University Mission
Wayne State's mission is to create and advance knowledge, prepare a diverse student body to thrive, and positively impact local and global communities.

Our vision
Wayne State will be a pre-eminent, public, urban research university known for academic and research excellence, success across a diverse student body, and meaningful engagement in its urban community.

Our values
While our vision and mission show where we want to go, our values guide us on the way. They cut across organizational boundaries, bind us culturally, and permeate our strategic and tactical initiatives. They are the defining traits of the Wayne State community.

- Collaboration: When we work together, drawing upon various talents and perspectives, we achieve better results.
- Integrity: We keep our word, live up to our commitments and are accountable to ourselves and each other.
- Innovation: We are unafraid to try new things and learn by both failure and success.
- Excellence: We strive for the highest quality outcomes in everything we do.
- Diversity and Inclusion: We value all people and understand that their unique experiences, talents and perspectives make us a stronger organization and better people.

Wayne State intends to remain one of the nation's most respected public research universities, and feels that these goals provide a way to make that happen. National recognition is not an end in itself; what matters most is how Wayne State's progress as shaped by these goals will position the university to benefit its students and, ultimately, its city, state, nation and the world.
History of the University

Wayne State University's story begins in 1868 with the founding of the Detroit Medical College, now the School of Medicine. In 1881, the Detroit Normal Training School was established, which is now the College of Education. The now-iconic Old Main Hall was built in 1896 as Central High School, which began adding college classes in 1913. Those classes evolved into the Detroit Junior College (offering a two-year general education program) in 1917, which became the College of the City of Detroit with four-year degree programs in 1923, and now is the College of Liberal Arts and Sciences.

In 1924, the College of Pharmacy was organized, and six years later the first regular graduate courses were offered in liberal arts and education. Frank Cody became the first president in 1933, with the existing colleges united into a university organization, eventually named Wayne University, taken from Wayne County in honor of General Anthony Wayne.

Wayne University continued to grow, adding the School of Social Work, the Law School, and the School of Business Administration. In 1956, it was renamed Wayne State University. In 1963, Wayne State was designated one of Michigan's three constitutionally established universities.

1868 — The Detroit Medical College, forerunner of the School of Medicine, was established.

1881 — The Detroit Normal Training School, forerunner of the College of Education, was established.

1917 — The Detroit Junior College, offering a two-year program in general education, was established in ‘Old Main’ and later developed into the College of Liberal Arts.

1923 — The Detroit Normal Training School became a four-year degree-granting institution under the name of the Detroit Teachers College. The first degrees were granted in 1924. The Detroit Junior College became the College of the City of Detroit with four-year degree programs. The first degrees were conferred in 1925.

1924 — The College of Pharmacy was organized.

1930 — The first regular graduate courses were offered in Liberal Arts and Education. The first Master’s degrees were conferred in 1932.

1933 — The College of Engineering and the Graduate School were established.

1933 — The Colleges of Liberal Arts, Education, Engineering, Medicine and Pharmacy and the Graduate School were united by action of the Detroit Board of Education into a university organization, temporarily called the Colleges of the City of Detroit.

1934 — The name Wayne University was adopted, taken from Wayne County and, ultimately, from General Anthony Wayne.

1935 — The School of Public Affairs and Social Work was organized. In 1950 it became the present School of Social Work.

1937 — The Law School, established in 1927 as Detroit City Law School, came into the University.

1945 — The first doctoral programs were authorized in the fields of Chemistry, Physiological Chemistry and Education.

1946 — The School of Business Administration, originating in the College of Liberal Arts, became the tenth academic unit in the University.

1959 — Monteith College was established.

1959 — Wayne State University became a constitutionally established University by popularly adopted amendment to the Michigan Constitution.

1964 — The Division of Urban Extension was established.

1973 — The College of Lifelong Learning was established as successor to the Division of Urban Extension.

1973 — The College of Pharmacy and Allied Health Professions was established.

1985 — The School of Fine and Performing Arts and the College of Urban, Labor and Metropolitan Affairs were established.

1989 — The name of the School of Fine and Performing Arts was changed to the College of Fine, Performing and Communication Arts.

1993 — The College of Science was established.

2001 — The name of the College of Pharmacy and Allied Health Professions was changed to the Eugene Applebaum College of Pharmacy and Health Sciences.

2002 — The College of Lifelong Learning was discontinued and its programs transferred to other units.

2004 — The College of Liberal Arts and the College of Science were merged into the College of Liberal Arts and Sciences.

2005 — The College of Urban, Labor and Metropolitan Affairs was discontinued and its programs transferred to other units.

2008 — The Irvin D. Reid Honors College was established.

2009 — The Library and Information Science Program was established as the School of Library and Information Science.

2011 — The Warrior football team made its first appearance in the NCAA Division II championship game.

2015 — The name of the School of Business Administration was changed to the Mike Ilitch School of Business.

2017 — The name of the School of Library and Information Science was changed to the School of Information Sciences.

Location of the University

More than 100 buildings provide housing for the services, instructional and research needs of the University and its students and staff. Most academic and service units of the University are located on the main campus in Midtown Detroit, largely bounded by York Street on the north, Woodward Avenue on the east, Forest Avenue on the south and Trumbull Street on the west. The major classroom, laboratory, library and other academic buildings are located east of the John C. Lodge Freeway; most of the athletics and recreational facilities are on the west side of the freeway.
The School of Medicine and its affiliated teaching hospitals and clinics are located a short distance south and east of the main campus in the Detroit Medical Center. The Eugene Applebaum College of Pharmacy and Health Sciences is also located on the medical campus. Certain smaller instructional and service units are located in other parts of the metropolitan area.

### Academic Calendar 2020-2021

#### Fall Term: 2020

- **University Year Appointments Begin**: August 18, 2020
- **Priority Registration**: March 30 - August 23, 2020
- **Open Registration**: August 24 - August 31, 2020
- **Semester Begins**: August 30, 2020
- **Classes Begin**: September 1, 2020
- **Holiday - University Closed**: September 7, 2020
- **Late Registration, Late Adds**: September 1 - September 8, 2020
- **Late Registration, Late Adds, Instructor Approval Required**: September 9 - September 15, 2020
- **Last Day to Drop w/ Tuition Canceled**: September 15, 2020
- **Early Assessment-Mid-Term Grading**: September 17 - October 14, 2020
- **Degree Applications Due**: October 2, 2020
- **Federal Election Holiday - University Closed**: November 3, 2020
- **Last Day to Withdraw**: November 15, 2020
- **Holiday - No Classes**: November 25, 2020
- **Holiday - University Closed**: November 26 - November 28, 2020
- **Commencement**: To Be Determined
- **Classes End**: December 14, 2020
- **Study Day - Final Exams May Not Be Scheduled**: December 15, 2020
- **Final Exams**: December 16 - December 22, 2020
- **Final Grades Due**: December 25, 2020
- **Semester Ends**: December 31, 2020
- **Holiday - University Closed**: December 25, 2020 - January 1, 2021

#### Spring/Summer Term: 2021

- **Priority Registration**: February 8 - May 9, 2021
- **Classes Begin**: May 10, 2021
- **Late Registration**: May 10 - May 23, 2021
- **Last Day to Drop w/ Tuition Canceled**: May 23, 2021
- **Holidays Closed**: May 31, 2021
- **University Closed**: June 4, 2021
- **Day Scheduled as a Monday**: June 7, 2021
- **Degree Applications Due**: June 11, 2021
- **Final Exams**: June 14 - June 20, 2021
- **Final Grades Due**: June 25, 2021
- **Semester Ends**: July 1, 2021
- **Holiday - University Closed**: July 3 - July 5, 2021
- **Census Date**: July 6, 2021
- **Last Day to Withdraw**: July 18, 2021
- **Classes End**: July 30, 2021

#### Winter Term: 2021

- **Priority Registration**: November 2, 2020 - January 3, 2021
### Spring Term: 2021

### Academic Regulations

#### Academic Calendar

Each student, except those in the annual Doctor of Medicine program, is required to register at the beginning of each term of attendance according to the procedure and schedule published in the official University Schedule of Classes (http://www.classschedule.wayne.edu/). Registration must be completed before the student may attend classes. For registration dates, the student should consult the Academic Calendar (p. 10).

#### Class Ranking

Ranks are determined according to the number of degree credits which the student has satisfactorily completed. The classifications are:

- **FRESHMAN**: 0 to 28.99 credits, inclusive
- **SOPHOMORE**: 29 to 55.99 credits, inclusive
- **JUNIOR**: 56 to 87.99 credits, inclusive
- **SENIOR**: 88 credits or above

#### Definition of Credits

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that reasonably approximates not less than:

1. one hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester hour of credit, or the equivalent amount of work over a different amount of time; or
2. at least an equivalent amount of work for other activities, including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

#### Normal Program Load

A full-time undergraduate student is one who is enrolled for twelve or more credits during a semester. The definition of a normal course load will vary depending upon the requirements of each program. In general, for completion of undergraduate degree requirements in four years, full-time students should average fifteen to eighteen credits each semester during the academic year. Undergraduate students may not elect more than eighteen credits per semester except by written consent of the Dean or advisor. Individual Schools and Colleges may set credit restrictions below those specified here; for details see their respective sections of this bulletin.

#### Auditing Courses

To audit a course, a student must indicate that he/she wishes to audit the course rather than receive academic credit, at the time of registration. Registration to audit a course is subject to the following regulations:

1. Students must pay the tuition assessment for the course, which is the same as if it were taken for academic credit;
2. A student is not permitted to take quizzes and examinations in audited courses;
3. A student may not normally change from audit status after registering for the course. In some cases, exceptions may be permitted during the term with the written recommendation of the instructor and the written approval of the Dean of the college/school in which the student is enrolled. The instructor’s recommendation and Dean’s approval must be included with the student’s Drop/Add Form indicating the desired change.

The Graduate School does not encourage students to audit graduate-level courses.

**Dual Enrollment**

**Undergraduate Election of a Graduate Course:** Highly qualified undergraduate students may, under special circumstances, take a 7000-level course for undergraduate credit only. A written petition initiated by the student’s advisor must be approved by the graduate officer of the School or College, the professor teaching the course, and the Dean of the Graduate School. The petition, with all required signatures, must be turned in at the time of registration.

**Senior Rule Graduate School Admission:** In their last semester, undergraduate students with a 3.0 (or above) upper division grade point average who have completed all general education competencies (mathematics, basic composition, intermediate composition, oral communication, critical thinking, and computer literacy), have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree work. A Senior Rule student must register for at least one credit which is required for the undergraduate degree in order to be eligible for this status. Students who have completed all required courses for the baccalaureate degree may not obtain Senior Rule status. Completion of the Application for Graduate Admission form is required, and students are advised to consult their advisors and the Office of Graduate Enrollment Services. Application deadlines for Senior Rule admission are the same as for regular graduate admission. Students who qualify and are recommended by the Department or College will be admitted for one semester. Graduate admission will be regularized upon evidence that the student has completed all requirements for the bachelor’s degree.

The University permits a student to pay undergraduate fees for the graduate courses elected in a Senior Rule status. It is recommended that students elect only courses numbered 5000-6999 in their Senior Rule semester. Senior Rule may not be used in conjunction with AGRADE.

**Dual Enrollment:** Graduate students may register for undergraduate courses, however these courses will be recorded on the undergraduate transcript. All courses elected under this status will be assessed at the graduate rate. These courses cannot be used as graduate credit nor to meet requirements for any graduate degree.

**Dual Registration at the University of Michigan:** A student enrolled at either Wayne State University or the University of Michigan may elect a course or courses in the other institution if the course fits his/her program but is not available in his/her home institution. The student must have written approval of the department chairperson in his/her major area at the home college and the approval of his/her Dean. The election must also be approved by the department which offers the course. Students desiring to participate in Wayne State University - University of Michigan dual registration should obtain the necessary forms from the Office of the Registrar and pay the appropriate tuition at their home institution.

**Undergraduate Course Numbering Systems**

***For the College of Education***

- 0000-4999 — Undergraduate credit only.
- 5000-6999 — Undergraduate or graduate credit.

***For Pharmacy Departments***

- 0000-2999 — Preprofessional Courses.
- 3000-3999 — First Professional Year Courses.
- 4000-4999 — Second Professional Year Courses.
- 5000-5999 — Third Professional Year Courses.
- 6000-6999 — Undergraduate/Graduate Courses.

***For All Other Schools and Colleges***

- 0000-0999 — No degree credit; graded S and U.
  - **Mike Ilitch School of Business:** Elementary courses auxiliary to the usual academic program.
  - **College of Engineering:** Orientation courses.
  - 1000-1999 — Primarily freshman courses; open to all undergraduates.
  - 2000-2999 — Primarily freshman and sophomore courses; open to all undergraduates who have completed course prerequisites.
  - **Mike Ilitch School of Business:** Primarily junior college courses.
  - **College of Engineering:** Lower division courses; open to all undergraduates.
  - 3000-4999 — Junior and senior courses; undergraduate credit. (Ordinarily freshmen and sophomores will not be permitted to register for these courses.)
  - **College of Engineering:** Upper division courses.
  - 5000-6999 — Junior and senior courses; undergraduate and graduate credit.

**Undergraduate Grading System**

Final grades are available on Academica (http://academica.wayne.edu/). Grades are not mailed to students. Final grades are recorded under the following system.

**Undergraduate Grades**

<table>
<thead>
<tr>
<th>Grade</th>

</tbody>
</table>
Passed – Not Passed Program
The University has a program whereby undergraduate students may elect to take courses in which they will be marked as Passed (P) or Not Passed (N) in place of a letter grade. The following regulations apply:

1. The student may elect one P-N course per semester with the consent of an advisor, but he/she may not elect more than six courses in all.
2. After classes have begun, a student may not change from Passed/Not Passed to a letter grade election or vice versa.
3. Courses taken for P-N may be used to satisfy competency requirements; however, no course taken on this basis may be used to fulfill specific group or major requirements.
4. Credits for a P-N course may be used to fulfill graduation requirements; however, no course taken on this basis may be used to fulfill specific group or major requirements.

Unofficial Withdrawal Passing – The mark of WP
The mark of WP is given when the student drops the course in accordance with University policy and the student had earned a passing grade as of the date the withdrawal is approved.

Unofficial Withdrawal Failing – The mark of WF
The mark of WF is given when the student withdraws from the course in accordance with University policy and the student had earned an F grade as of the date the withdrawal is approved.

Unofficial Withdrawal No Basis for Letter Grade – The mark of WN
The mark of WN is given to students when there is no basis for a letter grade.

Deferred – The mark of Y
The mark of Y is given when the student is up-to-date in the work of a course planned to continue beyond the semester (i.e., essay, thesis, dissertation and certain courses taken in sequence).

Auditor – The mark of Z
The mark of Z is given when the student has formally registered for the course for audit. The student's Academic Dean or his/her designee must provide written audit authorization to the student at the time of registration.

Repeating Courses – The mark of R
COURSES REPEATED PRIOR TO WINTER TERM 1998:

1. The grade, grade points and credits for an earlier attempt will be eliminated from the student's grade point average computation.
2. The grade, grade points and credits of only the latest repetition will be included in the student's grade point average computation.
3. An R on the student's academic record will replace the original grade as of the date the withdrawal is approved.

COURSES REPEATED WINTER TERM 1998 TO SPRING/SUMMER TERM 2006:

1. The grade, grade points and credits for an earlier attempt will be eliminated from the student's grade point average computation.
2. The grade, grade points and credits of only the latest retake will be included in the student's grade point average computation.
3. The original grade in the course repeated under this rule will remain on the student’s academic record. Earlier attempts will be flagged for exclusion in the g.p.a. calculation and the latest attempt will be flagged for inclusion in the g.p.a. calculation.

COURSES REPEATED FROM FALL TERM 2006 TO THE PRESENT:

If an undergraduate student repeats a course and completes it with a grade of A, A-minus, ANC, B-plus, B, B-minus, BNC, C-plus, C, C-minus, CNC, D-plus, D, D-minus, or F, the following rules will apply in posting the student’s cumulative record:

1. No student shall attempt to take a class more than four (4) times (for a definition of ‘attempt,’ see 5, below).
2. If a student anticipates an attempt to take a class for the third (3rd) time, he/she must meet with an academic advisor to receive permission for this attempt.
3. If a student anticipates an attempt to take a class for the fourth (4th) time, he/she must obtain written permission from the chair (or his/ her designee) of the department offering the course and the chair (or his/her designee) of the student’s home department.
4. When a course is repeated, credit is only granted once. The last grade and credit hours awarded may be.
5. Withdrawals, incompletes, as well as courses repeated in an effort to earn higher grades will count as attempts. If a student drops the course before a W would appear on the transcript, this is not counted as an attempt, i.e. the student does a drop or a drop/add to another course. If tuition has been assessed and the time for refunding tuition has passed but the time for having a W appear on the transcript has not, the tuition will not be refunded, but the registration will not count towards the allowed attempts.
6. Any student who has repeated three different courses must meet with an academic advisor for permission to repeat another course.
7. There shall be an appeals process to the dean’s office of the colleges offering the course and the student’s home department.

After a degree has been granted, no grade computed in that degree may be changed.

If a post-bachelor status student repeats a course originally taken under regular undergraduate status, the repeat will in no way modify the earlier attempt. The second election, however, will be averaged in the grade point average.

Mike Ilitch School of Business: No course in which a student has received a passing grade or mark may be retaken without the prior written approval of the Director of Student Services of the Mike Ilitch School of Business.

College of Engineering: No course may be retaken without the prior written approval of the respective department’s Graduate Program Chairperson and the Associate Dean of Engineering for Graduate Studies. Students may not retake any course in which a grade of ‘A’ or ‘B’ was received.

Eugene Applebaum College of Pharmacy and Health Sciences: No course may be retaken without the consent of the advisor(s) delegated for each professional curriculum.

Transfer of Undergraduate Credits

Wayne State University policy accepts transfer credit from all accredited institutions of higher education, both community colleges and baccalaureate-granting colleges and universities.

No transfer grades apply in computing Wayne State grade point averages.

Transfer Credit from Regionally Accredited Institutions: Wayne State University will accept equivalent academic credit from regionally accredited baccalaureate-granting institutions, and up to sixty-four semester credits from community colleges and other regionally accredited institutions which offer Associate Degrees. (All credits will be evaluated in the latter case; the most relevant sixty-four credits will apply to the degree.) Courses must be completed with a grade of C or higher to transfer to Wayne State.

Credit from Institutions NOT Regionally Accredited: Wayne State University will accept transfer credit from other accredited institutions, provided that the institution:

1. grants a baccalaureate or associate degree;
2. is fully accredited by an agency recognized by the Council on Postsecondary Education (COPE); and
3. the courses presented for transfer are shown to have equivalency or are determined to be of a traditional academic nature.

Transfer Credit from Institutions in Candidacy Status: Wayne State University will accept for transfer those credits for which a grade of B or higher was earned from institutions with candidacy status from a regional accrediting agency.

Technical, Vocational and Applied Credit: To facilitate transfer of students, Wayne State University will accept for transfer up to twelve semester credits earned in technical, vocational and applied (TVA) courses at two- and four-year colleges if such courses are determined to be related to a student’s intended program. For students transferring from associate degree granting institutions, the twelve TVA credits will be included in the sixty-four credit limitation.

Transfer of Remedial or Developmental Course Work: Credit earned in courses designated remedial or developmental will not transfer.

Transfer of Redundant or Duplicative Course Work: Transfer credit will not be awarded for redundant course work (i.e., courses with substantially duplicative content). Credit will be awarded for only one course in any set of redundant courses.

Residency and Upper Division Requirements: Transfer students will be required to meet the University and College residency requirements and to obtain the same number of upper division credits in fulfillment of the baccalaureate degree as are required of native students in specific major programs.

Junior Standing: Wayne State University will award junior standing to all transfer students for whom fifty-six or more transferable semester credits have been accumulated, whether they are transferred credits or credit earned at Wayne State University. Junior standing will not guarantee automatic entry to major and professional programs in the Schools and Colleges. Transcripts will be individually evaluated to determine whether all prerequisites for major and professional standing have been met by native and transfer students.

Advanced Placement Tests

Superior performance in the College Board Advanced Placement Tests will entitle an entering freshman to consideration for advanced placement and/or advanced standing credit in the areas covered by the
College-Level Examination Program

The College Board sponsors the College-Level Examination Program (CLEP). This program gives students and prospective students the opportunity to demonstrate their academic proficiency at the freshman-sophomore college level in various areas and in specific subjects whether or not they have had previous formal college instruction in materials covered by the tests. As described by the College Board, the examinations are intended to provide a comprehensive measure of undergraduate achievement in the five basic areas of the liberal arts:

- English composition
- humanities
- mathematics
- natural sciences
- social sciences

They are not intended to measure advanced training in any specific discipline, but rather to assess a student’s knowledge of fundamental facts and concepts, his/her ability to perceive relationships and his/her understanding of the basic principles of a subject. The content of the Examinations is similar to the content of those subjects ordinarily included in the program of study required of most general education students in the first two years of college.

The Subject Examinations are essentially end-of-course tests developed for widely taught undergraduate courses. They measure understanding of basic facts and concepts, as well as the ability to apply such understanding to the solution of problems and the interpretation of materials. Questions that require of a student only rote recall are avoided.

Superior performance in these examinations will be considered as a basis for granting advanced placement and/or advanced standing credit as well as for waiving parts of the General Education Requirements of the University (see General Education Program (p. 35)). For further information, please consult advisors, school or college offices, or University Advising Center at 313-577-8889.

Credit by Special Examination

Upon the recommendation of the Department Chairperson and with the written approval of the appropriate College or School office, a student may earn credit in a course in which he/she has not been regularly enrolled in this University, but which is offered by a Department, by passing a special examination. Credit by a special examination is restricted as follows:

1. Not more than sixteen credits may be earned in any one subject.
2. Credit will be recorded with grade to indicate the level of performance in the examination but will not be considered in computing grade point average.
3. Credit will not be considered residence credit.
4. To be eligible to earn Credit by Special Examination, a student must have been regularly admitted or have attended with guest status, have enrolled for one semester and have completed at least one course.

Students who intend to transfer to other schools are cautioned that Credit by Special Examination at one institution is infrequently accepted for transfer credit by another institution.

Grade Point Average

The grade point average (g.p.a.) is the numerical index of the student’s scholastic average across all transcript credit earned at a given student level (i.e. undergraduate or graduate). Points are assigned to each letter grade (see University Grading System, above) for each hour of credit. To compute your grade point average, multiply the grade points assigned to each course grade by the number of credits for each course; add the results and divide by the total number of credits.

For example, a grade of A in a class carrying 3 credits would be assigned 12 grade points (3 x 4), and a grade of C in a class carrying 4 credits would be assigned 8 grade points (4 x 2). In this example, the grade point average is: 20 (total grade points) divided by 7 (total credits attempted) = 2.85 g.p.a.

Credit for special examinations, transfer credit, and courses in which a mark of I, W, WF, WN, or WP or a grade of S, U, M, P, and N, has been earned are excluded from grade point average computation.

Law School: This grade point system does not apply to Law School students.

Obligations to the Instructional Process

Since education is a cooperative effort between teacher and student, both parties must fulfill obligations if the integrity and efficacy of the instructional process are to be preserved.

Responsibilities of Faculty Members

1. To contribute to and remain abreast of the latest developments in their fields;
2. To continually pursue teaching excellence;
3. To treat all students with respect and fairness without regard to ancestry, race, color, religion, political belief, national origin, gender, sexual orientation, age, marital status, disability, or veteran status;
4. To encourage differing viewpoints and demonstrate integrity in evaluating their merit;
5. To attend regularly and punctually, adhere to the scheduled class and final examination times, and arrange for notification of absence and coverage of classes;
6. To establish and maintain appropriate office hours;
7. To present, early in the semester, the following course information:
   a. course objectives and general outline;
   b. classroom procedures to be followed, expectations concerning class attendance, and proposed dates of major evaluations (including examinations, papers, and other projects);
   c. grading policy;
   d. where appropriate, a schedule of class-related activities, including class meetings and laboratory sessions;
   e. lists of texts and/or other materials needed for the course;
   f. late enrollment, withdrawal, and other special policies.
8. To provide and adhere, within reasonable limits, to the written syllabus of the course;
9. To know course matter thoroughly and prepare and present the material conscientiously;
10. To be informed of University services and recommend their use to students when advisable;

11. To follow these policies concerning written work and grades:
   a. grade and return written work promptly;
   b. submit final grades by the scheduled time;
   c. retain written materials not returned within the semester (e.g., final examinations, major term papers) for one academic semester in accordance with unit policy and allow students to examine such materials;

12. To implement unit procedures for student evaluation of faculty teaching, with attention to preserving student anonymity;

13. To behave appropriately in dealing with students so as to maintain a scholarly atmosphere

**Responsibilities of Students**

1. To inform themselves of and to fulfill all requirements of the University and those of the College and Department from which they expect to receive their degree;

2. To fulfill conscientiously all assignments and requirements of their courses;

3. To attend classes regularly and punctually;

4. To maintain a scholarly, courteous demeanor in class;

5. To uphold academic honesty in all activities;

6. To notify the instructor as early as possible if prevented from keeping an appointment or carrying out an assignment;

7. To discuss with the instructor any class-related problem and follow established procedures in the resolution of these problems;

8. To adhere to the instructor’s and general University policies on attendance, withdrawal, or other special procedures.

It is expected that faculty and students will fulfill their obligations to the instructional process. If, however, a complaint does arise, the parties should meet in an effort to resolve the matter. When such a discussion fails to resolve the problem or is inappropriate given the circumstances, the head of the academic unit should be contacted. If this contact fails to satisfy the complaint, the College’s published procedures should be followed. Although the University Ombudsperson is not a direct part of the appeal process, students and faculty may consult the Ombudsperson at any point during such proceedings.

**Classroom Attendance Policy for Undergraduate Students**

Whenever attendance forms a basis for a portion or all of a course grade, students must be provided with explicit written information concerning that fact during the first week of classes. Such information shall be specific with regard to the penalty incurred for each absence and the means, if any, to compensate for the absence. It should be recognized that there may be certain situations where the student may not be permitted to make up the absence(s).

It is recognized that students may be required to miss classes on occasion as a result of their participation in approved University activities. Examples of such activities include formal participation on University sports teams, debate teams, and performing arts groups. These activities are generally directed by a University official, such as a coach, and usually have a set schedule of events.

Students participating in approved University activities should consult with instructors prior to registration, but no later than the end of the second week after the start of classes, to determine the class attendance policy. At this time, the student should provide the instructor with a schedule of planned absences, preferably signed by the University official directing the activity (e.g., Athletic or Program Director or his/her designee), in order to allow the instructor to evaluate and advise the student on the possible impact of the planned absences. In this case, the instructor will consider absences due to participation in approved University activities, as outlined above, to be excused absences, on par with those due to other unavoidable circumstances such as illness. For classes requiring mandatory attendance incompatible with the number of planned absences, students will be advised to register, if possible, during a semester in which they will not be participating in the University activity (for example, during the off-season for a sports team or during the summer).

It is the student’s responsibility to learn the course material. When classes are missed, for whatever reason, it is the student’s obligation to obtain copies of the class materials and students are responsible for all materials covered in the lectures. An excused absence does not excuse the student from completing assigned work, including exams.

This policy shall be applicable to all courses within the University.

**Responsible Attendance and Performance**

Students must show diligence and are normally expected to complete the courses they elect. Irresponsible attendance is wasteful of both student and University resources. Those students who consistently receive excessive marks of I (incomplete), WF (Withdrawal Failing), WN (Withdrawal No Basis for Letter Grade), or WP (Withdrawal Passing) may be refused the privilege of further registration by the dean or the dean’s designee of their school or college.

**Student Code of Conduct**

High standards of student conduct play a major role in creating an environment of excellence and the Student Code of Conduct is used to maintain these standards. The code:

1. establishes the expectations that students are accountable for their behavior;
2. describes acceptable student conduct, both academic and non-academic;
3. describes disciplinary policies and procedures;
4. specifies the rights of students and other parties; and
5. specifies prohibited conduct and sanctions to be imposed if such conduct occurs.

Examples of prohibited conduct subject to the Student Code of Conduct include, but are not limited to, academic misbehavior, knowingly furnishing false information to the University, disorderly behavior, theft, damage of property, illegal drugs, weapons on campus, physical assault, unauthorized entry, violation of criminal law, etc.

**The University Student Conduct Officer**, housed in the Dean of Students Office, monitors the student disciplinary process and is responsible for coordinating matters involving student discipline; describing the disciplinary procedures; and informing students and other parties of their rights. Copies of the Student Code of Conduct can be found online (http://www.doso.wayne.edu/codeofconduct.pdf) or in the Dean of Students Office, 351 Student Center.

**Student Academic Ethics**

Academic Records: The submission of fraudulent academic records for admission or transfer of credit by a student may be cause for the student’s dismissal.
Academic Work: Academic work submitted by a student for credit is assumed to be of his/her own creation, and if found not to be, will constitute cause for the student's dismissal.

Student Rights and Responsibilities
Upon the recommendation of the Student-Faculty Council, the University (Faculty) Council, the President-Deans Conference and the President, the Board of Governors, in January, 1967, approved a comprehensive statement of Student Rights and Responsibilities for the University. Copies of this document are available to students and faculty in the offices of the deans of each College and the Dean of Students Office.

Law School: The faculty of the Law School has approved a set of academic regulations specifically applicable to Law School students, copies of which are available to all students enrolled in the Law School.

Undergraduate Academic Probation
An undergraduate student whose cumulative grade point average (g.p.a.) falls below 2.00 will be placed on Academic Probation. An 'Academic Probation' status is placed on the student's record and the student shall be permitted to register only after consultation with, and approval has been granted by, a designated University advisor.

A student shall be given two subsequent terms for enrollment on probationary status. At the conclusion of the two terms, a student who has not achieved a cumulative g.p.a. of at least 2.00 shall be excluded from his/her program. A student excluded from the University may not apply for readmission or reinstatement for one calendar year.

Each School and College may establish more stringent Probation, Exclusion, and Appeal policies, and students should consult the appropriate Dean's Office. Students must consult with an academic advisor regarding appropriate deadlines for academic hold releases and/or reinstatement procedures.

Grade Appeal Procedure
Students should first seek to settle grade disputes informally with the instructor. Each College and School has established formal grade appeal procedures. These procedures are available from the Dean's Office of the College or School. In most instances, formal grade appeals must be filed within thirty days of the time the student has or should have received his/her final grade.

Academic Appeal Procedure
In matters where a College's signed final decision is based upon the evaluation of a student's academic performance, and when review procedures available to him/her within the College have been exhausted, the student may request the Associate Provost for Academic Programs to review that decision on the record. The academic appeal form must be submitted by the student himself/herself, within thirty calendar days of the postmark of the College's final decision, which is to be sent to the address provided by the student in the College's review procedures. The Associate Provost's review of the College's decision will proceed as soon as practicable after submission by the student of his/her wish to seek review. The form is located at https://provost.wayne.edu/academic-policy (https://provost.wayne.edu/academic-policy/)

Academic Nepotism Policy
Faculty members are not to place themselves, or allow themselves to be placed, in situations amounting to 'academic nepotism,' i.e., teaching or otherwise directing the credit study or research of a student who is also a close relative. Concomitantly, students are not to take courses from close relatives or engage in research for academic credit under the direction of close relatives. All such credit will be disallowed.

Fraud and Misuse of Documents
Intentionally furnishing false information to the University is explicitly prohibited, as is forgery, alteration, unauthorized possession, or misuse of University documents, records and identification cards. The University reserves the right to rescind degrees if the award of the degree was based in whole or in part on deception, fraud, other unacceptable academic conduct, or misuse of University documents.

Accreditation
Wayne State University as a whole is accredited as a doctoral degree-granting institution by the regional accrediting agency.

Mike Ilitch School of Business
BS and BA, MBA, MS in Accounting, Finance, or Global Supply Chain, and PhD: Accreditation Council of AACSB International – The Association to Advance Collegiate Schools of Business (AACSB)

Education
Art Therapy Program: American Art Therapy Association

Radiation Therapy Technology (undergraduate): Joint Review Committee on Education in Radiologic Technology (JRCERT)
Radiologic Technology (undergraduate): Joint Review Committee on Education in Radiologic Technology (JRCERT)

Social Work
Bachelor of Social Work and Master of Social Work: Council on Social Work Education (CSWE)

Administration of the University

The general governance of Wayne State University is constitutionally vested in the Board of Governors, consisting of eight popularly elected members and the President of the University, who is named by the elected members. The President is the chief executive officer of the University and is charged by the Board of Governors with responsibility for its administration. For educational and administrative purposes, the University is organized into major academic units—schools, colleges, divisions, centers and institutes. The following schools, colleges and divisions constitute the heart of the University:

Mike Ilitch School of Business
College of Education
College of Engineering
College of Fine, Performing and Communication Arts
Irvin D. Reid Honors College
Graduate School
Law School
College of Liberal Arts and Sciences
School of Information Sciences
School of Medicine
College of Nursing
Eugene Applebaum College of Pharmacy and Health Sciences
School of Social Work

The Dean of the College or School is its chief executive officer. More than half the Colleges and Schools are organized into departments or divisions, each administered by a chairperson (or head). Academic standards, curricular development, course revision and similar academic matters are the primary responsibility of the faculty and dean of the
College or School, although these matters are subject to review and approval by the Provost and Senior Vice President for Academic Affairs and by the President and, whenever they involve major educational policy decisions, by the Academic Senate.

The Graduate School is the central unit for the supervision and encouragement of graduate work in the University and has basic responsibility for the improvement and review of existing programs and the approval of new graduate programs. Except for applicants and candidates for the Doctor of Philosophy degree, the detailed supervision of graduate students’ work is conducted by the College and School and, where appropriate, by the departments.

All degrees are granted by the University through the Colleges and Schools, except that the Dean of the Graduate School, with the approval of the Graduate Council, recommends candidates for the Doctor of Philosophy degree, selected master’s degrees and interdisciplinary graduate certificate programs.

Board of Governors
BRYAN C. BARNHILL, II
MICHAEL BUSUITO MARK GAFFNEY
MARILYN KELLY, Chair

RICHARD BIERSCBACH, J.D., Dean of the Law School
MONICA BROCKMEYER, Ph.D., Senior Associate Provost for Student Success
AMANDA BRYANT-FRIEDRICH, Ph.D., Dean of the Graduate School
JON CATHORNE, Ph.D., Dean of the University Libraries and the School of Information Sciences
JOHN CORVINO, Ph.D., Dean of the Irvin D. Reid Honors College

STEFANIE HARTWELL, Ph.D., Dean of the College of Liberal Arts and Sciences
SHERYL KUBIAK, Ph.D., Dean of the School of Social Work
R. DARIN ELLIS, Ph.D., Associate Provost for Academic Programs and Associate Vice President for Institutional Effectiveness
ROBERT FORSYTHE, Ph.D., Dean of the Mike Ilitch School of Business
FARSHAD FOTOULI, Ph.D., Dean of the College of Engineering
SARA KACIN, Ph.D., Assistant Provost for Faculty Development and Faculty Success and Director of Office for Teaching and Learning
CELESTE LEZUCH, M.S.A., Assistant Vice President for Academic Administration
CATHERINE LYSACK, Ph.D., Interim Dean of the Eugene Applebaum College of Pharmacy and Health Sciences
TONYA MATTHEWS, Ph.D., Associate Provost for Inclusive Workforce Development and Director of STEM Learning Innovation
DAWN MEDLEY, Ed.S., Associate Vice President of Enrollment Management
TIMOTHY MICHAEL, M.Ed., Associate Vice President for Student Auxiliary Services
MARK SCHWEITZER, M.D., Dean of the School of Medicine and Vice President of Health Affairs
MATTHEW SEEGER, Ph.D., Dean of the College of Fine, Performing and Communication Arts
DAVID STRAUSS, Ph.D., Dean of Students
ANITA G. WELCH, Ph.D., Dean of the College of Education
T.B.A., Dean of the College of Nursing

Admission: Graduate School
OFFICE OF GRADUATE ADMISSIONS
5057 Woodward, Suite 6305
Detroit MI 48202
Telephone: 313-577-4723; Fax: 313-577-0131
http://wayne.edu/admissions/graduate (http://wayne.edu/admissions/graduate/)

Admission: Graduate
To be considered for graduate admission, an applicant must hold or be completing an earned baccalaureate degree or its equivalent from a college or university of recognized standing and have adequate preparation with discernible ability to pursue graduate studies in the major field elected. These criteria are subject to standards set by the individual Colleges and Schools, which reserve the right to revise or amend their entrance requirements beyond the minimal requirements of the University. Note: Proof of the earned bachelor’s degree must be submitted before regular admission will be granted.

Before any student can be considered for admission to graduate study, the following must be submitted to the Office of Graduate Admissions: A completed online Application for Graduate Admission and an official transcript from any college or university at which a bachelor’s degree was earned. A transcript is considered official only if it is sent directly from the institution where the course work was completed and bears an official seal. International applicants are expected to submit additional documentation for regular admission. Note: The applicant is also responsible for arranging to take any examinations that may be specified by the Office of Graduate Admissions, the College, or the Department in which the student intends matriculation.

Some academic programs may require an additional departmental application for admission. Students are advised to contact the department to which they are applying and request full particulars on admission procedures.
In most departments (see the departmental sections of this bulletin for variants), a regular admission may be authorized for the domestic master’s degree applicant upon the department’s recommendation, if the applicant’s grade point average is 2.75 (‘C’=2.00) or above for the upper division (approximately the last sixty semester credits) of his/her undergraduate course work and if he/she holds a bachelor’s degree from a regionally accredited institution.

All baccalaureate graduates of unaccredited institutions must present a 3.00 (‘B’) or better upper-division grade point average to be considered for graduate admission. Course work completed after the baccalaureate which is presented as the qualifying basis for graduate admission cannot be applied toward a graduate degree at Wayne State University.

Doctoral applicants must present higher entrance qualifications than those required of master’s degree applicants. A doctoral applicant is required to have an undergradate grade point average of 3.0 (‘B’=3) or above for the upper division of the undergraduate, bachelor’s degree course work and must have completed an undergraduate major or substantial specialized work in his/her proposed doctoral major field. Certain departments require the completion of a master’s degree with superior scholarship before considering acceptance of a student as a doctoral applicant. Applicants with less than a 3.0 grade point average in undergraduate course work may be eligible for admission to doctoral study if they have subsequently achieved a grade point average of 3.0 or better in substantial graduate course work in the proposed doctoral field.

The individual colleges reserve the right to refuse a non-resident admission if such admission prevents registration of a qualified Michigan resident. This ruling may not be invoked to secure admission to a Michigan resident if his/her grade point average entitles him/her to qualified status only.

Admission: Qualified Graduate

In most Departments, qualified admission to a master’s or certificate program may be authorized if an applicant’s grade point average is between 2.50 and 2.74 or if his/her degree is from a non-accredited institution, provided the major Department and the Graduate Officer of the appropriate School or College have reviewed the applicant’s academic experience, extra-scholastic qualifications and reasons for pursuing graduate study and have recommended his/her admission to the Graduate School.

Upon recommendation of the Department and the Graduate Officer of the appropriate College or School, qualified status may be granted to an applicant whose grade point average is below 2.5, if, since the time his/her baccalaureate degree was conferred, he/she has shown substantial evidence of academic or extra-scholastic qualifications of such merit as to warrant special consideration.

Applications from students who have completed substantial course work at, and/or graduated from, institutions which were not accredited by one of the six regional U. S. accrediting institutions (MSCHE, NEASC, HLC, NWCCU, SACS, or WSCUC) at the time studies were undertaken, will have a special review. If requested, the applicant will be required to furnish documentation of the nature and level of the credit obtained, the bases on which the credit was awarded, institutional operating practices, library holdings, physical facilities, faculty qualifications, and any other matters that may be relevant to an evaluation of credit. The director of admissions is authorized to deny admission to any applicant whose previous education does not conform to Graduate School standards. The Office of Graduate Admission may also make recommendations concerning the appropriateness for transfer of previously completed graduate course work.

All graduate admission procedures and regulations are subject to revision by the University Graduate Council at any time.

Graduate Application Dates

The Office of Graduate Admission will make every effort to process applications in time for the semester of the student’s choice. However, only complete applications received by the last recommended dates shown below are ensured academic review before the semester starts. Unless an application and all supporting materials are received by the date indicated, there may not be adequate time for the desired program to review the application and make the admission decision.

- Fall Term — Classes begin Late August: apply by June 1
- Winter Term — Classes begin Early January: apply by October 1
- Spring Term — Classes begin Early May: apply by February 1

For international students, the application form and all transcripts and documents must be on file in the Office of Graduate Admission at least four months prior to the start of the term in which the applicant plans to begin graduate studies.

Several Colleges and Departments have earlier deadlines. Doctoral programs also have earlier application deadlines. Students should consult the School/College and Department sections of this bulletin, the program’s website, or the Office of Graduate Admissions for complete information.

Change of Graduate Status

A Change of Graduate Status is a type of admission only for those students who have previously been admitted to and registered as regular graduate students at WSU. For such students, a Change of Graduate Status is used to request:

1. to change from one graduate program or level to another graduate program or level; or
2. to add a second graduate program to the one in which the student is already enrolled.

A department’s normal admission criteria apply to Change of Graduate Status applicants. The application form (http://gradschool.wayne.edu/current/forms.php) is downloadable from the Graduate School.

Students should submit the form and transcripts, if needed, to the Graduate Office of the School/College of the new program. Other admission documents required by the department should be submitted directly to the department. The School/College Graduate Office prepares and sends the application and documents to the department for decision. The Graduate Office notifies the student of the admission decision, and, if admission was approved, notifies the Records Office of the change to be made to the student’s record. The department’s regular admission deadlines apply. No fees are charged for a Change of Status application.

The Change of Graduate Status application should NOT be used by the following students: those who have never been admitted through the Office of Graduate Admissions, those who were admitted but did not register, those who were admitted on a Permit to Register or as Guest students, and those who have been registered in graduate classes only as Non-Matriculated students through the College of Liberal Arts and Sciences.

Graduate Non-Degree Admission

An applicant who wishes to take graduate courses but does not wish to be in a degree program may request admission on a non-degree basis. The eligible applicant will be admitted to a particular College but not to an individual major program. In most instances, a non-degree student may,
with the Department's approval, register for any courses for which he/she has the necessary preparation.

The applicant for a non-degree graduate classification is cautioned that only one semester of full-time graduate study, or part-time registrations not to exceed nine credits, is normally permitted in this classification. Beyond these limits, registration as a non-degree student requires the approval of the Graduate Officer of the student's College. Not more than nine credits, subject to the approval of the Graduate Officer, may be applied at a later date toward the residency and credit requirements for either the master's or Ph.D. degree. For the Ed.D. degree, credit earned beyond the nine-credit limitation will be reviewed by the appropriate Division and the Education Graduate Officer for possible application toward the degree.

If a student in non-degree status decides to seek admission to a graduate degree program, he/she should apply to the appropriate College Graduate Office for a Change of Status before completing nine credits. There is no assurance that credits earned while holding a non-degree classification will be acceptable in a degree program, or that prerequisites may not have to be specified if the student later becomes a degree applicant. Also, financial aid is not available to students in Non-Degree status.

**Graduate Guest Admission**

Graduate students actively pursuing degrees and who are in good standing at other accredited colleges and universities may be admitted to elect a limited number of credits at Wayne State University. Interested students may obtain a Graduate Guest Application (http://wayne.edu/admissions/graduate/applying/app-instructions/) from the Office of Graduate Admissions. This must be signed by their home institution before it can be accepted for consideration. A guest admission is valid for only one semester and must be renewed with each subsequent registration. A maximum of twelve semester credits may be earned as a Graduate Guest Student. Admission as a Graduate Guest student does not constitute permission to register as a degree applicant.

**Senior Rule**

In their last undergraduate semester, Wayne State students with a 3.0 (or above) upper division grade point average have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree course work. A Senior Rule student must register for at least one credit which is required for the undergraduate degree in order to be eligible for this status. Students who have completed all required registrations for the baccalaureate may not obtain Senior Rule status. Completion of the Application for Graduate Admission is required, and students are advised to consult their advisors and the Office of Graduate Admissions. Application deadlines for Senior Rule admission are the same as for regular graduate admission. Students who qualify and are recommended by the Department or College will be admitted for one semester. Graduate admission will be regularized upon evidence that the student has completed all requirements for the bachelor's degree; it is the student's responsibility to provide this transcript.

As a courtesy, the University permits a student to pay undergraduate fees for the graduate courses elected in a Senior Rule status. It is recommended that students elect only courses numbered 5000-6999 in their Senior Rule semester. Senior Rule may not be used in conjunction with AGRADE.

**AGRADE: Accelerated Graduate Enrollment**

Several Colleges have established an accelerated combined undergraduate and graduate program (AGRADE) in which highly qualified seniors in the college may enroll simultaneously in some undergraduate and graduate programs of the College. A maximum of sixteen credits may be applied towards both undergraduate and graduate degrees in a student's major field if that program is an AGRADE participant. Those who elect the AGRADE program may expect to complete the Bachelor's and Master's degrees in five years of full-time study. AGRADE may not be used in conjunction with Senior Rule.

**AGRADE Credits**: Students may elect a minimum of three and a maximum of sixteen AGRADE credits. These will be used to complete the baccalaureate degree as well as to serve as the beginning of graduate study. Upon formal admission to a master's program, AGRADE credits are transferred as if they were graduate credits transferred from a graduate program at another university. The remaining graduate credits required for the master's degree will be earned in the conventional manner following formal admission to the graduate program.

**Eligibility**: AGRADE applicants must have an outstanding overall g.p.a. and have performed at a superior level in their major, as determined by the major department. The earliest date by which a student may apply for the AGRADE program is during the semester in which he/she completes ninety credits toward the undergraduate degree.

**Application**: A student seeking AGRADE status should present to the Graduate Admissions Committee of his/her major department all of the materials which that department requires for normal admission (except the GRE; where required, the GRE scores should be forwarded at the normal point in the formal graduate admission process).

Admission and program requirements are described in the respective School and College sections of this bulletin, the Undergraduate Bulletin, and department advising offices.

**Permit to Register Status**

This is a one-term-only admission status which may be granted to applicants with incomplete applications for graduate admission, at the discretion of the academic department, and upon presentation of evidence of an earned baccalaureate degree with an acceptable grade point average and the application fee. Registration beyond the initial semester requires the submission of a regular graduate admission application, official transcripts and other required documentation as determined by the university and department. Admission as a graduate Permit-to-Register student does not obligate Wayne State University to accept the applicant in the future for a graduate degree, nor is there any assurance that credit earned in this status will be accepted toward a graduate degree.

This option is not available in all University Schools and Colleges. Applicants are encouraged to discuss admission options with the staff of the Office of Graduate Admissions. In addition, financial aid is not available to students in Permit to Register status.

**Michigan Intercollegiate Graduate Studies (MIGS) Program**

The Michigan Intercollegiate Graduate Studies (MIGS) Program enables graduate students of Michigan public institutions to take advantage of educational opportunities at other Michigan public institutions offering graduate degrees. Any graduate student in good standing in a master's, specialist, or doctoral program at a member institution is eligible to participate with approval of the appropriate academic unit. Students
on a MIGS enrollment pay tuition and other fees at the host institution. All credits earned under a MIGS enrollment are accepted by a student’s home institution as if offered by that institution. This type of enrollment is limited to one term for master’s or specialist degree students, or two terms for doctoral degree students. Students interested in this program should contact the Office of Graduate Admissions (https://wayne.edu/admissions/graduate/application-types/) for further information.

**University of Windsor – WSU Exchange Program Agreement**

Wayne State University and the University of Windsor have entered into an exchange agreement whereby students from each institution may enroll in selected courses at the other institution. Courses available are limited to those not offered at the student’s home institution. Limitations also apply to the number of courses and credits a student may take under this agreement. Wayne State University and the University of Windsor students who wish to participate in the program must be in good standing at their home institution and must have prior approval of the appropriate academic unit that the course(s) will be accepted as part of the student’s course of study. Students who participate in the Wayne State University/University of Windsor program pay tuition and fees at the home institution and receive credit for the course(s) only at the home institution. Students should consult the Director of the Office of Study Abroad for further information.

**Post-Bachelor Admission**

The Post-Bachelor status is granted to college/university graduates who wish to take Wayne State University courses through the 6000 level for undergraduate credit only. The status serves two groups of students:

1. Those who wish to pursue vocational or avocational interests without intending to use Wayne State University credit to earn another degree at Wayne State University;
2. Those who seek admission to a graduate program but need to raise their undergraduate grade point average and/or fulfill specific undergraduate course requirements for graduate admission consideration.

The following special rules apply to Post-Bachelor Admission:

1. Under no circumstances will credit earned in this status apply toward a graduate degree program.
2. The applicant must present evidence of a degree earned from an accredited institution (official transcript or diploma).
3. Post-Bachelor status students are not eligible for financial aid from Wayne State University, except in certain circumstances depending on the program; students should consult the Office of Student Financial Aid (http://www.finaid.wayne.edu) for a list of eligible programs.
4. Applications for Post-Bachelor status from students new to Wayne State University should be made to the Office of Undergraduate Admissions, Welcome Center, 42 W. Warren, Wayne State University.
5. An applicant who earned an undergraduate degree from Wayne State University, or who was previously admitted and registered in a Wayne State graduate program, should contact the Records Office to be re-admitted to the University as a Post-Bachelor student. Post-Bachelor applicants in the Colleges of Education and Nursing must obtain authorization directly from the College.

**International Graduate Students**

To be considered for graduate admission, international applicants must have completed an appropriate university-level program comparable in subject matter and credits to a program for which a bachelor’s degree is awarded at Wayne State University.

The fact that a degree in another country may have a similar name to a degree offered in the United States does not mean the two degrees require similar lengths and content of study or that they should be accepted as equivalents. All graduate applicants must:

1. present an excellent scholastic record;
2. have sufficient financial resources for minimum tuition, supplies and living expenses; and
3. have a sufficient proficiency in English (see the section on English Proficiency Requirement — International Students, below).

**FINANCIAL AID:** University-sponsored financial assistance for international students is extremely limited and unconfirmed awards should not be included in financial projections.

**English Proficiency Requirements**

Graduate applicants who graduated from colleges/universities in other countries must demonstrate proficiency in English. To fulfill this requirement an applicant must satisfy one of the following criteria:

1. Complete baccalaureate degree requirements at an accredited U.S. institution or in a country where English is the native language.
2. Present an acceptable score on the Michigan English Language Assessment Battery (MELAB).
3. Present an acceptable score on the Test of English as a Foreign Language (TOEFL) or equivalent tests such as the IELTS or PTE.

Some units may elect to grant qualified graduate admission to academically-talented International Students whose TOEFL scores fall slightly below the University minimum score. Interested students should contact the chairperson or director of their prospective program, to determine whether the program offers such qualified admission. For further information on the English Proficiency policy, please consult the Office of Graduate Admissions.

**Faculty Admission**

Tenured Wayne State University faculty members holding the rank of Assistant Professor or above may be admitted to Wayne State graduate degree programs outside the faculty member’s school/college, under certain specified conditions. Untenured tenure-track faculty members are not eligible to pursue a graduate or professional degree at Wayne State while in University employment. Faculty members who are not tenured and not on the tenure track may enroll in degree programs outside their own unit with the approval of the dean of their college. For further information, contact the Dean of the Graduate School.

**Special Status Students**

**Visiting Doctoral Guest**

The Graduate School may issue a Visiting Doctoral Guest certificate to persons with an earned doctorate who come to Wayne State for scholarly study under the sponsorship of a department. Such Guests may obtain University library privileges and attend classes upon invitation of the department. No official record of attendance is kept on such Guests. For further information, contact the Graduate School.

**Visiting Scholar**

The Graduate School may issue a Visiting Scholar certificate to persons who have an advanced degree, such as an M.D., or are earning a doctoral degree, and who have come to Wayne State for scholarly study under the sponsorship of a department. Scholars may obtain University library privileges and attend classes upon invitation of the department.
Admission: Undergraduate

Office of Undergraduate Admissions and Orientation

Welcome Center
42 W. Warren Avenue
PO Box 02759
Detroit, MI 48202
Telephone: 313-577-2100, Fax: 313-577-7536
http://wayne.edu/admissions (https://wayne.edu/admissions/)

Service Hours: The Office of Undergraduate Admissions assists students by telephone, and on a walk-in basis during posted service hours.

The Office of Undergraduate Admissions has the primary function of recruiting, admitting, and enrolling new undergraduate students to the University. This office also helps to coordinate the recruitment activities of individual departments, alumni groups, and students. The office organizes visits and programs at local high schools and community colleges as well as in the State of Michigan and selected regions outside of the State.

Also included in functions of the Office of Undergraduate Admissions are administration of the Presidential and Wayne State merit-based scholarships.

Application for Undergraduate Admission

An official application for Undergraduate Admission (http://www.apply.wayne.edu) should be completed online. There is a $25.00 application fee.

Freshmen Admission Guidelines

Admission to Wayne State is selective. In order to qualify for admission an applicant must submit an official high school transcript indicating college preparation, standardized test scores (ACT or SAT), and ability to undertake a college degree program. Admission decisions will be based on a full evaluation of each student's academic record. Students still in high school may apply after completion of their junior year.

Special Undergraduate Programs for Admission

The Center for Latino and Latin American Studies (CLLAS) and Academic Pathways for Excellence (APEX) both offer special undergraduate programs with additional admission standards. See descriptive information under the headings for: Center for Latino/a and Latin American Studies and Academic Pathways for Excellence (APEX).

Recommended High School Preparation

1. **English (four years recommended):** Effective use of the English language is central to one’s ability to succeed at the University and in the professions and occupations for which our students are preparing. Students entering the University should be able to:
   a. comprehend the main and subordinate ideas in written works, lectures, and discussions; and
   b. conceive ideas about a topic and be able to organize them for presentation in both verbal and written forms.

2. **Mathematics (four years recommended):** While most careers for which University students are preparing require mathematical competency, an increasing number of careers in science and technical curricula require advanced preparation in mathematics. Entering students should be able to:
   a. understand ratios, proportions, percentages, roots and powers; and
   b. perform the mathematical operations of algebra and geometry.

3. **Biological and Physical Sciences (three years recommended):** A basic understanding of the physical and biological sciences is essential for many fields of college-level study and is necessary if one is to comprehend our world and the impact of science and technology on it. Students should be acquainted with:
   a. concepts of matter, energy, motion and force and the natural laws and processes of the physical sciences in general;
   b. the science of life and living matter with special reference to growth, reproduction and structure; and
   c. laboratory methods.

4. **Social Sciences/History (three years recommended):** Students should study different cultures and societies — their social systems, customs, communities, values, economies, governments, and politics. A knowledge of the main events and ideas that have shaped our nation and its place in the world should also be possessed by entering students. They should understand how the past bears upon the present condition and future course of mankind. As the social sciences improve one's appreciation of the scientific method and other approaches to critical analysis, an understanding of history is required for an informed exercise of citizenship in a free society.

5. **Foreign Languages (two years recommended):** Proficiency in a foreign language not only introduces students to non-English speaking cultures but also heightens awareness and comprehension of one's native tongue. Language is the basic instrument of thought, and the ability to read, speak and write in a foreign language permits one to understand another culture in a more fundamental way. Foreign language competency will open up career opportunities denied to those without it.

6. **Fine Arts (two years recommended):** Students entering the University should be acquainted with the visual and performing arts, through study and/or participation. Several academic disciplines at the University require high levels of skill in the arts. Study in this area enriches life and heightens one's sense of beauty and aesthetic perception.

7. **Computer Literacy:** Some formal instruction in the logic and use of computers in problem solving and data retrieval is increasingly important in all fields of study.

Transfer Admission

Transfer students are considered for admission if they meet the following minimum requirements:

A transfer applicant may be admitted, without consideration of high school work, upon completion of at least twenty-four semester credits of transferable college-level coursework from an accredited college or university with an overall grade point average of 2.5 and with no courses below a C grade for transferable credit. If the applicant has fewer than twenty-four semester credits of transferable college-level coursework, the applicant may be admitted provided freshmen admissions guidelines are met, subject to a holistic evaluation of each student’s record. Students who have attended unaccredited institutions should consult with an admission counselor to determine admissibility.

The Office of the Registrar governs the policies for the transfer of credit (p. 74) from other accredited institutions of higher education, both community colleges and baccalaureate-granting colleges and universities.
Admission Requirements Specific to School/College and Academic Programs

In the student’s major field of study. Additionally, students must fulfill all only to lower-level General Education, students will still need to satisfy communication or intermediate composition. Because the MTA applies requirements will be fulfilled by the MTA with the exception of either oral degree requirements. All Wayne State lower-level General Education curriculum, and all courses will count toward students’ overall thirty transfer credits will fulfill the majority of Wayne State’s General Education from the sending Michigan community college will be accepted as a block of thirty credits by Wayne State University as long as students earn at least a 2.0 in each course. Students may complete the MTA as part of an associate degree or as a stand-alone package. These thirty credits of lower-level General Education should be met according to the following distribution:

- One course in English Composition
- A second course in English Composition or 1 course in Communication
- One course in Mathematics
- Two courses in Social Sciences (from two disciplines)
- Two courses in Humanities and Fine Arts (from two disciplines and excluding studio and performance classes)
- Two courses in Natural Sciences including one with laboratory experience (from two disciplines)

If these courses do not add up to thirty credits then the student must take an additional course from one of these groups. The MTA’s block of thirty transfer credits will fulfill the majority of Wayne State’s General Education curriculum, and all courses will count toward students’ overall degree requirements. All Wayne State lower-level General Education requirements will be fulfilled by the MTA with the exception of either oral communication or intermediate composition. Because the MTA applies only to lower-level General Education, students will still need to satisfy our upper-level requirement for the Writing Intensive (WI), which is fulfilled in the student’s major field of study. Additionally, students must fulfill all requirements specific to school/college and academic programs.

Special Requirements and Professional Admission

The following Schools, Colleges and programs have requirements beyond those of regular undergraduate admission:

- Business (p. 94)
- Engineering (p. 158)
- Engineering Technology (p. 185)
- Fine, Performing and Communication Arts (p. 197)
- Nursing (http://bulletins.wayne.edu/undergraduate/college-nursing/nursing-bsn/)
- Pharmacy and Health Sciences (p. 357)
- Social Work (p. 378)

International Undergraduate Students

A student from another country desiring admission who is not a permanent resident or citizen of the U.S. should complete the International Admissions Application (https://wayne.edu/admissions/international/). There is a $25.00 non-refundable application fee. A student from a country in which English is not the native language must take an English Language Proficiency Examination prior to admission or have a minimum Test of English as a Foreign Language (TOEFL) score of 550 (213 on computerized version). See the Office of International Programs for more information.

Canadian Applicants

Applicants who are a citizen or permanent resident of Canada should complete the Canadian Admissions Application (https://wayne.edu/admissions/canadian/). There is a $25 non-refundable application fee.

Non-Matriculated Status

Non-matriculated status enables students to take undergraduate courses for which the prerequisites are met. Courses, credits and grades will be posted to the University’s transcript. However, these will be used toward fulfillment of a degree only after formal admissions is granted through the Office of Undergraduate Admissions. Students are encouraged to meet with an academic advisor prior to registering for courses. The non-matriculated application should be completed online (https://wayne.edu/admissions/non-matriculate/). There is a $25.00 non-refundable application fee. The holder of non-matriculated status is ineligible for any type of loan, grant or scholarship that is administered by Wayne State University.

Post-Bachelor

Post-bachelor admission is an optimal choice for students who have already completed a bachelor’s degree and are interested in either earning college credit without intending to use it toward another degree, and those students needing to complete prerequisite course work to gain admission to a graduate program.

Undergraduate Guest Admission

Students currently attending an accredited institution of higher education who are interested in taking undergraduate courses at Wayne State for one semester, or who wish to register for courses concurrently are eligible to apply for Guest Admission (https://wayne.edu/admissions/guest/). Requirements include the completion of twelve semester credits at the home institution and a minimum cumulative ‘C’ grade point average (equivalent to a 2.0 grade point average at Wayne State).

Re-Entry Following an Interruption in Attendance

Undergraduate students who were previously admitted and registered at Wayne State University and whose attendance has been interrupted need not reapply at the Office of Undergraduate Admissions. It is expected that students who left in good standing report to the College of their choice for any special instructions regarding their return to classes.
University of Windsor Exchange Agreement with Wayne State University

Wayne State University and the University of Windsor have entered into an exchange agreement whereby students from each institution may enroll in selected courses at the other institution. Courses available are limited to those not offered at the student’s home institution. Limitations also apply to the number of courses and credits a student may take under this agreement. Wayne State University and the University of Windsor students who wish to participate in the program must be in good standing at their home institution and must have prior approval of the appropriate academic unit that the course(s) will be accepted as part of the student’s course of study. Students who participate in the Wayne State University/University of Windsor program pay tuition and fees at the home institution and receive credit for the course(s) only at the home institution. Students should consult the Director of the Office for Study Abroad for further information.

Phoenix Program (Second Start)

The Phoenix Program provides undergraduate students who left Wayne State University on Probation or Dismissal with the opportunity to petition for return under a second-start policy. To be eligible for such admission, the student must not have enrolled at Wayne State University for at least five consecutive years, immediately prior to petition for the Phoenix Program. Petitions for re-entry are decided by the Dean of the School or College in which the student is matriculated or seeks to enter. With the approval of the Dean, the student and an academic advisor develop an academic contract, and the advisor closely monitors the student through the first twelve credits of course work.

To return to regular status, students must complete twelve semester credits with a grade of C or better within two years under the Phoenix Program (NOTE: a grade of C-minus is considered to be lower than a C). Students will be expected to complete degree requirements in effect at the time of their return to the University. Should students earn any grade below C in their first twelve credits in the Phoenix Program, they will be excluded from the University. To maintain the integrity of students’ academic records, previous course work will remain on the transcripts; however, the credits and grade point average (g.p.a.) will be adjusted to reflect the grade point average earned since the start of the Phoenix Program.

For information about the Phoenix Program, students should contact the Dean’s office of the School or College in which they have matriculated or wish to enter.

Bachelor’s Degree Requirements

Bachelor’s Degree

To earn a bachelor’s degree at Wayne State University, a student must satisfy the following minimum requirements, as well as any other requirements for specific degrees stipulated by the Schools/Colleges, Departments, and Programs of the University:

1. Complete a minimum of 120 credits with a cumulative grade point average of 2.00 or higher for all Wayne State University course work.
2. Complete the University General Education Requirements (p. 35).
3. Complete all School/College, Departmental and Program requirements.
4. Complete a minimum of thirty credits at Wayne State University.
5. Observe the following credit limitations:
   a. Credit by special examination may not be counted as resident credit, but such credit, if earned during a semester in which the student is registered for a regular course(s), will not be considered an interruption of residence.
   b. There shall be no limit to the number of credit hours earned through one or more of the following programs: credit earned by the College-Level Examination Program, Advanced Placement, International Baccalaureate, Credit by Special Examination, or other credit earned for a course in which the student has not been regularly enrolled in a University course.
   c. Not more than sixteen credits by Special Examination may be earned in any one subject.
   d. A maximum of sixty-four credits transferred from a two-year institution may normally be applied toward graduation. Articulation agreements for specific programs may occasionally include more than sixty-four transfer credits, subject to board-approved academic policy.

Second Bachelor’s Degree

A student who holds a bachelor’s degree from any accredited institution may receive a second bachelor’s degree from Wayne State University by satisfying the following minimum requirements:

1. Complete at least thirty credits at Wayne State University beyond the first bachelor’s degree.
2. Meet all School/College, Department, and Program requirements for the degree.

Concurrent Degrees

A student who wishes to simultaneously receive two different bachelor’s degrees from Wayne State University must satisfy the following minimum requirements:

1. Complete a minimum of 150 credits.
2. Complete all University, School/College, Department, and Program requirements for each degree.

Application for Graduation

Degrees are NOT awarded automatically upon completion of scholastic requirements. To be considered as a candidate for a degree, students must file an Application for Degree form with Student Records by the degree application deadline published in each term’s Academic Calendar, for the term in which the student expects to graduate.

Bulletin-in-Effect Graduation Policy

All undergraduate students at Wayne State University may choose to graduate under the academic regulations and degree requirements as stated in the Bulletin in effect at the time of their graduation or any of the bulletins in the previous seven academic years, provided one of the Bulletins covers a period of the student’s registration. All requirements of the chosen Bulletin must be met. However, if necessary, the university-wide Bulletin-in-Effect Committee, Colleges, and Schools can make appropriate adjustments in order to accommodate students as best they can to adapt their previous coursework to a new Bulletin.

School/College Requirements

Schools/Colleges, Departments, and Programs may establish degree requirements above and beyond those stated here. For statements of any such specific degree requirements, students should consult the School/College and Departmental sections of this bulletin.

Application for Degree or Certificate

Each candidate for a degree or certificate must file an Application for Degree (https://wayne.edu/commencement/apply-for-graduation/), no
later than the Friday of the fourth week of classes for the semester in which the student expects to complete the requirements for the degree or certificate. If an application for a degree was filed for a previous graduation term in which the student did not graduate, a new application and fee is required. Applications for graduation require that a $40.00 fee be paid in the online application process.

**Commencement**

Information concerning commencement announcements, caps and gowns, invitations, tickets, time and place, assembling and other relevant items will be mailed to the graduates by the Commencement Office (http://commencement.wayne.edu) prior to the event. Candidates for advanced degrees are requested and expected to attend the commencement at which the University confers upon them the honor of the degree earned.

**Campus Life**

**Dean of Students Office**

301 Student Center; 313-577-1010

The Dean of Students Office provides services and affords opportunities to enhance student life and campus activities. The Office coordinates major campus student activities and events, including Orientation Part 2 (O2), New Student Convocation and Festifall, Student Organizations Day, Homecoming, and the Finals Week Late Night Breakfast.

The office coordinates the campus calendar of student activities, community service programs; advises fraternities and sororities; and promotes student involvement in co-curricular life at Wayne State and Detroit including the Thursdays in the D series, the Discover Detroit series, the Weekends in the D series, the Arts in the D program, and the Campus Activities Team program board. The office also coordinates the Warrior Pride program focused on school spirit, and the Warrior Zone athletic events student section. The University Student Conduct Office is housed in the Dean of Students Office and the office also coordinates the Student Care Report process.

The Dean of Students serves as the Deputy Coordinator for Title IX and the Student Life Wellness Coordinator resides in the Dean of Students Office and focuses on sexual violence prevention education, substance abuse prevention education, and digital citizenship education.

**Student Organizations**

There are over 400 recognized student organizations including such diverse categories as academic/professional, social action, political, sororities/fraternities, honoraries, ethnic and religious groups, as well as student governments. Student organizations use the Dean of Students Office to process their event planning and all students use the Dean of Students Office to learn about getting involved in campus life. The Office staff also assists students who want to organize new student groups. The staff also coordinates various campus publications including the online newsletter Get Involved at Wayne. Student organizations can apply to the Student Activities Funding Board for funds to present events, programs, and activities on campus.

The official student newspaper is the South End (http://www.thesouthend.wayne.edu).

**Parent and Family Services**

The Dean of Students Office coordinates Wayne State’s Parent and Family Services. Through this office, parents and family members receive the twice monthly parent and family newsletter and have services available to them to help them help their students be successful, including the parents helpline: 1-877-WSU-PARENT. The office may be emailed at: parents@wayne.edu.

**Student Senate**

395 Student Center
http://www.student senate.wayne.edu (http://www.studentcouncil.wayne.edu/)

The Student Senate is the recognized student government of Wayne State University. It consists of twenty-eight members, fourteen members at large elected in a University-wide election, and fourteen appointed members, one student representative appointed by the Office of Housing and Residential Life, and one representative appointed by the Associate Vice President for Educational Outreach to represent the extension centers. The Student Senate has an official advisory responsibility in policy formation for the governing of student activities at Wayne State. The Student Senate is advised by the Dean of Students Office.

**Office of Housing and Residential Life**

582 Student Center; 313-577-2116
http://www.housing.wayne.edu

Housing and Residential Life at Wayne State fosters student learning and success through engaging residents in an intentional living-learning community. Supported by safe, comfortable and convenient residence hall, apartment and dining environments, residents grow in self-awareness and cross-cultural understanding as they practice social and group development as members of a diverse group of Wayne State learners.

Facilities and programs administered by this Office are located just steps away from classrooms, libraries, the Student Center, and the Recreation and Fitness Center and combine the convenience and activity of the campus with the energy and pace of downtown urban living.

**Parking: Faculty, Staff, and Visitor**

42 W. Warren, Suite 257, Welcome Center (8:30 a.m. - 5:00 p.m., Mon. - Fri.); 313-577-2273
http://www.parking.wayne.edu

The University maintains numerous parking facilities available to faculty, staff and visitors on a fee basis. The easiest way to approach parking, for faculty, staff and students, is to purchase a semester-long assigned parking pass. This allows unlimited entry and access to a designated structure or lot, which you’ll choose based on availability and where you spend most of your time on-campus.

All new parking pass customers will pay a one-time fee for an RFID tag ($25 at the time of issuance), which hangs from their rear-view mirror to allow for quick, hands-free entry and exit. The hang-tag is linked to a student, faculty or staff person’s OneCard and all current/future parking assignments. If the hang-tag is lost, parking patrons can simply swipe their OneCard to enter their assigned structure or lot. Lost hang-tags should be immediately reported to the parking office to be deactivated. A replacement tag must be purchased at $25.00 and is required to avoid ticketing or towing.

General parking is also available for visitors and those without a parking assignment. This allows patrons to pay as they go, with access to any of the general parking areas. Students, faculty and staff can deposit funds onto their OneCard for easy in-and-out access. Students only can take advantage of the discounted student OneCard parking rate ($3.75 at time of publication and $4.75 for premium parking areas). The general public may park in designated WSU lots and structures at the public rate,
typically between $7.50 and $10.00, using a credit/debit card for entrance and exit and cash at limited locations.

**Campus Health Center**
Helen DeRoy Apartment Building, Suite 115
5200 Anthony Wayne Drive; 313-577-5041

The Campus Health Center provides comprehensive health care services for students, including physical examinations, family planning, illness visits, and immunizations (including flu, meningitis, hepatitis B, etc.). Visits are by appointment, but walk-ins are accepted for students experiencing an illness. Counseling referral services are also available. All currently enrolled students receive one free office visit per semester. Additional visits are billed to student’s health insurance with most health care plans accepted. Students without insurance have reduced fees based on a sliding scale and ability to pay for additional office visits per semester. Payment is accepted at the time of service by cash, OneCard, Visa, MasterCard, Discover, or American Express credit cards. To make an appointment, call 313-577-5041.

**Police and Public Safety Services**
6050 Cass; 313-577-2222
http://www.police.wayne.edu

The Wayne State University Police Department patrols and services the University including the city streets, businesses, and private residences within and between the various campus areas. The Department, to the extent that resources allow, also patrols and provides other police services to the neighborhoods and businesses in the area surrounding the University.

Police service is provided twenty-four hours a day, seven days a week. All officers have, at minimum, a bachelor’s degree. They are commissioned as Detroit Police Officers, with full police authority on and off campus, and have, at minimum, a bachelor’s degree. They are commissioned by officers, with full police authority on and off campus, after training at a State-certified Police Academy. Any matter requiring the services of a police officer can be reported at any hour of the day or night.

**Blue Light System — Emergency Telephones (7-2222):** The University has installed outdoor emergency telephones throughout the campus. These emergency telephones are identified by bright blue lights.

**Emergencies (313-577-2222):** All emergencies should be reported immediately, i.e.: all crimes, missing/stolen property, automobile accidents, suspicious persons, injured persons, vandalism, break-ins or burglaries.

**Accidents (313-577-2222):** Ambulatory patients will be transported, by officers, to either Detroit Receiving Hospital or the University Health Center. The Police Department does not provide ambulance service but utilizes the Detroit Fire Department Emergency Medical Service to handle other than minor injuries.

**Fire or Other Extreme Hazards (313-577-2222):** Emergencies such as fire, smoke, explosions, broken gas or water mains, severe electrical hazards, etc., should be reported.

**Crime Prevention Section (313-577-6064):** The Police Department’s Crime Prevention Section provides a number of crime prevention services, including personal safety seminars, crime prevention programs, and services. All programs and services are free of charge (except the Rape Aggression Defense Training for which there is a fee of $25.00) to any Wayne State department, student, staff, or faculty member. Examples of services provided include:

- Security Services
- Street Smarts seminars
- Operation Identification
- Alcohol Awareness
- Rape Aggression Defense Training

The Crime Prevention Section also publishes monthly ‘CampusWatch’ articles. Email inquiries may be made to: campuswatch@wayne.edu.

**Athletics, Intramurals and Recreation**

**Matthaei Facility:** 126 Matthaei Building; 313-577-4295
**Intramural Sports:** Mort Harris Recreation and Fitness Center;
313-577-6712
**Intercollegiate Athletics:** 101 Matthaei Building; 313-577-4280

Wayne State University has a rich athletic tradition dating back to the fall of 1917 and recently celebrated 100 years of singular outreach and academic success. The first Detroit Junior College athletic event (precursor of Wayne State University) was a basketball game against the Detroit College of Law on January 19, 1918. Since then WSU student-athletes have captured numerous honors, including national championships awarded by the NCAA and conference championships. In the past ten years, 264 WSU student-athletes have been recognized as All-American. In the 102 year history, 676 students have been so recognized. Over seventy-two percent (72.26%) of the nearly 400-plus student-athletes currently involved in competitive athletics have a 3.00 or better cumulative grade point average with every team having a GPA of at least 3.0 or better. According to the latest federally mandated report, WSU student-athletes Academic Success Rate is seventy-six percent (76%). The athletic department provides competitive opportunities in the following sports: baseball, men's and women's basketball, men's and women's cross country, men's and women's fencing, football, men's and women's golf, softball, men's and women's swimming/diving, men's and women's tennis, volleyball, and women's indoor/outdoor track. Last season, ten out of eighteen programs competed in NCAA championships. In 2012, women's swimming and diving won the NCAA National Championship joining ten other programs to be so honored. The past eighteen years WSU Athletics has had its eighteen highest ratings in the annual NACDA Cup and in thirteen of the past sixteen years finished in the top 12% of the 319 institutions in Division II. The NACDA ranks the top overall competitive intercollegiate athletic programs in the country.

The University competes at the NCAA Division II level, while the men's and women's fencing programs participate in the NCAA Collegiate National Championship. WSU student-athletes have served over 81,000 community service hours over the last eight years.

Many new facilities adorn the WSU athletic campus, including the Harwell Museum which contains numerous exhibits which pay tribute to Ernie's marriage to Lulu, audio and video of Harwell's signature calls and moments and the controversial Jose Feliciano national anthem during the 1968 World Series. There are interactive areas where you can listen to other announcer's great calls, watch Ernie's farewell speech and read letters written to Ernie. In addition, Harwell Field has a replica Fenway Park outfield fence, Major League size dugouts and through an arrangement with the Detroit Historical Society, the left field scoreboard from the former Tiger Stadium is attached to the base of the left field wall.

The Doris J. & Donald L. Duchene, Sr. Athletic Facility was the first new athletic building in over fifty (50) years on the athletic campus. Completed in the Fall of 2011, the building has 35,000 square feet of space with a maximum ceiling height of thirty-five (35) feet. Enclosed are four tennis courts, a sprint track (60 yards), locker rooms for the men's and women's tennis, and baseball squads along with six offices for coaches and staff.
The nearly 12,000 square foot, state-of-the-art Athletic Performance Center was completed and opened in May of 2018 and gives student-athletes access to 24 work stations.

The softball facility was completed in three phases with the complex paid entirely by private revenue sources. Phase I was completed in 2005 and established the first grandstands and press box. Phase II added a locker room, offices, foyer, training room, restrooms and a new dugout. The final phase (completed in Spring 2013) added batting and pitching cages, and outdoor bullpens. On Nov. 12, 2016, the field was named Gary L. Bryce Field in honor of the long-time head coach with the installation of a new scoreboard. In the weeks preceding the naming of the field, the home run fences were pushed back to accommodate new NCAA guidelines.

The University offers a wide and varied program of recreational and intramural activities. The Matthaei Complex, and the surrounding athletic campus on forty-three acres of land, located on the west end of campus, offers a myriad of drop-in activity areas that include courts and fields for basketball, football, jogging, racquetball, soccer, squash, tennis, and volleyball, a weight training/exercise room, and swimming facilities. Use of these facilities is free with a current University ID or with a membership through the Mort Harris Recreation and Fitness Center. The recently built Doris J. & Donald L. Duchene, Sr. Athletic Facility features 35,000 square feet of usable space, four tennis courts and a sprint track. Open recreation hours and rental information for this facility are available at: http://rfc.wayne.edu/multipurpose/

Ticket and schedule Information is available at the Athletic Office (http://WSUathletics.com), 101 Matthaei Building, 313-577-4280. All men’s basketball and football games are broadcast on the Warrior Radio Network at WDTK-AM 1400 and FM 101.5 and are also available for free on the internet. Students are admitted free to all University-controlled WSU athletic events with a One Card.

Sports Facilities

Matthaei Building
Matthaei is normally open from 7:00 a.m. to 8:30 p.m., Monday through Friday, and is closed to recreation on Saturday and Sunday, during the fall and winter semesters. During the spring/summer semester the Building is open from 7:00 a.m. to 7:30 p.m., Monday through Friday. Outdoor tennis courts and track are available during posted hours. A facility schedule is published monthly. Operational hours are subject to change, and not all areas of the complex will be available at all times, due to scheduled classes, intramural activities and varsity athletics. Lap swim is available at the Matthaei for all affiliates and the lap hours are on the monthly recreation schedule, available online or hard copy at Matthaei. Locker and towel services are available for all affiliates daily with current OneCard at no charge. Locker rental plans both semester and yearly are also available. For charges and additional facility information, visit the Matthaei Shop in the Matthaei Building, or call 313-577-4295.

Mort Harris Recreation and Fitness Center
The Mort Harris Recreation and Fitness Center is open from 5:30 a.m. to 11:00 p.m., Monday through Friday; and 10:00 a.m. to 7:00 p.m. on Saturday and Sunday, during the fall, winter and spring/summer semesters. Operational hours are subject to change, and not all areas of the complex will be available for open recreation at all times, due to scheduled group fitness classes, intramural activities, club sport activities, and varsity athletics. Locker and towel services are available for all students and members with a current OneCard. Locker rentals are available for semester and yearly rentals. For charges and additional facility information, please visit the Mort Harris Recreation and Fitness Center (http://rfc.wayne.edu) website or call 313-577-2348.

Group Fitness Classes (non-credit)
These classes include a variety of programming, conducted by trained, certified and experienced instructors. Class options include yoga, cycling, Zumba, and a variety of strength and conditioning classes.

Open Recreation: The fitness areas, multi-purpose courts, walking track and climbing wall offer opportunities for unstructured play and participation. Basketball, volleyball, and a variety of equipment and areas for working out, stretching, and socializing are also available.

Intramural Sports Programs: Men’s, Women’s, Co-ed, and Open intramural sports leagues are available for all currently enrolled WSU students as well as WSU faculty/staff members of the facility. Leagues and tournaments are available in a variety of sports, including basketball, volleyball, dodgeball, flag football, soccer, Esports and more.

Club Sports: The Mort Harris RFC is also the home for all Club Sports. Students interested in starting a particular club sport, are invited to consult our website to view the registration process and to become familiar with g.p.a., credit load, and insurance guidelines. All WSU Club Sports are fully funded by the participating students themselves. Current clubs include men’s and women’s soccer, men’s lacrosse, men’s and women’s volleyball, track, equestrian, rowing and baseball.

Fitness and Wellness Programs: Fitness assessments, personal training, and group fitness programs for every level of fitness are available to all students and members. All students and members have a free consultation included with their membership every year.

Climbing Wall: The facility offers ten top rope anchors with dozens of routes which change weekly. All necessary equipment may be rented; day and yearly passes are available.

Adventure Trips: The Mort Harris Recreation and Fitness Center offers a variety of outdoor excursions for novices to seasoned adventures. Trips include but are not limited to whitewater rafting, kayaking, skydiving, skiing and snowboarding, fishing, camping, and mountain biking.

Team Building: The high ropes course is designed to foster interpersonal and intra-personal growth in a fun and challenging environment. Your Student Organization, Department, Corporation or group will climb up thirty feet and traverse through fifteen different elements that focus on teamwork and interdependency. Groups will learn to communicate effectively, listen to each member, recognize individual strengths and utilize collaborative efforts.

Student Center Administration
Student Center Administration (313-577-4585) is located in the lower level of the Student Center. This office schedules rooms and audio-visual equipment available for meetings, seminars, conferences and special programs. Bake sale, literature and vendor tables as well as Community Arts and St. Andrews reservations are also provided.

Student Center Administration provides the following services for a fee: duplicating service, SMART and DDOT bus passes, fax service, and State Hall locker rentals. In addition, Student Center Graphics, University Lost and Found, and the campus bulletin board posting service are located here.

Student Center Graphics (313-577-3730): Student Center Graphics is a student operated design and print shop. They provide design services and large format printing for the campus community and outside clients. SCG also provides items such as banners, posters, logo designs and consultations for a fee.

Religious Organizations
Various religious denominations have offices on the sixth and seventh floors of the Student Center. Programs and personal and spiritual counseling are available from various denominations. A reflection room is available on the 3rd floor of the Student Center.

Computing and Information Technology Division (C&IT)

Office: 5925 Woodward Ave.
Tel.: 313-577-4722; Fax: 313-577-5500
Associate Vice President and Chief Information Officer: Daren Hubbard
https://tech.wayne.edu/

Computing and Information Technology (C&IT) provides IT services and resources that support and enhance Wayne State University's teaching, learning, research, and administrative activities. C&IT's primary goal is to provide technology services that enable our students, faculty, and staff to be successful at WSU. C&IT employees strive to provide excellent customer service, respond to the changing needs of the University community, and make it easy and convenient for everyone to use technology at Wayne State. Functional C&IT organization charts are available on our website (https://computing.wayne.edu/about/org-charts.php).

AccessID

Everyone at Wayne State receives a unique identification code (AccessID) consisting of two letters and four numbers, for example: xy1234. The AccessID and password are key to accessing many University online systems; the Access ID can be found on the One-Card; passwords are assigned with initial email communications in the admissions application process.

Email and Communication Tools

Wayne Connect: The University's Wayne Connect system is a campus-wide method of communication. It is powered by Microsoft and features email, calendars, online storage, mobile apps, and more.

Broadcast Messaging (Emergency Alerts) (https://broadcast.wayne.edu): This University-wide service delivers emergency alerts and other significant messages to faculty, students, and staff. Recipients can register their cell phones to get emergency alerts, grades, and other important information via text messages.

Mobile Apps

Wayne State Mobile App offers students, faculty, staff, and alumni an easy way to access University information like email, calendar, parking availability, class schedules, campus maps, OneCard balances, and more. Apps are available for free download on Android and iOS devices.

Academic IT Services

Canvas (https://tech.wayne.edu/kb/academic-services/) is Wayne State's online learning management system. Students can take quizzes, upload assignments, participate in message boards and more. Free mobile apps for teachers and students are available.

Computer Labs (http://www.computing.wayne.edu/computer-labs/): The University libraries have both open and restricted-access computing areas, with more than 600 computers and a variety of applications. Additionally, many Schools, Colleges, and academic departments provide special-purpose computers and software for their students and faculty.

Grid Computing (http://www.grid.wayne.edu): WSU researchers with projects requiring high performance computing can use Wayne State University's scalable, Grid-enabled computing system.

Administrative IT Services

Academica is the primary online means to securely register for classes, apply for financial aid, pay tuition, and more.

Internet Access (http://computing.wayne.edu/wireless/): WSU's wireless networks offer high-speed Internet access within campus buildings including the residence halls. We recommend connecting to WSU-SECURE whenever possible.

Research Networks: Internet2 and MiLR (http://computing.wayne.edu/research-networks/): Wayne State's membership in the Internet2 advanced networking consortium offers researchers countless opportunities for participation and collaboration. The Internet2 Network addresses researchers' bandwidth-intensive requirements, such as: collaborative applications, distributed research experiments, and grid-based data analysis.

Software Purchases and Discounts (https://computing.wayne.edu/helpdesk/freesoftware.php): The C&IT Help Desk provides free and discounted software to current students, faculty and staff for academic, departmental and personal use.

Computer Security (http://security.wayne.edu): Students can rely on C&IT to protect the confidentiality, integrity, and availability of information on WSU computer systems, but security is everyone's responsibility.

Help Desk (https://computing.wayne.edu/helpdesk/): The C&IT Help Desk is Wayne State's campus technology headquarters - a one-stop shop for all your tech support needs. Call, email, or live chat for one-on-one help with any of Wayne State's IT systems, like email, Canvas, or Academica.

Qualtrics Online Survey Software (http://computing.wayne.edu/qualtrics/): The Qualtrics Research Suite is a user-friendly, feature rich, web-based survey tool that allows users to build, distribute, and analyze online surveys, collaborate in real-time, and export data in multiple formats. All Wayne State students have access to a free account for this service.

Educational Outreach

5057 Woodward Avenue, Suite 3101, Detroit MI 48202; Telephone: (313) 577-4682
Email: educationaloutreach@wayne.edu
http://www.educationaloutreach.wayne.edu (http://www.educationaloutreach.wayne.edu/)

Associate Vice President for Educational Outreach and International Programs: Ahmad Ezzeddine
Sr. Director, Business Affairs: Arthurine Turner
Director of Operations: Rebecca Journigan
Manager, Administrative Services: Heather Howell
Program Coordinators: Gail Stanford, Nevein Michail, Jessica Bielawski
Director, Educational Outreach and Transfer Initiatives: Michael Quattro
Associate Director, Educational Outreach: Stacy Jackson
Program Manager, Schoolcraft Center: Gail Stanford
Associate Director, Executive and Professional Development: Michael Kelly
Instructional Services Supervisor: Margaret Matyniak
Project Coordinator, Marketing: Carol Baldwin

Educational Outreach is principally responsible for Wayne State University's off-campus offerings including online programs and courses. This division administers academic off-campus course offerings and programs for most Schools and Colleges of the University; the University...
Summer Session; and the partnership degree programs at University centers located on community college campuses. Educational Outreach staff coordinate relationships with community colleges partners and oversee transfer student recruitment and retention via the Transfer Student Success Center. Additionally, the division oversees credit and non-credit executive education, certificate, professional development and continuing education programs for the University.

The Division operates several instructional centers in the Detroit metropolitan area as well as in other selected locations in Michigan, and delivers distance learning and online instructional programs. Through these outreach efforts, WSU is able to serve and meet the educational needs of a diverse student audience: working adults who are unable to pursue traditional on-campus programs of study; persons who desire courses of instruction at or near their place of employment; and others who are simply taking courses to enrich their educational background or improve their technical skills.

**Dual Enrollment Cohort Programs**

Educational Outreach coordinates dual enrollment cohort programs for eligible high school students in interested school districts. Dual enrollment cohort programs may be offered on site within the school district or at any of the Wayne State University campuses. For information regarding Dual Enrollment Cohort Programs, telephone: 313-577-1430.

**Visitor Program (Non-Credit)**

Educational Outreach also administers the University's Visitor Program. Under this program, adults can attend a wide range of selected University courses, both on and off campus, provided classroom space is available. No grade or academic credit may be earned, and students may not be registered for courses taken for credit simultaneously with courses taken under the Visitor Program.

The Visitor Program allows any adult who is not currently enrolled in credit courses at Wayne State University to attend a wide range of University courses in a noncredit status. Visitor status students do not receive academic credit and do not receive acknowledgement on transcripts. Provided space is available and permission has been granted, adults may enroll as visitors in most of the courses listed in the Schedule of Classes.

It is not necessary to be formally admitted to the University to take advantage of the Visitor Program. Visitor status students do not submit written work or take examinations. Registration for both on-campus and off-campus classes takes place the first two weeks of classes and is processed by the Division of Educational Outreach, located on the main campus.

Students enrolled in the Visitor Program are assessed one-half of the undergraduate resident lower division credit hour rate for each credit hour plus a non-refundable Registration Fee equal to one-half of the regular Registration fee and the full per credit hour undergraduate Student Service Credit Hour Fee. Payment of tuition and fees are due at the time of registration. Tuition must be paid in full at the time of registration. Payment is accepted by money order, check, Discover, Master or Visa Card. Money orders or checks must be drawn from a United States bank and cannot be starter checks. Students may register in person or by calling: 313-577-4682.

**Travel Study**

Sponsoring schools and colleges in the University offer travel study programs through the Division of Educational Outreach. Most programs occur in the spring/summer sessions; times and locales vary each year. Travel study refers to programs in the United States. Please refer to the Office of International Programs (p. 69) for study abroad programs. Recent travel study programs include:

- **College of Liberal Arts and Sciences:** Biological Sciences: marine lab at the Florida Keys; field studies at Fish Lake, Michigan
- **College of Education:** Science Education: ecology courses at Higgins Lake, Michigan
- **College of Fine, Performing and Communication Arts:** Fashion Merchandising: design in New York City

**Extension Centers**

**Director, Educational Outreach and Transfer Initiatives:** Michael Quattro  
**Associate Director, Educational Outreach:** Stacy Jackson  
**Program Manager, Schoolcraft Center:** Gail Stanford

The Division of Educational Outreach operates several instructional centers in the Detroit metropolitan area as well as in other selected locations in Michigan. Through these outreach locations, the University is able to serve and meet the educational needs of a diverse student audience. The locations of the centers are listed below.

- **OAKLAND COMMUNITY COLLEGE, ORCHARD RIDGE CAMPUS**  
  Building D, 27055 Orchard Lake Road  
  Farmington Hills, MI 48334  
  Telephone: 248-522-3905

- **SCHOOLCRAFT COLLEGE**  
  39201 W. Seven Mile Road  
  Jeffress Center, Suite 320  
  Livonia, MI 48152  
  Telephone: 734-853-3450  
  Fax: 734-853-3446  
  Email: schoolcraft@wayne.edu

- **MACOMB EDUCATION CENTER**  
  16480 Hall Road  
  Clinton Township, MI 48038  
  Telephone: 586-226-4291; 313-577-9632  
  Fax: 586-226-8570  
  Email: macomb@wayne.edu

- **UNIVERSITY CENTER AT MACOMB**  
  44575 Garfield Road  
  Clinton Township, MI 48038  
  Telephone: 586-263-6700; 313-577-6261  
  Fax: 586-263-6120  
  Email: macomb@wayne.edu

- **ADVANCED TECHNOLOGY EDUCATION CENTER**  
  14601 East 12 Mile Road  
  Warren, MI 48088  
  Telephone: 586-447-3905; Fax: 586-447-3907  
  Email: atec@wayne.edu

**Registration for Off-Campus Courses**

Registration for off-campus academic courses is held during the regular registration periods for each semester. For specific registration information, telephone: 313-577-3541 or 313-577-4682.

Fees for credit classes are the regularly established fees of Wayne State University, which are published each semester in the University Schedule of Classes (http://classschedule.wayne.edu). All fees are subject to change at any time without notice by action of the Board of Governors of the University.
Non-Matriculant Advising

Persons who wish to enroll in credit courses offered through this division and who have NOT been formally admitted to the University are registered as non-matriculated students in the College of Liberal Arts and Sciences. Students are advised to consult the non-matriculant advisor as well as the specific degree program requirements cited in this bulletin. Those individuals who have been formally admitted to Wayne State University for a degree or certificate program, or post-baccalaureate study, and who are in good academic standing, will have course credits and grades earned through extension recorded on their transcripts in the same manner as credits earned on campus. Guest students should consult with their advisee institution when formulating their registration plans and submit an application for guest admission (http://admissions.wayne.edu/guest/requirements.php).

Admission Requirements

Most credit courses offered through Educational Outreach are open to all students who are qualified by virtue of meeting the prerequisites for individual courses or, in cases where there are no prerequisites, on the basis of their own assessment of their aptitudes. Those individuals who have been formally admitted to Wayne State University for a degree or certificate program, or post-baccalaureate study, and who are in good academic standing, will have course credits and grades earned through extension recorded on their transcripts in the same manner as credits earned on campus. Guest students should consult with their home institution when formulating their registration plans and submit an application for guest admission (http://admissions.wayne.edu/guest/requirements.php).

Programs Offered Through Educational Outreach

Educational Outreach offers entire curricula or selected courses applicable to many Wayne State University degrees and certificates at convenient times and places. The following complete degree programs are offered at various extension centers. Students should visit the Educational Outreach (https://wayne.edu/educationaloutreach/programs/) website for more details.

Undergraduate Degree and Certificate Programs

Bachelor of Arts with a major in Anthropology
Bachelor of Arts in Business Administration with a major in Global Supply Chain Management
Bachelor of Arts in Business Administration with a concentration in Accounting or Management
Bachelor of Arts in Information Systems Technology
Bachelor of Arts with a major in Communication Sciences and Disorders
Post-bachelor’s program in Communication Sciences and Disorders
Bachelor of Arts with a major in History with optional minor in Political Science or Criminal Justice
Bachelor of Arts with a major in Public Relations
Bachelor of Arts/Science in Elementary Education with a major in Special Education with a concentration in Cognitive Impairment
Bachelor of Science with a major in Computer Science
Bachelor of Science in Construction Management
Bachelor of Science in Criminal Justice
Bachelor of Science with a major in Elementary Education (Integrated Science or Mathematics)
Bachelor of Science in: (Engineering Technology degrees)
- Electrical/Electronic Engineering Technology
- Electromechanical Engineering Technology
- Manufacturing/Industrial Engineering Technology
- Mechanical Engineering Technology
- Product Design Engineering Technology
Bachelor of Science in Mechanical Engineering
Bachelor of Social Work
Bachelor of Science in Nutrition and Food Science

Graduate Degree and Certificate Programs

Master of Business Administration
Education Specialist Certificate in Special Education with a concentration in Learning Disabilities or Autism Spectrum Disorder
Endorsement in Bilingual/Bicultural Education with a concentration in English as a Second Language
Master of Arts in Employment and Labor Relations
Master of Education with a major in Special Education and concentrations in:
- Cognitive Impairment
- Learning Disabilities
- Autism Spectrum Disorders

Master of Social Work

Transfer Student Success Center

Director, Educational Outreach and Transfer Initiatives: Michael Quattro
Manager: Ranae Hamama
Telephone: 313-577-2487
Email: transfer@wayne.edu

The Transfer Student Success Center (TSSC) is a hub for transfer students to obtain the help they need to successfully complete their degree at Wayne State University. The TSSC is designed to help those transferring from a community college or other four-year institution navigate the administrative and academic units of the university and ensure a timely and successful completion of their degree.

The TSSC provides direct service to students, community college staff, and WSU departments.

Direct service to students includes support with:
- Transfer credit evaluation
- Academic advising
- Student organizations
- Engaging students with the larger Wayne State community
- Providing opportunities for prospective students to visit campus

Direct service to community college staff includes:
- Information about Transfer Plans and transferring of credit
- Development of articulation agreements
- Hosting/coordinating staff and faculty visits to WSU
- Providing counselors/advisors and other staff with current/updated WSU information

Direct service to WSU departments includes:
- Facilitating and coordinating the development of articulation agreements
- Acting as a resource and clearinghouse for information on transfer students
- Participating in and leading development of events and activities for transfer students

Executive and Professional Development Programs (Non-Credit)

Associate Director: Michael Kelly
Project Manager: Abby Cheatham
Telephone: 313-577-4665
http://www.ExecEd.wayne.edu (http://www.ExecEd.wayne.edu/)
Executive and Professional Development (EPD) provides proven practical solutions to business challenges through executive education, business training and consulting. Offering a unique blend of expertise and flexible design, EPD moves beyond off-the-shelf, pre-packaged education, training and consulting ‘services’ by applying problem-solving strategies to assess and meet the needs of its clients. EPD is committed to providing customized, fully integrated, in-depth programs to address specific organizational needs and improve individual and organizational capabilities and performance. The EPD portfolio includes:

**Business Training and Executive Education**

EPD offers programs that respond to problems currently facing business, government and industry. Programs are offered in a variety of formats and deliver the strategies, tools, and knowledge needed to succeed in today’s changing business environment. EPD mobilizes the resources of WSU to serve the specific and unique needs of the community by offering customized degree and non-degree programs, be they an onsite MBA program offered for a specific company, an Engineering Management Master program offered for a group of engineering executives, or a master of social work offered at one of the university’s extension sites.

EPD provides a blended training approach by using a variety of alternative delivery methods including on-site facilitated sessions, video-conferencing, online training and computer-based programs.

**Certificate Programs**

EPD responds to industry’s demand for a more comprehensive approach to continuing education by offering certificate programs that encompass several current management and business issues. These multiple-session programs offer participants the opportunity for higher mastery and competency in a particular subject area and can be customized to meet each organization’s specific needs.

**On-Site Consulting Services**

In conjunction with training, EPD’s expert staff provides consulting services in a variety of areas including training and design development, leadership and organizational development, succession planning, business process improvement, strategic planning, and executive coaching.

**Procurement Technical Assistance Center**

The Procurement Technical Assistance Center (PTAC) works with qualified businesses in the Detroit area to prepare them to bid for government contracts. PTAC’s goal is to provide small business owners with a competitive edge in selling to the public sector by educating them about opportunities, and offering marketing and technical assistance. Recently, PTAC services resulted in awarded contracts totaling more than $5 million.

For further information on any Executive and Professional Development services or activities, call: 313-577-4665.

**Financial Aid**

**Office of Student Financial Aid (OSFA)**

Welcome Center, 42 W. Warren Avenue
P.O. Box 2340, Detroit, MI 48202
Telephone: 313-577-2100, Fax: 313-577-6648
https://wayne.edu/financial-aid

The Office of Student Financial Aid (OSFA) provides need-based and non-need-based financial aid to help eligible students meet the expenses of their education. Financial aid is intended to supplement, not to replace, students’ financial resources. Financial need is determined from the information that students submit on the Free Application for Federal Student Aid (FAFSA (https://fafsa.gov/)).

Information concerning scholarships (https://wayne.edu/scholarships/) is available online. Wayne State University offers a variety of University-wide scholarships that are awarded based on financial need, scholastic achievement, and/or leadership qualities. To apply for University-wide scholarships, students must complete the online application (https://wayne.edu/scholarships/privateapp/). Note: Scholarships that have need as a criterion require submission of the FAFSA.

**Service Hours:** Walk-in financial aid assistance is provided in the lobby of the Welcome Center Monday through Thursday, 8:30 a.m. to 6:00 p.m., and Friday 8:30 a.m. to 5:00 p.m. June through August, walk-in services end at 5:00 p.m. Monday through Friday. You also may email studentservice@wayne.edu or call 313-577-2100.

The Office of Student Financial Aid will send email and notices to your WSU email account (https://tech.wayne.edu/kb/communication-collaboration/wayne-connect/). Information about your award and award requirements is available in Academica. More information about using Academica is available on our website (https://wayne.edu/financial-aid/receiving/pipeline/).

**Financial Aid Types**

Financial aid at Wayne State University is awarded in the form of a ‘package,’ or combination of aid sources, and generally consists of four types: grants, scholarships, loans, and employment. The amount of aid a student can receive cannot exceed the estimated cost of attendance. The amount of need-based financial aid that a student may receive cannot exceed their financial need, which is based on the information provided on the FAFSA. Students may be eligible for non-need-based aid in the form of scholarships or unsubsidized federal loans.

**Grants**

Grants are gift assistance awarded on the basis of financial need and do not require repayment. The Free Application for Federal Student Aid (FAFSA) is required. Federal grants include the Federal Pell Grant, the Supplemental Educational Opportunity Grant (SEOG) and the Federal TEACH Grant.

**Scholarships**

Scholarships are gift assistance awarded based on academic achievement or other special ability and do not require repayment. For some awards, financial need is a factor and a FAFSA is required.

**Loans**

Loans are money that must be repaid at a future date, usually following graduation or when the student ceases to be enrolled on at least a half-time basis. Federal loans require submission of the FAFSA. Need- and non-need-based loans are available. Need-based loans for undergraduates include the Federal Direct Subsidized loan. Non-need based loans include the Federal Direct Unsubsidized loan. Parents of dependent undergraduates may apply for a Federal PLUS loan to assist with educational expenses.

**Federal Work-Study**

Federal work-study is on- or off-campus part-time employment with eligible employers. Work-study is awarded based on financial need. Students interested in work-study should complete the annual FAFSA. The Work-Study Request Form available on our website. The Student Guide to On-Campus Employment, which explains the hiring process and the terms and conditions of employment is available from
the Office of Career Services (http://careerservices.wayne.edu/student-employment.php).

Free Application for Federal Student Aid (FAFSA)

How and When to Apply for Financial Aid: Each academic year, submit the Free Application for Federal Student Aid (FAFSA) (http://www.fafsa.ed.gov/) and include the WSU federal code, 002329. The federal processor, the U.S. Department of Education, will electronically transmit the FAFSA data to the Office of Student Financial Aid.

Help Completing the FAFSA: Help completing the FAFSA is provided online throughout the application process. Help also is available by telephone from the Federal Student Aid Information Center: 1-800-4-FED-AID (1-800-433-3243) during regular business hours (Eastern Time), Monday through Friday.

Application Deadlines

Fall/Winter Application Priority Date: The application priority date for financial aid consideration at WSU for fall and winter semesters is the date by which the FAFSA should be submitted to facilitate determination of student eligibility for financial aid before the beginning of the fall semester. The priority date is not a deadline. See our website (https://wayne.edu/financial-aid/resources/dates/) for current information.

Students may submit the FAFSA time during the following periods:

- The 2019-20 FAFSA can be submitted October 1, 2018 through June 30, 2020.
- The 2020-21 FAFSA can be submitted October 1, 2019 through June 30, 2021.

