Environmental Science investigates the many interconnected systems and processes that formed our world, continuously change it, and, ultimately, sustain life on it. The Environmental Science Program at Wayne State offers an interdisciplinary approach combining a strong foundation from both geological and biological perspectives, and a broad choice of electives. This program focuses on the urban environment and urban impacts on the natural environment. It will prepare students for graduate study, or for careers in various areas of environmental science including environmental impact assessment, air and water quality monitoring, regulatory compliance, and environmental remediation.

BASKaran, Mark: Ph.D., Physical Research Laboratory; M.S., M.K. University; B.S., V.H.N.S.N. College; Participating Faculty

Brownlee, Sarah J.: Ph.D., University of California, Berkeley; B.A., Princeton University; Participating Faculty

Freeman, D. Carl: Ph.D., M.S., Brigham Young University; B.S., University of Utah; Participating Faculty

Howard, Jeffrey L.: Ph.D., University of California, Santa Barbara; M.S., B.S., Virginia Polytechnic Institute and State University; Participating Faculty

Kashian, Daniel M.: Ph.D., University of Wisconsin, Madison; M.S., B.S., University of Michigan; Participating Faculty

Kashian, Donna R.: Ph.D., University of Wisconsin; M.S., Michigan State University; B.S., Eastern Michigan University; Participating Faculty

Steiner, Christopher: Ph.D., Michigan State University; B.S. University of California-Los Angeles;
