winter term based on the following criteria: A 3.6 grade point average for students registered for twelve credits or more and a 4.0 grade point average for students registered for between six and eleven credits.

Academic Probation

If a student's cumulative grade point average falls below 2.0, the student will be placed on academic probation. A probation hold will need to be released each term before he or she registers. To obtain this release, the student must see his or her academic advisor.

A student will be off of academic probation at the end of any term in which she or he achieves a cumulative G.P.A. of 2.0 or better.

Exclusion

Students on academic probation will be given two subsequent terms to enroll while on probationary status. At the conclusion of the third consecutive term below 2.0, a student will be excluded from the University. An excluded student may not apply for reinstatement for one calendar year.

The decision to reinstate will be made by the College Probation Committee and based upon evidence presented by the student that circumstances have changed during the year away and that the probability of success has increased. Students seeking reinstatement should consult: <http://www.clas.wayne.edu/reinstatement> (<http://www.clas.wayne.edu/reinstatement/>)

Cheating and Plagiarism

The principle of honesty is recognized as fundamental to a scholarly community. Students are expected to honor this principle and instructors are expected to take appropriate action when instances of academic dishonesty are discovered. An instructor, on discovering such an instance, may give a failing grade on the assignment or for the course. The instructor has the responsibility of notifying the student of the alleged violation and the action being taken. Both the student and the instructor are entitled to academic due process in all such cases. Acts of dishonesty may lead to suspension or exclusion.

Academic Advising

Academic advisors are available in all departments. Students who have chosen a major should meet with their departmental advisor. Students should confer with advisors on all questions concerning degree requirements, academic regulations, course elections, and programs of study. It is of primary importance that students talk with an advisor when they are having difficulties in their academic work.

Bachelor's Degree Requirements: Liberal Arts and Sciences

College Requirements

All undergraduate students must satisfy University General Education Requirements (p. 22), their specific major requirements, and the College of Liberal Arts and Sciences Group Requirements, which consist of a minor plus a two-course sequence in a single foreign language.

Minor Requirement

Students must complete a university-approved minor, which may be taken in the College of Liberal Arts and Sciences or any other WSU school or college. The minor requirement is waived for students who complete a second major, a double major, a concurrent degree, a dual degree, or a second degree. Students earning a co-major in Peace and Conflict Studies or Latino/a and Latin American Studies, or who are completing an undergraduate certificate, will be considered to have completed the minor requirement. The University Honors co-major does not fulfill the college requirement for a minor.

Students must complete all courses in their minors with a minimum overall average of 2.0. In order for a minor, second major or degree, or certificate program to fulfill the College of Liberal Arts and Sciences minor requirement, it must include at least three courses that have not been used to fulfill requirements for any other major or minor.

Foreign Language Requirement

All students in the College of Liberal Arts and Sciences must successfully demonstrate language proficiency equivalent to the two-course sequence in a single foreign language. Proficiency is demonstrated by completing courses numbered 1010 and 1020 in one of the following subject area codes: ARB, ARM, CHI, FRE, GER, GKA, GKM, HEB, ITA, JPN, LAT, POL, RUS, SPA, SWA, and UKR. Those continuing the study of a foreign language begun in high school or at another college will be placed at the appropriate level in the sequence as determined by means of qualifying examinations or interviews administered by the Department of Classical and Modern Languages, Literatures, and Cultures. The College Foreign Language Group Requirement will be considered satisfied by those students whose test scores place them beyond the second-course level. Two semesters of American Sign Language will count as fulfilling the foreign language requirement.

Bilingual Students: Students who were born in and completed their secondary education in a country whose language is not English may demonstrate proficiency by means of qualifying examinations or interviews administered by the Department of Classical and Modern Languages, Literatures, and Cultures. However, no credit (through course work or by examination) will be granted to such students for 1000-level courses in that language.

Major Requirements

Specific course requirements for majors are listed in this bulletin under each of the Departments or areas of the College. Students must complete all courses in their majors with a minimum overall average of 2.0. Students must declare a major by thirty credits of study, regardless if these credits are completed at Wayne State University or transferred from another institution. Students can easily declare or change their major online through *Academica*.

Double Major

For students to graduate with double majors, the major requirements in both areas of concentration must be fulfilled. Both majors are designated on the diploma.

Students wishing to double major in a CLAS degree program and that of another school or college must satisfy the College of Liberal Arts and Sciences Group Requirements.

Co-Majors

The following subjects may be taken in conjunction with another major leading to a Bachelor's Degree: Latino/a and Latin American Studies and Peace and Conflict Studies

Combined Degrees

A Combined Degree (B.A. or B.S.) is granted by the College of Liberal Arts and Sciences in cooperation with approved schools of Dentistry, Medicine, and Law, which do not require a bachelor's degree for admission. Candidates for Combined Degrees must complete ninety credits in the College of Liberal Arts and Sciences, all University requirements, all College requirements, make reasonable progress (as determined by the major Department) toward completing a major, and complete satisfactorily the first year's work in an approved professional school. Courses taken in the first year of professional school may be applied toward the required fifteen credits in advanced courses. Students who fail to pass any course ordinarily required during the first year of professional work forfeit the right to a Combined Degree. Such cases may be reopened only after the student completes the second year of professional work.

Concurrent/Dual Degrees

Students who have satisfied all requirements for two different major programs leading to degrees may apply for both degrees simultaneously. Students should contact an academic advisor for more information.

Second Degrees

Students who have received a degree from Wayne State University or any other accredited institution may obtain a second bachelor's degree in another academic area. In order to be granted second degrees, students must complete a minimum of thirty credits beyond the first degree in the College and satisfy all University and major requirements as well as the college requirement for a two-semester sequence in a foreign language.

Exploratory and Pre-Professional Curricula

Students are encouraged to consult an academic advisor before choosing any curriculum.

Exploratory Curricula for Undecided Students

First-time students who are unsure of their major may enroll in a thirty-credit exploratory curriculum. There are four exploratory curricula: humanities, social sciences, life sciences and physical sciences/mathematics. These curricula are designed to give students the opportunity to take some common required courses that will help them graduate within four years once they choose their major.

Admission to pre-professional curricula implies only that students have selected professional goals. It does not necessarily mean that students will be accepted by the corresponding professional school or college.

A pre-professional curriculum is not a major. Students are encouraged to declare a major together with pursuing a pre-professional curriculum. Some professional programs require a bachelor's degree. Even if a bachelor's degree is not required, admission to a professional program is often very competitive, and pursuing a major provides students with an alternative career path.

Advising for pre-health programs, including pre-medicine and pre-dental, pre-law and pre-social work is available through the University Advising Center. The pre-professional curricula in the college are:

- Pre-Dentistry
- Pre-Law
- Pre-Medical Laboratory Science
- Pre-Medicine and Pre-Osteopathic Medicine
- Pre-Mortuary Science
- Pre-Nursing
- Pre-Occupational Therapy
- Pre-Pharmacy
- Pre-Physical Therapy
- Pre-Physician Assistant Studies
- Pre-Radiation Therapy Technology
- Pre-Radiologic Technology
- Pre-Social Work

Computer Science (B.A.)

An admissions moratorium is in effect for this program. Interested students should contact an undergraduate advisor in the Department of Computer Science.

The Bachelor of Arts curriculum is designed to provide a strong academic foundation in both the principles and methodologies of computer systems, software development, and programming that are necessary to solve real-world problems. Students planning to earn a graduate degree in computer science are strongly advised to seek the Bachelor of Science degree in computer science (p. 142) offered by the College of Engineering.

Academic Regulations

Academic Probation: A student is considered to be on academic probation whenever his or her cumulative grade point average, or his or her grade point average in the computer science program, falls below

2.0. A student may also be placed on probation whenever his or her academic performance is deemed unsatisfactory. If, at the end of the first semester on probation, the student's cumulative grade point average has not increased to at least 2.0, he or she will be excluded from the Department of Computer Science. If the student's cumulative g.p.a. reaches at least 2.0 by the end of the first semester after being placed on probation, he or she will be returned to regular status. Following exclusion from the Department of Computer Science, the privilege of registering in the Department will be withheld for at least one calendar year.

Exclusion: A student who has been refused the privilege of registering in the Department may request a reconsideration of his or her status by the Academic Standards Committee (ASC) after the one-year exclusionary period. He or she should not make the request, however, unless evidence can be provided of changes in academic preparation or circumstances that will substantially increase the likelihood of academic success. A formal written request for reconsideration must be presented to the Associate Dean for Academic Affairs. Students who plan to petition for readmission are encouraged to request a meeting with the ASC as early as possible during the exclusion period to discuss what changes may provide an opportunity for readmission. In no case is readmission to the Department of Computer Science guaranteed.

Repeated Courses and Substandard Grades: Students will be allowed up to a maximum of five repeated courses, one repeated course for a substandard grade. If a student must repeat a subsequent course in order to complete their degree, he or she will be excluded from the Department of Computer Science (i.e., students must complete a course within three attempts). Prerequisite math and science courses that do not satisfy degree requirements, but are required if students did not place into MAT 2010, are also counted toward exclusion from the Department. A substandard grade is defined as a grade lower than the minimum requirement.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Course Requirements

(Please note that the core courses include mandatory instructional labs. These laboratories must be taken concurrently with their corequisite lecture.)

Code	Title	Credits
MAT 2010	Calculus I	4
STA 2210 or BE 2100	Probability and Statistics Basic Engineering III: Probability and Statistics in Engineering	4
CSC 1100	Problem Solving and Programming	4
CSC 1500	Fundamental Structures in Computer Science	4
CSC 2110	Computer Science I	4
CSC 2200	Computer Science II	4
CSC 3010	Ethics in Computer Science	3
CSC 3100	Computer Architecture and Organization	4
CSC 4110	Software Engineering	4
CSC 4420	Computer Operating Systems	4
CSC 4996	Senior Capstone Project	4

Four additional Computer Science courses of at least three credits each, numbered 3000 or above ¹ 12

¹ Excluding CSC 3010, CSC 4990 and CSC 4995.

A minimum of twenty-six credits in computer science must be earned at Wayne State University.

A minimum grade of C is required for the following respectively:

Code	Title	Credits
CSC 1100	Problem Solving and Programming	4
CSC 1500	Fundamental Structures in Computer Science	4
CSC 2110	Computer Science I	4
CSC 2200	Computer Science II	4

A minimum grade of C- is required for all other CSC and MAT courses.

Students declaring their major should consult an advisor for a written assessment of current requirements.

General Studies (B.G.S.)

The Bachelor of General Studies (B.G.S.) degree is a graduation pathway without a traditional academic major in the College of Liberal Arts and Sciences (CLAS). The General Studies program seeks to accommodate students whose academic careers spanned many years, even decades, and who may have begun their academic careers in colleges, departments, and degree programs that no longer exist. In such cases, General Studies enables the university to support and honor the work that students have done in the past, and may do upon their return, without certifying expertise in a specific field that may well have undergone considerable change since a student first started. Students cannot elect to join this program. Students must follow a secondary admissions process to be accepted to this program, and should contact their CLAS advisor (<https://clas.wayne.edu/students/advising/>) for more information about how to apply. Students without a current CLAS advisor should contact the University Advising Center to speak to an advisor.

All General Studies admissions decisions are made by an admissions committee made up of advisors, faculty, and administrative staff in the College of Liberal Arts and Sciences. Before applying to join the General Studies program, students must meet these minimum admissions requirements:

- The student holds senior-level standing at Wayne State
- The student faces a temporal problem (i.e., student stepped away from school; length of time away is at least 5 years)
- The student is in good academic standing, with a cumulative GPA of 2.0 or higher
- The student has completed the vast majority of university general education requirements (if enrolled after 1985)
- The student has completed the vast majority of CLAS (college level) requirements
- The student must have completed at least 15 credits applicable to a CLAS-based or discontinued major
- The student has completed at least three college-level semesters and a minimum of 30 credits at Wayne State
- The student has completed at least 15 credits of intermediate level (3000- or above) coursework at Wayne State
- The student has advisor support for their application to the General Studies program

Preference will be given to students who: (1) have a total number of earned credits that is at or near 120 semester credits (or, at or near 180 quarter system credits, if returning from before Fall 1980); (2) have non-academic factors that prevent completion of their current degree path (e.g., work, age, deployment, residential location, etc.); and (3) have no other feasible pathway to graduation. Students with majors from other colleges and schools at Wayne State University will be considered on a case by case basis.

Application materials include an application form completed by the student's advisor, and a personal statement from the student indicating how they meet the above minimum criteria for admission.

Application deadlines for the General Studies Program

- Fall term: August 1
- Winter term: November 1
- Spring/Summer term: April 1

Inquiries can be addressed to the CLAS General Studies program at clasgs@wayne.edu.

Professional Biomedical Sciences (B.S.)

The BS in Professional Biomedical Sciences is an undergraduate degree completion path for students who made initial progress in an undergraduate degree program but transitioned to a professional medical sciences program prior to completion of their undergraduate degree. This degree is only open to students previously enrolled as undergraduate students in a CLAS major at WSU who meet the established eligibility requirements. Eligible students will be able to earn a bachelor's degree after transferring credits from approximately a year of successfully completed professional school credits without having to return to an undergraduate program.

- A student must have completed a minimum of 90 credits towards an UG program prior to entry into a professional program.
 - Completion of university general education requirements and the CLAS language requirement within those 90 credits.
 - Options to meet the CLAS minor requirements would be possible with the student's original intended major or a biology minor as most professional programs require a concentration of BIO courses prior to entry.
- A student must complete a minimum of three college-level semesters at Wayne State.
- A student must have completed a minimum of 30 credits in residence at WSU prior to entry into a professional program.
- A student must complete a minimum of 12 credits at the 3000 level or higher.
- A student must have made reasonable progress toward completion of a declared WSU major. Examples of reasonable progress include documented interaction with department major academic advisors and/or successful completion of required coursework toward the major.
- A student's cumulative and major GPA must be at a minimum of 2.0 at the time of departure from WSU.
- A student will have successfully completed a minimum of the first year (more if additional credits to reach 120 are needed) of a professional medical-based program offered by a U.S. accredited institution.

Digital Humanities Minor

The Digital Humanities minor is open to any student interested in the intersection of digital technology and humanities/social science research. The minor requires a minimum of fifteen credits, distributed as follows:

Code	Title	Credits
Required Course		3
ENG/HIS 2435	Introduction to Digital Humanities	
Skills Courses (select two of the following)		6
TIS 5570	Introduction to Business Analytics	
TIS 5705	Inbound Information Technology	
TIS 5670	Special Topics in Information Systems	
TIS 5994	Software Tools for Business Applications	
MKT 5800	Digital Marketing and Analytics	
CSC 1050	Introduction to C and Unix	
CSC 1100	Problem Solving and Programming	
CSC 2000	Introduction to C++ Programming Language	
CSC 3020	Java Programming	
ADA 2210	Introduction to Digital Practices	
ADA 3220	Introduction to Interactivity in Art	
ADA 5240	Advanced Interactivity: Experimental Video Games	
AGD 2230	Introduction to Typography: Skills and Concepts	
AGD 2240	Introduction to Graphic Design: Skills and Concepts	
AGD 3260	Introduction to Interactivity in Graphic Design	
COM 1610	Fundamentals of New Media Production	
COM 2260	Digital Writing and Research Methods	
COM 2290	Fundamentals of New Media Communication	
COM 2310	Introduction to Web Design	
COM 5390	Digital Animation	
GPH 3600	Introduction to Geographic Information Systems	
GPH 4600	Advanced Geographic Information Systems	
Elective courses (select two of the following)		6
ANT 5565	Urban Archaeology	
COM 5280	New Media Practices	
COM 5010	History of Communication Technologies	
COM 5500	Journalism and New Media	
COM 6270	New Media Theory	
ENG 2430	Digital Literacies: Writing about Texts	
ENG 5690	Topics in Book History	
HIS 3995	Special Topics in History *	
HIS/ANT 4993	History Communication	
Total Credits		15

* Should be chosen in consultation with an advisor.

Jewish Studies Minor

Office: 3094 Faculty/Administration Building; 313-577-2525
 Coordinator: Howard Lupovitch
<https://clas.wayne.edu/jewishstudies> (<https://clas.wayne.edu/jewishstudies/>)

The Jewish Studies minor engages students who are interested in learning about the history, culture, and languages of Jewish communities. In a variety of courses in history, literature, philosophy, political science,

and the Hebrew language, students learn how Jewish thought has influenced the modern world and how it has been influenced in turn by the societies and cultures in which Jews have lived over the past four thousand years.

To earn a minor in Jewish Studies, a student must take a minimum of nineteen credits, including:

Code	Title	Credits
HEB 1010	Elementary Hebrew I	4
HIS 3010	Jewish History from the Bible to Present	3
Select a minimum of twelve credits of the following:		12
ENG 5080	Topics in Global and Transnational Studies	
ENG 5490	Topics in American Literature	
GER 5390	Holocaust Studies	
HIS 3995	Special Topics in History (chosen in consultation with an advisor)	
NE 2010	The Bible and Ancient Mythology	
NE 2060	Trends and Themes in Films of the Middle East	
NE 2700	Topics in Middle Eastern Studies	
NE 3225	Modern Israeli Culture: A Pluralistic Perspective	
PHI 2400	Introduction to the Philosophy of Religion	
PS 3835	Middle East Conflict	
PS 5999	Special Topics in Political Science	
Study Abroad Option		
ED 5998	Field Studies	
Total Credits		19

African American Studies

Office: 11th Floor, 5057 Woodward, Rm. 11002.2; 313-577-2321
Chairperson: Ollie A. Johnson III
<https://clas.wayne.edu/afamstudies> (<https://clas.wayne.edu/afamstudies/>)

African American Studies is the systematic study of the historical, cultural, intellectual and social development of people of African descent, the societies of which they are a part, and their contribution to world civilization. Its principal geographic domains are the United States, the Caribbean, Latin America, the African continent, and increasingly Western Europe where large African communities reside. The field features a diversity of intellectual approaches and practical interests. Based on an interdisciplinary framework, it draws upon the humanities, and the social and behavioral sciences.

The major in African American Studies prepares students for a wide range of professional and career opportunities. Majors can continue to graduate (including doctoral level) studies in the humanities, social and behavioral sciences, or pursue professional programs in law, medicine, business, and journalism. Graduates who enter the job market are prepared for careers in human services and public health, education, public relations, community development, urban planning, and more generally for jobs in the public sector, in central cities and urban institutions, or jobs that involve cultural or intergroup relations as well as international affairs. In the context of metropolitan Detroit, African American Studies graduates will be better prepared to deal with the complexity and diversity of the city's political and demographic realities as they assume important roles of leadership.

- African American Studies (B.A.) (p. 229)
- African American Studies Minor (p. 230)

African American Studies (B.A.)

The major in African American Studies prepares students for a wide range of professional and career opportunities. Majors can continue to graduate (including doctoral level) studies in the humanities, social and behavioral sciences, or pursue professional programs in law, medicine, business, and journalism. Graduates who enter the job market are prepared for careers in human services and public health, education, public relations, community development, urban planning, and more generally for jobs in the public sector, in central cities and urban institutions, or jobs that involve cultural or intergroup relations as well as international affairs. In the context of metropolitan Detroit, African American Studies graduates will be better prepared to deal with the complexity and diversity of the city's political and demographic realities as they assume important roles of leadership.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees. Students must also have and maintain an overall GPA of 2.0 as well as a GPA of 2.0 in the African American Studies major for graduation.

Students with an interest in African American studies and majoring in anthropology, English, history, sociology, urban studies, and political science are encouraged to consider a second major in African American studies. Many African American Studies courses are cross listed, and African American Studies majors may receive credit for courses taken for another major.

Majors must complete at least thirty-six credits (approx. 9-12 courses) in a prescribed course of study, including:

Code	Title	Credits
AFS 3420/ PS 3820	Pan Africanism and the Diaspora	4
AFS 2210	Black Social and Political Thought	4
AFS 3180	Black Social Movements	4
AFS 3200	The African-American Film Experience	4
AFS 5110	Black Women in America (Writing Intensive Requirement)	3
Select two of the following:		6-8
AFS 2010	African American Culture	
AFS 2250	AfroLatino/a History and Culture	
AFS 2390	Introduction to African-American Literature: Writing about Texts	
AFS 2600	Race and Racism in America	
AFS 3160	Black Urban History	
AFS 3360	Black Workers in American History	
AFS 3610	Africa: Politics, Culture and Society	
AFS 4240	African Americans in Television	
Select one of the following:		3-4
AFS 5310	Special Topics in African American Studies	
AFS/SOC 5580	Law and the African American Experience	
AFS/PSY 5700	The Psychology of African Americans	
AFS electives		4-8

Internships

Internships are available in which students gain experience through placements in settings similar to those in which they will later be seeking professional roles. These include: community service agencies, community-based self-development organizations, public and private institutions, Black alternative organizations and other appropriate settings. Some students may also do a practicum directly with the Department of African American Studies, assisting in research, community relations, and in the organization, coordination and conduct of community extension and education service programs. The objective of this mode of study is to offer students the opportunity to synthesize diverse ideas, theories and methodologies with important and practical real world imperatives. Interested students should contact the department's undergraduate advisor.

Summer Study Abroad

This travel program periodically visits Africa and/or Brazil. Through an integrated field/classroom/seminar experience, students are challenged to grow intellectually, as well as to increase their self-awareness and sensitivity to other cultures. For more information, consult the department advisor.

African American Studies Honors (B.A. Program)

The honors curriculum is designed to challenge highly motivated students to achieve excellence in the field of African American Studies.

Students are encouraged to develop active interests in probing the outstanding research and scholarship related to the global Black experience.

1. Maintain a 3.3 GPA overall and a 3.5 GPA within the AFS major.
2. Complete a minimum of 12-15 credits, including the following:
 - a. AFS 5991 or AFS 6990: (3-8 cr.): A senior thesis under the direction of a full-time faculty member in their major area.
 - b. HON 42xx (<http://bulletins.wayne.edu/undergraduate/honors-college/courses/>): Complete one 42xx level Honors seminar offered through the Honors Program. The Honors seminars are interdisciplinary courses that focus on a special topic for the term.
 - c. Accumulate at least six credits in honors-designated course work, not including thesis and the HON seminar. These honors credits can be obtained from any department, including AFS.

African American Studies Minor

Students majoring in other fields can minor in African American studies. The minor consists of six AFS courses which must include:

Code	Title	Credits
AFS 3420	Pan Africanism and the Diaspora	4
Select two or more of the following:		6-8
AFS 2010	African American Culture	
AFS 2210	Black Social and Political Thought	
AFS 2600	Race and Racism in America	
AFS 3250	Politics and Culture in the Caribbean	

Students wishing to minor in African American Studies are encouraged to visit the departmental office for information and counseling. A minor may be declared when filing for graduation.

Anthropology

Office: 3054 Faculty Administration Building; 313-577-2935

Chairperson: Krysta Ryzewski

Academic Advisor IV: Stacie Moser

Undergraduate Director: Andrew Newman

<https://clas.wayne.edu/anthropology> (<https://clas.wayne.edu/anthropology/>)

Anthropology is the study of humanity, past and present, around the world and here in Detroit. It seeks to understand what all humans have in common, as well as our biological and cultural diversity. Anthropologists study people by living and talking with them, by interpreting myths and rituals, and by analyzing human remains and artifacts recovered from archaeological sites and crime or mass disaster scenes.

Undergraduate training in anthropology is designed to accommodate a wide range of student interests:

1. those desiring scientific knowledge of the social and cultural determinants of behavior;
2. those preparing to enter law, medicine, public health, social work, information sciences, or public administration;
3. those preparing for employment in historical or natural science museums;
4. those preparing to serve the business and/or industrial community as specialists in cross-cultural analysis or management consulting;
5. those seeking to enter the field of cultural resource management;
6. those expecting to work with the general public and, therefore, requiring a broad grasp of the nature of society, group behavior and social change;
7. those looking forward to teaching anthropology or another of the social or behavioral sciences;
8. those preparing for a career in another country, in international studies, or in foreign affairs;
9. those planning to pursue careers in law enforcement, police science, or criminal justice; and
10. those who desire to pursue graduate studies in anthropology.

- Anthropology (B.A.) (p. 230)
- Anthropology Minor (p. 231)
- Archaeology Minor (p. 231)
- Forensics and Investigation Minor (p. 232)
- Global Health and Social Medicine Minor (p. 232)

Anthropology (B.A.)

Anthropology is a comparative social science that seeks to understand human behavior within the context of different cultural systems, past and present. Anthropology also seeks to understand human biological evolution and adaptation and their interaction with social and cultural behavior. Anthropology brings a cross-cultural knowledge base and unique methodological and conceptual tools to bear on understanding the transformations, problems and interconnections of contemporary societies. The discipline is organized according to the sub-fields of cultural, biological, linguistic anthropology, and archaeology. The department also has an emphasis on applied anthropology. Wayne State's department offers a Bachelor of Arts in anthropology, dual major options, and three minors in Anthropology, Archaeology, Global Health and Social Medicine. The following admission and degree requirements apply.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Students majoring in anthropology are required to elect a minimum of thirty-four credits in anthropology, including:

Code	Title	Credits
ANT 1100	Introduction to Anthropology	3
ANT 2110	Introduction to Biological Anthropology	3
ANT 3020	Introduction to Archaeology	3
ANT 3030	History of Anthropology	3
ANT 3310	Language and Culture	3
ANT 3333	Introduction to Sociocultural Anthropology	3
ANT 5210	Anthropological Methods	4
ANT 5996	Capstone Seminar in Anthropology	3
Anthropology electives		9
Total Credits		34

A minimum of fifteen credits must be taken in residence. The capstone course (ANT 5996) must be taken in residence. All ANT core courses must be completed with a grade of C or better. All ANT elective courses must be completed with a grade of C- or better.

Combined Degree

Students pursuing a degree at an approved school of dentistry, medicine, or law may obtain a combined degree with anthropology in accordance with the requirements set forth by the College of Liberal Arts and Sciences (p. 225).

Anthropology Honors (B.A. Program)

This program is open to students pursuing a bachelor's degree with a major in anthropology who maintain an overall cumulative grade point average of at least 3.3 and a similar g.p.a. in anthropology courses. Honors majors must demonstrate the ability to do original work by writing an honors thesis during their senior year. The anthropology honors program leads to a degree designation 'with Honors in Anthropology'. Students in the Honors Program must satisfy the following requirements:

1. All requirements for a major in anthropology;
2. Overall g.p.a. of 3.3 or above;
3. Anthropology g.p.a. of 3.3 or above;
4. A minimum of three thesis credits in anthropology (ANT 4999);
5. An approved honors thesis;
6. One 42XX honors seminar (HON 4200-HON 4280) offered by the Honors College.
7. A total of twelve honors-designated credits including an approved Honors Thesis ANT 4999, the 42XX Honors Program seminar, and two three-credit ANT courses with an honors designation. Honors courses offered by other departments may be considered as a substitute in consultation with the Academic Advisor.

AGRADE Program (Accelerated Graduate Enrollment)

This program enables qualified seniors in the College of Liberal Arts and Sciences to enroll simultaneously in the undergraduate and graduate programs of the College. Students may apply for the AGRADE Program during the term in which they will complete ninety credits; to qualify, students must have cumulative GPA of 3.3 or higher. For more details about the AGRADE Program, contact the Academic Advisor in the Anthropology Department.

Anthropology Minor

The election of a minor in anthropology is appropriate for students in a variety of disciplines who wish to add a comparative, cross-cultural, or bio-cultural perspective on the study of human beings to their area of specialization. The minor requires a minimum of eighteen credits in anthropology courses including:

Code	Title	Credits
ANT 1100	Introduction to Anthropology	3
Select two of the following:		6
ANT 2110	Introduction to Biological Anthropology	
ANT 3100	World Cultures	
ANT 3020	Introduction to Archaeology	
ANT 3310	Language and Culture	
Select three anthropology elective courses with one course at the 5000-level		9
Total Credits		18

In order for students to gain maximum benefit from their minor in conjunction with their major, it is strongly recommended that they consult with an advisor in the department before electing courses. A list of elective anthropology courses recommended for combination with a variety of majors is available from the Department.

Archaeology Minor

Archaeology is the study of past human cultures through material remains; it is one of the sub-fields of the discipline of Anthropology. The minor in archaeology will introduce particular skill sets, concepts, and competencies to students who wish to apply them to their expertise in other disciplines. The minor requires a minimum of 18 credits.

Requirements

Code	Title	Credits
ANT 1100	Introduction to Anthropology	3
ANT 3020	Introduction to Archaeology	3
Select four elective courses from the following, one ANT course must be at the 5000-level:		12-13
ANT 2200	Lost Cities and Ancient Civilizations	
ANT 2500	Archaeology of the Great Lakes	
ANT 3220	The Inca and their Ancestors	
ANT 3530	Native Americans	
ANT 5270	Concepts and Techniques in Archaeology	
ANT 5280	Field Work in Archaeology of the Americas	
ANT 5500	Historical Archaeology	
ANT 5510	Pre-Columbian and Mesoamerican Civilization	
ANT 5565	Urban Archaeology	
ANT 5600	Museum Studies	

One of the following specialty classes may be applied to the 4-course elective requirement:	
BIO 2870	Anatomy and Physiology
BIO 3500	Ecology and the Environment
BIO 3800	Botany
CHM 1100	General Chemistry I
CHM 1240	Organic Chemistry I
ESG 3400	Principles of Sedimentology and Stratigraphy
ESG 3650	Field Geology
ESG 4200	Geomorphology
ESG 5210	Environmental and Applied Geophysics
GKM 3590	Byzantine Civilization
GPH 3600	Introduction to Geographic Information Systems
HIS 3650	History of Detroit
HIS 3995	Special Topics in History
PHY 2170	University Physics for Scientists I
Total Credits	18

HIS 3585	Science, Technology, and Society
PH 2500	Race and Ethnic Disparities in Public Health
PH 2550	MENA Public Health
PH 3300	Epidemiology
PH 3100	Social and Behavioral Aspects of Public Health
PH 4600	Special Topics in Health Disparities
PHI 1110	Ethical Issues in Health Care
PS 3450	Environmental Policy and Politics
PS 5560	Biopolitics
PS 5850	Human Rights
PSY 2410	Health Psychology
PSY 3380	Human Sexuality
PSY 3490	Psychology of Adult Development and Aging
SOC 4204	Seminar in Aging and the Life Course
SOC 4205	Seminar in Medical Sociology
SOC 2210	Sociology of Health and Medicine
Total Credits	18

Forensics and Investigation Minor

The Forensics and Investigation minor is 18 credits of coursework, of which a maximum of 6 credits can be transferred from other institutions for the CRJ courses only.

Code	Title	Credits
CRJ 1010	Introduction to Criminal Justice	3
CRJ 3200	Police and Society	3
CRJ 3260	Investigation	3
CRJ 3270	Public Safety: sUAS (Drone) Technology Programs	3
CRJ 4220	Criminalistics	3
ANT/CRJ 2130	Introduction to Forensic Anthropology and Human Rights	3
Total Credits		18

Global Health and Social Medicine Minor

The Global Health and Social Medicine minor will explore the relationship between human rights and health and pays special attention to the factors contributing to health inequities locally and globally. The skills and training that students will receive in the Global Health and Social Medicine minor are transferable to careers in a variety of health-related fields including medicine, nursing, public health, and social work. The minor requires the completion of 18 credits.

Code	Title	Credits
ANT 1100	Introduction to Anthropology	3
ANT 3400	Introduction to Medical Anthropology	3
ANT/GLS/PH 3410	Global Health	3
ANT 5400	Anthropology of Health and Illness	3
Select two of the following:		6
ANT/GLS 3700	Globalization: Theories, Practices, Implications	
ANT 5410	Anthropology of Age

- Biological Sciences (B.S.) (p. 234)
- Biological Sciences Minor (p. 235)

Departmental Academic Policies

Student's Responsibility

It is each student's responsibility to learn the major requirements, policies, and procedures governing the program they are following and to act accordingly. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees. Students should consult a Biological Sciences Department Advisor regularly in order to verify that their Biology requirements are being met in a timely fashion. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Declaration of Major

Students should declare their major after completing BIO 1500 and BIO 1510 with a 'C-minus' or better. Major requirements are established by the declaration of major date. Students who do not formally declare their major are susceptible to program changes made by the Department. Recent program changes may not be reflected in the University Bulletin if they are established after the printing of the Bulletin.

Prerequisites/Corequisites

Students are required to follow all prerequisites and corequisites listed for each Biology course. Please refer to the Biological Sciences Department Advisor and the Class Schedule for accurate listings of prerequisite requirements.

Grade Requirements

All students are required to complete BIO courses with a 'C-minus' or better to satisfy the prerequisite requirements. Students with grades below a 'C-minus' in prerequisite coursework are required to retake the course before proceeding to the subsequent courses in the program.

Residency Requirement

Students must complete a minimum of twenty-one credits *in residence* in biological sciences (BIO). Of the twenty-one in residence credits, fifteen of those credits must be at the 3000 level or higher.

Combined Degree with Dentistry and Medicine

Students who were majoring in biological sciences and are candidates for a combined degree must have made reasonable progress towards the requirements listed for biological sciences majors. A minimum of twenty-five credits in residence are required in biological sciences (BIO). See also the College of Liberal Arts and Sciences policy on combined degrees.

Over-Age Credits

A student attempting to complete a biological sciences major after a prolonged interruption of his/her education may find that some of the previous course work in biological sciences is out of date. In such cases, the record will be reviewed and the Department may require the student

to fulfill biological sciences course requirements existing at the time of his/her return.

Transfer

Transfer Students should consult with a Departmental undergraduate advisor during the semester prior to their transfer (after a transfer evaluation has been completed by the Transfer Credit Office).

Determination of course equivalency will be made by the Departmental undergraduate advisor in conjunction with the Transfer Credit Evaluation Unit in the Office of Undergraduate Admissions. The Department reserves the right for the final determination of course equivalency.

Advanced Placement

Advanced Placement in Biological Sciences may be obtained by earning the following scores in the AP Qualifying Examination:

Score of 5: Credit is awarded for BIO 1500 and BIO 1501 and BIO 1510 (seven credits). Students are eligible to enroll in subsequent courses providing the prerequisites for them have been met. Students will need to complete BIO 1511.

Score of 3 or 4: Credit is awarded for BIO 1510 (three credits). Students with a score of 3 or 4 are eligible to register in BIO 1500 and BIO 1501. Students will also need to complete BIO 1511.

AGRADE (Accelerated Graduate Enrollment)

Accelerated Graduate Enrollment: The 'AGRADE' Program is designed for outstanding seniors who wish to complete bachelor's and master's degrees. For further details and eligibility requirements regarding the 'AGRADE' Program and Biological Sciences, contact the Department Advising Office, 1360 Biological Sciences Building.

Biological Sciences (B.A.)

The Bachelor of Arts degree is for students who desire a broad liberal arts education with specialization in biology. It is not recommended for students anticipating admission into graduate science programs or medical school. Students contemplating a major program in biological sciences should consult with a departmental undergraduate advisor no later than the beginning of the sophomore year.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees. Students must receive a grade of C-minus or better in all biology courses. A grade point average of 2.0 (C) in both biology and general required courses is required for graduation.

Major Requirements

A minimum of 40 credits of BIO starting at BIO 1500 are required of the major as defined below. Courses through the 6000 level may be elected providing the proper prerequisites have been successfully completed.

Code	Title	Credits
BIO 1500 & BIO 1501	Basic Life Diversity and Basic Life Diversity Laboratory	4
BIO 1510 & BIO 1511	Basic Life Mechanisms and Basic Life Mechanisms Laboratory	4
BIO 2600	Introduction to Cell Biology	4
BIO 2700	Evolution: Basic Concepts and Applications	3
BIO 3070	Genetics ²	4-5

Students must complete additional coursework in BIO courses to reach 40 credits in BIO. Electives in BIO must be at the 3000 level or above. One course must include an upper level lab. One course must include Scientific Communication. Undergraduate research may be applied up to a max of 6 credits including the research seminar, UG research credits and honors thesis.¹

Courses that include upper level labs. BIO 3070 (satisfies the lab requirement only when elected for 5 credits), BIO 3250 & BIO 3251, BIO 3800, BIO 4120, BIO 4130, BIO 4350, BIO 4630, BIO 5040, BIO 5100, BIO 5440, BIO 5610.

Courses that include Scientific Communication. BIO 4110, BIO 4120, BIO 4130, BIO 4370, BIO 5150, BIO 5240, BIO 5280, BIO 5610/ BIO 5620.

¹ Courses required to complete major requirements listed above cannot also be used as BIO elective credit.

² If elected for honors credit, BIO 3070 is 5 credits and includes a lab.

Cognate Requirements

Code	Title	Credits
CHM 1100 & CHM 1130	General Chemistry I and General Chemistry I Laboratory	5
CHM 1140 & CHM 1150	General Chemistry II and General Chemistry II Laboratory	5
CHM 1240	Organic Chemistry I	4
MAT 1800	Elementary Functions ¹	4
STA 1020 or STA 2210	Elementary Statistics or Probability and Statistics	3

¹ Students must start in the appropriate math course based upon placement exam or valid SAT/ACT scores. Students may attempt to place into a higher MAT course by taking the Placement Examination of the Department of Mathematics upon entry into the university.

Biological Sciences Honors (B.A. and B.S. Programs)

The Department participates in the honors program and works with individual students to develop a curriculum that satisfies honors degree requirements. Students interested in an honors degree should contact the departmental honors advisor.

Program Requirements: To achieve honors designation with the Bachelor of Arts or Bachelor of Science in Biological Sciences, students are required to complete all University and major requirements (see above) including fourteen honors credits in Biology and an honors seminar (HON 4200-HON 4280).

The fourteen credits in Biological Sciences are comprised of:

Code	Title	Credits
8 credits of BIO courses with honors¹		8
BIO 1500	Basic Life Diversity	

BIO 1510	Basic Life Mechanisms	
BIO 2600	Introduction to Cell Biology	
BIO 3070	Genetics	
BIO 3100	Cellular Biochemistry	
BIO 3200	Human Physiology	
BIO 3500	Ecology and the Environment	
BIO 6890	Introduction to Research Practice - Honors	1
BIO 6893	Honors Undergraduate Research in Biological Sciences (Student needs 3 credits of honors research (BIO 6891, 6892, 6893, 6894). Credits can be spread across multiple terms but must total a minimum of 3 cr. Honors UG research.)	3
BIO 6999	Honors Undergraduate Research Thesis	2
Total Credits		14

Code	Title	Credits
Honors Seminar		3
HON 4200	Seminar in Philosophy and Letters	
HON 4230	Seminar in Physical Science	
HON 4250	Seminar: Global Perspectives on Historical Studies	
HON 4260	Seminar in Foreign Culture	
HON 4280	General Honors Seminar	
Total Credits		3

To be awarded a BIO honors degree, students must accumulate seventeen honors credits as defined above. Students must also maintain a cumulative g.p.a. of at least a 3.3. Students completing department honors must also maintain a 3.3 g.p.a in BIO coursework.

¹ BIO courses without an honors section may be used if the professor is willing to do an honors option. Paperwork to do an honors option on a course is available from the Honors College.

Biological Sciences (B.S.)

The Bachelor of Science degree is for those students who wish to follow a career in the sciences and/or those planning to enter post-graduate professional schools. Students contemplating a major program in biological sciences should consult with a Departmental undergraduate advisor no later than the beginning of the sophomore year.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees. Students must receive a grade of C-minus or better in all biology courses. A grade point average of 2.0 (C) in both biology and general required courses is required for graduation.

Major Requirements

A minimum of 40 credits of BIO starting at BIO 1500 are required of the major as defined below. Courses through the 6000 level may be elected providing the proper prerequisites have been successfully completed.

Code	Title	Credits

BIO 3500	Ecology and the Environment	
BIO 6890	Introduction to Research Practice - Honors	1
BIO 6893	Honors Undergraduate Research in Biological Sciences (Student needs 3 credits of honors research (BIO 6891, 6892, 6893, 6894). Credits can be spread across multiple terms but must total a minimum of 3 cr. Honors UG research.)	3
BIO 6999	Honors Undergraduate Research Thesis	2
Total Credits		14

Code	Title	Credits
Honors Seminar		3
HON 4200	Seminar in Philosophy and Letters	
HON 4230	Seminar in Physical Science	
HON 4250	Seminar: Global Perspectives on Historical Studies	
HON 4260	Seminar in Foreign Culture	
HON 4280	General Honors Seminar	
Total Credits		3

To be awarded a BIO honors degree, students must accumulate seventeen honors credits as defined above. Students must also maintain a cumulative g.p.a. of at least a 3.3. Students completing department honors must also maintain a 3.3 g.p.a in BIO coursework.

¹ BIO courses without an honors section may be used if the professor is willing to do an honors option. Paperwork to do an honors option on a course is available from the Honors College.

Biological Sciences Minor

Completion of the minor in biological sciences requires twenty-one credits of BIO coursework as indicated below. At least 12 credits in BIO must be completed in residence at WSU.

Code	Title	Credits
BIO 1500 & BIO 1501	Basic Life Diversity and Basic Life Diversity Laboratory	4
BIO 1510 & BIO 1511	Basic Life Mechanisms and Basic Life Mechanisms Laboratory	4
BIO 2600	Introduction to Cell Biology	4

Chemistry

Office: 169 Chemistry Building; 313-577-7784

Chairperson: Matthew J. Allen

Associate Chairperson: Jeremy Kodanko

Academic Services Officers: Erin Bachert, Melissa Rochon

<https://clas.wayne.edu/chemistry> (<https://clas.wayne.edu/chemistry/>)

The courses offered by this Department are designed to serve the needs of three distinct groups of students:

1. those majoring in chemistry with the intention of entering the chemical profession,
2. those majoring in chemistry with the intention of entering other professional fields, and
3. those majoring in other subjects who desire to elect chemistry courses as part of their programs. Students intending to major in chemistry should refer to the program tabs for more information.

Students with no prior experience in chemistry may elect CHM 1000 (for non-science majors); CHM 1020 (for non-science majors and certain preprofessional students); CHM 1060 (for non-science majors and certain preprofessional students); or CHM 1040, which is intended for students who need higher-level chemistry work but who fail to qualify for CHM 1100 or CHM 1125 or whose math/science skills are weak.

Students who have had a year or more of high school chemistry or the equivalent may register for CHM 1100 or CHM 1125 (for science and preprofessional majors) provided that they meet the other eligibility requirements outlined below. Election of CHM 1000, CHM 1020, CHM 1100, or CHM 1125, or will satisfy the University General Education Requirement for a physical science.

Terminal Chemistry Courses

CHM 1000 is a terminal survey course designed primarily to acquaint non-science students with the principles of chemistry in a format requiring minimal mathematical skills. When elected for four credits, this course includes a laboratory which satisfies the University General Education Requirement for a laboratory course.

CHM 1020 and CHM 1030 represent a terminal sequence designed to introduce the basic principles of chemistry and survey the various fields of chemistry for non-science majors and certain pre-professional students such as pre-nursing, occupational health, engineering technicians and others.

CHM 1060 is a single terminal course designed to introduce the basic principles of chemistry and survey the various fields of chemistry for non-science majors and certain pre-professional students such as pre-nursing, occupational health and others.

Foundational Chemistry

CHM 1040 is designed as the beginning chemistry course for science majors, pre-professional students, and other students who have had little prior experience in chemistry and/or mathematics. CHM 1100 (or CHM 1125) and CHM 1130 are complementary and corequisite courses which should be taken during the same term. is a classroom-focused course. is a laboratory-focused course. This also describes the succeeding corequisite sets CHM 1140/CHM 1150, CHM 1240/CHM 1250, and CHM 2220/CHM 2230.

General Chemistry

CHM 1100/CHM 1130 are designed as the beginning courses for science majors and preprofessional students who have a good background in high school chemistry. (CHM 1125/CHM 1130 is the

sequence for students in the College of Engineering.) Eligibility for CHM 1100/CHM 1130 must be established by passing a placement examination, covering basic high school material, which is administered by Testing, Evaluation, and Student Life Research, 698 Student Center Building. The qualifying examination is administered several times prior to and during registration.

The sequence of CHM 1100/CHM 1130 and CHM 1140/CHM 1150 are prerequisite to all higher numbered courses in chemistry.

Advanced Placement Credit

Advanced placement college credit in chemistry shall be awarded for scores earned in the chemistry placement examination as follows:

Score of 4 or 5: Credit awarded for CHM 1100/CHM 1130 and CHM 1140 (eight credits); student is eligible to enroll in CHM 1240/CHM 1250.

Score of 3: Credit awarded for CHM 1100/CHM 1130 (five credits); student is eligible to enroll in CHM 1140/CHM 1150.

- Chemistry (B.A.) (p. 238)
- Chemistry (B.S.) (p. 239)
- Chemistry Minor (p. 242)
- Biochemistry and Chemical Biology (B.S.) (p. 237)
- Biochemistry and Chemical Biology Minor (p. 242)
- Cannabis Chemistry (Undergraduate Certificate) (p. 242)

Biochemistry and Chemical Biology (B.S.)

This degree offers students the opportunity to develop in-depth knowledge in five areas of biological chemistry (bioorganic, bioinorganic, bioanalytical, biophysical, and health sciences). The program teaches key chemical concepts and develops student ability to apply them to a wide variety of biological problems. The program serves to develop and train graduates who will be well prepared to enter graduate or professional schools as well as careers in the chemical, pharmaceutical, biomedical, agricultural and bioinformatic industries.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. Students planning to major in biochemistry and chemical biology should consult with an advisor in the Chemistry Department not later than the beginning of their sophomore year.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Those who wish to follow the curriculum in the College for the B.S. with a major in Biochemistry and Chemical Biology degree must complete the following courses:

Code	Title	Credits
CHM 1100	General Chemistry I	4
CHM 1130	General Chemistry I Laboratory	1

CHM 1140	General Chemistry II	4
CHM 1150	General Chemistry II Laboratory	1
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
CHM 2220	Organic Chemistry II	4
CHM 2230	Organic Chemistry II Laboratory	1
CHM 3000	Metals in Biology	3
CHM 3120	Analytical Chemistry	3
CHM 3130	Analytical Chemistry Laboratory	1
CHM 5400	Biological Physical Chemistry	3
CHM 6610	Biological Chemistry Laboratory	3

Total Credits **77-82**

¹ By the first semester of the senior year, the student must enroll for at least two credits in independent research (CHM 5999 or CHM 5998) or two credits of CHM 5900. The student must work under the direction of a faculty member of the Department of Chemistry. It is advised that the student consult with the faculty during the term prior to beginning work, in order to choose the area and staff member under whose direction this research will be carried out. At the conclusion of the project, the student must present a written report for approval by the Chairperson of the Department. With prior approval by the Chairperson of the Department, students may be allowed to substitute to 2 credits of an internship experience (CHM 6991) in place of a research project.

A minimum grade of C is required in prerequisite chemistry courses.

At least fifteen credits in chemistry plus Research in Chemistry (CHM 5999) must be earned at Wayne State University.

Biochemistry and Chemical Biology Honors (B.S. Program)

1. All regular requirements for the Bachelor of Science with a major in Biochemistry and Chemical Biology degree must be fulfilled (no substitutions).
2. Minimum g.p.a.: 3.3 overall; 3.3 in chemistry courses.
3. Minimum of four credits must be earned in independent research (CHM 5998); this should commence in the junior year (or earlier).
4. Completion of one semester of an HON 42xx-level honors seminar. (For information about honors-designated coursework available each semester, including the required 42xx-level Honors seminar, visit the Honors College website (<https://honors.wayne.edu/>.) This course may be used to partially fulfill college Group Requirements and can be elected in either the junior or senior year.
5. Submission of a B.S. thesis (covering the undergraduate independent research project), or of a manuscript suitable for publication in a refereed chemical journal, to the Honors Subcommittee in Chemistry which will act to accept or reject the thesis (or manuscript).
6. An oral examination covering the B.S. Honors Research Project, by the Honors Subcommittee in Chemistry.

The AGRADE program enables highly qualified students pursuing a B.S. with a major in Chemistry or a B.S. with a major in Biochemistry and Chemical Biology to enroll simultaneously in the M.A. with a major in Chemistry. Students will be able to apply up to a maximum of 16 credits towards both the undergraduate and graduate degrees. AGRADE applicants must have a cumulative grade point average (g.p.a.) of 3.50 or better. Applicants are also expected to have performed at a superior level in the major, as determined by the department, *and the required g.p.a. in the major shall not be less than 3.6 at the time of application.*

The earliest students may be admitted into the AGRADE Program is the semester in which they complete 90 credits towards the undergraduate degree. Students should consult with an undergraduate advisor in their major department to seek advice about the appropriate time to apply for AGRADE status.

Requirements

Depending on the degree, students may use up to 16 credits from the following courses to count towards their B.S. and M.A. degrees. Only those AGRADE-approved courses in which the student has earned a B or higher will transfer to the graduate transcript. Once in the master's program, students may be required to repeat an AGRADE course in which they earn less than a B grade.

Code	Title	Credits
CHM 6070	Advanced Bioinorganic Chemistry	3
CHM 6090	Organometallic Chemistry	3
CHM 6170	Advances in Bioanalytical Chemistry	3
CHM 6240	Organic Spectroscopy	3
CHM 6270	Advanced Bioinorganic Chemistry and Drug Design	3
CHM 6440	Computational Chemistry	3
CHM 6610	Biological Chemistry Laboratory	3
CHM 6620	Metabolism: Pathways and Regulation	3
CHM 6635	Tools of Molecular Biology	3
CHM 6640	Molecular Biology	3

Chemistry (B.A.)

This curriculum allows students to major with a maximum of forty-six credits in chemistry while providing flexibility for exposure in other cognate fields. This degree is appropriate for students in science-oriented

pre-professional programs such as medicine and dentistry, as well as for students entering secondary science teaching. For individuals interested in entering a graduate program in chemistry or pursuing a position in the chemical industry upon graduation, it is recommended that the additional requirements for professional certification by the American Chemical Society (see *Requirements* tab) be completed.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. Students planning to major in chemistry should consult with an advisor in the Chemistry Department not later than the beginning of their sophomore year.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

Those who wish to follow the general curriculum in the College of Liberal Arts and Sciences for the B.A. degree with a major in chemistry must complete the following courses:

Code	Title	Credits
CHM 1100	General Chemistry I	4
CHM 1130	General Chemistry I Laboratory	1
CHM 1140	General Chemistry II	4
CHM 1150	General Chemistry II Laboratory	1
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
CHM 2220	Organic Chemistry II	4
CHM 2230	Organic Chemistry II Laboratory	1
CHM 3020	Intermediate Inorganic Chemistry I	3
or CHM 3000	Metals in Biology	
CHM 3120	Analytical Chemistry	3
CHM 3130	Analytical Chemistry Laboratory	1
CHM 5400	Biological Physical Chemistry	3
or CHM 5420	Physical Chemistry I	
CHM 5550	Physical Chemistry Laboratory	2-3
or CHM 5510	Chemical Synthesis Laboratory	
or CHM 5020	Intermediate Inorganic Chemistry II	
CHM 5600	Survey of Biochemistry	3
or CHM 6620	Metabolism: Pathways and Regulation	
Select at least one of the following that is not being used in a different category:		3-4
CHM 5020	Intermediate Inorganic Chemistry II	
CHM 5160	Instrumental Analytical Chemistry	
CHM 5440	Physical Chemistry II	
CHM 5510	Chemical Synthesis Laboratory	
CHM 6060	Materials Chemistry and Engineering	
CHM 6070	Advanced Bioinorganic Chemistry	
CHM 6090	Organometallic Chemistry	
CHM 6100	Theory of Analytical Chemistry	

CHM 6120	Electroanalytical Chemistry	
CHM 6160	Separation Science	
CHM 6170	Advances in Bioanalytical Chemistry	
CHM 6180	Mass Spectrometry	
CHM 6200	Organic Structures and Mechanisms	
CHM 6220	Organic Reactions and Synthesis	
CHM 6240	Organic Spectroscopy	
CHM 6270	Advanced Bioorganic Chemistry and Drug Design	
CHM 6410	Statistical Thermodynamics	
CHM 6440	Computational Chemistry	
CHM 6500	Modern Methods in Experimental Chemistry	
CHM 6620	Metabolism: Pathways and Regulation	
CHM 6635	Tools of Molecular Biology	
CHM 6640	Molecular Biology	
CHM 6680	Clinical and Molecular Aspects of Cancer	
CHM 6700	Green Chemistry: Mindful Design in Science, Engineering, and Medicine	
PHY 2170	University Physics for Scientists I	4
PHY 2171	University Physics Laboratory	1
PHY 2180	University Physics for Scientists II	4
PHY 2181	University Physics Laboratory II	1
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2250	Elementary Linear Algebra	3

Total Credits **59-61**

A minimum grade of 'C' is required in prerequisite chemistry courses.

At least fifteen credits in chemistry must be earned at Wayne State University.

ACS Certification

B.A. candidates may receive certification by the American Chemical Society upon graduation by completing the following in addition to the Chemistry courses required for the B.A. degree:

Code	Title	Credits
MAT 2030	Calculus III	4
CHM 5420	Physical Chemistry I	3
CHM 5440	Physical Chemistry II (rather than CHM 5400)	4
CHM 5160	Instrumental Analytical Chemistry	3
Select two of the following:		4-5
CHM 5510	Chemical Synthesis Laboratory	
CHM 5570	Instrumental Analytical Chemistry Laboratory	
CHM 5999	Research in Chemistry	

Total Credits **18-19**

To receive certification, students must submit an application along with a transcript to the Chemistry Department Curriculum Committee prior to the end of the final term.

Chemistry Honors (B.A. Program)

- All B.A. requirements in chemistry must be fulfilled.
- Minimum g.p.a.: 3.3 overall; 3.3 in chemistry courses.
- Minimum of four credits in independent research (CHM 5998). Research should commence in the junior year (or earlier).
- Completion of one semester of an Honors Program 4200-level seminar (consult the Schedule of Classes under 'Honors Program').

This course may be used in partial fulfillment of College Group Requirements and can be elected in either the junior or senior year.

- At least twelve credits in honors-designated course work.
- Submission of a B.A. thesis or of a manuscript suitable for publication in a refereed chemical journal (covering the undergraduate research project) to the Honors Subcommittee in Chemistry which will act to accept or reject the thesis (or manuscript).
- An oral examination covering the B.A. Honors Research Project, by the Honors Subcommittee in Chemistry.

Chemistry (B.S.)

B.S. candidates may receive certification by the American Chemical Society upon graduation. This degree offers a strong background for students interested in a career in chemistry or in a professional field with a strong reliance on chemistry. It is particularly recommended for students planning to do graduate work in chemistry and chemically-related fields. The degree is offered with three options:

- Bachelor of Science in Chemistry
- Bachelor of Science in Chemistry with a concentration in biochemistry
- Bachelor of Science in Chemistry with a concentration in materials

The first option is designed primarily for those planning to enter the chemical profession and other professional fields. The second option is designed primarily for students planning careers in biochemical and biomedical areas. The third option is designed primarily for students interested in materials science. (Note: Those interested in Phi Beta Kappa should consult with the secretary of the Wayne State University Chapter in order to determine the maximum number of chemistry credits allowed.)

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. Students planning to major in chemistry should consult with an advisor in the Chemistry Department not later than the beginning of their sophomore year.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Chemistry B.S. - Option One

Major Requirements

Those who wish to follow the curriculum in the College for the B.S. in Chemistry degree must complete the following courses:

Code	Title	Credits
CHM 1100	General Chemistry I	4
CHM 1130	General Chemistry I Laboratory	1
CHM 1140	General Chemistry II	4
CHM 1150	General Chemistry II Laboratory	1
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
CHM 2220	Organic Chemistry II	4
CHM 2230	Organic Chemistry II Laboratory	1

CHM 3020	Intermediate Inorganic Chemistry I	3
CHM 3120	Analytical Chemistry	3
CHM 3130	Analytical Chemistry Laboratory	1
CHM 5020	Intermediate Inorganic Chemistry II	3
CHM 5160	Instrumental Analytical Chemistry	3
CHM 5420	Physical Chemistry I	3
CHM 5440	Physical Chemistry II	4
CHM 5510	Chemical Synthesis Laboratory	3
CHM 5550	Physical Chemistry Laboratory	2
CHM 5600	Survey of Biochemistry	3
CHM 5570	Instrumental Analytical Chemistry Laboratory	2
Select one of the following:		3-4
CHM 6060	Materials Chemistry and Engineering	
CHM 6070	Advanced Bioinorganic Chemistry	
CHM 6090	Organometallic Chemistry	
CHM 6100	Theory of Analytical Chemistry	
CHM 6120	Electroanalytical Chemistry	
CHM 6160	Separation Science	
CHM 6170	Advances in Bioanalytical Chemistry	
CHM 6180	Mass Spectrometry	
CHM 6200	Organic Structures and Mechanisms	
CHM 6220	Organic Reactions and Synthesis	
CHM 6240	Organic Spectroscopy	
CHM 6270	Advanced Bioorganic Chemistry and Drug Design	
CHM 6410	Statistical Thermodynamics	
CHM 6470	Quantum Chemistry	
CHM 6440	Computational Chemistry	
CHM 6500	Modern Methods in Experimental Chemistry	
CHM 6620	Metabolism: Pathways and Regulation	
CHM 6635	Tools of Molecular Biology	
CHM 6640	Molecular Biology	
CHM 6680	Clinical and Molecular Aspects of Cancer	
CHM 6700	Green Chemistry: Mindful Design in Science, Engineering, and Medicine	
CHM 5999	Research in Chemistry ¹	2-4
or CHM 5998	Honors Thesis Research in Chemistry	
PHY 2170	University Physics for Scientists I	4
PHY 2171	University Physics Laboratory	1
PHY 2180	University Physics for Scientists II	4
PHY 2181	University Physics Laboratory II	1
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2250	Elementary Linear Algebra	3
Total Credits		76-79

¹ By the first semester of the senior year, the student must enroll for at least two credits in independent research (CHM 5999 or CHM 5998). The student must work under the direction of a faculty member of the Department of Chemistry. It is advised that the student consult with the faculty during the term prior to beginning work, in order to choose the area and staff member under whose direction this research will be carried out. At the conclusion of the project, the student must present a written report for approval by the Chairperson of the Department. With prior approval by the Chairperson of the Department, students may be allowed to substitute to 2 credits of an internship experience (CHM 6991) in place of a research project.

A minimum grade of C is required in prerequisite chemistry courses.

At least fifteen credits in chemistry plus Research in Chemistry (CHM 5999) must be earned at Wayne State University.

Substitutions in B.S. Curriculum (Option One ONLY): In recognition of the diverse backgrounds required for various careers in chemistry, students may petition the Chemistry Curriculum Committee for approval to substitute advanced courses numbered 5000 or above from another discipline (such as physics, mathematics, biology, engineering) for the following B.S. requirements:

Code	Title	Credits
MAT 2250	Elementary Linear Algebra	3
CHM 5510	Chemical Synthesis Laboratory	3
CHM 5570	Instrumental Analytical Chemistry Laboratory	2
Chemistry elective		

Such petitions for substitutions must be submitted in writing accompanied by a detailed statement of justification and a current transcript, and must be approved prior to registration in the alternative courses. Decisions regarding approval of such requests will be based on their legitimacy in terms of the student's professional goals. It is suggested that students consult the Chairperson of the Chemistry Curriculum Committee before filing such a petition.

Chemistry B.S. - Option Two (Biochemistry)

Major Requirements

Those who wish to follow the curriculum for the B.S. in Chemistry with a concentration in biochemistry must complete the following courses (NO substitutions are allowed in the Option Two program: B.S. in Chemistry with a concentration in biochemistry):

Code	Title	Credits
CHM 1100	General Chemistry I	4
CHM 1130	General Chemistry I Laboratory	1
CHM 1140	General Chemistry II	4
CHM 1150	General Chemistry II Laboratory	1
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
CHM 2220	Organic Chemistry II	4
CHM 2230	Organic Chemistry II Laboratory	1
CHM 3020	Intermediate Inorganic Chemistry I	3
CHM 3120	Analytical Chemistry	3
CHM 3130	Analytical Chemistry Laboratory	1
CHM 5020	Intermediate Inorganic Chemistry II	3
CHM 5160	Instrumental Analytical Chemistry	3
CHM 5400	Biological Physical Chemistry	3
or CHM 5420	Physical Chemistry I	
CHM 5550	Physical Chemistry Laboratory	2
CHM 5570	Instrumental Analytical Chemistry Laboratory	2
CHM 6610	Biological Chemistry Laboratory	3
CHM 6620	Metabolism: Pathways and Regulation	3
CHM 6640	Molecular Biology	3
Select one of the following:		3-4
CHM 5510	Chemical Synthesis Laboratory	
MAT 2250	Elementary Linear Algebra	
CHM 5999	Research in Chemistry ¹	2-4

or CHM 5998	Honors Thesis Research in Chemistry	
PHY 2170	University Physics for Scientists I	4
PHY 2171	University Physics Laboratory	1
PHY 2180	University Physics for Scientists II	4
PHY 2181	University Physics Laboratory II	1
BIO 1510 & BIO 1511	Basic Life Mechanisms and Basic Life Mechanisms Laboratory	4
Select one of the following:		4-5
BIO 2270 & BIO 2271	Principles of Microbiology and Principles of Microbiology Lab	
BIO 2600	Introduction to Cell Biology	
BIO 3250 & BIO 3251	Molecular Mechanisms of Microbiology and Molecular Mechanisms of Microbiology Lab	
BIO 3070	Genetics	4
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
Total Credits		84-88

¹ By the first semester of the senior year, the student must enroll for at least two credits in independent research (CHM 5999 or CHM 5998). The student must work under the direction of a faculty member of the Department of Chemistry. It is advised that the student consult with the faculty during the term prior to beginning work, in order to choose the area and staff member under whose direction this research will be carried out. At the conclusion of the project, the student must present a written report for approval by the Chairperson of the Department. With prior approval by the Chairperson of the Department, students may be allowed to substitute to 2 credits of an internship experience (CHM 6991) in place of a research project.

A minimum grade of C is required in prerequisite chemistry courses.

At least fifteen credits in chemistry plus Research in Chemistry (CHM 5999) must be earned at Wayne State University.

Chemistry B.S. - Option Three (Materials) Major Requirements

Those who wish to follow the curriculum for the B.S. in Chemistry with a concentration in materials must complete the following courses (NO substitutions are allowed in the Option Three program: B.S. in Chemistry with a concentration in materials):

Code	Title	Credits
CHM 1100	General Chemistry I	4
CHM 1130	General Chemistry I Laboratory	1
CHM 1140	General Chemistry II	4
CHM 1150	General Chemistry II Laboratory	1
CHM 1240	Organic Chemistry I	4
CHM 1250	Organic Chemistry I Laboratory	1
CHM 2220	Organic Chemistry II	4
CHM 2230	Organic Chemistry II Laboratory	1
CHM 3020	Intermediate Inorganic Chemistry I	3
CHM 3120	Analytical Chemistry	3
CHM 3130	Analytical Chemistry Laboratory	1
CHM 5020	Intermediate Inorganic Chemistry II	3
CHM 5160	Instrumental Analytical Chemistry	3
CHM 5420	Physical Chemistry I	3
CHM 5440	Physical Chemistry II	4
CHM 5550	Physical Chemistry Laboratory	2

CHM 5570	Instrumental Analytical Chemistry Laboratory	2
CHM 5600	Survey of Biochemistry	3
CHM 6060	Materials Chemistry and Engineering	3
or MSE 5350	Polymer Science	
CHM 5999	Research in Chemistry ¹	2-4
or CHM 5998	Honors Thesis Research in Chemistry	
PHY 2170	University Physics for Scientists I	4
PHY 2171	University Physics Laboratory	1
PHY 2180	University Physics for Scientists II	4
PHY 2181	University Physics Laboratory II	1
BE 1300	Basic Engineering II: Materials Science for Engineering Applications	3
BE 1310	Materials Science for Engineering: Laboratory	1
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2250	Elementary Linear Algebra	3
MSE 5650	Surface Science	3
Total Credits		80-82

¹ In addition, students must enroll for at least two credits in independent research (CHM 5999 or CHM 5998) by the first semester of their senior year. Research must be conducted under the direction of a faculty member of the Department of Chemistry. It is advised that the student consult with the faculty during the term prior to beginning work, in order to choose the area and staff member under whose direction this research will be carried out. At the conclusion of the project, the student must present a written report for approval by the Chairperson of the Department. With prior approval by the Chairperson of the Department, students may be allowed to substitute to 2 credits of an internship experience (CHM 6991) in place of a research project.

A minimum grade of C is required in prerequisite chemistry courses.

At least fifteen credits in chemistry plus Research in Chemistry (CHM 5999 or CHM 5998) must be earned at Wayne State University.

Chemistry Honors (B.S. Program)

1. All regular requirements for the Bachelor of Science in Chemistry degree must be fulfilled (no substitutions).
2. Minimum g.p.a.: 3.3 overall; 3.3 in chemistry courses.
3. Minimum of four credits must be earned in independent research (CHM 5998); this should commence in the junior year (or earlier).
4. Completion of one semester of an HON 4200-level honors seminar. This course may be used to partially fulfill college Group Requirements and can be elected in either the junior or senior year.
5. Submission of a B.S. thesis (covering the undergraduate independent research project), or of a manuscript suitable for publication in a refereed chemical journal, to the Honors Subcommittee in Chemistry which will act to accept or reject the thesis (or manuscript).
6. An oral examination covering the B.S. Honors Research Project, by the Honors Subcommittee in Chemistry.

The AGRADE program enables highly qualified students pursuing a B.S. with a major in Chemistry or a B.S. with a major in Biochemistry and Chemical Biology to enroll simultaneously in the M.A. with a major in Chemistry. Students will be able to apply up to a maximum of 16 credits towards both the undergraduate and graduate degrees. AGRADE applicants must have a cumulative grade point average (g.p.a.) of 3.50 or better. Applicants are also expected to have performed at a superior level in the major, as determined by the department, *and the required g.p.a. in the major shall not be less than 3.6 at the time of application.*

The earliest students may be admitted into the AGRADE Program is the semester in which they complete 90 credits towards the undergraduate degree. Students should consult with an undergraduate advisor in their major department to seek advice about the appropriate time to apply for AGRADE status.

Requirements

Depending on the degree, students may use up to 16 credits from the following courses to count towards their B.S. and M.A. degrees. Only those AGRADE-approved courses in which the student has earned a B or higher will transfer to the graduate transcript. Once in the master's program, students may be required to repeat an AGRADE course in which they earn less than a B grade.

Code	Title	Credits
CHM 6070	Advanced Bioinorganic Chemistry	3
CHM 6090	Organometallic Chemistry	3
CHM 6170	Advances in Bioanalytical Chemistry	3
CHM 6240	Organic Spectroscopy	3
CHM 6270	Advanced Bioorganic Chemistry and Drug Design	3
CHM 6440	Computational Chemistry	3
CHM 6610	Biological Chemistry Laboratory	3
CHM 6620	Metabolism: Pathways and Regulation	3
CHM 6635	Tools of Molecular Biology	3
CHM 6640	Molecular Biology	3

Biochemistry and Chemical Biology Minor

Students majoring in other fields who desire to obtain a minor in biochemistry and chemical biology must complete the following:

Code	Title	Credits
CHM 1100 & CHM 1130	General Chemistry I and General Chemistry I Laboratory	5
CHM 1140 & CHM 1150	General Chemistry II and General Chemistry II Laboratory	5
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	5
CHM 2220	Organic Chemistry II	4
CHM 6620	Metabolism: Pathways and Regulation	3
Select three additional credits at Wayne State University from the following:		3
CHM 6270	Advanced Bioorganic Chemistry and Drug Design	
CHM 6635	Tools of Molecular Biology	
CHM 6640	Molecular Biology	
Total Credits		25

Chemistry Minor

Students majoring in other fields who desire to obtain a minor in chemistry must complete the following courses:

Code	Title	Credits
CHM 1100 & CHM 1130	General Chemistry I and General Chemistry I Laboratory	5
CHM 1140 & CHM 1150	General Chemistry II and General Chemistry II Laboratory	5
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	5

CHM 2220	Organic Chemistry II	4
Select six additional credits earned at Wayne State University in Chemistry courses numbered 3000 or above, typically satisfied from a combination of the following: ¹		6
CHM 3000	Metals in Biology	
CHM 3020	Intermediate Inorganic Chemistry I	
CHM 3120	Analytical Chemistry	
CHM 5020	Intermediate Inorganic Chemistry II	
CHM 5160	Instrumental Analytical Chemistry	
CHM 5400	Biological Physical Chemistry	
CHM 5420	Physical Chemistry I	
CHM 5440	Physical Chemistry II	
CHM 5600	Survey of Biochemistry	
CHM 5510	Chemical Synthesis Laboratory	
CHM 6060	Materials Chemistry and Engineering	
CHM 6070	Advanced Bioinorganic Chemistry	
CHM 6120	Electroanalytical Chemistry	
CHM 6160	Separation Science	
CHM 6170	Advances in Bioanalytical Chemistry	
CHM 6180	Mass Spectrometry	
CHM 6200	Organic Structures and Mechanisms	
CHM 6220	Organic Reactions and Synthesis	
CHM 6240	Organic Spectroscopy	
CHM 6270	Advanced Bioorganic Chemistry and Drug Design	
CHM 6410	Statistical Thermodynamics	
CHM 6440	Computational Chemistry	
CHM 6620	Metabolism: Pathways and Regulation	
CHM 6635	Tools of Molecular Biology	
CHM 6640	Molecular Biology	
CHM 6680	Clinical and Molecular Aspects of Cancer	
CHM 6700	Green Chemistry: Mindful Design in Science, Engineering, and Medicine	
Total Credits		25

¹ Excluding research courses (CHM 2999, CHM 5998, CHM 5999, etc.).

Cannabis Chemistry (Undergraduate Certificate)

Cannabis chemistry is a field of chemistry that focuses on the chemistry of cannabinoid-containing compounds such as cannabis and CBD oils. The certificate in cannabis chemistry will give students both the theoretical and practical knowledge of how to perform analysis in this area of study. In addition to learning the science of cannabis, students will explore topics such as ethics, law, politics and regulation of the cannabis industry.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. Students holding any previous undergraduate degree from an accredited institution with a minimum of a 2.5 g.p.a. are eligible to apply.

Program Requirements

The Cannabis Chemistry Undergraduate Certificate requires the completion of a minimum of 15 credits. All course work must be

completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship.

Code	Title	Credits
Required Courses		
CHM 3120 & CHM 3130	Analytical Chemistry and Analytical Chemistry Laboratory	4
CHM 5999	Research in Chemistry	3
CHM 5570	Instrumental Analytical Chemistry Laboratory	2
CHM 6160	Separation Science	3
CHM 4850	Frontiers in Chemistry *	1
CHM 6740	Laboratory Safety *	2
Total Credits		15

* Due to the nature of the topic, ethics will be presented in the seminar course (CHM 4850) and the responsible conduct of research course (CHM 6740).

Classical and Modern Languages, Literatures, and Cultures

Office: 485 Manoogian Hall; 313-577-3002

Chairperson: Vanessa DeGifis

Academic Services Officers: Terrie Pickering

Academic Advisor: Chris Clark

<https://clas.wayne.edu/languages> (<https://clas.wayne.edu/languages/>)

This Department offers courses and programs of instruction in fourteen different languages. In addition to language learning and Global Studies, the Department focuses on the cultures and literatures of ancient Greece and Rome, as well as the modern world, in courses taught both in languages indigenous to these regions as well as in English translation. The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one's writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice. Languages, literatures, and cultures are also excellent foundations for students interested in pursuing careers that do not require post-graduate education, for example, in government, publishing, tourism, and business, any field in which intelligence, communication skills, and a broad liberal education are valued.

The Department offers programs in both major and minor concentration as well as cognate course work that can provide perspectives for majors in other departments. A student who wishes to major or minor in one of our degree programs should meet with a Departmental advisor as soon as possible after entering the University.

Majors

- Global Studies (B.A.) (p. 244)
- World Languages, Literatures, and Cultures (B.A.) (p. 247)

Minors

- Arabic Minor (p. 251)
- Asian Studies Minor (p. 252)
- Classical Civilization Minor (p. 252)
- Folklore and Fairy-Tale Studies Minor (p. 252)
- French Minor (p. 252)
- German Minor (p. 253)
- Global Studies Minor (p. 253)
- Israeli Studies Minor (p. 253)
- Italian Minor (p. 254)
- Latin Minor (p. 254)
- Modern Greek Studies Minor (p. 253)
- Near Eastern Studies Minor (p. 254)
- Polish Minor (p. 254)
- Russian Minor (p. 254)
- Spanish Minor (p. 254)

Certificates

- Arabic for the Health Care Professions (Undergraduate Certificate) (p. 255)
- Professional Arabic (Undergraduate Certificate) (p. 255)

- Conversational and Professional French (Undergraduate Certificate) (p. 255)
- Practical French (Undergraduate Certificate) (p. 256)

2. Describe an issue that you are highly motivated to address and to invest time and effort exploring. Why are you motivated to study this issue?
3. Discuss your career goals and your after-graduation plans.
4. Provide any additional information.

CMLLC Program Requirements

Degree Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Placement: Students continuing the study of any of the languages cited at Foreign Language (p. 225) and begun in high school or in another college should consult with the Department undergraduate advisor to determine the level of at which to continue coursework (phone: 313-577-3002). The main criteria for placement of these students is the Departmental placement exam. The number of years of high school language study does not effectively correspond to language course sequences at the university level. Students with sufficiently high placement exam scores will be deemed to have satisfied the Foreign Language Group Requirement. For information on the Placement Examination, contact the Department at 313-577-3002. Examinations are scheduled by appointment at the Department Office, 487 Manoogian Hall. (A fee is charged.)

Departmental Honors Program

Total number of Honors credits required (including Honors seminar and thesis): 15 credits

Minimum GPA required: 3.3 overall and in the major

Requirements

To enter the CMLLC departmental honors program track, students must have achieved academic excellence in previous work, such as a college or university GPA of 3.3.

To earn honors in the major, students must meet all regular major requirements including the following:

- Three honors-option courses (9 credits) within their major (internships cannot satisfy this requirement)
- One HON 42xx seminar (HON 4200 - HON 4280) (3 credits)
- A senior honors thesis (3 credits) under the direction of a full-time faculty adviser in their major area
- A GPA of 3.3 within the major

Prerequisite: Admission to the departmental honors program; a proposal accepted and given written consent by the thesis adviser. The honors thesis involves a closely supervised research project that results in a paper of approximately 20 to 25 pages.

Application

Submit a statement of interest to a full-time faculty adviser in your major area that, in 400 to 500 words, please addresses the following:

1. Describe your interest in the language(s) and culture(s) that you focus on.

'AGRADE' Program (Accelerated Graduate Enrollment)

The Department encourages academically-superior majors to petition for admission into the College's 'AGRADE' program. Qualified seniors may apply a maximum of fifteen credits toward both a bachelor's and a master's degree. For more details, contact the graduate director (Classics, French, German, Italian, or Spanish): 313-577-3002. Students should consult with the director in their junior year regarding this opportunity.

Study Abroad

Students should consult the department and the Study Abroad and Global Programs Office (p. 64) for more details on the following programs:

Arabic Language and Culture at the American University of Cairo or Lebanese American University

Junior Year in Munich Program

Juniors, seniors, or graduate students who would like to spend a year studying at the University of Munich are encouraged to contact the Junior Year in Germany Office, 401 Manoogian Hall; 313-577-4605.

Study Abroad in Poland

A two-week study-abroad program is offered in May. Contact department for details.