The 2019-20 FAFSA requires 2017 federal tax information. The 2020-21 FAFSA requires 2018 federal tax information. Applicants may be able to use the IRS Data Retrieval Tool when completing the FAFSA. The IRS Data Retrieval Tool will immediately upload tax data to the FAFSA.

Spring/Summer Financial Aid: The Office of Student Financial Aid will use your 2019-20 FAFSA information to determine your aid eligibility for spring/summer 2020 and your 2020-21 FAFSA information to determine your eligibility for spring/summer 2021. Note: If the FAFSA has been submitted for the academic year, it is not necessary to submit it again for the spring/summer semester.

Academic Calendar: At WSU, the spring/summer semester is the third term of the school year. For example: The spring/summer semester 2020 is part of the 2019-20 school year, the spring/summer semester 2021 is part of the 2020-21 school year.

Eligibility and Conditions of Financial Aid

Students must be enrolled in an eligible degree- or certificate-granting program to receive financial aid funds. Enrollment must be at least half-time to be considered eligible for most types of aid. At the undergraduate level, enrollment for six credits is considered half-time and enrollment for twelve or more credits is considered full-time. Some scholarships may require enrollment in fifteen credit hours each fall and winter semester.

Non-degree programs have aid limitations and not all programs are eligible for financial aid. OSFA can provide more information about non-degree programs, including a list of specific certificate programs that are ineligible for financial aid.

Prerequisite coursework aid eligibility is limited. Determination of aid eligibility requires submission of the Prerequisite Coursework Aid Request Form, which is available on our website.

Repeat Coursework

Federal financial aid will pay for only one repeat registration in a course for which the student has previously earned a passing grade. That is,
students are only eligible to receive financial aid the first time the course is repeated.

Financial Aid Enrollment Policy and the Census Date
Financial aid recipients are expected to attend all courses throughout the semester. If your participation in class is not confirmed by your instructor, your aid may be reduced or cancelled. The census date is the date on which WSU counts the number of students enrolled at the institution, which is the tenth day of each semester. It is the policy of the Office of Student Financial Aid to lock or ‘freeze’ the number of enrollment credits after the census date each semester. After the credits are locked or ‘frozen,’ grants and scholarships will not be adjusted (increased or decreased) unless a student withdraws from all classes. Therefore, the number of credits for which a student is enrolled on the census date determines the amount of grant funds that they will receive for the semester.

If, after the census date, a student increases enrollment credits, the grant amount(s) will not be increased. If, after the census date, a student decreases their credits of enrollment, the grant amount(s) will not be decreased. However, if a student withdraws from all classes, federal financial aid regulations require OSFA to determine the amount of financial aid the student has ‘earned’ based on the portion of the semester that has been completed. The ‘unearned’ part of the student’s award must be returned to the financial aid program(s) from which the award(s) was/were made. As a result, withdrawing from all classes may cause cancellation of a portion or all of federal financial aid.

Calculating ‘Earned’ versus ‘Unearned’ Financial Aid
OSFA must follow federal regulations in determining the amount of ‘earned’ versus ‘unearned’ federal financial aid disbursed to a student who then leaves school without completing the semester. The refund percentage is determined by the student’s effective date of withdrawal from all classes, which is the last recorded date of attendance.

A student who completes 60% or less of a semester will be considered to have ‘earned’ the same percentage of financial aid as the percentage of the semester completed. The percentage will be calculated by dividing the completed number of days by the total number of days in the semester. The percentage of ‘unearned’ aid will correspond to the percentage of the semester not completed. A student who completes more than 60% of a semester will be considered to have earned 100% of the financial aid disbursed for that semester and no return of federal financial aid will be calculated.

A student has not ‘earned’ all of the financial aid received may be required to repay those funds. Detailed information is provided in the WSU Withdrawals and Return of Title IV Policy (https://wayne.edu finanzi al-aid/receiving/cancellation/).

Enrollment Requirements for Federal Direct Loans
A student must be enrolled at least half-time to receive a federal loan disbursement. At the undergraduate level, enrollment for six credits is considered half-time.

Satisfactory Academic Progress (SAP)
Federal financial aid regulations require OSFA to apply reasonable standards for measuring whether a student is making progress toward a degree or certificate. The standards, which are called satisfactory academic progress (SAP), must be met for a student to remain eligible to receive financial aid. Academic progress is measured each semester.

WSU Satisfactory Academic Progress Standards are comprised of three components:

1. The cumulative grade point average of at least 2.0 is required at the undergraduate level.
2. The pace of progress toward the degree or certificate must be at least 67%, which is determined by dividing the cumulative number of credits completed by the cumulative number of credits attempted.
3. The maximum time frame for completing the degree or certificate, is 150% of the average published length in credits of the program.

Note: Full-time or part-time enrollment is not a factor in determining the pace of progress or the time frame since only credits are the units of measurement.

The WSU Satisfactory Academic Progress Policy is available online (https://wayne.edu/financial-aid/receiving/sap/). Check your SAP status in Academica (https://academica.aws.wayne.edu).

Consequences of Withdrawing from Courses
A student’s satisfactory academic progress (https://wayne.edu/financial-aid/receiving/sap/) may be affected if the student withdraws from courses during a semester. A student who does not comply with SAP standards may be denied financial aid for subsequent semesters. The university has specific instructions for SAP appeals (https://wayne.edu/financial-aid/receiving/sap/sapappeal/).

A student who withdraws from all courses may be required to repay a portion of the financial aid received. Please see the section above titled Calculating ‘Earned’ versus ‘Unearned’ Financial Aid. If a student’s withdrawal from one or more courses results in less-than-half-time enrollment status, the student will not be eligible for new federal loan funds. At the end of the grace period on the loans received, repayment will begin.

The U.S. Department of Education’s Office of Federal Student Aid (https://studentaid.ed.gov/sa/) governs the policies and procedures for loan repayments, deferment, forbearance, and limits. Detailed information about grace periods and loan repayment is available on the Federal Student Aid website. Students should contact their loan servicer to make repayment arrangements or request a loan deferment or forbearance.

The amount in federal student loans that a student can receive has annual and aggregate limits. Students are strongly encouraged to consider these limits in developing their education plan.

Financial Aid Disbursement
Financial Aid Disbursement: Financial aid (except work-study) is paid in two disbursements if the award is for the academic year (fall and winter semesters). Half of the award is paid in the fall semester and half is paid in the winter semester.

Financial aid recipients are expected to attend courses throughout the semester. Aid will not disburse after courses begin unless the instructor confirms participation in courses. If participation in class is not confirmed, the amount of financial aid may be affected.

Financial aid funds are applied directly to institutional charges (tuition, fees, room and board). Any excess funds will be available within 14 days of the date the credit balance occurs or within 14 days of the first day of classes — whichever is later.

Federal Work-Study Payments: Work-study earnings are paid biweekly in the form of a paycheck. The department in which the student is employed submits a record of the hours worked to the Payroll Office, and the Payroll Office authorizes payments.

Note: Students cannot earn more than the amount of their work-study award. Spring/summer semester is separate from the fall and winter
semesters. Unused funds from a fall and/or winter work-study award cannot be earned in the spring/summer semester.

Enrollment Requirements for Federal Direct Loans: A student must be enrolled at least half-time to receive a federal loan disbursement. At the undergraduate level, enrollment for six credits is considered half-time.

General Education Program
Wayne State has had a University-wide Program in General Education since 1987 for all undergraduate students pursuing bachelor’s degrees regardless of their academic specialties. These requirements contribute to the goal of ensuring that all students have the basic skills fundamental to success in college while simultaneously achieving the intellectual breadth necessary to place specialized and professional curricula in proper perspective. By means of the General Education Program, undergraduate students improve their skills and are introduced to methods of inquiry, modes of thought, bodies of knowledge, and representative ideas drawn from a wide range of academic disciplines.

Effective Fall 2018, the university has adopted major revisions to the general education curriculum. While aspects of the new curriculum are shared with the old curriculum, existing topics were revised and new topics created to specifically align with university’s mission and strategic plan. This includes commitments to global learning, diversity, equity and inclusion, and support for students’ transition into the Wayne State University academic community. A maximum of 35 credits of Competencies, Group Requirements, and Wayne Experience cannot be earned in the spring/summer semester.

The General Education Requirements for students matriculating or graduating under the 2018-19 University Bulletin are organized into the categories of inquiry.

Group Requirements are organized in the following categories of inquiry:

- Natural Scientific Inquiry (NSI)
- Social Inquiry (SI)
- Diversity, Equity and Inclusion Inquiry (DEI)
- Written Communication (Basic Composition - BC, and Intermediate Composition - IC)
- Quantitative Experience (QE)
- Oral Communication (OC)
- Civic Literacy (CIV)
- Global Learning Inquiry (GL)

Wayne Experience Requirements
The Wayne Experience (WE), a one-credit course a required group of various one credit courses required of all first-year students, will play an instrumental role in socializing students into the university community by providing activities that will increase their connections with fellow students, academic advising staff, and their instructors. The essential goals for this requirement are to enhance student engagement, success, and retention by implementing high-impact practices (HIPS) within a student’s first year in college. Wayne Experience will also help students build key skills and habits that will allow them to successfully navigate the university and manage their busy lives. These range from time management to, study and test-taking skills to and engaging in community activities both on and off campus. Student motivation, engagement, learning, achievement, persistence and degree attainment all can be fostered by these transformative educational experiences.

Exemptions for Second Degree and Transfer Students (General Education Program)
Students who hold a bachelor’s degree from an accredited institution and who seek a second bachelor’s degree are exempt from the University-wide General Education Requirements, but must satisfy all School/College, department and program requirements.

Equivalent courses taken at another institution may satisfy General Education Requirements. In cases where this would exceed the limitation of sixty-four credits from a community college accepted on a transfer basis, such courses shall satisfy the requirements, but the credits will not count towards the degree. Transfer students who have satisfied all requirements of the Michigan Transfer Agreement (MTA) are exempted from University General Education Requirements, but must satisfy all School/College, department and program requirements.

Competency Requirements
Success in college and the ability to function as an educated citizen require not only the ability to master areas of foundational knowledge, but also a series of fundamental skills that underlie and make possible the acquisition of knowledge. Since competencies or skills are preconditions for higher education, basic competencies should be demonstrated early in one’s academic career. Multiple methods of demonstrating competency are available, including satisfactory completion of designated courses or earning appropriate scores on designated examinations.

Competency Requirements should be met early in a baccalaureate degree program. Students who fail to meet the specified deadline will be allowed two additional semesters (or equivalent) in which to satisfy the competency requirement. During this time, they must be actively involved in taking the appropriate course or otherwise preparing themselves to demonstrate competence. After the two-semester limit, students who have not satisfied the requirement may be barred from enrolling in courses other than those which satisfy the competency requirement until the requirement has been completed.

The following general principles apply to all competency requirements:

1. Students who satisfy any Competency Requirement by passing a prescribed Wayne State University placement, qualifying, screening, competency or proficiency examination shall be excused from equivalent course work but shall receive NO course credit.
2. Course credit granted for satisfactory completion of an Advanced Placement, CLEP International Baccalaureate, or Departmental Examination will satisfy the appropriate Competency or Group Requirement; credit so earned will be applicable to a baccalaureate degree.

3. Courses used to satisfy Competency Requirements shall not generally be used to satisfy Group Requirements.

**Written Communication (BC, IC)**

Writing ability is a cornerstone of academic studies and is often considered the touchstone of a university education. Skill and effectiveness in writing serve the individual throughout life – in career, in community, and in social and leisure activities. The ability to write well must be developed so that specialized audiences within professional fields as well as general audiences can be addressed effectively. While writing proficiency may be honed and refined in composition courses, writing is a skill that serves many purposes; one that requires constant renewal. The requirement in Written Communication is structured not only to provide training in how to write well, but also to insure that writing skills continue to be exercised and enhanced throughout the undergraduate years. The progression of the Written Communication requirements reflects the important notion of 'writing across the curriculum.' This requirement contains the following three components:

**Basic Composition (BC) Requirement**

All students must demonstrate competence in basic English composition prior to completing thirty credits. Basic composition competence shall be determined by satisfactory completion of a designated course, or its course equivalent or earning credit for basic composition through a national standardized test.

All students must demonstrate competence in basic composition by:

1. Completing successfully an approved course in basic composition with a grade of C or better: ENG 1020 (Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements); OR

2. Earning credit for basic composition through Advanced Placement CLEP or International Baccalaureate; OR

3. Transferring credit received for successful completion of a comparable course completed with a grade of C or better at another college or university.

After successful completion of this requirement, students will be able to demonstrate their ability to:

1. Use reading strategies in order to identify, analyze, evaluate, and respond to arguments, rhetorical elements, and genre conventions in college-level texts and other media.

2. Learn flexible research methods in order to effectively identify, select, evaluate, and apply secondary research that is appropriate to the scope and topic of a persuasive argument.

3. Develop critical literacy strategies to effectively and responsibly quote, paraphrase, summarize, and synthesize secondary research sources in order to compose persuasive arguments.

4. Learn theories and practices of written composition and rhetoric related to the writing process, including genre conventions of public and/or academic discourse communities and strategies for reading, drafting, writing, rewriting, and editing.

5. Apply rhetorical knowledge to develop persuasive research-based written arguments intended for public and/or academic audiences, including techniques of rhetorical analysis of written texts and rhetorical strategies for composing arguments.

6. Compose persuasive arguments using a flexible writing process that includes instructor and peer feedback through multiple drafts of writing projects that incorporate varied writing media.

7. Use reflection and reflective writing to develop metacognition on the writing and research processes to plan, monitor, and evaluate one’s own learning and writing.

**Intermediate Composition (IC) Requirement**

After successful completion of this requirement, students will be able to demonstrate their ability to:

1. Learn how to develop appropriate, relevant, and compelling primary research that responds to a text’s audience, context, and purpose within a professional discourse community.

2. Synthesize primary and secondary research in order to develop ideas and compose written arguments and/or analyses that respond to issues in a professional discourse community.

3. Investigate, analyze, and compose texts for professional discourse communities as related to a concentration of study (i.e., a student’s major).

4. Develop and adjust reading strategies to analyze and evaluate genres within and beyond the student’s discipline and profession, including their associated professional discourse community, audience(s), rhetorical situations, purposes, and strategies.

5. Compose written texts that respond to the expectations of audiences inside and outside of students’ professional discourse community in terms of content, claims, evidence, organization, format, style, rhetorical situation, persuasive strategies, and language effects.

6. Develop an awareness of how written genre conventions are social, and how genre and professional discourse communities change and shape each other over time.

7. Use reflective writing and meta-cognition as part of the planning, monitoring, and evaluation of one’s research and writing processes.

All students must complete satisfactorily a designated intermediate, or more advanced, course in which the teaching of English composition and rhetoric is a major component prior to completing seventy-five credits. Satisfactory completion requires a grade of C or better. Courses currently approved for intermediate composition are:

<td>3</td>
</tr>
</tbody>
</table>

Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements.

**Oral Communication (OC) Requirement**

Educated persons should be comfortable in situations which require them to make oral presentations, be able to convince others of a point of view, or make appropriate remarks in an informal setting. Along with an ability to write cogently, communicating orally is mentioned most
frequently by employers and others who evaluate the preparedness of college students as a fundamental skill to be able to compete in contemporary society. Consequently, oral communication is a crucial skill needed for success in virtually every field of endeavor.

All students must demonstrate competency in the fundamentals of oral communication prior to completing sixty credits. Oral communication competency shall be demonstrated by:

1. Completing successfully an approved course in oral communication: COM 1010; ENG 3060 (Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements.); OR
2. Passing the Oral Communication Competency Examination; OR
3. Transferring credit received for successful completion of a comparable course taken at another college or university.

After successful completion of this requirement, students will be able to demonstrate their ability to:

1. Apply public speaking skills and concepts to speech presentations.
2. Prepare and deliver four different types of well-organized, context-specific speeches.
3. Create and present a well-designed presentation aid complementing a message in an informative speech.
4. Employ persuasive strategies in a persuasive speech.
5. Collaborate in a group in order to complete tasks for a group presentation.
6. Incorporate credible research into an informative and persuasive speech.
7. Critically reflect on the organization, content, and delivery of public speaking performances.
8. Perform an audience analysis to create a speech that is appropriate for and respectful of a diverse audience.

Quantitative Experience (QE) Requirement

Individuals with competency in quantitative skills possess the ability to reason and solve problems from a wide range of authentic contexts and everyday life situations. They can interpret quantitative data and use that analysis to provide support for sophisticated arguments. They can clearly communicate those arguments in a variety of formats as appropriate. This requirement is aimed at developing those skills in all of our students.

Competency in quantitative skills must be demonstrated by all students prior to completion of the first thirty credits taken at Wayne State University. Quantitative skills competency shall be demonstrated by:

a) Satisfactory completion of any QE designated course with a grade of C or better if taken at Wayne State University;

b) Placing into a mathematics course above the level of MAT 1000 or MAT 1070 on the Mathematics Placement Examination;

or

c) Achieving appropriate scores on national standardized tests;

or

d) Transferring credit received for successful completion of a course equivalent to or higher than MAT 1000 completed with a grade of C or better at another college or university.

After successful completion of this requirement, students will be able to demonstrate their ability to:

1. Apply mathematical models to real-world problems.
2. Carry out and justify calculations.
3. Draw conclusions based on quantitative evidence.
4. Communicate arguments supported by quantitative evidence.

Group Requirements (Inquiry Courses)

Inquiry courses are designed to help introduce students to the different perspectives, methodologies, and questions that shape the production of knowledge. As suggested by the title, in these courses students will learn how scholars think in different disciplines, and they will also begin to engage in inquiry themselves, using diverse disciplinary methodologies to ask questions, analyze data, and make their own evidence-based arguments.

Through courses that fulfill Inquiry requirements, students will:

1. Gain exposure to different disciplinary ways of understanding the world.
2. Develop basic competencies in these disciplinary methodologies.
3. Apply disciplinary methodologies to analyze relevant data or examples.

There are four primary categories of Inquiry. They include Social Inquiry, Cultural Inquiry, Natural Scientific Inquiry, and Civic Literacy Inquiry. In addition to these categories, there are three additional cross-inquiry categories: First Year Inquiry, Global Learning and Diversity, Equity and Inclusion. Cross-Inquiry courses are specially-designated courses that provide focus on themes that may cut across the primary Inquiry categories, therefore all cross-inquiry courses could be conceivably be found in a primary inquiry category. For example, one could imagine a course focused on Global Learning outcomes from the perspective of the social sciences and/or the arts and humanities.

Each student must complete a minimum of seven courses of at least 3 credits each from the following Inquiry groups, with at least two courses from the Natural Science Inquiry (NSI), one with a lab section, and one course from the remaining Inquiry groups, all of which are listed below.

NOTE: Schools and colleges may also have specific requirements, such that careful course selection can lead to meeting both General Education and college requirements. Please consult the College/School listing for specific requirements.
Social Inquiry (SI)

After successful completion of this requirement, students will be able to demonstrate their ability to:

- Describe the behaviors, practices, institutions, and/or systems that define a society or social group.
- Identify and define basic concepts in social analysis.
- Analyze social institutions and social interactions.

Cultural Inquiry (CI)

After successful completion of this requirement, students will be able to demonstrate their ability to:

- Describe artistic or cultural form(s) or philosophical ideas.
- Identify and define basic concepts in artistic or humanistic analysis.
- Analyze artistic practices, cultural forms, artifacts, or philosophical ideas.

Natural Scientific Inquiry (NSI)

After successful completion of this requirement, students will be able to demonstrate their ability to:

- Explain natural phenomena using scientific concepts, theories and/or principles.
- Describe the process of scientific inquiry.
- Analyze historical or contemporary societal subjects using scientific concepts and principles.
- Apply the scientific method to evaluate data (For lab courses only).

Global Learning Inquiry (GL)

After successful completion of this requirement, students will be able to demonstrate their ability to:

- Compare one’s own position, core values, and biases to those in other national and global communities.
- Identify and examine historical legacies that have created the dynamics and tensions of the world.
- Analyze how perceptions and beliefs are created by differing historical, scientific and cultural contexts.
- Exhibit the intercultural competencies necessary to move across boundaries and unfamiliar territory, see the world from multiple perspectives, and/or sustain difficult conversations in the face of highly emotional and perhaps uncongenial differences.
- Use analytical reasoning skills to articulate informed and humane solutions to complex global concerns.

Diversity, Equity and Inclusion Inquiry (DEI)

After successful completion of this requirement, students will be able to demonstrate their ability to:

• Compare complex categories of social group memberships as they relate to our local and national contexts, democratic traditions, and contemporary struggles.
• Recognize the relationship between contemporary diversity-related issues and U.S. history, institutions, practices, and policies.
• Examine the roots of individual cultural values and prejudices and how they influence behavior.
• Identify the ethical and moral issues present in complex domestic situations and articulate informed responses to ambiguity and disagreement.
• Demonstrate understanding of the key issues of the course by analyzing, proposing, or engaging in strategies that promote equity at the local or national level.

Civic Literacy Inquiry (CIV)

Civic literacy is a critical component of preparing students to contribute to local, national, and international communities. Inquiry into civic literacy entails asking questions about the relationship of the individual with the public sphere. This inquiry will provide students with foundational knowledge about the diversity of interests in American society over time, both domestic and abroad, especially those pertaining to race, ethnicity, and gender; the mechanisms by which individuals and groups have pursued their interests; and the role of institutions in addressing conflict. Students completing the course will apply the knowledge, concepts, and critical thinking skills from the course to make well-reasoned, informed, and ethical political decisions. After successful completion of this requirement, students will be able to demonstrate their ability to:

• Exhibit knowledge of U.S. history, political institutions, and democratic principles.
• Explain the meaning and significance of citizenship and national identity, past and present.
• Explain forms of participation by individuals and groups.
• Explain the economic, historic, political, and social bases for conflict and cooperation between groups.
• Explain the economic, historic, political, and social marginalization of groups in civic life.

Wayne Experience

The Wayne Experience (WE), a one-credit course required of all first-year students, will play an instrumental role in socializing students into the university community by providing activities that will increase their connections with fellow students, academic advising staff, and their instructors. The essential goals for this requirement are to enhance student engagement, success, and retention by implementing high-impact practices (HiPS) within a student’s first year in college. Wayne Experience will also help students build key skills and habits that will allow them to successfully navigate the university and manage their busy lives. These would range from time management, studying, and test-taking skills to engaging in community activities both on and off-campus. Student motivation, engagement, learning, achievement, persistence and degree attainment all can be fostered by these transformative educational experiences.

Transfer students: Wayne Experience (WE) will be automatically waived if a student transfers a minimum of 24 credits to WSU. Advanced Placement (AP) tests, International Baccalaureate (IB) tests, CLEP exams, High School Dual Enrollment, and Early/Middle College DO NOT count towards waiving WE.

Goals

1. Belonging: will foster a sense of belonging and connection; cultivate the development and expanding of relationships; meet students where they are; and promote their sense of personal purpose at Wayne State University.

2. Acculturation to the academic community: will promote an understanding of what it means to be a Wayne State Student, including grasping the value of a liberal education and general education along with linking theory to practice by participating as a member of a diverse and inclusive academic community.

3. WSU in Detroit: will cultivate an understanding of WSU’s role in local cultures and history as well as develop an appreciation of how public service can transform individuals and diverse communities.

4. Academic Support and Study Skills: will promote the understanding of and use of the full spectrum of academic support services to collectively empower students to transform themselves into self-directed learners and powerful problem-solving.

Learning Outcomes

In this broad category, specific learning outcomes may vary from offering to offering but draw from the LEAP Essential Learning Outcomes, as adapted through our general education reform process.

After successful completion of this requirement, students will be able to demonstrate their ability to:

• Describe meaningful connections with Wayne State peers, faculty, staff, and campus resources.
• Demonstrate foundational skills necessary for undergraduate-level academic and personal achievement at Wayne State University.
• Relate the value of attending WSU to the student’s own academic and personal pursuits.
• Develop self-advocacy to optimize the use of campus resources and academic opportunities.

General Education Courses by Subject

The courses listed below are included in the General Education curriculum as revised, effective Fall 2018.

Academic Pathways for Excellence (APX)

**APX 1000 Learning Strategies for College Success Cr. 1**

Satisfies General Education Requirement: Wayne Experience Learning Strategies for College Success (LSCS) is a first-year course that builds upon critical thinking skills to (1) integrate study skills into academic courses; (2) use a strategic note taking and study process to learn content and prepare for examinations; (3) develop effective strategies to collaborate with peers in group assignments and presentations; (4) foster help-seeking skills by exposing students to campus resources; (5) support student well-being and sense of belonging at Wayne State University. Offered Every Term.

Corequisite: APX 1010

Restriction(s): Enrollment limited to students with a class of Freshman.
African American Studies (AFS)

**AFS 1010 Introduction to African American Studies Cr. 3**
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry
An interdisciplinary approach to exploring several broad issues, topics, theories, concepts and perspectives which describe and explain the experiences of persons of African descent in America, the Continent, and the diaspora. Offered Every Term.

**AFS 2010 African American Culture: Historical and Aesthetic Roots Cr. 4**
Satisfies General Education Requirement: Cultural Inquiry, CIV and SOCIETIES (CLAS only), Diversity Equity Incl Inquiry
Examination of the historical, traditional and aesthetic bases of a variety of cultural forms – language, literature, music – of the Black experience. Offered Every Term.

**AFS 2210 Black Social and Political Thought Cr. 4**
Satisfies General Education Requirement: Civic Literacy, Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences
Survey of the Black intellectual and political tradition from the United States, the Caribbean and Africa. Offered Every Term.

**AFS 2250 AfroLatino/a History and Culture Cr. 3**
Satisfies General Education Requirement: Cultural Inquiry
Interdisciplinary introduction to the history and culture of AfroLatinos/as in the U.S. from the perspective of the African Diaspora in the Americas. Offered Winter.
Equivalent: LAS 2250

**AFS 2350 Black Detroit Cr. 3**
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Explores the historical, cultural and structural aspects of the Black urban experience in Detroit from the late 19th Century to the present, including the role that racism, urbanization and suburbanization have played in shaping racial, spatial and economic inequality in the Detroit Metropolitan area. Utilizes an interdisciplinary approach: to interrogate the social and cultural history of Black Detroit, to examine the various forms of Black social movement activism used by Black Detroiters in the 20th Century, and to analyze ways the shifting economic and political currents shaped, and reshaped racism, class, space, and resistance in the Detroit metropolitan area. Offered Fall, Winter.
Equivalent: HIS 2350, US 2350

**AFS 2390 Introduction to African-American Literature: Literature and Writing Cr. 3**
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Introduction to major themes and some major writers of African-American literature, emphasizing modern works. Reading and writing about representative poetry, fiction, essays, and plays. Offered Every Term.
Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100
Equivalent: ENG 2390

**AFS 2600 Race and Racism in America Cr. 3**
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Examination of the nature and practice of racism in American society from its historical foundations to its contemporary institutional forms. Offered Every Other Year.
Equivalent: SOC 2600

**AFS 3140 African American History I: 1400-1865 Cr. 3-4**
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
African origins of African Americans; transition from freedom to slavery; status of African Americans under slavery. Offered Yearly.
Equivalent: HIS 3140

**AFS 3150 African American History II: 1865-1968 Cr. 3-4**
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
African American history from Reconstruction through the Civil Rights Movement. Offered Yearly.
Equivalent: HIS 3150

**AFS 3155 African American History III: 1968 - Present Cr. 3-4**
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
History of African Americans' struggle against persistent and stubborn racism, efforts to achieve full citizenship, and legal and economic justice after 1968. Offered Intermittently.
Restriction(s): Enrollment is limited to Undergraduate level students.
Equivalent: HIS 3155

**AFS 3160 Black Urban History Cr. 4**
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Historical experience of African Americans in urban areas; impact of their communities on urban development from 1860 to contemporary times. Offered Fall, Winter.
Equivalent: HIS 3160

**AFS 3170 Ethnicity and Race in American Life Cr. 3-4**
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Exploration of complicated relationship between ethnic and racial diversity and the making of America. Using historical, literary, and cultural readings and sources to examine key themes: Who was the "Other"? What is an "American"? Offered Yearly.
Equivalent: HIS 3170

**AFS 3180 Black Social Movements Cr. 4**
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Survey of mass or popular Black movements with emphasis on their political and cultural impact, historical continuity and organization. Offered Yearly.
Equivalent: HIS 3180

**AFS 3250 Politics and Culture in Anglophone Caribbean Cr. 3**
Satisfies General Education Requirement: Civic Literacy, Foreign Culture, Global Learning Inquiry

**AFS 3360 Black Workers in American History Cr. 4**
Satisfies General Education Requirement: Social Inquiry
Survey of the relationship between the African-American worker and American society from slavery to Reconstruction; labor struggles and job discrimination in the twentieth century. Offered Fall, Winter.
Equivalent: HIS 3360

**AFS 3420 Pan Africanism: Politics of the Black Diaspora Cr. 4**
Satisfies General Education Requirement: Global Learning Inquiry
Interplay of Pan Africanism as a cultural and socio-political movement in world politics from its origins as a concept to organizing practice worldwide. Offered Yearly.
Equivalent: PS 3820
**Anthropology (ANT)**

**ANT 1100 Introduction to Anthropology Cr. 3**  
**Satisfies General Education Requirement:** Social Inquiry, Social Sciences  
Study of humanity, past and present: cultural diversity and change, human evolution, biological variability, archaeology, ethnography, language, and contemporary uses of anthrop学. Offered Every Term.

ANT 3400 Introduction to Medical Anthropology Cr. 3
Satisfies General Education Requirement: Social Inquiry
Introduction to Medical Anthropology uses a biosocial, cross-cultural approach to explore the complexities of health and medicine today – in the United States and elsewhere. It pays special attention to health disparities and how they are experienced by various social groups. This course will expose students to a number of cultural systems of health and illness from around the world and, describe the behaviors, practices, institutions, and/or systems that define them. In keeping with an anthropological approach, it will treat western biomedicine as one of many cultural systems of explaining and addressing illness. Offered Intermittently.

ANT 3410 Global Health Cr. 3
Satisfies General Education Requirement: Global Learning Inquiry, Social Inquiry, Social Sciences
Introduces students to problems of disease and disorder worldwide and looks at various efforts to define and address these problems through a social science perspective. Offered Winter.
Equivalent: GLS 3410, PH 3410

ANT 3520 Understanding Africa: Past, Present and Future Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry
In-depth knowledge of Africa through the study of its physiography, prehistory and history, social institutions, and social changes within a global context. Offered Intermittently.

ANT 3530 Native Americans Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Examines the way that academic disciplines and individual scholars have examined American Indian and Native cultures, traditions and histories. The course focuses on migration, colonization, warfare, Native sovereignty and the contemporary experience to learn about the distinctive perspectives of the indigenous peoples of North America. Examines (scientific and indigenous) accounts of the origin of Native American cultures, their interaction in pre-Contact times, survival and persistence during European conquest and colonization and the continuing struggle within dominant North American society for equity, justice and inclusion. Offered Intermittently.

ANT 3540 Cultures and Societies of Latin America Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry
Latin American social structures and cultural variation, history, and relationship to the United States. Themes include class, race, ethnicity, gender, religion, globalization, and immigration to the United States. Offered Intermittently.

ANT 3550 Arab Society in Transition Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry
Distinctive social and cultural institutions and processes of change in the Arab Middle East. Regional variations: background and discussion of current political and economic systems and their relationship to international systems. Offered Intermittently.
Equivalent: NE 3550

ANT 3560 World’s Religions Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Global Learning Inquiry
Explores the nature, dynamism, similarities and differences of religions in an anthropological and cross-cultural perspective. Offered Intermittently.
Prerequisite: ANT 2100 with a minimum grade of D- or ANT 1100 with a minimum grade of D-

ANT 3700 Globalization: Theories, Practices, Implications Cr. 3
Satisfies General Education Requirement: Global Learning Inquiry, Social Inquiry, Social Sciences
Students develop analytical tools for appraising processes of globalization; acquire a familiarity with the current topical concerns of global studies; and examine economic, political, and cultural approaches to globalization. Offered Winter.
Equivalent: GLS 3700

Arabic (ARB)

ARB 2010 Intermediate Arabic I Cr. 4
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Continuation of grammar, readings in classical and modern prose. Offered Every Term.
Prerequisites: ARB 1020 with a minimum grade of D-
Course Material Fees: $5

Armenian (ARM)

ARM 3410 New Soil, Old Roots: The Immigrant Experience Cr. 3
Satisfies General Education Requirement: Civ and Societies (CLAS only), Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry
Armenian, German, Jewish, Polish, Russian and Ukrainian immigration to the United States, its effects on the cultures (language, literature, religion, politics, music, art and theatre) of these ethnic groups and its influence upon American life. Offered Fall.
Equivalent: GER 3410, POL 3410, RUS 3410, SLA 3410

Art Education (AED)

AED 5050 Integrating the Arts into the Elementary Classroom Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
Introductory course: integration of visual arts, music, dance, and theatre into the teaching, learning and curriculum of the elementary classroom. Offered Fall, Winter.
Prerequisites: (2 of (ELE 3300, ELE 6290, ELE 6390, ELE 6500, ELE 3400, ELE 3500, or ELE 3600) and 1 of (ELE 3320 or ELE 6310)) or TED 5150
Course Material Fees: $30

Art History (AH)

AH 1000 Introduction to Art Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
An introductory survey of art and culture designed to equip students to look purposefully, critically, and contextually at images and events, mindful of the ways that meaning is produced and perceived. Offered Every Term.

AH 1110 Survey of Art History: Ancient through Medieval Cr. 3-4
Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
Survey of traditions and major developments in visual expression in the West, prehistory through Medieval period. Art studied in context of its cultures; techniques of visual analysis. Offered for four credits only to Honors students. Offered Every Term.

AH 1120 Survey of Art History: Renaissance through Modern Cr. 3-4
Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
Traditions and developments in visual expression in the West, Renaissance through twentieth century. Art in context of its cultures; techniques of visual analysis. Offered for four credits only to Honors students. Offered Every Term.
AH 1130 Encounters with the Arts of Global Africa Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry, Visual Performing Arts  
Introductory survey of the arts of Africa and the African Diaspora, focusing on the visual culture of cross-cultural contact within Africa and beyond. Offered Fall, Winter.  
Restriction(s): Enrollment is limited to Undergraduate level students.

AH 3470 Islamic Art and Architecture Cr. 3  
Satisfies General Education Requirement: Global Learning Inquiry  
Survey of art and architecture of Islam from its origins in the seventh century to the Ottoman Empire. Offered Intermittently.

AH 3750 African American Art Cr. 3  
Satisfies General Education Requirement: Diversity Equity Incl Inquiry  
Historical inquiry of African American art from the eighteenth century to today. Offered Yearly.  
Equivalent: AFS 3750

Art: Photography (APH)  
APH 5860 Social Documentary: Community, Compassion, and Activism Cr. 3  
Satisfies General Education Requirement: Diversity Equity Incl Inquiry  
Photographic documentation applied to social cause, community representation, and visual/multicultural critical theory. Offered Intermittently.  
Prerequisites: APH 2400  
Course Material Fees: $180

Asian Studies (ASN)  
ASN 1700 East Asia to the 1700s Cr. 3  
Satisfies General Education Requirement: Social Inquiry  
From antiquity to the 1700s; emphasis on political, economic, social, and cultural developments in China, Japan, and Korea, and the nature and impact of their interactions. Offered Intermittently.  
Equivalent: HIS 1700

ASN 1710 History of Modern East Asia Cr. 3  
Satisfies General Education Requirement: Global Learning Inquiry, Historical Studies, Social Inquiry  
From beginning of nineteenth century to the present; emphasis on political, social and economic developments in China, Japan, and Korea. Offered Yearly.  
Equivalent: HIS 1710

ASN 2800 Culture Studies in Japan (Homestay and Study Abroad Tour) Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry  
Survey of Japanese culture taught in English. Introduction of family and group organization, customs, pop culture (fashion/music/films), aspects of daily lives (thought/religion/arts/society), and a brief modern history. Also, survival language practice. Offered Spring/Summer.  
Prerequisites: JPN 1010 with a minimum grade of D-  
Equivalent: JPN 2800

Astronomy (AST)  
AST 2010 Descriptive Astronomy Cr. 4  
Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences  
Lecture course that introduces the concepts and methods of modern astronomy, the solar system, stars, galaxies, and cosmology; recent discoveries about planets, moons, the sun, pulsars, quasars, and black holes. Meets General Education Laboratory requirement only when taken with Coreq: AST 2011. Offered Every Term.

Basic Engineering (BE)  
BE 1060 Building a Foundation for College Success Cr. 1  
Satisfies General Education Requirement: Wayne Experience  
This course is designed to expose students to the Wayne State University undergraduate experience. Students will gain an understanding of campus resources, institutional values, and the merits of a liberal arts education from an urban research one university. This course will aid in the development of critical and analytical thinking skills necessary for college success while determining one's academic and professional goals. Offered Winter.  
Restriction(s): Enrollment limited to students with a class of Freshman.

Biological Sciences (BIO)  
BIO 1030 Biology Today Cr. 3  
Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry  
Challenges to modern society from population growth, new diseases, environmental degradation, urban pollution; medical advances and ethical dilemmas in decoding human genome; impact of biological findings on political and personal decisions; issues considered in context of principles and strategies of modern biological research. Not for biology major credit. Offered Fall, Winter.

BIO 1050 An Introduction to Life Cr. 4  
Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry  
A factual and conceptual treatment of modern biology at the cell, organismal, and population levels of organization. Meets General Education Laboratory Requirement when elected for 4 credits. No credit after BIO 1500 or BIO 1510. Offered Every Term.  
Course Material Fees: $20

BIO 1500 Basic Life Diversity Cr. 4  
Satisfies General Education Requirement: Natural Scientific Inquiry  
Physiology, ecology, evolution, and systematics, their principles, strategies and outcomes in both structure and function. No credit after former BIO 1520. Offered Every Term.  
Prerequisites: BIO 1050 with a minimum grade of C, BIO Permit to Reg ACT/SAT with a test score minimum of 2, BIO Permit to Reg-L1-L2 BPE with a test score minimum of 2, or BIO 1510 with a minimum grade of C  
Course Material Fees: $25

BIO 1510 Basic Life Mechanisms Cr. 4  
Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry  
Factual and conceptual treatment of cell molecules, cell structure, metabolism, genetics, and development. For the science major and certain pre-professional programs. Meets General Education laboratory requirement. BIO 1500 and BIO 1510 required of all biological sciences majors. Only Engineering students may elect for three credits. Offered Every Term.  
Prerequisites: BIO 1050 with a minimum grade of C, BIO Permit to Reg ACT/SAT with a test score minimum of 2, BIO Permit to Reg-(L1-L2) BPE with a test score minimum of 2, or BIO 1500 with a minimum grade of C  
Course Material Fees: $25

BIO 2200 Introductory Microbiology Cr. 5  
Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry  
Bacteria and their basic biology; the relationship of microorganisms to man and other living forms, including their ecological importance and their role in the causation of disease; laboratory exercises paralleling the above principles. Offered Every Term.  
Prerequisites: BIO 1510 with a minimum grade of C-  
Course Material Fees: $60
Business Administration (BA)

BA 1040 Managing Diversity in the Workplace Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
This course prepares students to become effective coworkers and managers in today's diverse workplace. Traditional management theories are analyzed within a multicultural framework and students will be exposed to current diversity management practices in the field. Practical and experiential activities designed to help students understand the concepts are provided. Offered Yearly.

BA 1100 Warrior Success Cr. 1
Satisfies General Education Requirement: Wayne Experience
Designed to assist newly admitted students in becoming socialized and acclimated to Wayne State University. Offered Fall, Winter.
Restriction(s): Enrollment limited to students with a class of Freshman.

BA 1200 Personal Finance Planning Cr. 3
Satisfies General Education Requirement: Quantitative Experience Comp
Introductory course designed to help students become financially literate and make proper financial decisions encountered in everyday life. Topics covered will include income, money management, spending and credit, as well as saving and investing. No credit after former FIN 3050. Offered Fall, Winter.

BA 2300 Quantitative Methods I: Probability and Statistical Inference Cr. 3
Satisfies General Education Requirement: Quantitative Experience Comp
Corequisite: BA 1500
Restriction(s): Enrollment limited to students in the School of Business.

Chemistry (CHM)

CHM 1000 Chemistry and Your World Cr. 4
Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences
Facts and theories from analytical, inorganic, organic, and physical chemistry, and from biochemistry; their consequences in life processes and the environment. Meets General Education Laboratory Requirement when elected for 4 credits. Offered Fall, Winter.
Course Material Fees: $110

CHM 1020 Survey of General Chemistry Cr. 4
Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences
High school chemistry not required. First course in the terminal sequence consisting of CHM 1020 and CHM 1030. Matter and energy in chemistry, chemical symbols and equations, structure and properties of atoms, introduction to chemical bonding; periodicity in chemistry, solids, liquids, gases, solutions, acids and bases, and equilibrium. Meets General Education Laboratory Requirement. Offered Fall, Winter.
Prerequisites: Math Permit to Reg - (L1-L3) with a test score minimum of 2-4, MAT 0993-6XXX with a minimum grade of C, MAT Permit to Reg ACT/SAT with a test score minimum of 2-4, ACT Math with a test score minimum of 18-36, SAT Mathematics with a test score minimum of 490-800, or SAT MATH (POST-2016) with a test score minimum of 490-900
Course Material Fees: $110

CHM 1060 General, Organic and Biochemistry Cr. 5
Satisfies General Education Requirement: Natural Scientific Inquiry
Chemistry 1060 is an integrated approach to the study of General Chemistry, Organic Chemistry, and Biochemistry for students pursuing careers in health-related fields. In each area, Health Links and Biochemistry Links will be used to demonstrate key chemistry principles. The laboratory experiments focus on general, organic, and biochemistry. Offered Fall, Winter.

CHM 1220 General Chemistry I Cr. 4
Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences
Introduction to the principles of chemistry for students with high school background in chemistry. Chemical structure, bonding, and reactivity. Satisfies General Education laboratory requirement upon completion of both CHM 1220 and 1230. Only two credits if taken after CHM 1020. No credit after if taken after CHM 1225. Offered Every Term.
Prerequisites: (CHM 1040 with a minimum grade of C, CHM Permit to Reg (L1-L3) CPE with a test score minimum of 2-3, or CHM 1020 with a minimum grade of C-) and (Math Permit to Reg - (L1-L4) with a test score minimum of 3-4, MAT Permit to Reg ACT/SAT with a test score minimum of 3-4, MAT 1050 with a minimum grade of C, MAT 1070 with a minimum grade of C, or MAT 1800-6ZZZ)
Equivalent: CHM 1225

CHM 1225 General Chemistry I for Engineers Cr. 3
Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences
Introduction to principles of chemistry for students with high school background in chemistry. Chemical structure, bonding, and reactivity. Satisfies General Education laboratory requirement upon completion of both CHM 1225 and 1230. Only one credit after CHM 1020. No credit after CHM 1220. Offered Every Term.
Prerequisites: (CHM 1040 with a minimum grade of C, CHM Permit to Reg (L1-L3) CPE with a test score minimum of 2-4, or CHM 1020 with a minimum grade of C-) and (Math Permit to Reg - (L1-L4) with a test score minimum of 3-4, MAT Permit to Reg ACT/SAT with a test score minimum of 3-4, or MAT 1800-6ZZZ with a minimum grade of C- (may be taken concurrently))
Restriction(s): Enrollment limited to students in the College of Engineering.
Equivalent: CHM 1220

Chinese (CHI)

CHI 2010 Intermediate Chinese Cr. 4
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Completion of Chinese language sequence. Offered Yearly.
Prerequisite: CHI 1020 with a minimum grade of D-
Course Material Fees: $5

CHI 2050 Gateway to Chinese Civilizations Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry
Introduction to Chinese culture, society, and politics. Offered Every Term.

Restriction(s): Enrollment is limited to Undergraduate level students.
ENG 2430 Digital Narrative Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Introductory study of digital narrative and electronic textuality, including a variety of digital-born media such as online literature, gaming and interactive fiction. Offered Yearly.
Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100
Restriction(s): Enrollment is limited to Undergraduate level students.
ENG 2440 Introduction to Visual Culture Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
Introductory course in the reading of images from the perspective of literary and cultural studies. Attention to basic concepts, terms, and theories in the study of visual culture. Offered Yearly.
Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100
Restriction(s): Enrollment is limited to Undergraduate level students.
ENG 2445 Comics and Graphic Novels Cr. 3
Satisfies General Education Requirement: Cultural Inquiry
Introduction to the history, forms, and reading practices of graphic storytelling through critical reading of, and writing about, comics and graphic novels. Offered Yearly.
Prerequisite: ENG 1020 with a minimum grade of C
ENG 2450 Introduction to Film Cr. 4
Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
Examination of film techniques and basic methods of film analysis. Offered Every Term.
Course Material Fees: $15
Equivalent: COM 2010
ENG 2470 Television Culture Cr. 4
Satisfies General Education Requirement: Cultural Inquiry
A survey of American television history with an introduction to some of the aesthetic and theoretical concerns of television studies. Offered Yearly.
Prerequisite: ENG 1020 with a minimum grade of C
ENG 2500 The English Bible as Literature Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
The King James text as a literary masterpiece. Offered Intermittently.
Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 2510 Popular Literature Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Introductory study of popular literature. Content may include recent best-sellers, horror, science fiction and prize-winning novels. Offered Yearly.
Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100
Restriction(s): Enrollment is limited to Undergraduate level students.

ENG 2530 Literature and Identity Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
The study of literary texts with an emphasis on how identity is shaped by race, ethnicity, religion, gender, sexual orientation, and other factors. Offered Intermittently.
Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 2540 Literatures of the World Cr. 3
Satisfies General Education Requirement: Global Learning Inquiry
Provides a forum for the study of literature outside the United States and beyond the boundaries imposed by particular national or linguistic tradition. Offered Intermittently.
Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 2560 Children's Literature: Literature and Writing Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Intermediate Comp Pre-2018
Introductory course in writing about the Anglo-American tradition of classic and contemporary children's literature. Offered Every Term.
Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100
Restriction(s): Enrollment is limited to Undergraduate level students.

ENG 2565 Young Adult Literature and Culture Cr. 3
Satisfies General Education Requirement: Cultural Inquiry
Analysis of Young Adult (YA) literature from a literary and cultural studies perspective. Offered Yearly.
Prerequisite: ENG 1020 with a minimum grade of C

ENG 2570 Writing about Literature: Women Writers Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry, Intermediate Comp Pre-2018
Introduction to the major themes and issues of writing by and about women. Reading and writing about representative fictional and non-fictional works. Offered Every Term.
Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

ENG 2585 Literature and War Cr. 3
Satisfies General Education Requirement: Cultural Inquiry
Examines the experiences and effects of war through close reading of literary texts and works providing historical context. Offered Yearly.
Prerequisite: ENG 1020 with a minimum grade of C

ENG 2670 Introduction to Canadian Studies Cr. 3
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Survey of Canada in its cultural, literary, historical, geographical and political aspects; key concepts and social patterns that define the Canadian experience. Offered Yearly.
Equivalent: GPH 2700, HIS 2700, PS 2700

MAT 1000 Mathematics in Today's World Cr. 3
Satisfies General Education Requirement: Quantitative Experience Comp
An exploration of current applications of mathematics, such as gerrymandering, consumer mathematics, cryptography, identification numbers, art, music, statistical design, optimal decision making, and risk assessment. Offered Every Term.
Restriction(s): Enrollment is limited to Undergraduate level students.

MAT 1070 College Algebra Cr. 5
Satisfies General Education Requirement: Quantitative Experience Comp
A college algebra course with emphasis on functions. Topics include: properties of the real number system, equations and inequalities, lines, graphs, algebra of functions, modeling, exponents, logarithms, systems of equations and conic sections, and introduction to trigonometry if time allows. Prerequisites are subject to specific conditions. Refer to the Mathematics Placement Information page referenced at the top of the Mathematics course listings in the University Bulletin. Some sections are offered by the Rising Scholars Program (RSP). These sections require departmental approval and must be taken with MAT 1075, a two-hour workshop. Email emergingscholars@wayne.edu for more information regarding the RSP sections. Offered Every Term.
Prerequisites: MAT 0993 with a minimum grade of CNC (must be taken at WSU), MAT Permit to Reg ACT/SAT with a test score minimum of 2-4, or Math Permit to Reg - (L1-L4) with a test score minimum of 2-4

MAT 1110 Mathematics for Elementary School Teachers I Cr. 3
Satisfies General Education Requirement: Quantitative Experience Comp
Problem solving, sets, functions, reasoning, number theory, whole numbers, integers, fractions, decimals. Prerequisites are subject to specific conditions. Refer to the Mathematics Placement Information page referenced at the top of the Mathematics course listings in the University Bulletin. Offered Fall, Winter.
Prerequisites: MAT 1050-6999 with a minimum grade of C- (must be taken at WSU), MAT Permit to Reg ACT/SAT with a test score minimum of 2-4, or Math Permit to Reg - (L1-L4) with a test score minimum of 2-4

MAT 1110C Mathematics for Elementary School Teachers II Cr. 3
Satisfies General Education Requirement: Quantitative Experience Comp
Statistics, probability, geometry, and measurement. Prerequisites are subject to specific conditions. Refer to the Mathematics Placement Information page referenced at the top of the Mathematics course listings in the University Bulletin. Offered Fall, Winter.
Prerequisites: MAT 1050-6999 with a minimum grade of C- (must be taken at WSU), MAT Permit to Reg ACT/SAT with a test score minimum of 3-4, or Math Permit to Reg ACT/SAT with a test score minimum of 3-4

MAT 1120 Mathematics for Elementary School Teachers II Cr. 3
Satisfies General Education Requirement: Quantitative Experience Comp
Statistics, probability, geometry, and measurement. Prerequisites are subject to specific conditions. Refer to the Mathematics Placement Information page referenced at the top of the Mathematics course listings in the University Bulletin. Offered Fall, Winter.
Prerequisites: MAT 1110 with a minimum grade of C- (must be taken at WSU), MAT Permit to Reg ACT/SAT with a test score minimum of 3-4, or Math Permit to Reg - (L1-L4) with a test score minimum of 3-4
MAT 1800 Elementary Functions Cr. 4  
Satisfies General Education Requirement: Quantitative Experience Comp  
Basic definition and concept of function. Definitions, properties and graphs of polynomial, rational, exponential, logarithmic, trigonometric, and inverse trigonometric functions. Only two degree credits after MAT 1500. Students in the Emerging Scholars Program must also enroll in the accompanying problem-solving workshop: MAT 1990, for a total of six credits. Prerequisites are subject to specific conditions. Refer to the Mathematics Placement Information page referenced at the top of the Mathematics course listings in the University Bulletin. Offered Every Term.  
Prerequisites: MAT 1050 with a minimum grade of C- (must be taken at WSU), MAT Permit to Reg ACT/SAT with a test score minimum of 3-4, or Math Permit to Reg - (L1-L4) with a test score minimum of 3-4

MAT 2010 Calculus I Cr. 4  
Satisfies General Education Requirement: Quantitative Experience Comp  
Calculus as the study of change. Definitions, concepts, and interpretations of the derivative and the definite and indefinite integrals; differentiation, integration, applications. No credit after former MAT 1510. Students in the Emerging Scholars Program must also enroll in the accompanying problem-solving workshop: MAT 2110, for a total of six credits. Prerequisites are subject to specific conditions. Refer to the Mathematics Placement Information page referenced at the top of the Mathematics course listings in the University Bulletin. Offered Every Term.  
Prerequisites: MAT 1800 with a minimum grade of C- (must be taken at WSU), MAT Permit to Reg ACT/SAT with a test score minimum of 4, or Math Permit to Reg - (L1-L4) with a test score minimum of 4

MAT 2020 Calculus II Cr. 4  
Satisfies General Education Requirement: Quantitative Experience Comp  
Review definition of definite integral and fundamental theorem of calculus. Techniques of integration; approximate integration; improper integrals; applications of integration. Sequences and series. Approximating functions by polynomials and Taylor series. Students in the Emerging Scholars Program must also enroll in the accompanying problem-solving workshop: MAT 2120, for a total of six credits. Prerequisites are subject to specific conditions. Refer to the Mathematics Placement Information page referenced at the top of the Mathematics course listings in the University Bulletin. Offered Every Term.  
Prerequisites: MAT 2010 with a minimum grade of C-

Mathematics (MAE)

MAE 1000 Detroit by the Numbers Cr. 3  
Satisfies General Education Requirement: Quantitative Experience Comp  
Designed for students to experience mathematics as doable, meaningful, and relevant to their lives. Students will study the city of Detroit by analyzing data and reasoning through quantitative tools presented by local agencies, such as health, environment, education, arts, and sports. Offered Every Term.

Music History (MUH)

MUH 1340 Music Appreciation: World Music Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry, Visual Performing Arts  
Introduction to the musical styles of Africa, Asia, South America, and the Middle East. Offered Every Term.

MUH 1345 Music Cultures Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry, Visual Performing Arts  
Indigenous musics and cultures of Asia, Africa and the Americas; emphasis on features of the music that have influenced Western art musics. Offered Winter.  
Restriction(s): Enrollment is limited to students with a major in Music or Music Honors; enrollment limited to students in the BA in Fine Arts or Bachelor of Music programs.

MUH 1350 History of American Popular Music Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry, Visual Performing Arts  
History of American popular music from the early nineteenth century to the present. Political, economic, social, and cultural influences on music. Offered Winter.

MUH 1351 History and Styles of Rock and Roll Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry, Visual Performing Arts  
Survey of Western music from its beginnings to the present. Developing musical understanding and critical listening skills by focusing on major composers and styles, and by concentrating on social, political and cultural influences. Offered Every Term.

MUH 1350 History of American Popular Music Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry, Visual Performing Arts  
Survey of major developments in jazz from its beginnings to the present. Offered Fall.

MUH 1370 Music Appreciation: Beginnings to the Present Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry, Visual Performing Arts  
Survey of Western music from its beginnings to the present. Developing musical understanding and critical listening skills by focusing on major composers and styles, and by concentrating on social, political and cultural influences. Offered Every Term.

MUH 3360 Jazz History Cr. 3  
Satisfies General Education Requirement: Diversity Equity Incl Inquiry  
Survey of major developments in jazz from its beginnings to the present. Offered Fall.

Restriction(s): Enrollment is limited to Undergraduate level students.

MUH 3380 American Music Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry  
A survey of American music in its many forms. Social, cultural, and philosophical issues are considered alongside the music and its relationship to other arts. Offered Intermittently.  
Prerequisites: ENG 1020 with a minimum grade of C, ENG 1050 with a minimum grade of C, College Level Exam Program with a test score minimum of BC-BD, (AA) Exempt from Gen Ed MACRAO with a test score minimum of 100, Michigan Transfer Agreement with a test score minimum of 100, or (BA) Competencies Waiver with a test score minimum of 100

MUH 5340 Survey of World Music Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry  
Musical expressions of five or six non-European cultures en route to a better understanding of the peoples themselves. Attention given to biases, culturally-determined learning patterns, and aesthetics. No credit for graduate degrees in music. Offered Fall, Winter.

Near Eastern Studies (NE)

NE 2000 Introduction to Islamic Civilization of the Near East Cr. 3  
Satisfies General Education Requirement: Civ and Societies (CLAS only), Foreign Culture, Global Learning Inquiry  
The origin of Islam; growth of Islamic thought and institutions; Islamic revival and reform in modern times. Offered Yearly.

NE 2010 The Bible and Ancient Mythology Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only)  
The Bible and Biblical religion in the context of its antecedents in the ancient world. Offered Yearly.
NE 2030 The Age of Islamic Empires: 600-1600 Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry, Historical Studies
Historical evolution of the Islamic world from birth of Islam to height of Ottoman Empire. Islamic history and civilization in a world-historical context; developments indigenous to specific regions, such as Islamic Spain. Offered Every Term.
Equivalent: HIS 1800

NE 2040 The Modern Middle East Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry, Historical Studies
Survey of Middle East history in modern era, focusing on the nineteenth and twentieth centuries. Ottoman history from 1600; impact of European imperialism and nationalist movements, resulting in development of modern state systems, regional/national conflicts, and Islamic response to modernization. Offered Every Term.

NE 2060 Hebrew/Israeli Film: Trends and Themes in Israeli Cinema Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
Evolution of Hebrew/Israeli cinema from the beginning of the twentieth century to the present. Collectivism to individual concerns. From Yaakov Ben-Dov to Joseph Cedar. Course taught in English; films have English subtitles. Offered Every Term.

NE 2170 Islamic and Near Eastern Philosophy Cr. 3
Satisfies General Education Requirement: Global Learning Inquiry
An examination of major figures and movements in Islamic and Near Eastern philosophy. Offered Fall.
Equivalent: PHI 2170

NE 3225 Modern Israeli Culture: A Pluralistic Perspective Cr. 3
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Minorities in Israel; the Kibbutz; women in public life; the Arab in Israeli literature; the press; education; technology; archaeology; music and dance. Taught in English. Offered Every Term.

NE 3550 Arab Society in Transition Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry
Distinctive social and cultural institutions and processes of change in the Arab Middle East. Regional variations: background and discussion of current political and economic systems and their relations to international systems. Offered Intermittently.
Equivalent: ANT 3550

Nutrition and Food Science (NFS)
NFS 2030 Nutrition and Health Cr. 3
Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry
Food as a carrier of nutrients; food availability; nutrient utilization including digestion, metabolism and excretion. Patterns of food consumption based on biological, psychological and social needs; and anthropological findings. Offered Every Term.
Repeatable for 6 Credits

NFS 3300 Science, History, and Culture of Italian Cuisine Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Global Learning Inquiry
Explores the science, history, and culture of Italian food and the Mediterranean Diet, and how Italian food culture has evolved throughout the centuries. Taught in English. Offered Yearly.
Equivalent: ITA 3300

Peace and Conflict Studies (PCS)
PCS 2050 The Study of Non-Violence Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Intellectual and social roots of non-violence and the practice of non-violence in various societies and people’s life styles. Historical and political forces and movements related to non-violence. (Some sections linked to Peace and Justice Learning Community.) Offered Every Term.
Equivalent: HIS 2530, PS 2550, SOC 2050

Philosophy (PHI)
PHI 1010 Introduction to Philosophy Cr. 4
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Survey of some major questions that have occupied philosophers throughout history, such as Does God exist? What is a good person? Do we have free will? Is the mind the same as the brain? What can we really know? Course will acquaint students with major figures both historical and contemporary. Offered Every Term.

PHI 1020 Honors Introduction to Philosophy Cr. 3-4
Satisfies General Education Requirement: Cultural Inquiry, Honors Section, Philosophy Letters
Survey of some major questions that have occupied philosophers throughout history, such as Does God exist? What is a good person? Do we have free will? What can we really know? Course will acquaint students with major figures both historical and contemporary. Offered Intermittently.

PHI 1070 Reasoning and Decision Cr. 3
Satisfies General Education Requirement: Quantitative Experience Comp
Students develop quantitative reasoning skills such as statistical analysis and probabilistic reasoning. Offered Every Term.
PHI 1100 Contemporary Moral Issues Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry, Philosophy Letters
Critical discussion of contemporary moral issues including pornography, adultery, same-sex marriage, abortion, preferential treatment, obligations to the poor, capital punishment, terrorism, and others. Offered Every Other Year. Repeatable for 9 Credits

PHI 1110 Ethical Issues in Health Care Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry, Philosophy Letters
Survey of moral issues that arise in the practice of medicine and in pursuit of medical knowledge: abortion, euthanasia, experimentation on human subjects, informed consent, rights to health care, genetic engineering, the concepts of death, health and disease. Offered Yearly.

PHI 1120 Professional Ethics Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Critical examination of moral issues in the workplace, including: discrimination and preferential treatment, sexual harassment, whistle-blowing, privacy and disclosure, corporate social responsibility. No credit after PHI 1110. Offered Yearly.

PHI 1130 Environmental Ethics Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Is the natural world something to be valued in itself, or is its value exhausted by the uses human beings derive from it? This course introduces students to some of the major views on the subject, anthropocentric (human-centered) and non-anthropocentric. Offered Yearly.
Restriction(s): Enrollment is limited to Undergraduate level students.

PHI 1200 Life and Death Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Central philosophical and religious questions about life and death, and the enterprise of answering these questions through reasoning and argument. What is it to be alive, and to die? Do we cease to exist when we die, or might we continue to exist in an afterlife following our deaths? Should we fear or regret the fact that we will die someday, or should we be indifferent to it? Why is killing wrong? Is it always wrong to prevent a life from beginning, or to help someone bring his or her own life to an end? What, if anything, makes a life meaningful? We will study the ways in which these questions are raised and answered in a selection of classic and contemporary works of philosophy and literature. Offered Yearly.

PHI 1500 Race, Sex, and Religion Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry
An examination of contemporary ethical issues and controversies involving race, sex, religion, and related topics such as gender identity, class, economic injustice, immigration, and sexual orientation. Offered Fall, Winter.

PHI 2100 Ancient Greek Philosophy Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Introduction to the Western philosophical tradition from its origins in Ancient Greece. Readings from the pre-Socratics, Plato, and Aristotle. Offered Every Other Year.

PHI 2110 Philosophy of the Scientific Revolution and Enlightenment Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
A survey of philosophical views concerning knowledge, reality, scientific evidence, naturalism, and morality from some of the major European philosophers of the period of the Scientific Revolution and Enlightenment, such as Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant. Offered Every Other Year.

PHI 2140 Ancient Greek Medicine and Psychology Cr. 3
Satisfies General Education Requirement: Cultural Inquiry
An examination of early Greek psychology and medical practice and theory. Figures and schools of thought covered include Homer, Empedocles, Hippocrates and the Hippocratic school, Plato, Aristotle, and Epicurus. Offered Fall.

PHI 2150 Chinese Philosophy Cr. 3
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Main philosophical traditions from ancient to pre-Communist China. Readings from Confucianism. Taoism, Mohism, Legalism, Buddhism, Neo-Confucianism, and the Chinese Enlightenment. Offered Winter.
Equivalent: NE 2170

PHI 2170 Islamic and Near Eastern Philosophy Cr. 3
Satisfies General Education Requirement: Global Learning Inquiry
An examination of major figures and movements in Islamic and Near Eastern philosophy. Offered Fall.

PHI 2320 Introduction to Ethics Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
An introduction to some classical and modern views concerning such questions as: What determines the rightness and wrongness of actions? What is the nature of moral reasoning? What constitutes a moral life? Offered Every Term.

PHI 2360 Feminist Philosophy Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry
An examination of work by feminist philosophers. Offered Winter.

PHI 2400 Introduction to the Philosophy of Religion Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Religious beliefs provide subject matter for philosophical study; for example, Are the traditional arguments for the existence of God credible? Does the existence of evil conflict with a belief in God's omnipotence and omnibenevolence? What is the value of religious experience? Offered Intermittently.

PHI 2550 Introduction to Philosophy of Science Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Distinguishing science from non-science; how scientific knowledge is established; what constitutes scientific progress; whether science is cumulative; the place of science in the enterprise of knowledge and rational belief. Offered Every Other Year.
**Physics (PHY)**

**PHY 2650 Philosophy of Psychology Cr. 3**  
**Satisfies General Education Requirement:** Cultural Inquiry  
Central examples of these questions and proposed answers: Could we build an intelligent computer? Is our mind just a piece of software that our brain is running? Is there a "language of thought"? Are we much less rational than we think? How can we understand each other's minds? Can there be laws in psychology? What is consciousness, and can it be studied scientifically? We will address these and other questions via the work of philosophers, psychologists and cognitive scientists. Offered Winter.  
*Equivalent:* PSY 2650

**PHY 3500 Theory of Knowledge Cr. 3**  
**Satisfies General Education Requirement:** Cultural Inquiry, Philosophy  
Letters  
The distinction between knowledge and belief is germane to every field of inquiry. What is the difference between knowledge and belief? Do we know anything at all? If so, how? Are we ever in a position of being certain about beliefs pertaining to an objective world? Is our belief in an objective world based on our subjective experiences? Offered Every Term.

**PHY 3550 Metaphysics Cr. 3**  
**Satisfies General Education Requirement:** Cultural Inquiry, Philosophy  
Letters  
Survey and examination of some of the enduring questions of metaphysics concerning the nature of reality. Topics include: the nature of physical objects, abstract entities, the concepts of time and change, the relation between mind and body, causation, the nature of metaphysics. Offered Yearly.

**PHY 3700 Philosophy of Art Cr. 3**  
**Satisfies General Education Requirement:** Cultural Inquiry, Philosophy  
Letters  
What are art works? Why are they so moving? What is the nature of the experience they offer? This course introduces the student to some of the schools of thought on these issues. It also attempts to deal with the specific natures of the various artistic media, such as: drama, literature, film, painting, photography, music and opera. Offered Every Term.

**Physics (PHY)**

**PHY 1020 Conceptual Physics: The Basic Science Cr. 4**  
**Satisfies General Education Requirement:** Natural Scientific Inquiry, Physical Sciences  
Physical concepts and practical applications to everyday life of the basic principles of motion, forces, energy, matter, heat, sound, electricity, magnetism, and light. Lectures, demonstrations and optional laboratory; laboratory is strongly recommended. Meets General Education Laboratory Requirement when elected for 4 credits. Offered Every Term.  
*Course Material Fees:* $25

**PHY 2130 Physics for the Life Sciences I Cr. 4**  
**Satisfies General Education Requirement:** Natural Scientific Inquiry, Physical Sciences  
Introduction to physics for students in the life sciences, preparing for medicine, dentistry, pharmacy and health sciences and for general Liberal Arts and Sciences students. Covers motion, forces, energy, diffusion, fluids, thermal physics with many biological examples. Satisfies General Education laboratory requirement only when taken concurrently with PHY 2131. No credit after PHY 2170. Offered Every Term.  
*Corequisite:* PHY 2131

**PHY 2170 University Physics for Scientists I Cr. 4**  
**Satisfies General Education Requirement:** Natural Scientific Inquiry, Physical Sciences  
For students specializing in physics, biology, chemistry, mathematics or engineering. Statics, kinematics, dynamics, energy and linear momentum, rotational kinematics and dynamics, angular momentum, solids and fluids, vibrations and wave motion, thermodynamics. Satisfies General Education Laboratory Requirement only when taken concurrently with PHY 2171. No credit after PHY 2175. Offered Every Term.  
*Prerequisites:* MAT 1800 with a minimum grade of C- and MAT 2010 with a minimum grade of C (may be taken concurrently)  
*Corequisite:* PHY 2171

**PHY 2175 University Physics for Engineers I Cr. 4**  
**Satisfies General Education Requirement:** Natural Scientific Inquiry, Physical Sciences  
For students specializing in engineering. Statics, kinematics, dynamics, energy and linear momentum, rotational kinematics and dynamics, angular momentum, solids and fluids, vibrations and wave motion, thermodynamics. No credit after PHY 2170. Offered Every Term.  
*Prerequisites:* MAT 1800 with a minimum grade of D- and MAT 2010 with a minimum grade of C (may be taken concurrently)  
*Restriction(s):* Enrollment limited to students in the College of Engineering.

**PHY 3100 The Sounds of Music Cr. 4**  
**Satisfies General Education Requirement:** Natural Scientific Inquiry, Physical Sciences  
For music majors and other students interested in the physical foundations of the production, perception, and reproduction of musical sounds. Makes only limited use of simple mathematics. Includes topics such as wave properties, loudness levels and the human ear, hearing loss, tone quality, frequency and pitch, musical intervals and tuning, room acoustics, the production of sound by various musical instruments, and electronic reproduction of music. Meets General Education Laboratory Requirement. Offered Fall.  
*Course Material Fees:* $25

**Polish (POL)**

**POL 2010 Intermediate Polish Cr. 4**  
**Satisfies General Education Requirement:** Foreign Culture, Global Learning Inquiry  
Further development of Polish language and cultural proficiency through listening, reading, speaking and writing activities, and examination of Polish culture. Completion of this course fulfills the General Education requirement for foreign language and culture. Offered Fall.  
*Prerequisites:* POL 1020 with a minimum grade of D-  
*Course Material Fees:* $5

**POL 2710 Survey of Polish Culture Cr. 3**  
**Satisfies General Education Requirement:** Civ and Societies (CLAS only), Foreign Culture, Global Learning Inquiry  
Introductory cultural survey from beginnings of Polish state to present. Polish society and cultural developments analyzed in comparative contexts. Offered Fall, Winter.
POL 3111 Digital Storytelling and Ethnic Detroit Cr. 3  
**Satisfies General Education Requirement:** Diversity Equity Incl Inquiry  
Students will learn about the ethnic, racial, and cultural history of Detroit and how to document elements of that history. This course introduces students to both theoretical and practical concepts around digital storytelling, drawing on extensive theoretical scholarship about placemaking, experiencing place, and the social production of heritage that spans the disciplines of anthropology, historical archaeology, heritage studies, historic preservation, media studies, and mobilities. Students will learn the practical steps involved in creating digital stories and will be introduced to best practices in multimedia development as discussed in the literature in the field of instructional technology. They will also explore the cultural, ethical and technological considerations involved in creating and disseminating digital stories. They will then create their own short digital story, which they will be able to share with the website Ethnic Layers of Detroit. Offered Yearly.  
**Equivalent:** ANT 3111, GLS 3111, RUS 3111

POL 3410 New Soil, Old Roots: The Immigrant Experience Cr. 3  
**Satisfies General Education Requirement:** Civ and Societies (CLAS only), Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry  
Armenian, German, Jewish, Polish, Russian and Ukrainian immigration to the United States, its effects on the cultures (language, literature, religion, politics, music, art and theatre) of these ethnic groups and its influence upon American culture. Offered Fall.  
**Equivalent:** ARM 3410, GER 3410, RUS 3410, SLA 3410

POL 3750 Polish and Yugoslavian Cinema Cr. 3  
**Satisfies General Education Requirement:** Cultural Inquiry, Visual Performing Arts  
Two national cinemas introduced through milestone films and lesser-known cinematic gems produced before and after the fall of communism. Offered Every Other Winter.  
**Equivalent:** SLA 3750

**Political Science (PS)**

PS 1000 Introduction to Political Science Cr. 3  
**Satisfies General Education Requirement:** Civic Literacy, Social Inquiry, Social Sciences  
Introduction to the scope and method of political science. Overview of politics, political systems, nature and role of political institutions. Empirical political theory; practice in conducting political research. Offered Yearly.

PS 1010 American Government Cr. 4  
**Satisfies General Education Requirement:** American Society Institution, Civic Literacy, Social Inquiry  
Politics and functions of American governmental institutions. Policy processes and the role of citizens in the political process. No credit after PS 1030. Offered Every Term.

PS 1030 The American Governmental System Cr. 3  
**Satisfies General Education Requirement:** American Society Institution, Civic Literacy, Social Inquiry  
Structure and functions of the American political system. Governmental institutions and processes. No credit after PS 1010. Offered Every Term.

PS 1050 Understanding Political Science Statistics Cr. 4  
**Satisfies General Education Requirement:** Quantitative Experience Comp  
Applications of elementary statistical methods to the study of American government, comparative politics, and international relations. Offered Fall, Winter.  
**Equivalent:** STA 1020

PS 2000 Introduction to Urban Studies Cr. 4  
**Satisfies General Education Requirement:** Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences  
In this introductory urban studies course, students learn about the historic and contemporary forces driving urbanization with an emphasis on US cities and urban areas; the effects of these forces on diverse population groups; and challenges facing cities and strategies to resolve them. Although the course will draw from international contexts, wherever possible, experiences of and from the Detroit metro—city and suburbs—will be used to illustrate particular themes. Student learning centers on an examination of issues related to diversity, equity, and inclusion, and broader social phenomena. Offered Every Term.  
**Equivalent:** GPH 2000, HIS 2000, SOC 2500, US 2000

PS 2240 Introduction to Urban Politics and Policy Cr. 4  
**Satisfies General Education Requirement:** Social Inquiry, Social Sciences  
Influences on politics and problems of cities, forms of local political involvement, role of local public officials, impact of state and federal policies. Overview of current issues and problems in specific policy areas. Offered Yearly.

PS 2550 The Study of Non-Violence Cr. 3  
**Satisfies General Education Requirement:** Diversity Equity Incl Inquiry  
Intellectual and social roots of non-violence and the practice of non-violence in different people’s life styles. Historical and political forces and movements related to non-violence. (Some sections linked to Peace and Justice Learning Community.) Offered Every Term.  
**Equivalent:** HIS 2530, PCS 2050, SOC 2050

PS 2700 Introduction to Canadian Studies Cr. 3  
**Satisfies General Education Requirement:** Foreign Culture, Global Learning Inquiry  
Survey of Canada in its cultural, literary, historical, geographical and political aspects; key concepts and social patterns that define the Canadian experience. Offered Yearly.  
**Equivalent:** ENG 2670, GPH 2700, HIS 2700

PS 3080 Gender and Politics Cr. 4  
**Satisfies General Education Requirement:** Civic Literacy  
Genesis and perpetuation of gender roles; feminist movements to modify these roles; impact of gender on public policy; gender-differentiated impact of public policy. Offered Intermittently.

PS 3120 Politics of the Criminal Justice Process Cr. 3  
**Satisfies General Education Requirement:** Civic Literacy  
Political aspects of criminal justice; politics of crime legislation, police function, prosecution, adjudication, and corrections; Federal role in criminal justice. Offered Intermittently.  
**Equivalent:** CRJ 3120

PS 3250 Detroit Politics: Continuity and Change in City and Suburbs Cr. 4  
**Satisfies General Education Requirement:** Diversity Equity Incl Inquiry  
Detroit area political systems and processes; historical, economic, and social influences on local politics. Traditions, changes, and future challenges in Detroit and metropolitan area. Offered Every Other Year.  
**Equivalent:** HIS 3240

PS 3510 Law, Authority and Rebellion Cr. 4  
**Satisfies General Education Requirement:** Cultural Inquiry, Philosophy Letters  
Analysis of major theories of law, authority, freedom, and political obligation; justifications of disobedience, resistance and revolution. Offered Every Other Year.

PS 3520 Justice Cr. 4  
**Satisfies General Education Requirement:** Cultural Inquiry, Philosophy Letters  
Analysis of major theories of justice; social, economic and political justice. Offered Every Other Year.
PS 3820 Pan Africanism: Politics of the Black Diaspora Cr. 4
Satisfies General Education Requirement: Global Learning Inquiry
Interplay of Pan Africanism as a cultural and socio-political movement in world politics from its origins as a concept to organizing practice worldwide. Offered Yearly.
Equivalent: AFS 3420

Psychology (PSY)
PSY 1010 Introductory Psychology Cr. 4
Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry
Grade of C or better required for psychology majors. Introduction to the science of behavior. Principles, concepts, and theories of human thought and action. Selected concepts illustrated through laboratory experiments. Recommended for students intended to major in psychology. Meets General Education Laboratory Requirement. No credit after PSY 1020. Offered Every Term.

PSY 1020 Elements of Psychology Cr. 3
Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry
Principles, theories and applications of psychological knowledge. Intended for non-psychology majors. No credit after PSY 1010. Offered Every Term.

PSY 2650 Philosophy of Psychology Cr. 3
Satisfies General Education Requirement: Cultural Inquiry
Central examples of these questions and proposed answers: Could we build an intelligent computer? Is our mind just a piece of software that our brain is running? Is there a "language of thought"? Are we much less rational than we think? How can we understand each other's minds? Can there be laws in psychology? What is consciousness, and can it be studied scientifically? We will address these and other questions via the work of philosophers, psychologists and cognitive scientists. Offered Winter.
Equivalent: PHI 2650

Public Health (PH)
PH 2100 Introduction to Public Health Cr. 3
Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry
Provides both an overview of the principles and practice of public health and basic information needed to understand and analyze a variety of individual-level and population-level health problems. This course is intended for students with no previous course work in public health. Offered Every Term.

PH 3100 Social and Behavioral Aspects of Public Health Cr. 3
Satisfies General Education Requirement: Social Inquiry, Social Sciences
Examines the social and behavioral aspects of health, illness, and health care, and help students develop a basic understanding of the societal factors that influence health status and public health interventions. Offered Every Term.

PH 3410 Global Health Cr. 3
Satisfies General Education Requirement: Global Learning Inquiry, Social Inquiry, Social Sciences
Introduces students to problems of disease and disorder worldwide and looks at various efforts to define and address these problems through a social science perspective. Offered Winter.
Equivalent: ANT 3410, GLS 3410

Research, Service and Engagement (RSE)
RSE 1010 Building a Foundation for College Success Cr. 1
Satisfies General Education Requirement: Wayne Experience
This course is designed to expose students to the Wayne State University undergraduate experience. Students will gain an understanding of campus resources, institutional values, and the merits of a liberal arts education from an urban research one university. This course will aid in the development of critical and analytical thinking skills necessary for college success while determining one's academic and professional goals. Offered Fall, Winter.
Restriction(s): Enrollment limited to students with a class of Freshman.

Russian (RUS)
RUS 2100 Intermediate Russian I Cr. 4
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Continuation of RUS 1020 with emphasis on developing speaking and reading skills. Offered Fall.
Prerequisites: RUS 1020 with a minimum grade of D-
Course Material Fees: $5

RUS 2710 Introduction to Russian Culture Cr. 3
Satisfies General Education Requirement: Civ and Societies (CLAS only), Foreign Culture, Global Learning Inquiry
Survey of Russian culture from the tenth century to the present day. Introduction to Russian history, art, architecture, literature, music, religious practices, intellectual thought, and cuisine, as well as various aspects of daily life from the Tsarist period to the present day. Offered Every Term.

RUS 2991 Understanding the Fairy Tale Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Introduction to the interdisciplinary context of major Russian fairy tales, exploring the different types of traditional Russian fairy tales, as outlined by Vladimir Propp, as well as the evolution of these fairy tales, emphasizing their transformation from oral and literary form into film, animation, opera, ballet, art, sculpture, and music. The course will also examine contemporary literary texts based on fairy tale motifs. All lectures and reading in English. Offered Fall, Winter.

RUS 3111 Digital Storytelling and Ethnic Detroit Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Students will learn about the ethnic, racial, and cultural history of Detroit and how to document elements of that history. This course introduces students to both theoretical and practical concepts around digital storytelling, drawing on extensive theoretical scholarship about placemaking, experiencing place, and the social production of heritage that spans the disciplines of anthropology, historical archaeology, heritage studies, historic preservation, media studies, and mobilities. Students will learn the practical steps involved in creating digital stories and will be introduced to best practices in multimedia development as discussed in the literature in the field of instructional technology. They will also explore the cultural, ethical and technological considerations involved in creating and disseminating digital stories. They will then create their own short digital story, which they will be able to share with the website Ethnic Layers of Detroit. Offered Yearly.
Equivalent: ANT 3111, GLS 3111, POL 3111
RUS 3410 New Soil, Old Roots: The Immigrant Experience Cr. 3
Satisfies General Education Requirement: Civ and Societies (CLAS only), Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry
Armenian, German, Jewish, Polish, Russian and Ukrainian immigration to the United States, its effects on the cultures (language, literature, religion, politics, music, art and theatre) of these ethnic groups and its influence upon American culture. Offered Fall.
Equivalent: ARM 3410, GER 3410, POL 3410, SLA 3410

RUS 3600 Nineteenth Century Russian Literature Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Major Russian writers, including Pushkin, Dostoevsky, Tolstoy, Chekhov, and others. How literature reflects and grows out of history; how culture is affected by writers and poets. Taught in English; readings in English. Offered Fall.

RUS 3650 Russian Literature Since 1900 Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Twentieth century Russian literature as it explores the universal questions of love, death, rebirth, spirituality, and despair against a background of war, revolution, political oppression and economic collapse. Close analysis of major works of prose and poetry as well as literary currents such as Russian modernism, Socialist Realism, and post-modernism. Taught in English; readings in English. Offered Every Other Year.

Slavic (SLA)

SLA 2310 Short Fiction from Central Europe and Russia Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Explores how writers use short fictional forms, such as parable, short story, fairy tale, and satire, to express important themes in the Central European experience, including violence and cruelty, freedom and imprisonment, utopian visions, and urban life. Offered Fall.
Equivalent: GER 2310

SLA 3410 New Soil, Old Roots: The Immigrant Experience Cr. 3
Satisfies General Education Requirement: Civ and Societies (CLAS only), Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry
Armenian, German, Jewish, Polish, Russian and Ukrainian immigration to the United States, its effects on the cultures (language, literature, religion, politics, music, art and theatre) of these ethnic groups and its influence upon American culture. Offered Fall.
Equivalent: ARM 3410, GER 3410, POL 3410, RUS 3410

SLA 3710 Russian and East European Film Cr. 3-4
Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only), Visual Performing Arts
Major Russian, Polish, Czech, Ukrainian and Armenian films viewed and discussed from political, historical, cultural and aesthetic points of view. Offered Yearly.

SLA 3750 Polish and Yugoslavian Cinema Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
Two national cinemas introduced through milestone films and lesser-known cinematic gems produced before and after the fall of communism. Offered Every Other Winter.
Equivalent: POL 3750

Social Work (SW)

SW 1010 Introduction to Social Work and Social Welfare Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Survey of selected social welfare programs in the United States; history and development; focus on issues related to poverty and dependence. This course explores issues of fairness and equality in economic, political and social systems, and identifies the values, ethics, and practice principles of the social work profession. Students attend out-of-the-classroom events on campus and in the community to learn from social workers and social justice leaders who are engaging in work with vulnerable and at-risk populations in Detroit. Offered Every Term.

Sociology (SOC)

SOC 1010 Understanding Human Society Cr. 3
Satisfies General Education Requirement: Social Inquiry, Social Sciences
Analysis of basic sociological concepts and principles to give the student an understanding of the perspective that sociology brings to the study of human society. Offered Every Term.

SOC 1020 Social Problems Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences
Consideration of major contemporary social problems which reveal structural strains, value conflicts, deviations and changes in society. Analysis of socio-cultural factors creating problems and of possible solutions. Offered Every Term.

SOC 2050 The Study of Non-Violence Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Intellectual and social roots of non-violence and the practice of non-violence in different people’s life styles. Historical and political forces and movements related to non-violence. (Some sections linked to Peace and Justice Learning Community.) Offered Every Term.
Equivalent: HIS 2530, PCS 2050, PS 2550

SOC 2203 Social Psychology Cr. 3
Satisfies General Education Requirement: Social Inquiry, Social Sciences
Introduction to the sociological study of social psychology. This course describes the sociological aspect of the self and explores how individuals experience the self in relation to society. Offered Yearly.

SOC 2208 Sociology of Sport Cr. 3
Satisfies General Education Requirement: Social Inquiry
Examines the relationship between sport and society, with an emphasis on the relationship of sport to social variables, social institutions, and social problems. Offered Yearly.

SOC 2209 Sociology of Religion Cr. 3
Satisfies General Education Requirement: Social Inquiry
Explores current sociological debates as they pertain to the complex and multi-faceted relationship between religion and other social institutions. Offered Yearly.

SOC 2210 Sociology of Health and Medicine Cr. 3
Satisfies General Education Requirement: Social Inquiry
Designed to introduce the field of medical sociology. The course investigates the impacts of social and institutional variables on health behaviors and outcomes. It also considers the cultural, organizational, and economic functioning of various healthcare institutions. Offered Yearly.

SOC 2300 Social Inequality Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences
Structure and process in society, institutions, communities, and organizations. Scientific analysis of organization, conflict, and change in the economy, government, religion, education, and family. Offered Yearly.
SOC 2500 Introduction to Urban Studies Cr. 4
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences
In this introductory urban studies course, students learn about the historic and contemporary forces driving urbanization with an emphasis on US cities and urban areas; the effects of these forces on diverse population groups; and challenges facing cities and strategies to resolve them. Although the course will draw from international contexts, wherever possible, experiences of and from the Detroit metro—city and suburbs—will be used to illustrate particular themes. Student learning centers on an examination of issues related to diversity, equity, and inclusion, and broader social phenomena. Offered Every Term.

SOC 2510 People on the Move Cr. 3
Satisfies General Education Requirement: Global Learning Inquiry, Social Inquiry, Social Sciences
Birth, death and migration investigated with respect to their social causes and consequences for society and human behavior. International migration will be a major focus of this course, since populations are always shifting in global society. Population growth and development will also be covered. Offered Every Other Year.

SOC 2600 Race and Racism in America Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Examination of the nature and practice of racism in American society from its historical foundations to its contemporary institutional forms. Offered Every Other Year.
Equivalent: AFS 2600

Spanish (SPA)

SPA 2010 Intermediate Spanish Cr. 4
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Continuing study of the Spanish language and Hispanic culture through interactive and communicative reading, writing, listening and speaking activities to develop language and cultural proficiency. Completion of this course fulfills the General Education requirement for foreign language and culture. Offered Every Term.
Prerequisites: SPA 1020 with a minimum grade of C- or SPA 1060 with a minimum grade of C-
Course Material Fees: $5

SPA 2400 Chicano/a Literature and Culture Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only), Diversity Equity Incl Inquiry, Global Learning Inquiry
Examination of Chicano/a literature. Themes and figures in a social and historical context. Offered Every Other Year.
Equivalent: LAS 2100

SPA 2500 Puerto Rican Literature and Culture Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only), Diversity Equity Incl Inquiry
Examination of Puerto Rican literature. Themes and figures in a social and historical context. Offered Every Other Year.
Equivalent: LAS 2110

SPA 2700 Anguish and Commitment: European Existentialist Literature Cr. 3-4
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
A team-taught interdisciplinary study in English of representative works by European existentialist writers: Dostoevsky, Hesse, Kafka, Pirandello, Sartre, Camus and Unamuno. Offered Every Other Year.
Equivalent: FRE 2700, GER 2700, ITA 2700

Sport Adminstration and Management (SAM)

SAM 2020 History of Sport Cr. 3
Satisfies General Education Requirement: Social Inquiry
Examines the historical evolution of sport, from ancient to modern times in the United States and throughout the world. Offered Winter.

SAM 3020 Sociology of Sport Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Examines the ways in which sports are entangled in social, cultural, political, and economic forces. Students will systematically investigate the complex connections among sports, society, and cultures. Offered Fall, Winter.

Statistics (STA)

STA 1020 Elementary Statistics Cr. 3
Satisfies General Education Requirement: Quantitative Experience Comp
Descriptive statistics, correlation and regression, notions in probability, binomial and normal distributions, testing hypothesis. Offered Every Term.

STA 2210 Probability and Statistics Cr. 4
Satisfies General Education Requirement: Quantitative Experience Comp
Basic probability theory (definition of probability, conditional probability, independence, random variables, expectation and variance, normal distribution, law of large numbers, central limit theorem), descriptive statistics (histograms, scatter plots, box plots, mean, variance, quantiles, empirical rule, z-scores), statistical inference (confidence intervals for mean, t-tests, chi-square tests, linear regression, analysis of variance) and data analysis. Offered Every Term.
Prerequisites: MAT 1800 with a minimum grade of C-, MAT 2010-2350 with a minimum grade of C, MAT Permit to Reg ACT/SAT with a test score minimum of 4, or Math Permit to Reg - (L1-L4) with a test score minimum of 4

Swahili (SWA)

SWA 2010 Intermediate Swahili Cr. 4
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Conversational Swahili and grammar review; reading of Swahili literature. Continuation of SWA 1020. Offered Spring/Summer.
Prerequisites: SWA 1020 with a minimum grade of D-
Course Material Fees: $5

Theatre (THR)

THR 1010 Introduction to the Theatre Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
Historical, critical and cultural aspects of theatre and drama discussed relative to play attendance. No credit after THR 1111. Offered Every Term.
Course Material Fees: $60

THR 1030 Introduction to Black Theatre and Performance Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Visual Performing Arts
Origins, development, and current trends with production techniques and problems related to the special area of the drama. Offered Every Term.
Course Material Fees: $10
THR 1041 Musical Theatre Appreciation Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
Survey of American musical theatre from its multiple historical origins to the present. Development of musical theatre understanding and critical observational skills through focus on the ways in which the genre has emerged through interactions between musical theatre artists and their audiences. Offered Fall, Winter.
Course Material Fees: $10

THR 2651 Introduction to Life Skills for the Creative Entrepreneur Cr. 3
Satisfies General Education Requirement: Quantitative Experience Comp
An introduction to the quantitative and analytical skills utilized by successful entrepreneurs. Topics include: fund management, financial management, contracts, development, and marketing. This course is intended for all students preparing for a career as an independent entrepreneur, business person, artist, creator, musician, writer, and any others seeking self-determined professional opportunities. Offered Every Term.

THR 5751 Study Abroad: Moscow Art Theatre School Cr. 1-3
Satisfies General Education Requirement: Global Learning Inquiry
Intensive training in acting or another branch of theatre. Study is conducted on-site at the Moscow Art Theatre School, Moscow, Russia. Offered Spring/Summer.
Repeatable for 3 Credits

THR 5821 Black Dramatic Literature and Performance Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Course Material Fees: $10
Equivalent: AFS 5220

University Counseling Services (UCS)
UCS 1000 First Year Experience Cr. 1
Satisfies General Education Requirement: Wayne Experience
During this course, you'll learn empowering strategies that have worked for others. Through collaborative learning, discussion, class presentations, co-curricular involvement, journal writing, and self-exploration exercises, you will practice these strategies that will improve your ability to stay on course with the collegiate goal of successful degree completion. Offered Intermittently.
Restriction(s): Enrollment limited to students with a class of Freshman.

Undergraduate Research (UGR)
UGR 1050 Research Methods - BUILD Scholars Cr. 1
Satisfies General Education Requirement: Wayne Experience
A one-semester course that is part of the BUILD program and is designed to help students prepare for the Research-based laboratory courses BUILD Scholars will take in the Winter Term. Offered Fall.

Urban Studies (US)
US 2000 Introduction to Urban Studies Cr. 4
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences
In this introductory urban studies course, students learn about the historic and contemporary forces driving urbanization with an emphasis on US cities and urban areas; the effects of these forces on diverse population groups; and challenges facing cities and strategies to resolve them. Although the course will draw from international contexts, wherever possible, experiences of and from the Detroit metro—city and suburbs—will be used to illustrate particular themes. Student learning centers on an examination of issues related to diversity, equity, and inclusion, and broader social phenomena. Offered Every Term.
Equivalent: GPH 2000, HIS 2000, PS 2000, SOC 2500

US 2350 Black Detroit Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Cultural Inquiry, Visual
Explores the historical, cultural and structural aspects of the Black urban experience in Detroit from the late 19th Century to the present, including the role that racism, urbanization and suburbanization have played in shaping racial, spatial and economic inequality in the Detroit Metropolitan area. Utilizes an interdisciplinary approach: to interrogate the social and cultural history of Black Detroit, to examine the various forms of Black social movement activism used by Black Detroiters in the 20th Century, and to analyze ways the shifting economic and political currents shaped, and reshaped racism, class, space, and resistance in the Detroit metropolitan area. Offered Fall, Winter.
Equivalent: AFS 2350, HIS 2350

US 3650 History of Detroit Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
History of Detroit from European contact to the present, with emphasis on the late-19th and 20th centuries. Offered Fall, Winter.
Equivalent: HIS 3650

Honors Curricula
The University’s honors curricula serve to challenge highly motivated students through courses of advanced study; to provide academic programs of unusual breadth and depth; to provide recognition of outstanding scholastic achievement; to foster interest in research and scholarly activity; and to provide students an opportunity to work with outstanding faculty.

Dual Recognition: Students who complete the requirements for University Honors and, in addition, the requirements of a College/Department Honors Program, shall have both designations on the transcript and the diploma. Only a single senior essay, thesis, or project shall be required.

More information about both University Honors and departmental Honors is available online (http://www.honors.wayne.edu) and at the Honors College as well as through the respective departments/colleges.

University Honors Curriculum
The University-wide Honors curriculum, managed by the Irvin D. Reid Honors College, allows undergraduate students in any College or School to pursue individually-designed Honors Programs which complement their majors.

Benefits of membership in the Honors College include Honors advising, Honors pre-priority registration, Honors sections of general education and major courses, and designation of completion of the Honors curriculum on the diploma and transcript.
Admission: Students with excellent academic records are eligible to apply to the University's Irvin D. Reid Honors College. Normally, the following are required:

Entering Freshmen: Entering freshmen admitted to the University by December 1 are considered for acceptance to the University Honors curriculum. Consideration is based on regular University admission; no further application is required. Invited freshmen are invited to participate in the Honors College scholarship event, Scholars Day.

Matriculated Students and Transfer Students: Students who have a minimum cumulative grade point average of 3.3 or above at Wayne State University may apply for acceptance to the Honors College. Applications are available at the College.

Eligibility to register for Honors courses: Students whose cumulative grade point average is at least 3.3, but who are not formally in the Honors College, are eligible to elect honors courses to enrich their educational experiences.

Retention: The academic record of each student shall be reviewed at regular intervals. To remain in the University Honors College, a student normally shall be expected:

1. to pursue a course of study consistent with the objectives of the Honors College, as recommended by the University Honors Council and approved by the President or his/her designee; and
2. to maintain a cumulative grade point average greater than or equal to 3.3; however, Colleges/Departments may establish a higher g.p.a. requirements for retention in a College/Department program.

A student whose cumulative grade point average is below 3.3 and is, for that reason, dropped from the Honors College, may reapply when his/her cumulative g.p.a. is 3.3 or higher.

University Honors Requirements

The College shall require Honors-designated course work totaling a minimum of twenty-eight credits for the baccalaureate program the student is pursuing. Students in this College MUST SATISFY THE GENERAL EDUCATION REQUIREMENTS, but the approved General Education courses may differ for the Honors College after review by the Honors Council and the General Education Implementation Committee and approval by the President or his/her designee. The Honors College General Education core curriculum will define a common body of knowledge beginning with the freshman Honors first-year sequence, and including a specified complement of Honors courses chosen from existing General Education options as determined by individual departments in consultation with the College.

Graduation: For graduation with University Honors, students must have a minimum cumulative grade point average of 3.3, and must complete a minimum of twenty-eight credits in honors-designated course work (including HON 1000, an Honors Foundational Seminar course, a service learning course with HON 3000, at least one HON 4200-level Honors seminar and a minimum of three credits in an independent research project, essay, or thesis). Graduates of the University Honors College will be so recognized on the transcript and diploma.

College or Department Honors Requirements

Undergraduate departments in Colleges and Schools have developed programs leading to honors degrees. Details of these programs are included in the College and Department sections of this Bulletin.

College or Department Honors Curricula require a minimum of twelve credits in honors-designated course work of which at least three credits may be in an independent research project, essay, or thesis in the student’s College/Department and at least one HON 4200-level Honors seminar. Students also must meet the requirements of their major fields. The honors requirements for the major may include approved modifications of normal major requirements.

Graduation: For graduation with department honors, students must meet the requirements approved by their department/college/school, including a minimum 3.30 grade point average, an Honors thesis and at least one Honors seminar.

Graduation with Distinction
Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: Cum Laude, Magna Cum Laude, and Summa Cum Laude.

Graduation with distinction will be indicated on the student’s diploma and on the transcript.

Graduation with Distinction will recognize at each graduation the top twenty per cent of students in each College who have earned the highest grade point average in their Colleges, with the following approximate distribution:

- Summa Cum Laude: Top five percent
- Magna Cum Laude: Next five percent
- Cum Laude: Next ten percent

The specific minimum grade point averages will be determined each year in the following manner, but graduation with distinction will not be awarded in cases of any g.p.a. less than 3.0.

Based on the grade point average distributions of the previous year’s senior class, the grade point average cut-offs for each College will be established to provide for recognition of the top eighteen to twenty per cent of the graduating students.

The criteria for Graduation with Distinction include:

1. A minimum of sixty credits in residence at Wayne State University.
2. A qualifying minimum grade point average (calculated as explained above) on all course work at Wayne State University must be completed by the end of the semester of graduation. (For notation in the commencement program, the grade point average on all course work completed prior to the semester of graduation will be used.)

Office of International Programs

4228 Faculty/Administration Building; Phone: 313-577-8968; Fax: 313-577-5666
Email: oip@wayne.edu
Associate Vice President for Educational Outreach and International Programs: Ahmad Ezzeddine
Director of Operations: Rebecca Journigan
Associate Director: Jaclyn Assarian
Associate Director, Student Programs: Fareed Shalhout
Project Coordinator:
http://www.oip.wayne.edu (http://www.oip.wayne.edu/)

The Office of International Programs (OIP) is responsible for coordinating the University’s resources and expertise to support international education on and off campus, to expand the university’s global presence, and to facilitate the engagement of students, faculty, and staff with its
global agenda. It also connects the metropolitan Detroit community with other university constituencies, locally and abroad. OIP encompasses the followings programs and activities:

- the Office of International Students and Scholars
- Study Abroad and Global Programs
- the English Language Institute

Office of International Students and Scholars (OISS)
416 Welcome Center; 313-577-3422; Fax: 313-577-2962
Director: Kelli Dixon
http://www.oiss.wayne.edu (http://www.oiss.wayne.edu/)

The mission of OISS is to support and enhance the educational, cultural, and social experiences of the more than 2000 international students and scholars at Wayne State University. OISS is the University’s main point of contact for issues related to international students and scholars’ immigration regulation compliance.

OISS staff advise students and scholars on immigration regulations and issues of cross-cultural adjustment; provide educational, cultural and social programs and activities, including a comprehensive orientation program and written materials designed to help arriving students and scholars achieve their educational and personal goals; assist University departments in the hiring of foreign national employees, consult and interact with University units, governmental organizations and other agencies.

Academic Progress for International Students

Department of Homeland Security regulations require:

1. That F-1 and J-1 students maintain a full course of study and make normal academic progress toward program completion at the institution they have been authorized to attend.
2. Graduate students must successfully complete at least eight credits each semester (excluding continuing students who qualify for an annual vacation semester during Spring/Summer or have been granted an exception to full-time enrollment). Undergraduate students must successfully complete at least twelve credits each semester (excluding continuing students who qualify for an annual vacation semester during Spring/Summer or have been granted an exception for full-time enrollment).
3. Graduate Teaching Assistants and Graduate Research Assistants must successfully complete at least eight credits each semester (excluding students who qualify for a vacation semester during Spring/Summer or an approved annual vacation). If GTAs/GRAs need to take less than eight credits, they must complete the OISS Request for Exception to Full Time Enrollment form and obtain approval from OISS. Students should consult an OISS advisor for details on compliance with this and other requirements.

New International Students and Scholars

New International Students and Scholars receive the OISS welcome booklet with their visa document (Form I-20 or DS 2019) before they leave their home country. The booklet provides information on a wide variety of important topics such as housing, health insurance, expenses, immigration status, local climate, and air transportation. New students and scholars from abroad must report to OISS as soon as they arrive and must participate in a comprehensive orientation program. This program is designed to meet immediate needs in terms of housing information and University registration procedures; introduce them to U.S. culture and the University’s educational system; and provide information on banking, health insurance, safety, and immigration regulations. In addition, a number of social and recreational programs and activities are planned to assist students and scholars in making a smooth transition to their new environment.

Non-Immigrant International Students

Before registering for classes, all non-immigrant international students must report to OISS to complete check-in procedures and have immigration documents reviewed, purchase mandatory health insurance (see below), and obtain an orientation schedule. Transferring F-1 students from other U.S. institutions must have their previous school release their Student and Exchange Visitor Information System (SEVIS) record to Wayne State University and must complete transfer procedures as provided in the federal regulations within fifteen days of the first day of class. F-1 students must notify the OISS of any change in name, address, program (including changes in level and field of study), and full-time enrollment. OISS must provide this information to Immigration and Customs Enforcement (ICE) through the Student and Exchange Visitor Information System (SEVIS). J-1 exchange visitors, including students, may not make a change in level, field, or category without the advance approval of the Department of State, and may be precluded from change of visa status until a two-year home country residency requirement is met.

Commuting Canadian Students

Canadian students (commuters) enrolled less than full time must obtain a part-time I-20 from OISS each semester they are enrolled and should consult with an OISS advisor to determine the impact of their status on future immigration benefits including the availability of practical training.

International Faculty and Research Scholars

The University provides foreign professors and research scholars with opportunities to engage in research, teaching, consulting, and lecturing with colleagues at Wayne State; to participate actively in cross-cultural activities; and to share their experience as well as increase their knowledge about the United States, Wayne State University, and the metropolitan Detroit community. OISS provides centralized support services necessary to enable and assure the employability of such non-U.S. citizens within government regulations. Offers of employment to foreign nationals must be authorized by OISS, and only this Office may sign immigration forms and petitions related to employment on behalf of the University. All foreign national employees must complete USCIS Form I-9, ‘Employment Eligibility Verification’ and present evidence of their identity and employment eligibility at OISS before commencing employment at Wayne State University.

Health Insurance (International Students and Scholars)

416 Welcome Center; 313-577-3422; Fax: 577-2962
Health Insurance Advocate: 313-577-0724

International students and scholars, and their dependents holding F1/F-2 status and J-1 exchange visitors and their dependents holding J-1/J-2 status are required to comply with the health insurance requirements of the University. Commuting Canadian students may waive the health insurance requirement by providing proof of OHIP coverage prior to each semester of enrollment. The mandatory international insurance program is designed to provide international students, exchange visitors, and their eligible dependents with continuous insurance protection and access to quality affordable health care services. The University
is mandated by federal law to terminate from its program all exchange
visitors and their dependents who do not meet minimum insurance
requirements. For additional information or to purchase health insurance
please access the OISS website (http://www.oiss.wayne.edu) or contact
the Health Insurance Advocate in OISS; telephone: 577-0724 or e-mail
oissmail@wayne.edu

Cross-Cultural Activities
The OISS provides cross-cultural activities in order to provide exposure
to American society, culture, and institutions. Activities include:
International Education Week, new international student learning
community, a free international coffee hour held every two weeks
on Wednesdays from 11:30 a.m. to 1:30 p.m. Coffee hour provides
opportunity for dialogue with and among international students and
scholars, American students, and the WSU community. Other activities
include monthly sessions on employment options, internships, cross
cultural adjustment and more.

