

APPLIED ARTIFICIAL INTELLIGENCE (GRADUATE CERTIFICATE ONLINE)

The Graduate Certificate in Applied Artificial Intelligence (12 credits) provides a foundation in AI concepts, data skills, and ethical deployment for professionals in any field. Students complete four courses in an accelerated 8-week format, including an advanced seminar on AI Strategy. This certificate is designed for non-computer science majors and can be completed in two semesters.

The Graduate Certificate in Applied Artificial Intelligence requires 12 credits, which are listed below.

Code	Title	Credits