Study Abroad in Russia

A four-week program offered in June. Students study and live in St. Petersburg, and make a side-trip to Moscow.

Summer Homestay and Study Tour Program in Japan

A two-week study tour trip (trip after spring semester) is offered in spring and summer. Contact department for details.

Global Studies (B.A.)

The Global Studies program is designed for students passionate about understanding and being active participants in a globalized world. Students learn about global institutions, issues, and movements from an interdisciplinary perspective by:

1. developing language skills, which are essential to global communication and cultural understanding;
2. taking core courses in humanities and social sciences that provide students with an interdisciplinary and theoretical introduction to global studies; and,
3. specializing in global politics and economies, health and environment, and cultures and identities.

Throughout the curriculum students will think critically about questions related to global justice, inequality, how globalization impacts different cultures and regions around the world, and the responsibilities of global citizenship. A Global Studies major can prepare students for careers in government, diplomacy, law, health professions, teaching, research, non-governmental organizations, development, and business.

Through the program students will.

1. demonstrate intermediate-level skills in reading, writing, speaking, and listening in one language other than English, or elementary-level skills in reading, writing, speaking, and listening in two languages other than English.
2. analyze ways in which global issues intersect with the individual and the social with respect to gender, sexuality, class, race, and ethnicity.
3. describe the processes of globalization from economic, political, environmental, historical, and cultural perspectives and how these processes impact social structures and people's everyday lives.
4. connect globalization and global issues to the local, the regional (as it relates to regional issues within nation states), and the national.

Global Experience

Students must fulfill a "Global Experience" requirement. Options for fulfilling the Global Experience requirement include:

1. an internship at a local agency that deals with global issues or is a global organization or company (GLS 5500);
2. study abroad or internship abroad;
3. field work or study abroad that is part of a specific course

All majors are also required to present their work in the form of a paper of poster session in a WSU venue.

Students wishing to pursue the major in global studies should meet with the program director and the undergraduate advisor in Classical and Modern Languages, Literatures, and Cultures for advising.

Program Requirements

Students should refer to the CMLLC program requirements (p. 244) for admission, degree, and general education requirements.

Major requirements consist of a minimum of 33 credits distributed as follows:

Code	Title	Credits
Language Courses		
Select a minimum of three courses or 9 credits beyond 2010 in the same language sequence or complete the three-semester basic language sequence in a second language. ¹		9-12
Core Courses		
Select 3 of the 4 core courses		9
GLS 2700	Introduction to Global Stories (Select 3 of the 4 core courses)	
GLS 2800	Introduction to Global Issues and Institutions	
GLS 2900	Intercultural Competence for a Global World	
GLS 3700	Globalization: Theories, Practices, Implications	
Global Experience		
Students must fulfill a Global Experience requirement. Options for fulfilling the requirement include: 1) an internship at a local agency that deals with global issues or is a global organization (GLS 5500); 2) study abroad or internship abroad; 3) field work or study abroad that is part of a specific course.		
Electives from Three Focus Areas		15
Students must take a minimum of fifteen credits from the following areas of focus: Global Politics and Economics, Global Health and Environment, Global Culture and Identities.		
Global Cultures and Identities		

This focus area centers on questions related to global cultures, belief systems expressed through various types of cultural artifacts (including visual art, artisanry, literature, film and media), and peoples and identities, over time and geographical areas, in conjunction with questions of gender, sexuality, class, race, and ethnicity.

Total Credits **33-36**

¹ For language courses, please see languages offered in Classical and Modern Languages, Literatures, and Cultures. Students must receive a passing grade (C) in their language courses for them to count towards the GLS major.

³ Areas of focus allow students to specialize within the program in ways that enhance their academic and professional goals. A minimum of 6 credits must be at the 4000-level or above.

World Languages, Literatures, and Cultures (B.A.)

Students majoring in the B.A. in World Languages, Literatures, and Cultures will gain proficiency in one or more world languages, which include Arabic, Chinese, French, German, Greek, Hebrew, Italian, Japanese, Latin, and Spanish. As part of their course of study, students are encouraged to participate in a study abroad program, such as the Junior Year in Munich (Germany); the semester or year program in Japan through the JCMU (Japan Center for Michigan Universities); a semester or year in Tours (France); spring break study abroad in Paris (France); as well as in other study programs in Italy, Latin America, Lebanon, Poland, and Spain. Students will attain a broad knowledge of one of the cultural geographies explored in our courses—East Asia, the Ancient Mediterranean, the Francophone world, German-speaking Europe, Italy, the Near East, and the Spanish-speaking world. The World Languages, Literatures, and Cultures program will develop students' linguistic and critical-analytical skills involving various types of texts. Students will also explore humanistic and social scientific approaches to world cultures. Linguistic and broadly-based cultural studies provide excellent grounding for various career paths, including law, business, medicine or health sciences, non-profit sector careers, teaching at the high school or university level, library and information science, museum practice, among others.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (<https://bulletins.wayne.edu/undergraduate/general-information/general-education/>) and the College of Liberal Arts and Sciences Group Requirements (<https://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/bachelors-degree-requirements/>), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (<https://bulletins.wayne.edu/undergraduate/general-information/academic-regulations/>) and the College (<https://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/academic-regulations/>) governing undergraduate scholarship and degrees.

Students should refer to the CMLLC program requirements page (<https://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/classical-modern-languages-literatures-cultures/requirements/>) for admission, degree, and general education requirements.

Concentrations

- Asian Studies (p. 248)
- Chinese (p. 248)
- Classics, Greek, and Latin (p. 248)
- French and Francophone Studies (p. 249)
- German (p. 249)
- Italian (p. 250)
- Japanese (p. 250)
- Near Eastern Languages and Cultures (p. 250)
- Spanish (p. 251)

Asian Studies Concentration

Students will complete a minimum of 36 credits in Asian Studies coursework. Of these, at least 6 credits must be at the 5000 level.

CLA 3800	Survey of Greek Literature	3
or CLA 3825		
CLA 3825	Survey of Latin Literature	3

Elective course	3
Total Credits	20

Folklore and Fairy-Tale Studies Minor

The minor in Folklore and Fairy-Tale Studies aims to provide students with an interdisciplinary foundation in the field of folklore and fairy-tale studies. The core courses include the study of 1) Greek mythology; 2) French, German, Italian, and Russian tales; and 3) Anthropology. Together they provide a solid background to understand the history of European, African, Native American, Asian and other world traditions of myth, ritual, folklore, and fairy tale. Students appreciate the different historical, social, political, and cultural contexts in which tale telling and other cultural narratives are produced, and it also introduces them to different genres and medias in which storytelling and cultural practices occur.

A minor in Folklore and Fairy-Tale Studies can be completed with eighteen credits of coursework.

Code	Title	Credits
Required courses		
ANT 3100	World Cultures	3
CLA 2000	Greek Mythology	3
Select two from the following three courses:		6
CHI 3000	Chinese Mythology and the Supernatural	
FRE/GER 2991	Understanding the Fairy Tale	
ITA 2991	Italian Fairy Tales	
Electives*		
Select 6 credits from the following list:		6
ANT 2200	Lost Cities and Ancient Civilizations

Total Credits		18

Arabic for the Health Care Professions (Undergraduate Certificate)

NGOs, language service employers, healthcare and health insurance companies, medical schools, and medical providers increasingly seek candidates with adequately certified specialized language and cultural skills. These skills are particularly important in Michigan, given its location as a hub for industry and a haven for Arabic-speaking communities, where Arabic is an asset and used in the domains of religion, commerce, education, administration, and other industries. The Undergraduate Certificate in Arabic for the Health Care Professions provides students with the ability to read, write, listen, and speak in Modern Standard and dialectal Arabic; carry out specialized and routine relevant tasks. Students also gain knowledge about cultural differences and practices that allow them to better understand health care contexts and function within an Arab/Arabic cultures.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. Students who want to apply for the certificate must first finish one year of Arabic classes (ARB 1010 and ARB 1020) or pass the placement exam and have a minimum of a 2.5 g.p.a. The program shall also be open to students who have previously earned a baccalaureate level degree at Wayne State or another accredited institution.

Program Requirements

The Arabic for the Health Care Professions Undergraduate Certificate requires the completion of a minimum of 16 credits. All coursework must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship.

Code	Title	Credits
Required Courses		
ARB 2010	Intermediate Arabic I	4
ARB 3210	Spoken Arabic	3
ARB 3300	Conversation and Composition	3
ARB 5700	Arabic for Healthcare Professions	3
NE 5999	Internship in Near Eastern Studies	3
Total Credits		16

Professional Arabic (Undergraduate Certificate)

Both NGOs and employers increasingly seek candidates with adequate certified language and cultural skills. These skills are particularly important in Michigan, given its location as a hub for industry and a haven for Arabic speaking communities, where Arabic is an asset and used in the domains of religion, commerce, education, administration, and other industries. The Undergraduate Certificate in Professional Arabic provides students with the ability to read, write, listen, and speak in Modern Standard Arabic; carry out daily and routine tasks such as asking for directions, ordering in a restaurant, describing people and things; and narrate information in the past, present, and future. Students also gain knowledge about cultural differences and practices that allow them to better understand and function within Arabic cultures.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. Students who want to apply for the certificate must first finish one year of Arabic classes (ARB 1010 and ARB 1020) or pass the placement exam and have a minimum of a 2.5 g.p.a. The program shall also be open to students who have previously earned a baccalaureate level degree at Wayne State or another accredited institution.

Program Requirements

The Professional Arabic Undergraduate Certificate requires the completion of a minimum of 14 credits. All coursework must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship.

Conversational and Professional French (Undergraduate Certificate)

Graduate programs and employers increasingly seek candidates with language and cultural skills. These skills are particularly important in Michigan, given its proximity to Canada, where French is an official language used in the domains of commerce, education, administration, and other industries. The Undergraduate Certificate in Conversational and Professional French provides students with opportunities to gain concrete conversational experience with native speakers and hone their speaking, reading, writing, and listening skills to be able to work within French-speaking environments. Students learn about the cultures of France and other Francophone countries, their geography, history, political and administrative structures, and main industries. Upon completing the certificate, they will be able to function quite effectively in different French-speaking work and educational environments.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. The program shall be open to regularly admitted Wayne State University undergraduate students who are in good academic standing, as well as students who have previously earned a baccalaureate level degree at Wayne State or another accredited institution.

Program Requirements

The Conversational and Professional French Undergraduate Certificate requires the completion of a minimum of 14 credits. All coursework must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship.

Code	Title	Credits
Required Courses		
FRE 2100	French through Film I	4
FRE 2110	French through Film II	4

Total Credits		14

Practical French (Undergraduate Certificate)

Graduate programs and employers increasingly seek candidates with language and cultural skills. These skills are particularly important in Michigan, given its proximity to Canada, where French is an official language and used in the domains of commerce, education, administration, and other industries. The Undergraduate Certificate in Practical French provides students with the ability to read, write, listen, and speak in the past, present, and future; carry out basic tasks necessary to everyday life in a Francophone country; describe people and things; understand and express opinions; and understand the main points of various media. Students also gain knowledge about cultural differences and practices that allow them to better understand and function within French and Francophone cultures.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. The program shall be open to regularly admitted Wayne State University undergraduate students who are in good academic standing, as well as students who have previously earned a baccalaureate level degree at Wayne State or another accredited institution.

Program Requirements

The Practical French Undergraduate Certificate requires the completion of a minimum of 12 credits. All coursework must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship.

Communication Sciences and Disorders

Office: 103 Prentis Building; 313-577-3339

Chairperson: Jinsheng Zhang

Graduate Officer: Derek Daniels

Undergraduate Advisor: Faith Doyle

Clinical Program Coordinators: Tausha Moore, Mary Kassa

<https://clas.wayne.edu/csd> (<https://clas.wayne.edu/csd/>)

This department offers courses related to the study of communication and communication disorders and sciences. Specialized coursework prepares students to work with speech-language and hearing disabled children and adults in a variety of settings, including public schools, hospitals, clinics, rehabilitation centers and private practice. College teaching and research are also career possibilities.

Initial questions about the major or minor should be directed to the Undergraduate & Post Bachelor Academic Advisor, Faith Doyle. Location room: 105 Prentis Building (313-577-8804 or email: faith.doyle@wayne.edu).

- Communication Sciences and Disorders (B.A.) (p. 256)
- Communication Sciences and Disorders Minor (p. 257)

Communication Sciences and Disorders (B.A.)

This department offers courses related to the study of communication and communication disorders and sciences. Specialized coursework prepares students to work with speech-language and hearing disabled children and adults in a variety of settings, including the public schools, hospitals, clinics, rehabilitation centers and private practice. College teaching and research are also career possibilities.

Undergraduate students in this specialization should note that graduate study is required for clinical certification by the American Speech-Language-Hearing Association (ASHA). A master's degree is required for speech-language pathologists and a doctoral degree is required for audiologists. Study in this major at the undergraduate level provides a scientific foundation for graduate study in both audiology and speech-language pathology as well as other science and health professions.

Students interested in pursuing doctoral study should contact the graduate officer.

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees. Students must receive a grade of C-minus or better in all biology courses.

It is expected that a major will complete at least thirty-three credits in SLP and AUD course work. Any credits elected over the maximum forty-six must have prior approval of both advisor and Chairperson if the additional credits are to count toward the degree (120 credits). A proper distribution of courses approved by the student's advisor is important. It is desirable that students intending to major in communication sciences and disorders begin their work in the Department in their sophomore

year. Courses in the major should be selected in consultation with a Departmental undergraduate advisor. Students are encouraged to begin consulting with the undergraduate advisor during their freshman year. The declaration of major form should be completed as soon as possible in their undergraduate program. In addition, students should see the department advisor to discuss grade point average (GPA) policies and the course sequence. The Department allows one repeat of undergraduate courses. The specific courses that can be repeated depend on whether the student has met the GPA requirements.

The Communication Science and Disorders (CSD) program has **temporarily suspended** the current CSD GPA policy, which states: CSD-BA and Post Bachelor program students must have and maintain an overall undergraduate GPA of 2.75 and must maintain a cumulative 3.0 GPA in the CSD major courses (specifically to register for the CSD Advanced courses).

****NOTE: The suspension will remain in effect for 2 academic years (Fall 2020-Spring/Summer 2022). At the end of the Spring/Summer 2022 term, the GPA policy will be revisited and revised as needed.**

The temporary GPA policy is as follows:

CSD-BA and Post Bachelor program students must have an overall undergraduate GPA of 2.0, and a minimum 2.0 GPA for all CSD major courses.

Major Requirements for a Bachelor of Arts degree in this discipline consist of the following courses:

Code	Title	Credits
SLP 5080	Phonetics	3
SLP 5090	Anatomy and Physiology of the Speech Mechanism	3
SLP 5120	Speech Science	3
SLP 5300	Introduction to Speech-Language Pathology	3
SLP 5310	Clinical Methods in Communication Disorders	3
SLP 5320	Normal Language Acquisition and Usage	3
SLP 5360	Clinical Practice in Speech-Language Pathology	3
SLP 6460	Language and Phonological Disorders	3
SLP 6480	Organic and Fluency Disorders	3
AUD 5400	Introduction to Audiology	3
AUD 5420	Introduction to Aural Rehabilitation	3
Total Credits		33

It is departmental policy that students must complete the following courses with a 2.0 or higher (SLP 5300 SLP 5320, SLP 5080, SLP 5090, and AUD 5400 for permission to register for advanced coursework. Departmental permission is required to register for the six advanced courses in the major which are:

Code	Title	Credits
SLP 5120	Speech Science	3
SLP 5310	Clinical Methods in Communication Disorders	3
SLP 5360	Clinical Practice in Speech-Language Pathology	3
AUD 5420	Introduction to Aural Rehabilitation	3
SLP 6460	Language and Phonological Disorders	3
SLP 6480	Organic and Fluency Disorders	3

Students will not be granted permission to register for the advanced coursework unless they have and maintain an overall GPA of 2.0 and major GPA of 2.0 within the CSD coursework. Students who do not meet these requirements will not be able to complete the major courses required to earn the Bachelor of Arts in Communication Sciences and

Disorders. In addition, in order to meet certification requirements of the American Speech-Language-Hearing Association after graduate school, it is strongly recommended that all undergraduate majors complete the following courses:

Code	Title	Credits
STA 1020	Elementary Statistics	3
PHY 1020	Conceptual Physics: The Basic Science	4
or CHM 1000	Chemistry and Your World	
BIO 1050	An Introduction to Life (with laboratory)	3
or BIO 1030	Biology Today	
PSY 1010	Introductory Psychology (with laboratory)	4
or PSY 1020	Elements of Psychology	
SOC 1010	Understanding Human Society	3
or ANT 1100	Introduction to Anthropology	
Transfer equivalents		

For transfer equivalent: please contact departmental advisor for questions regarding transfer courses within the major.

Communication Sciences and Disorders Minor

The minor in Communication Sciences and Disorders will provide students with a foundation in the science of human communication and communication disorders across the life span. The minor requires a minimum of 18 credits.

Code	Title	Credits
Requirements		
SLP 5080	Phonetics	3
SLP 5090	Anatomy and Physiology of the Speech Mechanism	3
SLP 5300	Introduction to Speech-Language Pathology	3

Criminology and Criminal Justice

Office: 3054 Faculty/Administration Building; 313-577-2705

Chairperson: Brad Smith

Undergraduate Director: Shanhe Jiang

Academic Services Officer/Advisor: Marianka Holloway

Academic Services Officer II: Bibi Ahmed

<https://clas.wayne.edu/cj> (<https://clas.wayne.edu/cj/>)

Criminal Justice is society's primary formal means of social control. Generally, it is the practice of public and private institutions working to deter crime and delinquency, prosecute, defend, adjudicate, punish, and rehabilitate individuals who enter the system. The core of the criminal justice system is comprised of law enforcement agencies, prosecutors, defense attorneys, courts, and institutional and community corrections departments. This system enforces state and federal laws and is part of a larger administration of justice complex, involving court administration, juvenile justice, and private security.

The study of crime and criminal justice begins with a multidisciplinary examination of the causes and correlates of crime and critical analysis of the criminal justice system as a force for social order. Advanced study involves attention to the political, organizational, social, and behavioral components of crime and the criminal justice system. Students develop analytical and research skills that enable them to identify and critically assess the often-conflicting objectives of the criminal justice system. Legal courses foster an awareness of the values of due process and the limits of governmental power in a democratic society. Innovative and theoretically based programs in the criminal justice system to reduce the incidence of crime are also examined.

The department advances a multidisciplinary understanding of the sources of criminal behaviors, including perspectives from criminology, psychology, and sociology. The curriculum exposes students to knowledge of the major types of crime, including crimes of violence, property crime, public order crime, sex crime, organized crime, delinquency, and beyond. The curriculum also includes attention to innovative and theoretically based programs in the criminal justice system that aim to reduce the incidence of crime.

Career opportunities in criminal justice include roles as police officers, supervisors, and executives; criminal justice investigators; public defenders; prosecutors; correctional officers; probation officers and parole officers; community corrections specialists; and a range of roles with organizations focused on criminal justice reform. Other specialized roles in criminal justice include juvenile intake officers, juvenile probation officers, criminologists, forensic psychologists, and research and policy analysts.

- Criminal Justice (B.S.) (p. 258)
- Criminal Justice Minor (p. 259)
- Forensics and Investigation Minor (p. 259)

Criminal Justice (B.S.)

The Bachelor of Science program is structured to provide students with a multidisciplinary understanding of crime and justice within the framework of broader social processes. Required courses expose a criminology and criminal justice major to all elements of crime and the criminal justice system to foster a systematic understanding of how the entire system functions. Practical field experience can be arranged under the guidance of the internship coordinator.

The curriculum is designed to offer students a comprehensive education by providing a fundamental understanding of the causes and correlates of crime and the criminal justice system. Both analytical and writing skills

are developed to prepare students for professional roles or advanced study in graduate or law school.

Core Criminal Justice courses include classes on theories of criminal behavior, criminal justice institutions, criminal justice research methods, and the criminal justice process. These courses are designed to give students an advanced understanding of crime, the criminal justice system, and contemporary criminal justice reform. Criminal justice majors must maintain a minimum 2.0 grade point average overall and in the major.

Criminal Justice electives: A minimum of twenty-seven credits must be selected for elective course work in criminal justice. Criminal justice electives provide students with an opportunity to explore and critically analyze areas of personal interest.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

It is the student's responsibility to meet with a Criminal Justice Academic Advisor to officially declare their Major and to identify all major and degree requirements.

Code	Title	Credits
Required Core Courses		
CRJ 1010	Introduction to Criminal Justice	3
CRJ 2550	Race, Crime and Justice	3
CRJ 3550	Research Methods in Criminal Justice	3
CRJ 3800	Criminological Theories	3
Approved Electives		
Select a minimum of twenty-seven credits in any CRJ course that is not part of the required core (a minimum of 12 credits must be at the 3000-level or higher)		27
Total Credits		39

Transfer Credit

Students should visit the transfer credit website (<http://www.transfercredit.wayne.edu>) and consult with a Criminal Justice Academic Advisor to determine the applicability of transfer credits toward the major.

Criminal Justice Honors (B.S. Program)

The Honors Program in Criminal Justice is open to students majoring in criminal justice who maintain a cumulative grade point average of at least 3.3 and at least a 3.3 major GPA. Requirements for Criminal Justice honors are:

1. Two criminal justice courses with the honors designation
2. An approved honors thesis (CRJ 4998)
3. At least one 4200-level seminar (HON 4200-HON 4280) offered through the Honors College

Honors students must complete an original Honors Thesis during their senior year. For information about the requirements of the department's honors curriculum, contact a Criminal Justice Academic Advisor.

'AGRADE' Program (Accelerated Graduate Enrollment)

The College of Liberal Arts and Sciences Accelerated Graduate Enrollment (AGRADE) Program allows qualified seniors to apply a maximum of fifteen credits toward both the Bachelor of Science and Master of Science in Criminal Justice degrees. Qualifications for AGRADE include Senior status and a minimum major g.p.a. of 3.3. For additional eligibility information, interested students should contact your Criminal Justice Advisor.

Senior Rule Study

Minimum requirements for Senior Rule study include: a 3.0 grade point average for the junior and senior years of study, and at least one (but not more than ten) credits remaining to be completed for the undergraduate degree. Additional limitations and requirements apply for this status and for continuing graduate study in criminal justice. Interested seniors should consult with their Academic Advisor for further information.

Pre-Law Advising and Curriculum

Students considering legal careers and wishing to major or minor in criminal justice should notify their Criminal Justice Academic Advisor at the beginning of their coursework in criminal justice.

Criminal Justice Minor

The minor in Criminal Justice introduces undergraduate students to the general components and procedures of criminal justice system in the U.S., criminological theories of crime and criminality, and an understanding of race, ethnicity, and diversity issues affecting the criminal justice system. This program will also allow students to choose courses about topics of interest in Criminal Justice.

The minimum requirement for a minor in Criminal Justice is six courses, or eighteen credits of coursework, of which a maximum of six credits can be transferred from other institutions. The Department offers a minor in Criminal Justice for which the notation of a minor appears on the student's transcript. The required Criminal Justice courses are:

Code	Title	Credits
CRJ 1010	Introduction to Criminal Justice	3
CRJ 3800	Criminological Theories	3
Select one of the following:		3
CRJ 2550	Race, Crime and Justice	
CRJ 2750	Diversity Issues in Criminal Justice	
Select one of the following:		3
CRJ 3200	Police and Society	
CRJ 3350	Corrections	
CRJ 3700	The Judicial Process	
CRJ elective credits		6
Total Credits		18

Students wishing to minor in criminal justice are encouraged to visit the Departmental Offices for information and advising. A minor must be declared prior to filing for graduation.

Forensics and Investigation Minor

The Forensics and Investigation minor is 18 credits of coursework, of which a maximum of 6 credits can be transferred from other institutions for the CRJ courses only.

Code	Title	Credits
CRJ 1010	Introduction to Criminal Justice	3
CRJ 3200	Police and Society	3
CRJ 3260	Investigation	3
CRJ 3270	Public Safety: sUAS (Drone) Technology Programs	3
CRJ 4220	Criminalistics	3
ANT/CRJ 2130	Introduction to Forensic Anthropology and Human Rights	3
Total Credits		18

Economics

Office: 2074 Faculty/Administration Building; 313-577-3345

Chairperson: Kevin Cotter

Academic Advisor: Monika Saladiak

Administrative Assistant II: Katie Francek

<https://clas.wayne.edu/economics> (<https://clas.wayne.edu/economics/>)

Economics is the study of how individuals and societies allocate limited resources to try to satisfy unlimited wants; it is therefore a study of choices. Households and business firms must decide what and how much to consume or produce and how much labor, land and capital to supply. Governments make decisions affecting inflation and unemployment, taxation and expenditures, the monetary system and international trade. Together these public and private choices determine the nation's prosperity and shape the distribution of its wealth. Since every social relationship has economic aspects, an understanding of economic principles and systems is an integral part of a liberal education.

Economics majors have a wide choice of careers. Many supplement their major with cognate courses to prepare for careers in business, journalism, health care administration or public service. Others find it excellent preparation for law school. Ph.D. graduates in economics are in demand at universities, corporations, financial institutions and government agencies. M.A. graduates may teach at junior colleges but more typically go into business or public service.

- Economics (B.A.) (p. 260)
- Mathematical Economics (B.A.) (p. 261)
- Economics Minor (p. 262)
- Health Economics Minor (p. 262)

Economics (B.A.)

Economics is the study of how individuals and societies allocate limited resources to try to satisfy unlimited wants; it is therefore a study of choices. Households and business firms must decide what and how much to consume or produce and how much labor, land and capital to supply. Governments make decisions affecting inflation and unemployment, taxation and expenditures, the monetary system and international trade. Together these public and private choices determine the nation's prosperity and shape the distribution of its wealth. Since every social relationship has economic aspects, an understanding of economic principles and systems is an integral part of a liberal education. Economics majors have a wide choice of careers. Many supplement their major with cognate courses to prepare for careers in business, journalism, health care administration or public service. Others find it excellent preparation for law school.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. The Economics Department assumes that students taking economics courses have had at least two years of high school-level algebra and one year of geometry.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University

(p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

Students considering an economics major should take ECO 2010 and ECO 2020 (Principles of Microeconomics and Macroeconomics) as soon as possible. They should also pass MAT 1800 prior to the junior year or demonstrate eligibility for MAT 2010 in the Mathematics Placement Examination.

A major consists of at least thirty-two credits in economics courses including:

Code	Title	Credits
ECO 2010	Principles of Microeconomics	4
ECO 2020	Principles of Macroeconomics	4
ECO 5000	Intermediate Microeconomics	4
ECO 5050	Intermediate Macroeconomics	4
ECO 5100	Introductory Statistics and Econometrics	4
ECO 5993	Writing Intensive Course in Economics	0
Select at least three courses in two or more economics fields C to H, 12 or ECO 2550 and at least two additional courses in fields C to H ¹		12
Total Credits		32

¹ Economics courses are listed by field in the department's undergraduate course list (p.).

The Department recommends that majors complete all of these courses by the end of their junior year. At least sixteen credits in economics must be earned at Wayne State University.

Each student should choose the economics electives best suited to his/her intellectual and professional aims.

To satisfy the General Education Major Competency Requirement, Economics majors must have a cumulative grade point average of 2.0 in their economics courses.

Minimal Grade Requirements

The following courses must be passed with a grade of C or better in order to be applicable as economics major credit:

Code	Title	Credits
MAT 1800	Elementary Functions	4
ECO 2010	Principles of Microeconomics	4
ECO 2020	Principles of Macroeconomics	4
ECO 5000	Intermediate Microeconomics	4
ECO 5050	Intermediate Macroeconomics	4
ECO 5100	Introductory Statistics and Econometrics	4

A grade of C-minus or better must be achieved for the three field course electives.

Writing Proficiency/Writing Intensive Requirement

To enable the Department to evaluate their writing proficiency, economics majors must register for ECO 5993, the zero-credit WI course. All economics majors must satisfy this requirement, even if they are not subject to the University General Education Requirements.

Combined Curriculum for Teaching Certificate

Economics majors wishing to enter secondary teaching should see the Secondary Education Curriculum guide for the procedures for combining a degree in Liberal Arts with a teaching certificate. Students must complete the Economics major requirements as part of their program of study.

Student's Responsibility

It is each student's responsibility to learn the requirements, policies, and procedures governing the program they are following and to act accordingly. Students should consult the Economics program advisor regularly in order to verify that Economics requirements are being met in a timely fashion. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Economics Honors (B.A. Program)

Economics majors with strong academic records and an interest in research are urged to apply to the Departmental undergraduate advisor for admission to the Honors Program. Applicants should have overall grade point averages of 3.3 or above.

In addition to the Bachelor of Arts requirements cited above, honors majors must take ECO 4997 (Senior Honors Research) during their last semester before graduation and therefore completing thirty-six credits in economics courses. In this seminar they will conduct research under the close supervision of an Economics faculty member. The results of this research are written as an honors thesis, the length of which depends on the nature of the research project.

Honors majors also must elect at least one 4200-level seminar offered by the Honors College. Finally, the student must accumulate at least fifteen credits in honors-designated course work, including ECO 4997 and the Honors College Seminar. These honors credits need not all be in the Economics Department. Those who successfully complete these requirements and finish their undergraduate course work with an overall grade point average of 3.3 or above will graduate with the degree designation "with Honors in Economics."

'AGRADE' Program (Accelerated Graduate Enrollment)

The Economics Department actively participates in the 'AGRADE' Program, which enables qualified seniors in the College of Liberal Arts and Sciences to enroll simultaneously in the undergraduate and graduate programs of the College, and to apply a maximum of sixteen credits toward both an undergraduate and graduate degree in economics. Students interested in 'AGRADE' should contact the Director of Undergraduate Studies: 313-577-3345.

Mathematical Economics (B.A.)

The purpose of the program is to provide rigorous training in mathematics and economics for students whose career goals require a high level of technical proficiency in these subjects. The program will be valuable for students who intend to pursue graduate work in economics, finance or applied mathematics, or pursue a career in economic analysis, finance, underwriting, actuarial sciences, banking, international trade, applied statistics, or operations research.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

Students considering a mathematical economics major should take ECO 2010 and ECO 2020 (Principles of Microeconomics and Macroeconomics) and MAT 2010 (Calculus 1) as soon as possible.

To satisfy the university bachelor's degree requirement, Mathematical Economics majors must have a cumulative grade point average of 2.0 in their major courses. Also, students must receive a grade of 'C-' or better in all mathematics, statistics and economics courses.

A major consists of at least forty-six credits total - at least twenty-two credits in mathematics courses and twenty-four credits in economics courses. At least fifteen credits (eight credits of economics and seven credits of math) must be earned at Wayne State University.

Code	Title	Credits

MAT 5280	Methods of Differential Equations	
MAT 5710	Introduction to Stochastic Processes	
MAT 5750	Mathematics of Finance	
MAT 5770	Mathematical Models in Operations Research	
MAT 5870	Methods of Optimization	
STA 5800	Introduction to Mathematical Statistics	
Total Credits		46-47

¹ This course could be done in conjunction with ECO 5993.

² Excluding MAT 5120, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180, MAT 6200 and MAT 6210.

³ This is a paper completed in conjunction with an approved 5000-level economics, mathematics or statistics elective course. You must register for this course during the same semester that the 5000-level elective taken. Permission from the instructor is required.

Minimal Grade Requirements

Students must receive a grade of 'C-' or better in all economics, mathematics and statistics courses. An overall grade point average of 2.0 ('C') is required for graduation.

Writing Proficiency/Writing Intensive Requirement

To enable the Department to evaluate their writing proficiency, mathematical economics majors must register for ECO 5993, the zero-credit WI course. This is a paper completed in conjunction with a 5000-level economics, mathematics or statistics elective course. They must register for this during the same semester that the 5000-level elective course is taken. All mathematical economics majors must satisfy this requirement, even if they are not subject to the University General Education Requirements.

Student's Responsibility

It is each student's responsibility to learn the requirements, policies, and procedures governing the program they are following and to act accordingly. Students should consult both Mathematical Economics program advisors regularly in order to verify that Mathematical Economics requirements are being met in a timely fashion. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Economics Minor

A minor in economics requires the completion of the following course work. Twelve credits must be taken at Wayne State University. Students must maintain a cumulative g.p.a. of 2.0 or better in the Economics courses.

Code	Title	Credits
MAT 1800	Elementary Functions ¹	4
ECO 2010	Principles of Microeconomics ¹	4
ECO 2020	Principles of Macroeconomics ¹	4

Three ECO courses at the 2500-level or above ²	12
Total Credits	24

¹ Must be passed with a grade of C or better.

² ECO 5000, 5050, and 5100 must be passed with a grade of C or better (if included in the minor).

Health Economics Minor

The Health Economics minor explores the economic forces impacting the health status of individuals. These forces include the health care sector consisting of physician and other provider services, hospital and health facilities, pharmaceutical drugs, medical technology and innovation, health insurance, and government programs. Other economic forces impacting health such as poverty and discrimination are also examined.

A minor in health economics requires the completion of the following coursework. A grade of C or better is required in all courses counted toward the minor.

Code	Title	Credits
Math Prerequisite		
MAT 1800 or higher, or placement into MAT 2010 in the Mathematics Placement Examination, is required.

Employment and Labor Relations

Office: 255 Walter P. Reuther Library

313-577-5382 or 313-577-0175

<https://clas.wayne.edu/labor-studies> (<https://clas.wayne.edu/labor-studies/>)

- Employment and Labor Relations (B.A.) (p. 263)

Employment and Labor Relations (B.A.)

The Employment and Labor Relations major provides students with the opportunity to develop the critical skills necessary to analyze employment and workplace issues. An interdepartmental program, employment and labor relations examines the social, political and economic dimensions of these issues in the context of a broad liberal arts education. Students become familiar with employment and labor law, human resource management, compensation and benefits, and techniques associated with the resolution of conflict in the workplace. Students prepare for careers in business, government, nonprofits (including the healthcare sector), and labor unions. The program is also good preparation for pursuing a professional degree in business or law.

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Code	Title	Credits
Required Core Courses

<https://clas.wayne.edu/english/>

Located in the heart of Detroit, Wayne State University's Department of English is committed to critical engagement with language, texts, and media. Our students learn how to read, write, analyze, create arguments, and conduct research by taking classes in Composition, Creative Writing, Linguistics, Literary and Cultural Studies, Media Studies, Professional Writing, and Rhetoric. Through our research and teaching, we prepare students to pursue a range of career paths and to engage with the world in all its complexity.

- Professional Writing Minor (p. 268)

English (B.A.)

Building upon the cultural diversity and urban experience that distinguishes Wayne State University, the English Department's mission is to provide its students with the intellectual knowledge and practical tools to thrive in an increasingly diverse and interconnected world, by teaching them to understand the power and influence of literature and other forms of textual and media production, circulation, and interpretation; and by imparting skill and fluency in close reading, critical thinking, rhetorical analysis, and writing in multiple genres. The English major curriculum is designed to introduce students to these skills and to provide a challenging and flexible liberal arts education as well as a pre-professional program for students interested in careers in education, law, business, and other professions.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All coursework must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

Students may satisfy the major in either of two ways: with a traditional concentration or with a concentration in editing, publishing, and writing.

In both concentrations, students must complete twelve English courses beyond the University General Education Competency Requirement and Liberal Arts and Sciences Group Requirements. Ten of these courses must be beyond the 2000-level.

Traditional Concentration

Additional Requirements

Select three additional courses in English.		9
---	--	---

Total Credits		36
----------------------	--	-----------

¹ Students must take at least two courses at the 3000 level and at least three courses at the 5000 level in addition to the Senior Seminar. No English course below the 2000-level may count toward the English B.A. program.

Combined Curriculum for Secondary Teaching

An English major who wishes to prepare for a career in secondary school teaching can earn a bachelor's degree in English with a secondary teaching certificate. In close consultation with Department of English and College of Education advisors, the student will develop a plan of work that satisfies the requirements of the English B.A. program and includes the subject area and professional courses required for teacher certification.

Note: Students seeking Elementary Education Certification with a Language Arts Group Major should consult with an advisor in the School of Education.

English Honors (B.A. Program)

To graduate with honors in English an undergraduate student must have a minimum 3.5 g.p.a. in English courses and a minimum cumulative g.p.a. of 3.3. Students must complete the English major with a minimum of thirty-six credits in English courses beyond the Liberal Arts and Sciences Group requirements and General Education requirements, three courses of which must be in Honors: ENG 4991, ENG 4992, and one 5000-level English course taken as an Honors-option course. Students must also complete at least one 4200-level interdepartmental Honors Seminar, HON 4200-HON 4280, to total four courses in Honors.

Required English Courses

Students may fulfill their required English courses for the English Honors B.A. through one of two concentrations in the major: the traditional concentration or the concentration in editing, publishing, and writing.

In both concentrations, students must complete twelve English courses beyond the University General Education Competency Requirement and Liberal Arts and Sciences Group Requirements. Ten of these courses must be beyond the 2000 level.

Traditional Concentration

Code	Title	Credits
Foundations Courses		
Select two courses from the following list:		6
ENG 2200	Shakespeare: Writing about Texts	
ENG 2250	British Literature: Writing about Texts	
ENG 2350	American Literature: Writing about Texts	
ENG 2390	Introduction to African-American Literature: Writing about Texts

Research Colloquium

ENG 4850 Research Methods Colloquium 3

Honors Seminar

ENG 4991 Honors Seminar (Max. 6) 3

Honors Project

ENG 4992 Honors Project ¹ 3

Other Requirements

Select at least five additional courses in English ² 15

Total Credits 36

¹ The Honors Project should be twenty to thirty pages long. Students pursuing both Department and University Honors may use the Departmental project (ENG 4992 (<https://bulletins.wayne.edu/search/?P=ENG%204992>)) to fulfill the University Honors thesis requirement.

² Three of these courses must be at the 4000 or 5000 level. At least one of these courses must be taken as an Honors-option course. Candidates for Honors in English will arrange for an Honors-option by contracting with any professor teaching a 5000-level course to do honors-level work in that course, beyond the standard requirements set forth in the syllabus. Supplementary work required for the Honors-option might consist of an extra paper, a significantly longer term paper, evidence of additional readings (for example, through journal entries), an oral or written report, or a special examination. No English course below the 2000 level may count toward the English B.A. program.

Honors Project

ENG 4992 Honors Project ¹ 3

Other Requirements

Select at least two additional courses in English ²	6
Total Credits	36

¹ The Honors Project should be twenty to thirty pages long. Students pursuing both Department and University Honors may use the Departmental project (ENG 4992 (<https://bulletins.wayne.edu/search/?P=ENG%204992>)) to fulfill the University Honors thesis requirement.

² Inclusive of the requirements for the "Course in Writing," "Elective in Editing, Publish, and Writing," and "Other Requirements," students must take at least two courses at the 3000 level and at least one course at the 4000 or 5000 level in addition to the Honors Seminar and Honors project. At least one of the 5000-level courses must be taken as an Honors-option course. Candidates for Honors in English will arrange for an Honors-option by contracting with any professor teaching a 5000-level course to do honors-level work in that course, beyond the standard requirements set forth in the syllabus. Supplementary work required for the Honors-option might consist of an extra paper, a significantly longer term paper, evidence of additional readings (for example, through journal entries), an oral or written report, or a special examination. No English course below the 2000 level may count toward the English B.A. program.

Students who wish to become candidates for degrees with honors in English are encouraged to consult early with the Undergraduate Advisor for the Department of English.

'AGRADE' Program (Accelerated Graduate Enrollment)

The English Department invites academically superior majors to apply for admission to the 'AGRADE' Program, which allows qualified seniors to enroll simultaneously in the undergraduate and graduate programs of the Department. Applications will be accepted no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average of 3.5 and not less than a 3.6 g.p.a in the major courses already completed. A Plan of Work is required, and credit restrictions apply. Please see the departmental Undergraduate Advisor for more detail.

Film Studies (B.A.)

An admissions moratorium is in effect for this program.

The University offers two undergraduate degree programs related to film: the Bachelor of Arts with a Major in Film offered by the College of Fine, Performing, and Communications Arts, and the Bachelor of Arts with a Major in Film Studies as described below.

The English Department offers a program in film and media studies for students interested in the history and criticism of film and media. Courses are designed to give students knowledge and critical skills in film analysis, key concepts in film theory, the major directors, emerging trends in new media scholarship, and an understanding of cultural and historical factors in film and media production and reception.

Please contact the Undergraduate Advisor in the Department of English for further information.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Students majoring in film studies must complete a minimum of thirty-four credits, distributed as follows:

Code	Title	Credits
Core Courses (Fourteen Credits)		
ENG 2450/ COM 2010	Introduction to Film	4
ENG 5993	Writing Intensive Course in English	0
Additional ENG courses		10
Elective Courses (Twenty Credits)		
Select twenty elective credits of the following: ¹		20
ADA 3210	Time-Based Media I: Video Art	
ADA 4220	Time-Based Media II: Experimental Animation	
AFS 3200/ COM 3230	The African-American Film Experience	
AFS/COM 4240	African Americans in Television	
COM 1600	Introduction to Audio-Television-Film Production	
COM 5020	Studies in Film History (Max. 12)	
COM 5060	Documentary and Non-Fiction Film and Television	
COM 5270	Screenwriting (Max. 8)	
COM 5400	Techniques of Film and Video Production	
COM 5440	Film, Cinematography and Lighting	
ENG 5070	Topics in Film and Media (Max. 12)	
ENG 5990	Directed Study in English (Max. 6 (with film studies focus))	
ITA 5150	Italian Cinema (Max. 9)	
NE 2060	Trends and Themes in Films of the Middle East	
POL/SLA 3750	Polish and Yugoslavian Cinema	
SLA 3710	Russian and East European Film	
Total Credits		34

¹ Electives should be selected in conjunction with the Departmental Undergraduate Advisor. Three elective classes must be taken at the 5000-level or above.

Creative Writing Minor

The Creative Writing Minor is designed to allow focus and credentialing for the many students across the university who enjoy reading and writing poetry, fiction, and other creative forms. The minor requires a minimum of 18 credits. English majors can only apply two major courses to this minor.

Requirements

Code	Title	Credits
ENG 3800	Living Writers	3
Select three of the following at least two of which should be at the 5000-level or higher		9
ENG 2800	Foundations of Creative Writing	
ENG 3810	The Craft of Poetry	
ENG 3820	The Craft of Prose	
ENG 5695	Publishing Practicum	
ENG 5860	Topics in Creative Writing	
ENG 5870	Poetry Writing Workshop	
ENG 5880	Fiction Writing Workshop	
ENG 5885	Topics in Creative Non-Fiction Writing	

Select two elective courses from any English course at the 2000-level or higher¹

Total Credits 18

¹ Students may substitute one of the following assuming they have satisfied any prerequisite coursework and/or have permission from the course's home department: COM 4100, COM 5270, or THR 5721.

English Minor

The minor in English permits study in literature, film and media, creative writing, and writing studies. It requires six English courses, excluding Basic Composition (BC) and Intermediate Composition (IC) requirements, for a minimum of at least eighteen credits:

Code	Title	Credits
Select any two of the following courses:		
ENG 3085	Introduction to Rhetorical Theory	6
ENG 3090	Introduction to Cultural Studies	
ENG 3100	Introduction to Literary Studies	
ENG 3800	Living Writers	
ENG 3110	English Literature to 1700	
ENG 3120	English Literature after 1700	
ENG 3130	American Literature to 1865	
ENG 3140	American Literature after 1865	
ENG 3180	Rhetoric to 1800	
ENG 3190	Rhetoric after 1800	
ENG 3470	Survey of African-American Literature	
Choose four more courses from English, two of which must be at the 4000-level or above.		
Total Credits		18

Film and Media Studies Minor

The English department offers a minor in Film and Media Studies for students interested in the history and criticism of film and media. Courses are designed to give students knowledge and critical skills in film and media analysis, key concepts in film and media theory, emerging trends in new media scholarship, and an understanding of cultural and historical factors in film and media production and reception. The minor requires five courses. English majors can only apply two of their major courses to this minor.

Code	Title	Credits
ENG 2450/ COM 2010	Introduction to Film	4
Select four courses from the following, two of which must be at the 12-16 4000-level or above.		
ENG 2430	Digital Literacies: Writing about Texts	
ENG 2440	Introduction to Visual Culture: Writing about Texts	
ENG 2445	Comics and Graphic Novels: Writing about Texts	
ENG 2470	Television Culture: Writing about Texts	
ENG 3090	Introduction to Cultural Studies	
ENG 5070	Topics in Film and Media	
ENG 5095	Topics in Visual Culture	
Allowed from other disciplines:		
AFS 3200/ COM 3230	The African-American Film Experience	

AFS/COM 4240	African Americans in Television
CHI 3010	Contemporary Chinese Pop Culture
COM 5270	Screenwriting
FRE 2100	French through Film I
FRE 2110	French through Film II
ITA 2020	Italian through Film
ITA 5150	Italian Cinema
NE 2060	Trends and Themes in Films of the Middle East
SLA 3710	Russian and East European Film
SLA/POL 3750	Polish and Yugoslavian Cinema

Professional Writing Minor

The Professional Writing minor is intended to provide students with training in the essentials of professional writing practices and with experience in composing in common genres of professional and technical communication. The minor requires the completion of a minimum of 18 credits.

Requirements

Code	Title	Credits
Select one of the following introductory courses:		
ENG 3050	Technical Communication I: Reports	3
ENG 3060	Technical Communication II: Presentations	
Select four courses from the following, two of which must be at the 5000-level:		
ENG 3200	Grant Writing	12
ENG 3250	Professional Editing	
ENG 3050	Technical Communication I: Reports	
ENG 3060	Technical Communication II: Presentations	
ENG 5010	Topics in the Essay	
ENG 5695	Publishing Practicum	
ENG 5795	Topics in Rhetoric and Writing	
ENG 5830	Writing in the Workplace	
ENG 5840	Topics in Professional Writing	
Required internship:		
ENG 5820	Internship Practicum	3
Total Credits		18

Environmental Science and Geology

Office: 0224 Old Main; (313) 577-2506

Chairperson: Mark Baskaran

Academic Advisor: Dawn Niedermiller

Academic Services Officer: John Niedermiller

<https://clas.wayne.edu/esg> (<https://clas.wayne.edu/esg/>)

Geology is the scientific study of planet Earth and involves the observation and interpretation of processes that form and change our world. Some of these processes, such as earthquakes, tsunamis, and volcanic eruptions, proceed rapidly, often with catastrophic consequences. Others, such as erosion or mountain building can progress so slowly that their results are scarcely noticeable over a human lifetime. Each of these processes, however, can exert a profound influence on human activities and can, in turn, be influenced intentionally or unintentionally by human activities.

The courses offered by this department are designed to serve the needs of five groups of students:

1. Those who desire a general knowledge of geology as part of a liberal education;
2. Those who need geological information as a cognate subject in other professions;
3. Those who wish to major in geology as part of a broad liberal arts education;
4. Those who wish to major in environmental science;
5. Those who plan to become professional geologists.

Introductory courses are primarily general, but they also provide a foundation in geology for the student who desires to continue an intensive program of study. Students with an interest in environmental problems will find a number of relevant courses among those offered by the Department of Geology. In addition, a variety of courses in various phases of geology is available to the general student. Intermediate and advanced courses are designed to develop the principles of geology beyond the elementary level and to give a firm technical foundation for advanced study.

Environmental Science investigates the many interconnected systems and processes that formed our world, continuously change it, and, ultimately, sustain life on it. The Environmental Science Program at Wayne State offers an interdisciplinary approach combining a strong foundation from both geological and ecological perspectives, and a broad choice of electives in its course work. This interdisciplinary program addresses human impacts on the environment, earth surface processes, and ecosystem science with an emphasis on the urban environments. It will prepare students for graduate study, or for careers in various areas of environmental science including conservation, restoration, watershed management, environmental impact assessment, air and water quality monitoring, regulatory compliance, and environmental remediation.

- Environmental Science (B.S.) (p. 269)
- Geology (B.A.) (p. 270)
- Geology (B.S.) (p. 271)
- Environmental Science Minor (p. 272)
- Geology Minor (p. 272)
- Geochemistry Minor (p. 272)
- Geophysics Minor (p. 272)

Environmental Science (B.S.)

Environmental Science investigates the many interconnected systems and processes that formed our world, continuously change it, and,

ultimately, sustain life on it. The Environmental Science Program at Wayne State offers an interdisciplinary approach combining a strong foundation from both geological and ecological perspectives, and a broad choice of electives in its course work. This interdisciplinary program addresses human impacts on the environment, earth surface processes, and ecosystem science with an emphasis on the urban environments. It will prepare students for graduate study, or for careers in various areas of environmental science including conservation, restoration, watershed management, environmental impact assessment, air and water quality monitoring, regulatory compliance, and environmental remediation.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees. Students must receive a grade of 'C-minus' or better in all Major and Cognate required courses. An overall grade point average of 2.0 (C) in all coursework is required for graduation.

Major Requirements

B.S. candidates in Environmental Science must complete the following:

Code	Title	Credits
ESG 1500	Introduction to Environmental Science	3
ESG 3000	Introduction to Environmental Analysis Using Geographic Information Systems (GIS)	3
ESG 3100	Air and Water in Environmental Systems	3
ESG 1010	Geology: The Science of the Earth	3
ESG 1011	Geology: The Science of the Earth Laboratory	1
ESG 5150	Soils and Soil Pollution	4
ESG 5510	Environmental Fate and Transport of Pollutants	4
BIO 1500 & BIO 1501	Basic Life Diversity and Basic Life Diversity Laboratory	4
BIO 3500	Ecology and the Environment	3
BIO 5100 or BIO 5440	Aquatic Ecology or Terrestrial Ecology	4
PHI 1130	Environmental Ethics	3
PS 3450	Environmental Policy and Politics	4
Environmental Humanities Course (Choose One):		3-4
ANT 5140	Biology and Culture	
ECO 5230	Environmental Economics	
HIS 5540	World Environmental History since 1900	
PS 5560	Biopolitics	
SOC 2205	Sociology of the Environment	
UP 4460	Sustainable Cities	
UP 5430	Cities and Food	

Elective Courses

Students must complete a minimum of 15 approved elective credits for the major; one course must be from the Department of Biology or the Department of Environmental Science and Geology.

Code	Title	Credits
Biology Options		
BIO 4130	General Ecology	4
BIO 4420	Biogeography	3
BIO 5040	Biometry	4
BIO 5100	Aquatic Ecology	4
BIO 5180	Field Investigations in Biological Sciences	12
BIO 5440	Terrestrial Ecology	4
BIO 5490	Population and Community Ecology	3
BIO 5540	Landscape Ecology	3
BIO 6190	Advanced Special Topics	6
BIO 6420	Ecotoxicology and Risk Assessment	3
Environmental Science and Geology Options		
ESG 2130	Mineralogy	4
ESG 3300	Structural Geology	4
ESG 3160	Petrology	4

History Options		
HIS 5540	World Environmental History since 1900	4
Public Health Options		
PH 3500	Environmental Health	3

Sociology Options		
SOC 2205	Sociology of the Environment	3
Urban Studies and Planning Options		
UP 4460	Sustainable Cities	3
UP 5430	Cities and Food	3

Cognate Requirements

B.S. candidates in Environmental Science must take:

Code	Title	Credits
STA 1020	Elementary Statistics	3
or STA 2210	Probability and Statistics	
MAT 2010	Calculus I	4
CHM 1100	General Chemistry I	5
& CHM 1130	and General Chemistry I Laboratory (or CHM 1220/1230 if taken before Fall 2020)	
Select one of the following Physics options:		5
PHY 2130	Physics for the Life Sciences I	
& PHY 2131	and Physics for the Life Sciences Laboratory	
PHY 2170	University Physics for Scientists I	
& PHY 2171	and University Physics Laboratory	

Majors should take the Placement Examination of the Department of Mathematics as soon as possible upon entry into the freshman year, although freshmen students may be placed by ACT/SAT scores (valid for 2 years).

Student's Responsibility: It is each student's responsibility to learn the requirements, policies, and procedures governing the program they are following and to act accordingly. Students should consult the Environmental Science Program Advisor regularly in order to verify that Environmental Science requirements are being met in a timely fashion. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Environmental Science Honors

To be recommended for an honors degree from this program, a student must maintain a cumulative grade point average of at least 3.30 and complete a minimum of twelve honors course credits including two Geology or Biological Science Honors or Honors Option courses (6 credits) and:

Code	Title	Credits
ESG 4998	Honors Thesis	3
BIO 6999	Honors Undergraduate Research Thesis	2
One 4200-level Honors Seminar		3

Geology (B.A.)

Geology is the scientific study of planet Earth and involves the observation and interpretation of processes that form and change our world. Some of these processes, such as earthquakes, tsunamis, and volcanic eruptions, proceed rapidly, often with catastrophic consequences. Others, such as erosion or mountain building can progress so slowly that their results are scarcely noticeable over a human lifetime. Each of these processes, however, can exert a profound influence on human activities and can, in turn, be influenced intentionally or unintentionally by human activities.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

Students must complete twenty-six credits in geology beyond ESG 1020. These must include:

Code	Title	Credits
ESG 2130	Mineralogy	4
ESG 3160	Petrology	4
ESG 3300	Structural Geology	4
ESG 3400	Principles of Sedimentology and Stratigraphy	4
GEL 5993	Writing Intensive Course in Geology	0
At least two credits in a geology field course		2

Cognate Requirements

At least one college course in each of two of the following fields is required: biology, chemistry, or physics. MAT 1800 and satisfaction of the Foreign Language Group Requirement are also required.

Geology majors should consult their advisor regarding additional recommended cognate courses. Depending on interest and future goals, supplementary courses in mathematics, physics and chemistry, as well as courses in biology, computer science, engineering, and urban studies might be of particular value.

Geology Honors

The Honors Program in Geology is open to students of superior academic ability who are majoring in geology. To be recommended for an honors degree from this department, a student must maintain a cumulative grade point average of at least 3.3. He/she must accumulate at least twelve credits in honors-designated courses including: two Geology Honors or Honors Option courses (min. 6 credits), GEL 4998 (<https://bulletins.wayne.edu/search/?P=GEL%204998>): Honors Thesis (3 credits), and one 4200-level Honors Seminar (3 credits).

Geology (B.S.)

Geology is the scientific study of planet Earth and involves the observation and interpretation of processes that form and change our world. Some of these processes, such as earthquakes, tsunamis, and volcanic eruptions, proceed rapidly, often with catastrophic consequences. Others, such as erosion or mountain building can progress so slowly that their results are scarcely noticeable over a human lifetime. Each of these processes, however, can exert a profound influence on human activities and can, in turn, be influenced intentionally or unintentionally by human activities.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

Students must complete at least thirty-four credits in geology exclusive of the introductory courses (1000-level) and must include the following:

Code	Title	Credits
Twenty of the thirty-four credits from advanced courses (numbered 3000 and above)		
ESG 2130	Mineralogy	4
ESG 3160	Petrology	4
ESG 3300	Structural Geology	4
ESG 3400	Principles of Sedimentology and Stratigraphy	4
GEL 5993	Writing Intensive Course in Geology	0
Credits in field mapping and field techniques, to be fulfilled by completed six credits in a summer field course ¹		6

¹ If the Geology Department at Wayne State University does not offer a summer field course in any given year, students should complete the field course requirement by attending an approved field course at another university. In certain unusual circumstances the required six credits in field mapping and field techniques may be earned through an extended field-oriented research project when this project involves extensive field mapping and is under the direct supervision of a faculty member or other qualified field geologist throughout the duration of the field work. Questions about appropriate Field Camp opportunities outside of Wayne State University should be directed to the program advisor and/or faculty members.

Cognate Requirements

Code	Title	Credits
MAT 1800 & MAT 2010	Elementary Functions and Calculus I (or equivalent)	8
Select one of the following sequences or equivalent:		8
PHY 2130 & PHY 2131	Physics for the Life Sciences I and Physics for the Life Sciences Laboratory	
PHY 2140 & PHY 2141	Physics for the Life Sciences II and Physics for the Life Sciences Laboratory	
OR		
PHY 2170 & PHY 2171	University Physics for Scientists I and University Physics Laboratory	
PHY 2180 & PHY 2181	University Physics for Scientists II and University Physics Laboratory II	
AND		
CHM 1100 & CHM 1130	General Chemistry I and General Chemistry I Laboratory (or equivalent)	5
A semester of biology (BIO 1500 or equivalent) is strongly recommended		4

Although there are no required cognate courses beyond those listed above, geology majors should consult their advisor regarding cognate courses which might be of value to their particular program. Depending on interest and future goals, additional courses in mathematics, physics,

and chemistry, as well as courses in biology, computer science, civil engineering, and urban studies might be of particular value.

Geology Honors

The Honors Program in Geology is open to students of superior academic ability who are majoring in geology. To be recommended for an honors degree from this department, a student must maintain a cumulative grade point average of at least 3.3. He/she must accumulate at least twelve credits in honors-designated courses including: two Geology Honors or Honors Option courses (min. 6 credits), GEL 4998 (<https://bulletins.wayne.edu/search/?P=GEL%204998>): Honors Thesis (3 credits), and one 4200-level Honors Seminar (3 credits).

Environmental Science Minor

The Environmental Science minor requires a minimum of 24 credits for completion. All courses are currently utilized for the Environmental Science major. Environmental Science majors are not eligible for the Environmental Science minor.

Code	Title	Credits
Required Courses		18
ESG 1500	Introduction to Environmental Science	
ESG 1010	Geology: The Science of the Earth	
ESG 1011	Geology: The Science of the Earth Laboratory	
BIO 1500	Basic Life Diversity	
ESG 3100	Air and Water in Environmental Systems	
BIO 3500	Ecology and the Environment	
Elective courses (select two from the following)		6-8
Geology majors must select at least one BIO course; biological science majors must select at least one GEL course.		
BIO 4130	General Ecology	
BIO 4420	Biogeography	
BIO 5040	Biometry	
BIO 5100	Aquatic Ecology	
BIO 5180	Field Investigations in Biological Sciences	
BIO 5440	Terrestrial Ecology	
BIO 5490	Population and Community Ecology	
BIO 5540	Landscape Ecology	
BIO 6190	Advanced Special Topics	
ESG 4200	Geomorphology	
ESG 5000	Geological Site Assessment	
ESG 5120	Environmental Geochemistry	
ESG 5150	Soils and Soil Pollution	
ESG 5360	Hydrology and Water Resources	
ESG 5510	Environmental Fate and Transport of Pollutants	
ESG 5650	Applied Geologic Mapping	
GEL 6500	Earth Resources and the Environment	
Total Credits		24-26

Geology Minor

The Department offers a minor in geology for undergraduate students. The minor consists of twenty credits in geology (usually consisting of five courses). Although desirable courses for a student's minor program should be determined in consultation with Geology Department staff members. Anyone wishing to complete a minor in geology should contact the Department advisor as soon as possible, so that an appropriate program can be formulated.

Code	Title	Credits
Required courses:		8
ESG 1010	Geology: The Science of the Earth	
ESG 1020	Interpreting the Earth	
Elective coursework (at least four credits in the minor must be completed in courses at the 3000-level or above) ¹		12
Total Credits		20

¹ ESG 1050 may only be applied for credit to a minor with the permission of the student's advisor in consultation with the Chairperson of the Department

Geochemistry Minor

Geochemistry is a state-of-the-art science that studies the abundance and mobility of elements and compounds and their movement through Earth's continental crust, atmosphere, oceans, lakes, rivers and streams. The skills acquired through this minor are relevant to students interested in environmental and natural-resource topics associated with archaeological, anthropological, biological, chemical and geological studies.

The Geochemistry Minor requires 23-25 credits, including:

Code	Title	Credits
Core Courses		16-17
CHM 1100	General Chemistry I	
	or CHM 1120: General Chemistry I for Engineers	
CHM 1130	General Chemistry I Laboratory	
CHM 1240	Organic Chemistry I	
ESG 1010	Geology: The Science of the Earth	
ESG 1011	Geology: The Science of the Earth Laboratory	
ESG 5120	Environmental Geochemistry	
Chemistry Elective Course (select one of the following)		3-4
CHM 1140	General Chemistry II	
CHM 2220	Organic Chemistry II	
	or CHM 2220: Organic Chemistry II for Engineers	
CHM 3020	Intermediate Inorganic Chemistry I	
Geology Elective Course (select one of the following)		4
ESG 5150	Soils and Soil Pollution	
ESG 5510	Environmental Fate and Transport of Pollutants	
ESG 6400	Isotopes: Applications in Geological and Environmental Sciences	
Total Credits		23-25

Geophysics Minor

Geophysics seeks to understand the inner workings of inner earth and its surroundings. A variety of physical measurements – involving seismic waves, magnetic fields, gravity, electric potential and satellite-based geodesy – are made to probe the interior and study the surface and internal process of our planet. The geophysics study encompasses field work as well as theoretical and experimental studies, through which students will learn about the mechanics of landslides, earthquakes and other natural hazards. Employment opportunities include oil, gas, petroleum and mineral exploration companies and environmental consulting companies. This minor could also serve as a pathway for entry to a graduate program in seismology.

The Geophysics minor requires a minimum of 23-25 credits.

Code	Title	Credits
Geology courses ¹		
ESG 1010	Geology: The Science of the Earth	3
ESG 1011	Geology: The Science of the Earth Laboratory	1
ESG 5210	Environmental and Applied Geophysics	4
Select one of the following:		4
ESG 3300	Structural Geology	
ESG 5420	Mathematical Methods in Earth Science	
ESG 5450	Hydrogeology	
ESG 6400	Isotopes: Applications in Geological and Environmental Sciences	
Physics courses		
PHY 2170 & PHY 2171 or PHY 2175	University Physics for Scientists I and University Physics Laboratory or University Physics for Engineers I	4-5
PHY 2180 & PHY 2181 or PHY 2185	University Physics for Scientists II and University Physics Laboratory II or University Physics for Engineers II	4-5
Select one of the following:		3
PHY 3300	Introductory Modern Physics	
PHY 5100	Methods of Theoretical Physics I	
PHY 5200	Classical Mechanics I	
PHY 5340	Optics	
PHY 3310 & PHY 3750	Introductory Modern Physics Laboratory and Introduction to Computational Methods	
Another PHY course above the 4000 level ²		
Total Credits		23-25

¹ Two courses must not have been applied toward major requirements or another minor

² The course should be chosen in consultation with an advisor.

Gender, Sexuality and Women's Studies

Office: 5057 Woodward, suite 9204; 313-577-6331

Director: Simone Chess

<https://clas.wayne.edu/gender-studies> (<https://clas.wayne.edu/gender-studies/>)

Wayne State's interdisciplinary gender, sexuality, and women's studies program (GSW) allows students to study gender and sexuality through the lenses of feminism, queer and trans studies, with special attention to critical intersections with race, class, religion, health, and geography. Our program prepares students to bring together theory and praxis, academic methods and social justice principles. GSW is also a place for feminist, queer, and ally students to find community.

Students with a degree from GSW go on to pursue careers in multicultural and interpersonal fields like education, law, social work, health care, public relations, or community development. Graduates from GSW are in-demand employees who thrive in these career fields because of their skills in communication and their rich understanding of diverse social and cultural contexts, honed through coursework in social science, literature, and the arts.

- Gender, Sexuality and Women's Studies (B.A.) (p. 273)
- Gender, Sexuality and Women's Studies Minor or Cognate Study (p. 274)
- Queer Studies Minor (p. 275)

Gender, Sexuality and Women's Studies (B.A.)

With a major or minor in gender, sexuality and women's studies (GSW), you can study gender and sexuality through the lenses of feminism, queer and trans studies, with special attention to critical intersections with race, class, religion, health, and geography. GSW is also a place for feminist, queer, and ally students to find community. We come together outside of the classroom for programs, events and service learning on campus and throughout Detroit.

A degree in gender, sexuality and women's studies is flexible and interdisciplinary with a focus on social justice, real-world praxis, and community engagement. Students often chose GSW as a co-major to complement another program of study, or use our minors to amplify their expertise in gender and sexuality and enhance their qualifications by signaling their commitment to diversity and equity.

Our program offers a major in gender, sexuality, and women's studies and two minors, one in GSW and one in queer studies. A major or minor in GSW is great for careers in health, psychology, communications, business, law, education, and non-profit/community justice. Students wishing to pursue the major or minor in Gender, Sexuality, and Women's Studies or the minor in Queer Studies should meet with the undergraduate advisor.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

Major requirements consist of thirty-one credits distributed as follows:

Code	Title	Credits
Foundations Courses		
Select two of the following course options:		6
GSW 2100	Introduction to Queer Studies	
GSW 2500	Humanities Perspectives on Gender, Sexuality, and Women	
GSW 2600	History of Women, Gender and Sexuality in the Modern World	
GSW 2700	Social Science Perspectives on Gender, Sexuality, and Women	
Interdisciplinary Gateway Course		
GSW 3200	Introduction to Gender, Sexuality, and Women's Studies	3
Two Additional GSW Courses		
Select two GSW courses at the 3000-level or above (minimum of 6 credits)		6
At least three Electives Courses		
Select nine credits from GSW electives list (see below); GSW courses beyond those meeting other requirements may also be counted toward elective credits.		9
Capstone Theory Course		
GSW 5200	Feminist, Gender, and Queer Theory	3
Senior Project		
GSW 5990	Senior Project Seminar	4
Total Credits		31

Electives

For elective credits toward the B.A. or minor in Gender, Sexuality, and Women's Studies, students may take any GSW course not fulfilling a requirement or any of the following:

Code	Title	Credits
AFS/GSW 5110	Black Women in America	3
ANT 5240	Cross Cultural Study of Gender	3
COM 4041	Rhetoric and the Body	3
COM 5360	Gender and Communication	3
CRJ 2650	Gender and Crime	3
CRJ 2750	Diversity Issues in Criminal Justice	3
ENG 2570	Women Writers: Writing about Texts	3
ENG/GSW 5030	Topics in Women's Studies	3
ENG 5035	Topics in Gender and Sexuality Studies	3
HIS 3250	The Family in History	3-4
HIS 5200	Women, Gender, and Sexuality in US History	3
HIS 5251	History of Feminism	4
PH 3900	LGBTQ Health	3
PHI 2360	Feminist Philosophy	3
PHI 5260	Philosophy of Sex and Gender	3
PS 3080	Gender and Politics	4
PSY 3250	Psychology of Gender	3
PSY 3380	Human Sexuality	3
SOC 2202	Gendered Worlds	3
SOC 3900	LGBTQ Health	3
SOC 3400	Exploring Marriage and Other Intimate Relationships	3

SOC 4202	Seminar in the Sociology of Gender	3
SOC 5410	Marriage and Family Problems	3
SW 3110	Diversity, Oppression and Social Justice	3

In some cases, courses not listed here may be counted toward the GSW electives requirement based on their content and assignments. Please contact the GSW advisor if you would like to request that a course not listed above be counted toward this requirement.

Gender, Sexuality and Women's Studies Honors

Qualified students, but especially those planning graduate studies in a GSW-related field or professional school, are encouraged to obtain a Bachelor of Arts degree 'With Honors in Gender, Sexuality and Women's Studies.' Honors majors must have a 3.3 g.p.a. in GSW courses and a 3.3 cumulative g.p.a. in all courses. Honors majors must complete a minimum of twelve credits in honors designated coursework, comprised of one 42xx-level seminar offered through the Honors College and the following three GSW courses taken with an Honors Option: GSW 3200 (Introduction to Gender, Sexuality, and Women's Studies), GSW 5200 (Advanced Feminism, Gender, and Queer Theory), and GSW 5990 (Honors-designated Senior Project Seminar). For information about honors-option coursework available each semester, visit the Honors College website (<https://honors.wayne.edu/academics/courses/>).

Gender, Sexuality and Women's Studies Minor

Minor requirements consist of eighteen credits distributed as follows:

Code	Title	Credits
Foundations Courses		
Chose two of the following course options		6
GSW 2100	Introduction to Queer Studies	
GSW 2500	Humanities Perspectives on Gender, Sexuality, and Women	
GSW 2600	History of Women, Gender and Sexuality in the Modern World	
GSW 2700	Social Science Perspectives on Gender, Sexuality, and Women	
Interdisciplinary Gateway Course		
GSW 3200	Introduction to Gender, Sexuality, and Women's Studies (Capstone Theory Course)	3
Capstone Theory Course		
GSW 5200	Feminist, Gender, and Queer Theory	3
At least two Electives Courses		
Select at least two elective courses in GSW or from the GSW electives list below:		6
AFS 5110	Black Women in America	
ANT 5240	Cross Cultural Study of Gender	
COM 4041	Rhetoric and the Body	
COM 5360	Gender and Communication	
CRJ 2650	Gender and Crime	
CRJ 2750	Diversity Issues in Criminal Justice	
ENG 2570	Women Writers: Writing about Texts	
ENG 5030	Topics in Women's Studies	
ENG 5035	Topics in Gender and Sexuality Studies	
HIS 3250	The Family in History	
HIS 5200	Women, Gender, and Sexuality in US History	

HIS 5251	History of Feminism
PH 3900	LGBTQ Health
PHI 2360	Feminist Philosophy
PHI 5260	Philosophy of Sex and Gender
PS 3080	Gender and Politics
PSY 3250	Psychology of Gender
PSY 3380	Human Sexuality
SOC 2202	Gendered Worlds
SOC 3400	Exploring Marriage and Other Intimate Relationships
SOC 3900	LGBTQ Health
SOC 4202	Seminar in the Sociology of Gender
SOC 5410	Marriage and Family Problems
SW 3110	Diversity, Oppression and Social Justice

In some cases, courses not listed here may be counted toward the GSW electives requirement based on their content and assignments. Please contact the GSW advisor if you would like to request that a course not listed above be counted toward this requirement.

Total Credits **18**

Queer Studies Minor

The Queer Studies minor is an interdisciplinary program that draws together courses in the College of Liberal Arts and Sciences, the College of Fine, Performing, and Communication Arts, the College of Education, and the School of Social Work. The minor is designed for students with a wide range of backgrounds who are interested in deepening their knowledge about queer genders and sexualities and the tools and methods used to study them.

The Queer Studies minor is comprised of a minimum of 18 credits. All coursework must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Code	Title	Credits
Required Foundation Course		3
GSW 2100	Introduction to Queer Studies	
Required Upper Level Course ¹		3
GSW 5200	Feminist, Gender, and Queer Theory or GSW 530C Topics in LGBTQ Studies	
At least two additional courses in Queer Studies ²		6
GSW/COM 3240	Queer Film and Media	
ENG 5035	Topics in Gender and Sexuality Studies	
PHI 5260	Philosophy of Sex and Gender	
PSY 3380	Human Sexuality	
SOC/PH 3900	LGBTQ Health	
TED 5400	Topics in LGBTQ+ Studies in Education	
At least 2 elective courses in Gender and Sexuality		6
AFS 5110	Black Women in America	
COM 4041	Rhetoric and the Body	
COM 5360	Gender and Communication	
CRJ/GSW 2650	Gender and Crime	
PS 3080	Gender and Politics	
PSY 3250	Psychology of Gender	
SOC 2202	Gendered Worlds	

SOC 4202	Seminar in the Sociology of Gender
SW 3110	Diversity, Oppression and Social Justice

Total Credits **18**

- ¹ Students who take one of these upper-level courses to meet the requirement can count the second towards their additional course in queer studies requirement.
- ² After the 6 credit requirement has been met, courses from this category can also be counted toward the elective requirement.

History

Office: 3094 Faculty/Administration Building; 313-577-2525

Acting Chairperson: Eric Ash

<https://clas.wayne.edu/history> (<https://clas.wayne.edu/history/>)

Why study history? Because it is a vital way to understand the world we live in and how it came to be. Historians explore the past, in all its diversity and complexity, by looking at cause and effect, investigating change, and examining human agency.

History is far from being just about memorizing “names and dates.” The 21st century is a complicated place. Change comes fast and happens continually. The skills and tools we use in studying the past can also help us to make sense of our rapidly changing world and to find our place within it. Knowing our history is about knowing ourselves!

Studying History also gives students the tools they need to succeed in the future. An education in history promises an array of versatile and valuable skills that employers in many fields are looking for. History students at Wayne State conduct exciting research in archives, in Detroit and across the world. They learn to evaluate and interpret evidence, think critically, and communicate clearly and persuasively. They have opportunities to intern at museums and archives and to showcase their research at conferences and in public exhibits. They work with our department’s award-winning faculty, who bring their cutting-edge scholarship on race, gender, economics, labor, colonialism, citizenship, culture, science, family networks, the environment, and so much more into the classroom. Many students pair their History education with double-majors and minors in a range of other disciplines such as anthropology, biological sciences, English, and political science. That interdisciplinary grounding combined with critical analysis, which lies at the heart of historical inquiry, prepares students for a host of different careers.

History at Wayne State opens doors! Our alumni have put their talents and skills to use in a range of professions, including in business, education, museums, public policy, intelligence, the nonprofit sector, publishing, and tourism. A history degree also provides a strong foundation for graduate work in the social sciences and humanities, and for professional programs in law and medicine.

Why study history? Because it is a vehicle for understanding the present, making the world a better place, and acquiring valuable skills that translate directly to successful and rewarding careers. Those are not the only reasons, though; studying history is fun, intellectually stimulating, and always rewarding!

- History (B.A.) (p. 276)
- History Minor (p. 277)
- History of Science, Technology, Environment, and Medicine Minor (p. 278)
- Public History Minor (p. 278)
- Society and the Environment Minor (p. 278)

History (B.A.)

A bachelor’s degree in history promises not just a knowledge of the past, but also an array of versatile and valuable skills that employers in many fields are looking for. History students at Wayne State conduct exciting research in archives, in Detroit and across the world. They learn to evaluate and interpret evidence, think critically, and communicate clearly and persuasively. They have opportunities to intern at museums and archives and to showcase their research at conferences and in public exhibits. Many students pair their History education with double-majors and minors in a range of other disciplines such as anthropology,

biological sciences, English, and political science. That interdisciplinary grounding combined with critical analysis, which lies at the heart of historical inquiry, prepares students for a host of different careers. Our alumni have put their talents and skills to use in a range of professions, including in business, education, museums, public policy, intelligence, the nonprofit sector, publishing, and tourism. A history degree also provides a strong foundation for graduate work in the social sciences and humanities, and for professional programs in law and medicine.

Located in the heart of Detroit’s Cultural Center, Wayne State is the ideal place to study history! Detroit’s rich local history and world-class archives offer an unparalleled opportunity to learn about our city’s storied past and examine the complex political, social, and cultural history of the United States. Courses on Europe, Asia, Africa, Latin America, and the Middle East – as well as WSU’s study abroad programs – encourage students to explore the world. Undergraduate courses are taught by world-renowned and award-winning faculty who are experts in their fields. Our program emphasizes both rigorous scholarship and public engagement. All of our students have opportunities to conduct original research, develop cutting-edge digital skills, and gain hands-on experience through internships.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Career Considerations

Law and the LawStart program

History is a common major for students interested in pursuing a law degree. Students interested in Law are encouraged to consider the LawStart program, which allows students to combine work on the B.A. and J.D. in the fourth year, saving a year in earning both degrees.

Non-Profit Management of Historical Agencies

Many history majors pursue careers in public history or in business and industry. A minor in business administration can help prepare majors for managing non-profit historical agencies as well as serve as background for an M.B.A. program.

Pre-Med Curriculum

With the current shift toward STEM disciplines, students are finding that combining a major in History may give their med school applications a second look by providing a more well-rounded undergraduate experience. Students interested in attending medical school are encouraged to look into the MedStart Program.