Study Abroad and Global Programs Office
906 W. Warren Avenue; 131 Manoogian Hall; 313-577-3207
Director: Kelli Dixon
http://www.Studyabroad.wayne.edu (http://www.studyabroad.wayne.edu/)

Study Abroad and Global Programs coordinates international educational
activities at Wayne State University. Key activities include:

1. the management of WSU faculty-led study abroad programs and
   exchange agreements;
2. the administration of the Hostelling International Travel Award for
   students to encourage international study, research and internship
   abroad initiatives;
3. the administration for the NSEP - David Boren Scholarship;
4. the administration of the U.S. Student Fulbright Program;
5. the coordination and support of internationally-themed events; and
6. the development and management of international outreach activities
   and off-campus programs including agreements between Wayne
   State University and universities outside the United States.

Study abroad programs are offered in collaboration between academic
departments and faculty of both U.S. and foreign institutions, in order to
combine academic study with a cross-cultural learning experience in a
foreign environment. A variety of program options have been developed
to address the diverse needs of students. Programs vary in length, level,
academic focus, teaching format, language requirements, cost, and
degree of independence demanded of the participant.

The Office provides a full range of support services to students on such
issues as program selection, academic planning, registration, credit,
financial aid, and cultural adjustment. In addition, program materials have
been designed specifically to assist students in preparing for their study
abroad experience. Books, brochures, catalogs and advising on travel/study programs
in foreign countries are available at the Study Abroad Resource Center, including information on Wayne State's thirty-three
study abroad programs and other programs sponsored by American and
foreign institutions.

For a complete and current list of WSU Study Abroad programs, learning
experiences, and services, please contact the Study Abroad and Global
Programs Office (http://studyabroad.wayne.edu).

Arabic Language and Culture at the Lebanese American University, Beirut
This program provides opportunities for WSU students to study Arabic
language and culture abroad. During the summer, WSU students may take
a variety of language and culture classes while living abroad in Lebanon.

Japan Center for Michigan Universities
The Japan Center for Michigan Universities (JCMU) is a consortium
consisting of the fifteen State-supported Michigan public universities,
the Michigan Japan Foundation, and Shiga Prefecture. JCMU offers
semester- and year-long study opportunities in Hikone, Japan.

The Center’s academic program is designed for students interested in
acquiring knowledge about Japanese language and culture, including
those not majoring in Japanese studies. It provides semi-intensive
Japanese language courses and several core courses on Japanese
culture to Michigan and other American university students. Academic
credit may be granted by a student’s home institution upon successful
completion of JCMU courses; independent study is also available. The
program also features home-stays in a Japanese community, field trips,
and participation in cultural events.

Other International Opportunities: Numerous short-term special
international study trips for credit are available to Wayne State students.

International Students requiring information on study at Wayne State
University should contact the Office of International Students and
Scholars (http://www.oiss.wayne.edu).

Resource Center
Books, brochures, catalogs and advising on travel/study programs
in foreign countries are available at the Resource Center, including
information on Wayne State sponsored study abroad programs and
programs sponsored by U.S. and foreign institutions. Course credit is
available on approval for many study abroad programs; credit approval
usually must be obtained prior to entering a study abroad program.

Honors College
The Irvin D. Reid Honors College has study abroad experiences; for
information, see the Honors College section in the WSU Undergraduate
Bulletin.

Fulbright Grants and other grants for graduate study abroad
The U.S. Fulbright student program (http://us.fulbrightonline.org/) is
designed to give recent B.S and B.A. graduates, masters and doctoral
candidates, and young professionals and artists opportunities for
personal growth and international experience. Each year the Fulbright
Program allows Americans to study or conduct research in over 100
nations. Application deadline depends on the specific program but
generally it must be submitted to the campus Fulbright advisor by
September of the year prior to the foreign study experience.

Fulbright-Hays Doctoral Dissertation Research Abroad Program (http://
eca.state.gov/fulbright/fulbright-programs/programsummaries/
fulbright-hays-program/): Provides grants to colleges and universities to
fund individual doctoral students to conduct research in other countries
in modern foreign languages and area studies for periods of 6 to 12
months. Proposals focusing on Western Europe are not eligible.

English Language Institute (ELI)
351 Manoogian Hall, 313-577-2729
Director: Bruce Morgan
http://www.Eli.wayne.edu (http://www.eli.wayne.edu/)
As the only intensive English language program in the metropolitan Detroit area, the English Language Institute (ELI) has specialized in teaching academic preparation skills, English communication, and cultural orientation to non-native speakers of English from all over the world for more than forty years. The ELI is committed to assisting individuals at all levels to develop their communication skills in the shortest possible time by using the newest language-teaching methodology and the most up-to-date audio, video, and computer technology available. Small classes and highly trained instructors make it possible for students to improve their English rapidly and effectively.

Programs
Intensive Program: For students interested in improving their academic skills in a relatively short period of time, the ELI offers up to twenty hours per week of instruction at varying levels from beginning to advanced. While beginning levels focus on basic communicative skills, advanced classes emphasize mastery of the academic skills needed to succeed in the university such as essay writing, note-taking, and presenting information to an audience.

In addition to attending class, ELI students are encouraged to participate in weekly extracurricular activities in order to become integrated into the English-speaking community. Each semester the ELI offers field trips around the metro-Detroit area, conversation partner practice with native speakers, and socio-cultural activities while at the same time encouraging students to take advantage of all university facilities and services.

Test of English as a Foreign Language (TOEFL) Testing and Reporting: To ensure international students will be successful in the University, all must meet Wayne State's English proficiency requirements or complete the highest level of ELI. The ELI administers the TOEFL ITP® monthly on the main campus. Scores are then reported to the applicants as well as Undergraduate and Graduate Admissions.

Graduate Teaching Assistant (GTA) Training and Testing: All prospective GTAs whose native language is not English must pass the SPEAK® test, rated by ELI faculty, with a score of at least fifty (out of sixty) to be cleared for teaching. A score of forty-five allows a person to teach while enrolling in ELI 0520, a course taught by two ELI faculty members. The final exam, also rated by ELI faculty as well as a faculty member from the academic department, is a teaching demonstration in the GTA's field of study. The SPEAK® test is offered at various times throughout the academic year. ELI 0520 is offered fall and winter semesters.

Scholarly Writing for Graduate Students: Non-native English speaking Ph.D. candidates who need to publish in scholarly journals and meet other professional obligations can take a course designed specifically to meet their needs. ENG 5850 is a course supported by the Graduate School and taught by ELI faculty each semester.

English Language Institute Courses (ELI)
The following courses, numbered 0100-0999, are not offered for degree credit. For registration in any of these courses students should contact the English Language Institute.

ELI 0110 Level 1: Written Integrated Cr. 2,4
The focus of this course is to introduce basic writing and grammar skills. Students will produce simple sentences on topics related to their personal needs. Timed and multi-draft writings will include simple sentences, correct use of capital and lower case letters, legible handwritten letters, and appropriate vocabulary. Basic grammatical structures will be introduced. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0120 Level 1: Reading and Vocabulary Cr. 2,4
The focus of this course is to increase students' ability to read and comprehend simple material and to increase their ability to recognize familiar words in everyday contexts. Students will use a picture dictionary and develop vocabulary associated with simple topics. Students will read short texts from basic readers and ELI library books. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0200 Level 2: Oral Integrated Cr. 2,4
The focus of this course is to develop students' abilities to carry on short, sustained conversation. They will apply listening strategies to discuss simple passages. They will interact with classmates. Students will use high-frequency vocabulary to produce simple and compound sentences with correct verb tenses. Students will use connected and reduced speech. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0210 Level 2: Written Integrated Cr. 2,4
The focus of this course is to develop students' ability to introduce paragraph writing and to develop basic grammatical understanding. Students will produce paragraphs in a variety of rhetorical modes. Timed and multi-draft paragraphs will include a topic sentence, simple transitions, three main points with some supporting details, and a concluding sentence. Basic grammatical structures will be introduced. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0215 Level 2: Intensive Reading and Vocabulary Cr. 1,2
The focus of this course is to increase students' comprehension of printed material and acquire high-frequency vocabulary. Students will read simplified texts and apply reading skills, such as identifying main ideas and details, inferencing, and understanding sequence. Students will acquire vocabulary by using definitions from the text, interpreting from the context, and using dictionary skills. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0220 Level 2: Communicative Grammar Cr. 1,2
The focus of this course is to build students' communicative competence, or their ability to communicate effectively and appropriately. To that end, basic grammar points will be studied and practiced in ways that simulate everyday conversations and scenarios. Students will engage in a variety of communicative activities that focus on speaking and writing. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0240 Level 2: Advanced Writing Cr. 1,2
The focus of this course is to develop students' abilities to carry on sustained conversations in English. They will practice using high-frequency vocabulary to produce simple and compound sentences with correct verb tenses. Students will use connected and reduced speech. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0250 Level 2: Advanced Reading Cr. 1,2
The focus of this course is to develop students' abilities to carry on sustained conversations in English. They will practice using high-frequency vocabulary to produce simple and compound sentences with correct verb tenses. Students will use connected and reduced speech. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0270 Level 2: Advanced Reading Cr. 1,2
The focus of this course is to develop students' abilities to carry on sustained conversations in English. They will practice using high-frequency vocabulary to produce simple and compound sentences with correct verb tenses. Students will use connected and reduced speech. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0290 Level 2: Advanced Reading Cr. 1,2
The focus of this course is to develop students' abilities to carry on sustained conversations in English. They will practice using high-frequency vocabulary to produce simple and compound sentences with correct verb tenses. Students will use connected and reduced speech. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits
ELI 0300 Level 3: Oral Integrated Cr. 2,4
The focus of this course is to develop students' emerging academic listening and speaking skills. Students will apply listening and speaking strategies. They will also give short presentations. Emphasis will be on generating compound and complex sentences using simple academic vocabulary. Students will pronounce English sounds accurately and follow intonation and stress patterns appropriately. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0310 Level 3: Written Integrated Cr. 2,4
The focus of this course is to produce well-developed paragraphs in a variety of rhetorical modes on academic topics. This course will culminate in an introduction to essay writing. Intermediate grammatical structures, such as complex sentences, adjective clauses, and the present perfect, will be introduced. Error-correction tasks, peer evaluations, and self-evaluations will develop self-editing skills. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0315 Level 3: Intensive Reading and Vocabulary Cr. 1,2
The focus of this course is to increase students' vocabulary and comprehension of longer and varied reading passages. Students will also be able to understand the structure of a text with transition words and the relationship between the main point(s) and supporting examples. Strategies to discern meaning of words from context will also be practiced. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0320 Level 3: Extensive Reading Cr. 1,2
The focus of this course is to increase students' reading fluency by reading large quantities of texts. Class Readers will give the teacher the opportunity to help the students acquire the art of extensive reading, to improve their skills, and to monitor their progress closely. Students will choose their own texts for independent reading. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0400 Level 4: Oral Integrated Cr. 2,4
The focus of this course is to develop students' academic listening and speaking skills needed for successful extended academic discourse. Students will demonstrate detailed understanding of academic listening passages. Students will use speaking strategies for academic discussions and to summarize information. They will give speeches using visuals, transitions, and grammatically-correct sentences with academic vocabulary. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0410 Level 4: Written Integrated Cr. 2,4
The focus of this course is to develop students' essay writing skills and improve accuracy in grammar, mechanics, and spelling. Essays will be produced in a variety of rhetorical modes on academic topics that include some authentic sources. Students will also be introduced to summarizing and citing authentic sources. Complex grammatical structures will be introduced. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0415 Level 4: Intensive Reading and Vocabulary Cr. 1,2
The focus of this course is to increase students' academic vocabulary and comprehension of academic reading passages. Students will identify the structure, purpose, and connection between ideas in texts. Students will use strategies to discern meaning of words from context. They will acquire knowledge of word forms and will use dictionary skills to build vocabulary. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0420 Level 4: Extensive Reading Cr. 1,2
The focus of this course is to increase students' reading fluency by reading large quantities of texts. Class Readers will give the teacher the opportunity to help the students acquire the art of extensive reading, to improve their skills, and to monitor their progress closely. Students will choose their own texts for independent reading. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0500 Level 5: Oral Integrated Cr. 2,4
The focus of this course is to develop students' academic listening and speaking skills needed for successful extended academic discourse. Students will use listening strategies to show detailed understanding of lengthy academic listening passages. They will apply speaking strategies to share information and communicate with automaticity. Concentration will be on consistently speaking intelligibly and fluently. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0510 Level 5: Written Integrated Cr. 2,4
Students will develop critical thinking skills through reading, writing, and classroom discussion. Students will write well-developed five- to eight-paragraph essays and relate assigned readings to their own experience. Students will learn how to incorporate outside sources into their essays and use appropriate citations. Advanced grammatical structures will be reviewed and expanded as necessary Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0515 Level 5: Research Skills Cr. 1,2
The focus of this course is to introduce skills essential to conduct academic research at the university level. Students will learn how to search for and evaluate academic sources in the library and online databases as well as how to read, analyze, and use the information gathered. The course also focuses on paraphrasing and summarizing. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 4 Credits

ELI 0520 English for Teaching Assistants Cr. 1
American English language skills to improve teaching effectiveness of non-native speakers of English. Pronunciation, stress, intonation, speaking rate; oral presentation practice; cultural factors in U.S. university classroom. Not offered for degree credit. Offered Every Term.
Repeatable for 4 Credits
ELI 0530 TOEFL/Timed Essay Writing Preparation Cr. 1-2
Class designed to enhance student’s ability to understand and perform on the Test of English as a Foreign Language (TOEFL) for the paper-based and iBT(Internet)-based formats. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.

ELI 0540 Level 5: Media & Culture Cr. 1,2
The focus of this course is to gain a greater understanding of American culture and current events via extensive reading from print and digital media, leading to written assignments, oral presentations, and discussions. In addition, TV and radio programs, as well as podcasts and documentaries, will provide input for written and oral assignments. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 6 Credits

ELI 0699 Directed Study Cr. 1-4
Meets the needs of English as a Second Language (ESL) students in their last stages of preparation for matriculation. Based on students’ particular needs, instruction will be provided to strengthen various academic preparation skills, including listening and note-taking practice in an academic context, extensive and intensive reading, and expository and research paper writing. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in English Language Institute; enrollment is limited to English Language Institute level students.
Repeatable for 8 Credits

ELI 0700 Written Communication Cr. 1,2
Through reading and writing of complex texts, students improve their understanding and use of American English grammar and mechanics (punctuation and capitalization) for academic and professional settings. Offered Every Term.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0705 American Pronunciation and Clear Communication Cr. 1,2
Course addresses the communication needs of advanced-level, non-native English speakers who want to reduce the amount of pronunciation errors produced in their speech. Offered Winter.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0800 Writing Skills I Cr. 2
This course integrates reading, writing, and grammar and focuses on comprehending main ideas and details, inferencing in simplified reading texts, and understanding This course integrates reading, writing, and grammar and focuses on comprehending main ideas and details, inferencing in simplified texts, and understanding vocabulary in context. Students will learn to organize and write paragraphs with simple sentence structure will be provided based on students’ needs. Offered Spring/Summer.
Restriction(s): Enrollment is limited to English Language Institute level students.
Repeatable for 2 Credits

ELI 0810 Oral Skills I Cr. 2
This course integrates listening and speaking in English and introduces culturally appropriate interaction in speech. Students listen to dialogues, newscasts, and short lectures; give presentations on a variety of topics; and receive individualized feedback on pronunciation. Offered Spring/Summer.
Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0820 Writing Skills II Cr. 2
This course integrates reading, writing, and grammar and will emphasize how reading and writing are related. Rhetorical modes of essay writing will be introduced, authentic texts will be read, and more advanced grammar points will be covered. Offered Spring/Summer.
Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0830 Oral Skills II Cr. 2
This course integrates listening and speaking in English and focuses on refining students’ abilities to understand academic and informal spoken language by listening to academically-themed lectures and extended dialogues. They will develop critical thinking skills for responding to questions and giving presentations. Offered Spring/Summer.
Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0840 Writing Skills III Cr. 4
Course integrates reading, writing, and grammar; focuses on reading authentic materials and writing essays. Students work to improve their understanding and use of American English, grammar, and mechanisms for academic settings. Offered Spring/Summer.
Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0850 Oral Skills III Cr. 4
Course integrates listening and speaking in English and will help students increase their aural/oral fluency through participation in academic/content-based discussions and various other forms of speech in formal, informal, and academic settings. Offered Spring/Summer.
Restriction(s): Enrollment is limited to English Language Institute level students.

ELI 0860 Communication and Culture Cr. 4
This course will involve writing and oral presentations based on academic readings and cultural experiences. Additional instruction in grammar and sentence structure will be provided based on students’ needs. Offered Spring/Summer.
Restriction(s): Enrollment is limited to English Language Institute level students.

Records and Registration
Office of the Registrar
In Person Services: Student Service Center, Welcome Center, 42 West Warren
Mailing Address: 5057 Woodward; Suite 5101, Detroit, MI 48202
Telephone: 313-577-3550, Fax: 313-577-7870
h (http://www.reg.wayne.edu/http://wayne.edu/registrar (http://wayne.edu/registrar/)

The Office of the Registrar supports the instructional, research and service missions of the University by providing a wide variety of academic services to students, faculty and staff. The office consists of several units: The Office of the Registrar prepares academic calendars, assesses tuition and fees, determines residency, and reviews all appeals for exceptions to University enrollment policies. Records and Registration oversees registration, adds, drops, course withdrawals, grading, student personal and academic data, and transcripts/academic records. Curricular Services oversees the preparation of each term’s Schedule of Classes, degree audit tools, graduation applications and diplomas. Transfer Credit evaluates coursework from other universities for undergraduate credit at Wayne State University.

Registration
Registration (http://wayne.edu/register/) is the process of officially enrolling in classes for a particular term. Students can view the Class
Post-Bachelor Status: Students wanting graduate credit should NOT register ‘post-bachelor.’ This status allows students holding bachelor’s degrees from accredited institutions to elect only courses open to undergraduate students (numbered below 7000), which may be used to fulfill prerequisite requirements for graduate admission. Credits for courses elected as a post-bachelor student do not count toward graduate credit.

Academica

Academica (http://academica.wayne.edu) is a secure gateway that provides unified access to Wayne State information, services, and computing systems. This comprehensive environment is a one-stop location where WSU students, faculty, and staff can conveniently use online self-service functions and easily access many computing systems, such as the Wayne Connect Email system and the Blackboard Learning System. Using Academica, students also have continual access to specific information and helpful tools needed for communication, collaboration, teaching and learning, and University administration. Current students can use secure self-services to check financial aid, register for and drop/add classes, pay tuition and fees, check holds and final grades, obtain enrollment verifications and transcripts, self-register for training programs/workshops, and more.

Accessing Academica requires a valid WSU Access ID (http://computing.wayne.edu/accessid/) (e.g., xy6789) and password. As soon as a student applies for admission or an employee is hired, a unique Access ID is automatically created. The university’s Help Desk (https://tech.wayne.edu/helpdesk/) services can provide technical assistance if necessary.

Degree Works

Degree Works (http://wayne.edu/degreeworks/) is a degree tracking tool that allows you to see your progress toward graduation and help you and your advisor determine which courses you still need to take. Along with your advisor, you can also map out which courses you will take in future semesters, putting you on the right path for graduation.

Drop/Add — Adjusting Your Schedule

Registered students may drop and/or add classes on the date(s) indicated on the Registration Calendar. Note the following requirements:

1. The regulations pertaining to dropping and adding courses are stated as they pertain to regular courses fifteen weeks or more in duration. These regulations are applied proportionately to courses that are offered for less than fifteen weeks. Students can click on the Course Reference Number (CRN) on the class schedule website to view specific deadline dates for each course(s). Students can also contact the Registration Office (registration@wayne.edu) for any questions regarding these regulations.

2. Students who do not officially drop their courses within the first two weeks of classes are financially obligated to pay for the courses even if they have not attended any class sessions.

3. Students who officially drop full term courses before the conclusion of the first two weeks of classes (for the Fall and Winter terms) are entitled to 100% tuition cancellation, and the courses do not appear on the students’ academic records.

4. Students are not permitted to add courses after the first week of the term without instructor and departmental permission. Departments are required to enter a late add permit/override for students if exceptions are made to permit adding of classes during the second week.

5. Effective Fall 2018, the withdrawal period starts after the second week of classes, and lasts through the tenth week. The withdrawal will include a notation on the academic record of ‘WP’ - Passing, ‘WF’ - Failing, or ‘WN’ - No Basis for Letter Grade. Students are required to submit their withdrawal through Academica for their instructors’ approval. Once logged into Academica, click the Student tab, under Registration from the Student Services menu, choose Withdraw from a Class, follow the prompts on each page. Before a withdrawal request is sent to the instructor, undergraduate and Masters level students will be required to complete a SMART Check. See the Financial Aid website (http://wayne.edu/financial-aid/receiving/withdrawal/) for more information.

6. Students are not permitted to withdraw from courses after the end of the tenth week of class for full term classes. The withdrawal deadlines are published in each term’s academic and registration calendar. Withdrawal dates for less than full term courses are adjusted proportionally. Late withdrawal requests will not be approved. Medical withdrawal requests have separate deadlines.

Courses for which a grade has been earned cannot be withdrawn.

College of Engineering: Students are not permitted to withdraw from courses after the fifth week of classes without written approval of their advisor. Some departments have more stringent restrictions on withdrawing from courses.

Transcript Request Policy

Official transcripts bear the seal of the University and the signature of the Registrar. They are sent directly to the receiving party. Transcripts are issued free of charge, up to ten copies per year. A fee of $5.00 per transcript is charged for copies in excess of ten. A fee of $20.00 is assessed for each emergency transcript. An emergency transcript is one which is mailed for overnight delivery. The next day service only applies to street addresses (No Post Office Boxes) within North America. Next day service requests must be received by 1:00 p.m.

Students may request transcripts via Academica (http://academica.wayne.edu). There are no on demand transcript requests. Due to the signature requirement for releasing educational records, the University cannot accept telephone requests for transcripts.

Transcripts are not issued to anyone outside the University without the written permission of the student. Requests for official transcripts will not be honored if the student or former student has an outstanding financial obligation to the University.

For students who have been in attendance since the year 2000, transcripts can be sent electronically. A valid email address must be provided.

Release of Student Records

The University recognizes the educational records of students as being privileged and has a policy designed to ensure that this information is not improperly divulged without the consent of the student. The University is subject to the Family Education Rights and Privacy Act (http://reg.wayne.edu/students/privacy.php) (FERPA) and has promulgated regulations pursuant thereto. Copies of the regulations and a list of student records maintained by the University are available for inspection in the Office of the Registrar. The University reserves the right to provide anonymous academic information to other schools and colleges when it is to be used for curriculum evaluation purposes.
Michigan’s Freedom of Information Act

The Freedom of Information Act (PA 242) provides that a member of the public, in accordance with certain guidelines, has a right to inspect and receive copies of public records maintained by the University. A public record is broadly defined and includes written documents, pictures, recordings, punch cards, magnetic cards, etc., which are maintained by the University in the course of official responsibilities. However, certain records are exempt from disclosure.

The Media Relations Office, located in 3100 Academic/Administrative Building, is responsible for accepting requests for public records, and the Director of that office is the University officer in charge of providing this service. Under statute, a fee can be charged for records released and is based on the cost of labor involved in the search, examination and duplication of records, as well as the mailing costs. Only the Office of General Counsel may authorize the denial of a FOIA request.

Student Directory Information

Effective Winter Term 2000, and updated Spring/Summer 2017, Wayne State University policy permits the release of certain Student Directory information. The specific items are: name, university-provided email address, major, classification (freshman, sophomore, etc.), participation in official recognized activities, including sports, height and weight of member of athletic teams, degree(s) received from Wayne State University, and honors and/or academic awards received.

Unless a student informs the Office of the Registrar that he or she does not want this information released, it will be available to third parties on request. In addition, the student’s name, WSU e-mail address, College/School, and major will be visible in the University’s Electronic Directory on the Internet. Students who do not want this information released must formally request withholding by completing the Release of Directory Information form, available from the Office of the Registrar (http://reg.wayne.edu/).

WSU OneCard

The WSU OneCard is a multi-purpose identification and debit card all in one. It is a convenient, easy-to-use card designed to provide students with access to a wide variety of campus services including, parking, door access, copying and printing services food and bookstore purchases, and more, all without having to use cash. The OneCard is needed to access the fitness center, the complimentary campus shuttle and serves as the Library Card for the WSU Libraries. Students should contact the OneCard Office (http://www.onecard.wayne.edu/) for complete details.

Retention and Graduation Data

The following information provided by the National Student Clearinghouse reflects 4-year and 6-year graduation and retention rates of the Fall 2010 cohort. Decisions by students to complete degree programs in more than four years varies from personal to programmatic to economic reasons. Additionally, some students in the 2010 cohort have graduated or will eventually graduate at other institutions through transfer or pre-baccalaureate entry into professional programs.

The Fall 2010 cohort consisting of 2400 students tracked by the Clearinghouse for periods of four years and six years shows:

<table>
<thead>

Student Academic Success Services

Ombuds Office

790 Student Center Building; 313-577-3487
http://ombudsmn.wayne.edu (http://ombudsmn.wayne.edu/)

The Ombuds Office exists to support students in achieving their academic goals by providing them with the tools to access services and resolve issues that are hampering their academic progress. The Office advises students about University policies and procedures, helps them identify possible avenues and solutions, and directs them to relevant University services.

The Ombuds Office is objective, impartial, and does not advocate a particular point of view. It listens to student-related concerns and exercises independent judgment regarding any action it may take. The Office has no authority to change academic or administrative decisions, but it facilitates communication when suitable. Confidentiality is maintained as appropriate and feasible based on individual student needs and desires.

The Ombudsperson is the Chair of the Tuition and Fees Appeals Board (TFAB). The TFAB is charged by the President to be the final arbiter of appeals for tuition and related fees. Students who have exhausted the appeals process in the Office of the Registrar related to tuition and fees may appeal to the TFAB. Each appeal is reviewed as an individual case, and cancellation of tuition and/or fees is granted only when circumstances warrant. It cannot grant tuition adjustments for classes in which students received earned grades, nor can it grant course withdrawals without tuition cancellation. The TFAB will consider only those appeals that are filed within one calendar year following the last day of the academic term in which the challenged fees were assessed.

University Advising Center

1600 David Adamany Undergraduate Library; 313-577-2680
http://www.advising.wayne.edu

The mission of the University Advising Center is to help all undergraduate students reach their educational goals, with high academic achievement, and to graduate.

The University Advising Center provides academic advising to all undergraduate students with undeclared majors and to preprofessional students in the College of Liberal Arts and Sciences, and the College of Fine, Performing and Communication Arts. The Center is staffed by professional advisors whose major responsibilities include the following:

New Student Orientation

The University Advising Center holds new student orientation (http://bulletins.wayne.edu/undergraduate/general-information/success-programs/%20http://wayne.edu/orientation/) sessions prior to the
start of each semester for incoming students. All incoming freshman and transfer students are required to attend a new student orientation session.

Exploratory Student Advising
Advisors provide specialized advising support to students entering WSU still deciding on a major/program of study. With their advisor, students will explore self, majors and careers and will have an opportunity to explore majors and careers through exploratory activities.

Pre-Medicine/Pre-Dental/Pre-Veterinary Advising
Students in pre-medical, pre-dental, pre-osteopathic and pre-veterinary medicine are advised on specific curricula, co-curricular activities, preparation for admission exams and procedures for applying to the professional school. Credential file services are available to students and letters of recommendation are sent to professional schools as requested by the student.

Pre-professional Advising
Advisors assist students in planning programs which will fulfill requirements for admission to the various professional programs offered by Wayne State University, including those of the School of Social Work, the College of Nursing, and the Eugene Applebaum College of Pharmacy and Health Sciences.

Academic Deficiency Advising
Students whose grade point averages fall below 2.0 are placed on academic probation and are required to discuss their progress with an academic advisor. Advisors help probationary students consider ways to overcome academic deficiencies. Referrals may be made to other University services where students can find assistance for specific problems or difficulties.

Early Academic Assessment
Academic progress for students enrolled in 0000-3999-level courses is assessed by faculty from the beginning of the third week to the end of the sixth week of classes. If a student's performance is assessed below the C level, the student receives an alert notification referring him/her to appropriate campus resources.

Academic Success Center
1600 David Adamany Undergraduate Library; 313-577-3165
http://www.success.wayne.edu

The mission of the Academic Success Center (ASC) is to ensure that all Wayne State University undergraduate students become self-disciplined, motivated and independent learners. The ASC accomplishes this through instruction and services that support students in the development of skills to promote academic excellence and enhance success.

Study Skills Counseling: Professional learning specialists are available to support students’ academic success. Any undergraduate Wayne State student may work with a learning specialist to identify specific study skill difficulties and formulate personalized strategies for success. Each plan identifies the student's strengths, opportunities for development and action steps necessary to help the student become a more effective learner. Programs are designed to improve students’ study skills including reading comprehension, memory improvement and test preparation.

Study Skills Workshops: The Academic Success Center offers a series of study skills workshops for all students each semester. Sessions provide strategies and techniques to help students effectively manage their time, prepare for exams, reduce test anxiety, improve memory and concentration, understand the relationships between wellness and academic performance and strengthen other skills. Additionally, workshops may be scheduled for groups, student organizations and academic departments to address specific needs.

Tutoring: The Academic Success Center offers tutoring by appointment for a variety of undergraduate courses. In addition to subject material, tutoring sessions address study skill areas such as note-taking and reading comprehension when necessary. All tutors have received faculty recommendation and maintain at least a 3.2 g.p.a.

Supplemental Instruction (SI) supports many 1000- and 2000-level courses by offering collaborative learning sessions facilitated by an SI leader. Sessions are designed to help students understand the course’s key concepts, organize the material and develop strategies to effectively prepare for exams. Research suggests that students who consistently participate in SI typically earn a half to a full letter grade better than students who do not take part in SI. All SI leaders have received faculty recommendation, maintain at least a 3.3 g.p.a. and are required to attend the lecture.

First-Year Success Seminar (FYS 1010): This one-credit course supports first-year students’ academic and personal development to promote success at Wayne State University and establish learning as a lifelong experience. Coursework and discussions assist students in understanding themselves as learners, setting goals and strengthening time management and study skills while developing a greater awareness of the factors that influence success and the habits that can support success.

Counseling and Psychological Services (CAPS)
552 Student Center Building; 313-577-3398
http://caps.wayne.edu (http://caps.wayne.edu/)

Counseling and Psychological Services (CAPS) enhances students’ development and academic success by promoting an open, problem-solving approach to personal challenges and working collaboratively on building appropriate skills, attitudes, and actions.

Service hours: Monday - Friday 8:30 am to 5:00 pm. Registered WSU students may drop-in or call for an evaluation with a CAPS counselor Monday through Friday from 9:00 am to 4:00 pm.

Eligibility: All currently enrolled students are eligible for counseling evaluation to assess whether their needs can be addressed effectively via short-term counseling at CAPS or require more specialized or longer-term counseling at another facility. Faculty, staff, alumni, children, or spouses are not eligible.

Crisis Services: In the case of a non-life-threatening crisis, students, faculty, or staff can contact CAPS and indicate that a student needs immediate assistance. If assistance is needed during evening or weekend hours, contact the Wayne State University Police Department at 313-577-2222 or call the Wayne County crisis hotline at 313-224-7000. In the event of a life-threatening emergency at any time, contact the Wayne State Police Department.

Career Services
1001 Faculty/Administration Building; 313-577-3390
http://www.careerservices.wayne.edu (http://www.careerservices.wayne.edu/)

Career Services provides support to students and alumni in defining career and employment goals and assists them in their search for employment opportunities. In addition to the following services, Career Services offers topical workshops, career events, and group and
individual career/employment counseling. Career Services welcomes the opportunity to discuss customized services to meet individual needs.

Career Development: The main focus of this service is to help students explore career options, clarify their career goals, and link those goals to appropriate academic paths. Individual and group services are available.

Cooperative Education, Internships, and Summer Employment: Comprehensive paid professional, career- and non-career related work experiences are available, including a wide variety of part- and full-time experiential learning situations. Orientation workshops are offered on an ongoing basis.

On-campus Student Employment: Students may work on-campus up to twenty hours per week as a Student Assistant or College Work-Study employee. Job openings may be viewed in-house or online via our open posting system.

Professional Employment: Graduating students and alumni may increase professional full-time employment opportunities through on-campus interviews, resume referral, career fairs, in-house and on-line job postings, along with a myriad of career-related support services.

Testing, Evaluation, and Research Services

686 Student Center; 313-577-3400; Fax: 313-577-0617
http://www.testing.wayne.edu/

Testing

We provide:

- A secure, standardized, testing environment where students can demonstrate their academic skills for placement, course credit, or high stakes decisions.
- The opportunity for students to earn course credit in courses accepted by the transfer credit office through the College Level Examination Program (CLEP).
- Placement testing for students interested in meeting general education and other requirements targeted toward their personal skill level in Biology, Chemistry, English Composition and Mathematics.
- Outside exams: Graduate Record Exam (GRE), Testing for the Law School Admission Council (LSAC), Medical College Admission Test (MCAT), Miller Analogies Test (MAT), Test of English as a Foreign Language (TOEFL), Written and Oral exams for the American Council on the Teaching of Foreign Languages (ACTFL), and written exams for doctoral students in the College of Education.

Evaluation

We collect student opinions about faculty teaching through Student Evaluation of Teaching (SET). We share SET reports with students, administrators and faculty members toward the goal of improving quality of teaching at the University.

We survey students and faculty regarding the quality of their education through

1. the Cooperative Institutional Research Program (CIRP) Freshman Survey,
2. National Survey of Student Engagement (NSSE) and
3. Faculty Survey of Student Engagement (FSSE).

Research Services

We offer consulting on best practice in testing for faculty and academic staff. We offer machine scoring of exams, including tabulation of test scores and statistical output to help faculty improve their tests.

Student Disability Services (SDS)

1600 David Adamany Undergraduate Library; 313-577-1851; 313-202-4216 (Videophone)
http://studentdisability.wayne.edu

Student Disability Services is the office at Wayne State University that determines eligibility and implements academic accommodations, services and support for students with disabilities pursuant to the Americans with Disabilities Act (ADA), the ADA Amendments Act of 2008, and Section 504 of the Vocational Rehabilitation Act of 1973. SDS is committed to teaching students to advocate for themselves in order to fulfill their academic goals. SDS also provides training and outreach throughout the university to ensure equal access to all university programs.

Disability Determination: In order to register for SDS services, students must self-identify by providing documentation of their disability. Students will meet with disability specialists to discuss appropriate and reasonable accommodations. Once accommodations are determined, students are guided through the process of providing faculty with their accommodation letters and securing appropriate services. Students receiving accommodations are held to the same academic standards as all other WSU students and are responsible for requesting services and following procedures in a timely manner.

Academic Accommodations: Accommodations and services are individualized and based upon the student's documentation. It is for this reason that students should ensure that they have sufficient documentation that supports the need for appropriate and reasonable accommodations. Some of the accommodations and services provided by SDS might include alternative testing, interpreter and CART reporting services, alternative text format, note-taking assistance, furniture requests, use of assistive technology, and use of SDS exam/study rooms. Students registered with SDS are also eligible for pre-priority registration for classes. Through the SDS liaison program with University departments and programs, SDS ensures that members of the University community understand the types of support offered to enhance collaboration in providing accommodations.

Assistive Technology: The SDS staff includes an assistive technician who secures alternative text formats for students and teaches students how to use the various assistive technologies. SDS exam/study rooms house CCTV magnification equipment, computers with software such as Zoomtext, JAWS, Kurzweil Educational Systems, Dragon Naturally Speaking and Inspiration. Students are also informed about free downloadable software programs for reading and recording.

Community Resources: SDS collaborates with various community agencies that assist students with disabilities at the university. Students are connected to agencies such as Michigan Rehabilitation Services, the Bureau of Services for Blind Persons, Learning and Disability Network/ Michigan.

Academic Pathways for Excellence (APEX)

5700 Cass Ave., Suite 2800; 313-577-4695
http://www.apex.wayne.edu (http://www.apex.wayne.edu/)

APEX Scholars is an alternative admission program designed to assist students with admission to success at, and graduation from Wayne State University. The program is based on the philosophy that students who
The Office of Federal TRIO provides academic assistance and support services to promising youth and adults who have been historically under-represented in higher education due to their economic condition, first generation status, or educational preparation. This office provides academic support services, instruction, and college preparation workshops for pre-college students in the metropolitan Detroit area and students enrolled at WSU. Federal TRIO serves an extremely diverse student population that ranges from twelve to nineteen years of age, veterans of the armed services, and other adult learners. Federal TRIO Programs serve over 6,000 students residing in Wayne, Oakland, and Macomb Counties or enrolled at Wayne State University.

Federal TRIO is comprised of six state and federally funded programs designed to increase the post-secondary admission rates of the diverse populations it serves, and to increase the graduation rates of these students in the University. Through continuous improvement of services, the department aims to maximize the academic achievement of its participants and to promote equity and excellence at Wayne State University.

The Educational Opportunity Center (EOC)

5700 Cass Avenue, Suite 2701, Academic/Administrative Bldg., 313-577-5050, provides a comprehensive career counseling program that offers free academic, vocational career and financial aid information to eligible applicants nineteen years of age and older, who wish to pursue a postsecondary education.

Michigan Gaining Early Awareness and Readiness for Undergraduate Programs (MI-GEARUP)

5700 Cass Ave., Suite 1330, Academic/Administrative Bldg., 313-577-5050, offers life skills programs, career counseling services and college visitations designed to educate parents and encourage seventh-through twelfth-grade students in targeted schools to complete high school and enroll in higher education.

Upward Bound Program

5425 Woodward, 313-577-1943, provides services for low income and first generation college students in grades nine to twelve with the potential and motivation to be successful in higher education. The students must attend target area high schools. Upward Bound provides students with a head start on improving the skills required to succeed in college, through academic instruction, tutoring, academic and career guidance, personal counseling, and a six week summer residential program.

Veterans’ Educational Opportunity Program (VEOP)

5425 Woodward, 313-577-9710, provides a program of instruction, academic and career guidance, personal counseling, tutoring, and post-secondary placement to veterans who have served in the U.S. Armed Forces from December 31, 1955 to present.

McNair Scholars Post-baccalaureate Achievement Program

5700 Cass Avenue, Suite 1330; 313-577-5050, provides faculty mentors, student-faculty research projects, GRE preparation services, stipend support and travel funds to present research for WSU junior and senior students. The goal of the McNair Scholars Program is to prepare low-income, first generation and underrepresented students to successfully complete doctoral studies in the areas of Science, technology, engineering and mathematics.

Office of Military and Veterans Academic Excellence (OMVAE)

Suite 687 Student Center Building;
This office assists veterans, active-duty service members, reservists, National Guard and eligible dependents/survivors in utilizing educational benefits. Specifically, students are aided in applying for Federal benefits outlined under Title 38, and Title 10, U.S.C., including: the Montgomery G.I. Bill (chapter 30), Vocational Rehabilitation (chapter 31), Post 9/11 G.I. Bill (Chapter 33), Reserve Educational Assistance Program, the Reserve G.I. Bill (chapter 1606), REAP (chapter 1607), and the Survivors'/Dependents' Educational Assistance Program (chapter 35). All eligible students must officially request (http://omvae.wayne.edu/va-certification.php) to use their educational benefits each semester.

Non-Degree Status: Students must be in a degree program to receive benefits. Those not currently admitted to a degree program and enrolled in classes must verify to the OMVAE via an academic advisor (http://advising.wayne.edu/makeapppt.php) the reason for enrollment (i.e., completing foundation courses for a master's-level program).

Transfer Credits: Wayne State University will give four transfer credits for veterans, reservists, National Guard, and active-duty service members for service in the U.S. military. The University will require military discharge document DD-Form 214 (http://www.dd214.us/).

Wayne State University will accept up to twelve transfer credits from veterans upon receiving their Joint Service Transcript of military training. These credits are to be evaluated according to the 'Guide to the Evaluation of Educational Experiences in the Armed Services,' published by the American Council on Education.

This policy shall be in effect for all veterans, reservists, National Guard, and active-duty service members currently enrolled Fall 2005 and thereafter.

Late Tuition and Late Registration Fee Waiver: Late fees, Partial Payment fees and Late Registration fees can be waived for all students currently receiving VA Educational Benefits. Contact OMVAE for assistance.

Licensing/Certification Reimbursement: In most instances, students receiving VA educational benefits (http://www.gibill.va.gov) are eligible for reimbursement (https://www.benefits.va.gov/gibill/licensing_certification.asp) for licensing test fees.

Tutorial Assistance is also available (https://www.benefits.va.gov/gibill/tutorial_assistance.asp) as part of all benefit packages as noted above. Eligible recipients may receive $100.00 per month, up to twelve months to help defray tutoring costs. Contact the OMVAE for further details. No charge to benefit entitlement is incurred for the first six months received of Tutorial Assistance.

In-State Tuition Waiver: Individuals on active duty in the U.S. Military who are stationed in Michigan and their dependents are eligible for Michigan in-state tuition. Stationing orders and proof of relationship (for dependents) must be provided with the application.

Students utilizing Chapter 31 or Chapter 33 G.I. Bill™ benefits will be granted a deferment of tuition and fees for the current enrollment period upon submission of a corresponding Certificate of Eligibility (or suitable documentation which demonstrates benefit eligibility). The deferment will be placed proportionally based on the student’s percentage of eligibility.

Veterans and their dependents are eligible for Michigan in-state tuition. The term 'veteran' means a citizen of the United States or a resident alien whose most recent separation from any branch of the armed forces of the United States was under conditions other than dishonorable after having served on active duty for 90 consecutive days or more by reason of disability incurred while serving on active duty.

Individuals who are members of the National Guard of any state, or who were separated from the National Guard of any state under conditions other than dishonorable, and their dependents are eligible for Michigan in-state tuition.

Without regard to the foregoing, any individual using educational assistance under either Chapter 30 (Montgomery GI Bill® – Active Duty Program), Chapter 33 (Post-9/11 GI Bill®), of title 38, United States Code, and/or the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311 (b)(9) who lives in the State of Michigan while attending Wayne State University (regardless of his/her formal state of residence) is eligible for Michigan in-state tuition.

VA Work-study Program: The VA work-study (https://www.benefits.va.gov/gibill/workstudy.asp) allowance is available to all students eligible for VA Educational Benefits. Those eligible who are at least a three-quarter-time student in a college degree program, or a vocational or professional program, can ‘earn while they learn.’ Pay for VA Work-study is the equal to the Federal minimum wage or your state minimum wage, whichever is greater.

Services performed under a VA work-study program must be related to VA work. Examples of acceptable work are:

- Processing VA paperwork at any university or college having a VA Office (e.g., you may be enrolled at WSU but work at Oakland or Macomb Community College VA Offices)
- Outreach services under VA supervision
- Work at VA medical facilities or National Cemetery System offices
- Work with the Veterans counselor at any of the MESC offices
- Work in the Education or Transition offices at local base
- Work at Department of Defense facilities related to education benefits under the GI Bill.

National Guard Students: Please note that Wayne State does not currently participate in the Guard’s Tuition Grant Program. However, if your branch provides Tuition Assistance and/or Tuition Reimbursement the OMVAE will provide assistance as necessary with regard to grade and tuition certifications to your unit.

Reserve Officer Training Corps (ROTC): Wayne State University offers an Army ROTC (http://omvae.wayne.edu/rotc/) program. Students interested in joining the Army ROTC program at Wayne State University should contact M.S.G. Nicholas Lachance 734-647-3034.

Recalled To Active Duty (Reservists / National Guard): Students serving in the Selected Reserves or National Guard who are called up to Active Duty during a semester may request full reimbursement of tuition and fees. Students must file an Exception to Enrollment Policy form and submit a copy of their orders to OMVAE. Students called up active near the end of a semester are encouraged to consider requesting Incomplete grades for coursework.

Early-Out Requests: Potential Students on Active Duty requesting a verification of enrollment to be sent to their Commands must be admitted to Wayne State University and have registered for classes. Please contact the Graduate Admissions Office and the Registration Office for assistance. Once these conditions are met, the VA Certifying Official can complete an enrollment verification for active duty members seeking an ‘early out’ from military service. Hard copy proof of student’s admittance and registration for classes is NOT required for the VA Certifying Official to complete the enrollment verification.
Tuition and Fees

Listed below are the Tuition and Fees, as adopted by the Board of Governors, at the time of preparation of this Bulletin. Please see the Graduate Bulletin (http://bulletins.wayne.edu/graduate/) for rates in Graduate and Professional programs. Current tuition and fee information is also available on the Office of the Registrar’s website (https://wayne.edu/registrar/tuition/). Tuition and Fees are subject to change without notice by action of the Board of Governors.

Student Services Fee

Undergraduate students are assessed a $37.82 fee per credit. The Student Services Fee is used primarily to maintain, upgrade and replace student computing and technology resources on campus. A small portion is also used to fund student activities on campus, and to enhance programs directed toward improving on-campus activities, including athletics.

* The Sciences Support Fee is charged to these majors in the College of Liberal Arts and Sciences: Actuarial Mathematics, Astronomy, Biochemistry & Chemical Biology, Biological Sciences, Biomedical Physics, Chemistry, Computer Science, Communication Sciences & Disorders, Dietetics, Environmental Science, Geology, Information System Technology, Mathematics, Neurosciences, Nutrition & Food Science, Physics, Psychology, Public Health, and Statistics (including those with departmental honors).

Matriculation Fee

New undergraduate freshmen and transfers will pay a $250.00 Matriculation Fee.

Student Exchange and Visitors Information Service (SEVIS) Fee

International students and scholars/visitors who must be reported through the federal SEVIS system shall be charged a $50.00 non-refundable fee for each term of enrollment.

Course Material Fees

These fees are required of some classes in which a relatively large portion of instructional costs is due to the necessary use of consumable resources. The fee is automatically assessed; a fee card is not required. The fee may be canceled when a course is officially dropped within the tuition and fee cancellation period specified in each semester’s term calendar. For additional information, contact the Department offering the course. Courses listed as having special fees require payment of the fee in addition to the tuition.

Music Fees

Students registering for music courses taken as private lessons pay an additional fee. In the event of withdrawal, the student will receive a refund of the difference between the fee assessed and the cost to the University of any lessons that were provided.
Examination Fee for Credit by Examination
The fee for an examination taken to establish credit by examination is $10.00 per credit. Such examinations will be approved under provisions established by the Schools and Colleges. Credit allowed on the basis of transcript entries from another institution is not applicable to this provision.

Graduation/Certificate Fee
There shall be a $40.00 fee for students who apply for a degree or certificate/diploma. Graduate applicants for graduate degrees will not be charged the Graduation Fee as they pay a higher Registration Fee. Undergraduates who are new to the university in fall 2014 or after will pay a Matriculation Fee in lieu of a Graduation Fee and in lieu of an Orientation Fee.

Payment of Tuition and Fees
Student Financial Obligation for Payment of Tuition and Fees
When registering for courses each semester students are required to electronically sign a ‘Financial Responsibility Agreement.’ This agreement represents a binding contract obligating the student to pay all tuition and fees assessed including any collection, attorney, and/or litigation costs associated with collecting those fees, in the event of non-payment.

Payment Due Dates
- FALL TERM: Payment is due August 15.
- WINTER TERM: Payment is due December 15.
- SPRING/SUMMER TERM: Payment is due April 15.

Students registering on or after these payment dates are expected to pay the balance in full at the time of registration.

Payments not received by the due date(s) are subject to late payment fees. Failure to make payment because a statement of account or invoice is not received does not exempt students from late payment fees. Please refer to the published tuition due dates and the complete eBill Posting Schedule and Payment Due Dates on the Office of University Bursar’s website (http://fisops.wayne.edu/bursar/e-bills/eBill-Schedule.php).

Payment Options
Wayne State University provides various options for paying tuition and fees:
1. in person at the Cashier Office, Room 217; Welcome Center, 42 W. Warren; or
2. by mail to Wayne State University, P.O. Box 02788, Detroit, MI 48202; or
3. online through Academica (https://academica.aws.wayne.edu).

Checks, Money Orders, and Cash
Wayne State University accepts personal and certified checks, money orders, and cash as payment for tuition and fees. Payments can be mailed. However, please do not mail cash. Checks or money orders should be made payable to Wayne State University. The student’s name and University AccessID number should be written on the check or money order.

Fee-free ACH Checks
Wayne State University also accepts fee-free automated clearing house (ACH) check payments using WSU Academica. Checks (paper or ACH) returned by the bank are subject to returned check fees.

Credit Card Payments
Wayne State University does not accept credit card payments directly. Credit card payments can be applied to a student’s University account by a third party processor, CASHNet SmartPay. CASHNet SmartPay will assess a convenience fee (2.9%) on all credit card payments. To make a credit card payment log into Academica and select the “Online Payments” option under “Student Resources” link. American Express, Discover, MasterCard and Visa cards are accepted.

Installment Payment Plans (IPP)
Wayne State University is able to offer interest free installment payment plans for students on a semester-by-semester basis via Nelnet at:
https://wayne.afford.com/ or 1-800-722-4867
There is a nominal fee for enrolling. Contact the company for terms and conditions.

Sponsored Tuition Program
Certain employers participate in direct tuition billing arrangements as part of their employee benefits programs. Students with questions about the University’s procedures or required documentation for a specific plan should contact the Student Accounts Receivable Office at 313-577-6623.

Holds on Records
Initial eligibility to register for classes each semester is based on a student’s admission status with the University. All students must be authorized by the University in order to enroll in classes. ‘Holds’ may be placed on student records, and registration denied to a student, for academic reasons (e.g., probation or dismissal), a disciplinary problem, money owed to the University, failure to return library books and/or other supplies and equipment, and/or non-compliance with program, Departmental, School/College, or University regulations. A ‘Hold’ will be placed on the records of any student who has past due indebtedness to the University. While the hold is in effect, registration for a subsequent term will not be permitted, official transcripts of academic work taken at the University will not be furnished, degree or enrollment certification will not be provided, nor will a diploma be issued.

Transcript Request Policy
Transcripts are not issued to anyone outside the University without the written permission of the student. Request for official transcripts will not be honored if the student or former student has an outstanding financial obligation to the University. Exceptions are permitted for employment purposes only with an agreed upon payment plan and acceptable down payment.

Delinquent Prior Term Balances
Personal checks are not accepted as payment for delinquent balances. Payment must be made by cash, certified check, money order or credit card.

IMPORTANT: Students who do not drop their courses during the tuition cancellation period for the term are financially obligated to pay for the courses even if they have not attended any class sessions. Specific dates are available in the Academic Calendar (p. 10).

Students with questions regarding any information presented in Payment of Tuition and Fees section above should contact the Office of the University Bursar at 313-577-3653.

Disclosure Statement
The University reserves the right to update and/or change this information at anytime.

Late Registration
Registration is not permitted beyond the prescribed registration date unless extenuating circumstances beyond the control of the
student warrant an exception to University Policy as determined by the University Registrar. In such cases, full tuition, Registration Fee and Late Registration Fee is due on the day of registration.

Short Term Courses
Payment of the full tuition and the non-refundable Registration Fee is required on the date of registration or no later than the first class meeting date. Late Payment Fees are assessed to any student who has not paid his/her tuition and fee assessment by the eBill due date.

Special Adjustments
The University Registrar is authorized to make adjustments in the application of the policies stated in this section when unusual circumstances warrant. Examples of circumstances which may warrant special consideration include: serious illness or death of the student or someone closely related, or mis-advisement by a University representative. Tuition cannot be canceled for reasons such as changes in work schedule or other employment demands, claims of lack of information, insufficient funds, unawareness of the difference between tuition and student financial aid, undocumented reasons, or for reasons that are within the control of the student. Non-attendance, except for situations falling under the University non-attendance policy (below), is not in and of itself a reason for tuition and fee cancellation. Students (or an authorized representative in the case of death or serious illness) must submit their applications and supporting documentation to the Office of the Registrar. A medical withdrawal is a complete withdrawal from all courses, supported by medical reports from the attending physician. Requests for exceptions to tuition and fee policies must be submitted within approximately two months of the end of the term, as follows:

- Fall Term - March 1
- Winter Term - July 1
- Spring/Summer Term - November 1

Deadlines falling on weekends will be extended to the next business day.

University Non-Attendance Policy
The University Non-Attendance Policy will allow 100% tuition cancellation only for students in their first term of attendance at Wayne State University. Instructors for all courses must verify the student did not attend classes after the tuition cancellation deadline. This policy is designed to provide relief to those students who in their first semester at Wayne State may not be familiar with the University’s Tuition Cancellation Policy.

Where the student has otherwise proceeded properly, (s)he may be granted full cancellation of tuition and fees assessed for the class(es) involved:

- If the University cancels the class(es), or
- If the University re-schedules the class(es) after the student has registered and (s)he is now unable to attend, or
- If an authorized University representative has taken action which causes financial loss related to tuition, e.g., authorizing a student’s schedule when the student does not have the necessary prerequisite(s).

Appeal Procedures: If a student (or an authorized representative in the case of death or serious illness) is dissatisfied with the Registrar’s decision with reference to this policy, the student (or an authorized representative) may appeal to the Tuition and Fee Appeals Board through the University Ombudsperson.

University policy allows for a Request for Medical Withdrawal. A medical withdrawal is a complete withdrawal from all courses. For approved requests, the University Medical Withdrawal Policy will grant 100% tuition and fee cancellation if a student stops attending ALL classes before the end of the 10th week of the scheduled class meeting period in a full fall/winter term. Medical documentation will need to confirm that medical attention was provided during this time period. For medical withdrawals occurring during the 11th or 12th week, tuition cancellation will be granted at the rate of 60%. There is no tuition cancellation after the twelfth week of the term. These periods are adjusted proportionally for courses that do not run the full term. While a request is under review tuition payments should be made as scheduled.

Tuition Cancellation
Tuition may be canceled in accordance with the following schedule when students officially drop classes using the Academica on-line portal, by submitting a properly completed Register/Drop/Add form, or by sending a certified letter to the Office of the Registrar. A certified letter requesting to drop classes sent through the U.S. Postal Service shall be considered effective on the date it is received in the Office of the Registrar.

Students who officially drop classes before the conclusion of the first two weeks of classes (for the Fall and Winter full-term courses) are entitled to 100% tuition cancellation, and the dropped classes do not appear on the academic record.

Students are contractually liable for tuition unless they take official action during the tuition cancellation period to drop classes.

Students who officially withdraw from fifteen-week classes after the second week of classes (for the Fall and Winter terms) are not entitled to any tuition cancellation.

The tuition cancellation schedule shown below applies to courses that start in accordance with the Official University Academic Calendar. The tuition cancellation schedule for courses with specially approved starting dates is dependent upon the starting date of the course. Questions about the tuition cancellation schedule should be referred to the University Registrar.

- Classes meeting fewer than four weeks: Students who officially drop scheduled classes before the first day of classes are entitled to a 100% tuition cancellation and 0% thereafter.
- Classes meeting four to eight weeks: Students who officially drop scheduled classes before the second week of classes are entitled to a 100% tuition cancellation and 0% thereafter.
- Classes meeting nine to fifteen weeks: Students who officially drop scheduled classes before the third week of classes are entitled to a 100% tuition cancellation and 0% thereafter.
- Classes meeting sixteen to twenty-seven weeks: Students who officially drop scheduled classes before the fourth week of classes are entitled to a 100% tuition cancellation and 0% thereafter.
- Classes meeting twenty-eight or more weeks: Students who officially drop scheduled classes before the seventh week of classes are entitled to a 100% tuition cancellation and 0% thereafter.

Residency Regulations and Review Procedures: In-State Tuition
The following regulations and review procedures are established by Wayne State University for tuition and fee purposes. Wayne State University recognizes three means by which an individual may establish eligibility for in-state tuition and fees:
• By establishing residence by presence in the State of Michigan;
• By establishing attendance at Michigan high schools; or
• By establishing military service status.

Establishing Residence by Presence in Michigan
Generally, in order to establish residence by presence in the State of Michigan, an individual must document at least six months of continuous physical presence in the State. The six months continuous presence must be completed before the first day of classes for the semester in which in-state tuition is sought. Even if someone is present in Michigan for six months, the person may not qualify for in-state tuition; it depends on whether the person is in Michigan for educational purposes or some other reason. Under limited circumstances which clearly demonstrate that a student's presence in the State of Michigan is not primarily for educational purposes, the student may be eligible for in-state tuition prior to the passage of the six-month presence requirement.

Factors Typically Not Supporting Residence Classification
The following circumstances, standing alone, do not typically support residence, inasmuch as they may be common to a temporary or short-term presence in Michigan:

1. Employment by the University as a fellow, scholar, assistant, or in any position normally filled by students;
2. A statement of intention to establish residence in this state;
3. Payment of local and state taxes; or
4. Automobile registration, driver's license, continued presence in Michigan during vacation periods.

Although insufficient to establish residence, certain of these factors may be taken into consideration in determining whether a student has severed ties to the student’s previous state of residence.

For purposes of these regulations, the age of majority is eighteen years. Except as provided in paragraph “g” of this section, a minor does not have the capacity to establish his or her own legal residence. Normally, the legal residence of a minor follows:

1. That of the parents or surviving parent; or
2. That of the parent to whom custody of the minor has been awarded by a divorce or other judicial decree; or
3. That of the parent with whom the minor in fact makes his or her home, if there has been a separation without a judicial award of custody; or
4. That of an adoptive parent, where there has been a legal adoption, even though the natural parents or parent may be living; or
5. That of a ‘natural’ guardian, such as grandparent with whom the minor in fact makes his or her home, where the minor has permanently left his or her parental home and reasonable expectation of substantial financial support from the parents has been dissolved. A natural guardian is someone who, although not legally the minor’s parent or guardian, performs the same sort of parental duties.
6. If a Michigan resident parent or guardian of a minor moves his or her residence to another state, the minor shall remain eligible for resident tuition status as long as he or she continues to attend school regularly in this state.
7. A minor who has permanently left his or her parental home, and who has no reasonable expectation of significant financial support from his or her parents or legal guardian, etc., may qualify for resident status even if under eighteen years of age.

Non-U.S. Citizen
A non-U.S. citizen may apply for resident status in the same manner as a citizen, if he or she is in the United States for other than a temporary educational purpose. In order to demonstrate this, applicants must provide evidence from the U.S. Department of Citizenship and Immigration Services of one of the following:

1. A U.S. permanent resident alien with a green card.
2. An applicant for U.S. permanent residence whose Petition for Alien Relative, or Employment-based Immigration Petition for Alien Worker has been approved, or who has been issued an Employment Authorization document pending adjustment of status. These individuals will have documentation of this status such as an I-130 (Petition for Alien Relative) or I-140 (Immigration Petition for Alien Worker) Approval Notice, or an I-151 or I-551 Notice of Action indicating approval of petition to become an immigrant.
3. An alien with a current valid visa type issued for purposes of working in the United States, and currently working in the State of Michigan. These currently include visa types of A, E, G, H, I, L, R, and TN.

4. An Alien granted asylum or refugee status.

**Attendence of Michigan High Schools**

An individual may be eligible for in-state tuition on the basis of high school attendance if he or she demonstrates that he or she:

1. Attended an accredited Michigan high school for at least three years and thereafter graduated from an accredited Michigan high school or obtained his or her GED in Michigan; and

2. Enrolls at Wayne State University within twenty-eight months of graduating from high school or obtaining a GED.

An individual does not need to be a legal resident of Michigan or a citizen of the United States to qualify for in-state tuition on the basis of attendance at Michigan schools.

**Military Service**

Individuals on active duty in the United States who are stationed in Michigan and their dependents are eligible for Michigan in-state tuition. Stationing orders and proof of relationship (for dependents) must be provided with the application.

Veterans and their dependents are eligible for Michigan in-state tuition. The term ‘veteran’ means a citizen of the United States or a resident alien whose most recent separation from any branch of the armed forces of the United States was under conditions other than dishonorable after having served on active duty for 90 consecutive days or more or by reason of disability incurred while serving on active duty.

Individuals who are members of the National Guard of any state, or who were separated from the National Guard of any state under conditions other than dishonorable, and their dependents are eligible for Michigan in-state tuition.

Without regard to the foregoing, any individual using educational assistance under either Chapter 30 (Montgomery GI Bill® — Active Duty Program), Chapter 33 (Post-9/11 GI Bill®), or title 38, United States Code, and/or the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)) who lives in the State of Michigan while attending Wayne State University (regardless of his/her formal state of residence) is eligible for Michigan in-state tuition.

**Good Neighbor Policy (Graduate Students Only)**

Residents of Fulton, Lucas, Ottawa, and Williams counties in Ohio, or residents of Ontario, Canada, who are enrolled in eligible graduate programs will pay in-state tuition. This tuition benefit does not apply to certain academic programs, including School of Medicine MD program and the Doctor of Pharmacy program. Please refer to the Tuition and Fee Regulations (http://reg.wayne.edu/students/tuition_and_fee_regulations.php) for additional details.

**Great Lakes Policy (Undergraduate Students Only)**

Residents of the states of Indiana, Illinois, Wisconsin, Minnesota, New York, Ohio, or Pennsylvania, or the province of Ontario, Canada, who are enrolled in eligible undergraduate programs and who are not eligible for the Good Neighbor Policy may pay Michigan resident tuition rate plus 10 percent.

**Online Programs**

Students enrolled in programs which are offered online in their entirety will have the out-state portion of their tuition waived. WSU Tuition and Fee Regulations published each academic year will identify the specific academic programs eligible for this provision.

**Review Procedures**

**Initial Classification and Appeal**

1. The student is responsible for registering under proper residence or tuition status and advising the University of changes in circumstances, which might affect tuition status. Questions concerning a student’s residence or tuition status prior to enrollment should be raised with the Office of Admissions. Questions arising after enrollment should be raised with the Registrar’s Office.

2. After enrolling, a student may challenge the initial classification made by the Office of Admissions by filing an Application for Residence Classification or Change in Tuition Status with the Registrar’s Office.

3. Except for documented delays caused by University personnel, such applications must be filed by:
   - September 30 for the Fall semester and the Medical Year semester
   - January 31 for the Winter semester
   - July 31 for the Spring/Summer semester

Deadlines falling on weekends or on days when the University is closed will be extended to the next business day. Applications received after these dates will be processed for the following semester.

**Further Appeal**

A student may appeal the initial tuition decision as follows:

1. By filing a written notice of appeal with the Registrar within thirty (30) days after the student is notified of the classification decision. The notice of appeal shall include reasons for the appeal, the period for which resident status is claimed, and a complete statement of the facts on which the appeal is based, together with supporting affidavits or other documentary evidence. Failure to file notice within thirty (30) days shall constitute a waiver of any right to further appeal.

2. A student may appeal the Registrar’s decision by filing a written notice of appeal with the Office of the General Counsel within fifteen (15) days from the date of the Registrar’s decision. Failure to file written notice of appeal of the Registrar’s decision with the Office of the General Counsel within fifteen (15) days shall constitute a waiver of any right to further appeal.

3. A student may appeal the decision of the Office of the General Counsel within fifteen (15) days with the Office of the President. Failure to file written notice of appeal of the General Counsel’s decision with the Office of the President within fifteen (15) days shall constitute a waiver of any right to further appeal. After the notice of appeal, the President or his designee shall review the student’s appeal and render a final decision.

**Erroneous Classification**

1. If an erroneous classification of non-residence occurs, an adjustment for the appropriate period and amount will be made.

2. If an erroneous classification of residence occurs, the student shall be reclassified as a non-resident student. If the cause of his or her incorrect classification shall be found to be due to any material concealment of facts or false statement made by the student before the time of the original classification, the student will be required to pay all tuition and fees which would have been charged to him or her and also will be subject also to appropriate discipline in accordance with University Student Code of Conduct. If it is determined that there
is no such concealment of facts by the student, fees shall be adjusted only for current and future semesters.

Effective Dates of Residence Regulations
Amended statute as adopted on September 20, 2013, will be effective for the Winter Semester 2014.

University and College Centers (Undergraduate Programs)

The centers described below have programs pertaining to undergraduate study. A list of additional centers follows this list. Also see http://www.research.wayne.edu/ci/ for a full listing of University Centers and Institutes and links to web pages describing their functions.

Michigan Developmental Disabilities Institute

Leonard Simons Building, Suite 268, 4809 Woodward Avenue
Telephone: 313-577-2564 or 1-888-978-4334; Fax: 313-577-3770
Director: Sharon Milberger, Sc.D; Email: smilberger@wayne.edu
Website: http://www.middi.wayne.edu/ (http://www.ddi.wayne.edu/)

The Michigan Developmental Disabilities Institute (MI-DDI) is one of a national network of 67 University Centers of Excellence on Developmental Disabilities (UCEDD), nationally and in U.S. territories. The Institute’s mission is to contribute to the development of inclusive communities and quality of life for people with disabilities and their families through a culturally-sensitive statewide program of interdisciplinary education, community support and services, and research and dissemination of information.

Staff and faculty engage in technical assistance, training, and research programs throughout Michigan via collaborative efforts with schools, community agencies, community colleges, and other Universities. Over 10,000 individuals with disabilities benefit from these activities annually. The Graduate Certificate Program in Disabilities teaches evidence based practices to provide services that enhance the quality of life for people living with disabilities. MI-DDI also collaborates with the Wayne State University School of Medicine on the ARIE Co-Curricular clinical initiative, that assists first and second year medical students in obtaining volunteer hours while providing home visits to families that have children with disabilities. MI-DDI is the lead institution for the Michigan Leadership Education in Neurodevelopmental Disabilities program (MI-LEND) Interdisciplinary training program. MI-LEND is a consortium of six Michigan universities including Wayne State University, Michigan State University, Central Michigan University, the University of Michigan/Ann Arbor, the University of Michigan/Dearborn, and Western Michigan University. The goal of the MI-LEND program is to improve the health and well-being of children with neurodevelopmental disabilities. This goal is accomplished by preparing graduate and post-graduate level trainees from diverse professional disciplines to assume leadership roles in their respective fields, and by ensuring high levels of interdisciplinary clinical competence.

The Institute develops activities and projects based on the needs of persons with disabilities and the communities in which they live and work. A 25-member Community Advisory Council, composed of representatives from key statewide organizations, caregivers, family members and individuals with intellectual and developmental disabilities, meets quarterly to provide information and assistance to Institute staff and faculty in establishing priorities and evaluating activities.

Humanities Center

2226 Faculty/Administration Building

Telephone: 313-577-5471; Fax: 313-577-2843
Director: Walter F. Edwards, Ph.D.
Email: walter.edwards@wayne.edu
Website: http://www.research2.wayne.edu/hum/

The mission of the Humanities Center is to nurture interdisciplinary, transdisciplinary and intradisciplinary work in the humanities and the arts through competitions, conferences, discussion groups and other programs for Wayne State’s humanities and arts faculty and students, and for visiting scholars and artists. The Center promotes excellence in research and creative endeavors through rigorous peer review of proposals submitted to it for funding. By sponsoring programs that involve community participants, the Center supports the University’s urban mission. Through its various programs, the Center brings humanists of diverse talents and interests together for conversation and collaboration, and fosters innovation and creativity across the humanistic disciplines.

The Humanities Center provides funding support to both faculty members and students. Two of the Center’s most prominent faculty programs are the Marilyn Williamson Endowed Distinguished Faculty Fellowship (MWEDF) and an annual themed Faculty Fellowship Competition. The Center awards either one or two Williamson fellowships a year, each worth $20,000, depending on the funds available in the budget. Other faculty award programs include an annual themed the Faculty Fellowship Competition with between eight and ten recipients awarded up to $6,000 each. Prominent student programs are the Doctoral Dissertation Fellowship and the Graduate Travel program. The Doctoral Dissertation Fellow will receive $18,000 plus health care coverage if it is requested. Up to three smaller awards of $500 may be made at the discretion of the Center to applicants for the award. The Graduate Travel program encourages graduate students in the humanities and the arts to present their research or artistic work at national conferences and exhibitions by offering up to $300 in travel assistance to applicants. Please check the Humanities Center Web site for additional programs that provide funding opportunities for faculty.

Labor Studies Center

3178 Faculty/Administration Building
Telephone: 313-577-2191; Fax: 313-577-7726
Director: Gayle Hamilton

The Labor Studies Center is a comprehensive labor education center committed to strengthening the capacity of organized labor to represent the needs and interests of workers, while at the same time strengthening the University’s interdisciplinary research and teaching on labor and labor relations issues. The Center’s primary areas of research and practice include: training and technical assistance to unions on labor relations and workplace issues; an undergraduate labor studies major and internship program; interventions to increase the organizational effectiveness of unions; the development and diffusion of constructive labor-management relations practices, particularly in the public sector; the formation and institutionalization of labor-community coalitions; and the impact of lean production systems on workers and labor relations practice in the North American auto industry.

Center for Latino/a and Latin American Studies

3324 Faculty/Administration Building
Telephone: 313-577-4378; Fax: 313-993-4073;
Director: Jorge L. Chinea, Ph.D.
Email: aa1941@wayne.edu
Website: http://www.clas.wayne.edu/cllas/ (http://clas.wayne.edu/cllas/)
The Center for Latino/a and Latin American Studies is a multi-service unit engaged in teaching, research, and service. The Center plays an important role in the urban mission of Wayne State University and involves four components:

1. The Center hosts two learning communities: the CBS Scholars Program and the College-to-Career Program. The first one recruits students into the University, facilitates their transition between high school and college, and promotes increased retention. The second program supports students through completion of their degrees and beyond, especially in the areas of career development and graduate school preparedness. It also offers courses and related educational activities for students interested in Latino and Latin American Studies.

2. It promotes research on issues relevant to the Latino/a community, especially in the urban and workplace environment; and Latin American cultural studies and current issues.

3. It creates and fosters the interaction and exchange of personnel and resources between the University and the Latino/a community; and it serves as a source of expertise on Latino issues to the larger metropolitan community.

4. As an advocate for the awareness and advancement of Latino/a issues within the University, the Center contributes to the University’s continuing efforts to create a richer multicultural campus environment.

**Center for Excellence and Equity in Mathematics**

1309 Faculty/Administration Building  
Telephone: 313-577-8839  
Director: Steven Kahn, Ph.D.  
Email: skahn@math.wayne.edu  
Website: http://clas.wayne.edu/ceem/

The Center for Excellence and Equity in Mathematics, in the College of Liberal Arts and Sciences, is a research and educational center with a two-fold mission: to find ways to significantly improve the quality of K-12 and introductory college-level mathematics instruction across the United States; and, by using mathematics as a tool, to provide students from inner cities and underrepresented minority groups with the kinds of educational and lifetime opportunities that should be available to all students.

The Center currently operates five core programs: the WSU Math Corps, an outreach program serving Detroit middle and high school students; the WSU Middle and High School Math Network, which provides day to day instructional and/or operational resources to Detroit are a middle and high school math departments; the Math Corps Learning Community at WSU, a University support and retention program for Math Corps ‘kids’ now attending WSU; and the Emerging Scholars Program (ESP), a WSU honors-level calculus and pre-calculus program; and the Rising Scholars Program (RSP), serving WSU students at the developmental level.

All Center programs are based on a shared commitment to excellence and to fostering a sense of community.

**Merrill Palmer Skillman Institute**

71 East Ferry Ave.  
Telephone: 313-664-2500; Fax: 313-664-2555  
Director: Peter Lichtenberg, Ph.D.  
Email: mpsi@wayne.edu  
Website: http://www.mpsi.wayne.edu/

The Merrill-Palmer Skillman Institute is an interdisciplinary research institute focusing on urban children and families. It has a long and distinguished history as a research and educational institution, serving as a pioneer in the field of child development and early education. Since it became a part of Wayne State University in 1982, the Institute has encouraged collaborations among faculty from many departments within the University.

The Institute emphasizes research, research training and community engagement and service in the areas of children’s health and development. Current research strengths range from prenatal exposures and child development, infant mental health, cognitive development of high risk infants as well as adolescent health and development. The service programs of the Institute are an outgrowth of its research mission. MPSI operates one of the nation’s oldest preschools. Community outreach and engagement through MPSI’s Healthier Urban Families Program includes training of mental health workers who serve very young children in the care of public and non-profit agencies; consultation to education and child care organizations; workshops for teachers, parents and the public; and the annual Metropolitan Detroit Teen Conference.

**Center for Molecular Medicine and Genetics**

3127 Scott Hall; 540 E. Canfield  
Telephone: 313-577-5323; Fax: 313-577-5218  
Director: Lawrence I. Grossman, Ph.D.  
Email: l.grossman@wayne.edu  
Website: http://genetics.wayne.edu (http://genetics.wayne.edu/)

The Center for Molecular Medicine and Genetics is interdisciplinary by design, built around modern molecular genetics, and comprising basic researchers, physician-scientists, computational scientists, and genetic counselors. The diversity of the Center’s members and their backgrounds enables activities that range from basic research to clinical genetics to translation to the bedside and, in some cases, to a biotech company. The underlying goal is excellence in molecular biology, molecular medicine, and genetics to increase the understanding, diagnosis, treatment and prevention of human disease. The Center occupies over 28,000 sq. ft. of state-of-the-art space, including both open and closed laboratories, faculty offices, equipment and special procedure rooms, conference and interaction areas, and a server room to support the Center’s faculty, staff and students.

Students in the Center participate in research on gene expression and regulation, including the role of DNA-protein interactions and DNA methylation; the structure, function, and evolution of genes; molecular cytogenetics, genome organization, and mammalian gene mapping; long non-coding RNA discovery and characterization; human reproductive biology; protein-protein interactions; cellular stress responses; mitochondrial biology and genetics; neuroscience and the genetic basis for neurological disease; computational biology and bioinformatics. Considerable emphasis is placed on human and mammalian model systems and on understanding human molecular genetic diseases.

Faculty members of the Center often invite undergraduate students to volunteer in their laboratories - which is an outstanding opportunity for undergraduates to gain experience. The Center encourages students to view the profiles of the faculty and directly contact a professor to inquire about volunteering. In addition, each summer the Center hosts an exclusive Summer Undergraduate Research Program (SURP), from which many undergraduate students have moved on to prestigious universities and programs to pursue graduate degrees.
**Summer Undergraduate Research Program (SURP)**

Opportunities for research in Molecular Medicine and Genetics are available each summer as part of the Center for Molecular Medicine and Genetics SURP. The program provides sophomore and junior undergraduate students with experience in the research laboratories of the Center, located at the Wayne State University School of Medicine. Over the course of the summer students work in the laboratories of Center faculty members and attend weekly research seminars. When the program ends in August the students present their work to their mentors, peers, and the WSU research community at a symposium.

**Center to Advance Palliative-Care Excellence (CAPEWAYNE)**

4201 St. Antoine, Suite 5C-UHC

**Telephone:** 313-577-5751; **Fax:** 313-745-4710  
**Website:** [http://www.capewayne.med.wayne.edu](http://www.capewayne.med.wayne.edu)

CAPEWAYNE is an interdisciplinary academic center bringing together scholars, educators, researchers and clinicians dedicated to improving the quality of end-of-life care. The main focus areas of this center are education, research and clinical practice, all of which permeated by the field of humanities.

**Education:** The Center offers an end-of-life curriculum for students, trainees and clinicians across disciplines and levels of training.

**Research:** The Center gathers researchers who have a shared interest in the conduct of collaborative, interdisciplinary interdepartmental research. Current research projects include evaluating the impact of a palliative care curriculum, called the Compassionate Allies, sponsored by Seasons Hospice Foundation, on the skills and attitudes of pre-medical students.

**Clinical Practice:** The Center provides resources to clinicians across disciplines and settings that practice palliative care, through a paradigm of sharing and ensuring optimization of clinical care in our community. The Center offered its perennial conference in October, 2014, titled the Palliative Collaborative. It is co-directed by Drs. Mike Stellini and Meg Campbell.

**Center for Peace and Conflict Studies**

2320 Faculty/Administration Building  
**Telephone:** 313-577-3453; **Fax:** 313-577-8269  
**Director:** Frederic S. Pearson  
**Website:** [http://www.clas.wayne.edu/pcs/](http://www.clas.wayne.edu/pcs/)

On November 20, 1965, the Center for Teaching about War and Peace opened its doors under the leadership of Director Russell Broadhead and a committee of distinguished faculty members. The mission then was to provide interdisciplinary, University-wide, academic programs in the field of domestic and international conflict and peace issues. In 1987, the WSU Board of Governors, building upon this rich heritage, created the Center for Peace and Conflict Studies.

The mission of the Center for Peace and Conflict Studies is to develop and implement projects, programs, curricula, research, and publications in areas of scholarship related to international and domestic peace, war, social justice, arms control, globalization, multi-cultural awareness and constructive conflict resolution. The Center addresses this mission in three ways. CPCS supports undergraduate and graduate student excellence through its academic programs. CPCS staff and students engage in scholarly research initiatives on aspects of domestic and international conflict management. CPCS provides community outreach programs that emphasize conflict resolution, development of inter-cultural understanding, and enhance local knowledge of global affairs.

In 2010, the Center added a Graduate Certificate in Peace and Security Studies to its curricular offerings, a program adding an important credential to Masters programs for careers ranging from diplomacy and military affairs to negotiations, violence prevention, education, social service, border security and administration of justice.

**Center for Urban Studies**

5700 Cass Avenue, Room 2207 Academic/Administration Building  
**Telephone:** 313-577-2208; **Fax:** 313-577-1274  
**Director:** Lyke Thompson, Ph.D.; **Email:** ad5122@wayne.edu  
**Managing Director:** Charo Hulleza, M.P.A; **Email:** c.hulleza@wayne.edu  
**Email:** CUSinfo@wayne.edu

The mission of Wayne State University's (WSU) Center for Urban Studies (Center) is to improve the understanding of and provide innovative responses to urban challenges and opportunities. Since 1967, the Center has been committed to serving Detroit and its metropolitan area by conducting and disseminating research, developing policies and programs, and providing training, capacity-building, and technical assistance. The Center is deeply engaged in program evaluation and policy analysis in a range of areas. Through these approaches, the Center participates in defining and influencing local, regional, state and national urban policy. We work with communities, government, institutions and policymakers to transform knowledge into action. The vast majority of the Center's funding comes from grants and contracts with our customers and partners.

The Center facilitates a wide array of demonstration and research projects through a staff of Ph.D. and Masters-level professionals skilled in social and behavioral science techniques ranging from surveys and focus groups to GIS mapping and information systems development and implementation. The Center employs and engages many students with backgrounds in sociology, psychology, economics, political science, and business administration. The Center collaborates with University faculty who consult on methodological and substantive questions.

Most of the Center's work is focused within six substantive research areas:

- Healthy Homes
- Early Childhood and Disabilities
- Urban Safety
- AmeriCorps
- Urban Health
- Survey Research

**The Healthy Homes Unit** supports eliminating housing-based health hazards for at-risk populations through research, performance management systems and facilitation. This unit is deeply involved in local and national efforts to eliminate environmental hazards from homes.

**The Early Childhood and Disabilities Unit** evaluates programs and conducts performance measurements geared to improve the lives of people, including children and students, with developmental delay or disabilities. Evaluation results are used to improve service delivery in programs across the state of Michigan.

**The Urban Safety Unit** focuses on identifying and implementing collaborative solutions to reduce crime in select Detroit neighborhoods and other Michigan communities. While these urban safety efforts primarily target the Detroit area, many of the research efforts can be
expanded at a national level as effective practices for reducing crime and increasing resident guardianship.

The Center’s AmeriCorps Urban Safety Project is working with Detroit residents to organize and harden their homes to prevent crime in their neighborhoods. Through these efforts and those of the Midtown CompStat Initiative (collaboration between WSU Police, the Center, and other organizations), crime in Midtown Detroit is down over 50% since 2009.

The Urban Health Unit partners with local agencies to conduct community-based participatory program evaluation research on specific urban health issues such as HIV/AIDS and obesity. Research and evaluation results have improved program delivery and have been published in peer-reviewed journals.

The Survey Research Unit uses the latest computer-aided telephone interview and field data collection methodologies on a variety of research projects for Wayne State faculty and departments and for government departments and community initiatives.

Through these endeavors the Center has major financial and health impacts on the Detroit community while furthering the deeper understanding of our urban challenges.

Other WSU Centers and Institutes

Other Wayne State University Centers and Institutes that may provide opportunities for undergraduates:

Barbara Ann Karmanos Cancer Institute
4100 John R., 2nd Floor; 313-576-8670; Fax: 313-576-8668
Email: bepler@karmanos.org
Website: http://www.karmanos.org (http://www.karmanos.org/)
President and CEO: Gerold Bepler, M.D., Ph.D.

Bioengineering Center
818 W. Hancock, Bioengineering Bldg.; 313-577-0252; Fax: 313-577-8333
Email: king.yang@wayne.edu
Website: http://engineering.wayne.edu/bme/facilities.php
Director: King H. Yang

Cardiovascular Research Institute
4360 Scott Hall; 313-577-4630; FAX: 313-577-8615
Director: Karin Przyklenk, Ph.D.

Center for Automotive Research
2121 Engineering; 313-577-3887; Fax: 313-577-8789
Email: henein@wayne.edu
Director: Naiem A. Henein, Ph.D.

Center for Social Work Research
5447 Woodward Avenue; 313-577-4419; Fax 313-577-8770

University Libraries and Archives

Office: 3100 David Adamany Undergraduate Library
Tel.: 313-577-4023; Fax: 313-577-5525
Dean of University Libraries: Jon E. Cawthorne
library.wayne.edu (https://library.wayne.edu/)

The University Libraries support the education, research and service missions of the University and its communities through comprehensive, high-quality resources, services and programs. The libraries are leaders in providing accurate and timely information to Wayne State University as well as the metropolitan Detroit area and Michigan. Scholarly materials in the University Libraries offer total more than three million volumes, over 56,000 journal titles and a broad range of electronic resources, including electronic journals and over 800,000 e-books, all available though the Libraries’ website.
The Library System includes the David Adamany Undergraduate Library, the Arthur Neef Law Library, the Purdy/Kresge Library, the Vera P. Shiffman Medical Library and its Learning Resource Center at the Eugene Applebaum College of Pharmacy and Health Sciences, and the Walter P. Reuther Library of Labor and Urban Affairs and University Archives. The School of Information Sciences and the Detroit Area Library Network (DALNET) are also under the Library System’s charge.

The University Libraries offer in-person and online reference and research support, interlibrary loan, circulation and course reserve services, document delivery and library and information literacy programs. The latest information technologies provide state-of-the-art access to instructional and research materials. The libraries provide silent and collaborative study spaces, including a 24-hour facility, as well as classroom support to over 300 general purpose classrooms throughout campus.

David Adamany Undergraduate Library (https://library.wayne.edu/)

The David Adamany Undergraduate Library (UGL) is designed to enhance the learning experience of undergraduate students by offering open spaces for collaboration and silent study as well as hundreds of computers for student use. The library features instructional labs, the Collaborative Commons, an open space with flexible furniture and technology, collaborative study rooms that can be reserved online, and course reserves. The Warrior Writing, Research and Technology Zone (The WRT Zone) is a one-stop shop for Wayne State students to get research, writing and technology assistance. The UGL also houses Student Academic Success Services, which includes the Academic Success Center, Student Disability Services, the Office of Military and Veterans Excellence, Pre-Med Advising and the University Advising Center, P.A.L. Peer Assisted Learning and the Irvin D. Reid Honors College. The UGL is also home to The Tech Bunker and Vault, two new technologically-rich immersive learning spaces at the that invite users to develop, design, dream and discover.

Purdy/Kresge Library (https://library.wayne.edu/)

The Purdy/Kresge Library supports the research and instructional needs of faculty, graduate students and upper-level undergraduates, as well as the information needs of the greater Detroit community. The library provides access to over sixty 60 computers as well as ample study space in a traditional library atmosphere.

The Purdy/Kresge Library houses a book collection of over 1.5 million volumes, an extensive microform collection, a large document collection and a number of special collections including the Leonard Simons Collection of rare Michigan history texts, the Arthur L. Johnson Endowment collection, and the Ramsey Collection of Children’s Literature. This library is also the home of the Teaching Commons, a collaborative effort of the Libraries, the Office for Teaching and Learning, and Computing & Information Technology, that assists faculty and instructors in designing and developing instructional experiences for the classroom and online teaching environments.

Arthur Neef Law Library (https://library.wayne.edu/neef/)

Located at the north end of the University’s main campus, Wayne State University’s Arthur Neef Law Library offers researchers a comprehensive legal research center. Its collection of more than 620,000 print and microform equivalent volumes, plus an expansive collection of e-books, databases and other digital resources makes it a leading legal research facility in the State of Michigan. The Law Library is also a depository for U.S. government publications and for the records and briefs filed with the Michigan Supreme Court.

Shiffman Medical Library and Learning Resources Centers (https://library.wayne.edu/shiffman/)

The Shiffman Medical Library supports the research, education and clinical and public health care information needs for the University, major hospitals within the Detroit Medical Center, and unaffiliated health care providers and trainees throughout Michigan. In addition to assisting WSU undergraduate students with research, learning and internship information needs in the health sciences, all WSU students are encouraged to use the library’s consumer health information services. The library maintains access to all the major health sciences, bio-scientific and consumer health databases; a core collection of journals dating to the mid-19th century; and books in print and electronically reproduced. Health information learning programs and informatics workshops, listed on our Website, are open to all members of the University community. A Learning Resources Center focused on the daily information and computing needs of students of the Applebaum College is available Monday through Friday.

Walter P. Reuther Library of Labor and Urban Affairs and University Archives (https://www.reuther.wayne.edu)

The archival collections held in the Walter P. Reuther Library cover a variety of topics, organizations, and individuals. In all, the Reuther Library has more than 95 million documents, 20,000 books, monographs, union publications and proceedings, 2 million photographic images; and 20,000 audio and moving image recordings. Due to issues of format, size, and security, the collection stacks are not open to the public and researchers work with these materials in the Reuther reading room during established hours of business.

The Reuther Library has an international reputation as the largest labor archives in the world and additionally holds significant collections relating to social and urban affairs in the metro Detroit area. It collects and preserves records of the American labor movement, related social, economic, and political reform groups, and twentieth century urban America. The Reuther Library has since become the official depository for the inactive files of several labor unions and organizations, including the United Auto Workers, the American Federation of Teachers, the National Association of Letter Carriers, The Newspaper Guild, the United Farm Workers, the Service Employees International Union, the American Federation of State, County and Municipal Employees, the Air Line Pilots Association, the Association of Flight Attendants, the Industrial Workers of the World, the Society of Women Engineers, and many state and local organizations. Records have also been received from urban and civil rights groups as the Citizens Crusade Against Poverty, the Michigan Chapter of the American Civil Liberties Union, the Detroit Branch of the National Association for the Advancement of Colored People, the United Community Services of Detroit, United Way for Southeastern Michigan, and New Detroit, Inc. A unique portion of the holdings is a labor journal and newspaper collection, which has nearly 1,600 current and non-current titles dating from the late 1800s to the present. Many individuals who played leading roles in labor and urban affairs have also placed their papers in the Reuther Library.

The Reuther Library also houses the Wayne State University Archives which provides historical information about WSU and its predecessor institutions that date to 1868. In addition to collecting the University’s
historical records, the WSU Archives holds the papers of presidents and administrative leaders, the papers of selected faculty members, and the papers of student and professional organizations that document the development of the University and higher education in Michigan. The WSU Archives also collects all publications created by and pertaining to the University, including the student newspaper from 1917 to present, as well as departmental newsletters. Subjects in the collection range from student activities such as athletics and student organizations, to local subjects such as Central High School, the Detroit Medical Center, and the Detroit Board of Education.

**University Policies**

**University Equality of Opportunity Policy**
Wayne State University is committed to a policy of non-discrimination and equal opportunity in all of its operations, employment opportunities, educational programs and related activities.

This policy embraces all persons regardless of race, gender, color, sex (including gender identity), national origin, religion, age, sexual orientation, marital status, familial status, disability, arrest record, weight, qualified Vietnam era veterans, qualified special disabled veterans, recently separated veterans and other protected veterans, or any other characteristic protected by applicable federal or state law. It expressly forbids discrimination, sexual harassment or any form of harassment in hiring, terms of employment, tenure, promotion, placement and discharge of employees, admission, training and treatment of students, extracurricular activities, the use of University services, facilities and in the awarding of contracts.

This policy also forbids retaliation and/or any form of harassment against an individual as a result of filing a complaint of discrimination or harassment, or participating in an investigation of a complaint of discrimination or harassment.

Wayne State University, as an equal opportunity/affirmative action institution, complies with all applicable federal and state laws regarding non-discrimination and affirmative action. In furtherance of this policy, the University is also committed to promoting institutional diversity to achieve full equity in all areas of University life and service and in those private clubs and accommodations that are used by University personnel. No off-campus activities sponsored by or on behalf of Wayne State University shall be held in private club facilities or accommodations which operate from an established policy barring membership or participation on the basis of race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability or veteran status. Affirmative action procedures, measures and program may be used to the extent permitted by law to establish, monitor and implement affirmative action plans for all budgetary units and the University as a whole.

Inquiries regarding equal opportunity Academic/Administrative policies or complaints may be made to:

Office of Equal Opportunity
4324 Faculty/Administration Building
Wayne State University
Detroit, Michigan 48202
Telephone: 313-577-2280
or http://www.oeo.wayne.edu

**Disability Non-Discrimination Policy**
In accordance with federal requirements of the Americans with Disabilities Act of 1990 and the Rehabilitation Act of 1973, there shall be no discrimination on the basis of disability in Wayne State University’s programs, operations and activities, in the hiring, terms and conditions or privileges of employment or any matter directly or indirectly related to such employment, or in the admission, education and treatment of students. The Student Disability Services Office (http://studentdisability.wayne.edu/) has complete information on services available to students.

**Drug and Alcohol Free Workplace Policy**
Wayne State University is committed to providing a drug-free environment for its faculty, staff, and students. The Board of Governors has made this commitment a formal policy of the University. All faculty, staff and students must abide by the terms of the Board policy as a condition of employment or enrollment at the University. The unlawful possession, use, distribution, sale or manufacture of drugs or alcohol is prohibited on University premises, at University activities, and at University work sites.

Pursuant to that policy, the unlawful possession, use, distribution, dispensation, sale or manufacture of any illicit drugs, and the unlawful possession, use or distribution of alcohol on University property, or at any University work site, or as part of any University activity, is prohibited.

Any employee or student employee who is convicted of a criminal drug offense occurring at the workplace is subject to appropriate employee discipline in accordance with established University policies and collective bargaining agreements, and may be required to participate satisfactorily in a drug abuse or rehabilitation program as a condition of further employment or enrollment.

Any student or employee who, while on University premises or at any University activity, engages in the unlawful possession, sale, manufacture, distribution, or use of drugs or alcohol shall be subject to appropriate sanctions, in accordance with established University policies, the Student Code of Conduct, and collective bargaining agreements, and in conformity with local, state and federal law, up to and including expulsion or termination.

The University encourages employees who may have a problem with the use of illicit drugs or with the abuse of alcohol to seek professional advice and treatment. Individuals who seek assistance with such problems may obtain additional information on a confidential basis by telephoning the Employee Assistance Program (EAP) at 1-800-448-8326. Students may also seek referral assistance by contacting University Counseling and Psychological Services (CAPS), at 313-577-3398.

**Policy Governing the Use of Alcoholic Beverages on Campus**
The use or possession of alcoholic beverages is expressly prohibited in classrooms, lecture halls, laboratories, the libraries, the chapel and within buildings or arenas where athletic events, lectures, and concerts are held. The use of alcoholic beverages is expressly prohibited in all public areas of campus buildings except as follows: the use of alcoholic beverages, subject to State law, is permitted in areas designated by, and with the approval of, the Office of the President, and the use of alcoholic beverages at student social events, subject to State law, is permitted in areas designated by, and with the approval of, the Office of the President.

**Sexual Discrimination, Harassment, and Assault Policy**
Title IX of the Education Amendments of 1972 is a federal civil rights law that prohibits discrimination on the basis of sex in education programs and activities. Under Title IX, discrimination on the basis of sex can
include sexual harassment or forms of sexual assault, such as rape, sexual assault or sexual battery.

**Sexual discrimination** is prohibited by Title IX and by University Policy. (WSU Statute 2.28.01).

**Sexual harassment** is a form of sex discrimination that is prohibited by Title IX and by University policy. It is the policy of Wayne State University that no member of the University community may sexually harass another. (WSU Statute 2.28.06).

Sexual harassment is defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct or communication of a sexual nature when:

1. Submission to such conduct or communication is made a term or condition either explicitly or implicitly to obtain employment, public accommodations or public services, education, or housing.
2. Submission to or rejection of such conduct or communication by an individual is used as a factor in decisions affecting such individual's employment, public accommodations or public services, education, or housing.
3. Such conduct or communication has the purpose or effect of substantially interfering with an individual's employment, public accommodations or public services, educational, or housing environment, or creates an intimidating, hostile or offensive employment, public accommodations, public services, educational or housing environment.

In the area of speech, what the law and this policy prohibit is speech as action: that is, sexual communication which is either directly coercive as demanding favors, or indirectly coercive, as rising to that level of offensiveness which interferes substantially with the victim's education or employment. The determination of what level of offensiveness is actually coercive, and therefore unlawful and prohibited by this policy, will in some cases be difficult. A significant element in the determination is provided by the fact that an unequal power relationship underlies sexual harassment. The more unequal the relationship, the greater the risk is of substantial interference with the victim's education or employment.

In the area of physical contact, physical contact which is unwelcome is so gravely offensive that it always has the effect of substantially interfering with the victim's employment or educational environment. Employees and students should not take for granted that they are welcome to touch other employees or students, since if their contact is in fact unwelcome, they will be in violation of the law and of this policy. (WSU Statutes 2.28.06.010-2.28.06.080).

Sexual harassment is also unwelcome behavior of a sexual nature that creates a hostile or abusive work or educational environment. Sexual harassment is also unwelcome behavior of a sexual nature that is severe or pervasive and interferes with an individual's work or performance in a course or program.

**Sexual assault** is also prohibited by Title IX and by University policy (01-5 University Policy). Sexual assault includes, but is not limited to any of the following:

1. Any intentional, unconsented, unwelcome physical contact or threat of unwelcome physical contact or attempt thereof, of:
   a. an intimate body part of another person, such as a sexual organ,
   b. any body part of another person with one's sexual organs, or
   c. any part of another person's body with the intent of accomplishing a sexual act; or
2. Unwanted, inappropriate disrobing of another person, or purposeful exposure of one's genitals to another without the other's consent; or
3. Forcing, or attempting to force, any other person to engage in sexual activity of any kind without her or his consent; or
4. Any behavior that is proscribed as 'criminal sexual conduct' under the Michigan Penal Code, notwithstanding whether criminal charges have been brought against the individual alleged to have engaged in such behavior. This may include rape, attempted rape, sexual assault or sexual battery.

Date rape and acquaintance rape are forms of sexual assault.

For purposes of the University's statutes/policies on sexual discrimination, sexual harassment and sexual assault, consent shall not be deemed to have occurred if given by a person who is unable to make a reasoned judgment concerning the nature or harmfulness of the activity because of his or her intoxication, unconsciousness, mental deficiency or incapacity, or if the product of threat or coercion. (WSU Statute 2.28.06.060).

Any employee or student will be subject to disciplinary action for violation of any of these policies. If any staff, faculty or student of the University community learns of a sexual discrimination, harassment or assault incident, they should immediately report that incident to either the Title IX Coordinator or the Deputy Coordinator, who are:

Linda Galante, Esq. · Interim Title IX Coordinator
Associate General Counsel
4259 Faculty Administration Building
656 W. Kirby Avenue
Detroit, Michigan 48202
Telephone: 313-577-2280
Fax: 313-577-7738
Email: lgalante@wayne.edu

Dean David Strauss · Deputy Title IX Coordinator
Dean of Students
351 Student Center
Detroit, Michigan 48202
Telephone: 313-577-1010
Email: ak3096@wayne.edu

The Title IX Coordinator's responsibilities include overseeing all Title IX complaints, identifying and addressing any patterns or systemic problems that arise during the review of such complaints, and coordinating the training, education, communication and administration of grievance procedures for faculty, staff, students and other members of the University community.

The Deputy Coordinator is responsible for Title IX compliance for matters involving students, including training, education, communication and administration of grievance procedures for all complaints against WSU students.

Students or employees having a complaint against a WSU student for sexual harassment, sex discrimination or sexual assault, should contact the Deputy Coordinator by phone or email or file a Student Care Report available on Dean of Students' website (http://www.doso.wayne.edu/). Any such complaint can also be filed with the Title IX Coordinator.

The University statutes/policies prohibiting discrimination and sexual harassment/sexual violence can be found on the Board of Governors’ website (http://www.bog.wayne.edu/code/) and among the general university policies (http://policies.wayne.edu/). These are also posted by the Office of Equal Opportunity (http://www.deo.wayne.edu/) and the Dean of Students Office (http://www.doso.wayne.edu/). The purpose of these policies is to assure the fullest possible awareness of WSU’s stand on sexual discrimination/
Additional Resources

In addition to filing a complaint with the Title IX Coordinator or Deputy Coordinator, in instances involving rape, sexual assault or sexual battery, students and/or employees should also contact the WSU Police Department at:

6050 Cass Avenue
Detroit, Michigan 48202
Emergency telephone: 313-577-2222
Non-emergency telephone: 313-577-2224
http://www.police.wayne.edu

Violence in the Workplace Policy

Wayne State University is committed to providing a work and educational environment that is free from threats, assaults, or acts of violence. Threats of violence or of physical harm, and any form of physical or sexual assault or threats of physical assault are prohibited. This includes conduct that harasses, disrupts, or interferes with another person's work performance or creates an intimidating, offensive or hostile work or educational environment.

The University has also adopted a Campus Safety Ordinance (WSU Statute 2.87.03) which applies to all property owned, leased or otherwise controlled by Wayne State University and applies to all individuals when present on such property, regardless of whether the individual has a concealed weapons permit or is otherwise authorized by law to possess, discharge or use any device referenced therein. The ordinance states that no person shall, while on any property owned, leased, or otherwise controlled by WSU:

1. possess or carry on his or her person any firearm, explosive or chemical weapon;
2. carry on his or her person any sword, switchblade knife, or other knife with a blade longer than three inches; and
3. carry on his or her person any other object or device with the intent of intimidating or injuring another person.

Upon conviction of any violation of this ordinance, the violator shall be sentenced to a fine not to exceed $500.00. In addition, violations of this policy may result in disciplinary action under existing University administrative policies. Limited exceptions to this policy exist for University employees expressly authorized to possess or use such weapons, devices or substances, law enforcement officials so authorized, and any individual whose possession or use is in connection with a research or regularly scheduled educational program authorized by the University, for which the Chief of the Wayne State University Police Department has been given at least one week's advance notice.

University personnel are expected to notify appropriate management personnel of any violent or threatening behavior when that behavior is work-related, carried out on University property, or is connected to University employment. Any individual who has obtained a personal protection order that identifies the workplace as a protected area should provide that information to the Wayne State University Police Department.
Mike Ilitch School of Business

Dean: Robert Forsythe

The Mike Ilitch School of Business is a professional school concerned with the theory and practice of business. The primary objectives of the School are to provide relevant education of high quality for business students, and to develop new knowledge through research and encourage application of its findings. To this end, in addition to their instructional services, the faculty has been a continuing source of notable scholarly publications and it is a special strength of the School that it brings a fine research faculty to the teaching of undergraduate as well as graduate courses.

The School has a tradition of instructional programs exemplifying high standards for both faculty and students as is acknowledged by the accreditation of the AACSB International — The Association to Advance Collegiate Schools of Business, the international association for management education, for all degree programs. The School provides relevant, comprehensive business education through programs that serve recent high school graduates as well as older student populations. The student body is racially and ethnically diverse, residential and commuting, and often working and raising families. To meet the needs of these students, the School schedules classes throughout the metropolitan area, during both day and evening hours. Extension Centers are located in Livonia and Warren.

The undergraduate program begins during the freshman year. Freshmen are admitted directly to the Mike Ilitch School of Business. The first two years of undergraduate work are focused on developing an educational foundation in the basic sciences and arts. During the third and fourth years, the student follows a program of professional education. Students may select majors in accounting, finance, global supply chain management, information systems management, management, and marketing. The degrees of Bachelor of Arts and Bachelor of Science in Business Administration are awarded.

The Undergraduate Certificate in Entrepreneurship and Innovation was designed by the Mike Ilitch School of Business to provide students with the specialized knowledge and skills to develop and launch startup ventures. The 15-credit certificate is open to students of all majors. The Post-bachelor Certificate in Accounting enables students who already hold a bachelor’s degree in business or accounting to obtain the required educational background to be licensed as a Certified Public Accountant (CPA) in Michigan. The Post-bachelor Certificate in Information Systems Management is designed for individuals who want to update their skill set and desire advanced training in systems analysis and design, databases, web development tools, and other emerging technologies.

The graduate program leading to the Master of Business Administration (M.B.A.) degree is dedicated to educating graduate students for professional careers in business. The Master of Science in Accounting (M.S.A.) program prepares individuals for professional careers in public accounting. The Master of Science in Data Science and Business Analytics (MSDSBA) is a novel interdisciplinary degree program that leverages the strengths of Wayne State in statistics, operations research, computing and business by combining the world-class expertise of the College of Engineering and the Mike Ilitch School of Business. The Master of Science in Finance (M.S.F.) is designed for both recent graduates and working professionals with a bachelor’s degree in finance, accounting or another quantitative field who want to advance or shift their careers. The Executive Master of Science in Automotive Supply Chain Management is designed for working professionals with a bachelor’s degree who want to progress in the dynamic field of supply chain management in the automotive industry, as well as new graduates who want to immediately pursue advanced studies. The Graduate Certificate in Business is designed to provide non-business undergraduates fundamental knowledge in the basic functional areas of business administration: Accounting, Finance, Management and Marketing. For additional graduate program information, consult the Wayne State University Graduate Bulletin.

