ALTERNATIVE ENERGY TECHNOLOGY (GRADUATE CERTIFICATE)

This program is designed to prepare the scientific and technological workforce for the emerging alternative energy technologies. It offers an efficient way to obtain a certified level of training, especially for working engineers and researchers. It may be taken as a free-standing program or concurrently with a master’s degree program.

Admission Requirements

Admission to this program is contingent upon admission to the Graduate School (http://bulletins.wayne.edu/graduate/general-information/admission). The program will be open to students with a Bachelor’s degree in engineering, chemistry, and physics, and in other mathematics-based sciences in exceptional cases.

The Alternative Energy Technology Graduate Certificate requires a minimum of twelve credits. The core course, AET 5120, is required, and a maximum of four credits is allowed in Research or Directed Studies. Certification procedures in place in WSU’s Graduate School will be followed and students must earn a cumulative g.p.a. of at least a 3.0. Should a student become interested later in pursuing the master’s degree after completing the graduate certificate, up to nine of the twelve certificate credits can be transferred toward the master’s degree. All course work must be completed in accordance with the regulations of the Graduate School (http://bulletins.wayne.edu/graduate/general-information/academic-regulations) and the College of Engineering (http://bulletins.wayne.edu/graduate/college-engineering/academic-regulations).

The Alternative Energy Technology Graduate Certificate is designed to be completed in 1 year.

This program will cost $11,649.82 for in-state tuition and fees and $20,849.86 for out-of-state tuition and fees if completed within normal time. There may be additional costs for living expenses. These costs were accurate at the time of posting, but may have changed.

Fewer than 10 students completed this program within normal time. Typical student debt has been withheld to preserve the confidentiality of the students.

This program does not meet any licensure requirements.