Teaching History at the High School Level

Majors who are interested in teaching History to teens rather than adults often pursue a B.A. in history and an M.A.T. through the College of Education. Students may need a provisional certificate to teach while earning their graduate education degree, depending on the setting.

Archives, Museums, and Libraries

Many of our alumni are employed as archivists, museum curators, or librarians in historical collections. Wayne State offers a nationally-recognized graduate certificate in Archival Administration, which can be undertaken on its own or in conjunction with a master’s in History or a master’s in Library and Information Science.

Continuing on in History

Undergraduate majors in History are often looking forward to graduate studies and becoming a professional historian, doing research and teaching in a university setting. Student pursuing this option should be aware that an overall GPA of at least a 3.00 and a major GPA of at least 3.25 is required to be competitive for admission to graduate school. Students who intend to complete an M.A. at Wayne State before moving to another institution for the Ph.D. are encouraged to undertake the

AGRADE program, which allows majors to double-count up to 16 hours of undergraduate coursework for their graduate degree.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

Students must complete thirty-six credits in History (which may include a maximum of 18 transfer credits). Specific requirements are as follows:

Code	Title	Credits
Survey Courses (select one from each of two different geographic regions)		
Europe		
HIS 1000	World Civilization to 1500	
HIS 1300	Europe and the World: 1500-1945	
HIS 1400	The World Since 1945	
HIS 1995	Nature and Societal Transitions	
HIS 2605	History of Women, Gender and Sexuality in the Modern World	
United States		
HIS 1050	History of the Headlines: United States Since World War II	
HIS 2040	American Foundations to 1877	
HIS 2050	Modern America: Since 1877	
World		
HIS 1600	African Civilizations to 1800	
HIS 1610	African Civilizations Since 1800	
HIS 1700	East Asia to the 1700s	
HIS 1710	History of Modern East Asia	
HIS 1900	History of Colonial Latin America	
HIS 1910	Latin America from Independence to the Present	
HIS 3000	The Historian's Craft	3
Advanced Courses		18

Select five History courses numbered 3001 or above, with at least 3 courses numbered above 5000. Special courses do not count for this requirement (excludes HIS 4990, HIS 4997, and HIS 5996). Of these 5 courses, students must include diversity in geographic content by including one course in each geographic region (Europe, United States, World).

Chronological Distribution

Within the work done to fulfill the survey sequence and the advanced coursework, two courses must be in the pre-1800 time period and two courses must be in the post-1800 time period so that every major has research experience with pre- and post-industrial history.

HIS 5996	Junior or Senior Research Seminar	3
-----------------	--	----------

Additional History courses as needed to reach 36 total hours in the major.

History Honors (B.A. Program)

Students contemplating advanced degrees in History are encouraged to obtain the B.A. with Honors in History. Honors majors must complete the following in addition to the normal major requirements, above:

Code	Title	Credits
Cumulative GPA of a 3.30, and a major GPA of 3.50		
15 credits in honors-designated coursework, including:		
HON 4250	Seminar: Global Perspectives on Historical Studies	
6 credits in honors-option courses in History which are numbered above 3000		
One additional honor course in any discipline		
HIS 5995, the History Honors Seminar, which is taken after the completion of HIS 5996. Typically, students will begin their senior thesis in HIS 5996 and complete it in HIS 5995. This thesis will be directed by two regular faculty members; the student will also defend the thesis before them.		

History AGRADE Requirements

The History department's M.A. and M.A.P.H. degrees both offer the College of Liberal Arts and Sciences' Accelerated Graduate Enrollment (AGRADE) program to qualified undergraduates. AGRADE provides the opportunity for top students to enroll simultaneously in an undergraduate and graduate degree program, and to apply a maximum of 16 credits toward both their undergraduate and master's degrees in the student's major or closely aligned field.

Students electing AGRADE programs may expect to complete both their bachelor's and master's degrees in only five years of full-time study. This allows students to save both time and money as they pursue their undergraduate and graduate degrees simultaneously, making the most of their experiences at Wayne State. Students must apply for the AGRADE program during the semester that they earn 90 credits toward an undergraduate degree (typically during junior year). Applicants must have a minimum cumulative GPA of 3.3 and final approval from their major department. In addition, the Department of History requires the following materials for application to AGRADE:

- completion of the WSU History AGRADE application; a copy of the student's unofficial transcript(s);
- a copy of the student's HIS 3000 paper or another paper based on primary source research;
- a one-page single-spaced letter of interest that conveys clearly and concisely the student's proposed area(s) of study, including period, region, topic, and/or approach, tentative career goals, and the faculty member(s) with whom the student would like to work and why;
- a letter of recommendation from a faculty member (the faculty member should email their recommendation directly to the Director of Graduate Studies).

More information about AGRADE is available through CLAS (<https://clas.wayne.edu/programs/accelerated-graduate-enrollment/#grad-status>).

History Minor

A minor in history promises not just a knowledge of the past, but also an array of versatile and valuable skills that employers in many fields are looking for. History students learn to evaluate evidence, think critically, and communicate clearly and persuasively. The History minor is a great choice for any student with an interest in studying the past, whatever their future career goals, and it is an especially good match

for majors in fields such as Sociology, Anthropology, Political Science, English, or a foreign language.

Located in the heart of Detroit's Cultural Center, Wayne State is the ideal place to study history! Detroit's rich local history and world-class archives offer an unparalleled opportunity to learn about our city's storied past and examine the complex political, social, and cultural history of the United States. Courses on Europe, Asia, Africa, Latin America, and the Middle East – as well as WSU's study abroad programs – encourage students to explore the world. Undergraduate courses are taught by world-renowned and award-winning faculty who are experts in their fields. Our program emphasizes both rigorous scholarship and public engagement. All of our students have opportunities to conduct original research, develop cutting-edge digital skills, and gain hands-on experience through internships.

The minimum requirement for a minor in history is eighteen credits of history coursework, of which a maximum of nine credits can be transferred from other institutions. Minors must also have a 2.00 g.p.a. in history courses and complete:

Code	Title	Credits
HIS 3000	The Historian's Craft	3
At least six credits in courses numbered 3000 or above		6
Additional History courses as needed		9
Total Credits		18

History of Science, Technology, Environment, and Medicine Minor

The minor in History of Science, Technology, Environment, and Medicine aims to provide science majors as well as social science and humanities students with an interdisciplinary foundation in the history of science, environment, and medicine. The minor requires the completion of 18 credits.

Code	Title	Credits
Core Courses		6
HIS 1995	Nature and Societal Transitions	
HIS 3585	Science, Technology, and Society	
Elective Courses		12
Historical Studies (minimum 6 credits; maximum 12 credits)		
HIS 2510	Science, Technology, and War	
HIS 3440	American Medicine in the Twentieth Century	
HIS 5407	The Scientific Revolution	
HIS 5540	World Environmental History since 1900	
Cognate Courses (maximum 6 credits)		
ANT 3400	Introduction to Medical Anthropology	
ANT 3410	Global Health	
ANT 5140	Biology and Culture	
ECO 5230	Environmental Economics	
PH 3500	Environmental Health	
PHI 1130	Environmental Ethics	
PHI 2140	Ancient Greek Medicine and Psychology	
PHI 2550	Introduction to Philosophy of Science	
PHI 2650	Minds and Machines	
PS 3450	Environmental Policy and Politics	
SOC 4205	Seminar in Medical Sociology	
Total Credits		18

Public History Minor

A student pursuing a Public History minor must complete a minimum of eighteen credits, including the following:

Code	Title	Credits
Core Courses		6
HIS 3000	The Historian's Craft	
HIS 4997	Internship in Public History	
Elective courses ¹		12
Total Credits		18

¹ Students must take at least four additional History courses numbered 3000 or above for a minimum of twelve credits; at least one of these courses must require students to produce an original research project (in a typical semester, several courses will fulfill this requirement, and students can determine which courses do so in consultation with the Academic Advisor and/or Director of Undergraduate Studies). Students are especially encouraged to take HIS 4993 (HistComm) and/or HIS 4994 (Digital History Seminar) if they are offered.

Society and the Environment Minor

The Society and the Environment minor provides students with a fundamental understanding of the impact of humans on the environment through exposure to principles of ecology and related sciences, as well as insights derived from a variety of social science and humanities disciplines.

The Society and Environment minor requires a minimum of 18 credits.

Code	Title	Credits
Required Courses		6-7

UP 5430	Cities and Food	
US 2000	Introduction to Urban Studies	
Total Credits		18-21

Law Programs

The Law School has partnered with the College of Liberal Arts and Sciences to offer undergraduate students the opportunity to begin studies in law through the programs listed below.

- Law (B.A.) (p. 279)
- Law Minor (p. 280)
- LawStart Program (p. 281)

Law (B.A.)

The Bachelor of Arts (B.A.) degree in Law provides a distinctive, interdisciplinary program for those with an interest in law. Students will emerge with a strong foundation in law, critical thinking and writing, ethics, political and legal theory, and legal and justice systems that will make them competitive for innovative and emerging employment opportunities in a variety of fields and industries or for pursuing graduate studies, potentially including law school. Moreover, this program will build on the distinctive training associated with law school combined with the expertise of Wayne State's liberal arts programs to promote informed, well-rounded, and civic-minded undergraduates who will be well-prepared to be the leaders of the future.

Admissions Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the Departmental major requirements cited below.

All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees. A maximum of three courses for the major may be at the 1000-level.

Code	Title	Credits
Required LEX Courses		
Students must have junior status to enroll in LEX courses.		
LEX 5000	Law in Social Context	3
LEX 5010	Law and Harm	3

Law Minor

Through a partnership between the College of Liberal Arts and Sciences and the Law School, undergraduate students can earn a minor in law. This includes special undergraduate courses taught by Law School faculty. Students should visit the CLAS website (<https://clas.wayne.edu/programs/law-minor/>) for more information.

The minor in law requires a minimum of 19-20 credits.

Code	Title	Credits

LawStart Program

Director: Eun-Jung Kim,
<https://clas.wayne.edu/lawstart> (<https://clas.wayne.edu/lawstart/>)

Housed within the College of Liberal Arts and Sciences, the Wayne State University LawStart Program helps highly-qualified undergraduates to complete their General Education, College, and Major requirements within approximately three years, or 90-100 undergraduate credits. Students will then apply to enter Wayne State Law School for their fourth year of undergraduate education. Credits earned during the first year of law school will double-count to fulfill students' remaining undergraduate elective credit requirements. Students in the LawStart Program who are admitted to Wayne Law will receive the Bachelor's degree upon successful completion of all first-year law courses, normally at the end of the fourth year. They will receive the JD degree upon completion of all Law School coursework and other requirements, normally at the end of the sixth full-time year.

Students are eligible to apply to LawStart if they have completed between 24 and 64 credit hours, with a minimum of 24 credits hours being completed at Wayne State University. To qualify for admission to the LawStart program, students must be majoring in a subject in the College of Liberal Arts and Sciences, and must have a cumulative GPA requirement of 3.5 or better in college-level coursework. LawStart application materials also include a personal statement about future career goals, a resume, a graded writing sample from a college-level course, and 2-4 letters of recommendation. A LawStart selection committee may also require an interview for those students who make it to the final selection round.

Students will be accepted to the LawStart Program each fall semester, and application deadlines are in early Fall.

Once accepted into the LawStart program, students must:

- Maintain satisfactory progress toward completing their undergraduate coursework in three years, or by the time they reach 90-100 undergraduate credits.
- Maintain a cumulative GPA of at least 3.5 on a 4.0 scale. If students do not make satisfactory progress for two consecutive semesters, they may be removed from the LawStart program.
- Meet with a member of the Wayne Law admissions staff in November of the third year of undergraduate study, to receive information about the law school application process.
- Take the LSAT no later than midway through their third year of undergraduate study and apply for Wayne State Law School admission by no later than April 1st of the same year.
- Meet with the LawStart advisor at least once a semester, to ensure satisfactory progress toward LawStart program requirements.
- Meet with a departmental advisor at least once a semester, to ensure satisfactory progress toward completing their required undergraduate coursework.
- Participate in LawStart enrichment activities to ensure their preparedness for law school.

Any student failing to meet these program requirements may be removed from the LawStart program at the discretion of the LawStart selection committee. Any student removed or who withdraws from the program will need to complete their final year of undergraduate studies and any remaining requirements in order to attain the bachelor's degree.

In order to earn a bachelor's degree, LawStart students must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements. Acceptance to the LawStart program does not commit students to completing the JD degree. If a student is admitted to and enrolls in Wayne State Law School, he or she will receive a JD degree after completing all JD degree requirements equivalent to three years of full-time law school.

Latino/a and Latin American Studies

Office: 3326 Faculty Administration Building; 313-577-4378; Fax: 313-993-4073

Director: Jorge L. China

Associate Director for Student Services and Program Administration: Melissa Miranda Morse

CBS Scholars Program Coordinator: Estenia Elisevich

College to Career Program Coordinator: Micheline Silva

<https://clas.wayne.edu/programs/latino-studies> (<https://clas.wayne.edu/programs/latino-studies/>)

Mission

The Center for Latino/a and Latin American Studies strives to promote equitable access to a quality university education to students interested in Latino/a and Latin American cultural studies, and to enhance diversity on the campus. The Center accomplishes its mission through a four-part program in:

1. student services;
2. research in the field of Latino/a and Latin American Studies;
3. internal University advocacy on Latino/a perspectives; and,
4. outreach to the Latino/a and larger off-campus communities.

The research and teaching specializations of the faculty associated with the Center are Mexican history, Caribbean studies, Latin American literature, United States Latino/a studies and student learning strategies in higher education.

Student Success Programs

Latino/a Studies' comprehensive student services are based on a leadership development and an academic self-empowerment model. The Center hosts an annual Academia del Pueblo Research Conference and offers three distinct comprehensive student success programs:

- the Summer Enrichment Program (SEP), currently funded by DTE Energy;
- the Chicano-Boricua Studies (CBS) Scholars Program, a WSU learning community, which continues to bear the previous name of the Center in honor of its alumni as well as the many contribution of its former faculty and staff; and,
- the College to Career (C2C) Program, a second WSU learning community, which is designed to prepare graduating students for post-baccalaureate/professional degrees and future careers

Students in good standing who are enrolled in these programs may be eligible for supplemental financial support through the WSU Office of Financial Aid, the John Helfman Latino en Marcha (LEM) Grant, the Wiese-Rometsch Scholarship and the Cynthia Estrada Labor and Social Justice Award.

- Latino/a and Latin American Studies (Co-Major) (p. 282)
- Latino/a and Latin American Studies Minor (p. 282)

Latino/a and Latin American Studies (Co-Major)

Completion of the Center's Co-Major Program leads to a co-major degree in the field of Latino/a and Latin American Studies. This multidisciplinary program of study is designed to strengthen the career preparation of students in all majors who plan to work in national and international multicultural environments where knowledge about Latin America, the Caribbean, Latino/a Studies, and multicultural diversity would be a

valuable asset. Completion of the co-major is noted on the student's transcript. Students submit a Declaration of Major Form at the beginning of their junior year.

Co-Major Requirements

Students must complete fifteen credits in the following core courses and a minimum of eighteen credits from the list of elective courses. Appropriate courses may be substituted with the prior approval of the Center's Director.

Code	Title	Credits
Core Courses		
Select five of the following:		15
LAS 2100	Chicano/a Literature and Culture	
LAS 2110	Puerto Rican Literature and Culture	
LAS 2410	History of Mexico	
LAS 2420	History of Puerto Rico and Cuba	
LAS 2430	History of Latino/as in the United States	
LAS 3610	Seminar in Latino/a Urban Problems	
Elective Courses		
Select eighteen credits of the following:		18
ANT 3220	The Inca and their Ancestors	
ANT 3540	Cultures and Societies of Latin America	
PS 3735	Politics of Latin America	
SPA 4630	Introduction to Colonial Latin American Literature	
or SPA 4640	Introduction to Modern and Contemporary Latin American Literature	
SPA 5560	Spanish American Cultures and their Traditions	
SPA 6600	Colonial Latin American Studies	
SPA 6610	Latin American Novel to 1900	
SPA 6620	Latin American Novel in the 20th and 21st Centuries	
SPA 6630	Spanish American Poetry	
Total Credits		33

Latino/a and Latin American Studies Minor

The Center's minor in Latino/a and Latin American Studies was created for all WSU students wishing to pursue a formal course of studies in U.S. Latino/a and Latin American cultural studies. It requires six courses for a minimum of eighteen credits. Students desiring to minor in Latino/a and Latin American Studies students must complete:

Code	Title	Credits
Introductory LAS research course		
LAS 1420	Introduction to Interdisciplinary Latino/a Studies Research	3
LAS core courses

Total Credits		18-19

Linguistics

Office: Room 10303, 5057 Woodward; 313-577-8642

e-mail: linguistics@wayne.edu

Director: Haiyong Liu

<https://clas.wayne.edu/linguistics> (<https://clas.wayne.edu/linguistics/>)

Linguistics is devoted to the scientific study of language structure and use. The Linguistics Program at Wayne State offers an interdisciplinary approach to this field, permitting students to explore a wide range of topics and issues in language research. The core courses are offered on a regular basis. The program offers electives in the following areas:

1. linguistics and a language,
2. language structure,
3. language variation and change,
4. language acquisition and processing, and
5. sociolinguistics and discourse/pragmatics.

Training in linguistics prepares students for advanced work in linguistic research, as well as for employment in teaching English and foreign languages; computer systems (especially natural language processing); broadcasting, mass media and journalism; publishing and editing; translation; international business; intercultural communication and negotiation; law; and generally any profession requiring the precise use or analysis of speech or writing.

The Linguistics Program is administered by a director and an advisory committee of participating faculty who regularly teach courses for the program.

- Linguistics (B.A.) (p. 283)
- Linguistics Minor (p. 285)

Linguistics (B.A.)

Linguistics is devoted to the scientific study of language structure and use. The Linguistics Program at Wayne State offers an interdisciplinary approach to this field, permitting students to explore a wide range of topics and issues in language research. Training in linguistics prepares students for advanced work in linguistic research, as well as for employment in teaching English and foreign languages; computer systems (especially natural language processing); broadcasting, mass media and journalism; publishing and editing; translation; international business; intercultural communication and negotiation; law; and generally any profession requiring the precise use or analysis of speech or writing.

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees. Course selections are to be planned in consultation with the linguistics program advisor. Students must complete a minimum of thirty credits in course work to satisfy the major requirements as outlined below.

Required Courses

The linguistics major requirements consist of:

- three required general courses;
- one required language use course involving either the analysis of speech data acquired in fieldwork or theories that address language use; and
- a set of electives.

Also, in the senior year, majors must register for and complete LIN 5993, Writing Intensive Requirement (0 credits). This course is to be taken in conjunction with another course, as explained under Linguistics Courses. In the final semester of study, assessment of knowledge in the major is determined by review of a student portfolio and by an exit interview conducted by members of the faculty. Both the portfolio and the interview must be deemed acceptable before the Program will certify completion of all major requirements.

Code	Title	Credits

ANT 5210	Anthropological Methods	4
PSY 2030	Statistical Methods in Psychology	4

¹ A maximum 12 credits may be earned in LIN 6720 predicated on topic selection.

Linguistics Honors Program

Students with an overall grade point average of 3.5 are eligible for admission to the Linguistics Honors Program. Satisfactory completion of the Honors Program will lead to a degree "with Linguistics Honors" on the diploma. Students interested in the program should obtain detailed information from the Linguistics Program Undergraduate Advising Office.

Students must complete one 5000-level or above Honors Option course as part of the major requirements, the Linguistics Honors Thesis (LIN 5993-H with approved LIN Writing Intensive course), one Honors Seminar from the HON 42XX series, and three additional Honors credits through any department to thereby complete the minimum twelve required Honors credits.

'AGRADE' Program (Accelerated Graduate Enrollment)

The Linguistics Program invites academically superior majors to apply for admission to the 'AGRADE' Program. 'AGRADE' procedures enable qualified seniors to enroll simultaneously in the undergraduate and graduate programs in Linguistics and to apply a maximum of sixteen credits toward both a bachelor's and a master's degree.

Qualified students may apply for the AGRADE program no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average of 3.5 and not less than a 3.6 grade point average in the major courses already completed.

For more details about the 'AGRADE' Program, contact the Linguistics Program office: 313-577-8642; or by e-mail at: linguistics@wayne.edu

Linguistics Minor

A minor consists of four required courses and two additional courses in the Linguistics program. The required courses are:

Code	Title	Credits
LIN 5290	Phonology	3
LIN 5300	Syntax	3
LIN 2720	Basic Concepts in Linguistics	3
or LIN 5700	Introduction to Linguistic Theory	
One language use course ¹		3
Total Credits		12

¹ As specified under required courses for the Bachelor of Arts (p. 283).

Programs should be planned in consultation with an advisor.

Mathematics

Office: 1150 Faculty/Administration Building; 313-577-2479

Chairperson: Hengguang Li

<https://clas.wayne.edu/math/>

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

- Actuarial Mathematics (B.A.) (p. 288)
- Mathematical Economics (B.A.) (p. 289)
- Mathematics (B.A.) (p. 290)
- Mathematics (B.S.) (p. 292)
- Statistics (B.S.) (p. 294)
- Mathematics Minor (p. 295)
- Statistics Minor (p. 296)
- Advanced Courses for Non-Majors (p. 287)

Mathematics Placement Information

For details on Mathematics course placement, please see the Mathematics Placement Information (<http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/mathematics/placement/>) section of this bulletin, or the Mathematics Placement Exam (<http://testing.wayne.edu/register/math-placement-exam.php>) information provided by the Office of Testing, Evaluation and Research Services.

Multiple Majors, Degrees, and Minors within the Mathematics Department

Multiple Majors or Degrees

If a student wishes to complete more than one major or degree within the Mathematics Department (e.g. majors in Mathematics, Actuarial Mathematics, or Statistics), then each major must have at least 3 unique mathematics or statistics (MAT or STA) courses. This means that at least 3 MAT or STA courses used for each major/degree cannot be used for the other major(s)/degree(s). This includes courses from other departments that are approved by the Mathematics Department to meet a major requirement. Note that university policy states that double majors must either be both Bachelor of Arts or both Bachelor of Science majors. They cannot be one of each. For example, students can elect to do a double major which includes a BA in Actuarial Mathematics and a BA in Mathematics, but they cannot elect to do a double major which includes a BS in Statistics and a BA in Mathematics. On the other hand, students can do a double degree in any configuration they choose.

The Mathematical Economics major is a major jointly administered by the Mathematics Department and the Economics Department and it therefore follows a different set of guidelines. If a student wishes to major in Mathematical Economics and another major or majors within the Mathematics Department, the Mathematical Economics major must include one unique MAT or STA course that is not being used for the other major(s). This includes courses from other departments that are approved by the Mathematics Department to meet a major requirement.

Majors and Minors

If a student wishes to pursue at least one major and a minor, or two minors, within the Mathematics Department, there must be at least one unique course for each minor. This means that at least one MAT or STA course used for each minor cannot be used for the other minor or major(s). This includes courses from other departments that are approved by the Mathematics Department to meet a major requirement. Students cannot major and minor in Mathematics, nor can they major and minor in Statistics.

Secondary Mathematics Teaching

An excellent option for students who would like to become secondary mathematics teachers is to complete any of the mathematics major concentrations or the B.S. in Statistics, along with teacher certification requirements. Please see a Mathematics Department advisor for more details.

Emerging Scholars Program

The Emerging Scholars Program is a special honors program at the levels of MAT 1800, MAT 2010, and MAT 2020, that features collaborative learning through a challenging corequisite problem-solving workshop attached to the lecture section. Note that students need not be enrolled in the Honors College to take these courses. Each ESP calculus course (MAT 2010 and MAT 2020) carries four honors credits, however, MAT 1800 does not offer honors credits. The Emerging Scholars Program seeks dedicated, hard-working students who want to excel in mathematics. Students who place into the level below MAT 1800 are encouraged to enroll in the Rising Scholars Program sections of MAT 1070 and/or MAT 0993 depending on placement, as preparation for the program. Contact the Emerging Scholars Program at emergingscholars@wayne.edu for further information.

AGRADE Program (Accelerated Graduate Enrollment)

Our AGRADE program provides the opportunity for top students to enroll simultaneously in an undergraduate and graduate program. Students can apply a maximum of 16 credits toward both an undergraduate and a graduate degree in the student's major field. Students electing AGRADE programs may expect to complete the bachelor's and master's degrees in five years of full-time study if they take full advantage of the program. There is a GPA requirement and students must apply to the program and complete a plan of work for the masters degree with the masters advisor. For more details about the AGRADE program, email mathgrad@wayne.edu, or visit the Graduate Office of the College of Liberal Arts and Sciences website (<https://clas.wayne.edu/programs/accelerated-graduate-enrollment/>).

Senior Rule

In their last undergraduate semester, Wayne State students with a 3.0 (or above) upper division grade point average have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree course work. For more information look under Graduate Admissions (<http://bulletins.wayne.edu/graduate/general-information/admission/>) in the Graduate Bulletin or email mathgrad@wayne.edu.

Mathematics Placement Information

All students, including transfer and guest students, who plan to take MAT 1070, MAT 1110, MAT 1120, MAT 1800, or MAT 2010 as their first mathematics course at Wayne State must:

1. have a satisfactory ACT or SAT Math score (see below) that has been validated by the Testing Office OR
2. take the Mathematics Placement Assessment.

Results of the Mathematics Placement Assessment (MPA) and/or the ACT or SAT Math score to determine the course into which the student is placed consistent with the following:

MAT 1070: Students qualify by having achieved one of the following:

1. a satisfactory score on the Mathematics Placement Assessment within the previous year (See the Testing website (<http://testing.wayne.edu>) for more details),
2. a grade of CNC or above within the previous year in MAT 0993 taken at WSU
3. a validated ACT Math score of 21 or higher within the previous two years (See the Testing website (<http://testing.wayne.edu>) for more details)
4. a validated SAT score of 500 (old version) or 530 (new version) or higher within the previous two years (See the Testing website (<http://testing.wayne.edu>) for more details)

For placement at this level, students should have a command of numerical and beginning algebra concepts and techniques corresponding approximately to one year of high school algebra.

MAT 1110: Students qualify by having achieved one of the following within the previous year:

1. a satisfactory score on the Mathematics Placement Assessment within the previous year (See the Testing website (<http://testing.wayne.edu>) for more details)
2. a grade of at least C- within the previous year in MAT 1070 taken at WSU
3. a validated ACT Math score of 26 or higher within the previous two years (See the Testing website (<http://testing.wayne.edu>) for more details)
4. a validated SAT Math score of 600 (old version) or 620 (new version) or higher within the previous two years (See the Testing website (<http://testing.wayne.edu>) for more details)

For placement at this level, students should have a command of algebra and basic geometry, corresponding approximately to three years of college-preparatory mathematics.

MAT 1120: Students qualify by having achieved one of the following:

1. a satisfactory score on the Mathematics Placement Assessment within the previous year (See the Testing website (<http://testing.wayne.edu>) for more details)
2. a grade of at least C- within the previous year in MAT 1110 taken at W.S.U.
3. a validated ACT Math score of 26 or higher within the previous two years (See the Testing website (<http://testing.wayne.edu>) for more details)
4. a validated SAT Math score of 600 (old version) or 620 (new version) or higher within the previous two years (See the Testing website (<http://testing.wayne.edu>) for more details)

MAT 1800: Students qualify by having achieved one of the following:

1. satisfactory score on the Mathematics Placement Assessment within the previous year (See the Testing website (<http://testing.wayne.edu>) for more details)
2. a grade of at least C- within the previous year in MAT 1070 taken at W.S.U.

- a validated ACT Math score of 26 or higher within the previous two years (See the Testing website (<http://testing.wayne.edu>) for more details)
- a validated SAT Math score of 600 (old version) or 620 (new version) or higher within the previous two years (See the Testing website (<http://testing.wayne.edu>) for more details)

For placement at this level, students should have a command of algebra and basic geometry, corresponding approximately to three years of college-preparatory mathematics.

MAT 2010: Students qualify by having achieved one of the following:

- a satisfactory score on the Mathematics Placement Assessment within the previous year (See the Testing website (<http://testing.wayne.edu>) for more details)
- a grade of at least C- within the previous year in MAT 1800
- a validated ACT Math score of 29 or higher within the previous two years (See the Testing website (<http://testing.wayne.edu>) for more details)
- a validated SAT Math score of 650 (old version) or 670 (new version) or higher within the previous two years (See the Testing website (<http://testing.wayne.edu>) for more details)

For placement at this level, students should have a command of algebra, geometry, trigonometry, and elementary functions corresponding approximately to four years of college-preparatory mathematics.

Mathematics Placement Assessment: The MPA must be taken before classes begin for the semester in which you plan to take the course. Any student who does not place into a MAT course using an ACT or SAT Mathematics score as described above must take the MPA to determine MAT (mathematics) or STA (statistics) course placement. Students are also welcome to take the MPA if they have taken the ACT and/or SAT and would like to attempt to place into a higher course. Students should enroll in the course they are placed into the first time they take the assessment. However, all students may use the review material from the ALEKS program used for the assessment and try again. An assessment placement is only good for the following 3 semesters after it was taken, so students should register for a course they placed into within that time frame. Visit the Testing website (<http://testing.wayne.edu>) for further information on assessment procedures and placement.

Advanced Courses for Non-Majors

Because of the fundamental role that mathematics plays in all types of scientific and technical endeavor, the advanced course offerings of the Mathematics Department must serve a group considerably larger than those preparing for a career in mathematics exclusively.

Economics, Business Administration and Computer Science

The following basic subjects are recommended to master's degree candidates as preparation for work in their profession; they also provide a solid background for students who intend to pursue doctoral studies after completion of the master's program:

Code	Title	Credits
Numerical Methods		
MAT 5100	Numerical Methods I	3
MAT 5110	Numerical Methods II	3
Algebra		
MAT 5420	Algebra I	4
Operations Research		

MAT 5770	Mathematical Models in Operations Research	3
Probability Theory		
MAT 5700	Introduction to Probability Theory	4
Statistical Methods, Applied Time Series and Design of Experiments		
STA 5800	Introduction to Mathematical Statistics	4
STA 5830	Applied Time Series	3

Engineering and Physical Applications

The Mathematics Department has several sequences in applied mathematics that provide experienced engineers and scientists from industry and government the means to acquire and maintain the technical competence needed to work at the frontiers of their fields (for additional courses to those listed below, see the Graduate Bulletin):

Code	Title	Credits
Numerical Methods		
MAT 5100	Numerical Methods I	3
MAT 5110	Numerical Methods II	3
Applied Analysis		
MAT 5220	Partial Differential Equations	4
MAT 5230	Complex Variables and Applications	4
Probability Theory and Random Processes		
MAT 5700	Introduction to Probability Theory	4
Differential Geometry		
MAT 5530	Elementary Differential Geometry and its Applications	3

Students who feel that they eventually would like to pursue mathematical studies beyond the level of the above sequences should make every effort to take the mathematics sequences that begin with MAT 5600, and MAT 5420, respectively, and MAT 6600. These courses will help them to understand and work with abstract concepts in advanced courses.

Statistics

Students requiring only an introduction to basic statistics are referred to STA 1020 or STA 2210. Those whose work demands a good foundation in mathematical statistics are referred to MAT 5700 and STA 5800. STA 5830 is useful for students interested in applied statistics.

In addition to the interdepartmental course listed below, specialized courses in statistics are offered by individual departments:

Code	Title	Credits
ECO 5100	Introductory Statistics and Econometrics	4
ECO 6100	Introduction to Econometrics	4
MAT 5700	Introduction to Probability Theory	4
PSY 2030	Statistical Methods in Psychology	4
STA 2210	Probability and Statistics	4
STA 6830	Design of Experiments	3

Actuarial Mathematics (B.A.)

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (<http://bulletins.wayne.edu/undergraduate/general-information/admission/>) to the University. Undergraduates declaring a mathematics major are strongly encouraged to meet with a departmental advisor before doing so. After a student's acceptance as a major, a student should consult a Departmental advisor at least once a semester to verify progress.

Program Requirements

Students must complete 120 credits in coursework including satisfaction of the University General Education Requirements (<http://bulletins.wayne.edu/undergraduate/general-information/general-education/>) and the College of Liberal Arts and Sciences Group Requirements (<http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/bachelors-degree-requirements/>), as well as the departmental major requirements cited below. All coursework must be completed in accordance with the regulations of the University (<http://bulletins.wayne.edu/undergraduate/general-information/academic-regulations/>) and the College (<http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/academic-regulations/>) governing undergraduate scholarship and degrees.

It is each student's responsibility to learn the requirements, policies, and procedures governing the program the student is following and to act accordingly. Students should consult the Department of Mathematics' undergraduate academic advisor on a regular basis. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Residency Requirement

A minimum of 15 credits of major requirements at or above MAT or STA 5030 must be taken at Wayne State University. This includes courses that are considered equivalent to the Mathematics Department's MAT or STA courses and that are approved by the Mathematics Department to meet a major requirement.

Minimum Grade Requirements

The following grade requirements must be satisfied in the major.

- C- or better in all required coursework.
- C or better average for all coursework.

Notes

1. STA courses previously designated by MAT (for example STA 2210 was previously labelled MAT 2210) are the same courses and meet the same requirements.

2. Although this policy is found in the College of Liberal Arts and Sciences (CLAS) requirements, it is worth noting that if a student is majoring in a CLAS major, they must obtain at least one minor that has 3 unique courses from the major. This means that at least 3 courses used to

complete requirements in the minor must not be used to complete requirements in the major.

3. The required courses listed are the minimum that students should complete. Students are encouraged to take more courses in order to strengthen their background and enhance their prospects for employment and/or graduate school.

Course Requirements

Code	Title	Credits
Cognate Courses:		
Select one of the following Computer Science options:		3-4
CSC 1100	Problem Solving and Programming	
CSC 2000	Introduction to C++ Programming Language ²	
CSC 2110	Computer Science I	
ECO 2010	Principles of Microeconomics ³	4
ECO 2020	Principles of Macroeconomics ⁴	4
FIN 3290	Business Finance ⁵	3
Cognate Courses - Credit Subtotal:		14-15
Mathematics and Statistics Courses:		
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
MAT 2250	Elementary Linear Algebra	3
Select one of the following two options (MAT 2350 is preferred if available, and is 3 credits rather than 4)		3-4
MAT 2350	Elementary Differential Equations	
MAT 2150	Differential Equations and Matrix Algebra	
STA 5030	Statistical Computing and Data Analysis	3
MAT 5700	Introduction to Probability Theory	4
MAT 5740 & MAT 5993	The Theory of Interest and Writing Intensive Course in Mathematics ¹	3
STA 5800	Introduction to Mathematical Statistics	4
Select two of the following options:		6-7
MAT 5540	Topological Data Analysis	
MAT 5710	Introduction to Stochastic Processes	
MAT 5750	Mathematics of Finance	
MAT 5770	Mathematical Models in Operations Research	
STA 5820	Introduction to Data Science	
STA 5830	Applied Time Series	
STA 6840	Applied Regression Analysis	
MAT 5890	Special Topics in Mathematics (The topic must be approved by the Department of Mathematics)	
ECO 5270	Games of Strategy	
Math and Statistics Courses - Credit Subtotal:		38-40
Major Courses - Credit Total:		52-55

¹ MAT 5993 is linked to MAT 5740. These two courses must be taken simultaneously.

² CSC 2000 is the only option that does not have a computer science course prerequisite.

³ With ECO 2020, this course meets a VEE, if a B- or better is achieved in each course.

⁴ With ECO 2010, this course meets a VEE, if a B- or better is achieved in each course.

⁵ With ACC 3010 (recommended, but not required course) this course meets a VEE, if a B- or better is achieved in each course.

Actuarial Mathematics Career Information

Various Careers

Actuaries measure and manage risk. Students who complete the Actuarial Mathematics program are prepared for a variety of careers, and not just in the actuarial field. Students can expect to work in fields such as insurance, banking, investments, government, energy, e-commerce, marketing, employee benefits, product development, enterprise risk management, predictive analytics, consulting and more.

Actuarial Validation by Educational Experience (VEE) and Recommended Coursework

VEEs are subjects that can be learned through coursework, as well as other methods, that cover content that is no longer on the actuarial exams, but is essential for success as an actuary. In order to achieve higher levels in the actuary field, VEEs are required by the Society of Actuaries and the Casualty Actuarial Society. Wayne State offers many courses that meet VEE requirements, and most of those courses are part of the Actuarial Mathematics major. For instance, ECO 2010 and ECO 2020 meet the Economics VEE, while FIN 3290 and ACC 3010 meet the Accounting and Finance VEE. ACC 3010 (Accounting) is not required for the major, but highly recommended. In addition, statistics courses in the major can meet VEE requirements and the Mathematics Department is working to increase the number that do. Students who receive a minimum of a B- in these courses can receive credit for the associated VEE. See the Society of Actuaries (<https://www.soa.org/>) or the Casualty Actuarial Society (<https://www.casact.org/>) for more about VEEs and be sure to speak with your actuarial major advisor for more information.

Actuarial Exams

In addition to VEEs, there is a series of actuarial exams that allow actuaries to move up in the field and gain credentials. Students who aspire to become actuaries should pass at least the first two actuarial exams and complete the Accounting & Finance and Economics VEEs before getting their first job as an actuary. Although some graduates will find jobs in the actuarial field without these credentials, it is highly recommended that these requirements be met while completing the B.A. in Actuarial Mathematics in order to be best prepared for employment after graduation. It is also recommended that at least one exam is passed before getting an internship in the actuarial field. Exams can be found through the Society of Actuaries or the Casualty Actuarial Society. Although they each have their own set of exams, they are very similar, and prospective actuaries can choose either organization to complete their exams.

Mathematical Economics (B.A.)

The purpose of the program is to provide rigorous training in mathematics and economics for students whose career goals require a high level of technical proficiency in these subjects. The program will be valuable for students who intend to pursue graduate work in economics, finance or applied mathematics, or pursue a career in economic analysis, finance, underwriting, actuarial sciences, banking, international trade, applied statistics, or operations research.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as

well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

Students considering a mathematical economics major should take ECO 2010 and ECO 2020 (Principles of Microeconomics and Macroeconomics) and MAT 2010 (Calculus 1) as soon as possible.

To satisfy the university bachelor's degree requirement, Mathematical Economics majors must have a cumulative grade point average of 2.0 in their major courses. Also, students must receive a grade of 'C-' or better in all mathematics, statistics and economics courses.

A major consists of at least forty-six credits total - at least twenty-two credits in mathematics courses and twenty-four credits in economics courses. At least fifteen credits (eight credits of economics and seven credits of math) must be earned at Wayne State University.

Code	Title	Credits
Economics Requirements		
ECO 2010	Principles of Microeconomics	4
ECO 2020	Principles of Macroeconomics	4
ECO 5000	Intermediate Microeconomics	4
ECO 5050	Intermediate Macroeconomics	4
ECO 6000	Price and Allocation Theory	4
Select one of the following: ¹		
ECO 5020	Fundamentals of Economic Analysis I	
ECO 5030	Microeconomic Theory	
ECO 5100	Introductory Statistics and Econometrics	
ECO 5230	Environmental Economics	
ECO 5250	Economic Analysis of Law	
ECO 5260	Economic Analysis of Law II: Applications of Statistics and Econometrics	
ECO 5270	Games of Strategy	
ECO 5300	International Trade	
ECO 5500	Public Finance	
ECO 5560	Pharmaceutical Economics	
ECO 5700	Money and Banking	
ECO 6050	Macroeconomics	
ECO 6100	Introduction to Econometrics	
ECO 5993	Writing Intensive Course in Economics (This course is taken in conjunction with an approved 5000-level economics, mathematics or statistics elective course.) ³	0
Mathematics Requirements		
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
MAT 2250	Elementary Linear Algebra	3
MAT 5700	Introduction to Probability Theory	4
One MAT or STA course at or above 5030. Recommended courses are: ^{1,2}		
STA 5030	Statistical Computing and Data Analysis	
MAT 5100	Numerical Methods I	
MAT 5210	Advanced Calculus	
MAT 5220	Partial Differential Equations	
MAT 5230	Complex Variables and Applications	

MAT 5280	Methods of Differential Equations
MAT 5710	Introduction to Stochastic Processes
MAT 5750	Mathematics of Finance
MAT 5770	Mathematical Models in Operations Research
MAT 5870	Methods of Optimization
STA 5800	Introduction to Mathematical Statistics

Total Credits **46-47**

- ¹ This course could be done in conjunction with ECO 5993.
² Excluding MAT 5120, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180, MAT 6200 and MAT 6210.
³ This is a paper completed in conjunction with an approved 5000-level economics, mathematics or statistics elective course. You must register for this course during the same semester that the 5000-level elective taken. Permission from the instructor is required.

Minimal Grade Requirements

Students must receive a grade of 'C-' or better in all economics, mathematics and statistics courses. An overall grade point average of 2.0 ('C') is required for graduation.

Writing Proficiency/Writing Intensive Requirement

To enable the Department to evaluate their writing proficiency, mathematical economics majors must register for ECO 5993, the zero-credit WI course. This is a paper completed in conjunction with a 5000-level economics, mathematics or statistics elective course. They must register for this during the same semester that the 5000-level elective course is taken. All mathematical economics majors must satisfy this requirement, even if they are not subject to the University General Education Requirements.

Student's Responsibility

It is each student's responsibility to learn the requirements, policies, and procedures governing the program they are following and to act accordingly. Students should consult both Mathematical Economics program advisors regularly in order to verify that Mathematical Economics requirements are being met in a timely fashion. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Mathematics (B.A.)

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. Undergraduates declaring a mathematics major are strongly encouraged to meet with a departmental advisor before doing so. After a student's acceptance as a major, a student should consult a Departmental advisor at least once a semester to verify progress.

Program Requirements

Candidates must complete 120 credits in coursework including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All coursework must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

It is each student's responsibility to learn the requirements, policies, and procedures governing the program the student is following and to act accordingly. Students should consult the Department of Mathematics' undergraduate academic advisor on a regular basis. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Major Requirements

Residency: A minimum of 15 credits of major requirements at or above MAT or STA 5030 must be taken at Wayne State University. This includes courses that are considered equivalent to the Mathematics Department's MAT or STA courses and that are approved by the Mathematics Department to meet a major requirement.

Minimum Grade Requirements: The following grade requirements must be satisfied in the major.

- C- or better in all required coursework.
- C or better average for all coursework.

Notes:

1. STA courses previously designated by MAT (for example STA 2210 was previously labelled MAT 2210) are the same courses and meet the same requirements.
2. Although this policy is found in the College of Liberal Arts and Sciences (CLAS) requirements, it is worth noting that if a student is majoring in a CLAS major, they must obtain at least one minor that has 3 unique courses from the major. This means that at least 3 courses used to complete requirements in the minor must not be used to complete requirements in the major.
3. The required courses listed are the minimum that students should complete. Students are encouraged to take more courses in order to strengthen their background and enhance their prospects for employment and/or graduate school.

Course Requirements and Concentrations

In addition to the general bachelor's degree requirements, the candidate must complete one of the following concentrations: Prospective Graduate Study, General Topics or Computer Science, as described below.

Prospective Graduate Study Concentration

This concentration is for students interested in advanced mathematics, including those who intend to pursue graduate study in mathematics or statistics and those who want to be exceptionally well qualified for high-level employment in government or industry.

Code	Title	Credits
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
Select one of the following two options (MAT 2350 is preferred, if available, and it is 3 credits rather than 4):		3-4
MAT 2350	Elementary Differential Equations	

MAT 2150	Differential Equations and Matrix Algebra	
MAT 2250	Elementary Linear Algebra	3
MAT 5070	Elementary Analysis	4
MAT 5420	Algebra I	4
& MAT 5993	and Writing Intensive Course in Mathematics	
MAT 5600	Introduction to Analysis I	4
MAT 5700	Introduction to Probability Theory	4
Select one of the following two options:		3-4
MAT 5430	Algebra II	
MAT 5610	Introduction to Analysis II	
Select one of the following six options:		3-4
MAT 5230	Complex Variables and Applications	
MAT 5430	Algebra II	
MAT 5520	Introduction to Topology	
MAT 5530	Elementary Differential Geometry and its Applications	
MAT 5610	Introduction to Analysis II	
STA 5800	Introduction to Mathematical Statistics	
Select one of the following four options:		3-4
An MAT or STA course numbered 5030 or above.	¹	
CSC 6500	Theory of Languages and Automata	
CSC 6620	Matrix Computation I	
CSC 6991	Topics in Computer Science (The topic must be approved by the Math Department Undergraduate Committee.)	
ECO 5270	Games of Strategy	
Total Credits		43-47

¹ Excluding MAT 5120, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180, MAT 6200, and MAT 6210. Only one (at most) of the courses may be selected from MAT 5890 or MAT 5990. These electives are subject to advisor approval on the Student's Plan of Work.

General Topics Concentration

This concentration is for students interested in a broad range of topics.

Code	Title	Credits
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
Select one of the following two options (MAT 2350 is preferred if available, and it is 3 credits rather than 4):		3-4

Computer Science Concentration

Mathematics and computer science are so closely related that a great many students who major in mathematics pursue careers or graduate study in computer science. A mathematics degree, being more than just welcome in the field, is highly regarded. For students who would like to complete a double degree in mathematics and computer science or a major in mathematics with a minor in computer science, the Department offers a specially designed program. ***This concentration is available only to students who complete a second degree or a minor in computer science prior to graduation.*** Within this concentration, students can take certain courses that satisfy both mathematics and computer science major requirements simultaneously. See the Mathematics Department undergraduate advisor for additional information on how this course can fit into this major/minor or double degree combination. Students should also consult the Computer Science Department concerning the requirements for the second degree or minor.

Only one (at most) of the courses may be selected from MAT 5890 or MAT 5990. These electives are subject to advisor approval on the Student's Plan of Work.

² This course can also count as an elective for the minor or major in computer science.

Mathematics Departmental Honors Program

In order to graduate with honors in mathematics, students must satisfy the following criteria:

1. Completion of the requirements for a Bachelor of Science degree in Mathematics.
2. Have an overall grade point average of 3.3 or above at graduation.
3. At least 12 Mathematics honors credits at the level of MAT 2020 or above, including at least 4 credits of an approved 5000 level course. See the undergraduate mathematics advisor for approved courses. MAT 4990 is not included in these 12 credits (see below). The student must complete the course with at least a B and the honors option work with at least a B in order to obtain honors credit.
4. Completion of an HON 42XX - Honors College Seminar. See the Honors College website for information.
5. Satisfactory completion of MAT 4990 - Directed Study: Honors Program (3-6 credits). MAT 4990 involves the completion of an honors thesis in mathematics. The thesis must extend, supplement or compliment the 5000 level coursework the student has taken. It must be written under the guidance of a full-time faculty member.
6. Obtain a 3.3 average for all Mathematics classes upon completion.

Statistics (B.S.)

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (<http://bulletins.wayne.edu/undergraduate/general-information/admission/>) to the University. Undergraduates declaring a mathematics major are strongly encouraged to meet with a departmental advisor before doing so. After a student's acceptance as a major, a student should consult a Departmental advisor at least once a semester to verify progress.

Program Requirements

Candidates must complete 120 credits in coursework including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All coursework must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

It is each student's responsibility to learn the requirements, policies, and procedures governing the program. The student is following and to act accordingly. Students should consult the Department of Mathematics' undergraduate academic advisor on a regular basis. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Major Requirements

Residency: A minimum of 15 credits of major requirements at or above MAT or STA 5030 must be taken at Wayne State University. This includes courses that are considered equivalent to the Mathematics Department's MAT or STA courses and that are approved by the Mathematics Department to meet a major requirement.

Minimum Grade Requirements: The following grade requirements must be satisfied in the major.

- C- or better in all required coursework.
- C or better average for all coursework.

Notes:

1. STA courses previously designated by MAT (for example STA 2210 was previously labelled MAT 2210) are the same courses and meet the same requirements.
2. Although this policy is found in the College of Liberal Arts and Sciences (CLAS) requirements, it is worth noting that if a student is majoring in a CLAS major, they must obtain at least one minor that has 3 unique courses from the major. This means that at least 3 courses used to complete requirements in the minor must not be used to complete requirements in the major.
3. The required courses listed are the minimum that students should complete. Students are encouraged to take more courses in order to strengthen their background and enhance their prospects for employment and/or graduate school.

MAT 5890	Special Topics in Mathematics (Topic must be approved by the Math Department) ²
STA 6830	Design of Experiments
Elective Courses (Select two of the following, one of which must be chosen from the first 7 options, ending with MAT 5870.)³	
Any additional course listed in "Additional Statistical Courses". ²	
MAT 2350	Elementary Differential Equations (MAT 2350 is recommended, if available.)
or MAT 2150 Differential Equations and Matrix Algebra	
MAT 5070	Elementary Analysis ³
MAT 5100	Numerical Methods I
MAT 5410	Applied Linear Algebra
MAT 5600	Introduction to Analysis I
MAT 5870	Methods of Optimization
MAT 5740	The Theory of Interest
ECO 6100	Introduction to Econometrics
TIS 5570	Introduction to Business Analytics
CSC 5825	Introduction to Machine Learning and Applications
DSA 6000	Data Science and Analytics
EER 8800	Variance and Covariance Analysis
EER 8820	Multivariate Analysis
EER 8860	Nonparametric, Permutation, Exact, and Robust Methods
EER 8992	Research and Experimental Design
IE 6210	Applied Engineering Statistics
IE 6611	Fundamentals of Six Sigma
PS 5630	Statistics and Data Analysis in Political Science I
PSY 6500	Advanced Psychological Statistics
SOC 6280	Social Statistics
SW 9100	Social Statistics and Data Analysis

Capstone Course

MAT 5993	Writing Intensive Course in Mathematics ¹
----------	--

Total Credits **44-49**

¹ MAT 5993 is linked with STA 6840, and so they must be taken together.

² MAT 5890 must be a statistics course and must be approved by the Department of Mathematics. In case of two or more different MAT 5890 courses, one will be counted as the "Additional Statistics Course" and the other as an "Elective Course."

³ Strongly recommended for students interested in graduate study.

Mathematics Minor

Students must complete all coursework including satisfaction of the University General Education Requirements (<http://bulletins.wayne.edu/undergraduate/general-information/general-education/>) and the College of Liberal Arts and Sciences Group Requirements (<http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/bachelors-degree-requirements/>), as well as the departmental minor requirements cited below. All coursework must be completed in accordance with the regulations of the University (<http://bulletins.wayne.edu/undergraduate/general-information/academic-regulations/>) and the College (<http://bulletins.wayne.edu/undergraduate/>)

college-liberal-arts-sciences/academic-regulations/) governing undergraduate scholarship and degrees.

It is each student's responsibility to learn the requirements, policies, and procedures governing the program the student is following and to act accordingly. Students should consult the Department of Mathematics' undergraduate academic advisor on a regular basis. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Minor Requirements

Residency: A minimum of 7 credits of minor requirements at or above MAT or STA 5030 must be taken at Wayne State University. This includes courses that are considered equivalent to the Mathematics Department's MAT or STA courses and that are approved by the Mathematics Department to meet a major requirement.

Minimum Grade Requirements: The following grade requirements must be satisfied in the minor.

- C- or better in all required coursework.
- C or better average for all coursework.

Notes:

1. STA courses previously designated by MAT (for example STA 2210 was previously labelled MAT 2210) are the same courses and meet the same requirements.

2. Although this policy is found in the College of Liberal Arts and Sciences (CLAS) requirements, it is worth noting that if a student is majoring in a CLAS major, they must obtain at least one minor that has 3 unique courses from the major. This means that at least 3 courses used to complete requirements in the minor must not be used to complete requirements in the major.

3. The required courses listed are the minimum that students should complete. Students are encouraged to take more courses in order to strengthen their background and enhance their prospects for employment and/or graduate school.

Course Requirements

Code	Title	Credits
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
MAT 2250	Elementary Linear Algebra	3
Two MAT or STA courses numbered 5030 or above.	¹	6-8
One additional MAT or STA course numbered 5030 or above, or one of the courses listed below:	¹	3-4
MAT 2150	Differential Equations and Matrix Algebra	
MAT 2350	Elementary Differential Equations	
MAT 2500	Fundamentals of Mathematics and Proof-Writing	
MAT 2860	Discrete Mathematics	
MAT 5000	Fundamental Concepts of Mathematics and Proof Writing	
STA 2210	Probability and Statistics	
BA 3400	Quantitative Methods II: Statistical Methods	
BE 2100	Basic Engineering III: Probability and Statistics in Engineering	
ECO 5100	Introductory Statistics and Econometrics	

PH 3200	Introduction to Biostatistics	
Total Credits		24-27

¹ The courses MAT 5120, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180 and MAT 6210 do not satisfy the mathematics minor requirement for courses numbered 5030 or above. Only one MAT 5890 or MAT 5990 may be used to meet the requirements.

Statistics Minor

Students must complete all coursework including satisfaction of the University General Education Requirements (<http://bulletins.wayne.edu/undergraduate/general-information/general-education/>) and the College of Liberal Arts and Sciences Group Requirements (<http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/bachelors-degree-requirements/>), as well as the departmental minor requirements cited below. All coursework must be completed in accordance with the regulations of the University (<http://bulletins.wayne.edu/undergraduate/general-information/academic-regulations/>) and the College (<http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/academic-regulations/>) governing undergraduate scholarship and degrees.

It is each student's responsibility to learn the requirements, policies, and procedures governing the program the student is following and to act accordingly. Students should consult the Department of Mathematics' undergraduate academic advisor on a regular basis. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

Minor Requirements

Residency: A minimum of 7 credits of minor requirements at or above MAT or STA 5030 must be taken at Wayne State University. This includes courses that are considered equivalent to the Mathematics Department's MAT or STA courses and that are approved by the Mathematics Department to meet a major requirement.

Minimum Grade Requirements: The following grade requirements must be satisfied in the minor.

- C- or better in all required coursework.
- C or better average for all coursework.

Notes:

1. STA courses previously designated by MAT (for example STA 2210 was previously labelled MAT 2210) are the same courses and meet the same requirements.

2. Although this policy is found in the College of Liberal Arts and Sciences (CLAS) requirements, it is worth noting that if a student is majoring in a CLAS major, they must obtain at least one minor that has 3 unique courses from the major. This means that at least 3 courses used to complete requirements in the minor must not be used to complete requirements in the major.

3. The required courses listed are the minimum that students should complete. Students are encouraged to take more courses in order to strengthen their background and enhance their prospects for employment and/or graduate school.

Course Requirements

Code	Title	Credits
Foundational mathematics		11-12
MAT 2010	Calculus I	
MAT 2020	Calculus II	
Select one of the following:		
MAT 2250	Elementary Linear Algebra	
MAT 2150	Differential Equations and Matrix Algebra	
Statistics courses		10-12
Select one of the following:		
STA 2210	Probability and Statistics	
BA 3400	Quantitative Methods II: Statistical Methods	
BE 2100	Basic Engineering III: Probability and Statistics in Engineering	
ECO 5100	Introductory Statistics and Econometrics	
PH 3200	Introduction to Biostatistics	
Select at least two of the following:		
STA 5030	Statistical Computing and Data Analysis	
MAT 5540	Topological Data Analysis	
MAT 5700	Introduction to Probability Theory	
STA 5800	Introduction to Mathematical Statistics	
STA 5820	Introduction to Data Science	
STA 5830	Applied Time Series	
MAT 5890	Special Topics in Mathematics (Topic must be approved by the Department of Mathematics.)	
STA 6830	Design of Experiments	
STA 6840	Applied Regression Analysis	
TOTAL		21-24

Students should be aware that MAT 2150, MAT 5700, MAT 5890 and STA 5800, and STA 6840 require MAT 2030 as a prerequisite.

Neuroscience

Neuroscience is an interdisciplinary science dedicated to discovering how the brain produces thought, emotion, and behavior on the levels of systems, cells, and molecules. The neuroscience programs are offered jointly through the Departments of Biological Sciences and Psychology. More information is available on the CLAS website (<https://clas.wayne.edu/neuroscience/>).

- Neuroscience (B.S.) (p. 297)
- Neuroscience Minor (p. 298)

Neuroscience (B.S.)

The goal of the Neuroscience major is to provide students with a strong background in fundamental basic sciences and exposure to the integrative nature of neuroscience to allow students to understand nervous system function from a variety of perspectives. Students will emerge with a strong foundation in basic science and applied neuroscience that will make them competitive for post-graduate studies or employment in industry, government, health, and education.

The degree program is offered jointly through the Departments of Biological Sciences and Psychology. During the freshman year, or as early as possible, students interested in neuroscience should consult one of these departments to obtain information from an undergraduate advisor.

The Neuroscience major will lead to a Bachelor of Science (B.S.) degree. Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

Major requirements are divided into three categories: (A) Basic science courses, (B) Neuroscience core courses, and (C) Electives. Elective courses are organized into two sub-categories and students must select from each; this is to ensure breadth of exposure. Students must receive a grade of C-minus or better in all required major courses. A grade point average of 2.0 (C) is required for graduation. The major requires a minimum of three unique courses that do not count towards requirements of other declared majors.

Basic Science Courses

Students may double-count up to 11 - 12 credits with University General Education requirements.

Complete an Honors thesis		3
NEU 6998	Honors Thesis in Neuroscience	
Remaining credits to be earned in honors sections or honors options within the Neuroscience major coursework.		5
Total Credits		14

Neuroscience Minor

Neuroscience is the interdisciplinary scientific study of the nervous system. It encompasses and combines a broad array of disciplines including biology, biochemistry, computer science, physiology, psychology, philosophy, and more. This diversity reflects the complexity of the nervous system and the challenges in understanding how nervous systems function on multiple levels underlying behavior: molecular, cellular, network, and systems. The overarching goal of the Neuroscience minor is to allow students who may be focusing their studies in a traditional discipline with certain levels of analysis to broaden their perspective and knowledge to areas outside of their primary field of study.

The minor requires the completion of a minimum of 18 credits.

Code	Title	Credits

Nutrition and Food Science

Office: 3009 Science Hall; 313-577-2500

Chairperson: Ahmad R. Heydari

Undergraduate Advisor: Deanna L. Cavanaugh

<https://clas.wayne.edu/nfs> (<https://clas.wayne.edu/nfs/>)

The courses offered by this department are designed for students in three distinct groups:

1. those majoring in nutrition and food science who are interested in entering either the nutrition, the food science and health care professions;
2. those interested in entering the dietetics field; and
3. those majoring in nutrition and food science with the intention of entering non-technical positions in a variety of food businesses.

- Dietetics (B.S.) (p. 299)
- Dietetics (Post-Bachelor Certificate) (p. 300)
- Nutrition and Food Science (B.A.) (p. 300)
- Nutrition and Food Science (B.S.) (p. 301)
- Nutrition and Food Science Minor (p. 302)

Dietetics (B.S.)

An admissions moratorium is currently in effect for this program.

The coordinated program in dietetics is designed to prepare registration-eligible practitioners. The special body of knowledge for the profession is the science of nutrition; skills for delivery of nutritional care encompass a number of closely-allied fields, such as food science, business, management, psychology, social sciences, economics, and communication. The strong base in science and other areas is developed through selection of relevant prerequisite and supporting cognate courses, and in the professional courses. Graduates of the program receive a Bachelor of Science in Dietetics degree and are eligible to write the national registration examination for professional certification without the need for a separate internship. The dietetics program is currently granted accreditation status by the Academy of Nutrition and Dietetics Accreditation Council for Education in Nutrition and Dietetics (ACEND), a specialized accrediting body recognized by The Council on Post-secondary Accreditation and the United States Department of Education. Students may contact ACEND via their webpage or by calling 312-899-0040 to find out the accreditation status of any dietetic program.

Admission Requirements

Admission to this program is competitive and open only to students with at least junior standing in the College after completion of the prerequisite courses cited below. Program application should be made by April 1 of the winter semester preceding the fall semester of anticipated entry into the program. Transfer and post-baccalaureate students must meet the pre-professional science requirements (see courses, below) before acceptance into the program. Transferability of credit must be verified by the College advisors and Dietetics faculty. Course material fees cover all the additional costs relating to the professional component of the program. However, students are responsible for the costs associated with physical examination, lab coat, texts and transportation.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University

(p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Nutrition and Food Science Honors Program

Admission: A minimum grade point average (g.p.a.) of 3.3 is required for enrollment in the Department of Nutrition and Food Science Honors program. Prospective Honors students should consult with an advisor in the Department during the freshman year. Transfer students or others with a Nutrition and Food Science g.p.a. of 3.5 may be accepted into the program without having taken the NFS 3230 Honors section.

Honors Requirements

1. Enroll in the Honors section of NFS 3230.
2. Complete at least one HON 42XX seminar.
3. Complete at least three credits in an independent research project (NFS 5990).
4. Complete at least fifteen credits in honors-designated course work, including the above. The additional course work may be obtained in this department by taking an Honors option of upper-level NFS courses, or in any other department of the College.

Students must have an overall grade point average of 3.3 and maintain an overall grade point average of at least 3.0 in the major to be awarded the Honors Degree.

Dietetics (Post-Bachelor Certificate)

An admissions moratorium is currently in effect for this program.

This program is available to students admitted to the Coordinated Program in Dietetics (CPD) who already have an undergraduate degree. Completion of the CPD makes graduates of the program eligible to take the National Registration Examination for Dietitians, which, when successfully completed, confers the legal designation of Registered Dietitian.

Admission Requirements

Students who have received an undergraduate degree from Wayne State University should contact the department for application procedures. Students who have received an undergraduate degree from another institution must complete the Application for Undergraduate Admission and have transcripts of previous work sent directly to the Office of Admissions. Application to the CPD is separate from that to the University (CPD applications (<http://www.clas.wayne.edu/NFS/>) should be obtained from the department, and applications are accepted only once yearly). The deadline is April 1 for program entry the following fall semester.

Program Requirements

Students with a dietetics degree generally will have fulfilled all prerequisite course requirements; see Core Courses for the Bachelor of Science in Dietetics (p. 301) degree. Any courses in which the student had received a grade of D or below must be repeated; any dietetics courses in which the student has received a grade of C-plus or below must be repeated. Dietetics courses include food service management, medical nutrition therapy (also called clinical nutrition or diet therapy), and community nutrition. Following successful completion of all Core Courses in the undergraduate degree program, the student will elect the Core Courses for the Post-Bachelor Certificate in Dietetics.

Students who possess an undergraduate degree that is not in dietetics do not need to obtain a second undergraduate degree in dietetics, but they

must complete all Core Courses for the Bachelor of Science in Dietetics, or their equivalents at other universities. Students in this category should consult with a dietetics advisor at their earliest opportunity. Following successful completion of all Core Courses in the undergraduate degree program, the student will elect the Core Courses for the Post-Bachelor Certificate in Dietetics.

Nutrition and Food Science (B.A.)

This curriculum allows students to major in nutrition and food science while following a broader program in liberal arts, science, and business. The degree requires a less rigorous background in chemistry and other natural science courses than is required for the B.S. degree in this discipline. Employment opportunities include sales, customer relations, university or school food services, industrial and commercial food service systems, hospitals, nursing homes or extended care food service operations.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. Students contemplating a major program in Nutrition and Food Science should consult with the undergraduate Departmental advisor as soon as possible, and no later than the beginning of the sophomore year. Transfer students should consult with the undergraduate departmental advisor during the semester prior to their transfer.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

Course requirements for this bachelor's degree consist of courses offered by Wayne State University and courses available from local community colleges on a dual enrollment basis with the University. Requirements are as follows:

Code	Title	Credits
University Core Courses		
BIO 1510 & BIO 1511	Basic Life Mechanisms and Basic Life Mechanisms Laboratory	4
BIO 2270 & BIO 2271	Principles of Microbiology and Principles of Microbiology Lab	5
CHM 1100 & CHM 1130	General Chemistry I and General Chemistry I Laboratory	5
CHM 1140 & CHM 1150	General Chemistry II and General Chemistry II Laboratory	5
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	5
CHM 2220 or BIO 2870	Organic Chemistry II Anatomy and Physiology	4-5
ECO 2010	Principles of Microeconomics	3-4
MGT 2530	Management of Organizational Behavior	3
NFS 2030	Nutrition and Health	3
NFS 2130 & NFS 2140	Introductory Food Science and Introductory Food Science Laboratory	4

NFS 2220	Nutrition Laboratory	1
NFS 3230	Human Nutrition	3-4
NFS 4150	Advanced Food Science	3
NFS 4160	Food Laws and Regulations	3
NFS 4230	Macronutrient Metabolism	3
NFS 4231	Human Nutrition: Micronutrients	3
NFS 5250	Nutrition and Disease	4
NFS 5350	Organization and Management of Food Service Systems	4
NFS 6850	Controversial Issues	2
PSY 1020	Elements of Psychology	3
STA 1020	Elementary Statistics	3
Total Credits		73-76

Community College Courses

Candidates for the degree may complete a course in one of the following areas: sanitation, food management, quantity food purchasing, and quantity food production. As many as four credits from these courses can be applied to the degree either by transfer from previous community college work or by concurrent enrollment with a local community college. For an approved list of courses from area institutions, consult the Department.

Nutrition and Food Science Honors Program

Admission: A minimum grade point average (g.p.a.) of 3.3 is required for enrollment in the Department of Nutrition and Food Science Honors program. Prospective Honors students should consult with an advisor in the Department during the freshman year. Transfer students or others with a Nutrition and Food Science g.p.a. of 3.5 may be accepted into the program without having taken the NFS 3230 Honors section.

Honors Requirements

1. Enroll in the Honors section of NFS 3230.
2. Complete at least one HON 42XX seminar.
3. Complete at least three credits in an independent research project (NFS 5990).
4. Complete at least fifteen credits in honors-designated course work, including the above. The additional course work may be obtained in this department by taking an Honors option of upper-level NFS courses, or in any other department of the College.

Students must have an overall grade point average of 3.3 and maintain an overall grade point average of at least 3.0 in the major to be awarded the Honors Degree.

'AGRADE' Program (Accelerated Graduate Enrollment)

Qualified seniors in Nutrition and Food Science having not less than a 3.5 g.p.a. may enroll simultaneously in the undergraduate and graduate program and apply a maximum of sixteen credits towards both the bachelor's and master's degrees in nutrition and food science. Students may apply for the program as soon as they complete ninety credits towards the undergraduate degree. Graduate courses taken as part of the 'AGRADE' Program are assessed undergraduate rate tuition. Contact the Department for further information.

Nutrition and Food Science (B.S.)

This program is designed for science-oriented students who are interested in the various food and nutrition or other healthcare related professions. Students are prepared for these professions by the integration of chemistry and the biological sciences with courses in food science and nutrition. Employment opportunities may be found in various phases of food processing, research and development, public health, and community education, as well as in positions in state and federal regulatory agencies dealing with food products. The program provides good preparation for medical, dental or allied health school application. Students should consult an advisor for program planning.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. Students contemplating a major program in Nutrition and Food Science should consult with the undergraduate Departmental advisor as soon as possible, and no later than the beginning of the sophomore year. Transfer students should consult with the undergraduate departmental advisor during the semester prior to their transfer.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

Students must complete seventy-six credits in science courses of which at least thirty-five must be in nutrition and food science. Core Courses are as follows:

Code	Title	Credits
University Core Courses		
BIO 1510 & BIO 1511	Basic Life Mechanisms and Basic Life Mechanisms Laboratory	4
BIO 2270 & BIO 2271	Principles of Microbiology and Principles of Microbiology Lab	5
BIO 2870	Anatomy and Physiology	5
CHM 1100 & CHM 1130	General Chemistry I and General Chemistry I Laboratory	5
CHM 1140 & CHM 1150	General Chemistry II and General Chemistry II Laboratory	5
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	5
CHM 2220 & CHM 2230	Organic Chemistry II and Organic Chemistry II Laboratory	5
MAT 1800	Elementary Functions	4
NFS 2030	Nutrition and Health	3
NFS 2130 & NFS 2140	Introductory Food Science and Introductory Food Science Laboratory	4
NFS 2220	Nutrition Laboratory	1
NFS 3230	Human Nutrition	3-4
NFS 4160	Food Laws and Regulations	3
NFS 4230	Macronutrient Metabolism	3
NFS 4231	Human Nutrition: Micronutrients	3

NFS 5130	Food Chemistry	3
NFS 5140	Laboratory Techniques in Nutrition and Food Science	3
NFS 5250	Nutrition and Disease	4
NFS 6850	Controversial Issues	2
Additional three credits in upper division NFS courses		3
PHY 2130 & PHY 2131	Physics for the Life Sciences I and Physics for the Life Sciences Laboratory	5
PHY 2140 & PHY 2141	Physics for the Life Sciences II and Physics for the Life Sciences Laboratory	5
STA 1020	Elementary Statistics	3
Total Credits		86-87

NFS 3270	Eating Disorders
NFS 3300	Science, History, and Culture of Italian Cuisine
NFS 4160	Food Laws and Regulations
NFS 5170	Nutrition, Physical Activity, and the Brain
NFS 5220	Community Nutrition
NFS 5240	Nutritional Epidemiology
NFS 5350	Organization and Management of Food Service Systems
NFS 6230	Nutrition and Physical Performance
NFS 6850	Controversial Issues
Total Credits	18-19

Nutrition and Food Science Honors Program

Admission: A minimum grade point average (g.p.a.) of 3.3 is required for enrollment in the Department of Nutrition and Food Science Honors program. Prospective Honors students should consult with an advisor in the Department during the freshman year. Transfer students or others with a Nutrition and Food Science g.p.a. of 3.5 may be accepted into the program without having taken the NFS 3230 Honors section.

Honors Requirements

1. Enroll in the Honors section of NFS 3230.
2. Complete at least one HON 42XX seminar.
3. Complete at least three credits in an independent research project (NFS 5990).
4. Complete at least fifteen credits in honors-designated course work, including the above. The additional course work may be obtained in this department by taking an Honors option of upper-level NFS courses, or in any other department of the College.

Students must have an overall grade point average of 3.3 and maintain an overall grade point average of at least 3.0 in the major to be awarded the Honors Degree.

'AGRADE' Program (Accelerated Graduate Enrollment)

Qualified seniors in Nutrition and Food Science having not less than a 3.5 g.p.a. may enroll simultaneously in the undergraduate and graduate program and apply a maximum of sixteen credits towards both the bachelor's and master's degrees in nutrition and food science. Students may apply for the program as soon as they complete ninety credits towards the undergraduate degree. Graduate courses taken as part of the 'AGRADE' Program are assessed undergraduate rate tuition. Contact the Department for further information.

Nutrition and Food Science Minor

Completion of the minor in Nutrition and Food Science requires a minimum of eighteen credits in Nutrition and Food Science courses as follows:

Code	Title	Credits
NFS 2030	Nutrition and Health	3
NFS 2130	Introductory Food Science	3
NFS 2140	Introductory Food Science Laboratory	1
NFS 2220	Nutrition Laboratory	1
NFS 3230	Human Nutrition	3-4
Additional seven credits in upper division NFS courses.		7

Peace and Conflict Studies

Office: 2320 Faculty/Administration Building; 313-577-3453
 Director: Pontus Leander
<https://clas.wayne.edu/cpcs> (<https://clas.wayne.edu/cpcs/>)

The Peace and Conflict Studies (PCS) program integrates a variety of practical courses and interdisciplinary research to allow students to combine their own majors with training, study, and experience in peace studies and the emerging field of conflict resolution, at the inter-personal, national and international levels. The curriculum deals with the most fundamental of human concerns: how to manage or resolve conflict constructively. Students are introduced to the causes of human conflict and violence, as well as approaches to conflict management ranging from diplomacy, law and negotiation, to mediation and arbitration. Questions are raised concerning the issues of globalization, social justice, non-violence, ethnicity, race, and culture.

- Peace and Conflict Studies (Co-Major) (p. 303)
- Peace and Conflict Studies Minor (p. 303)

Peace and Conflict Studies (Co-Major)

An admissions moratorium is currently in effect for this program.

The Peace and Conflict Studies (PCS) Co-Major Program integrates a variety of practical courses and interdisciplinary research to allow students to combine their own majors with training, study, and experience in peace studies and the emerging field of conflict resolution, at the inter-personal, national and international levels. The curriculum deals with the most fundamental of human concerns: how to manage or resolve conflict constructively. Students are introduced to the causes of human conflict and violence, as well as approaches to conflict management ranging from diplomacy, law and negotiation, to mediation and arbitration. Questions are raised concerning the issues of globalization, social justice, non-violence, ethnicity, race, and culture.

The PCS curriculum provides a framework useful for careers in legal, educational, governmental, business, labor, social service, scientific and health professions, as well as in graduate and professional education. Students are offered opportunity for hands-on experience, and are encouraged to build adaptive skills useful for the future. Courses in this curriculum may also count toward the completion of University General Education Requirements (p. 22), as well as College and Major Requirements.

Students are encouraged to participate in the development of their curriculum; in addition to selecting from a wide variety of suggested PCS electives, co-majors are able to choose other elective courses with prior consent of the Director. Students are also encouraged to participate in the Peace and Justice Student Learning Community, which organizes speakers and other special educational programs and events on various subjects, and to explore credit for internships and study abroad.

The program is designed around a set of core courses, which introduce the student to the field, including various approaches to peace studies and the application of conflict management methods, and finally which assess the student's overall progress in a senior research seminar project. Five courses in conflict-related elective courses are required, but students must have a minimum of three courses that are counting towards the PCS co-major elective requirements and are not fulfilling any other major, minor, or co-major requirements.

Core Course Requirements

Code	Title	Credits
PCS 2000	Introduction to Peace and Conflict Studies	3
PCS 6000	Senior Seminar in Peace and Conflict Studies	3
Select two of the following (additional courses can count as electives):		6-8
AFS 2210	Black Social and Political Thought	
ANT 3100	World Cultures	
ECO 5300	International Trade	
HIS 5130/7130	American Foreign Relations Since 1933	
PCS 2010/ PS 2830/ HIS 2520	Topics in Peace and Conflict Studies ¹	
PCS/PHY 2020/ HIS 2510/ PS 2440	Science, Technology, and War	
PCS 2050/ PS 2550/ SOC 2050/ HIS 2530	The Study of Non-Violence	
PCS 3100	Human Trafficking and Modern Slavery	
PCS 5999	Special Readings/Research	
PHI 2330	Introduction to Social and Political Philosophy	
PS 2510	Introduction to Political Ideologies	
PS 2810	World Politics	
PS 5740	Ethnicity: The Immigrant Experience	
PSY 2600	Psychology of Social Behavior	
SOC 2300	Social Inequality	
Select one of the following: ¹		3-4
PCS 5000	Dispute Resolution	
PCS 5010	Community or International Internship	
PCS 5100	Advanced Special Topics	
Five courses in conflicted-related elective courses ²		15-20
Total Credits		30-38

¹ May be taken only once for core requirement, and repeated for electives.

² Students must have a minimum of three courses that are counting towards the PCS co-major elective requirements and are not fulfilling any other major, minor, or co-major requirements. Permissible elective courses are listed in the WSU course bulletin (p. 304), or can be approved in consultation with the program director.