The Doctor of Philosophy Program in the Mike Ilitch School of Business prepares students for teaching and research at major universities. The program focuses on quantitative skills, enabling students to engage in research projects with faculty, and places a heavy emphasis on a global perspective.

The Mike Ilitch School of Business also recognizes its obligation to community service. As a central part of an urban university, the School makes a special commitment to foster training, and basic and applied research that will benefit business enterprises. Of primary importance is the dedication to excellence in the instructional programs that prepare the business leadership that is critical to the continuing revitalization of southeastern Michigan.

Mission Statement

Our mission is to prepare our students for challenging and rewarding careers, advance the boundaries of scholarly and practitioner knowledge, and enhance the economic vitality of the city of Detroit, the state of Michigan and beyond through our programs, research and community engagement.

Aspiration and Vision

The Wayne State University Mike Ilitch School of Business aspires to establish itself as one of the leading business schools in the nation as noted in published national rankings (e.g., Business Week, U.S News and World Report, etc.), that reflect favorable student evaluations and recruiter perceptions of both the undergraduate and M.B.A. programs, and the scholarly achievements of the faculty. The School strives to achieve a positive reputation for contributions to knowledge development, for the role it plays in the economic prosperity of the region, and for becoming a school of choice - one which prospective students see as providing a pathway to academic and professional achievement.

Academic Regulations: Mike Ilitch School of Business

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 11) section of this bulletin. The following additions and amendments pertain to the Mike Ilitch School of Business.

All students must fulfill the upper-division requirements of the Mike Ilitch School of Business in effect at the time of admission to the Mike Ilitch School of Business.

Admission to the School

Students seeking a business degree must be granted regular admission (p. 23) to the University to be eligible for admission to the Mike Ilitch School of Business.

Admission to Class

Please consult each term’s Schedule of Classes for appropriate dates and deadlines for registration, late registration, and add/drop period. Students may not attend a class for which they are not officially registered and will not be added retroactively.
**Application for Degree**

Each candidate must file an Application for Degree (https://wayne.edu/commencement/apply-for-graduation/), NO LATER THAN THE TENTH DAY OF CLASSES, for the semester in which he or she expects to complete the requirements for the degree. If an Application for Degree was filed for a previous semester in which the student did not graduate, a new application and fee is required.

**Attendance Policy**

Regular attendance is a necessary condition for success in college study. This policy recognizes that the course content includes classroom lecture and discussion, certain aspects of which may be covered on examinations, quizzes, term papers, or homework assignments. Each instructor will announce his or her attendance standards at the beginning of the term.

**Change of Major**

Students wishing to change majors or their Academic Plan within the Mike Ilitch School of Business must submit a request in writing to the Undergraduate Advisor in the Office of Undergraduate Student Services, 200 Prentis Building. An Academic Plan for the requested major will then be mailed. Students are advised that such changes occurring late in their program may result in additional coursework beyond the minimum requirement of 122 credits.

**Student Conduct**

Each student is subject to official regulations governing student activities and student behavior. Students should familiarize themselves with the obligations of students in the instructional process; see Obligations of Faculty and Students to the Instructional Process. Furthermore, it is the responsibility of each student to adhere to the principles of academic integrity. Academic integrity means that a student is honest with him/her, fellow students, instructors, and the University in matters concerning his or her educational endeavors. Thus, a student should not falsely claim the work of another as his or her own, or misrepresent him/herself so that the measures of one's academic performance do not reflect his/her own work or personal knowledge. Assignments submitted for any class are expected to be original, i.e., not resubmissions of work submitted in a previous or concurrent class.

If there are reasonable grounds to believe that a student has disregarded the regulations or student responsibilities, he or she may be disciplined. Such discipline may include suspension or dismissal, but no dismissal will be directed without reasonable opportunity for an appropriate hearing, as provided in the Student Due Process statute. For the copies of Student Code of Conduct, please refer to the Dean of Students Office (http://www.doso.wayne.edu/assets/codeofconduct.pdf) where the entire document is available for review.

**Degrees**

Degrees are granted upon the recommendation of the faculty of the Mike Ilitch School of Business. Consideration is given to both scholastic attainment and to compliance with the standards and rules of the School.

**Directed Study**

A directed study is intended to give students the opportunity to conduct research in an area of interest to them under the supervision of a faculty member; credits vary between one and three. A cumulative grade point average of 3.00 is required to be eligible for consideration for directed study work. Students must complete the Undergraduate Directed Study form and obtain the required signatures prior to registration. No more than three credits of directed study in one Department are permitted in any semester. A total of no more than six credits of directed study may be used to fulfill graduation requirements. Contact the Office of Undergraduate Student Services, 313-577-4505, for further information.

**Double Major**

Students may pursue a double major within the Business School. For more information, contact an advisor in the Office of Undergraduate Student Services 313-577-4505.

**Graduation with Distinction**

Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: Cum Laude, Magna Cum Laude, and Summa Cum Laude. Graduation with distinction is indicated on the student's diploma and on the transcript.

**Honors Program**

Current WSU business students with a cumulative grade point average of 3.5 or higher may enroll in courses with an honors component assignment option, and complete the fifteen credit required program (contact the Office of Undergraduate Student Services for details) to qualify for an honors distinction on their transcript and diploma at graduation.

**Incomplete Marks**

The mark of 'I' is appropriate only when a student has completed all of the requirements for a course except for a specific assignment, such as a project or final examination, and only when the instructor agrees that a student has a valid reason for not completing the assignment.

The mark of 'I' which is not converted to a letter grade within one year from the time it was received will be automatically changed to an 'F'.

**Grade Appeals Procedure**

It is the instructor's prerogative to evaluate student work and assign grades in accordance with his or her academic and professional judgment. Grounds for appeal of grades include:

1. the application of non-academic criteria in the grading process, as listed in the university's non-discrimination/affirmative action statute: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status;
2. sexual harassment or discrimination; or
3. evaluation of student work by criteria not directly reflective of performance relative to course requirements.

In those instances where a student disputes the final grade awarded, for one of more of the above reasons, the following steps should be taken to appeal the grade in question.

**Informal review**

The student should discuss the disputed grade with the instructor of the course. If the dispute is not resolved informally, the student may initiate a formal appeal.

**Formal appeal procedure**

1. Within 30 calendar days following official notification of final grades for the term in which the disputed grade was awarded, and when the informal review fails to resolve the dispute, the student shall submit a written appeal detailing his/her objection, along with supporting documentation in writing, to the instructor. The instructor should respond in writing within 10 work days.
2. If the dispute remains unresolved, the student shall submit a written statement detailing his or her objections, including a rationale why the department chair should consider this appeal (along with supporting documentation), to the department chair within 10 work days following receipt of the instructor's written response.

The chairperson shall review the complaint and provide a copy of the written complaint to the instructor. The instructor of the course shall be invited to reply in writing to the objections of the student. Where appropriate, the chairperson may consult with a Grade Appeals Committee for advice in grade disputes. Students will be notified of the chairperson's decision within 20 business days of receiving the request.

3. Matters not resolved at the program level may be appealed to the dean's office. The department chair file folder containing the course syllabus from the semester in which the student took the course, plus the student's letter, the instructor's letter, and the department chair's letter, and the student's written rationale why the dean's office should reconsider this appeal, should be sent to the dean's office. Where appropriate, the dean's office may consult with a Grade Appeals Committee for advice in grade disputes.

Students shall be notified in writing of the dean's office decision within 30 business days of receiving the request. The dean's office decision shall be the final decision at the college level.

University-level academic appeals procedure
When the procedures within the School have been exhausted, the decision on the record may be appealed with the student's written rationale why the provost's office should reconsider this appeal. Procedures for requesting a provost review are published in the University Bulletin see Appeal Procedures, University.

Normal Program Load
The normal academic load for an undergraduate student in the Mike Ilitch School of Business is from nine to sixteen credits each semester, depending upon the particular courses elected. No student should expect to carry a full load and at the same time be employed full-time. Students desiring to carry more than eighteen credits must obtain written permission from the Office of Undergraduate Student Services prior to registration. Excess credits will not be honored when taken without prior written approval.

Passed/Not Passed Registration
Undergraduate students in the Mike Ilitch School of Business may not take courses offered by the Mike Ilitch School of Business on a passed/not passed basis.

Probation and Exclusion
A student who registers for, but repeatedly fails to complete his/her program and thus does not make normal progress toward graduation, may be placed on probation.

If a student's academic work is unsatisfactory (less than 2.0 cumulative grade point average or less than 2.0 grade point average in his or her major), the student will be placed on probation with the understanding that he or she will be expected to achieve a cumulative 2.0 grade point average within the next twelve credits completed, or a 2.0 major grade point average within the next six credits completed in the major. If probationary status is not removed within the prescribed number of credits, the student is subject to either temporary suspension or permanent dismissal from either the major or from the Mike Ilitch School of Business.

The second (or subsequent) time(s) a student is placed on probation, he or she is subject to immediate dismissal from the Mike Ilitch School of Business.

In the event of a temporary suspension, readmission to the Mike Ilitch School of Business will be considered only with the recommendation of the Undergraduate Committee. (The Undergraduate Committee is composed of the departmental chairpersons and is chaired by the Assistant Dean of Student Services.) If, after readmission to the Mike Ilitch School of Business, the academic deficiency is not removed within the first nine credits attempted, the student will be permanently dismissed from the School. Coursework completed at another institution during a period of temporary suspension will not be considered for transfer credit.

The exclusion of any student will be reviewed by the Undergraduate Committee of the Mike Ilitch School of Business. A student on probation who fails to complete the courses for which he or she registers, without good reason as determined by the Dean or designee, shall not be permitted to re-register in the Mike Ilitch School of Business.

The Undergraduate Committee, upon the recommendation of the student's Department Chairperson, may permanently exclude a student from a major, if the student fails to remove himself or herself from probationary status within the prescribed number of credits.

In matters where the School’s final decision is based upon the evaluation of a student's academic performance and when review procedures available to him or her within the School have been exhausted, the student may request the Provost to review that decision on the record.

While on probation, a student may not represent the School in student activities.

Retaking Courses
The University policy on retaking courses is stated at: Repeating Courses — The mark of R. No course in which a student has received a passing grade or mark may be repeated without the prior written approval of the Assistant Dean of Student Services of the Mike Ilitch School of Business.

Residence Requirement
To qualify for a Baccalaureate Degree from the Mike Ilitch School of Business, the final year and the last thirty-two credits must be taken at Wayne State University. In exceptional cases, a limited number of the last thirty-two credits toward a degree may be taken at another accredited college or university. All such cases must receive the approval of the Assistant Dean of Student Services before the work is undertaken.

Students returning to the School after a five-year absence are required to conform to the program requirements in effect at the time of their return.

Records Retention by Instructors
Term papers and examinations shall either be returned to the student or retained by the instructor for a period of ninety days. Thereafter, they may be destroyed.

Transfer of Courses in Major
No more than six semester transfer credits may be applied toward a student's major requirements. These courses must have received a grade of 'C' or better. Transfer of major credit beyond six semester hours may be applied toward free elective requirements. Only transfer courses taken at an AACSB accredited college or university or via community college Articulation Agreements will be considered.
Waiver of Degree Requirements

Students must comply with degree requirements as listed in this bulletin and on their Academic Plan. Students may petition for a modification in degree requirements by completing a waiver form and submitting it to the Office of Undergraduate Student Services of the Mike Ilitch School of Business. Waiver of a School requirement requires the approval of the Dean or his/her designee. Waiver of a departmental requirement requires the recommendation of the departmental chairperson. Undergraduate students are advised that no faculty member is authorized to approve a change in degree requirements.

Withdrawals from Class

Students must follow the university procedures for dropping and adding courses (p. 74).

AGRADE – Accelerated Graduate Enrollment

The Mike Ilitch School of Business has established an accelerated combined undergraduate and graduate program (AGRADE) whereby qualified students in the Mike Ilitch School of Business may enroll simultaneously in undergraduate and graduate courses of the School. A maximum of twelve credits may be applied towards both undergraduate and graduate degrees in a student's major field if the major department is an AGRADE participant. Those who elect the AGRADE program may expect to complete the Bachelor's and Master's degrees in five years of full-time study.

AGRADE accelerated graduate program option

Save money and time toward your graduate business degree with the Accelerated Graduate Enrollment (AGRADE) program.

Highly qualified Wayne State University Mike Ilitch School of Business students are eligible to participate in the AGRADE program. AGRADE students can cut substantial time and as much as one-third off the total cost of a WSU graduate business degree program by applying up to 12 credits toward both their undergraduate and select graduate degrees.

AGRADE benefits

• Earn graduate credits at undergraduate tuition rates
• Apply up to 12 credits of selected graduate courses (https://ilitchbusiness.wayne.edu/students/agrade.php#agradecourses) as dual credit for undergraduate and eligible graduate programs
• Option to move immediately to the graduate program or rejoin the program later
• Earn both your bachelor’s and master’s degrees in as little as five years

AGRADE requirements

• Undergraduate major in accounting, finance, global supply chain management, information systems management, management or marketing
• Junior or senior standing (~90 credits earned)

• Overall GPA of 3.5 or higher at WSU
• Major GPA of 3.6 or higher at WSU
• Meet with undergraduate and graduate advisors to discuss program requirements
• Complete the Dual Credit Enrollment Form
• Courses apply to M.B.A., M.S.A., master of science in finance or executive master of science in automotive supply chain management degrees only

Transfer of courses

Only those AGRADE-approved courses in which the student has earned a B or higher will transfer to the graduate transcript. Once in the master's program, students may be required to repeat an AGRADE course in which they earn less than a B grade. AGRADE courses will not be transferred to the student's graduate transcript until one semester of graduate course work has been successfully completed.

Approved AGRADE courses

For students approved to participate in the AGRADE program, four of the following courses from any one of the program areas listed below may be counted toward both their bachelor's degree and M.B.A. All courses are three credits.

Courses Approved for AGRADE

Take no more than four courses or 12 credits from any one of the following program areas.

### Accounting

**Office:** 385 Mike Ilitch School of Business  
**Chairperson:** Matthew Roling

The accounting program is designed to prepare students for professional careers in public, corporate, or governmental accounting. While stressing fundamental accounting theory, the curriculum provides thorough application of these concepts to practical situations.

- **Accounting (B.A.)** (p. 98)  
- **Accounting (B.S.)** (p. 99)  
- **Accounting Post-Bachelor's Certificate** (p. 98)

### Accounting (Post-Bachelor Certificate)

The post-baccalaureate certificate program in accounting is designed to enable students who already hold a bachelor's degree in business administration or accounting to obtain the required educational background to be licensed as a Certified Public Accountant in Michigan.

**Admission:** Students must have a bachelor's degree from an accredited institution, with a grade point average of at least 2.0.

Students who have received their undergraduate degree from Wayne State University should process a change in their status at the Registrar's Office to 'Post-Baccalaureate.' Students who have received an undergraduate degree in these areas from another institution must complete the Application for Undergraduate Admission form and request that official transcripts be sent directly to the Office of Admissions.

### Certificate Requirements

Candidates for this certificate must successfully complete a minimum of twenty-four credits in course work at Wayne State University following completion of the bachelor's degree, with a cumulative grade point average of not less than 2.0. Of these twenty-four credits, students must complete a minimum of six credits from courses offered by the Department of Accounting. Additionally, a minimum of twelve credits must be from courses offered within the School (Accounting, Finance, Information Systems, Marketing, and Management). Students, who have not completed ACC 3010 and ACC 3020 (or equivalent courses), must complete ACC 3010 and ACC 3020 in addition to the minimum twenty-four credits required for the Certificate.

Each student's **Academic Plan** will be individually designed. Students intending to use this certificate to meet the requirements for licensure as a Certified Public Accountant in Michigan will work with their advisor to ensure that the courses chosen meet the requirements of the licensing body.

### Accounting B.A.

**Admission Requirements:** Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

### Accounting Major

The accounting program is designed to prepare students for professional careers in public, corporate, or governmental accounting. While stressing fundamental accounting theory, the curriculum provides thorough application of these concepts to practical situations. A student who is interested in sitting for the Certified Public Accountant (CPA) Exam or other professional certification should seek advice from the Chair of the Accounting Department or the Chair's designee.

### Accounting Major

The accounting program is designed to prepare students for professional careers in public, corporate, or governmental accounting. While stressing fundamental accounting theory, the curriculum provides thorough application of these concepts to practical situations. A student who is
interested in sitting for the Certified Public Accountant (CPA) Exam or other professional certification should seek advice from the Chair of the Accounting Department or the Chair’s designee.

Degree Requirements
Candidates for the bachelor’s degree must complete 120 credits including satisfaction of the degree requirements (p. 25). All course work must be completed in accordance with the academic rules of the University (p. 9) and those of the Mike Ilitch School of Business (p. 94).

The requirements for the Bachelor of Arts are the same as for the Bachelor of Science with the additional requirement that a student must attain a level of proficiency in a single foreign language equivalent to the completion of eleven credits through university-level course work or placement by examination administered by the University’s Department of Classical and Modern Languages, Literatures and Cultures. In some instances, completion of the Bachelor of Arts foreign language requirements may result in course work beyond the 120 credit minimum.

The major program in accounting employs a capstone course, ACC 5115, to assess students’ knowledge of the discipline. Students who concentrate in accounting must complete the following courses.

### Business Administration (B.A. and B.S.)

**Admission Requirements**

Effective for students admitted Fall 2009 and thereafter admission to the Mike Ilitch School of Business Undergraduate Program is based upon two criteria: Preprofessional Program Standing and Professional Program Standing, as defined below.

**Preprofessional Program Standing** is the classification for entering high school students or transfer students admitted directly to the Mike Ilitch School of Business through the WSU Undergraduate Admissions Office. Typically, students are admitted at the freshmen or sophomore levels and pursue Business Foundation requirements, entry level Business Core classes and General Education Requirements. The purpose of the preprofessional coursework is to provide students with business instruction that prepares them for advanced level Business Core courses and business major courses.

**Professional Program Standing** is the classification for students entering or continuing in the Mike Ilitch School of Business with the completion of fifty-four semester credits at Wayne State University or fifty-four transferable semester credits, and requires a minimum 2.50 grade point average as described in the Mike Ilitch School of Business requirements (consult Frederick Hessler Student Success Center, Room 101 Mike Ilitch School of Business). Entry into Professional Program Standing grants students approval to enroll in advanced Business Core courses and degree-applicable major courses. Students not meeting the grade point average requirement will NOT be allowed to enroll in either of these course groups until the required grade point average is achieved.

**High School Students**: Students who meet the University requirements for regular admission (p. 23) are eligible for admission to the Mike Ilitch School of Business.

**Transfer Students**: Students must meet University requirements for regular admission (p. 23). Students currently in another program at WSU must have a minimum 2.00 g.p.a. to be admitted to the Business School. WSU students with less than a 2.00 g.p.a. will not be considered for admission. Transfer students from outside WSU are required to have a minimum 2.00 g.p.a. from their transfer institution. Transfer students with a 2.0-2.49 g.p.a. will not be allowed to take any Business School Core Courses beyond MGT 2530 and MKT 2300, at the 3000 level or higher or major courses until a minimum 2.5 WSU g.p.a. is achieved. The maximum number of transfer credits that will be accepted from a junior or community college is ninety-six quarter credits or sixty-four semester...
credits. Equivalency tables have been developed with area community colleges which identify lower division community college courses that are equivalent to the lower-division business foundation courses at Wayne State University. Articulation Agreements have been signed with Henry Ford CC, Jackson CC, Macomb CC, Oakland CC, Schoolcraft CC and Washtenaw CC to transfer 82 hours for certain Associate Degrees. Contact an Ilitch Business Advisor for more details.

Application for admission and all official collegiate transcripts must be submitted by transfer students to the Undergraduate Admissions Office of Wayne State University. Qualified applicants will then be referred to the Mike Ilitch School of Business’ Frederick Hessler Student Success Center.

Admission Appeals: There is no guarantee of admission to the Mike Ilitch School of Business. Formal written appeals of admission denial may be made to the Assistant Dean of Undergraduate Student Services of the Mike Ilitch School of Business.

General Education Requirements

Students must also satisfy University General Education Competency and Group Requirements (p. 35) as part of the Business Administration curriculum.

Foundation Requirements

In the following curricula all courses satisfying General Education Requirements are cited with their appropriate title-prefix codes. Students should consult the Schedule of Classes for all prerequisites.

1 To be taken as one of the last five courses toward bachelor’s degree and after completion of all other core courses.

Major Requirements

Majors and specializations are offered through four academic departments:

- Accounting
- Finance
- Management and Information Systems
- Marketing and Supply Chain Management

Majors in Accounting, Finance, Global Supply Chain Management, Information Systems Management, Management, and Marketing require six courses (eighteen credits). Students also have the option to double major. Each of the undergraduate majors employs a capstone course as a vehicle to assess a student’s knowledge of the discipline. Students in all of the majors also complete the capstone course for the undergraduate program: MGT 6890.

Students should refer to the respective departmental section of this bulletin for specific majors and specializations. After selecting a major, students must consult the Frederick Hessler Student Success Center of the Mike Ilitch School of Business to obtain an official Academic Plan. All courses must be taken in accordance with an approved Academic Plan and all course prerequisites and limitations must be observed.

Electives

Electives form an integral part of an education in business. A student’s selection of elective courses should be guided, in part, by his or her career objectives. Elective courses constitute study in addition to the business foundation, core, and major requirements listed on the student’s Academic Plan.

Each student is encouraged to use elective courses to pursue a double major within the Ilitch School of Business or within another discipline at the University. Elective courses also allow a student to pursue Ilitch Business School Study Abroad opportunities, a Certificate in Entrepreneurship and Innovation and minors in other disciplines at the University.

Language Electives

Students who are preparing for careers in the global economy or employment opportunities overseas or with multinational corporations should consider electing foreign language courses. In addition, students who wish to earn the Bachelor of Arts degree may utilize their electives toward the satisfying of the Bachelor of Arts foreign language requirements (see next tab).

Cooperative Education Program

The Mike Ilitch School of Business actively participates in the University Cooperative Education (Co-op) Program in which students alternate semesters of work and academic study. Eligibility begins in the junior year or upon having earned more than the minimum fifty-four semester credits. Students interested in this program should contact the Mike Ilitch School of Business Career Planning and Placement Office, Suite 299, Mike Ilitch School of Business, 2771 Woodward, 313-577-4871.

Students admitted to the program with minimum junior standing should recognize that an additional calendar year may be needed to fulfill the requirements for the bachelor’s degree. No academic credit is granted for participation in the Co-op Program; Satisfactory/Unsatisfactory (‘S/
U) grades are given, however, and are entered on the official University transcript.

**Business Administration (B.S. Program)**

**Degree Requirements**

Candidates for the Bachelor of Science in Business Administration must satisfactorily complete 122 credits including: General Education Requirements, School Requirements, Business Foundation Curriculum, Business Core, Major, and Elective Requirements as outlined below. Within the student’s degree program, no more than sixty-four credits in business subjects and upper division economics may be applied toward the degree. All course work must be completed in accordance with the academic rules of the University (p. 9) and those of the Mike Ilitch School of Business (p. 94).

To be eligible for the degree, students must have earned a minimum 2.0 grade point average in the major requirements and a minimum overall grade point average of 2.0 in all undergraduate course work completed at Wayne State University.

**Specific Course Requirements:** The courses listed below are required of all business students. No substitute courses are permitted except as noted.

Total Credits 40

¹ A minimum grade of “C” (2.0 g.p.a.) must be earned

**Entrepreneurship and Innovation (Undergraduate Certificate)**

Entrepreneurs and innovators are critical to the long-term health and prosperity of our economy and society. The certificate is designed for students from any background or area of study passionate about understanding and being active participants in the process of starting or nurturing startup ventures, including founders, co-founders, team members and those providing support services. The certificate will benefit current and future for-profit and nonprofit professionals in business, arts and entertainment, communication and information technology, manufacturing, engineering, science and technology, health care, community and economic development, and other fields. This multidisciplinary program, offered through a collaboration of several schools and colleges, provides an opportunity for students from diverse academic disciplines and areas of interest to learn from each other and exposes students to entrepreneurial action in a variety of settings.

The use of an integrative curriculum framework and tool kit across all core and elective courses, experiential learning opportunities built into each of these courses, and consistent interactions with and among students, instructors, coaches, mentors, entrepreneurs, innovators and others engaged in the entrepreneurial environment, provides each student a unique pathway to deeper learning, mastery and higher levels of confidence in applying the specialized knowledge and skills required to develop and launch new venture.

Through this certificate program, students will:

- Demonstrate knowledge of the stages of the new venture creation process, from discovering, creating and refining ideas, to building, testing and evaluating a value proposition and viable business model,
to launching, sustaining and growing this new venture by acquiring and managing financial and human resources.

- Learn how to lead, manage, and work effectively within teams to achieve success, and to create a positive and ethical work culture.
- Develop a personal network within the entrepreneurial ecosystem with a special emphasis on Detroit and the state of Michigan.
- Tailor their program of study to their unique talents and interests as they explore what it takes to translate ideas into reality, and plan the next steps on their journey of discovery, experimentation and action.

Students who participate in the Entrepreneurship and Innovation Certificate program are eligible to apply for support from the Belinsky Entrepreneurial Learning Laboratory (BELL). The BELL assists sustainable, investment-ready student start-ups and supports the development of commercialization pathways for WSU intellectual property by providing mentors and subject matter experts, direct support and limited funding to assist in the process of attracting additional funding in the form of revenue growth, grants, loans or direct investment. Direct support will be provided by BELL Fellows, and certificate program students are eligible to apply for these fellowships. Contact the program director for further information.

**Admission requirements:** Students wishing to pursue the Undergraduate Certificate in Entrepreneurship and Innovation should meet with the program director and the undergraduate advisor for the school or college providing oversight of their undergraduate degree program and major.

**CERTIFICATE REQUIREMENTS:** Candidates must complete 15 credits in course work satisfying the requirements cited below. All course work must be completed in accordance with the academic procedures of the University governing undergraduate scholarship and degrees; see Academic Regulations stipulated by the school of college which provides oversight of your undergraduate degree program and major.

**Finance**

**Office:** 392 Mike Ilitch School of Business; 313-577-0408  
**Interim Chairperson:** Marick Masters

**Finance Major**

Finance is primarily concerned with the determination of value and making decisions about allocation of funds in corporate and individual settings.

Students who major in Finance can apply their knowledge working in corporations and public finance in determining optimum investment strategies, raising funds to finance these investments, and managing daily operations. Students employed in investment banking and other financial institutions trade in varying types of financial assets such as stocks, bonds, and derivatives, allocate wealth across these assets, and manage and hedge risk.

With increasing globalization of the economy, many corporations employ people who are experts at analyzing potential future investments in foreign markets. Finance specialists become involved with currency exchange rates, foreign economic conditions and forecasts, and techniques for reducing the risk of investments.

**Degree Programs**

- Finance (B.A.) (p. 102)
- Finance (B.S.) (p. 103)

**Finance B.A.**

**Admission Requirements:** Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

**Finance Major**

With increasing globalization of the economy, many corporations employ people who are experts at analyzing potential future investments in foreign markets. Finance specialists become involved with currency exchange rates, foreign economic conditions and forecasts, and techniques for reducing the risk of investments.

Candidates for the bachelor’s degree must complete 120 credits including satisfaction of the degree requirements (p. 25). All course work must be completed in accordance with the academic rules of the University (p. 9) and those of the Mike Ilitch School of Business (p. 94).

The requirements for the Bachelor of Arts are the same as for the Bachelor of Science with the additional requirement that a student must attain a level of proficiency in a single foreign language equivalent to the completion of eleven credits through university-level course work or placement by examination administered by the University's Department of Classical and Modern Languages, Literatures and Cultures. In some instances, completion of the Bachelor of Arts foreign language requirements may result in course work beyond the 120 credit minimum.

Total Credits: 18

Students earning a Bachelor’s Degree with a major in Finance may find employment in several different areas, including corporate finance, financial institutions, and investments.

**Corporate Finance**

This area is for the student who wants to concentrate on those aspects of finance that will relate directly to financial decision-making in a business or non-profit organization. The corporate finance area offers careers as financial managers in non-financial corporations. Entry level positions are generally as financial analysts or staff accountants, while potential future responsibilities include management of working capital, operating budgets, financial statement preparation, bank relationships, long term financial planning, capital budgeting, treasury operations and stockholder relations.

Suggested courses to include in final choice of electives for students seeking a career in Corporate Finance:

</tbody>
</table>

**Financial Markets and Investments**

This area is for the student who is interested in working for organizations which offer financial and investment services such as banks, insurance companies and mutual and pension funds. Investment careers can also be found in other financial intermediaries such as investment banking firms, security and investment brokerage houses, and security and commodity exchanges. Responsibilities within such firms are highly varied and include commercial and personal lending, branch management, security analysis, portfolio and trust management, real estate management, and insurance, commodity and security brokerage.

**Marketing and Supply Chain Management**

**Office**: 389 Mike Ilitch School of Business; 313-577-4525  
**Chairperson**: John C. Taylor

**Global Supply Chain Management**

The Global Supply Chain Management major focuses on management of the flow of goods and information from the source of components and materials through the channels of distribution to the final customer, and beyond, to recycling and disposal. In today's highly competitive environment, the management of purchasing, operations, quality, transportation, inventory, scheduling, and information flows are ever more critical to an organization’s ability to satisfy customers and create a competitive advantage. Whether sourcing from non-domestic suppliers, outsourcing business functions, or attempting to market goods and services to consumers in other areas of the world, today’s business leaders need a detailed understanding of all the challenges and opportunities arising from a supply chain that is fundamentally global.

**Marketing**

The Marketing major is designed to prepare students for a variety of careers in marketing. Marketing is the activity and institution involved in creating, communicating, delivering and exchanging offerings that have value for customers and society. Marketing management involves situation analysis, selection of marketing strategies and target markets, and coordination of product development, pricing, promotion and distribution elements.

Global Supply Chain Management (B.A.)

Admission Requirements: Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

Global Supply Chain Management Major

The Global Supply Chain Management major focuses on management of the flow of goods and information from the source of components and materials through the channels of distribution to the final customer, and beyond, to recycling and disposal. In today's highly competitive environment, the management of purchasing, operations, quality, transportation, inventory, scheduling, and information flows are ever more critical to an organization's ability to satisfy customers and create a competitive advantage. Whether sourcing from non-domestic suppliers, outsourcing business functions, or attempting to market goods and services to consumers in other areas of the world, today's business leaders need a detailed understanding of all the challenges and opportunities arising from a supply chain that is fundamentally global.

*Students strongly encouraged to take additional courses as electives to obtain depth in field and enhance placement opportunities.

Degree Requirements

Candidates for the bachelor’s degree must complete 120 credits including satisfaction of the degree requirements (p. 25). All course work must be completed in accordance with the academic rules of the University (p. 9) and those of the Mike Ilitch School of Business (p. 94).

### Marketing (B.A.)

**Admission Requirements:** Students who meet the University requirements for regular admission are eligible for admission to the Mike Ilitch School of Business.

### Marketing Major

The Marketing major is designed to prepare students for a variety of careers in marketing. Marketing is the activity and institution involved in creating, communicating, delivering and exchanging offerings that have value for customers and society. Marketing management involves situation analysis, selection of marketing strategies and target markets, and coordination of product development, pricing, promotion and distribution elements.

As a complement to the basic major, students must select to pursue specializations in advertising or marketing management.

All students majoring in marketing must complete the requirements of their specializations and subsequently take MKT 6996.

### Advertising/Marketing Communications Specialization

This specialization prepares students for work in a wide variety of businesses, advertising agencies, public institutions, and other organizations. It may serve as a background for people who plan to work in the advertising/marketing communications industry, or for general marketing jobs where promotional issues play a particularly prominent role.

Select three courses offered by the department of marketing and supply chain management and included on the department list available from the Office of Undergraduate Student Services

Total Credits: 18
The College of Education at Wayne State University is located in, and serves the needs of, one of the nation’s largest metropolitan areas. Thus, the College reflects the dynamic character of urban life, and, in its concern with urban problems, places great faith in education as the means by which human circumstances can be improved. To this end, the College prepares educators who have the knowledge, commitment and competence to help young people achieve academic success, preserve individuality, develop democratic values, and realize self-fulfillment.

Professional field experiences are an important aspect of the preparation program; they bring the prospective teacher face-to-face with the realities of the classroom, the school and the community, as well as provide opportunities for participation in the study, research and analysis of contemporary educational issues. These field experiences are scheduled in numerous school districts, community and cultural institutions throughout the metropolitan Detroit area.

As society has been altered by such factors as the development of knowledge, technological advances and population growth, the purposes and processes of education have changed. New technologies of instruction are evolving rapidly and offer the prospective teacher many opportunities for developing a high level of teaching competence. Problems generated in our urban society are complex, and those related to education are no exception. Yet, the opportunities for curriculum innovation, experimentation and leadership have never been greater.

Accreditation
Wayne State University is accredited by the Higher Learning Commission.

The College of Education’s teacher certification programs are accredited by the Council for the Accreditation of Educator Preparation (CAEP).

Art Therapy is approved by the American Art Therapy Association (AATA).

Counselor Education is accredited through the Council for Accreditation of Counseling and Related Educational Programs (CACREP) and now includes Rehabilitation Counseling and Community Inclusion, which was formerly accredited through the Council on Rehabilitation Education (CORE). CORE and CACREP have merged.

School and Community Psychology is accredited through the National Association of School Psychologists.

Academic Regulations: College of Education
For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 11) section of this bulletin. The following additions and amendments pertain to the College of Education.

Normal Program Load
The normal undergraduate student load is fifteen to sixteen credits per semester. Only in exceptional cases is a student allowed to elect a heavier load. Approval of the advisor and authorization by the Assistant Dean of the Division of Academic Services must be secured in those cases where the student petitions to carry more than eighteen credits within a full semester.

If a significant portion of a student’s time is spent in outside work, corresponding adjustments must be made in his/her college schedule.

Admission to Teacher Preparation Programs
College of Education Level 1
Admission to the College of Education is based on two levels. Students are admitted directly into the College of Education Level 1 from high school or other universities or colleges by completing an undergraduate admission application to the University, selection of a College of Education program on the admission application, and acceptance to Wayne State University. Level 1 admission is processed by the:

University Office of Undergraduate Admission, Welcome Center
42 W. Warren Ave., P.O. Box 02759
Detroit, Michigan 48202
telephone 313-577-2100

Level 1 is for newly admitted freshmen, transfer students, and existing Wayne State University students that change their major to Elementary Education or Secondary Education or Special Education or Health and Physical Education. Students already attending Wayne State University from another college who wish to join a teacher preparation program, may complete an online Level 1 Application (https://wayne.state.az1.qualtrics.com/jfe/form/SV_5t2Mppx2KaWgm5T/

This level is the beginning of the journey to becoming a certified teacher. In this level students focus on coursework to meet the university’s General Education Requirements and courses to build content knowledge of subjects that one may teach. During this time, students explore the decision to become a teacher by completing 40 hours of group work with children and by completing some coursework in teacher education. This is also a time to meet the requirements for the next level of admission by completing Level 2 admission requirements. For transfer students, careful course selection from Transfer Plans (http://transfercredit.wayne.edu) is recommended.

College of Education Level 2
Admission to the College of Education Level 2 program requires a separate online Level 2 Application (https://wayne.state.az1.qualtrics.com/jfe/form/SV_3qKtBNQj0sMH0xzyJ/). Students complete the Level 2 application when all Level 2 admission requirements have been fulfilled. These requirements vary by program and students are encouraged to meet with their assigned advisor in Academic Services (Room 489, Education Building) to review requirements specific to their program. Admission to Level 2 is not competitive and students meeting all requirements will be admitted.

Level 2 is the time of transition from student to professional as the journey to becoming a teacher nears completion. In Level 2 students complete coursework in the Professional Education Sequence to learn how to teach, to differentiate instruction, to assess student learning and to deepen one’s knowledge of the profession. At the heart of Level 2 are clinical experiences: Experiences in real classroom contexts that allow the pre-service teacher to see, hear, and reflect on the dynamic character of urban classrooms. By the end of Level 2 students should have completed all coursework requirements, passed the Michigan Test for Teacher Certification exams and completed student teaching. Students should be ready for recommendation to the State of Michigan for teacher certification to begin a career in the teaching profession.

Admission to Other Education Programs
Undergraduate students entering Wayne State University, either from high school or transferring from other universities or colleges, are admitted directly into the bachelor’s degree program for Community Health.
Exercise and Sport Science, Learning Design and Technology and Sport Management.

Transfer of College within the University
A student in good standing from another college of Wayne State University who wishes to transfer to the College of Education submits an online application (https://waynestate.az1.qualtrics.com/jfe/form/SV_5t2MmppxZKawgm5T/) directly to the Division of Academic Services.

Accelerated Graduate Enrollment (AGRADE) Program
Some programs in the College of Education permit academically strong majors to apply for admission into the college's Accelerated Graduate Enrollment (AGRADE) program. AGRADE procedures enable qualified juniors in the College of Education to apply for an AGRADE master's program and upon admission, begin the program in the senior year by enrolling simultaneously in the undergraduate and graduate programs of the college and apply up to a maximum of sixteen credits towards both a bachelor's and master's degree. Some programs permit less than the maximum number of credits to be applied.

Qualified students may apply for the AGRADE program no earlier than the semester in which ninety credits are being completed. Applicants must have a minimum overall grade point average of 3.30. After admission, continuation in the AGRADE program requires a continuing undergraduate cumulative grade point average of at least a 3.30 and a grade of B or higher in AGRADE coursework, which is consistent for satisfactory academic progress for graduate coursework. Some programs may require a grade point average higher than a 3.30.

For more details about the AGRADE program, contact the Division of Academic Services.

Alternative Admission and Reinstatement from Academic Exclusion
Alternative admission or reinstatement from academic exclusion is a process for students meeting any of the three categories listed below:

1. Students currently excluded may appeal for reinstatement to the College of Education after not attending classes at Wayne State University for more than one year.
2. Students that have 30 days to immediately appeal an exclusion notification.
3. Students from another college of Wayne State University that currently have less than a 2.5 GPA and are seeking Alternative Admission into the College of Education.

The application for alternative admission or reinstatement is online (http://coe.wayne.edu/admissions/alternative_admission_and_reinstatement_policy.php).

Not all applicants will be admitted or reinstated. Applications for alternative admission or reinstatement are considered on an individual basis and reviewed by a committee based on academic criteria and merit with the final decision resting with the Assistant Dean of Academic Services.

Readmission Following an Interruption in Residence
Undergraduate students whose attendance at Wayne State has been interrupted for three or more years will be required to apply at the College of Education Division of Academic Services for readmission to the College. Deadline dates for such applications are the same as those for regular admission to the College. In instances of prolonged absences of five years or more, it may be necessary to revalidate credits, either through examinations or refresher courses, within the student's major and the professional education sequences.

Attendance
Regularity in attendance and performance is necessary for success in college work. Although there are no officially excused absences as far as College policy is concerned, the conscientious student is expected to explain absences to the instructor. Such absences may be due to illness; to participation in inter-college activities certified by the sponsoring faculty member; or other similar types of absence for which the student can present to the instructor evidence that he/she was engaged in authorized University activities. Each instructor, at the beginning of the course, will announce his/her attendance requirements.

Criminal History Check
Michigan Public Act 68 of 1993 Sec. 1230 requires public and nonpublic schools to conduct a criminal history check of new teachers, school administrators, school psychologists and other personnel required to hold State Board of Education approvals. Students interested in becoming certified teachers must supply a statewide criminal history check prior to admission or transfer to the College of Education and again prior to applying for certification. Additional criminal history checks may be required at the discretion of the College. A criminal history check is completed through Castle Branch (http://coe.wayne.edu/pdfs/criminal_history_new.pdf) for a fee.

Any person seeking admission to a teacher certification program who has been convicted of any offense must provide certified copies of all documents relative to his/her conviction, including the Register of Actions from the court(s) in which the matter was adjudicated and a narrative describing each incident from his/her perspective for review by a committee in the College of Education. Persons determined by the criminal history check to have been convicted of any offense and who do not provide required information at the time of application or transfer will have their admission/certification delayed or denied. After review by the College of Education Committee, the applicant will be notified in writing of the Committee's decision.

Note the State Board of Education Teacher Certificate Code: R 390.1201 Certificates; denial, suspension, or revocation.

1. The superintendent of public instruction may refuse to grant or renew, or may suspend for a fixed term, or revoke, or may impose reasonable conditions on, a teaching certificate or state board approval granted pursuant to these rules for the following reasons:
   a. Fraud, or material misrepresentation, concealment or omission of fact in the application for, or the use of, a teaching certificate or state board approval.
   b. Conviction of an offense listed in MCL 380.1535a or MCL 380.1539b.
2. The superintendent of public instruction may refuse to grant or renew a teaching certificate or a state board approval for failure or ineligibility of the applicant to meet the criteria for the applicable certification or state board approval.

Dean's List
The College of Education Dean's List is a means of recognizing undergraduate students who have excelled academically in a given semester. The Dean's List will be compiled for each semester in the academic year. Inclusion requires a 3.75 g.p.a. for students enrolled for twelve or more semester credits (full-time). Students registered
for six to eleven-semester credits (half-time) must earn a 4.00 g.p.a. Students registered for fewer than six-semester credits are not eligible and students who receive marks of ‘I,’ ‘W,’ ‘W/F,’ ‘W/F,’ ‘N,’ or ‘U’ are not eligible.

Students will be notified of inclusion in the Dean's List by electronic communication. The Dean's List will be displayed in the College of Education for each semester and posted on its website (http://coe.wayne.edu/student/deans-list.php).

Graduating with Distinction

Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: Cum Laude, Magna Cum Laude, and Summa Cum Laude. Graduation with distinction will be indicated on the student's diploma and on the transcript.

Graduation with Distinction will recognize at each graduation the top twenty percent of students in each College who have earned the highest grade point average in their Colleges, with the following approximate distribution:

- Summa Cum Laude: Top five percent
- Magna Cum Laude: Next five percent
- Cum Laude: Next ten percent

Specific minimum grade point averages will be determined each year in the following manner: based on the grade point average distributions of the previous year’s senior class, the grade point average cutoffs for each College will be established to provide for recognition of the top eighteen to twenty percent of the graduating students. Graduation with distinction will not be awarded in cases of any g.p.a. less than 3.0.

The criteria for Graduation with Distinction include:

1. A minimum of fifty-six credits in residence at Wayne State University.
2. A qualifying minimum grade point average (calculated as explained above) on all course work at Wayne State University must be completed by the end of the semester of graduation. (For notation in the commencement program, the grade point average on coursework completed prior to the semester of graduation will be used.)

Probation Policy and Withdrawal

University Policy

Effective Fall Term 1988, an undergraduate student whose cumulative g.p.a. falls below 2.00 will be placed on Academic Probation. An Academic Probation status is placed on the student’s record and the student shall be permitted to register only after consultation with, and approval has been granted by, a designated University advisor.

The probation status, which blocks registration, may be changed up to the day before classes begin for any given term. Registration for students with a probation status will not be permitted by the advising staff once classes have begun. Because such registration is permitted for one term only, if the student continues on academic probation, they must meet with an advisor each term to permit registration for a future term.

A student shall be given two subsequent terms for enrollment on probationary status. At the conclusion of the two terms, a student who has not achieved a cumulative g.p.a. of at least 2.00 shall be excluded from his/her program. A student excluded from the University may not apply for re-admission or reinstatement for one calendar year. Reinstatement is not guaranteed and the application may be denied.

Academic Probation indicates that a student needs to reassess his/ her educational priorities, investigate support services, and/or adjust study habits and techniques. It is important to recognize the warning signs of academic difficulty early in the term so one can seek the appropriate help or make adjustments to their course load or study habits. There are many resources on campus to assist students with academic probation.

College of Education Policy

If, at any time, an undergraduate's overall g.p.a. falls below 2.50, the student is automatically placed on College academic probation. Before registering for the next semester, a student on probation must secure approval from the College Success Coach. The College reserves the right to require a student to withdraw at any time from specific courses or from the College entirely if progress does not warrant a continuance.

Residency Requirement

Applicants for a degree from the College of Education must complete at least thirty credits as a registered student in the College. The student must be in residence (enrolled in courses at Wayne State University) during the semester in which he/she completes requirements for the degree.

Transferred Credits

College credits earned at accredited institutions other than Wayne State University may be transferred by an undergraduate student to meet requirements for the bachelor’s degrees in the College, provided:

1. the student has been accepted as a matriculated student in the College;
2. the grades received in courses where transfer is desired have been satisfactory; and,
3. credits so earned are applicable to the student's curriculum.

Students should contact their assigned advisor to discuss transfer of credit.

Students currently enrolled or returning students who have taken courses at another institution, should forward official transcripts to the address below or submitted electronically to admissions@wayne.edu.

Wayne State University
Transfer Credit Evaluation
PO Box 02759
Detroit, MI 48202-0759

Students must consult their advisor prior to registering for any course outside of Wayne State University to discuss the limitations of transferring credits. During the senior year, no more than 10 transfer credits will be accepted.

When the student has a degree from an accredited institution and is meeting the requirements for a Michigan Standard Teaching Certificate, some credits may be applied toward the certificate by transfer but at least fifteen credits must be completed at Wayne State.

Academic Services: College of Education

Office: 489 Education; 313-577-1601
Assistant Dean: Paul W. Johnson
Undergraduate Advising: Fawne Allossery, Shawntae Harris Mintline, Cassandra Tackett, Kurt Troutman, Tanesha Watkins
Undergraduate Success Coach: Daniel Lewis III
Undergraduate Recruitment Coordinator: Jeffrey Lisiecki

Wayne State University Undergraduate Bulletin 2020-2021 113
Pre-Admission Graduate Advising: LaSondra Dawn, Deborah Gibson, KaRie Jorah-Rood, Mary Waker
Graduate Programs Outreach Specialist: Gloria McDonald
http://coe.wayne.edu/as/

Purposes of the Division
The Division of Academic Services in the College of Education is responsible for Undergraduate Advising, Graduate Admissions, Graduation & Certification, Marketing & Communications, Curriculum: Course & Program Proposals, Course Scheduling & the Bulletin, the Education Scholars Alliance Program, and Graduate Faculty Appointments.

Advising Services
Advising in the College of Education is centralized for undergraduate students in the Division of Academic Services and decentralized for graduate students in the four academic divisions of the college: 1) Administrative and Organizational Studies, 2) Kinesiology, Health and Sport Studies, 3) Theoretical and Behavioral Foundations, and 4) Teacher Education. Undergraduate students have professional advisors and graduate students are advised by faculty in the student’s program. Every student admitted to the College of Education is assigned an advisor.

Undergraduate Advising
Advising at the undergraduate level is from "start to finish" meaning students have the same advisor from the time of admission through graduation. Having the same advisor allows for deeper relationships and connections to form between student and advisor. Start to finish advising results in consistent advising and messaging with students and creates a culture of expectations and accountability, for both the advisor and student. This level of support fosters the student’s connection to the university, resourcefulness, and leads to maintaining or improving student persistence towards academic goals.

Undergraduate advisors also engage in group advising efforts by visiting courses taken by students early in their major and making presentations related to program requirements. Advisors utilize and encourage students to take advantage of university tools such as Advising Works, Degree Works, and STARS to maintain satisfactory academic progress.

Undergraduate students are encouraged to meet with the advisor at least once per semester. Students schedule appointments online with their advisor through the university’s Advising Works system. In addition, Academic Services provides “Open Advising” each Tuesday from 9:00 am to 4:00 pm. Open Advising is on a first-come, first-serve basis and is an ideal time for students to resolve registration problems, completion of verification forms and appeals, submission of applications and general advising questions. Scheduled appointments are for at least 30 minutes for completion of plans of work, establishing multi-year plans, reviewing, student progress toward degree completion, discussion of challenges to matriculation, referral to other university offices and support centers and to keep students focused and on track for completion of degree and certification requirements.

Students seeking admission information should contact Academic Services by calling 313-577-1601, via e-mail at askcoe@wayne.edu, or by attending Open Advising every Tuesday from 9:00 a.m. to 4:00 p.m. in room 489 Education. The Academic Services Office also advises in-service teachers working for professional certification and those seeking additional certificate endorsements.

College Success Coach
The College Success Coach helps students succeed by developing intervention strategies, determining areas of difficulty, and identifying support resources. Students new to the university, on or near probation, struggling with transitioning to college, or experiencing poor academic performance are encouraged to meet with the Success Coach.

The Success Coach will help students succeed in and out of the classroom by establishing a shared vision of student success, identifying the areas in which the student is struggling, and identifying resources to aid with the areas of need:

- Study Strategies
- Career Exploration
- Time Management Strategies
- Stress and Anxiety Relief Techniques
- Goal Setting
- Scholarship Assistance

In addition, the Success Coach provides assistance and resources for students preparing for the Michigan Test for Teacher Certification.

Undergraduate Student Services
In addition to advising, the Division of Academic Services provides the following services to students:

- Degree and certificate audits for graduation.
- Recommendations to the Michigan Department of Education for certification and licensure (see the Certification section below).
- Monitoring of the university’s academic probation system.
- Annual Educator Job Placement Fair for PK-12 careers.

Certification
As a liaison to the Michigan Department of Education, the Division of Academic Services recommends candidates for initial certification as teachers, administrators, and school psychologists; approvals for supervisors and directors of Special Education; and licensure for school counselors. Additionally, the division helps candidates secure endorsements to existing teacher and administrator certificates.

Administrative and Organizational Studies
Office: 341 Education Building; 313-577-1728
Interim Assistant Dean: William E. Hill
http://coe.wayne.edu/aos/index.php

The Division of Administrative and Organizational Studies has as its primary goal the development and enhancement of leadership and organizational learning. It is within the scope of this division to study emergent trends, technologies and educational innovations; to develop rationales for supporting educational change; to present viable programs of study for advanced students in education which will enable them to function skillfully as educational leaders in facilitating change, and in developing and conducting on-going programs; and to design and implement learning innovations, and the impact of instructional methodologies on the improvement of human and organizational performance. The program areas — Educational Leadership and Policy Studies and Learning Design and Technology — are under the guidance of this Division.

- Learning Design and Technology (B.S.) (p. 115)
- Learning Design and Technology Minor (p. 115)
Learning Design and Technology (B.S.)

The Bachelor of Science in Learning Design and Technology prepares students for work in instructional design, development, and implementation. Graduates of the program will be qualified for careers in business, public or private agencies, health care institutions, military or governmental entities, and a variety of community and professional firms. They will be prepared to become instructional developers, corporate training developers, project managers, media specialists, etc. Graduates of this program may also wish to pursue graduate studies in Learning Design and Technology, Administration, or related fields.

Admission Requirements

1. The admission requirements for the undergraduate program in Learning Design and Technology are the same as for admission to the University. Undergraduate students entering Wayne State University, either from high school or transferring from other universities or colleges, are admitted directly into the College of Education degree program in Learning Design and Technology.
2. Attend a mandatory orientation to the Learning Design and Technology Program (by invitation only).

Candidates for the Bachelor of Science in Education with a major in Learning Design and Technology must complete a minimum of 120 credits. All course work must be completed in accordance with the academic procedures of the College of Education (p. 111) and the University (p. 9) governing undergraduate scholarship and degrees. At graduation, the College of Education requires a minimum 2.5 grade point average.

1. Completion of all General Education Requirements (p. 35). General Education Requirements may be met by transfer of community college courses, the WSU General Education Transfer Policy/MACRAO, MTA, and/or by completing WSU courses.
2. Up to 50 credits of lower-division coursework in any discipline. LDT major coursework builds on previous work in psychology, information management, business, communications, graphic design and many other areas of study.
3. Completion of the College of Education mathematics requirement.
4. Completion of the required Major Courses.
5. A minimum cumulative g.p.a. of 2.5 with no grade below a ‘C’ in any program course.

Learning Design and Technology Minor

The Learning Design and Technology Minor is available to undergraduate students majoring in other disciplines. The minor provides an excellent opportunity for non-education majors to broaden their knowledge of the learning and performance improvement disciplines. In addition, the program enhances career prospects and establishes a solid base for pursuing a Master of Education in Learning Design and Technology degree.

The Learning Design and Technology Minor consists of six courses, totaling eighteen credits. To be eligible to apply for the minor, students must have a minimum cumulative g.p.a. of 2.5.

Total Credits 18

Students must achieve a cumulative g.p.a. of 2.5 or better with no grade below "C" in the 18 minor credits.

Kinesiology, Health and Sport Studies

Office: 2152 Faculty Administration Building; 313-577-4249
Assistant Dean: Nate McCaughtry
http://www.kinesiology.wayne.edu (http://www.kinesiology.wayne.edu/)

The Division of Kinesiology, Health and Sport Studies offers courses at the undergraduate level leading to Bachelor of Science degrees in Community Health, Exercise and Sport Science, Health and Physical Education Teaching, and Sport Management. The Division also offers minors in Community Health and Sport Management. Additionally, the Division offers courses in Lifestyle Fitness Activities available to all Wayne State University students. The Lifestyle Fitness Activities (LFA) program is an integral part of the Division; it provides students with the opportunity to enhance physical well-being and to acquire developmental skills, knowledge, and attitudes which can be utilized throughout life. LFA courses are offered to both undergraduate and graduate students; however, these courses are not offered for graduate credit.
• Community Health (B.S.) (p. 116)
• Exercise and Sport Science (B.S.) (p. 118)
• Health and Physical Education Teaching (B.S.) (p. 119)
• Sport Management (B.S.) (p. 120)
• Community Health Minor (p. 117)
• Sport Management Minor (p. 121)
• Yoga and Mindfulness Minor (p. 121)
• Athletic Training AGRADE Program (p. 122)

Community Health (B.S.)

The Bachelor of Science in Community Health prepares students for careers in the broad field of community health. Coursework includes training in health topics, intervention development and evaluation, health behavior theory, policy and teaching methods. The program also prepares students to take the Certified Health Education Specialist (CHES) exam, which is given by the National Commission for Health Education Credentialing, Inc. (NCHEC). This credential ensures that students are trained and qualified to plan and coordinate community health education programs. The B.S. in Community Health provides practical field experiences and experiential coursework to prepare students for employment in public or private agencies; local health departments; volunteer organizations; hospitals; health insurance companies; worksite/employee health promotion and wellness programs; and a variety of community-based organizations.

Mission Statement: Our mission is to advance health equity through the preparation of Community Health Education Specialists who explore the multiple levels (individual, family, community, policy, systems) and social determinants that influence behavior and health. Community health professionals focus on the community as the setting for analysis, assessment, advocacy, program planning, intervention, evaluation, and research, and are committed to developing, enhancing and using evidence-informed strategies to improve population health.

Admission Requirements: Admission requirements for this program are satisfied by the general requirements for undergraduate admission to the University.

Advising questions should be directed to the Division of Academic Services, College of Education, 489 Education, phone 313-577-1601.

A minimum of 120 credits are required for completion of this degree: satisfaction of the University General Education Program (p. 35). All coursework must be completed in accordance with the academic procedures of the College of Education (p. 111) and the University (p. 9) governing undergraduate scholarship and degrees. All courses must be completed with grades of 'C' or better and an overall 2.5 grade point average, to meet College graduation requirements. Course changes may occur through periodic curriculum revision and students are urged to consult assigned advisors prior to each registration period to ensure that all requirements are met.

General Education

Electives 1

Total Credits  120

1 A minimum of 15 major elective credits will be selected by the student in consultation with the advisor. Students should consult their advisor for further information and prior to registering for any elective courses not listed on the curriculum guide or Plan of Work.

Community Health AGRADE Overview

The Division of Kinesiology, Health, and Sports Studies (KHS) in the College of Education offers degrees that focus on the broad careers of health, wellness, exercise, sport, and human performance. With programs in Athletic Training (AT), Community Health (CH), Exercise and Sport Science (ESS), Health and Physical Education Teaching (HPET), and Sport Administration and Management (SAM), KHS prepares students to excel in a range of health-related professions.

The Community Health AGRADE program is available to academically strong students completing B.S. degrees in Community Health; Exercise and Sport Science; Health and Physical Education Teaching; and Sport Management so they can begin a master’s degree while simultaneously completing their bachelor’s degree. Coursework taken during a student’s senior year (up to 16 credits) can simultaneously qualify toward the bachelor’s and master’s degrees. In this case, after completing any bachelor’s degree in this division, students would have also completed a substantial portion of the coursework required for the Master of Science in Community Health. This allows motivated students the opportunity to complete the requirements for both degrees in an accelerated format.

Our bachelor’s programs typically have between 15-25 elective courses in their plans of work. This AGRADE program allows students to utilize graduate courses in Community Health to fulfill these elective requirements. Students, in consultation with their advisor, can select Community Health graduate courses that count toward the student’s bachelor’s and master’s degrees. The graduate coursework completed while enrolled as an undergraduate is assessed at the undergraduate tuition rate, resulting in significant tuition savings.

Admission Criteria

Students may apply for the Community Health AGRADE program no earlier than the semester in which ninety credits are being completed. Applicants must have a minimum overall grade point average of 3.30. After admission, the AGRADE program requires a continuing undergraduate cumulative grade point average of at least a 3.30 and a grade of B or higher in Community Healthy master’s coursework.

Advising

AGRADE advising is provided by the Division of Academic Services College of Education.

Eligible AGRADE Courses
The following table outlines the Community Health master's courses that could be included in an undergraduate plan of work. Students may take up to a maximum of 16 credits from the following list. In addition, other master's courses may qualify as exceptions.

Community Health Minor

The College of Education offers a minor in Community Health (CH) Education for undergraduate students majoring in other disciplines. The minor provides an excellent opportunity for students to broaden their knowledge of the social and behavioral aspects of health promotion and policy. In addition, the program enhances career prospects and establishes a solid base for pursuing a Master of Education in Health Education. To be eligible to apply for the CH Minor, students must have a minimum cumulative grade point average of 2.75.

The Community Health Minor consists of six courses, totaling eighteen credit hours. All coursework must be completed in accordance with the academic procedures of the College of Education (p. 111) and the University (p. 9) governing undergraduate scholarship and degrees. All major, minor, and education courses, must be completed with grades of 'C' or better and an overall 2.5 grade point average, to meet College graduation requirements.

Exercise and Sport Science (B.S.)

The Exercise and Sport Science degree provides students with a scientific-based curriculum for improving human performance and wellness, and is an ideal preparation for successful entry into a variety of graduate professional programs such as nursing, occupational therapy, physician assistant, physical therapy, athletic training, or medical school. Students develop application skills for sport and fitness activities, assessment and evaluation of various populations and fitness levels, and human movement systems from all of the subdisciplines of kinesiology (e.g., exercise physiology, exercise and physical activity psychology, motor learning and development, biomechanics, and others). Career options include corporate wellness, exercise physiologist, cardiac rehabilitation, strength and condition coach, and a wide variety of therapeutic exercise and recreation positions.

Admission Requirements: Undergraduate students entering Wayne State University, either from high school or transferring from other accredited universities or colleges, are admitted directly into the bachelor’s degree program.

A student must complete all University General Education (p. 35) requirements, all College (p. 111) and program requirements, and a minimum of 120 credits with a cumulative grade point average of 2.50 or higher to earn a bachelor’s degree in the College of Education.

No grade below a “C” may be used to meet College requirements, electives, courses in the major or courses in a College of Education minor. Note: All students must receive a “C” or higher in Basic and Intermediate Composition if these requirements are completed or transferred in Fall 2008 or thereafter.

KIN 5350 Exercise Science Internship

Elective Requirements (21 credits)

Complete a minimum of 21 semester credits of electives related to the field of Exercise and Sport Science.

---

1. All courses in this list, except for BIO 2870, also satisfy the Natural Scientific Inquiry (NSI) requirement of the University’s General Education Program.
2. Students are responsible for satisfying the prerequisite and placement requirements prior to enrolling in the listed courses. See the individual courses or contact an advisor for more information.

Honors Program

Students may pursue Departmental Honors in the Exercise and Sport Science major. A minimum 3.30 cumulative GPA and additional coursework are required. For more information, please discuss with your academic advisor.

Exercise and Sport Science AGRADE Overview

The Division of Kinesiology, Health, and Sports Studies (KHS) in the College of Education offers degrees that focus on the broad careers of health, wellness, exercise, sport, and human performance. With programs in Athletic Training (AT), Community Health (CH), Exercise and Sport Science (ESS), Health and Physical Education Teaching (HPET), and Sport Administration and Management (SAM), KHS prepares students to excel in a range of health-related professions.

The Exercise and Sport Science AGRADE program is available to academically strong students completing B.S. degrees in Community Health; Exercise and Sport Science; Health and Physical Education Teaching; and Sport Management so they can begin a master’s degree while simultaneously completing their bachelor’s degree. Coursework taken during a student’s senior year (up to 16 credits) can simultaneously qualify toward the bachelor's and master's degrees. In this case, after completing any bachelor’s degree in this division, students would have also completed a substantial portion of the coursework required for the Master of Science in Exercise and Sport Science. This allows motivated students the opportunity to complete the requirements for both degrees in an accelerated format.

Our bachelor’s programs typically have between 15-25 elective courses in their plans of work. This AGRADE program allows students to utilize graduate courses in Exercise and Sport Science to fulfill these elective requirements. Students, in consultation with their advisor, can select Exercise and Sport Science graduate courses that count toward the student’s bachelor’s and master’s degrees. The graduate coursework completed while enrolled as an undergraduate is assessed at the undergraduate tuition rate, resulting in significant tuition savings.

Admission Criteria

Students may apply for the Exercise and Sport Science AGRADE program no earlier than the semester in which ninety credits are being completed. Applicants must have a minimum overall grade point average of 3.30. After admission, the AGRADE program requires a continuing...
undergraduate cumulative grade point average of at least a 3.30 and a grade of B or higher in Exercise and Sport Science master's coursework.

For more details about the Exercise and Sport Science AGRADE program, contact the Division of Academic Services.

Exercise and Sport Science AGRADE Advising

AGRADE advising is provided by the Division of Academic Services College of Education.

Eligible AGRADE Courses and Sequence

The following table outlines the Exercise and Sport Science master’s courses that could be included in the undergraduate plan of work. Students may take up to a maximum of 16 credits from the following list. In addition, other courses may qualify as exceptions.

Health and Physical Education Teaching (B.S.)

Degree: Bachelor of Sciences with a major in Health and Physical Education Teaching

Overview: The B.S. in Health and Physical Education Teaching emphasizes obtaining knowledge in content areas and subdisciplines of Health and Physical Education. Candidates who successfully complete coursework and pass the Michigan Test for Teacher Certification in both content areas receive an initial teaching certificate in Health and Physical Education (grades K - 12) by the Michigan Department of Education.

The curriculum includes: curriculum development for school Health and Physical Education teaching, implementing developmentally appropriate instructional for diverse learners, assessing Health and Physical Education content knowledge and skill proficiency, using instructional technology effectively, and demonstrating the qualities of a professional educator.

The program prepares candidates to meet proficiencies defined in several accreditation standards:

- The Michigan Interstate Teacher Assessment and Support Consortium (MI InTASC) Model Core Teaching Standards, adopted by the State Board of Education (SBE) in 2013, define the theoretical and practical knowledge, skills, and dispositions that all entry-level teachers should possess upon completion of an approved teacher preparation program.
- Michigan-specific content standards define the central concepts, tools of inquiry, and structures of the specific discipline(s) in which teacher candidates seek endorsement, as well as pedagogical applications of that disciplinary knowledge. “Standards for the preparation of Health and Physical Education Teachers in Michigan.”

Admission Requirements: Undergraduate students entering Wayne State University either from high school or transferring from other universities or colleges, are admitted directly into the Bachelors program. Admission questions should be directed to the Division of Academic Services, College of Education, 489 Education, phone 313-577-1601.

A minimum of 120 credits are required for completion of this degree: satisfaction of the University General Education Program (p. 35); All course work must be completed in accordance with the academic procedures of the College of Education (p. 111) and University (p. 9) governing undergraduate scholarship and degrees. All major, minor, and education courses, must be completed with grades of ‘C’ or better and an overall 2.5 grade point average, to meet College graduation requirements. Course changes may occur through periodic curriculum revision and students are urged to consult assigned advisors prior to each registration period to insure that all requirements are met.

Sport Management (B.S.)

The major in sport management leads to a bachelor of science degree and prepares students for entry-level professional positions in the sport industry. Coursework includes industry-specific training in management, marketing, finance, law, governance and ethics. Students will additionally have the opportunity to select from a host of advanced courses that focus on specialized issues related to different segments of the sports industry, including collegiate, interscholastic, professional, and recreation. As a capstone experience, students will apply the knowledge they gained in the classroom to field experiences and internships to maximize their professional preparation. (For additional information, please see the KHS website (http://coe.wayne.edu/kinesiology/).

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35), as well as the major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 111) governing undergraduate scholarship and degrees.

Sport Management Minor

The College of Education offers a minor in Sport Management for undergraduate students majoring in other disciplines. The minor provides an excellent opportunity for students to broaden their knowledge of the sport industry and the managerial practices unique to sports. In addition, the program enhances career prospects and establishes foundational knowledge for pursuing a Master of Arts in Sports Administration. To be eligible to apply for the minor, students must have a minimum cumulative grade point average of 2.5.

The Sport Management Minor consists of six courses, totaling eighteen credit hours. All course work must be completed in accordance with the academic procedures of the College of Education (p. 111) and University (p. 9) governing undergraduate scholarship and degrees. All major, minor, and education courses, must be completed with grades of ‘C’ or better and an overall 2.5 grade point average, to meet College graduation requirements.

Total Credits 18

Yoga and Mindfulness Minor

The Division of Kinesiology, Health and Sport Studies in the College of Education offers a minor in Yoga and Mindfulness for undergraduate and graduate students majoring in any discipline. The minor provides an excellent opportunity for students to broaden their knowledge of yoga and mindfulness philosophy, practice, and teaching skills. In addition, the program enhances career prospects across all professions as students learn how to integrate and design yoga and mindfulness activities and programs within their area of study. As restorative practices, yoga and mindfulness enables anyone working in health care, social work,
education, exercise, etc. professions to practice self care and better serve the individuals they service in their respective careers. To be eligible to apply for the Yoga and Mindfulness minor, students must have a minimum overall grade point average of 2.75. For advising regarding the yoga and mindfulness minor, please contact Fawne Allossary in the College of Education Division of Academic Services at ac9010@wayne.edu or 313-577-1601.

The Yoga and Mindfulness minor allows students in any department across all schools and colleges at WSU to add yoga and mindfulness skills and knowledge as an added credential to their degree programs. The addition of a Yoga and Mindfulness minor will expand employment opportunities and add expertise in yoga and mindfulness philosophy and theory, holistic health promotion, knowledge of body movement and mechanics, and leading others in yoga and mindfulness programs in many different career settings.

The minor is a minimum of 15 credit hours consisting of the courses listed below (9 credit hours of required cores and 6 credit hours of elective courses). The electives allow the student to further develop yoga and mindfulness skills by applying them to specific content areas. Additional courses can qualify as electives in consultation with an advisor in the Division of Academic Services in the College of Education.

**Athletic Training AGRADE Program**

**Athletic Training AGRADE Overview**

The Division of Kinesiology, Health, and Sports Studies (KHS) in the College of Education offers degrees that focus on the broad careers of health, wellness, exercise, sport, and human performance. With programs in Athletic Training (AT), Community Health (CH), Exercise and Sport Science (ESS), Health and Physical Education Teaching (HPET), and Sport Administration and Management (SAM), KHS prepares students to excel in a range of health-related professions.

The Athletic Training AGRADE program is available to academically strong students completing B.S. degrees in Community Health, Exercise and Sport Science, Health and Physical Education Teaching, and Sport Management. They can begin a master's degree while simultaneously completing their bachelor's degree. Coursework taken during a student's senior year (up to 16 credits) can simultaneously qualify toward the bachelor's and master's degrees. In this case, after completing any bachelor's degree in this division, students would have also completed a substantial portion of the coursework required for the Master of Science (M.S.) in Athletic Training. This allows motivated students the opportunity to complete the requirements for both degrees in an accelerated format.

Our bachelor's programs typically have between 15-25 elective courses in their plans of work. This AGRADE program allows students to utilize graduate courses in Athletic Training to fulfill these elective requirements. Students, in consultation with their advisor, can select Athletic Training graduate courses that count toward the student's bachelor's and master's degrees. The graduate coursework completed while enrolled as an undergraduate is assessed at the undergraduate tuition rate, resulting in significant tuition savings.

**Admission Criteria**

Students may apply for the Athletic Training AGRADE program no earlier than the semester in which ninety credits are being completed. Applicants must have a minimum overall grade point average of 3.30. After admission, the AGRADE program requires a continuing undergraduate cumulative grade point average of at least a 3.30 and a grade of B or higher in Athletic Training Masters coursework.

**Advising**

AGRADE advising is provided by the Division of Academic Services College of Education.

**Athletic Training AGRADE Courses**

The following M.S. in Athletic Training courses can be included in a bachelor's plan of work in any KHS degree. It is important to note that the M.S. in Athletic Training degree is offered in a sequential progression with new cohorts starting each spring/summer term. Therefore, undergraduate students seeking admission to the Athletic Training AGRADE program must plan their coursework accordingly. Students may choose up to a maximum of 16 credits including the following (contact an advisor for additional course options):

<table>

</tr>
</tbody>
</table>
**Teaching Certification Requirements**

All secondary certificates require an academic major in a subject area such as English, mathematics, science, or social studies, approved for teaching in grades six through twelve by the State Board of Education. A minor is recommended. An elementary certificate requires a minimum of one academic major or a student-centered minor or major and the Planned Program/Comprehensive Major.

Students are recommended for certification after earning a bachelor's degree from a regionally-accredited institution and completing a specified sequence of professional courses in the College of Education. Holders of a bachelor's degree may also earn a teaching certificate in a post-bachelor certification program or Master of Arts in Teaching program. Additional information about these programs can be obtained from the Office of Academic Services in room 489 Education.

**Certification for Post-Baccalaureate Students**

A college graduate holding the bachelor's or master's degree may qualify for a teaching certificate by completing a Master of Arts in Teaching degree program, or by completing a recognized post-degree program. See the Wayne State University Graduate Bulletin for general requirements for the Master of Arts in Teaching degree. The student may need to supplement previous degree work in order to satisfy major and minor provisions of the Michigan certification code.

**Teaching Certificate Endorsements**

Teaching endorsements may be added to any certificate. An individual may add endorsements by completing requirements for academic majors and/or minors in accordance with State regulations. An individual holding an elementary certificate may also earn an endorsement to teach at the secondary level, and vice versa. When adding an additional endorsement, the individual must also pass the Michigan Test for Teacher Certification in that subject area.

Holders of certificates may add an additional endorsement in a content area or in a specialty area. Content areas include English, Language Arts, Mathematics, Science, Social Studies, etcetera. Content endorsements are generally completed with undergraduate coursework in a post-bachelor status. Specialty areas are endorsements seen as more pedagogical or based upon a specific setting in which a subject is taught. A few examples of specialty endorsements are Special Education, Early Childhood Education, English as a Second Language, and Bilingual Education. Many of the specialty endorsements are completed as part of a graduate program and may include only graduate coursework.

For more information regarding adding an endorsement, consult an advisor in the Division of Academic Services, 489 Education Building.

Application for an endorsement must be made within five years after endorsement requirements have been met. State examinations must be passed for all new endorsements.
Technology Expectations

The College of Education expects that each initial teacher certification candidate will own or have ready access to a computer (desktop, laptop, and/or mobile device). Throughout their academic program, teacher certification candidates will use a variety of technologies to develop their portfolios, to create multi-media projects to demonstrate knowledge, to create audio and video files, to communicate globally, and to participate in group projects using collaborative tools. Most importantly, however, by using a variety of technologies to progress successfully through their own academic programs, prospective teachers learn how to appropriately use technology as a tool to support teaching and learning, skills that are critical to effective teaching in 21st-century classrooms. At graduation, teacher candidates are expected to have technology skills that will facilitate and inspire student learning and creativity, enable development of digital age learning experiences and assessments, promote digital citizenship and responsibility, and use digital tools and resources to engage in professional growth and leadership. A teacher who possesses such innovative technology knowledge and skills for classroom application is an attractive employment candidate to any school district.

Applying for Admission

If you want to intern during FALL TERM, materials must be filed online by March 15.

If you want to intern during WINTER TERM, materials must be filed online by September 15.

Advising Offices

Information, written descriptions of programs, and referrals to advisors may be obtained from the following advising offices:

- Health and Physical Education, Room 260, Matthaei Building
- Music Education, 1321 Old Main
- All other programs, Room 489, Education Building

Art Education, Visual (Post-Baccalaureate Certificate)

The Visual Arts Education major for Post-Bachelor Certification requires thirty prerequisite course credits prior to admission to the program (usually taken during undergraduate studies in art), forty-four credits taken after admission to the College of Education, as well as Student Teaching. Potential students should make an appointment with coordinator Anita Ricks-Bates to discuss program requirements by calling 313-577-0490 or via e-mail at ad8045@wayne.edu.

Bachelor of Arts in Education - Elementary Education

Education (Elementary) Leading to K-8 Certification (Bachelor’s Degree Programs)

The elementary certificate qualifies the holder to teach all subjects in kindergarten through grade five and all K-8 subjects in a self-contained classroom. Additionally, the major and minor subjects may be taught if the teacher has passed the MTTC subject test.

Admission: Level 1
Entry to the College of Education
All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 23) into the College of Education in Level 1 status.

Admission: Level 2
Entry to Professional Education Sequence
The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This coursework should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.

2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 35) requirement prior to admission.

3. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.

4. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.

5. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://coe.wayne.edu/pdfs/criminal_history_new.pdf).

6. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110.

7. Special Education: Students seeking admission to Special Education must have completed the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 1110</td>
<td>Mathematics for Elementary School Teachers I (or have appropriate prerequisite math course in progress)</td>
<td>3</td>
</tr>
<tr>
<td>PSY 1010</td>
<td>Introductory Psychology</td>
<td>4</td>
</tr>
</tbody>
</table>

8. Secondary Education: Students seeking admission to Secondary Education must have twelve-semester credits completed in the major.

9. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

Application for Level 2 Standing
Upon completion of a minimum of fifty-three-semester credits of college coursework and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing (https://waynestate.a21.qualtrics.com/jfe/form/SV_3qKtBNQisMH0zyJ/). Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 23).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend Cornerstone Welcome.

DEGREE REQUIREMENTS (K-5 all subjects, K-8 self-contained certification)

All students must complete the College Requirements and the Planned Program/Comprehensive Major as outlined below. Students have a choice of selecting a core major or a student-centered minor (i.e. Bilingual-Bicultural Education, Early Childhood, English as a Second Language). Some of the courses cited in the following curricula may satisfy the University General Education Requirements (p. 35) AND requirements in the major and minor. No grade below ‘C’ may be used to meet requirements specific to elementary education, the major, the minor (including the planned minor), or professional education courses; a grade of ‘C-minus’ is not acceptable.

Early Childhood General and Special Education Concentration (non-certification option)

This concentration enables students to qualify for positions in Early Childhood Education (ECE) as lead teachers in infant/toddler and preschool educational settings. Students will earn a Bachelor of Arts in Elementary Education with a concentration in Early Childhood General and Special Education. The program is designed for persons interested in working with young children birth-to-five years old and their families. The program is a minimum of 120 credit hours and the focus of the curriculum is on the growth and development of the young child including children who have developmental delays or disabilities, and the influence of family and society dynamics on the child's development and learning. The ECE curriculum includes the theories, principles, development, and evaluation of relationship-based learning and teaching in early childhood intervention and education settings; as well as assessment and teaching strategies, materials and equipment for physical, social, language/communication, emotional, and intellectual development for all young children. Support systems for children and their families are examined to promote healthy development and learning. A field experience is required.

Bachelor of Arts in Education - Secondary Education

Education (Secondary) Leading to Grades 6 - 12 Certification (Bachelor’s Degree Programs)

The secondary education curriculum leads to a bachelor’s degree in education and secondary school teaching certification in the major and minor areas listed below. Whereas this degree is granted by the College of Education, students also have the option of earning secondary school certification in conjunction with a bachelor’s degree from the College of Fine, Performing and Communication Arts or the College of Liberal Arts and Sciences. For information regarding these combined degree programs, see an advisor. No grade below ‘C’ may be used to meet requirements specific to secondary education, the major, the minor (including the planned minor), or professional education courses; a grade of ‘C minus’ is not acceptable.

All students must complete the College Requirements, Level 2 Education Requirements and a major area of study, as outlined below. Students may also complete the requirements for a minor area of study.

Admission: Level 1
Entry to the College of Education
All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 23) into the College of Education in Level 1 status.

Admission: Level 2
Entry to Professional Education Sequence
The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This coursework should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.
2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 35) requirement prior to admission.
3. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.
4. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.
5. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://coe.wayne.edu/pdfs/criminal_history_new.pdf).
6. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110
7. Special Education: Students seeking admission to Special Education must have completed the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 1110</td>
<td>Mathematics for Elementary School Teachers I (or have appropriate prerequisite math course in progress)</td>

<tr>
<td>BIO 1510</td>
<td>Basic Life Mechanisms</td>
<td></td>
</tr>
<tr>
<td>SCE 5010</td>
<td>Biological Sciences for Elementary and Middle School Teachers</td>
<td></td>
</tr>
</tbody>
</table>

8. Secondary Education: Students seeking admission to Secondary Education must have twelve-semester credits completed in the major
9. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

Application for Level 2 Standing
Upon completion of a minimum of fifty-three-semester credits of college coursework and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing (https://waynestate.az1.qualtrics.com/jfe/form/SV_3qKIBNQlsMH0zyJ/).

Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 23).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend Cornerstone Welcome.

Level 1 Requirements
The following courses and course options are required of all students seeking secondary (grades 6-12) certification regardless of selection of major or minor studies. Some of these courses may also satisfy the University General Education Requirements (p. 35).

**Total Credits**: 42

### Visual Arts Education: Teaching Major

*(Minimum of 57 credit hours in Foundation, Intermediate, Advanced Studio/Methodology courses; Minimum of 23 credit hours in Professional Education and Student Teaching courses)*

A comprehensive major, as defined by the Michigan Department of Education, does not require a teaching minor.

This program is designed to provide professional preparation for individuals who seek K-12 certification in visual arts education. Students in this program receive the Michigan Secondary Provisional Teaching Certificate. It is recommended that students plan their coursework in advance with an advisor as accurately as possible to avoid extra courses or conflicts.

The program for visual arts education consists of University General Education Requirements (Competency Requirements and Group Requirements) for which see General Education Program: College Requirements; a teaching major of visual arts education with foundational, intermediate, and advanced studio coursework; and a sequence of professional education courses including one semester of half-day student teaching and one semester of full-day student teaching. The policy of the College of Education is to provide teaching experiences in both an urban and a suburban setting.

For specific course selections students should consult the College of Education advisor in room 469, Education Building.

### Arabic: Teaching Minor

*(Minimum 27 credit hours)*

Students must score the Intermediate High Level in Arabic, as measured by the Oral Proficiency Interview (OPI) from the American Council on the Teaching of Foreign Languages (ACTFL).
**Bilingual-Bicultural Education: Teaching Minor**

*(Minimum 23 credit hours)*

Students must demonstrate superior proficiency (speaking, reading, and writing) in a non-English language as measured by the Oral Proficiency Interview (OPI) and Writing Proficiency Test (WPT) from the American Council on the Teaching of Foreign Languages. (ACTFL).

**Chemistry: Teaching Minor**

*(Minimum 29 credit hours)*

**Economics: Teaching Minor**

*(Minimum 27 credit hours)*

Courses include:
Economics Elective at or above the 5000 level 3

Methodology Requirements

SSE 6710 Methods and Materials of Instruction in Secondary Social Studies 3

English as a Second Language (ESL): Teaching Minor

(Minimum 23 credits hours)

A major or minor in Language Arts is strongly recommended with an ESL Minor.

Bachelor of Arts in Education - Special Education

The special education curriculum leads to a bachelor's degree in education and certification in the area of cognitive impairment.

Admission: Level 1

Entry to the College of Education

All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 23) into the College of Education in Level 1 status.

Admission: Level 2

Entry to Professional Education Sequence

The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three-semester or eighty-quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This coursework should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.

2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 35) requirement prior to admission.

3. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.

4. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.

5. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://coe.wayne.edu/pdfs/criminal_history_new.pdf).

6. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110.

7. Special Education: Students seeking admission to Special Education must have completed the following courses:

<table>

<td></td>
</tr>
<tr>
<td>SCE 5010</td>
<td>Biological Sciences for Elementary and Middle School Teachers</td>
<td></td>
</tr>
</tbody>
</table>

8. Secondary Education: Students seeking admission to Secondary Education must have twelve-semester credits completed in the major.

9. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

Application for Level 2 Standing

Upon completion of a minimum of fifty-three-semester credits of college coursework and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing (https://waynestate.az1.qualtrics.com/jfe/form/SV_3qKtBNQIsMH0zyJ/). Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 23).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education
must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend Cornerstone Welcome.

All students must complete University General Education Requirements (p. 35), the Special Education Comprehensive Major (some of these courses may also satisfy the University General Education Requirements), Professional Education Requirements and the major area of study (Special Education Cognitive Impairment) as outlined below. The total number of credit hours for the degree varies from 153 to 156 depending on how General Education Requirements are met and the number of courses needed to complete a foreign language to the intermediate level.

No grade below 'C' may be used to meet any requirement specific to the Comprehensive Major, Professional Education Sequence and the Special Education major.

Major Areas of Study (Special Education)

Students pursuing a bachelor's degree in education leading to an endorsement in Cognitive Impairment must complete the following major requirements. The courses cited in the major, with the exception of SED 5000 and SED 5010, may be completed only after admission to the Special Education Level 2 Program.

Bachelor of Science in Education - Elementary Education

Education (Elementary) Leading to K-8 Certification (Bachelor’s Degree Programs)

The elementary certificate qualifies the holder to teach all subjects in kindergarten through grade five and all K-8 subjects in a self-contained classroom. Additionally, the major and minor subjects may be taught if the teacher has passed the MTTC subject test.

Admission: Level 1

Entry to the College of Education

All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 23) into the College of Education in Level 1 status.

Admission: Level 2

Entry to Professional Education Sequence

The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This coursework should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.

2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 35) requirement prior to admission.

3. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.

4. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.

5. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://coe.wayne.edu/pdfs/criminal_history_new.pdf).

6. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110

7. Special Education: Students seeking admission to Special Education must have completed the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 1110</td>
<td>Mathematics for Elementary School Teachers I (or have appropriate prerequisite math course in progress)</td>
<td>3</td>
</tr>
<tr>
<td>PSY 1010</td>

<tr>
<td>BIO 1510</td>
<td>Basic Life Mechanisms</td>
<td></td>
</tr>
<tr>
<td>SCE 5010</td>
<td>Biological Sciences for Elementary and Middle School Teachers</td>
<td></td>
</tr>
</tbody>
</table>

8. Secondary Education: Students seeking admission to Secondary Education must have twelve-semester credits completed in the major area for which the student is applying.

Application for Level 2 Standing

Upon completion of a minimum of fifty-three-semester credits of college coursework and all other Level 2 admission requirements, students should apply for Level 2 Standing (https://waynestate.as1.qualtrics.com/jfe/form/SV_3qKtBNQlsMH0zyJ/). Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 23).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend Cornerstone Welcome.

DEGREE REQUIREMENTS (K-5 all subjects, K-8 self-contained certification): The following requirements in various curricular areas supplement the degree requirements outlined above.

All students must complete the College Requirements and the Planned Program/Comprehensive Major as outlined below. Students have a choice of selecting a core major or a student-centered minor (i.e. Bilingual-Bicultural Education, Early Childhood, English as a Second
Language). Some of the courses cited in the following curricula may satisfy the University General Education Requirements (p. 35) AND requirements in the major and minor. No grade below ‘C’ may be used to meet requirements specific to elementary education, the major, the minor (including the planned minor), or professional education courses; a grade of ‘C-minus’ is not acceptable.

1 Courses are taken in public schools in the Detroit metropolitan area. All of the courses in the professional sequence must be completed before entering TED 5780.

**Early Childhood General and Special Education (non-certification option)**

This concentration enables students to qualify for positions in Early Childhood Education (ECE) as lead teachers in infant/toddler and preschool educational settings. Students will earn a Bachelor of Science in Elementary Education with a concentration in Early Childhood General and Special Education. The program is designed for persons interested in working with young children birth-to-five years old and their families. The program is 120 credit hours and the focus of the curriculum is on the growth and development of the young child including children who have developmental delays or disabilities, and the influence of family and society dynamics on the child's development and learning. The ECE curriculum includes the theories, principles, development, and evaluation of relationship-based learning and teaching in early childhood intervention and education settings; as well as assessment and teaching strategies, materials and equipment for physical, social, language/communication, emotional, and intellectual development for all young children. Support systems for children and their families are examined to promote healthy development and learning. A field experience is required.

Bachelor of Science in Education - Secondary Education

Education (Secondary) Leading to Grades 6 - 12 Certification (Bachelor's Degree Programs)

The secondary education curriculum leads to a bachelor's degree in education and secondary school teaching certification in the major and minor areas listed below. Whereas this degree is granted by the College of Education, students also have the option of earning secondary school certification in conjunction with a bachelor's degree from the College of Fine, Performing and Communication Arts or the College of Liberal Arts and Sciences. For information regarding these combined degree programs, see an advisor. No grade below 'C' may be used to meet requirements specific to secondary education, the major, the minor (including the planned minor), or professional education courses; a grade of 'C-minus' is not acceptable.

All students must complete the College Requirements, Level 2 Education Requirements, and a major area of study.

Admission: Level 1

Entry to the College of Education

All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 23) into the College of Education in Level 1 status.

Admission: Level 2

Entry to Professional Education Sequence

The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This coursework should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.

2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 35) requirement prior to admission.

3. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculin (T.B.) test prior to admission.

4. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.

5. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://coe.wayne.edu/pdfs/criminal_history_new.pdf).

6. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110

7. Special Education: Students seeking admission to Special Education must have completed the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 1110</td>

<td></td>
</tr>
<tr>
<td>SCE 5010</td>
<td>Biological Sciences for Elementary and Middle School Teachers</td>
<td></td>
</tr>
</tbody>
</table>

8. Secondary Education: Students seeking admission to Secondary Education must have twelve-semester credits completed in the major.

9. Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.
Application for Level 2 Standing

Upon completion of a minimum of fifty-three-semester credits of college coursework and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing (https://waynestate.az1.qualtrics.com/jfe/form/SV_3qKtBNQIsMH0zyJ/). Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 23).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend Cornerstone Welcome.

Level 1 Requirements

The following courses and course options are required of all students seeking secondary (grades 6-12) certification regardless of selection of major or minor studies. Some of these courses may also satisfy the University General Education Requirements (p. 35).

| Total Credits | 42-49 |

## Visual Arts Education: Teaching Major

*(Minimum of 57 credit hours in Foundation, Intermediate, Advanced Studio/Methodology courses; Minimum of 23 credit hours in Professional Education and Student Teaching courses)*

A comprehensive major, as defined by the Michigan Department of Education, does not require a teaching minor.

This program is designed to provide professional preparation for individuals who seek K-12 certification in visual arts education. Students in this program receive the Michigan Secondary Provisional Teaching Certificate. It is recommended that students plan their coursework in advance with an advisor as accurately as possible to avoid extra courses or conflicts.

The program for visual arts education consists of University General Education Requirements (Competency Requirements and Group Requirements) for which see General Education Program: College Requirements; a teaching major of visual arts education with foundational, intermediate, and advanced studio coursework; and a sequence of professional education courses including one semester of...
half-day student teaching and one semester of full-day student teaching. The policy of the College of Education is to provide teaching experiences in both an urban and a suburban setting.

For specific course selections students should consult the College of Education advisor in room 469, Education Building.

Arabic: Teaching Minor
(Minimum 27 credit hours)

Students must score the Intermediate High Level in Arabic, as measured by the Oral Proficiency Interview (OPI) from the American Council on the Teaching of Foreign Languages (ACTFL).

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>

Methodology Requirements

LED 6520 Teaching English as a Second Language/Foreign Language: Methods I 3

Total Credits 24

Bilingual-Bicultural Education: Teaching Minor
(Minimum 23 credit hours)

Students must demonstrate superior proficiency (speaking, reading, and writing) in a non-English language as measured by the Oral Proficiency Interview (OPI) and Writing Proficiency Test (WPT) from the American Council on the Teaching of Foreign Languages. (ACTFL).

<table>
<thead>
<tr>

Bachelor of Science in Education - Special Education

The special education curriculum leads to a bachelor's degree in education and certification in the area of cognitive impairment.

Admission: Level 1

Entry to the College of Education

All students intending to pursue a teaching curriculum who enter the University directly from high school, or transfer from other colleges are directly admitted by the University Admissions Office (p. 23) into the College of Education in Level 1 status.

Admission: Level 2

Entry to Professional Education Sequence

The standards listed below apply to those students entering the College of Education at Level 2: those working for a secondary or elementary school teaching certificate; those in a combined degree program; and those previously admitted at the freshman or sophomore level to the College of Education.

Eligibility for admission is based on the following criteria:

1. Satisfactory completion of fifty-three semester or eighty quarter credits of course work with an overall grade point average of 2.5 or above. In addition, the grade point average for any courses taken at Wayne State University must be 2.5 or above. This coursework should generally conform to the Level 1 courses prescribed by the College for students who expect to prepare for teaching. The quality of work, especially in the major area, must indicate a strong potential for success in a teacher-education program.

2. Intermediate Composition Competency Requirement: All Education students must satisfactorily complete the University intermediate composition competency (p. 35) requirement prior to admission.

3. Physical Health: Definite standards of health must be met by all students entering the College. All students are required to present a negative tuberculosis (T.B.) test prior to admission.

4. Group Work Experience: All students must have verifiable successful group work (forty hours) experience with children.

5. Criminal History Check: All students must submit a current (within the last six months) statewide criminal history check (http://coe.wayne.edu/pdfs/criminal_history_new.pdf).

6. Elementary Education: Students seeking admission to Elementary Education must complete MAT 1110

7. Special Education: Students seeking admission to Special Education must have completed the following courses:

<table>

</tbody>
</table>
Secondary Education: Students seeking admission to Secondary Education must have twelve-semester credits completed in the major.

Specific Prerequisites or other special requirements of the curriculum area for which the student is applying.

Application for Level 2 Standing

Upon completion of a minimum of fifty-three-semester credits of college coursework and all other Level 2 admission requirements, students should apply for College of Education Level 2 standing (https://waynestate.az1.qualtrics.com/jfe/form/SV_3qKtBNQIsMH0zjY/).

Applicants who have completed college work in institutions other than Wayne State must first apply for admission through the University Office of Admissions (p. 23).

Students who intend to receive degrees from other colleges in the University AND a teaching certificate from the College of Education must apply to the Combined Program through Academic Services, 489 Education Building. All applicants to Level 2 must attend Cornerstone Welcome.

All students must complete University General Education Requirements (p. 35), the Special Education Comprehensive Major (some of these courses may also satisfy the University General Education Requirements), Professional Education Requirements and the major area of study (Special Education Cognitive Impairment) as outlined below.

The total number of credit hours for the degree varies from 141 to 144 depending on how General Education Requirements are met.

No grade below 'C' may be used to meet any requirement specific to the Comprehensive Major, Professional Education Sequence and the Special Education major.

Total Credits: 30

### Urban Education and Equity Studies Minor

The College of Education offers a Minor in Urban Education and Equity Studies for undergraduate students majoring in other disciplines. This minor provides an excellent opportunity for students interested in pursuing a career in education, social service and community organizations, in planning, policy, and program development roles, as well as graduate and professional studies centered in urban ecologies.

The Minor in Urban Education and Equity Studies is a minimum of 18 credit hours consisting of at least 8 credits of required courses and 10 credits of elective courses. The 18 credit hours must have a minimum cumulative grade point average of 2.5, with no course grade below ‘C’. A grade of ‘C-minus’ or lower is not acceptable.

**Required Courses**

Theoretical and Behavioral Foundations

Interim Assistant Dean: William Hill
Office: 341 Education Building; (313) 577-1670
http://coe.wayne.edu/tbf/

The Division of Theoretical and Behavioral Foundations includes degree programs in educational evaluation and research, counseling, educational psychology, school and community psychology, counseling psychology, and rehabilitation counseling and community inclusion. There are also certificate programs in applied behavior analysis. The Division is designed to facilitate a realization of the following aims:

1. to integrate the educational experiences and course offerings;
2. to perform a service function in meeting the needs of those enrolled in other divisions within the College;
3. to provide degree and specialist programs for those who are majoring in a particular field of the division;
4. to provide students with an opportunity to study those aspects of educational thought and practice that are interdisciplinary as well as foundational;
5. to formulate programs looking toward the development of new combinations of specialties, as in:
   a. counseling-psychology,
   b. pupil personnel managers in school systems,
   c. utilization of theoretical and behavioral foundations in teacher education,
   d. underlying philosophical premises of educational programs and practices;
6. to design interdisciplinary, cross disciplinary, and multidisciplinary experiences for and with students.

   • Applied Behavior Analysis (Undergraduate Certificate) (p. 157)

Applied Behavior Analysis
(Undergraduate Certificate)

The undergraduate option in Educational Psychology is an Undergraduate Certificate in Applied Behavior Analysis (ABA). The training emphasizes working in clinical settings with people with Autism. This is a three course and three practicum sequence that is completed in addition to an existing major. It can be done simultaneous with or after completion of the bachelor's degree. This training provides students with the eligibility to sit for the Board Certified assistant Behavior Analyst (BCaBA) exam, which is part of earning the BCaBA credential. The successful demonstration of both academic and clinical skills will be achieved through coursework and intensive field experience working with children.

Admission Requirements

Admission to this program is determined by the program review committee. Requirements include: a minimum grade point average of 2.75, a program area application, any applicable university-level application, and an interview with program faculty. The following must be mailed to the program: program area application, transcripts, and three letters of recommendation. Post-bachelor's students apply directly to Wayne State University. Existing students may add Applied Behavior Analysis as a second program to an existing major. Contact the program secretary to obtain the current application and program information.

This course sequence is calendar controlled in that all students begin and end together, taking the same courses as a cohort. Required courses are:

</tbody>
</table>

Total Credits 18

In each of three semesters students take one course and one practicum, which involves 20 hours/week in a clinical setting with children with Autism. Students must not receive grades lower than a C in these courses in order to successfully complete the program. All course work and practica must be completed in accordance with the academic procedures of the College of Education and the University.
College of Engineering

Dean: Farshad Fotouhi

College Mission Statement
The College of Engineering has three important missions: teaching, research, and outreach — serving the region, State and nation as part of an urban comprehensive research university. Students are prepared for professional practice, graduate study, lifelong learning, and for leadership roles in society. Faculty members develop the scientific and technological base for the engineering profession, and disseminate advanced technical knowledge to engineers, other professionals, and the public. A balance among the three missions is sought through a partnership built among students, faculty, staff, alumni, government, and private industry. This is achieved by maintaining an academic environment that is both intellectually stimulating and supportive of all of its constituents, regardless of race, gender, or ethnic background.

College Organization
The academic programs of the College of Engineering are organized into two Divisions: Engineering and Engineering Technology.

The Division of Engineering includes seven academic departments:

• Biomedical Engineering
• Chemical Engineering and Materials Science
• Computer Science
• Civil and Environmental Engineering
• Electrical and Computer Engineering
• Industrial and Manufacturing Engineering
• Mechanical Engineering

Programs leading to the Bachelor of Science, Master of Science, and Doctor of Philosophy degrees in engineering are offered by these departments. Five programs leading to a Bachelor of Science in Engineering Technology and a Master of Science in Engineering Technology are offered in the Division of Engineering Technology.

Profession of Engineering
Engineering requires people of imagination who can plan and create. Engineers design, simplify, refine and economize. They are pragmatists serving the needs of society through the development and improvement of technology. The engineer’s resources include an intimate knowledge of scientific laws and their applications to engineering problems as well as ability to use mathematics and computers and, above all, an imaginative and an inquiring mind.

Engineers can start their careers in many functional roles — designer, test engineer, manufacturing engineer, sales engineer, researcher, or a combination of these and other roles. Engineering has become a profession that often leads to executive management positions. As more and more of the decisions of management in government and business are based on technical considerations, engineers with the necessary background are called upon to make these choices. Engineers do not devote their attention solely to innovations in technology. In all of these roles they look beyond their inventions and conceptions to consider the societal effect of their work, including its economic, aesthetic, safety, and environmental aspects.

At present, the minimum education required for general competence in the practice of engineering is a bachelor’s degree in one of the fields of engineering. However, many engineering positions require an additional year or two of education at the graduate level leading to the master’s degree. Whenever possible, students are urged to continue their education to this point. For engineering research or teaching, and in some areas of practice, the doctoral degree is recommended. For further information about graduate programs in engineering, consult the Wayne State University Graduate Bulletin.

For all engineers, continuing professional competence in the midst of our constantly changing technology requires educational renewal and a lifelong dedication to continuing education. The College offers seminars, institutes and off-campus programs to meet this need. In addition, regular College courses are available on an elective, post-degree basis.

Engineering Technologist

The evolution of our civilization has always been closely associated with technology and science. Now, and in the future, this association will become even more important. New knowledge has inspired advances in technology, resulting in new career opportunities. Far-reaching developments in communications and instrumentation technology, highly sophisticated machine tools and manufacturing processes, new energy sources and new man-made materials, and computer applications have all revolutionized the techniques of industrial manufacturing and management.

This on-going expansion of scientific and engineering knowledge has changed the make-up of the engineering team through the inclusion of the engineering technologist. The engineering technologist, in cooperation with the engineer, organizes people, materials and equipment to design, construct, operate, maintain and manage technical engineering projects. He or she should have a commitment to that technological progress which will create a better life for everyone. Because of the increasing challenges in this information age, it is no longer possible for one person to master all of the knowledge and skills necessary to execute technical projects. Quite often, a team effort is required — with each member of the team highly trained in a specific area. Today’s engineering teams involve engineers and engineering technologists and may also include technicians, scientists, physicians, craftsmen, and other specialists.

Engineering technology supports engineering activities through a combination of scientific and professional knowledge with technological skills and concentrates on the industrial applications of engineering. Because of the extensive variety of functional opportunities, and the wide variety of industrial enterprises available to the engineering technologist, there has been a great deal of specialization. An engineering technologist can specialize in three related ways: discipline, function and industry.

For example, the discipline could be mechanical, the function could be design, and the industry could be automotive; or the discipline could be electrical, the function field installation, and the industry electric power generation. Through its undergraduate and graduate programs, the Division of Engineering Technology allows students to gain the specialization that they desire to contribute to interdisciplinary teams as engineering technologists.

College Facilities

The College of Engineering’s facilities include five separate buildings with almost 300,000 square feet of classroom, office, and laboratory space. The newest of these is the Marvin I. Danto Engineering Development Center, featuring research and educational space that is dedicated to interdisciplinary work in areas of nanotechnology, automotive engineering, urban infrastructure, and alternative energies. Among the college’s facilities are multimedia classrooms, a comprehensive computer center, electronics and machine shops, student project space, dedicated teaching laboratories, and sophisticated research laboratories. The four multimedia classrooms support innovative course delivery techniques, including interactive distance learning with classrooms at a variety of sites within Wayne State, at other colleges and universities, and at industrial sites. The PACE Teaming Center is designed to promote
interdisciplinary project work with links to real-world engineering problems. The computer facilities include dedicated computer graphics, design, and personal computing hardware and software.

The Division of Engineering Technology is housed in a dedicated building of approximately 24,000 square feet, located at 4855 Fourth Street.

The undergraduate laboratories provide facilities in such areas as computer graphics, fluid mechanics, thermal sciences, system dynamics, statistical computation, materials science, and rapid prototyping. Some specific laboratories associated with departmental engineering specializations include: chemical measurements; chemical unit operations; materials testing and processing; nanomaterials synthesis, characterization, and device manufacturing; electron microscopy; optical metallurgy; soil mechanics; environmental and hydraulic engineering; roadway and building materials; structural modeling; analog and digital communications systems; computer systems; control systems; analog circuits; digital systems; microcomputers and microprocessor applications; power systems; electronics; optics; computer vision; artificial neural networks; integrated circuits fabrication; automotive engineering; human factors engineering; computer aided manufacturing; 3D printing, 3D CNC; robotics; sand casting and testing; and stress analysis.

These laboratories are used for instructional and research purposes along with such research facilities as a molecular beam laboratory; a clean room facility for device materials research; a biomechanics accelerator and impact laboratory; an acoustics and noise control laboratory; and a structural behavior laboratory. All of these are available for experimentation and research in connection with the undergraduate curricula on a college-wide basis.

The College provides support for the various instructional and research laboratories in the construction, modification, repair, calibration and installation of experimental equipment. In addition, the College offers sophisticated assistance in the design of electronic and instrumentation equipment and devices. Qualified students are encouraged to use these facilities under the supervision of trained professionals.

Many undergraduate and graduate students pursue their studies in the College while working in local industry, either full-time or part-time, where unique research facilities unavailable on campus may be found. In such situations, students are encouraged to pursue their college-credit research at the employment site, where they work under the joint supervision of their faculty advisor and a company representative. Such research can take the form of undergraduate directed study courses, Master of Science theses, or Ph.D. dissertations.

Accreditation
In addition to the accreditation of Wayne State University by the Higher Learning Commission of the North Central Association of Colleges and Secondary Schools, the undergraduate programs listed below are accredited by ABET Inc. In the Division of Engineering, the programs below that lead to a Bachelor of Science degree are accredited by the Engineering Accreditation Commission (EAC) of ABET Inc. The Electrical/Electronic Engineering Technology program and the Mechanical Engineering Technology program, offered by the Division of Engineering Technology, are accredited by the Technology Accreditation Commission (TAC) of ABET. Program accreditation is based upon careful, periodic appraisal of the faculty, curriculum, and facilities of the College. This approval provides assurance of an up-to-date, high quality education pertinent to the engineering profession. Such accreditation is recognized by other universities, prospective employers, and state professional licensing agencies.

