

PUBLIC HEALTH (BRIDGE GRADUATE CERTIFICATE)

The Bridge Graduate Certificate in Public Health Practice (BGC-PH) provides specialized training for individuals of varying backgrounds and experience who are committed to working in a public health related field. The BGC-PH provides a valuable foundation of core public health knowledge in epidemiology, biostatistics, environmental health, and the social basis of health.

Admission to the BGC-PH is contingent upon admission to the Graduate School (<http://bulletins.wayne.edu/graduate/general-information/admission/>). (See also School of Medicine Graduate Program policies (<http://bulletins.wayne.edu/graduate/school-medicine/programs/>.) Contact the MPH Program (<http://www.familymedicine.med.wayne.edu/mp/>) for specific admission requirements. BGC-PH applications are considered for fall, winter, and spring-summer semesters. Students may enroll in the certificate program concurrently with a regular graduate degree program (e.g. M.S., M.A., or Ph.D.).

BGC-PH candidates must complete a minimum of 15 credits of course work. All course work must be completed within three years in accordance with the regulations of the Graduate School (<http://bulletins.wayne.edu/graduate/general-information/academic-regulations/>) and the School of Medicine (<http://bulletins.wayne.edu/graduate/school-medicine/programs/>) governing graduate scholarship and degrees.