Peace and Conflict Studies Minor

To receive a Minor in Peace and Conflict Studies (PCS), a student must complete:

Code	Title	Credits
PCS 2000	Introduction to Peace and Conflict Studies	3
PCS 6000	Senior Seminar in Peace and Conflict Studies	3
Select one core course from the following:		3-4
AFS 2210	Black Social and Political Thought	
ANT 3100	World Cultures	
ECO 5300	International Trade	
HIS 5130	American Foreign Relations Since 1933	

PCS 2010/ PS 2830/ HIS 2520	Topics in Peace and Conflict Studies	
PCS/PHY 2020/ HIS 2510/ PS 2440	Science, Technology, and War	
PCS 2050/ PS 2550/ SOC 2050/ HIS 2530	The Study of Non-Violence	
PCS 3100	Human Trafficking and Modern Slavery	
PCS 5999	Special Readings/Research	
PHI 2330	Introduction to Social and Political Philosophy	
PS 2510	Introduction to Political Ideologies	
PS 2810	World Politics	
PS 5740	Ethnicity: The Immigrant Experience	
Select one core course from the following:		3-4
PCS 5000	Dispute Resolution	
PCS 5010	Community or International Internship	
PCS 5100	Advanced Special Topics	

Two conflict-related elective courses. Permissible elective courses 6-8 are listed below, or can be approved in consultation with the program director.

Total Credits **18-22**

Among their elective requirements, students must have a minimum of one course that is counting towards the PCS minor requirements and not fulfilling any other major, minor, or co-major requirement. Electives may be selected from the approved elective course list, or from other curricula, with approval of the Peace and Conflict Studies Director.

Peace and Conflict-Related Elective Courses

The University offers a large number of conflict- and peace-related courses in its various Schools and Colleges that are suitable electives for this program. The student is encouraged to select courses that introduce them to a variety of cultural practices regarding the management of conflict. The following are appropriate for the co-major or minor; because new courses are created by faculty on a rolling basis, students are encouraged to consult with the director or the undergraduate advisor about any courses not on the following list which may be included in their major.

Race, Gender, and Religion

Code	Title	Credits
AFS/SOC 2600	Race and Racism in America	3
AFS 3420/ PS 3820	Pan Africanism and the Diaspora	4
AFS/SOC 5570	Race Relations in Urban Society	3
ANT 3530	Native Americans	3
ANT 5240	Cross Cultural Study of Gender	3

Philosophy

Office: 5057 Woodward, 12th floor; 313-577-2474

Chairperson: Josh Wilburn

Website: <https://clas.wayne.edu/philosophy> (<https://clas.wayne.edu/philosophy/>)

Contact: philosophy@wayne.edu

Courses in this department are designed with four aims:

1. They contribute to the liberal education of any student, whatever their predominant interest, by emphasis on clear and cogent thought, by consideration of the interrelations of fact and value, by training in logic and the methodology of inquiry, and by a study and analysis of major philosophical outlooks.
2. They supply a minor and cognate courses to students majoring in other Departments who wish to study their major subject in its wider philosophical implications.
3. They give Departmental majors a wide and intensive training in philosophy. The major appeals to those who wish to take graduate work in philosophy and to those who wish a broad background from which to study and understand the emergence and conflict of ideas in relation to contemporary problems.
4. They supply a relevant major and minor for students who plan a career in such fields as the law or the ministry.

- Philosophy (B.A.) (p. 306)
- Health Care Ethics Minor (p. 308)
- Humanities Minor (p. 308)
- Medical Humanities Minor (p. 308)
- Philosophy Minor (p. 309)
- Pre-Law Minor (p. 309)
- Religious Studies Minor (p. 309)

Philosophy (B.A.)

Philosophy contributes to the liberal education of any student, whatever their predominant interests, by its emphasis on clear and cogent thought, by consideration of the interrelations of fact and value, by training in logic and the methodology of inquiry, and by a study and analysis of major philosophical outlooks.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. Students who are planning to major in philosophy or who simply wish advice or consultation concerning course offerings and programs should see the Director of Undergraduate Studies in Philosophy.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

Students planning to major in Philosophy should consult the department's undergraduate advisor as early as possible. Students

may satisfy the major in either of two ways: with a traditional (p. 306) concentration or with a concentration in law, ethics and justice (p. 307).

CORE COURSE (3-4 credits). All students (of either concentration) must take one of the following logic courses:

Code	Title	Credits
Select one of the following:		
PHI 2850	Introductory Symbolic Logic	3-4
PHI 2860	Honors Introductory Symbolic Logic	
PHI 5050	Advanced Symbolic Logic	

Traditional Concentration

This option is primarily intended for those students whose interests in Philosophy are broad and general, and for those who are considering doing graduate-level work in Philosophy. A candidate pursuing this concentration must complete a minimum of ten courses in Philosophy, including the Logic Core Course (see above) as well as the following courses and selections from course groups (found in Philosophy Courses (p.)):

Code	Title	Credits
1. Two courses in the History of Philosophy.		
Select at least one History of Philosophy course from the following:		
PHI 2100	Ancient Greek Philosophy	
PHI 2110	Philosophy of the Scientific Revolution and Enlightenment	
PHI 2140	Ancient Greek Medicine and Psychology	
PHI 5400	The Presocratics and Sophists	
PHI 5410	Plato	
PHI 5420	Aristotle	
PHI 5450	British Empiricism	
PHI 5460	Kant	
PHI 5510	Special Topics in the History of Philosophy	
Select a second History of Philosophy course from the above, or from the following:		
PHI 2150	Chinese Philosophy	
PHI 2170	Islamic and Near Eastern Philosophy	
PHI 3450	Existentialism	
2. Select one course in the Value Theory Group		
PHI 2320	Introduction to Ethics	
PHI 2330	Introduction to Social and Political Philosophy	
PHI 2360	Feminist Philosophy	
PHI 2390	Philosophy of Human Rights	
PHI 3270	Foundations of Law	
PHI 3700	Philosophy of Art	
PHI 5240	Social and Political Philosophy	
PHI 5250	Justice and Rights in Health Care	
PHI 5260	Philosophy of Sex and Gender	
PHI 5270	Philosophy of Law	
PHI 5280	History of Ethics	
PHI 5290	Free Will and Moral Responsibility	
PHI 5300	Foundations of Ethics	
PHI 5330	Ethics, Law, and Health	
3. Select one course in the Philosophical Problems Group		
PHI 2400	Introduction to the Philosophy of Religion	
PHI 2550	Introduction to Philosophy of Science	

PHI 2650	Minds and Machines
PHI 3500	Theory of Knowledge
PHI 3550	Metaphysics
PHI 3600	Space, Time, and the Philosophy of Physics
PHI 5210	Philosophy of Race and Racism
PHI 5230	Philosophy of Science
PHI 5500	Topics in Metaphysics
PHI 5530	Topics in Epistemology
PHI 5550	Philosophy of Mind
PHI 5570	Philosophy of Language
PHI 5630	Twentieth Century Analytic Philosophy I

4. Select four 5000-level courses, which must total at least 14 credits

NOTE: Courses taken at the 5000-level which are used to satisfy any of requirements 1-3 may also be counted toward requirement 4, though the ten-course minimum for the major must still be met.

Law, Ethics and Justice Concentration

This option is intended for students who have a special interest in ethical issues, social justice, philosophy of law, or pre-law. A candidate pursuing this concentration must complete a minimum of ten courses in Philosophy, including the Core Courses (see above) as well as the following courses and selections from course groups:

Code	Title	Credits
------	-------	---------

1. One course in the History of Philosophy group

PHI 2100	Ancient Greek Philosophy
PHI 2110	Philosophy of the Scientific Revolution and Enlightenment
PHI 2140	Ancient Greek Medicine and Psychology
PHI 2150	Chinese Philosophy
PHI 2170	Islamic and Near Eastern Philosophy
PHI 3450	Existentialism
PHI 5400	The Presocratics and Sophists
PHI 5410	Plato
PHI 5420	Aristotle
PHI 5450	British Empiricism
PHI 5460	Kant
PHI 5510	Special Topics in the History of Philosophy

2. Select one course from the Philosophical Problems Group

PHI 2400	Introduction to the Philosophy of Religion
PHI 2550	Introduction to Philosophy of Science
PHI 2650	Minds and Machines
PHI 3500	Theory of Knowledge
PHI 3550	Metaphysics
PHI 3600	Space, Time, and the Philosophy of Physics
PHI 5210	Philosophy of Race and Racism
PHI 5230	Philosophy of Science
PHI 5500	Topics in Metaphysics
PHI 5530	Topics in Epistemology
PHI 5550	Philosophy of Mind
PHI 5570	Philosophy of Language
PHI 5630	Twentieth Century Analytic Philosophy I

3. PHI 2320 - (PL) Introduction to Ethics

4. One course in Philosophy of Law, Politics, or Human Rights

PHI 2330	Introduction to Social and Political Philosophy
PHI 2390	Philosophy of Human Rights

PHI 3270	Foundations of Law
PHI 5240	Social and Political Philosophy
PHI 5270	Philosophy of Law
PHI 5330	Ethics, Law, and Health

Or other approved course in social and political philosophy, philosophy of law, ore human rights.¹

5. One course in Applied Ethics

PHI 1100	Contemporary Moral Issues
PHI 1110	Ethical Issues in Health Care
PHI 1120	Professional Ethics
PHI 1130	Environmental Ethics
PHI 1500	Race, Sex, and Religion
PHI 2360	Feminist Philosophy
PHI 5250	Justice and Rights in Health Care
PHI 5260	Philosophy of Sex and Gender

6. One advanced course in Ethics²

PHI 5280	History of Ethics
PHI 5290	Free Will and Moral Responsibility
PHI 5300	Foundations of Ethics

7. Two total 5000-level courses in the Theory of Value, from the following: 5240, 5250, 5260, 5270, 5280, 5290, 5300, and 5330 (choice for requirement 6 and any other 5000-level choices from above requirements count here too)

8. Four total 5000-level courses (choices for requirements 6 and 7, and any other 5000-level choices from above requirements count here too)

NOTE: Courses taken at the 5000-level which are used to satisfy any of requirements 1, 2, 4, 5, and 6 may also be counted toward requirement 8, though the ten-course minimum must still be met.

Philosophy Honors

Admission to the honors program in philosophy is determined on the basis of the student's overall record. The student will normally be required to have

1. a minimum grade point average of 3.3,
2. credit in at least three philosophy courses, and
3. a 'B' or better average in philosophy courses.

To remain in the philosophy honors program, the student must maintain a 'B' or better average in philosophy courses.

Honors Requirements: To receive an Honors Degree, the candidate must complete the course requirements for the regular major. In addition the candidate must complete a total of at least fifteen credits of Honors-designated coursework, including:

1. PHI 4890 during the candidate's senior year;
2. one 42XX honors seminar offered through the Honors College;
3. at least six additional credits of Honors-designated coursework in Philosophy (other than PHI 4890); and
4. additional credits of Honors-designated coursework as needed to reach the fifteen-credit minimum.

At graduation, the overall grade point average must be at least 3.3. If at any point the student fails to maintain Honors standards, his or her credits will automatically be counted towards the regular degree major. Students interested in becoming candidates for the Honors Degree in philosophy should consult the Department's undergraduate advisor as soon as possible.

Health Care Ethics Minor

This option is primarily intended for students interested in ethics and moral issues related to medicine, health care, and science, or for students intending to pursue a career in a health care field. A candidate pursuing this minor must complete a minimum of five courses selected from the philosophy course listings (<https://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/philosophy/#coursestext>), including:

Code	Title	Credits
1. One course in critical thinking or symbolic logic:		
PHI 1050	Critical Thinking	
PHI 1070	Games, Risk, and Logic	
PHI 2850	Introductory Symbolic Logic	
PHI 2860	Honors Introductory Symbolic Logic	
PHI 5050	Advanced Symbolic Logic	
2. Introductory Ethics Requirement		
PHI 2320	Introduction to Ethics	
3. Health Care Ethics Requirement		
PHI 1110	Ethical Issues in Health Care	
4. One additional Core Course		
PHI 1200	Life and Death	
PHI 2330	Introduction to Social and Political Philosophy	
PHI 2390	Philosophy of Human Rights	
PHI 3270	Foundations of Law	
PHI 3700	Philosophy of Art	
PHI 5210	Philosophy of Race and Racism	
PHI 5240	Social and Political Philosophy	
PHI 5260	Philosophy of Sex and Gender	
PHI 5250	Justice and Rights in Health Care	
PHI 5270	Philosophy of Law	
PHI 5280	History of Ethics	
PHI 5290	Free Will and Moral Responsibility	
PHI 5300	Foundations of Ethics	
PHI 5330	Ethics, Law, and Health	
5. At least one Philosophy course at the 5000-level *		

* A 5000-level course taken to satisfy requirement 1 or 4 may also be used to satisfy requirement 5, though the five course minimum must still be met. Students wishing to do this must consult the instructor.

Humanities Minor

A candidate pursuing a Humanities Minor must complete a minimum of six courses and 18 total credits in the departments of Philosophy, English, and Classical and Modern Languages, Literatures, and Cultures (CMLLC), including the following:

Code	Title	Credits
Two PHI courses (at least one of which must be at the 2000 level or above)		6
Two ENG courses (at least one of which must be at the 5000 level or above)		6
Two courses from CMLLC at the 2000 level or above *		6
Total Credits		18

Note: No more than two courses for the Humanities Minor may be double-counted toward a Major in Philosophy, English, or a CMLLC program.

Medical Humanities Minor

A candidate pursuing a Medical Humanities Minor must complete a minimum of eighteen (18) total credits.

Note: No more than two courses for the Medical Humanities Minor may be double-counted toward a Major in Philosophy, English, or a CMLLC program.

Code	Title	Credits
Required Core Courses		6
PHI 1110	Ethical Issues in Health Care	
ANT/GLS/PH 3410	Global Health	
	or HIS 3440 American Medicine in the Twentieth Century	
Humanistic Approaches to Science and Medicine Courses		6
ARB 5700	Arabic for Healthcare Professions	
SPA 3050	Spanish for the Health Care Profession	
CLA 1230	Word Origins: English Words from Greek and Latin	
ENG 2420	Environmental Writing: Writing about Texts	
ENG 3050	Technical Communication I: Reports	
ENG 3060	Technical Communication II: Presentations	
ENG 3200	Grant Writing	
ENG 3250	Professional Editing	
ENG 5830	Writing in the Workplace	
PHI 1200	Life and Death	
PHI 2110	Philosophy of the Scientific Revolution and Enlightenment	
PHI 2140	Ancient Greek Medicine and Psychology	
PHI 2550	Introduction to Philosophy of Science	
PHI 2650	Minds and Machines	
POL 3060	Medical Polish I	
POL 3061	Medical Polish II	
PHI 5250	Justice and Rights in Health Care	
Ethics and Cultural Diversity Course		3
AFS 2210	Black Social and Political Thought	
AFS 2390	Introduction to African-American Literature: Writing about Texts	
AFS 2600	Race and Racism in America	
ENG 3470	Survey of African-American Literature	
ENG 5030	Topics in Women's Studies	
ENG 5035	Topics in Gender and Sexuality Studies	
ENG 5480	Topics in African American Literature	
ENG 5595	Topics in Global Literatures	
GLS 2900	Intercultural Competence for a Global World	
GSW 2500	Humanities Perspectives on Gender, Sexuality, and Women	
PHI 1100	Contemporary Moral Issues	
PHI 1500	Race, Sex, and Religion	
PHI 2320	Introduction to Ethics	
PHI 2360	Feminist Philosophy	
PHI 2390	Philosophy of Human Rights	
PHI 5260	Philosophy of Sex and Gender	
PHI 5230	Philosophy of Science	

Elective course (maximum 3 credits)	3
Any course listed above	
Any course in PHI at the 2000 level or above	
Any course in ENG at the 3000 level or above	
Any course in CMLLC at the 2020 level or above	
ANT 3400	Introduction to Medical Anthropology
ANT 5140	Biology and Culture
ANT 5180	Forensic Anthropology
HIS 5407	The Scientific Revolution
NFS 2030	Nutrition and Health
PH 2100	Introduction to Public Health
SOC 2210	Sociology of Health and Medicine
SOC 4205	Seminar in Medical Sociology

Total Credits **18**

Philosophy Minor

This option is primarily intended for those students whose interests in philosophy are broad and general. A candidate pursuing this minor must complete a minimum of five courses selected from the philosophy course listings (p.), including:

Code	Title	Credits
1. One course in critical thinking or symbolic logic:		
PHI 1050	Critical Thinking	
PHI 1070	Games, Risk, and Logic	
PHI 2850	Introductory Symbolic Logic	
PHI 2860	Honors Introductory Symbolic Logic	
PHI 5050	Advanced Symbolic Logic	
2. Two courses at the 2000- or 3000-level		
3. One course at the 5000-level		
4. One additional course of the candidate's choice at any level *		

* PHI 5050 taken in compliance with requirement 1 may be used to satisfy requirement 4, though the five course minimum must still be met. Students wishing to do this must consult the instructor.

Pre-Law Minor

This option is primarily intended for students intending on going to Law School, or for students especially interested in issues related to philosophy of law. A candidate pursuing this minor must complete a minimum of five courses selected from the philosophy course listings (<https://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/philosophy/#coursestext>), including:

Code	Title	Credits
1. One course in critical thinking or symbolic logic:		
PHI 1050	Critical Thinking	
PHI 1070	Games, Risk, and Logic	
PHI 2850	Introductory Symbolic Logic	
PHI 2860	Honors Introductory Symbolic Logic	
PHI 5050	Advanced Symbolic Logic	
2. Two of the following courses:		
PHI 2320	Introduction to Ethics	
PHI 2330	Introduction to Social and Political Philosophy	
PHI 2390	Philosophy of Human Rights	
PHI 3270	Foundations of Law	

PHI 5240	Social and Political Philosophy
PHI 5270	Philosophy of Law
PHI 5330	Ethics, Law, and Health
3. One of the following courses:	
PHI 1100	Contemporary Moral Issues
PHI 1110	Ethical Issues in Health Care
PHI 1120	Professional Ethics
PHI 1130	Environmental Ethics
PHI 1500	Race, Sex, and Religion
PHI 2360	Feminist Philosophy
PHI 5210	Philosophy of Race and Racism
PHI 5260	Philosophy of Sex and Gender
4. At least one course at the 5000-level *	

Footnotes

* 5000-level courses taken to satisfy any of requirements 1, 2, or 3 may be used to satisfy requirement 4, though the five course minimum must still be met. Students wishing to do this must consult the instructor.

Religious Studies Minor

Religious Studies aims at an academic investigation of the world's religions, of religious history, and of the place of religion in world cultures and societies from the ancient to the present. It draws on faculty resources from a wide range of traditional academic disciplines: anthropology, history, philosophy, classics, Near Eastern studies, Asian studies, literature, art history, political science, and sociology. Religious Studies respects the beliefs and backgrounds of the students who pursue courses in this area, but it also approaches its objects of study in a thoroughly scholarly manner, maintaining both intellectual openness and critical rigor.

The Minor in Religious Studies is designed to give undergraduates majoring in other disciplines familiarity both with religious traditions themselves and with the wide range of academic approaches to the study of religion in fields such as Anthropology, History, Philosophy, and Sociology.

The minor requires a minimum of eighteen credits with the following required courses and electives.

Code	Title	Credits
Required Courses		
PHI/NE 1900	Comparative Religion	3
or ANT 3560	World's Religions	
PHI 2400	Introduction to the Philosophy of Religion	3
SOC 2209	Sociology of Religion	3
Electives		
Three additional courses with substantial content concerning religious traditions to be approved by the Director of Religious Studies. Such courses include but are not necessarily limited to these.		
ANT 5370	Magic, Religion and Science	3
CLA 3530	The World of Early Christianity	3
CLA 3590	Byzantine Civilization	3
NE 2000	Introduction to Islamic Civilization of the Near East	3
NE 2010	The Bible and Ancient Mythology	3
ITA 3500	Dante in Translation: The Divine Comedy	3
NE 5300	Quran: History and Interpretation	3

PCS 2010/ PS 2830	Topics in Peace and Conflict Studies (When taught as "Conflict and Religion")	1-4
PHI 2150	Chinese Philosophy	3
PHI 2170	Islamic and Near Eastern Philosophy	3
PHI 5800	Special Topics in Philosophy	2-4

Physics and Astronomy

Office: 135 Physics Research Building; 313-577-2721

Chairperson: Ed Cackett

Undergraduate Academic Advisor: Dawn Niedermiller

<https://clas.wayne.edu/physics> (<https://clas.wayne.edu/physics/>)

Physics is the science that describes the behavior of the physical world. It is the most basic of all sciences and as such is responsible for the interpretation of fundamental physical processes which support many other scientific disciplines. The study of physics involves many of the significant ideas that have shaped Western civilization, and the excitement of ongoing scientific challenges. Currently, physicists conduct research into the basic laws of nature and also make use of these ideas to design and develop new technologies. Thus, training in physics offers a variety of opportunities. Careers are possible in research laboratories, in academic teaching capacities, in hospitals, the military, power plants, museums, patent law firms, computer companies, and in a host of other areas.

Faculty members in this department are devoted to teaching and research and hold national and international reputations in their areas of specialization, which include: high energy physics, nuclear physics, atomic physics, the physics of condensed matter, material science, mathematical physics, applied physics, and quantum field theory. They organize and participate in conferences, publish extensively, and receive numerous outside grants, contracts and fellowships. In addition, they engage in many collaborations with scientists in both foreign and American universities and national laboratories.

Physics Colloquium: The department colloquium is normally held Thursday afternoons. Advanced undergraduates are invited to attend.

Courses for Non-Science Majors: The department offers several courses designed primarily for non-science majors for which only minimal high school mathematics preparation is needed. The courses are:

Code	Title	Credits
AST 2010	Descriptive Astronomy	4
PHY 1020	Conceptual Physics: The Basic Science	3
PHY 3100	The Sounds of Music	4

- Astronomy (B.A.) (p. 310)
- Astronomy (B.S.) (p. 311)
- Biomedical Physics (B.S.) (p. 312)
- Physics (B.A.) (p. 313)
- Physics (B.S.) (p. 314)
- Astronomy Minor (p. 315)
- Biomedical Physics Minor (p. 315)
- Physics Minor (p. 316)

Astronomy (B.A.)

This program is intended to provide students with foundational knowledge in astronomy and space science. Students will graduate with strong scientific preparation and communication skills and will have a wide range of career options including entry-level jobs as well as graduate education in law, business, education, social and physical sciences. In short, these students will have all the traditional options of liberal arts majors with the added advantage of a unique science background.

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Students must receive a grade of C- or better in all physics and/or astronomy courses and prerequisite courses. A cumulative grade point average of 2.0 or higher for all course work is required for graduation.

Additionally, student must complete:

Code	Title	Credits
AST 1010	Discovering the Universe	1
AST 2010	Descriptive Astronomy	4
AST 2011	Descriptive Astronomy Laboratory	1
AST 2030	Life in the Universe	3
PHY 2170	University Physics for Scientists I ¹	4
PHY 2171	University Physics Laboratory	1
PHY 2180	University Physics for Scientists II ¹	4
PHY 2181	University Physics Laboratory II	1
PHY 3300	Introductory Modern Physics	3
PHY 3310	Introductory Modern Physics Laboratory	2
PHY 3750	Introduction to Computational Methods	1
AST 4100	Astronomical Techniques	3
AST 4200	Astronomical Laboratory	2
AST 4300	Planetary Astronomy and Space Science	3
AST 5010	Astrophysics and Stellar Astronomy	3
AST 5100	Galaxies and the Universe	3
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
PHY 6750	Applied Computational Methods	2-3
or PHY 6860	Computational Physics	
Total Credits		49-50

¹ A student may present credits in PHY 2130, PHY 2140 or equivalent, in lieu of PHY 2170 and PHY 2180, with the consent of the Departmental Undergraduate advisor.

Electives to complete credits required for the degree may include any courses from the College of Liberal Arts and Sciences.

Physics AGRADE Program

Seniors in Physics and Astronomy, with a minimum grade point average of 3.5, may enroll simultaneously in the undergraduate and graduate programs. These students can apply up to fifteen credits towards both the bachelors and masters degrees in physics. Contact Undergraduate Academic Advisor for further information.

Astronomy (B.S.)

The Bachelor of Science (BS) degree in Astronomy provides a rigorous physical sciences program for those with an interest in astronomy. The strong math, physics and astronomy background of this program will prepare students wanting to pursue graduate school. Moreover, the problem solving, data analysis, scientific communication, physical

reasoning, and computational skills developed during the program provides preparation for careers in a wide range of STEM-related professional fields.

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Note: In some cases the requirements of a specific program will increase the number of credits above 120.

Students must receive a grade of C- or better in all physics and/or astronomy courses, and a minimum grade of C- is required in all prerequisite courses. A cumulative grade point average of 2.0 or higher for all course work is required for graduation.

Students should consult with the Undergraduate Academic Advisor in the Department of Physics and Astronomy for more detailed information concerning the various degrees and options outlined below.

Code	Title	Credits
AST 1010	Discovering the Universe	1
AST 2010 & AST 2011	Descriptive Astronomy and Descriptive Astronomy Laboratory	5
AST 2030	Life in the Universe	3
AST 4100	Astronomical Techniques	3
AST 4200	Astronomical Laboratory	2
AST 4300	Planetary Astronomy and Space Science	3
AST 5010	Astrophysics and Stellar Astronomy	3
AST 5100	Galaxies and the Universe	3
AST 6080	Survey of Astrophysics	3
PHY 2170 & PHY 2171	University Physics for Scientists I and University Physics Laboratory	5
PHY 2180 & PHY 2181	University Physics for Scientists II and University Physics Laboratory II	5
PHY 3300 & PHY 3310	Introductory Modern Physics and Introductory Modern Physics Laboratory	5
PHY 3750	Introduction to Computational Methods	1
PHY 6750 or PHY 6860	Applied Computational Methods Computational Physics	2-3
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
MAT 2150	Differential Equations and Matrix Algebra	4
Two electives in Physics		6
Total Credits		66-67

Physics AGRADE Program

Seniors in Physics and Astronomy, with a minimum grade point average of 3.5, may enroll simultaneously in the undergraduate and graduate programs. These students can apply up to fifteen credits towards both the bachelors and masters degrees in physics. Contact Undergraduate Academic Advisor for further information.

Biomedical Physics (B.S.)

Biomedical Physics deals with applications of physics to questions of biology and medicine. It is an interdisciplinary program, combining courses from physics, biology and medicine designed to train students to use quantitative, physical science inspired approaches to problems of the life sciences. Graduates of this program will be prepared for careers or graduate studies in biophysics, medicine, biomedical engineering, medical physics or any other field requiring physical and technological approaches to medical or biological questions.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. In addition, a student must possess an overall g.p.a. of at least 3.0 for the following four courses to become a B.S. candidate in Biomedical Physics:

Code	Title	Credits
Select one of the following: 10		
Option 1		
PHY 2130 & PHY 2131	Physics for the Life Sciences I and Physics for the Life Sciences Laboratory	
PHY 2140 & PHY 2141	Physics for the Life Sciences II and Physics for the Life Sciences Laboratory	
Option 2		
PHY 2170 & PHY 2171	University Physics for Scientists I and University Physics Laboratory	
PHY 2180 & PHY 2181	University Physics for Scientists II and University Physics Laboratory II	
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4

Program Requirements

Candidates must complete at least 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees. All students will be required to maintain an overall grade point average of 'C' (2.0) for all degree work, as well as a grade point average of at least 2.5 in all major and cognate requirements.

Major Requirements

All B.S. candidates in Biomedical Physics must take:

Code	Title	Credits
PHY 1001	Perspectives in Physics, Biomedical Physics, and Astronomy	1
PHY 2130 or PHY 2170	Physics for the Life Sciences I or University Physics for Scientists I	4
PHY 2131 or PHY 2171	Physics for the Life Sciences Laboratory or University Physics Laboratory	1
PHY 2140 or PHY 2180	Physics for the Life Sciences II or University Physics for Scientists II	4
PHY 2141 or PHY 2181	Physics for the Life Sciences Laboratory or University Physics Laboratory II	1
PHY 3300	Introductory Modern Physics	3
PHY 3750	Introduction to Computational Methods	1
PHY 4700	Introduction to Biomedical Physics	4

PHY 5750	Biological Physics	4
PHY 6290	Survey of Biophysics	3
PHY 6750	Applied Computational Methods	2
PHY 6780	Research Methods in Biomedical Physics	3
ROC 6710	Physics in Medicine	3
Total Credits		34

Cognate Requirements

B.S. candidates in Biomedical Physics must also take:

Code	Title	Credits
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
Two general chemistry courses with labs		10
BIO 1510 & BIO 1511	Basic Life Mechanisms and Basic Life Mechanisms Laboratory	4
Total Credits		22

Some of these courses can be waived with the approval of the Biomedical Physics Advisor if proof of proficiency is provided or a higher level course is substituted.

Concentrations

All BMP majors are required to choose a concentration. The BMP program offers three concentrations: Biophysics, Medical Physics, and Premedical.

Biophysics Concentration

In addition to the requirements listed above, students taking the biophysics concentration will be required to take:

Code	Title	Credits
PHY 3500	Introduction to Thermal and Fluid Physics	3
PHY 5340 & PHY 5341	Optics and Optics Laboratory	5
PHY 5620 & PHY 5621	Electronics and Electrical Measurements and Electronics and Electrical Measurements Laboratory	5
Total Credits		13

Medical Physics Concentration

In addition to the requirements listed above, students taking the medical physics concentration will be required to take:

Code	Title	Credits
Select one of the following: 5		
PHY 5340 & PHY 5341	Optics and Optics Laboratory	
PHY 5620 & PHY 5621	Electronics and Electrical Measurements and Electronics and Electrical Measurements Laboratory	
PHY 6600	Electromagnetic Fields I	4
MAT 2150	Differential Equations and Matrix Algebra	4
BIO 1500 & BIO 1501	Basic Life Diversity and Basic Life Diversity Laboratory	4
Total Credits		17

Students taking the medical physics concentration are *strongly encouraged* to take PHY 2170/PHY 2171 and PHY 2180/PHY 2181 instead of PHY 2130/PHY 2131 and PHY 2140/PHY 2141. For consideration by

medical physics professional programs, students taking the Medical Physics concentration are also *strongly encouraged* to take BIO 2600.

Premedical Concentration

In addition to the requirements listed above, students taking the premedical concentration will be required to take:

Code	Title	Credits
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	5
BIO 1500 & BIO 1501	Basic Life Diversity and Basic Life Diversity Laboratory	4
Select one of the following:		5
PHY 5340 & PHY 5341	Optics and Optics Laboratory	
PHY 5620 & PHY 5621	Electronics and Electrical Measurements and Electronics and Electrical Measurements Laboratory	
Total Credits		14

Students taking the premed option are also *strongly encouraged* to take the following courses to satisfy the premedical requirements:

Code	Title	Credits
CHM 2220 & CHM 2230	Organic Chemistry II and Organic Chemistry II Laboratory	5
BIO 2600	Introduction to Cell Biology	4
BIO 3200	Human Physiology	3
Biochemistry:		3
BIO 3100 or CHM 5600	Cellular Biochemistry Survey of Biochemistry	

Physics and Biomedical Physics Honors Program

Undergraduate majors, in both Physics and Biomedical Physics, with a minimum grade point average of 3.3 can enroll in the Honors program of the Department of Physics and Astronomy. Prospective students should consult the departmental Undergraduate Academic Advisor as soon as they declare their major to learn about specific requirements.

Physics AGRADE Program

Seniors in Physics and Astronomy, with a minimum grade point average of 3.5, may enroll simultaneously in the undergraduate and graduate programs. These students can apply up to fifteen credits towards both the bachelors and masters degrees in physics. Contact Undergraduate Academic Advisor for further information.

Biomedical Physics-BME AGRADE Program

Outstanding seniors in Biomedical Physics, who have completed at least 90 credits and have an overall GPA of at least 3.5, and major biomedical physics classes GPA at least 3.6, can apply to enter the cross-college AGRADE program between the Biomedical Physics undergraduate program (College of Liberal Arts and Sciences) and Biomedical Engineering (BME) Master's programs (College of Engineering). The AGRADE program allows students to apply up to 15 credits of selected graduate courses, taken as an undergraduate, towards a Master's degree in Biomedical Engineering. The Physics courses that can be counted towards MS-BME degree include PHY 5340/PHY 5341 or PHY 5620/PHY 5621, PHY 5750, and PHY 6780. This enables students to complete an undergraduate

degree in Biomedical Physics and a graduate degree in Biomedical Engineering in just 5 years of full-time study. For more details, please contact the undergraduate Physics advisor in the Department of Physics and Astronomy, or the graduate advisor in the Department of Biomedical Engineering.

Physics (B.A.)

This program is intended to meet the needs of several kinds of students:

1. students wishing to major in physics who have transferred to Wayne State University after one or two years at a community college, but whose background in physics and mathematics does not complement the content, level, or scheduling of remaining course requirements well enough to permit completion of the Bachelor of Science degree curriculum in a reasonable time;
2. students who wish to pursue a general course of education in the sciences with physics as an area of concentration. Those who undertake such a program are sometimes interested in the study of physics as an integrated part of a broad educational background;
3. students who decide relatively late in their college careers (for example, during the sophomore year) that they wish to major in physics.

It should be emphasized that completion of the Bachelor of Arts program instead of the Bachelor of Science program does not preclude later graduate work in physics. In most cases, it will mean that the student will spend part or all of his/her first year in graduate school making up deficiencies in his or her physics and mathematics background. Generally speaking, such deficiencies may be determined by consulting the Suggested Course Sequence of the Bachelor of Science degree in physics.

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Students must receive a grade of C- or better in all physics and/or astronomy courses. A cumulative grade point average of 2.0 or higher for all course work is required for graduation.

For the B.A. in physics, students must complete:

Code	Title	Credits
PHY 2170 & PHY 2171	University Physics for Scientists I and University Physics Laboratory *	5
PHY 2180 & PHY 2181	University Physics for Scientists II and University Physics Laboratory II *	5
PHY 3300 & PHY 3310	Introductory Modern Physics and Introductory Modern Physics Laboratory	5
PHY 3500	Introduction to Thermal and Fluid Physics	3
PHY 3750	Introduction to Computational Methods	1
PHY 5620 & PHY 5621	Electronics and Electrical Measurements and Electronics and Electrical Measurements Laboratory	5
PHY 6750	Applied Computational Methods	2
PHY 6850	Modern Physics Laboratory	2
Two electives in physics, astronomy or mathematics		6-8

MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
CHM 1100 & CHM 1130	General Chemistry I and General Chemistry I Laboratory	5
Total Credits		47-49

* A student may present credits in PHY 2130, PHY 2140 or equivalent, in lieu of PHY 2170 and PHY 2180, with the consent of the Departmental Undergraduate advisor.

Physics and Biomedical Physics Honors Program

Undergraduate majors, in both Physics and Biomedical Physics, with a minimum grade point average of 3.3 can enroll in the Honors program of the Department of Physics and Astronomy. Prospective students should consult the departmental Undergraduate Academic Advisor as soon as they declare their major to learn about specific requirements.

Physics AGRADE Program

Seniors in Physics and Astronomy, with a minimum grade point average of 3.5, may enroll simultaneously in the undergraduate and graduate programs. These students can apply up to fifteen credits towards both the bachelors and masters degrees in physics. Contact Undergraduate Academic Advisor for further information.

Physics (B.S.)

The Bachelor of Science program offers several options. Each option is designed to meet the needs of a particular group of students although each is flexible enough to avoid limiting the student to a particular future program. Students take a logically-developed sequence of physics courses on a broad range of topics. The introductory sequence uses calculus, and later courses investigate single areas in greater depth, using more advanced mathematics. In advanced laboratory courses the physics student uses sophisticated equipment and sometimes has an opportunity to join a research team.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Students must receive a grade of C- or better in all physics and/or astronomy courses, and a minimum grade of C- is required in prerequisite courses. A cumulative grade point average of 2.0 or higher for all course work is required for graduation.

Basic Requirements for All Options

Code	Title	Credits
PHY 2170 & PHY 2171	University Physics for Scientists I and University Physics Laboratory	5
PHY 2180 & PHY 2181	University Physics for Scientists II and University Physics Laboratory II	5

PHY 3300 & PHY 3310	Introductory Modern Physics and Introductory Modern Physics Laboratory	5
PHY 3500	Introduction to Thermal and Fluid Physics	3
PHY 3750	Introduction to Computational Methods	1
PHY 5200	Classical Mechanics I	4
MAT 2010	Calculus I	4
MAT 2020	Calculus II	4
MAT 2030	Calculus III	4
MAT 2150	Differential Equations and Matrix Algebra	4
CHM 1100 & CHM 1130	General Chemistry I and General Chemistry I Laboratory	5
Total Credits		44

Advanced Physics Option

This option is primarily for students who intend to go on to graduate study in physics. It also satisfies the requirements of industrial and governmental employers who demand a traditional education in physics.

Additional requirements beyond the Basic Requirements listed above:

Code	Title	Credits
PHY 6400	Quantum Physics I	4
PHY 6500	Thermodynamics and Statistical Physics	4
PHY 6600	Electromagnetic Fields I	4
PHY 6850	Modern Physics Laboratory	2
PHY 6860	Computational Physics	3
Select one of the following:		5
PHY 5340 & PHY 5341	Optics and Optics Laboratory	
PHY 5620 & PHY 5621	Electronics and Electrical Measurements and Electronics and Electrical Measurements Laboratory	
Select two of the following:		6
PHY 6260	Survey of Elementary Particle Physics	
PHY 6270	Survey of Nuclear Physics	
PHY 6290	Survey of Biophysics	
Total Credits		28

Engineering and Applied Physics Option

The B.S. degree in the Engineering and Applied Physics option is intended to provide the interdisciplinary training that is required for a variety of applied fields, while still providing an understanding of the physical foundations of those fields. Programs are designed to combine fundamental physics courses with engineering and other science courses, in order to prepare students for careers in industry (particularly engineering fields) as well as graduate programs in these areas. There is sufficient flexibility in this program that a set of courses can be designed to match a student's interest in such areas as semiconductor physics, material physics, computational physics, biophysics, optics and laser physics, and other areas. Students interested in enriching their education with on-the-job experience may apply for internships with cooperating research laboratories by contacting the departmental undergraduate advisor.

Additional requirements beyond the Basic Requirements listed above:

Code	Title	Credits
PHY 6600	Electromagnetic Fields I	4
PHY 5340 & PHY 5341	Optics and Optics Laboratory	5

PHY 5620 & PHY 5621	Electronics and Electrical Measurements and Electronics and Electrical Measurements Laboratory	5
PHY 6850	Modern Physics Laboratory	2
Select one of the following:		2-3
PHY 6750	Applied Computational Methods	
PHY 6860	Computational Physics	
Select one of the following:		3-4
PHY 6400	Quantum Physics I	
PHY 6500	Thermodynamics and Statistical Physics	
Select one of the following:		3
PHY 6260	Survey of Elementary Particle Physics	
PHY 6270	Survey of Nuclear Physics	
PHY 6290	Survey of Biophysics	
Total Credits		24-26

Physics and Biomedical Physics Honors Program

Undergraduate majors, in both Physics and Biomedical Physics, with a minimum grade point average of 3.3 can enroll in the Honors program of the Department of Physics and Astronomy. Prospective students should consult the departmental Undergraduate Academic Advisor as soon as they declare their major to learn about specific requirements.

Physics AGRADE Program

Seniors in Physics and Astronomy, with a minimum grade point average of 3.5, may enroll simultaneously in the undergraduate and graduate programs. These students can apply up to fifteen credits towards both the bachelors and masters degrees in physics. Contact Undergraduate Academic Advisor for further information.

Interdisciplinary Physics-ECE AGRADE Program

Outstanding seniors in Physics (both Engineering and Applied Physics option and Advanced Physics option), who have completed at least 90 credits and have an overall GPA of at least 3.5, and major physics classes GPA at least 3.6, can apply to enter the cross-college AGRADE program between the Physics undergraduate program (College of Liberal Arts and Sciences) and Electrical Engineering (EE) Master's programs (College of Engineering). The AGRADE program allows students to apply up to 12 credits of selected graduate courses, taken as an undergraduate, towards a Master's degree in Electrical Engineering. The Physics courses that can be counted towards MS-EE degree include PHY 5340/PHY 5341, PHY 5620/PHY 5621, and PHY 5100. This enables students to complete an undergraduate degree in Physics and a graduate degree in Electrical Engineering in just 5 years of full-time study. For more details, please contact the undergraduate Physics advisor in the Department of Physics and Astronomy, or the graduate advisor in the Department of Electrical and Computer Engineering.

Astronomy Minor

The Department of Physics and Astronomy offers a minor in astronomy to qualified students. The requirement for a minor consists of the following:

Code	Title	Credits
PHY 2170 or PHY 2130	University Physics for Scientists I ¹ Physics for the Life Sciences I	4
PHY 2171	University Physics Laboratory ¹	1

or PHY 2131	Physics for the Life Sciences Laboratory	
PHY 2180 or PHY 2140	University Physics for Scientists II ¹ Physics for the Life Sciences II	4
PHY 2181 or PHY 2141	University Physics Laboratory II ¹ Physics for the Life Sciences Laboratory	1
PHY 3300	Introductory Modern Physics ³	3
PHY 3310	Introductory Modern Physics Laboratory	2
Select three courses from the following:		9
AST 4100	Astronomical Techniques ²	
AST 4300	Planetary Astronomy and Space Science	
AST 5010	Astrophysics and Stellar Astronomy	
AST 5100	Galaxies and the Universe	
Total Credits		24

¹ If students take PHY 2130 and PHY 2140 then they must earn a cumulative 3.0 g.p.a. in those courses to be able to take PHY 3300.

² If students choose to take AST 4100 as one of the elective upper-level astronomy classes, then, AST 4200 is a co-requisite.

³ MAT 2010 and MAT 2020 are prerequisites for this course.

Many science and/or engineering majors already take the required calculus and basic physics sequence as part of their studies, however, non-science majors are unlikely to be able to complete the minor in under 24 credits. Students should consult the departmental Undergraduate Academic Advisor for approval of the minor prior to undertaking the program.

Biomedical Physics Minor

The Department of Physics and Astronomy offers a minor in Biomedical Physics (BMP). The requirements for a BMP minor consist of:

Code	Title	Credits
PHY 2130 or PHY 2170	Physics for the Life Sciences I University Physics for Scientists I	4
PHY 2131 or PHY 2171	Physics for the Life Sciences Laboratory University Physics Laboratory	1
PHY 2140 or PHY 2180	Physics for the Life Sciences II University Physics for Scientists II	4
PHY 2141 or PHY 2181	Physics for the Life Sciences Laboratory University Physics Laboratory II	1
PHY 4700	Introduction to Biomedical Physics	4
Select a minimum of 10 credits from the following:		10
PHY 3750	Introduction to Computational Methods	
PHY 6750	Applied Computational Methods	
PHY 3500	Introduction to Thermal and Fluid Physics	
PHY 5340 & PHY 5341 or PHY 5620 & PHY 5621	Optics and Optics Laboratory Electronics and Electrical Measurements and Electronics and Electrical Measurements Laboratory	
PHY 5750	Biological Physics	
PHY 6290	Survey of Biophysics	
PHY 6780	Research Methods in Biomedical Physics	
Or other course with prior departmental approval		
Total Credits		24

The students should consult the departmental Undergraduate Academic Advisor for approval of the minor prior to undertaking the program.

Physics Minor

The Department of Physics and Astronomy offers a minor in physics to qualified students from other Departments. The requirement for a minor consists of:

Code	Title	Credits
Select one of the following groups:		10
Group 1		
PHY 2170	University Physics for Scientists I	
PHY 2171	University Physics Laboratory	
PHY 2180	University Physics for Scientists II	
PHY 2181	University Physics Laboratory II	
Group 2		
PHY 2130	Physics for the Life Sciences I	
PHY 2131	Physics for the Life Sciences Laboratory	
PHY 2140	Physics for the Life Sciences II	
PHY 2141	Physics for the Life Sciences Laboratory	
PHY 3300 & PHY 3310	Introductory Modern Physics and Introductory Modern Physics Laboratory	5
Select at least three other physics courses at the 3000 level or above		9-12
Total Credits		24-27

Students should consult the departmental Undergraduate Academic Advisor for approval of the minor prior to undertaking the program.

Political Science

Office: 2040 Faculty/Administration Building; 313-577-2630

Chairperson: Sharon F. Lean

<https://clas.wayne.edu/politicalscience> (<https://clas.wayne.edu/politicalscience/>)

The study of political science is focused on understanding the nature and problems of government and the role of politics in contemporary society. This is accomplished through systematic exploration of the structure and processes of government at different levels and across nations, through study of individual and collective political behavior, and through analyses of policy problems and the processes through which public policies are formulated and administered. Political science contributes to the goals of general education by promoting civic literacy and cultivating an awareness of the opportunities and obligations of citizenship at local, state, and national levels.

The field of political science is of special importance to students whose career goals include:

1. Professions likely to involve participation in public affairs, including law, engineering, criminal justice, public health, social welfare and education.
 2. Administrative or executive positions in government at the local, state or federal levels.
 3. Teaching of political and social science at the secondary, junior college and university levels.
 4. Positions in the diplomatic service and in foreign and overseas programs of the U.S. Government and of other organizations doing business abroad.
 5. Leadership, research, and staff roles in citizen organizations, political parties, campaign organizations, economic and social interest groups, municipal research bureaus, and nonprofit organizations.
 6. Positions associated with mass communications, such as radio, television and newspapers, where basic understanding of public affairs and governmental policies and organization is required for accurate reporting and analysis.
 7. Positions in private enterprise where knowledge of governmental processes is essential, such as in industrial relations, legislative liaison and public relations.
- Political Science (B.A.) (p. 316)
 - Public Affairs (B.P.A.) (p. 319)
 - Political Science Minor (p. 320)

Political Science (B.A.)

Political science majors are offered the opportunity to develop programs of study that complement their particular interests and career goals. The major may be used to structure a broad general program or a highly concentrated and specialized one. The following requirements pertain to all B.A. majors.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. To enter the Bachelor of Arts degree program in political science, students must declare their major in accordance with the rules of the College.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and

the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees. Students wishing to apply transfer credits toward the major should consult the political science undergraduate advisor regarding departmental policies and restrictions on the use of these credits. Students must complete a minimum of 16 credit hours of Political Science course work at Wayne State University.

Major Requirements

A political science major must satisfactorily complete at least thirty-two credits of course work in the Department beyond PS 1010 or 1030. This course work must include:

Code	Title	Credits
PS 1010	American Government	4
or PS 1000	Introduction to Political Science	
or PS 1030	The American Governmental System	
PS 1050	Understanding Political Science Statistics	4
Select two of the following:		8
PS 2410	Introduction to Public Policy	
PS 2510	Introduction to Political Ideologies	
PS 2710	Introduction to Comparative Politics	
PS 2810	World Politics	
Select at least four courses at the 3000 level or higher, of which at least one must be at the 4000 level or higher ¹		12-16
A Writing Intensive (WI) course in political science that is taken after having previously completed at least two Political Science courses at the 3000 level or higher ²		0

¹ PS 5993 does not count toward fulfillment of this requirement.

² with co-registration in PS 5993. Any political science course at the 3000-level or higher, except PS 5630 and PS 6640, may, with the permission of the instructor, be used to fulfill this requirement.

To satisfy the Writing Intensive requirement, the student must demonstrate proficiency in writing on disciplinary subject matter in a form and style that conform to disciplinary standards. To use a course for this purpose, the student must obtain approval from the instructor and follow the guidelines established by the instructor to demonstrate the required proficiency. The student must also co-register in PS 5993, a zero-credit course for which the student will receive a grade of Satisfactory (S) upon certification by the instructor that the writing requirement has been fulfilled. Note that completion of the WI course has the following prerequisites: a) completion of the Intermediate Composition (IC or ICN) requirement and b) the completion of at least two Political Science courses at the 3000 level or higher.

Recommended Course: It is recommended that majors include PS 3600, Methods of Political Inquiry, in their programs of study.

Political Science Fields of Study

In developing their specific programs of study, students should consult with the political science undergraduate advisor. They may pursue a general program or choose to concentrate in a particular field or subfield. It is not mandatory that a student have an area of concentration; the listings are only suggestive.

Concentrations may be designated as follows: American Government and Politics, Public Law/Legal Studies, Public Policy and Administration, Quantitative Political Analysis, Comparative Politics, World Politics, and

Political Philosophy and Ethics. Students must complete a minimum of five related courses to earn a concentration.

American Government and Politics

Public opinion, electoral politics, and participation in the political process; the role of political parties and interest groups and of the mass media; the workings of Congress, the Presidency, and other governmental institutions. Courses relevant to this area of concentration include (but are not limited to):

Code	Title	Credits
PS 3010	Public Opinion and Political Behavior	4
PS 3020	Political Parties and Elections	4
PS 3025	Political Campaigns in America	4
PS 3030	Political Interest Groups	4
PS 3040	The Legislative Process	4
PS 3050	Politics of the American Presidency	4
PS 3060	State Government and Politics	4
PS 3070	Michigan Politics	4
PS 3080	Gender and Politics	4
PS 3430	Bureaucracy and Public Policy	4
PS 5030	African American Politics	4
PS 5040	Religion and Politics	4
PS 6010	Political Psychology	3
PS 6020	Intergovernmental Relations and American Federalism	3

Public Law/Legal Studies

Judicial interpretation of the Constitution; civil liberties and constitutional rights; the law as a profession; law enforcement and the operations of the judicial system; international dimensions of law. Courses relevant to this area of concentration include (but are not limited to):

Code	Title	Credits
PS 3100	American Legal Systems and Processes	4
PS 3120	Politics of the Criminal Justice Process	3
PS 3520	Theories of Justice	4
PS 5110	Constitutional Law	4
PS 5120	Constitutional Rights and Liberties	4
PS 5820	International Law	4
PS 5850	Human Rights	4
PS 6870	United States Foreign Relations Law	4

Public Policy and Administration

How policy is formulated, decided, implemented, and evaluated at all levels of government; moral and political standards for making policy; the nature and functions of public agencies; techniques of public management; public bureaucracy in its social setting. Courses relevant to this area of concentration include (but are not limited to):

Code	Title	Credits
PS 2000	Introduction to Urban Studies	4
PS 2240	Introduction to Urban Politics and Policy	4
PS 2310	Introduction to Public Administration	4
PS 2410	Introduction to Public Policy	4
PS 2420	Ethics and Politics of Public Policy	4
PS 2460	Policy and Rationality: Dilemmas of Choice	4
PS 3250	Detroit Politics: Continuity and Change in City and Suburbs	4
PS 3430	Bureaucracy and Public Policy	4

PS 3450	Environmental Policy and Politics	4
PS 4460	Techniques of Policy Analysis	4
PS 5850	Human Rights	4
PS 6020	Intergovernmental Relations and American Federalism	3
PS 6700	Financial Management for Nonprofit Organizations	3

Political Philosophy and Ethics

The justification and application of ethical standards to politics; history and analysis of authority and rebellion, individualism and community, justice and equality; modern ideologies such as communism, socialism, liberalism, and conservatism. Courses relevant to this area of concentration include (but are not limited to):

Code	Title	Credits
PS 2420	Ethics and Politics of Public Policy	4
PS 2510	Introduction to Political Ideologies	4
PS 3515	American Political Thought	3-4
PS 3520	Theories of Justice	4
PS 3530	Great Political Thinkers I	4
PS 3540	Great Political Thinkers II	4
PS 5560	Biopolitics	4
PS 5850	Human Rights	4

Quantitative Political Analysis

Methods of analysis used to assess alternatives and evaluate the impact of government policy; methods of empirical political research including data collection, statistical description and inference, and the use of computers to organize and interpret data. Courses relevant to this area of concentration include (but are not limited to):

Code	Title	Credits
PS 1050	Understanding Political Science Statistics	4
PS 2460	Policy and Rationality: Dilemmas of Choice	4
PS 3600	Methods of Political Inquiry	4
PS 4460	Techniques of Policy Analysis	4
PS 5630	Statistics and Data Analysis in Political Science I	4
PS 6640	Statistics and Data Analysis in Political Science II	3

Comparative Politics

The study of government and politics of western, non-western, and third world countries in their historical, cultural, and economic settings; problems of comparison across cultural and national boundaries. Courses relevant to this area of concentration include (but are not limited to):

Code	Title	Credits
PS 2700	Introduction to Canadian Studies	3
PS 2710	Introduction to Comparative Politics	4
PS 3710	Politics of Western Europe	4
PS 3715	Politics of Central and Eastern Europe	4
PS 3735	Politics of Latin America	4
PS 3770	Politics of East Asia	4
PS 3795	Latin America in World Affairs	4
PS 4710	Democracy	4
PS 4725	Globalization and Politics	4
PS 5760	History and Development of Islamic Political Thought	3

World Politics

Conflict and cooperation among nations; causes of war and the pursuit of peace; international law; international organizations and multi-national corporations; North-South relations and issues of development, imperialism, and dependency; East-West relations and the changing world order; American foreign policy and issues of disarmament, intervention, and economic competition. Courses relevant to this area of concentration include (but are not limited to):

Code	Title	Credits
PS 2810	World Politics	4
PS 2820	Introduction to Peace and Conflict Studies	3
PS 3795	Latin America in World Affairs	4
PS 3811	Theory of World Politics	4
PS 3820	Pan Africanism and the Diaspora	4
PS 3830	War	4
PS 3835	Middle East Conflict	4
PS 4810	Foreign Policies of Major Powers	4
PS 5740	Ethnicity: The Immigrant Experience	4
PS 5820	International Law	4
PS 5850	Human Rights	4
PS 6100	Introduction to Graduate Peace and Security Studies	3
PS 6850	International Organizations	3
PS 6860	American Foreign Policy	3
PS 6870	United States Foreign Relations Law	4

Internships

Internships in government, political campaigns, political advocacy groups, civic organizations, or public agencies provide valuable work-educational experience that enables students to relate knowledge acquired in the classroom to the world-at-large. They also provide practical training that enhances future job prospects. Academic credit may be earned for an internship through enrollment in PS 2992, Political Science Internship, a course that helps to assure the educational relevance of the internship by requiring interns to prepare papers and reports based on their experiences. Interested students should consult the department's undergraduate advisor.

Study Abroad Exchange Program with the University of Salford

Students may study for one or two semesters at the University of Salford in Salford, England, and earn Wayne State credits through an exchange agreement between the two universities. Applications may be obtained from the Office of Study Abroad and Global Programs (<http://www.studyabroad.wayne.edu>). Interested majors or prospective majors should also consult with the Department's undergraduate advisor.

Political Science Honors Programs

Bachelor of Arts and Bachelor of Public Affairs majors with strong academic records are encouraged to pursue departmental honors. To be eligible to enter the honors program, a major must have a cumulative grade point average of 3.3. To graduate with honors, students must:

1. Maintain a 3.3 grade point average.
2. Under the direction of one or more members of the department, complete a senior honors paper (PS 4995).
3. Complete all requirements for the Bachelor of Arts or Bachelor of Public Affairs degree.

4. Complete one 4200-level Honors seminar offered through the Honors College, see Honors Courses (HON).
5. Accumulate an additional eight credits in honors-designated course work beyond PS 4995, and the Honors Program seminar. These honors credits can be obtained from any department, including Political Science. For information about honors-designated coursework available each semester.

Students interested in participating in the program should contact the department's undergraduate advisor to determine their eligibility.

'AGRADE' Program (Accelerated Graduate Enrollment)

Accelerated Graduate Enrollment: Bachelor of Arts and Bachelor of Public Affairs majors with superior academic records (top twentieth percentile overall, with at least a 3.6 g.p.a. in the major) are eligible in their senior year (a minimum of 90 credit hours earned) to participate in accelerated graduate enrollment ('AGRADE') programs leading to either a Master of Arts degree with a major in political science or a Master of Public Administration degree. The 'AGRADE' programs enable students to pursue graduate and undergraduate degrees simultaneously and to apply twelve to fifteen credits of approved course work to both degrees. To participate, students must apply and be accepted into the 'AGRADE' program by the Departmental Graduate Committee and secure the approval of the Graduate Officer of the College of Liberal Arts and Sciences in accordance with rules and procedures established by the College. Students should contact the Department's undergraduate advisor for further details.

Public Affairs (B.P.A.)

The Bachelor of Public Affairs (B.P.A.) degree provides students with professional skills needed for working in the city, county, state and national government jobs, for other public and non-profit agencies, and in positions in private enterprises, especially those that deal with governmental relations. Past graduates of the program have managed political campaigns and worked for local, state and federal government agencies, for non-profits and gone on to law school, and graduate school, especially in public administration. Additional professional skills stressed in the B.P.A. include data management, economics, and other quantitative tools. These are very helpful for students when they seek jobs after graduation or for those students planning to apply to graduate school. Internships provide students with an opportunity to apply what they have learned in public service settings.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University. To declare the B.P.A. as a major, a student must follow the procedures set forth by the College of Liberal Arts and Sciences for declaring a major.

Program Requirements

Candidates for the B.P.A. degree must:

1. Complete a total of 120 credits in course work.
2. Satisfy all of the Liberal Arts Group Requirements (p. 225)
3. Satisfy the University General Education Requirements (p. 22).
4. Satisfy the major requirements listed below.

All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees. Students wishing to apply transfer credits toward the B.P.A. major should consult the political science

undergraduate advisor regarding departmental policies and restrictions on the use of these credits. Students must complete a minimum of 16 credit hours of Public Affairs' major requirements at Wayne State University.

Major Requirements

A Bachelor of Public Affairs major must complete a minimum of nine courses, including seven prescribed core courses and two elective courses. Co-registration in PS 5993 is also required. Any political science required or elective course at the 3000-level or higher, except PS 5630, may be used to fulfill this requirement. Students must demonstrate proficiency in writing on public affairs subject matter in a form and style consistent with B.P.A. standards. Election of a corequisite to PS 5993 must have approval from the instructor and students must follow the instructor's guidelines to demonstrate required proficiency. Upon certification by the instructor that the writing requirement has been fulfilled, a grade of Satisfactory ('S') will be awarded for PS 5993, a 'zero' credit course. Note that completion of the WI course has the following prerequisites: a) completion of the Intermediate Composition (IC or ICN) requirement and b) the completion of at least two Political Science courses at the 3000 level or higher.

Core Curriculum

Candidates for the B.P.A. degree must satisfy the following core course requirements:

Code	Title	Credits
ECO 2010	Principles of Microeconomics	4
ECO 2020	Principles of Macroeconomics	4
PS 1010	American Government	3-4
or PS 1030	The American Governmental System	
PS 2410	Introduction to Public Policy	4
PS 2420	Ethics and Politics of Public Policy	4
or PS 2460	Policy and Rationality: Dilemmas of Choice	
or PS 2240	Introduction to Urban Politics and Policy	
or PS 3430	Bureaucracy and Public Policy	
or PS 3450	Environmental Policy and Politics	
PS 3600	Methods of Political Inquiry	4
or PS 5630	Statistics and Data Analysis in Political Science I	
PS 4460	Techniques of Policy Analysis	4
PS 5993	Writing Intensive Course in Political Science	0
Total Credits		27-28

Elective Options

In addition to completion of required core work, students must select a minimum of two additional courses within the B.P.A. elective curriculum, which is comprised of the courses set forth below or an additional Policy elective listed above.

Code	Title	Credits
Select at least two of the following:		8
PS 2310	Introduction to Public Administration	
PS 2992	Political Science Internship	
PS 3020	Political Parties and Elections	
PS 3025	Political Campaigns in America	
PS 3030	Political Interest Groups	
PS 3040	The Legislative Process	
PS 3060	State Government and Politics	
PS 3070	Michigan Politics	
PS 3080	Gender and Politics	

PS 3100	American Legal Systems and Processes
PS 3250	Detroit Politics: Continuity and Change in City and Suburbs
PS 4810	Foreign Policies of Major Powers
PS 5030	African American Politics
PS 5040	Religion and Politics

Internships

Internships in government, political campaigns, political advocacy groups, civic organizations, or public agencies provide valuable work-educational experience that enables students to relate knowledge acquired in the classroom to the world-at-large. They also provide practical training that enhances future job prospects. Academic credit may be earned for an internship through enrollment in PS 2992, Political Science Internship, a course that helps to assure the educational relevance of the internship by requiring interns to prepare papers and reports based on their experiences. Interested students should consult the department's undergraduate advisor.

Study Abroad Exchange Program with the University of Salford

Students may study for one or two semesters at the University of Salford in Salford, England, and earn Wayne State credits through an exchange agreement between the two universities. Applications may be obtained from the Office of Study Abroad and Global Programs (<http://www.studyabroad.wayne.edu>). Interested majors or prospective majors should also consult with the Department's undergraduate advisor.

Political Science Honors Programs

Bachelor of Arts and Bachelor of Public Affairs majors with strong academic records are encouraged to pursue departmental honors. To be eligible to enter the honors program, a major must have a cumulative grade point average of 3.3. To graduate with honors, students must:

1. Maintain a 3.3 grade point average.
2. Under the direction of one or more members of the department, complete a senior honors paper (PS 4995).
3. Complete all requirements for the Bachelor of Arts or Bachelor of Public Affairs degree.
4. Complete one 4200-level Honors seminar offered through the Honors College, see Honors Courses (HON).
5. Accumulate an additional eight credits in honors-designated course work beyond PS 4995, and the Honors Program seminar. These honors credits can be obtained from any department, including Political Science. For information about honors-designated coursework available each semester.

Students interested in participating in the program should contact the department's undergraduate advisor to determine their eligibility.

'AGRADE' Program (Accelerated Graduate Enrollment)

Accelerated Graduate Enrollment: Bachelor of Arts and Bachelor of Public Affairs majors with superior academic records (top twentieth percentile overall, with at least a 3.6 g.p.a. in the major) are eligible in their senior year (a minimum of 90 credit hours earned) to participate in accelerated graduate enrollment ('AGRADE') programs leading to either a Master of Arts degree with a major in political science or a Master of Public Administration degree. The 'AGRADE' programs enable students to pursue graduate and undergraduate degrees simultaneously and to apply twelve to fifteen credits of approved course work to both

degrees. To participate, students must apply and be accepted into the 'AGRADE' program by the Departmental Graduate Committee and secure the approval of the Graduate Officer of the College of Liberal Arts and Sciences in accordance with rules and procedures established by the College. Students should contact the Department's undergraduate advisor for further details.

Political Science Minor

Students majoring in other subjects may obtain a minor in political science by completing a minimum of twenty credits in Political Science course work. Information on combinations of courses that emphasize particular subfields of political science is presented in the listing of bachelor of arts concentrations (p. 316). For information on courses of relevance to such majors as economics, journalism, history, sociology, psychology, philosophy, criminal justice, or urban planning, students should consult the department's undergraduate advisor. A suitable sequence for pre-law students can be provided by the undergraduate advisor. Students must complete a minimum of three Political Science courses at Wayne University to earn a minor.

Psychology

Office: 7th floor, 5057 Woodward; 313-577-2800

Chairperson: Scott Bowen

Associate Chairperson: Emily Grekin

Undergraduate Academic Service Officer: Shelly Seguin

<https://clas.wayne.edu/psychology> (<https://clas.wayne.edu/psychology/>)

Undergraduate training offered by the Department of Psychology serves several related purposes. For the science major and the liberal arts major, the study of psychology provides an opportunity to learn the scientific approach to the study of behavior which will include material helpful in increasing self-understanding and insight into the behavior of others.

For students preparing for medicine, law, education, nursing, business, and other professions, psychology provides important basic knowledge useful in these vocations. For those planning to pursue graduate study in psychology, the undergraduate program establishes a sound foundation.

Psychology Mass Advising Meeting

Attendance at one of the meetings is mandatory for all psychology majors. Students are expected to attend prior to their first advising appointment.

Prospective and current WSU students who are considering majoring or minoring in psychology should attend to learn about the major and opportunities within the field. It is also helpful for individuals who are considering pursuing psychology as a second career and/or graduate studies. Meetings will cover psychology major requirements, information about graduate school, research experience, volunteer experience, the GRE, career resources, tips for success and much more. Attendance at one of the meetings is mandatory for all psychology majors. Students are encouraged to attend as soon as possible and should feel free to bring parents and/or interested friends. View the current schedule (<https://clas.wayne.edu/psychology/students/advising/information-meeting/>).

- Psychology (B.A.) (p. 321)
- Psychology (B.S.) (p. 322)
- Psychology Minor (p. 324)
- Health Psychology Minor (p. 323)

Psychology (B.A.)

Undergraduate training offered by the Department of Psychology serves several related purposes. For the science major and the liberal arts major, the study of psychology provides an opportunity to learn the scientific approach to the study of behavior which will include material helpful in increasing self-understanding and insight into the behavior of others. For students preparing for medicine, law, education, nursing, business, and other professions, psychology provides important basic knowledge useful in these vocations. For those planning to pursue graduate study in psychology, the undergraduate program establishes a sound foundation. Psychology-related employment for graduates with a bachelor's degree has increased in recent years. Such employment, of course, depends on the personal characteristics of the individual, on the special qualifications and training of the individual, and particularly on job opportunity.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Psychology Mass Advising / Information Meeting

Attendance at one of the meetings is mandatory for all psychology majors. Students are expected to attend prior to their first advising appointment.

Prospective and current WSU students who are considering majoring or minoring in psychology should attend to learn about the major and opportunities within the field. It is also helpful for individuals who are considering pursuing psychology as a second career and/or graduate studies. Meetings will cover psychology major requirements, information about graduate school, research experience, volunteer experience, career development, tips for success and much more. View the current schedule (<https://clas.wayne.edu/psychology/students/advising/information-meeting/>).

Program Requirements

Candidates must complete minimum of 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

- To graduate with a major in psychology, a student must complete satisfactorily at least thirty-four credits in PSY courses BEYOND the credits for PSY 1010 or PSY 1020+PSY 1030 (Introductory Requirement).
- Students must also attend the *Psychology Mass Advising Meeting*. This two-hour meeting is offered approximately every two-three weeks at various days/times. Students need to attend only once, but must be present for the full meeting. Students are expected to attend either prior to or upon declaring major in psychology. View the current schedule (<https://clas.wayne.edu/psychology/students/advising/information-meeting/>).
- Transfer students must complete at least twenty credits in the Psychology Department at Wayne State University.

Degree Requirements

Code	Title	Credits
------	-------	---------

Introductory Requirement (Select one of the following):

For psychology majors, a minimum grade of C in the Introductory Psychology Requirement is a pre-requisite for all other PSY courses. Students must have at least a 2.0 overall grade point average in their psychology coursework to graduate. PSY 1010 is recommended over PSY 1020 for students who intend to major in psychology.

Option 1

PSY 1010	Introductory Psychology (preferred option)
----------	--

Option 2

PSY 1020	Elements of Psychology (or earned AP Psych credit)
----------	--

PSY 1030	Introductory Psychology Laboratory
----------	------------------------------------

Mathematics

Students can satisfy the Mathematics requirement through one of the course or test options below. Courses require a minimum grade of a C.

BA 2300	Quantitative Methods I: Probability and Statistical Inference
STA 1020	Elementary Statistics
MAT 1000-6999	
ACT Math score of 25 or better	
SAT Math score of 600 or better	
Michigan Transfer Agreement score of 100 or better	
Math Placement Score of 3 or 4	

Research Methods in Psychology

PSY 2020	Research Methods In Psychology ¹
----------	---

Statistical Methods

PSY 2030	Statistical Methods in Psychology ²
----------	--

Experimental Lecture (select one of the following):

PSY 3040	Psychology of Perception: Fundamental Processes
PSY 3060	Psychology of Learning and Memory: Fundamental Processes
PSY 3080	Cognitive Psychology: Fundamental Processes
PSY 3120	Brain and Behavior

Experimental Laboratory

PSY 3993	Laboratory in Experimental Psychology (PSY 3993 must be completed with a grade of C or better.)
----------	--

Intermediate Composition (IC) course must be completed prior to PSY 3993. (p. 23)

Additional Core Courses

Select two of the following:

PSY 2100	Psychology and the Workplace
PSY 2400	Developmental Psychology
PSY 2600	Psychology of Social Behavior
PSY 3310	Introduction to Psychopathology
PSY 5020	Honors Research in Psychology

Elective Courses

As needed to satisfy the minimum credit requirement (thirty-four PSY credits BEYOND the Introductory Psychology Requirement). Students usually need three to five elective PSY courses.

¹ PSY 2020 is a mandatory prerequisite for other courses, such as PSY 2030, PSY 3993 and PSY 5020. Students are strongly encouraged to take PSY 2020 within one year after completion of the Introductory Psychology requirement. A minimum grade of C is required for Psychology majors. PSY 2020 can only be repeated one time.

² PSY 2030 is a mandatory prerequisite for other courses, such as PSY 3993 and PSY 5020. Students are strongly encouraged to take PSY 2030 within one year after completion of the Introductory Psychology requirement. A minimum grade of C is required for Psychology majors. PSY 2030 can only be repeated one time.

Preparation for Psychology Graduate Work

While individual graduate programs in psychology have different requirements for admission, students who intend to do graduate work are advised to earn the B.A. or B.S. degree and select courses that are consistent with their intended area of study. Students are also encouraged to obtain research experience. A psychology advisor will help tailor a plan-of-work that is based on academic and career goals. Additional courses in mathematics, computer science, biology, and sociology are strongly recommended for students pursuing graduate work in psychology and for students who plan to apply for professional programs.

Psychology Honors Program

Students with an overall grade point average of 3.3 and a Psychology grade point average of 3.5 are eligible for admission to the Department's Honors Program. Satisfactory completion of the Honors Program will lead to a degree 'With Psychology Honors' on the diploma. Students interested in the program should obtain detailed information from the Psychology Department Undergraduate Advising Office.

Honors Sections provide smaller classes, somewhat more advanced readings, and opportunities for independent work by students. Students must complete a minimum of eighteen credits in honors coursework, including: PSY 5020 (Honors Research in Psychology), PSY 4991 (three-credit Honors Directed Study), PSY 4998 (Senior Thesis), and one additional PSY course designated as honors through an honors section or honors option contract. Students must also complete an Honors Seminar from the HON 42xx series.

Psychology (B.S.)

Undergraduate training offered by the Department of Psychology serves several related purposes. For the science major and the liberal arts major, the study of psychology provides an opportunity to learn the scientific approach to the study of behavior which will include material helpful in increasing self-understanding and insight into the behavior of others. For students preparing for medicine, law, education, nursing, business, and other professions, psychology provides important basic knowledge useful in these vocations. For those planning to pursue graduate study in psychology, the undergraduate program establishes a sound foundation. Psychology-related employment for graduates with a bachelor's degree has increased in recent years. Such employment, of course, has depended on the personal characteristics of the individual, on the special qualifications and training of the individual, and particularly on job opportunity.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Psychology Mass Advising / Information Meeting

Attendance at one of the meetings is mandatory for all psychology majors. Students are expected to attend prior to their first advising appointment.

Prospective and current WSU students who are considering majoring or minoring in psychology should attend to learn about the major and opportunities within the field. It is also helpful for individuals who are considering pursuing psychology as a second career and/or graduate studies. Meetings will cover psychology major requirements, information about graduate school, research experience, volunteer experience, career development, tips for success and much more. Attendance at one of the meetings is mandatory for all psychology majors. Students are encouraged to attend as soon as possible and should feel free to bring parents and/or interested friends. View the current schedule (<https://clas.wayne.edu/psychology/students/advising/information-meeting/>).

Program Requirements

Candidates must complete minimum of 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of

the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

- To graduate with a major in psychology, a student must complete satisfactorily at least thirty-four credits in PSY courses BEYOND the credits for PSY 1010 or PSY 1020+PSY 1030 (Introductory Requirement).
- Students must also attend the *Psychology Mass Advising Meeting*. This two-hour meeting is offered approximately every two-three weeks at various days/times. Students need to attend only once, but must be present for the full meeting. Students are expected to attend either prior to or upon declaring major in psychology. View the current schedule (<https://clas.wayne.edu/psychology/students/advising/information-meeting/>).
- Transfer students must complete at least twenty credits in the Psychology Department at Wayne State University.
- Bachelor of Science requires a minimum of 27 credits of non-Psychology science. See a Psychology advisor for list of applicable courses.

Students must also complete an Honors Seminar from the HON 42xx series.

Health Psychology Minor

For a minor in health psychology, a student must complete a minimum of twenty credits in psychology.

Code	Title	Credits
PSY 1010	Introductory Psychology (or PSY 1020 and PSY 1030) ¹	4
PSY 2020	Research Methods In Psychology	4
PSY 2410	Health Psychology	4
PSY 3120	Brain and Behavior	3
PSY 3310	Introduction to Psychopathology	4
Choose one course from the following electives:		3-4
PSY 2080	Introduction to Drugs, Behavior, and Society	
PSY 2400	Developmental Psychology	
PSY 3380	Human Sexuality	
Any other PSY course as needed to reach twenty credit minimum		

¹ A minimum grade of C is required for PSY 1010 or PSY 1020 and PSY 1030.

- This minor is **not** available to Psychology majors.
- At least three PSY courses must be taken at Wayne State.
- PSY 4994 (offered for S and U grades only) may not be counted in the twenty required credits.
- Students must have a cumulative minimum 2.0 GPA in PSY coursework to graduate.

Psychology Minor

Minor Requirements:

- For a minor in psychology, a student must complete a minimum of twenty credits in psychology.
- At least three PSY courses must be taken at Wayne State.
- PSY 4993 or PSY 4994 (offered for S and U grades only) may not be counted in the twenty required credits.
- Students must have a cumulative minimum 2.0 GPA in PSY coursework to graduate.

Course Requirements:

- PSY 1010 (minimum grade C) or PSY 1020 + PSY 1030 (minimum grade C)
- PSY 2020
- Three to four more PSY courses to reach twenty credit minimum
- At least one course must be at 3000-level or higher
- At least one course must not also be applied to a student's major.

Public Health

Department Chair: Patricia Wren

Undergraduate Academic Advisors: Lauren Orr (A-J; AGRADE), Margaret MacKeverican (K-Z; AGRADE), Monika Saladiak (Special Projects and Populations)
<https://clas.wayne.edu/public-health> (<https://clas.wayne.edu/public-health/>)

Public health is the science of protecting and improving the health of people and their communities. This work is achieved by promoting healthy lifestyles, detecting patterns of risk and poor outcomes in populations, and engaging in research and interventions to eliminate health disparities and increase the duration and quality of life. Public health professionals are also involved in promoting health care equity, improving health care quality, and increasing access and accessibility.

The Department of Public Health offers evidence-based professional training across the traditional public health disciplines. Undergraduate students are well-prepared to apply to graduate programs in public health, medicine, pharmacy, social work, physician assistant studies, law, and a host of other professional fields. Our alumni are trained for meaningful public health careers in government agencies, hospitals and health care organizations, community-based organizations, foundations and philanthropies, policymaking and research councils, and corporations. Students will learn to ask questions, challenge assumptions, and utilize data to preserve, protect, and promote the health and well-being of vulnerable populations locally, nationally, and globally. In particular, students will learn how to be a catalyst for change in Detroit and beyond and facilitate health equity for years to come. Core courses in the public health major and minor allow students to gain knowledge, develop professional skills, and master core competencies in the following areas:

- Social determinants of health
- Health disparities and health equity
- Environmental health
- Epidemiology
- Biostatistics
- Research methods and applied methodological approaches
- Public health intervention and practice

Students wishing to pursue the major or minor in Public Health should meet with an Undergraduate Academic Advisor in Public Health (<https://clas.wayne.edu/public-health/advising/>).

- Public Health (B.S.) (p. 324)
- Public Health Minor (p. 326)

Public Health (B.S.)