Academic Regulations: Engineering Division
Undergraduate Registration
All Division of Engineering undergraduate students are required to meet with their Engineering advisor a minimum of once per academic year in order to discuss their academic progress and curriculum. It is strongly recommended that these meetings take place before each semester's registration. Special attention should be paid to course pre- and co-requisites as well as College grade requirements in prerequisites. It is the student's responsibility to ensure that all pre-requisite and co-requisite requirements are satisfied. Students will be removed from courses entered without satisfying these requirements. Students wishing to receive a waiver of pre- or co-requisite requirements must submit an Academic Petition prior to registering for the affected course.
Some courses may be offered only once a year; others may have multiple sections running every semester. The University Schedule of Classes (http://www.classschedule.wayne.edu), published prior to each semester, shows when and where the classes will meet and outlines registration procedures and times.

**Attendance Policy**

Regular attendance in classes is necessary for success in college work. Excessive unexcused absences may result in a student failing a course. The student should arrange with the course instructor in advance for all predictable absences. Absences due to illness or conditions beyond the student’s control should be reported as soon as possible via phone or e-mail to the instructor, and substantiating documentation provided upon the student’s return to class.

**Dean’s List of Honor Students**

A student who achieves a term grade point average of 3.5 or more, based on a program of twelve credits or more, is cited by the Dean for distinguished scholarship and is included on the Dean’s List of Honor Students.

**‘AGRADE’ Program (Accelerated Graduate Enrollment)**

Accelerated Graduate Enrollment: The College of Engineering enables academically superior undergraduate seniors to enroll simultaneously in undergraduate and graduate programs and apply a maximum of sixteen credits toward both an undergraduate and graduate degree in the student’s major field. Students who elect the ‘AGRADE’ Program may expect to complete the bachelor’s and master’s degrees in one additional year of full-time study.

To be eligible, applicants must have completed a minimum of ninety credits of course work applied towards the engineering degree and be accepted in the professional program of their major. The minimum grade point averages for acceptance into the program are a 3.3 g.p.a. overall and a 3.45 g.p.a. for courses in their department of specialization, as computed by the rules of the Division of Engineering. See the departmental academic advisor for further details.

**Student Conduct**

Each student is subject to official regulations governing student activities and student behavior. Furthermore, it is the responsibility of each student to adhere to the principles of academic integrity. Thus, a student should not falsely claim the work of another as his/her own, or misrepresent him/herself so that the measures of his/her academic performance do not reflect his/her own work or personal knowledge.

If there are reasonable grounds to believe that a student has violated the regulations or student responsibilities, he or she may be disciplined. Such discipline may include failure in the course, suspension or dismissal from the program. A description of the University’s Student Due Process Policy and a discussion of academic integrity can be found at the Dean of Students Office (http://www.doso.wayne.edu/assets/codeofconduct.pdf).

**Engineering Division Rules for Calculating Grade Point Average**

The Division of Engineering computes Departmental and College grade point averages using rules that differ from those used to compute the cumulative grade point average on the official University transcript: the College g.p.a. is calculated based on all engineering and technical courses, as well as required English courses (Students should consult their academic advisors for details). The Departmental g.p.a. includes all courses taken within the major department. The College g.p.a. includes all engineering courses and those courses that are prerequisite to an engineering course. The preprofessional g.p.a. is calculated to determine eligibility for admission to the professional program. Preprofessional requirements that have been satisfied through transfer credit will be included in the assessment of the pre-professional g.p.a.; however, they will not be included in the official University g.p.a. or final calculation of the College or Department g.p.a.

**Substandard Academic Performance**

If a grade below ‘C-minus’ is received in any course to be applied towards the degree, the student will be required to repeat that course in the next semester in which it is available. The course must be repeated and a satisfactory grade earned before the next course in the sequence is taken. Students will be administratively withdrawn from courses for which they have not satisfied course prerequisites. General education and technical elective courses, which are not specifically required for the degree, may be repeated or a different course may be chosen to satisfy that requirement. If a different course is selected, the first grade will not be replaced in the calculation of the g.p.a.

A course in which a grade below ‘C-minus’ has been earned may not be subsequently passed by special examination. Auditing Courses: Undergraduate students may elect to formally audit a course that interests them. In order to audit a course, a student must register for the class and pay the appropriate tuition. However, this course will not apply towards any degree requirements. Any course that has been completed for audit may not be subsequently enrolled in for credit, nor may credit be obtained by special examination.

Courses used to satisfy engineering program requirements may not be taken on a Pass-Fail basis, except for industry sponsored project courses taken for elective credit (maximum of 3 credit hours). Capstone design courses, even if they include an industry sponsored project, may not be taken on a Pass-Fail basis. Repeating Courses

Courses in which a grade lower than a ‘C-minus’ is earned must be repeated in the next regular (i.e., fall or winter) semester in which the course is offered. Exceptions to this rule must be approved by the Undergraduate Program Director, Department Chair, or the Associate Dean for Academic Affairs. If a student receives a substandard grade in a course at Wayne State University, they will be required to repeat that course at Wayne State University. Exceptions to this policy require prior written approval from the Associate Dean for Academic Affairs in order to take the course at another designated institution.

Students are directed to Repeating Courses — The mark of R (p. 74) for University policies related to repeating courses and credit by special examination. See also ‘Division of Engineering Rules for Calculating Grade Point Average,’ above.

**Exclusion from the College of Engineering**

Students will be allowed to repeat a maximum of five courses in which they have earned a grade less than C, or grades of WF or WN. If a student must repeat a sixth course in order to complete their degree, they will be excluded from the College of Engineering. Additionally, failure to pass a course with at least a ‘C-minus’ grade after three attempts constitutes grounds for exclusion from the College of Engineering. Prerequisite math and science courses that do not count for degree credit, but are required if students did not place into MAT 2010 and CHM 1225, are also counted towards exclusion from the College. Students who elect to repeat a course to improve their understanding of the material
even though a satisfactory (‘C-minus’ or higher) grade was received will not have this counted towards the number of allowed repeats. Following exclusion from the College of Engineering, the privilege of registering in the College will be withheld for at least one calendar year.

A student who has been refused the privilege of registering in the College of Engineering may request a re-consideration of his or her status by the Academic Standards Committee (ASC) after the one-year exclusionary period. He or she should not make the request, however, unless evidence can be provided of changes in academic preparation or circumstances that will substantially increase the likelihood of academic success. A formal written request for reconsideration must be presented to the Associate Dean for Academic Affairs. Students who plan to petition for readmission are encouraged to meet with their academic advisor as early as possible during the exclusion period to discuss what changes may provide an opportunity for readmission. In no case is readmission to the College of Engineering guaranteed.

Academic Probation
A student is considered to be on academic probation from the University whenever his or her cumulative grade point average falls below 2.0. All students on academic probation are required to meet with their academic advisor to discuss what steps should be taken to remedy the academic deficiencies. While on probation, a student may not represent the College of Engineering in student activities.

A student on probation is expected to remove the grade point deficiency promptly. If, at the end of the first semester on probation, the student’s cumulative grade point average has not increased to at least 2.0, they will be excluded from the College of Engineering. For part-time students, a semester will be considered to consist of twelve consecutive credits.

A student attending another engineering college who wishes to take course work at Wayne State for the purpose of credit transfer to the home institution may be admitted as a guest student for one term. This is done by applying through the University Office of Admissions using either the Application for Undergraduate Admission or the Graduate Student Application. These applications require certification by an official of the home institution. For information on graduate guest admission and visiting doctoral guests, see the Wayne State University Graduate Bulletin. Guest students are expected to have met the listed prerequisite requirements for courses in which they wish to enroll. Students wishing to register for 3000- or 4000-level engineering classes must first receive permission from the department that teaches the course.

Second and Concurrent Degree
In accordance with the University requirements, students may earn a Bachelor of Science in engineering concurrently with or subsequent to another bachelor’s degree at Wayne State University. Such students must complete at least thirty credits beyond those applied toward the first degree and must also satisfy applicable departmental and College requirements; consult an Engineering academic advisor to review these requirements.

Graduates with a minimum of sixty credits in residence at Wayne State University and a grade point average of at least 3.0 may qualify for a special diploma under the following conditions:

**Summa Cum Laude:** Student must have a grade point average in the 95th percentile of the College of Engineering graduating class.

**Magna Cum Laude:** Student must have a grade point average in the 90th percentile of the graduating class.

**Cum Laude:** Student must have a grade point average in the 80th percentile of the graduating class.

Commencement: Each year, commencement exercises are held May and December. College Order of the Engineer and Professional Order of Engineering Technology ceremonies will be held in May to induct graduates into these organizations.

**Guest Students**
A student attending another engineering college who wishes to take course work at Wayne State for the purpose of credit transfer to the home institution may be admitted as a guest student for one term. This is done by applying through the University Office of Admissions using either the Application for Undergraduate Admission or the Graduate Student Application. These applications require certification by an official of the home institution. For information on graduate guest admission and visiting doctoral guests, see the Wayne State University Graduate Bulletin. Guest students are expected to have met the listed prerequisite requirements for courses in which they wish to enroll. Students wishing to register for 3000- or 4000-level engineering classes must first receive permission from the department that teaches the course.

**Engineering: Minor Options**
A number of undergraduate programs within the University allow students to pursue a minor in the field. Engineering students may elect to complete a minor through another school or college in conjunction with their Bachelor of Science in Engineering. This minor will generally require course credit in addition to that required for the engineering degree.

**Bachelor of Science: Engineering Division**
Undergraduate Program Goals
The overall goal of the undergraduate engineering degree programs at Wayne State University is to prepare students for success in their immediate and long-term professional careers as engineering practitioners as well as for pursuing graduate and professional studies and lifelong learning.

Undergraduate programs in the College of Engineering are divided into three phases. All students must complete the professional program in order to earn their Bachelor of Science degree. The majority of students begin their engineering curriculum through the pre-professional program, which allows them to complete a limited number of courses while demonstrating their academic preparedness for the professional
program. Students who require additional background in math and science before entering the pre-professional program enter the College through the Eos Program and progress to the pre-professional program upon successful completion of a defined set of foundational courses.

**Recommended High School Preparation**

In order to place sufficient emphasis on the English, mathematics, physics, and chemistry required for normal progress in engineering, the recommended high school preparation for admission to the College of Engineering is:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Algebra</td>
<td>2 units</td>
</tr>
<tr>
<td>Chemistry</td>
<td>1 unit</td>
</tr>
<tr>
<td>English</td>
<td>4 units</td>
</tr>
<tr>
<td>Physics</td>
<td>1 unit</td>
</tr>
<tr>
<td>Plane and Solid Geometry</td>
<td>1.5 units</td>
</tr>
<tr>
<td>Social Science or Foreign Language</td>
<td>2 units</td>
</tr>
<tr>
<td>Trigonometry</td>
<td>0.5 unit</td>
</tr>
<tr>
<td>Electives</td>
<td>3 units</td>
</tr>
</tbody>
</table>

An incoming freshman with this background enters the pre-professional program if he or she earns satisfactory scores on the placement examinations in mathematics, chemistry and English (see below).

Students who are interested in pursuing a degree in engineering but who may not have the requisite background in science and mathematics, as demonstrated by their high school record, ACT or SAT scores, or placement exam results, will be admitted to the Eos Program (p. 165). This program is designed to provide students with the necessary background to proceed into and succeed in the pre-professional and professional programs in the engineering major of their choice.

**Admission**

Admission to the undergraduate programs in the College of Engineering is dependent upon high school grade point average (g.p.a.) and ACT or SAT scores for those students entering directly from high school, and upon grade point average and level of curriculum completion for transfer students from community colleges or other universities. The following admissions criteria cite minimum values used to place students in the professional, pre-professional, and Eos programs. Admission to all of these programs is contingent upon satisfaction of the general undergraduate admission requirements (p. 23) of the University. (p. 23)

**Admission: Professional Engineering Program**

Freshmen with a 3.5 or above high school g.p.a., both cumulative and in math and science, along with a Math ACT score of at least 26 or a Math SAT score of at least 620, are eligible for admission to the professional engineering program of their choice. The final requirement for direct admission to the professional program is placement into at least MAT 2010, CHM 1225, and ENG 1020 on the required placement examinations.

Students who have completed at least twelve credits of college-level coursework may be admitted to the pre-professional program if they have a minimum 3.0 overall g.p.a. Students must also have placed into, or transferred the equivalent of, MAT 1800, CHM 1225, and ENG 1020 (see below for descriptions of placement exam requirements). If fewer than twelve credits of college-level work have been completed, students must also submit their high school transcripts and ACT or SAT results.

**Matriculation**

**Entering Freshmen:** Students should plan on attending an Engineering Orientation session, scheduled in concordance with University Orientation, as early as possible to allow maximum flexibility in course scheduling. Students must take their placement exams and receive their results before attending an orientation session - allow at least seven days for the test results to post following the exam.

**Transfer Students:** For the student who has attended another institution and been admitted to the College of Engineering, the amount of advanced standing will be determined by the College and will depend upon the quantity and quality of the degree work completed prior to enrollment in this institution. Whether all, or only in part, such transferred credit may be applied toward a degree at Wayne State depending on the requirements of the curriculum chosen. No grade below a ‘C’ may be transferred into the College to satisfy a degree requirement. The student should consult the department academic advisor if he or she has any questions on their transfer status.

Course equivalency tables (http://www.transfercredit.wayne.edu) are designed to provide initial guidance. The decision of the Department and the College regarding the acceptance of transfer credit to be applied to the undergraduate degree in engineering is final and supersedes the published transfer tables. Any request for reconsideration of the evaluation of transfer credits accepted by the College of Engineering should be made in writing within one year of the date of the student’s first enrollment in the College of Engineering, or within one year of the date of the evaluation if the latter is made subsequent to the student’s enrollment in the College of Engineering.

**Pre-professional Engineering Programs**

Students in the pre-professional programs complete thirty-five to forty-five credits of their engineering curriculum, depending on their intended
most departments also require that students complete one or more 2000-level courses within their department (contact the academic advisor for more information).

In order to be admitted to the professional program of their choice, a student must complete the pre-professional courses with no grade lower than a ‘C-minus’ and a College grade point average for these courses of at least 2.5. Calculation of this pre-professional g.p.a. will include the grades earned in all courses listed above in addition to departmental pre-professional requirements. The required courses may have been completed at Wayne State or transferred from another institution. If a course was completed at Wayne State, the highest WSU grade will be included in this g.p.a. calculation. For courses taken only outside of WSU, the highest grade earned at another institution will be factored into the College’s calculation of the pre-professional g.p.a. (transfer grades are not included in the calculation of the official University g.p.a.). Students in the pre-professional program may opt to complete MAT 2150 and BE 2100, or defer them until after acceptance into the professional program; however, they will not be included in the calculation of the pre-professional grade point average.

Students who do not satisfy these pre-professional requirements will become ineligible to enter the professional program and are prohibited from enrolling in professional level (3000- and 4000-level) engineering courses. Students enrolled in the pre-professional program who fail to meet the 2.5 g.p.a. requirement after completion of the pre-professional courses will be subject to exclusion from the College of Engineering.

**Professional Engineering Programs**

Students must qualify for the professional program in order to complete their advanced engineering courses and apply for their bachelor’s degrees. Only students in the professional program in Engineering may register for 3000- and 4000-level engineering courses and, as an undergraduate, 5000-level technical electives. Exceptional students may be granted direct admission to the professional program – the majority of students will progress through the pre-professional program first.

**Honors Options**

Students who qualify, either as incoming freshmen or continuing students, may opt to pursue Engineering Honors and/or University Honors as they complete their Bachelor of Science degree. Students interested in pursuing University Honors will be enrolled in both the College of Engineering (primary College) and the Irvin D. Reid Honors College (secondary College). Students should work closely with both their Engineering and Honors advisor to select courses. In order to graduate with University Honors, students must maintain a cumulative g.p.a. of 3.3 or higher and must complete at least twenty-four credits of honors designated courses (please refer to the University Honors College (p. 244) requirements). To qualify for Engineering Honors in addition to University Honors, twenty-four credits of this coursework must include the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BE 2100</td>
<td>Basic Engineering III: Probability and Statistics in Engineering</td>
<td>3</td>
</tr>
<tr>
<td>BE 5998</td>
<td>Engineering Honors Thesis</td>
<td>4</td>
</tr>
<tr>
<td>HON 42XX</td>
<td>Honors Seminar that will satisfy General Education 3-4</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Requirements</td>
<td></td>
</tr>
</tbody>
</table>

 Eight credits of honors designated courses within the major department. Students should consult their department advisor for more information.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Total Credits</td>
<td>18-19</td>
</tr>
</tbody>
</table>

The additional credits of honors courses can be taken in any department, either as honors designated or honors option sections. Students can obtain a list of courses that will also satisfy College requirements (such as MAT 2010 or ECO 2010) from their advisor. Students may elect to pursue only Engineering Honors through the listed twenty-four credits of requirements without completing the requirements for University Honors.

**Cooperative Education Program**

Students who wish to enrich their education with on-the-job engineering experience may enroll in the Cooperative Education Program. In this program, full-time study terms are alternated with full-time work assignments in cooperating industries. The program may be entered at the beginning of the junior year. Special cooperative programs are available on a limited basis and provide special arrangements in the definition of the work-study period. Most of the work assignments are in the Metropolitan Detroit area on a commuting basis; however, job opportunities are available in other cities and states. The Co-op program is available in all undergraduate engineering curricula.

Each Co-op student may enroll for one academic course while on work assignment. This must be done with the approval of the student’s advisor and Co-op supervisor. Following each work assignment, the student may elect to enroll in BE 3510 or CHE 3510 for one credit. Election of the course requires the completion of a report on the work experience to the department advisor and to the Co-op Coordinator. This credit for work will not be counted toward graduation unless permission is specifically recommended by the department chairperson. Students are automatically enrolled for a zero credit course (BE 3500) each term that they are on a Co-op assignment to insure that the experience appears on their transcript. A brief evaluation report covering each work assignment is to be submitted to the Co-op Coordinator; whether there has been enrollment in the above one credit courses or not. The student’s performance on the job is rated by his/her industrial supervisor. Salaries and other benefits are paid for the time spent on each work assignment. For details and enrollment procedures, contact the Co-op Coordinator in the Career Planning and Placement Office.

**Degree Requirements**

The normal program of study for each of the degrees awarded in the College of Engineering requires from 120 to 136 credits. Of the total

Wayne State University Undergraduate Bulletin 2020-2021  163
credits for the degree, at least thirty-four credits must be completed as resident credits in the degree program of the College. Departments may impose additional requirements.

Although the curriculum plans of the departmental sections which follow indicate a four-year program, many students will require additional time to complete all degree requirements. The national average time required for students to complete an engineering degree is approximately 4.5 years after beginning the calculus sequence (MAT 2010). Completion of the degree requirements in four years requires the election of an average of seventeen credits each term during the academic year. A student who participates in the Cooperative Education Program will require longer. Students may attend the University on either a full-time or part-time basis (twelve credits are considered by the University as a minimum full-time load).

Students who pursue degrees on a part-time basis may require much more than 4.5 years to complete all degree requirements. The actual amount of time required will depend upon the student’s academic preparedness and the amount of time available for academic activities. The maximum load that a student carries should be consistent with the student’s ability and available time. However, since a credit is defined as one class hour requiring about two hours of preparation per week carried through a semester, the fifteen to twenty-one credit programs shown in the curricular plans represent a full forty-hour academic work week. A three-hour laboratory period is generally regarded as the equivalent of one credit. Students who wish to graduate in four calendar years but who wish to schedule sixteen or fewer credits per semester may accomplish this by deferring certain courses until the spring or summer term. Students should check with their advisors regarding the courses that can best be taken in Spring/Summer term. Students who do not follow the sequence as outlined by their department must make sure that all course prerequisites are satisfied.

Specific requirements for these bachelor’s degrees may be found in the departmental sections for this College. These requirements are in effect as of the publication date of this bulletin; however, students should consult an academic advisor for verification of current requirements. The following discussion concerns generic aspects common to all Bachelor of Science engineering programs with the exception of Computer Science.

### Basic Science Requirement

In order to meet accreditation requirements, all undergraduate engineering students are required to complete at least fifteen credits of basic science courses, including CHM 1225 and CHM 1230, PHY 2170 or PHY 2175 and PHY 2185. These courses are required in all of the engineering curricula (with the exception of computer science), and it should be noted that certain curricula require the completion of prescribed science laboratories and/or additional chemistry and physics courses.

In addition, each student must elect a basic or advanced science course. Students should consult with their advisor for the current list of acceptable courses.

### Mathematics Requirement

Engineering students use mathematics as a tool in all engineering and science courses in their college curricula, as well as later upon entry into the engineering profession. All prospective engineering students are encouraged to complete the number of units of mathematics stipulated in the section entitled Recommended High School Preparation, see High School Preparation, Recommended. Ideally, engineering students elect the first course in calculus (MAT 2010) in their first freshman term; however, many incoming students are not prepared to begin the mathematics program with calculus, and additional foundational coursework is necessary to strengthen the student’s background. This foundational coursework is not included in the total credits required for an engineering degree. All students entering the Division of Engineering with no transfer credit in calculus must take the Mathematics Placement Examination (see above).

### General Education Requirements

All students must satisfy the General Education Requirements (p. 35) of the University. In some cases, the College prescribes a more limited set of alternatives than permitted by the University in order to meet accreditation requirements while optimizing a path towards the degree. Students are cautioned to observe the following College requirements when selecting courses to satisfy General Education Requirements.

### Communication Skills

In addition to the basic composition course ENG 1020 (BC), six credits in communication skills (ENG 3050 and ENG 3060) are required of all Engineering students, and these satisfy the Intermediate Composition (IC) and Oral Communication (OC) requirements of the University.

### Inquiries

Engineering today extends far beyond technical decisions. Far-reaching effects of man-made technology require the engineer to be aware of and sensitive to his or her social responsibilities. Courses involving the engineer in sociological, economic, and aesthetic study are incorporated into the engineering program in order to insure an understanding beyond technical problems, which will enable the complete engineer to make value judgments concerning the impact of this technology upon society.

The College has, therefore, included a program in the social sciences and the humanities as a part of all engineering curricula. This program is integrated with the non-science portion of the University’s General Education Program, which requires a student to elect one course from each of six categories. The Engineering Division imposes requirements in addition to the University-wide restrictions on some of the courses that satisfy General Education Requirements. These restrictions are described above and are shown in the degree requirements for each engineering program.

### Technical Electives

Technical electives may be chosen from a selection of course offerings of the College of Engineering and the advanced science and mathematics courses of the College of Liberal Arts and Sciences. Other courses, such as advanced courses in the Mike Ilitch School of Business, may be elected with the prior approval of the undergraduate program director. The purpose of the technical elective is to increase the depth or breadth of one’s professional knowledge. Courses should be selected so as to meet this objective. Engineering courses elected as technical electives are normally selected at the 5000-level. These courses are open to both undergraduate and graduate students. Technical electives require the approval of a student’s department and should be discussed with his or her academic advisor.

### Placement and Qualifying Examinations

All entering freshmen must take the placement examinations in mathematics, chemistry and English. Transfer students who do not have transfer credit equivalent to MAT 2010, CHM 1225/CHM 1230, and ENG 1020 (with a grade of ‘C’ or higher) must take the appropriate placement examination. Consult the Office of Testing, Evaluation, and Student Life Research Services (http://www.testing.wayne.edu) for information regarding the schedule for the examinations.

### Chemistry (Qualification Exam)

The sequence of chemistry courses for the engineering student normally begins with CHM 1225 and CHM 1230. Qualification for CHM 1225 and
CHM 1230 requires a satisfactory score on the Chemistry Placement Examination. If a student is not properly prepared to consider placement in CHM 1225 and CHM 1230, direct entry into CHM 1040 is permissible.

English (Placement Exam)
All entering freshmen and transfer students shall determine their aptitude in English composition by taking the English Placement Examination unless they have earned credit equivalent to ENG 1020 through transferred courses, AP examinations, or the CLEP program. Students whose score on the English Placement Examination indicates a need for additional instruction and practice in writing must elect and pass ENG 1010 before they can enroll in ENG 1020.

Mathematics (Qualification Exam)
The sequence of mathematics courses for the engineering student normally begins with MAT 2010. For admission to MAT 2010, a qualifying examination must be passed. The placement examination must be taken by all students who have not transferred in the equivalent of MAT 2010, completed with at least a grade of ‘C,’ or through AP credit. Students may apply to take the placement examination for either MAT 1800 or MAT 2010 depending upon their preparation in mathematics. The MAT 1800 Placement Examination is based upon one and one-half years of high school algebra and one year of high school geometry. The MAT 2010 Placement Examination is based upon a total of three and one-half to four years of college preparatory mathematics covering algebra, plane and solid geometry and trigonometry.

Failure to qualify for MAT 2010 may result in the student being placed in a lower level course such as MAT 0993, MAT 1070, or MAT 1800 depending upon the student’s performance. Engineering students who do not take the Mathematics Placement Examination prior to registration for the first semester of the freshman year must enroll in MAT 0993.

Emerging Scholars and Rising Scholars Programs
All engineering students who place into MAT 1070, MAT 1800 or MAT 2010 are encouraged to apply to the Emerging Scholars Program. Students who place into MAT 0993 are required to apply to the Rising Scholars Program. These are enhanced mathematics programs that provide additional experience in mathematical applications and problem solving, better preparing students for engineering problem solving. Contact the Department of Mathematics for more information: 1150 Faculty/Administration Building; 313-577-2479.

Eos Program
Students who meet the requirements for University admission but do not meet the academic record or placement requirements of the pre-professional or professional programs will be admitted to the Eos Program.

The Eos Program is designed for those students who are interested in pursuing a degree in engineering but who may need some additional foundational work in mathematics and science in order to obtain the requisite background to succeed. Eos students participate in the following two-semester sequence of courses with a cohort of students:

<table>

</tbody>
</table>

MAT 1800 Elementary Functions 4
MAT 1990 Precalculus Workshop 2
General Education Course 3
Total Credits 29

In order to progress from the Eos Program to the pre-professional program, a student must complete each of the required courses with a grade of ‘C-minus’ or higher and an overall grade point average of at least 2.5. Only two substandard grades (p. 159) are permitted within the Eos requirements if a student wishes to remain in the College. Students receive close attention from the engineering advisors so that early intervention may be arranged for students who face academic difficulties. As part of this course work, each Eos student meets on a weekly basis with an engineering mentorship group to provide an opportunity for discussion and peer support.

Students who place into MAT 0993 must complete this course in addition to those listed above. This requirement will delay completion of the Eos Program until the end of the spring/summer semester. Students who place into MAT 0993 should work closely with their academic advisor to develop a three-semester plan of courses to satisfy the Eos requirements.

Basic Engineering Courses
The following courses in basic engineering are of a general nature and are used by students in all of the Division of Engineering disciplines.

BE 1001 Engineering Bridge Mentorship Program Participant I Cr. 1
Required peer mentorship program for Engineering Bridge students. Offered Every Term.
Corequisite: BE 1060
Restriction(s): Enrollment is limited to students with a major in Engineering.

BE 1002 Engineering Bridge Mentorship Program Participant II Cr. 0
Required peer mentorship program for Engineering Bridge students. Offered Winter.
Corequisite: BE 1060

BE 1060 Building a Foundation for College Success Cr. 1
Satisfies General Education Requirement: Wayne Experience
This course is designed to expose students to the Wayne State University undergraduate experience. Students will gain an understanding of campus resources, institutional values, and the merits of a liberal arts education from an urban research one university. This course will aid in the development of critical and analytical thinking skills necessary for college success while determining one's academic and professional goals. Offered Winter.
Restriction(s): Enrollment limited to students with a class of Freshman.

BE 1101 Introduction to Officership Cr. 1
Classroom introduction to leadership, and the experiential examination of leadership, followership, decision-making, and group accomplishment of tasks. Offered Every Other Year.

BE 1102 Introduction to Leadership Cr. 1
Continuation of BE 1101; focus on communications, leadership, and problem-solving. The light infantry platoon and the troop leading process. Offered Every Other Year.
Prerequisite: BE 1101 with a minimum grade of C-
BE 1200 Basic Engineering I: Design in Engineering Cr. 3
Core principles of engineering practice: design, teamwork, professional ethics. Offered Fall, Winter.
Prerequisites: MAT 1050 with a minimum grade of C (may be taken concurrently), MAT 1070 with a minimum grade of C (may be taken concurrently), MAT 1800 with a minimum grade of C (may be taken concurrently), MAT 2100 with a minimum grade of C (may be taken concurrently), MAT 2200 with a minimum grade of C (may be taken concurrently), or MAT 2030 with a minimum grade of C (may be taken concurrently)
Course Material Fees: $50

BE 1300 Basic Engineering II: Materials Science for Engineering Applications Cr. 3
Fundamentals of materials science; emphasis on how material properties and behavior affect engineering applications. Offered Every Term.
Prerequisites: (CHM 1225 with a minimum grade of C- or CHM 1220 with a minimum grade of C-), CHM 1230 with a minimum grade of C-, BE 1200 with a minimum grade of C- (may be taken concurrently), (PHY 2170 with a minimum grade of C- (may be taken concurrently) or PHY 2175 with a minimum grade of C- (may be taken concurrently)); and MAT 2020 with a minimum grade of C- (may be taken concurrently)
Corequisite: BE 1310

BE 1310 Materials Science for Engineering: Laboratory Cr. 1
Laboratory component of B E 1300. Offered Every Term.
Corequisite: BE 1300
Course Material Fees: $35

BE 1500 Introduction to Programming and Computation for Engineers Cr. 3
Use of computational tools, such as Excel and MATLAB, to solve engineering problems. Topics include general engineering problem solving, algorithm development, programming, and computational analysis. Offered Fall, Winter.
Prerequisites: MAT 2010 with a minimum grade of C-
Restriction(s): Enrollment is limited to Undergraduate level students.

BE 1600 Introduction to Programming and Computation: Python Cr. 3
An introduction to programming using Python for students with no programming experience. Basic control structures (sequence, selection, repetition) and all core data types using objects. Practice on core data structures (string, list, tuple, dictionary, and set). Design, implementation and testing of programs to solve problems with an emphasis on data manipulation using real world, practical examples. Offered Fall, Winter.
Prerequisites: MAT 2010 with a minimum grade of C-

BE 2100 Basic Engineering III: Probability and Statistics in Engineering Cr. 3
An introduction to application of probability theory and statistical methods in engineering, including design and manufacturing. Offered Every Term.
Prerequisite: MAT 2020 (may be taken concurrently) with a minimum grade of C-

BE 2201 Innovative Tactical Leadership Cr. 1
Military organizational leadership with focus on leadership development and interpersonal group dynamics. Offered Every Other Year.
Prerequisite: BE 1102 with a minimum grade of C-

BE 2202 Leadership in Changing Environments Cr. 2
Challenges of leading in complex contemporary operational environments. Cross-cultural challenges of leadership applied to practical Army leadership tasks and situations. Offered Every Other Year.
Prerequisite: BE 1102 with a minimum grade of C-

BE 3000 Engineering Bridge Mentorship Program Leader Cr. 0
Documentation of mentor participation in Engineering Bridge Program. Offered Every Term.
Restriction(s): Enrollment limited to students in the following programs: BS in Chemical Engineering, BS in Civil Engineering, BS in Electrical Engineering, BS in Industrial Engineering, BS in Mechanical Engineering; enrollment limited to students in the College of Engineering.

BE 3301 Leading Small Organizations I Cr. 2
Leadership development and interpersonal and group dynamics. Methods of visualizing, planning and leading organizations to achieve set goals. Offered Every Other Year.

BE 3302 Leading Small Organizations II Cr. 2
Offered Every Other Year.
Prerequisite: BE 3301 with a minimum grade of C-

BE 3510 Co-Op Experience Cr. 1
Engineering practice under supervision in cooperative education program. Written report required. Offered Every Term.
Restriction(s): Enrollment limited to students in the following programs: BS in Chemical Engineering, BS in Civil Engineering, BS in Computer Science, BS in Electrical Engineering, BS in Industrial Engineering, BS in Mechanical Engineering; enrollment limited to students in the College of Engineering.
Repeatable for 4 Credits

BE 3900 National Design Competition Participant Cr. 0
For engineering undergraduates who are active team members in national engineering design competition projects. Satisfactory completion of this course will document active participation throughout the semester. Offered Every Term.

BE 4401 Leadership and Management Cr. 3
Multiple styles and theories of leadership, ethical decision making, especially as relating to changing organizational and individual behavior; accomplishing goals in resource-constrained environments. Offered Every Other Year.
Prerequisite: BE 3302 with a minimum grade of D-

BE 4402 Military Professionalism and Professional Ethics Cr. 3
Evaluation and assessment of needs of subordinate units and individuals; near-term and short-term plans to address these needs. Analysis of a historical battle as well as analysis of moral and leadership dilemmas in history. Offered Every Other Year.
Prerequisite: BE 4401 with a minimum grade of C-

BE 5900 National Design Competition Projects Cr. 1-4
Primarily for engineering undergraduates who are dedicating a substantial amount of effort towards college-sponsored national design competition projects. Offered Every Term.
Repeatable for 99 Credits

BE 5995 Special Topics in Engineering Cr. 4
Special topics not covered in other courses; topics announced in Schedule of Classes. Offered Every Term.
Repeatable for 99 Credits
alternatives for the repair of the system. As the population ages and as breakdowns in that system, and medical interventions as design views the human body as a complex system, its diseases and injuries in a completely integrated fashion. The result is an engineer who brings together traditional engineering principles with the life sciences on it, whether they be diagnostic or traumatic. A biomedical engineer engineering principles can be applied to better understand how the in engineering. This field has developed from the knowledge that restriction(s): Enrollment limited to students in the College of Engineering.

Biomedical Engineering Special Topics Courses

The following special topics courses are of a general nature and are used by students in all of the Division of Engineering disciplines.

EGR 5655 Innovation & Entrepreneurship I Cr. 3
Provides education and hands-on experience in innovation and entrepreneurship applied to enterprise, product and service design and delivery. The first of a 2-semester sequence, this course teaches methods and tools to find, formulate, and develop engineering innovation and entrepreneurship, leading to practical, relevant, and productive new commercial and social enterprises. Offered Fall.

Restriction(s): Enrollment limited to students in the College of Engineering.

EGR 5656 Innovation & Entrepreneurship II Cr. 3
Provides education and hands-on experience in innovation and entrepreneurship applied to enterprise, product and service design and delivery. This course is the second of a 2-semester sequence. This course teaches methods and tools to find, formulate and develop engineering innovation and entrepreneurship, leading to practical, relevant, and productive new commercial and social enterprises. Offered Winter.

Restriction(s): Enrollment limited to students in the College of Engineering.

EGR 5657 Innovation & Entrepreneurship Lab Cr. 1
Provides hands-on application of Lean LaunchPad principles in innovation and entrepreneurship applied to enterprise, product and service and delivery. Offered Every Term.

Restriction(s): Enrollment limited to students in the College of Engineering.

Repeatable for 2 Credits

EGR 5995 Special Topics in Engineering Cr. 1-4
State of the art research, development and practice topics from across the fields of engineering; emphasis on interdisciplinary topics. Offered Every Term.

Restriction(s): Enrollment limited to students in the College of Engineering.

Repeatable for 4 Credits

Biomedical Engineering

Office: 818 W. Hancock; 313-577-1344
Chairperson: Cynthia Bir
http://engineering.wayne.edu/bme/

Biomedical engineering (BME) is one of the fastest growing disciplines in engineering. This field has developed from the knowledge that engineering principles can be applied to better understand how the human body functions as well as the effect that outside forces have on it, whether they be diagnostic or traumatic. A biomedical engineer brings together traditional engineering principles with the life sciences in a completely integrated fashion. The result is an engineer who views the human body as a complex system, its diseases and injuries as breakdowns in that system, and medical interventions as design alternatives for the repair of the system. As the population ages and medical costs increase, biomedical engineers are required both to understand the mechanistic causes of injury and disease and to design and implement interventions to prevent and mitigate the suffering of individuals and to reduce the cost of medical care to society.

Wayne State has a long history with respect to biomedical engineering research. In 1939, faculty from the College of Engineering and School of Medicine began collaborating to investigate the mechanisms of injuries to the human body, and educational programs in the area of biomedical engineering have existed at Wayne State since the 1950s. They have developed from a few courses taken within traditional engineering departments to the graduate degree program in biomedical engineering, introduced in 1998. The Department of Biomedical Engineering, interdisciplinary between the College of Engineering and the School of Medicine, was established in 2002. Drawing upon the strengths of the biomedical engineering graduate program, the Department has established a new undergraduate program that accepted its first students for the Fall 2010 semester.

• Biomedical Engineering (B.S.) (p. 167)

Biomedical Engineering (B.S.)

Wayne State’s undergraduate program in biomedical engineering is built upon a strong foundation of engineering that integrates biomedical sciences early in the curriculum and continuously throughout subsequent coursework. In order to prepare students for careers and/or further education, traditional lectures are combined with problem-based and project-based learning to allow students to immediately apply their foundational knowledge to biomedical engineering challenges. These individuals are available to support students in selecting courses, identifying research and internship opportunities, and discussing plans for after graduation. Students are encouraged to join and actively participate in the campus chapter of the Biomedical Engineering Society (BMES) for networking and professional development opportunities.

Admission Requirements

Students qualifying for admission to the College of Engineering must select the B.S.B.M.E. program in the online application. The applicant must provide supporting documentation as instructed. Due to the challenging nature of biomedical engineering, the undergraduate program is highly selective and admits students who have a demonstrated
ability in math and science. In addition, the program is structured as a cohort-based program. Therefore, admission for transfer students requires completion of a minimum set of prerequisite courses. They must complete all of the first year coursework to join the second year program. Students are only able to join the second year program as transfer students regardless of transfer credits.

**Freshman Admission:** Students wishing to enter the program immediately following high school are expected to have a minimum math/science g.p.a. of 3.3 and a minimum Math ACT/SAT score of 26/610. Students who have completed college-level coursework through dual enrollment programs will still be considered as freshmen. For full consideration for fall admission, including all scholarship opportunities, students should apply to the University and the Biomedical Engineering Program by December 1. Following admission, students must confirm placement into at least Calculus I (MAT 2010) and General Chemistry + lab (CHM 1225+CHM 1230) through either testing (ACT/SAT, AP, Placement Exams) or transfer credit. Admitted students who do not meet these criteria will be admitted as Pre BME.

**Transfer Admission:** Students may apply to transfer into the program after completing college-level coursework at Wayne State or at another post-secondary institution. Transfer students may apply to join the program as part of a first year or second year cohort depending on the coursework that they have previously completed. Students wishing to join the program in the second year are required to complete the program’s first-year coursework. The following classes should be completed, or in progress, for transfer students to be considered to join each cohort:

<table>

Applicants without all of the expected placement or coursework will be required to complete missing items during spring/summer term. Transfer students are accepted on a space-available basis. Prospective students are expected to have earned a minimum math/science g.p.a. of 3.33 in their college coursework.

Candidates for the Bachelor of Science degree must complete 120 credits of coursework, including the University General Education (p. 35) requirements. A maximum of 35 credits of Competencies, Group Requirements, and Wayne Experience Requirements (WE) shall comprise the General Education Program. Wayne Experience (WE), is a one credit course required of all first year students. Forty-eight credits of coursework must be in engineering sciences or engineering design. Most courses offered by other engineering departments count toward this forty-eight engineering credit requirement. Note: BME 2050, BME 4010, and BME 5070 count as life science courses and not engineering courses. All course work must be completed in accordance with the academic procedures of the University (p. 9) and the College of Engineering (p. 159) governing undergraduate scholarship and degrees. All prerequisite coursework must be completed; any waivers to listed prerequisite courses must be approved by the Undergraduate Program Chairperson. In compliance with the academic requirements of the College of Engineering, students must earn a grade of C- or higher in all courses applied to the B.S.B.M.E. degree requirements. The 8-semester curriculum for the program is provided below. Students interested in attending medical or dental school after graduation may add any remaining pre-professional requirements into their curriculum with minimal difficulty.

### Honors and Accelerated Master’s AGRADE Program

All students in the B.S.B.M.E. program are encouraged to pursue their degree with Engineering and/or University Honors. Students can complete their requirements for Honors within the 125 credits required for the program. The required Honors thesis will satisfy the requirement for one of the concentration electives.

Students who have earned at least a 3.45 g.p.a. through their junior year may apply to the AGRADE Program. Through this program, students may earn their M.S. in biomedical engineering with one additional year of coursework (18 credits).

---

### Chemical Engineering and Materials Science

**Office:** 1100 W. Engineering Building; 313-577-3800  
**Interim Chairperson:** Jeffrey Potoff  
http://engineering.wayne.edu/che/

Chemical engineering applies the sciences of chemistry, biology, physics and mathematics in a synergistic way to develop new or improved technologies, products and processes for the benefit of mankind. The chemical engineering B.S. degree provides a strong technical background, from which graduates may enter into professional careers in fields such as petrochemical processing, energy, pharmaceuticals, medical devices, advanced materials, semiconductor processing, biotechnology, environmental control, natural and synthetic rubbers and plastics, surface coatings, food processing, cosmetics, and consumer products. Many chemical engineering undergraduates continue their studies in graduate programs (M.S. or Ph.D.) in chemical engineering, or in related disciplines such as materials science and biomedical engineering, in preparation for careers in research and development. Chemical engineering also provides excellent undergraduate preparation for professional programs in medicine (M.D.), law (J.D.), and business (M.B.A.).

The undergraduate program in chemical engineering includes studies in chemistry, mathematics, and physics, as well as an understanding of physical, biological and chemical systems and processes. Engineering science courses cover material and energy balances, transport phenomena, thermodynamics, reaction kinetics, separation processes, and dynamics, simulation, and control of systems and processes.

In addition to the Undergraduate Program Goals, the specific objectives of the chemical engineering B.S. program are:

1. **Engineering Practice.** Graduates of the B.S. in Chemical Engineering program will have the ability to successfully pursue professional employment in an entry-level position in chemical engineering or related disciplines.
2. **Graduate Education.** Graduates of the B.S. in Chemical Engineering program will be academically well-prepared to pursue graduate study in chemical engineering and related disciplines.

3. **Science and Mathematics.** Graduates of the B.S. in Chemical Engineering program will be able to apply fundamental knowledge in chemistry, physics, biology, mathematics, and engineering to practical problems in chemical engineering, and related disciplines.

4. **Engineering Analysis.** Graduates of the B.S. in Chemical Engineering program will be able to apply theoretical, computational, and experimental methods to solve engineering problems.

5. **Design.** Graduates of the B.S. in Chemical Engineering program will be able to apply principles and methods of chemical engineering to the design of chemical processes and products.

6. **Communications.** Graduates of the B.S. in Chemical Engineering program will be able to communicate effectively in oral and written technical presentations and reports.

7. **Professionalism.** Graduates of the B.S. in Chemical Engineering program will be aware of the social responsibility of engineers and the importance of ethics in the engineering profession.

8. **Self-learning.** Graduates of the B.S. in Chemical Engineering program will be able to acquire new knowledge through self-learning and continuing education, as needed in their professional careers.

9. **Co-op and Undergraduate Research Experience.** Graduates of the B.S. in Chemical Engineering program will have received opportunities to enrich their preparation for professional practice and/or graduate studies through co-op experience and internships, and through undergraduate research experiences.

10. **Advanced Technical Knowledge.** Through the program’s curriculum options, graduates of the B.S. in Chemical Engineering program will have acquired in-depth knowledge in one of the following areas: Product and Process Engineering; Biological Engineering; Molecular Engineering and Nanotechnology.

   - Chemical Engineering (B.S.) (p. 170)

### Chemical Engineering (B.S.)

Chemical engineering applies the sciences of chemistry, biology, physics and mathematics in a synergistic way to develop new or improved technologies, products and processes for the benefit of mankind. The chemical engineering B.S. degree provides a strong technical background, from which graduates may enter into professional careers in fields such as petrochemical processing, energy, Pharmaceuticals, medical devices, advanced materials, semiconductor processing, biotechnology, environmental control, natural and synthetic rubbers and plastics, surface coatings, food processing, cosmetics, and consumer products. Many chemical engineering undergraduates continue their studies in graduate programs (M.S. or Ph.D.) in chemical engineering, or in related disciplines such as materials science and biomedical engineering, in preparation for careers in research and development. Chemical engineering also provides excellent undergraduate preparation for professional programs in medicine (M.D.), law (J.D.), and business (M.B.A.).

The undergraduate program in chemical engineering includes studies in chemistry, mathematics, and physics, as well as an understanding of physical, biological and chemical systems and processes. Engineering science courses cover material and energy balances, transport phenomena, thermodynamics, reaction kinetics, separation processes, and dynamics, simulation, and control of systems and processes.

**Admission Requirements:** Admission is contingent upon satisfaction of the general undergraduate admission requirements of the University (p. 23) and the bachelor of science programs in the College of Engineering (p. 161).

### Mission Statement

As an urban research university, our mission is to discover, examine, transmit, and apply knowledge that contributes to the positive development and well-being of individuals, organizations, and society. Wayne State University is a national research institution dedicated to preparing students to excel in an increasingly advanced and interconnected, global society.

### Program Educational Objectives

1. The overall objective of the BS CHE program at Wayne State University is to prepare students for a) success in their immediate and long-term careers as practicing chemical engineers; and b) success in continuing education in graduate and professional schools.

2. The program supports the university’s urban mission by promoting diversity and encouraging disadvantaged and nontraditional students to enter the engineering profession.

3. We utilize our faculty’s strengths in research to enrich undergraduate education through: a) individual undergraduate research experiences; and b) we engage in educational partnerships with our industrial constituents in southeastern Michigan through an active undergraduate co-op program.

### Student Outcomes

The Student Outcomes are described below, and the contribution of each Program Outcome to the ABET Criterion 3, components 1-7 is explained. ABET Criterion 3 1-7 can be found at: https://www.abet.org/accreditation/accreditation-criteria/criteria-for-accrediting-engineering-programs-2020-2021/

1. **Chemistry.** Graduates of the BS CHE program will possess a strong grounding in Chemistry, together with a working knowledge of organic chemistry and materials science. Graduates will possess a working knowledge of either physical chemistry or biochemistry, depending on their choice of Curriculum Options. Contributes to the Science portion of Criterion 3 component (1).

2. **Math and Science.** Graduates of the BS CHE program will possess a working knowledge of mathematics, including calculus through differential equations, and they will be able to apply modern mathematical and computational techniques to the solution of engineering problems. Graduates will be well grounded in physics. Contributes to the Math and Science parts of Criterion 3, component (1).

3. **Chemical Engineering Fundamentals.** Graduates of the BS CHE program will possess a working knowledge of material and energy balances applied to chemical processes; thermodynamics of physical and chemical equilibrium; fluid flow and heat transfer; chemical reaction kinetics and reaction engineering; mass transfer and separation processes, and they will be able to apply this knowledge to identify, formulate, and solve engineering problems. Contributes to Criterion 3, components (1) and (7).

4. **Chemical Process Engineering.** Graduates of the BS CHE program will possess a working knowledge of process dynamics and control and product and process design. Contributes to the Engineering part of Criterion 3, component (1). Contributes intensively to Criterion 3, components (2), (4), and (6) through the design project in CHE 4200 (Product and Process Design).

5. **Design Experience.** Graduates of the BS CHE program will develop skills in engineering design via content throughout the curriculum that
includes identification, formulation, and solution of open-ended problems, scale-up concepts, consideration of safety and environmental issues, and understanding of economic factors. Contributes to the engineering part of Criterion 3, component (1). Contributes intensively to Criterion 3, components (2), (3), (4), (5), and (7) through the capstone design projects in CHE 4200 (Product and Process Design) and CHE 4800 (Chemical Process Integration).

6. **Laboratory Experience.** Graduates of the BS CHE program will develop experimental skills via laboratory experiences relevant to chemical engineering principles, covering design of appropriate experiments for measurement of engineering properties and process variables, the analysis and interpretation of data, written and oral presentation of results, and teamwork skills including project management and multidisciplinary team functions. Contributes broadly to Criterion 3, component (1). Contributes intensively to Criterion 3, components (5), (6), and (7).

7. **Advanced Technical Knowledge.** Graduates of the BS CHE program will develop in-depth knowledge of an advanced area of chemical engineering through a variety of technical elective course options. Contributes to Criterion 3, component (1).

8. **Communication Skills.** Graduates of the BS CHE program will be able to communicate effectively in oral presentations, electronic communications, and written technical reports. Contributes to Criterion 3, component (3).

9. **Professionalism.** The BS CHE program will develop awareness in staying current with the changing chemical engineering profession through lifelong learning and continuing professional development. The BS CHE program will foster the development of professional conduct through awareness of the importance of ethics, safety, environmental issues, and sustainability to the practice of chemical engineering. Contributes to Criterion 3, components (4), and (7).

Candidates for the Bachelor of Science degree must complete 124-126 credits of coursework, including the University General Education (p. 35) requirements. Forty-eight credits of coursework must be in engineering sciences or engineering design. All course work must be completed in accordance with the academic procedures of the University (p. 9) and the College of Engineering (p. 159) governing undergraduate scholarship and degrees. Non-engineering entries, cited below by subject rather than individual course number, indicate courses to be selected in fulfillment of the University General Education Requirements. Degree requirements shown in the curricula below are in effect as of the publication date of this Bulletin. Students should consult their advisors for verification of current requirements.

### Civil and Environmental Engineering

**Office:** 2100 E. Engineering Building; 313-577-3789  
**Chairperson:** William Shuster  
http://www.engineering.wayne.edu/cee

Civil and environmental engineers apply the principles and techniques of engineering to the analysis, design, and integration of complex infrastructure and environmental systems. They have traditionally been leaders in many aspects of urban development, and in addressing uniquely urban issues associated with providing critical services to residents. We respond to crises like ageing infrastructure, and how to sustain critical services without undue pressure on the environment at large. The civil and environmental engineer is trained to be a leader in such diverse areas as:

- the design and control of structural systems, including tall buildings, bridges and transportation systems necessary for urban development and redevelopment, demolition, commerce and industry;
- water resources planning and management;
- fate, transport, and remediation of contaminants in water, soil resources;
- design of collection and treatment systems for sanitary sewage and stormwater management;
- integrated waste management;
- drinking water treatment and distribution systems;
- construction engineering and management; and
- the integration and management of public works projects designed to improve equity and availability in municipal services.

In these ways, the responsibilities of the civil and environmental engineer directly involve sustaining the health, safety and welfare of the public.

The Civil and Environmental Engineering Department maintains laboratories for teaching and research with facilities for testing structural components under static and dynamic loads; strain measurement; transportation network sensing and assessment, traffic simulation; environmental microbiological, biogeochemical characterization; air quality sampling and characterization; and hydraulic, hydrologic assessments. The Department and the University maintain excellent computer facilities for data acquisition and analysis.

- Civil Engineering (B.S.) (p. 172)

### Civil Engineering (B.S.)

**Mission Statement**

The mission of the Civil and Environmental Engineering Department is to provide high-quality, state-of-the-art educational and research programs. The Department strives for excellence in its academic programs, its research endeavors, and its university, community and professional service activities. The program is designed to prepare graduates for success in their immediate, as well as long-term, professional careers as practitioners, for obtaining a professional license, and for pursuing advanced studies and lifelong learning.

**Program Educational Objectives**

The graduates of the Civil and Environmental Engineering Program, in their early careers, will be expected to:

1. apply their knowledge and skills as effective, productive civil engineers within private corporations, engineering consulting firms,
as well as local, state and federal government agencies in the design of contemporary civil engineering systems and processes

2. work and communicate effectively with others on multidisciplinary teams to develop practical, technically sound, cost-effective solutions to complex and diverse civil engineering problems

3. build upon the fundamental knowledge gained in the undergraduate program of study, allowing analysis and design in alternative and innovative conditions

4. engage in the profession in an ethical and responsible manner

5. exhibit leadership skills

6. become and remain active members within professional and technical societies

### Student Outcomes

Graduates of the Civil and Environmental Engineering Department will demonstrate the following skills and attributes when they receive their B.S. degrees:

- a) apply knowledge of mathematics, science and engineering to solve civil engineering problems
- b) design and conduct experiments; collect and interpret data
- c) design a civil engineering system, component or process to meet specific needs
- d) collaborate and communicate on multi-disciplinary teams
- e) identify, formulate and solve civil engineering problems
- f) demonstrate understanding of ethical and professional responsibility of a civil engineer
- g) communicate effectively in oral and written form
- h) demonstrate understanding of global and societal issues as they pertain to civil engineering
- i) explain the importance of life-long learning and continuing education
- j) demonstrate knowledge of contemporary issues
- k) demonstrate proficiency in using modern engineering tools in the practice of civil engineering
- l) explain the aspects of professional practice issues relevant to the civil engineering profession (include principles of sustainability in design; explain basic concepts in project management, business, public policy, and leadership; analyze issues in professional ethics; and explain the importance of professional licensure)

The civil engineering curriculum has been designed to provide a broad education in the basic sciences, mathematics, and engineering sciences, civil engineering analysis and design, and their application to civil engineering practice. The courses in civil engineering may be considered as an array of groups, each representing an area of concern to contemporary society and industry. Technical electives may be selected from one of these major areas according to the student's particular interest or may be chosen from several areas in order to broaden one's knowledge. A student who contemplates continuing study at the graduate level should seek the advice of his/her faculty counselor in the selection of elective courses. Realizing the social implications of the practice of civil engineering, the program provides for the development of a background in economics, the social sciences, humanities, communication skills, ethics, and related non-technical areas.

### Admission Requirements

Admission is contingent upon satisfaction of the general undergraduate admission requirements of the University (p. 23) and the bachelor of science programs in the College of Engineering (p. 161).

Candidates for the Bachelor of Science degree must complete 123-124 credits of coursework, including the General Education (p. 35) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 9) and the College of Engineering (p. 159) governing undergraduate scholarship and degrees. Non-engineering entries, cited below by subject rather than individual course number, indicate courses to be selected in fulfillment of the University General Education Requirements. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin. Students should consult their advisors for verification of current requirements.

Other courses with approval of the undergraduate program coordinator.

Courses used to satisfy core requirements may not also be used to satisfy technical or design elective requirements.

---

### Computer Science

Office: 5057 Woodward, Suite 3010; 313-577-2477  
Chairperson: Loren Schwiebert  
Academic Advisor: Stephanie Chastain, Colleen McKenney  
[http://www.cs.wayne.edu/][1] [http://engineering.wayne.edu/cs/][1]

**Mission Statement**

The mission of the Department of Computer Science at Wayne State University is to provide excellence in teaching, research, public service, and leadership in the computer science profession and the community. The Department provides a high-quality, innovative, baccalaureate and graduate education that emphasizes the fundamentals of computer science as well as the most recent technological innovations, preparing students for employment and advanced studies. Students are encouraged to become involved in research programs to enhance their education and their employment opportunities. Through the use of our state-of-the-art laboratory facilities, students can conduct basic and applied research of high quality, influence, visibility, and potential community impact. The Department continues to develop cooperative research relationships within and outside the computer science discipline, as well as with industry, government and alumni, and local community organizations. This worldwide interaction with professional
organizations provides our students with the highest standards, goals, and professional practices.

**Research and Instructional Laboratories**

The Department of Computer Science operates a number of teaching and research laboratories. Research laboratories are organized around individual fields of research interest. The teaching laboratories are supported by the Department and are available to all students for class work and research.

- Computer Science (B.S.) (p. 175)
- Computer Science Minor (p. 177)
- Information Technology (B.S.) (p. 177)

**Computer Science (B.S.)**

The mission of the Computer Science B.S. program is to provide undergraduate students with a strong foundation in both Computer Science theory and programming practice that is necessary to solve real-world engineering problems. Through the use of state of the art software and hardware, students will learn to develop their theoretical and programming skills in order to apply them to learn these techniques to analyze a problem, evaluate possible solutions, and create a solution as part of a program development team. The program prepares students for engineering careers in software design, intelligent systems, big data systems and analytics, computer systems and network design, software system security, and bioinformatics. Graduates will be prepared to take positions in these areas in academia, industry and government, the local community, and will be prepared for graduate studies in Computer Science as well. In addition the program provides students with opportunities to interact with other professional institutions and exhibit the highest ethical standards in the practice of their profession.

**Admission Requirements**

For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 161). Students planning to major in computer science should consult with a departmental advisor as soon as possible prior to enrolling in courses. In general, the requirements in effect when a student declares a major in computer science will be those that the student must satisfy. Students should check with the department for the latest information concerning the program and requirements.

**Admission following an interruption in enrollment:** A student attempting to complete a computer science major after a prolonged interruption of his/her education may find that some of his/her course work in computer science is out of date. In this case, the student’s record will be reviewed and the Department may require the student to fulfill additional computer science course requirements existing at the time of his/her return, and/or to retake some courses previously taken.

**Transfer students** should consult with an undergraduate departmental academic advisor prior to their transfer. Determination of course equivalency will be made by the Transfer Credit Evaluation Unit in conjunction with the Undergraduate Committee. The Department reserves the right of final determination of course equivalency.

**Introductory Course Work:** The Department of Computer Science offers a number of courses introducing students to basic computer and computing concepts. Some of these courses also serve as prerequisites for more advanced study in computer science. Some introductory courses require mathematics preparation equivalent to MAT 2010. (See course descriptions regarding the required prerequisite math courses.) CSC 1000, offered as computer-based instruction, is for non-majors who desire to learn basic computing concepts. Students who intend to major or minor in computer science will not normally take this course.

Candidates for the Bachelor of Science degree must complete 120 credits of coursework, including the University General Education (p. 35) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 9) and the College of Engineering (p. 159) governing undergraduate scholarship and degrees.

Wayne State University Undergraduate Bulletin 2020-2021 175
A minimum of twenty-eight credits in computer science must be earned at Wayne State University. A minimum grade of 'C' is required in CSC 1100, CSC 1101, CSC 1500, CSC 1501, CSC 2110, CSC 2111, CSC 2200, and CSC 2201. All other courses including CSC, MAT, BE, and courses within the General Education program must adhere to the requirements of the Engineering Division as stated above.

Students declaring their major must consult with a departmental academic advisor about their individual plan of work and degree requirements.

Cooperative Work-Study Program

Students who wish to enrich their education with on-the-job engineering experience may enroll in a zero credit course (BE 3500) with approval from their academic advisor (http://engineering.wayne.edu/cs/students/advising.php#undergraduate) and the Engineering Career Resource Center (http://engineering.wayne.edu/career/co-ops.php). Registration in BE 3500 allows the university to provide additional support services and safe guards to students. BE 3500 registration also ensures that the co-op experience is well documented to employers when students apply for their first job after graduation. At the end of the semester, students will submit a final report or PowerPoint showcasing co-op activities to the Assistant Dean of Student Services. Student’s performance on the job is rated by his/her industrial supervisor. Salaries and other benefits are paid for the time spent on each work assignment. For details and enrollment procedures, contact the Engineering Career Resource Center (http://engineering.wayne.edu/career/contact.php). Students interested in registering for Professional Practice in Computer Science (CSC 4995) for academic credits should consult with their departmental academic advisor.

‘AGRADE’ Program (Accelerated Graduate Enrollment)

Accelerated Graduate Enrollment: This program enables qualified seniors to enroll simultaneously in the undergraduate and graduate programs and apply a maximum of 16 credits towards both the bachelor’s and master’s degrees. Students electing the ‘AGRADE’ Program may expect to complete the bachelor’s and master’s degrees in five years of full-time study.

Admission Requirements: An ‘AGRADE’ applicant may petition the Graduate Committee of the Computer Science Department for acceptance into the program no earlier than the first semester in which ninety credits will be completed. Following Departmental Graduate Committee approval, students must seek the approval of the Graduate Officer of the College. Applicants must have an overall grade point average (g.p.a.) of 3.3 or better and a 3.45 g.p.a. or better in the major courses already completed. If the student’s petition is accepted, the student shall submit a graduate Plan of Work, specifying ‘AGRADE’ courses to be included in subsequent semesters.

Candidates for the Bachelor of Science degree must complete 120 credits of coursework, including the University General Education (p. 35) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 9) and the College of Engineering (p. 159) governing undergraduate scholarship and degrees.

3-6 additional honors credits in Computer Science courses depending on thesis credits

**Total Honors Credits** 12

Please note that the core courses include mandatory instructional labs. These laboratories must be taken concurrently with their co-requisite lecture.

A minimum of twenty-eight credits in computer science must be earned at Wayne State University. A minimum grade of ‘C’ is required in CSC 1100, CSC 1101, CSC 1500, CSC 1501, CSC 2110, CSC 2111, CSC 2200, and CSC 2201. All other courses including CSC, MAT, BE, and courses within the General Education program must adhere to the requirements of the Engineering Division as stated above.

The Honors Thesis is a paper presenting the results of the student’s independent research. The length of the thesis may vary according to the nature of the topic and method of approach, but is typically a minimum of 20 pages in length. A minimum of two semesters should be allowed for completion of all of the thesis requirements. It is expected that the Honors Thesis will conform to the University master’s thesis format requirements (copies available from the Graduate School).

Students are responsible for identifying their own research project and full-time faculty member. Students must submit a completed and signed Honors Thesis Registration form (http://engineering.wayne.edu/csc/ug_forms/petition_and_authorization_to_register_for_csc_4999.pdf) to their departmental academic advisor before registration overrides will be provided. At the end of the first semester a deferred grade of Y will be assigned, with a grade change processed at the completion of the thesis in a subsequent semester. A grade is awarded for CSC 4999 after approval of the thesis by the faculty advisor and one other full-time faculty member.

An overall Wayne State University cumulative grade point average of at least 3.3.

Students should consult with the Honors College (https://honors.wayne.edu/) regarding additional honors-designated course work available each semester.

**Computer Science Minor**

The Minor Program provides a background in computer science for students who are majoring in other fields of study in the College.

</tbody>
</table>

Two additional Computer Science courses numbered 3000 or above to complete the required eighteen CSC credits.

**Total Credits** 26

1. A minimum grade of ‘C’ is required in these courses. For all other MAT, BE and CSC courses, a minimum grade of ‘C’ is required.
2. excluding CSC 4990 and CSC 4995

Please note that the core courses include mandatory instructional labs. These laboratories must be taken concurrently with their corequisite lecture.

A minimum of twelve credits in computer science must be earned at Wayne State University.

Students may wish to modify the minor program to fit their special needs. For any changes or adjustments to the above course requirements, students should contact their Departmental undergraduate advisors for approval. Students declaring their minor should consult an advisor for a written assessment of current requirements.

**Information Technology (B.S.)**

This program prepares the student for a challenging workplace with an enhanced knowledge of business applications. The curriculum for the degree is designed to provide students with a solid foundation in computer and information systems and business administration.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

**Academic Regulations**

**Academic Probation:** A student is considered to be on academic probation whenever his or her cumulative grade point average, or his or her grade point average in the computer science program, falls below 2.0. A student may also be placed on probation whenever his or her academic performance is deemed unsatisfactory. If, at the end of the first semester on probation, the student’s cumulative grade point average has not increased to at least 2.0, he or she will be excluded from the Department of Computer Science. If the student’s cumulative grade point average reaches at least 2.0 by the end of the first semester after being placed on probation, he or she will be returned to regular status. Following exclusion from the Department of Computer Science, the privilege of registering in the Department will be withheld for at least one calendar year.

**Exclusion:** A student who has been refused the privilege of registering in the Department may request a reconsideration of his or her status by the Academic Standards Committee (ASC) after the one-year exclusionary period. He or she should not make the request, however, unless evidence can be provided of changes in academic preparation or circumstances that will substantially increase the likelihood of academic success. A formal written request for reconsideration must be presented to the Associate Dean for Academic Affairs. Students who plan to petition for readmission are encouraged to request a meeting with the ASC as early as possible during the exclusion period to discuss what changes may provide an opportunity for readmission. In no case is readmission to the Department of Computer Science guaranteed.

**Repeated Courses and Substandard Grades:** Students will be allowed up to a maximum of five repeated courses, one repeated course for a substandard grade. If a student must repeat a subsequent course in order to complete their degree, he or she will be excluded from the Department of Computer Science (i.e., students must complete a course within three attempts). Prerequisite math and science courses that do not satisfy degree requirements, but are required if students did not place into
MAT 2010, are also counted towards exclusion from the Department. A substandard grade is defined as a grade lower than the minimum requirement (i.e., a grade of C-minus in CSC 1100/1101, or a WP/WF/WN).

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College of Engineering (p. 159) governing undergraduate scholarship and degrees.

Students are strongly encouraged to meet with their assigned academic advisor (http://engineering.wayne.edu/cs/students/advising.php#undergraduate) to discuss degree requirements as soon as possible after admittance into the program.

#### Business Administration Minor

The Mike Ilitch School of Business offers a minor in business for undergraduate students majoring in other disciplines. The Business Minor consists of six courses, totaling eighteen credits. Students must also complete prerequisite courses with a minimum grade of C (2.0 g.p.a.) for each course. The minor provides an excellent opportunity for non-business majors to broaden their knowledge of the business disciplines. In addition, the program enhances career prospects and establishes a solid business base for pursuing a Master of Business Administration degree. To be eligible to apply for the Business Minor, students must have a minimum overall grade point average of 2.5.

Information Technology students must meet with a business advisor to officially declare a minor.

All other courses including CSC, MAT, BE, EET, ET, and courses within the General Education program must adhere to the requirements of the Engineering Division (grades of C-minus or better, unless otherwise specified).

### Electrical and Computer Engineering

**Office:** 3100 W. Engineering Building; 313-577-3920  
**Chairperson:** Mohammed Ismail Elnaggar  
http://engineering.wayne.edu/ece/

In the field of electrical and computer engineering, basic physical and mathematical principles are utilized to develop new devices, technologies, and techniques of constantly broadening application. Examples are the development of smaller, cheaper, and more powerful computers, microprocessors, and other data processors, stemming from advances in solid-state and integrated circuit technology, and their utilization in a growing range of system applications; the growing use of data communications and sophisticated communication networks; the use of lasers, and the development of fiber optic and integrated optical devices for various applications ranging from optical data processing to communication; development of sophisticated control techniques, smart sensors, and transducers for advanced automation and electric power systems; the application of electronics to health care and diagnostics.
(such as noninvasive measurements and ultrasound imaging); and energy conversion devices.

The areas of study available in the Department include: solid-state devices, lasers, smart sensors, information sciences, digital circuits, computer engineering, integrated and active circuits, nanotechnology, biomedical electronics and systems, image processing, neural networks, and modern control theory.

Programs of both experimental and theoretical study are available in all these areas, as well as other interdisciplinary programs through the Electrical and Computer Engineering Department.

A more detailed exposition of the Department’s research activities is available on our website. Senior students are encouraged to participate in research activities by means of independent study projects and student assistantships. Graduate students normally participate in the research program as graduate teaching assistants and research assistants.

The College of Engineering laboratory building contains seven instructional laboratories for experimental work in control systems, analog circuits, digital systems, microcomputers, instrumentation, optics, and communication systems; these laboratories are an integral part of the instructional program. In addition, the Departmental faculty have eight research laboratories dealing with computer systems, multi-media systems, semiconductor device materials including a clean-room facility, opto-electronics, computation and neural networks, image processing, nanotechnology, telematics, and embedded systems. Computer facilities are available for student use; the College Computer Center as well as the University Computing Services Center are available to all students through individual student accounts.

- Electrical Engineering (B.S.) (p. 179)

**Electrical Engineering (B.S.)**

In addition to the Undergraduate Program Goals for the College of Engineering, the specific objectives of the Bachelor of Science program in Electrical Engineering include the following:

1. Graduates will understand relevant engineering and scientific principles underlying electrical and computer technologies, and have the capability to apply theoretical, computational, and experimental methods to solve real engineering problems.
2. Graduates will have strong oral and written communication skills to interact with fellow engineers and non-technical personnel in a team environment.
3. Graduates will have computer skills for effective use in engineering. They will possess a working knowledge of modern programming languages, as well as operating systems and software packages for design, analysis, and simulation.
4. Graduates will be able to work hands-on in laboratories with state-of-the-art facilities and equipment to accomplish assigned tasks and projects.
5. Graduates will be aware of the societal responsibility of engineers and the essential nature of high ethical standards of professional behavior.
6. Graduates will possess effective engineering design capability and an awareness of cost, safety, sustainability, accessibility, and other associated constraints in engineering design.

**Admission Requirements**

For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 161).

Candidates for the Bachelor of Science degree must complete 126 credits of coursework, including the University General Education (p. 35) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 9) and the College of Engineering (p. 159) governing undergraduate scholarship and degrees. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin. However, students should consult an academic advisor for verification of current requirements.

In the freshman and sophomore years, the student acquires a foundation in the principles of science and mathematics required for the study of engineering. In addition, general education studies are provided to ensure a well-rounded education. Basic concepts of electrical circuits, electronics, computers and electromagnetic fields are studied after prerequisite mathematics and science backgrounds are mastered. In the senior year, a choice of electrical and computer engineering electives permits the student to specialize in one or more areas.

Substitution of a course not on this list requires approval of the department chairperson or delegated faculty advisor.

### Course Material Fee

A course material fee is charged for laboratory courses using expendable materials.

**Industrial and Systems Engineering**

*Office: 2143 Manufacturing Engineering Building, 4815 Fourth St.; 313-577-3821*
The Department maintains laboratories in systems simulation, computer-based technologies which enable it. The manufacturing engineer must understand the interaction of the components of a system, and coordinate the flow of materials and information to effectively manage the operation. The industrial engineer plays an important role in defining information needs and developing strategies for decision-making based on incomplete knowledge. However, the skills of the industrial engineer have much greater application than to traditional production environments. In a growing service sector of the economy including health care delivery, public safety, air transportation, and banking, for example, issues of resource management, scheduling, quality of service, and systems design are important.

Traditionally, the manufacturing engineer was responsible for developing the process capability to realize the output of design engineering. Today the boundary between design and manufacturing engineering is becoming blurred; both groups work together in teams to assure the soundness of design and production capability. The manufacturing engineer must have an understanding of the design process, but the manufacturing engineer’s special expertise is the knowledge of the production process.

Industrial Engineering (B.S.)

Program Mission: The mission of the undergraduate program in Industrial Engineering is to educate our students for leadership positions in a broad spectrum of employment including: manufacturing, supply chain management and logistics, health care, banking, information management, and related disciplines.

Program Vision: The Department of Industrial and Systems Engineering offers the B.S. in Industrial Engineering to prepare students for a broad range of employment opportunities that include operations management, manufacturing, and healthcare. Our vision is to produce graduates who will lead their organizations to competitive advantage by applying the tools and techniques of industrial engineering. We believe that exposing students to diverse industries in our educational program will enhance their professional skills.

Program Educational Objectives: Building on skills developed in the academic program, and extended by experience and personal self-improvement, the graduates of our program have the ability to:

- Employ the tools and techniques of industrial engineering to make decisions which add value to their organization.
program academic advisor for a plan of work to ensure they meet these requirements.

Mechanical Engineering

Office: 2100 W. Engineering Building; 313-577-3843; Fax: 313-577-8789
Chairperson: Nabil G. Chalhoub; ab9714@wayne.edu
Director of Undergraduate Studies: Jerry C. Ku; aa1898@wayne.edu
Academic Undergraduate Advisor: Keith L. Wadley; ab8541@wayne.edu
http://www.eng.wayne.edu/ME/

The opportunities and challenges in the field of mechanical engineering are many and diverse. The broad variety of career possibilities includes research and development, design analysis and synthesis, manufacturing and production engineering, testing, sales engineering, maintenance and administration. The challenge of a mechanical engineer may lie in the perfection of a device that will be duplicated a million-fold or in the
control optimization of a single complex system of unique design. To prepare undergraduate students for these opportunities, the Wayne State University Mechanical Engineering curriculum is designed to give a basic core education in the humanities, mathematics, natural sciences, basic applied sciences, engineering fundamentals, and to provide advanced electives in many applied fields.

Fields of departmental expertise include such important areas as biomechanics, energy conversion, combustion engines, emissions controls, structural analysis, automatic controls, robotics, thermodynamics, continuum mechanics, fluid dynamics, vibrations, heat transfer, mechanisms, acoustics and noise control, design, machine tool design, manufacturing, laser diagnostics, and mechanics of composite materials. Research and teaching is carried out in all of these areas.

• Mechanical Engineering (B.S.) (p. 183)

Mechanical Engineering (B.S.)
The Bachelor of Science in Mechanical Engineering is accredited by the Accreditation Board for Engineering and Technology.

Program Goals
Mechanical engineering B.S. graduates will be able to apply basic engineering principles to identify and solve problems, and to design, specify the manufacturing of, and evaluate the performance of mechanical systems and processes.

Program Educational Objectives
Program Educational Objectives are broad in scope and describe the expected accomplishments of our graduates during the first few years after graduation, while Student Outcomes are narrower and describe what our students are expected to know and be able to do by the time of graduation. The objectives of the undergraduate program in Mechanical Engineering at Wayne State University are to provide the education and training that will enable its graduates to:

1. successfully pursue intermediate level engineering positions or additional degrees;
2. demonstrate technical competency in applying broad, fundamental-based knowledge and up-to-date skills to perform professional work in mechanical engineering related disciplines;
3. demonstrate competency in applying comprehensive design methodology pertaining to mechanical engineering, incorporating the use of the economic, environmental, and social impact of design;
4. engage in professional societies, and to always apply best practices in professional ethics; and
5. be committed to life-long learning activities through self-reliance, creativity and leadership.

ABET Student Outcomes (as revised on September 18, 2009)
It is expected that by the time of graduation, our B.S.M.E. students will have:

1. an ability to apply knowledge of mathematics, science, and engineering
2. an ability to design and conduct experiments, as well as to analyze and interpret data
3. an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
4. an ability to function on multidisciplinary teams
5. an ability to identify, formulate, and solve engineering problems
6. an understanding of professional and ethical responsibility
7. an ability to communicate effectively
8. the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
9. a recognition of the need for, and an ability to engage in life-long learning
10. a knowledge of contemporary issues
11. an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

In support of these educational objectives, faculty members will seek outstanding levels of achievement in their research and engineering practices. To further foster professionalism, the Department encourages students to be active participants in ASME, Pi Tau Sigma, Tau Beta Pi, SAE and other student professional organizations.

Admission Requirements
For admission to the Bachelor of Science program, students must satisfy the admission criteria of the Division of Engineering, College of Engineering (p. 161). The Department has an Academic Advisor and a Director of Undergraduate Studies. The former is responsible for assisting students with course selections and maintaining academic progress, and the latter is responsible for enforcing Departmental academic policy. Students are encouraged to meet with the Academic Advisor once every semester, for up-to-date feedback on their academic progress and a review of course plans for the next semester or two. The student and advisor together plan a complete program of study, including electives, which meet Departmental requirements and the interests of the individual student.

Candidates for the Bachelor of Science degree must complete 123 credits of coursework, including the University General Education (p. 35) requirements. All course work must be completed in accordance with the academic procedures of the University (p. 9) and the College of Engineering (p. 159) governing undergraduate scholarship and degrees.

Evening courses and cooperative programs allow professionals working in local industry to pursue an undergraduate degree while continuing employment. The degree requirements shown in the curriculum below are in effect as of the publication date of this bulletin; however, students should consult an academic advisor for verification of current requirements.

Technical skills in the use of electronic equipment, machinery, tools, and drafting instruments are characteristic of this type of work. Thus, engineering technology students can find challenging employment in business and industry. Graduates of Wayne State's Engineering Technology program have been employed in areas such as manufacturing engineering, engineering production, marketing, maintenance, quality control, product testing, field engineering, consulting engineering, design, and technical supervision. Baccalaureate engineering technology graduates are often called technicians to distinguish them from baccalaureate graduates of engineering programs. However, the National Bureau of Labor Statistics does not have a category called 'technologist,' and consequently, many industrial job titles show little distinction between technologists and engineers. Graduates of Engineering Technology and Engineering programs complement each other in their skills and interests, and together with technicians and scientists, they form a technological team which has been able to produce an ever-increasing rate of technological advancement.

Academic Regulations: Division of Engineering Technology

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 11) section of this bulletin. The following additions and amendments pertain to the Division of Engineering Technology.

‘AGRADE’ Program (Accelerated Graduate Enrollment)

The College of Engineering allows academically superior undergraduate seniors to enroll simultaneously in undergraduate and graduate programs and apply a maximum of sixteen credits toward both an undergraduate and graduate degree in the student's major field. Students who elect the 'AGRADE' Program may expect to complete the bachelor's and master's degrees in one additional year of full-time study.

To be eligible, applicants must have completed a minimum of ninety credits of course work applied towards the engineering technology degree and be accepted in the professional program of their major. The minimum grade point averages for acceptance into the program are a 3.4 g.p.a. in engineering and not less than a 3.6 g.p.a. in their department of...
specialization, as computed by the rules of the Division of Engineering Technology. See the departmental advisor for further details.

**Student Conduct**

Each student is subject to official regulations governing student activities and student behavior. Furthermore, it is the responsibility of each student to adhere to the principles of academic integrity. Academic integrity means that a student is honest with him/herself, fellow students, instructors, and the University in matters concerning his or her educational endeavors. Thus, a student should not falsely claim the work of another as his/her own, or misrepresent him/herself so that the measures of his/her academic performance do not reflect his/her own work or personal knowledge.

If there are reasonable grounds to believe that a student has disregarded the regulations or student responsibilities, he or she may be disciplined. Such discipline may include failure in the course, suspension or dismissal, but no dismissal will be directed without reasonable opportunity for an appropriate hearing.

**Probation Policy**

A student is considered to be on probation when his/her cumulative grade point average (g.p.a.) falls below 2.0. A student may also be placed on probation whenever his/her academic performance is deemed unsatisfactory. When placed on probation, the student is required to meet with the Division Head or the Academic Standards Committee of the Division of Engineering Technology, to remove an academic hold on his/her registration. While on probation, a student may not represent the Division of Engineering Technology in student activities. The Academic Standards Committee of the Division formulates the regulations for probationary students and hears requests for exceptions.

A student on probation is expected to bring up his/her grade point average promptly. If, at the end of the first semester on probation, the student’s cumulative grade point average has not increased to at least 2.0, he/she will be excluded from the Division of Engineering Technology for at least one calendar year. Course work taken at any institution during the period of exclusion may not be considered for transfer toward an engineering technology degree.

For part-time students, a semester will be considered to consist of twelve consecutive credits. If a student’s cumulative g.p.a. reaches at least 2.0 by the end of the first semester after being placed on probation, he/she will be returned to regular status. Multiple occurrence of probation will result in the student’s exclusion from the Division of Engineering Technology.

A student may be refused the privilege of registering in the Division if, at any time, his/her grade point average falls below 2.0. A student may also be refused the privilege of registering in the Division for irresponsible attendance and performance in class, regardless of any probationary status.

A student who has been refused registration may request that the Division Head or Academic Standards Committee reconsider his/her status. Such request should only be made when evidence of extenuating circumstances can be provided.

**Division of Engineering Technology Rules for Calculating Grade Point Average**

The Division of Engineering Technology computes Division and College grade point averages using rules that differ from those used to compute the cumulative grade point average on the official University transcript: the College g.p.a. is calculated based on all engineering and technical courses, as well as required English courses. The Division g.p.a. includes all courses taken within the Division including courses bearing the subject codes of: CMT, ET, EET, MCT, MIT, ETT.

For students admitted to the College of Engineering for the Winter 2004 semester or later, repeated courses will not be included in the grade point average calculations (following standard University regulations). The new grade will replace the old grade in the g.p.a. calculation, but only a maximum of five repeated courses will be allowed.

For students admitted to the College of Engineering prior to Winter 2004, the inclusion of repeated courses in the grade point calculation follows different rules. When a course is repeated, the new grade will replace the previous grade unless the student exceeds the maximum number of repeats: one repeat for each thirty-four credits completed at Wayne State University. After the maximum number of repeats is exceeded, both grades are used in computing the student’s grade point average.

**Dean’s List of Honor Students**

A student who achieves a semester grade point average of 3.5 or more, based on a program of at least twelve credits, is notified by the Dean of citation for distinguished scholarship and his/her name is included on the Dean’s List of Honor Students.

**Substandard Performance**

A minimum grade of C- is required for all courses. A course in which a grade below C- has been earned can not be subsequently passed by special examination. When repeating a course, failure for the third time to pass it with a grade satisfactory to the Division constitutes grounds for denying a student further registration in the Division of Engineering Technology.

**Technology Transfer Credit**

University policy allows a maximum of sixty-four semester credits to be transferred from community colleges to Wayne State. In some cases, students following University-approved articulation agreements with community colleges are able to exceed the maximum number of sixty-four credits; however, a minimum of thirty semester credits must be earned from Wayne State, and at least twenty-four of those credits must be earned in Division of Engineering Technology courses. Each Engineering Technology degree program specifies lower division technical courses that may be part of the sixty-four credits transferred to Wayne State. These are listed in Requirements tab of each degree program under the heading, Lower Division Technical Transfer Credits. For evaluation of courses submitted to satisfy this requirement, students should consult an Engineering Technology advisor.

**Changes of Election and Withdrawal**

In addition to the University policies regarding changes of program and withdrawal from courses (p. 74), the following additions and amendments apply to the Division of Engineering Technology.

**Registration and Adding Courses**

A student may register for courses through the last day of the second week of classes for fifteen-week courses. A registered student may add a course through the last day of the second week of classes by submitting a completed Drop/Add form. Students are not permitted to add courses after the first week of the term without instructor and departmental permission.

A student may not change from one section of a course to another section of the same course after the fourth week of classes. Drop/Add forms will be valid for ten calendar days from the date of the earliest signature of approval. Once a student is admitted to Wayne State University, he/she does not have to go through the admissions procedure...
Withdrawals
Courses from which a student withdraws, such that a mark of WP, WF, or WN appears on the transcript, are counted as an attempt at the course and are taken into account when assessing the allowed number of repeats. If a student feels that circumstances beyond their control (e.g., family emergency, change of work schedule) justify the withdrawal, a written petition may be submitted to the Associate Dean for Academic Affairs before the end of the semester in which the course was taken. If the petition is approved, it will be noted in the student’s advising record that the course will not be counted towards Engineering repeat allowances.

Graduation
Students must apply for graduation at the beginning of the semester in which they plan on completing their degree requirements. At graduation, the University requires a minimum 2.0 grade point average in the total residence credit. Additionally, Engineering Technology programs require a minimum 2.0 grade point average in the Division. The student’s total g.p.a., as well as division grade point average, is calculated using the Division of Engineering Technology rules as described above.

Graduates with a minimum of thirty credits in residence at Wayne State University and a grade point average of at least 3.0 may qualify for a special diploma under the following conditions:

Summa Cum Laude: Student must have a grade point average in the 95th percentile of the College of Engineering graduating class.

Magna Cum Laude: Student must have a grade point average in the 90th percentile of the graduating class.

Cum Laude: Student must have a grade point average in the 80th percentile of the graduating class.

Commencement
Each year, commencement exercises are held in both May and December. College Order of the Engineer and Professional Order of Engineering Technology ceremonies will be held in May to induct graduates into these organizations. Students who are graduating in December are eligible to participate in the induction ceremony for the following May.

• Computer Technology (B.S.C.T.) (p. 187)
• Construction Management (B.S.C.M.) (p. 189)
• Electrical/Electronic Engineering Technology (B.S.E.E.T.) (p. 190)
• Electromechanical Engineering Technology (B.S.E.M.T.) (p. 191)
• Electric Transportation Technology (B.S.E.T.T.) (p. 189)
• Mechanical Engineering Technology (B.S.M.C.T.) (p. 193)
• Manufacturing Engineering Technology (B.S.M.F.T.) (p. 192)
• Welding and Metallurgical Engineering Technology (B.S.W.M.E.T.) (p. 195)
• Energy Storage Systems, Advanced (Certificate) (p. 187)

Advanced Energy Storage Systems (Certificate)
The alternative energy economy relies heavily on advanced energy storage systems to prolong the life of energy generated by solar and wind systems. The changing nature of energy resources will increase the need for energy storage in both supply and demand. Energy storage facilities hold a key position in energy supply systems; the benefits of electric energy storage include increasing grid reliability, reducing system transmission congestion, helping manage load, and making renewable electricity sources more suitable as base load providers. Energy storage technologies are also critical to the future of the automotive industry, which is innovating rapidly around vehicle electrification.

The Undergraduate Certificate Program in Advanced Energy Storage Systems provides technically-oriented education that emphasizes the application of advanced technology to solve problems, design and develop products, and improve processes, procedures, equipment, and facilities. This program aims to prepare students for application-oriented careers in Advanced Energy Storage System industry, including storage in automotive, consumer, nuclear and green industries; advanced battery systems and hydrogen electro-chemical cells; mechanical energy storage; thermal and chemical storage; inductive storage based on superconducting magnetic field; and, social and economical aspects of storage technology.

Admission Requirements
Beginning Fall 2017, an admissions moratorium is in effect for this program.

Students must be concurrently enrolled in or have completed an undergraduate degree (B.S.) in Engineering, Engineering Technology, Chemistry, or Physics. Students who are currently pursuing a B.S. must have completed at least sixty credits of undergraduate engineering, engineering technology, chemistry, or physics coursework with a minimum of a 2.0 cumulative major g.p.a. Students must document satisfactory completion of all prerequisite courses (or their equivalent) with a grade of C- or higher.

Students interested in earning an Undergraduate Certificate in Advanced Energy Storage Systems must complete five courses:

<table>

Program Standards
All students must earn at least a C grade in each of the courses to be applied towards the Certificate and complete the coursework with an overall g.p.a. of at least 2.0. Students concurrently enrolled in an engineering or engineering technology undergraduate program will be governed by overall policy on substandard grades for students pursuing a B.S. degree (one substandard grade allowed for every twenty-four credits completed at WSU). Students who have completed a B.S. degree and are pursuing only the Certificate will be allowed one substandard grade, with a subsequent successful repeat of the course, during completion of this academic program.

Computer Technology (B.S.C.T.)
The Bachelor of Science in Computer Technology (B.S.C.T.) prepares students for professional work relating advancements in basic science to practical computer applications. This degree is an interdisciplinary program of study which provides a combination of professional courses in computer science, information systems, electronics, and information technology. The particular strengths of the program include:
• applied hands-on curriculum;
• hardware oriented laboratory experiences;
• scientific advancement merged with applications; and
• the various skills and knowledge required for the enhanced job market in this field.

The computer technology program offers excellent prospects for professional positions in both business and industry where the sophistication and implementation of computers dominate a broad spectrum of employment opportunities. This region of the state has a large concentration of technology firms that employ information system designers and application integrators. Classes are usually offered both during the day and in the evening.

Admission Requirements

The B.S.C.T. degree program is designed to admit students who satisfy the general undergraduate admission (p. 23) requirements of the University and have an associate degree or equivalent course work in preparatory programs such as computer information systems, computer technology, data processing or closely related disciplines. A minimum grade point average (g.p.a.) of 2.5 is required for admission into the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as Pre-Engineering Technology students, and may be transferred into the B.S.C.T. program upon successful completion of pre-calculus (MAT 1800) and physical science courses, with a g.p.a. of 2.5 or above.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.C.T. degree must earn a minimum of 124 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 35). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 11) and the College (p. 159) and must conform to Division (p. 185) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements.

Plan of Study: Due to wide variation in backgrounds of associate degree holders, as well as differing rates of progress of full- or part-time students, an individually-tailored plan of study will be developed for each student, in conjunction with a faculty advisor. Courses will be selected based on the student’s academic preparation, course prerequisites, and proposed scheduling of courses.

Required Background: Any student deficient in any courses listed under Lower Division (Community College) Technical Transfer Credit will be required to remove the deficiency before completion of fifteen credits in basic science/mathematics and technical core courses.

Program Requirements: The Bachelor of Science in Computer Technology requires at least 124 credits as outlined below:

Engineering Technology Honors

Engineering Technology Honors demands a higher level of performance and offers more personal supervision by faculty than the regular curriculum. It is recommended for qualified students who have an interest in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science in Computer Technology, Electrical/Electronic Engineering Technology, Electromechanical Engineering Technology, and Mechanical Engineering Technology. A cumulative grade point average of at least 3.3 is required for consideration for admission to and continuance in the program. Students are admitted on the recommendation of the Departmental Honors Program advisor. Interested students should contact the advisor and complete the Honors Plan of Work form when declaring their engineering technology major or at the beginning of the senior year. If a student has declared a major in engineering technology prior to entering
the Honors Program, a new Declaration of Major must be completed for the Bachelor of Science with Honors.

**Department Honors Requirements (12 credits minimum)**

- Students must meet all the ordinary requirements of the Engineering Technology major, and must have a 3.3 GPA overall
- One 4200-level HON seminar (HON 4200-4280) (Cr. 3)
- Thesis-Honors Option with ET 4999 (Cr. 3)
- Two Honors Options courses within the engineering technology major, taught by full-time faculty member (Cr. 3-4 each)

### Construction Management (B.S.C.M.)

A professional construction manager is someone who coordinates all that goes into a construction project. The overall goal of a construction manager is to produce a financially sound project that is completed on time and meets the specific needs of the client as well as the codes put forth by governmental agencies. Responsibilities of a construction manager are project planning, cost, time, safety, quality, and contracts.

Working professionals seeking to advance their education, students interested in construction management, or seasoned employees looking to start their own companies often choose construction management to help achieve career goals. People with construction management degrees often work as project managers, superintendents, estimators, schedulers, or green construction/LEED specialists. Many people in the construction industry own and operate their own businesses.

The program offered in construction management specialization includes course work on construction project management, estimating, scheduling, safety, legal and professional aspects, specifications, computer applications and a capstone project. Additional courses from the Business School on accounting, marketing, and management complement the program. Co-op and internship opportunities are available to the students in summers as well as the academic year.

### Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 23) requirements of the University and have an associate degree or equivalent course work in architectural technology, construction technology, and civil technology. A minimum grade point average (g.p.a.) of 2.5 is required for admission into the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the B.S.C.M. program upon successful completion of pre-calculus (MAT 1800) and physical science courses, with a g.p.a. of 2.5 or above.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.C.M. degree must earn a minimum of 120 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 35). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 11) and the College (p. 159) and must conform to Division (p. 185) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements.

Total Credits 120

**Electric Transportation Technology (B.S.E.T.T.)**

The Bachelor of Science in Electric Transportation Technology (B.S.E.T.T.) Program prepares students for dynamic careers in a growing area of
the automotive industry. Electric Transportation Technologists use the principals of science and math to solve problems in industry and business. The B.S.E.T.T. curriculum is a broad based, technically-oriented education that emphasizes the application of advanced technology to solve problems, design and develop products, and improve processes, procedures, equipment, and facilities. Possible uses for a B.S.E.T.T. degree include working with electric vehicles, hybrid electric vehicles, plug-in electric vehicles, and fuel-cell vehicles. As demand for efficiency and sustainability grow in the transportation sector, B.S.E.T.T. graduates will be able to meet the needs of industry.

Admission Requirements

Beginning Fall 2017, an admissions moratorium is in effect for this program.

This program is designed to admit students who satisfy the general undergraduate admission (p. 23) requirements of the University and have an associate degree with a minimum grade point average (g.p.a.) of 2.50. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the engineering technology program upon successful completion of MAT 1800 and PHY 2130 with a g.p.a. of 2.50.

Required Background: Any student deficient in any courses listed under Lower Division Technical Transfer Credit will be required to remove the deficiencies before electing any EET courses.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

A moratorium was approved starting Fall 2017. No new students will be admitted.

This program extends the practical and applied base of the associate degree program by means of more theoretical courses in electrical, advanced energy storage, and hybrid electric vehicle technology with additional background courses in mathematics, science, and socio-humanities. Candidates for the B.S.E.T.T. degree must earn a minimum of 128 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 35). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 11) and the College (p. 159) and must conform to Division (p. 185) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements.

Program Requirements: The Bachelor of Science in Electric Transportation Technology requires a minimum of 128 credits as outlined in the following curriculum.

Electrical/Electronic Engineering Technology (B.S.E.T.E.E.)

The Bachelor of Science in Electrical/Electronic Engineering Technology (B.S.E.T.E.E.) Program prepares students for diverse and dynamic careers in industry. Electrical/Electronic Engineering Technologists use the principals of science and math to solve problems in industry and business. The B.S.E.T.E.E. program emphasizes hands-on laboratory experiences, and courses stress the practical application of mathematics, science, and engineering to solve real world problems. Possible applications for this degree include: the automotive industry, business machines/professional and scientific equipment, computers and telecommunications, defense, and electronic utilities. Electrical/Electronic Engineering Technology program is accredited by the Engineering Technology Accreditation Commission of ABET, http://www.abet.org (http://www.abet.org/).

Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 23) requirements of the University.
and have an associate degree and a minimum grade point average (g.p.a.) of 2.50. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the engineering technology program upon successful completion of MAT 1800 and PHY 2130 with a g.p.a. of 2.50.

Required Background: Any student deficient in any courses listed under Lower Division Technical Transfer Credit will be required to remove the deficiencies before electing any EET courses

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

This program extends the practical and applied base of the associate degree program with theoretical courses in electrical engineering and engineering technology, and additional courses in mathematics, science, and socio-humanities. Candidates for the B.S.E.T.E.E. degree must earn a minimum of 124 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 35). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 11) and the College (p. 159) and must conform to Division (p. 185) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements.

Plan of Study: Due to the various educational backgrounds of associate degree graduates and the different rates of progress of full-time and part-time students, individual plans of study are developed for students in conjunction with faculty advisors.

NOTE: A student who, after receiving one undergraduate degree at Wayne State University, wishes to obtain a second bachelor's degree must complete at least thirty credits beyond those applied toward the first degree.

Program Requirements: The Bachelor of Science in Electrical/Electronic Engineering Technology requires a minimum of 124 credits as outlined in the following curriculum.

### Engineering Technology Honors

Engineering Technology Honors demands a higher level of performance and offers more personal supervision by faculty than the regular curriculum. It is recommended for qualified students who have an interest in research and plan to go on to graduate or professional schools. The Honors Program is open to students seeking the Bachelor of Science in Computer Technology, Electrical/Electronic Engineering Technology, Electromechanical Engineering Technology, and Mechanical Engineering Technology. A cumulative grade point average of at least 3.3 is required for consideration for admission to and continuance in the program. Students are admitted on the recommendation of the Departmental Honors Program advisor. Interested students should contact the advisor and complete the Honors Plan of Work form when declaring their engineering technology major or at the beginning of the senior year. If a student has declared a major in engineering technology prior to entering the Honors Program, a new Declaration of Major must be completed for the Bachelor of Science with Honors.

**Department Honors Requirements (12 credits minimum)**

- Students must meet all the ordinary requirements of the Engineering Technology major, and must have a 3.3 GPA overall
- One 4200- level HON seminar (HON 4200-4280) (Cr. 3)
- Thesis-Honors Option with ET 4999 (Cr. 3)
- Two Honors Options courses within the engineering technology major, taught by full-time faculty member (Cr. 3-4 each)

### Electromechanical Engineering Technology (B.S.E.T.E.M.)

The Bachelor of Science in Electromechanical Engineering Technology (B.S.E.T.E.M.) offers an interdisciplinary education, resulting from the integration of electronics and computers in engineering systems. This major offers an individual plan of study with coursework in electronics, electrical, manufacturing, and mechanical areas, with appropriate
Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 23) requirements of the University and have an associate degree in electrical, electronics, industrial, manufacturing, mechanical, or related technology from a community college or equivalent college-level course-work. A minimum grade point average (g.p.a.) of 2.50 is required for admission to the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may be transferred into the engineering technology program upon successful completion of MAT 1800 and PHY 2130 with a g.p.a. of 2.50.

Required Background: Any student deficient in any courses listed under Lower Division Technical Transfer Credit will be required to remove deficiencies before completing fifteen credits in basic science/mathematics and technical core courses.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.E.T.E.M. degree must earn a minimum of 124 credits, as outlined in one of the following major programs and including prerequisite courses. The program is designed to extend the practical and applied base of the associate degree program with more theoretical and comprehensive engineering technology courses, and additional courses in mathematics, science, and socio-humanities.

Program Requirements: The Bachelor of Science in Electromechanical Engineering Technology requires a minimum of 124 credits as outlined in the following curriculum.

Manufacturing Engineering Technology (B.S.M.A.E.T.)

The Bachelor of Science In Manufacturing Engineering Technology (B.S.M.A.E.T.) degree prepares students for professional work in
Admission Requirements

The B.S.M.A.E.T. degree program is designed to admit students who satisfy the general undergraduate admission (p. 23) requirements of the University and have an associate degree or equivalent course work in manufacturing. A minimum grade point average (g.p.a.) of 2.5 is required for admission into the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as Pre-Engineering Technology students, and may be transferred into the B.S.M.A.E.T. program upon successful completion of pre-calculus (MAT 1800) and physics courses, with a g.p.a. of 2.5 or above.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.M.A.E.T. degree must earn a minimum of 128 credits, as outlined in one of the following major programs and including the University General Education Requirements (p. 35). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, at least twenty-four of which must be in Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 11) and the College (p. 159) and must conform to Division (p. 185) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education Requirements including satisfactory achievement of the Critical Thinking Requirement either by completion of a (CT) course or by passing the Critical Thinking Competency Examination (administered by Testing, Evaluation, and Student Life Research Services).

Program Requirements: The Bachelor of Science in Manufacturing Engineering Technology requires 128 credits as outlined in the following curriculum.

Mechanical Engineering Technology (B.S.E.T.M.E.)

The Mechanical Engineering Technology (B.S.E.T.M.E.) Program prepares students for diverse and dynamic careers in industry. B.S.E.T.M.E. graduates work in fields that require understanding of the relationships and dependencies among materials, product development, manufacturing systems and processes, or energy production, transformation and transmission (including alternative energy). The program emphasizes hands-on laboratory experiences, and courses stress the practical application of mathematics, science, and engineering to solve real world problems. The B.S.E.T.M.E. program provides students with a well-rounded education focused on the knowledge of existing and new developments in their technical specialty. The program offers students the opportunity to specialize in one of three tracks: design, energy, or manufacturing. B.S.E.T.M.E. graduates work with their minds as well as their hands to solve problems related to their chosen area of specialization.

The Bachelor of Science in Mechanical Engineering Technology (B.S.E.T.M.E.) program is accredited by the Engineering Technology...

Admission Requirements

This program is designed to admit students who satisfy the general undergraduate admission (p. 23) requirements of the University and have an associate degree or equivalent college-level course work in one of the following or related technical areas:

- Aerospace Technology
- Automotive Technology
- Climate Control
- Computer-Aided Design
- Drafting
- Energy Technology
- Fluid Power
- Manufacturing
- Mechanical Design
- Mechanical Technology
- Powerplant

A minimum grade point average (g.p.a.) of 2.50 is required for admission to the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as pre-engineering technology students, and may transfer into the engineering technology program upon successful completion of MAT 1800 and PHY 2130 with a g.p.a. of 2.50.

Required Background: Any student deficient in any course listed under Lower Division Technical Transfer Credit will be required to remove the deficiency before completing fifteen credits in basic science/ mathematics and technical core courses.

A Mathematics Placement Examination is required of entering students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.E.T.M.E. degree must earn a minimum of 124 credits, which includes University General Education requirements (p. 35). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, and at least twenty-four must be in the Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 11) and the College (p. 159) and must conform to Division (p. 185) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education requirements.

Welding and Metallurgical Engineering Technology (B.S.W.M.E.T.)

Metallurgy and Welding are two technologies that both have their roots in the Industrial Revolution, where the joining of metals began with the forge welding of pig or wrought iron. Because of their fundamental nature, these technologies are intertwined. The ability to develop and join metals have made immeasurable contribution to the transportation, aerospace, agricultural and defense industries.

The Wayne State University's B.S. in Welding and Metallurgical Engineering Technology (B.S.W.M.E.T.) program will bring together the theoretical and practical aspects of welding and metallurgy to provide industry with engineers proficient in both areas.

Admissions Requirements

The B.S.W.M.E.T. is designed to admit students who satisfy the undergraduate admission (p. 23) requirements of the University and have an associate degree or equivalent course work in preparatory programs such as welding technology or closely related disciplines. A minimum g.p.a. of 2.5 is required for admission into the program. Students with a g.p.a. of 2.0 to 2.5 may be admitted as Pre-Engineering Technology students, and may be transferred into the B.S.W.M.E.T. program upon successful completion of pre-calculus (MAT 1800) and physical science courses, with a g.p.a. of 2.5 or above. A Mathematics Placement Examination is required of students who have not already earned advanced credit in pre-calculus.

Candidates for the B.S.W.M.E.T. degree must earn a minimum of 121 credits, which includes University General Education requirements (p. 35). University policy allows a maximum of sixty-four semester credits transferred from community colleges to Wayne State, but students following University-approved articulation agreements with community colleges are able to exceed the maximum of sixty-four credits; a minimum of thirty semester credits must be earned from Wayne State, and at least twenty-four must be in the Division of Engineering Technology courses. All coursework must be completed in accordance with the academic procedures of the University (p. 11) and the College (p. 159) and must conform to Division (p. 185) academic standards.

In order to graduate, the University requires a minimum 2.0 g.p.a. in total resident credit, and the Division a minimum 2.0 g.p.a. in total coursework in the area of specialization; as well as satisfaction of all University Undergraduate General Education requirements.

Program Requirements: The Bachelors of Science in Welding and Metallurgical Engineering Technology requires a minimum of 121 credits as outlined in the following curriculum.

