BIOMEDICAL PHYSICS (B.S.)

Biomedical Physics deals with applications of physics to questions of biology and medicine. It is an interdisciplinary program, combining courses from physics, biology and medicine designed to train students to use quantitative, physical science inspired approaches to problems of the life sciences. Graduates of this program will be prepared for careers or graduate studies in biophysics, medicine, biomedical engineering, medical physics or any other field requiring physical and technological approaches to medical or biological questions.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (http://bulletins.wayne.edu/undergraduate/general-information/admission) to the University. In addition, a student must possess an overall g.p.a of at least 3.0 for the following four courses to become a B.S. candidate in Biomedical Physics:

Select one of the following:

Option 1
- PHY 2130 (PS) Physics for the Life Sciences I
- & PHY 2131 and Physics for the Life Sciences Laboratory
- PHY 2140 (PS) Physics for the Life Sciences II
- & PHY 2141 and Physics for the Life Sciences Laboratory

Option 2
- PHY 2170 (PS) University Physics for Scientists I
- & PHY 2171 and University Physics Laboratory
- PHY 2180 University Physics for Scientists II
- & PHY 2181 and University Physics Laboratory

MAT 2010 Calculus I
MAT 2020 Calculus II

Candidates must complete at least 123 credits in course work including satisfaction of the University General Education Requirements (http://bulletins.wayne.edu/undergraduate/general-information/general-education) and the College of Liberal Arts and Sciences Group Requirements (http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/bachelors-degree-requirements), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (http://bulletins.wayne.edu/undergraduate/general-information/academic-regulations) and the College (http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/academic-regulations) governing undergraduate scholarship and degrees. All students will be required to maintain an overall grade point average of 'C' (2.0) for all degree work elected, as well as a grade point average of at least 2.5 in all major and cognate requirements.

Major Requirements

B.S. candidates must take a minimum of 41 credits including:

PHY 2130 (PS) Physics for the Life Sciences I
or PHY 2170 (PS) University Physics for Scientists I
PHY 2131 Physics for the Life Sciences Laboratory
or PHY 2171 University Physics Laboratory
PHY 2140 (PS) Physics for the Life Sciences II
or PHY 2180 University Physics for Scientists II
PHY 2141 Physics for the Life Sciences Laboratory

or

PHY 2181 University Physics Laboratory II

Select one of the following:

Option 1
- PHY 2170 (PS) University Physics for Scientists I
- & PHY 2171 and University Physics Laboratory
- PHY 2180 University Physics for Scientists II
- & PHY 2181 and University Physics Laboratory

MAT 2010 Calculus I
MAT 2020 Calculus II

Cognate Requirements

B.S. candidates in Biomedical Physics must take:

MAT 2010 Calculus I
MAT 2020 Calculus II
CHM 1220 (PS) General Chemistry I
& CHM 1230 and General Chemistry I Laboratory
CHM 1240 Organic Chemistry I
& CHM 1250 and Organic Chemistry I Laboratory

Select one of the following:

CHM 2280 General Chemistry II: Analytical Chemistry
& CHM 2290 and Analytical Chemistry Laboratory
CHM 2220 Organic Chemistry II
& CHM 2230 and Organic Chemistry II Laboratory
BIO 1500 Basic Life Diversity (or approved BIO elective)
BIO 1510 (LS) Basic Life Mechanisms

Total Credits

Some of these courses can be waived with the approval of the Biomedical Physics Advisor if a proof of proficiency is provided or a higher level course is substituted.

Science Electives

B.S. candidates in Biomedical Physics must take a total of four additional science, mathematics, engineering, or computer science elective classes beyond the requirements listed above. At least one of these classes must come from the field of biology. These four classes can be chosen from the following list:

BIO 2200 (LS) Introductory Microbiology
BIO 2600 Introduction to Cell Biology
BIO 2870 Anatomy and Physiology
BIO 3070 Genetics
BIO 3100 Cellular Biochemistry
BIO 3200 Human Physiology
BIO 4120 (WI) Comparative Physiology
BME 5010 Quantitative Physiology

Select one of the following:

CHM 2220 Organic Chemistry II
& CHM 2230 and Organic Chemistry II Laboratory