The Department of Public Health offers students skill-based professional training across the traditional public health disciplines. Our alumni are trained for meaningful public health careers in government agencies, hospitals and health care organizations, community-based and non-profit organizations, foundations and philanthropies, policymaking and research councils, and corporations. Our students have also gone on to complete graduate training in public health, medicine, pharmacy, social work, physician assistant studies, law, and a wide range of other professional fields. Students learn to ask questions, challenge assumptions, and utilize data to preserve, protect, and promote the health and of populations locally, nationally, and globally.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (<https://bulletins.wayne.edu/undergraduate/general-information/admission/>) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees. Students must receive a grade of C- or better in all Public Health core courses and in all approved electives. A grade point average of 2.0 in both Public Health and general required courses are required for graduation.

Major Requirements

The B.S. in Public Health is offered with three concentration options:

1) Advocacy and Practice concentration; (2) Research and Evaluation concentration; and (3) Interprofessional concentration. Students must complete a minimum of 39 credits distributed as follows (*Core and Elective courses must be completed with a C- or better*):

Code	Title	Credits
Core Courses		
PH 2100	Introduction to Public Health	3
PH 3000	Public Health Administration	3
PH 3100	Social and Behavioral Aspects of Public Health	3
PH 3200	Introduction to Biostatistics	3
PH 3300	Epidemiology	3
PH 3500	Environmental Health	3
PH 4400	Quantitative Methods in Public Health	3
or PH 4500	Qualitative Methods in Community Public Health	
Culminating Course		
PH 5100	Capstone Course in Public Health	3
or PH 5150	Public Health Practicum	
Concentrations		
Choose one of the following concentrations.		15
Advocacy and Practice		
PH 3450	Advocating for Change in Public Health	
PH 3700	Funding Public Health	
Choose three Public Health Elective courses.		
Research and Evaluation ¹		
PH 4650	Health Data Visualization	
PH 4400	Quantitative Methods in Public Health	
or PH 4500	Qualitative Methods in Community Public Health	
Choose three Public Health Elective courses.		
Interprofessional		
PH 3800	Law and Public Health	
PH 4250	Interprofessional Education and Public Health	
Choose three Public Health Elective courses.		
Total Credits		39

¹ Students who choose the Research and Evaluation concentration must select the methods course **not** taken in the core.

Code	Title	Credits
Elective Courses ²		
PH 2500	Race and Ethnic Disparities in Public Health	3
PH 2550	MENA Public Health	3
PH 3400	Health in All Policies	3
PH 3410	Global Health	3
PH 3550	Public Health and the City	3
PH 3600	Special Topics in Public Health	3
PH 3750	Reproductive Health	3
PH 3900	LGBTQ Health	3
PH 4050	Crime and Public Health	3
PH 4600	Special Topics in Health Disparities	3
PH 4900	Directed Study in Public Health	3

² Public Health majors can also choose as their electives any specialized PH course(s) required in the other 2 concentrations.

Public Health Honors

To be recommended for an honors degree from this program, a student must maintain a cumulative and major GPA of at least 3.30 and complete a minimum of twelve honors course credits, including:

Code	Title	Credits
Practicum Requirement (Honors section of one of the following):		2-4
PH 5150	Public Health Practicum	
or PH 4250	Interprofessional Education and Public Health	
PH 5100	Capstone Course in Public Health (Honors Section)	3
One Course in Public Health (PH) with an Honors Option ¹		3-4
One 42XX level Honors Seminar ²		3

¹ Consult an advisor or the University Schedule of Classes (<http://classschedule.wayne.edu/>) for available Honors Sections.

² A list of seminars is available in the list of Honors (HON) (p. 578) courses.

Public Health AGRADE Program

AGRADE provides qualifying Public Health students in the College of Liberal Arts and Sciences with an opportunity to pursue an accelerated pathway to the Master of Public Health (MPH) program in the School of Medicine. The MPH prepares students for a professional career at the intersection of public, clinical and/or other allied health sciences.

Application

Undergraduate students enrolled in the Public Health major or minor are eligible to apply. Students can apply to AGRADE during the semester they plan to complete 90 credits, usually during the second semester of their junior year. Students should have senior standing during their first semester as an AGRADE student. They must also have successfully completed the following four undergraduate courses:

Code	Title	Credits
PH 2100	Introduction to Public Health	3
PH 3100	Social and Behavioral Aspects of Public Health	3
PH 3200	Introduction to Biostatistics	3
PH 3300	Epidemiology	3

Applicants must have a 3.6 GPA or better in coursework for their Public Health major or minor, and a cumulative GPA of 3.3 or better.

Applications will be reviewed each semester. The GRE may be waived based on satisfactory performance in the AGRADE courses (at least a B grade in each AGRADE class). Acceptance to the BSPH-MPH AGRADE program is competitive. The MPH program admissions committee reviews all AGRADE applicant applications and makes decisions about admission to this accelerated track.

Requirements

Upon admission, students may elect 3-15 credits in approved graduate M.P.H. courses. These graduate level courses will complete public health major or minor elective requirements or bachelor's degree elective requirements, as well as fulfill the beginning of study toward the master's degree.

Code	Title	Credits
FPH 7011	Foundations of Public Health	3
FPH 7012	Social Justice in Public Health	3
FPH 7015	Biostatistics I	3
FPH 7100	Health Care Organization and Administration	3
FPH 7240	Epidemiology	3

The bachelor's degree will be awarded following the completion of the undergraduate degree requirements. Graduate course work taken in this program must be completed within eight years (from the time that the first graduate course is taken that is counted toward degree requirements) or within six years from the awarding of the bachelor's degree, whichever comes first.

For more information, contact the Public Health undergraduate academic advisors (<https://clas.wayne.edu/public-health/advising/>) and consult the AGRADE FAQs (<https://clas.wayne.edu/public-health/programs/aggregate/>).

Public Health Minor

Minor Requirements consist of 18 credits distributed as follows (*Core and Elective courses must be completed with a C- or better*):

Code	Title	Credits
Core		
PH 2100	Introduction to Public Health	3
PH 3100	Social and Behavioral Aspects of Public Health	3
PH 3200	Introduction to Biostatistics ¹	3
PH 3300	Epidemiology ¹	3
PH 3500	Environmental Health	3
Electives		
Select at least one additional course from the list of electives for the Bachelor of Science in Public Health		3
Total Credits		18

¹ Before enrolling in PH 3200 or PH 3300, students must complete STA 1020 or MAT 1800 or MAT 2010 or the equivalent with a C-/P or better (or place into MAT 2010).

Students in the Public Health minor must complete all required courses and elective courses with a C- or P grade or better.

Sociology

Office: 2228 Faculty/Administration Building; 313-577-2930

Chairperson: David Merolla

<https://clas.wayne.edu/sociology/>

The Bachelor of Arts in Sociology is structured to provide students with a broad understanding society and social issues and allow students to develop sociological thinking. Required courses in sociology provide rigorous training in sociological theory, research methods, and quantitative analysis. Internship experiences can be arranged under the guidance of the internship coordinator.

The sociological curriculum also provides training in transferable skills such as critical thinking, quantitative literacy, and along with transferable skills in critical thinking, quantitative literacy, and intercultural awareness that are valuable component of preparation for a variety of careers.

The Bachelor of Arts in Sociology is an ideal major for anyone who:

1. desires scientific knowledge of social relationships as a part of their general education
2. is interested in social justice issues
3. plans to enter a profession such law, medicine or medical administration, social services, non-profit organization, politics, or journalism and new media
4. anticipates a career in social and statistical research or evaluation and planning
5. desires to teach social studies and sociology
6. plans for a career in international studies or service in foreign affairs
7. aspires to graduate professional training in sociology, social work, public health, urban planning, or other related fields

- Sociology (B.A.) (p. 326)

- Sociology Minor (p. 327)

Sociology (B.A.)

Sociology is a social science discipline that enables us to understand how society is organized and how the organization of society affects human lives and behaviors. Sociologists examine the ways in which social categories (such as class, race, gender, age, nationality, or sexuality), and various social institutions (such as kinship, the economy, and political systems) affect human attitudes, actions, and opportunities. By locating the causes of social and individual problems in social organization, sociologists look beyond the individual to understand and find solutions for social problems such as poverty, health disparities, and racial inequality. Sociology offers a unique perspective on social life and is a key part of a liberal arts education.

In the Department of Sociology at Wayne State, we offer a wide array of courses including courses in the study of health and illness, race and gender inequality, and global transnational and comparative sociology. Students majoring in sociology develop broad substantive knowledge in social policy and social issues, along with transferable skills in critical thinking, quantitative literacy, and intercultural awareness that are valuable part of preparation for a variety of careers.

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (<https://bulletins.wayne.edu/undergraduate/general-information/admission/>) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as

well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees. It is expected that Group Requirements will be fulfilled during the freshman and sophomore years. Language Group Requirements should normally be fulfilled before election of the major.

Major Requirements

Students majoring in sociology are required to elect a minimum of thirty-three credits in the field of sociology, including seven required courses:

Code	Title	Credits
SOC 1010	Understanding Human Society	3
SOC 2200	Sociology as a Vocation I	2
SOC 3200	Methods of Social Research	3
SOC 3220	Introduction to Social Statistics	3
SOC 3050	Basic Sociological Theory	3
SOC 4010	Sociology as a Vocation II	1
SOC 4996	Sociology Capstone	3
Electives (at least 6 credits at the 4000/5000 level)		15
Total Credits		33

For SOC 4996, students are required to complete SOC 1010, SOC 2200, SOC 3200, and one sociology course at the 3000/4000 level with passing grades prior to enrollment. SOC 4996 also must also be completed with a grade of D- or better. In addition to required courses, all sociology majors are required to take at least fifteen credits in sociology elective courses. Students must maintain a 2.0 GPA within the major.

Sociology Honors Program

The honors designation is available to sociology students who fulfill all requirements for the major and who maintain a cumulative grade point average of at least 3.3 and at least 3.3 in sociology courses. Honors students must demonstrate the ability to do original work by writing an Honors Thesis during their senior year. The Sociology Honors Program is at least fifteen credits and leads to a degree designation "with Honors in Sociology."

Requirements for the Honors Degree are:

1. satisfaction of all requirements for a major in sociology;
2. completion of Honors section of SOC 3220 with grade of C or better;
3. completion of Honors Section SOC 4996 with a grade of C or better; or SOC 4999;
4. At least one additional sociology course with the Honors designation with a C or better (3 credits min.)
5. Honors Option in a 4000 level SOC class with a C or better;
6. an approved Honors Thesis; and
7. at least one 4200-level seminar with a C or better (HON 4200-HON 4280) offered through the Honors Program of the College of Liberal Arts and Sciences.

AGRADE Program (Accelerated Graduate Enrollment)

The Department of Sociology permits high achieving students to participate in the College's AGRADE Program. AGRADE procedures enable qualified students to enroll simultaneously in the undergraduate and graduate programs of the College and apply a maximum of sixteen credits towards both a bachelor's degree and a master's degree in the major field. Students must have a minimum cumulative GPA of 3.3 and final approval from their major department. They must also have

completed 90 credits of their undergraduate degree in order to join AGRADE.

For more details about the AGRADE Program, contact the Undergraduate advisor in Sociology (313-577-2930), or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2690).

Sociology Minor

The minor in sociology requires 20 credits of coursework in sociology, including:

Code	Title	Credits
SOC 2200	Sociology as a Vocation I	2
At least one of the following courses:		3
SOC 1010	Understanding Human Society	
SOC 1020	Social Problems	
At least 15 additional SOC credits, including:		15
At least one course at the 2000 level		
At least one of the following:		
SOC 3050	Basic Sociological Theory	
SOC 3200	Methods of Social Research	
SOC 3220	Introduction to Social Statistics	
At least one course at the 4000 or 5000 level		
Total Credits		20

Urban Studies and Planning

Office: 3198 Faculty Administration Building; 313-577-2701; Fax: 313-577-0022

Chairperson: Rayman Mohamed

<https://clas.wayne.edu/usp> (<https://clas.wayne.edu/usp/>)

The field of urban studies explores contemporary cities and urban trends and addressed some of today's most pressing problems. Globally, complex systems of urban settlement house the overwhelming majority of the population and dominate their residents' social, economic, cultural, and intellectual lives. In the U.S., in particular, exploring the development and transformation of metropolitan regions is essential to understanding some of the most significant dynamics affecting the nation. Especially pertinent are the powerful forces of suburbanization, political fragmentation, and residential segregation along lines of race and class that reshaped our society in the latter half of the 20th century. These forces structure the resources, activities, and opportunities that unite and divide Americans. Wayne State's Detroit location offers a powerful vantage point from which students may gain valuable insight these complex dynamics.

The profession of urban planning takes major responsibility for the development of comprehensive plans and programs for local communities as well as larger regional units. These plans visualize future conditions of social, economic, physical and environmental change, and provide an estimate of the community's long-range needs for various facilities and services. Professional urban planners perform a variety of tasks such as developing plans for housing, transportation, rehabilitation of blighted metropolitan areas, and improving the appearance and efficiency of communities. The program seeks to prepare individuals for working with local and state public agencies, nonprofit organizations and for consultants and others in the private sector.

- Urban Sustainability Minor (p. 329)

Urban Studies (B.A.)

The field of urban studies explores contemporary cities and urban trends and addressed some of today's most pressing problems. Globally, complex systems of urban settlement house the overwhelming majority of the population and dominate their residents' social, economic, cultural, and intellectual lives. In the U.S., in particular, exploring the development and transformation of metropolitan regions is essential to understanding some of the most significant dynamics affecting the nation. Especially pertinent are the powerful forces of suburbanization, political fragmentation, and residential segregation along lines of race and class that reshaped our society in the latter half of the 20th century. These forces structure the resources, activities, and opportunities that unite and divide Americans. Wayne State's Detroit location offers a powerful vantage point from which students may gain valuable insight these complex dynamics.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Program Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 22) and the College of Liberal Arts and Sciences Group Requirements (p. 225), as well as the Departmental major requirements cited below. All course work

must be completed in accordance with the regulations of the University (p. 38) and the College (p. 224) governing undergraduate scholarship and degrees.

Major Requirements

Students majoring in Urban Studies are required to complete a minimum of thirty-four credits. This consists of the completion of eighteen credits in five core courses, six credits of core Urban Studies electives, and one three or four-credit research methods course. Students are also required to select at least six credits of additional electives from the list of Urban Studies electives or from additional courses not included in the list but approved by the undergraduate director within the Department of Urban Studies and Planning.

Code	Title	Credits
Core Courses		
US 2000	Introduction to Urban Studies	4
GPH 3130	Introductory Urban Geography	4
GPH 3600	Introduction to Geographic Information Systems	4
US 4510	Cities and Regions	3
US 4620	Urban Studies Senior Capstone Research	3
Research Methods Courses		
Select one of the following:		3-4
CRJ 3550	Research Methods in Criminal Justice	
GPH 6420	Quantitative Techniques I	
PS 3600	Methods of Political Inquiry	
SOC 3200	Methods of Social Research	
Urban Studies Core Electives		
Select at least two of the following courses:		6
US 2200	Global Urbanism	
US 3530	Urban and Regional Planning	
US 3550	Public Health and the City	
UP 3140	Urban Visualization	
UP 4460	Sustainable Cities	
Electives		
Select a minimum of six credits from the course list below.		6-7
Elective Courses		
Code	Title	Credits
AFS 2010	African American Culture	4
AFS 2210	Black Social and Political Thought	4
AFS 2350	Black Detroit	3
AFS 2600	Race and Racism in America	3
AFS 3160	Black Urban History	4

US 3650	History of Detroit	3
US 4000	Internship	1-4
UP 5650	Metropolitan Detroit	3
UP 5820	Urban and Regional Economics	4

* This course cannot be listed or cross-listed as part of a student's declared major program.

The remainder of a student's 18 credits must be completed by selecting courses from the list of Urban Studies Electives, or from additional courses not included in the list but approved by the Undergraduate Director of the Department of Urban Studies and Planning.

Urban Sustainability Minor

The Minor in Urban Sustainability will provide students with an opportunity to further their understanding of the myriad issues in fostering environmental preservation, equity, and economic development (the 3-Es of sustainability) in urban areas, while providing them with a foundation for advancing their academic and professional interests in the many directions related to sustainability. The minor requires the completion of 18 credits.

Urban Studies Honors Program

Students with a grade point average of 3.3 or higher may be admitted to the Honors Program in Urban Studies. Department requirements (15 credits minimum):

- Maintain a 3.3 grade point average.
- Complete one HON 42xx-level Honors seminar (3 cr)
- US 4620 honors section: Thesis. (3 cr.): A senior thesis under the direction of a full time faculty advisor in their major
- Accumulate at least 9 credits in honors-designated course work, honors section, or honors option, within the major of Urban Studies coursework.

Urban Studies Minor

The requirements for a minor in Urban Studies include at least three courses from the core requirements for the Urban Studies Major (p. 328), including:

Code	Title	Credits
US 2000	Introduction to Urban Studies	4
GPH 3130	Introductory Urban Geography *	4
US 4510	Cities and Regions *	3

ESG 1370	Meteorology: The Study of Weather
ESG 2130	Mineralogy
ESG 3000	Introduction to Environmental Analysis Using Geographic Information Systems (GIS)
ESG 3100	Air and Water in Environmental Systems
ESG 3160	Petrology
ESG 3300	Structural Geology
ESG 3400	Principles of Sedimentology and Stratigraphy
GLS 2800	Introduction to Global Issues and Institutions
GPH 3600	Introduction to Geographic Information Systems
PS 2410	Introduction to Public Policy
PS 2420	Ethics and Politics of Public Policy
PS 3250	Detroit Politics: Continuity and Change in City and Suburbs
PS 3450	Environmental Policy and Politics
PS 4460	Techniques of Policy Analysis
PH 2100	Introduction to Public Health

US 4510	Cities and Regions

School of Medicine

Dean: Wael Sakr

The Wayne State University School of Medicine has been operating and granting degrees as a college of medicine since 1868. Originally called the Detroit Medical College, it was founded by Detroit native Theodore A. McGraw, M.D.

In 1879, a second medical college, the Michigan College of Medicine, opened in Detroit. The two colleges soon united to become the Detroit College of Medicine. In 1919, the Detroit College of Medicine and Surgery, as it was then known, became an official part of the Detroit Board of Education and thus an important unit in the rapidly developing Colleges of the City of Detroit. In 1933, the name of the Colleges of the City of Detroit changed to Wayne University in honor of the American Revolutionary War hero, Gen. Anthony Wayne. Wayne University became a state institution in 1956.

The School of Medicine entered its second century with a period of substantial growth and the creation of a new campus in midtown Detroit. With the opening of the Gordon H. Scott Hall of Basic Medical Sciences in 1971, the size of the entering class was increased to 256 students. With a recent increase to 290 medical students in entering classes, the Wayne State University School of Medicine is the largest single-campus medical school in the country, and the fourth largest overall.

Mission of the School

The primary mission of the Wayne State University School of Medicine is to educate a diverse student body in an urban setting and within a culture of inclusion, through high quality education, clinical excellence, pioneering research, local investment in our community and innovative technology, to prepare physician and biomedical scientific leaders to achieve health and wellness for our society.

The School of Medicine offers educational programs leading to the following degrees:

- Doctor of Medicine
- Doctor of Philosophy
- Master of Science

Graduate education in clinical fields, continuing medical education and post-doctoral training programs are offered. Two hundred and ninety students are admitted annually to the M.D. program and approximately 380 students are enrolled in doctoral or Master's degree study in more than twenty program and concentration areas, predominantly in the basic medical sciences. More than 2,000 learners are post-graduate trainees as medical residents, post-doctoral fellows or fellows in twenty-nine clinical research programs. The combined M.D./Ph.D. program admits highly qualified candidates each fall to participate in a rigorous seven- to eight-year program of study supported by scholarships from the University. Continuing education programs, seminars and colloquiums serve the faculty and students, as well as professionals throughout the community, as a resource for ongoing developments in the health sciences. In addition to degree programs, the School of Medicine offers courses in many basic medical science disciplines appropriate for students in other colleges and schools within the University. Non-degree enrollment in basic science courses at the graduate level is permitted on a limited basis for qualified students.

Research focusing on human health is the foundation of activities in the School of Medicine. Fundamental and applied research in biomedical sciences, clinical specialties and health care systems is directed by faculty. Research programs are supported by more than ninety million dollars annually through research grants, contracts and gifts. Members of the faculty serve on scientific boards, panels, study groups and in professional leadership roles in health care regionally, nationally and internationally. The research facilities of the School of Medicine are modern, well-equipped and growing with the pace of technological advances.

Clinical services provided by the faculty, post-graduates and students are rendered predominantly through the Detroit Medical Center and Henry Ford Health System institutions. Through affiliations between the Detroit Medical Center and Wayne State University and the Henry Ford Health System and Wayne State University, DMC and Henry Ford serve as the primary teaching hospitals for the School of Medicine. The School is also closely affiliated with the John D. Dingell Veterans Administration Medical Center for education, research and clinical programs. The School of Medicine perceives a responsibility to the population of the Detroit metropolitan region as a whole, both as an educational institution and as a supplier of physicians who are highly-skilled providers of medical care.

Facilities: Wayne State University Medical School

Gordon H. Scott Hall provides facilities for pre-clinical and basic science education, basic science departments and research laboratories for basic and clinical programs. The dean's offices and the dean's administrators' offices are located here.

The Helen Vera Prentis Lande Medical Research Building houses research laboratories for clinical and basic science faculty.

The Vera P. Shiffman Medical Library houses a full medical reference library, as well as computer instruction facilities.

The Louis M. Elliman Clinical Research Building provides research laboratories, experimental surgical suites and specialized research facilities for the Departments of Internal Medicine, Surgery, Pediatrics and Neurology.

The C.S. Mott Center for Human Growth and Development provides research space for programs in human reproduction, growth and development.

The Hudson-Webber Cancer Research Center is the translational research flagship facility for Wayne State University cancer research in partnership with the Barbara Ann Karmanos Cancer Institute.

The Richard J. Mazurek, M.D., Medical Education Commons plays a key role in enriching medical education by providing access to spaces and services that enhance campus life, including a convenient location for students, faculty, health professionals and guests; state-of-the-art classrooms and laboratories; and educational opportunities such as a modern patient simulation technology, the Kado Clinical Skills Center.

In addition to training at the Detroit Medical Center (DMC), medical students may train at eighteen other medical facilities, as well as hundreds of local physician offices.

The Wayne State University Physician Group (WSAPG) affiliated with the Wayne State University School of Medicine. Many WSUPG physicians serve as faculty and teach medical students and hospital residents.

The School of Medicine is an active partner in nationally- and regionally-recognized research programs, and has defined several areas of noted excellence, including cancer, women's and children's medicine, cardiology and cardiovascular health, the neurosciences and ophthalmology.

Facilities: Detroit Medical Center and Other Clinical Education Partners

The Detroit Medical Center includes:

Children's Hospital of Michigan, which specializes in medical research and treatment of infants and children - in particular, pediatric hematology, oncology, cardiac surgery and the treatment of renal disease - and houses the state's poison control center.

Detroit Receiving Hospital and University Health Center, which specializes in the treatment of adult emergency and trauma cases, and includes special facilities for the care of emergency psychiatry, burn and spinal injuries. The University Health Center, connected to the hospital, is one of the country's largest multidisciplinary outpatient facilities, with twelve primary care service groups and more than twenty-five medical specialty services for ambulatory care.

Sinai-Grace Hospital, a full-service hospital offering a wide range of outpatient services.

Harper Hospital, which specializes in oncology, cardiology general surgery and a number of additional surgical specialties and sub-specialties.

Huron Valley-Sinai Hospital, located in a northern suburb, provides community hospital inpatient and outpatient services.

Hutzel Hospital, which includes among its areas of excellence obstetrics, gynecology, gynecologic oncology, ophthalmology, neonatology, perinatology and orthopedic surgery.

Rehabilitation Institute of Michigan, which uses an interdisciplinary approach to help physically disabled people reach their maximum level of independence.

Kresge Eye Institute, which is a major center for research and treatment of eye diseases.

Barbara Ann Karmanos Cancer Institute, which provides comprehensive cancer prevention, screening, diagnostics, treatment and supportive care to more than 10,000 new patients annually, and is a National Institutes of Health National Cancer Institute Comprehensive Cancer Center.

Gershenson Radiation Oncology Center, which provides technologically advanced radiation oncology services for all DMC facilities. Unique services include neutron therapy, Gamma Knife procedures and total body irradiation.

Henry Ford Hospital is a 802-bed tertiary care hospital, education and research complex located in Detroit's New Center area. The hospital is a multi-organ transplantation center and Level 1 trauma center. Henry Ford Hospital is listed in "Best Hospitals in America" Its doctors are routinely named among America's best. Henry Ford Hospital received the 2011 Malcolm Baldrige award, the nation's highest honor for innovation and performance excellence in health care.

Oakwood Hospital & Medical Center has 632 beds, and is a full-service teaching hospital in partnership Wayne State University that has served southeast Michigan for more than fifty years. OHMC is the tertiary hub for the three community hospitals of the Oakwood Healthcare System, providing high-level clinical care in a setting designed around the individuality of each patient. OHMC offers state-of-the art emergency medicine, general medicine and outpatient surgery, diagnostic imaging, labor and delivery/neonatal intensive care, pediatrics, intensive care and coronary units. Also opened in 2005, is the Fitzgerald Pavilion, the latest in fully integrated surgical suites. This \$110 million expansion brings the next generation of surgery to southeast Michigan and offers the best surgical care.

The John D. Dingell VA Medical Center is a 108-bed full service medical center that provides primary, secondary and tertiary care. The medical center provides acute medical, surgical, psychiatric, neurological, and dermatological inpatient care. Primary care, medical and surgical specialties are also provided, as are mental health clinics that include substance abuse treatment, a day treatment center and a community-based psychiatric program with the goal of maintaining patients in their home community. The medical center also operates a 109-bed nursing home care unit and a Health Care for Homeless Veterans program.

St. John Health is comprised of seven hospitals plus more than 125 medical facilities in southeast Michigan offering heart, cancer, obstetrics, neurosciences, orthopedics, physical rehabilitation, behavioral medicine, surgery, emergency and urgent care.

Crittenton Hospital Medical Center provides a full continuum of clinical programs nationally ranked for quality excellence and a medical staff of nearly 500 physicians, representing a wide range of medical specialties providing primary, secondary and tertiary-level care. Crittenton has newly-renovated facilities and cutting-edge technology for providing patients with the most advanced medical care on both an inpatient and outpatient basis. Crittenton provides a campus for residents from Wayne State University's School of Medicine who are specializing in Family Medicine and Otolaryngology.

Shiffman Medical Library and Medical Learning Resource Centers

The Shiffman Medical Library serves as the health sciences library for Wayne State University, including the School of Medicine, and the Eugene Applebaum College of Pharmacy and Health Sciences. The library encourages all Wayne State University students to take advantage of the wide range of health information resources and reference assistance available. In addition, the library provides open and restricted access computing areas for WSU students, faculty and staff. In keeping with its ongoing outreach mission, the library welcomes community residents conducting research, seeking health information and for other educational purposes. Online and remote access to digital information resources of the Shiffman Medical Library and all university libraries require a WSU AccessID. Contact the library at askmed@wayne.edu or 313-577-1088, or consult the School of Medicine website for instructions on accessing electronic biomedical information.

When not in use, a twenty-seat computer training lab is set aside for study. The library makes available course materials that are placed on reserve at its service desk, which also provides copies of textbooks, media and a variety of other resources.

Student Affairs

Services include: career and supportive counseling; crisis intervention; liaison for referrals; guidance for residency application; support for student government and organization activities as well as oversight of Special Events, the Health and Wellness Program and the Medical Student Faculty Mentoring Program. The staff is committed to assisting students in every way possible as the students work toward M.D. degrees. These programs are part of the School's commitment to provide each matriculant with support services so that the rigorous educational program can be presented within as comfortable an environment as possible.

Services for Students

Health Services: Students are required to have personal comprehensive health insurance coverage through the School of Medicine health insurance plan. Students may qualify for the waiver program.

Counseling: Appointments for academic, personal and career counseling can be arranged through the Office of Student Affairs.

Mentoring: Faculty mentors are provided through the Office of Student Affairs for the purpose of giving guidance and support to the medical students throughout their medical school careers.

Health and Wellness: Health and Wellness Program was developed so that each student optimizes healthy coping strategies, finds good balance and achieves academic success throughout medical school.

Academic Resources Counseling: Referrals for academic support can be made by the student's assigned counselor to the Office of Learning and Teaching where an academic specialist is available to all students seeking to improve and/or enhance academic performance. Individual tutoring services and group review sessions are available. The mission of the School of Medicine's Office of Learning and Teaching is to provide educational services and programs for medical students who need academic support to improve their academic progress and for students to enhance their academic achievements. This Office also provides programming for Step 1 and Step 2 CK and CS support.

Medicine Degrees and Certificates (Graduate Programs)

There are two major types of academic programs in the School of Medicine - those leading to the M.D. degree and postgraduate medical education, and those programs in the basic medical sciences that offer Master of Science or Doctor of Philosophy degrees. For descriptions of these degree programs, see the Wayne State University Graduate Bulletin.

Doctor of Medicine (M.D. Program)

mdadmissions@wayne.edu

Admission to M.D. Program

The School of Medicine accepts 290 students for its entering class. The students are selected from a large number of applicants who apply through the American Medical College Application Service (AMCAS).

Academic Requirements for Admission

Wayne State University School of Medicine requires applicants for admission to have earned a bachelor's degree.

Required subjects for baccalaureate preparation are:

- general physics;
- inorganic and organic chemistry;
- general biology;
- college writing or composition.

It is recommended that students complete lab work in the above science courses, and take a course in statistics, ethics, and biochemistry. The student is urged to select additional subjects which will contribute substantially to a broad cultural background.

It is to be noted that when students are accepted before completion of their premedical requirements, they must maintain a satisfactory scholastic average in their continued premedical work to warrant enrollment in the School of Medicine.

The *Medical College Admission Test* is required of all applicants for admission into the first year class. Students seeking admission should take this test no later than September of the year prior to matriculation. After a preliminary review of application credentials, interviews are held with those applicants who warrant further consideration.

Admission to the First-Year Class

The School of Medicine adheres to the acceptance procedures of the Association of American Medical Colleges, including the 'Early Decision Plan.' Admission procedures of the School are:

1. No place in the first-year class shall be offered to an applicant more than one year before the actual start of instruction for that class.
2. Following the receipt of an offer of a place in the first-year class, a student shall be allowed three weeks in which to make a decision.
3. No student who has at any time been requested to withdraw for any reason from a medical school in which he/she has been registered will be accepted by the WSU School of Medicine. Students who have been dropped for poor scholarship by the School of Medicine should not expect favorable consideration for readmission.
4. Any applicant accepted by the School of Medicine who does not complete enrollment must apply for readmission and meet all requirements in force at the time of the new application.

Selection Factors

The Committee on Admissions will select applicants who, in its judgment, will make the best students and physicians. Consideration is given to the entire record, including grade point average, Medical College Admission Test scores, recommendations and interview results (one-on-one interview and multiple mini-interviews), as these reflect an applicant's personality, maturity, character and suitability for medicine. Additionally, the committee regards as desirable certain health care experiences, such as volunteering or working in hospitals, hospices, nursing homes or doctor's offices. The committee also values experience in biomedical laboratory research. Following an initial screening process, students with competitive applications are selected to complete a secondary application. Special encouragement is given to candidates from medically underserved areas in Michigan.

As a state-supported school, the institution must give preference to Michigan residents; however, out-of-state applicants are encouraged to apply. An applicant's residency is determined by university regulations. Applicants must be a U.S. or Canadian citizen or U.S. permanent resident to be eligible for admission. Students whose educational backgrounds include work outside the United States must have completed two years of course work, including the prerequisite courses at a U.S. or Canadian college or university. Canadian citizens are considered non-resident for both admission and tuition purposes. Interviews are required but are scheduled only with those applicants who are given serious consideration. Students are urged to apply by November 1.

Application and Acceptance Policies

The School of Medicine adheres to the acceptance procedures of the Association of American Medical Colleges, including the 'Early Decision Plan.' Admission procedures of this School are:

1. An American Medical College Application Services application must be filed between June 1 and December 31 of the year preceding anticipated matriculation.
2. Applicants must respond to acceptance offer within three weeks of the offer.

Diversity and Integrated Student Services

This unit supports the medical school to maintain its representation of diversity across economic, personal and social dimensions. This is accomplished through pipeline outreach programs and special projects that present a combination of academic and extracurricular activities designed to inform high school, undergraduate and post-baccalaureate students about career opportunities in medicine and other health professions, and prepare them to gain admission.

A special program feature of the unit is the Post Baccalaureate Program. This medical school preparatory program offers an opportunity to a small number of applicants who are Michigan residents, and whose undergraduate academic achievement has been compromised by certain disadvantaging factors to gain admission into medical school. Successful completion of this special one year program facilitates entry into medical school for those selected applicants from disadvantaged backgrounds.

Registration Requirements

Physical Examination

Each student must present proof of a physical examination at or before registration for the first year. Students are also required to be annually tested for TB (skin test or chest x-ray). Additional vaccines and titers may be required.

Health Insurance

Health insurance is mandatory and students must demonstrate proof of insurance at registration. Students have the option of purchasing the group plan offered by the Medical School, which can be purchased at registration.

Disability Insurance is mandatory and can be purchased at registration.

Criminal Background Check: All accepted applicants to the medical school will be required to complete a criminal background check through AMCAS and Certiphi, the selected vendor for criminal background checks.

Transcripts

Transcripts of all university-level work must be on file in the Registrar's Office for each medical student, including the degree statement from the university from which the student obtained his/her degree.

College of Nursing

Acting Dean: Ramona Benkert

The Wayne State University College of Nursing is regionally, nationally, and internationally recognized for educating graduate and undergraduate students as practitioners and scholars in the nursing profession. The College is committed to research and scholarly activity which contributes to the discipline of nursing and excels in the development, application, and dissemination of such knowledge to promote human health and well-being.

Nursing is an academic discipline and a profession. As a discipline, nursing develops knowledge concerning human beings, their care, health, and the environment. Concepts derived from such research order the discipline and profession of nursing as well as give identity to nursing practice and direct inquiry and theory development. As a profession, nursing creatively uses knowledge in response to the health care needs of society. Both of these functions are enhanced by the scholarly environment of the University and its multicultural urban setting as a context for professional nursing practice.

Consistent with this view of the nursing profession, the College supports the importance of the liberal arts, humanities, and the sciences in nursing education. The faculty believes that programs designed for the preparation of nurses must be composed of the intellectual, social, cultural, and technical components of liberal and professional education that are available to students within an institution of higher learning. The faculty also affirms the necessity and value of clinical practice within a professional nursing program. Experience within a variety of clinical and vulnerable populations is one of the primary modes for the development of nursing practice competencies.

Learners from diverse backgrounds enter the College to begin or continue their education and thereby add to the richness of this learning environment. The faculty supports the right of students to question, challenge and debate within the context of inquiry as an essential ingredient to their development. Continuing evaluation on the part of the students and the faculty is essential to advancing nursing knowledge and sustaining the integrity of the program.

The faculty of the College of Nursing, as members of the academic community, recognizes that its professional functions extend beyond contributions to formal teaching. Research, practice, and community service are important expectations of the faculty. The faculty views as essential, academic freedom, shared governance, opportunity to develop knowledge, and responsibility to incorporate new knowledge into teaching and nursing practice. The faculty assumes responsibility for enhancing the image of the College of Nursing and the University locally, nationally, and internationally through various avenues including research, scholarship, practice, consultation, and participatory decision making.

Accreditation

The baccalaureate program is approved by the Michigan State Board of Nursing, and graduates are admitted to the licensing examination for professional nurses in the State of Michigan. The baccalaureate, master's and doctorate in nursing practice programs of the College are accredited by the Commission for Collegiate Nursing Education (CCNE).

Academic Regulations

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 38) section of this bulletin. The following additions and amendments pertain to College of Nursing students.

Academic Regulations Terminology

1. *Professional course* is any course required in the professional nursing curriculum.
2. *Satisfactory grade* is a grade of C (2.0) or better.
3. *Unsatisfactory grade* is a grade below 2.0.
4. *Probation* is a restricted status in the nursing program.
5. *Exclusion* from the program means that the student may not register in the program. (Continued registration in the University will necessitate that the student processes a Change of College to another academic program.)

Attendance

Regular punctual attendance in classes and clinical practice is expected. It is imperative that students maintain a perfect or near-perfect attendance record. Tardiness and/or failure to report to class can result in a lowering of the final course grade or exclusion from the course.

First Day of Class: Due to the nature of clinical courses and time requirements, first day class attendance is MANDATORY. Unexcused absences from the first day of any course may result in an administrative withdrawal for the student for that class and could delay progression in the program. If a student is removed from a class for non-attendance, clinical space in the subsequent class offering is not guaranteed.

Travel Requirements: It is the responsibility of the student to make all travel arrangements necessary to complete degree requirements. This includes travel arrangements required to reach all clinical agencies.

Examinations

Final Examinations

Final Examinations for courses are offered on two occasions only; the day the University sets as the final examination date, and usually the Wednesday immediately following this date. The College will make no other arrangements for final examinations. If students miss both examination opportunities due to circumstances covered by one of the Special Circumstances (see below), they will receive an incomplete (I) grade for the course. They will have twelve months to convert the "I" grade into a passing grade (A to C). If the course is a clinical course, the College will make every effort to enable the student to take the next offering of the course, subject to space availability. However, the College makes no guarantees when a place will become available.

Other Examinations or Assessments (e.g., Midterms)

The regulations for other examinations will be specified in the course syllabus. However, the regulations for notifying the College of missing an examination and the need to fulfill the Special Circumstances Rule (see below) to take a make-up examination will still apply.

Online Learning Assessments

The College of Nursing uses various educational software packages that is integrated into the Nursing curriculum. It consists of tutorials, reviews, and assessments that will be included in certain courses. In the event that assessments are not completed as required in the syllabi, students will receive an incomplete "I" grade for that assignment/course unless stated otherwise in the course syllabus. Students will have twelve months to convert the I grade into a passing grade (A to C). While

carrying an I grade students will not be permitted to progress in their studies.

Missing an Examination

It is the students' responsibility to contact their faculty of record before any examination date to discuss arrangements for the missed examination.

Special Circumstance Rules

The following are examples of events that qualify as a Special Circumstance for the purposes of missing examinations as well as the documentation (when appropriate) expected of students claiming these circumstances:

- Illness on the day of the examination or receiving health treatment: healthcare provider note must be provided upon return to campus
- Death in the "immediate" family only, providing valid obituary information or: Death Certificate
- Jury Duty or Court Summons: Jury duty notification or Court notice of summons
- Incarceration: Court notice
- Military Service: Service notice
- Natural Disasters

If a student finds themselves in any of these circumstances, they must notify the faculty of record immediately. Such students must supply the appropriate documentation as evidence of their need to sit for the make-up examination. Documents must be presented to faculty within forty-eight hours of missing the examination.

Time Limitation

The Traditional Program (including B.S.N. Direct Admit for Freshmen students) is ideally completed within three calendar years of admission to professional course work, unless an extension is granted by the Scholastic Policy and Admissions (SPA) Committee.

The Second Career/Second Degree Program (including B.S.N. for Veterans students) is ideally completed within five consecutive semesters following admission to the program unless an extension is granted by the Scholastic Policy and Admissions (SPA) Committee.

All students whose progress is delayed because of academic failure and/or leaves of absence beyond the time limitation for the program may be required to repeat and/or take additional coursework to ensure graduation with appropriate preparation for current professional nursing practice. Such cause of academic failure and/or leaves of absence beyond the time limitation for the program may be required to repeat and/or take additional course work to ensure graduation with appropriate preparation for current professional nursing practice. Such determination will be made by the Scholastic Policy and Admissions (SPA) Committee.

Authorized Leave of Absence

A leave of absence may be requested by a student when personal circumstances interfere with the student's ability to devote enough time to academic pursuits to assure reasonable expectation of success. Leaves of absence are requested from and granted by the Associate Dean for Academic and Clinical Affairs, in consultation with the Scholastic Policy and Admissions Committee. The student should contact the Office of Student Affairs for the necessary materials and deadline dates regarding leaves of absence. A leave of absence is granted to students in good academic standing only. A student who is granted an approved leave of absence may return only if there is available space in their program of study. A student who takes an *unauthorized* leave of absence

will be considered to have voluntarily withdrawn from the program and must apply for readmission to the College.

Licensure Preparation

All students entering the undergraduate program in Fall 2002 and thereafter (who are not already RNs) are required to complete nationally normed tests throughout their undergraduate program of study, e.g., HESI. Individual course syllabi will indicate how this requirement is applied and what part of the course grade will be assigned to these tests. Successful completion of these course requirements is integral to successfully passing the courses. Additionally, successful passing of the HESI Comprehensive Exit Exam, which occurs during the senior year, is a program requirement necessary for degree certification by OSA.

For the HESI Comprehensive Exit Exam, a mandatory score of 900 is requisite on their first attempt of this exam. In the event that a score of <900 occurs on the first attempt, each graduating student (who is not already a Registered Nurse) must also complete an approved NCLEX Review course in preparation for the NCLEX licensure examination as part of the program and degree certification. Students who achieve a score of 900 or better on the first HESI Comprehensive Exit Exam are **exempt** from the required NCLEX Review course although they may elect to participate in this review. The responsibility for the cost for the NCLEX Review course is that of the individual student. The cost of the NCLEX review course varies from year to year but typically is around \$93.00. All program requirements must be met before a student can be certified as completing their degree requirements with the State of Michigan Licensing Board.

Students are allowed three attempts at successfully achieving a passing score on the HESI Comprehensive Exit Exam. The costs associated with the first two attempts are included in the students' fees and there is no additional charge. However, if a third exam is required, all costs associated with this exam are the student's responsibility prior to registering and sitting for the exam. Students will receive an "Incomplete" grade until the 3rd attempt has been scheduled, which could interfere with the degree certification required to sit for the NCLEX exam. If the student still fails to achieve a score of 900 on the HESI Exit exam, the student will receive a grade of "C" in NUR 4060, predicated on completion of all course specific work in NUR 4060 and be counseled by the ASO as to the possible implications of the score on successful completion of the NCLEX exam. Lastly, these program requirements must be met before a student can be certified as completing their degree requirements with the State of Michigan Licensing Board.

To begin a professional nursing career, successful writing of the National Council Licensure Examination for Registered Nurses (NCLEX-RN) is required. The NCLEX-RN is administered by state boards of nursing as part of the process used to determine whether registered nurse candidates meet licensure requirements. The examination is developed by the National Council of State Boards of Nursing (NCSBN) to measure a candidate's ability to practice safely and effectively as a generalist registered nurse in an entry-level position. It is designed to test the practical application of knowledge and skills in health care situations that occur frequently in entry-level nursing practice.

Graduates must satisfactorily complete the licensing examination before practicing as professional registered nurses (RNs).

Scholarship

1. All students must maintain a satisfactory (2.0) grade point average (g.p.a.) in both:
 - a. Cumulative grades (general education and nursing); and
 - b. Professional nursing courses.

2. Students must achieve a 2.0 g.p.a. in each nursing course. A student may not continue in subsequent courses for which the failed course is a prerequisite until a minimum of 2.0 has been achieved.
3. A grade below C (2.0) in a nursing course is unsatisfactory for progression in UG programs.
4. Students may apply to repeat a nursing course, if space is available. The course may, only be repeated one time to raise the grade to the 2.0 g.p.a. level or above.
5. A maximum of one UG nursing course within the program may be repeated.
6. No UG nursing course for which a student has received a passing grade may be repeated without written approval of the Associate Dean for Academic and Clinical Affairs.
7. A student receiving a C- minus (1.67 g.p.a.) grade or less in either the theory or the clinical portion of any nursing course will have recorded no higher than a C-minus for the total course and will be required to successfully complete the re-entry process to repeat it before progressing to the next clinical course.
8. The mark of "I" is appropriate if the student encounters a catastrophic situation which prevents completion of the final requirements of a course. The mark of I is not appropriate for unsatisfactory scholastic performance. In the event a mark of 'I' is given, the time limit for completion will be determined by the instructor, but may not exceed one year. In the event the mark of "I" is received for a prerequisite course, the 'I' must be removed prior to enrollment in the subsequent course. After one year, if the incomplete is not completed the grade will automatically change to an F (failure) and will be treated as a failing grade.

Probation

Probationary status is a warning to a student to improve their academic performance to remain in the program.

1. A student is placed on probation if he/she does not maintain a minimum cumulative grade point average of 2.0 (g.p.a.).
2. A student is placed on probation if he/she does not maintain a minimum grade point average of 2.0 (g.p.a.) in professional nursing courses.
3. A grade point average must be returned to a minimum of 2.0 (g.p.a.) to remove probationary status. Probationary status must be removed within one calendar year.
4. Students on probation are not eligible to represent the College in any student activity.

Exclusion

A student will be excluded from the College if any of the following conditions occur:

1. Failure to satisfactorily complete a nursing course after **two** attempts;
2. Failure of more than one professional nursing course;
3. Failure to remove probationary status within one calendar year;
4. Irresponsible attendance or irresponsible performance/behavior at any time while enrolled in the program;
5. Failure to meet any special conditions required by the College Scholastic Policy and Admissions Committee for the student's continuation in the program;
6. Failure to complete the program within the time limitations outlined above, unless granted an extension by the Scholastic Policy and Admissions Committee.

7. Unsafe practice and/or unprofessional/unethical conduct as outlined/defined in the BSN student handbook and the WSU Student Code of Conduct.

Grade Appeals Policy

Basic Principles

Assistance

Students/faculty may contact the College of Nursing, Assistant Dean, Enrollment and Student Services and/or the Wayne State University Ombuds Services at any time for assistance with any problem associated with a final course grade decision or grade appeal.

Timeliness of appeals process

Failure of the faculty member or any appeal officer to respond within the designated time frame of the formal appeal entitles the student to proceed to the next level of appeal. In no case should there be any assumption that a failure to respond at any level signifies a granting of the appeal. Failure of the student to adhere to the time-frames specified in the policy will result in the appeal process being nullified; i.e., the appeal will not be heard.

Process

All steps of the formal grade appeal must be done in written letter format; email correspondence is acceptable. Information submitted should be time stamped and dated as it is received.

Academic dishonesty

These policy guidelines do not apply to allegations of academic dishonesty. Academic dishonesty matters are addressed under the WSU Student Code of Conduct and Undergraduate BSN Student Handbook.

Patient safety

Students may be removed from a clinical course at any time in which the faculty, clinical faculty, or clinical agency staff identifies an issue that would constitute unsafe/unprofessional practice in the clinical setting that may jeopardize patient safety.

**Note that "days" are counted as Sunday-Saturday, excluding University holidays.*

Appeal of Grade

Prior to implementing the formal appeal process, the student must discuss in person the disputed grade with the instructor of the course within ten days of notification of the grade (final grade posted in *Academica*). The faculty member will respond in writing with a copy to the student and the Associate Dean of Academic & Clinical Affairs and the Assistant Dean, Enrollment and Student Services. If the dispute remains unresolved, the student may then initiate a formal appeal.

All steps of the appeal process must be followed within the stated time frame or the appeal process is nullified (will not be heard).

Grade Appeal Process

Only the manner in which the final grade was assigned can be appealed. Instructors are expected to evaluate student work according to sound academic standards. If the student believes the manner in which the grade was assigned was done in an unfair manner and the student is able to demonstrate that the unfair manner is based on one of the three criteria stated below, then the student may file an appeal pursuant to the process set forth below. The student assumes the burden of proof in the appeals process.

Grounds for appeals are: (1) the application of non-academic criteria in the grading process, as listed in the university's non-discrimination/affirmative action statute: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital

status, height, weight, disability, or veteran status; (2) sexual harassment or discrimination; or (3) evaluation of student work by criteria not directly reflective of performance relative to course requirements.

Steps to Initiate a Formal Appeal

1. Student must submit a written statement detailing their objections to the faculty response, along with supporting documentation, to the Associate Dean of Academic & Clinical Affairs with copy to the Assistant Dean for Enrollment and Student Services. Documentation of any communication between student and faculty outlining the concern should be included. This statement must be submitted within 30 days following the response of the faculty member who assigned the grade.
2. Upon review of the documentation, the Associate Dean of Academic & Clinical Affairs will notify the student in writing within 21 days of receiving the student's written appeal of the decision. As the Dean's designee, the decision of the Associate Dean of Academic & Clinical Affairs shall be the final decision at the College level.
3. Student/faculty may contact the College of Nursing, Assistant Dean, Enrollment and Student Services and/or the Wayne State University Ombuds Services at any time for assistance with any problem associated with a grade decision or grade appeal.

According to the Provost: *If, after your School/College appeal path is exhausted and you wish to continue with the grade appeal process, per the University Academic policy, you may request a Provost Review within 30 days of this decision. The request should be submitted via the online appeal form (<https://provost.wayne.edu/provostappealprocedure/>). For assistance with the appeal process, you may contact Ombuds Services (<https://wayne.edu/ombuds/>).*

Graduation Residency Requirement

The last thirty semester credits of the degree must be taken in residence at Wayne State University.

Graduation with Distinction

A candidate eligible for the bachelor's degree may receive a special diploma with *Cum Laude*, *Magna Cum Laude*, or *Summa Cum Laude* indicated. For the University guidelines regarding these distinctions, see Graduation with Distinction.

Dean's List and Honors List

Students completing twelve semester credits in study at Wayne State University are eligible for appointment to academic recognition lists each semester. The semester grade point average at Wayne State must be 3.75 or above to qualify for the Dean's List, or a 4.0 g.p.a. for students registered for six to eleven credits. The Honors List requires a minimum grade point average of 3.50. Lists of students on the Dean's List and Honors List will be posted in the College of Nursing. Students who receive marks of I or W or X and grades of N or U are not eligible. (For explanation of grades and marks, see Grading System, University (p. 53).)

Student Rights and Responsibilities

Continuance in the College is contingent upon compliance with official rules, regulations, requirements, and procedures of the University and the College of Nursing. *The student is responsible for reading this bulletin's contents pertinent to the College of Nursing and otherwise becoming informed and fulfilling all course and degree requirements in proper sequence with satisfactory scholarship.* In case of doubt regarding any matter affecting their standing as a student, the student should consult with a College of Nursing ASO. The faculty reserves the right to amend or revise

the policies and requirements outlined in the College of Nursing section of this bulletin.

A student may be required to withdraw from the College when, in the faculty's judgment, behavior demonstrates that the student is unsuited for nursing, unsafe practice, and/or unethical conduct in the program without having been previously warned. (See also Exclusion, above.)

Nursing (B.S.N.)

The undergraduate nursing program is designed to prepare students who, upon graduation, will begin the practice of professional nursing. The program leads to the degree of Bachelor of Science in Nursing (BSN) and provides a basis for graduate study in this discipline. The curriculum consists of courses in both general and professional education and is offered with different options oriented to the varying admissions qualifications of the applicants:

- BSN Direct admit for First Year (small cohort)
- BSN Traditional
- BSN Second Career/Second Degree (including BSN for Veterans)
- RN-BSN
- RN-MSN options (currently in moratorium)

Admission: BSN Programs

All applications are reviewed to determine the capability of applicants to complete a Bachelor of Science in Nursing. Admission is highly competitive and is based primarily on academic performance.

Prerequisite repeats are considered and can make an applicant ineligible to be considered for admission. Transcripts are also reviewed for full-time scholarly achievement and promise of success in this rigorous science and evidence-based curriculum. Prerequisite courses for the WSU College of Nursing Traditional BSN and BSN Second Career/Degree pathways must be completed within seven years of the application deadline to count toward admission.

Nursing: BSN Direct Admit for First Year BSN

Students in this category are presumed to be entering professional nursing for the first time. They are admitted through the Office of Undergraduate Admissions (p. 32) and complete general education/pre-professional courses offered through the College of Liberal Arts and Sciences. The students also complete a *holistic admission process* through the College of Nursing. The holistic admission process includes a critical evaluation of specific metrics. The holistic admission requirement necessitates community service and an essay submitted by the applicant detailing any personal attributes and experiences that the applicant feels would support their admission to the CON. The entire application packet is evaluated by an admission committee composed of individuals consisting of faculty from the undergraduate (UG) program, CON UG alumni and community partners. If admitted into the pathway, one prerequisite course can be taken at a community college.

Nursing: BSN Second Career/Second Degree Program Admission

Applicants in this category are eligible to apply for entry into Second Career/Second Degree Bachelor of Science in Nursing Program if they have completed a bachelor's degree in an area other than nursing and have completed the prerequisites (see below). Applicants must have completed all prerequisite courses with a grade of 'C' or better and candidates must have a minimum 3.0 grade point average in prerequisite courses to be eligible for consideration. A grade of 2.0 or higher in the science prerequisites is also required. The students also complete a holistic admission process through the College of Nursing. (Note: course prerequisites must be completed at time of application). The holistic admission process includes a critical evaluation of these same metrics as well as a requirement for community service and the submission of an essay detailing any personal attributes and experiences that the applicant feels would support their admission to the College of Nursing. The entire application packet is evaluated by an admission committee composed of individuals consisting of faculty from the undergraduate (UG) program, CON UG alumni and community partners. Admission to

the program is competitive; completion of prerequisites with minimum requirements does not guarantee admission.

Prerequisites (Second Career/Second Degree Program)

The following are prerequisite requirements for admission consideration to the Second Career/Second Degree Program in the College of Nursing. If a second-degree student is interested in pursuing the Traditional (three-year) program rather than the Second-Degree Program, the student must complete the prerequisites for the Traditional BSN program.

Code	Title	Credits
BIO 2270 & BIO 2271	Principles of Microbiology and Principles of Microbiology Lab	5
BIO 2870	Anatomy and Physiology	5
CHM 1060	General, Organic and Biochemistry	5
NFS 2030	Nutrition and Health	3
NUR 2030	Pathophysiology in Nursing (or equivalent, must be taken at a four year institution)	3
PSY 2410 or PSY 2400	Health Psychology Developmental Psychology	4
Social Inquiry Course (SI)		
Cultural Inquiry (CI)		

RN-BSN Program

The RN-BSN program is geared toward Michigan-licensed registered nurses (RNs) who have completed an associate degree program or a diploma program and wish to continue their professional education. For requirements for this curriculum, see Nursing: RN to BSN Completion Program (<https://nursing.wayne.edu/rn-bsn/>).

The RN to BSN pathway does not have course prerequisites; however, the following courses/requirements must be completed prior to graduation from WSU. These courses may have been completed within the associate degree.

Code	Title	Credits
CHM 1060	General, Organic and Biochemistry	5
PSY 2410 or PSY 2400	Health Psychology Developmental Psychology	4

Six (6) Elective Credits

Application to BSN Programs

Application to the Bachelor of Science in Nursing programs is a dual application process.

Step I - Application to Wayne State University: If the applicant is not already a Wayne State University student, they should apply prior to the stated deadline to the Office of Undergraduate Admissions and submit all required documentation and materials (including transcripts from all post-secondary institutions attended). All final transcripts for prerequisites completed during the winter semester must be submitted by June 1st. Applicants must meet all the general requirements for undergraduate admission (p. 32) to the University.

Step II - Application to the College of Nursing: Applicants must submit to the College of Nursing Office of Student Affairs the **on-line** Application for Admission to the Bachelor of Science in Nursing Program. Applications must be submitted by the deadline. First year BSN applicants will need to review the College of Nursing website for instructions. Official copies of all transcripts from all high school and post-secondary institutions attended, and any other required documentation (test scores, etc.) must be received in the Office of Student Affairs by **June 1st**, not postmarked by that date.

Application Fees: All Traditional Bachelor of Science in Nursing and Second Career/Second Degree Bachelor of Science in Nursing applicants must submit a \$50.00 non-refundable application fee. The application fee is due at the time of application.

Application Deadlines: All admission materials listed above must be received in the appropriate offices by the program application deadline.

For students enrolled in prerequisite coursework during the admission process, evidence of completion of all prerequisites must be received by the College of Nursing Office of Student Affairs no later than June 1st.

Non-native English-speaking candidates must submit Internet-Based Test of English as a Foreign Language (TOEFL) scores to the College of Nursing; a minimum total score of 101 is required, with minimum scores of 25 in listening, 25 in reading, 25 in writing and 26 in speaking.

Deferment

Students who are admitted to the BSN program but have not enrolled in any College of Nursing courses may request a deferral of up to one year. Deferrals, when granted, apply only to the track into which the student was admitted. A deferral decision does not, for example, allow a student admitted to the Traditional track to then be admitted to the CD2 track. Deferrals are generally granted for unanticipated circumstances (i.e., illness or pregnancy). Deferrals are usually not granted for financial reasons, inability to complete prerequisite courses or other non-health related reasons.

A written requests for deferral is required. Applicants must explain the reason for the deferral and send a detailed letter addressed to the Wayne State University College of Nursing's Scholastic Policy and Admission (SPA) Committee via the Office of Student Affairs (nursinginfo@wayne.edu). If a student has already registered for a course in the College of Nursing (CON), deferment is not an option.

If the request is denied, the offer of admission will be rescinded. Financial aid and tuition support are not automatically deferred and fees already paid are typically not subject to refund.

Readmission

Nursing students whose attendance in the nursing clinical sequence of the undergraduate curriculum has been interrupted for more than one academic year must request reinstatement to the College of Nursing. Contact the College of Nursing Office of Student Affairs for application materials and deadline dates. There is no assurance that a student can be reinstated once the student withdraws from the program or does not progress in the program within the specified time limitations.

Registration for Classes

All students are required to register for required classes prior to attending classes. Registration procedures and schedules published in the official University Schedule of Classes (<http://www.classschedule.wayne.edu>). The usual full-time undergraduate program is 12-17 credits per term.

Clinical location assignments are created through the Office of Student Affairs and the Alliance of Clinical Education.

Enrollment in Professional Nursing Courses

Admission to the College of Nursing and successful completion of all prerequisites/corequisites identified for nursing courses.

1. **Health Clearance** - Students admitted to the College are required to have a valid clinical permit. The health clearance must indicate that

the student is in good health, free from communicable disease, and able to engage in a rigorous professional program with extensive clinical experiences. Health requirements are specified on the clearance form; some must be repeated yearly. Verification of compliance must be supplied annually to CastleBranch Immunization Tracker prior to deadline. Throughout the program students must maintain a level of health consistent with meeting the objectives of the curriculum and practicing nursing safely. If a health problem occurs during a student's educational program, the faculty member responsible for clinical practice will assess the student's ability to continue in the program and will make recommendations for action to the Associate Dean for Academic and Clinical Affairs. The University and the College reserve the right to refuse or cancel a student's admission or to restrict their activities in the College if the health status indicates such action is warranted for safeguarding the patient, the student, other students, or the University.

2. **Liability Insurance** - The minimum amount of malpractice liability insurance acceptable is \$1,000,000/\$3,000,000 to cover each year of the student's nursing studies. Students must purchase liability insurance (information provided by the Office of Student Affairs) and upload proof of purchase to Castlebranch by the stated deadline. Students may not participate in clinical courses without current liability insurance. Liability insurance is renewed annually. .
3. **BLS (Basic Life Support) for Health Care Providers Certification** - All students must have BLS for Health Care Providers (BLS) Certification or the equivalent for entry to clinical courses. It must be updated each year and students must have current, updated certification on file with CastleBranch Immunization Tracker by the deadline.
4. **Criminal Background and Drug Testing History** - Students admitted to the College of Nursing are required to have a Criminal Background Investigation and a ten-panel drug test completed prior to beginning nursing courses. The urine drug screen must be completed by the WSU Campus Health Center. The Criminal Background Investigation is intended to discover if the applicant has had a felony conviction in the fifteen years prior to application, or a conviction of a misdemeanor involving abuse, neglect, assault, battery, or criminal sexual conduct in the ten years prior to application. Conviction of either the felony or certain types of misdemeanor violations, as outlined, prohibits the student from participation in clinical courses.
5. **Alliance for Clinical Education (ACEMAPP)** - All undergraduate students are required to participate in the Michigan Health Council ACEMAPP program for clinical education and placement. Health status reports, liability insurance, BLS (Basic Life Support), criminal background checks and drug screens are tracked though the ACE and provided to participating clinical institutions. As part of the ACE program, students complete mandatory HIPPA, OSHA and blood-borne pathogen training.
6. All faculty are directed to deny students access to clinical experiences if the student has not met clinical clearance requirements. If the above detailed requirements are not meet at the start of any UG clinical course, a 5% grade reduction is applied to that course.

Program Requirements

Candidates for the Bachelor of Science in Nursing degree must complete the minimum 120 semester credits in course work including satisfaction of the University General Education Requirements (p. 22) and in accordance with the academic procedures of the University (p. 38) and the College (p. 337).

Residency: The last thirty credits of the degree must be taken at Wayne State University.

Grade Point Average: Students must maintain a grade point average (g.p.a.) of at least 2.0 in total residence credit and in all nursing courses.

Curriculum and Program Requirements: A student must complete all curriculum and program requirements, remove any marks of 'I' or 'Y', and be recommended by the faculty for the BSN degree. Student must complete the required minimum number of credits, elect courses in the proper sequence in the appropriate curriculum (as shown below), and satisfy all course prerequisites or corequisites.

Professional and General Education Requirements for the Traditional BSN Program

The following curriculum outlines the minimum of 120 semester credits required for the Bachelor of Science in Nursing, including 68 credits in nursing major courses.

First Year		Credits
Fall Semester		
BIO 1510 & BIO 1511	Basic Life Mechanisms and Basic Life Mechanisms Laboratory	4
CHM 1060	General, Organic and Biochemistry	5
PSY 1020 or PSY 1010	Elements of Psychology or Introductory Psychology	3
Quantitative Experience (QE)		3

Total Credits		121

Professional Requirements for the Second Career/ Second Degree BSN Program

In addition to the pre-nursing requirements for the Second Career/ Second Degree Program (see Nursing: BSN Second Career/Second Degree Program Admission) the following professional educational courses are required, in addition to a minimum of sixty-five credits in prior baccalaureate and pre-nursing requirements:

Code	Title	Credits
First Semester (Spring/Summer)		
NUR 2010	Health Assessment	3
NUR 2060	Pharmacology in Nursing	3
NUR 4800	Transcultural Health Through the Life Cycle	3
Second Semester (Fall)		
NUR 2050	Fundamentals of Nursing Care	5
NUR 2995	Foundations of Professional Nursing Practice	3
NUR 3405	Introduction to Research and Evidence-Based Practice	3
NUR 4300	Nursing Informatics	3
Third Semester (Winter)		
NUR 3010	Restorative Care of Adults and Elders with Acute Illness	5
NUR 3015	Restorative Care: Psychiatric Mental Health Nursing Across the Lifespan	5
NUR 4020	Integrative Care of the Perinatal Family	5
Fourth Semester (Spring/Summer)		
NUR 3020	Restorative Care of Adults and Elders with Chronic Illness	5
NUR 4010	Integrative Care of Children and Their Families	5
NUR 4040	Leadership and Management in Nursing Practice	4
Fifth Semester (Fall)		
NUR 4050	Theory of Caring for Complex, Critically Ill Patients	3
NUR 4060	Transition of Nursing Knowledge into Practice	5
NUR 4120	Community Focused Nursing Practice	5
Total Credits		65

Nursing: RN to BSN Completion Program

All students must achieve a grade of C or better in all courses cited below. A cumulative grade point average of 2.00 or above must be maintained. These courses may not be taken for Passed-Not Passed grades.

Completion of the following courses (or equivalents) is required.

Code	Title	Credits
BIO 1510 & BIO 1511	Basic Life Mechanisms and Basic Life Mechanisms Laboratory	4
BIO 2270 & BIO 2271	Principles of Microbiology and Principles of Microbiology Lab	5
BIO 2870	Anatomy and Physiology (Laboratory)	5
CHM 1020 or CHM 1060	Survey of General Chemistry (Laboratory) General, Organic and Biochemistry	4
ENG 1020	Introductory College Writing	3

PSY 1010	Introductory Psychology	4
PSY 2400	Developmental Psychology	4
SOC 1010 or ANT 1100	Understanding Human Society Introduction to Anthropology	3

RN to BSN Program: Senior Level Professional and General Education Requirements

The following upper-level professional nursing courses are required. The remaining General Education Requirements and liberal arts credits comprise the balance of the minimum 120 credits required for the Bachelor of Science in Nursing.

RN to BSN students are required to complete 6 credits of cognate courses that supports the terminal objectives for the BSN program. Students are encouraged to reach out to the Undergraduate Program Director to discuss course options.

First Year		Credits

Nursing: B.S.N. Honors Program

The College of Nursing Honors program offers a challenging and rewarding opportunity for students to further pursue their interests in the field of nursing. The Honors program is open to all students seeking their Bachelors of Science in Nursing and requires that students graduate with a GPA of 3.5. Completion of the honors program requirements results in an honors degree designation on the diploma. Interested students should contact their Academic Services Officer in the Office of Student Affairs.

Departmental Honors Requirements

In addition to the stated requirements for a Bachelor's of Science in Nursing, to earn Departmental Honors, students must complete the Honors Assignments associated with the Honors 1, 2, and 3 courses as outlined in the NURH Guidelines. In fulfilling these requirements, they *must* also complete an HON 42XX course that will count towards their accumulation of 12 Honors hours. While honors students must accumulate a minimum of at least 12 credits of Honors courses, nursing students typically accumulate 12-19 honors credits.

Eugene Applebaum College of Pharmacy and Health Sciences

Dean: Brian Cummings

In 1890, the Detroit College of Pharmacy was founded as a program in the Detroit Medical College, the forerunner of the Wayne State University School of Medicine. The Detroit College of Pharmacy later separated from its parent institution, operated independently for two years, and in 1907, affiliated with the Detroit Institute of Technology. In response to the urging of Detroit area pharmacists another program was developed from the six-year course in pharmacy established at Cass Technical High School into a new College of Pharmacy organized by the Detroit Board of Education in 1924. This College of Pharmacy and the Detroit Board of Education's Colleges of Medicine, Education, Liberal Arts, Engineering and Graduate School were united in 1933 into a university called the College of the City of Detroit and named Wayne University in 1934. In 1957, one year after Wayne University became Wayne State University, the College of Pharmacy at the Detroit Institute of Technology joined the College of Pharmacy at Wayne by merging into Wayne State University's system of schools and colleges.

In 1974, Pharmacy merged with the Division of Allied Health to form a college devoted to educating the modern health care team. Mortuary Science, which was started as a unit of the School of Business Administration in 1943, evolved into a separate department and eventually became part of the College of Pharmacy and Allied Health Professions in 1985. In 2002 the College changed its name to the Eugene Applebaum College of Pharmacy and Health Sciences to recognize the contributions of Eugene Applebaum, a 1960 alumnus of the college's pharmacy program, and occupied the new facility which opened in 2002. In 2003 the College reorganized from nine departments to the four departments that exist today.

The College occupies a state-of-the-art facility, located on the campus of the Detroit Medical Center, one of the Midwest's leading centers for healthcare, research, and education. The Center boasts a high concentration of health professionals including the faculty and students of the Wayne State University School of Medicine, one of the nation's largest medical schools. The Eugene Applebaum College of Pharmacy and Health Sciences is designed to provide students with the latest tools to prepare them for health careers in the new economy.

Mission and Vision

The College mission is to advance the health and well-being of society through the preparation of highly-skilled health care practitioners, and through research to discover, evaluate, and implement new knowledge to improve models of practice and methods of treatment in pharmacy and health sciences in ways of both local and global relevance.

Our vision is to serve as a preeminent model for learning, scholarship, and engagement impacting health, safety, and well-being worldwide through leadership, innovation, and the interconnectedness of our disciplines.

The College offers a variety of undergraduate, graduate-professional, and graduate programs designed to provide advanced-level professional training, basic research, and scholarly activities in the various health science fields. Detailed information on each program may be found in the Departmental sections.

College Organization

The Eugene Applebaum College of Pharmacy and Health Sciences is organized into four academic departments: Applied Health Sciences; Health Care Sciences; Pharmacy Practice; and Pharmaceutical Sciences. Academic programs exist within each department as follows:

Department of Applied Health Sciences

Medical Laboratory Science

Students in medical laboratory science learn the scientific principles and theories behind many laboratory tests performed to aid in the diagnosis of disease. During the latter part of the curriculum students become proficient in the performance of these tests and familiar with practical aspects of the clinical laboratory. This work is indispensable to effective patient care because results of laboratory analysis often establish a basis for diagnosis which must be made before treatment can be instituted.

Mortuary Science

The program in mortuary science prepares students for a career in funeral service. The curriculum provides the study of the fundamentals of applied biological and physical sciences as background for understanding techniques and procedures applicable to the preparation and disposition of human bodies and to public health and safety measures. Other areas of study include a thorough understanding of the theory and a proficiency in the practice of the technical skills pertinent to funeral service and the instillation of high standards of ethical conduct required to foster and uphold the dignity of funeral service.

Pathologists' Assistant

The pathologists' assistant program trains personnel to assist the pathologist in the performance of postmortem examinations and in the preparation of surgical specimens for study. Additional training prepares the student to take responsibility for tasks designated by a supervising pathologist such as budgetary, superintendence, and teaching duties.

Department of Health Care Sciences

Nurse Anesthesia

The nurse anesthetist is a specialist with extensive education and training in Nurse Anesthesia leading to a Doctor of Nurse Anesthesia Practice. Graduates must take and pass a national certification examination to be granted a specialty license and title of Certified Registered Nurse Anesthetist (CRNA) and are re certified every two years. CRNAs are qualified to provide all types of anesthesia services to adults, children, and infants for any type of surgical interventions. They are employed in major teaching, and tertiary care institutions, trauma, community, and rural hospitals. CRNAs also

function as a key member on the cardiopulmonary resuscitation team and are responsible for care of patients in respiratory distress to establish and secure a patent airway. This program is offered only at the graduate level and students should consult the Graduate Bulletin.

Occupational Therapy

The occupational therapy program prepares the student to assume clinician, researcher, educator, and consultative roles that assist individuals who are limited in the ability to perform tasks required in normal routines of daily living: self-care, work, and play/leisure. The entry level Master's Degree in Occupational Therapy incorporates undergraduate and graduate education. Students learn theoretical concepts and their application related to the restoration, development, and maintenance of physical, psychological, social, emotional, and cognitive functions. The theory-based curriculum includes instruction in the use of specific evaluative procedures; the application of a wide variety of activities related to daily living tasks, including creative and manual skills; and the procedures for functioning as a member of a health care team. The occupational therapist's goal is to promote meaningful occupations and maximize functional independence in collaboration with the client. This program is offered only at the graduate level and students should consult the Graduate Bulletin for details.

Physical Therapy

Physical Therapy is a dynamic health profession that develops, coordinates and utilizes selected knowledge, skills and techniques in planning, organizing and directing programs for the care of individuals whose ability to function is impaired or threatened by disease or injury. The practice of physical therapy includes: examination, evaluation, diagnosis, prognosis, intervention, and analysis of outcomes.

Physical Therapists provide services to patients/clients who have impairments of body function and structure, activity limitations or participation restrictions or changes in physical function and health status resulting from injury, disease or other causes. Physical therapists must be able to collaborate with a variety of professionals, address risk factors to health, be leaders and providers in the areas of prevention and promoting health, wellness and fitness, serve as educators, consultants, administrators and advocates, utilize critical inquiry skills and direct and supervise the provision of physical therapy services (Guide to Physical Therapist Practice, APTA, 2003).

Some examples of diagnoses of individuals who might be seen by a physical therapist include stroke, low back pain, ACL knee injury, Parkinson's Disease, spinal cord injury, amputation, heart attack, athletic injury, arthritis, cerebral palsy, rotator cuff (shoulder) injury, total joint replacement, spina bifida, general health and personal training, congestive heart failure, emphysema, cancer, head injury, multiple sclerosis, learning disabilities, speed and agility training, and many more. This program is offered only at the graduate level and students should consult the Graduate Bulletin for details. Wayne State students may apply to the program with 90 undergraduate credit hours if all other pre-requisite courses are completed.

Physician Assistant Studies

The mission of the physician assistant studies program is to train highly-qualified physician assistants for primary care in inner-city and other underserved areas of the State of Michigan. This is a graduate-level program designed to meet the need for qualified medical professionals; it is two years in length, and classes begin in May of each year. Interested students should consult the Graduate Bulletin for details.

Radiation Therapy Technology

This health care discipline utilizes ionizing radiation for the treatment of malignant disease. This field requires a basic understanding of and interest in science, especially mathematics and physics, as well as emotional maturity and a desire to assist in the management of patient care. The program is a four-year curriculum consisting of two years of pre-professional and two years of professional course work.

Radiologic Technology

Radiologic Technology is a health care discipline that utilizes ionizing radiation for the diagnosis of disease processes in the human body. This field requires a basic understanding of mathematics and science and a desire to serve patients. As a radiographer, one has the opportunity to combine interpersonal and patient assessment skills while employing highly technical equipment. A diagnostic radiologic technologist is able to formulate exposure factors dependent on procedure, pathology and individual patient dynamics; assist radiologists in more invasive procedures such as fluoroscopic studies; evaluate images for quality and accuracy; and provide support to patients anxious about their health. These technologists are typically employed in hospitals, clinics, educational institutions, and commercial equipment corporations as staff radiographers, clinical supervisors, administrators, educators, marketing personnel and applications specialists.

Department of Pharmacy Practice

The Department of Pharmacy Practice prepares students for entry into the pharmacy profession through coursework in the applied use of drug therapy in the treatment and prevention of human disease, provision of patient-centered care in clinical practice environments, and conducts research related to the rational use, delivery, and access to drugs and other therapeutic modalities. Pharmacy Practice also includes service and leadership to the University and profession of pharmacy and the public related to education and the optimal use of medications.

Department of Pharmaceutical Sciences

The Department of Pharmaceutical Sciences shares responsibility for the Doctor of Pharmacy program with the Department of Pharmacy Practice. Teaching and learning in the Pharm.D. program are designed for the graduate to improve human health, wellness and safety. The Pharmaceutical Sciences span from basic to multidisciplinary and translational aspects of human health, including the conception, discovery, formulation, delivery, action and safety of therapeutic medicines and other agents. Ph.D. and M.S. programs specializing in medicinal chemistry, pharmaceuticals and pharmacology / toxicology provide a stimulating and supportive environment for advanced education and for the successful completion of original research projects. Ph.D. candidates receive Graduate Research Assistantships consisting of competitive stipends, remission of tuition and full health insurance. The department is home to research-intensive programs of study covering a wide range of specialized areas for outstanding postdoctoral fellows and undergraduates. Department members provide much-needed expertise to organizations that are committed to the treatment and prevention of human disease, and to advancing the health and safety of animals and the environment. They are leaders in their service to the University and the professions of pharmacy and pharmaceutical sciences through research, education and outreach. Graduates of these programs

are changing the world, one step at a time, through a rich academic tradition founded upon prizing excellence, extending collegiality and making a difference locally and globally.

Accreditation

The Higher Learning Commission accredits Wayne State University and professional programs in this College are accredited by their respective agencies. Please visit program tabs to see individual accreditation information or visit Accreditation (p. 15).

Academic Regulations: College of Pharmacy and Health Sciences

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 38) section of this bulletin. The following additions and amendments pertain to health sciences students.

Academic Regulations Terminology

1. *Professional course* means any course required in the Pharm.D., D.P.T. or M.O.T curriculum and any course approved for professional elective credit and elected by the student for that purpose.
2. *Satisfactory grade* means a grade of C or above, or a grade of S.
3. *Unsatisfactory grade* means a grade of C-minus or below 2.0 grade points, or a mark of X or unauthorized W Marks of X or marks of W which have not been authorized will be treated as an F.
4. *Probation* means a restricted status in the program (see below).
5. *Dismissal* from the program means that the student may no longer register in the program or elect professional course work. Continued registration in the University requires that a Change of Status to another program be initiated by the student.