Nanoengineering (Undergraduate Certificate Program)

Nanoengineering is the study and implementation of techniques to work with small collections atoms and molecules at the 'nano'-scale (i.e., 1-100 nanometers), at which new physical properties and phenomena emerge. The undergraduate nanoengineering certificate program of the College of Engineering is distinct from existing undergraduate programs in that students take courses toward this certificate program while pursuing their B.S. degree. Four courses plus a seminar course are required for completion of the certificate. This program offers nanoengineering courses that provide students with knowledge and hands-on experience in this newly developing field.

The Certificate Program's learning objectives include:

- To provide students in-depth training in nanotechnology and nanomedicine in one unified certificate program that crosses traditional departmental and disciplinary boundaries
• To increase students' knowledge in engineered materials, processes, and devices by linking less familiar nanoscale phenomena with more familiar bulk materials and phenomena
• To offer students hands-on laboratory training in nanotechnology
• To offer students research experience either in faculty labs or industrial labs
• To prepare students for a career in nanotechnology, high tech, and advanced manufacturing industries or research institutions
• To enable students to develop a strong multidisciplinary educational background to be competitive in a global economic environment
• To enable students to develop professional, communication, and teamwork skills that will widen their career options

Admission Requirements include current enrollment in a related bachelor’s degree program or previous award of a related bachelor’s degree. The program will be open only to:

1. current WSU undergraduate students who have completed at least sixty credits and have a g.p.a. of 3.0 or above; and
2. students who have previously earned a bachelor’s degree at WSU or another accredited institution with a final cumulative g.p.a. of 3.0 or above.

Eligible students not currently enrolled at WSU may apply for direct admission to the program.

Certificate Requirements: Fifteen credits including all of the following courses:

All students must earn at least a grade of B in each of the courses to be applied toward the certificate and complete all the coursework with an overall g.p.a. of at least 3.0. Students concurrently enrolled in an engineering undergraduate program will be governed by the College's overall policy on substandard grades for students pursuing a B.S. degree. Students who have completed a B.S. degree and are pursuing only the certificate will be allowed one substandard grade, with a subsequent successful repeat of the course, during completion of the program.
Mission Statement

The College of Fine, Performing and Communication Arts at Wayne State University provides the highest quality education for practitioners, scholars, and consumers in art, art history, communication, dance, music and theatre. This education leads to careers, uses for the arts in other disciplines, enhanced critical abilities, the enrichment of everyday life and the building of new generations of artists, professionals and scholars. Programs of study focus on the integration of theory and practice through the creation, discovery, preservation and transmission of knowledge in fine, performing and communication arts.

The College serves the University and the larger community by creating partnerships that emphasize its own rich, diverse curriculum, interdisciplinary studies, reciprocal professional interaction and outreach activities appropriate to each area of work. Special emphasis is placed on forging alliances with local, state and national constituencies such that the College is both a leader and a resource providing expertise, information and guidance.

Within an appropriate and attractive academic environment the College promotes an atmosphere conducive to intellectual and artistic growth, risk-taking and personal and professional development at all levels in both individual and collaborative endeavors. This environment also assists the College in its role as a national center for creative, research and teaching excellence.

As the cultural gateway of the University, the College provides public events and curricular offerings that nurture creative development, enrich aesthetic values and sensitivity, heighten awareness of the arts experience and reflect the disciplinary diversity of its areas of study. Cultural, racial, ethnic and gender diversity is an important commitment in public events and educational efforts.

Ultimately, the mission of the College is the integration of theory and practice through the creation, discovery, preservation and transmission of knowledge in the fine, performing and communication arts.

Campus Resources: Traditional courses of study are augmented by a variety of performance and presentation resources considered integral to many of the creative programs. Included in these are the Bonstelle Theatre, the Wayne State University Dance Company, the Wind Symphony and University Symphony Orchestra, the Intercollegiate Debate Team, plus exhibitions in the Elaine L. Jacob Gallery and the Art Department Gallery that feature work created by students and studio faculty. These are only a few of the campus resources that are especially important for majors in the College. A more comprehensive listing can be found under each of the specific Departments.

Detroit Resources: The proximity of the Wayne State campus to institutions of the Detroit Cultural Center (which includes the Detroit Institute of Arts, Museum of Contemporary Art Detroit, the Charles H. Wright Museum of African American History, Michigan Opera Theatre and Orchestra Hall, among other institutions) provides further unique and enriching benefits for students. Professional staff members of these institutions often serve as adjunct faculty in College programs. Nearby, too, are major print and electronic communications resources that similarly provide both adjunct faculty and professional assistance to other programs in the College.

Accrediting Agencies: Programs in the Department of Music are accredited by the National Association of Schools of Music. The Public Relations program in the Department of Communication is accredited by the Public Relations Society of America. The Dance Program in the Maggie Allesee Department of Theatre and Dance is accredited by the National Association of Schools of Dance.

Academic Regulations: Fine, Performing and Communication Arts

For complete information regarding academic rules and regulations of the University, students should consult Academic Regulations (p. 11) section of this bulletin. The following additions and amendments apply to the College of Fine, Performing and Communication Arts.

Academic Advising

The College provides comprehensive academic advising for each major in the department in which the major resides. In consultation with their academic advisor, students are expected to create an academic Plan of Work and review their progress with the advisor on a regular basis. Freshmen and sophomores should meet with their academic advisor at least once each semester. Juniors and seniors should meet with their advisor at least once per year and should also be consulting with their faculty mentors. Students should always seek advising immediately if they are having difficulties in their academic work.

Attendance

Regular attendance and performance is necessary for success in college work. Each instructor, at the beginning of the course, will announce attendance requirements.

Normal Program Load

The requirements for graduation are based upon an average program of fifteen credits per semester for eight semesters. The normal load shall not exceed eighteen credits.

Because two hours of outside preparation are normally expected for each class hour in each course, a fifteen credit program calls for approximately forty-five hours of class attendance and study per week. Students who undertake such a program should expect to give it their full time and energy. A few hours of employment a week may be safely added to this program by a capable student.

Extra Credits: Extra credits are any credits taken in excess of the normal load of eighteen credits per term. A student with a 3.0 grade point average may take more than eighteen credits, but not to exceed twenty-one credits, only when the proposed program carries the written approval of the academic advisor.

‘AGRADE’ (Accelerated Graduate Enrollment Program)

Accelerated Graduate Enrollment: Some departments of the College permit academically strong majors to apply for admission into the College’s ‘AGRADE’ program. ‘AGRADE’ procedures enable qualified seniors in the College of Fine, Performing and Communication Arts to enroll simultaneously in the undergraduate and graduate programs of the College and apply up to a maximum of sixteen credits towards both a bachelor’s and master’s degree in the major field. Some programs permit less than the maximum number of credits to be applied so check with the major department.

Qualified students may apply for the AGRADE program no earlier than the semester in which ninety credits are completed. Applicants must have
an overall grade point average of 3.5 and not less than a 3.6 grade point average in the major courses already completed.

For more details about the 'AGRADE' program, contact the Graduate Director of the major department.

Retention of Student Records

Term papers and examinations shall either be returned to the student or retained by the instructor for a minimum of six months. Thereafter they may be destroyed. Instructors shall retain grade records for at least five years following the end of a term, and instructors who leave the institution shall give grade records for courses conducted during the past five years to their department chairperson. Five years after the end of a course, grade records may be returned to the instructor or destroyed by the department.

Dean's List

The Dean's List of academically exemplary students is compiled each fall and winter term based on the following criteria: a 3.75 grade point average for students registered for full-time programs of twelve credits or more that contribute to the grade point base; and a 4.0 grade point average for students registered for full-time programs of twelve credits. Students who receive marks of I, WN, or WF, or grades of N or U (p. 74) are not eligible.

Academic Probation

Low Grade Point Average

If a student’s work averages below 2.0, the student will be placed on academic probation (p. 11). The student will be required to obtain permission from an advisor before registering, as outlined in an email to the student, with instructions for addressing the Probation status. Such permission to register will be granted only after the student meets with his/her departmental advisor and/or the college’s Success Coach, depending on the student’s level of Probation and the instructions provided in the Probation notification email. The student and advisor/Success Coach will identify previous causes of academic difficulty and will formulate a plan for future academic success.

Registration and Holds on Records

A student on academic probation has an academic probationary ‘hold’ placed on his/her record, and must obtain a release of this hold each term before being permitted to register. To obtain this release, the student must meet with his/her departmental advisor and/or the college’s Success Coach, as indicated above under ‘Low Grade Point Average.’ The hold will not be released after the last day of the final registration period for the term in which the student intends to register.

Restriction

While on academic probation, a student may not represent the College in student activities.

Removal of Probation

Academic probation will be removed at the end of any term in which the student achieves a cumulative grade point average of 2.0 (C) or higher for all degree work taken at the University.

Exclusion

Low Grade Point Average

A student on academic probation shall be allowed three subsequent terms for enrollment in probationary status. At the conclusion of the three terms, a student who has not achieved a cumulative grade point average of at least 2.0 shall be dismissed from the College. This dismissal may be reviewed by the Reinstatement & Appeals Committee of the College if the student submits appropriate paperwork evidencing his/her eligibility to return and remain successful. A student dismissed from the College may not be reinstated until one calendar year has passed; however, reinstatement paperwork may be submitted as early as one semester prior to the student's eligible reinstatement date. A student may appeal dismissal during the semester following the dismissal notification.

Reinstatement

After one year of exclusion, the student may apply for reinstatement to the College. The reinstatement application must be returned to the CFPCA Dean's Office on or before whichever following deadline precedes the student’s eligible reinstatement semester: October 15th, February 15th, or June 15th. The decision to reinstate the student will be based upon evidence presented by the student that circumstances have changed and that the probability for success has increased. For further information, visit the college's website at http://cfpca.wayne.edu/reinstatement.php.

Cheating and Plagiarism

The principle of honesty is recognized as fundamental to a scholarly community. Students are expected to honor this principle and instructors are expected to take appropriate action when instances of academic dishonesty are discovered. An instructor, on discovering such an instance, may give a failing grade on the assignment or for the course. Serious acts of dishonesty may lead to suspension or exclusion.

The instructor has the responsibility to notify the student of the alleged violation and the action being taken. Both the student and the instructor are entitled to academic due process in all such cases. Information on procedures is available through the Dean of Students Office.

Grade Appeal Procedure

It is the instructor’s prerogative to evaluate student work and assign grades in accordance with his or her academic and professional judgment. Grounds to appeal a final grade include the following:

1. The application of nonacademic criteria in the grading process: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status
2. Evaluation of student work by criteria not directly related to course requirements
3. A miscalculation of the grade according to information contained on the course syllabus or other posted or distributed information

Note: These policy guidelines do not apply to:

2. allegations of harassment or discrimination in the learning environment. These matters should be addressed to the Office of Equal Opportunity http://oeo.wayne.edu

Coursework Grades

Disputes over grades should first be addressed informally between the student and the course instructor. If the student and instructor cannot
reach a mutually agreeable resolution, the student can formally appeal the final course grade.

If a student seeks to formally appeal a final course grade, the following steps need to be taken.

**Final Grade Appeal - for Undergraduate and Graduate Students**

1. The student must initiate any final grade appeal in writing, including any supporting documentation, within thirty (30) days following official notification of grades for the term. The appeal is to be addressed to the course instructor. The instructor is to respond within ten (10) days of receiving the appeal.

   - If the instructor notifies the student of the grade to be assigned BEFORE a course is officially concluded, the student can initiate the grade appeal process as soon as they have received the written notification from the instructor of the grade. This written notification of the grade must be given by the student to the Department Chair as part of the appeal documentation.

2. If the student is not satisfied with the response or receives no response from the instructor, the student has ten (10) days to submit a written appeal directed to the Department Chair.

3. The student will be notified in writing of the Department’s decision within thirty (30) days of receiving the appeal. Appropriate departmental committees may be consulted for advice in grade appeals and the instructor will be invited to reply to the issues raised by the student. In all cases, appeals at the Department level will result in a written response from the Department Chair that is sent to the student and to the instructor.

4. If the student is not satisfied with the response from the Department level, the student may, within ten (10) days of receiving the Department decision, submit a written appeal directed to the Dean of the College and copy it to the Department Chair. This written appeal is to contain a copy of the written appeal that was directed to the Department Chair and a statement explaining the student’s dissatisfaction with the Department level response. The College will provide a written decision within thirty (30) days of receipt of the student’s appeal.

5. If the student wishes to continue the final grade appeal, the student may request a formal review by the Provost’s office within thirty (30) days of the date of the College’s response. Such requests are subject to the university’s Academic Appeal Procedure found under “Academic Regulations” in the respective Undergraduate or Graduate Bulletin http://bulletins.wayne.edu. The request should be submitted via the online form located at https://provost.wayne.edu/academic-policy.

6. Any meetings held in relation to the appeal shall provide parties the opportunity to present additional information orally or in writing. No additional persons should be permitted at such meetings without advance approval by the Chair or Dean, as appropriate.

7. Students/faculty may contact the Ombudsperson at any time for assistance with any problem associated with a grade decision or grade appeal: ombudsoffice@wayne.edu.

**Graduation With Distinction**

Wayne State University bestows upon students completing the baccalaureate degree three separate designations for scholastic excellence reflected in the cumulative grade point average: *Cum Laude*, *Magna Cum Laude*, and *Summa Cum Laude*. Graduation with Distinction will be indicated on the student’s diploma and on the transcript.

Graduation with Distinction will recognize at each commencement the top twenty percent of students in the College of Fine, Performing and Communication Arts who have earned the highest grade point average in the College with the following approximate distribution:

- Top 5%: Summa Cum Laude
- Next 5%: Magna Cum Laude
- Next 10%: Cum Laude

The specific minimum grade point average for these distinctions will be determined each year in the following manner (except that it shall not be less than 3.0).

Based on the grade point average distributions of the previous year’s senior class, the grade point average cut-offs for the College will be established for the current academic year.

The criteria for Graduation with Distinction include:

1. A minimum of fifty-six credits in residence at Wayne State University;
2. A minimum grade point average, as established above, on all work at Wayne State University completed by the end of the term of graduation. (For notation in the Commencement Program, the grade point average on all work completed prior to the term of graduation will be used.)

**Commencement**

All students must formally apply for degree certification by the deadline established by the Office of the Registrar for the term of intended graduation.

Information concerning commencement announcements, caps and gowns, invitations, tickets, time and place, assembling and other relevant items will be provided to graduates by the Commencement Office prior to the event.

**Bachelor’s Degree Requirements: Fine, Performing and Communication Arts**

**Credits**

A candidate for a Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music, or Bachelor of Science degree must complete at least 120 credits. Certain curricula may require additional credits. Also see Restrictions on Credit below. Degree components comprising these credits are: 1) General Education Requirements; 2) Department Requirements; and 3) Major Requirements.

**General Education Requirements**

University-wide General Education Requirements are designed to enhance students’ basic skills and the diversity of their intellectual background. These requirements assure minimal competence in those skills needed to succeed in college and professional life and provide a selective introduction to the increasingly broad range of academic disciplines represented at the University. They serve to emphasize the fundamental means and essential knowledge required for continuing self-education and intellectual growth.

Entering undergraduate students in the College of Fine, Performing and Communication Arts are required to satisfy the University General Education requirements (p. 35).
Department Requirements

Some of the courses listed in the University General Education program are also courses required by for specific majors within this College. With careful course selection, students may satisfy both General Education Requirements and Department Requirements in some majors (and concentrations, where applicable). For more information, please consult an academic advisor in the major Department.

Major Requirements

A major is a program of intensive study in a Department within the College. The specific course requirements for all such majors are listed in this bulletin under each of the Departmental sections. Some degree programs offer students a choice of concentrations within the major. Students who plan to elect a major should consult with a departmental academic advisor prior to initial course registration. Courses in the major (and concentration, as applicable) must be completed with the grade of ‘C’ (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the major of ’C’ (2.0) or higher in order to complete the major. In addition, the student is required to maintain a cumulative g.p.a. of ‘C’ (2.0) or higher for all University coursework.

Students who have not decided on a particular major area of study may initially select an exploratory option thereby indicating only the intention to take a degree in one of the Departments of the College. These options are Exploratory Communication Arts, Exploratory Fine Arts, Exploratory Music, and Exploratory Performing Arts. In partnership with academic advisors, students are encouraged to choose a specific degree program in one of the Departments within thirty credit hours. The exploratory option is not available for transfer students.

Course requirements vary with each curriculum. Exceptions are permitted to the College rules governing the minimum and maximum credits in the major subject and the maximum credits allowed in restricted courses if provision for such exceptions are stated or implied in the curriculum requirements outlined in this bulletin. Descriptions of courses and the various curricula may be found in this Bulletin, under each of the Departmental sections of the College of Fine, Performing and Communication Arts.

Capstone Course: All undergraduate students must successfully complete a capstone course within their major. This course will be taken during the senior year (last thirty credits in course work) and provides a systematic focus on and assessment of the knowledge and skills obtained in the major.

Credits: The major must include at least twenty credits in one subject, exclusive of the introductory courses and inclusive of some advanced work. No more than forty-six credits in the major subject (including introductory courses) may be counted toward a degree, except in specific curricula in which additional courses are specified in the curriculum outline.

For majors that require intensive study in a particular subject, more than forty-six credits are allowed.

Within the above limits and the University’s Bulletin-in-Effect (p. 35) Graduation Policy (p. 25), each major program has specific requirements, and these requirements may be modified from time to time; therefore, it is the student’s responsibility to stay informed of current requirements from the major Department.

The major completed is part of the degree designation on the diploma.

Double Major (one degree, 2 majors, minimum of 120 credit hours)

If a student wishes to declare a double major, the approval of the chairperson or designated representatives of each of the departments of the intended majors must be obtained. In order for a student to graduate with a double major, the major requirements in both majors (and areas of concentration, as applicable) must be fulfilled and at least 120 credit hours must be earned. All courses in the major must meet the minimum grade requirement designated by the department and an overall GPA in the major of ‘C’ (2.0) or higher. In addition, the student is required to maintain a cumulative g.p.a. of ‘C’ (2.0) or higher for all University coursework.

PLEASE NOTE:

1. If the majors are in different colleges, the student must complete the General Education curriculum of the college that has the most comprehensive requirements;
2. only the name of the first of the two majors will appear on the diploma; and
3. the names of both majors will appear on the transcript. Students who wish to pursue dual concentrations within a single department must secure the permission of the chairperson or designated representative of the department. However, only one concentration will appear on the transcript.

Academic Procedures (Majors and Minors)

For procedures on declaring a major, adding a second major or second degree, or adding a minor, students should consult the sponsoring departmental academic advisor. Students should consult with their academic advisor as soon as possible to establish a comprehensive Plan of Work in order to pursue their academic goals as efficiently and effectively as possible.

Concurrent Degrees (2 degrees, minimum of 150 credit hours)

A student who has completed all the University, School/College, and Department requirements for two different degree programs and who has accumulated 150 or more degree credits may apply for both degrees simultaneously. A separate diploma will be issued for each degree and both degrees will be listed on the transcript. Students must inform the academic advisors in each degree program of their intention to pursue concurrent degrees. Another, and more usual, procedure for students satisfying the requirements of two different major programs is to declare a double major and graduate with one degree, in which case as little as 120 degree credits may be required (see Double Major). All courses in the major must meet the minimum grade requirement designated by the department and an overall GPA in the major of ‘C’ (2.0) or higher. In addition, the student is required to maintain a cumulative g.p.a. of ‘C’ (2.0) or higher for all University coursework.

Second Degree

A student who has received a Fine, Performing and Communication Arts degree from Wayne State University or any other accredited institution may obtain a second bachelor’s degree in another academic area by registering in the College/School sponsoring the degree program. A graduate of Wayne State University who has earned a degree from the College of Fine, Performing and Communication Arts may be ranked as an undergraduate by declaring a new major (in a departmentally approved area of concentration, as applicable) and indicating a desire to earn a second undergraduate degree. Other Wayne State University graduates must transfer to the College of Fine, Performing and Communication Arts.
A student from another institution must be admitted to the College by the University Admissions Office. Courses in the major (and concentration, as applicable) must be completed with the grade of ‘C’ (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the major of ‘C’ (2.0) or higher in order to complete the major. In addition, the student is required to maintain a cumulative g.p.a. of ‘C’ (2.0) or higher for all University coursework.

It is assumed that the second degree major will be different than that of the first degree and the student is not earning redundant credit; generally, no second degree will be granted in the academic area in which the first degree was earned. The University also requires that the student complete at least thirty credits in coursework at Wayne State University beyond the first degree, in order to be granted a second bachelor’s degree from Wayne State University.

**Fine, Performing and Communication Arts: Minor Options**

The College of Fine, Performing and Communication Arts offers the option of minor concentrations in various subjects both to students in this college and other schools and colleges of the University. Students are strongly encouraged to consult with departmental academic advisors for course selections. Courses in the minor must be completed with the grade of ‘C’ (2.0) or higher OR a C- (1.67) or higher depending on the department. In all cases, a student must have achieved a GPA in the major of ‘C’ (2.0) or higher in order to complete the minor. Minors are optional and students may choose not to fulfill the typical 18-21 credits of course work that make up a minor.

The notation of the minor will appear on the transcript but not on the diploma. Early declaration of the minor is encouraged so that coursework can be incorporated into the student’s ongoing Plan of Work, see above under Academic Procedures (Majors and Minors).

**Senior Rule**

In addition to the University policy, the College requires that all competency requirements must be met before Senior Rule (p. 23) registrations can be considered. No student who has competency requirements to fulfill in the final semester of his or her undergraduate program will be eligible to apply for Senior Rule.

**Teacher Preparation & Certification**

CFPCA music and dance students interested in teaching may choose to complete coursework and clinical experiences leading to K-12 certification as part of a combined program with the College of Education (COE). Students follow the curriculum for their respective major (B.S. or B.F.A. in dance) or concentration (B. M. in music education).

Typically, CFPCA teacher candidates in music or dance begin their academic studies in the College of Fine, Performing and Communication Arts. During the sophomore year, students consult with their academic advisor in their major Department concerning the Level 2 application to the College of Education. This is a separate application leading to dual enrollment in both the CFPCA and the COE. See Level 2 application details below.

Once approved by the College of Education as a candidate for teacher certification, program requests will be signed by both a College of Fine, Performing and Communication Arts major academic advisor and by the appropriate advisor in the College of Education. Required coursework for the COE including fieldwork is completed during the junior and senior years. Students will not be allowed to register for the professional courses taught through the College of Education until they have been officially admitted to the COE.

**Admission to the College of Education**

Students submit the Level 2 application when all Level 2 admission requirements have been fulfilled. These requirements vary by program and students are encouraged to meet with a departmental academic advisor to review requirements specific to their program. The admission requirements include but are not limited to the following:

1. Successful completion of the Michigan Basic Skills Requirement: SAT Evidence Based Reading & Writing with a score of 480 and Math with a score of 530, or Michigan Department of Education approved alternative pass measure (see a departmental academic advisor for more information).
2. A Negative TB Test within the past three years.
3. A criminal history background check completed through an approved College of Education vendor. There is a fee paid by the student for the check.

Level 2 applications are processed three times per year and must be submitted by the deadlines listed on the COE admissions website. Click here to view additional information including deadlines, and complete the Level 2 Application: http://coe.wayne.edu/admissions/undergrad-requirements.php.

Note: Near the end of the program and at the time of recommending the teacher candidate to the Michigan Department of Education (MDE), Adult and Child CPR and First Aid Certification is required from an approved MDE provider.

**Study Abroad**

Various opportunities for study abroad are available through the University. Students should contact their major Department and the Study Abroad Office for further information regarding these programs.

**Honors Courses**

All departments in the College of Fine, Performing and Communication Arts offer Departmental Honors. Students enrolled in the College of Fine, Performing and Communication Arts who are interested in pursuing University or Departmental Honors curricula should refer to Undergraduate Honors Curricula (p. 68), or contact the departmental honors advisor.

**Restrictions on Credit**

The College imposes the following restrictions on credit:

**Maximum Credits in One Subject:** A student may not count as credit toward a degree more than forty-six credits in courses in any one subject except in specific curricula in which additional courses are specified in the curriculum outline.

**Over-Age Credits:** A student attempting to complete a major after a protracted interruption in education, or on a part-time basis over an extended period of time, may find that some of the early course work is out of date. In such cases, a Department may require refresher work or demonstration of preparation for advanced courses in the Department.

**Restrictions on Transfer Credit — Two-year Schools:** No more than sixty-four semester credits may be transferred from two-year colleges unless the student is following an articulation agreement that allows the transfer of additional two-year college credit.

**Life Fitness Activity:** No more than eight credits may be earned.

W. Hawkins Ferry Endowed Chair in Twentieth Century Art History and Art

Criticism: Samantha Noel

Elaine L. Jacob Endowed Chair: Melvin Rosas

Our Mission

The James Pearson Duffy Department of Art and Art History is a

community of students, staff, and faculty that advances the study and

practice of art history, design, and fine art.

Our Vision

We sustain and further these disciplines through rigorous research,

creative production, instruction, and community engagement within the

context of an urban research university.

To realize this vision the department will:

1. Offer relevant and innovative programs grounded in faculty expertise

2. Support the research and creative activity of students and faculty

3. Develop lectures, workshops, exhibitions, and events that engage diverse audiences

4. Cultivate a supportive and collaborative environment for critical thinking, visual literacy, and creative practice

5. Provide safe and professional facilities for our students, staff, and faculty

6. Promote the importance of an arts education within a university context

The James Pearson Duffy Department of Art and Art History is dedicated

to the understanding, production and presentation of works of art in all

media. It seeks to explore and develop visual literacy as well as technical,
critical and conceptual skills. The curriculum combines history, theory,

practice and technology with interdisciplinary learning that aims to

nurture a balance between technical proficiency, experimentation with

new ideas and studying the visual arts as a means of understanding the

intellectual and cultural history of humanity. By receiving a
comprehensive training in the visual arts within the context of a liberal

arts education, students are encouraged to master the various avenues

of creative investigation and learning within the Department as well as

in other departments of the College and the University at large. Each

student is thereby able to progress from fundamentals to creative and

intellectual maturity and given the tools of professionalization in a variety

of different areas while immersed in the rich diversity of cultural and

research opportunities offered by the University as a whole.

Academic Work Retention Policy: The Department reserves the right to

retain, for its permanent collection, the work submitted by students for

credit in any course, and to exhibit or reproduce such work in University

publications. Students are encouraged to retain work as they proceed

through their program, so as to have at least twenty works for a final

portfolio review and demonstration of progress.

Advising: All students in the Department of Art and Art History are

encouraged to meet regularly with their advisors regarding their selected

program of study every semester. Students are advised to register as

early as allowable to ensure that classes are available to them. Students

are encouraged to take courses pertaining to their major as soon as the

first semester of study in the Department of Art and Art History. They

are also encouraged to consult a Department advisor for information

regarding the declaration of major.

Transfer Students

Transfer students must complete a minimum of twenty-seven resident

credits in art courses for the B.F.A. degree with a studio major; a

minimum of twelve resident credits with B.A. degree with a studio major;
a minimum of twelve resident credits with an art history major; or a

minimum of twelve resident credits for either the B.A. or B.S. degree

with a major in design and merchandising. The minimum grade for each

course required in the major, which must be taken in the Department

of Art and Art History, must be no less than a C- in order for the course

credit to count toward completion of the degree. A minimum of fifty-

six credits must be completed for the degree from a Bachelor Degree

granting institution.

Articulation Agreements (Transfer of Credit)

Articulation agreements are formal arrangements by which Wayne State

University enters into agreement with other institutions for the transfer

of college credits in certain designated degree programs. Students who

have come to the Department of Art and Art History to pursue a degree

in Art, Design, Art History or Fashion Design and Merchandising under

an articulation agreement with another school or college program are

required to meet with the Department academic advisor on a regular

basis to ensure compliance with the terms of the agreement.

• Art (B.A.) (p. 203)

• Art History (B.A.) (p. 206)
Art (B.A.)

The James Pearson Duffy Department of Art and Art History is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity.

Admission Requirements

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates for the Bachelor of Arts in Art must complete a minimum of 120 credits including satisfaction of the University (p. 35) General Education requirements and a minimum of forty-eight credits in art courses, including the Course Requirements Sections A, B, and C as cited below. No grade lower than a 'C-' in a major course may be applied toward the completion of the degree. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 197) governing undergraduate scholarship and degrees.

Major Requirements

48 credits total – courses in sections A, B, and C

Art (B.F.A.)

The James Pearson Duffy Department of Art and Art History is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with
new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity.

**Admission Requirements**

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates for the Bachelor of Fine Arts degree must complete a minimum of 120 credits including satisfaction of the University General Education requirements (p. 35). Departmental requirements as cited under the Bachelor of Arts with a Major in Art (p. 203) must be met, as well as the concentration requirements below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 197) governing undergraduate scholarship and degrees.

**Major Requirements**

Students pursuing a B.F.A. in Art must complete courses listed in sections A, B, and C and all courses listed under a selected concentration.

**Concentration Requirements**

Students must complete thirty to thirty-three credits (depending on the concentration selected) in art courses, eighteen of which must be at the advanced level (from courses numbered 3000 and above) within the selected concentration plus the appropriate senior seminar for the selected concentration. The minimum grade for each course required in the concentration, which must be taken in the Department of Art and Art History, must be no less than a C- in order for the course credit to count toward completion of the degree. Curriculum outlines with suggested scheduling patterns for the below concentrations are available from the Department of Art and Art History (http://www.art.wayne.edu/). All work within the following Concentration Requirements (30-33 credit hours) must be completed in addition to the courses from the Major Requirements (39 credit hours). Required courses in each concentration for the B.F.A. with a major in Art are given below; exceptions may be made only with the consent of advisor.

Total Credits 41

Each course in the major must be completed with a minimum grade of 'C-.' In addition to the credits in art history, students are required to complete three semesters of a single foreign language, with minimum grades of 'C.' Please note that many graduate programs in Art History across the nation require a minimum of 4 semesters of either French or German Language, therefore French or German are the encouraged languages in this field.

Design (B.F.A.)

The James Pearson Duffy Department of Art and Art History is dedicated to the understanding, production and presentation of works of art in all media. It seeks to explore and develop visual literacy as well as technical, critical and conceptual skills. The curriculum combines history, theory, practice and technology with interdisciplinary learning that aims to nurture a balance between technical proficiency, experimentation with new ideas and studying the visual arts as a means of understanding the intellectual and cultural history of humanity.

Admission Requirements

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates for the Bachelor of Fine Arts degree with a major in Design must complete a minimum of 120 credits including satisfaction of the University General Education requirements (p. 35), the Departmental and the Concentration (p. ) requirements. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 197) governing undergraduate scholarship and degrees.

Major Requirements

24 credits total – courses in sections A, B, and C in addition to the courses in your selected concentration.

Concentration Requirements

Students must complete forty-four to forty-five credit hours (depending on the concentration selected) in design courses, eighteen of which must be at the advanced level (from courses numbered 3000 and above) within the selected concentration plus the appropriate senior seminar for the selected concentration. The minimum grade for each course required in the concentration, which must be taken in the Department of Art and Art History, must be no less than a C- in order for the course credit to count toward completion of the degree. Curriculum outlines with suggested scheduling patterns for the below concentrations are available from the Department of Art and Art History (http://www.art.wayne.edu/). All work within the following Concentration Requirements (44-45 credit hours) must be completed in addition to the courses from the Major Requirements (24 credit hours). Required courses in each concentration for the B.F.A. with a major in Design are given below; exceptions may be made only with the consent of advisor.

Design and Merchandising (B.A.)

Curricula in this area provide a liberal education as well as the opportunity for a professional concentration in the fields of apparel design and fashion merchandising.

Admission Requirements

Admission Requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Candidates must complete a minimum of 120 credits including satisfaction of the University General Education requirements (p. 35) and all departmental and area requirements as indicated below. A minimum grade of C- must be earned in each required course in the major in order for the course credit to count toward completion of the degree. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 197) governing undergraduate scholarship and degrees.

Fashion Merchandising Concentration

This concentration develops understanding and practical skills related to the planning, buying and selling of fashion merchandise. Students gain insights into the various aspects of the apparel industries including marketing, sales, styling, publicity, advertising, visual presentation, fashion coordination, and merchandising. Possible careers include positions in management, buying, and fashion promotion and sales.

</table>
Art Minor

This minor broadens understanding of artistic expression from the past to the present. Learn fundamental concepts and then apply them in a studio setting. Fine Art electives may be taken from any of the nine Fine Art areas: Ceramics, Digital Art, Drawing, Fibers, Metalsmithing, Painting, Photography, Printmaking or Sculpture.

Students must complete 21 credits as specified below:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</tr>
<tr>
<td></td>
<td>Total Credits</td>
<td>21</td>
</tr>
</tbody>
</table>

All courses in the minor must be completed with the grade of C- or higher.

Blacksmithing Minor

The Blacksmithing minor is intended for students who wish to hone their critical thinking and creative problem solving by using a variety of blacksmithing skills including handwork, machining and digital fabrication to refine their ability to produce artwork, commissions and utilitarian tools. With a minor offering such as Blacksmithing, students in art, design, physics, engineering, education and other interested majors will be able to have a "physical" material application to apply to their field and creative/research projects.

Students pursuing a Blacksmithing minor must complete the following courses from the list below totaling 21 credits.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<tr>
<td>AH 1130</td>
<td>Encounters with the Arts of Global Africa</td>
<td></td>
</tr>
</tbody>
</table>

Ceramics Minor

The ceramics minor offers undergraduate students the opportunity to supplement their major field of study with a rigorous investigation of the ceramic material. Lower level coursework provides students with a foundation of art and an introduction to ceramics in effort to prepare them for more advanced courses. Students have the option of taking upper level coursework that explores sculptural and conceptual concerns and/or productions skills and functional ceramics.

Students pursuing the ceramics minor must complete 18 credits as specified below:

<table>

</table>
Digital Art and Photography Minor

This minor offers students the opportunity to supplement their major field of study with a rigorous investigation of digital art and photography. The program will provide a rich academic environment that will foster creativity and spur innovative thinking. The three required courses provide students with a deep understanding of the production of visual language in video, photography, and other time-based methods. From this dynamic foundation, they will choose a line of study to more thoroughly investigate advanced photography techniques, interactive art, or 2D/3D animation in a fine arts context.

Students must complete 18 credits as specified below:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACO 1270</td>
<td>Time Studio</td>

<td>Time-Based Media I: Video Art</td>
<td>3</td>
</tr>
<tr>
<td>AFA 2400</td>
<td>Introduction to Photography</td>
<td>3</td>
</tr>
</tbody>
</table>

All courses in the minor must be completed with the grade of C- or higher.

Illustration Minor

The minor in Illustration offers students the opportunity to learn to effectively use both traditional and digital media to create illustrations and hand lettering to communicate messages intended for reproduction. Students will have the opportunity to learn through demonstrations, hands-on exercises and lectures. The minor broadens understanding of illustration and its role in everyday visual culture.

The minor in Illustration requires 21 credits as specified below:

<table>
<thead>
<tr>

All courses in the minor must be completed with the grade of C- or higher.
Jewelry Minor

The Jewelry minor offers undergraduate students a rich experience of materials, process and interpretation to complement their degree work. The minor is open to both Art and Non-Art majors and is designed to give students a range of experiences including use of hand processes, machines and digital fabrication through the scope of Jewelry. This minor will blend historic and contemporary theory and awareness of practitioners to help students contextualize their work within jewelry making.

Students pursuing a minor in jewelry must complete the following courses from the list below totaling 18 credits.

Painting and Drawing Minor

This minor provides students the opportunity to supplement their major field of study with an exploration of the media, techniques, and concerns of contemporary painting and drawing. The wide array of courses allows students to follow individualized paths through the curriculum, whether their interests lay in working from live models, in the landscape, with non-objective imagery, or either alternative or traditional media in both painting and drawing. The breadth of the Painting and Drawing program comprises a rich and stimulating environment through which students are invited to express their ideas and stretch their creativity.

The Minor in Painting and Drawing requires 21 credits.

All courses in the minor must be completed with the grade of C- or higher.

Sculpture Minor

This minor provides students the opportunity to supplement their major field of study with an exploration of contemporary sculpture through hands on exposure to the variety of sculptural capacities available at Wayne State: foundry work for bronze and aluminum casting, mold-making and casting for contemporary applications, clay modeling from the figure, steel fabrication and welding, and woodworking.

The Minor in Sculpture requires 18 credits.
Textile Design Minor
This minor offers students the opportunity to learn textile design skills and apply these in a studio/industry setting. The minor provides course options in both print and woven textile design. The minor combines elements of the fibers and fashion programs.

Students must complete 24 credits as specified below:

<table>
<thead>
<tr>

</tbody>
</table>

**Design History (select one of the following):**

- AFA 5430 | History of Costume                                 | 3       |
- ADN 6320 | History of Modern Design I                         | 3       |
- ADN 6330 | History of Modern Design II                        | 3       |

**Textile Design Studio Electives:**

In discussion with your art advisor, select two studio electives from fibers.

- AFI 2650 | Beginning Weaving                                  | 3       |
- AFI 3650 | Intermediate Weaving and Fiber Arts                | 3       |
- AFI 3660 | Intermediate Fibers: Printing and Dyeing           | 3       |

All courses in the minor must be completed with the grade of C- or higher.

**Communication**

Office: 585 Manoogian Hall, 313-577-2943
Chairperson: Kathryn Maguire
Academic Services Officer: Victoria Dallas
Undergraduate Advisor: Jessica Greenwald
http://www.comm.wayne.edu (http://www.comm.wayne.edu/)

The primary aim of this department is to assist students in developing the ability to communicate effectively and to understand the principles of the communication process. The variety of degree programs provides broad liberal arts education as well as specific career training. Undergraduate and graduate majors may prepare for careers in several fields: industrial relations; sales; personnel; public relations; radio, television, film; journalism; teaching; law; and, the ministry.

The department sponsors several student activities that are available to all University students. These include intercollegiate debate and speech teams. Wayne State University has undergraduate chapters of Lambda Pi Eta, Forensic Union, Delta Sigma Rho-Tau Kappa Alpha, the Film Association, the Society of Professional Journalists and the Public Relations Student Society of America. Talent scholarships are also available to students interested in forensics or debate.

**COM 1010** is designed for those who wish to improve their general communicative ability. This course can be taken to fulfill the University’s General Education Competency Requirement in Oral Communication (OC). This requirement should be completed within the first 60 credit hours. Courses in persuasive speaking, discussion, debate, interpersonal communication and small group offer additional opportunities to study and practice general communication skills.

- Communication Studies (B.A.) (p. 214)
- Communication Studies AGRADE Program (p. 215)
- Film (B.A.) (p. 216)
- Journalism (B.A.) (p. 217)
- Media Arts and Studies (B.A.) (p. 219)
- Public Relations (B.A.) (p. 220)
- Public Relations AGRADE Program (p. 221)

**Communication Department Minors and Cognate Study**

The following minors are available in the department and should be pursued in consultation with an advisor in each of the specialized areas of concentration. Please note that some minors are not available to students who also major in the department. While a minor designation does not appear on the diploma, it will be noted on the student’s transcript.

- Film Minor (p. 217)
- Communication Studies Minor (p. 216)
- Health Communication Minor (p. 217)
- Journalism Minor (p. 218)
- Law Minor (http://bulletins.wayne.edu/undergraduate/college-fine-performing-communication-arts/law-minor/)
- Media Arts and Studies Minor (p. 220)
• New Media Minor (p. 220)
• Public Relations Minor (p. 222)

Bachelor of Arts Program
Requirements

Department of Communication

At the undergraduate level the Department of Communication offers Bachelor of Arts degrees with majors in:

• Communication Studies
• Film
• Journalism
• Media Arts and Studies
• Public Relations

The following requirements apply to all of these degrees; specific requirements are listed within each major program.

Admission Requirements

Admission requirements are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Degree Requirements

Candidates for the Bachelor’s degree must complete 120 credits of course work including satisfaction of the University General Education requirements, department degree requirements including completion of a foreign language through the third semester or two semesters of foreign language and one semester of foreign culture, as well as the major requirements of one of the programs. All courses in the major or the minor must be completed with a grade of C or better and be completed in accordance with the regulations of the University (p. 25) and the College (http://bulletins.wayne.edu/undergraduate/college-fine-performing-communicaiton-arts/bachelors-requirements-fine-performing-communication-arts/) governing undergraduate scholarship and degrees.

A major will complete at least thirty but not more than forty-six credits in the Department. Any course work elected over the forty-six credit maximum must have prior approval of both advisor and chairperson if the additional credits are to count toward the degree (120 credits). This required approval includes students who plan to double major in the Department. Double majors are not allowed in some combined concentrations: Public Relations and Communication Studies, or Public Relations and Journalism. At least twelve credits are required in residence within the major. Students should consult their advisor in selecting a proper distribution of courses.

Foreign Language Requirement

Students will be required to complete two semesters of a single foreign language to fulfill the requirements for a bachelor of arts in communication. Two semesters of American Sign Language will count as fulfilling that requirement.

General Education Requirements

University-wide General Education Requirements are designed to enhance students’ basic skills and the diversity of their intellectual background. These requirements assure minimal competence in those skills needed to succeed in college and professional life and provide a selective introduction to the increasingly broad range of academic disciplines represented at the University. They serve to emphasize the fundamental means and essential knowledge required for continuing self-education and intellectual growth. The College adheres to specified timelines for completion of General Education requirements (p. 35).

Some of the courses listed in the University General Education program are also courses required in some majors. With careful course selection, students may satisfy both General Education Requirements and Department Requirements in some majors (and concentrations, where applicable). Students should consult the table in the College introductory section in order to take advantage of these occasions of overlapping requirements.

Writing Intensive (WI) Requirement: The University General Education Program requirement of a writing intensive course in the major may be fulfilled by taking one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COM 2230</td>
<td>Broadcast News Writing and Digital Editing (broadcast journalism)</td>
<td>3</td>
</tr>
<tr>
<td>COM 3400</td>
<td>Theories of Communication (communication studies)</td>
<td>3</td>
</tr>
<tr>
<td>COM 5270</td>
<td>Screenwriting (film)</td>
<td>3</td>
</tr>
<tr>
<td>COM 4170</td>
<td>Public Relations Writing (public relations)</td>
<td>3</td>
</tr>
<tr>
<td>COM 4100</td>
<td>Feature Writing (journalism)</td>
<td>3</td>
</tr>
<tr>
<td>COM 3010</td>
<td>Media Analysis and Criticism (media arts and studies)</td>
<td>3</td>
</tr>
<tr>
<td>or COM 4560</td>
<td>Telecommunications Policy: A Political Economy Approach</td>
<td>4</td>
</tr>
</tbody>
</table>

The writing intensive course should be taken during the junior year after satisfactory completion of the Intermediate Composition (IC) requirement.

Communication Studies (B.A.)

A major in Communication Studies offers students an opportunity to develop excellent communication skills and a thorough knowledge of the process of human communication. Communication studies majors take a variety of courses in public speaking, interpersonal communication, group communication and communication theory.

Employers in business, government, and education identify excellent communication skills as the most important quality they desire in hiring employees. Communication studies majors find careers in many different fields including business, government, education, law and religion.

The degree of Bachelor of Arts with a major in communication studies is offered in two concentrations - Communication Studies, and Communication Studies Education. In addition to the course work below, students must complete all of the department’s general degree requirements (p. 214).

Communication Studies

All majors in this concentration must elect the following core courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COM 1010</td>
<td>Oral Communication: Basic Speech</td>
<td>3</td>

<td></td>
</tr>
</tbody>
</table>

Departmental Honors Program

The Communication Department Honors program offers capable students the opportunity to pursue independent study and to work closely with department faculty members. Completion of the honors major results in an honors degree designation on the diploma.

Departmental Honors Requirements

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major at the 2000 level or above, taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts and Sciences Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (COM 4996) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Communication Studies AGRADE Program

The AGRADE program enables highly qualified Communication Studies seniors to enroll simultaneously in undergraduate and graduate programs and to apply a maximum of 12 credits toward both the undergraduate and graduate degrees. The program encourages such students to continue to graduate school at Wayne State by reducing the time to the master's degree. Only AGRADE-approved courses in which the student has earned a B or higher will transfer to the graduate transcript. Once in the master's program, students may be required to repeat an AGRADE course in which they earn less than a B grade.

Eligibility: AGRADE applicants must have an overall undergraduate GPA of 3.5. Applicants are also expected to have performed at a superior level in their major, as determined by the major department and reflected in a GPA in the major of at least 3.6 at the time of application.

Application: A student seeking AGRADE status should present to the Department of Communication Graduate Committee all of the materials which that department requires for normal admission to the M.A. program with a concentration in Communication Studies. Specific departmental admission requirements can be found in this bulletin or obtained from the Graduate Advisor in the Department of Communication (313-577-2959).

The earliest date by which a student may apply for the AGRADE program is during the semester in which he/she completes 90 credits toward the undergraduate degree.

AGRADE Credits: Students may elect a minimum of three and a maximum of twelve AGRADE credits. These credits will be used to complete the baccalaureate degree as well as to serve as the beginning of graduate study. Upon formal admission to a master's program, AGRADE credits are transferred as if they were graduate credits transferred from a graduate program at another university. The remaining graduate credits required for the master's degree will be earned in the conventional manner following formal admission to the graduate program. Formal admission to the graduate program occurs as AGRADE students complete their baccalaureate degree.

Students admitted into an AGRADE program will develop a Plan of Work for the master's program, specifying the courses that will be taken in the AGRADE status as well as the courses required for the balance of the undergraduate degree. Note that COM 7000 must be taken in the first semester of AGRADE coursework. The remaining AGRADE courses must be approved by both the student's undergraduate program advisor and the graduate director of the master’s program. In courses permitting both undergraduate and graduate students to enroll, AGRADE students will be held to the graduate standard.

For more details about the AGRADE program, contact the Graduate Advisor in the Department of Communication (313-577-2959)
The Master of Arts in Communication with a Concentration in Communication Studies

The M.A. in Communication with a concentration in Communication Studies requires a minimum of 30 credits, distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COM 7000</td>
<td>Introduction to MA Studies in Communication</td>
<td>3</td>

</tr>
<tr>
<td>COM 3400</td>
<td>Theories of Communication</td>
<td>3</td>
</tr>
</tbody>
</table>

Two additional communication studies courses selected in consultation with an advisor 6

Total Credits 30

---

**Film (B.A.)**

The major in Film prepares students for careers as film/video makers, professionals and scholars who can create, interpret and critique film as a visual and narrative art form. Students acquire knowledge of film history and film/media theory as they gain training and experience in the art of storytelling through screenwriting, cinematography, sound recording, editing, producing and directing. Students develop skills in the planning, acquisition and management of resources and logistics as they engage in the conceptualization, realization and exhibition of engaging narratives.

Additional work at the graduate level is recommended for some of these careers.

In addition to the coursework below, students must complete all of the department's general degree requirements (p. 214).

**Major Requirements**: The major in Film requires completion of 45-46 credits in coursework as outlined below.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

**Departmental Honors Program**

The Communication Department Honors program offers capable students the opportunity to pursue independent study and to work closely with department faculty members. Completion of the honors major results in an honors degree designation on the diploma.

**Departmental Honors Requirements**

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major at the 2000 level or above, taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts and Sciences Honors Program, a senior honors thesis under the direction of a faculty advisor. Completion of the honors major results in an honors degree designation on the diploma.

**Film Minor**

Students pursuing a minor in Film must complete 19 credits including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COM 1600</td>
<td>Introduction to Audio-Television-Film Production</td>
<td>3</td>
</tr>
<tr>
<td>COM 2010</td>
<td>Introduction to Film</td>
<td>4</td>
</tr>
<tr>
<td>COM 2210</td>
<td>Media Writing and Storytelling</td>
<td>3</td>
</tr>
<tr>
<td>Select an additional nine credits of film-related courses in consultation with advisor. See course list below:</td>
<td>9</td>
<td></td>

</tr>
</tbody>
</table>

**Journalism (B.A.)**

Journalism majors plan careers in news editorial, broadcast, media relations or marketing and advertising. Students have a choice between a concentration in Print and Online journalism or one in Broadcast and Digital Media.

*Journalism Institute for Media Diversity:* The Journalism Institute for Media Diversity is designed to recruit and train talented undergraduate students interested in diversity in the media. Members of all racial and ethnic groups as well as anyone interested in studying the importance of diversity in the nation’s media are particularly urged to apply. The Institute pools the resources of the University, the business community and Detroit area media professionals to provide scholarships and internships for some of its students. For additional information contact:

Director, Journalism Institute for Media Diversity
Wayne State University Journalism Program
559 Manoogian
Detroit, MI 48201
Telephone: 313-577-6304

In addition to the course work below, students must complete all of the department’s general degree requirements (p. 214).

**Major Requirements:** Journalism majors plan careers in news editorial, broadcast, media relations or marketing and advertising. Students have a choice between a concentration in Print and Online journalism or one in Broadcast and Digital Media. A journalism advisor must be consulted for verification of requirements, which includes at least one required three-credit internship.

2 Only 3 credits of either COM 5080 or COM 5710.

Media Arts and Studies (B.A.)

The major in Media Arts and Studies prepares students for careers in a wide range of media industries (such as radio, television, film and interactive media), for graduate programs in production and media studies, and to compete in a rapidly changing technological world. By integrating the history, theory and analysis of media culture, practices, and technology with production experience and internship opportunities, the program prepares students to think critically and creatively about media and become skilled communicators who are socially, ethically and aesthetically astute.

In addition to the course work below, students must complete all of the department’s general degree requirements (p. 214).

Major Requirements: The major in Media Arts and Studies requires completion of a minimum of forty to forty-two credits in coursework as outlined below.

<table>
<thead>

Public Relations (B.A.)
Students electing this major typically seek employment in one of the many career opportunities in public relations: business and industry; non-profit organizations; trade associations; government service; education; or account executive positions in an agency. Some students later pursue graduate-level study in fields such as organizational communication. The Public Relations program at Wayne State is one of two programs in Michigan accredited by The Public Relations Society of America.

In addition to the course work below, students must complete all of the department's general degree requirements (p. 214).

Major Requirements
The major in Public Relations requires completion of a minimum of forty-two credits in coursework as outlined below:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Core Courses</td>

<td></td>
</tr>
</tbody>
</table>

Recommended electives include: COM 2200 Interpersonal Communication, COM 2260 Digital Writing and Research Methods, COM 2290 Fundamentals of New Media Communication, COM 6190 Internship, as well as courses in Journalism (COM 4100 Feature Writing). An advisor should be consulted early in the student's program. Direct inquiries to 585 Manoogian Hall (313-577-2946).

Departmental Honors Program
The Communication Department Honors program offers capable students the opportunity to pursue independent study and to work closely with department faculty members. Completion of the honors major results in an honors degree designation on the diploma.
Departmental Honors Requirements

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major at the 2000 level or above, taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts and Sciences Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (COM 4996) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Public Relations AGRADE Program

The AGRADE program enables highly qualified Communication Studies seniors to enroll simultaneously in undergraduate and graduate programs and to apply a maximum of 12 credits toward both the undergraduate and graduate degrees. The program encourages such students to continue to graduate school at Wayne State by reducing the time to the master's degree. Only AGRADE-approved courses in which the student has earned a B or higher will transfer to the graduate transcript. Once in the master’s program, students may be required to repeat an AGRADE course in which they earn less than a B grade.

Eligibility: AGRADE applicants must have an overall undergraduate GPA of 3.5. Applicants are also expected to have performed at a superior level in their major, as determined by the major department and reflected in a GPA in the major of at least 3.6 at the time of application.

Application: A student seeking AGRADE status should present to the Department of Communication Graduate Committee all of the materials which that department requires for normal admission to the M.A. program with a concentration in Communication Studies. Specific departmental admission requirements can be found in this bulletin or obtained from the Graduate Advisor in the Department of Communication (313-577-2959).

The earliest date by which a student may apply for the AGRADE program is during the semester in which he/she completes 90 credits toward the undergraduate degree.

AGRADE Credits: Students may elect a minimum of three and a maximum of twelve AGRADE credits. These credits will be used to complete the baccalaureate degree as well as to serve as the beginning of graduate study. Upon formal admission to a master's program, AGRADE credits are transferred as if they were graduate credits transferred from a graduate program at another university. The remaining graduate credits required for the master’s degree will be earned in the conventional manner following formal admission to the graduate program. Formal admission to the graduate program occurs as AGRADE students complete their baccalaureate degree.

Students admitted into an AGRADE program will develop a Plan of Work for the master’s program, specifying the courses that will be taken in the AGRADE status as well as the courses required for the balance of the undergraduate degree. Note that COM 7000 must be taken in the first semester of AGRADE coursework. The remaining AGRADE courses must be approved by both the student’s undergraduate program advisor and the graduate director of the master’s program. In courses permitting both undergraduate and graduate students to enroll, AGRADE students will be held to the graduate standard.

For more details about the AGRADE program, contact the Graduate Advisor in the Department of Communication (313-577-2959)

Bachelor of Arts with a Major in Public Relations

Students majoring in Public Relations must complete 42 credit hours, distributed as follows:

Option 1: Traditional Internship: student works for a specified number of hours at an approved internship site where students can acquire and build upon skills that will serve their career goals. The student is required to have a site supervisor.

Option 2: Service Learning Internship Project: student completes a service-learning project in conjunction with the graduate internship coordinator. Each project requires a site supervisor at the hosting organization.

Option 3: Worksite Internship Project: student takes on a project at their current organization, provided that it significantly extends the scope of their current responsibilities or introduces them to a new domain of practice within the organization. The graduate internship coordinator must approve the project. Students must have a designated site supervisor other than their current supervisor.

Interim Associate Chairperson: Russell Miller

Bachelor Degree Requirements

Department of Music

Registration: All students must meet with a Department of Music advisor prior to initial course registration and at least once per term for early registration advising. Enrollment in all MUP courses requires departmental permission.

Scholarship: All course credit applicable to the degree programs described in the following pages must be completed in accordance with the academic procedures of the University (p. 11) and the College (p. 197) governing undergraduate scholarship and degrees.

Music majors pursuing undergraduate degrees must earn the grade of C or better in all music courses required in the music curriculum they are pursuing. The grade of C-minus or below is not an acceptable grade for degree credit. If the grade of C-minus or below (or a mark of WF) is received by a music major in any required course in a music curriculum, the student must repeat the course and earn a grade of C or better. Students who fail to achieve a grade of C or better in required music courses following two attempts may not be allowed to continue to register as Music Majors.

DOUBLE MAJORS: Music majors in any concentration may seek a second major outside Music with the approval of the Department of Music and the Department offering the second major. Double concentrations within a single major, however, are not granted by the University.

Ensemble Participation

The Music Department encourages all musically inclined students to join its ensembles. Participation gives music majors and non-majors the opportunity to improve their musical skills and perform in internationally recognized groups. Conductors audition new students during the week before classes begin; the level of skill necessary varies by ensemble, however, most require music literacy. Music majors must elect designated Major Ensembles (MUA 2800, MUA 2810, MUA 2820, MUA 2822, MUA 2840, or MUA 2850) for degree credit.

B.A. Advisor and Graduate Officer: Joshua Duchan
Academic Advisor: Maurice Draughn
Academic Services Officers: Paul Bishop, Leah Celebi
Departmental Scholarships and Student Records: Kimberly Simmons
Supervisor, Academic and Student Personnel: Evelyn Williams
http://www.music.wayne.edu (http://www.music.wayne.edu/)

The Department of Music cultivates music as a modern and global art, grounded in a long historical tradition, by combining higher education with professional training and experience for its undergraduate and graduate/professional students.

The Department offers serious students of music opportunities to learn, grow, and develop their skills and disciplines in an urban cultural setting. With close proximity to Detroit’s cultural center, students have access to the resources of such premiere institutions as the Chamber Music Society, the Detroit Institute of Arts, the Detroit Jazz Festival, the Detroit Public Library, the Detroit Opera House, and Orchestra Hall. The long historical relationship between the Detroit Symphony Orchestra and the Department allows students to study and coach with exceptional guest artists and resident artist-faculty who are specialists in all musical styles and media.

Building on the strengths of its geographic and cultural setting, the Department maintains public access to its performances and degree programs, offers high-level professional and academic standards and unique creative and scholarly opportunities appropriate to a large research university, and cultivates a deep aesthetic understanding of music in our students and the larger urban arts community.

• Music (B.A.) (p. 224)
• Music (B.Mus.) (p. 225)
• Music Minor (p. 230)
• Jazz Studies Minor for Instrumental Music Education Majors (p. 230)
• Music Technology Minor (p. 230)
• Law Minor (http://bulletins.wayne.edu/undergraduate/college-fine-performing-communication-arts/law-minor/)
**BANDS:** Woodwind, brass and percussion players are welcome to join the Concert Band. Wind Symphony members are chosen through competitive auditions.

**CHORUSES:** Non-music majors are encouraged to register for Choral Union (the large mixed-voice choir), Men’s Chorus or Women’s Chorale. Concert Chorale is the Department’s most select vocal ensemble, and auditions are especially competitive. Music majors who are required to participate in a choral ensemble must elect Choral Union (MUA 2840) or Concert Chorale (MUA 2850) for degree credit.

**JAZZ:** Jazz studies and other music majors are given highest priority for jazz big band positions (MUA 2820) and jazz guitar ensembles (MUA 2822). Non-music majors are welcome to audition for all jazz ensembles and combos.

**ORCHESTRA:** Positions in the Orchestra are assigned through auditions with the conductor of the Orchestra.

---

**General Education Requirements**

University-wide General Education Requirements are designed to enhance students' basic skills and the diversity of their intellectual background. These requirements assure minimal competence in those skills needed to succeed in college and professional life and provide a selective introduction to the increasingly broad range of academic disciplines represented at the University. They serve to emphasize the fundamental means and essential knowledge required for continuing self-education and intellectual growth. The College adheres to specified timelines for completion of General Education requirements (p. 35).

Some of the courses listed in the University General Education program are also courses required in some majors. With careful course selection, students may satisfy both General Education Requirements and Department Requirements in some majors (and concentrations, where applicable). Students should consult the department academic advisors in order to take advantage of these occasions of overlapping requirements.

---

**Music: Private Instruction**

Private instruction in instruments and voice are required in all B.A. and B.Mus. concentrations. The courses listed in the following table under *Principal and Secondary Private Instruction*, MUP 1xxx and 3xxx, are available for one credit each and are intended for students studying instruments as required in the concentrations:

- B.A. in Music
- Composition
- Instrumental Music Education
- Vocal Music Education
- Music Business
- Music Technology
- Jazz Studies
- secondary instrument study in the Performance concentration

All students must successfully pass a junior-standing jury for permission to continue elections at the 3xxx level.

The courses listed in the following table under *Major Private Instruction*, MUP 2xxx and 4xxx, are available for three credits each and are intended for students studying major instruments as required in all performance concentrations. All students must successfully pass a junior-standing jury for permission to continue elections at the 4xxx level.

**Corequisite:** Students enrolled in MUP Private Instruction must concurrently register in an appropriate major ensemble selected from the following:

Music (B.A.)

The Bachelor of Arts curriculum is designed for students who want to develop their musical knowledge and ability while obtaining a broad liberal arts education. It provides students with the academic and musical prerequisites necessary for continuing graduate study in such fields as music theory, musicology and ethnomusicology.

Admission Requirements

Admission Requirements for the Bachelor of Arts program are satisfied by

1. general requirements for admission (p. 23) to the University;
2. a successful audition on a principal instrument or voice.

Candidates for this degree must complete a minimum of 120 credits including satisfaction of the University General Education requirements (p. 35), College degree requirements (p. 199), and Bachelor of Arts curriculum requirements listed below.

ONLY SIXTY CREDITS IN MUSIC ARE APPLICABLE TO THIS DEGREE.

Music (B.Mus.)

The Bachelor of Music degree provides a program for talented students with prior musical experience and skills who seek professional training in music. A wide range of concentrations is available under the program to meet the specialized interests and career plans of serious music students. Depending on the student’s qualifications, he or she may choose from seven professional areas of concentration: composition; instrumental music education; vocal music education; music business; music technology; jazz studies; or performance.

Admission Requirements

Admission to this program is contingent upon

1. satisfaction of the general requirements for undergraduate admission (p. 23) to the University;
2. a successful audition on a principal instrument or voice.

Audition dates are scheduled throughout the year and prospective students should contact the Music Office at 313-577-1795 for scheduling information. Entering students must consult a departmental advisor prior to their first registration.

Candidates for the Bachelor of Music must complete 120 to 127 credits including satisfaction of the University General Education requirements (p. 35), College degree requirements (p. 199), as well as the specific course requirements for each concentration listed below. In addition, all Bachelor of Music students are required to successfully complete a junior-standing performance jury and, depending upon concentration, other junior-standing assessments during the fourth semester of enrollment.

- MUA 4020 Theories of Electronic Music
- MUA 4030 Sound Design for Visual Media
- MUA 4040 Electroacoustic Music
- MUT 5280 Interactive Electronic Music Composition
- PHY 3100 The Sounds of Music

Total Credits 18-20

Theatre and Dance
Office: 3226 Old Main; 313-577-3508
Chairperson: Mary Anderson
http://www.theatreanddance.wayne.edu (http://www.theatreanddance.wayne.edu/)

The Theatre and Dance Programs prepare students for professional careers as performing artists, choreographers, designer/technicians, stage managers, and informed audience members within the urban, metropolitan context of Wayne State University. The Department of Theatre and Dance is committed to providing student the opportunity to develop within their disciplines through an extensive performance program that includes eighteen theatrical productions and dance concerts, four community outreach performance companies that target the city schools, Summer Children's Theatre designed to bring affordable quality summer entertainment to the youth of Detroit, Complexions Summer Ballet Intensive, and Baira WSU Professional Resident Dance Company.

Theatre and Dance Mission Statement: We engage, educate, and empower diverse/student/artists through the rigorous study, practice, and production of theatre and dance to enrich Detroit and the Global Community.

Theatre: The various theatre programs in the Department offer creative opportunities for preprofessional training at every academic level. Undergraduate majors may prepare for careers in teaching, acting, design/technology and related fields. The Department sponsors a large
number of production activities and practicum experiences including the Bonstelle Theatre, Underground Theatre, Freedom Players, Motor City Cabaret, and Summer Children’s Theatre. Participation in these activities is available to all University students.

Dance: The Dance Program prepares students for professional careers as performing artists, choreographers, dance teachers, and informed dance audience members. The dance program offers curricular choices at the undergraduate and post-degree levels, integrating a thorough understanding of applied and theoretical principles of movement with the newest forms and ideas in contemporary dance performance, choreography, and dance education. Undergraduate studies in dance are reflected in the following major and minor designations: Major in Dance leading to the Bachelor of Science degree; Major in Dance leading to the Bachelor of Fine Arts degree. Dance performance opportunities include The Wayne State University Dance Company, Dance Workshop, and To Sangana African Dance company. These are performing groups composed of skilled dance students who must qualify for membership through auditions. They present concerts, lecture/demonstrations, and performances on campus and in the community, choreographed by visiting artists, faculty, and talented students.

Dance
Performance Opportunities in Dance
The Wayne State University Dance Company, Dance Workshop, and To Sangana African Dance Company are performing groups composed of skilled dance students who must qualify for membership through auditions. They present concerts, lecture/demonstrations, and performances on campus and in the community, choreographed by visiting artists, faculty, and talented students. Students must have a minimum 2.5 overall GPA to participate in a performance ensemble.

Other Dance Study
The Dance Program also provides dance instruction for non-majors and develops general appreciation for dance as an art form.

Theatre
The Theatre program is designed to provide students with a solid foundation in all aspects of theatre and theatre production. Having completed a rigorous fundamental sequence of courses, students are prepared to choose their path of study (acting, design and technology, stage management, theatre management, history and dramaturgy, etc.). The extensive production program, including the Bonstelle Theatre, the Studio Theatre, Student Stage, and Summer Children’s Theatre, present opportunity for students to practice and enhance their craft. Participation in these activities is available to all University students.

Dance (B.F.A.)
The Bachelor of Fine Arts with a major in dance provides a professional degree program for talented students with prior dance experience and skills who seek professional careers as performing artists and choreographers. Dance technique and the history, philosophies, and aesthetics of dance are all central to this program.

Admission Requirements
Admission to this program is contingent upon satisfaction of the general requirements for undergraduate admission (p. 23) to the University and a successful audition conducted by the Department faculty. Audition dates are scheduled throughout the year prior to admission. Prospective students should contact the Theatre and Dance Office for audition schedule information.

All B.F.A. dance majors must be enrolled in appropriate level technique classes each semester and evidence successful progress in their respective degree programs in order to maintain dance major status. Any dance major who does not comply and/or does not register and complete appropriate dance coursework for one semester MUST AUDITION FOR THE DANCE PROGRAM for re-admission. Students out of the dance program for two semesters or more are rarely re-admitted to the program.

Candidates must complete a minimum of 120 credits in course work, including satisfaction of the University General Education requirements (p. 35), College degree requirements (p. 199) and a minimum of eighty-eight credits in dance courses (specified below). B.F.A students must comply with the following department policies — any student who does not meet these standards will be placed on Departmental probation and may be denied continuation in the program: the credits in specified Dance courses must be completed with grades of C minus or better; dance technique and choreography classes must be completed with a B plus or better; and a 3.0 cumulative g.p.a must be maintained. Students must be current in their plan of work and all Basic Competency courses must be completed prior to enrolling in the Capstone course.

All course work must be completed in accordance with the academic procedures of the University (p. 11) and the College of Fine, Performing and Communication Arts (p. 199) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

General Education Course Progress: Majors must complete the Basic Composition (BC) requirement by the time forty-five credits have been earned, and the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time sixty credits have been earned. Failure to meet these limits on matriculation will result in the student being placed on departmental probation: the student will be ineligible to be cast in or participate as a member of the artistic/prodiction staff of department productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

Post-Degree Studies in Dance

Students who have completed a dance major at another University program may be able to add Teacher Certification by completing the Dance Education Major requirements. Students must apply to the College of Education and to the Dance Department.

All course work must be completed in accordance with the academic procedures of the University (p. 11) and the College of Fine, Performing and Communication Arts (p. 199) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

Dance Honors Program (B.S. and B.F.A. degrees)

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (DNC 5997) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Select the Honors Option in three of the following: 9-10

Performance Opportunities

There are three performance ensembles: the W.S.U. Dance Company One, Dance Workshop, and To Sangana African Dance Company composed of skilled dance students who must qualify for membership through auditions. They present concerts, lecture/demonstrations, and performances on campus and in the community, choreographed by visiting artists, faculty, and talented students. Students must have a minimum 2.5 overall g.p.a. to participate in a performance ensemble.
Student must maintain an overall 3.3 g.p.a.

For additional information, students should consult the Irvin D. Reid Honors College (http://www.honors.wayne.edu).

Dance (B.S.)

This degree program is for students with prior dance experience who wish to combine university-level dance studies with targeted general study in the arts and sciences. The Bachelor of Science in Dance offers an integrative program of dance professions, culture and community providing students multiple opportunities to enhance technical skill, investigate shifting social and global concerns, and cultivate innovative approaches for dance career preparation in diverse contexts and related professions.

Admission Requirements

Admission to this program is contingent upon satisfaction of the general requirements for undergraduate admission (p. 23) to the University and a successful audition conducted by the Department faculty. Audition dates are scheduled each November, December and February in the year prior to admission; prospective students should contact the Theatre and Dance Office (http://theatreanddance.wayne.edu/dance/) for audition schedule information. Entering students are required to consult the Departmental advising staff prior to their first registration for classes.

All B.S. dance majors must be enrolled in required curriculum each semester and evidence successful progress in the B.S. degree program in order to maintain dance major status. Any dance major who does not comply and/or does not register and complete appropriate dance coursework for one semester MUST AUDITION FOR THE DANCE PROGRAM for re-admission.

Candidates must complete a minimum of 120 credits in course work, including satisfaction of the University General Education requirements (p. 35), College degree requirements (p. 199), minimum fifty-nine credits in dance courses (specified below) and minimum twenty-nine credits in electives. B.S. students must comply with the following department policies – any student who does not meet these standards will be placed on Departmental probation and may be denied continuation in the program: the credits in specified Dance courses must be completed with grades of C minus or better and 2.5 cumulative g.p.a must be maintained. Students must be current in their plan of work and all Basic Competency courses must be completed prior to enrolling in the Capstone course.

All course work must be completed in accordance with the academic procedures of the University (p. 11) and the College of Fine, Performing and Communication Arts (p. 199) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

General Education Course Progress: majors must complete the Basic Composition (BC) requirement by the time forty-five credits have been earned, the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time sixty credits have been earned. Failure to meet these limits on matriculation will result in the student being placed on departmental probation: the student will be ineligible to be cast in or participate as a member of the artistic/production staff of department productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

Students who have completed a dance major at another University program may be able to add Teacher Certification by completing the Dance Education Major requirements. Students must apply to the College of Education and to the Dance Department.

All course work must be completed in accordance with the academic procedures of the University (p. 11) and the College of Fine, Performing and Communication Arts (p. 199) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

Dance Honors Program (B.S. and B.F.A. degrees)

In order to enter the departmental honors program students must have achieved academic excellence in previous work, such as a high school g.p.a. of 3.5 or a college or university g.p.a. of 3.3. Students must meet all regular major requirements including the following: three honors-option courses within their major taught by full-time faculty members (internships cannot satisfy this requirement), at least one 4000-level seminar offered through the Liberal Arts Honors Program, a senior honors thesis under the direction of a faculty advisor in their major area (DNC 5997) and maintain a minimum g.p.a. of 3.3 cumulative and in the major.

Dance Honors Curriculum (15 credits required)

Select the Honors Option in three of the following: 9-10

- DNC 2000 Introduction to World Dance
- DNC 2300 History of Dance to 1800
- DNC 2310 History of Dance from 1800 to the Present
- DNC 3180 Dance Kinesiology
- DNC 3310 Dance Production
- DNC 3810 Dance Pedagogy
- DNC 4810 Dance Teaching Methods
- DNC 5810 Teaching Creative Dance for Children

DNC 5997 Departmental Honors Thesis 3

HON 42xx - 4200 Level Seminar 3

Total Credits: 15-16

Student must maintain an overall 3.3 g.p.a.

For additional information, students should consult the Irvin D. Reid Honors College (http://www.honors.wayne.edu).

Theatre (B.F.A.)

The Bachelor of Fine Arts with a Major in Theatre is an intensive pre-professional curriculum that combines foundational studies, rigorous training and extensive production assignments. The B.F.A. program is divided into two areas: a) performance and b) design and technical theatre including stage management.

Admission Requirements

Students seeking admission to the performance program must: 1) satisfy the general requirements for undergraduate admission (p. 23) to the University; 2) complete a minimum of forty-five credits, including all program-specific prerequisite courses; 3) be selected for the program through an audition process. Admissions to the performance program typically take place at the end of the Fall semester of a student’s sophomore year.

Students seeking admission to the design and technical theatre program must satisfy the general requirements for undergraduate admission (p. 23) to the University and be selected for the program through an interview with the faculty.

Candidates must complete a minimum of 120 credits in course work, including satisfaction of the University General Education requirements (p. 35), College degree requirements (p. 199), and seventy-seven credits in theatre courses including the major requirements listed below. The minimum grade for each course required in the major, which must be taken in the Department of Theatre, must be no less than a C-minus in order for the course credit to count toward completion of the degree. B.F.A students must comply with the following department policies – any student who does not meet these standards will be placed on departmental probation and may be denied continuation in the program: the seventy-seven credits in specified Theatre courses must be completed with grades of C minus or better and a minimum of 3.0 Theatre major g.p.a must be maintained. Students must be current in their plan of work and all Basic Competency courses must be completed prior to enrolling in the Capstone course. Departmental information published in this Bulletin is intended for use in conjunction with advising, but in all cases, regardless of advice given, students are responsible for meeting and satisfying requirements as set forth in this Bulletin.

All course work must be completed in accordance with the academic procedures of the University (p. 11) and the College of Fine, Performing and Communication Arts (p. 199) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

General Education Course Progress

Majors must complete the Basic Composition (BC) and Quantitative Experience (QE) requirement by the time forty-five credits have been earned, the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time sixty credits have been earned. Failure to meet these limits on matriculation will result in the student being placed on departmental probation: the student will be ineligible to be cast in or participate as a member of the artistic/production staff of department
productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

## Placement by test scores. Must take ENG 1010 first if: ACT English < 21, SAT EBRW < 520, or SAT Writing < 480.

2. See the General Education of the Undergraduate Bulletin (p. 35) for other QE options.

3. If THR 2301 isn't offered, THR 2611 or THR 5311 can be substituted in its place.

4. Each THR 2581-87 course can be taken a max of 3 times. Matching THR 3581-87 courses can be taken as Theatre Electives. Students must complete a minimum of 6 THR 2581-87 courses (may vary for transfer students).

Actors must complete at least 3 non-Performance Theatre Studios.

Honors Seminars 3 3

Total Credits 15

1 HON 4200-4280 Honors Seminars (select one)

For additional information, students should consult the Irvin D. Reid Honors College (http://www.honors.wayne.edu/).

Theatre (B.A.)
The Bachelor of Arts with a Major in Theatre is designed to introduce students to the multiple facets of theatre scholarship and theatre
practice. It provides a flexible and extensive education in dramatic literature, theatre history, performance practice and theatrical design for students interested in careers in theatre and related entertainment arts, education, communication and television, and other professions.

**Admission Requirements**

Admission requirements for the program include an audition or interview with the Theatre Faculty and satisfying the general requirements for undergraduate admission (p. 23) to the University.

**Matriculation:** All students in baccalaureate theatre degree programs begin as B.A. students and subsequently may change to the B.F.A. program depending on interest and ability. Classes for theatre students begin immediately in the freshman year. Students should consult with departmental advisors before beginning the program.

Candidates must complete a minimum of 120 credits in course work, including satisfaction of the University General Education requirements (p. 35), College degree requirements (p. 199), and specific theatre courses required in the individual degree and/or concentrations. The minimum grade for each course required in the major, which must be taken in the Department of Theatre, must be no less than a C-minus in order for the course credit to count toward completion of the degree. Students must be current in their plan of work and all Basic Competency courses must be completed prior to enrolling in the Capstone course. Departmental information published in this Bulletin is intended for use in conjunction with advising, but in all cases, regardless of advice given, students are responsible for meeting and satisfying requirements as set forth in this Bulletin.

All course work must be completed in accordance with the academic procedures of the University (p. 11) and the College of Fine, Performing and Communication Arts (p. 199) governing undergraduate scholarship and degrees, as well as with the requirements of the Maggie Allesee Department of Theatre and Dance.

**General Education Course Progress:** Majors must complete the Basic Composition (BC) requirement by the time forty-five credits have been earned, the Oral Communication (OC) and Intermediate Composition (IC) requirement by the time sixty credits have been earned. Failure to meet these limits on matriculation will result in the student being placed on departmental probation: the student will be ineligible to be cast in or participate as a member of the artistic/production staff of department productions. Transfer students will be reviewed upon entry into the major for compliance with these standards and advised as needed.

**Major Fundamental Requirements:** All students pursuing a Bachelor of Arts degree in theatre must complete the following courses:

<table>
<thead>
<tr>

<td>African Dance II</td>
<td>2</td>
</tr>
<tr>
<td>THR 1030</td>
<td>Introduction to Black Theatre and Performance</td>
<td>3</td>
</tr>
<tr>
<td>THR 3811</td>
<td>Africana Theatre and Dance: Concepts and Practices</td>
<td>3</td>
</tr>
<tr>
<td>THR 5821</td>
<td>Black Dramatic Literature and Performance</td>
<td>3</td>
</tr>
</tbody>
</table>

Select four credits of the following:

- AFS 2010 African American Culture: Historical and Aesthetic Roots
- AFS 2390 Introduction to African-American Literature: Literature and Writing
- DNC 2000 Introduction to World Dance
- THR 3581 Advanced Theatre Studio - Performance (max. 4 Cr.)
  or DNC 5610 Dance Company I
- THR 1010 Introduction to the Theatre

Total Credits 18

Dance Minor

Completion of a minor in dance requires nineteen credits in dance classes including ten credits in technique classes and nine credits in academic dance classes. Students should consult with the Department Academic Advisor for approval of courses satisfying this requirement. The department will accept up to ten transfer credits towards the Dance minor. A minimum of four technique credits and three academic dance credits must be taken at WSU. All courses older than ten years are subject to department review.

General Theatre Minor

The minor is designed to be an overview of the theatre arts for those who wish to enhance their interests in theatre. It offers a variety of studies and practice courses across the discipline of theatre. The variety of offerings provide the opportunity to focus studies in the areas of acting, dramaturgy, or directing, if so desired.

A minor in this area requires:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>THR 1010</td>
<td>Introduction to the Theatre</td>
<td>3</td>
</tr>
<tr>
<td>or THR 1111</td>
<td>Fundamentals of Theatre</td>
<td></td>
</tr>
<tr>
<td>THR 1121</td>
<td>Play Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

Select 12 additional credits of the following:

- THR 1030 Introduction to Black Theatre and Performance
- THR 1211 Acting I
- THR 1411 Fundamentals of Crafts: Scenery and Costumes
- THR 1461 Fundamentals of Crafts: Lighting and Stage Management
- THR 2211 Acting: Scene Study
- THR 2301 Introduction to Design for the Theatre
- THR 2611 Stage Management
- THR 3651 Principles of Theatre Management
- THR 3731 Applied Theatre Studies: Community Possibilities
- THR 5711 Play Direction
- THR 5721 Playwriting
- THR 5811 Development of the Drama I: Greek to Eighteenth Century
- THR 5812 Development of the Drama II: Nineteenth Century to Modern
- THR 5821 Black Dramatic Literature and Performance
- THR 5841 Theatre History I
- THR 5842 Theatre History II

Total Credits 18

Musical Theatre Minor

This minor offers an opportunity for students to further develop their performance skills in musical theatre through course work and practical application. Students electing to declare the Minor in Musical Theatre may NOT count classes or credits required in their major toward the minor. Specifically:

- Theatre students may not apply to the minor credits earned in: Acting I and Acting II or Acting: Scene Study;
- Music students may not apply to the minor credits earned in: Private Voice, Elementary Music Theory, Ear Training 1, or Ear Training 2;
- Dance majors may not apply to the minor credits earned in: Modern Dance 1, Ballet 1, Tap Dance, Jazz Dance 1 or Jazz Dance II.

To receive the minor in Musical Theatre students must complete:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>THR 1041</td>
<td>Musical Theatre Appreciation</td>
<td>3</td>
</tr>
<tr>
<td>THR 2251</td>
<td>Musical Theatre Performance I</td>
<td>3</td>
</tr>
</tbody>
</table>

Select two credits of the following:

- THR 3581 Advanced Theatre Studio - Performance
- THR 2251 Musical Theatre Performance I

Select 10 or 11 credits of the following:

- DNC 1010 Introduction to Contemporary Dance
- DNC 1210 Fundamentals of Classic Ballet I
- DNC 2610 Jazz I
- DNC 2620 Tap Dance
- DNC 3410 Jazz II
- MUP 1225 Voice: Secondary Instruction (max. 3 Cr.)
- MUT 1100 Elementary Music Theory
- MUT 1150 Ear Training I
- THR 1211 Acting I
- THR 2211 Acting: Scene Study
- THR 2255 Musical Theatre Performance II
Non-dance majors must select four to six credits of DNC courses

Total Credits 22-25

**Studio and Community Dance Minor**

The Studio and Community Dance Minor provides students the opportunity to supplement their major field program with the rigorous study of private sector dance in studios and community settings. The program offers an artistic and academic environment that will enrich methods and skills in dance teaching and pedagogy, dance kinesiology, outreach, and community engagement, while stimulating students' creativity and innovation.

In order for any minor in the Department of Theatre & Dance to be fulfilled, it must include at least nine credits that have not been used to fulfill requirements for any other major or minor.

A maximum of nine credits in a Theatre or Dance major may share with any other major or minor.

The Studio and Community Dance Minor requires the completion of 20 credits.

<table>
<thead>
<tr>

</tbody>
</table>

**Elective Courses**

Select 3 credits from the following courses:

- DNC 1330 Production Practicum
- DNC 2500 Choreography I
- ACC 3010 Introduction to Financial Accounting

Select 2 credits of dance technique and movement:

- Modern Dance
- DNC 1010 Introduction to Contemporary Dance
- DNC 1020 Contemporary Dance I
- DNC 2010 Contemporary Dance II: Part I
- DNC 2020 Contemporary Dance II: Part II
- DNC 3010 Contemporary Dance III
- DNC 4010 Contemporary Dance IV
- Ballet
- DNC 1210 Fundamentals of Classic Ballet I
- DNC 1220 Fundamentals of Classic Ballet II
- DNC 2225 Contemporary Ballet
- DNC 3200 Ballet III
- DNC 4200 Ballet IV
- Jazz Dance
- DNC 2610 Jazz I
- DNC 3410 Jazz II
- African Dance
- DNC 2600 African Dance II
- Pilates Mat for Performing Artists
- DNC 1300 Pilates Mat for Performing Artists

---

**Theatre Design and Technology Minor**

The design and technology minor provides students in related areas of study with the opportunity to enhance and apply their design and/or technical and craft skills in a theatrical context.

In order for any minor in the Department of Theatre & Dance to be fulfilled, it must include at least nine credits that have not been used to fulfill requirements for any other major or minor.

A maximum of nine credits in a Theatre or Dance major may share with any other major or minor.

A minor in this area requires:

<table>
<thead>
<tr>
<th>Code</th>

Irvin D. Reid Honors College

Dean: John Corvino

The Irvin D. Reid Honors College provides Wayne State's highest-achieving undergraduates with a program that is both academically rigorous and culturally engaged. Founded in 2008, it is home to roughly 2000 students, comprising both University Honors and Departmental Honors tracks.

The University Honors track is an interdisciplinary and multidisciplinary program that includes a distinctive first-year sequence, field learning experiences, and Honors courses across the curriculum. The Departmental Honors track is a discipline-specific program that varies by major; students apply after taking at least a semester of courses at Wayne State. Honors students may pursue either or both tracks.

The College offers many benefits, including:

- a small community of high-achieving students
- pre-priority class registration
- dedicated Honors academic advisors
- close mentoring by full-time faculty
- unique opportunities for undergraduate research
- field-learning experiences in the city of Detroit
- available private scholarships
- Honors floors in residence halls, for students who live on campus
- special recognition at graduation, with Honors designation on degree and transcript

Note that all Honors College students pursue a traditional major in conjunction with their Honors experience, with access to the full range of faculty, courses, and programs at Wayne State. The college thus combines the opportunities of a premier urban research university with the personal attention typical of a small liberal arts college—all in the heart of the City of Detroit.

Bachelor’s Degrees with University/Departmental Honors options:

Mike Ilitch School of Business
Accounting: B.S., B.A.
Finance: B.S., B.A.
Global Supply Chain Management: B.S., B.A.

Social Work: B.S.W.

Academic Regulations

For complete information regarding academic rules and regulations of the university, students should consult the general information (p. 11) section of this bulletin. The following additions and amendments apply to the Irvin D. Reid Honors College.
Academic Advising
Advising for Honors requirements is available on a walk-in basis on select days and via e-mail. All students are encouraged to consult their undergraduate advisor in their prospective major department. See the Honors College Advising webpage (https://honors.wayne.edu/students/advising/) for walk-in hours and other helpful information.

Accelerated Graduate Enrollment Program (‘AGRADE’)
Accelerated Graduate Enrollment: Some departments of the university permit academically superior majors to petition for admission into the college’s ‘AGRADE’ program. ‘AGRADE’ procedures enable qualified seniors to enroll simultaneously in the undergraduate and graduate programs and apply a maximum of fifteen credits towards both a bachelor’s and master’s degree in the major field. Students electing ‘AGRADE’ programs may expect to complete the bachelor’s and master’s degrees in five years of full-time study.

An ‘AGRADE’ applicant may petition the Graduate Committee of the major department for acceptance into the program no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average at the cum laude level and not less than a 3.6 grade point average in the major courses already completed. If the student’s petition is accepted, the student’s faculty advisor shall develop a graduate Plan of Work, specifying the ‘AGRADE’ courses to be included in subsequent semesters.

Credits earned through ‘AGRADE’ are considered Honors credits towards graduation with University and/or Departmental Honors. Students are asked to submit a copy of the approved ‘AGRADE’ plan of work to the Honors Advisor. Each ‘AGRADE’ class will be processed as an Honors Option and the notation added to the student’s transcript.

Courses completed as part of an approved AGRADE plan of work may be applied as Honors credits toward undergraduate and/or University Honors. To receive Honors credit via Honors Option, students must submit a copy of the approved plan of work with the Honors academic advisor.

For more details about the ‘AGRADE’ program, contact the chairperson of the major department.

Attendance
Regularity in attendance and performance is necessary for success in college work. Attendance requirements will be announced by instructors at the beginning of each course.

Cheating and Plagiarism
The principle of honesty is recognized as fundamental to a scholarly community. Students are expected to honor this principle and instructors are expected to take appropriate action when instances of academic dishonesty are discovered. An instructor, on discovering such an instance, may give a failing grade on the assignment or for the course. The instructor has the responsibility of notifying the student of the alleged violation and the action being taken. Both the student and the instructor are entitled to academic due process in all such cases. Acts of dishonesty may lead to suspension or exclusion. Information on procedures is available in the Office of the Dean.

Extra Credits
Extra credits are credits taken in excess of the normal program load of eighteen credits. Students with 3.0 (or above) grade point averages may take more than eighteen credits when their proposed programs carry the approval of the Honors advisor.

Graduation with Academic Distinction
Graduation with distinction (Summa Cum Laude, Magna Cum Laude, and Cum Laude) is determined by the college granting the student’s degree.

Normal Program Load
The requirements for graduation are based upon an average program of fifteen credits per semester for eight semesters. A normal program load should not exceed eighteen credits.

Because two hours of outside preparation are normally expected for each class hour, a fifteen credit program calls for approximately forty-five hours of class attendance and study per week. Students who undertake such a program should expect to give it their full time and energy. A few hours of employment a week may be safely added by capable students.

Probation
Low Grade Point Average: Honors students need a cumulative 3.30 or higher grade point average to maintain good standing in the Honors College. Honors academic status is assessed prior to fall pre-priority registration. A student may reapply to the Honors College once his/her cumulative grade point average is at 3.30 or above.

Grade Appeals Policy and Procedure
This policy applies to courses offered directly by the Honors College (e.g. HON 1000, HON 2000, HON 42XX-level seminars, etc.). Grade appeals for Honors sections of other courses should be resolved through the home department where those courses are offered. If in doubt, students should consult the Honors Advisor when initiating an appeal. Please consult the Honors Grade Appeal Policy and Procedure (https://honors.wayne.edu/pdf/grade_appeals_policy_and_procedure_070119.pdf).

It is the instructor’s prerogative to evaluate student work and assign grades in accordance with his or her academic and professional judgment.

Grounds for appeals are:
1. the application of non-academic criteria in the grading process, as listed in the university’s non-discrimination/affirmative action statute: race, color, sex (including gender identity), national origin, religion, age, sexual orientation, familial status, marital status, height, weight, disability, or veteran status;
2. sexual harassment or discrimination; or
3. evaluation of student work by criteria not directly reflective of performance relative to course requirements.

Coursework Grades
Disputes over coursework grades should be addressed informally between the student and the course instructor. If the student and instructor cannot reach a mutually agreeable resolution, the matter should be referred to the Dean of the College, who will initiate appropriate procedures for resolution.

Final Grades
In those instances where a student disputes the final grade assigned, the following steps should be taken to appeal the grade in question.

Wayne State University Undergraduate Bulletin 2020-2021 245
Informal Review
The student should discuss the disputed grade with the instructor of the course. If the dispute is not resolved informally, the student may initiate a formal appeal.

Formal Appeal Procedure
Within 30 calendar days following official notification of final grades for the term in which the disputed grade was awarded, and when the informal review fails to resolve the dispute, the student shall submit a written appeal detailing his/her objection, along with supporting documentation in writing, to the instructor. The instructor should respond in writing within 10 work days.

Matters not resolved at the instructor level may be appealed to the Dean's Office. A written appeal should be filed by the student within 10 work days following receipt of the instructor's written response. A file folder containing the course syllabus from the semester in which the student took the course, plus the student's letter, the instructor's letter, and the student's written rationale explaining why the Dean's Office should reconsider this appeal, should be sent to the Dean's Office. The student should forward to the instructor of the course a copy of the written appeal. Where appropriate, the Dean's Office may consult with a Grade Appeals Committee for advice in grade disputes. Students shall be notified in writing of the Dean's Office decision within 30 work days of receiving the request. The Dean's Office decision shall be the final decision at the college level.

University Level Academic Appeals Procedure
Following the Dean's final response, a student may request a formal review by the Provost.

Such requests are subject to the University Academic Appeal Procedure (p. 11) and must be submitted in writing, with a copy sent to the Dean of the College, within thirty (30) calendar days of the postmark on the Dean's final determination.

Irvin D. Reid Honors College Grade Appeal Procedure, revised March 31, 2015

Special Programs
B Start Program (Business Administration)
B Start (http://honors.wayne.edu/start-programs/b-start.php) is an innovative, five-year Honors College program that conditionally guarantees admission to the Master of Business Administration (M.B.A.) program in the Mike Ilitch School of Business. B Start trains future business leaders by emphasizing mentoring and research opportunities with business school faculty. As part of an introductory B Start course, students attend monthly seminars in the Mike Ilitch School of Business and are responsible for logging their activities in monthly journals.

President's Scholars
The President's Scholarship was established to attract National Merit Scholarship Finalists to Wayne State University. These highly talented students join the Honors College as President's Scholars and take part in the President's Scholars Seminar. The President's Scholars receive our most prestigious merit scholarship at WSU; they also receive funding to study abroad at some point during their undergraduate studies. Our goal is for this group of students to establish a community on campus that excels academically, socially and civically. In order to be invited to join the President's Scholars, students must first become National Merit Scholarship Finalists and accept their invitation to join the Irvin D. Reid Honors College. More information about the President's Award is available here (https://wayne.edu/scholarships/president/).

CommunityEngagement@Wayne
To obtain the greatest benefit from their education, students need both academic courses and real-world experiences. CommunityEngagement@Wayne (http://communityengagement.wayne.edu/) provides the mechanism to strengthen courses and implement service-learning opportunities in the vibrant metropolitan Detroit community. Building on the Honors College mission of promoting informed, engaged citizenship, CommunityEngagement@Wayne provides faculty with the tools necessary to strengthen course content, students with the opportunity to apply classroom theories in hands-on experiences, and community organizations with the chance to receive assistance from some of Wayne State's most dedicated citizens.

Detroit Fellows Tutoring Project
Detroit Fellows earn two to four Honors credits while teaching reading skills to Detroit Public School students in kindergarten through fourth grade. This is a special opportunity for Honors College students and is open to all majors. On an hours-per-week basis Detroit Fellows work three hours (earning two credits), five hours (earning three credits) or seven hours (earning four credits) at a designated school. Tutors work during regularly scheduled school hours: 7:30 a.m. to 3:30 p.m.

Detroit Fellows receive training and participate in a weekly seminar to discuss various tutoring techniques. Writing assignments reflective of this experience and an end-of-semester evaluation are also required.

Emerging Scholars Program (ESP)
Wayne State University's Emerging Scholars Program (http://www.clas.wayne.edu/ceem/emerging-scholars/) is a special Honors-level calculus and pre-calculus program designed to support students who want and/or need to excel in mathematics and who are willing to do the work required for such success. It is available to students in MAT 1800 (pre-calculus), MAT 2010 and MAT 2020. Honors credits are awarded for MAT 2010 and/or MAT 2020.

Any student who hopes to pursue a degree in science, engineering, medicine, mathematics or math education is strongly urged to take his or her math courses within ESP. Students enroll in designated sections of MAT 1800, MAT 2010 and MAT 2020, taught by specially trained faculty members. They also attend a two-hour workshop, twice a week, where they work together in groups on challenging problems, gaining a deeper understanding of the mathematics involved.

Honors Student Association (HSA)
The Honors Student Association (HSA) provides networking experiences for students from various academic disciplines throughout WSU. The organization also serves to provide Honors students with the opportunity to become involved in diverse social, academic, and service activities. The Honors Student Association has eight executive board members; the positions include: president, vice president, secretary, treasurer, two public relations officers, and two webmasters. Elections for executive board positions are held annually at the end of winter semester.

The faculty advisor for HSA is Dr. Beth Fowler, Senior Lecturer for the Honors College.

Study Abroad
The Honors College, in partnership with the Office for Study Abroad (p. 71), provides a number of opportunities for study and travel. The college encourages these learning experiences as ways for students to acquire broader perspectives and more deeply felt education than is often possible in the classroom. Study/travel options may be linked
to the Junior/Senior seminar (HON 4260) and may meet the Global Learning (GL) University requirement. Some programs include service assignments and fulfill the Honors College field learning (HON 3000) requirement. Past study trip destinations have included Belize, France, South Africa, Ghana and China.

Honors College Programs
University-wide Honors Curricula
Honors curricula are designed to meet the needs of highly motivated students who want to be challenged to reach their full potential. Honors courses are of four kinds: regular courses with Honors designated sections; Honors courses offered under various departmental subject areas (for a list of these see below); Honors College courses offered under the HON subject area code; and, regular courses taken as Honors-level course work by individual students (see below under Honors-Option Course Work).

Many Honors courses fulfill University General Education requirements (p. 35). There are no maximum credit restrictions on the number of Honors credits applicable towards graduation. Completion of any Honors course leads to Honors-designated transcript notation for the course.

Students whose cumulative grade point average (g.p.a.) is at least 3.3, but who are not formally admitted to the Honors College, are eligible to elect Honors courses to enrich their educational experiences. Such requests should be directed via e-mail to honors@wayne.edu.

Students who are invited into the Honors College as incoming first-year students are expected to pursue University Honors, with the option of Departmental Honors in their major as well. Students who are accepted to the Honors College as current Wayne State University students or as transfer students are invited to pursue Departmental Honors and/or University Honors.

Admission
There are three pathways into the Honors College:

1.Incoming first-year students are considered for the Honors College during the regular Wayne State admission process based on their high school GPA and SAT/ACT score; there is no separate application. The selected students are invited to pursue University Honors; they may also later pursue Departmental Honors.

2. Transfer students are invited to join Honors based on cumulative GPA and transferable credits from their previous institution. The selected students may pursue Departmental and/or University Honors.

3. Current Wayne State students with a 3.3 GPA and at least 12 Wayne State credits may apply to the Honors College by filling out the Honors College application online. Applications are processed after Feb. 15, June 15 and Oct. 15. The selected students may pursue Departmental and/or University Honors.

College Requirements
To remain in the Honors College, a student normally will be expected to:

1. pursue University and/or Departmental Honors;

2. maintain a cumulative g.p.a. of 3.3 or higher; however, colleges/ departments may establish a higher g.p.a. for retention in a college/ department program; and

3. satisfy the University General Education requirements (p. 35).

A student whose cumulative g.p.a. falls below 3.3 and is, for that reason, dropped from the Honors College, may reapply when his/her cumulative g.p.a. is 3.3 or higher.

For first-year Honors students, HON 1000 and the Honors Foundational Seminar are required to be taken in Fall and Winter semesters, respectively.

Departmental Honors Requirements
Students seeking a degree with Departmental Honors must contact their major department or the Honors College for specific requirements (see the appropriate departmental section of this bulletin). However, all Departmental Honors programs require at least twelve credits in Honors-designated coursework, including:

1. a senior essay or thesis or project done in the student’s major department, and

2. at least one 42xx-level seminar offered through the Honors College (HON 4200-4280), and

3. a minimum cumulative g.p.a. of 3.3 (higher in some departments) is required for graduation

Honors Degrees
Most departments offer Departmental Honors. Please visit the Honors website (http://www.honors.wayne.edu) or the Honors college for a current list of available programs. Graduation with University Honors is reserved for students who complete twenty-eight Honors credits as outlined under University Honors Requirements.

A student who satisfactorily completes a Departmental Honors curriculum or a University Honors curriculum will receive the appropriate Honors designation on both the diploma and the academic transcript. Approval of the Honors College is necessary for graduation with University Honors. Students who complete the requirements of both the university-wide Honors College and a college/department/school Honors Program shall have both designations on the transcript and the diploma. Only a single senior essay, thesis, or project shall be required unless a student is pursuing Departmental Honors in multiple majors.

University Honors Requirements
Students who have been invited to the Honors College as freshmen are expected to complete:

1. at least twenty-eight credits in Honors-designated course work, including HON 1000, and the Honors Foundational Seminar;  
2. a field learning through HON 3000  
3. a 42XX-level seminar offered by the Honors College (HON 4200-HON 4280);  
4. a minimum three-credit Honors Thesis or creative project (HON 4998 or Departmental Honors thesis).

Honors-Option Course Work
The Honors Option allows a student in any course which is 2000 level or above and taught by a regular faculty member to elect Honors caliber coursework, provided the instructor agrees to furnish commensurate extra instruction. If a grade of ‘B’ (3.00) or above is earned in the course and in the additional work, the student will receive Honors credit for the course on his/her transcript. Application forms for the Honors Option are available in the Honors College office and online (http://www.honors.wayne.edu). The application form must be signed by the instructor and should be returned to the Honors College Office by the assigned due date on the form. At the end of the semester the instructor will be asked to submit a final grade for the Honors Option project and the final grade for the class via e-mail to honors@wayne.edu. The number of Honors credits assigned shall be equivalent to the number of credits allotted to the general section.
Field Learning Requirement (HON 3000)
Effective Fall 2019, field learning is required for graduation with University Honors. The purpose of the requirement is to better prepare students for productive lives in a diverse urban and global setting through community-based education and civic engagement. A student will pair HON 3000 (0 credits) with a field learning experience approved by the Honors College (https://honors.wayne.edu/students/universityhonorsrequirements/hon3000/). Students can opt to complete HON 3000 via service-learning, undergraduate research, study abroad, or an internship/co-op/practicum.

Objectives of the Honors Field Learning Requirement are: to enhance academic learning opportunities by integrating theory with service to the community; to learn how to work effectively with diverse populations; to develop communication, negotiation, and problem solving abilities; and, to increase research skills.

Examples of field learning opportunities include the Detroit Fellows Tutoring Project, specially-designated sections of General Education and department courses, and some study abroad experiences.

Honors Thesis
To graduate with University and/or Departmental Honors, students must complete an Honors thesis or creative project during junior/senior year. The thesis or project must be supervised by a full-time member of a department and the paper must be a minimum of twenty pages in length. University Honors students should plan to take at least two semesters to complete the HON 4998 course. Departmental Honors students who complete a thesis course specific to their major department must follow departmental guidelines. Students pursuing both Department and University Honors may use the department thesis to fulfill the University Honors thesis requirement.

Honors Courses
HON 1000 The City: Changing Detroit Cr. 4
Satisfies General Education Requirement: Civic Literacy, Diversity Equity Incl Inquiry, Social Sciences
Honors 1000 is the first half of the Honors Foundation Sequence. The course explores the history and development of the city of Detroit, including the challenges of de-industrialization and segregation, and guides students through the steps of civic engagement including how to identify and specify social problems, formulate workable solutions and advocate effectively for their implementation. Offered Fall.

HON 1110 Passport to Detroit Cr. 1
Satisfies General Education Requirement: Wayne Experience
Passport to Detroit is a participatory-learning course designed to prepare students for life in college and life in Detroit designed to use the personal exploration of Detroit’s geography and history as a frame through which incoming students develop (or improve) essential college-level skills. Offered Fall.

Restriction(s): Enrollment limited to students with a class of Freshman.
HON 2000 Foundation Seminar Cr. 3
Satisfies General Education Requirement: American Society Institution, Cultural Inquiry, Social Inquiry
Honors foundation seminars are rigorous small, seminar-style classes of incoming Honors students designed to help them deepen their understanding of scholarly inquiry and important issues with relevance to the Detroit metropolitan area. The object of the course is to prepare students to function well in a college setting and in the broader world, using the tools of scholarship to explore important questions of everyday life. Offered Yearly.

HON 3000 Field Learning Cr. 0
Required for all students graduating with University Honors. Students are involved in community-based education and promotion of civic engagement. Offered Every Term.

Restriction(s): Enrollment is limited to Undergraduate level students.
HON 4200 Seminar in Philosophy and Letters Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Analysis of meanings given to human experience through study of philosophy or letters. Offered Yearly.
Repeatable for 9 Credits
HON 4220 Seminar in Life Science Cr. 3
Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry
Analysis of aspects, methods, and important issues in various areas of the life sciences. Offered Yearly.
Repeatable for 9 Credits
HON 4230 Seminar in Physical Science Cr. 3
Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences
Analysis of modern theory and data, implications and possibilities in the physical sciences. Offered Yearly.
Repeatable for 9 Credits
HON 4250 Seminar: Global Perspectives on Historical Studies Cr. 3
Satisfies General Education Requirement: Global Learning Inquiry, Historical Studies
Studies of periods of history in which there has been major transition or change. Offered Yearly.
Repeatable for 9 Credits
HON 4260 Seminar in Foreign Culture Cr. 3
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Humanistic or social science investigation of peoples and institutions in other cultures. Offered Yearly.
Repeatable for 9 Credits
HON 4280 General Honors Seminar Cr. 3
In-depth exploration of important concepts and approaches in liberal studies. Topics to be announced in Schedule of Classes. Offered Yearly.
Repeatable for 9 Credits
HON 4930 Detroit Fellows Tutoring Project Cr. 2-4
Community-based service-learning project designed to improve the reading skills of elementary school students through one-on-one mentoring. Monthly seminar sessions to discuss progress and techniques required. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Repeatable for 16 Credits
HON 4940 Service-Learning Internship Cr. 1-3
Service-learning project with a local community partner. Collateral reading, written work, arranged conferences with faculty supervisor. Offered Every Term.
Restriction(s): Enrollment is limited to Undergraduate level students.
Repeatable for 6 Credits
HON 4950 MedStart Seminar Cr. 2
Explorations of various dimensions of health care through shadowing, service, and attendance at the monthly seminars at the Wayne State University School of Medicine. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Repeatable for 16 Credits
HON 4970 BStart Seminar Cr. 1
Training of future leaders in business by emphasizing mentoring and research opportunities with business school faculty. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Repeatable for 8 Credits

HON 4980 University Scholars Seminar Cr. 1
International learning and experiences of designated scholarship students in the Honors College. Reflection and presentation on specific topics related to the local, regional, national and international landscapes. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Repeatable for 8 Credits

HON 4990 Honors Directed Study Cr. 1-4
Offered Yearly.
Repeatable for 8 Credits

HON 4998 University Honors Thesis Cr. 3-6
Independent research project, essay, or creative project. Students are responsible for identifying their own research project and full-time faculty member. At the end of the first semester a deferred grade of Y will be assigned, with a grade change processed at the completion of the thesis in a subsequent semester. Offered Every Term.
School of Information Sciences

Dean: Jon Cawthorne

The Information Profession

The School of Information Sciences (SIS) prepares information professionals to assume leadership roles in libraries and information organizations. By emphasizing the practical application of knowledge and skills, students are trained in the core principles of information management - information access, organization, services, and management - as well as emerging competencies such as digitization, competitive intelligence, information architecture, and website development. SIS faculty research issues that improve library and information services as an essential component to cultural enrichment, knowledge dissemination, economic development, and the overall quality of life.