Academic and Professional Progress

The College expects its students to develop professional competence and to satisfy the same high standards of exemplary character, appearance, and ethical conduct expected of health care professionals. To merit confidence and esteem, both personally and in the health care professions, appropriate dress and demeanor are expected of each student in their respective academic and professional program.

Each program has a process or committee in place to review student performance regularly and makes decisions concerning probationary status. A student may be dismissed from the College at any time for an unsatisfactory academic or professional record, for irresponsible attendance, or other failures to diligently pursue the academic and professional program.

Outside Employment

The curriculum has been arranged with the presumption that the student will devote full time and energy to their academic program. Internships, fieldwork and other pharmaceutical employment are recognized as an integral part of the academic and professional growth of a pharmacy or health science student. The student, however, is responsible for maintaining the appropriate balance between such activity and satisfactory achievement in the classroom.

Attendance

Regularity in attendance and performance is necessary for success in college work. At the beginning of each course the instructor will announce and/or include in the syllabus the specific attendance required of students as part of the successful completion of the course. Effective Fall semester 2016, a new policy requires students to respond to a request for course participation (<http://reg.wayne.edu/gotoclass.php>) confirmation.

Admission to Pre-professional Programs

Students preparing to apply to a professional program in the College may apply to the Bachelor of Science with a major in Applied Health Sciences or pursue a pre-professional track in the College of Liberal Arts and Sciences (options are medical laboratory science, mortuary science, occupational therapy, pharmacy, physical therapy, radiation

therapy technology and radiologic technology). Applicants must fulfill requirements for general undergraduate admission (<https://bulletins.wayne.edu/undergraduate/general-information/admission/>) to the University. The Office of Admissions is located in the University Welcome Center, Wayne State University, Detroit, Michigan 48202; telephone: 313-5773577. Admissions counselors are available for personal conferences to aid prospective students.

Admission to Professional Programs

All professional programs in the College are limited in the number of applicants that can be accepted. This limitation is created not only by the number of faculty members available but also by the number of positions available in health care facilities where much of the field work experience is conducted at a 1:1 or 1:2 faculty-to-student ratio.

Students are admitted to the professional program annually. Since each program has special requirements for admission, students are urged to attend one of the monthly Information Meetings (<http://www.cphs.wayne.edu/meetings.php>) (mandatory for some programs) for advising and application deadline dates a year before they plan to enter. Individuals can register for the free monthly Information Meetings online. Students are to check with each program to verify the deadline date for admission to that program.

For admission to the professional programs in the College, applicants must have completed all equivalent pre-professional courses and other requirements. Students admitted to the professional program usually have a grade point average of 2.5 ('A' = 4.0) or better.

Although academic achievement is important, personal qualities and professional behaviors are considered of equal importance since the students selected will eventually be working as members of a team in the delivery of health care. Therefore, criteria for selection are also based on such qualities as maturity, motivation, knowledge of the profession, ability to communicate, personal integrity and empathy for others. Consequently, evaluations from faculty and academic advisors, as well as a personal interview, are given great weight in the selection of candidates by admissions committees.

Academic Advising

A staff of academic advisors is available in the University Advising Center, 1600 Adamany Library, for students interested in health sciences professions.

Students, during their sophomore year, should confer with the professional program advisor of the health sciences profession of their choice, during attendance at one of the Monthly Information Meetings, whenever they have questions about degree requirements, academic regulations, course elections, programs of study, or difficulties in their academic work. Course elections are arranged in consultation with the professional program advisors.

Normal Program Load

The requirements for graduation are based upon a normal program of fifteen credits per semester for eight to ten semesters. Because courses are of varying length, students cannot always arrange programs of exactly fifteen credits; hence the normal load is fourteen to eighteen credits.

Academic Misbehavior

Academic Honesty: Students are expected to abide by the principle of honesty which is fundamental to the life of a scholarly community. If any act of academic misbehavior, which includes cheating, plagiarism, or other acts are discovered, the instructor is expected to take appropriate

action, which can include one or more of the following: reprimand, repeat of assignment, a failing grade for the assignment, a failing grade for the course. Serious acts of dishonesty can lead to suspension or dismissal.

In any instance of academic misbehavior occurring in any course offered by the Eugene Applebaum College of Pharmacy and Health Sciences, as defined in section 2 of the WSU Student Code of Conduct (<https://doso.wayne.edu/conduct/>), the provisions of Section 10.1 of the Student Code of Conduct will be implemented as follows:

The faculty member may, without filing a charge, adjust the grade downward (including downgrading to a failing grade) for the test, paper, or other course-related activity in question, or for the entire course. In any case, the faculty member shall provide the student with a copy of section 10.1 of the Student Code of Conduct and a copy of the member prepared by Ombuds Services, explaining the Ombuds Service's role, referred to in section 1.5 of the Student Code of Conduct.

Academic misbehavior policies of individual programs may vary from the above. Please see individual program for more information.

Probation

If a student's work falls below the required cumulative g.p.a. for professional studies, he/she will be placed on probation. If a student incurs a serious grade point deficiency in a semester, or remains on probation for more than one semester, he/she will not be allowed to re-register in the College unless he/she obtains permission from his/ her respective program or department. Such permission will be granted only after an appraisal of the student's situation and some assurance from the student that the previous causes of failure will not prevail in the proposed program.

Program Probation: A student whose semester g.p.a. falls below the required average will be placed on program probation. Each student must meet the academic and probationary requirements of his or her program.

Removal of Probation: The student will be removed from probation at the end of any semester in which he/she achieves a satisfactory overall g.p.a. as determined by the program.

Please see individual programs for more detailed information on program probation and dismissal policies.

Student Rights and Responsibilities

The College and its faculty reserve the right to dismiss a student at any time who does not appear to be suited for the work or whose conduct or academic standing is regarded as unsatisfactory. Students are urged to review the specific policies of their respective program or department.

Grade Appeals

Official Policies and Procedures
College Policy No. 89.01 FINAL COURSE GRADE APPEALS

Approved 4/30/2013, Correction 3/26/15, UPDATED August 14, 2015, Adopted September 16, 2015, **Approved September 28, 2016 Provost Office addendum September 13, 2017. Provost Office update July 12, 2018, and November 13, 2018, February 23, 2021. Approved April 28, 2021.**

THIS VERSION REPLACES AND SUPERSEDES ALL PRIOR VERSIONS OF FINAL COURSE GRADE APPEALS POLICY. This policy is effective immediately for final course grades received for Fall 2016 and all terms going forward.

The following is the policy implemented for Final Course Grade Appeals in the Eugene Applebaum College of Pharmacy and Health Sciences.

At the beginning of each term, the instructor is to inform students in writing of the criteria used in arriving at grades for the class including the relative importance of prepared papers, quizzes and examinations, class participation and attendance. Where student performance in other practical and structured activities is relevant in evaluating professional competency, criteria used in such evaluations should be stated. Written materials should be graded in a timely manner and such materials, together with comments and an explanation of grading criteria, are to be made available to students. Students should be encouraged to discuss any class related problems with the instructor.

Instructors are expected to evaluate student work according to sound academic standards.

Equal expectations should be required of all students in a class (although more work is expected from graduate students than from undergraduates) and grades should be assigned without departing from announced procedures.

It is the instructor's prerogative to assign grades in accordance with his or her academic and professional judgment and the student assumes the burden of proof in the appeals process. Grounds for appeals are:

(1) evaluation of student work by criteria not directly reflective of performance relative to course requirements; (2) sexual harassment or discrimination; or (3) the application of non-academic criteria in the grading process, as listed in the university's non-discrimination/affirmative action statute: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status.

Final grade appeals and dismissal appeals that fail to cite one or more of the above criteria will be automatically rejected and will not be considered on the merits. Dismissal for failure to cite appeal criteria does not extend the deadline for filing an amended appeal.

This final course grade appeal policy does not apply to allegations of academic misbehavior. Academic misbehavior matters are addressed by Section 10.1 of the WSU Student Code of Conduct.

Definition: Instructor - Instructor applies to full-time, fractional-time, part-time faculty as well as Graduate Teaching Assistants, Adjuncts, and Academic Staff with teaching duties.

Final Course Grade Appeals Policy and Procedure Informal Final Course Grade Review

1. Prior to an appeal of a course final grade all issues must first be directed to the instructor of the course for consideration of resolution.
2. The initial request of a grade review should be made directly to the instructor in an informal discussion during office hours or by a requested scheduled appointment.
3. If a student has documented efforts to obtain an informal meeting with the instructor and is unable to schedule this meeting within ten calendar days the student will then have the right to proceed to a formal grade appeal within thirty calendar days following posting of the final course grade. The instructor should make every reasonable effort to meet with the student during this time period prior to a formal appeal.

Formal Final Course Grade Appeal Policy and Procedure

If the final grade in question remains unchanged after the informal final course grade review, any formal Course Grade Appeal to change the grade in question must be initiated in writing by the student within thirty calendar days following the posting of the final course grade. The student must submit a formal written appeal together with a completed a grade appeal form prescribed by the College to the appropriate

Department Chair (or designee). This formal appeal must include a copy of the current course syllabus and a student appeal letter including detailed justification for the appeal. This documentation must explicitly state which of the three criteria of allowable rationales is applicable and how the alleged violation occurred.

Formal Final Course Grade Appeal

1. The Department Chair shall provide a time-stamped and dated copy of the formal student course grade appeal to the instructor, program director or program/department grade appeal committee. The Department Chair will then request input and/or response from the instructor, program director or the program/department grade appeal committee.
2. Student or Faculty involved in a grade appeal process may contact the University Ombuds Services at any time for assistance with any questions associated with a grade decision or the grade appeal process.
3. The Department Chair may convene an ad hoc special review committee (or charge an existing committee) to advise on any dispute.
4. The Department Chair shall review all documentation and respond in writing to the student within thirty calendar days of receiving the formal course grade appeal. The Department Chair will place, in writing, the final decision to the student, instructor, program director, program/department grade appeal committee or the reason for any delay in decision. The decision of the Department Chair can be appealed to the Office of the Dean.
5. Appeals to the Office of the Dean must be submitted in writing within ten calendar days of the postmarked response from the Department Chair. The Dean or his/her designee must respond to the student appeal within thirty calendar days. The decision of the Dean or his/her designee is the final decision at the College level.
6. If the appeal is denied at the Dean (or designee) of the College level, and the College appeal path is exhausted, if the student wishes to continue with the grade appeal process, per the University Academic policy (<https://provost.wayne.edu/academic-policy/>), the student may request a Provost Review within 30 days of this decision. The request should be addressed to Dr. R. Darin Ellis, Associate Provost for Academic Programs. **The request should be submitted via the online appeal form** (<https://provost.wayne.edu/provostappealprocedure/>). For assistance with the appeal process, the student may contact Ombuds Services. The student's formal appeal for Provost Review must include a copy of the current course syllabus, the initial student appeal letter including detailed justification for the appeal, the Department Chair's (or designee's) response letter, and the Dean's (or designee's) written response. The decision of the Provost or his/her designee is final. No further appeal is possible.

Dismissal Policy

College Policy No. 89.06
Established and Approved September 28, 2016

The following is the policy implemented when a student has been dismissed from a program or department in the Eugene Applebaum College of Pharmacy and Health Sciences. Specific guidelines for dismissal are available (by programs and departments) in student handbooks and in other electronic formats on program, department, and College web pages.

Combined Grade Appeal/Dismissal Policy

If the final course grade leads to dismissal, the dismissal will be considered simultaneously in the final course grade appeal process. There is no separate or additional appeal process for a dismissal based

on a final course grade. This would be referred to as a "combined" appeal. In the event the combined final grade/dismissal appeal is denied by the Dean (or designee) a final appeal can be made by the student to the Provost as part of the combined grade appeal/dismissal process.

If dismissal results from an unprofessional behavior violation or other non-academic reason (<https://doso.wayne.edu/conduct/nonacademic-misconduct/>) not addressed within the program or department student handbook, the **WSU Student Code of Conduct** will be applied. Academic misbehavior matters are addressed by Section 10.1 of the **WSU Student Code of Conduct**.

Definition: Instructor - Instructor applies to full-time, fractional-time, part-time faculty as well as Graduate Teaching Assistants, Adjuncts, and Academic Staff with teaching duties.

Combined Grade Appeal/Dismissal Policy and Procedure Informal Grade Appeal/Dismissal Review

1. Prior to a combined appeal of a grade/dismissal all issues must first be directed to the instructor of the course for consideration of resolution.
2. The initial request should be made directly to the instructor in an informal discussion during office hours or by a requested scheduled appointment.
3. If a student has documented efforts to obtain an informal meeting with the instructor and is unable to schedule this meeting within ten calendar days the student will then have the right to proceed to a formal combined grade appeal/dismissal process. The instructor should make every reasonable effort to meet with the student during this time period prior to a formal appeal.

Formal Combined Grade Appeal/Dismissal Appeal Policy and Procedure

If the dismissal status remains unchanged after the informal meeting with the instructor, the formal Grade Appeal/Dismissal process must be initiated in writing by the student within thirty calendar days following the notification of the final course grade that precipitated the dismissal. The student must submit a formal written appeal to the appropriate Department Chair (or designee). This formal appeal must include a copy of the current course syllabus and a student appeal letter including detailed justification for the appeal of the dismissal.

Formal Combined Grade Appeal/Dismissal Process

1. The Department Chair (or designee) shall provide a time-stamped and dated copy of the formal student dismissal appeal to the instructor, program director or program/department appeal committee. The Department Chair (or designee) will then request input and/or response from the instructor, program director or the program/department appeal committee.
2. Student or Faculty involved in a dismissal appeal process may contact the University Ombuds Services at any time for assistance with any questions associated with a grade decision or the grade appeal/dismissal process.
3. The Department Chair (or designee) may convene an ad hoc special review committee (or charge an existing committee) to advise on any dismissal.
4. The Department Chair (or designee) shall review all documentation and respond in writing to the student within thirty calendar days of receiving the formal dismissal appeal. The Department Chair (or designee) will place, in writing, the final decision to the student, instructor, program director, program/department appeal committee or the reason for any delay in decision. The decision of the Department Chair (or designee) can be appealed to the Dean.
5. Appeals to the Dean must be submitted in writing within ten calendar days of the postmarked response from the Department Chair (or

designee). The Dean or his/her designee must respond to the student appeal within thirty calendar days. The decision of the Dean or his/her designee is the final decision at the College level.

6. If the appeal is denied at the Dean (or designee) of the College level and the College appeal path is exhausted, if the student wishes to continue with the final grade/dismissal appeal process, per the University Academic policy, the student may request a Provost Review within 30 days of this decision. The request should be addressed to Dr. R. Darin Ellis, Associate Provost for Academic Programs. **The request should be submitted via the online appeal form.** For assistance with the appeal process, the student may contact the Ombuds Services. The student's combined grade appeal/dismissal for Provost Review must include a copy of the current course syllabus, the initial student appeal letter including detailed justification for the appeal, the Department Chair's (or designee's) response letter, and the Dean's (or designee's) written response. The decision of the Provost or his/her designee is final. No further appeal is possible.

Dismissal Policy and Procedure

This applies to appeals of any and all dismissals that occurred because of academic, non-academic, or professional behavior violations.

Informal Dismissal Review

1. Prior to a dismissal all issues must first be directed to the instructor of the course for consideration of resolution.
2. The initial request should be made directly to the instructor in an informal discussion during office hours or by a requested scheduled appointment.
3. If a student has documented efforts to obtain an informal meeting with the instructor and is unable to schedule this meeting within ten calendar days the student will then have the right to proceed to a formal dismissal appeal process. The instructor should make every reasonable effort to meet with the student during this time period prior to a formal appeal.

Formal Dismissal Appeal Policy and Procedure

If the dismissal status remains unchanged after the informal meeting with the instructor, the formal dismissal process must be initiated in writing by the student within thirty calendar days following the notification of the action that precipitated the dismissal. The student must submit a formal written appeal to the appropriate Department Chair (or designee). This formal appeal must include a letter including detailed justification for the appeal of the dismissal.

Formal Dismissal Process

1. The Department Chair (or designee) shall provide a time-stamped and dated copy of the formal student dismissal appeal to the instructor, program director or program/department appeal committee. The Department Chair (or designee) will then request input and/or response from the instructor, program director or the program/department appeal committee.
2. Student or Faculty involved in a dismissal appeal process may contact the University Ombuds Services at any time for assistance with any questions associated with the dismissal process.
3. The Department Chair (or designee) may convene an ad hoc special review committee (or charge an existing committee) to advise on any dismissal.
4. The Department Chair (or designee) shall review all documentation and respond in writing to the student within thirty calendar days of receiving the formal dismissal appeal. The Department Chair (or designee) will place, in writing, the final decision to the student, instructor, program director, program/department appeal

committee or the reason for any delay in decision. The decision of the Department Chair (or designee) can be appealed to the Dean.

5. Appeals to the Dean must be submitted in writing within ten calendar days of the postmarked response from the Department Chair (or designee). The Dean or his/her designee must respond to the student dismissal appeal within thirty calendar days. The decision of the Dean or his/her designee is the final decision at the College level.
6. If the appeal is denied at the Dean (or designee) of the College level and the College appeal path is exhausted, if the student wishes to continue with the final grade/dismissal appeal process, per the University Academic policy, the student may request a Provost Review within 30 days of this decision. The request should be addressed to Dr. R. Darin Ellis, Associate Provost for Academic Programs. **The request should be submitted via the online form.** For assistance with the appeal process, the student may contact the Ombuds Services. The student's combined grade appeal/dismissal for Provost Review must include a copy of the current course syllabus, the initial student appeal letter including detailed justification for the appeal, the Department Chair's (or designee's) response letter, and the Dean's (or designee's) written response. The decision of the Provost or his/her designee is final. No further appeal is possible.

Suspension

In extenuating circumstances, a suspension may be recommended during the appeal process. Suspension is a temporary removal of a student from participation in educational activities. While suspended, the student is placed on an administrative leave of absence.

Suspension may occur for failure to meet program/department, College or University requirements, because of a serious allegation of unprofessional behavior, or when a student is deemed to be a danger to others or him/herself. A recommendation for suspension can be made in writing to the student by the Assistant Dean for Student Affairs, the Associate Deans for Pharmacy or Health Sciences in consultation with the Dean of Students or the Office of the Provost.

Dismissal Policies Listed by Program/Department

Students should refer to their program or department for the applicable dismissal policy.

College Bachelor's Degree Requirements

Specific requirements for the several bachelor's degrees offered by the College are enumerated in the departmental and program sections of this bulletin. Following are general College and University policies governing baccalaureate programs.

High School Preparation (Recommended)

Students who plan to enter the University as freshmen should have included in their high school programs at least three years of English, one year of algebra, one year of plane geometry, at least one course in a laboratory science, and at least two years of a foreign language. Some programs require additional work in mathematics and science. High school students and their parents are encouraged to attend the Eugene Applebaum College of Pharmacy and Health Sciences Information Meetings (<http://www.cphs.wayne.edu/highschool.php>) held on the first Tuesday of each month at 6 p.m..

Residence

The last thirty credits of work applicable to the degree, exclusive of credit by special examination, must be completed in an undergraduate college or school of Wayne State University. This does not apply to the Bachelor of Science in Applied Health Sciences program.

Time Limitations

It is the policy of the College that preprofessional science courses must be completed within six years just prior to admission to a professional program. Exceptions to this policy may be made on a case-by-case basis at the sole discretion of the program faculty. Documentation of competency during post-graduation/pre-admission employment must be provided by the applicant requesting the exception. There is no appeal for this exception request of this policy.

Student Support Services and Organizations

Office of Student Affairs

The Office of Student Affairs (OSA) provides program information, monthly information meetings and advising support to prospective and current students for the degree and certificate programs offered by the College. From this office prospective students can obtain advice about admission requirements and program prerequisites and have their transcripts evaluated for transfer equivalencies. Additionally, information on registration and financial aid; enrollment verification required for financial aid, internship licensing, or other purposes is processed through this office. The Office also audits student records for completion of General Education Requirements and program requirements prior to graduation. The OSA staff participates in the various activities with the main campus, including recruitment fairs, graduation, new student convocations, FestiFall, prospective student open house, and Scholars Day. The OSA staff supports EACPHS student organizations, facilitate Community Apple Days, participate in numerous recruitment activities such as career and educational fairs at local middle schools, high schools, colleges, and universities.

Student Organizations

There are many student organizations within the College that allow a student to be active in professional and extracurricular activities. Please contact individual program offices for more information regarding student organizations.

Applied Health Sciences

Chairperson: Mark Evely

The mission of the Department of Applied Health Sciences is to provide students with highly effective and quality educational experiences that address contemporary challenges directly impacting public health, health care, environmental and workplace issues.

- Applied Health Sciences (B.S.) (p. 351)
- Medical Laboratory Science (B.S.) (p. 353)
- Laboratory Science Concentration (B.H.S.) (p. 355)
- Mortuary Science (B.S.) (p. 355)

Applied Health Sciences (B.S.)

The Bachelor of Science with a major in Applied Health Sciences provides an interdisciplinary program for students with an interest in health care. Students will emerge with strong foundations in medical terminology, anatomy and physiology, communication within a health care setting, interdisciplinary patient care, critical thinking and writing, ethics, and diversity across the health care continuum. The curriculum consists of a variety of pathways to prepare students for application to a health care professional program or as a stand-alone degree to work in various health science settings.

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 32) to the University.

Candidates must complete 120 credits in course work including satisfaction of the general education requirements (p. 22), departmental major requirements, departmental minor requirements, program concentration or program elective requirements (for the general concentration) and supplemental free elective requirements, as necessary. All coursework must be completed in accordance with the academic regulations of the College of Pharmacy and Health Sciences (p. 347) and the academic regulations of the University (p. 38).

Major Requirements (Health Science Core)

All major courses must be completed with a minimum grade of C.

Code	Title	Credits
BIO 1510 & BIO 1511	Basic Life Mechanisms and Basic Life Mechanisms Laboratory	4
BIO 2870	Anatomy and Physiology	5
MLS 3330	Medical Terminology	1
AHS 2010	Introduction to Applied Health Sciences	3
AHS 2020	Applied Health Sciences Communication	3
AHS 2030	Advanced Statistics for Applied Health Sciences	4
AHS 3010	Advanced Applied Health Sciences Professions	3
AHS 3020	Diversity in Applied Health Sciences	3
AHS 3030	Human Physiology for Applied Health Sciences	3
AHS 4010	Interprofessional Education in Applied Health Sciences	3
AHS 4020	Pathophysiology for Applied Health Sciences	3
AHS 4090	Capstone in Applied Health Sciences	3
Total Credits		38

Minor Requirement

Any approved university minor (18-25 credits) is acceptable. It must include at least three courses that have not been used to fulfill requirements for any major or other minor.

Program Concentrations

Courses within this section of the undergraduate program are designed to prepare students for a high demand career in a health profession.

General Concentration

In the General Concentration, students must work with the program's Academic Advisor to develop a personalized plan of work that meets all degree requirements. The plan must be approved by the Program Director

Pre-Occupational Therapy

Code	Title	Credits
KIN 3580	Biomechanics	3
PSY 2400	Developmental Psychology	4
PSY 3310	Introduction to Psychopathology	4

Concentration courses below fulfill general education credits and are needed as prerequisites for the admission to the OT graduate/professional degree program.

COM 1010	Oral Communication: Basic Speech	3
PS 1010	American Government	4

NFS 2030	Nutrition and Health	3
Total Credits		29

Free Electives

Free electives are variable, as necessary to complete the minimum 120 credits required for the program.

Other Degree Requirements

- Students must complete a minimum of 15 credits in program concentration coursework.
- Students must complete a minimum of 30 credits at Wayne State University.
- At least 15 credits in the Health Sciences Core must be taken at Wayne State University.
- 21 credits must be taken at the 3000 level or higher.

Medical Laboratory Science

Office: 401 Mortuary Science Building; 313-577-2050

Program Director: Karen K. Apolloni

<https://cphs.wayne.edu/medical-laboratory-science/>

The Medical Laboratory Science programs (Bachelor of Science in Medical Laboratory Science and Bachelor of Health Science with a concentration in Laboratory Science) encompass health professions dedicated to providing accurate diagnostic information to medical practitioners. The field offers challenging opportunities for people with aptitudes in the basic sciences and interest in a health care career. The programs at Wayne State University provide students with the technical knowledge and specialized skills necessary for entry-level work as laboratory professionals. Graduates of the BS in MLS program are eligible to take a national certification examination, which is required for most hospital-based clinical laboratory science positions. The Bachelor of Health Science with a concentration in Laboratory Science degree is a good choice for students interested in entering a subsequent graduate program.

Both programs have pre-professional and professional curriculum components. The pre-professional component consists of science and non-science prerequisite courses and the general education curriculum.

The professional program begins with the junior year and is taught by the faculty of the Department of Applied Health Sciences. Didactic course work continues in the senior year and students in the BS in MLS program also complete a clinical experience in an affiliated clinical laboratory.

- Medical Laboratory Science (B.S.) (p. 353)
- Laboratory Science Concentration (B.H.S.) (p. 355)

Medical Laboratory Science (B.S.)

The Bachelor of Science in Medical Laboratory Science program consists of two years of pre-professional courses and two years of professional courses. The program fulfills the requirements for clinical laboratory science education of the National Accrediting Agency for Clinical Laboratory Sciences. Upon completion of this program, the student receives a Bachelor of Science in Medical Laboratory Science degree and is eligible to take a national certification examination in Medical Laboratory Science. Granting of the Bachelor of Science in Medical Laboratory Science degree IS NOT contingent up the student's passing any type of external certification or licensure examination.

This program is accredited by:

National Accrediting Agency for Clinical Laboratory Sciences
(NAACLS)

5600 N. River Road, Suite 720, Rosemont, IL 60018

Phone: 773-714-8880 Fax: 773-714-8886

Email: info@naaccls.org

Website: www.naaccls.org

The work of the medical laboratory scientist involves performing a vast array of laboratory tests to provide accurate diagnostic information to the physician and the health care team. The medical laboratory scientist operates sophisticated laboratory instrumentation, evaluates and utilizes the best possible testing methods, and effectively teaches and supervises students and laboratory personnel. While the majority of medical laboratory scientists work in hospitals or other clinical laboratories, graduates are also prepared for positions in federal, state and local public health departments, in industrial or research laboratories and in medical laboratory science education.

The Medical Laboratory Science program utilizes the facilities of the Eugene Applebaum College of Pharmacy and Health Sciences, the faculty

of the Department of Applied Health Sciences, and the laboratories and pathology departments of clinical affiliates. This program includes clinical experiential coursework for all students who meet or exceed grade requirements.

Admission

Admission to the professional program requires completion of the pre-professional course requirements and satisfaction of specific admission requirements listed below. The application deadline for matriculation into the professional program is May 1 of each year for the subsequent Fall semester.

Since applicants who are admitted will eventually be working as members of a health care team, the admissions committee evaluates candidates based on their personal qualities as well as their academic achievement. Therefore, throughout the interview and the completion of other application requirements, criteria such as an applicant's maturity, motivation, knowledge of the profession, interpersonal skills, personal integrity, and empathy for others are evaluated.

Admission Requirements

The student wishing to apply to the professional program must meet the following admission requirements:

1. Cumulative grade point averages by the end of the second semester of the year preceding admission to the professional program of
 - a. overall grade point average of 2.7 or above in pre-professional courses
 - b. grade point average of 2.7 or above in all science and mathematics prerequisite courses
 - c. no grade lower than 'C' in any pre-requisite course.
2. No more than two repeats or withdrawals (marks of 'W' or 'WF') in science courses preferred. (If all courses are withdrawn in a single semester, it counts as one 'W'.)
3. Completion of all pre-professional courses (or their equivalents) by the end of the Spring/Summer semester prior to beginning the professional program (up to two general education courses can remain to be completed within the first professional year after admission).
4. Completion of the professional program application form and associated requirements and submission of official transcripts to:

Eugene Applebaum College of Pharmacy and Health Sciences
Office of Student Affairs
259 Mack Avenue, Suite 1600
Detroit, MI 48201

APPLICATION DEADLINE: The deadline for applications is May 1. Prospective students are urged to submit applications as early as possible. Specific directions for submitting application materials are indicated on the website.

APPLICATION REVIEW: All applications will be reviewed for completeness. The Admissions Committee will interview qualified applicants with completed applications submitted by the deadline date. A number of criteria will be evaluated, including academic achievement and personal qualities. Upon completion of all admission interviews, applicants will be notified of the final admission decision. This typically occurs in June of each year.

All requests for additional information should be addressed to the Department of Applied Health Sciences, Medical Laboratory Science Program, Eugene Applebaum College of Pharmacy and Health Sciences.

Prerequisite Coursework

Math and science prerequisites effective for the 2022 admission cycle:

Code	Title	Credits
BIO 1510 & BIO 1511	Basic Life Mechanisms and Basic Life Mechanisms Laboratory	4
BIO 2270 & BIO 2271	Principles of Microbiology and Principles of Microbiology Lab	5
BIO 2870	Anatomy and Physiology	5
CHM 1100 & CHM 1130	General Chemistry I and General Chemistry I Laboratory ¹	5
CHM 1140 & CHM 1150	General Chemistry II and General Chemistry II Laboratory	5
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	5
MAT 1070	College Algebra	5

¹ General Chemistry I and General Chemistry I Lab were formerly numbered CHM 1220 and CHM 1230.

Pre-professional Curriculum

There are three components of coursework that must be completed prior to beginning the Medical Laboratory Science program: (1) math and science prerequisite requirements; (2) non-science prerequisite requirements; and (3) University General Education requirements (p. 22). The following requirements are listed by their Wayne State University title and course number. For comparable courses at other colleges, students should consult the Office of Transfer Credit (<https://wayne.edu/transfercredit/>).

All pre-professional coursework must be completed with a grade of 'C' or better.

Math and science prerequisite coursework must be completed within six years prior to admission to the professional program. Exceptions to this policy may be made on a case-by-case basis at the discretion of the program faculty. Documentation of competency must be provided by the applicant requesting the exception

Code	Title	Credits

MLS 3330	Medical Terminology	1
COM 1010	Oral Communication: Basic Speech	3
ENG 1020	Introductory College Writing	3
ENG 3010	Intermediate Writing (or any Intermediate Composition (IC) course)	3
MAT 1070	College Algebra	5
STA 1020	Elementary Statistics	3

University General Education Requirements:

Cultural Inquiry (CI)	3
Social Inquiry (SI)	3
Diversity, Equity and Inclusion (DEI)	3
Global Learning Inquiry (GL)	3
Civic Literacy (CIV)	3
Wayne Experience (WE)	1
Total Credits	64

Candidates for the Bachelor of Science in Medical Laboratory Science degree must complete 120-134 credits in course work, including sufficient credits to fulfill the University General Education Requirements (p. 22) not satisfied by either required courses or the student's choice of electives in the pre-professional program. The distribution of the total credits for the degree will be between the pre-professional program and the following professional program.

MLS Professional Curriculum

Science courses in this program are taken under the direction of the faculty of Medical Laboratory Science in cooperation with the faculty of the Department of Applied Health Sciences and the staff of affiliated clinical institutions.

Third and Fourth Years

Code	Title	Credits
MLS 3020	Hematology I	4
MLS 3040	Immunohematology I	4
MLS 3080	Instrumentation Lecture and Laboratory	4
MLS 3100	Urine and Body Fluid Analysis	3
MLS 3280	Clinical Chemistry Lecture and Laboratory	4
MLS 4040	Laboratory Operations	3
MLS 4210	Hemostasis Lecture and Laboratory	2
MLS 4230	Hematology II	3
MLS 4240	Immunohematology II	3
MLS 5500	Immunology and Serology	3
MLS 5510	Diagnostic Microbiology I	4
MLS 5520	Diagnostic Microbiology II	4
MLS 5530	Medical Laboratory Science Simulation Laboratory	2
MLS 5550	Molecular Diagnostics	3
MLS 5996	MLS Clinical Pathology Review	2
Total Credits		48

Clinical Experience

(Second Semester/Senior Year):

Code	Title	Credits
MLS 4000	Clinical Hematology	5
MLS 4010	Clinical Chemistry	4
MLS 4020	Clinical Blood Bank	3
MLS 4030	Clinical Microbiology	4
Total Credits		16

Courses are completed at a clinical laboratory affiliated with the Eugene Applebaum College of Pharmacy and Health Sciences.

Medical Laboratory Science Honors

This program is open to students pursuing a Bachelor of Science in Medical Laboratory Science degree who maintain an overall cumulative

grade point average of 3.3 or higher and complete a minimum of twelve honors course credits.

Code	Title	Credits
MLS 4990	Professional Directed Study	3
Research and thesis to be completed under the direction of a faculty member whose expertise includes the student's area of interest. Along with the thesis paper, student will prepare a poster to be presented at the Eugene Applebaum College of Pharmacy and Health Sciences annual Research Day. Adviser and a second reader will read the completed thesis.		
At least one HON 42XX interdepartmental Honors seminar		3
Select a minimum of 6 additional credits earned utilizing Honors Option in two or more of the following MLS program courses:		6
MLS 3020	Hematology I	
MLS 3040	Immunohematology I	
MLS 3080	Instrumentation Lecture and Laboratory	
MLS 3100	Urine and Body Fluid Analysis	
MLS 3280	Clinical Chemistry Lecture and Laboratory	
MLS 4040	Laboratory Operations	
MLS 4210	Hemostasis Lecture and Laboratory	
MLS 4230	Hematology II	
MLS 4240	Immunohematology II	
MLS 5500	Immunology and Serology	
MLS 5510	Diagnostic Microbiology I	
MLS 5520	Diagnostic Microbiology II	
MLS 5550	Molecular Diagnostics	
Total Credits		12

Laboratory Science Concentration (B.H.S.)

The Bachelor of Health Science with a concentration in Laboratory Science is an excellent degree for students who wish to specialize in laboratory studies or advanced medical training outside of the typical hospital or clinical laboratory setting. This program is designed to provide students with necessary coursework to either continue with MLS studies after graduation or to apply to graduate programs in a health care field of their choice. The clinical experience is not included in this degree.

Students applying for admission to this program must apply through the Medical Laboratory Science admission procedure. See the Bachelor of Science in Medical Laboratory Science program page for details.

Pre-professional Curriculum

Preprofessional science courses must be completed within the six years just prior to admission to a professional program. Exceptions to this policy may be made on a case-by-case basis at the discretion of the program faculty. Documentation of competency must be provided by the applicant requesting the exception.

These courses are taken under direction of the College of Liberal Arts and Sciences.

Pre-professional curriculum requirements for the Bachelor of Health Science with a concentration in Laboratory Science are identical to those for the Bachelor of Science in Medical Laboratory Science. Please see the Bachelor of Science in Medical Laboratory Science requirements page for details.

The BHS with a concentration in Laboratory Science degree requires a total of 120 credits.

Professional Curriculum Required Courses

Code	Title	Credits
MLS 3020	Hematology I	4
MLS 3080	Instrumentation Lecture and Laboratory	4
MLS 3100	Urine and Body Fluid Analysis	3
MLS 3280	Clinical Chemistry Lecture and Laboratory	4
MLS 4210	Hemostasis Lecture and Laboratory	2
MLS 4230	Hematology II	3
MLS 5500	Immunology and Serology	3
MLS 5510	Diagnostic Microbiology I	4
MLS 5520	Diagnostic Microbiology II	4
MLS 5550	Molecular Diagnostics	3
Total Credits		34

Approved Electives

Sufficient electives may be taken to complete the minimum of 120 credits needed for graduation. Electives must be approved by the MLS Program Director and may include (list is not all-inclusive):

Code	Title	Credits
MLS 3040	Immunohematology I	4
MLS 4040	Laboratory Operations	3
MLS 4990	Professional Directed Study	3

	or PHI 2320 Introduction to Ethics	
MLS 5530	Medical Laboratory Science Simulation Laboratory	2

Mortuary Science (B.S.)

Mark T. Evely, Program Director
313-577-1202; evely@wayne.edu

The Mortuary Science bachelor degree program at Wayne State University is accredited by the American Board of Funeral Service Education (ABFSE), 992 Mantua Pike, Suite 108, Woodbury Heights, NJ 08097 (816) 233-3747. Web: www.abfse.org (<http://www.abfse.org/>).

National Board Examination pass rates, graduation rates, and employment rates for this and other ABFSE-accredited programs are available at www.abfse.org (<http://www.abfse.org/docs/ABFSEDirectory.pdf#page=38>). in the Directory of Accredited Programs.

Wayne State University is accredited by the Higher Learning Commission and complies with its provisions on ethical and responsible conduct as defined in Higher Learning Commission Assumed Practices, Number CRRT.B.10.020.

Program Learning Outcomes

1. Explain the importance of funeral service professionals in developing relationships with the families and communities they serve.
2. Identify standards of ethical conduct in funeral service practice.
3. Interpret how federal, state, and local laws apply to funeral service in order to ensure compliance.
4. Apply principles of public health and safety in the handling and preparation of human remains.
5. Demonstrate technical skills in embalming and restorative art that are necessary for the preparation and handling of human remains.
6. Demonstrate skills required for conducting arrangement conferences, visitations, services, and ceremonies.
7. Describe the requirements and procedures for burial, cremation, and other accepted forms of final disposition of human remains.
8. Describe methods to address the grief-related needs of the bereaved.
9. Explain management skills associated with operating a funeral establishment.
10. Demonstrate verbal and written communication skills and research skills needed for funeral service practice.

Traditional and Online Courses

Courses are offered in traditional and online formats. Please see the Mortuary Science Student Handbook (http://cphs.wayne.edu/mortuary-science/pdf/student_handbook.pdf) for additional information and requirements for online courses.

Clinical Requirements

Students must complete embalming and funeral directing clinical requirements as listed in the Mortuary Science Student Handbook (http://cphs.wayne.edu/mortuary-science/pdf/student_handbook.pdf).

Academic Advising and Transcript Evaluations

Academic advising, transcript evaluations, and questions regarding transfer credits are available through email to cphsinfo@wayne.edu or by calling 313-577-1716.

Grading Policy

Minimum Grade

Students in the Mortuary Science Program are required to maintain a program curriculum minimum GPA of 2.75 for continued enrollment and satisfactory completion. GPA is calculated at the end of each semester to determine whether continued enrollment is possible. Each course must be passed with a grade of "C" or better. A grade of less than "C" will result in dismissal from the program.

Grade of 'F'

A grade of 'F' indicates that the required class was failed. No credit will be given for the course. Receiving a grade of F in any course will result in dismissal from the program.

Mark of 'I'

A mark of 'I' indicates that course requirements were not completed or submitted as required. The mark is given at the discretion of the instructor. The student is required to meet with the instructor and submit a written Plan of Work confirming the agreement regarding the method, manner and timing of completing the requirements. Failure to complete requirements by the established deadline will result in the 'I' mark being converted to an 'F'.

Unless otherwise noted in a course syllabus, the following scale will be used in course grading:

93 - 100% A
90 - 92% A-
87 - 89% B+
83 - 86% B
80 - 82% B-
77 - 79% C+
73 - 76% C
70 - 72% C-
67 - 69% D+
63 - 66% D
60 - 62% D-
below 60% F

Final grades for MS 3970, MS 3980, and MS 4000 will be entered as P or N (pass or no-pass) based on the completion of required hours, tasks and activities.

Grades may be viewed in Academics (<http://academica.aws.wayne.edu/>). Grades are usually posted within 24 hours of an instructor submitting them. You will receive an e-mail informing you when grades are posted.

Time Limitations

Students may enroll full-time for three consecutive semesters (1 year to complete the program) or part-time for six consecutive semesters (2 years to complete the program). Students must complete the Program within two years of initial admission. Students who fail to complete the program within two years of initial admission must: (1) re-apply to the program and (2) fulfill all program requirements, including additional or different coursework in effect at the time of re-application.

Professional Licensure

The Bachelor of Science in Mortuary Science from Wayne State University meets or exceeds the educational requirements for licensure in every state.

Admission Requirements

1. Minimum of 2.75 GPA
2. All pre-professional coursework must be completed with a grade of "C" or better.
3. Test of English as a Foreign Language (TOEFL)-required only if English is not your first language
4. Minimum of 64 credits, including all program-specific pre-requisites and University General Education requirements.
5. Pre-professional coursework taken at an accredited college or university is acceptable
6. Completion of all pre-professional courses by the end of the spring/summer semester before admission to the program (unless an exception is granted by the program)
7. All applicants must attend one monthly Information Meeting at the Eugene Applebaum College of Pharmacy and Health Sciences.

Applicants who have been previously dismissed from the program must have a minimum cumulative GPA and program GPA of 2.75 to be eligible for readmission.

How to Apply

Students must submit the Mortuary Science Program Application (<http://www.cphs.wayne.edu/mortuary-science/apply.php>). The application deadline is June 15th of the year an applicant wants to enter the program.

Degree Requirements

Candidates for the Bachelor of Science in Mortuary Science must satisfactorily complete:

1. Sixty-four credits of Program-Specific Prerequisites and General Education requirements listed below;
2. Fifty-six credits in the Mortuary Science professional program curriculum;
3. Embalming and Funeral Directing clinical requirements as listed in the Mortuary Science Student Handbook (http://cphs.wayne.edu/mortuary-science/pdf/student_handbook.pdf)
4. The Arts and Sciences sections of the National Board Examination within thirty days of completion of coursework.

All prerequisite, general education, and professional courses must be passed with a grade of C or higher. The overall GPA for professional courses must be 2.75 or higher.

Pre-professional Program

There are two components of coursework that must be completed prior to beginning the Mortuary Science program: (1) program-specific prerequisites; and (2) University General Education requirements (p. 22). The professional curriculum in Mortuary Science consists of fifty-six credits, so an applicant must earn sixty-four credits, including the program prerequisites and general education requirements before entering the program. If the General Education and program prerequisites do not add up to sixty-four credits, elective courses must be taken to complete the sixty-four total credits needed prior to entering the program. This sixty-four plus fifty-six formula equals the 120 total credits required for the Bachelor of Science degree. The courses below are listed by their title and course number at Wayne State University. For comparable courses at other colleges, students should consult the Office of Transfer Credit (<http://transfercredit.wayne.edu>).

Prerequisite courses must be completed with a grade of 'C' or better.

Prerequisites for Students Without a Prior Bachelor's Degree

University General Education Requirements

General Education courses are required for every graduate of Wayne State University. The following General Education courses must be satisfied:

- Civic Literacy (CIV)
- Cultural Inquiry (CI)
- Global Learning (GL)
- Diversity, Equity, and Inclusion (DEI)
- Quantitative Experience (QE)

General Education courses are required for every graduate of Wayne State University. Applicants may satisfy the general education requirements in one of the following ways:

1. earning a bachelor's degree from a regionally accredited institution,
2. earning an Associate of Arts (AA), Associate of Liberal Arts (ALA), Associate of Science (AS) or Associate of Baccalaureate Studies (ABS) degree from a Michigan community college,
3. obtaining a Michigan Transfer Agreement (MTA) stamp
4. obtaining a MACRAO stamp, or
5. completing courses in satisfaction of the University General Education requirements.

Professional Program

Full-time Professional Curriculum

All professional courses must be completed with a grade of "C" or better. The National Board Examination (NBE) is a degree requirement and must be taken within thirty (30) days of completing MS 5996. All coursework must be completed within two years of initial admission to the Program.

Fall Semester		Credits

Health Care Sciences

Interim Chairperson: Diane Adamo

The Department of Health Care Sciences consists of six programs that share a common theme of excellence in the education and training of those involved in patient care. The department is housed in the Eugene Applebaum College of Pharmacy and Health Sciences (EACPHS) building which is near main, large health care institutions and close to the Wayne State University Medical School. Many of the department's faculty, who are involved in health care related research, offer students opportunities to assist in research. This has enabled greater appreciation for health care management and clinical decision-making.

- Physical Therapy Concentration (B.H.S.) (p. 358)
- Radiation Therapy Technology (B.S.) (p. 359)
- Radiologic Technology (B.S.) (p. 362)

Physical Therapy Concentration (B.H.S.)

Office: 2248 EACPHS; 313-577-1432

Director: Kristina Reid, Physical Therapy Program

<https://cphs.wayne.edu/physical-therapy/>

Physical Therapists provide services to patients/clients who have impairments of body function and structure, activity limitations, and participation restrictions or changes in physical function and health status resulting from injury, disease, or other causes. Physical therapists collaborate with a variety of professionals, address risk factors to health, are leaders and providers in the areas of prevention and promoting health, wellness and fitness, serve as educators, consultants, administrators, and advocates, utilize critical inquiry skills and direct and supervise the provision of physical therapy services. Physical Therapy services include examination, evaluation, diagnosis, prognosis, and intervention primarily for individuals with musculoskeletal, neuromuscular, cardiopulmonary, and/or integumentary conditions. Physical therapists practice in a wide variety of settings including hospitals, outpatient clinics, private practice, schools, academia, home care, industrial clinics, sports clinics, rehabilitation centers, and health and wellness programs. Students interested in the physical therapy profession should also visit the American Physical Therapy Association (<http://www.apta.org>) website.

The physical therapy curriculum at Wayne State University is a professional degree program leading to the Doctor of Physical Therapy (<http://bulletins.wayne.edu/graduate/college-pharmacy-health-sciences/health-care-sciences/physical-therapy-dpt/>) degree. The entire program involves a pre-professional component: ninety credits of undergraduate course work; a first year of physical therapy courses taken under qualified graduate status; and the final two and one half years of Physical Therapy courses taken under regular graduate status. Only those portions of the program that may be completed during the first four years of what is usually construed as an undergraduate matriculation are presented in this Bulletin. The balance of the program is presented in the Graduate Bulletin.

The program of study in physical therapy is accredited by the:

Commission on Accreditation in Physical Therapy Education for the Doctor of Physical Therapy program
 Attn: Accreditation Dept.
 1111 N. Fairfax St.
 Alexandria VA 22314-1488
 (<http://www.apta.org> (<http://www.apta.org/>))

Graduates who receive a Doctor of Physical Therapy degree are eligible to take the national physical therapy licensure examination and the Canadian licensure examination and for active membership in the American Physical Therapy Association.

Admission Requirements

Admission to the Doctor of Physical Therapy (D.P.T.) degree program is required to complete the B.H.S. physical therapy concentration requirements. Admission to the D.P.T. program is highly competitive and requires completion of the pre-professional program with a minimum undergraduate GPA of 3.0 and a minimum C (2.0) grade in each prerequisite course. Students should refer to the Graduate Bulletin (<https://bulletins.wayne.edu/graduate/college-pharmacy-health-sciences/health-care-sciences/physical-therapy-dpt/>) for all admission and course requirements for the D.P.T. degree.

Program Requirements

PLEASE NOTE: Student may NOT apply to or earn the Bachelor of Health Science with a concentration in physical therapy degree retroactively or after a subsequent higher level degree has been conferred.

The Eugene Applebaum College of Pharmacy and Health Sciences has established a combined undergraduate and graduate program in Physical Therapy. Qualified senior students may enroll simultaneously in the undergraduate Bachelor of Health Science with concentration in physical therapy degree program and the graduate Doctor of Physical Therapy (D.P.T.) degree program and apply a maximum of thirty credits toward both the undergraduate and graduate degree. Those who elect the combined program may expect to complete the B.H.S. physical therapy concentration and the D.P.T. degrees in 6.5 years of full-time study.

Degree Requirements

All course work for the B.H.S. physical therapy concentration must be completed in accordance with the academic procedures of the University (p. 38) and the College (p. 347) governing undergraduate scholarship and degrees. Students will need to complete one hundred and twenty credits with a g.p.a. of 2.0 or better, including courses taken that apply to the concentration. Students who have successfully completed at least 30 credits at Wayne State University are eligible.

Course Requirements

Code	Title	Credits
Science Prerequisite Courses		
BIO 1510 & BIO 1511	Basic Life Mechanisms and Basic Life Mechanisms Laboratory	4
BIO 2870	Anatomy and Physiology	5
Three credits of Biology at the 3000-level or higher (waived for students with a prior bachelor's degree)		3
PHY 2130	Physics for the Life Sciences I	4
PHY 2131	Physics for the Life Sciences Laboratory	1
PHY 2140	Physics for the Life Sciences II	4
PHY 2141	Physics for the Life Sciences Laboratory	1
Two chemistry courses with at least one lab, as long as topics do not overlap (options for chemistry courses listed below)		
CHM 1020	Survey of General Chemistry	
CHM 1030	Survey of Organic/Biochemistry	
CHM 1100 & CHM 1130	General Chemistry I and General Chemistry I Laboratory	
CHM 1140 & CHM 1150	General Chemistry II and General Chemistry II Laboratory	
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	

Non-Science Prerequisite Courses

ENG 1020	Introductory College Writing	3
PSY 1010	Introductory Psychology	4
	or PSY 1020 Elements of Psychology	
STA 1020	Elementary Statistics	3
6 additional credits in upper division (3000 level +) courses concentrated in one area		6

General Education Requirements (waived for students with a prior bachelor's degree)

Civic Literacy (CIV)
Cultural Inquiry (CI)
Diversity, Equity and Inclusion (DEI)
Global Learning (GL)
Intermediate Composition (IC)
Oral Communication (OC)
Social Inquiry (SI)
Wayne Experience (WE)

Honors Designation

Students enrolled in the Irvin D. Reid Honors College while completing the pre-concentration requirements will be eligible for the Honors distinction with the B.H.S. degree if all requirements set forth by the Honors College have been met.

Radiation Therapy Technology (B.S.)

Office: 5134 EACPHS: 313-577-5711

Program Director: Jeannetta Greer

<http://cphs.wayne.edu/rtt> (<http://cphs.wayne.edu/rtt/>)

Radiation therapy technology is a health care discipline which utilizes ionizing radiation for the treatment of malignant diseases. This field requires a basic understanding of and interest in science, especially mathematics and physics, as well as emotional maturity and a desire to assist in the management of patient care. A radiation therapist has the unique opportunity to blend knowledge and skills of mathematics, medical science, and psychology in his or her everyday work. The

therapist comes to know patients over a period of several months and becomes an important presence in their health care, a continued contact that is the source of much satisfaction and professional pride. The Bachelor of Science Degree program in Radiation Therapy Technology at Wayne State University is designed to prepare students for the technical, theoretical and psychological aspects of this career.

Radiation therapists are typically employed in hospitals, clinics, educational institutions, and commercial equipment corporations as staff therapists, clinical supervisors, administrators, educators, and technical marketing personnel. A radiation therapist is able to:

- operate sophisticated radiation equipment to deliver a planned course of radiation therapy;
- assist the physicist in quality assurance and in treatment planning procedures, and in the calibration of equipment;
- observe the clinical progress of the patient undergoing radiation therapy, and recognize when a patient's condition requires the attention of a physician; and
- assist in providing psychosocial support for patients who are dealing with the stress of their illness.

The Bachelor of Science in Radiation Therapy Technology is a four-year degree program consisting of two years of pre-professional courses and two years of professional courses. The program is accredited by the:

Joint Review Committee on Education in Radiologic Technology (<http://www.jrcert.org/>)
20 N. Wacker Drive, Suite 2850
Chicago IL 60606-3182
312-704-5300.

The program complies with the professional curriculum of the American Society of Radiologic Technologists. Upon completion of the program, the student receives a Bachelor of Science Degree in Radiation Therapy Technology and is eligible to take the national certification examination administered by the American Registry of Radiologic Technologists.

Admission to Pre-professional Program

The first two years (pre-professional program) are taken in the College of Liberal Arts and Sciences, the admission requirements of which are satisfied by general admission (p. 32) to the University. Application forms are available from the Office of Admissions, University Welcome Center. Students should consult with the University Advising Center, 1600 Adamany Library, regarding course selection. Students are urged to seek additional pre-professional advisement by contacting the Office of Student Affairs in the Eugene Applebaum College of Pharmacy and Health Sciences for registration in a Monthly College Information Night.

Recommended High School Preparation: Students interested in a career in radiation therapy technology should take as many of the following high school courses as possible: biology, chemistry, mathematics, physics, computer science, keyboarding, speech, and composition.

Admission to Professional Program

Admission to the professional program requires completion of the above pre-professional course requirements and satisfaction of specific admission requirements listed below. The application deadline is November 30 for matriculation into the professional program for the subsequent spring/summer term.

Students should contact the University Advising Center (313-577-2680) prior to each fall term to obtain an updated list of pre-professional course and program admission requirements. The program faculty provides

career advisement at the Eugene Applebaum College of Pharmacy and Health Sciences' Monthly College Information Meeting held on the first Tuesday of each month. Attendance to at least one monthly meeting is a mandatory admission requirement prior to the beginning of the application process. Out-of-state applicants should contact a member of the Radiation Therapy Technology faculty for options to accommodate individual circumstances.

Since applicants who are admitted will eventually be working as a member of a health care team, the admissions committee evaluates candidates based on their personal qualities as well as their academic achievement. Therefore, throughout the interview and the completion of other application requirements, such criteria as a student's maturity, motivation, knowledge of the profession, interpersonal skills, personal integrity, and empathy for others is evaluated.

Professional Program Admission Requirements

The student applying to the professional program must meet the following admission requirements:

1. Completion of all pre-professional courses (or their equivalents) by the winter term in which admittance is desired.
2. Hold a combined cumulative grade point average of 2.70 or above (A = 4.00) for all college-level work at all institutions attended.
3. Completion of a professional program application (<http://www.cphs.wayne.edu>) and two reference forms.
4. Submission of official transcripts from all college institutions attended (other than Wayne State).
5. Attendance at a Monthly College Information Night (<http://cphs.wayne.edu/admissions/before-you-apply.php>) at the Eugene Applebaum College of Pharmacy and Health Sciences, held the first Tuesday of each month at 6:00pm. Out-of-state applicants should contact a Radiation Therapy Technology faculty member for options to accommodate individual circumstances.
6. Completion of two clinical visits to affiliate institutions for the program. Call 313-577-5711 to make an appointment. Out-of-state applicants should contact a Radiation Therapy Technology faculty member for options to accommodate individual circumstances.
7. Submission of two reference forms (available on the online application site): one from an employer/supervisor and one from a college professor/advisor.
8. Completion of at least 57 credit hours before starting the professional program requirements.
9. Satisfaction of the University General Education requirements.

The information requested in requirements 3, 4, 7, and 9 above, should be submitted to the Eugene Applebaum College of Pharmacy and Health Sciences, Office of Student Affairs, 259 Mack, Suite 1600, Detroit, Michigan.

Application Deadline: The deadline for applications is on or about November 30. Applications which are incomplete by the deadline or are submitted after that date will be considered only with the approval of the Program Director. Prospective students are urged to submit applications as early as possible after the fall term.

Application Review: All applications will be reviewed for completeness. The Admissions Committee will review all qualified applicants with completed applications submitted by the deadline date. The Admissions Committee will notify applicants of their interview status. Admission interviews are typically conducted in February of each year. A number of criteria will be evaluated, including academic achievement and personal qualities. The Radiation Therapy Technology Program typically notifies each applicant of the final admission decision in March.

Pre-professional Program

Each of the following required pre-professional courses (or its equivalent) must be completed with a minimum grade of C (2.00 g.p.a., where A = 4.0)

First and Second Years

Code	Title	Credits
BIO 1500 & BIO 1501	Basic Life Diversity and Basic Life Diversity Laboratory	4
BIO 1510 & BIO 1511	Basic Life Mechanisms and Basic Life Mechanisms Laboratory	4

University Requirements (see General Education Program Requirements)

Professional Program

Degree Requirements

Candidates for the degree Bachelor of Science in Radiation Therapy Technology must complete a minimum of 120 credits, plus sufficient credits to fulfill the University General Education Requirements (p. 22) not satisfied by either required courses or the student's choice of electives. The total course work will be distributed between two years of pre-professional courses and the two-year professional program as outlined below. Courses in the professional program are taken in the Eugene Applebaum College of Pharmacy and Health Sciences. Enrollment requires full-time student status for six consecutive terms (twenty-four months), during which time students take didactic and clinical courses. The clinical program includes approximately twenty hours per week of clinical education at multiple affiliate institutions in the greater metropolitan Detroit area. Such institutions include urban and suburban hospitals.

While most required courses are scheduled during usual daytime hours, students are required to attend some courses or individual class sessions in early evening.

Third Year		Credits
RT 3000	Concepts of Clinical Care	3
RT 3010	Introductory Radiation Physics	3
RT 3020	Clinical Radiation Physics	3
RT 3110	Clinical Aspects of Radiation Therapy	3
RT 3140	Topographic Anatomy and Medical Imaging	3
RT 3200	Therapeutic Interactions in Oncology Care	2
RT 3310	Clinical Practicum I	4
RT 3320	Clinical Practicum II	4
RT 3330	Clinical Practicum III	4
RT 5650	Pathophysiology for Health Sciences	3
Credits		32

Fourth Year

RT 4110	Clinical Radiation Oncology	4
RT 4120	Basic Clinical Dosimetry	4
RT 4140	Oncologic Pathology	2
RT 4150	Radiobiology of Radiation Oncology	2
RT 4220	Radionuclide Physics	3
RT 4240	Radiation Therapy Technology Seminar	3
RT 4300	Quality Assurance	2
RT 4350	Clinical Practicum IV	4
RT 4360	Clinical Practicum V	4
RT 4370	Clinical Practicum VI	4
RT 5990	Directed Study in Radiation Therapy Technology (Max 5)	1-5
Elective ¹		3
Credits		36-40
Total Credits		68-72

¹ Students are encouraged to take a course in the areas of management, education, humanities or social studies. The course selected may be used to fulfill the social science requirement of the General Education Requirements.

Scholarship

Students in the professional program are subject to high academic and professional standards. A grade of 'C' (2.00) or above is required in each professional course, and the student must maintain a term grade point average of 2.70 throughout the program. A grade of 'C-minus' (1.67) in a professional course indicates unsatisfactory performance; repetition of the course is required, and review by the Academic Committee will occur. A second grade of 'C-minus' or below, or a single grade of 'D' or less (1.00 or less) will result in immediate dismissal from the professional program. Academic standards and program probation policies are subject to change. Academic standards and policies are published annually; copies are available upon request from the Radiation Therapy Technology Program.

Liability Insurance

Each student is required to have professional liability insurance during the entire length of the professional program. Neither the clinical affiliates, nor Wayne State University, assume liability for student actions during clinical education.

Radiation Therapy Technology Honors

The Radiation Therapy Technology Honors Program is an opportunity for students to learn more about areas in radiation therapy that peaks the student's interest. This provides students with a great opportunity to go beyond the classroom and explore more ways to enhance their academic experience and patient care skills.

Requirements

Code	Title	Credits
Graduate with a minimum cumulative university GPA of 3.5		
Complete an Honors Seminar course (HON 42XX)		
Honors 1 - Third Year		
RT 3200	Therapeutic Interactions in Oncology Care	2
Must have a minimum 3.3 cumulative GPA from Wayne State University to begin Honors 1.		
Honors 2 - Fourth Year		
RT 4240 & RT 4110	Radiation Therapy Technology Seminar and Clinical Radiation Oncology	7
Must have a 3.3 cumulative GPA from Wayne State University and a 3.4 GPA in Radiation Therapy courses to start Honors 2.		

Honors 3 - Fourth Year

RT 4370 Clinical Practicum VI 4

Must have a minimum cumulative GPA of 3.3 from Wayne State University and a 3.5 GPA in RT courses to begin Honors 3.

Total Credits 16

Radiologic Technology (B.S.)

Office: 4604 EACPHS; 313-916-1348

The Bachelor of Science in Radiologic Technology is a four-year degree program consisting of two years of pre-professional courses and two years of professional courses. The program complies with the professional curriculum of the American Society of Radiologic Technologists. Upon completion of the program, a student receives a Bachelor of Science Degree in Radiologic Technology and is eligible to take the national certifying examination administered by The American Registry of Radiologic Technologists.

The program is accredited by the:

Joint Review Committee on Education in Radiologic Technology (<http://www.jrcert.org/>) (JRCERT)
20 N. Wacker Drive, Suite 2850
Chicago IL 60606-3182
telephone: 312-704-5300; Fax: 312-704-5304

Admission to Pre-professional Program

The first two years (pre-professional program) are taken in the College of Liberal Arts and Sciences, the admission requirements of which are satisfied by general admission (p. 32) to the University. Students should consult with an Academic Services Officer in the Office of Student Affairs at the Eugene Applebaum College of Pharmacy and Health Sciences regarding course selection. Students may seek additional career advisement from the Radiologic Technology program faculty during their pre-professional program.

Recommended High School Preparation

Students interested in a career in Radiologic Technology should take as many of the following courses as possible: biology, chemistry, mathematics, physics, computer science, keyboarding, speech, and composition.

Admission to Professional Program

Admission to the professional program requires completion of the above pre-professional course requirements and satisfaction of specific admission requirements listed below. The application deadline is December 15 for matriculation into the professional program for the subsequent Spring/Summer term. Prospective students may contact the program for additional information early in their University studies (313-916-1348).

Students are urged to attend a Monthly Information Meeting (<http://www.cphs.wayne.edu/meetings.php>), held on the first Tuesday of each month, for advising and application deadline dates a year before they plan to enter.

Since the applicants who are admitted will eventually be working as members of a health care team, the admissions committee evaluates candidates based on their personal qualities as well as their academic achievement. Therefore, throughout the interview and the completion of other application requirements, such criteria as a student's maturity, motivation, knowledge of the profession, interpersonal skills, personal integrity, and empathy for others is evaluated.

Admission Requirements

The student wishing to apply to the professional program must meet the following admission requirements:

1. Completion (minimum grade of "C" 2.0 where A = 4.0) of all pre-professional courses (or their equivalents) by the end of the Winter semester, prior to beginning the professional program. BIO 3200 (or equivalent) must be completed by December of the year of application.
2. Minimum 2.80 overall grade point average as well as a minimum 2.70 in all science and non-science prerequisite coursework.
3. Completion of the professional program application (<http://www.cphs.wayne.edu>) form and associated requirements and submission of official transcripts to:

Eugene Applebaum College of Pharmacy and Health Sciences
Office of Student Affairs
259 Mack Avenue, Suite 1600
Detroit, MI 48201

APPLICATION DEADLINE: The deadline for applications is December 15. Prospective students are urged to submit applications as early as possible. Specific directions for submitting various application materials are indicated on the website.

APPLICATION REVIEW: All applications will be reviewed for completeness. The Admissions Committee will interview qualified applicants with completed applications submitted by the deadline date. A number of criteria will be evaluated, including academic achievement and personal qualities. Upon completion of all admission interviews, applicants will be notified of the final admission decision. This typically occurs in February.

Pre-professional Curriculum

Each of the following required pre-professional courses (or its equivalent) must be completed with a minimum grade of C (2.0 on a 4.0 scale).

First and Second Years

Code	Title	Credits
BIO 1510 & BIO 1511	Basic Life Mechanisms and Basic Life Mechanisms Laboratory ¹	4

Pharmaceutical Sciences

Office: 3610 EACPHS; 313-577-1047

Chairperson: Steven Firestine

<http://cphs.wayne.edu/sciences/index.php> (<http://cphs.wayne.edu/sciences/>)

The Eugene Applebaum College of Pharmacy and Health Sciences has established a combined undergraduate and graduate program for those admitted to the Doctor of Pharmacy (PharmD) program. Qualified senior students may enroll simultaneously in the undergraduate Bachelor of Health Science with a concentration in pharmaceutical sciences degree program and the graduate Doctor of Pharmacy (Pharm.D.) degree program and apply a maximum of thirty-three credits toward both the undergraduate and graduate degree.

Those who are enrolled in this program may expect to complete the B.H.S. pharmaceutical sciences concentration and the Pharm.D. degrees in seven years of full-time study.

NOTE: The B.H.S. pharmaceutical sciences concentration does not qualify the holder for licensure as a pharmacist. The Pharm.D. degree is required to qualify the holder for licensure as a pharmacist.

- Pharmaceutical Sciences Concentration (B.H.S.) (p. 363)
- Pharmacy (Pharm.D.) (p. 364)

Pharmaceutical Sciences Concentration (B.H.S.)

PLEASE NOTE: Application to or awarding of the Bachelor of Health Science with a concentration in pharmaceutical sciences degree retroactively or after a subsequent higher level degree in this discipline has been conferred is not permitted.

The Eugene Applebaum College of Pharmacy and Health Sciences has established a combined undergraduate and graduate program. Qualified senior students may enroll simultaneously in the undergraduate Bachelor of Health Science with a concentration in pharmaceutical sciences degree program and the graduate Doctor of Pharmacy (Pharm.D.) degree program and apply a maximum of thirty-three credits toward both the undergraduate and graduate degree.

Those who are enrolled in this program may expect to complete the B.H.S. pharmaceutical sciences concentration and the Pharm.D. degrees in seven years of full-time study.

NOTE: The B.H.S. pharmaceutical sciences concentration does not qualify the holder for licensure as a pharmacist. The Pharm.D. degree is required to qualify the holder for licensure as a pharmacist.

Admission Requirements

All applicants must satisfy the undergraduate admission (p. 32) requirements to the University. Admission to the Doctor of Pharmacy degree program (see below) prior to the beginning of the senior year is required for completion of the B.H.S. pharmaceutical sciences concentration program. Admission to the Pharm.D. program is highly competitive. Students should refer to the Graduate Bulletin for admission and course requirements for the Pharm.D. degree.

Program Administration

The Office of Student Affairs in the Eugene Applebaum College of Pharmacy and Health Sciences will certify completion of the B.H.S. pharmaceutical sciences concentration/Pharm.D. program. When students complete requirements for the B.H.S. pharmaceutical sciences

concentration, they will complete an application for graduation with accompanying fee in order for the graduation audit to be completed prior to degree certification. Information about applying for degree can be found online (<http://reg.wayne.edu/students/graduation.php>).

The B.H.S. pharmaceutical sciences concentration degree requires completion of a minimum of 120 credits consisting of courses prerequisite to admission to the Pharm.D. program and courses that comprise the first year of that program. This curriculum is outlined below as science prerequisites, non-science prerequisites, General Education Requirements (p. 22), and First Professional Year requirements.

All course work for the B.H.S. pharmaceutical sciences concentration must be completed in accordance with the academic procedures of the University (p. 38) and the College (p. 347) governing undergraduate scholarship and degrees. Students will need to complete 120 credits with a g.p.a. of 2.0 or better, including courses taken that apply to the pharmaceutical concentration. Students who have successfully completed at least the first professional year in the Pharm.D. program at Wayne State University are eligible for the B.H.S. pharmaceutical sciences concentration degree.

Code	Title	Credits
Science Requirements		
BIO 1510	Basic Life Mechanisms	3
BIO 2270 & BIO 2271	Principles of Microbiology and Principles of Microbiology Lab	5
BIO 2870	Anatomy and Physiology	5
BIO 3200	Human Physiology	3
CHM 1100 & CHM 1130	General Chemistry I and General Chemistry I Laboratory	5
CHM 1140 & CHM 1150	General Chemistry II and General Chemistry II Laboratory	5
CHM 1240 & CHM 1250	Organic Chemistry I and Organic Chemistry I Laboratory	5
CHM 2220 & CHM 2230	Organic Chemistry II and Organic Chemistry II Laboratory	5
CHM 5600	Survey of Biochemistry	3
MAT 2010	Calculus I	4
PHY 2130 & PHY 2131	Physics for the Life Sciences I and Physics for the Life Sciences Laboratory	5

PPR 4365	Introductory Pharmacy Practice Experience I	1
Credits		3
Total Credits		33

Additional undergraduate or professional courses may be needed to achieve the minimum 120 credits required to earn the B.H.S. degree.

Clinical Education Requirements

Clinical Education is provided throughout the Pharm.D. program including during the required B.H.S. pharmaceutical sciences concentration courses. Patient care involves inherent risk of exposure to potential diseases, particularly blood-borne pathogens, and the risk of possible mishaps in patient care. Therefore, all students are required to maintain health insurance coverage and liability insurance, both of which must be in effect prior to and during all periods in which the student is involved in clinical education. The student is responsible for the cost of these insurances and all other costs (such as travel, parking) associated with the clinical experiences throughout the program.

Pharmacy (Pharm.D.)

The Pharm.D. is a graduate degree program which requires specific preparation at the undergraduate level herein cited as pre-professional course work. Thus the admission process may be construed as two-tiered in that students must complete specific pre-professional course work and may apply to the Pharm.D. program prior to their senior year. One such route into the Pharm.D. program is by way of the B.H.S. pharmaceutical sciences concentration.

Pre-professional Admission (Pharm. D.)

Admission requirements: The pre-professional program is taken in the College of Liberal Arts and Sciences for which admission requirements are satisfied by the general requirements for undergraduate admission (p. 32) to the University. Counselors are available in the Office of Admissions for personal conferences to aid the prospective student.

Recommended High School Preparation: Fifteen units of high school work are required for admission. The following units are recommended:

- English: 4 units
- Foreign Language: 1-2 units
- Mathematics: 4 units
- Laboratory Science: 3 units
- Social Studies and History: 2 units

Students will find it advantageous to have had at least one year each of algebra, biology, chemistry, and physics. English, mathematics, and science are strongly recommended.

Applicants whose first language is not English must satisfy the University's English proficiency requirements (p. 34). If coursework was completed at a non-US institution, transcripts must be evaluated by a WSU approved evaluation service (WES). The official course-by-course evaluation must be sent to PharmCAS.

Pre-professional Course Requirements

The undergraduate pre-professional preparation for admission to the Pharm.D. degree program is cited in the B.H.S. with a concentration in pharmaceutical sciences (p. 363) section of this bulletin. These courses (or their equivalents) may be taken at Wayne State University, another university, or a community college. All prerequisite courses and General Education Requirements should be completed prior to admission to the pharmacy curriculum. All such courses (or their equivalents) must be completed with the grade of C (2.0 g.p.a.) or better. Grades of C-minus or below, or numerical grades below 2.0 g.p.a., are not acceptable.

Because of rapid changes in technology, pre-professional science credits must be completed within six years prior to admission to the professional program.

Professional Program Admission

Admission to the Doctor of Pharmacy Curriculum is granted only for the Fall semester. Enrollment in this curriculum is limited to applicants who have met the general University admissions requirements by the stipulated deadline, who satisfy the admission criteria stated below, and who present evidence of professional admissibility and promise of academic and professional competence in pharmacy.

Application: Admission applications to the Doctor of Pharmacy curriculum are available through the Pharmacy College Application Service (PharmCAS) (<http://www.PharmCAS.org>).

Application Deadline: Deadline for submission of complete application materials to PharmCAS is November 1.

Admission Criteria: Admission to the Doctor of Pharmacy curriculum is competitive and the following criteria are used to evaluate applications from prospective students. Admission decisions are made by the Admissions Committee of the College.

1. Completion of prerequisite courses with a minimum grade of "C" or better (2.0 on a 4.0 grade scale). Completion of prerequisites with minimum grades does not guarantee admission.
2. The WSU PharmD program does not require minimum cumulative or prerequisite GPAs; however, these GPAs will still be considered in the overall review for admission.
3. Promise of success in a professional curriculum. Transcripts are evaluated for continued success in a full-time, science-based curriculum. Patterns of course repetition and excessive withdrawals are considered. It is recommended that applicants have repeated not more than two mathematics and science courses in order to improve grades.
4. Two completed professional recommendations must accompany the completed application form. The applicant is encouraged to solicit the recommendations from two faculty members or one faculty member and one employer.
5. Applicants must include a personal resume, outlining community or vocational activities, honors, employment, extracurricular and volunteer activities.
6. Applicants whose first language is not English must satisfy the University's English proficiency requirements.
7. A personal interview is required.
8. Students who are offered admission to the Pharm.D. program will have a Criminal Background Check. This will be performed by Certiphi, Inc through PharmCAS. Matriculation into the program will depend on the results of that check.

Further information concerning the Doctor of Pharmacy Program can be found in the Wayne State University Graduate Bulletin.

Pharmacy Practice

Office: 2190 EACHPS; 313-577-0115

Chairperson: Lynette R. Moser

<http://cphs.wayne.edu/practice> (<http://cphs.wayne.edu/practice/>)

The WSU Doctor of Pharmacy program educates students to become valued providers of health care services. Our graduates use evidenced-based practice to ensure optimal health of the patient and of the public and will provide leadership in advancing pharmacy practice and health policy.

The practice of pharmacy has experienced profound changes during the past three decades as its traditional role in drug distribution has increasingly expanded to incorporate the concept of comprehensive medication management. This philosophy charges pharmacists with the responsibility for providing drug therapy that achieves defined results and improves a patient's quality of life. Pharmacists are expected to interact with patients and other health care providers to assure that the drug therapy prescribed is appropriate, administered, and monitored in a way that assures achieving the desired outcomes.

The ability of pharmacists to play an increasingly active role in drug therapy is being recognized at state and national levels. At the state level pharmacists have been recognized as having the ability to initiate or modify drug therapy, either through collaboration with a physician or by independent authority. In Michigan, pharmacists are allowed to prescribe under delegated authority of a licensed practitioner. Examples of services provided by pharmacists include:

- disease state screening (examples are: blood pressure monitoring for hypertension, glucose monitoring for diabetes, cholesterol monitoring, bone densitometry for osteoporosis)
- monitoring and adjusting anticoagulation therapy
- monitoring and adjusting antibiotic therapy.

A major impetus for these changes is a result of the realization of the added value of pharmacists input into therapeutic decision making in a manner that can result in cost reduction through prevention of problems arising from adverse drug experiences, drug-drug and drug-food interactions, errors in prescribing or administering medications, and poor adherence.

The Doctor of Pharmacy (p. 364) program at Wayne State University is offered through the Departments of Pharmacy Practice and Pharmaceutical Sciences. The pre-professional components of the program are described in the Department of Pharmaceutical Sciences (p. 364) section of this bulletin. The professional curriculum is described in detail in the Wayne State University Graduate Bulletin.

- Pharmaceutical Sciences Concentration (B.H.S.) (p. 363)
- Pharmacy (Pharm.D.) (p. 364)

School of Social Work

Dean: Sheryl Kubiak

The School of Social Work is an integral part of Wayne State University, an urban university in a culturally diverse, industrialized, metropolitan area. The School is committed to its teaching, research, and service activities to address the problems of people living in this environment. Through applied research, work in the classroom, and placements in human service organizations that are the sites for practicum education, students learn how to provide effective social services and influence social policies.

The School's specific mission lies in teaching the knowledge, values, ethics, and skills of the social work profession. Graduates of the School are expected to understand the needs of vulnerable populations and those for whom the quality of life is threatened. Through research on practice, faculty and doctoral students contribute to the social work profession's knowledge base. Both faculty and students serve the community by participating in professional societies, civic and community groups, and human service organizations.

Social Work study prepares professionals to help alleviate the challenges in living for individuals affected by poverty, racism, sexism, ageism, homophobia, unemployment, as well as those experiencing emotional issues and/or physical and developmental impairments. Social work students learn theoretical perspectives and evidence-based methods of practice to guide competent intervention with individuals, families, groups, communities, and organizations. Doctoral students master advanced research competencies required to engage in applied research for social work practice and social welfare policy. Consistent with its emphasis on serving individuals in the Detroit metropolitan area, the School shares a commitment with the University for recruiting students of minority ethnic backgrounds.

The School of Social Work offers opportunities for study at the undergraduate and graduate levels to prepare students for practice in the profession of social work. Its principal programs lead to the Bachelor of Social Work and the Master of Social Work degree.

Curriculum: The Bachelor of Social Work degree program prepares students for entry-level generalist practice. Course work in this program includes University-wide General Education Requirements as well as the core competencies for social work practice. An introductory elective course, SW 1010, is open to freshman and sophomore students interested in exploring the social work profession but not yet matriculated in the B.S.W. program. Non-degree elective courses are also available for those who have previously earned bachelor's and/or master's degrees in social work or other disciplines and wish to further their education by acquaintance with social work issues. At the graduate level, the Master of Social Work degree program includes concentrations in Interpersonal Practice and Innovation in Community, Policy, and Leadership. The School also provides continuing education institutes and workshops for persons employed in the fields of social work and social welfare.

Informational Meetings: The School holds informational meetings (<http://www.socialwork.wayne.edu/>) to acquaint prospective students with its Bachelor of Social Work and Master of Social Work programs. Ph.D. Program informational meetings are held monthly during the fall semester of each academic year. Potential program applicants are encouraged to attend a meeting focused on the program of his/her interest prior to applying for admission.

Accreditation

The Bachelor of Social Work and the Master of Social Work degree programs are accredited by the Council on Social Work Education, the national accrediting body for professional social work education. There is no accreditation process for doctoral programs in social work; however, the School is a member of the Group for the Advancement of Doctoral Education in Social Work, the professional organization that provides guidelines and oversight for doctoral degree programs in social work.

Academic Regulations

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 38) section of this bulletin. The following additions and amendments pertain to the School of Social Work.

Students in the School of Social Work are responsible for informing themselves of all rules, regulations and requirements, complying with all official procedures, and fulfilling all course and degree requirements in proper sequence with satisfactory scholarship. In case of doubt regarding any matter, the student should consult the School's Academic Services Officer. The primary responsibility rests with the student. All students are required to file a *Plan of Work* with the School's Academic Services Officer, and to update the plan periodically. Electives should be selected in consultation with the School's Academic Services Officer.

The faculty of the School of Social Work has the responsibility to require a student to withdraw at any time prior to receipt of the degree when, in its judgment, the student fails to do satisfactory work. Such decisions may be based on deficiencies in performance in class or field or in personal fitness for the profession. The faculty has adopted a set of criteria and procedures for academic termination. Copies are available via the School of Social Work's website and also may be obtained in the Dean's office.

Every effort is made to assist students whose academic work suffers as a result of conditions beyond their control such as personal illness, serious illness in the immediate family, or similar extenuating circumstances.

Attendance and Residency

Students are expected to attend all sessions of courses for which they are registered and to notify the instructors or their secretaries prior to the class session, if possible, when absence is necessary due to illness or similar emergency. Absence from the field practicum must be reported prior to the scheduled time, both to the agency and the faculty field liaison. Consistent absence or tardiness in classes or the field practicum may have an adverse effect on the student's grade and may result in termination from the B.S.W. program.

A student must complete thirty semester credits in the School of Social Work and must be in residence during the final semester prior to graduation.

Maximum Hours

A student engaged in full-time or part-time study in the School of Social Work should plan a program in consultation with the Academic Services Officer, limiting the Plan of Work to required courses and electives in order to maintain a standard of scholarly attainment and academic excellence.

Application for Degree

Application for the degree must be filed in the University Records Office no later than the Friday of the 4th week of classes for the semester in which the student expects to complete the requirements for the degree. The applicant must be recommended for the degree by the faculty. The applicant is requested and expected to attend the commencement at which the Bachelor of Social Work (B.S.W.) degree is conferred.

Academic Credit and Work/Life Experience

No academic credit for life experience or previous work experience will be awarded in the Bachelor of Social Work or Master of Social Work degree

programs, in whole or in part, in lieu of the field practicum or of courses in professional foundation areas.

Student Leave of Absence

A student who is in good standing in the Bachelor of Social Work degree program may request a leave of absence from course and field work in the School for up to one year. In order to be considered in good standing, a B.S.W. student must maintain grades of 'C' or better in classroom courses in the B.S.W. (professional) component of undergraduate study, and must not earn marks below Satisfactory in practicum. Upon return from an approved leave of absence, a student's revised plan of work is based on the time in the academic year when the leave of absence was granted. If a student leaves at or before mid-semester, then she or he will have to repeat course or practicum. Specific information on the procedure for requesting a leave of absence is available in the Office of Admissions and Student Services. Students may request one leave of absence for up to one academic year during the time they are enrolled in the degree program.

Withdrawal from Degree Programs

A student who has been admitted to the Bachelor of Social Work degree program or the Master of Social Work degree program shall be considered to have withdrawn if he/she is not enrolled in a course or field work during any semester of an approved planned program of study. In order to withdraw in good standing from any degree program, a student must formalize the withdrawal from the program with the Assistant Dean for Student Affairs. A copy of the procedure for withdrawal may be obtained from the School of Social Work's Office of Admissions and Student Services.

Nondiscrimination Policies

The School is bound by and actively endorses the university policy (p. 18) of nondiscrimination respecting all persons regardless of race, color, sex, national origin, religion, age, sexual orientation, marital status or physical or mental disability, and which expressly forbid sexual harassment or discrimination in hiring. The School prohibits discrimination against individuals because of political orientation. Copies of School and University nondiscrimination policies may be obtained in the Office of the Dean.

Social Work (B.S.W. Program)

The Bachelor of Social Work (B.S.W.) degree program prepares students for entry-level generalist social work practice during the junior and senior years of undergraduate matriculation. The B.S.W. curriculum is comprised of approximately two-thirds of professional social work undergraduate core courses and one-third co-requisite and elective courses. Practicum Education is an integral part of the B.S.W. curriculum and requires students to apply their coursework to community-based settings within a supervised learning environment.

The B.S.W. program features full-time or extended part-time study. Instruction is classroom-based (traditional), hybrid (a combination of classroom and online instruction), and a fully online cohort (WOW! Program (<https://socialwork.wayne.edu/bsw/online/>)). Regardless of whether students are in the face-to-face program or the online cohort program, all students must participate in the field practicum which requires their physical presence at the community-based setting for 16 hours per week (two full days) during the senior year. Students are admitted to the B.S.W. program in the Fall semester.

Admissions Process

Direct Admit for Freshmen

Students in this category are admitted through the Office of Undergraduate Admissions (p. 32) and complete general education/pre-professional courses offered through the Wayne State University College of Liberal Arts and Sciences.

Prior to beginning the professional curriculum that commences in the Fall semester of the junior year, students majoring in social work must meet the following criteria.

- Grade point average of 2.5 or above.
- Submit an admissions portfolio that consists of:
 - Personal Interest Statement to the School of Social Work.
 - Copy of all transcripts
 - Educational resume
 - Minimum of 16 hours of volunteer/community service hours is required.

Students must also attend a required advising session to learn about the professional and ethical requirements of the major and discuss fitness for the profession. Completion of SW 1010 may be sufficient to meet these requirements.

Additional details on the process and due dates can be found on the School of Social Work (<https://socialwork.wayne.edu/bsw/requirements/>) website.

Transfer Admissions

Students in this category are admitted through the Office of Undergraduate Admissions (p. 32). Applications for admission to the B.S.W. program may be submitted after the student has completed a minimum of twenty-four semester credits in undergraduate course work or its equivalent at the freshman and sophomore levels. Applicants must have earned a minimum overall grade point average of 2.5. Applicants must have completed specified social work pre-professional courses, submit the admissions portfolio (personal interest statement, copy of transcripts from all colleges attended, educational resume, and documentation of community service hours), and attend a required advising session.

Completed applications are given a careful review in order to admit students who show evidence of suitability and fitness for the

profession of social work and the ability to successfully complete their undergraduate professional education in social work.

All B.S.W. programs start in the fall semester.

Main campus, Full-time

Main campus, Part-time

Where Online Works! (WOW) Full-Time

Where Online Works! (WOW!) Part-Time

Application Deadline: June 1

All applicants are encouraged to submit applications as soon as possible as admissions will close once program capacity has been reached. Applications may be submitted beginning in the Fall term prior to the student's anticipated start of the first term of the program.

All students admitted to a B.S.W. program must attend the mandatory orientation prior to beginning the professional curriculum in the fall semester.

Admission to a B.S.W. program is conditional until all application requirements are completed. The student must present a transcript verifying completion of sixty semester credits, grade point average, and completed pre-professional coursework and admissions portfolio. The letter of admission does not constitute a contract; admission may be withdrawn if a student fails to meet program requirements.

Transfer of Undergraduate Credit: A maximum of twelve (12) Technical, Vocational, or Applied Practice credits (designated 'TVA') in the human service areas (for example, mental health, child care, gerontology, empathy training, human services, and substance abuse) will count toward the degree. Any such transfer credits will be counted as general elective credit. Social work courses from programs not accredited by the Council on Social Work Education (CSWE) also will be transferred as 'TVA' general elective credit.

Readmission

Students who have been enrolled in a planned program leading to the Bachelor of Social Work degree, who have withdrawn from the program, and who wish to be considered for readmission to complete degree requirements, must follow regular procedures for admission to the School, including the submission of an updated admissions portfolio. Generally, the B.S.W. curriculum requires that students complete two continuous terms of practicum when actively enrolled in the program. Readmitted students who previously completed only one term of practicum in the senior year will be required to repeat this term, and may be required to enroll concurrently in a course or courses in social work practice methods or a Directed Study in social work.

Students requesting readmission may be required to obtain assessments of their physical or mental health from health or mental health professionals approved by the School. The School of Social Work reserves the right to refuse to readmit a student to the social work program if the physical or mental health status of the student indicates such action is warranted in order to safeguard clients, agencies, the student, other students, or the School.

Pre-Professional Requirements and Electives

To qualify for admission to the Bachelor of Social Work program in the School of Social Work, sixty semester credits (or its equivalent) must have been completed at the freshman and sophomore levels of undergraduate study. The required credits must be distributed according to the curricular pattern cited below. Many pre-social work courses also help satisfy the University General Education Requirements. To obtain

the minimum of 60 credits required to be considered for admission into the School of Social Work, students could take, in addition to the pre-requisites, elective courses from professional schools, whether at WSU or from a transfer institution.

Social Sciences: The following distribution of courses is required.

1. (DEI) Introduction to Social Work and Social Welfare: 3 credits
2. (GL) History: 3-4 credits
3. (CIV) American Government: 3-4 credits
4. (SI) Introductory Sociology: 6-8 credits

Natural Sciences: The following distribution of courses is required, including a laboratory course in one of areas designated below.

1. (NSI) Biology: 3-4 credits
2. (NSI) Introductory Psychology (3-4 credits) and psychology electives (3-4 credits)
3. (NSI) One course (3-4 credits) to be selected from the following: Anthropology, Physics, Chemistry, Geology, Astronomy.

English: The following distribution of courses is required.

1. (BC) Freshman Composition: 4 credits
2. (IC) English Elective (2000 level or above): 3 credits

(CI) Cultural Inquiry: 6 credits

(OC) Communications: 2-3 credits

(QE) Quantitative Experience: 3 credits

(DEI) Diversity, Equity and Inclusion: 3-4 credits

(WE) Wayne Experience: 1 credit

Electives: Recommended: Select electives from General Education Requirements in Global Learning (GL), Social Inquiry (SI) and Diversity, Equity and Inclusion (DEI). Electives should be selected in conjunction with the School's Student Advisor.

B.S.W. Degree Requirements

The Bachelor of Social Work degree requires satisfactory completion of a minimum of one hundred twenty (120) credits. The sixty (60) credits in the freshman and sophomore years include prerequisite courses for admission to the professional component of the program, 51 of the 60 credits acquired during the junior and senior years are from field work and field-related courses. Electives are available to complete the required one hundred and twenty credits for graduation.

Grade Point Average: To be awarded a Bachelor of Social Work degree, the student must achieve a cumulative grade point average of 2.0, and a grade point average of 2.0 during the junior and senior years. A minimum of thirty credits must be earned in residence in the School of Social Work, and the student must be in residence during the final semester prior to graduation.

Student Professional Conduct Requirements: Any breach of the values and ethics of the social work profession articulated in the Professional Code of Ethics as established by the National Association of Social Workers (NASW) (2021) may result in termination from the B.S.W. program. Student violations of the Wayne State University Student Code of Conduct will be forwarded to the University Student Conduct Officer for review and disposition. Students who apply with past, current and/or pending legal charges of record may be eligible and admitted to the B.S.W. program; however, an interview with the Assistant Dean and the Director of Field Education is required during the admissions process to

review the circumstances and disposition of such legal charges. Legal charges of record may have implications for Field Agency Placement and Social Work Licensure. An agency placement is a non-negotiable requirement for Field Education to complete the B.S.W. Program. Social Work Licensure is required for B.S.W. graduates to identify and practice as Social Workers.

Curricula

The undergraduate social work curriculum is structured to provide the knowledge, values, cognitive and affective processes, and skills essential for entry-level generalist social work practice. It is comprised of five curricular areas: 1) human behavior and the social environment, 2) research, 3) social work practice, 4) social welfare policy and services, and 5) field education. The professional component of the curriculum is built upon a liberal arts foundation in the social and behavioral sciences, the humanities, English, mathematics, and the natural sciences.

Students enrolled in field education are placed in a wide variety of social service agencies and work directly with individuals, families, groups, organizations and communities. Emphasis is placed in providing social work services in urban areas with the poor and oppressed, persons of color, and other at-risk populations that represent many ethnic, racial and cultural groups. The field experience is designed to integrate the classroom curricula with the practical realities of social work practice. Field work builds the skill and knowledge base of the student, and stresses both amelioration and prevention of personal, interpersonal and social problems, as well as improvement of the human condition.

All students are required to file an educational Plan of Work with the School of Social Work Student Advisor and to update this plan on a regular basis.

Online Program: The B.S.W. degree is also offered as a fully online program of study during the junior and senior year, with the exception of the field placement, which must be completed at the physical site of the organization to which the student is assigned. Online curriculum requirements are identical to the traditional B.S.W. classroom "on campus" program option, and may require students to work in teams or conduct research in the community as part of their course requirements.

Students interested in matriculating in the online program must have access to an updated computer system and related software necessary for successful completion of all courses, and must also be able to manage their time and schedules to accommodate the demands of an online program and the field placement. Curriculum requirements are listed below.

The admissions process is the same as the traditional program with the exception that the program utilizes the cohort model structure. Once enrolled, students may NOT register for any B.S.W. courses offered in a campus classroom setting. Interested students should visit the School website (<http://www.socialwork.wayne.edu/>) for additional information.

Required Professional Content

Third Year

First Semester		Credits
SW 3010	Social Work Practice Method I	4

Electives

Electives must be selected in consultation with the School of Social Work Student Advisor.

Social Work Honors Program

Social Work students of high achievement are eligible to participate in the School of Social Work Honors Program, available through the University Honors College and the School of Social Work. Honors Option credits are achieved by completing enhanced assignments in connection with specified social work courses during the junior and senior years. All Social Work Honors Option course work and the final Honors Thesis are to be completed within the required social work curriculum, under the approval and supervision of a social work instructor. All Honors Options and the final thesis will include work beyond normal course requirements, to be agreed upon between the student and instructor.

Students interested in applying to the Social Work Honors Program must present a cumulative grade point average of 3.50 or better, submit an application to the BSW Director, and develop an academic plan of work with the School of Social Work Student Advisor. Honors Option forms are available through the Honors College website. The Honors Option form must be signed by the instructor and the BSW Director and must be returned to the Honors College before the published deadline each semester, usually within the first 2-3 weeks of the start of the semester.

It is the student's responsibility to make sure that the Honors Option instructor reviews and grades the completed work and that the grade is submitted properly to the Honors College. Students are required to complete a minimum of sixteen credits under the Honors Option, including 10 credits of enhanced coursework, 3 credits of HON 42XX, and a Honors Thesis project in SW 4997, and maintain a cumulative grade point average of at least 3.50. Additional information is available from the BSW Director.

Social Work students can apply to the Social Work Honors-AHEC (Area Health Education Center) Scholars Program. This option expands the BSW Honors students' training and clinical/field experience through innovative clinical, didactic, and community-based activities. Students interested in applying to the Social Work Honors AHEC Scholars Program must follow the same application as the Social Work Honors program and apply for the AHEC Scholars Program. Students are required to complete the requirements of the Social Honors program and the AHEC requirements. AHEC Scholars is a 2-year program commitment, requiring approximately 80 hours per year, totaling 160 hours. Forty of these hours

include professional clinical training in Detroit. Students are expected to attend mentoring sessions twice a semester with the BSW Program Director and attend AHEC meetings that will occur in a combination of in person and virtual synchronous and asynchronous modalities.

All students enrolled in SW 4998, Field Practice in Social Work I and II, are required to carry professional liability insurance (now provided by the School) as a condition of field placement.

The Practicum Education Manual contains a description of the practicum education program and the policies and procedures related to the program. Students are responsible for observing the procedures governing practicum work practice which are detailed in the manual. The manual is located on the School website.

Practicum Education Health Clearances Policy

The School may require students in practicum to obtain assessments of their physical or mental health from health or mental health professionals approved by the School. The School of Social Work reserves the right to refuse to place or direct a student in practicum education if the physical or mental health status of the student indicates such action is warranted in order to safeguard clients, agencies, the student, other students, or the School.

Agencies

The following agencies are representative of those who have worked with members of the Faculty in practicum instruction during recent academic years:

Social Work AGRADE Program

The School of Social Work offers an Accelerated Graduate Enrollment (AGRADE) pathway from the College of Liberal Arts and Sciences to the MSW program that allows highly motivated undergraduate students to begin graduate study while completing a bachelor's degree, saving both time and money. Students will be able to begin taking courses from the core year of the MSW program while they are in the senior year of their bachelor's program, and thus, complete the MSW degree in less time. This program will allow students to be ready for a career sooner, with both a bachelor's and master's degree.

How to Participate in the MSW Pathway: Meet with a School of Social Work academic advisor to determine if the accelerated pathway might be a good fit for you. Student records will be reviewed to determine eligibility and to assist students to declare the pathway, and guide the course of study. Students will continue to work with their CLAS advisor to ensure all undergraduate degree requirements are met.

Program Guidelines

Student Eligibility: Students enrolled in majors in the College of Liberal Arts and Sciences (CLAS) majors will be eligible to apply for the CLAS-SW AGRADE program in the semester in which they expect to complete 90 credits. Students must have an undergraduate g.p.a. of a 3.5 (or higher) in their major, and they must earn at least a B grade or higher in each of the AGRADE classes to be applied towards the Master of Social Work degree program.

Application Procedures: Undergraduate students apply for this program using the regular Graduate School application form and admission process (including paying the applicable Graduate School application fee) as well as completing a request to take AGRADE coursework. This form will show courses that the student wishes to use as dual credit for undergraduate and MSW programs. Applicants are required to

demonstrate suitability and fitness for the profession and the ability to undertake successfully graduate professional education in social work. This includes submission of transcripts, resume, and personal interest statement. Applications for admission to the CLAS-SW AGRADE program leading to the MSW degree are carefully reviewed so that those students selected, best fulfill the requirements for professional education in this field. The responsibility for deciding whether a student shall or shall not be admitted rests with the School of Social Work. The Admissions Committee for the MSW program will review all applications and make a decision about admission into the CLAS-SW AGRADE program. Acceptance to the CLAS-SW AGRADE program does not commit students to completing their MSW degree.

Maximum AGRADE Course Credits: CLAS-SW AGRADE students may elect a maximum of 15 credits in approved graduate courses, as shown in the table below. These graduate courses may be used to complete elective courses for their bachelor's degree requirements as well as to serve as the beginning of graduate study.

Advising/MSW Plan of Work: Students accepted into the CLAS-SW AGRADE program are required to meet with a Social Work advisor each semester. Students will develop a plan of work which will also require approval by their undergraduate advisor.

This plan of work will essentially eliminate the first-year requirements of the four-year part-time MSW program and significantly lighten the load for the two-year full-time program. Students who successfully complete the AGRADE portion of the program will be better prepared to successfully complete the MSW program and enter the workforce.

Awarding the Bachelor's Degree: The bachelor's degree must be awarded upon completion of the requirements for the bachelor's degree. Students have a six-year time limit to complete all requirements for the master's degree. The six-year period begins with the end of the semester during which the student has taken work which applies toward meeting the requirements of the degree.

Approval for regular graduate admissions status: For admission into the MSW program, CLAS-SW AGRADE students are required to:

- Successfully complete their undergraduate degree.
- Maintain a cumulative GPA of at least 3.0 in all course work and in the major, and earn a B or better in all MSW courses.
- Declare their interest in the program during their junior year, and they should apply to the MSW program after achieving 90 credits in their undergraduate program.
- Completed and submitted a graduate application by January 15 of the fourth year of their undergraduate study. This includes a personal interest statement (criteria can be found on the WSU School of Social Work website), three letters of recommendation and a resume.
- Follow the additional guidelines for MSW applicants as outlined on the Graduate Admissions.
- Successfully complete any of the following coursework:

Code	Title	Credits
SW 7560	Lifespan Development in the Social Context	3
SW 7680	Human Rights, Social Justice, and Diversity in an Urban Context	3
SW 7720	Social Policy and Advocacy	3
SW 7820	Evidence for Social Work Practice	3
	Elective (See MSW advisor for a list of electives)	3

Graduate Transcripts: Only the AGRADE approved courses in which the student has earned a B or higher will transfer to the graduate transcripts (upon completion of the MSW program). Once in the MSW program

students may be required to repeat an AGRADE course in which they earn less than a B grade.

Social Work and Social Justice Minor

The minor in social work and social justice will provide undergraduate students from different majors with the opportunity to learn how to apply practical solutions to fostering environments that are socially just, diverse, inclusive, and equitable.

The minor requires a minimum of eighteen credits.

Code	Title	Credits
Social Work Courses (12 credits)		
SW 1010	Introduction to Social Work and Social Welfare	3

* Consult an advisor if using this course to satisfy the elective requirement.

Law Minor

The law and social work minor consists of a combination of classes offered through the School of Social Work, along with law classes taught by the Law School faculty. The emerging intersection of law and social work provides an opportunity for connections between social work practice and broader struggles to advance human rights and social, economic, and environmental justice. The minor in law and social work will provide undergraduate students with the opportunity to integrate expertise from both the Social Work and Law disciplines examining subjects including the inter-working of major social welfare programs, law as an evolving social institution, the lifecycle of a case in court, and the fundamentals of legal analysis

Practitioners with this minor will gain the knowledge needed to advocate for social justice reform at the micro, mezzo and macro levels in subjects such as criminal justice, policy and community practice, child welfare, aging, health, mental health, and housing. With an emphasis on the

relationship between law and social work practice, graduates will develop the skills needed to utilize these interdependent fields including logical and critical thinking skills, oral and written communication, reading comprehension and analysis. Social work students who complete this minor will be well-positioned to enter any number of fields, such as state and local government, education, immigration, human resources, or advocacy.

The minor in law requires a minimum of 17 credits. To achieve the minor, social work students must maintain a 3.5 cumulative GPA, and complete the following required courses.

Code	Title	Credits
Law courses		9
LEX 5000	Law in Social Context	
LEX 5010	Law and Harm	
LEX 5020	Legal Procedure	
Social Work courses		8
SW 4710	Social Welfare in the United States: Current Programs	
SW 6500	Social Work and the Law	
Select one course from the following list:		
SW 5720	Social Services for Older Adults	
SW 5755	Introduction to Child Welfare	
SW 6100	Child Welfare and Social Systems: Context for Case Management Practice	
SW 6535	Youth, Delinquency, and Juvenile Justice	
SW 6585	Introduction to International Social Work	
Total Credits		17

Additional Academic Programs

Air Force (ROTC)

The Air Force Officer Education Program at the University of Michigan provides Wayne State University students the opportunity to earn a commission as a second lieutenant in the U.S. Air Force through the Air Force Reserve Officer Training Corps (AFROTC). Three- and four-year programs are offered. All AFROTC classes are conducted on the University of Michigan campus, Ann Arbor, MI; registration is managed by AFROTC. Interested students should contact AFROTC at 734-764-2403 or visit Room 154 at North Hall on the Ann Arbor campus. Students who enroll as cadets in the Air Force Officer Education Program, successfully complete the program, and receive a university degree are commissioned as second lieutenants in the United States Air Force.

Admission to introductory-level courses in this program is open to anyone, but admission to junior-level standing is open only to students having matriculate status in a four-year degree program at one of the resident sponsoring institutions.

Career Opportunities: Men and women can serve in a wide range of flying duties as aircrew members or in many technical fields as well as in numerous other non-technical specialties. Advanced education or technical training for these career areas may be obtained on active duty at Air Force expense.

Three- and Four-Year Program: The four-year program consists of eight terms (sixteen credits) of course work. The first four terms (freshman and sophomore years) comprise the General Military Course (GMC). During the summer following this sequence each student is required to attend a four-week summer field training session. After completing field training, students enroll in the last four terms (junior and senior years) of AFROTC called the Professional Officer Course (POC). Questions about the three-year program should be directed to the AFROTC at 734-764-2403.

Financial Benefits and Scholarships: All students enrolled in the POC, whether or not on scholarship, receive a monthly stipend during the academic school years. Uniforms, AFROTC books, and equipment are furnished free of charge. Pay and travel allowance are provided to attend field training. AFROTC provides scholarships on a competitive basis for periods of two and three and one-half years. These scholarships provide tuition, laboratory fees, a book allowance, and the monthly stipend. Room and board are not furnished.

Obligation to the Air Force: After graduation and commissioning, graduates are called to active duty in the Air Force. The standard period of service is four years for non-aircrew members, six years for navigators, and ten years for pilots. Obligations for aircrew members begin following graduation from aircrew training. A contractual obligation is incurred for non-scholarship students when they enter the POC. Scholarship students incur an obligation in their sophomore year.

Course of Study: Students enroll in one AFROTC course (AERO) during each term of participation in the program. In addition to the lecture, there is a mandatory two-hour Leadership Laboratory during each of the eight terms, for those students who are eligible for the commissioning program.

Military Science (ROTC)

The College of Engineering currently sponsors the Army Reserve Officers Training Corps (AROTC) and provides Wayne State University students with an Officer Education Program through a partnership agreement with the University of Michigan. The Officer Education Program allows qualified applicants to receive commissions as Second Lieutenants in the United States Army. Other interested students throughout the University may select military science courses, offered as Basic Engineering credits, for elective credit without participating in leadership training or incurring any military obligation. Army ROTC offers both a four-year and a two-year program. The four-year program consists of a two-year basic course, a two-year advanced course, and a four-week summer camp known as the Leadership Development and Assessment Course (LDAC), normally attended between the junior and senior years at Joint Base Lewis-McChord, Washington. Students having prior ROTC, including Junior ROTC (JROTC), or prior military service may be given placement credit for part or all of the basic course at the Professor of Military Science's approval. The two-year program is by application only and consists of a four-week Leadership Training Course (LTC) in Fort Knox, Kentucky, a two-year advanced course, and LDAC. All students with a minimum of two years of school remaining (graduate or undergraduate) are eligible. Students must notify the department prior to February 15 of their sophomore year if they are interested in this program. ROTC cadets are eligible for four-, three-, and two-year scholarships which can be used to pay either tuition and fees, or room and board, as well as money for books. In addition, the advanced course students and all scholarship students receive a tax-free subsistence allowance during the school year. ROTC books and uniforms are furnished at no cost to students. Cadets who maintain high academic, fitness, and leadership standards are eligible to apply for Regular Army Commissions. Interested students should visit the Wayne State University Army ROTC program (<http://omvae.wayne.edu/rotc/>) website.

Basic Engineering ROTC Courses

BE 1101 Introduction to Officership Cr. 1

Classroom introduction to leadership, and the experiential examination of leadership, followership, decision-making, and group accomplishment of tasks. Offered Every Other Year.

BE 1102 Introduction to Leadership Cr. 1

Continuation of B E 1101; focus on communications, leadership, and problem-solving. The light infantry platoon and the troop leading process. Offered Every Other Year.

Prerequisite: BE 1101 with a minimum grade of C-

BE 2201 Innovative Tactical Leadership Cr. 1

Military organizational leadership with focus on leadership development and interpersonal group dynamics. Offered Every Other Year.

Prerequisite: BE 1102 with a minimum grade of C-

BE 2202 Leadership in Changing Environments Cr. 2

Challenges of leading in complex contemporary operational environments. Cross-cultural challenges of leadership applied to practical Army leadership tasks and situations. Offered Every Other Year.

Prerequisite: BE 1102 with a minimum grade of C-

BE 3301 Leading Small Organizations I Cr. 2

Leadership development and interpersonal and group dynamics. Methods of visualizing, planning and leading organizations to achieve set goals. Offered Every Other Year.

BE 3302 Leading Small Organizations II Cr. 2

Offered Every Other Year.

Prerequisite: BE 3301 with a minimum grade of C-

BE 4401 Leadership and Management Cr. 3

Multiple styles and theories of leadership; ethical decision making, especially as relating to changing organizational and individual behavior; accomplishing goals in resource-constrained environments. Offered Every Other Year.

Prerequisite: BE 3302 with a minimum grade of D-

BE 4402 Military Professionalism and Professional Ethics Cr. 3

Evaluation and assessment of needs of subordinate units and individuals; near-term and short-term plans to address these needs. Analysis of a historical battle as well as analysis of moral and leadership dilemmas in history. Offered Every Other Year.

Prerequisite: BE 4401 with a minimum grade of C-

ACC - Accounting

ACC 3010 Introduction to Financial Accounting Cr. 3

Theory and practical applications of financial accounting principles; preparation and evaluation of financial statements and the items that make up these statements using real-world examples. Use of the language of business to communicate financial information about business enterprises. This course satisfies Society of Actuaries Validation by Educational Experience (VEE) in Accounting and Finance when taken with FIN 3290 with a B- or better in each course. Offered Every Term.

Prerequisites: BA 2300 with a minimum grade of C

ACC 3020 Introduction to Managerial Accounting Cr. 3

Basic terms and concepts used in managerial accounting: cost behavior; cost-volume profit analysis; business planning and accounting controls; and how accounting information in managerial decision making. Offered Every Term.

Prerequisites: ACC 3010 with a minimum grade of C, ECO 2010 with a minimum grade of C, and BA 2300 with a minimum grade of C

ACC 4500 Business Co-op Assignment Cr. 0

Must be elected by Professional Development Co-operative Program students during work semester. Offered for S and U grades only. No credit toward degree. Opportunity to put theory into practice on the job. Students will normally be assigned to cooperating business organizations for internship periods of one semester. Offered Every Term.

Restriction(s): Enrollment limited to students in the School of Business.

Equivalent: FIN 4500, MGT 4500, MKT 4500

ACC 5100 Intermediate Financial Accounting I Cr. 3

Accounting principles for preparing complete set of financial statements; how accounting meets the needs of various external users. Theories and practices of external financing of external financial reporting for organizations. Valuation and accounting for assets: cash, receivables, and inventory. Offered for undergraduate credit only. Offered Every Term.

Prerequisites: ACC 3010 with a minimum grade of C and ACC 3020 with a minimum grade of C

Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Business.

ACC 5110 Intermediate Financial Accounting II Cr. 3

Continuation of ACC 5100. Theories and practices underlying external financial reporting for organizations. Valuation of and accounting for specific items on the balance sheet, including property, plant and equipment, intangible assets, current and long-term liabilities, stockholders' equity, investments, income measurement concepts and issues. Offered for undergraduate credit only. Offered Every Term.

Prerequisites: ACC 5100 with a minimum grade of C

Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Business.

ACC 5115 Intermediate Financial Accounting III Cr. 3

Continuation of ACC 5110. Complex financial reporting topics, such as securities, earnings per share, income taxes, pensions, leases, changes and errors, disclosure issues. Cases used to integrate concepts studied in managerial, systems, and tax accounting courses in this capstone course. Offered for undergraduate credit only. Offered Every Term.

Prerequisites: ACC 5110 with a minimum grade of C

Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Business.

ACC 5120 Advanced Accounting Cr. 3

Theories and practical applications of financial accounting: as learned in intermediate accounting courses; focus on accounting of consolidation and combination of business entities; accounting for foreign currency transactions; and interim and segment reporting. Offered for undergraduate credit only. Offered Winter.

Prerequisites: ACC 5110 with a minimum grade of C

Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Business.

ACC 5130 Accounting Systems Design and Control Cr. 3

Implementation of accounting systems in a computer-intensive business environment; methods for developing and documenting Accounting Information Systems (AIS); hands-on use of enterprise resource planning software package for accounting functions. Offered for undergraduate credit only. Offered Every Term.

Prerequisites: ACC 5100 with a minimum grade of C and ISM 3630 with a minimum grade of C

Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Business.

ACC 5160 Managerial Accounting Cr. 3

Focus on management accountant as integral part of the management team. Analyzing, managing, and accounting for costs; relevance of cost management in manufacturing firms and other types of organization; solving homework problems by application of concepts covered in textbook and lectures. Offered for undergraduate credit only. Offered Every Term.

Prerequisites: ACC 3020 with a minimum grade of C

Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Business.

ACC 5170 Introduction to Taxation: Individuals Cr. 3

Introduction to taxation, tax research, and tax planning. Fundamental elements of individual taxation; how individuals and business owners benefit from an understanding of tax law. Offered for undergraduate credit only. Offered Every Term.

Prerequisites: ACC 3010 with a minimum grade of C and ACC 3020 with a minimum grade of C

Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Business.

ACC 5180 Governmental and Not-for-Profit Accounting Cr. 3

Theory and practical applications of accounting for governmental and not-for-profit organizations, and how they differ from for-profit entities. Technical accounting issues and management and regulatory issues for both state and local governments and for other governmental and non-governmental not-for-profit entities. Course is preparation for governmental and not-for-profit portion of the CPA examination. Offered for undergraduate credit only. Offered Every Term.

Prerequisites: ACC 5110 with a minimum grade of C

Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Business.

ACC 5200 ERP Systems: Concepts and Practice Cr. 3

Discusses the role and function of ERP systems within organizations; analyzes the major business processes in their organization and their implementation using ERP software; provides hands-on use of ERP tools for transaction processing and decision support; and describes the use of ERP systems for customer relationship management (CRM), supply chain management (SCM), and electronic commerce. Offered for undergraduate credit only. No credit after former ISM 5200. Offered Winter.

Prerequisites: ACC 3010 with a minimum grade of C, ACC 3020 with a minimum grade of C, and ISM 3630 with a minimum grade of C

Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Business.

Course Material Fees: \$117

Equivalent: TIS 5200

ACC 5210 Blockchain Fundamentals for Accounting and Business Cr. 3
Introduces blockchain, which is a public, transparent, secure, immutable and distributed ledger. Blockchains can be used to record and transfer any digital asset, not just currency. Progressing from a detailed study of how blockchain works in Bitcoin; this course also discusses alternative blockchain platforms; potential uses of blockchain in accounting, other areas of business, and society; and this technology's potential impact on accounting systems, business transactions, financial services, government, and banking management. This course is taught completely online. No credit after former ISM 5210. Offered Spring/Summer.
Prerequisite: ACC 3010 with a minimum grade of C and ACC 3020 with a minimum grade of C
Equivalent: TIS 5210

ACC 5220 Data Analytics and Technologies for Accounting Cr. 3
This course is designed to deepen students' comprehension of information systems' technical aspects and essential analytical skills for accountants. It emphasizes the role of data in various fields, aiding managerial decisions via high-quality analytics. Covering the complete data analytics cycle—from data collection, quality maintenance, to execution, and presentation—students will learn to extract, transform, and load (ETL) data from databases and explore relevant analytics. Hands-on examples and cutting-edge software used in accounting and data science will be employed. Offered Every Term.
Prerequisite: ACC 5110 with a minimum grade of C and ACC 5160 with a minimum grade of C

ACC 5250 Introduction to Internal Auditing Cr. 3
Theory of internal auditing and how it relates to the CPA audit and the audit committee. Offered for undergraduate credit only. Offered Winter.
Prerequisites: ACC 3010 with a minimum grade of C and ACC 3020 with a minimum grade of C
Restriction(s): Enrollment is limited to Undergraduate level students.

ACC 5270 Introduction to Taxation: Business Entities Cr. 3
Builds on basic U.S. tax concepts learned in ACC 5170. Taxation of corporations, S corporations, partnerships, estates and trusts. Accounting for income taxes on financial statements, taxation of corporate reorganizations and liquidations, basic multi-state and multi-national taxation principles, and transfer taxes and wealth planning. Offered for undergraduate credit only. Offered Fall, Winter.
Prerequisites: ACC 5170 with a minimum grade of C
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Business.

ACC 5890 Internship in Accounting or Tax Practice Cr. 3
Student performs assigned tasks and responsibilities in a professional manner under supervision of host-employer for minimum 160 hours during the semester, abiding by the rules and regulations established by the employer and expected of all employees; student must satisfactorily complete all course requirements outlined in the internship program for the School of Business Administration. Offered for undergraduate credit only. Offered Every Term.
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Business.

ACC 5990 Directed Study in Accounting Cr. 1-3
Research conducted under supervision of full-time faculty member in an area of special interest to student and faculty member. Offered for undergraduate credit only. Offered Every Term.
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Business.
Repeatable for 6 Credits

ACC 5996 Auditing, Assurance and Attestation Cr. 3
Principles and procedures used by public accountants in examination of financial statements of companies and other organizations; issuing an independent opinion; professional standards and responsibilities of the certified public accountant. Offered Every Term.
Prerequisites: ACC 5115 with a minimum grade of C (may be taken concurrently) and BA 3400 with a minimum grade of C
Restriction(s): Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Business.

ACC 7100 Financial Accounting for Decision Making Cr. 3
This course provides an introduction to the financial reporting environment, incentives of managers issuing financial statements, and analysis and interpretation by users of such disclosures. It begins by viewing the financial accounting system as a language, and familiarizes students with the structure, usage, conventions, and the grammar of accounting as a business language. No credit after ACC 7040 and ACC 7050. Offered Fall, Winter.
Prerequisites: BA 6000 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ACC 7115 Financial Statement Analysis Cr. 3
Development of ability to extract and interpret information reported in financial statements in order to evaluate the operating performance and financial status of a firm. Offered Fall, Winter.
Prerequisites: ACC 7100 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the School of Business.

ACC 7120 Introduction to Taxation: Individuals Cr. 3
Introduction to taxation, tax research, and tax planning. Fundamental elements of individual taxation; how individuals and business owners benefit from an understanding of tax law. No credit after ACC 5170 or undergrad. equiv. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the School of Business.

ACC 7122 Advanced Accounting I Cr. 3
Theory and practical applications of accounting for consolidation and combination of business entities and accounting for foreign currency transactions and interim and segment reporting. No credit after ACC 5120 or other undergrad. equiv. course. Offered Winter.
Prerequisites: ACC 7100 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ACC 7130 Intermediate Managerial Accounting Cr. 3
Building on managerial accounting skills mastered in B A 7000, this course examines accounting and control issues and the use of information in the decision-making process from a managerial perspective, through the study of cases. No credit after ACC 5160 or undergrad. equiv. Offered Fall, Winter.
Prerequisites: BA 7000 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ACC 7145 Accounting Systems: Design and Controls Cr. 3
Implementation of accounting systems in the computer-intensive business environment; methods for developing and documenting Accounting Information Systems (AIS); evaluation of controls; work with accounting software package. No credit after ACC 5130 or equiv. Offered Every Term.
Prerequisites: BA 7000 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ACC 7148 ERP Systems and Business Integration Cr. 3

Enterprise Planning (ERP) systems are the primary software packages for accounting, operational, and managerial activities of organizations. How ERP systems integrate and coordinate business processes and the management of the organization. Extensive hands-on use of popular software packages for key business activities such as sales, procurement, and production. Offered Winter.

Prerequisites: BA 7000 with a minimum grade of C and ISM 7500 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

Course Material Fees: \$117

ACC 7155 Forensic Accounting Cr. 3

Accounting and legal fundamentals of forensic accounting. Topics include tax and financial statement fraud, information security, and forensic accounting applications in such cases as bankruptcy, identity theft, and organized crime and terrorism investigations. Offered Fall, Winter.

Prerequisites: BA 7000 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7165 Internal Audit I Cr. 3

Theory of internal audit; the context within which internal auditing functions; its relation to the external audit and the audit committee. Offered Winter.

Prerequisites: BA 7000 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7170 International Accounting Cr. 3

Issues in international business environment: currency translations; consolidated statements for multinational corporations, inflation accounting; other issues. Offered Fall.

Prerequisites: ACC 7100 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7180 Auditing Cr. 3

Principles and procedures of internal and external auditing; statistical sampling and other modern auditing techniques; professional standards and responsibilities of the auditor. Offered Every Term.

Prerequisites: ACC 7100 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7188 Governmental and Not-for-Profit Accounting Cr. 3

Theory and practical applications of accounting for governmental and not-for-profit organizations, and how they differ from for-profit entities. Technical accounting issues and management and regulatory issues for both state and local governments and for other governmental and non-governmental not-for-profit entities. No credit after ACC 5180 or undergrad equiv. Offered Every Term.

Prerequisites: ACC 7100 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7190 Advanced Auditing Cr. 3

Advanced principles and procedures to perform financial audits; case studies of emerging auditing techniques and methods to detect fraud; application of advanced statistical sampling techniques; analysis of auditor's role in society. Offered Intermittently.

Prerequisites: ACC 7180 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7280 Accounting Data Analytics Cr. 3

Introduces concepts, techniques, and software applications used to analyze accounting and related data to support financial decision-making and planning. These data are generated both within and outside the organization. Offered Winter.

Prerequisites: BA 7000 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7290 Blockchain: An Accounting and Business Perspective Cr. 3

Introduces blockchain: a public, transparent, secure, immutable, and distributed ledger. Blockchains can be used to record and transfer any digital asset, not just currency. The course covers the workings, applications, and potential impact of this revolutionary technology. Offered Fall.

Prerequisites: BA 7000 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7300 Accounting and Tax Research and Professional Communications Cr. 3

Methodology of accounting and tax research, including computer-assisted research and the communication of argument and conclusions. Sources and roles of legislative, executive, judicial and professional bodies in creating, interpreting and enforcing policies and practices. Commonly-used research databases studied through cases. Offered Every Term.

Prerequisites: ACC 7120 with a minimum grade of C (may be taken concurrently) and BA 7000 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7310 Business and Professional Ethics for Managers and Accountants Cr. 3

Laws, regulations and professional codes of conduct as reflection of expectations of corporate stakeholders regarding the ethics of accountants and managers. Significance of integrity, independence, and reputation in light of these rules. Offered Every Term.

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7320 Introduction to Taxation: Business Entities Cr. 3

Builds on basic U.S. tax concepts learned in ACC 5170/ACC 7120. Taxation of corporations, S corporations, partnerships, estates and trusts. Accounting for income taxes on financial statements, taxation of corporate reorganizations and liquidations, basic multi-state and multi-national taxation principles, and transfer taxes and wealth planning. Offered Fall, Winter.

Prerequisites: ACC 7120 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the School of Business.

ACC 7325 Advanced Tax Research and IRS Procedures Cr. 3

Builds on research skills developed in ACC 7300 focusing on tax research methodology, writing and citation; role of legal authorities in taxation; IRS practices and procedures. This course requires one-on-one work with the instructor. Offered Intermittently.

Prerequisites: ACC 7300 with a minimum grade of C and ACC 7320 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7335 Taxation of Corporations and Shareholders Cr. 3

Advanced taxation issues related to consolidated tax returns; corporate acquisitions, mergers, divestitures, and reorganizations; survival of tax attributes; accounting for uncertainty in income taxes; other advanced tax topics. This course requires one-on-one work with the instructor. Offered Fall.

Prerequisites: ACC 7300 with a minimum grade of C and ACC 7320 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7340 Taxation of Pass-Through Entities Cr. 3

Tax rules governing formation, operation, and dissolution of partnerships, S corporations, and limited liability companies; aggregate and entity theories; distributions, basis adjustments, dispositions, and other related tax issues. This course requires one-on-one work with the instructor. Offered Intermittently.

Prerequisites: ACC 7300 with a minimum grade of C and ACC 7320 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7400 Taxation of International Business and Multinational Transactions Cr. 3

Taxation of U.S. persons investing or doing business outside the United States. Foreign tax credit, sourcing rules, controlled foreign corporation and related tax issues, transfer pricing issues, and overview of tax issues related to non-U.S. persons doing business in the United States. Offered Intermittently.

Prerequisites: ACC 7300 with a minimum grade of C and ACC 7320 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7410 Tax Accounting Methods and Accounting for Income Taxes Cr. 3

Tax accounting issues faced by business entities and their tax advisers, including tax accounting methods and periods, inventory methods, tax accrual workpapers, tax uncertainties and deferred taxes. Offered Intermittently.

Prerequisites: ACC 7050 with a minimum grade of C, ACC 7120 with a minimum grade of C, and ACC 7150 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7420 Taxation by State and Local Jurisdictions Cr. 3

Survey and examination of state, local, and some international income, franchise, property, sales, and use taxes and their impact on entrepreneurs. Emphasis on North American jurisdictions. Offered Intermittently.

Prerequisites: ACC 7120 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7450 Taxes and Business Strategy Cr. 3

Effect of taxation on business decisions such as choice of form of organization, international operations, employee and executive compensation strategies, business mergers, acquisitions and divestitures. Business decisions examined by studying tax, accounting, and non-tax considerations from a management perspective. Offered Intermittently.

Prerequisites: ACC 7300 with a minimum grade of C and ACC 7320 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ACC 7990 Internship in Accounting or Tax Practice Cr. 1-3

Application and assessment of concepts developed in studies through meaningful real-world experience. Student must obtain internship position and complete internship application form before registering. Student performs assigned tasks in professional manner under supervision of host-employer for minimum 160 hours during semester; abides by rules and regulations established by employer and expected of all employees; and must complete all course requirements outlined by the School for the internship program. Offered Every Term.

Prerequisites: ACC 7100 with a minimum grade of C and BA 7000 with a minimum grade of C

Restriction(s): Enrollment limited to students in the MS in Accounting or MS in Taxation programs; enrollment is limited to Graduate level students.

Repeatable for 3 Credits

ACC 7995 Directed Study in Accounting Cr. 1-3

Opportunity to conduct research under the supervision of a member of the graduate faculty in areas of special interest to student and faculty member. Offered Every Term.

Prerequisites: ACC 7040 with a minimum grade of C, ACC 7050 with a minimum grade of C, and BA 7000 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

Repeatable for 3 Credits

ACC 7998 Seminar in Tax and Accounting Policy Cr. 3

Seminar topics include history of accounting and tax policy in the U.S., establishment of accounting and tax rules and standards, professional responsibilities of accounting and tax professionals; relationship and application to recent and current events. Offered Fall, Winter.

Prerequisites: ACC 7050 with a minimum grade of C, ACC 7120 with a minimum grade of C, and ACC 7300 with a minimum grade of C (may be taken concurrently)

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a MS in Accounting or MS in Taxation degrees; enrollment limited to students in the Law School or School of Business.

ACO - Art: Core

ACO 1200 Surface Studio Cr. 3

Core studio for visual communication in a spectrum of two-dimensional media and color theory. Explorations include elements and principles of design, basic digital technique, basic traditional material handling, creative thinking, critical discussion and problem solving. Offered Every Term.

Restriction(s): Enrollment is limited to Undergraduate level students.

Course Material Fees: \$140

ACO 1230 Space Studio Cr. 3

Core studio for visual communication in a spectrum of three-dimensional media and composition in the built environment. Explorations include elements and principles of design, basic digital techniques, material handling, shop experience, and creative problem solving. Offered Every Term.

Restriction(s): Enrollment is limited to Undergraduate level students.

Course Material Fees: \$140

ACO 1270 Time Studio Cr. 3

Core studio for visual communication in time-based media composition including elements and principles of design, basic time-based methods for audio/video production, performance, social practice, creative thinking, and critical discussion and problem solving. Offered Every Term.

Restriction(s): Enrollment is limited to Undergraduate level students.

Course Material Fees: \$75

ACR - Art: Ceramics

ACR 2550 Introduction to Ceramics Cr. 3

Introduction to the technical processes and conceptual concerns of working with the ceramic material. Students will explore various methods of forming with earthenware to make both functional and expressive works out of clay. Offered Every Term.

Course Material Fees: \$75

ACR 3550 Intermediate Ceramics Cr. 3

Focuses on the refinement of technical skills with an emphasis on conceptual development related to materiality. Offered Winter.

Prerequisites: ACR 2550 and (ACO 1200, ACO 1230, ACO 1270, or ADR 2550)

Course Material Fees: \$75

ACR 4000 Ceramic Multiples I Cr. 3

Intermediate ceramics course focusing on an introduction to the technical processes of throwing, prototyping, and mold making. Offered Fall.

Prerequisites: (2 of ACR 2550 and (ADR 1050, ACO 1200, ACO 1230, or ACO 1270) or AID 5330)

Course Material Fees: \$125

ACR 4550 Advanced Ceramics I Cr. 3

Focuses on conceptual development as it relates the creation of a unified body of work. Topics may include discussions of advanced techniques, professional practices, and contemporary issues in ceramics. Offered Winter.

Prerequisites: ACR 3550

Course Material Fees: \$90

ACR 5000 Ceramic Multiples II Cr. 3

Advanced ceramics course focusing on the technical processes of throwing, prototyping, mold making, glaze calculation, and firing. Discussions may also include issues of professional practice, marketing, and branding. Offered Fall.

Prerequisites: ACR 4000

Course Material Fees: \$125

Repeatable for 6 Credits

ACR 5550 Advanced Ceramics II Cr. 3

Continuation of ACR 4550; Advanced ceramics course focusing on conceptual development as it relates the creation of a unified body of work. Topics may include discussions of advanced techniques, professional practices, and contemporary issues in ceramics. Offered Every Term.

Prerequisites: ACR 4000 and ACR 4550

Course Material Fees: \$90

Repeatable for 12 Credits

ACR 5880 Directed Projects in Ceramics Cr. 1-6

Independent projects and study in consultation with faculty. Offered Every Term.

Course Material Fees: \$90

Repeatable for 6 Credits

ACR 7550 Graduate Problems in Ceramics Cr. 3

Individual problems in advanced ceramics. Offered Every Term.

Prerequisites: ACR 5550

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Arts or Master of Fine Arts degrees; enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$100

Repeatable for 24 Credits

ACR 8880 MFA Studio: Ceramics Cr. 3-9

Extended problems in ceramics; individual research with eighteen to twenty-seven hours of laboratory per week. Offered Fall, Winter.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree; enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$150

Repeatable for 36 Credits

ACS - Art: Special Seminars

ACS 3997 Professional Practices in the Visual Arts I Cr. 3

Foundational seminar on contemporary issues in the visual arts. Topics including studio and professional practices, history, and criticism relevant to art making. This course explores historical and contemporary concerns that influence artists' creative identities, and strategies for effective methods of critiquing and communicating ideas about artistic works.

Readings, group discussions, writing activities, and targeted projects will help students generate narratives about how and why they make art, and encourage them to set academic, creative, and professional goals for the future. This is the capstone course for BA in Art students; BA in Art students should take this in their final year. BFA students should take this course in their junior year. Offered Fall, Winter.

Prerequisites: 3 of ACO 1200, ACO 1230, ACO 1270, and ADR 1050

ACS 5200 Art Gallery Management Cr. 3

Offers a larger sense of the profession gained through readings, opportunities to network within and outside Wayne State University's art galleries, and hands-on experience. The following operational fundamentals are thoroughly examined: exhibition and season design, marketing, budgeting, and standard facility requirements. Offered Winter.
Repeatable for 6 Credits

ACS 5210 Art Gallery Internship Cr. 1-3

Provides students with opportunities to serve as interns at galleries and museums internal and external to the department. Students update the instructor with documentation of significant projects on which they have worked. Offered Every Term.

Repeatable for 6 Credits

ACS 5300 Studio Art Internship Cr. 1-3

The internship will be performed in consultation with faculty. Students enrolled in the course will gain professional and practical experience in order to augment their field of study, preparing them for a career post-graduation. It is geared for studio art students who would like to gain real-world experience in an artist's studio or at a related organization/business. Students must secure a host organization or artist's studio to sponsor their internship prior to admittance into the course. The host organization or artist's studio must provide a plan-of-work outlining the work that will be performed over the course of the 10-week internship. For successful completion of this course, the host organization/artist's studio must sign the plan-of-work at the conclusion of the internship acknowledging that the student's work was completed. While unpaid internship are acceptable, paid internships are preferable. Offered Every Term.

Repeatable for 6 Credits

ACS 5500 Independent Study: Art Cr. 1-2

Independent Study: Art provides an opportunity for students to work independently on a project that is otherwise not addressed within the curriculum of their chosen field of study. Under the supervision of a faculty member, students will clarify the intent of their project and set goals for the semester. Process documentation will be required periodically throughout the semester, and projects will culminate in a portfolio document. Graduate students enrolled in this course are required to complete a thematically relevant research paper in addition to the project documentation and portfolio requirements. Coursework requirements are tailored to align with a student's individual project ideas. Offered Intermittently.

Repeatable for 4 Credits

ACS 5550 Special Topics Cr. 3

Students examine specific issues related to one or more of the department's studio disciplines. Taught on a rotational schedule by faculty from all of the fine art concentrations. Offered Every Term.

Prerequisites: ACO 1230, ACO 1200, and ACO 1270

Course Material Fees: \$30

Repeatable for 6 Credits

ACS 5650 Museum Culture: Histories, Critiques, Practices Cr. 3

The art museum as a subject of cultural history and criticism, social policy, and art. Includes panel discussions among museum professionals and opinion leaders, designed to explore current issues. Offered Yearly.

ACS 5996 Honors Project Cr. 3

Students complete a substantial creative project reflecting conceptual issues, determined by the student in collaboration with his/her professor. Offered for undergraduate credit only. Offered Every Term.

Restriction(s): Enrollment is limited to Undergraduate level students.

ACS 5997 Professional Practices in the Visual Arts II Cr. 3

Satisfies General Education Requirement: Writing Intensive Competency Capstone course for BFA students. Interdisciplinary seminar on contemporary issues in the visual arts. Topics include studio and professional practices, history, and criticism related to art making. Emphasis will be placed on best practices regarding exhibition preparation and display. Course will conclude with exhibition of student work. Offered Fall, Winter.

Prerequisites: ACS 3997

Restriction(s): Enrollment is limited to students with a major in Art or Art Honors; enrollment is limited to Undergraduate level students.

ACS 7998 Master of Arts Seminar Cr. 2-3

Directed reading, research, bibliography. Offered fall semester only. Offered Fall.

Restriction(s): Enrollment is limited to students with a major in Art or Art Honors; enrollment is limited to Graduate level students; enrollment limited to students in a Master of Arts degree.

ACS 7999 Master's Essay Direction Cr. 1-3

Offered Fall, Winter.

Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to students with a major in Art or Art Honors; enrollment is limited to Graduate level students.

ACS 8999 Master's Thesis Research and Direction Cr. 1-8

Offered Fall, Winter.

Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to students with a major in Art History; enrollment is limited to Graduate level students.

Repeatable for 8 Credits

ADA - Art: Digital Art

ADA 2210 Introduction to Digital Practices Cr. 3

Introductory survey of digital methods of art production; digital painting and drawing, 3D modeling, and photo manipulation. Offered Fall, Winter.

Prerequisites: ACO 1200, ACO 1230, ACO 1270, or APH 2400

Course Material Fees: \$95

ADA 3210 Time-Based Media I: Video Art Cr. 3

Experimental digital video techniques; exploring the workflow from camera to post production and output. Technical tuition supplemented by readings, critiques, discussions and readings of key examples of video art. Offered Fall, Winter.

Prerequisites: ACO 1200, ACO 1230, ACO 1270, or APH 2400

Course Material Fees: \$150

ADA 3220 Introduction to Interactivity in Art Cr. 3

Exploration of a variety of art-making strategies that utilize digital technologies and interactive media; emphasis on computer-based and online art practices and web-oriented programming languages. Offered Yearly.

Prerequisites: ACO 1200, ACO 1230, ACO 1270, or APH 2400

Course Material Fees: \$145

ADA 4220 Time-Based Media II: Experimental Animation Cr. 3

Strategies for creating animation-based artworks by combining traditional techniques with digital technologies. Technical tuition supplemented by readings, critiques, discussions and screenings of key examples of animation art. Offered Yearly.

Prerequisites: ACO 1200, ACO 1230, ACO 1270, or APH 2400

Course Material Fees: \$125

ADA 4230 Time-Based Media III: Experimental 3D Animation Cr. 3

3D modeling and animation techniques. Technical tuition supplemented by readings, critiques, discussions and screenings featuring various mainstream and experimental examples of 3D animation. Offered Winter.

Prerequisites: ACO 1200, ACO 1230, ACO 1270, or APH 2400

Course Material Fees: \$165

Repeatable for 6 Credits

ADA 5240 Advanced Interactivity: Experimental Video Games Cr. 3

Studio course focusing on video game creation from a fine arts perspective; emphasizing 2D and 3D experimental and unconventional approaches. Offered Winter.

Prerequisites: ADA 3220 or AGD 3260

ADA 5250 Advanced Time-Based Media Cr. 3

Research and project oriented studio class for intermediate and advanced students. Discussion, critique, development and refinement of technical and conceptual approaches to the application of digital video technologies within the fine arts. Offered Yearly.

Restriction(s): Enrollment is limited to Undergraduate level students.

Course Material Fees: \$165

ADA 5830 Directed Projects in Digital Arts Cr. 1-3

Individual problems in electronic arts. Offered Fall, Winter.

Course Material Fees: \$165

Repeatable for 6 Credits

ADN - Art: Design

ADN 2410 Textiles Cr. 3

Introduction to fibers, yarns, fabric construction, design and finishes and how they relate to selection, use and care of textile products. Offered Fall, Winter.

Course Material Fees: \$35

ADN 3100 Design Process Cr. 3

Intended for the student who is entering the design field and requires an understanding of brand identity development, design thinking, and product line development. Offered Every Term.

Repeatable for 6 Credits

ADN 5000 History of Interior Design and Architecture Cr. 3

History of architectural styles and the use of interior space with an emphasis on their application to contemporary interior design. Offered Yearly.

ADN 5200 Ethnographic Research Methods for Designers Cr. 3

Introduction to a set of theoretical and methodological approaches stemming from the field of anthropology. Students utilize these approaches to enrich and inform their design processes from conceptual creation, to ideation and design development, to user testing. Offered Fall, Winter.

Repeatable for 6 Credits

ADN 5430 History of Costume Cr. 3

Survey of historic costumes from prehistoric to present. Emphasis on influence of social factors. Offered Fall.

ADN 5500 Independent Study: Design Cr. 1-2

Independent Study: Design provides an opportunity for students to work independently on a project that is otherwise not addressed within the curriculum of their chosen field of study. Under the supervision of a faculty member, students will clarify the intent of their project and set goals for the semester. Process documentation will be required periodically throughout the semester, and projects will culminate in a portfolio document. Graduate students enrolled in this course are required to complete a thematically relevant research paper in addition to the project documentation and portfolio requirements. Coursework requirements are tailored to align with a student's individual project ideas. Offered Intermittently.

Repeatable for 4 Credits

ADN 6320 History of Modern Design I Cr. 3

Major design trends in America and Europe from mid-nineteenth century to World War I. Covers a broad spectrum of the applied arts. Offered Fall.

ADN 6330 History of Modern Design II Cr. 3

Major design trends in America and Europe from end of World War I through 1950s. Covers a broad spectrum of the applied arts. Offered Winter.

ADR - Art: Drawing

ADR 1050 Drawing I Cr. 3

Introduction to basic drawing skills such as linear perspective, light and shadow, use of dry and wet media; emphasis on composition. Drawing primarily still life subjects. Offered Fall, Winter.

Course Material Fees: \$30

ADR 1060 Drawing II Cr. 3

Further development of basic drawing skills and concepts. Continued exploration of media. Drawing based on observation and imagination. Offered Fall, Winter.

Prerequisites: ADR 1050

Course Material Fees: \$30

ADR 2070 Beginning Life Drawing Cr. 3

Initial exploration of human figure using limited drawing media; essential aspects of the figure: proportion, gesture, composition. Offered Fall, Winter.

Prerequisites: ADR 1050

Course Material Fees: \$90

ADR 2130 Introduction to Alternative Drawing Methods and Materials Cr. 3

Survey of contemporary and traditional materials and methods of paper making, paper casting, paper cutting and paper folding, as well as an introduction to book binding and altered books. Compositions based on observation and imagination. Offered Yearly.

Prerequisites: ACO 1200

Course Material Fees: \$80

Repeatable for 6 Credits

ADR 3070 Intermediate Life Drawing Cr. 3

Continued systematic study of human figure using broad range of media. Offered Fall, Winter.

Prerequisites: ADR 2070

Course Material Fees: \$90

ADR 5060 Advanced Concepts in Drawing and Painting Cr. 3-6

Emphasis on individual projects using any appropriate medium. Work is created independently (out of class) with scheduled critiques for faculty guidance; may include lectures, demonstrations, off-campus visits. Offered Yearly.

Prerequisites: ADR 3070 and APA 4000

Course Material Fees: \$30

Repeatable for 6 Credits

ADR 5070 Advanced Life Drawing Cr. 3

Continued study of human figure based on observation. Composition. Expressive interpretation of the figure through broad range of media. Offered Fall, Winter.

Prerequisites: ADR 3070

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$90

Repeatable for 6 Credits

ADR 5080 Landscape Drawing Cr. 3

Drawing or painting, as appropriate, outdoors at a variety of urban, suburban, and rural sites in the metropolitan Detroit area; students are expected to drive or carpool to locations within an hour of Detroit. Interpretation of landscape subjects through observation and imagination. Offered Spring/Summer.

Prerequisites: ADR 1050

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$30

Repeatable for 6 Credits

ADR 5090 Anatomy Cr. 3

Superficial human anatomy including effects of muscular and skeletal systems. Drawing from both models and skeletons, lectures, demonstrations. Offered Yearly.

Prerequisites: ADR 2070

Course Material Fees: \$90

ADR 5100 Contexts of Studio Practice Cr. 3

Critical inquiry into art issues, past and present, and contemporary studio practices related to painting. Seminar based on visits to museums, galleries, private collections, artists' studios, and optional trips to major art centers such as New York and Chicago. Offered Yearly.

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

Equivalent: APA 5100

Repeatable for 6 Credits

ADR 5160 Advanced Alternative Drawing Methods and Materials Cr. 3

Survey of contemporary and traditional materials and methods of paper making, paper casting, paper cutting and paper folding, as well as an introduction to book binding and altered books. New techniques will be incorporated into a personal body of work. Offered Yearly.

Prerequisites: ADR 2130

Course Material Fees: \$80

Repeatable for 6 Credits

ADR 5800 Directed Projects: Drawing Cr. 3-6

Individual work supervised by faculty on arranged basis. Offered Fall, Winter.

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

Repeatable for 12 Credits

ADR 7060 Graduate Problems in Drawing and Painting Cr. 3-9

Emphasis on self-directed projects with advice from faculty. May include lectures, demonstrations, and visits to off-campus sites. Offered Yearly.

Restriction(s): Enrollment is limited to Graduate level students; enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$30

Repeatable for 24 Credits

ADR 7070 Graduate Life Drawing Cr. 3

Individual projects based upon study of the human figure. Broad range of media encouraged. Offered Fall, Winter.

Prerequisites: ADR 5070

Restriction(s): Enrollment is limited to Graduate level students; enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$90

Repeatable for 9 Credits

ADR 7080 Landscape Drawing Cr. 3

Drawing or painting, as appropriate, outdoors at a variety of urban, suburban and rural sites in the metropolitan Detroit area; students are expected to drive or carpool to locations within an hour of Detroit. Interpretation of landscape subjects through observation and imagination. Offered Spring/Summer.

Restriction(s): Enrollment is limited to Graduate level students; enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$30

Repeatable for 15 Credits

ADR 8800 MFA Studio: Drawing Cr. 3-9

Extended self-directed work in drawing (eighteen to twenty-seven hours per week). Consultation with appropriate graduate faculty on an arranged basis. Offered Fall, Winter.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree; enrollment is limited to students in the Department of Art, Art History, and Design.

Repeatable for 36 Credits

ADX - Art and Design Exposure

ADX 1020 Web Design and Interactive Art for Non-Art/Design Majors Cr. 3

Introductory survey of methods for the production of web-based art and interactive web content for students, who are not majoring in a program within the Department of Art and Art History. Offered Every Term.

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

ADX 1030 3D Modeling for Non-Art/Design Majors Cr. 3

Introductory survey of methods in 3D Modeling and digital manufacturing techniques for students, who are not majoring in a program within the Department of Art and Art History. Offered Every Term.

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

ADX 1060 Introduction to Jewelry and Metalsmithing for Non-Art/Design Majors Cr. 3

Introduces jewelry and metalsmithing skills and techniques as well as the history of jewelry and metalsmithing, and contemporary practices. The course is intended for those interested in learning how to create jewelry-metal works but are not majoring in a program within the Department of Art and Art History. Offered Every Other Year.

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$75

Repeatable for 6 Credits

ADX 1100 Creative Inquiry Cr. 3

Focuses on creative ideation processes that can be applied to the research and development of innovative projects across disciplines.

Through readings, writings, analysis of prominent creative thinkers and artists, hands-on exercises, and critique students will critically analyze the creative process and the works it generates. Intended for students who are not majoring in a program within the Department of Art and Art History. Offered Fall, Winter.

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

ADX 1210 Introduction to Studio Art and Design for Non-Art/Design Majors Cr. 3

Students will explore, through lecture and hands-on manipulation, the principles elements of visual communication, and introduce techniques and materials that are used to produce two-dimensional (Surface), three-dimensional (Space), and time-based (Time) works of art. The course is intended for students who are not majoring in a program within the Department of Art and Art History. Offered Fall, Winter.

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$35

ADX 1400 Photography for Non-Art/Design Majors Cr. 3

Introduces technical, artistic, and theoretical problems associated with photography. Through this class, students will learn how to use their camera as a tool for personal expression as well as analyze and critique photography's use in visual culture. The course will encompass lectures, demonstrations, readings and projects involving basic photographic techniques and image construction using a digital camera. It is intended for those interested in learning how to make and discuss photographs, but are not majoring in a program within the Department of Art and Art History. Offered Every Term.

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

ADX 1420 Digital Imaging and Video for Non-Art/Design Majors Cr. 3

Introductory survey of methods for the production of digital images and video editing and compositing techniques students, who are not majoring in a program within the Department of Art and Art History. Offered Every Term.

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

ADX 3100 Design Thinking Cr. 3

This course is intended for students from any discipline who require an understanding of design thinking for brand, product, and service development. Students will learn a series of design thinking concepts, methods and techniques that are used to bring about innovation in business and in the social sector. The intent is for students will develop creativity skills, along with the strategy skills needed to identify needs, generate and visualize ideas to meet those needs, and ultimately bring these ideas to market. Lectures, readings, and group discussion will be reinforced through collaborative and individual project-based design thinking activities. Offered Winter.

AED - Art Education

AED 5000 Introduction to Art Education Cr. 3

Design of developmentally appropriate and comprehensive art experiences, teaching strategies, and authentic assessment of student learning in art. History, theories and philosophies of visual arts education; contemporary trends and issues. Offered Fall.

Restriction(s): Enrollment limited to students in the College of Education.

Course Material Fees: \$15

AED 5020 Painting: Methods and Materials Cr. 3

Methods, materials and processes suitable for teaching painting in the schools. Subject selection, composition, surface selection and preparation, mixing and application of paint, finishing, and presentation. Students develop basic skills in painting for personal artistic expression. Offered Fall.

Restriction(s): Enrollment limited to students in the College of Education.

Course Material Fees: \$15

Repeatable for 9 Credits

AED 5050 Integrating the Arts into the Elementary Classroom Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

Introductory course: integration of visual arts, music, dance, and theatre into the teaching, learning and curriculum of the elementary classroom. Offered Fall, Winter.

Prerequisites: (2 of (ELE 3300, ELE 6290, ELE 6390, ELE 6500, ELE 6600, ELE 3400, ELE 3500, or ELE 3600) and 1 of (ELE 3320 or ELE 6310)) or TED 5150

Course Material Fees: \$30

AED 5070 Methods and Materials of Sculptural Expression Cr. 3

Exploration of three-dimensional forms using various media; emphasis on sculptural concepts, materials, tools and techniques related to teaching sculpture on the elementary and secondary level. Offered Fall.

Restriction(s): Enrollment limited to students in the College of Education.

Course Material Fees: \$15

AED 5100 Topics in Art Education Cr. 1-3

Art experiences designed for the specific needs of special groups. Topics to be announced in Schedule of Classes. Offered Winter.

Restriction(s): Enrollment limited to students in the College of Education.

Course Material Fees: \$15

AED 5150 Computer Graphics in the Classroom Cr. 3

Introduction to digital media and the production of computer graphics by using drawing, painting, graphic design, animation, video and web techniques. Offered Spring/Summer.

Restriction(s): Enrollment limited to students in the College of Education.

AED 5160 Theory and Practice in Art Education Cr. 3

Development and analysis of instructional objectives in art education; organization and management of art classrooms; teaching strategies and assessment practices. Offered Spring/Summer.

Restriction(s): Enrollment limited to students in the College of Education.

AED 5230 Ceramics Education I Cr. 3

An overview of handbuilding processes, various firing procedures including blackware and raku, decorating, glazing and equipment maintenance. Emphasis placed on the educational benefits and procedures for working with people of various ages and the management of materials for teaching. Offered Spring/Summer.

Restriction(s): Enrollment limited to students in the College of Education.

Course Material Fees: \$25

AED 5280 Printmaking: Methods and Materials Cr. 3

Studio exploration of relief, planographic, intaglio, and stencil processes as methods of reproduction for artistic expression. Examination of tools, methods and processes suitable for the classroom. Includes study in lithography, dry point, etching, calligraphy, woodcut, linocut, and photo screen processes. Offered Spring/Summer.

Restriction(s): Enrollment limited to students in the College of Education.

Course Material Fees: \$15

Repeatable for 9 Credits

AED 5650 Art Teaching Laboratory Cr. 3

Laboratory experience in teaching art to elementary, middle, and high school students. Pre-student teaching experiences under close supervision of an experienced Visual Arts teacher. Offered Fall.

Prerequisites: AED 5100 with a minimum grade of D- (may be taken concurrently) and AED 5160 with a minimum grade of D-

Restriction(s): Enrollment limited to students in the College of Education.

AED 5690 Collage, Assemblage, and Multi-Media: Methods and Materials Cr. 3

History and methods of creating collage, assemblage, and multi-media art works. Integration of developmental issues, use of personal meaning and experience for lesson planning, unit planning, and work assessment strategies. Offered Winter.

Prerequisites: (AH 1110, AH 1120, ADR 1050, and ADR 1060) or (ADR 2070, APA 2100, and ASL 2150)

Course Material Fees: \$40

AED 5890 The Art of Indigenous Cultures: Inclusion in the K-12 Curriculum Cr. 3

Focus on non-Western, indigenous art forms, such as Balinese architecture, ceramics of Papua New Guinea, Aboriginal painting, Precolumbian culture, and Japanese gardens; means of integrating this content into the K-12 Curriculum. Offered Winter, Spring/Summer.

Prerequisites: AH 1110 and AH 1120

AED 6230 Ceramics Education II Cr. 3

Emphasis is placed on throwing procedures, the use of various clay bodies, firing at various temperatures, making and using tools, ceramic history and its use and benefits in a school curriculum. Offered Spring/Summer.

Restriction(s): Enrollment limited to students in the College of Education.

Course Material Fees: \$35

Repeatable for 9 Credits

AED 6920 Multi-Cultural Issues in Art Education Cr. 3

Provides all visual arts education students with discipline-specific experiences, current theoretical perspectives, and best practices to enhance the effectiveness of their work in diverse and multicultural learning. Offered Winter.

Restriction(s): Enrollment limited to students in the College of Education.

AED 7700 Advanced Graduate Problems Cr. 3-12

Pursuit of specific problems in depth. Laboratory hours coordinated with regularly scheduled classes in the selected area. Offered Every Term.

Restriction(s): Enrollment is limited to Graduate level students.

Course Material Fees: \$15

Repeatable for 12 Credits

AET - Alternative Energy Technology

AET 5110 Fundamental Fuel Cell Systems Cr. 4

Introduce various types of fuel cells, materials properties of electrodes and polymeric membranes, and electrochemical mechanisms. Reforming of various types of hydrocarbon fuel to hydrogen, and reforming technology. Offered Fall.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the College of Engineering.

Equivalent: CHE 5110, EVE 5130, ME 5110

AET 5120 Fundamentals of Alternative Energy Technology Cr. 3

Provide an overview/review of thermodynamics. Cover advanced thermodynamics topics of energy and chemical reacting systems. Introduce general areas of alternative energy technology, engineering analysis and design of solar angle/time/radiation, solar heating, solar photovoltaic, and wind power. Offered Winter.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the College of Engineering.

AFA - Art: Design and Merchandising

AFA 2420 Construction Methods I Cr. 3

Introduction to garment construction including seams, seam finishes, and alterations. Offered Fall, Winter.

Course Material Fees: \$65

AFA 3400 Clothing and Culture Cr. 3

Functions and meanings of dress in diverse cultures and contemporary society with an interdisciplinary approach. Offered Fall.

AFA 3420 Construction Methods II Cr. 3

Advanced methods of garment construction and fitting techniques. Development of skills in garment fit, shape, and finish techniques. Introduction to flat pattern manipulation to create custom bespoke garments. Offered Fall.

Prerequisites: ADN 2410 and AFA 2420

Course Material Fees: \$65

AFA 3460 Introduction to Merchandising Cr. 3

Psychological, economic considerations. Terminology and structure of the fashion industry and career opportunities. Offered Fall, Winter.

AFA 3470 Global Issues in Fashion Merchandising Cr. 3

This course concentrates on industry issues in retail apparel. Discussions focus on product development, manufacturing, promotion, visual merchandising, special events marketing, sustainability, ethics and the general consumer lifestyle. Students understand contemporary issues in fashion and gain the experience and leadership skills necessary to make merchandising and marketing decisions through both competitive classes and guest lectures. Offered Winter.

AFA 3480 Fashion Marketing Management Cr. 3

This course focuses on the fundamental principles of marketing and management specific to the fashion industry. Offered Fall.

Prerequisites: AFA 3460

AFA 4430 Fashion Illustration Cr. 3

Basic fashion rendering techniques using a variety of media. Offered Every Other Year.

Prerequisites: ADR 1050

Course Material Fees: \$80

Repeatable for 6 Credits

AFA 4450 Contemporary Fashion Theory Cr. 3

Theories and approaches relevant to fashion design discourse including body, gender, and environment. This course is designed to develop students' research, reading comprehension, and writing skills, in addition to reinforcing vocabulary and exploring significant contemporary fashion theories in depth. Offered Winter.

AFA 4660 Fashion Retail Management Cr. 3

Fashion Retail Management focuses on the fundamental principles of retail and management specific to the fashion industry. Offered Winter.

Prerequisites: AFA 3460

AFA 4990 Directed Study Cr. 2-4

Offered Every Term.

Repeatable for 4 Credits

AFA 5400 Digital Fashion Illustration Cr. 3

This course builds upon techniques introduced in AFA 4430 and emphasizes digital illustration tools. Students will develop their own stylized croquis in-computer and learn to render garments on the body. Adobe Illustrator, Photoshop, and 3D modeling software will be used to accurately produce digital illustrations and render virtual garments. Digital illustration techniques will prioritize effective visual communication of garment designs. Offered Fall.