Qualified information professionals work in varied settings all over the globe. SIS graduates work in libraries as well as diverse information careers in the public, private, and nonprofit sectors. As organizations continue to view their information as a critical resource and place greater importance on its cultivation, SIS graduates can be found enjoying engaging and exciting careers throughout business, law, health sciences, publishing, government, archives and museums, communications and media, engineering, academia, pre-K-12 education, information organizations and industries.

Graduate Degrees

The School of Information Sciences offers two master’s level degree options. The Master of Library and Information Science (MLIS) degree is recognized by the American Library Association (ALA) as the first professional degree in this field and serves as the credential for entry-level professional employment. The Master of Science in Information Management (MSIM) expands the school’s current Graduate Certificate in Information Management (GCIM) into a degree that complements the school’s Master of Library and Information Science (MLIS) degree. The MSIM will appeal to prospective graduate students with an interest in working as information professionals in organizations and industries outside the typical venues for MLIS degree holders (e.g., libraries, archives, or school media centers) where a foundational core of library science coursework is not required.

Accreditation

The School of Information Sciences’ MLIS degree has been accredited continuously by the American Library Association since 1967. The School’s most recent continuing accreditation was granted by the ALA Committee on Accreditation in 2017. The School’s next comprehensive accreditation review occurs in the Fall of 2023.

Mission and Goals of the School

Mission Statement

We combine theories with practices to educate leaders who advance the importance of information in society. We deliver accessible, high quality education incorporating professional scholarship and best practices. We focus on three pillars:

- Library Users and Services
- Information Management
- Archives and Digital Content Management

Goals and Objectives

TEACHING EXCELLENCE: SIS will encourage and teach professional approaches and a service philosophy.

STUDENT SUCCESS: SIS will cultivate a culture of student success.

- SIS will incorporate career enhancement skills development into all courses.
- SIS will promote relationships between students and other members of the campus community who support student learning and success.
- SIS will deliver a ‘Distinctively Wayne State’ experience that leverages our Detroit location, diversity, and academic and research excellence to better prepare students for success.
- SIS will stress the importance of lifelong learning and will promote opportunities to sustain professional growth and achievement, including career mentoring.

RESEARCH: SIS will foster, facilitate, and support research by faculty and students.

- SIS will support faculty research and scholarly communication.
- SIS will foster faculty engagement with student research experiences and skill development.
- SIS will encourage and support students in presenting their research in courses, at conferences, and through publication.

DIVERSITY AND INCLUSION: SIS will be engaged within the diverse communities and world of which we are a part.

- SIS will seek diversity among the faculty.
- SIS will seek diversity and facilitate inclusion among the student body.
- SIS will address the roles of library and information services in a diverse global society, paying particular attention to the underserved.
- SIS will facilitate student experience in multicultural and multiethnic information environments.

COMMUNITY ENGAGEMENT: SIS will practice and foster engagement in traditional as well as interdisciplinary research, scholarship, and practices that address important societal as well as information and library issues.

- SIS will engage the library community, alumni, and employers.
- SIS will promote commitment and involvement in professional associations and organizations.
- SIS will encourage involvement in the community and community organizations.
- SIS will support service activities and participation in leadership roles at the School, University, local, state, national, and international levels.

Technology Support

The School of Information Sciences provides SIS students, faculty, and staff with a variety of computing resources that support the School’s on-campus and online programs. The School offers students a variety of software products at no cost, including major productivity suites, powerful database software, diagramming tools, and current operating
systems. The School provides free technical support to all of its students through several mediums, including email and over the phone. The School maintains a web server for student use, as well as provides access to synchronous online meeting tools for classes and student groups. SIS students have full access to the resources provided by University Computing and the University Library System, including public access computing labs, email and calendaring services, learning management systems, library databases, and full-text e-journals and other resources.

School of Information Sciences Undergraduate Program

Undergraduates interested in enrolling in information sciences courses should contact the School of Information Sciences regarding admission requirements, sequence of courses, the curriculum, career planning, professional development, job opportunities, and Senior Rule requirements. For more information about degree and certificates options offered by the School, please visit: http://sis.wayne.edu
**Law School**

Dean: Richard Bierschbach

Wayne State University Law School, founded in 1927, is located in the heart of Detroit’s historic cultural center, offering a unique urban experience. Detroit’s vibrant legal market - including government offices, state and federal courts, multinational corporations, unions and major law firms - provides students with a wide range of opportunities for employment and externships. Our students are bright, mature, conscientious and altruistic. They come from unique backgrounds and professions, some having previously served as doctors, musicians, actors, engineers and law enforcement officers before pursuing the law. Wayne Law also offers a network of more than 11,000 living alumni, including established leaders of the legal community, practicing throughout the nation and in more than a dozen foreign countries. Our expert faculty’s nationally and internationally recognized scholarship adds depth to our students’ understanding of legal theory, doctrine and practice. Wayne Law students, faculty and alumni are deeply engaged in the community and profession.

**Accreditation**

Wayne State University Law School is accredited by the American Bar Association and is a member of the Association of American Law Schools. The Law School has a chapter of the Order of the Coif, the national honorary society dedicated to the highest standards of legal scholarship.

**Setting & Facilities**

The Law School is a flagship unit of Wayne State University, a major metropolitan research university located in the heart of Midtown, about four miles from downtown Detroit. Within blocks of the Law School are the Detroit Public Library, Detroit Institute of Arts, Charles H. Wright Museum of African American History, Detroit Science Center and other cultural attractions. The city of Detroit shares an international border with Canada and offers access to Michigan’s largest concentration of law firms and state and federal courts.

The Law School complex includes four buildings - Classroom Building, Damon J. Keith Center for Civil Rights, Law Building and Arthur Neef Law Library - with lounges, gathering areas and meeting rooms. The three-floor Arthur Neef Law Library offers print and digital resources, a computer lab, 14 study rooms and wireless access. Special collections cover antitrust law, international law, Jewish law and Michigan law.

**Degrees**

The Law School offers academic programs leading to the degrees of Juris Doctor (J.D.) (http://bulletins.wayne.edu/graduate/law-school/law-jd/) and Master of Laws (LL.M.) (http://bulletins.wayne.edu/graduate/law-school/law-llm/). The J.D. is a graduate degree requiring a baccalaureate degree as a prerequisite. The LL.M. is a graduate degree offered by the Law School in the fields of and corporate and finance law, labor and employment law, and taxation which requires the J.D. or its equivalent as a prerequisite. The Law School also participates in joint degree programs with other Schools and Colleges within the University.

**Damon J. Keith Center for Civil Rights**

The Damon J. Keith Center for Civil Rights at Wayne Law is a regional hub for civil rights teaching, research and advocacy, training and inspiring the next generation of civil rights leaders in honor of the legacy of Judge Damon J. Keith. At the center, stakeholders gather to analyze policy, law students teach a civil rights curriculum to high school students and leaders dive into the issues of the day, such as tax foreclosures, water shutoffs and police-community relations. The center welcomes the public for lectures by civil rights icons, supports community-based organizations and publishes scholarship about how the law and social justice impact one another. The center offers the nation’s first and only repository dedicated to African-American legal history, along with a traveling exhibit about the 14th Amendment’s guarantee of equal protection under the law.

In summer 2014, WSU was awarded a three-year, $1.3 million grant from the W.K. Kellogg Foundation to launch the Detroit Equity Action Lab at the Keith Center. Through this initiative, 60 leaders working in the many dimensions of racial equity, including arts and media, community development, education, environment, food security, health care and housing, will address issues of structural racism in Detroit.

**Arthur Neef Law Library**

The Arthur Neef Law Library provides a major legal research center for Wayne Law students and faculty. Its special collections include the Alwyn V. Freeman International Law Collection, Driker Antitrust Law Collection, Jewish Law Collection and a comprehensive collection of current and historical Michigan law materials that include the Michigan Supreme Court Records and Briefs, Michigan probate court opinions and Michigan Superfund site documents. The law library is a selective depository for U.S. government publications.

Databases and other e-resources are easily discoverable and remotely accessible.

The law library building was designed to make optimal use of natural light in reading and study areas. Tables, carrels and soft-seating areas are available throughout the law library and offer wired and wireless access to networked resources. Our students may reserve any of the 14 study rooms through an online reservation system. A computer lab featuring desktop computers, printers and scanners is reserved for the exclusive use of Wayne Law students.

**Law Minor**

A minor in law is available through the the Mike Ilitch School of Business, the College of Fine, Performing and Communication Arts, the College of Liberal Arts and Sciences, and the School of Social Work. The minor in law offers students the opportunity to study law as undergraduates. The minor gives special attention to developing skills in logical and critical thinking. The minors provide training and knowledge relevant for law-related fields, as well as a valuable credential for those seeking to enter those fields. The minor requires three core law classes taught by full-time Law School faculty. Additional requirements for the minor can be found in the school/college sections of the bulletin:

- Law Minor (Business) (p. 104)
- Law Minor (Fine, Performing and Communication Arts) (http://bulletins.wayne.edu/undergraduate/college-fine-performing-communication-arts/law-minor/)
- Law Minor (Liberal Arts and Sciences) (p. 301)
- Law Minor (Social Work) (p. 382)
College of Liberal Arts and Sciences

Dean: Stephanie Hartwell

The College of Liberal Arts and Sciences is home to more than forty undergraduate degree programs in a wide variety of disciplines, from the humanities and social sciences to the physical and life sciences. We serve a diverse student population with a wide range of programs and courses. Our dedicated advisors provide individual advising to all our major students, and we strive to provide student engagement and undergraduate research opportunities for all students in the College.

Our bachelor degree programs provide a balance of broad studies and specialization, taking advantage of both the intellectual breadth of the College and the availability of course offerings taught by scholars and researchers who are leaders in their fields. All programs emphasize communication, both written and spoken, and the use of precise and thoughtful language. Students are stimulated to think and read critically and to become familiar with the tools of research so that learning may be a lifelong process. Intellectual growth is encouraged by developing in students the necessary independence, resourcefulness and judgment in early studies so that advanced courses may be selected with confidence.

Most fields of study in the College offer students both theoretical and practical training. Our programs are designed such that a solid knowledge of underlying principles is strengthened by practical training and experience.

The College of Liberal Arts and Sciences also serves students whose academic interests extend over several Departments. Such students have the opportunity to declare minors, pursue a co-major or take elective courses in a wide variety of fields. In addition, interdisciplinary programs such as Environmental Science, Linguistics, Global Studies, and Gender, Sexuality and Women's Studies offer varied individualized curricula.

The undergraduate programs of the College of Liberal Arts and Sciences are strengthened by graduate programs that lead to the master's and doctoral degrees in various disciplines. Professors in the College teach both graduates and undergraduates; research projects may involve both graduates and undergraduates; some specialized classes are available to both graduate students and those undergraduates enrolled in the upper division. This opportunity for association with graduate students and research personnel enriches the experience of many undergraduate students.

In the College of Liberal Arts and Sciences, students are provided with the skills, knowledge, and understanding on which to build professional and personal development in today's rapidly changing world.

Academic Regulations: Liberal Arts and Sciences

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 11) section of this bulletin. The following additions and amendments apply to the College of Liberal Arts and Sciences.

Attendance

Regularity in attendance and performance is necessary for success in college work. Attendance requirements will be announced by instructors at the beginning of each course.

Normal Program Load

To graduate in four years, students should take at least fifteen credits per semester for eight consecutive semesters. A normal load should not exceed eighteen credits.

Because at least two hours of outside preparation are normally expected for each class hour, a fifteen credit program calls for approximately forty-five hours of class attendance and study per week. Students who undertake such a program should expect to give it their full time and energy.

Extra Credits

Extra credits are credits taken in excess of the normal maximum load of eighteen credits. Students with 3.0 (or above) grade point averages may take more than eighteen credits with approval of the advisor.

‘AGRADE’ (Accelerated Graduate Enrollment Program)

Accelerated Graduate Enrollment: Some departments of the College permit academically superior majors to apply for admission into the College's 'AGRADE' program. 'AGRADE' procedures enable qualified seniors in the College of Liberal Arts and Sciences to enroll simultaneously in the undergraduate and graduate programs of the College and apply a maximum of sixteen credits towards both a bachelor's and master's degree in the major field.

Qualified students may apply for the AGRADE program no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average of 3.5 and not less than a 3.6 grade point average in the major courses already completed.

For more details about the 'AGRADE' program, contact the Graduate Director of the major department or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2516).

Graduation with Academic Distinction

Candidates eligible for the bachelor's degree may receive a special citation on their diplomas under the following circumstances: The designations of 'Summa Cum Laude,' 'Magna Cum Laude,' and 'Cum Laude' will be conferred upon graduating students whose cumulative grade point averages at Wayne State University fall within approximately the upper five percent, the next five percent, and the next ten percent of the senior class, respectively. The grade points used to identify the lower limits for each designation will be based upon the grade points attained by seniors at these percentile levels during the preceding academic year. Only students who have earned 56 or more credits at Wayne State University are eligible to graduate with one of the above distinction citations.

Dean’s List

The Dean's List of academically superior students is compiled each fall and winter term based on the following criteria: A 3.6 grade point average for students registered for twelve credits or more and a 4.0 grade point average for students registered for between six and eleven credits.

Academic Probation

If a student's cumulative grade point average falls below 2.0, the student will be placed on academic probation. A probation hold will need to be released each term before he or she registers. To obtain this release, the student must see his or her academic advisor.
A student will be off of academic probation at the end of any term in which she or he achieves a cumulative G.P.A. of 2.0 or better.

Exclusion
Students on academic probation will be given two subsequent terms to enroll while on probationary status. At the conclusion of the third consecutive term below 2.0, a student will be excluded from the University. An excluded student may not apply for reinstatement for one calendar year.

The decision to reinstate will be made by the College Probation Committee and based upon evidence presented by the student that circumstances have changed during the year away and that the probability of success has increased. Students seeking reinstatement should consult: http://www.clas.wayne.edu/reinstatement (http://www.clas.wayne.edu/reinstatement/)

Cheating and Plagiarism
The principle of honesty is recognized as fundamental to a scholarly community. Students are expected to honor this principle and instructors are expected to take appropriate action when instances of academic dishonesty are discovered. An instructor, on discovering such an instance, may give a failing grade on the assignment or for the course. The instructor has the responsibility of notifying the student of the alleged violation and the action being taken. Both the student and the instructor are entitled to academic due process in all such cases. Acts of dishonesty may lead to suspension or exclusion.

Academic Advising
Academic advisors are available in all departments. Students who have chosen a major should meet with their departmental advisor. Students should confer with advisors on all questions concerning degree requirements, academic regulations, course elections, and programs of study. It is of primary importance that students talk with an advisor when they are having difficulties in their academic work.

Bachelor’s Degree Requirements: Liberal Arts and Sciences

College Requirements
All undergraduate students must satisfy University General Education Requirements (p. 35), their specific major requirements, and the College of Liberal Arts and Sciences Group Requirements, which consist of a minor plus a two-course sequence in a single foreign language.

Minor Requirement
Students must complete a university-approved minor, which may be taken in the College of Liberal Arts and Sciences or any other WSU school or college. The minor requirement is waived for students who complete a second major, a double major, a concurrent degree, a dual degree, or a second degree. Students earning a co-major in Peace and Conflict Studies or Latino/a and Latin American Studies, or who are completing an undergraduate certificate, will be considered to have completed the minor requirement. The University Honors co-major does not fulfill the college requirement for a minor.

Students must complete all courses in their minors with a minimum overall average of 2.0. In order for a minor, second major or degree, or certificate program to fulfill the College of Liberal Arts and Sciences minor requirement, it must include at least three courses that have not been used to fulfill requirements for any other major or minor.

Foreign Language Requirement
All students in the College of Liberal Arts and Sciences must successfully demonstrate language proficiency equivalent to the two-course sequence in a single foreign language. Proficiency is demonstrated by completing courses numbered 1010 and 1020 in one of the following subject area codes: ARB, ARM, CHI, FRE, GER, GKA, GKM, HEB, ITA, JPN, LAT, POL, RUS, SPA, SWA, and UKR. Those continuing the study of a foreign language begun in high school or at another college will be placed at the appropriate level in the sequence as determined by means of qualifying examinations or interviews administered by the Department of Classical and Modern Languages, Literatures, and Cultures. The College Foreign Language Group Requirement will be considered satisfied by those students whose test scores place them beyond the second-course level.

Bilingual Students: Students who were born in and completed their secondary education in a country whose language is not English may demonstrate proficiency by means of qualifying examinations or interviews administered by the Department of Classical and Modern Languages, Literatures, and Cultures. However, no credit (through course work or by examination) will be granted to such students for 1000-level courses in that language.

Major Requirements
Specific course requirements for majors are listed in this bulletin under each of the Departments or areas of the College. Students must complete all courses in their majors with a minimum overall average of 2.0.

Declaration of Major
Students can easily declare or change their major online through Academica. Students must declare a major by thirty credits of study, regardless if these credits are completed at Wayne State University or transferred from another institution.

Double Major
For students to graduate with double majors, the major requirements in both areas of concentration must be fulfilled. Both majors are designated on the diploma.

Students wishing to double major in a CLAS degree program and that of another school or college must satisfy the College of Liberal Arts and Sciences Group Requirements.

Co-Majors
The following subjects may be taken in conjunction with another major leading to a Bachelor’s Degree: Latino/a and Latin American Studies and Peace and Conflict Studies.

Combined Degrees
A Combined Degree (B.A. or B.S.) is granted by the College of Liberal Arts and Sciences in cooperation with approved schools of Dentistry, Medicine, and Law, which do not require a bachelor’s degree for admission. Candidates for Combined Degrees must complete ninety credits in the College of Liberal Arts and Sciences, all University requirements, all College requirements, make reasonable progress (as determined by the major Department) toward completing a major, and complete satisfactorily the first year’s work in an approved professional school. Courses taken in the first year of professional school may be applied toward the required fifteen credits in advanced courses. Students who fail to pass any course ordinarily required during the first year of professional work forfeit the right to a Combined Degree. Such cases may be reopened only after the student completes the second year of professional work.
Second Degrees
Students who have received a degree from Wayne State University or any other accredited institution may obtain a second bachelor's degree in another academic area. In order to be granted second degrees, students must complete a minimum of thirty credits beyond the first degree in the College and satisfy all University and major requirements as well as the college requirement for a two-semester sequence in a foreign language.

Dual Degrees
Students who have completed all requirements leading to degrees offered by the College and who have accumulated 150 or more degree credits may apply for both degrees simultaneously.

Concurrent Degrees
Students who have satisfied all requirements for two different major programs - one offered by CLAS and one by another school or college— and who have accumulated 150 or more credits may apply for concurrent degrees simultaneously.

Exploratory and Pre-Professional Curricula
Students are encouraged to consult an academic advisor before choosing any curriculum.

Exploratory Curricula for Undecided Students
First-time students who are unsure of their major may enroll in a thirty-credit exploratory curriculum. There are four exploratory curricula: humanities, social sciences, life sciences and physical sciences/mathematics. These curricula are designed to give students the opportunity to take some common required courses that will help them graduate within four years once they choose their major.

Admission to pre-professional curricula implies only that students have selected professional goals. It does not necessarily mean that students will be accepted by the corresponding professional school or college. A pre-professional curriculum is not a major. Students are encouraged to declare a major together with pursuing a pre-professional curriculum. Some professional programs require a bachelor's degree. Even if a bachelor's degree is not required, admission to a professional program is often very competitive, and pursuing a major provides students with an alternative career path.

Advising for pre-health programs, including pre-medicine and pre-dental, pre-law and pre-social work is available through the University Advising Center. The pre-professional curricula in the college are:

Pre-Clinical Laboratory Science
Pre-Dentistry
Pre-Law
Pre-Medicine and Pre-Osteopathic Medicine
Pre-Mortuary Science
Pre-Nursing
Pre-Occupational Therapy
Pre-Pharmacy
Pre-Physical Therapy
Pre-Physician Assistant Studies
Pre-Radiation Therapy Technology
Pre-Radiologic Technology
Pre-Social Work

Study Abroad
African Travel-Study Programs
Ghana
Program Office: Department of African American Studies; 313-577-2321
Coordinator: Eboe Hutchful

The Department of African American Studies sponsors a summer term (four weeks on site) travel-study experience in the African country of Ghana. This program involves formal registration for graduate or undergraduate credit in Directed Study (AFS 6990). This course is taught by a W.S.U. faculty member as well as faculty members of the The Institute of African Studies at the University of Ghana, at Legon, Ghana.

The Institute of African Studies was established in 1961 as an interdisciplinary center for scholarship, teaching and research in African history, culture and religion. It offers both undergraduate and graduate instruction by its own faculty and collaborates with the social science departments of the University of Ghana. Located eight miles from Accra and in the shadow of the Aburi Hills, the University of Ghana is a large tranquil campus of original and striking architectural design and is justly considered one of the most beautiful university campuses in Africa. It is a residential university, organized around a hall system, and combines an active academic and social life.

The objectives of this travel-study program are to introduce students to broad questions of historical continuity and discontinuity, adaptation and readaptation, and syntheses that have characterized African cultures. Particular attention is given to normative values and religious views, economic and political systems, educational and health care systems, and family and community solidarities in the past and present. The program seeks to illuminate the fundamental and broad diversity in African lives as they are structured through traditional cultures, colonial impacts, nationality, gender, and socio-economic differentiation. It is designed to give students a sense of the successes and setbacks and ongoing challenges of African nationhood, and of Africa's relations with the United States and the rest of the world. On a personal basis the goals of the program are:

1. To provide intimate first-hand experience of African life styles and values systems.
2. To encourage among students an appreciation for cultural diversity through exposure to major foreign cultures.
4. To equip students with conceptual and intellectual tools to analyze the complexity of cultural and political institutions in Africa.
5. To engage students in critical thinking and field observation in the social sciences.

Benin
Program Office: Department of Anthropology; 313-577-2953
Coordinator: Guerin C. Montilus

The Department of Anthropology sponsors a biennial interdisciplinary summer study program in collaboration with the National University of Benin in Cotonou, Republic of Benin, West Africa. Founded in 1984, this program provides first-hand experience of African life styles and value systems through lectures by African instructors and interviews with Benin residents. Depending on student interest, attention is paid to African realities such as geography, history, religion, economy, politics, migration, family and kinship, education and health care systems. This broad range of topics is reflected in the kinds of formal registration courses offered by other departments and colleges within the University. Both graduate and undergraduate credits are optional and non-credit participants are welcome.

Caribbean Travel-Study Program: Cuba and Haiti
Program Office: Department of Anthropology; 313-577-2953
Coordinator: Guerin C. Montilus

The Caribbean study trip is an interdisciplinary study program sponsored by the Anthropology Department and hosted by the School of Preventive Medicine of the University of Santiago of Cuba and/or the Historical Ethnological Museum of the State University of Haiti, Port-au-Prince, Haiti. Both of these programs offer travel-study experiences which focus on Caribbean realities such as health care, educational systems, geography, history, religion, economy, politics, art, population, migration, family and kinship. The study trip provides first-hand experience of Caribbean life styles and value systems through lectures by Caribbean scholars and field trips guided by Caribbean instructors as well as personal interviews with Caribbean residents. Both graduate and undergraduate credits are optional and non-credit participants are welcome.

Junior Year in Munich (Germany)
Office: 401 Manoogian Hall; 313-577-4605
Program Director: Mark Ferguson
http://www.jym.wayne.edu/

Not just for German majors, the Junior Year in Munich (JYM) program is a unique study abroad experience open to students of any major at Wayne State University. JYM offers one-semester or academic year program options. Students earn WSU credit towards their degree while participating in the JYM program where they are enrolled at Ludwig Maximilians Universität (LMU Munich) - the number one ranked research university in Germany. Sponsored by Wayne State University since 1953, JYM is the oldest study abroad program in Germany. It has a national reputation for excellence and enrolls students from a wide variety of colleges and universities across the country.

ADMISSION REQUIREMENTS: The basic requirements for admission to the program are:

1. Junior (completion of fifty-five credits), senior, or graduate standing at Wayne State. Students from other universities are eligible with analogous standing at their institution.

2. Two years of college German with a 'B' average;

3. An overall 3.0 g.p.a., or better.

ORIENTATION: The program begins with an orientation period that prepares students for their studies at the university and also includes a variety of activities designed to introduce students to various facets of everyday life in their new surroundings.

COURSES: Students who study in Munich may take the following types of courses (all instruction is in German):

1. JYM Language Courses: All students are required to take JYM's Advanced German Language course each semester.

2. JYM Courses: JYM Area Studies courses take advantage of the many academic, cultural and social resources available in Munich. Field trips and excursions to cultural events and sites of historical interest in and around Munich are built into every course. These courses are offered by the program exclusively for JYM students, and are described on the JYM website.

3. University Courses: All JYM students are directly enrolled at LMU Munich and have access to the full university curriculum, except medicine and law. LMU Munich is divided into eighteen Faculties which are home to 203 institutes that focus on research and teaching within 129 disciplines and 150 degree-granting subject areas. Students may take bachelor level courses in almost any discipline if they meet course prerequisites and have the necessary language skills.

ABOUT MUNICH: Munich offers the best of all worlds: old world culture and the excitement of a big modern city, and all less than an hour from the Alps on public transportation. Because of its safe, small town feel, Munich is often referred to as a Millionendorf (a village with a million inhabitants). Munich is known for its world famous museums, symphony orchestras, theaters, film studios and opera house, as well as for its annual Oktoberfest and favorite soccer club, FC Bayern München. In addition, Munich boasts fourteen universities (two are the top-ranked in all of Germany) and twelve Max-Planck institutes, is home to the most modern engineering research center in the world, the largest medical research facility and one of the largest solar parks in Europe, and is headquarters to globally-known firms such as Allianz, BMW and Siemens. It is no wonder that the 2014 QS Best Student Cities Ranking placed Munich among the top ten best university cities worldwide.

SUPPORT IN MUNICH: The JYM institute is centrally situated in the city center, adjacent to many university buildings and student cafeteria, and just a few minutes walk from six of Munich's world-renowned museums. The institute includes an extensive library collection, study area and lounge, classrooms, computers and wireless networking capability, and is used for JYM instruction, guest speaker and special events, personal and educational support. A full-time Resident Director and support staff are available on-site to assist and guide students throughout the year.

LIVING ARRANGEMENTS: Students are housed in the popular StudentenStadt (Student-City) dormitories for university students in Munich. Located next to the English Garden, all rooms are single efficiency apartments and each floor has a common-room.

INTERNSHIPS: Internship opportunities are possible for students on the JYM program. Internships have been arranged in a wide variety of interest areas such as marketing, publishing, education, engineering, ecology and the environment, e-commerce, health care, government, foreign service, international trade, and economic development consultancy.

UNDERGRADUATE RESEARCH: JYM can help students customize a research project that matches their interests and needs. Many students take advantage of this opportunity to work on a capstone project or
African American Studies (B.A.)

The major in African American Studies prepares students for a wide range of professional and career opportunities. Majors can continue to graduate (including doctoral level) studies in the humanities, social and behavioral sciences, or pursue professional programs in law, medicine, business, and journalism. Graduates who enter the job market are prepared for careers in human services and public health, education, public relations, community development, urban planning; and more generally for jobs in the public sector, in central cities and urban institutions, or jobs that involve cultural or intergroup relations as well as international affairs. In the context of metropolitan Detroit, African American Studies graduates will be better prepared to deal with the complexity and diversity of the city’s political and demographic realities as they assume important roles of leadership.

- African American Studies (B.A.) (p. 257)
- African American Studies Minor (p. 258)

Honors Requirements

The honors curriculum is designed to challenge highly motivated students to achieve excellence in the field of African American Studies. Students are encouraged to develop active interests in probing the outstanding research and scholarship related to the global Black experience.

1. Maintain a 3.3 GPA overall and a 3.5 GPA within the AFS major.
2. Complete a minimum of 12-15 credits, including the following:
   a. AFS 5991 or AFS 6990: (3-8 cr.): A senior thesis under the direction of a full-time faculty member in their major area.
   b. HON 42xx (http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/african-american-studies-ba/undergraduate/honors-college/courses/): Complete one 42xx level Honors seminar offered through the Honors
Program. The Honors seminars are interdisciplinary courses that focus on a special topic for the term.

1. Accumulate at least six credits in honors-designated course work, not including thesis and the HON seminar. These honors credits can be obtained from any department, including AFS.

Internships
Internships are available in which students gain experience through placements in settings similar to those in which they will later be seeking professional roles. These include: community service agencies, community-based self-development organizations, public and private institutions, Black alternative organizations and other appropriate settings. Some students may also participate directly with the Department of African American Studies, assisting in research, community relations, and in the organization, coordination and conduct of community extension and education service programs. The objective of this mode of study is to offer students the opportunity to synthesize diverse ideas, theories and methodologies with important and practical real world imperatives. Interested students should contact the department's undergraduate advisor.

Summer Study Abroad
This travel program periodically visits Africa and/or Brazil. Through an integrated field/classroom/seminar experience, students are challenged to grow intellectually, as well as to increase their self-awareness and sensitivity to other cultures. For more information, consult the department advisor.

African American Studies Minor
Students majoring in other fields can minor in African American studies. The minor consists of six AFS courses which must include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFS 3420</td>
<td>Pan Africanism: Politics of the Black Diaspora</td>
<td>4</td>
</tr>
<tr>
<td>Select two or more of the following:</td>
<td></td>
<td>6-8</td>
</tr>
<tr>
<td>AFS 2010</td>
<td>African American Culture: Historical and Aesthetic Roots</td>
<td></td>
</tr>
<tr>
<td>AFS 2210</td>
<td>Black Social and Political Thought</td>
<td></td>
</tr>
<tr>
<td>AFS 2600</td>
<td>Race and Racism in America</td>
<td></td>
</tr>
<tr>
<td>AFS 3250</td>
<td>Politics and Culture in Anglophone Caribbean</td>
<td></td>
</tr>
</tbody>
</table>

Students wishing to minor in African American Studies are encouraged to visit the departmental office for information and counseling. A minor may be declared when filing for graduation.

Anthropology

Office: 3054 Faculty Administration Building; 313-577-2935
Chairperson: Andrea Sankar
Academic Advisor II: Harman Singh
Undergraduate Director: Andrew Newman
http://www.clas.wayne.edu/Anthropology/

Anthropology is the science of humanity, examining human life and variation in the different forms in which they are found. Anthropology considers the variety of customs, languages, and civilizations that make up humanity, uniting diverse sciences such as biology and geology, with humanistic endeavors such as religious studies, philosophy, and history. Anthropology has often been called the most scientific of the humanities and the most humanistic of the scientific disciplines.

Undergraduate training in anthropology is designed for various groups of students:

1. those desiring scientific knowledge of the social and cultural determinants of behavior;
2. those preparing to enter law, medicine, public health, social work, information sciences, or public administration;
3. those preparing for employment in historical or natural science museums;
4. those preparing to serve the business and/or industrial community as specialists in cross-cultural analysis or management consulting;
5. those seeking to enter the field of cultural resource management;
6. those expecting to work with the general public and, therefore, requiring a broad grasp of the nature of society, group behavior and social change;
7. those looking forward to teaching anthropology or another of the social or behavioral sciences;
8. those preparing for a career in another country, in international studies, or in foreign affairs;
9. those planning to pursue careers in law enforcement, police science, or criminal justice; and
10. those who desire to pursue graduate studies in anthropology.

- Anthropology (B.A.) (p. 258)
- Anthropology Minor (p. 259)
- Archaeology Minor (p. 259)
- Global Health and Social Medicine Minor (p. 260)

Admission Requirements
Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

Major Requirements
Students majoring in anthropology are required to elect a minimum of thirty-four credits in anthropology, including:

<table>
<thead>
<tr>

</table>

African American Studies Minor
ANT 5380 History of Anthropology 3
ANT 5993 Writing Intensive Course in Anthropology 0
ANT 5996 Capstone Seminar in Anthropology 3
Anthropology electives 9
Total Credits 34

A minimum of fifteen credits must be taken in residence. The capstone course (ANT 5996) must be taken in residence. All required courses must be completed with a grade of C or better.

Limitations: Students may not elect more than forty-five credits in course work within the Department.

Honors Program for Majors: see description of Honors Program, below.

Anthropology Honors (B.A. Program)
This program is open to students pursuing a bachelor’s degree with a major in anthropology who maintain an overall cumulative grade point average of at least 3.3 and a similar g.p.a. in anthropology courses. Honors majors must demonstrate the ability to do original work by writing an honors thesis during their senior year. The anthropology honors program leads to a degree designation ’with Honors in Anthropology’. Students in the Honors Program must satisfy the following requirements:

1. All requirements for a major in anthropology;
2. Overall g.p.a. of 3.3 or above;
3. Anthropology g.p.a. of 3.3 or above;
4. A minimum of three and a maximum of six thesis credits in anthropology (ANT 4999);
5. An approved honors thesis;
6. One 4000-level honors seminar (HON 4200-HON 4280) offered by the Liberal Arts and Sciences Honors Program.
7. A total of twelve honors-designated credits including ANT 4999, the 4000-level Honors Program seminar, and other honors credits earned in Honors Program courses or in Honors sections of courses offered by other departments.

Combined Degree
Students pursuing a degree at an approved school of dentistry, medicine, or law may obtain a combined degree with anthropology in accordance with the requirements set forth by the College of Liberal Arts and Sciences (p. 254).

AGGRADE Program (Accelerated Graduate Enrollment)
This program enables qualified seniors in the College of Liberal Arts and Sciences to enroll simultaneously in the undergraduate and graduate programs of the College. Students may apply for the AGRADE Program during the term in which they will complete ninety credits; to qualify, students must have a minimum 3.6 g.p.a. in anthropology and a 3.5 in their overall g.p.a. For more details about the AGRADE Program, contact the Academic Advisor in the Anthropology Department.

Anthropology Minor
The election of a minor in anthropology is appropriate for students in a variety of disciplines who wish to add a comparative, cross-cultural, or bio-cultural perspective on the study of human beings to their area of specialization. The minor requires a minimum of eighteen credits in anthropology courses including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANT 1100</td>
<td>Introduction to Anthropology</td>
<td>3</td>
</tr>

<tr>
<td>ANT 3310</td>
<td>Language and Culture</td>
<td></td>
</tr>
</tbody>
</table>

Select three anthropology elective courses with one course at the 5000-level 9

Total Credits 18-19

Total credits, other than ANT 1100 must equal at least fifteen for all students (including transfer students).

In order for students to gain maximum benefit from their minor in conjunction with their major, it is strongly recommended that they consult with an advisor in the department before electing courses. A list of elective anthropology courses recommended for combination with a minor in archaeology is available from the Department.

Archaeology Minor
Archaeology is the study of past human cultures through material remains; it is one of the sub-fields of the discipline of Anthropology. The minor in archaeology will introduce particular skill sets, concepts, and competencies to students who wish to apply them to their expertise in other disciplines. The minor requires the completion of 18-19 credits.

Total Credits 18-19
Global Health and Social Medicine Minor

The Global Health and Social Medicine minor will explore the relationship between human rights and health and pays special attention to the factors contributing to health inequities locally and globally. The skills and training that students will receive in the Global Health and Social Medicine minor are transferable to careers in a variety of health-related fields including medicine, nursing, public health, and social work. The minor requires the completion of 18 credits.

**Biological Sciences**

Office: 1360 Biological Sciences; 313-577-2873; Fax: 313-577-6981
Chairperson: Victoria Meller
Associate Chairperson: Daniel Kashian
Academic Staff and Academic Advisors: Nora Alhussainy, Antoinette Cunningham, Kimberly Hunter, Krystyn Purvis, Rebecca Russell, Madelyn Tucker
http://www.clasweb.clas.wayne.edu/biology (http://clasweb.clas.wayne.edu/biology/)

**Departmental Academic Policies**

**Student’s Responsibility:** It is each student’s responsibility to learn the major requirements, policies, and procedures governing the program they are following and to act accordingly. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees. Students should consult a Biological Sciences Department Advisor regularly in order to verify that their Biology requirements are being met in a timely fashion. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

**Declaration of Major:** Students should declare their major after completing BIO 1500 and BIO 1510 with a ‘C-minus’ or better. Major requirements are established by the declaration of major date. Students who do not formally declare their major are susceptible to program changes made by the Department. Recent program changes may not be reflected in the University Bulletin if they are established after the printing of the Bulletin.

**Prerequisites/Corequisites:** Students are required to follow all prerequisites and corequisites listed for each Biology course. Please refer to the Biological Sciences Department Advisor and the Class Schedule for accurate listings of prerequisite requirements.

**Grade Requirements:** All students are required to complete BIO courses with a ‘C-minus’ or better to satisfy the prerequisite requirements. Students with grades below a ‘C-minus’ in prerequisite coursework are required to retake the course before proceeding to the subsequent courses in the program.

**Residency Requirement:** Students must complete a minimum of twenty-one credits in residence in biological sciences (BIO). Of the twenty-one credits, fifteen of those credits must be at the 3000 level or higher.

**Combined Degree with Dentistry and Medicine:** Students who were majoring in biological sciences and are candidates for a combined degree must have made reasonable progress towards the requirements listed for biological sciences majors. A minimum of twenty-five credits in residence are required in biological sciences (BIO). See also the College of Liberal Arts and Sciences policy on combined degrees.

**Over-Age Credits:** A student attempting to complete a biological sciences major after a prolonged interruption of his/her education may find that some of the previous course work in biological sciences is out of date. In such cases, the record will be reviewed and the Department may require the student to fulfill biological sciences course requirements existing at the time of his/her return.

**Transfer Students** should consult with a Departmental undergraduate advisor during the semester prior to their transfer (after a transfer evaluation has been completed by the Transfer Credit Office).

Determination of course equivalency will be made by the Departmental undergraduate advisor in conjunction with the Transfer Credit Evaluation Unit in the Office of Undergraduate Admissions. The Department reserves the right for the final determination of course equivalency.

**Advanced Placement** in Biological Sciences may be obtained by earning the following scores in the AP Qualifying Examination:

- **Score of 5:** Credit is awarded for BIO 1500 and BIO 1510 (eight credits). Students are eligible to enroll in subsequent courses providing the prerequisites for them have been met.
- **Score of 3 or 4:** Credit is awarded for BIO 1510 (four credits). Students with a score of 3 or 4 are eligible to register in BIO 1500.

**Accelerated Graduate Enrollment:** The ‘AGRADE’ Program is designed for outstanding seniors who wish to complete bachelor’s and master’s degrees. For further details and eligibility requirements regarding the ‘AGRADE’ Program and Biological Sciences, contact the Department Advising Office, 1360 Biological Sciences Building.
Biological Sciences (B.A.)

The Bachelor of Arts degree is for students who desire a broad liberal arts education with specialization in biology. It is not recommended for students anticipating admission into graduate science programs or medical school. Students contemplating a major program in biological sciences should consult with a departmental undergraduate advisor no later than the beginning of the sophomore year.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees. Students must receive a grade of C-minus or better in all biology courses. A grade point average of 2.0 (C) in both biology and general required courses is required for graduation.

Major Requirements

A minimum of 40 credits of BIO starting at BIO 1500 are required of the major as defined below. Courses through the 6000 level may be elected forhonors credit, BIO 3070 is 5 credits and includes a lab.

BIO electives without an honors section may be used if the professor is willing to do an honors option. Paperwork to do an honors option on a course is available from the Honors College.
Biological Sciences (B.S.)

The Bachelor of Science degree is for those students who wish to follow a career in the sciences and/or those planning to enter post-graduate professional schools. Students contemplating a major program in biological sciences should consult with a Departmental undergraduate advisor no later than the beginning of the sophomore year.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees. Students must receive a grade of C-minus or better in all biology courses. A grade point average of 2.0 (C) in both biology and general required courses is required for graduation.

Major Requirements

A minimum of 40 credits of BIO starting at BIO 1500 are required of the major as defined below. Courses through the 6000 level may be elected providing the proper prerequisites have been successfully completed.

<table>

1 Students must start in the appropriate math course based upon placement exam or valid SAT/ACT scores. Students may attempt to place into a higher MAT course by taking the Placement Examination of the Department of Mathematics upon entry into the university.

Biological Sciences Honors (B.A. and B.S. Programs)

The Department participates in the honors program and works with individual students to develop a curriculum that satisfies honors degree requirements. Students interested in an honors degree should contact the departmental honors advisor.

Program Requirements: To achieve honors designation with the Bachelor of Arts or Bachelor of Science in Biological Sciences, students are required to complete all University and major requirements (see above) including fourteen honors credits in Biology and an honors seminar (HON 4200-HON 4280).

The fourteen credits in Biological Sciences are comprised of:

<table>

To be awarded a BIO honors degree, students must accumulate seventeen honors credits as defined above. Students must also maintain a cumulative g.p.a. of at least a 3.3. Students completing department honors must also maintain a 3.3 g.p.a in BIO coursework.

1 BIO courses without an honors section may be used if the professor is willing to do an honors option. Paperwork to do an honors option on a course is available from the Honors College.

**Biological Sciences Minor**

Completion of the minor in biological sciences requires twenty credits of BIO coursework as indicated below. At least 12 credits in BIO must be completed in residence at WSU.

**Chemistry**

*Office:* 169 Chemistry Building; 313-577-7784  
*Chairperson:* Matthew J. Allen  
*Associate Chairperson:* Jeremy Kodanko  
*Academic Services Officers:* Erin Bachert, Melissa Rochon  
http://www.chem.wayne.edu (http://www.chem.wayne.edu/)

The courses offered by this Department are designed to serve the needs of three distinct groups of students:

1. those majoring in chemistry with the intention of entering the chemical profession,
2. those majoring in chemistry with the intention of entering other professional fields, and
3. those majoring in other subjects who desire to elect chemistry courses as part of their programs. Students intending to major in chemistry should refer to the program tabs for more information.

Students with no prior experience in chemistry may elect CHM 1000 (for non-science majors); CHM 1020 (for non-science majors and certain preprofessional students); or CHM 1040, which is intended for students who need higher-level chemistry work but who fail to qualify for CHM 1220 or CHM 1225 or whose math/science skills are weak. Students who have had a year or more of high school chemistry or the equivalent may register for CHM 1020 or CHM 1225 (for science and preprofessional majors) provided that they meet the other eligibility requirements outlined below. Election of CHM 1000, CHM 1020, CHM 1220, or CHM 1225 will satisfy the University General Education Requirement for a physical science.

**Terminal Chemistry Courses:** CHM 1000 is a terminal survey course designed primarily to acquaint non-science students with the principles of chemistry in a format requiring minimal mathematical skills. When elected for four credits, this course includes a laboratory which satisfies the University General Education Requirement for a laboratory course.

CHM 1020 and CHM 1030 represent a terminal sequence designed to introduce the basic principles of chemistry and survey the various fields of chemistry for non-science majors and certain pre-professional students such as pre-nursing, occupational health, engineering technicians and others.

Foundational Chemistry: CHM 1040 is designed as the beginning chemistry course for science majors, pre-professional students, and other students who have had little prior experience in chemistry and/or mathematics. CHM 1220 (or CHM 1225) and CHM 1230 are complementary and corequisite courses which should be taken during the same term. CHM 1220 is a classroom-focused course. CHM 1230 is a laboratory-focused course. This also describes the succeeding corequisite sets CHM 1240 and CHM 1250, CHM 2220 and CHM 2230, and CHM 2280 and CHM 2290.

**General Chemistry:** CHM 1220/CHM 1230 are designed as the beginning courses for science majors and preprofessional students who have a good background in high school chemistry. (CHM 1225/CHM 1230 is the sequence for students in the College of Engineering.) Eligibility for CHM 1220/CHM 1230 must be established by passing a placement examination, covering basic high school material, which is administered by Testing, Evaluation, and Student Life Research, 698 Student Center Building. The qualifying examination is administered several times prior to and during registration.

The sequence of CHM 1220/CHM 1230 and CHM 1240/CHM 1250 are prerequisite to all higher numbered courses in chemistry.

**Advanced Placement Credit**

Advanced placement college credit in chemistry shall be awarded for scores earned in the chemistry placement examination as follows:

- **Score of 4 or 5:** Credit awarded for CHM 1220/CHM 1230 and CHM 2280 (eight credits); student is eligible to enroll in CHM 1240/CHM 1250.

- **Score of 3:** Credit awarded for CHM 1220/CHM 1230 (five credits); student is eligible to enroll in CHM 1240/CHM 1250.
  - Biochemistry and Chemical Biology (B.S.) (p. 263)
  - Chemistry (B.A.) (p. 264)
  - Chemistry (B.S.) (p. 265)
  - Chemistry Minor (p. 268)
  - Biochemistry and Chemical Biology Minor (p. )

**Biochemistry and Chemical Biology (B.S.)**

This degree offers students the opportunity to develop in-depth knowledge in five areas of biological chemistry (bioorganic, bioinorganic, bioanalytical, biophysical, and health sciences). The program teaches key chemical concepts and develops student ability to apply them to a wide variety of biological problems. The program serves to develop and train graduates who will be well prepared to enter graduate or professional schools as well as careers in the chemical, pharmaceutical, biomedical, agricultural and bioinformatic industries.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Students planning to major in biochemistry and chemical biology should consult with an advisor in the Chemistry Department not later than the beginning of their sophomore year.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of
the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

Major Requirements

Those who wish to follow the curriculum in the College for the B.S. with a major in Biochemistry and Chemical Biology degree must complete the following courses:

<table>

Total Credits 24

Chemistry (B.A.)

This curriculum allows students to major with a maximum of forty-six credits in chemistry while providing flexibility for exposure in other cognate fields. This degree is appropriate for students in science-oriented pre-professional programs such as medicine and dentistry, as well as for students entering secondary science teaching. For individuals interested in entering a graduate program in chemistry or pursuing a position in the chemical industry upon graduation, it is recommended that the additional requirements for professional certification by the American Chemical Society (see Requirements tab) be completed.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Students planning to major in chemistry should consult with an advisor in the Chemistry Department not later than the beginning of their sophomore year.
Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

**Major Requirements**

Those who wish to follow the general curriculum in the College of Liberal Arts and Sciences for the B.A. degree with a major in chemistry must complete the following courses:

<table>

Total Credits: 56-59

A minimum grade of 'C' is required in prerequisite chemistry courses.

At least fifteen credits in chemistry must be earned at Wayne State University.

**ACS Certification**

B.A. candidates may receive certification by the American Chemical Society upon graduation by completing the following in addition to the Chemistry courses required for the B.A. degree:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<td>Instrumental Analytical Chemistry Laboratory</td>
<td></td>
</tr>
<tr>
<td>CHM 5999</td>
<td>Research in Chemistry</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits: 18-20

To receive certification, students must submit an application along with a transcript to the Chemistry Department Curriculum Committee prior to the end of the final term.

**Chemistry Honors (B.A. Program)**

1. All B.A. requirements in chemistry must be fulfilled.
2. Minimum g.p.a.: 3.3 overall; 3.3 in chemistry courses.
3. Minimum of four credits in independent research (CHM 5998).
4. Completion of one semester of an Honors Program 4200-level seminar (consult the Schedule of Classes under ‘Honors Program’). This course may be used in partial fulfillment of College Group Requirements and can be elected in either the junior or senior year.
5. At least twelve credits in honors-designated course work.
6. Submission of a B.A. thesis or of a manuscript suitable for publication in a refereed chemical journal (covering the undergraduate research project) to the Honors Subcommittee in Chemistry which will act to accept or reject the thesis (or manuscript).
7. An oral examination covering the B.A. Honors Research Project, by the Honors Subcommittee in Chemistry.

**Chemistry (B.S.)**

This degree offers a strong background for students interested in a career in chemistry or in a professional field with a strong reliance on chemistry. It is particularly recommended for students planning to do graduate work in chemistry and chemically-related fields. The degree is offered with three options:

1. Bachelor of Science in Chemistry,
2. Bachelor of Science in Chemistry with a concentration in biochemistry, and
3. Bachelor of Science in Chemistry with a concentration in materials.

The first option is designed primarily for those planning to enter the chemical profession and other professional fields. The second option is designed primarily for students planning careers in biochemical and biomedical areas. The third option is designed primarily for students interested in materials science. (Note: Those interested in Phi Beta Kappa
should consult with the secretary of the Wayne State University Chapter in order to determine the maximum number of chemistry credits allowed.)

Admission Requirements
Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Students planning to major in chemistry should consult with an advisor in the Chemistry Department not later than the beginning of their sophomore year.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

Chemistry B.S. - Option One
Major Requirements
Those who wish to follow the curriculum in the College for the B.S. in Chemistry degree must complete the following courses:

Total Credits 77-81

1 By the first semester of the senior year, the student must enroll for at least two credits in independent research (CHM 5999 or CHM 5998). The student must work under the direction of a faculty member of the Department of Chemistry. It is advised that the student consult with the faculty during the term prior to beginning work, in order to choose the area and staff member under whose direction this research will be carried out. At the conclusion of the project, the student must present a written report for approval by the Chairperson of the Department. With prior approval by the Chairperson of the Department, students may be allowed to substitute to 2 credits of an internship experience (CHM 6991) in place of a research project. A minimum grade of C is required in prerequisite chemistry courses.

Substitutions in B.S. Curriculum (Option One ONLY): In recognition of the diverse backgrounds required for various careers in chemistry, students may petition the Chemistry Curriculum Committee for approval to substitute advanced courses numbered 5000 or above from another discipline (such as physics, mathematics, biology, engineering) for the following B.S. requirements:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

Total Credits 24

1 Excluding seminar and research courses (CHM 2999, CHM 4850, CHM 5999, CHM 5998, etc.).

Chairperson: Vanessa DeGifes
Academic Services Officers: Terrie Pickering
Academic Advisor: Chris Clark
http://www.clas.wayne.edu/languages

This Department offers courses and programs of instruction in fourteen different languages. In addition to language learning and Global Studies, the Department focuses on the cultures and literatures of ancient Greece and Rome, as well as the modern world, in courses taught both in languages indigenous to these regions as well as in English translation. The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one’s writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice. Languages, literatures, and cultures are also excellent foundations for students interested in pursuing careers that do not require post-graduate education, for example, in government, publishing, tourism, and business, any field in which intelligence, communication skills, and a broad liberal education are valued.

The Department offers programs in both major and minor concentration as well as cognate course work that can provide perspectives for majors in other departments. A student who wishes to major or minor in one of our degree programs should meet with a Departmental advisor as soon as possible after entering the University.

Majors

• Asian Studies (B.A.) (p. 269)
• Classics (B.A.) (p. 271)
• German (B.A.) (p. 272)
• Global Studies (B.A.) (p. 272)
• Near Eastern Studies (B.A.) (p. 275)
• Romance Languages (B.A.) (p. 276)
• Slavic Studies (B.A.) (p. 277)

Minors

• Arabic Minor (p. 278)
• Asian Studies Minor (p. 278)
• Classical Civilization Minor (p. 278)
• Folklore and Fairy-Tale Studies Minor (p. 278)
• French Minor (p. 278)
• German Minor (p. 279)
• Global Studies Minor (p. 279)
• Israeli Studies Minor (p. 279)
• Italian Minor (p. 280)
• Latin Minor (p. 280)
• Modern Greek Studies Minor (p. 279)
• Near Eastern Studies Minor (p. 280)
• Polish Minor (p. 280)
• Russian Minor (p. 280)
• Spanish Minor (p. 280)

Classical and Modern Languages, Literatures, and Cultures

Office: 485 Manoogian Hall; 313-577-3002

CMLLLC Program Requirements
Degree Requirements

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

Placement: Students continuing the study of any of the languages cited at Foreign Language (p. 254) and begun in high school or in another college should consult with the Department undergraduate advisor to determine the level of which to continue coursework (phone: 313-577-3002). The main criteria for placement of these students is the Departmental placement exam. The number of years of high school language study does not effectively correspond to language course sequences at the university level. Students with sufficiently high placement exam scores will be deemed to have satisfied the Foreign Language Group Requirement. For information on the Placement Examination, contact the Department at 313-577-3002. Examinations are scheduled by appointment at the Department Office, 487 Manoogian Hall. (A fee is charged.)

Departmental Honors Program

Qualified majors may apply for participation in the Departmental Honors Program. Only a student who has demonstrated superior ability in one of the Departmental majors and who shows promise of acquiring greater breadth and depth of knowledge through tutorial study will be admitted to the program. As preparation for admission, the student is required, during the freshman and sophomore years, to acquire basic knowledge of their major language. To be recommended for an honors degree a student must maintain a cumulative grade point average of at least 3.3. He/she must accumulate at least fifteen credits in honors-designated course work, including at least one 4000-level seminar offered through the Honors College (see the schedule of classes (http://classschedule.wayne.edu/) under ‘Honors Courses’ for seminar topics), and the Departmental credits associated with completion of a Senior Thesis.

‘AGRADE’ Program (Accelerated Graduate Enrollment)

The Department encourages academically-superior majors to petition for admission into the College's 'AGRADE' program. Qualified seniors may apply a maximum of fifteen credits toward both a bachelor's and a master's degree. For more details, contact the graduate director (Classics, French, German, Italian, or Spanish): 313-577-3002. Students should consult with the director in their junior year regarding this opportunity.

Study Abroad

Students should consult the department and the Study Abroad and Global Programs Office (p. 71) for more details on the following programs:

- Arabic Language and Culture at the American University of Cairo or Lebanese American University
- Junior Year in Munich Program
- Juniors, seniors, or graduate students who would like to spend a year studying at the University of Munich are encouraged to contact the Junior Year in Munich Program, 401 Manoogian Hall; 313-577-4605.

- Study Abroad in Poland

Asian Studies (B.A.)

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one’s writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 268) for admission, degree, and general education requirements.

Asian Studies

A major in Asian Studies consists of a concentration in either Chinese; Japanese; Chinese and Japanese (language focused); or Joint Culture (East Asian Studies focused).

Chinese OR Japanese Concentration

The major with a concentration in Chinese or Japanese requires thirty-five credits consisting of:

<table>

JPN 4560  Japanese Culture and Society II
JPN 4850  Studies in Japanese Culture
JPN 5999  Internship in Japanese Studies
PHI 2150  Chinese Philosophy

Electives 6
Total Credits 35

Electives include but are not limited to the disciplines of anthropology, business management, history, economics, linguistics, philosophy, cinema, culture, literature, and political science. Further restrictions may apply and students should consult the undergraduate advisor of the language area for details.

**Chinese AND Japanese Concentration**

The Chinese and Japanese Concentration focuses on the study of both languages. It requires thirty-six credits consisting of:

Classics (B.A.)

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one’s writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 268) for admission, degree, and general education requirements. A major in Classics consists of satisfying one of the following sets of concentration requirements:

**Latin Major Concentration**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLA 1010</td>

Recommended Cognate Courses: All majors in the Department are strongly urged to take as many courses as possible from the list above and in the literatures of other languages, including English.

Latin: Combined Curriculum for Secondary Teaching
Students who are preparing to teach Latin in the secondary schools and who wish to obtain a B.A. degree with a concentration in Latin must complete the concentration in Latin as outlined above and the requirements for this curriculum set by the College of Education. For further information, see Combined Curriculum for Secondary Teaching. (p. 255)

Classics Honors (B.A. Program)
In order to graduate with Honors in Classics, a student must complete all requirements for a major in Classics (see above); must maintain an overall g.p.a. of 3.3, and a g.p.a. of 3.5 in courses in the major; must complete a minimum of fifteen Honors option/and/or Honors designated credits, including one three-credit Honors seminar (HON 4200-HON 4280), and three credits of CLA 4998 (Honors Thesis) involving a senior essay, thesis or project under the supervision of a full-time faculty member of the Classics area.

Eligible students who are interested in the program should consult the department undergraduate advisor. For information about honors-designated coursework available each semester, including the required 4000-level Honors seminar, visit the Honors College website (http://www.honors.wayne.edu/classes.php).

German (B.A.)
Reflecting Wayne State University’s overall mission of ‘preparing students to excel in an increasingly advanced and interconnected global society,’ the B.A. in German within the Department of Classical and Modern Languages, Literatures and Cultures focuses on the following four interrelated goals. They are intended to educate students as citizens in a global world and to prepare them for future careers in the private and public sector.

Goals:

- The achievement of German language proficiency at the Advanced Low to Advanced High level, according to the ACTFL (American Council on the Teaching of Foreign Languages) proficiency guidelines. This corresponds to the B2-C1 level of the CEFR (Common European Framework of Reference) guidelines.
- The acquisition of diverse knowledges in breadth and depth with regard to German language and literature, culture and society from the Germanic beginnings to the present with a concentration in the 20th and 21st centuries
- The attainment of intercultural competencies through study and research abroad as well as through internships, both abroad and in the Detroit metropolitan area
- The development of transferable critical-analytical, interpretive, and information-literacy skills

Students should refer to the CMLLC program requirements (p. 268) for admission, degree, and general education requirements. A major in German must satisfactorily complete a minimum of thirty-one credits in German courses, that include:

<table>

Required

German Culture:

- GER 2710 Resistance, Rebellion, Revolution: Transitional Moments in German Culture and History
- HIS 5460 History of the Holocaust or HIS 5480 Nazi Germany

Intercultural Communication:

- GLS 2900

Textual Analysis in the Context of Global Literature:

- GER 2991 Understanding the Fairy Tale or GLS 2700 Introduction to Global Stories

Advanced German Sequence (select two of the following) 1

- GER 4600 Products, Perspectives, and Practices of Culture
- GER 5100 Advanced Rhetoric and Composition
- GER 5210 German Translation Studies

Advanced Textual and Cultural Analysis (select two of the following) 2

- GER 5390 Holocaust Studies
- GER 5400 Cultural Studies and Criticism
- GER 5770 Modernism
- GER 5780 Texts and Contexts Since 1945
- GER 5790 Topics in German Studies
- GER 5800 Literature and Cultures of Minorities
- GER 5999 Internship in German Studies
- LGL 5850 Foreign Language Instruction

Total Credits: 31

1 One course in this sequence must be taken at the main Wayne State campus in Detroit, MI.
2 One of the two courses selected to satisfy this requirement must be taught in German.

Majors are strongly encouraged to pursue a co-major, double major or minor, and/or to take general education and elective courses in related fields, such as: anthropology, art history, economics, engineering, English or another language area, film studies, gender, sexuality and women’s studies, geography, global supply chain management, history, international studies, linguistics, political science, social work, sociology, and theater.

Global Studies (B.A.)

The Global Studies program is designed for students passionate about understanding and being active participants in a globalized world.
Students learn about global institutions, issues, and movements from an interdisciplinary perspective by:

1. developing language skills, which are essential to global communication and cultural understanding;
2. taking core courses in humanities and social sciences that provide students with an interdisciplinary and theoretical introduction to global studies; and,
3. specializing in global politics and economies, health and environment, and cultures and identities.

Throughout the curriculum students will think critically about questions related to global justice, inequality, how globalization impacts different cultures and regions around the world, and the responsibilities of global citizenship. A Global Studies major can prepare students for careers in government, diplomacy, law, health professions, teaching, research, nongovernmental organizations, development, and business.

Through the program students will:
1. demonstrate intermediate-level skills in reading, writing, speaking, and listening in one language other than English, or elementary-level skills in reading, writing, speaking, and listening in two languages other than English.
2. analyze ways in which global issues intersect with the individual and the social with respect to gender, sexuality, class, race, and ethnicity.
3. describe the processes of globalization from economic, political, environmental, historical, and cultural perspectives and how these processes impact social structures and people's everyday lives.
4. connect globalisation and global issues to the local, the regional (as it relates to regional issues within nation states), and the national.

Global Experience

Students must fulfill a ‘Global Experience’ requirement. Options for fulfilling the Global Experience requirement include:
1. an internship at a local agency that deals with global issues or is a global organization or company (GLS 5500);
2. study abroad or internship abroad;
3. field work or study abroad that is part of a specific course

All majors are also required to present their work in the form of a paper of poster session in a WSU venue.

Students wishing to pursue the major in global studies should meet with the program director and the undergraduate advisor in Classical and Modern Languages, Literatures, and Cultures for advising.

Students should refer to the CMLLC program requirements (p. 268) for admission, degree, and general education requirements.

Major requirements consist of a minimum of 33 credits distributed as follows:

<table>

### Near Eastern Studies (B.A.)

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one’s writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 268) for admission, degree, and general education requirements.

### Near Eastern Studies Major

A major in Near Eastern studies consists of thirty-eight credits.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select eleven credits in language, linguistics, or literature beyond ARB 1020 or HEB 1020</td>
<td>11</td>
</tr>
<tr>
<td></td>
<td>Select twenty-seven credits in elective courses with no less than six credits in three of the following four subject areas:</td>
<td>27</td>
</tr>
<tr>
<td></td>
<td>Ancient Near East</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Israeli culture/civilization</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Arab culture/islamic civilization</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Islamic and modern Middle East history</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Total Credits</td>
<td>38</td>
</tr>
</tbody>
</table>

### Near Eastern Languages Majors

A major in Near Eastern languages consists of a concentration in either Arabic or Hebrew, or joint study of both languages.

The Near Eastern Languages major with a concentration in Arabic or Hebrew consists of thirty-six credits. This includes:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select eleven credits in language, linguistics, or literature beyond ARB 1020 or HEB 1020</td>

<td></td>
</tr>
<tr>
<td></td>
<td>Hebrew language and literature</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Total Credits</td>
<td>36</td>
</tr>
</tbody>
</table>
The Near Eastern Languages major with a joint study in both Arabic and Hebrew consists of twenty-nine credits beyond first-year proficiency in both Arabic and Hebrew. This includes:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select twelve credits in either Arabic or Hebrew language, linguistics, or literature courses</td>
<td>12</td>

<td></td>
<td>29</td>
</tr>
</tbody>
</table>

Romance Languages (B.A.)

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one's writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 268) for admission, degree, and general education requirements.

All majors with concentrations in Italian and Spanish are required to take a minimum of two cognate courses approved by the advisor. They are encouraged to take as much work as possible in the literatures of other languages, both ancient and modern, as well as in history, philosophy, linguistics, art, and music.

French Major Concentration Requirements

A concentration in French consists of:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>FRE 2100</td>
<td>French through Film I</td>
<td>4</td>

Italian Major Concentration Requirements

The major concentration in Italian at Wayne State University (effective Fall 2014) is designed for maximum flexibility, offering students educational choices which can help prepare them for a wide variety of careers, including teaching, diplomacy, tourism, design, fine and performing arts, music, law, medicine, and international business, among others. A student with a particular historical or thematic interest can focus on history, art, music, literature, international studies, and other studies while completing a major concentration or a minor in Italian.

The major concentration in Italian requires a total of thirty-six credits beyond the basic language sequence (ITA 1010, ITA 1020, and ITA 2010). Majors are required to take ITA 2020 and an additional thirty-three credits, with at least two courses in each of three groupings: Language and Culture, Literature and Culture before 1700, and Literature and Culture after 1700. (For a list of courses within these classifications, consult the departmental advisor.) A total of nine credits can be elected from courses offered in a number of related disciplines.

Italian Summer Program in Gagliano

Students may also take courses in Italian language, literature, and culture in the Wayne summer program in Gagliano Aterno, Italy. The Gagliano program offers students the opportunity to complete up to eight hours of course work in four weeks.

Spanish Major Concentration Requirements

A student concentrating in Spanish is required to take:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</table>
Foreign Languages: Teacher Preparation

Students who are preparing to teach French, Italian, or Spanish in the secondary schools and who wish to obtain a B.A. degree with a concentration in one of these languages must complete the appropriate concentration as defined above. Students interested in pursuing teacher preparation course work should also refer to the Teacher Education Division (p. 123) of the College of Education.

Business Careers Language Preparation

Foreign language majors who do not plan to teach may wish to consider a series of courses in the Mike Ilitch School of Business which will provide some background for potential employment with multinational corporations. These courses will also prepare them for entrance into the Master of Business Administration degree program after completion of the B.A. For information, contact the Associate Dean of the Mike Ilitch School of Business, 226 Prentis Building, telephone: 313-577-4503.

Slavic Studies (B.A.)

The study of other languages, literatures, and cultures not only provides important perspectives on the world, but also sharpens analytical and reasoning skills, deepens understanding of English, and enhances the quality of one's writing. Linguistic and broadly-based cultural studies provide excellent grounding for various professional programs, including law, business, medicine or health sciences, teaching at the high school or university level, library and information science, and museum practice.

Students should refer to the CMLLC program requirements (p. 268) for admission, degree, and general education requirements.

Slavic Studies Major Requirements

Students majoring in Slavic Studies select: 1) a concentration in Polish or Russian. If a student's concentration is Polish, the student must also choose an interdisciplinary focus or a language focus.

Polish Concentration in Slavic Studies

Students must complete:

<table>

Communication Sciences and Disorders

Office: 103 Prentis Building; 313-577-3339
Chairperson: Margaret Greenwald
Graduate Officer: Derek Daniels
Undergraduate Advisor: Faith Williams
Clinical Program Coordinators: Karen S. O'Leary, Mary Kassa
http://www.clas.wayne.edu/csd (http://www.clas.wayne.edu/CSD/)

This department offers courses related to the study of communication and communication disorders and sciences. Specialized coursework prepares students to work with speech-language and hearing disabled children and adults in a variety of settings, including public schools, hospitals, clinics, rehabilitation centers and private practice. College teaching and research are also career possibilities.

Initial questions about the major should be directed to the Undergraduate Advisor, 103 Prentis Building (313-577-3339).

- Communication Sciences and Disorders (B.A.) (p. 281)
- Communication Sciences and Disorders Minor (p. 281)

Communication Sciences and Disorders Minor

The minor in Communication Sciences and Disorders will provide students with a foundation in the science of human communication and communication disorders across the life span. The minor requires a minimum of 18 credits.

Communication Sciences and Disorders (B.A.)

This department offers courses related to the study of communication and communication disorders and sciences. Specialized coursework prepares students to work with speech-language and hearing disabled children and adults in a variety of settings, including the public schools, hospitals, clinics, rehabilitation centers and private practice. College teaching and research are also career possibilities.

Undergraduate students in this specialization should note that graduate study is required for clinical certification by the American Speech-Language-Hearing Association (ASHA). A master's degree is required for speech-language pathologists and a doctoral degree is required for audiologists. Study in this major at the undergraduate level provides a scientific foundation for graduate study in both audiology and speech-language pathology as well as other science and health professions.

Students interested in pursuing doctoral study should contact the graduate officer.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees. Students must receive a grade of C-minus or better in all biology courses.

It is expected that a major will complete at least thirty-three credits in SLP and AUD course work. Any credits elected over the maximum forty-six must have prior approval of both advisor and Chairperson if the additional credits are to count toward the degree (120 credits). A proper distribution of courses approved by the student’s advisor is important. It is desirable that students intending to major in communication sciences and disorders begin their work in the Department in their sophomore year. Courses in the major should be selected in consultation with a Departmental undergraduate advisor. Students are encouraged to begin consulting with the undergraduate advisor during their freshman year. The declaration of major form should be completed as soon as possible in their undergraduate program. In addition, students should see the department advisor to discuss grade point average (GPA) policies and the course sequence. The Department allows one repeat of undergraduate courses. The specific courses that can be repeated depend on whether the student has met the GPA requirements.

Major Requirements for a Bachelor of Arts degree in this discipline consist of the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SLP 5080</td>
<td>Phonetics</td>
<td>3</td>
</tr>
<tr>
<td>SLP 5090</td>
<td>Anatomy and Physiology of the Speech Mechanism</td>
<td>3</td>
</tr>
<tr>
<td>SLP 5120</td>
<td>Speech Science</td>
<td>3</td>
</tr>
<tr>
<td>SLP 5300</td>
<td>Introduction to Speech-Language Pathology</td>
<td>3</td>
</tr>
<tr>
<td>SLP 5310</td>
<td>Clinical Methods in Communication Disorders</td>
<td>3</td>
</tr>
<tr>
<td>SLP 5320</td>
<td>Normal Language Acquisition and Usage</td>
<td>3</td>
</tr>
<tr>
<td>SLP 5360</td>
<td>Clinical Practice in Speech-Language Pathology</td>

<td>3</td>
</tr>
<tr>
<td>AUD 5420</td>
<td>Introduction to Aural Rehabilitation</td>
<td>3</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>33</td>
</tr>
</tbody>
</table>

It is departmental policy that a student who earns a grade of C or below in two or more of the CSD foundation courses (SLP 5300, SLP 5320, SLP 5080, SLP 5090, and AUD 5400) will not be allowed to register for advanced coursework. Departmental permission is required to register for the six advanced courses in the major which are:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SLP 5120</td>
<td>Speech Science</td>
<td>3</td>
</tr>
<tr>
<td>SLP 5310</td>
<td>Clinical Methods in Communication Disorders</td>
<td>3</td>
</tr>
<tr>
<td>SLP 5360</td>
<td>Clinical Practice in Speech-Language Pathology</td>
<td>3</td>
</tr>
</tbody>
</table>
Students will not be granted permission to register for the advanced coursework unless they have and maintain an overall 2.75 GPA, and maintain a 3.0 GPA within the major coursework. Students who do not meet these requirements will not be able to complete the major courses required to earn the Bachelor of Arts in Communication Sciences and Disorders. In addition, in order to meet certification requirements of the American Speech-Language-Hearing Association after graduate school, it is strongly recommended that all undergraduate majors complete the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>STA 1020</td>
<td>Elementary Statistics</td>
<td>3</td>
</tr>
<tr>
<td>PHY 1020</td>
<td>Conceptual Physics: The Basic Science</td>
<td>4</td>
</tr>
<tr>
<td>or CHM 1000</td>
<td>Chemistry and Your World</td>
<td></td>
</tr>
<tr>
<td>BIO 1050</td>
<td>An Introduction to Life (with laboratory)</td>
<td>4</td>
</tr>
<tr>
<td>or BIO 1030</td>
<td>Biology Today</td>
<td></td>
</tr>
<tr>
<td>PSY 1010</td>
<td>Introductory Psychology (with laboratory)</td>
<td>4</td>
</tr>
<tr>
<td>or PSY 1020</td>
<td>Elements of Psychology</td>
<td></td>
</tr>
<tr>
<td>SOC 1010</td>
<td>Understanding Human Society</td>
<td>3</td>
</tr>
<tr>
<td>or ANT 1100</td>
<td>Introduction to Anthropology</td>
<td></td>
</tr>
</tbody>
</table>

Transfer equivalents

It is Departmental policy that a student may earn no more than one grade of C or below in the CSD foundation courses (SLP 5300, SLP 5320, SLP 5080, SLP 5090, and AUD 5400). If two or more grades of C or below are earned, students will not be allowed to register for advanced coursework. Students must also have and maintain an overall GPA of 2.75 and major GPA of 3.0 to register for advanced coursework in any given semester.

ALSO NOTE: Department permission is required to register for advanced courses (SLP 5120, SLP 5310, SLP 6460, SLP 6480 and AUD 5420). Students will be granted permission to register only if they maintain a GPA of 3.0 for courses in the major and an overall GPA of 2.75.

Criminology and Criminal Justice

Office: 3054 Faculty/Administration Building; 313-577-2705
Chairperson: Shanhe Jiang
Undergraduate Director: Charles Klahm IV
Academic Services Officer/Advisor: Marianka Holloway
Academic Advisor II: Alicia Ortez
http://www.clas.wayne.edu/CRJ (http://www.clas.wayne.edu/CRJ/)

Criminal Justice is society’s primary formal means of social control. Generally, it is the practice of public and private agencies and groups that deter crime and delinquency, and that prosecute, defend, adjudicate, punish, and correct suspects and convicted offenders. The core of the criminal justice system is comprised of law enforcement agencies, prosecutors, defense attorneys, courts, and correctional agencies. This system enforces federal and state laws and is part of a larger administration of justice complex, involving court administration, juvenile justice, and private security.

The study of criminal justice begins with analysis of the entire justice system as a force for social order. Advanced study inquires into the political, organizational, social and behavioral aspects of its components. Students develop analytical and research skills that enable them to identify and assess the often conflicting objectives of criminal justice and investigate basic issues and practical problems in criminology and criminal justice. Legal courses foster an awareness of the values of due process and the limits of governmental power in a democratic society.

The department advances a multidisciplinary understanding of the sources of criminal behaviors, including perspectives from criminology, psychology, and sociology. The curriculum exposes students to knowledge of the major types of crime, including crimes of violence, property crimes, public order crimes, sexual crimes, organized crimes, delinquent offenses, and other types of crimes. Innovative and theoretically based programs in the criminal justice system to reduce the incidence of crime are also examined.

Career opportunities in criminal justice professions include roles as police officers, supervisors, and executives; criminal justice investigators, working for public defenders, prosecutors, fire departments, and insurance companies, correctional officers, probation officers, parole officers, and community corrections specialists, for whom a college degree is often mandatory. Other specialized roles in criminal justice include juvenile intake officers, juvenile probation officers, volunteer administrators, criminologists, forensic psychologists, medical examiners, and policy analysts.

- Criminal Justice (B.S.) (p. 282)
- Criminal Justice Minor (p. 284)
- Forensic Investigation and Policing Minor (p. 284)

Criminal Justice (B.S.)

The Bachelor of Science program is structured to provide students with a multidisciplinary understanding of crime and justice within the framework of broader social processes. Required courses expose a criminal justice major to all aspects of the justice system and foster a systemic view rather than a specialization in a single component of this field. Within this broad framework, courses deal with specific substantive topics. Practical field experience can be arranged under the guidance of the internship coordinator.

The curriculum is designed to offer students a comprehensive education by providing a fundamental understanding of crime causation and the criminal justice system, together with the skills and knowledge useful in pursuing professional careers. Analytical and writing skills are developed so as to prepare students for roles in today’s criminal justice agencies. Police departments, correctional facilities, and court administrators’ offices require an increasing number of personnel with quantitative analytical abilities, computer skills, personal interaction skills, excellent command of English, knowledge of foreign languages, and the ability to understand legal materials.

Core Criminal Justice Courses include classes on theories of criminal behavior, criminal procedure, criminal justice institutions, criminal justice research methods, and the criminal justice process. These core courses are designed to acquaint students with problems of crime and deviance in American society, the major public institutions which deal with these problems, the legal foundation of criminal justice, and analytic research methods used to better understand the social and behavioral realities of criminal justice. Criminal justice majors must maintain a minimum 2.0 grade point average overall and in the major.

Criminal Justice Electives: A minimum of twelve credits must be selected for concentrated elective course work in the criminal justice field. The approved criminal justice electives provide a structured set of rigorous upper-division courses which are relevant to: 1) a deeper understanding of the justice process and 2) knowledge and skills in specific career areas in the field.
Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees. It is recommended that students complete much of the General Education Requirements before they initiate Criminal Justice major course work.

Major Requirements

It is the student’s responsibility to meet with a Criminal Justice Academic Advisor to officially declare their Major and to identify all major and degree requirements.

Residency Requirements

A minimum of sixteen of the twenty-seven credits in Criminal Justice Core courses and four of the twelve credits in Criminal Justice Elective courses must be earned at Wayne State University.

Transfer Credit

Students should visit the transfer credit website (http://www.transfercredit.wayne.edu) and consult with the Criminal Justice Academic Advisor to determine the applicability of transfer credits toward the major.

Criminal Justice Honors (B.S. Program)

The Honors Program in Criminal Justice is open to students of superior academic ability who are majoring in criminal justice. To be recommended for an honors degree from this department, a student must maintain a cumulative grade point average of at least 3.3. He/she must accumulate at least twelve credits in honors-designated course work from various departments in the College of Liberal Arts and Sciences, including honors requirements within Criminal Justice and at least one 4000-level Honors College seminar. The Honors student must complete an original Honors Thesis during the senior year. For information about the requirements of the department’s honors curriculum, contact the Criminal Justice Honors Director or Academic Services Officer (313-577-0772).

Pre-Law Advising and Curriculum

Students considering legal careers and wishing to major or minor in criminal justice should notify their Criminal Justice Academic Advisor at the beginning of their junior year. For non-majors wishing to take a pre-law sequence of courses in criminal justice, the following are recommended:

<table>

Total Credits: 21

Graduate Study

Graduating seniors who are planning graduate study in criminal justice may qualify to complete approved course work toward the Master of Science in Criminal Justice degree under the AGRADE or the Senior Rule provision.

Senior Rule Study

Minimum requirements for Senior Rule study include: a 3.0 grade point average for the junior and senior years of study, and at least one (but not more than ten) credits remaining to be completed for the undergraduate degree. Additional limitations and requirements apply for this status and for continuing graduate study in criminal justice. Interested seniors should consult with their Academic Advisor for further information.
Justice courses are:

Criminal Justice Minor

The Department offers a minor in Criminal Justice for which the notation of a minor appears on the student’s transcript. The required Criminal Justice courses are:

<table>

Economics

Office: 2074 Faculty/Administration Building; 313-577-3345
Chairperson: Kevin Cotter
Administrative Assistant II: Geraldine White
Academic Advisor: Alicia M. Ortez
http://www.clas.wayne.edu/Economics/

Economics is the study of how individuals and societies allocate limited resources to try to satisfy unlimited wants; it is therefore a study of choices. Households and business firms must decide what and how much to consume or produce and how much labor, land and capital to supply. Governments make decisions affecting inflation and unemployment, taxation and expenditures, the monetary system and international trade. Together these public and private choices determine the nation’s prosperity and shape the distribution of its wealth. Since every social relationship has economic aspects, an understanding of economic principles and systems is an integral part of a liberal education.

Economics majors have a wide choice of careers. Many supplement their major with cognate courses to prepare for careers in business, journalism, health care administration or public service. Others find it excellent preparation for law school. Ph.D. graduates in economics
are in demand at universities, corporations, financial institutions and government agencies. M.A. graduates may teach at junior colleges but more typically go into business or public service.

- Economics (B.A.) (p. 285)
- Mathematical Economics (B.A.) (p. 286)
- Economics Minor (p. 287)

**Economics (B.A.)**

Economics is the study of how individuals and societies allocate limited resources to try to satisfy unlimited wants; it is therefore a study of choices. Households and business firms must decide what and how much to consume or produce and how much labor, land and capital to supply. Governments make decisions affecting inflation and unemployment, taxation and expenditures, the monetary system and international trade. Together these public and private choices determine the nation’s prosperity and shape the distribution of its wealth. Since every social relationship has economic aspects, an understanding of economic principles and systems is an integral part of a liberal education. Economics majors have a wide choice of careers. Many supplement their major with cognate courses to prepare for careers in business, journalism, health care administration or public service. Others find it excellent preparation for law school.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. The Economics Department assumes that students taking economics courses have had at least two years of high school-level algebra and one year of geometry.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

**Major Requirements**

Students considering an economics major should take ECO 2010 and ECO 2020 (Principles of Microeconomics and Macroeconomics) as soon as possible. They should also pass MAT 1800 prior to the junior year or demonstrate eligibility for MAT 2010 in the Mathematics Placement Examination.

A major consists of at least thirty-two credits in economics courses including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECO 2010</td>
<td>Principles of Microeconomics</td>

<td>Writing Intensive Course in Economics</td>
<td>0</td>
</tr>
<tr>
<td>Select at least three courses in two or more economics field C to H</td>
<td>12</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits** 32

1 Economics courses are listed by field in the department’s undergraduate course list (p. ___).

The Department recommends that majors complete all of these courses by the end of their junior year. At least sixteen credits in economics must be earned at Wayne State University.

Each student should choose the economics electives best suited to his/her intellectual and professional aims.

To satisfy the General Education Major Competency Requirement, Economics majors must have a cumulative grade point average of 2.0 in their economics courses.

**Minimal Grade Requirements**

The following courses must be passed with a grade of C or better in order to be applicable as economics major credit:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 1800</td>
<td>Elementary Functions</td>
<td>4</td>
</tr>
<tr>
<td>ECO 2010</td>
<td>Principles of Microeconomics</td>
<td>4</td>
</tr>
<tr>
<td>ECO 2020</td>
<td>Principles of Macroeconomics</td>
<td>4</td>
</tr>
<tr>
<td>ECO 5000</td>
<td>Intermediate Microeconomics</td>
<td>4</td>
</tr>
<tr>
<td>ECO 5050</td>
<td>Intermediate Macroeconomics</td>
<td>4</td>
</tr>
<tr>
<td>ECO 5100</td>
<td>Introductory Statistics and Econometrics</td>
<td>4</td>
</tr>
</tbody>
</table>

A grade of C-minus or better must be achieved for the three field course electives.

**Writing Proficiency/Writing Intensive Requirement**

To enable the Department to evaluate their writing proficiency, economics majors must register for ECO 5993, the zero-credit WI course. All economics majors must satisfy this requirement, even if they are not subject to the University General Education Requirements.

**Combined Curriculum for Teaching Certificate**

Economics majors wishing to enter secondary teaching should see the Secondary Education Curriculum guide for the procedures for combining a degree in Liberal Arts with a teaching certificate. Students must complete the Economics major requirements as part of their program of study.

**Economics Honors (B.A. Program)**

Economics majors with strong academic records and an interest in research are urged to apply to the Departmental undergraduate advisor for admission to the Honors Program. Applicants should have overall grade point averages of 3.3 or above.

In addition to the Bachelor of Arts requirements cited above, honors majors must take ECO 4997 (Senior Honors Research) during their last semester before graduation and therefore completing thirty-six credits in economics courses. In this seminar they will conduct research under the close supervision of an Economics faculty member. The results of this research are written as an honors thesis, the length of which depends on the nature of the research project.

Honors majors also must elect at least one 4200-level seminar offered by the Honors College. Finally, the student must accumulate at least fifteen credits in honors-designated course work, including ECO 4997 and the Honors College Seminar. These honors credits need not all be in the Economics Department. Those who successfully complete these requirements and finish their undergraduate course work with an overall grade point average of 3.3 or above will graduate with the degree designation ‘With Honors in Economics’.
‘AGRADE’ Program (Accelerated Graduate Enrollment)

The Economics Department actively participates in the ‘AGRADE’ Program, which enables qualified seniors in the College of Liberal Arts and Sciences to enroll simultaneously in the undergraduate and graduate programs of the College, and to apply a maximum of sixteen credits toward both an undergraduate and graduate degree in economics. Students interested in ‘AGRADE’ should contact the Director of Undergraduate Studies: 313-577-3345.

Mathematical Economics (B.A.)

The purpose of the program is to provide rigorous training in mathematics and economics for students whose career goals require a high level of technical proficiency in these subjects. The program will be valuable for students who intend to pursue graduate work in economics, finance or applied mathematics, or pursue a career in economic analysis, finance, underwriting, actuarial sciences, banking, international trade, applied statistics, or operations research.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

Major Requirements

Students considering a mathematical economics major should take ECO 2010 and ECO 2020 (Principles of Microeconomics and Macroeconomics) and MAT 2010 (Calculus I) as soon as possible.

To satisfy the university bachelor’s degree requirement, Mathematical Economics majors must have a cumulative grade point average of 2.0 in their major courses. Also, students must receive a grade of ‘C’ or better in all mathematics, statistics and economics courses.

A major consists of at least forty-six credits total - at least twenty-two credits in mathematics courses and twenty-four credits in economics courses. At least fifteen credits (eight credits of economics and seven credits of math) must be earned at Wayne State University.

Total Credits 46-47

1 This course could be done in conjunction with ECO 5993.

2 Excluding MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180, MAT 6200 and MAT 6210.

3 This is a paper completed in conjunction with an approved 5000-level economics, mathematics or statistics elective course. You must register for this course during the same semester that the 5000-level elective is taken. Permission from the instructor is required.

Minimal Grade Requirements

Students must receive a grade of ‘C’ or better in all economics, mathematics and statistics courses. An overall grade point average of 2.0 (‘C’) is required for graduation.

Writing Proficiency/Writing Intensive Requirement

To enable the Department to evaluate their writing proficiency, mathematical economics majors must register for ECO 5993, the zero-credit WI course. This is a paper completed in conjunction with a 5000-level economics, mathematics or statistics elective course. They must register for this during the same semester that the 5000-level elective course is taken. All mathematical economics majors must satisfy this requirement, even if they are not subject to the University General Education Requirements.

Student’s Responsibility

It is each student’s responsibility to learn the requirements, policies, and procedures governing the program they are following and to act
Economics Minor

A minor in economics requires the completion of the following course work. Twelve credits must be taken at Wayne State University. Students must maintain a cumulative g.p.a. of 2.0 or better in the Economics courses.

Employment and Labor Relations

Office: 255 Walter P. Reuther Library
313-577-5382 or 313-577-0175

The Employment and Labor Relations major provides students with the opportunity to develop the critical skills necessary to analyze employment and workplace issues. An interdepartmental program, employment and labor relations examines the social, political and economic dimensions of these issues in the context of a broad liberal arts education. Students become familiar with employment and labor law, human resource management, compensation and benefits, and techniques associated with the resolution of conflict in the workplace. Students prepare for careers in business, government, nonprofits (including the healthcare sector), and labor unions. The program is also good preparation for pursuing a professional degree in business or law.

- Employment and Labor Relations (B.A.) (p. 287)

Employment and Labor Relations (B.A.)

The Employment and Labor Relations major provides students with the opportunity to develop the critical skills necessary to analyze employment and workplace issues. - Professional Writing Minor (p. 291)

## English Placement Information

The American College Test (ACT) score in English or the Scholastic Aptitude Test (SAT) score in Writing is used to determine placement into the appropriate basic composition course, either ENG 1010 or ENG 1020.

**ACT English Score**

- 21 or higher = placement into ENG 1020
- 20 or below = placement into ENG 1010

**SAT Evidence-Based Reading and Writing Score (new)**

- 520 or higher = placement into ENG 1020
- 510 or below = placement into ENG 1010

**SAT Writing Score (old)**

- 480 or higher = placement into ENG 1020
- 470 or below = placement into ENG 1010

The ACT or SAT score may not be from an exam taken more than three years prior to enrollment in the course. If a student has more than one valid ACT and/or SAT test score, the score that produces the highest placement will be used. Any student placing into ENG 1010 via the ACT or SAT may take the English Qualifying Exam if he/she wishes to attempt placement into ENG 1020. Students who have not taken the ACT or SAT, or have ACT or SAT scores more than three years old, must take the English Qualifying Exam to determine course placement. Those students who have received transfer credit for WSU ENG 1020, or credit for WSU ENG 1020 through the Advanced Placement or College-Level Examination Programs, do not need to take the exam.

Prerequisite statements in the bulletin include WSU conversions for ACT and SAT scores. A score of 1 leads to placement in ENG 1010, and a score of 2 leads to placement in ENG 1020.

For more information, please refer to the Office of Testing, Evaluation and Research Services (http://testing.wayne.edu/register/english-qualifying-exam.php).

## English (B.A.)

Building upon the cultural diversity and urban experience that distinguishes Wayne State University, the English Department's mission is to provide its students with the intellectual knowledge and practical tools to thrive in an increasingly diverse and interconnected world, by teaching them to understand the power and influence of literature and other forms of textual and media production, circulation, and interpretation; and by imparting skill and fluency in close reading, critical thinking, rhetorical analysis, and writing in multiple genres. The English major curriculum is designed to introduce students to these skills and to provide a challenging and flexible liberal arts education as well as a pre-professional program for students interested in careers in education, law, business, and other professions.

## Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

## Major Requirements

Students must complete twelve English courses beyond the University General Education Competency Requirement and Liberal Arts and Sciences Group Requirements. Ten of these courses must be beyond the 2000-level. Specific requirements are as follows:

English Honors (B.A. Program)

To graduate with honors in English an undergraduate student must have a minimum 3.5 g.p.a. in English courses and a minimum cumulative g.p.a. of 3.3. Additional requirements include a minimum of thirty-six credits in English courses beyond the Liberal Arts and Sciences Group requirements and General Education requirements, three courses of which must be in Honors. Students must also complete at least one 4200-level interdepartmental Honors Seminar, HON 4200-HON 4280, to total four courses in Honors.

1 Four of these courses must be at the 4000 or 5000 level. No English course below the 2000-level may count toward the English B.A. program.

| One 5000-level course in the English Honors curriculum must be taken with an Honors Option. This Honors Option will be applied to a 5000-level course either in the Communities and Cultures Requirement or in the Elective Requirements in the major.  

1 Four of these courses must be at the 4000 or 5000 level and include ENG 4992 (https://bulletins.wayne.edu/search/?P=ENG%204992) (Honors Project, Cr. 3 (Max. 6)). The Honors Project should be twenty to thirty pages long. Students pursuing both Department and University Honors may use the Departmental project (ENG 4992 (https://bulletins.wayne.edu/search/?P=ENG%204992)) to fulfill the University Honors thesis requirement. No English course below the 2000-level may count toward the English B.A. program.

2 Candidates for Honors in English will arrange for an Honors-option by contracting with any professor teaching a 5000-level course to do honors-level work in that course, beyond the standard requirements set forth in the syllabus. Supplementary work required for the Honors-option might consist of an extra paper, a significantly longer term paper, evidence of additional readings (for example, through journal entries), an oral or written report, or a special examination.

Students who wish to become candidates for degrees with honors in English are encouraged to consult early with the Undergraduate Advisor of the English Department (313-577-7701).

Combined Curriculum Requirements

Combined Curriculum for Secondary Teaching: An English major who wishes to prepare for a career in secondary school teaching can earn a bachelor's degree in English with a secondary teaching certificate. In close consultation with Department of English and College of Education advisors, the student will develop a plan of work that satisfies the requirements of the English B.A. program and includes the subject area and professional courses required for teacher certification. For more information see Combined Curriculum for Secondary Teaching (p. 255).

‘AGRADE’ Program (Accelerated Graduate Enrollment)

The English Department invites academically superior majors to apply for admission to the ‘AGRADE’ Program, which allows qualified seniors to enroll simultaneously in the undergraduate and graduate programs of the Department. Applications will be accepted no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average of 3.5 and not less than a 3.6 g.p.a in the major courses already completed. A Plan of Work is required, and credit restrictions apply. Please see the departmental Undergraduate Advisor for more detail.

Film Studies (B.A.)

An admissions moratorium is in effect for this program, effective Fall 2016.

The University offers two undergraduate degree programs related to film: the Bachelor of Arts with a Major in Film offered by the College of Fine, Performing, and Communications Arts, and the Bachelor of Arts with a Major in Film Studies as described below.

The English Department offers a program in film and media studies for students interested in the history and criticism of film and media. Courses are designed to give students knowledge and critical skills in film analysis, key concepts in film theory, the major directors, emerging trends in new media scholarship, and an understanding of cultural and historical factors in film and media production and reception.

Please contact the Undergraduate Advisor in the Department of English for further information.
Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

**Major Requirements**

Students majoring in film studies must complete a minimum of thirty-four credits, distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 2450/</td>
<td>Introduction to Film</td>
<td>4</td>
</tr>
<tr>
<td>COM 2010</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ENG 5040</td>
<td>Film Criticism and Theory</td>
<td>4</td>
</tr>
<tr>
<td>ENG 5993</td>
<td>Writing Intensive Course in English</td>
<td>0</td>
</tr>
<tr>
<td></td>
<td>Additional ENG courses</td>
<td></td>
</tr>
</tbody>
</table>

**Elective Courses (Twenty Credits)**

Select twenty elective credits of the following: ¹

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ADA 2220</td>
<td>Time-Based Media I: Video Art</td>
<td></td>
</tr>
<tr>
<td>ADA 4220</td>
<td>Time-Based Media II: Experimental Animation</td>

<tr>
<td>NE 2060</td>
<td>Hebrew/Israeli Film: Trends and Themes in Israeli Cinema</td>
<td></td>
</tr>
<tr>
<td>POL/SLA 3750</td>
<td>Polish and Yugoslavian Cinema</td>
<td></td>
</tr>
<tr>
<td>SLA 3710</td>
<td>Russian and East European Film</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits**

**34**

¹ Electives should be selected in conjunction with the Departmental Undergraduate Advisor. Three elective classes must be taken at the 5000-level or above, and two out of these three must come from ENG 5020, ENG 5050, ENG 5060 or ENG 5070.

**Creative Writing Minor**

The Creative Writing Minor is designed to allow focus and credentialing for the many students across the university who enjoy reading and writing poetry, fiction, and other creative forms. The minor requires a minimum of 18 credits. English majors can only apply two major courses to this minor.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 3800</td>
<td>Introduction to Creative Writing</td>
<td>3</td>
</tr>
<tr>
<td>ENG 2800</td>
<td>Techniques of Imaginative Writing</td>
<td></td>
</tr>
<tr>
<td>ENG 3810</td>
<td>Poetry Writing</td>
<td></td>
</tr>
<tr>
<td>ENG 3820</td>
<td>Fiction Writing</td>
<td></td>
</tr>
<tr>
<td>ENG 5695</td>
<td>Topics in Writing and Publishing</td>
<td></td>
</tr>
<tr>
<td>ENG 5860</td>
<td>Topics in Creative Writing</td>
<td></td>
</tr>
<tr>
<td>ENG 5870</td>
<td>Poetry Writing Workshop</td>
<td></td>
</tr>
<tr>
<td>ENG 5880</td>
<td>Fiction Writing Workshop</td>

</tr>
<tr>
<td>ENG 5885</td>
<td>Topics in Creative Non-Fiction Writing</td>
<td></td>
</tr>
<tr>
<td>ENG 6800</td>
<td>Advanced Creative Writing</td>
<td></td>
</tr>
</tbody>
</table>

Select three of the following at least two of which should be at the 5000-level or higher:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 5880</td>
<td>Fiction Writing Workshop</td>
<td></td>
</tr>
<tr>
<td>ENG 5885</td>
<td>Topics in Creative Non-Fiction Writing</td>
<td></td>
</tr>
<tr>
<td>ENG 5880</td>
<td>Fiction Writing Workshop</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits **18**

¹ Students may substitute one of the following assuming they have satisfied any prerequisite coursework and/or have permission from the course's home department: COM 4100, COM 5270, or THR 5721.

**English Minor**

The minor in English permits study in literature, film and media, creative writing, and writing studies. It requires six English courses, excluding Basic Composition (BC) and Intermediate Composition (IC) requirements, for a minimum of at least eighteen credits:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 3085</td>
<td>Introduction to Rhetoric and Writing</td>
<td>6</td>
</tr>

<td>Introduction to Cultural Studies</td>
<td></td>
</tr>
<tr>
<td>ENG 3100</td>
<td>Introduction to Literary Studies</td>
<td></td>
</tr>
<tr>
<td>ENG 3800</td>
<td>Introduction to Creative Writing</td>
<td></td>
</tr>
<tr>
<td>ENG 3110</td>
<td>English Literature to 1700</td>
<td></td>
</tr>
<tr>
<td>ENG 3120</td>
<td>English Literature after 1700</td>
<td></td>
</tr>
<tr>
<td>ENG 3130</td>
<td>American Literature to 1865</td>
<td></td>
</tr>
<tr>
<td>ENG 3140</td>
<td>American Literature after 1865</td>
<td></td>
</tr>
<tr>
<td>ENG 3180</td>
<td>Rhetoric to 1800</td>
<td></td>
</tr>
<tr>
<td>ENG 3190</td>
<td>Rhetoric after 1800</td>
<td></td>
</tr>
<tr>
<td>ENG 3470</td>
<td>Survey of African-American Literature</td>
<td></td>
</tr>
</tbody>
</table>

Choose four more courses from English, two of which must be at the 4000-level or above.

Total Credits **18**

**Film and Media Studies Minor**

The English department offers a minor in Film and Media Studies for students interested in the history and criticism of film and media. Courses are designed to give students knowledge and critical skills in film and media analysis, key concepts in film and media theory, emerging trends in new media scholarship, and an understanding of cultural and historical factors in film and media production and reception. The minor requires five courses. English majors can only apply two of their major courses to this minor.
Environmental Science and Geology

Office: 0224 Old Main; (313) 577-2506
Chairperson: Mark Baskaran
Academic Advisor: Dawn Niedermiller
Academic Services Officer: John Niedermiller
https://esg.wayne.edu/ (https://esg.wayne.edu)

Geology is the scientific study of planet Earth and involves the observation and interpretation of processes that form and change our world. Some of these processes, such as earthquakes, tsunamis, and volcanic eruptions, proceed rapidly, often with catastrophic consequences. Others, such as erosion or mountain building can progress so slowly that their results are scarcely noticeable over a human lifetime. Each of these processes, however, can exert a profound influence on human activities and can, in turn, be influenced intentionally or unintentionally by human activities.

The courses offered by this department are designed to serve the needs of five groups of students:

1. Those who desire a general knowledge of geology as part of a liberal education;
2. Those who need geological information as a cognate subject in other professions;
3. Those who wish to major in geology as part of a broad liberal arts education;
4. Those who wish to major in environmental science;
5. Those who plan to become professional geologists.

Introductory courses are primarily general, but they also provide a foundation in geology for the student who desires to continue an intensive program of study. Students with an interest in environmental problems will find a number of relevant courses among those offered by the Department of Geology. In addition, a variety of courses in various phases of geology is available to the general student. Intermediate and advanced courses are designed to develop the principles of geology beyond the elementary level and to give a firm technical foundation for advanced study.

Environmental Science investigates the many interconnected systems and processes that formed our world, continuously change it, and, ultimately, sustain life on it. The Environmental Science Program at Wayne State offers an interdisciplinary approach combining a strong foundation from both geological and biological perspectives, and a broad choice of electives. This program focuses on the urban environment and urban impacts on the natural environment. It will prepare students for graduate study, or for careers in various areas of environmental science including environmental impact assessment, air and water quality monitoring, regulatory compliance, and environmental remediation.

- Environmental Science (B.S.) (p. 292)
- Geology (B.A.) (p. 293)
- Geology (B.S.) (p. 294)
- Environmental Science Minor (p. 293)
- Geology Minor (p. 295)
Environmental Science investigates the many interconnected systems and processes that formed our world, continuously change it, and, ultimately, sustain life on it. The Environmental Science Program at Wayne State offers an interdisciplinary approach combining a strong foundation from both geological and biological perspectives, and a broad choice of electives. This program focuses on the urban environment and urban impacts on the natural environment. It will prepare students for graduate study, or for careers in various areas of environmental science including environmental impact assessment, air and water quality monitoring, regulatory compliance, and environmental remediation.

Admission Requirements
Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees. Students must receive a grade of 'C-minus' or better in all Major and Cognate required courses. An overall grade point average of 2.0 (C) in all coursework is required for graduation.

Major Requirements
B.S. candidates in Environmental Science must complete the following:

<table>
<thead>

Geochemistry Minor

Geochemistry is a state-of-the-art science that studies the abundance and mobility of elements and compounds and their movement through Earth's continental crust, atmosphere, oceans, lakes, rivers and streams. The skills acquired through this minor are relevant to students interested in environmental and natural-resource topics associated with archaeological, anthropological, biological, chemical and geological studies.

The Geochemistry Minor requires 23-25 credits, including:

Geology (B.A.)

Geology is the scientific study of planet Earth and involves the observation and interpretation of processes that form and change our world. Some of these processes, such as earthquakes, tsunamis, and volcanic eruptions, proceed rapidly, often with catastrophic consequences. Others, such as erosion or mountain building can progress so slowly that their results are scarcely noticeable over a human lifetime. Each of these processes, however, can exert a profound influence on human activities and can, in turn, be influenced intentionally or unintentionally by human activities.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All
course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

**Major Requirements**

Students must complete twenty-six credits in geology beyond GEL 1020. These must include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEL 2130</td>
<td>Mineralogy</td>
<td>4</td>
</tr>
<tr>

<td>Structural Geology</td>
<td>4</td>
</tr>
<tr>
<td>GEL 3400</td>
<td>Principles of Sedimentology and Stratigraphy</td>
<td>4</td>
</tr>
<tr>
<td>GEL 5993</td>
<td>Writing Intensive Course in Geology</td>
<td>0</td>
</tr>
</tbody>
</table>

At least two credits in a geology field course 2

**Cognate Requirements**

At least one college course in each of two of the following fields is required: biology, chemistry, or physics. MAT 1800 and satisfaction of the Foreign Language Group Requirement are also required.

Geology majors should consult their advisor regarding additional recommended cognate courses. Depending on interest and future goals, supplementary courses in mathematics, physics and chemistry, as well as courses in biology, computer science, engineering, and urban studies might be of particular value.

**Geology Honors**

The Honors Program in Geology is open to students of superior academic ability who are majoring in geology. To be recommended for an honors degree from this department, a student must maintain a cumulative grade point average of at least 3.3. He/she must accumulate at least twelve credits in honors-designated courses including: two Geology Honors or Honors Option courses (min. 6 credits), GEL 4998 (https://bulletins.wayne.edu/search/?P=GEL%204998): Honors Thesis (3 credits), and one 4200-level Honors Seminar (3 credits).