Prerequisites: AFA 4430

Course Material Fees: \$65

AET 5250 Alternative Energy Technology System and Design Cr. 4

Topics such as: batteries, flywheels, capacitors, motors, controllers, power management, heat dissipation, systems containment, manufacturing processes, systems dynamics. Lectures and design projects. Offered Fall.

Prerequisites: AET 5120

Restriction(s): Enrollment is limited to Graduate or Undergraduate level students; enrollment limited to students in the College of Engineering.

AET 5310 Fundamentals of Battery Systems for Electric and Hybrid Vehicles Cr. 4

Covers fundamental electrochemistry and engineering aspects for electric propulsion batteries including lead acid, nickel metal hydride, lithium ion and capacitor technologies. Offered Winter.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the College of Engineering.

Equivalent: CHE 5120, EVE 5120, ME 5215

AET 5410 Energy, Emissions, Environment (E3) Design Cr. 3

Provides students the tools to uncover the relation between energy consumption and energy generation and optimize processes to take most advantage of low emitting energy options. Exposes students to design tools and methodologies from a diverse group of sources including US EPA, DOE, EIA, and the latest in emerging research. Offered Fall.

Equivalent: CE 5410, STE 5410

AET 5600 Integrated Product Development Cr. 3

Product development process: product architectures, concurrent engineering. Integration of marketing, design, and manufacturing functions for product development. How such processes are designed to account for various manufacturing and other business constraints to ensure that customer needs are met. Offered Fall.

Restriction(s): Enrollment limited to students in the College of Engineering.

Equivalent: EVE 5600, IE 6405

AET 5810 Power Management for Advanced Energy Storage Systems and its Applications Cr. 4

Operating principles and modeling of energy storage techniques; control and power management, power electronic converters, electric machines, and power systems; power management strategies of hybrid energy systems including HEV and alternative energy systems. Offered Fall, Winter.

Prerequisites: ECE 4470

Restriction(s): Enrollment limited to students in the College of Engineering.

Equivalent: EVE 5810

AET 7990 Directed Study Cr. 1-4

Independent projects on subjects of interest in advanced energy technology. Offered Every Term.

Restriction(s): Enrollment is limited to Graduate level students.

Repeatable for 4 Credits

AET 7991 Internship in Industry Cr. 1-4

Industrial internship in alternative energy technology. Offered Every Term.

Restriction(s): Enrollment is limited to Graduate level students.

AET 8996 Directed Research Cr. 1-4

Independent research projects. Offered Every Term.

Restriction(s): Enrollment is limited to Graduate level students.

AET 8999 Master's Thesis Research and Direction Cr. 1-8

Offered Every Term.

Restriction(s): Enrollment is limited to Graduate level students.

Repeatable for 8 Credits

AFA 5410 Fashion Entrepreneurship Cr. 3

Provides students with the knowledge and skillset required to succeed in new and pivotal business environments. Discussions focus on innovation in the development of business models with specific concern for ethics and sustainability at all stages of a brand's evolution. Upon completion of this course, students will be prepared to construct creative ideas into business ventures and assume leadership positions in entrepreneurial companies. Offered Fall.

AFA 5422 Fashion Design: Flat Pattern Cr. 3

Original designs from a basic sloper. Offered Yearly.

Prerequisites: ADN 2410

Course Material Fees: \$65

Repeatable for 9 Credits

AFA 5424 Fashion Design: CAD Cr. 3

Use of computer-aided design software applied to apparel design concepts; garment designing, grading, and marker-making. Offered Fall.

Course Material Fees: \$65

AFA 5442 Fashion Design: Draping Cr. 3

Creation of original garments by draping on half-scale and standard-size dress forms. Offered Intermittently.

Course Material Fees: \$65

Repeatable for 9 Credits

AFA 5460 Merchandising II Cr. 3

Current trends in merchandising. Emphasis on global aspects. Offered Fall.

Prerequisites: AFA 3460

AFA 5470 Visual Merchandising: Display Cr. 3

Visual merchandising concepts and trends. Relationship of design elements and principles to the tools and structures used in display. Creative experimentation in the various media. Offered Winter.

Prerequisites: ACO 1200 or ACO 1230

Course Material Fees: \$65

AFA 5472 Special Topics in Fashion Cr. 3

Exploration of concepts and techniques related to fashion design. Topics may include sustainability, ethics, nontraditional materials, and wearable technologies. Offered Intermittently.

Course Material Fees: \$60

Repeatable for 6 Credits

AFA 5480 Advanced Studio/Exhibition Cr. 3

Development and display of a cohesive collection of design work in a culminating exhibition. Event planning and exhibition design including visual display and styling. Offered Yearly.

Course Material Fees: \$80

Repeatable for 6 Credits

AFA 5490 Retail Math Cr. 3

An overview of the merchandising principles and mathematics needed for retail planning, buying, and selling. Offered Winter.

Prerequisites: AFA 3460

AFA 5992 Supervised Field Experience Cr. 3

Supervised field experience designed to correlate classroom theory with practical work. Offered Fall.

Repeatable for 6 Credits

AFA 5997 Seminar Cr. 3

Satisfies General Education Requirement: Writing Intensive Competency Contemporary issues in fashion design and merchandising including professional practices and portfolio development. Required readings, presentations, discussion, lectures, and visits from industry professionals. Offered for undergraduate credit only. Offered Winter.

Prerequisites: AFS 2390 with a minimum grade of C, ENG 2390 with a minimum grade of C, ENG 3010 with a minimum grade of C, ENG 3020 with a minimum grade of C, or ENG 3050 with a minimum grade of C

Restriction(s): Enrollment is limited to Undergraduate level students.

AFA 7850 Seminar Cr. 3

Development and practice of the research process and effective writing skills. Offered Winter.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Bachelor of Arts, Bachelor of Science or Master of Arts degrees; enrollment is limited to students in the Department of Art, Art History, and Design.

AFA 7990 Directed Study Cr. 1-4

Individual projects. Offered Fall, Winter.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Bachelor of Arts, Bachelor of Science or Master of Arts degrees; enrollment is limited to students in the Department of Art, Art History, and Design.

Repeatable for 8 Credits

AFI - Art: Fibers

AFI 2650 Fibers: Material Fundamentals Cr. 3

This course is an introduction to technical and conceptual ways of working in fibers/textiles. Students will explore a variety of fiber processes including off loom construction techniques, felting, weaving, and dyeing. Offered Every Term.

Course Material Fees: \$135

AFI 2660 Introduction to Fabric Printing and Dyeing Cr. 3

Emphasis on color, design, composition. Printing with found objects, stencil, silk screen resist method working with pigment and reactive dye. Offered Every Term.

Course Material Fees: \$110

AFI 3640 Fibers: Digital Textile Design Cr. 3

Explore textile design by researching current print and pattern trends in the apparel industry, gaining knowledge and inspiration. Develop innovative pattern collections using original artwork in Adobe Photoshop and Illustrator. Access to the most recent version of Adobe Photoshop and Illustrator is required for this class. Offered Every Term.

Course Material Fees: \$92

Repeatable for 6 Credits

AFI 3650 Fibers: Weaving Cr. 3

This course explores fabric weaving using simple weave patterns with various threading techniques and investigates the interaction between different fibers woven together. Offered Every Term.

Course Material Fees: \$135

AFI 3660 Fibers: Print and Dye Cr. 3

This class introduces surface design processes on fabric with emphasis on color, design, and composition utilizing both analog and digital processes. A basic knowledge of various dyeing and resist techniques will be covered using synthetic and natural dyes. Offered Every Term.

Course Material Fees: \$110

AFI 4650 Fibers: Studio I Cr. 3

This course expands students' technical, creative, and critical abilities in Fibers by utilizing traditional techniques with contemporary technology and research. Rotating semester topics include advanced dyeing, screen-printing, layer weaving, Shibori, Ikat, rug tufting, computerized pattern drafting/development, jacquard weaving, crochet, felting, soft sculpture, coiling, and other fiber art techniques. Offered Every Term.

Course Material Fees: \$120

Repeatable for 6 Credits

AFI 5650 Fibers: Studio II Cr. 3

This course is an individualized exploration of fiber related techniques, materials, and concepts. Conceptual development and independent research are expected. Offered Every Term.

Prerequisites: AFI 4650

Course Material Fees: \$135

Repeatable for 6 Credits

AFI 5660 Fabric Printing and Dyeing: Senior Project Cr. 3

Extensive project or series of works determined by student; research and written statement. Offered Every Term.

Prerequisites: AFI 3660

Course Material Fees: \$110

Repeatable for 6 Credits

AFI 5870 Directed Projects: Fibers Cr. 3-6

Individual problems. Offered Fall, Winter.

Repeatable for 12 Credits

AFI 7650 Graduate Problems in Weaving Cr. 3

Advanced problems in weaving. Offered Every Term.

Prerequisites: AFI 5650

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Arts or Master of Fine Arts degrees.

Course Material Fees: \$40

Repeatable for 9 Credits

AFI 7660 Graduate Problems: Fabric Printing and Dyeing Cr. 3

Individual problems in fibers. Offered Every Term.

Prerequisites: AFI 5660

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Arts or Master of Fine Arts degrees.

Course Material Fees: \$40

Repeatable for 9 Credits

AFI 8860 MFA Studio: Fibers Cr. 3-9

Supervised creative work done in the major concentration. Offered Fall, Winter.

Restriction(s): Enrollment is limited to students with a major in Art; enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

Course Material Fees: \$40

Repeatable for 36 Credits

AFS - African American Studies

AFS 1010 Introduction to African American Studies Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry

An interdisciplinary approach to exploring several broad issues, topics, theories, concepts and perspectives which describe and explain the experiences of persons of African descent in America, the Continent, and the diaspora. Offered Every Term.

AFS 2010 African American Culture Cr. 4

Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only), Diversity Equity Incl Inquiry
Examination of the historical, traditional and aesthetic bases of a variety of cultural forms -- language, literature, music -- of the Black experience. Offered Every Term.

AFS 2210 Black Social and Political Thought Cr. 4

Satisfies General Education Requirement: Civic Literacy, Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences
Survey of the Black intellectual and political tradition from the United States, the Caribbean and Africa. Offered Every Term.

AFS 2245 Blacks and Sport in the United States Cr. 3

The intersection between race and sport in the United States, examined to better understand the role of sports in our socialization and cultural construction. Offered Every Other Year.

Restriction(s): Enrollment is limited to Undergraduate level students.

Equivalent: SOC 2245

AFS 2250 AfroLatino/a History and Culture Cr. 3

Satisfies General Education Requirement: Cultural Inquiry
Interdisciplinary introduction to the history and culture of AfroLatinos/as in the U.S. from the perspective of the African Diaspora in the Americas. Offered Winter.

Equivalent: LAS 2250

AFS 2350 Black Detroit Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Explores the historical, cultural and structural aspects of the Black urban experience in Detroit from the late 19th Century to the present, including the role that racism, urbanization and suburbanization have played in shaping racial, spatial and economic inequality in the Detroit Metropolitan area. Utilizes an interdisciplinary approach: to interrogate the social and cultural history of Black Detroit, to examine the various forms of Black social movement activism used by Black Detroiters in the 20th Century, and to analyze ways the shifting economic and political currents shaped, and reshaped racism, class, space, and resistance in the Detroit metropolitan area. Offered Fall, Winter.

Equivalent: HIS 2350, US 2350

AFS 2390 Introduction to African-American Literature: Writing about Texts Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Intermediate Comp Pre-2018, Intermediate Comp Post-2018
Introduction to major themes and some major writers of African-American literature, emphasizing modern works. Reading and writing about representative poetry, fiction, essays, and plays. Offered Every Term.

Prerequisites: ENG 1020 with a minimum grade of C, ENG 1020 with a minimum grade of P, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

Equivalent: ENG 2390

AFS 2600 Race and Racism in America Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Examination of the nature and practice of racism in American society from its historical foundations to its contemporary institutional forms. Offered Every Other Year.

Equivalent: SOC 2600

AFS 3140 African American History I: 1400-1865 Cr. 3-4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
African origins of African Americans; transition from freedom to slavery; status of African Americans under slavery. Offered Yearly.

Equivalent: HIS 3140

AFS 3150 African American History II: 1865-1968 Cr. 3-4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry African American history from Reconstruction through the Civil Rights Movement. Offered Yearly.

Equivalent: HIS 3150

AFS 3155 African American History III: 1968 - Present Cr. 3-4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry History of African Americans' struggle against persistent and stubborn racism, efforts to achieve full citizenship, and legal and economic justice after 1968. Offered Intermittently.

Restriction(s): Enrollment is limited to Undergraduate level students.

Equivalent: HIS 3155

AFS 3160 Black Urban History Cr. 4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry Historical experience of African Americans in urban areas; impact of their communities on urban development from 1860 to contemporary times. Offered Fall, Winter.

Equivalent: HIS 3160

AFS 3170 Ethnicity and Race in American Life Cr. 3-4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry Exploration of complicated relationship between ethnic and racial diversity and the making of America. Using historical, literary, and cultural readings and sources to examine key themes: Who was the "Other"? What is an "American"? Offered Yearly.

Equivalent: HIS 3170

AFS 3180 Black Social Movements Cr. 4

Satisfies General Education Requirement: Diversity Equity Incl Inquiry Survey of mass or popular Black movements with emphasis on their political and cultural impact, historical continuity and organization. Offered Yearly.

Equivalent: HIS 3180

AFS 3190 Race, Policing, and Warfare Cr. 3

On May 30, 2020, as cities around the U.S. faced major upheaval following George Floyd's killing by Minneapolis police officers, the Minneapolis Department of Public Safety tweeted that law enforcement and National Guard troops were mobilizing against the protesters in order to "address a sophisticated network of urban warfare." While the protests were largely peaceful, the vocabulary of urban warfare signified a relationship between police and war. The deaths of George Floyd and countless other African Americans, the emergent Movement for Black Lives, and the "urban" in urban warfare indicates how race animates militarized policing. This class explores the racial history of policing through the lens of war. Offered Yearly.

AFS 3200 The African-American Film Experience Cr. 4

Historical and contemporary portrayals of African American people in narrative and documentary film. Emphasis on filmic approaches to race relations, cinematic elaboration of racial stereotypes, and legitimation functions of film. Offered Yearly.

Restriction(s): Enrollment is limited to Undergraduate level students.

Equivalent: COM 3230

AFS 3250 Politics and Culture in Anglophone Caribbean Cr. 3

Satisfies General Education Requirement: Civic Literacy, Foreign Culture, Global Learning Inquiry

Survey of political, economic and cultural life of the Caribbean. Relationship of the Caribbean to U.S. and world political and cultural developments. Interdisciplinary approach: historical, comparative, thematic issues. Offered Yearly.

AFS 3300 Black Women Writers Cr. 3

Students will explore the writings of Black women across a broad range of genres, which may include poetry, short stories, drama, essays, and novels. Offered Intermittently.

Equivalent: GSW 3300

AFS 3360 Black Workers in American History Cr. 4

Satisfies General Education Requirement: Social Inquiry Survey course. Slave and free workers during antebellum period; skill trades, sharecropping, menial labor, and coal mining during Reconstruction; labor struggles and job discrimination in the twentieth century. Offered Fall, Winter.

Equivalent: HIS 3360

AFS 3420 Pan Africanism: Politics of the Black Diaspora Cr. 4

Satisfies General Education Requirement: Global Learning Inquiry Interplay of Pan Africanism as a cultural and socio-political movement in world politics from its origins as a concept to organizing practice worldwide. Offered Yearly.

Equivalent: PS 3820

AFS 3430 Race, Revolution, and Counterrevolution Cr. 3

This course will examine theories of revolutionary struggle and attempts at counterrevolution with an emphasis on the race question. In doing so, we will endeavor to understand why revolutions transpire when they do, along with exploring the strategies that different movements historically used to achieve revolution. Our class will highlight Black, Indigenous, and Third World liberation struggles and perspectives on revolution. We will begin the term by addressing theories of race, empire, and revolution. This theoretical foundation will allow students to contemplate how racial oppression might factor into the emergence of nationalist resistance. Our class will also explore how states and empires aim to subvert revolutions. By semester's end, students should be able to identify both the theoretical principals that generally apply to revolutionary struggles and the contextual particularities which animated various historical revolutions. Offered Yearly.

AFS 3500 Special Topics: Literacy, Race, and Urban Society Cr. 3

Specialized and topical studies in historical events, personalities and themes. Topics to be announced in the schedule of classes. Offered Intermittently.

Repeatable for 9 Credits

AFS 3610 Interdisciplinary Perspectives on Foreign Culture: The Africans Cr. 4

Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry

Humanistic aspects, history, socio-cultural institutions of African cultures; theory and methods, comparativist perspectives. Offered Yearly.

AFS 3750 African American Art Cr. 3

Historical inquiry of African American art from the eighteenth century to today. Offered Yearly.

Equivalent: AH 3750

AFS 3800 Hip-Hop History and Culture Cr. 3

We will also consider how hip-hop culture arose out of Black and Latinx responses to economic crisis, urban decline, and political repression before the music industry eventually turned artists into laborers and the music into a commodity. We will also consider the intersections between hip hop, local and regional cultures, other genres of music and cultural production, technology, politics, and business. Lastly, and most importantly, this class delves into the internal politics of those who participated in culture, especially regarding issues of gender and sexism, homo- and trans-phobia, and violence. Offered Yearly.

AFS 4100 Research Methods in African American Studies Cr. 4

An introduction to interdisciplinary research methods as they are applied to the study of black communities which examines theoretical and conceptual issues; techniques for identifying existing research; and sources and methods of social research and data collection. Offered Yearly.

Prerequisite: AFS 1010 with a minimum grade of D-

AFS 4240 African Americans in Television Cr. 4

Historical overview of African Americans in radio and television with emphasis on three areas of study: news and documentary; entertainment and advertising; and ownership, employment and access. Offered Yearly.
Equivalent: COM 4240

AFS 5030 African American Politics Cr. 4

Nature and texture of black politics; various perspectives on politics by blacks; the impact of blacks on American politics. Offered Every Other Year.
Equivalent: PS 5030

AFS 5050 Topics in African American Cinema Cr. 4

Analysis of a specific film genre, a director, an actor, or other historical aspect of African American films. Offered Yearly.
Prerequisite: AFS 3200 with a minimum grade of C- or COM 3230 with a minimum grade of C-
Repeatable for 8 Credits

AFS 5110 Black Women in America Cr. 3

Satisfies General Education Requirement: Writing Intensive Competency Social, cultural, artistic and economic development of Black women in America; topics include: racism, sexism, marriage, motherhood, feminism, and the welfare system. Offered Yearly.
Equivalent: GSW 5110

AFS 5220 Black Dramatic Literature and Performance Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry Critical study of significant Black dramatists of the American stage: Willis Richardson, Marita Bonner, Randolph Edmonds, Langston Hughes, Alice Childress, Lorraine Hansberry, Ed Bullins, Amiri Baraka, Ntozake Shange, and August Wilson. Offered Yearly.
Course Material Fees: \$10
Equivalent: THR 5821

AFS 5261 African Americans, History and Memory Cr. 3

An examination of the ways different groups and institutions remember and forget African American history. Each term the course will have a specific focus that will be advertised in advance. Offered Fall.
Equivalent: HIS 5261

Repeatable for 6 Credits**AFS 5310 Special Topics in African American Studies Cr. 3-4**

Topics to be announced in Schedule of Classes; topics may include: Caribbean politics, African development, male-female relationships, Negritude. Offered Every Term.
Repeatable for 12 Credits

AFS 5570 Race Relations in Urban Society Cr. 3

Theoretical orientations applied analytically to enhance an understanding of the patterned structures of privilege in society which are based on race. Inequality, segregation-desegregation, pluralism; social structural frameworks; some attention to social-psychological aspects of topics such as prejudice and racism. Offered Intermittently.
Equivalent: SOC 5570

AFS 5580 Law and the African American Experience Cr. 4

In-depth examination of the African American experience with law in the U.S.; historical development of the U.S. Constitution; legal barriers to equality and the influence of race on the law; use of law as a political instrument; participation of Blacks in the legal process; comparisons with other countries. Offered Every Other Year.
Equivalent: SOC 5580

AFS 5700 The Psychology of African Americans Cr. 4

Methodological approaches to and theories of Black behavior and personality development. Topics include: race and pathology, life-span and psycho-sexual development, personality formation, social and environmental stress and adaptation. Offered Every Term.
Equivalent: PSY 5700

AFS 5991 Field Work in the Black Community Cr. 3-8

Field placement in community-based, human services, and civic organizations and governmental agencies. Offered for undergraduate credit only. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major in Africana Studies; enrollment is limited to Undergraduate level students; enrollment limited to students in a Bachelor of Arts degree.

AFS 5993 Writing Intensive Course in African American Studies Cr. 0

Satisfies General Education Requirement: Writing Intensive Competency Disciplined writing assignments under the direction of a faculty member. Must be selected in conjunction with a designated corequisite; see section listing in Schedule of Classes for corequisites available each term. Satisfies the University General Education Writing Intensive Course in the Major requirement. Required for African American Studies majors. Offered Every Term.

Prerequisite: AFS 3160 (may be taken concurrently) with a minimum grade of C- or AFS 3180 (may be taken concurrently) with a minimum grade of C- or AFS 3200 (may be taken concurrently) with a minimum grade of C- or AFS 3250 (may be taken concurrently) with a minimum grade of C- or AFS 3420 (may be taken concurrently) with a minimum grade of C- or AFS 3610 (may be taken concurrently) with a minimum grade of C- or AFS 5110 (may be taken concurrently) with a minimum grade of C-

Restriction(s): Enrollment is limited to students with a major in African American Studies; enrollment is limited to Undergraduate level students.

AFS 6170 Studies in Ethnicity and Race in American Life Cr. 3-4

Exploration of complicated relationship between ethnic and racial diversity and the making of America. Using historical, literary, and cultural readings and sources to examine key themes: Who was the "Other"? What is an "American"? Offered Every Other Year.
Equivalent: HIS 6170

AFS 6990 Directed Study Cr. 3-8

Reading and research projects. Offered Yearly.

AGD - Art: Graphic Design

AGD 2230 Introduction to Typography: Skills and Concepts Cr. 3

Introduction to typography through the use of digital and hand craft skills and conceptual framing for working with letter forms and the layout of text. Assignments and demonstrations to develop thinking and making abilities. Offered Fall, Winter.
Course Material Fees: \$90

AGD 2240 Introduction to Graphic Design: Skills and Concepts Cr. 3

Introduction to graphic design skills (digital and analog) and concepts necessary for working with images and type. Assignments and demonstrations will develop design thinking and creative abilities. Offered Fall, Winter.
Course Material Fees: \$90

AGD 2250 Typography Cr. 3

Fundamental understanding of structure, history, technology and application of typography, the visualization of language. Functional and experimental aspects of typography; typographic syntax and hierarchies. Offered Fall, Winter.
Prerequisites: (ACO 1200, ACO 1230, or ACO 1270), AGD 2230, and AGD 2240 (may be taken concurrently)
Course Material Fees: \$90

AGD 3220 Introduction to Motion Graphics Cr. 3

This course is a basic motion design course aimed at Graphic Design majors. Students will learn different approaches to animation with the goal of refined movement to tell stories and deliver messaging while maintaining a highly designed approach. Students can apply skills learned in this class to other design and animation classes and vice versa. Throughout the semester, students will produce several mini motion projects. Adobe After Effects will be the primary editing software used in the course. Offered Yearly.

AGD 3250 Graphic Design I: Principles and Problem Solving Cr. 3

Visual communication issues and applications: design methodology, problem-solving, relation of form to meaning, type/image relationships. Offered Fall, Winter.

Prerequisites: AGD 2230 (may be taken concurrently), AGD 2240, and (ACO 1200, ACO 1230, or ACO 1270)

Course Material Fees: \$90

AGD 3260 Introduction to Interactivity in Graphic Arts Cr. 3

Exploration of a variety of art-making strategies that utilize digital technologies and interactive media; emphasis on computer-based and online art practices and web-oriented programming languages. Offered Yearly.

Prerequisites: ACO 1200, ACO 1230, ACO 1270, or APH 2400

Course Material Fees: \$145

Equivalent: ADA 3220

AGD 3270 Introduction to Illustration Cr. 3

Introduction to the role that illustration plays within graphic design; students will use both traditional and digital media to create illustrations and hand lettering to communicate messages intended for reproduction. Offered Yearly.

Course Material Fees: \$90

AGD 3700 History of Graphic Design Cr. 3

History of the discipline of graphic design from its early practices to the present, with an emphasis on technological and theoretical advances that took place during the twentieth century. Offered Yearly.

Prerequisites: AGD 2230 and AGD 2240

Course Material Fees: \$50

AGD 4250 Graphic Design II: Word, Image, and Visual Organization Cr. 3

Students apply knowledge of typography and visual design principles to specific design situations; emphasis on use of grid systems. Offered Yearly.

Prerequisites: AGD 2230, AGD 2240, AGD 2250, AGD 3250, and 2 of (ACO 1200, ACO 1230, or ACO 1270)

Course Material Fees: \$90

AGD 4260 Professional Practice Cr. 3

Preparation for working professionally as a graphic designer including portfolio and resume development, working with clients, budgets, and schedules. Offered Yearly.

Prerequisites: AGD 2240, AGD 3250, and AGD 4250

Course Material Fees: \$55

AGD 4270 Intermediate Illustration Cr. 3

Development of illustration skills; students will learn to effectively use both traditional and digital media to create illustrations and hand lettering to communicate messages intended for reproduction. Students engage in problems that demand research, creation and management of numerous visual and informational elements within a given visual product. Offered Yearly.

Prerequisite: AGD 3270

Course Material Fees: \$90

AGD 5250 Graphic Design III: Complexity and Variety in Design Cr. 3

Complex design situations. Research and methodology. Project may include package design, instruction manuals, book and brochure design, publication design. Offered Fall, Winter.

Prerequisites: AGD 2240, AGD 2250, AGD 3250, and AGD 4250

Course Material Fees: \$90

AGD 5260 Senior Seminar Cr. 3

Satisfies General Education Requirement: Writing Intensive Competency Issues affecting the theory, history, and practice of design; impact of design on society and impact of society on design. Required readings, student presentations, class discussion, slide lectures, guest speakers. Satisfies the General Education Writing Intensive Course in the Major requirement. Offered Winter.

Prerequisites: 2 of (ACO 1200, ACO 1230, or ACO 1270), AGD 2230, AGD 2240, AGD 2250, AGD 3250, and AGD 4250

Course Material Fees: \$50

AGD 5700 Special Topics Cr. 3

Examination of specific issue in design theory, history or practice. Topics may include: corporate identity, globalization of design, exhibition design, design history. Offered Every Term.

Prerequisites: AGD 3250 with a minimum grade of D-

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$90

Repeatable for 15 Credits

AGD 5740 Interactivity Cr. 3

Theory and practice of digital user experience design. Includes prototyping and some programming for the design of websites, apps, and digital media. Builds on foundational interactive, typography and graphic design skills. Offered Yearly.

Prerequisites: AGD 2230, AGD 2240, AGD 2250, AGD 3250, AGD 3260, or AGD 4250

Course Material Fees: \$90

AGD 5750 Information Design Cr. 3

Theory and practice of user-centered design to help people find, understand, and use information. Includes the visualization of information for such things as instructions, maps, forms, diagrams, and digital media. Offered Yearly.

Prerequisites: AGD 2230, AGD 2240, AGD 2250, AGD 3250, or AGD 4250

Course Material Fees: \$90

AGD 5890 Directed Projects: Graphic Design Cr. 3-6

Individual problems. Offered Fall, Winter.

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$90

Repeatable for 12 Credits

AGD 5990 Field Study: Internship Cr. 3

Supervised field experience designated to correlate classroom theory with practical work. Offered Every Term.

Prerequisites: AGD 3250 with a minimum grade of D-

Restriction(s): Enrollment limited to students in a Bachelor of Arts or Bachelor of Fine Arts degrees; enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$30

Repeatable for 6 Credits

AGD 5997 Senior Studio Cr. 3

Extended student projects such as identity systems with various applications, families of package design, series of form design, or poster series. Possible collaborative projects; extensive research. Offered Fall, Winter.

Prerequisites: AGD 2230, AGD 2240, AGD 2250, AGD 3250, AGD 4250, 2 of (ACO 1200, ACO 1230, or ACO 1270), and 2 of (AGD 3000-6999 or AGD 3000-6999)

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$90

AGD 6260 Advanced Typography Cr. 3

Advanced and experimental typography; typography as an expressive language in 2-D and 3-D; projects in information design. Offered Intermittently.

Prerequisites: AGD 2250 and AGD 4250

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$90

AGD 7250 Graduate Problems in Graphic Design Cr. 3-9

Individual problems in advanced advertising design. Offered Fall, Winter.

Prerequisites: AGD 5250 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Arts degree.

Course Material Fees: \$90

Repeatable for 24 Credits

AH - Art History

AH 1000 Introduction to Art Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

An introductory survey of art and culture designed to equip students to look purposefully, critically, and contextually at images and events, mindful of the ways that meaning is produced and perceived. Offered Every Term.

AH 1110 Survey of Art History: Ancient through Medieval Cr. 3-4

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

Survey of traditions and major developments in visual expression in the West, prehistory through Medieval period. Art studied in context of its cultures; techniques of visual analysis. Offered for four credits only to Honors students. Offered Every Term.

AH 1120 Survey of Art History: Renaissance through Modern Cr. 3-4

Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts

Traditions and developments in visual expression in the West, Renaissance through twentieth century. Art in context of its cultures; techniques of visual analysis. Offered for four credits only to Honors students. Offered Every Term.

AH 1130 Encounters with the Arts of Global Africa Cr. 3

Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry, Visual Performing Arts

Introductory survey of the arts of Africa and the African Diaspora, focusing on the visual culture of cross-cultural contact within Africa and beyond. Offered Fall, Winter.

Restriction(s): Enrollment is limited to Undergraduate level students.

AH 3070 Art and Archeology of Ancient Egypt Cr. 3

An introduction to the history and development of Egyptian artistic style in architecture, sculpture, painting and the applied arts; historical, social and religious background. Offered Intermittently.

AH 3150 The Arts of Africa: Local and Global Visions Cr. 3

Traditional, modern and contemporary arts of Africa, as well as the impact of African culture on the Americas. Emphasis on global politics of intercultural contact between Africa and the West. Offered Fall.

Prerequisites: AH 1110 and AH 1120

Restriction(s): Enrollment is limited to Undergraduate level students.

AH 3240 Mythology in Greek Art Cr. 3

The myths of the Greeks as they appeared on painted vases, and the strategies of visual storytelling employed. Offered Intermittently.

AH 3410 Medieval Art and Architecture Cr. 3

Monasticism as a driving force in medieval culture; art and architecture produced by and for Christian religious communities, A.D. 300-1400. Offered Intermittently.

Prerequisites: AH 1110

AH 3470 Islamic Art and Architecture Cr. 3

Satisfies General Education Requirement: Global Learning Inquiry
Survey of art and architecture of Islam from its origins in the seventh century to the Ottoman Empire. Offered Intermittently.

AH 3560 Special Topics Cr. 3

Students examine specific issues related to art history. Offered Intermittently.

Restriction(s): Enrollment is limited to Undergraduate level students.

Repeatable for 12 Credits

AH 3650 Nineteenth-Century European Art and Architecture Cr. 3

Introduction to European art and architecture from 1780 to 1900; survey of major developments in 19th century painting, sculpture, printmaking and photography. Offered Fall, Winter.

AH 3700 Contemporary Art Cr. 3

Introduction for studio art majors: ideas and styles of modern art. The gap between those who make art and those who write about it. Access to the discipline of art history through tracing the origins of a variety of contemporary art practices. Offered Yearly.

Prerequisites: AH 1000-1999

AH 3750 African American Art Cr. 3

Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Historical inquiry of African American art from the eighteenth century to today. Offered Yearly.

Equivalent: AFS 3750

AH 3760 Art of the African Diaspora Cr. 3

Examines art of the African Diaspora and how this history of dissemination affected art making in various geographical, cultural, and sociopolitical paradigms. Offered Fall.

AH 5210 Hellenistic Art Cr. 3

Sculpture, painting and architecture of the Greek world from Alexander the Great to Cleopatra. Offered Intermittently.

Prerequisites: AH 1110 and AH 1120

AH 5250 Ancient Rome Cr. 3

Development of Rome into an imperial capital. Design, function and political significance of public monuments in the city. Offered Intermittently.

Prerequisites: AH 1110 and AH 1120

AH 5260 Classical Greek Art Cr. 3

Greek painting, sculpture and architecture of the fifth and fourth centuries B.C. Emphasis on decorative programs of temples and cult statues. Offered Intermittently.

Prerequisites: AH 1110 and AH 1120

AH 5270 Roman Painting and Sculpture Cr. 3

Painting and sculpture of the Roman Republic and Empire, and their cultural context. Offered Yearly.

Prerequisites: AH 1110 and AH 1120

AH 5310 The Ancient City of Athens Cr. 3

The history of Athens as an urban center in antiquity. Public monuments, buildings and landscape as reflecting the city's aspirations and fortunes. Offered Intermittently.

Prerequisites: AH 1110 and AH 1120

AH 5450 Art and Architecture in the High Middle Ages Cr. 3

Art and architecture in western Europe, 1050-1250. Development of Romanesque and Gothic styles in architecture, painting, and sculpture. Offered Intermittently.

Prerequisites: AH 1110 and AH 1120

AH 5500 Early Renaissance in Italy Cr. 3

Art and architecture from Giotto to Botticelli; transformation of late medieval art prior to Black Death, classical revival in Florence; North Italian artists such as the Bellinis and Mantegna. Offered Every Other Year.

Prerequisites: AH 1110 and AH 1120

AH 5510 High Renaissance and Mannerism in Italy Cr. 3

The art of Leonardo, Raphael, Michelangelo, Titian, and their contemporaries. Offered Intermittently.

Prerequisites: AH 1110 and AH 1120

AH 5520 Art of Renaissance Venice Cr. 3

Art of fifteenth and sixteenth century Venice considered in its socio-political milieu. Offered Every Other Year.

Prerequisites: AH 1110 and AH 1120

AH 5540 Art of the 1960s Cr. 3

This course examines the art created by artists of color who were typically marginalized by the American art world during this historical moment. First, we will consider the artistic tendencies of the mainstream artworld, and then delve into the creative and political pursuits of non-white artists of this time period. One of the principle aims of this course is to consider the political, social, and cultural context that impacted the creation of their art as well as the ways in which the creative endeavors of these artists of color intersected with the goals of movements like the Black Power Movement, the Chicano Movement, and the Women's Liberation Movement. Offered Every Other Year.

Prerequisites: AH 3700, AH 3750, or AH 3760

AH 5545 Black Women in Contemporary Art Cr. 3

This course will explore contemporary visual and performance art created by women of the Black Diaspora. Critical race, gender, sexuality and multiculturalism theory will be utilized to strengthen the visual analysis of artworks. For the duration of the semester, students will examine artists who defined art of the 1960s and 1970s, as well as art reflective of the multiculturalism and identity politics of the 1980s and the early 1990s and will then consider the audacious yet ambitious art of the post-black era. This course embraces the subjectivities of cisgendered and transgendered people of the feminine experience, femmes, and nonbinary people. Keeping intersectionality in mind, this course also considers Black women artists who confront gender inequality, classism, homophobia, transphobia, and systemic racism. Offered Fall.

Prerequisites: AH 3700

AH 5560 Special Topics Cr. 3

Students examine specific issues related to art history. Offered for undergraduate credit only. Offered Intermittently.

Restriction(s): Enrollment is limited to Undergraduate level students.

Repeatable for 12 Credits

AH 5570 Performance Art of the Americas Cr. 3

Explores Performance Art created in North, Central, and South America, as well as in the Caribbean. Performance Art is a Western visual art movement in which the artist's body is the primary medium of expression, and this art form's evolution will be examined from the late nineteenth to the twenty-first centuries. Offered Fall.

AH 5695 Art of Revolutionary Europe Cr. 3

This course explores European paintings, prints, photography, fashion, architecture and interior design from 1789-1851, including the art of David, Delacroix, Turner, Friedrich, Goya, and Courbet and the styles of Neoclassicism, Romanticism, the Regency, Napoleon, and Realism. Offered Every Other Year.

AH 5705 Impressionism and Post-Impressionism Cr. 3

This course explores French Impressionism and Post-Impressionism in the context of social and technological change, fashion, the growth of Paris, the birth of the suburbs, and questions of gender, race, sexuality, and the environment. Artists include Manet, Monet, Cassatt, Cézanne, Van Gogh, and many others. Offered Intermittently.

AH 5710 Trends in Nineteenth Century Art Cr. 3

Topics to be announced in Schedule of Classes. Offered Every Other Year.

Prerequisites: AH 1110 and AH 1120

AH 5715 Modernism: Nineteenth and Twentieth Centuries Cr. 3

Origins of Modernism in the mid-nineteenth century; avant-garde art in Europe and the U.S. from 1850 to 1950; theories of Modernism in the visual arts. Offered Every Other Year.

Prerequisites: AH 1110 and AH 1120

AH 5720 Twentieth Century Art Cr. 3

European and American paintings, sculpture, and new media surveyed from 1900 to present. Offered Every Other Year.

Prerequisites: AH 1110 and AH 1120

AH 5735 Art 1900-1945 Cr. 3

European and American avant-garde art, Dada and Surrealism, the interwar period, and Abstract Expressionism. Offered Every Other Year.

Prerequisites: AH 1110 and AH 1120

AH 5755 Gender and Race in Visual Culture Cr. 3

This course will interrogate the ways in which gendered and racialized bodies are epitomized in the myriad of form that comprise visual culture. Offered Fall.

AH 5780 Topics in Twentieth-Century Art Cr. 3

Topics to be announced in Schedule of Classes. Offered Yearly.

Prerequisites: AH 1110 and AH 1120

Repeatable for 12 Credits

AH 5855 Museum Practicum Cr. 3

Cooperative arrangement between the art history program and the Detroit Institute of Arts, in which the student applies art historical training to a current project or exhibition in the museum. Offered Every Other Year.

Prerequisites: AH 1110 and AH 1120

AH 5990 Directed Study Cr. 1-3

Supervised advanced reading and research in the history of art. Offered Fall, Winter.

Restriction(s): Enrollment limited to students in a Bachelor of Arts or Master of Arts degrees; enrollment is limited to students in the Department of Art, Art History, and Design.

Repeatable for 6 Credits

AH 5997 Seminar Cr. 3

Readings, discussion, and research paper on special topics in art history; topics to be announced in Schedule of Classes. Graduate students undertake research paper in addition to other assignments. Offered Yearly.

Prerequisites: AH 1110 and AH 1120

Restriction(s): Enrollment is limited to students in the Department of Art, Art History, and Design.

Repeatable for 9 Credits

AH 5998 Honors Thesis Cr. 3

Students write a substantial research paper on subject determined by the student in collaboration with his/her professor. Offered for undergraduate credit only. Offered Intermittently.

Restriction(s): Enrollment is limited to students with a major in Art History Honors; enrollment is limited to Undergraduate level students.

AH 7200 Seminar in Greek and Roman Art Cr. 3-6

Topics to be announced in Schedule of Classes . Offered Every Other Year.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Arts degree; enrollment is limited to students in the Department of Art, Art History, and Design.

Repeatable for 9 Credits

AH 7500 Seminar in Renaissance Art Cr. 3-6

Topics to be announced in Schedule of Classes. Offered Intermittently.

Restriction(s): Enrollment is limited to students with a major in Art History; enrollment is limited to Graduate level students; enrollment limited to students in a Master of Arts degree.

Repeatable for 9 Credits

AH 7700 Seminar in Modern Art Cr. 3

Topics to be announced in Schedule of Classes . Offered Fall, Winter.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Arts degree; enrollment is limited to students in the Department of Art, Art History, and Design.

Repeatable for 6 Credits

AH 7999 Master's Essay Direction Cr. 1-3

Offered Fall, Winter.

Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to students with a major in Art History; enrollment is limited to Graduate level students; enrollment limited to students in a Master of Arts degree.

AH 8999 Master's Thesis Research and Direction Cr. 1-8

Offered Fall, Winter.

Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to students with a major in Art History; enrollment is limited to Graduate level students; enrollment limited to students in a Master of Arts degree.

Repeatable for 8 Credits

AHS - Applied Health Sciences

AHS 2010 Introduction to Applied Health Sciences Cr. 3

Introduction to Applied Health Sciences is designed to familiarize students with the various careers in the medical professions. Students will learn skills necessary for their healthcare career pathway including working with others, communication skills, legal and ethical responsibilities, cultural considerations in the healthcare industry, problem solving, decision making, accepting personal responsibility and self-management. Offered Fall.

AHS 2020 Applied Health Sciences Communication Cr. 3

The purpose of Applied Health Sciences Communication is to provide the student with an overview of health and science communication in research, industry, and practice. Each student will have an opportunity to explore and better understand the role communication plays in health care delivery, health promotion, disease prevention, environmental and risk communication, media and mass communication, and technology. Offered Fall.

Prerequisite: COM 1010 with a minimum grade of C and ENG 1020 with a minimum grade of C and MLS 3330 with a minimum grade of C

AHS 2030 Advanced Statistics for Applied Health Sciences Cr. 4

The purpose of Advanced Statistics for Applied Health Sciences is to prepare students entering a career in a healthcare profession for common statistical tools used in health care fields. This course contains content areas of descriptive statistics, probability, inferential statistics, and linear regression with relevance to health care professions. A substantial number of human health examples are included to demonstrate the relevance of statistics to health and disease. Offered Fall.

Prerequisite: STA 1020 with a minimum grade of C

AHS 3010 Advanced Applied Health Sciences Professions Cr. 3

The purpose of Advanced Applied Health Sciences Professions is to assist students who are considering a career in a graduate health sciences profession. Students will examine the roles of a health sciences professional in clinical, academic, and research settings, expectations of professional behavior within the profession, and professional development. The current practice of the health sciences profession in various settings will be explored. Students will need to select the appropriate course section for their preferred health sciences profession. Offered Winter.

Prerequisite: AHS 2010 with a minimum grade of C

AHS 3020 Diversity in Applied Health Sciences Cr. 3

The purpose of Diversity in Applied Health Sciences is to explore the intersection of health care and marginalized cultures, races, ethnicities, and gender identities. Students will explore how power dynamics, attitudes, biases, and cultural misunderstanding have produced health disparities while also engaging in activities to understand and mitigate ongoing injustices. Offered Fall.

Prerequisite: ENG 1020 with a minimum grade of C

AHS 3030 Human Physiology for Applied Health Sciences Cr. 3

The purpose of Human Physiology for Applied Health Sciences is the study the functioning of human tissues and organ and organ systems. Emphasis will be given to the physical, chemical and mechanistic bases of normal physiology and the integrated functions of the human body. The course also introduces pathophysiological changes associated with some human diseases. Offered Winter.

Prerequisite: BIO 2870 with a minimum grade of C

AHS 4010 Interprofessional Education in Applied Health Sciences Cr. 3

The purpose of Interprofessional Education in Applied Health Sciences is to introduce students to interprofessional health care delivery in multiple practice settings. Best practices are emphasized for team formation, effective communication strategies, and patient care processes. Ethical issues related to team management in health care are discussed. Offered Winter.

Prerequisite: AHS 2010 with a minimum grade of C

AHS 4020 Pathophysiology for Applied Health Sciences Cr. 3

The course Pathophysiology for Applied Health Sciences will focus on advanced pathophysiologic concepts affecting the adult human using a research-based, system-focused approach, including etiology, pathogenesis and clinical manifestations of commonly found/seen altered health states. Offered Fall.

Prerequisite: BIO 2870 with a minimum grade of C

AHS 4090 Capstone in Applied Health Sciences Cr. 3

The purpose of Capstone in Applied Health Sciences is to provide culminating curricular experiences for students enrolled in the Bachelor of Science degree with a major in applied health sciences. Students will participate in several projects which demonstrate a synthesis of learning accumulated in the major, including broadly comprehensive knowledge of the discipline and its methodologies. With faculty approval, students will complete a capstone project that aligns with their career goals. Offered Fall, Winter.

Prerequisites: AHS 2010 with a minimum grade of C, AHS 2020 with a minimum grade of C, AHS 2030 with a minimum grade of C, AHS 3010 with a minimum grade of C, AHS 3020 with a minimum grade of C, AHS 3030 with a minimum grade of C, AHS 4010 with a minimum grade of C (may be taken concurrently), and AHS 4020 with a minimum grade of C (may be taken concurrently)

AIA - Art: Interior Design

AIA 1610 Architectural Drafting and Perspective Drawing Cr. 3

Introduction to architectural drafting, perspective drawing and presentation. Offered Winter.

Course Material Fees: \$45

AIA 2600 Interior Design: CAD I Cr. 3

Continuation of computer-aided design. Plans, elevations, sections, details, dimensioning and description. System furniture space planning; Windows-based auto CAD. Offered Fall.

Prerequisites: AIA 1610

Course Material Fees: \$45

AIA 2610 Interior Design Studio I Cr. 3

Single family residential/small-scale office. Presentation techniques; introduction to media and methods used in the preparation of presentation boards: layout, selection, rendering, plan, elevation, lettering and verbal presentation. Offered Fall.

Prerequisites: AIA 1610

Course Material Fees: \$45

AIA 3610 Interior Design Studio II Cr. 3

Hospitality/restaurant/health care. Continuation of graphic and presentation skill development incorporating plan, elevation, section, detailing, perspective, hand and CAD drawings. Experimentation with lighting, media, board, and verbal presentation. Offered Winter.

Prerequisites: AIA 2610

Course Material Fees: \$45

AIA 3620 Interior Design: CAD II Cr. 3

Intermediate-level CAD. Development and creation of construction documents, space planning of interior spaces, and systems layout, using autoCAD drafting techniques in two- and three-dimensional modes. Offered Winter.

Prerequisites: AIA 1610, AIA 2600, and AIA 2610

Course Material Fees: \$50

Repeatable for 12 Credits

AIA 4600 Environmental Design Theory Cr. 3

History of interiors: ergonomic, environmental elements. Introduction to building and barrier-free design codes. Acoustical, HVAC and electrical systems. Offered Fall.

Prerequisites: AIA 2610

Restriction(s): Enrollment limited to students in a Bachelor of Arts or Bachelor of Fine Arts degrees; enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$35

AIA 4610 Interior Design Studio III Cr. 3

Retail/contract open-office system, medium to large scale, new or adaptive reuse projects. Advanced hand and CAD graphic, presentation skill development, incorporating building and barrier-free codes, HVAC and lighting principles, furniture and equipment specification. Offered Fall.

Prerequisites: AIA 2600 and AIA 3610

Course Material Fees: \$40

AIA 4620 Interior Perspective and Illustration Cr. 3

Introduction to architectural and interior design presentation techniques. Offered Fall.

Course Material Fees: \$45

AIA 4990 Directed Study Cr. 2-4

Offered Fall, Winter.

Course Material Fees: \$45

Repeatable for 6 Credits

AIA 5010 Furniture/Product Workshop Cr. 3

History, ergonomic and design development of furniture and product design. Projects evolve from hand and CAD drawings to scaled models of furniture and product designs. Offered Fall.

Prerequisites: AIA 1610, AIA 2610, and AIA 5610

Course Material Fees: \$55

Repeatable for 9 Credits

AIA 5020 Special Topics in Interior Design Cr. 3

Exploration of concepts and techniques related to the field of Interior Design. Offered Yearly.

Prerequisite: AIA 1610

Repeatable for 9 Credits

AIA 5610 Interior Materials and Systems Cr. 3

Estimating, specifying, and the techniques used in the application of materials and systems used in interior design. Lectures, guest speakers, and field trips. Offered Winter.

Course Material Fees: \$40

AIA 5620 Building Construction Systems in Architecture I Cr. 3

Residential and commercial construction systems incorporating governmental and building codes; site and foundation to roof systems; small-scale hand and CAD documentation of architectural details. Offered Fall.

Prerequisites: AIA 2610 and AIA 3610

Course Material Fees: \$45

AIA 5630 Interior Lighting Design and Application Cr. 3

Lighting sources, fixtures, manufacturer's lighting system and application to interior spaces. Basic lighting footcandle calculations; layouts and psychology of lighting description to be applied in a final project. Offered Winter.

Prerequisites: AIA 3610 and AIA 4610

Course Material Fees: \$40

AIA 5640 Building Construction Systems in Architecture II Cr. 3

Development of architectural construction documents: working drawings and written specifications of commercial interior space; plan, elevation, section, details and perspective through hand and CAD documentation. Offered Winter.

Prerequisites: AIA 2600, AIA 4600, AIA 4610, and AIA 5620

Course Material Fees: \$60

AIA 5660 Supervised Field Experience Cr. 3

Supervised field study experience designed to correlate classroom theory with professional practice. Offered Every Term.

Course Material Fees: \$35

Repeatable for 6 Credits

AIA 5991 Directed Projects: Interior Design Cr. 3-6

Individual problems. Offered Fall, Winter.

Course Material Fees: \$60

Repeatable for 9 Credits

AIA 5997 Senior Seminar Cr. 3

Satisfies General Education Requirement: Writing Intensive Competency

In this course, students will develop their distinct visual brand identity, professional portfolio and online presence. Students will gain greater competency in the contemporary design industry while developing skills in standard forms of professional communication. Offered Fall, Winter.

Prerequisite: AIA 3610 or AID 5300

Course Material Fees: \$60

AIA 6610 Interior Design Studio IV Cr. 3

Large-scale new or adaptive re-use: office, hospitality, health-care or retail interior spaces. Professional hand and CAD graphic and skill development. Integration of codes, ADA, human factors, HVAC and lighting principles, furniture and equipment specification related to specific environment. Offered Winter.

Prerequisites: AIA 4610 and AIA 5640

Course Material Fees: \$60

AIA 6650 Business Practicum Cr. 2

Examination of different types of business formations and their characteristics; professional practices and procedures, professional ethics, contemporary topics in interior design practice. Offered Fall.

Prerequisites: AIA 4610

Course Material Fees: \$60

AID - Art: Industrial Design

AID 3300 Introduction to Industrial Design Cr. 3

Introduction to fundamental skills necessary for the practice of industrial design. Two-dimensional presentation techniques are developed in first half of semester; second portion consists of exercises in problem-solving methodology. Offered Fall, Winter.

Course Material Fees: \$20

Repeatable for 6 Credits

AID 3310 Presentation Cr. 3

Two-dimensional visualization, monochromatic and polychromatic sketch techniques using a variety of traditional media. Offered Fall, Winter.

Prerequisites: ACO 1200 and ADR 1050

Repeatable for 9 Credits

AID 4300 Product Design Engineering Cr. 3

Students build on basic skills in projects exploring conceptual problem-solving in two dimensions. Offered Fall, Winter.

Restriction(s): Enrollment limited to students in the College of Engineering or Fine, Performing & Comm. Arts.

Repeatable for 6 Credits

AID 4600 Transportation Design/Engineering Cr. 3

Conceptual projects related to transportation design, utilizing skills developed in AID 4300. Offered Winter.

Prerequisites: AID 4300

Restriction(s): Enrollment limited to students in the College of Engineering.

Course Material Fees: \$20

AID 5300 Advanced Studio/Product Cr. 3

Advanced techniques in presentation of design solutions. Students build upon their ability to communicate two-dimensionally; introduction of digital manipulation and creation software. Offered Fall, Winter.

Prerequisites: AID 3300

Course Material Fees: \$20

Repeatable for 15 Credits

AID 5302 Advanced Studio/Batch Production Cr. 3

In this studio class students will learn about techniques of batch limited production of design objects and aspects of entrepreneurship. Students will design, produce, package, and market a simple consumer object. Offered Fall, Winter.

Prerequisites: AID 3300

Course Material Fees: \$20

Repeatable for 6 Credits

AID 5310 Advanced Presentation Cr. 3

Advanced techniques in the presentation of design solutions. Students build on their ability to communicate two-dimensionally, with introduction of digital manipulation and creation software. Offered Fall.

Prerequisites: AID 3310

Course Material Fees: \$100

Repeatable for 9 Credits

AID 5330 3-D Modeling Cr. 3

Principles of three-dimensional modeling. Surface development, rendering, and creation of virtual environments. Offered Fall.

Prerequisites: AID 3300

Course Material Fees: \$100

Repeatable for 9 Credits

AID 5997 Senior Seminar Cr. 3

Satisfies General Education Requirement: Writing Intensive Competency Seminar on contemporary issues in industrial design including professional concerns in transportation and product design, presentation, and production. Offered Every Other Year.

AID 6300 Advanced Studio: Transportation Cr. 3

Form and proportion studies. Development of sketch techniques for communicating the complex form of the automotive body. Taught by professional automotive designers. Offered Fall, Winter.

Prerequisites: AID 3300

Course Material Fees: \$20

Repeatable for 9 Credits

AID 6301 Design for Urban Mobility Cr. 3

Considers broad questions of mobility and how design can enable and support mobility through urban space. Students will engage in projects that address these questions in different ways including products, spaces, experiences, and other forms of design interventions. Offered Fall, Winter.

Prerequisites: AID 3300

Course Material Fees: \$20

Repeatable for 6 Credits

AID 6310 Advanced Studio/Exhibit Cr. 3

Advanced design concepts in exhibit design. Project planning, ideas of brand imaging, phenomenological notions of the spatial experience. Offered Fall.

Prerequisites: AID 5300

Course Material Fees: \$20

Repeatable for 9 Credits

AID 7300 Graduate Industrial Design Cr. 3-9

Individual problems in industrial design. Offered Fall, Winter.

Prerequisites: AID 5300 or AID 6300

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Arts degree.

Course Material Fees: \$20

Repeatable for 24 Credits

AME - Art: Metalsmithing

AME 2600 Introduction to Jewelry and Metalsmithing Cr. 3

Basic skills: sawing, filing, drilling, sanding, polishing, creating textures on metal, riveting, soldering, and bezel setting of stones. Creation of jewelry and small functional objects. Offered Every Term.

Course Material Fees: \$75

AME 2650 Blacksmithing I Cr. 3

This course is an introduction to blacksmithing skills and techniques. The history of blacksmithing and its contemporary practices will be covered as a way to understand different time periods and varying cultural approaches. Hands on applications and material usage will be covered to create objects, tools and artworks dependent on forging. Offered Every Other Year.

Course Material Fees: \$75

AME 3600 Intermediate Jewelry I Cr. 3

Lost-wax casting and mold-making. Creating, preparing and casting into metal of wax models. Vulcanized rubber mold-making. Commercial jewelry techniques. Offered Every Term.

Prerequisites: AME 2600

Course Material Fees: \$90

AME 3601 Intermediate Jewelry II Cr. 3

Advanced metal fabrication and surface treatment. Topics include: digital fabrication, laser welding, induction casting, stone setting techniques, acid etching, granulation, keum boo, patination, hinge mechanisms and more complex soldering techniques. Offered Fall, Winter.

Prerequisites: AME 3600

Course Material Fees: \$90

AME 3650 Blacksmithing II Cr. 3

This course is intended for students who have already acquired basic blacksmithing skills for ferrous and non-ferrous metals. Using complex hand-skill techniques and applications of mechanical tooling to achieve predictable results, students will develop stronger visual literacy of blacksmithing of both its contemporary extensions of utility and conceptual work. Through exploring innovation in culture and its material usage for ornamentation, an ethos will be stressed. Tool creation and use through hot forging, forge welding, layering material, riveting and basic joinery will be emphasized. Offered Every Other Fall.

Prerequisite: AME 2650

Course Material Fees: \$90

Repeatable for 6 Credits

AME 4600 Metalsmithing I Cr. 3

Utilizing plastic qualities of metal to generate high relief forms. Techniques include: raising and sinking, anticlastic and synclastic raising, nonferrous and ferrous forging. How metals may be stretched to create forms with a high degree of volume. Offered Fall, Winter.

Prerequisites: AME 2600

Course Material Fees: \$90

Repeatable for 6 Credits

AME 4601 Metalsmithing II Cr. 3

Utilizing plastic qualities of metal to generate high relief forms. Techniques include: raising and sinking, anticlastic and synclastic raising, nonferrous and ferrous forging. How metals may be stretched to create forms with a high degree of volume. Offered Fall, Winter.

Prerequisites: AME 4600

Course Material Fees: \$90

Repeatable for 6 Credits

AME 4650 Blacksmithing III Cr. 3

Builds upon technical and conceptual extensions of blacksmithing for commission work, art installations, decorative ornamentation and creative forms using ferrous and non-ferrous metals. Advanced blacksmithing processes will be emphasized through the use of a diverse cross-section of skills ranging from hand work, machine production and the use of digital applications. Processes and equipment learned include: CNC plasma cutter, laser cutters for creation of dies, milling machines, lathes, CNC milling, use of dies for hot forming with a hydraulic press and power hammer. Offered Every Other Winter.

Prerequisite: AME 2600 and AME 2650

Course Material Fees: \$90

Repeatable for 9 Credits

AME 5600 Advanced Jewelry and Metalsmithing Cr. 3

Intellectual and conceptual nature of student's artwork; discussion and analysis. Methods of criticism. Offered Fall, Winter.

Prerequisites: AME 3601

Course Material Fees: \$90

Repeatable for 6 Credits

AME 5860 Directed Projects: Metalsmithing Cr. 3-6

Individual problems. Offered Fall, Winter.

Repeatable for 21 Credits

AME 7600 Graduate Study in Metal Arts Cr. 3

Individual problems. Directed study and project development in metal arts. Offered Fall, Winter.

Prerequisites: AME 5600

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Arts or Master of Fine Arts degrees; enrollment is limited to students in the Department of Art, Art History, and Design.

Course Material Fees: \$90

Repeatable for 9 Credits

AME 8860 MFA Studio: Metal Arts Cr. 6-9

Extended problems in metalsmithing; individual research with eighteen to twenty-seven hours of laboratory per week. Offered Fall, Winter.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree; enrollment is limited to students in the Department of Art, Art History, and Design.

Repeatable for 36 Credits

AN - Anesthesia

AN 3000 Introduction to Nurse Anesthesia Cr. 2

This course will introduce students to the field of nurse anesthesia, including leadership positions in the field and the purpose and history of our state and national organizations. Furthermore, the course will prepare students for application to a Doctorate of Nurse Anesthesia Program by reviewing topics critical to success in a program, as well as allow students to shadow a Certified Registered Nurse Anesthetist (CRNA) and experience the Wayne State Nurse Anesthesia Program simulation lab. Offered Spring/Summer.

AN 7010 Advanced Health Assessment and Clinical Diagnosis Cr. 3

This course will provide the registered nurse anesthesia student with the knowledge and advanced systematic focus on various body systems while completing a comprehensive health assessment for patients across the lifespan, including but not limited to adult, pediatric, geriatric, and obstetric patients. Students utilize critical thinking as well as diagnostic procedure results to interpret, analyze and provide differential diagnosis of common patient problems, while utilizing common assessment techniques for each body system. Offered Fall.

Restriction(s): Enrollment is limited to Graduate level students.

Course Material Fees: \$10

Equivalent: PHC 7021

AN 7020 Practicum and Simulation I Cr. 2

This course provides the registered nurse anesthesia student with the opportunity to demonstrate clinical applications of AN 7010 in a simulated environment. There is special focus on practicing the induction, maintenance, and emergence phases of anesthesia, along with crisis management. This course also includes clinical orientation. Offered Winter.

Prerequisites: AN 7010 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

Course Material Fees: \$20

AN 7030 Advanced Clinical Practicum II Cr. 2

Clinical experiential with guided, supervised instruction in the management of patients receiving anesthesia, emphasizing patient safety, basic and advanced monitoring modalities, and implementation of anesthesia management plans. This course provides an avenue for students to apply knowledge obtained in the anesthesia and science courses in a clinical setting. Simulation experiences are designed to reinforce topics covered in AN 7010 and AN 7150. Offered Spring/Summer.

Prerequisites: AN 7020 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

Course Material Fees: \$15

AN 7040 Clinical Anesthesia Practicum III Cr. 2

This course builds upon the knowledge and skills obtained from previous clinical practicums. This course provides supervised instruction in the perioperative management of patients receiving all types of anesthesia in a variety of clinical settings. Increasingly complex cases will be assigned. Simulation experiences are designed to reinforce topics covered in AN 7010, AN 7150 and AN 7160. Offered Fall.

Prerequisites: AN 7030 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

Course Material Fees: \$20

AN 7050 Clinical Anesthesia Practicum IV Cr. 2

This course builds upon the knowledge and skills obtained from previous clinical practicums. This course provides supervised instruction in the perioperative management of patients receiving all types of anesthesia in a variety of clinical settings. Development of advance skills with an emphasis on specialty areas such as cardiovascular, neurosurgical, trauma, obstetrics, and pediatrics. Simulation experiences are designed to reinforce topics covered in AN 7010, AN 7150, AN 7160, AN 7170 and AN 7600. Offered Winter.

Prerequisites: AN 7040 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

Course Material Fees: \$20

AN 7060 Clinical Anesthesia Practicum V Cr. 3

This course builds upon the knowledge and skills obtained from previous clinical practicums. This course provides supervised instruction in the perioperative management of patients undergoing all types of surgery with various anesthetic techniques in diverse clinical settings. Continued development of advance skills with an emphasis on specialty areas such as cardiovascular, neurosurgical, trauma, obstetrics, and pediatrics. Offered Spring/Summer.

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

Course Material Fees: \$20

AN 7070 Clinical Anesthesia Practicum VI Cr. 3

This course builds upon the knowledge and skills obtained from previous clinical practicums. This course provides supervised instruction in the perioperative management of patients undergoing all types of surgery with various anesthetic techniques in diverse clinical settings. Continued development of advance skills with an emphasis on specialty areas such as cardiovascular, neurosurgical, trauma, obstetrics, and pediatrics. Offered Fall.

Prerequisites: AN 7060 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

Course Material Fees: \$20

AN 7080 Clinical Anesthesia Practicum VII Cr. 3

This course builds upon the knowledge and skills obtained from previous clinical practicums. This course provides supervised instruction in the perioperative management of patients undergoing all types of surgery with various anesthetic techniques in diverse clinical settings. Simulation experiences are designed to reinforce topics covered in AN 7010, AN 7150, AN 7160, AN 7170, AN 7600 and 7181. Offered Winter.

Prerequisites: AN 7070 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

Course Material Fees: \$20

AN 7090 Clinical Anesthesia Practicum VIII Cr. 3

This course builds upon the knowledge and skills obtained from previous clinical practicums. This course provides supervised instruction in the perioperative management of patients undergoing all types of surgery with various anesthetic techniques in diverse clinical settings. Offered Spring/Summer.

Prerequisites: AN 7080 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

Course Material Fees: \$20

AN 7100 Advanced Pharmacology I Cr. 3

Discuss the chemistry, pharmacokinetics and pharmacodynamics of medications as pertaining to nurse anesthesia. Major drug categories pertaining to anesthesia practice, as well as drug therapies and classes pertinent to acute and chronic responses to anesthesia; indications, mechanisms, effects. Offered Fall.

Restriction(s): Enrollment is limited to Graduate level students.

Equivalent: PHC 7031

AN 7110 Advanced Pharmacology II Cr. 3

Discuss the chemistry, pharmacokinetics and pharmacodynamics of medications as pertaining to nurse anesthesia. Major drug categories covered include drug therapies and classes pertinent to acute and chronic responses to anesthesia, including indications, mechanisms, and effects. Also discuss effects of anesthetics in specialized populations such as geriatrics, obesity, obstetric, substance abuse and pediatric populations. Offered Winter.

Prerequisites: AN 7100 with a minimum grade of B or PHC 7031 with a minimum grade of B

Restriction(s): Enrollment limited to students in the Doctor of Nur Anesthesia Pract program; enrollment is limited to Graduate level students.

Equivalent: PHC 7032

AN 7150 Principles of Anesthesia I Cr. 3

This course provides the registered nurse anesthesia student with introductory principles of clinical anesthesia including technology, anatomy, pathophysiologic implications, and anesthetic techniques for various surgical procedures. Offered Winter.

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

AN 7160 Principles of Anesthesia II Cr. 3

This course begins an in-depth study of the principles of anesthesia for the care of the anesthetized patient. Emphasis will be on the pathophysiology of frequently encountered disease processes for the adult surgical patient. Risk factors, pathophysiological changes, presenting signs and symptoms and anesthetic considerations will be discussed and applied to individual patient care. Offered Spring/Summer.

Prerequisite: AN 7150 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

AN 7170 Principles of Anesthesia III Cr. 3

Study of the subspecialties in anesthesia and the knowledge required to manage anesthesia for the patient. In-depth knowledge regarding anesthesia for neurosurgery, pediatrics, obstetrics, and cardiovascular patients. Offered Fall.

Prerequisite: AN 7160 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

AN 7181 Advanced Principles of Anesthesia IV Cr. 3

Designed to provide specific knowledge in the use of advanced diagnostic tools and concepts in the management of complex patients. This course finishes an in-depth study of the principles of anesthesia for the care of the anesthetized patient. The focus is on complex management of the patient. Emphasis will be on the pathophysiology of frequently encountered disease processes for the adult surgical patient and diagnostic interpretation. Risk factors, pathophysiological changes, presenting signs and symptoms and anesthetic considerations will be discussed and applied to individual patient care. Offered Winter.

Prerequisite: AN 7170 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

AN 7220 Advanced Physiology I Cr. 3

Discuss aspects of anatomy and physiology that are relevant to the science and practice of anesthesia. Topics are covered from cellular, tissue, organ, and systems perspective, and related to issues of advance nurse anesthesia practice. The focus of this course is to impart concepts of advanced physiology which are elemental to the safe practice of anesthesia. Offered Fall.

Restriction(s): Enrollment limited to students in the Doctor of Nur Anesthesia Pract program; enrollment is limited to Graduate level students.

Equivalent: PHC 7221

AN 7240 Advanced Physiology II Cr. 3

Continuation of AN7240. Discuss further aspects of anatomy and physiology that are relevant to the science and practice of anesthesia, as well as pathologic processes. Topics are covered from cellular, tissue, organ, and systems perspective, and related to issues of advance nurse anesthesia practice. The focus of this course is to impart concepts of advanced physiology and pathophysiology which are elemental to the safe practice of anesthesia. Offered Winter.

Restriction(s): Enrollment is limited to Graduate level students.

Equivalent: PHC 7241

AN 7241 Pathophysiology Cr. 3

Discuss the pathophysiologic changes associated with various disease processes. The focus of this course is to impart concepts of pathophysiology in the framework of the various body systems and disruptions in normal body functioning for individuals across the lifespan. Offered Winter.

Prerequisite: AN 7240 with a minimum grade of B

Restriction(s): Enrollment limited to students in the Doctor of Nur Anesthesia Pract program; enrollment is limited to Graduate level students.

Equivalent: PHC 7242

AN 7500 Physics, Equipment, and Safety for Anesthesia Cr. 2

Introduction to the basic principles of physics and their application to anesthesia. Focus on processes that ensure safe anesthesia practice. Offered Fall.

Restriction(s): Enrollment limited to students in the Doctor of Nur Anesthesia Pract program; enrollment is limited to Graduate level students.

Equivalent: PHC 7501

AN 7600 Regional Anesthesia Cr. 3

This course discusses key components related to regional anesthesia practice and their application in the clinical arena which includes acute and chronic pain therapies. Spinal/epidural anesthesia, upper and lower extremity nerve blocks, truncal blocks are covered with special emphasis on anatomy, physiology, drugs and equipment. Ultrasound physics and its application in regional anesthesia is covered and applied in the Anesthesia Sim Lab environment. Offered Fall.

Restriction(s): Enrollment is limited to Graduate level students.

Course Material Fees: \$96

Equivalent: PHC 7601

AN 7640 Research and Statistics Cr. 3

This course will provide the nurse anesthesia student with the knowledge, skills, and abilities to perform extensive literature searches, critically appraise the available research evidence, synthesize information from diverse formats and sources, and cogently express understanding of complex concepts in both verbal and written forms. This course will also involve discussion, review and interpretation of basic and clinical biostatistics. Offered Spring/Summer.

Restriction(s): Enrollment is limited to Graduate level students.

Equivalent: PHC 7641

AN 7780 Professional Dimensions Cr. 3

The history of the profession, scope of practice, standards of practice, professional ethics, regulatory controls, interprofessional collaboration, cultural competence, and unconscious bias are explored. Students will develop an understanding and appreciation of our professional organizations, the American Association of Nurse Anesthetist (AANA). In addition, the importance of a life-long learner will be explored and the significance of maintaining health and well-being will be emphasized. Offered Fall.

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

AN 7880 Anesthesia Seminar Cr. 1

This course allows students to gain experience in critical reading of scholarly articles and case reports, including data analysis and interpretation and translation of research findings into evidence based practices. Offered Fall, Winter.

Restriction(s): Enrollment is limited to Graduate level students.

Equivalent: PHC 7880

Repeatable for 4 Credits

AN 7890 DNAP Project Proposal Cr. 1

Begin fundamental strategies for research development toward applicable clinical doctoral studies. Offered Fall.

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

AN 7891 Advanced Clinical Application I Cr. 2

Part 1 of a 2-part course, this course builds on previously acquired knowledge to provide a comprehensive overview of clinical practice. This course will use theoretical concepts and advanced clinical principles to develop the art and science of practice with emphasis on individualizing care, crisis management scenarios in anesthesia will also be offered in simulation. Offered Winter.

Prerequisite: AN 7181 with a minimum grade of B and AN 7241 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

AN 7892 Advanced Clinical Application II Cr. 3

Part 2 of a 2-part course, this course builds on previously acquired knowledge to provide a comprehensive overview of clinical practice. This course will use theoretical concepts and advanced clinical principles to develop the art and science of practice with emphasis on individualizing care, applying theoretical and scientific processes to test questions, in preparation for the SEE examination and NCE. Offered Spring/Summer.

Prerequisite: AN 7891 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

AN 7900 Advanced Pediatric Topics Cr. 2

Detailed advanced lectures in specific pediatric topics. Offered Every Term.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.

AN 7901 Leadership in Nurse Anesthesia Practice Cr. 3

This course will provide the nurse anesthesia student with the knowledge, skills, and abilities to serve as effective members of healthcare teams. The course will introduce foundational concepts necessary to manage and lead. Students will be exposed to organizational styles, conflict management theories, cultural assessment, and methods of driving creativity and innovation. Offered Spring/Summer.

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

AN 7902 Ethics and Health Care Cr. 3

This course serves as an advanced introduction to health care ethics, designed specifically for nurse anesthesia students. Ethical principles and personal values that shape professional practice and influence decision making will be expounded upon in the discussion of contemporary issues in health care. Offered Fall.

Prerequisite: AN 7901 with a minimum grade of B

Restriction(s): Enrollment limited to students in the Doctor of Nur Anesthesia Pract program; enrollment is limited to Graduate level students.

Equivalent: PHC 7902

AN 7903 Health Care Policy Cr. 3

This course presents an introduction to health policy, i.e., the various ways in which the government plays a role in health and in the provision of health care, how it influences nurse anesthesia, and the role advocacy plays. Health policies can have a profound effect on quality of life. Accessibility, cost, quality of health care; safety of food, water, and environment; the right to make decisions about our health; these issues are vitally tied to health policies. Offered Spring/Summer.

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

AN 7910 Special Topics in Pediatric Anesthesia Cr. 2

Common pediatric problems; in-depth knowledge on neonatal anesthesia. Offered Every Term.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.

AN 7920 Case Presentations Cr. 2

Anatomy and physiology of various diseases including principles of anesthetic management. Offered Every Term.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.

AN 7990 Nurse Anesthesia Studies Directed Study Remediation Cr. 1

This course serves to help students remediate for deficient academic competencies in the Nurse Anesthesia Studies Program. It is student-driven with guidance and definitive expectations determined by the instructor. Offered Every Term.

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

Repeatable for 3 Credits**AN 8000 DNAP Project I Cr. 1**

This course is a continuation of AN 7890. The course will culminate in the nurse anesthesia student demonstrating the knowledge, skills, and abilities needed to write a research scholarly paper of publishable quality. The focus of this course is on refining the DNAP Project Proposal and submission of IRB if applicable. This course will facilitate the student's implementation of a scholarly project. Offered Winter.

Prerequisite: AN 7890 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

AN 8001 DNAP Project II Cr. 1

This course is a continuation of AN 8000. The course will culminate in the nurse anesthesia student demonstrating the knowledge, skills, and abilities needed to write a research scholarly paper of publishable quality. The focus of this course is IRB submission (if not completed in AN 8000) and implementation of a DNAP research project. Offered Spring/Summer.

Prerequisite: AN 8000 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

AN 8002 DNAP Project III Cr. 1

Continue development of appropriate protocol for timely research, including data collection and analysis. Offered Fall.

Prerequisite: AN 8001 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

AN 8003 DNAP Project IV Cr. 1,2

Complete final research dissemination products, including presentation of research to public. Offered Winter.

Prerequisite: AN 8002 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

AN 8004 DNAP Project Completion Cr. 1,2

This course is a continuation of AN 8003. The course will culminate in the nurse anesthesia student demonstrating the knowledge skills and abilities to translate research findings into practice. In addition, the nurse anesthesia student will have demonstrated throughout AN 7640, 7890, 8000-8004 scholarship skills including but are not limited to the ability to perform extensive literature searches, critically appraise the available research evidence, synthesize information from diverse formats and sources, and cogently express understanding of complex concepts in both verbal and written forms, all while demonstrating high professional, personal, and intellectual integrity. Offered Spring/Summer.

Prerequisite: AN 8003 with a minimum grade of B

Restriction(s): Enrollment is limited to students with a major in Nurse Anesthesia Practice; enrollment is limited to Graduate level students.

Course Material Fees: \$20

ANA - Anatomy and Cell Biology

ANA 6050 Biology of the Eye Cr. 3

Introduction to biology of eye structure/function, and to causes and clinical treatments of eye-related disorders and diseases. Offered for undergraduate credit only. Offered Yearly.

Restriction(s): Enrollment is limited to Undergraduate level students.

Course Material Fees: \$25

Equivalent: BIO 6055, PYC 6050

ANA 7010 Human Gross Anatomy Cr. 8

Lectures and dissection of limbs, back, thorax, abdomen, head and neck, pelvis and perineum. Written and practical examinations. Offered Fall.

Restriction(s): Enrollment is limited to students with a major in Anatomy & Cell Biology; enrollment is limited to Graduate level students.

ANA 7030 Human Microscopic Anatomy Cr. 4

The microscopic structure of tissues and organs. Lectures and laboratory study. Offered Fall.

Restriction(s): Enrollment is limited to students with a major in Anatomy & Cell Biology or Pathology; enrollment is limited to Graduate level students.

ANA 7055 Biology of the Eye Cr. 3

Integrated introduction to basic biological structure/function of the eye; causes and clinical treatments of eye-related disorders and diseases. Offered Fall.

Restriction(s): Enrollment is limited to Graduate level students.

Equivalent: BIO 7055

ANA 7065 Mechanisms of Ocular Disease I Cr. 2

Lectures and readings on mechanisms and current treatments for diseases of the anterior segment of the eye. Offered Winter.

Prerequisite: ANA 7055 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ANA 7075 Mechanisms of Ocular Disease II Cr. 2

Lectures and readings on mechanisms and current treatments for diseases of the posterior segment of the eye. Offered Fall.

Prerequisite: ANA 7055 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

ANA 7130 Neuroanatomy Cr. 4

Lecture and laboratory study of the nervous system. Offered Winter, Spring/Summer.

Restriction(s): Enrollment is limited to students with a major in Anatomy & Cell Biology; enrollment is limited to Graduate level students.

ANA 7260 Special Dissection Cr. 2-10