**Geology (B.S.)**

Geology is the scientific study of planet Earth and involves the observation and interpretation of processes that form and change our world. Some of these processes, such as earthquakes, tsunamis, and volcanic eruptions, proceed rapidly, often with catastrophic consequences. Others, such as erosion or mountain building can progress so slowly that their results are scarcely noticeable over a human lifetime. Each of these processes, however, can exert a profound influence on human activities and can, in turn, be influenced intentionally or unintentionally by human activities.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

**Major Requirements**

Students must complete at least thirty-four credits in geology exclusive of the introductory courses (1000-level) and must include the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

<td>0</td>
</tr>
</tbody>
</table>

Credits in field mapping and field techniques, to be fulfilled by completed six credits in a summer field course 1

1 If the Geology Department at Wayne State University does not offer a summer field course in any given year, students should complete the field course requirement by attending an approved field course at another university. In certain unusual circumstances the required six credits in field mapping and field techniques may be earned through an extended field-oriented research project when this project involves extensive field mapping and is under the direct supervision of a faculty member or other qualified field geologist throughout the duration of the field work. Questions about appropriate Field Camp opportunities outside of Wayne State University should be directed to the program advisor and/or faculty members.

A semester of biology (BIO 1500 or equivalent) is strongly recommended

|        | Total Credits | 29       |

Although there are no required cognate courses beyond those listed above, geology majors should consult their advisor regarding cognate courses which might be of value to their particular program. Depending on interest and future goals, additional courses in mathematics, physics, and chemistry, as well as courses in biology, computer science, civil engineering, and urban studies might be of particular value.

**Geology Honors**

The Honors Program in Geology is open to students of superior academic ability who are majoring in geology. To be recommended for an honors degree from this department, a student must maintain a cumulative grade point average of at least 3.3. He/she must accumulate at least
twelve credits in honors-designated courses including: two Geology Honors or Honors Option courses (min. 6 credits), GEL 4998 (https://bulletins.wayne.edu/search/?P=GEL%204998); Honors Thesis (3 credits), and one 4200-level Honors Seminar (3 credits).

Geology Minor

The Department offers a minor in geology for undergraduate students. The minor consists of twenty credits in geology (usually consisting of five courses). Although desirable courses for a student's minor program should be determined in consultation with Geology Department staff members. Anyone wishing to complete a minor in geology should contact the Department advisor as soon as possible, so that an appropriate program can be formulated.

Code | Title | Credits
--- | --- | ---
GEL 1010 | Geology: The Science of the Earth | 8
GEL 1020 | Interpreting the Earth | 2
Elective coursework (at least four credits in the minor must be completed in courses at the 3000-level or above) | 12
Total Credits | 20
1 GEL 1050 may only be applied for credit to a minor with the permission of the student's advisor in consultation with the Chairperson of the Department

Geophysics Minor

Geophysics seeks to understand the inner workings of inner earth and its surroundings. A variety of physical measurements – involving seismic waves, magnetic fields, gravity, electric potential and satellite-based geodesy – are made to probe the interior and study the surface and internal process of our planet. The geophysics study encompasses field work as well as theoretical and experimental studies, through which students will learn about the mechanics of landslides, earthquakes and other natural hazards. Employment opportunities include oil, gas, petroleum and mineral exploration companies and environmental consulting companies. This minor could also serve as a pathway for entry to a graduate program in seismology.

The Geophysics minor requires a minimum of 23-25 credits.

Code | Title | Credits
--- | --- | ---
GEL 1010 | Geology: The Science of the Earth | 3
GEL 1011 | Geology: The Science of the Earth Laboratory | 1
GEL 5210 | Environmental and Applied Geophysics | 4
Select one of the following: | 4
GEL 3300 | Structural Geology | 1
GEL 5420 | Mathematical Methods in Earth Science | 2
GEL 5450 | Hydrogeology | 2
GEL 6400 | Isotopes: Applications in Geological and Environmental Sciences | 2

Elective coursework (at least four credits in the minor must be completed in courses at the 3000-level or above) | 12
Total Credits | 20
1 Two courses must not have been applied toward major requirements or another minor
2 The course should be chosen in consultation with an advisor.

Gender, Sexuality and Women's Studies

Office: 3063 Faculty Administration Building; 313-577-6331
Undergraduate Advisor: Gayle McCreedy
http://www.clas.wayne.edu/GSW/

The Gender, Sexuality, and Women’s Studies interdisciplinary undergraduate curriculum is designed to give students the theoretical bases and methodological skills for analyzing gender, sexuality, and women from the perspective of the humanities, historical studies, and the social sciences. Students will gain an understanding of the various contexts and constructs including literary, social, cultural, economic, psychological, philosophical, and political that shape our perceptions of these issues in different geographical locations and across time.

- Gender, Sexuality and Women’s Studies (B.A.) (p. 295)
- Gender, Sexuality and Women’s Studies Minor or Cognate Study (p. 297)

Gender, Sexuality and Women's Studies (B.A.)

The Gender, Sexuality, and Women's Studies Program offers a Bachelor of Arts degree and a minor concentration in this discipline. The program’s interdisciplinary undergraduate curriculum is designed to give students the theoretical bases and methodological skills for analyzing gender, sexuality, and women from the perspective of the humanities, historical studies, and the social sciences. Students will gain an understanding of the various contexts and constructs including literary, social, cultural, economic, psychological, philosophical, and political that shape our perceptions of these issues in different geographical locations and across time. Through the program, students will:

1. gain an interdisciplinary understanding of current scholarship in this discipline;
2. explore the multicultural and international histories and contexts of questions related to gender, sexuality, and women;
3. grasp the intersections between race, class, gender, and sexuality from different disciplinary perspectives;
4. challenge commonly held notions about gender, sexuality, and women in ways that promote social change;
5. explore individual and professional interests in this field in ways that enhance their personal lives as well as their professional goals;

Students wishing to pursue the major or minor in gender, sexuality, and women's studies should meet with the undergraduate advisor.
Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

MAJOR REQUIREMENTS consist of thirty-two credits distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GSW 2500</td>
<td>Humanities Perspectives on Gender, Sexuality, and Women</td>
<td>3</td>

<td>4</td>
</tr>
</tbody>
</table>

Electives

Select 16 credits of one of the Areas of Focus (see lists below)

Total Credits 32

Electives from Areas of Focus

Students are encouraged to take sixteen credits from within one of the following areas of focus:

- Literature, Film, and Media Studies
- LGBTQ Studies
- Social Sciences
- Historical Studies

Areas of focus allow students to specialize within the program in ways that enhance their academic and professional goals. However, students are not required to take all of their credits within one focus area; they can take sixteen credits from among all of the listed courses. Because new courses are created by faculty on a rolling basis, students are encouraged to consult with the director or the undergraduate advisor about any courses not on the following list which may be included in their major.

NOTE: some of the courses in the following curricula are offered for variable topics and only suitable as electives in this program for particular content. All such courses are cited below as “when approved” options.

Gender, Sexuality and Women’s Studies Honors

Qualified students planning post-baccalaureate work in GSW or in a professional school are especially encouraged to obtain a Bachelor of Arts degree ‘With Honors in Gender, Sexuality and Women’s Studies.’ Honors majors must have a 3.5 g.p.a. in GSW courses and a 3.3 cumulative g.p.a. in all courses. Honors majors must complete at least fifteen credits in honors-designated coursework, including at least one 4000-level seminar offered through the Honors College; six additional credits in GSW honors courses, of which at least three credits must be in an upper-division (numbered 3000 or above) honors-option course; and GSW 5990 (Honors-designated Senior Project Seminar). For information about honors-designated coursework available each semester, visit the Honors College website (http://www.honors.wayne.edu/classes.php).
Gender, Sexuality and Women's Studies Minor or Cognate Study

MINOR REQUIREMENTS consist of eighteen credits distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Required Course</td>
<td></td>
<td></td>
</tr>
<tr>

</tr>
</tbody>
</table>

1 Similar to the B.A. program, the focus areas (p. 296) allow students to specialize within the program in ways that enhance their academic and professional goals. Students are encouraged to take the nine credits from within one focus area, however they are not required to do so and may take the nine credits from among all of the options listed.

General Studies (Bachelor's Degree)

The Bachelor's of General Studies degree is a graduation pathway without a traditional academic major. General Studies seeks to accommodate students whose academic careers spanned many years, even decades, and who may have begun their academic careers in colleges, departments, and degree programs that no longer exist. In such cases, General Studies enables the university to support and honor the work that students have done in the past, and may do upon their return, without certifying expertise in a specific field that may well have undergone considerable change since a student first started.

Candidates for the degree must be in good academic standing with a GPA of 2.0 or above, both overall and in their previous major; must be at (or very near) 120 credits; and must have made an attempt to complete either a discontinued major or a current CLAS-based major. Students must follow a secondary admissions process to be accepted to this program, and should contact their advisor for more information about how to apply.

The Bachelor of General Studies requires:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Senior-level standing (88 credits or above)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>At least 120 credits with a 2.0 GPA or higher, both overall and in the major</td>
<td></td>
<td></td>
</tr>
<tr>
<td>A cumulative GPA of 2.0 or higher</td>
<td></td>
<td></td>
</tr>
<tr>
<td>At least three college-level semesters and a minimum of 30 credits at Wayne State</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

History

Office: 3094 Faculty/Administration Building; 313-577-2525
Chairperson: Elizabeth V. Faue
Undergraduate Advisor: Gayle McCreedy
http://www.clas.wayne.edu/history (http://www.clas.wayne.edu/history/)

History is central to our understanding of the human experience. The study of the past allows us to place our world in context, whether we want to understand international crises, the significance of a national election, or social relations within our own community. The skills of the historian - the ability to do research in original sources, to think critically, and to write clearly and persuasively - are highly valued in our changing world. The Wayne State Department of History maintains an international reputation for excellence in history, most notably in labor and urban history and in the history of governance and citizenship. Our faculty has received numerous awards for cutting-edge research and excellence in teaching. We teach undergraduate students fundamental research, analytical, and writing skills and provide a broad-based foundation in historical knowledge to support a variety of career options.

- History (B.A.) (p. 297)
- History Minor (p. 298)
- History of Science, Technology, Environment, and Medicine Minor (p. 299)
- Public History Minor (p. 299)
- Society and the Environment Minor (p. 299)

History (B.A.)

History is central to our understanding of the human experience. The study of the past allows us to place our world in context, whether we want to understand international crises, the significance of a national election, or social relations within our own community. The skills of the historian - the ability to do research in original sources, to think critically, and to write clearly and persuasively - are highly valued in our changing world. The Wayne State Department of History maintains an international reputation for excellence in history, most notably in labor and urban history and in the history of governance and citizenship. Our faculty has received numerous awards for cutting-edge research and excellence in teaching. We teach undergraduate students fundamental research, analytical, and writing skills and provide a broad-based foundation in historical knowledge to support a variety of career options.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Career Considerations

Continuing on in History
Undergraduate majors in History are often looking forward to graduate studies and becoming a professional historian, doing research and teaching in a university setting. Student pursuing this option should be aware that overall GPA of at least 3.00
and a major GPA of at least 3.25 is required to be competitive for admission to graduate school. Students who intend to complete an M.A. at Wayne State before moving to another institution for the Ph.D. are encouraged to undertake the AGRADE program, which allows majors to double-count up to 16 hours of undergraduate coursework for their graduate degree.

Teaching History at the High School Level
Majors who are interested in teaching History to teens rather than adults often pursue a B.A. in history and an M.A.T. through the College of Education. Students may need a provisional certificate to teach while earning their graduate education degree, depending on the setting.

Archives and Libraries
Many of our alumni are employed as archivists or librarians in historical collections. Wayne State offers a nationally-recognized graduate certificate in Archival Administration, which can be undertaken on its own or in conjunction with an M.A. in History or an Master’s in Information Sciences.

Law and the LawStart program
History is a common major for students interested in pursuing a law degree. Students interested in Law are encouraged to consider the LawStart program, which allows students to combine work on the B.A. and J.D. in the fourth year, saving a year in earning both degrees.

Non-Profit Management of Historical Agencies
Many history majors pursue careers in public history or in business and industry. A minor in business administration can help prepare majors for managing non-profit historical agencies as well as serve as background for an M.B.A. program.

Pre-Med Curriculum
With the current shift toward STEM disciplines, students are finding that combining a major in History may give their med school applications a second look by providing a more well-rounded undergraduate experience. Students interested in attending medical school are encouraged to look into the MedStart Program.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

**Major Requirements**
Students must complete thirty-six credits in History (which may include a maximum of 18 transfer credits). Specific requirements are as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Code</td>
<td>Title</td>
<td></td>
</tr>
<tr>
<td>Survey Courses (select one from each of two different geographic regions)</td>
<td>6-8</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Europe</td>
<td></td>
<td></td>
</tr>
<tr>
<td>HIS 1000</td>
<td>World Civilization to 1500</td>
<td></td>
</tr>
<tr>
<td>HIS 1300</td>
<td>Europe and the World: 1500-1945</td>
<td></td>
</tr>
<tr>
<td>HIS 1400</td>
<td>The World Since 1945</td>
<td></td>
</tr>
<tr>
<td>HIS 1995</td>
<td>Nature and Societal Transitions</td>
<td></td>
</tr>
<tr>
<td>HIS 2605</td>
<td>History of Women, Gender and Sexuality in the Modern World</td>
<td></td>
</tr>
<tr>
<td>United States</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**History Minor**

The minimum requirement for a minor in history is eighteen credits of history coursework, of which a maximum of nine credits can be transferred from other institutions. Minors must also have a 2.00 g.p.a. in history courses and complete:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIS 3000</td>
<td>The Historian's Craft</td>
<td>3</td>
</tr>
<tr>
<td>At least six credits in courses numbered 3000 or above</td>
<td>6</td>
<td></td>
</tr>
<tr>
<td>Additional History courses as needed</td>
<td>9</td>
<td></td>
</tr>
<tr>
<td>Total Credits</td>
<td>18</td>
<td></td>
</tr>
</tbody>
</table>

### Advanced Courses
Select five History courses numbered 3001 or above, with at least 3 courses numbered above 5000. Special courses do not count for this requirement (excludes HIS 4990, HIS 4997, and HIS 5996). Of these 5 courses, students must include diversity in geographic content by including one course in each geographic region (Europe, United States, World).

**Chronological Distribution**
Within the work done to fulfill the survey sequence and the advanced coursework, two courses must be in the pre-1800 time period and two courses must be in the post-1800 time period so that every major has research experience with pre- and post-industrial history.

**History Honors (B.A. Program)**
Students contemplating advanced degrees in History are encouraged to obtain the B.A. with Honors in History. Honors majors must complete the following in addition to the normal major requirements, above:

**Code** | **Title**                                                                 | **Credits** |
----------|--------------------------------------------------------------------------|-------------|
Cumulative GPA of a 3.30, and a major GPA of 3.50 | 15 credits in honors-designated coursework, including: |
HON 4250  | Seminar: Global Perspectives on Historical Studies                       |             |
6 credits in honors-option courses in History which are numbered above 3000 |             |
One additional honor course in any discipline |             |
HIS 5995, the History Honors Seminar, which is taken after the completion of HIS 5996. Typically, students will begin their senior thesis in HIS 5996 and complete it in HIS 5995. This thesis will be directed by two regular faculty members; the student will also defend the thesis before them. |             |
History of Science, Technology, Environment, and Medicine Minor

The minor in History of Science, Technology, Environment, and Medicine aims to provide science majors as well as social science and humanities students with an interdisciplinary foundation in the history of science, environment, and medicine. The minor requires the completion of 18 credits.

<table>
<thead>
<tr>

Public History Minor

A student pursuing a Public History minor must complete a minimum of eighteen credits, including the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIS 3000</td>
<td>The Historian's Craft</td>
<td>9</td>
</tr>
<tr>
<td>HIS 4993</td>
<td>History Communication</td>
<td></td>
</tr>
<tr>
<td>HIS 4997</td>
<td>Internship in Public History</td>
<td></td>
</tr>
<tr>
<td>Elective courses</td>
<td></td>
<td>9</td>
</tr>
</tbody>
</table>

1 Students must take at least three additional History courses numbered 3000 or above for a minimum of nine credits; at least one of these courses must require students to produce an original research project (in a typical semester, several courses will fulfill this requirement, and students can determine which courses do so in consultation with the Academic Advisor and/or Director of Undergraduate Studies).

Total Credits 18

Society and the Environment Minor

The Society and the Environment minor provides students with a fundamental understanding of the impact of humans on the environment through exposure to principles of ecology and related sciences, as well as insights derived from a variety of social science and humanities disciplines.

The Society and Environment minor requires a minimum of 18 credits.

1 Open to those who take HIS 5540 as a core course.

2 Open to those who take HIS 5425 as a core course.

Jewish Studies

Office: 3094 Faculty/Administration Building; 313-577-2525
Coordinator: Howard Lupovitch
http://clas.wayne.edu/jewishstudies (http://clas.wayne.edu/jewishstudies/)

The Jewish Studies minor engages students who are interested in learning about the history, culture, and languages of Jewish communities. In a variety of courses in history, literature, philosophy, political science, and the Hebrew language, students learn how Jewish thought has influenced the modern world and how it has been influenced in turn by the societies and cultures in which Jews have lived over the past four thousand years.

To earn a minor in Jewish Studies, a student must take a minimum of nineteen credits, including:

**Latino/a and Latin American Studies**

**Office:** 3326 Faculty Administration Building; 313-577-4378; Fax: 313-993-4073  
**Director:** Jorge L. Chinea  
**Assistant Director for Student Services and Program Development:** Melissa Miranda Morse  
**CBS Scholars Program Coordinator:** Erik (Zach) Morales  
**College to Career Program Coordinator:** Tamara Serrano Chandler  
[http://clas.wayne.edu/cllas/](http://clas.wayne.edu/cllas/)

**Mission**

The Center for Latino/a and Latin American Studies strives to promote equitable access to a quality university education to students interested in Latino/a and Latin American cultural studies, and to enhance diversity on the campus. The Center accomplishes its mission through a four-part program in:

1. student services;  
2. research in the field of Latino/a and Latin American Studies;  
3. internal University advocacy on Latino/a perspectives; and,  
4. outreach to the Latino/a and larger off-campus communities.

The research and teaching specializations of the faculty associated with the Center are Mexican history, Caribbean studies, Latin American literature, United States Latino/a studies and student learning strategies in higher education.

**Student Success Programs**

Latino/a Studies' comprehensive student services are based on a leadership development and an academic self-empowerment model. The Center hosts an annual Academia del Pueblo Research Conference and offers three distinct comprehensive student success programs:

- the Summer Enrichment Program (SEP), currently funded by DTE Energy;  
- the Chicano-Boricua Studies (CBS) Scholars Program, a WSU learning community, which continues to bear the previous name of the Center in honor of its alumni as well as the many contribution of its former faculty and staff; and,  
- the College to Career (C2C) Program, a second WSU learning community, which is designed to prepare graduating students for post-baccalaureate/professional degrees and future careers.

Students in good standing who are enrolled in these programs may be eligible for supplemental financial support through the WSU Office of Financial Aid, the John Helfman Latino en Marcha (LEM) Grant, the Wiese-Rometsch Scholarship and the Cynthia Estrada Labor and Social Justice Award.

- Latino/a and Latin American Studies (Co-Major) (p. 300)  
- Latino/a and Latin American Studies Minor (p. 300)

**Latino/a and Latin American Studies (Co-Major)**

Completion of the Center’s Co-Major Program leads to a co-major degree in the field of Latino/a and Latin American Studies. This multidisciplinary program of study is designed to strengthen the career preparation of students in all majors who plan to work in national and international multicultural environments where knowledge about Latin America, the Caribbean, Latino/a Studies, and multicultural diversity would be a valuable asset. Completion of the co-major is noted on the student’s transcript.

**Admission Requirements**

Students submit a Declaration of Major Form at the beginning of their junior year.

**Co-Major Requirements**

Students must complete fifteen credits in the following core courses and a minimum of eighteen credits from the list of elective courses. Appropriate courses may be substituted with the prior approval of the Center’s Director.

Total Credits: 18-19

**Law Minor**

Through a partnership between the College of Liberal Arts and Sciences and the Law School, undergraduate students can earn a minor in law. This includes special undergraduate courses taught by Law School faculty. The minor in law requires a minimum of 19-20 credits.

**LawStart Program**

Director: Eun-Jung Kim, Academic Advisor: Ryan Ferrante
http://clas.wayne.edu/lawstart (http://clas.wayne.edu/lawstart/)
Housed within the College of Liberal Arts and Sciences, the Wayne State University LawStart Program helps highly-qualified undergraduates to complete their General Education, College, and Major requirements within approximately three years, or 90-100 undergraduate credits. Students will then apply to enter Wayne State Law School for their fourth year of undergraduate education. Credits earned during the first year of law school will double-count to fulfill students' remaining undergraduate elective credit requirements. Students in the LawStart Program who are admitted to Wayne Law will receive the Bachelor's degree upon successful completion of all first-year law courses, normally at the end of the fourth year. They will receive the JD degree upon completion of all Law School coursework and other requirements, normally at the end of the sixth full-time year.

**Admission Requirements**

Students are eligible to apply to LawStart if they have completed between 24 and 64 credit hours, with a minimum of 24 credits hours being completed at Wayne State University. To qualify for admission to the LawStart program, students must be majoring in a subject in the College of Liberal Arts and Sciences, and must have a cumulative GPA requirement of 3.5 or better in college-level coursework. LawStart application materials also include a personal statement about future career goals, a resume, a graded writing sample from a college-level course, and 2-4 letters of recommendation. A LawStart selection committee may also require an interview for those students who make it to the final selection round.

Students will be accepted to the LawStart Program each fall semester, and application deadlines are in early Fall.

Once accepted into the LawStart program, students must:

- Maintain satisfactory progress toward completing their undergraduate coursework in three years, or by the time they reach 90-100 undergraduate credits.
- Maintain a cumulative GPA of at least 3.5 on a 4.0 scale. If students do not make satisfactory progress for two consecutive semesters, they may be removed from the LawStart program.
- Meet with a member of the Wayne Law admissions staff in November of the third year of undergraduate study, to receive information about the law school application process.
- Take the LSAT no later than midway through their third year of undergraduate study and apply for Wayne State Law School admission by no later than April 1st of the same year.
- Meet with the LawStart advisor at least once a semester, to ensure satisfactory progress toward LawStart program requirements.
- Meet with a departmental advisor at least once a semester, to ensure satisfactory progress toward completing their required undergraduate coursework.
- Participate in LawStart enrichment activities to ensure their preparedness for law school.

Any student failing to meet these program requirements may be removed from the LawStart program at the discretion of the LawStart selection committee. Any student removed or who withdraws from the program will need to complete their final year of undergraduate studies and any remaining requirements in order to attain the bachelor's degree.

In order to earn a bachelor's degree, LawStart students must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements. Acceptance to the LawStart program does not commit students to completing the JD degree. If a student is admitted to and enrolls in Wayne State Law School, he or she will receive a JD degree after completing all JD degree requirements equivalent to three years of full-time law school.

**Linguistics**

*Office: Room 10303, 5057 Woodward; 313-577-8642  
e-mail: linguistics@wayne.edu  
Director: Haiyong Liu  
Undergraduate Advisor: Corinne Forys  
http://www.clas.wayne.edu/linguistics (http://www.clas.wayne.edu/linguistics/)

Linguistics is devoted to the scientific study of language structure and use. The Linguistics Program at Wayne State offers an interdisciplinary approach to this field, permitting students to explore a wide range of topics and issues in language research. The core courses are offered on a regular basis. The program offers electives in the following areas:

1. linguistics and a language,  
2. language structure,  
3. language variation and change,  
4. language acquisition and processing, and  
5. sociolinguistics and discourse/pragmatics.

Training in linguistics prepares students for advanced work in linguistic research, as well as for employment in teaching English and foreign languages; computer systems (especially natural language processing); broadcasting, mass media and journalism; publishing and editing; translation; international business; intercultural communication and negotiation; law; and generally any profession requiring the precise use or analysis of speech or writing.

The Linguistics Program is administered by a director and an advisory committee of participating faculty who regularly teach courses for the program.

- Linguistics (B.A.) (p. 302)  
- Linguistics Minor (p. 304)

**Linguistics (B.A.)**

Linguistics is devoted to the scientific study of language structure and use. The Linguistics Program at Wayne State offers an interdisciplinary approach to this field, permitting students to explore a wide range of topics and issues in language research. Training in linguistics prepares students for advanced work in linguistic research, as well as for employment in teaching English and foreign languages; computer systems (especially natural language processing); broadcasting, mass media and journalism; publishing and editing; translation; international business; intercultural communication and negotiation; law; and generally any profession requiring the precise use or analysis of speech or writing.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees. Course selections are to be planned in consultation with the linguistics program advisor. Students must
complete a minimum of thirty credits in course work to satisfy the major requirements as outlined below.

### Required Courses

The linguistics major requirements consist of:

1. three required general courses;
2. one required language use course involving either the analysis of speech data acquired in fieldwork or theories that address language use; and
3. a set of electives.

Also, in the senior year, majors must register for and complete LIN 5993, Writing Intensive Requirement (0 credits). This course is to be taken in conjunction with another course, as explained under Linguistics Courses. In the final semester of study, assessment of knowledge in the major is determined by review of a student portfolio and by an exit interview conducted by members of the faculty. Both the portfolio and the interview must be deemed acceptable before the Program will certify completion of all major requirements.

### Code Title Credits

#### Required General Linguistics Courses

- LIN 2720 or LIN 5700: Basic Concepts in Linguistics (3)
- LIN 5290: Phonology (3)
- LIN 5300: Syntax (3)

#### Required Language Use Course

Select one of the following:

- LIN 3310: Language and Culture (3)
- LIN 5210: Arabic Sociolinguistics (3)
- LIN 5320: Language and Societies (3)
- LIN 5715: Morphology (3)
- LIN 5760: American Dialects (3)
- LIN 5770: Sociolinguistics (3)
- LIN 6720: Topics in Language (Field Methods) ¹ (3)

#### Elective Courses

Select 18 credits from the categories listed below, in consultation with advisor.

- Total Credits: 30

### Elective Option Areas

#### A. Linguistics and a Language

The student may complete up to nine credits in advanced language skills or in the linguistics of a chosen language, as part of their electives. Courses must be selected in consultation with the advisor.

#### B. Language Structure

- LIN 1850: Introductory Symbolic Logic (3)
- LIN 1860: Honors Introductory Symbolic Logic (4)
- LIN 2730: Languages of the World (3)
- LIN 3080: Cognitive Psychology: Fundamental Processes (3)
- LIN 5050: Advanced Symbolic Logic (4)

#### C. Language Variation and Change

- LIN 2730: Languages of the World (3)
- LIN 3310: Language and Culture (3)
- LIN 5100: Languages of Asia (3)
- LIN 5220: Introduction to Chinese Linguistics (3)
- LIN 5320: Language and Societies (3)
- LIN 5715: Morphology (3)
- LIN 5760: American Dialects (3)
- LIN 5770: Sociolinguistics (3)
- LIN 6720: Topics in Language (Field Methods) ¹ (3)
- LIN 6720: Topics in Language (Typology) ¹ (3)
- FRE 6400: Introduction to French Linguistics (3)
- SPA 6400: Introduction to Hispanic Linguistics (3)

#### D. Language Acquisition and Processing

- LIN 3080: Cognitive Psychology: Fundamental Processes (3)
- LIN 3310: Language and Culture (3)
- LIN 5080: Phonetics (3)
- LIN 5360: Child Language Acquisition (3)
- LIN 5750: Theories of Second Language Acquisition (3)
- LIN 5760: American Dialects (3)
- LIN 5900: Culture, Language and Cognition (3)
- LIN 6710: Psycholinguistics (3)
- LIN 6720: Topics in Language (Language Evolution) ¹ (3)
- FRE 5200: French Phonetics and Pronunciation (3)
- PSY 2030: Statistical Methods in Psychology (4)
- PSY 3120: Brain and Behavior (3)
- SLP 5300: Introduction to Speech-Language Pathology (3)

#### E. Sociolinguistics and Discourse/Pragmatics

- LIN 2730: Languages of the World (3)
- LIN 3310: Language and Culture (3)
- LIN 5210: Arabic Sociolinguistics (3)
- LIN 5320: Language and Societies (3)
Linguistics Honors Program

Students with an overall grade point average of 3.5 are eligible for admission to the Linguistics Honors Program. Satisfactory completion of the Honors Program will lead to a degree 'With Linguistics Honors' on the diploma. Students interested in the program should obtain detailed information from the Linguistics Program Undergraduate Advising Office.

Program Requirements: Students must complete one 5000-level or above Honors Option course as part of the major requirements, the Linguistics Honors Thesis (LIN 5993-H with approved LIN Writing Intensive course), one Honors Seminar from the HON 42XX series, and three additional Honors credits through any department to thereby complete the minimum twelve required Honors credits.

'AGRADE' Program (Accelerated Graduate Enrollment)

The Linguistics Program invites academically superior majors to apply for admission to the 'AGRADE' Program. 'AGRADE' procedures enable qualified seniors to enroll simultaneously in the undergraduate and graduate programs in Linguistics and to apply a maximum of sixteen credits toward both a bachelor's and a master's degree.

Qualified students may apply for the AGRADE program no earlier than the semester in which ninety credits are completed. Applicants must have an overall grade point average of 3.5 and not less than a 3.6 grade point average in the major courses already completed.

For more details about the 'AGRADE' Program, contact the Linguistics Program office: 313-577-8642; or by e-mail at: linguistics@wayne.edu

Linguistics Minor

A minor consists of four required courses and two additional courses in the Linguistics program. The required courses are:

<table>

Programs should be planned in consultation with an advisor.

Mathematics

Office: 1150 Faculty/Administration Building; 313-577-2479
Chairperson: Hengguang Li
Associate Chairperson: Daniel Drucker
Undergraduate Advisor: Kimberly Morgan
http://clas.wayne.edu/math/

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

For details on Mathematics course placement, please see the Mathematics Placement Information (http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/mathematics/placement/) section of this bulletin, or the Mathematics Placement Exam (http://testing.wayne.edu/register/math-placement-exam.php) information provided by the Office of Testing, Evaluation and Research Services.

- Actuarial Mathematics (B.A.) (p. 305)
- Mathematical Economics (B.A.) (p. 306)
- Mathematics (B.A.) (p. 307)
- Mathematics (B.S.) (p. 309)
- Statistics (B.S.) (p. 312)
- Mathematics Minor (p. 312)
- Statistics Minor (p. 314)
- Advanced Courses for Non-Majors (p. 314)

Mathematics Placement Information

All students, including transfer and guest students, who plan to take MAT 1070, MAT 1110, MAT 1120, MAT 1800, or MAT 2010 as their first mathematics course at Wayne State must:

1. a satisfactory ACT or SAT Math score (see below) that has been validated by the Testing Office OR
2. take the Mathematics Placement Exam.

Results of the Mathematics Placement Exam and/or the ACT or SAT Math score to determine the course into which the student is placed consistent with the following:

**MAT 1070:** Students qualify by having achieved one of the following within the previous year:

1. a satisfactory score on the Mathematics Placement Exam,
2. a grade of CNC or above in MAT 0993 taken at WSU
3. a validated ACT Math score of 21 or higher
4. a validated SAT score of 500 (old version) or 530 (new version) or higher

For placement at this level, students should have a command of numerical and beginning algebra concepts and techniques corresponding approximately to one year of high school algebra.
MAT 1110: Students qualify by having achieved one of the following within the previous year:

1. a satisfactory score on the Mathematics Placement Exam
2. a grade of at least C- in MAT 1070 taken at WSU
3. a validated ACT Math score of 26 or higher
4. a validated SAT Math score of 600 (old version) or 620 (new version) or higher

For placement at this level, students should have a command of algebra and basic geometry, corresponding approximately to three years of college-preparatory mathematics.

MAT 1120: Students qualify by having achieved one of the following within the previous year:

1. a satisfactory score on the Mathematics Placement Examination
2. a grade of at least C- in MAT 1110 taken at W.S.U.
3. a validated ACT Math score of 26 or higher
4. a validated SAT Math score of 600 (old version) or 620 (new version) or higher

MAT 1800: Students qualify by having achieved one of the following within the previous year:

1. satisfactory score on the Mathematics Placement Examination
2. a grade of at least C- in MAT 1800 taken at W.S.U.
3. a validated ACT Math score of 26 or higher
4. a validated SAT Math score of 600 (old version) or 620 (new version) or higher

For placement at this level, students should have a command of algebra and basic geometry, corresponding approximately to three years of college-preparatory mathematics.

MAT 2010: Students qualify by having achieved one of the following within the previous year:

1. a satisfactory score on the Mathematics Placement Exam
2. a grade of at least C- in MAT 1800 taken at W.S.U.
3. a validated ACT Math score of 29 or higher
4. a validated SAT Math score of 650 (old version) or 670 (new version) or higher

For placement at this level, students should have a command of algebra, geometry, trigonometry, and elementary functions corresponding approximately to four years of college-preparatory mathematics.

Math Placement Exam: The MPE must be taken before classes begin for the semester in which you plan to take the course. Any student who does not place into a MAT course using an ACT or SAT Math score as described above must take the MPE to determine MAT course placement. Students are also welcome to take the exam if they have taken the ACT and/or SAT, if they would like to attempt to place into a higher course. The MPE may only be taken twice. Students should enroll in the course they are placed into the first time they take the test. However, all students may take the test one additional time within six months of the first attempt. After two attempts at the examination, students must enroll in the course into which they are placed within three semesters. Visit the Testing website (http://testing.wayne.edu) for further information on the testing procedures.

Actuarial Mathematics (B.A.)

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (http://bulletins.wayne.edu/undergraduate/general-information/admission/) to the University. Undergraduates declaring a mathematics major are strongly encouraged to meet with a departmental advisor before doing so. After a student’s acceptance as a major, a student should consult a Departmental advisor at least once a semester to verify progress.

Students must complete 120 credits in coursework including satisfaction of the University General Education Requirements (http://bulletins.wayne.edu/undergraduate/general-information/general-education/) and the College of Liberal Arts and Sciences Group Requirements (http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/bachelors-degree-requirements/), as well as the departmental major requirements cited below. All coursework must be completed in accordance with the regulations of the University (http://bulletins.wayne.edu/undergraduate/general-information/academic-regulations/) and the College (http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/academic-regulations/) governing undergraduate scholarship and degrees. The cumulative grade point average in mathematics (MAT) and statistics (STA) courses required for completion of a major option must be at least 2.0 and all coursework required must have a C- or better grade. A minimum of 15 credits of required coursework for the major at the 5030 level or above must be taken at Wayne State.

It is each student’s responsibility to learn the requirements, policies, and procedures governing the program the student is following and to act accordingly. Students should consult the Department of Mathematics’ undergraduate academic advisor on a regular basis. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

SPECIAL PROGRAMS

Emerging Scholars Program

The Emerging Scholars Program is a special honors program at the levels of MAT 1800, MAT 2010, and MAT 2020, that features collaborative learning through a challenging problem-solving workshop attached to the regular class. Each ESP calculus course (MAT 2010 and MAT 2020) carries four honors credits, though MAT 1800 does not offer honors credits. The program seeks dedicated, hard-working students who want to excel in mathematics. Students who place into the level below MAT 1800 are encouraged to enroll in MAT 1070 as preparation for the Program. Contact the Department for further information.

AGRADE Program (Accelerated Graduate Enrollment)

Our AGRADE Program provides the opportunity for top students to enroll simultaneously in an undergraduate and graduate program. Students can apply a maximum of 16 credits toward both an undergraduate and a graduate degree in the student’s major field. Students electing AGRADE programs may expect to complete the bachelor’s and master’s degrees in five years of full-time study if they take full advantage of the program. For more details about the AGRADE Program, contact one of the graduate mathematics advisors, or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2516).
Senior Rule
In their last undergraduate semester, Wayne State students with a 3.0 (or above) upper division grade point average have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree work. For more information look under graduate admissions in the graduate bulletin.

MULTIPLE MAJORS AND MULTIPLE DEGREES WITHIN THE MATH DEPARTMENT
If a student wishes to complete more than one major or degree within the Math Department (i.e. majors in math, actuarial mathematics, or statistics) then each major must have at least 3 unique mathematics or statistics (MAT or STA) courses. This means that at least 3 MAT or STA courses used for one major/degree cannot be used for the other major(s)/degree(s). This includes courses that are considered equivalent to the Math Department’s MAT or STA courses and which are approved by the Math Department to meet a major requirement. Note that university policy states that double majors must be either both Bachelor of Arts or both Bachelor of Science. They cannot be one of each.

The mathematical economics major is a major jointly administered by the Math Department and the Economics Department and therefore follows a different set of guidelines. If a student wishes to major in mathematical economics and another major or majors within the Math Department, the mathematical economics major must include one unique MAT or STA course that is not being used for the other major(s).

MAJORS AND MINORS WITHIN THE MATH DEPARTMENT
If a student wishes to pursue at least one major and a minor, or two minors, within the Math Department, there must be at least one unique course for each minor. This means that at least one MAT or STA course used for each minor cannot be used for the other minor or major(s). This includes courses that are considered equivalent to the Math Department’s MAT or STA courses and that are approved by the Math Department to meet a major or minor requirement.

A student cannot major and minor in math, nor can they major and minor in statistics.

Requirements
A minimum of 15 credits of major requirements at or above MAT or STA 5030 must be taken at Wayne State University. Note that STA courses previously designated by MAT (for example STA 2210 was previously labelled MAT 2210) are the same courses and meet the same requirements.

Minimum Grade Requirements
The following grade requirements must be satisfied to obtain the degree.

- C- or better in all required coursework.
- C or better average grade for all courses.

Math and Statistics Courses - Credit Subtotal: 38-40

Major Courses - Credit Total: 52-55

MAT 5993 is linked to MAT 5740. These two courses must be taken simultaneously.

Mathematical Economics (B.A.)
The purpose of the program is to provide rigorous training in mathematics and economics for students whose career goals require a high level of technical proficiency in these subjects. The program will be valuable for students who intend to pursue graduate work in economics, finance or applied mathematics, or pursue a career in economic analysis, finance, underwriting, actuarial sciences, banking, international trade, applied statistics, or operations research.

Admission Requirements
Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

**Major Requirements**

Students considering a mathematical economics major should take ECO 2010 and ECO 2020 (Principles of Microeconomics and Macroeconomics) and MAT 2010 (Calculus 1) as soon as possible.

To satisfy the university bachelor’s degree requirement, Mathematical Economics majors must have a cumulative grade point average of 2.0 in their major courses. Also, students must receive a grade of 'C-' or better in all mathematics, statistics and economics courses.

A major consists of at least forty-six credits total - at least twenty-two credits in mathematics courses and twenty-four credits in economics courses. At least fifteen credits (eight credits of economics and seven credits of math) must be earned at Wayne State University.

Select one of the following:  

- ECO 5020 Fundamentals of Economic Analysis I  
- ECO 5030 Microeconomic Theory  
- ECO 5100 Introductory Statistics and Econometrics  
- ECO 5230 Environmental Economics  
- ECO 5250 Economic Analysis of Law  
- ECO 5260 Economic Analysis of Law II: Applications of Statistics and Econometrics  
- ECO 5270 Games of Strategy  
- ECO 5300 International Trade  
- ECO 5500 Public Finance  
- ECO 5560 Pharmaceutical Economics  
- ECO 5700 Money and Banking  
- ECO 6050 Macroeconomics  
- ECO 6100 Introduction to Econometrics  
- ECO 5993 Writing Intensive Course in Economics (This course is taken in conjunction with an approved 5000-level economics, mathematics or statistics elective course.)

**Mathematics Requirements**

- MAT 2010 Calculus I  
- MAT 2020 Calculus II  
- MAT 2030 Calculus III  
- MAT 2250 Elementary Linear Algebra  
- MAT 5700 Introduction to Probability Theory

One MAT or STA course at or above 5030. Recommended courses are:

- STA 5030 Statistical Computing and Data Analysis  
- MAT 5100 Numerical Methods I  
- MAT 5210 Advanced Calculus  
- MAT 5220 Partial Differential Equations  
- MAT 5230 Complex Variables and Applications  
- MAT 5280 Methods of Differential Equations  
- MAT 5710 Introduction to Stochastic Processes  
- MAT 5750 Mathematics of Finance  
- MAT 5770 Mathematical Models in Operations Research

**Minimal Grade Requirements**

Students must receive a grade of 'C-' or better in all economics, mathematics and statistics courses. An overall grade point average of 2.0 ('C') is required for graduation.

**Writing Proficiency/Writing Intensive Requirement**

To enable the Department to evaluate their writing proficiency, mathematical economics majors must register for ECO 5993, the zero-credit W1 course. This is a paper completed in conjunction with a 5000-level economics, mathematics or statistics elective course. They must register for this during the same semester that the 5000-level elective course is taken. All mathematical economics majors must satisfy this requirement, even if they are not subject to the University General Education Requirements.

**Student's Responsibility**

It is each student’s responsibility to learn the requirements, policies, and procedures governing the program they are following and to act accordingly. Students should consult both Mathematical Economics program advisors regularly in order to verify that Mathematical Economics requirements are being met in a timely fashion. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

**Mathematics (B.A.)**

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

**Admission Requirements**

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Undergraduates declaring a mathematics major are strongly encouraged to meet with a departmental advisor before doing so. After a student’s acceptance as a major, a student should consult a Departmental advisor at least once a semester to verify progress.

Candidates must complete 120 credits in coursework including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All coursework must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees. The cumulative grade point average in
mathematics (MAT) and statistics (STA) courses required for completion of a major option must be at least 2.0 and all coursework required must have a C- or better grade. A minimum of 15 credits of required coursework for the major at the 5030 level or above must be taken at Wayne State.

It is each student's responsibility to learn the requirements, policies, and procedures governing the program the student is following and to act accordingly. Students should consult the Department of Mathematics' undergraduate academic advisor on a regular basis. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

SPECIAL PROGRAMS

Emerging Scholars Program

The Emerging Scholars Program is a special honors program at the levels of MAT 1800, MAT 2010, and MAT 2020, that features collaborative learning through a challenging problem-solving workshop attached to the regular class. Each ESP calculus course (MAT 2010 and MAT 2020) carries four honors credits, though MAT 1800 does not offer honors credits. The program seeks dedicated, hard-working students who want to excel in mathematics. Students who place into the level below MAT 1800 are encouraged to enroll in MAT 1070 as preparation for the Program. Contact the Department for further information.

AGRADE Program (Accelerated Graduate Enrollment)

Our AGRADE Program provides the opportunity for top students to enroll simultaneously in an undergraduate and graduate program. Students can apply a maximum of 16 credits toward both an undergraduate and a graduate degree in the student's major field. Students electing AGRADE programs may expect to complete the bachelor's and master's degrees in five years of full-time study if they take full advantage of the program. For more details about the AGRADE Program, contact one of the graduate mathematics advisors, or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2516).

Senior Rule

In their last undergraduate semester, Wayne State students with a 3.0 (or above) upper division grade point average have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree course work. For more information look under graduate admissions in the graduate bulletin.

MULTIPLE MAJORS AND MULTIPLE DEGREES WITHIN THE MATH DEPARTMENT

If a student wishes to complete more than one major or degree within the Math Department (i.e. majors in math, actuarial mathematics, or statistics) then each major must have at least 3 unique mathematics or statistics (MAT or STA) courses. This means that at least 3 MAT or STA courses used for one major/degree cannot be used for the other major(s)/degree(s). This includes courses that are considered equivalent to the Math Department's MAT or STA courses and which are approved by the Math Department to meet a major requirement. Note that university policy states that double majors must be either both Bachelor of Arts or both Bachelor of Science. They cannot be one of each.

The mathematical economics major is a major jointly administered by the Math Department and the Economics Department and therefore follows a different set of guidelines. If a student wishes to major in mathematical economics and another major or majors within the Math Department, the mathematical economics major must include one unique MAT or STA course that is not being used for the other major(s).

MAJORS AND MINORS WITHIN THE MATH DEPARTMENT

If a student wishes to pursue at least one major and a minor, or two minors, within the Math Department, there must be at least one unique course for each minor. This means that at least one MAT or STA course used for each minor cannot be used for the other minor or major(s). This includes courses that are considered equivalent to the Math Department's MAT or STA courses and that are approved by the Math Department to meet a major or minor requirement.

A student cannot major and minor in math, nor can they major and minor in statistics.

SECONDARY MATHEMATICS TEACHING

An excellent option for students who would like to become secondary mathematics teachers is to complete any of the mathematics major concentrations or the B.S. in Statistics, along with teacher certification requirements. Please see a Math Department advisor for more details.

REQUIREMENTS

Minimum Grade Requirements

The following grade requirements must be satisfied to obtain the degree.

- C- or better average grade for all courses.
- C or better in all required coursework.

Concentrations

In addition to the general bachelor's degree requirements, the candidate must complete one of the following concentrations: A, B, C, or D, as described below. Note that STA courses previously designated by MAT (for example STA 2210 was previously labelled MAT 2210) are the same courses and meet the same requirements.

Prospective Graduate Study Concentration

This concentration is for students interested in advanced mathematics, including those who intend to pursue graduate study in mathematics or statistics and those who want to be exceptionally well qualified for high-level employment in government or industry.

1 Excluding MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180, MAT 6200, and MAT 6210. Only one MAT 5890 and only one MAT 5990 may be selected.

### Computer Science Concentration

Mathematics and computer science are so closely related that a great many students who major in mathematics pursue careers or graduate study in computer science. A mathematics degree, being more than just welcome in the field, is highly regarded. For students who would like to complete a double degree in mathematics and computer science or a major in mathematics with a minor in computer science, the Department offers a specially designed program. Under this concentration, students can take certain courses that satisfy both mathematics and computer science requirements simultaneously. Specifically, any two of STA 5030, MAT 5100, MAT 5110 and MAT 5890 (The topic must be approved by the Department of Computer Science.) can be used as computer science electives, and one of CSC 5870, CSC 6500, CSC 6620, or CSC 6991 (The topic in CSC 6991 must be approved by the Math Department Undergraduate Committee.) can be used as a mathematics elective.

**This concentration is available only to students who complete a second degree or a minor in computer science prior to graduation.** Students should consult the Computer Science Department concerning the requirements for the second degree or minor.

Total Credits: 38-41

1 Excluding MAT 5120, MAT 5130, MAT 5180, MAT 5190, MAT 5992, MAT 6130, MAT 6150, MAT 6170, MAT 6180, MAT 6200, and MAT 6210. Only one (at most) of the courses may be selected from MAT 5890 or MAT 5990. These electives are subject to advisor approval on the Student’s Plan of Work.

2 This course can also count as an elective for the minor or major in computer science.

### Mathematics (B.S.)

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by
which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

Admission Requirements
Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Undergraduates declaring a mathematics major are strongly encouraged to meet with a departmental advisor before doing so. After a student’s acceptance as a major, a student should consult a Departmental advisor at least once a semester to verify progress.

Candidates must complete 120 credits in coursework including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All coursework must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees. The cumulative grade point average in mathematics (MAT) and statistics (STA) courses required for completion of a major option must be at least 2.0 and all coursework required must have a C- or better grade. A minimum of 15 credits of required coursework for the major at the 5030 level or above must be taken at Wayne State.

It is each student’s responsibility to learn the requirements, policies, and procedures governing the program the student is following and to act accordingly. Students should consult the Department of Mathematics’ undergraduate academic advisor on a regular basis. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

SPECIAL PROGRAMS
Emerging Scholars Program
The Emerging Scholars Program is a special honors program at the levels of MAT 1800, MAT 2010, and MAT 2020, that features collaborative learning through a challenging problem-solving workshop attached to the regular class. Each ESP calculus course (MAT 2010 and MAT 2020) carries four honors credits, though MAT 1800 does not offer honors credits. The program seeks dedicated, hard-working students who want to excel in mathematics. Students who place into the level below MAT 1800 are encouraged to enroll in MAT 1070 as preparation for the Program. Contact the Department for further information.

‘AGRADE’ Program (Accelerated Graduate Enrollment)
Our AGRADE Program provides the opportunity for top students to enroll simultaneously in an undergraduate and graduate program. Students can apply a maximum of 16 credits toward both an undergraduate and a graduate degree in the student’s major field. Students electing AGRADE programs may expect to complete the bachelor’s and master’s degrees in five years of full-time study if they take full advantage of the program. For more details about the AGRADE ‘AGRADE’ Program, contact one of the graduate mathematics advisors, or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2516).

Mathematics Departmental Honors Program
In order to graduate with honors in mathematics, students must satisfy the following criteria:

1. Completion of the requirements for a Bachelor of Science degree.
2. Have an overall grade point average of 3.3 or above at graduation.
3. At least 12 math honors credits at the level of MAT 2020 or above, including at least 4 credits of an approved 5000 level course. See a math advisor for approved courses. MAT 4990 is not included in these 12 credits. The student must complete the course with at least a B and the honors option work with at least a B in order to obtain honors credit.
4. Completion of an HON 42XX - Honors College Seminar. See the Honors College website (http://www.honors.wayne.edu/classes.php) for information.
5. Satisfactory completion of MAT 4990 - Directed Study Honors Program (3-6 credits). MAT 4990 involves the completion of an honors thesis in mathematics. The thesis must extend, supplement or compliment the 5000 level coursework the student has taken. It must be written under the guidance of a full-time faculty member.
6. Obtain a 3.3 average for all math classes upon completion.

Senior Rule
In their last undergraduate semester, Wayne State students with a 3.0 (or above) upper division grade point average have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree coursework. For more information look under graduate admissions in the graduate bulletin.

MULTIPLE MAJORS AND MULTIPLE DEGREES WITHIN THE MATH DEPARTMENT
If a student wishes to complete more than one major or degree within the Math Department (i.e. majors in math, actuarial mathematics, or statistics) then each major must have at least 3 unique mathematics or statistics (MAT or STA) courses. This means that at least 3 MAT or STA courses used for one major/degree cannot be used for the other major(s)/degree(s). This includes courses that are considered equivalent to the Math Department’s MAT or STA courses and which are approved by the Math Department to meet a major requirement. Note that university policy states that double majors must be either both Bachelor of Arts or both Bachelor of Science. They cannot be one of each.

The mathematical economics major is a major jointly administered by the Math Department and the Economics Department and therefore follows a different set of guidelines. If a student wishes to major in mathematical economics and another major or majors within the Math Department, the mathematical economics major must include one unique MAT or STA course that is not being used for the other major(s).

MAJORS AND MINORS WITHIN THE MATH DEPARTMENT
If a student wishes to pursue at least one major and a minor, or two minors, within the Math Department, there must be at least one unique course for each minor. This means that at least one MAT or STA course used for each minor cannot be used for the other minor or major(s). This includes courses that are considered equivalent to the Math Department’s MAT or STA courses and that are approved by the Math Department to meet a major or minor requirement.

A student cannot major and minor in math, nor can they major and minor in statistics.
SECONDARY MATHEMATICS TEACHING
An excellent option for students who would like to become secondary mathematics teachers is to complete any of the mathematics major concentrations or the B.S. in Statistics, along with teacher certification requirements. Please see a Math Department advisor for more details.

MAJOR REQUIREMENTS
Minimum Grade Requirements
The following grade requirements must be satisfied to obtain the degree.
• C- or better in all required coursework.
• C or better average grade for all courses.

B. S. Additional Requirements
The candidate must complete the following courses in addition to choosing concentration A, B, C, or D as described below.

B. S. Additional Requirements
The candidate must complete the following courses in addition to choosing concentration A, B, C, or D as described below.

MAJOR REQUIREMENTS
Minimum Grade Requirements
The following grade requirements must be satisfied to obtain the degree.

B. S. Additional Requirements
The candidate must complete the following courses in addition to choosing concentration A, B, C, or D as described below.

Concentrations
The candidate must complete one of the following concentrations in addition to requirements listed above. Note that STA courses previously designated by MAT (for example STA 2210 was previously labelled MAT 2210) are the same courses and meet the same requirements.

Prospective Graduate Study Concentration
This concentration is for students interested in advanced mathematics, including those who intend to pursue graduate study in mathematics or statistics and those who want to be exceptionally well qualified for high-level employment in government or industry.

General Topics Concentration
This concentration is for students interested in a broad range of topics.

Total Credits 21-23

1 A candidate for the B. S. degree in mathematics who is pursuing a second major does not have to complete MAT 5600 unless the concentration requires it. A candidate for the B. S. degree in mathematics who is pursuing a second degree must complete the course.
Computer Science Concentration
Mathematics and computer science are so closely related that a great many students who major in mathematics pursue careers or graduate study in computer science. A mathematics degree, being more than just welcome in the field, is highly regarded. For students who would like to complete a double degree in mathematics and computer science or a major in mathematics with a minor in computer science, the Department offers a specially designed program. Under this concentration, students can take certain courses that satisfy both mathematics and computer science requirements simultaneously. Specifically, any two of STA 5030, MAT 5100, MAT 5110 or MAT 5890. (The topic for MAT 5890 must be approved by the Department of Computer Science.) can be used as computer science electives, and one of CSC 5870, CSC 6500, CSC 6620 or CSC 6991 can be used as a mathematics elective. (The topic for CSC 6991 must be approved by the Department of Mathematics).

This concentration is available only to students who complete a second degree or a minor in computer science prior to graduation. Students should consult the Computer Science Department concerning the requirements for the second degree or minor.

Mathematics Minor
A student who is considering a minor should consult a Departmental advisor. At least 7 credit hours counted toward a minor must be taken at Wayne State, and transfer courses must carry a grade of C or better. The cumulative grade point average in mathematics (MAT) and statistics (STA) courses required for completion of the minor must be at least 2.0 and all coursework required must have a C- or better grade.

If a student wishes to pursue at least one major and a minor, or two minors, within the Math Department, there must be at least one unique course for each minor. This means that at least one MAT or STA course used for each minor cannot be used for the other minor or major(s). This includes courses that are considered equivalent to the Math Department’s MAT or STA courses and that are approved by the Math Department to meet a major or minor requirement.

A student cannot major and minor in math, nor can they major and minor in statistics.

The requirements for a minor consist of:

Total Credits 24-27

1 The courses MAT 5120, MAT 5130, MAT 5180, and MAT 5992, MAT 6130, MAT 6190, and MAT 6210 do not satisfy the mathematics minor requirement for courses numbered 5030 or above. Only one MAT 5890 or 5990 may be used to meet the requirements.

Statistics (B.S.)

The courses offered by the Department of Mathematics serve several purposes; they supply the mathematical preparation necessary for
students specializing in the physical, life or social sciences, in business administration, in engineering, and in education; they provide a route by which students may achieve a level of competence to do research in any of several special mathematical areas; they allow students to prepare themselves for work as mathematicians and statisticians in industry and government; and they give an opportunity to all inquisitive students to learn something about modern mathematical ideas.

Admission Requirements
Admission requirements for this program are satisfied by the general requirements for undergraduate admission (http://bulletins.wayne.edu/undergraduate/general-information/admission/) to the University. Undergraduates declaring a mathematics major are strongly encouraged to meet with a departmental advisor before doing so. After a student's acceptance as a major, a student should consult a Departmental advisor at least once a semester to verify progress.

Students must complete 120 credits in coursework including satisfaction of the University General Education Requirements (http://bulletins.wayne.edu/undergraduate/general-information/general-education/) and the College of Liberal Arts and Sciences Group Requirements (http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/bachelors-degree-requirements/), as well as the departmental major requirements cited below. All coursework must be completed in accordance with the regulations of the University (http://bulletins.wayne.edu/undergraduate/general-information/academic-regulations/) and the College (http://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/academic-regulations/) governing undergraduate scholarship and degrees. The cumulative grade point average in mathematics (MAT) and statistics (STA) courses required for completion of a major option must be at least 2.0 and all coursework required must have a C- or better grade. A minimum of 15 credits of required coursework for the major at the 5030 level or above must be taken at Wayne State.

It is each student's responsibility to learn the requirements, policies, and procedures governing the program the student is following and to act accordingly. Students should consult the Department of Mathematics' undergraduate academic advisor on a regular basis. Although the advisor will provide assistance, the responsibility for fulfilling degree requirements remains with the student.

SPECIAL PROGRAMS
Emerging Scholars Program
The Emerging Scholars Program is a special honors program at the levels of MAT 1800, MAT 2010, and MAT 2020, that features collaborative learning through a challenging problem-solving workshop attached to the regular class. Each ESP calculus course (MAT 2010 and MAT 2020) carries four honors credits, though MAT 1800 does not offer honors credits. The program seeks dedicated, hard-working students who want to excel in mathematics. Students who place into the level below MAT 1800 are encouraged to enroll in MAT 1070 as preparation for the Program. Contact the Department for further information.

AGRADE Program (Accelerated Graduate Enrollment)
Our AGRADE Program provides the opportunity for top students to enroll simultaneously in an undergraduate and graduate program. Students can apply a maximum of 16 credits toward both an undergraduate and a graduate degree in the student's major field. Students electing AGRADE programs may expect to complete the bachelor's and master's degrees in five years of full-time study if they take full advantage of the program. For more details about the AGRADE Program, contact one of the graduate mathematics advisors, or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2516).

Senior Rule
In their last undergraduate semester, Wayne State students with a 3.0 (or above) upper division grade point average have the option of taking a limited number of graduate credits. Graduate credit is awarded only for those courses taken in excess of baccalaureate degree requirements. Undergraduate and graduate courses combined may not exceed sixteen credits for the final semester of baccalaureate degree course work. For more information look under graduate admissions in the graduate bulletin.

MULTIPLE MAJORS AND MULTIPLE DEGREES WITHIN THE MATH DEPARTMENT
If a student wishes to complete more than one major or degree within the Math Department (i.e. majors in math, actuarial mathematics, or statistics) then each major must have at least 3 unique mathematics or statistics (MAT or STA) courses. This means that at least 3 MAT or STA courses used for one major/degree cannot be used for the other major(s)/degree(s). This includes courses that are considered equivalent to the Math Department’s MAT or STA courses and which are approved by the Math Department to meet a major requirement. Note that university policy states that double majors must be either both Bachelor of Arts or both Bachelor of Science. They cannot be one of each.

The mathematical economics major is a major jointly administered by the Math Department and the Economics Department and therefore follows a different set of guidelines. If a student wishes to major in mathematical economics and another major or majors within the Math Department, the mathematical economics major must include one unique MAT or STA course that is not being used for the other major(s).

MAJORS AND MINORS WITHIN THE MATH DEPARTMENT
If a student wishes to pursue at least one major and a minor, or two minors, within the Math Department, there must be at least one unique course for each minor. This means that at least one MAT or STA course used for each minor cannot be used for the other minor or major(s). This includes courses that are considered equivalent to the Math Department's MAT or STA courses and that are approved by the Math Department to meet a major or minor requirement.

A student cannot major and minor in math, nor can they major and minor in statistics.

Requirements
A minimum of 15 credits of major requirements at or above MAT or STA 5030 must be taken at Wayne State University. Note that STA courses previously designated by MAT (for example STA 2210 was previously labelled MAT 2210) are the same courses and meet the same requirements.

Minimum Grade Requirements
The following grade requirements must be satisfied to obtain the degree.

- C- or better in all required coursework.
- C or better average grade for all courses.

Students should be aware that MAT 2150, 5700, 5890 and STA 5800, and 6840 require MAT 2030 as a prerequisite.

Advanced Courses for Non-Majors

Because of the fundamental role that mathematics plays in all types of scientific and technical endeavor, the advanced course offerings of the Mathematics Department must serve a group considerably larger than those preparing for a career in mathematics exclusively.
Economics, Business Administration and Computer Science

The following basic subjects are recommended to master's degree candidates as preparation for work in their profession; they also provide a solid background for students who intend to pursue doctoral studies after completion of the master's program:

<table>

Engineering and Physical Applications

The Mathematics Department has several sequences in applied mathematics that provide experienced engineers and scientists from industry and government the means to acquire and maintain the technical competence needed to work at the frontiers of their fields (for additional courses to those listed below, see the Graduate Bulletin):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>

</tr>
</tbody>
</table>

Students who feel that they eventually would like to pursue mathematical studies beyond the level of the above sequences should make every effort to take the mathematics sequences that begin with MAT 5600, and MAT 5420, respectively, and MAT 6600. These courses will help them to understand and work with abstract concepts in advanced courses.

Statistics

Students requiring only an introduction to basic statistics are referred to STA 1020 or STA 2210. Those whose work demands a good foundation in mathematical statistics are referred to MAT 5700 and STA 5800. STA 5830 is useful for students interested in applied statistics.

In addition to the interdepartmental course listed below, specialized courses in statistics are offered by individual departments:

<table>

STA 2210 Probability and Statistics 4
STA 6830 Design of Experiments 3

Neuroscience

Neuroscience is an interdisciplinary science dedicated to discovering how the brain produces thought, emotion, and behavior on the levels of systems, cells, and molecules. The neuroscience programs are offered jointly through the Departments of Biological Sciences and Psychology

- Neuroscience (B.S.) (p. 315)
- Neuroscience Minor (p. 316)

Neuroscience (B.S.)

The goal of the Neuroscience major is to provide students with a strong background in fundamental basic sciences and exposure to the integrative nature of neuroscience to allow students to understand nervous system function from a variety of perspectives. Students will emerge with a strong foundation in basic science and applied neuroscience that will make them competitive for post-graduate studies or employment in industry, government, health, and education.

The degree program is offered jointly through the Departments of Biological Sciences and Psychology. During the freshman year, or as early as possible, students interested in neuroscience should consult one of these departments to obtain information from an undergraduate advisor.

The Neuroscience major will lead to a Bachelor of Science (B.S.) degree. Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

Major Requirements

Major requirements are divided into three categories: (A) Basic science courses, (B) Neuroscience core courses, and (C) Electives. Elective courses are organized into two sub-categories and students must select from each; this is to ensure breadth of exposure.

Basic Science Courses

Students may double-count up to 11 - 12 credits with University General Education requirements.

Honors Requirements
To be recommended for an honors degree from this program, a student must maintain a cumulative g.p.a. of at least 3.30 and complete a minimum of 14 honors course credits including:

Code Title Credits
One 42XX level Honors Seminar 3
NEU 6990 Honors Introduction to Research Practice 1
Complete at least two credits of Honors research with one of the following
NEU 6992 Honors Undergraduate Research in Neuroscience
NEU 6993 Honors Undergraduate Research in Neuroscience
NEU 6994 Honors Undergraduate Research in Neuroscience
Complete an Honors thesis 3
NEU 6998 Honors Thesis in Neuroscience
Remaining credits to be earned in honors sections or honors options within the Neuroscience major 5

Total Credits 14

Neuroscience Minor
Neuroscience is the interdisciplinary scientific study of the nervous system. It encompasses and combines a broad array of disciplines including biology, biochemistry, computer science, physiology, psychology, philosophy, and more. This diversity reflects the complexity of the nervous system and the challenges in understanding how nervous systems function on multiple levels underlying behavior: molecular, cellular, network, and systems. The overarching goal of the Neuroscience minor is to allow students who may be focusing their studies in a traditional discipline with certain levels of analysis to broaden their.
perspective and knowledge to areas outside of their primary field of study.

The minor requires the completion of a minimum of 18 credits.

**Nutrition and Food Science**

*Office: 3009 Science Hall; 313-577-2500*

*Chairperson: Ahmad R. Heydari*

*Undergraduate Advisor: Deanna L. Cavanaugh*

http://www.clas.wayne.edu/NFS/

The courses offered by this department are designed for students in three distinct groups:

1. those majoring in nutrition and food science who are interested in entering either the nutrition, the food science and health care professions;
2. those interested in entering the dietetics field; and
3. those majoring in nutrition and food science with the intention of entering non-technical positions in a variety of food businesses.

- Dietetics (B.S.) (p. 317)
- Dietetics (Post-Bachelor Certificate) (p. 318)
- Nutrition and Food Science (B.A.) (p. 318)
- Nutrition and Food Science (B.S.) (p. 319)
- Nutrition and Food Science Minor (p. 320)

**Dietetics (B.S.)**

The coordinated program in dietetics is designed to prepare registration-eligible practitioners. The special body of knowledge for the profession is the science of nutrition; skills for delivery of nutritional care encompass a number of closely-allied fields, such as food science, business, management, psychology, social sciences, economics, and communication. The strong base in science and other areas is developed through selection of relevant prerequisite and supporting cognate courses, and in the professional courses. Graduates of the program receive a Bachelor of Science in Dietetics degree and are eligible to write the national registration examination for professional certification without the need for a separate internship. The dietetics program is currently granted accreditation status by the Academy of Nutrition and Dietetics Accreditation Council for Education in Nutrition and Dietetics (ACEND), a specialized accrediting body recognized by The Council on Post-secondary Accreditation and the United States Department of Education. Students may contact ACEND via their webpage or by calling 312-899-0040 to find out the accreditation status of any dietetic program.

**Admission Requirements**

Admission to this program is competitive and open only to students with at least junior standing in the College after completion of the prerequisite courses cited below. Program application should be made by April 1 of the winter semester preceding the fall semester of anticipated entry into the program. Transfer and post-baccalaureate students must meet the pre-professional science requirements (see courses, below) before acceptance into the program. Transferability of credit must be verified by the College advisors and Dietetics faculty. Course material fees cover all the additional costs relating to the professional component of the program. However, students are responsible for the costs associated with physical examination, lab coat, texts and transportation.

**Nutrition and Food Science Honors Program**

**Admission:** A minimum grade point average (g.p.a.) of 3.3 is required for enrollment in the Department of Nutrition and Food Science Honors program. Prospective Honors students should consult with an advisor in the Department during the freshman year. Transfer students or others with a Nutrition and Food Science g.p.a. of 3.5 may be accepted into the program without having taken the NFS 3230 Honors section.

**Honors Requirements**

1. Enroll in the Honors section of NFS 3230.
2. Complete at least one 4000-level Honors Program seminar.
3. Complete at least three credits in an independent research project (NFS 5990).
4. Complete at least fifteen credits in honors-designated course work, including the above. The additional course work may be obtained in this department by taking an Honors option of upper-level NFS courses, or in any other department of the College.

Students must have an overall grade point average of 3.3 and maintain an overall grade point average of at least 3.0 in the major to be awarded the Honors Degree.

**Dietetics (Post-Bachelor Certificate)**

This program is available to students admitted to the Coordinated Program in Dietetics (CPD) who already have an undergraduate degree. Completion of the CPD makes graduates of the program eligible to take the National Registration Examination for Dietitians, which, when successfully completed, confers the legal designation of Registered Dietitian.

**Admission Requirements**

Students who have received an undergraduate degree from Wayne State University should contact the department for application procedures. Students who have received an undergraduate degree from another institution must complete the Application for Undergraduate Admission and have transcripts of previous work sent directly to the Office of Admissions. Application to the CPD is separate from that to the University (CPD applications [http://www.clas.wayne.edu/NFS/] should be obtained from the department, and applications are accepted only once yearly). The deadline is April 1 for program entry the following fall semester.

Students with a dietetics degree generally will have fulfilled all prerequisite course requirements; see Core Courses for the Bachelor of Science in Dietetics (p. 319) degree. Any courses in which the student had received a grade of D or below must be repeated; any dietetics courses in which the student has received a grade of C-plus or below must be repeated. Dietetics courses include food service management, medical nutrition therapy (also called clinical nutrition or diet therapy), and community nutrition. Following successful completion of all Core Courses in the undergraduate degree program, the student will elect the Core Courses for the Post-Bachelor Certificate in Dietetics.

Students who possess an undergraduate degree that is not in dietetics do not need to obtain a second undergraduate degree in dietetics, but they must complete all Core Courses for the Bachelor of Science in Dietetics, or their equivalents at other universities. Students in this category should consult with a dietetics advisor at their earliest opportunity. Following successful completion of all Core Courses in the undergraduate degree program, the student will elect the Core Courses for the Post-Bachelor Certificate in Dietetics.

**Nutrition and Food Science (B.A.)**

This curriculum allows students to major in nutrition and food science while following a broader program in liberal arts, science, and business. The degree requires a less rigorous background in chemistry and other natural science courses than is required for the B.S. degree in this discipline. Employment opportunities include sales, customer relations, university or school food services, industrial and commercial food service systems, hospitals, nursing homes or extended care food service operations.
Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Students contemplating a major program in Nutrition and Food Science should consult with the undergraduate Departmental advisor as soon as possible, and no later than the beginning of the sophomore year. Transfer students should consult with the undergraduate departmental advisor during the semester prior to their transfer.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

Major Requirements

Course requirements for this bachelor’s degree consist of courses offered by Wayne State University and courses available from local community colleges on a dual enrollment basis with the University. Requirements are as follows:

<table>

Community College Courses

Candidates for the degree may complete a course in one of the following areas: sanitation, food management, quantity food purchasing, and quantity food production. As many as four credits from these courses can be applied to the degree either by transfer from previous community college work or by concurrent enrollment with a local community college.

For an approved list of courses from area institutions, consult the Department.

Nutrition and Food Science Honors Program

Admission: A minimum grade point average (g.p.a.) of 3.3 is required for enrollment in the Department of Nutrition and Food Science Honors program. Prospective Honors students should consult with an advisor in the Department during the freshman year. Transfer students or others with a Nutrition and Food Science g.p.a. of 3.5 may be accepted into the program without having taken the NFS 3230 Honors section.

Honors Requirements

1. Enroll in the Honors section of NFS 3230.
2. Complete at least one 4000-level Honors Program seminar.
3. Complete at least three credits in an independent research project (NFS 5990).
4. Complete at least fifteen credits in honors-designated course work, including the above. The additional course work may be obtained in this department by taking an Honors option of upper-level NFS courses, or in any other department of the College.

Students must have an overall grade point average of 3.3 and maintain an overall grade point average of at least 3.0 in the major to be awarded the Honors Degree.

'AGRADE' Program (Accelerated Graduate Enrolment)

Qualified seniors in Nutrition and Food Science having not less than a 3.5 g.p.a. may enroll simultaneously in the undergraduate and graduate program and apply a maximum of sixteen credits towards both the bachelor’s and master’s degrees in nutrition and food science. Students may apply for the program as soon as they complete ninety credits towards the undergraduate degree. Graduate courses taken as part of the ‘AGRADE’ Program are assessed undergraduate rate tuition. Contact the Department for further information.

Nutrition and Food Science (B.S.)

This program is designed for science-oriented students who are interested in the various aspects of food science and nutrition. Students are prepared for these professions by the integration of chemistry and the biological sciences with courses in food science and nutrition. Employment opportunities may be found in various phases of food processing, research and development, public health, and community education, as well as in positions in state and federal regulatory agencies dealing with food products. The program provides good preparation for medical, dental or allied health school application. Students should consult an advisor for program planning.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Students contemplating a major program in Nutrition and Food Science should consult with the undergraduate Departmental advisor as soon as possible, and no later than the beginning of the sophomore year. Transfer students should consult with the undergraduate departmental advisor during the semester prior to their transfer.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All
course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

**Major Requirements**

Students must complete seventy-six credits in science courses of which at least thirty-five must be in nutrition and food science. Core Courses are as follows:

<table>

**Peace and Conflict Studies**

**Office:** 2320 Faculty/Administration Building; 313-577-3453
**Director:** Frederic S. Pearson
**Undergraduate Advisor:** Gayle McCreedy
**http://clas.wayne.edu/CPCS**

The Peace and Conflict Studies (PACS) Co-Major Program integrates a variety of practical courses and interdisciplinary research to allow students to combine their own majors with training, study, and experience in peace studies and the emerging field of conflict resolution, at the interpersonal, national and international levels. The curriculum deals with the most fundamental of human concerns: how to manage or resolve conflict constructively. Students are introduced to the causes of human conflict and violence, as well as approaches to conflict management ranging from diplomacy, law and negotiation, to mediation and arbitration. Questions are raised concerning the issues of globalization, social justice, non-violence, ethnicity, race, and culture.

- Peace and Conflict Studies (Co-Major) (p. 321)
- Peace and Conflict Studies Minor (p. 323)
Peace and Conflict Studies (Co-Major)

The Peace and Conflict Studies (PCS) Co-Major Program integrates a variety of practical courses and interdisciplinary research to allow students to combine their own majors with training, study, and experience in peace studies and the emerging field of conflict resolution, at the interpersonal, national and international levels. The curriculum deals with the most fundamental of human concerns: how to manage or resolve conflict constructively. Students are introduced to the causes of human conflict and violence, as well as approaches to conflict management ranging from diplomacy, law and negotiation, to mediation and arbitration. Questions are raised concerning the issues of globalization, social justice, non-violence, ethnicity, race, and culture.

The PCS curriculum provides a framework useful for careers in legal, educational, governmental, business, labor, social service, scientific and health professions, as well as in graduate and professional education. Students are offered opportunity for hands-on experience, and are encouraged to build adaptive skills useful for the future. Courses in this curriculum may also count toward the completion of University General Education Requirements (p. 39), as well as College and Major Requirements.

The program is designed around a set of core courses, which introduce the student to the field, including various approaches to peace studies and the application of conflict management methods, and finally which assess the student’s overall progress in a senior research seminar project. Five courses in conflicted-related elective courses are required, but students must have a minimum of three courses that are counting towards the PCS co-major elective requirements and are not fulfilling any other major, minor, or co-major requirements. Courses may be chosen generally from the list of elective courses, or may be focused in one of seven specialty areas:

- race, gender and religion
- peace and conflict theory
- human rights
- international issues of peace and conflict studies
- peace and conflict studies in the United States
- peace studies in human development
- dispute resolution

Students are encouraged to participate in the development of their curriculum; in addition to selecting from a wide variety of suggested PCS electives, co-majors are able to choose other elective courses with prior consent of the Director. Students are also encouraged to participate in the Peace and Justice Student Learning Community, which organizes speakers and other special educational programs and events on various subjects, and to explore credit for internships and study abroad.

### Core Requirements

<td>15-20</td>
<td></td>
</tr>
</tbody>
</table>

1. May be taken only once for core requirement, and repeated for electives.
2. Students must have a minimum of three courses that are counting towards the PCS co-major elective requirements and are not fulfilling any other major, minor, or co-major requirements. Permissible elective courses are listed in the WSU course bulletin, or can be approved in consultation with the program director.

### Electives

The University offers a large number of conflict- and peace-related courses in its various Schools and Colleges that are suitable electives for this program. The student is encouraged to select courses that introduce them to a variety of cultural practices regarding the management of conflict. The following are appropriate for the co-major or minor; because new courses are created by faculty on a rolling basis, students are encouraged to consult with the director or the undergraduate advisor about any courses not on the following list which may be included in their major.

### Race, Gender and Religion

<p>| Code/SOC 2600 | Race and Racism in America | 3       |
| AFS 3420/PS 3820 | Pan Africanism: Politics of the Black Diaspora | 4       |

Peace and Conflict Studies Minor

To receive a Minor in Peace and Conflict Studies (PACS), a student must complete:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PCS 2000</td>
<td>Introduction to Peace and Conflict Studies</td>
<td>3</td>
</tr>
<tr>
<td>PCS 6000</td>
<td>Senior Seminar in Peace and Conflict Studies</td>
<td>3</td>
</tr>
<tr>
<td>Select one course from each of the other core groups listed on the co-major page</td>
<td>6-7</td>
<td></td>
</tr>
<tr>
<td>Two conflict-related elective courses. Permissible elective courses are listed in the WSU course bulletin, or can be approved in consultation with the program director.</td>
<td>6-8</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 18-21

Among their elective requirements, students must have a minimum of one course that is counting towards the PCS minor requirements and not fulfilling any other major, minor, or co-major requirement. Electives may be selected from the approved elective course list, or from other curricula, with approval of the Peace and Conflict Studies Director.

Philosophy

Office: 5057 Woodward, 12th floor; 313-577-2474
Chairperson: Eric Hiddleston

Undergraduate Advisor: Royanne Smith
Director of Undergraduate Studies: Joshua Wilburn
http://clasweb.clas.wayne.edu/Philosophy (http://clasweb.clas.wayne.edu/Philosophy/)

Courses in this department are designed with four aims:

1. They contribute to the liberal education of any student, whatever their predominant interest, by emphasis on clear and cogent thought, by consideration of the interrelations of fact and value, by training in logic and the methodology of inquiry, and by a study and analysis of major philosophical outlooks.
2. They supply a minor and cognate courses to students majoring in other Departments who wish to study their major subject in its wider philosophical implications.
3. They give Departmental majors a wide and intensive training in philosophy. The major appeals to those who wish to take graduate work in philosophy and to those who wish a broad background from which to study and understand the emergence and conflict of ideas in relation to contemporary problems.
4. They supply a relevant major and minor for students who plan a career in such fields as the law or the ministry.

• Philosophy (B.A.) (p. 323)
• Health Care Ethics Minor (p. 325)
• Humanities Minor (p. 325)
• Medical Humanities Minor (p. 325)
• Philosophy Minor (p. 326)
• Pre-Law Minor (p. 326)

Philosophy (B.A.)

Philosophy contributes to the liberal education of any student, whatever his/her predominant interest, by its emphasis on clear and cogent thought, by consideration of the interrelations of fact and value, by training in logic and the methodology of inquiry, and by a study and analysis of major philosophical outlooks.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Students who are planning to major in philosophy or who simply wish advice or consultation concerning course offerings and programs should see the Director of Undergraduate Studies in Philosophy.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

Major Requirements

Students planning to major in Philosophy should consult the department’s undergraduate advisor as early as possible. Students may satisfy the major in either of two ways: with a traditional concentration or with a concentration in law, ethics and justice.

CORE COURSE (3-4 credits). All students (of either concentration) must take one of the following logic courses:

Wayne State University Undergraduate Bulletin 2020-2021
## Traditional Concentration

This option is primarily intended for those students whose interests in Philosophy are broad and general, and for those who are considering doing graduate-level work in Philosophy. A candidate pursuing this concentration must complete a minimum of ten courses in Philosophy, including the Logic Core Course (see above) as well as the following courses and selections from course groups (found in Philosophy Courses (PHI)):

<table>
<thead>
<tr>

<td></td>
</tr>
</tbody>
</table>

### Code Title Credits

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
</table>

1. Two courses in the History of Philosophy group (one in ancient philosophy, and one in modern philosophy):

- Ancient Philosophy (select one of the following):
  - PHI 2100 Ancient Greek Philosophy
  - PHI 2140 Ancient Greek Medicine and Psychology
  - PHI 5400 The Presocratics and Sophists
  - PHI 5410 Plato
  - PHI 5420 Aristotle

- Modern Philosophy (select one of the following):
  - PHI 2110 Philosophy of the Scientific Revolution and Enlightenment
  - PHI 5450 British Empiricism

2. Select one course in the Value Theory Group

- PHI 2320 Introduction to Ethics
- PHI 2330 Introduction to Social and Political Philosophy
- PHI 2360 Feminist Philosophy
- PHI 2390 Philosophy of Human Rights
- PHI 3270 Foundations of Law
- PHI 3700 Philosophy of Art
- PHI 5240 Special Topics in Social and Political Philosophy
- PHI 5250 Justice and Rights in Health Care
- PHI 5260 Philosophy of Sex and Gender
- PHI 5270 Philosophy of Law
- PHI 5280 History of Ethics
- PHI 5290 Free Will and Moral Responsibility
- PHI 5300 Foundations of Ethics

3. Select one course in the Philosophical Problems Group

- PHI 2400 Introduction to the Philosophy of Religion
- PHI 2550 Introduction to Philosophy of Science
- PHI 2650 Philosophy of Psychology
- PHI 3500 Theory of Knowledge
- PHI 3550 Metaphysics
- PHI 3600 Space, Time, and the Philosophy of Physics
- PHI 5210 Philosophy of Race and Racism
- PHI 5230 Philosophy of Science
- PHI 5500 Topics in Metaphysics
- PHI 5530 Topics in Epistemology
- PHI 5550 Philosophy of Mind
- PHI 5570 Philosophy of Language
- PHI 5630 Twentieth Century Analytic Philosophy I

4. Select four 5000-level courses (other than 5990), which must total at least 14 credits

Note: Courses taken at the 5000-level which are used to satisfy any of requirements 1-3 may also be counted toward requirement 4, though the ten-course minimum for the major must still be met. PHI 5990 (Directed Reading) will not count toward the 14 credits at the 5000-level, except under special circumstances, and with the permission of the supervising instructor and the Director of Undergraduate Studies.

## Law, Ethics and Justice Concentration

This option is intended for students who have a special interest in ethical issues, social justice, philosophy of law, or pre-law. A candidate pursuing this concentration must complete a minimum of ten courses in Philosophy, including the Core Courses (see above) as well as the following courses and selections from course groups:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
</table>

1. One course in the History of Philosophy group

- PHI 2100 Ancient Greek Philosophy
- PHI 2110 Philosophy of the Scientific Revolution and Enlightenment
- PHI 2140 Ancient Greek Medicine and Psychology
- PHI 5400 The Presocratics and Sophists
- PHI 5410 Plato
- PHI 5420 Aristotle
- PHI 5450 British Empiricism

2. Select one course from the Philosophical Problems Group

- PHI 2400 Introduction to the Philosophy of Religion
- PHI 2550 Introduction to Philosophy of Science
- PHI 2650 Philosophy of Psychology
- PHI 3500 Theory of Knowledge
- PHI 3550 Metaphysics
- PHI 3600 Space, Time, and the Philosophy of Physics
- PHI 5210 Philosophy of Race and Racism
- PHI 5230 Philosophy of Science
- PHI 5500 Topics in Metaphysics
- PHI 5530 Topics in Epistemology
- PHI 5550 Philosophy of Mind
- PHI 5570 Philosophy of Language
- PHI 5630 Twentieth Century Analytic Philosophy I

3. PHI 2320 - (PL) Introduction to Ethics

4. One course in Philosophy of Law, Politics, or Human Rights

- PHI 2330 Introduction to Social and Political Philosophy
- PHI 2390 Philosophy of Human Rights
- PHI 3270 Foundations of Law
- PHI 5240 Special Topics in Social and Political Philosophy
- PHI 5270 Philosophy of Law
- Or other approved course in social and political philosophy, philosophy of law, or human rights.

5. One course in Applied Ethics

- PHI 1100 Contemporary Moral Issues
- PHI 1110 Ethical Issues in Health Care
- PHI 1120 Professional Ethics
- PHI 1130 Environmental Ethics
- PHI 1500 Race, Sex, and Religion
- PHI 2360 Feminist Philosophy
- PHI 5250 Justice and Rights in Health Care
Honors in philosophy is determined on the basis of the student's overall record. The student will normally be required to have:

1. a minimum grade point average of 3.3,
2. credit in at least three philosophy courses, and
3. a 'B' or better average in philosophy courses.

To remain in the philosophy honors program, the student must maintain a 'B' or better average in philosophy courses.

Honors Requirements: To receive an Honors Degree, the candidate must complete the course requirements for the regular major. In addition the candidate must complete a total of at least fifteen credits of Honors-designated coursework, including:

1. PHI 4890 during the candidate's senior year;
2. one 4000-level seminar offered through the Honors College;
3. at least six additional credits of Honors-designated coursework in Philosophy (other than PHI 4890); and
4. additional credits of Honors-designated coursework as needed to reach the fifteen-credit minimum.

At graduation, the overall grade point average must be at least 3.3. If at any point the student fails to maintain Honors standards, his or her credits will automatically be counted towards the regular degree major. Students interested in becoming candidates for the Honors Degree in philosophy should consult the Department's undergraduate advisor as soon as possible.

Health Care Ethics Minor

This option is primarily intended for students interested in ethics and moral issues related to medicine, health care, and science, or for students intending to pursue a career in a health care field. A candidate pursuing this minor must complete a minimum of five courses selected from the philosophy course listings (https://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/philosophy/#courselstext), including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHI 1070</td>
<td>Reasoning and Decision</td>
<td></td>
</tr>
<tr>
<td>PHI 2850</td>
<td>Introductory Symbolic Logic</td>
<td></td>
</tr>
<tr>
<td>PHI 2860</td>
<td>Honors Introductory Symbolic Logic</td>
<td></td>
</tr>
<tr>
<td>PHI 5050</td>
<td>Advanced Symbolic Logic</td>
<td></td>
</tr>
</tbody>
</table>

2. Introductory Ethics Requirement

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</tr>
</tbody>
</table>

5. At least one Philosophy course at the 5000-level

- A 5000-level course taken to satisfy requirement 1 or 4 may also be used to satisfy requirement 5, though the five course minimum must still be met. Students wishing to do this must consult the instructor.

Humanities Minor

A candidate pursuing a Humanities Minor must complete a minimum of six courses and 18 total credits in the departments of Philosophy, English, and Classical and Modern Languages, Literatures, and Cultures (CMLLC), including the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Two PHI courses (at least one of which must be at the 2000 level or above)</td>
<td>6</td>
<td></td>
</tr>
<tr>
<td>Two ENG courses (at least one of which must be at the 5000 level or above)</td>
<td>6</td>
<td></td>
</tr>
<tr>
<td>Two courses from CMLLC at the 2000 level or above *</td>
<td>6</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 18

* View a list of courses offered by the CMLLC department. (p. )

Note: No more than two courses for the Humanities Minor may be double-counted toward a Major in Philosophy, English, or a CMLLC program.

Medical Humanities Minor

A candidate pursuing a Medical Humanities Minor must complete a minimum of eighteen (18) total credits.

Note: No more than two courses for the Medical Humanities Minor may be double-counted toward a Major in Philosophy, English, or a CMLLC program.

<table>
<thead>
<tr>

- **PHI 5250** Justice and Rights in Health Care

Ethics and Cultural Diversity Course 3

- **AFS 2210** Black Social and Political Thought
- **AFS 2390** Introduction to African-American Literature: Literature and Writing
- **ENG 3470** Survey of African-American Literature
- **ENG 5030** Topics in Women’s Studies
- **ENG 5035** Topics in Gender and Sexuality Studies
- **ENG 5480** Topics in African American Literature
- **ENG 5595** World Literature in English
- **GLS 2900** Intercultural Competence for a Global World
- **GSW 2500** Humanities Perspectives on Gender, Sexuality, and Women
- **PHI 1100** Contemporary Moral Issues
- **PHI 1500** Race, Sex, and Religion
- **PHI 2320** Introduction to Ethics
- **PHI 2360** Feminist Philosophy
- **PHI 2390** Philosophy of Human Rights
- **PHI 5260** Philosophy of Sex and Gender
- **PHI 5230** Philosophy of Science

Elective course (maximum 3 credits) 3

- Any course listed above
- Any course in PHI at the 2000 level or above
- Any course in ENG at the 3000 level or above
- Any course in CMLLC at the 2020 level or above *
- **ANT 3400** Introduction to Medical Anthropology
- **ANT 5140** Biology and Culture
- **ANT 5180** Forensic Anthropology
- **HIS 5407** The Scientific Revolution
- **NFS 2030** Nutrition and Health
- **PH 2100** Introduction to Public Health
- **SOC 2210** Sociology of Health and Medicine

**Philosophy Minor**

This option is primarily intended for those students whose interests in philosophy are broad and general. A candidate pursuing this minor must complete a minimum of five courses selected from the philosophy course listings (p. ), including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHI 1050</td>
<td>Critical Thinking</td>
<td>1</td>
</tr>
<tr>
<td>PHI 1070</td>
<td>Reasoning and Decision</td>
<td>1</td>
</tr>
<tr>
<td>PHI 2850</td>
<td>Introductory Symbolic Logic</td>
<td>1</td>
</tr>
<tr>
<td>PHI 2860</td>
<td>Honors Introductory Symbolic Logic</td>
<td>1</td>
</tr>
<tr>
<td>PHI 5050</td>
<td>Advanced Symbolic Logic</td>
<td>1</td>
</tr>
</tbody>
</table>

2. One course at the 2000- or 3000-level (other than PHI 2850 or 2860)

3. One course at the 5000-level or above (other than PHI 5990)

4. Two additional courses of the candidate’s choice (other than 5990)

* PHI 5050 taken in compliance with requirement 1 may be used to satisfy requirement 4, though the five course minimum must still be met. Students wishing to do this must consult the instructor.

**Pre-Law Minor**

This option is primarily intended for students intending on going to Law School, or for students especially interested in issues related to philosophy of law. A candidate pursuing this minor must complete a minimum of five courses selected from the philosophy course listings (https://bulletins.wayne.edu/undergraduate/college-liberal-arts-sciences/philosophy/#coursestext), including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

<td>Honors Introductory Symbolic Logic</td>
<td>1</td>
</tr>
<tr>
<td>PHI 5050</td>
<td>Advanced Symbolic Logic</td>
<td>1</td>
</tr>
</tbody>
</table>

2. Two of the following courses:

| PHI 2320 | Introduction to Ethics | 1 |
| PHI 2330 | Introduction to Social and Political Philosophy | 1 |
| PHI 2390 | Philosophy of Human Rights | 1 |
| PHI 3270 | Foundations of Law | 1 |
| PHI 5240 | Special Topics in Social and Political Philosophy | 1 |
| PHI 5270 | Philosophy of Law | 1 |

3. One of the following courses:

| PHI 1100 | Contemporary Moral Issues | 1 |
| PHI 1110 | Ethical Issues in Health Care | 1 |
| PHI 1120 | Professional Ethics | 1 |
| PHI 1130 | Environmental Ethics | 1 |
| PHI 1500 | Race, Sex, and Religion | 1 |
| PHI 2360 | Feminist Philosophy | 1 |
| PHI 5210 | Philosophy of Race and Racism | 1 |
Physics and Astronomy

Office: 135 Physics Research Building; 313-577-2721
Chairperson: David Cinabro
Academic Services Officer: J. Scott Payson
Undergraduate Academic Advisor: Dawn Niedermiller
http://www.physics.clas.wayne.edu/

Physics is the science that describes the behavior of the physical world. It is the most basic of all sciences and as such is responsible for the interpretation of fundamental physical processes which support many other scientific disciplines. The study of physics involves many of the significant ideas that have shaped Western civilization, and the excitement of ongoing scientific challenges. Currently, physicists conduct research into the basic laws of nature and also make use of these ideas to design and develop new technologies. Thus, training in physics offers a variety of opportunities. Careers are possible in research laboratories, in academic teaching capacities, in hospitals, the military, power plants, museums, patent law firms, computer companies, and in a host of other areas.

Faculty members in this Department are devoted to teaching and research and hold national and international reputations in their areas of specialization, which include: high energy physics, nuclear physics, atomic physics, the physics of condensed matter, material science, mathematical physics, applied physics, and quantum field theory. They organize and participate in conferences, publish extensively, and receive numerous outside grants, contracts and fellowships. In addition, they engage in many collaborations with scientists in both foreign and American universities and national laboratories.

Physics Colloquium: The department colloquium is normally held Thursday afternoons. Advanced undergraduates are invited to attend.

- Astronomy (B.A.) (p. 327)
- Astronomy Minor (p. 328)
- Biomedical Physics (B.S.) (p. 328)
- Biomedical Physics Minor (p. 329)
- Physics (B.A.) (p. 329)
- Physics (B.S.) (p. 330)
- Physics Minor (p. 332)

Courses for Non-Science Majors

The Department of Physics and Astronomy offers several courses designed primarily for non-science majors for which only minimal high school mathematics preparation is needed. The courses are:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>AST 2010</td>
<td>Descriptive Astronomy</td>
<td>4</td>
</tr>
<tr>
<td>PHY 1020</td>
<td>Conceptual Physics: The Basic Science</td>
<td>4</td>
</tr>
<tr>
<td>PHY 3100</td>
<td>The Sounds of Music</td>
<td>4</td>
</tr>
</tbody>
</table>

The laboratories connected with AST 2010, PHY 1020, and PHY 3100 satisfy the natural science laboratory group requirements.

Astronomy (B.A.)

This program is intended to provide students with foundational knowledge in astronomy and space science. Students will graduate with strong scientific preparation and communication skills and will have a wide range of career options including entry-level jobs as well as graduate education in law, business, education, social and physical sciences. In short, these students will have all the traditional options of liberal arts majors with the added advantage of a unique science background.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

Note: In some cases the requirements of a specific program will increase the number of credits above 120.

The University requirement for a writing intensive (WI) course in the major field is satisfied by:

1. PHY 6850 for the Bachelor of Science and Bachelor of Arts degrees in Physics
2. AST 4200 for the Bachelor of Arts in Astronomy degree
3. PHY 6780 for Bachelor of Science in Biomedical Physics degree

It should be noted in each case that the requirement is satisfied by an additional writing project beyond the normal course requirements.

Students must receive a grade of C- or better in all physics and/or astronomy courses. A cumulative grade point average of 2.0 or higher for all course work is required for graduation.

Students should consult with the Undergraduate Academic Advisor in the Physics Research Building for more detailed information concerning the various degrees and options outlined below.

Additionally, student must complete:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

Astronomy Minor

The Department of Physics and Astronomy offers a minor in astronomy to qualified students. The requirement for a minor consists of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2170</td>
<td>University Physics for Scientists I</td>
<td>4</td>
</tr>
<tr>
<td>or PHY 2130</td>
<td>Physics for the Life Sciences I</td>
<td></td>
</tr>
<tr>
<td>PHY 2171</td>
<td>University Physics Laboratory I</td>
<td>1</td>
</tr>
<tr>
<td>or PHY 2131</td>
<td>Physics for the Life Sciences Laboratory</td>
<td></td>
</tr>
<tr>
<td>PHY 2180</td>
<td>University Physics for Scientists II</td>
<td>4</td>
</tr>
<tr>
<td>or PHY 2140</td>
<td>Physics for the Life Sciences II</td>
<td></td>
</tr>
<tr>
<td>PHY 2181</td>
<td>University Physics Laboratory II</td>
<td>1</td>
</tr>
<tr>
<td>or PHY 2141</td>
<td>Physics for the Life Sciences Laboratory</td>
<td></td>
</tr>
<tr>
<td>PHY 3300</td>
<td>Introductory Modern Physics</td>
<td>3</td>
</tr>
<tr>
<td>PHY 3310</td>
<td>Introductory Modern Physics Laboratory</td>
<td>2</td>
</tr>
<tr>
<td>Select three courses from the following:</td>
<td></td>
<td>9</td>
</tr>
<tr>
<td>AST 4100</td>
<td>Astronomical Techniques</td>
<td></td>
</tr>
<tr>
<td>AST 4300</td>
<td>Planetary Astronomy and Space Science</td>
<td></td>
</tr>
<tr>
<td>AST 5010</td>
<td>Astrophysics and Stellar Astronomy</td>
<td></td>
</tr>
<tr>
<td>AST 5100</td>
<td>Galaxies and the Universe</td>
<td></td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>24</td>
</tr>
</tbody>
</table>

1. A student may present credits in PHY 2130, PHY 2140 or equivalent, in lieu of PHY 2170 and PHY 2180, with the consent of the Departmental Undergraduate advisor.

Electives to complete credits required for the degree may include any courses from the College of Liberal Arts and Sciences.

Biomedical Physics (B.S.)

Biomedical Physics deals with applications of physics to questions of biology and medicine. It is an interdisciplinary program, combining courses from physics, biology and medicine designed to train students to use quantitative, physical science inspired approaches to problems of the life sciences. Graduates of this program will be prepared for careers or graduate studies in biophysics, medicine, biomedical engineering, medical physics or any other field requiring physical and technological approaches to medical or biological questions.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. In addition, a student must possess an overall g.p.a of at least 3.0 for the following four courses to become a B.S. candidate in Biomedical Physics:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2130</td>
<td>Physics for the Life Sciences I</td>
<td></td>
</tr>
<tr>
<td>or PHY 2170</td>
<td>University Physics for Scientists I</td>
<td></td>
</tr>
<tr>
<td>&amp; PHY 2131</td>
<td>Physics for the Life Sciences Laboratory</td>
<td></td>
</tr>
<tr>
<td>PHY 2140</td>
<td>Physics for the Life Sciences II</td>
<td></td>
</tr>
<tr>
<td>&amp; PHY 2141</td>
<td>Physics for the Life Sciences Laboratory</td>
<td></td>
</tr>
</tbody>
</table>

Option 1

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2170</td>
<td>University Physics for Scientists I</td>
<td></td>
</tr>
<tr>
<td>&amp; PHY 2171</td>
<td>University Physics Laboratory I</td>
<td></td>
</tr>
<tr>
<td>PHY 2180</td>
<td>University Physics for Scientists II</td>
<td></td>
</tr>
<tr>
<td>&amp; PHY 2181</td>
<td>University Physics Laboratory II</td>
<td></td>
</tr>
<tr>
<td>MAT 2010</td>
<td>Calculus I</td>
<td>4</td>
</tr>
<tr>
<td>MAT 2020</td>
<td>Calculus II</td>
<td>4</td>
</tr>
</tbody>
</table>

Candidates must complete at least 123 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees. All students will be required to maintain an overall grade point average of ‘C’ (2.0) for all degree work elected, as well as a grade point average of at least 2.5 in all major and cognate requirements.

Major Requirements

B.S. candidates must take a minimum of 41 credits including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2130</td>
<td>Physics for the Life Sciences I</td>
<td></td>
</tr>
<tr>
<td>or PHY 2170</td>
<td>University Physics for Scientists I</td>
<td></td>
</tr>
<tr>
<td>PHY 2131</td>
<td>Physics for the Life Sciences Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>or PHY 2171</td>
<td>University Physics Laboratory I</td>
<td></td>
</tr>
<tr>
<td>PHY 2140</td>
<td>Physics for the Life Sciences II</td>
<td>4</td>
</tr>
<tr>
<td>or PHY 2180</td>
<td>University Physics for Scientists II</td>
<td></td>
</tr>
<tr>
<td>PHY 2141</td>
<td>Physics for the Life Sciences Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>or PHY 2181</td>
<td>University Physics Laboratory II</td>
<td></td>
</tr>
<tr>
<td>PHY 3700</td>
<td>Mathematics for Biomedical Physics</td>
<td>4</td>
</tr>
<tr>
<td>PHY 3750</td>
<td>Introduction to Computational Methods</td>
<td>1</td>
</tr>
<tr>
<td>PHY 4700</td>
<td>Introduction to Biomedical Physics</td>
<td>4</td>
</tr>
<tr>
<td>PHY 5340</td>
<td>Optics</td>
<td>5</td>
</tr>
<tr>
<td>&amp; PHY 5341</td>
<td>Optics Laboratory</td>
<td></td>
</tr>
<tr>
<td>PHY 5620</td>
<td>Electronics and Electrical Measurements</td>
<td>5</td>
</tr>
<tr>
<td>&amp; PHY 5621</td>
<td>Electronics and Electrical Measurements Laboratory</td>
<td></td>
</tr>
<tr>
<td>PHY 5750</td>
<td>Biological Physics</td>
<td>4</td>
</tr>
<tr>
<td>PHY 6750</td>
<td>Applied Computational Methods</td>
<td>2</td>
</tr>
<tr>
<td>PHY 6780</td>
<td>Research Methods in Biomedical Physics</td>
<td>3</td>
</tr>
<tr>
<td>ROC 6710</td>
<td>Physics in Medicine</td>
<td>3</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>41</td>
</tr>
</tbody>
</table>

1. If students take PHY 2130 and PHY 2140 then they must earn a cumulative 3.0 g.p.a. in those courses to be able to take PHY 3300.
2. If students choose to take AST 4100 as one of the elective upper-level astronomy classes, then, AST 4200 is a co-requisite.
3. MAT 2010 and MAT 2020 are prerequisites for this course.

Many science and/or engineering majors already take the required calculus and basic physics sequence as part of their studies, however, non-science majors are unlikely to be able to complete the minor in under 24 credits. Students should consult the departmental Undergraduate Academic Advisor for approval of the minor prior to undertaking the program.
Cognate Requirements
B.S. candidates in Biomedical Physics must take:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MAT 2010</td>
<td>Calculus I</td>
<td>4</td>
</tr>
<tr>
<td>MAT 2020</td>
<td>Calculus II</td>
<td>4</td>
</tr>
<tr>
<td>CHM 1220 &amp; CHM 1230</td>
<td>General Chemistry I and General Chemistry I Laboratory</td>
<td>5</td>
</tr>
<tr>
<td>CHM 1240 &amp; CHM 1250</td>
<td>Organic Chemistry I and Organic Chemistry I Laboratory</td>
<td>5</td>
</tr>
<tr>
<td>BIO 1500</td>
<td>Basic Life Diversity (or approved BIO elective)</td>
<td>4</td>
</tr>
<tr>
<td>BIO 1510</td>
<td>Basic Life Mechanisms</td>
<td>4</td>
</tr>
</tbody>
</table>

Select one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHM 2280 &amp; CHM 2290</td>
<td>General Chemistry II: Analytical Chemistry and General Chemistry II: Analytical Chemistry Laboratory</td>
<td>5</td>
</tr>
<tr>
<td>CHM 2220 &amp; CHM 2230</td>
<td>Organic Chemistry II and Organic Chemistry II Laboratory</td>
<td>5</td>
</tr>
<tr>
<td>BIO 1500</td>
<td>Basic Life Diversity (or approved BIO elective)</td>
<td>4</td>
</tr>
<tr>
<td>BIO 1510</td>
<td>Basic Life Mechanisms</td>
<td>4</td>
</tr>
</tbody>
</table>

Total Credits 31

Some of these courses can be waived with the approval of the Biomedical Physics Advisor if a proof of proficiency is provided or a higher level course is substituted.

Science Electives
B.S. candidates in Biomedical Physics must take a total of four additional science, mathematics, engineering, or computer science elective classes beyond the requirements listed above. At least one of these classes must come from the field of biology. These four classes can be chosen from the following list:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIO 2200</td>

Classes not on this list can be taken if prior approval from the undergraduate Physics student advisor has been obtained.

Physics and Biomedical Physics Honors Program
Undergraduate majors, in both Physics and Biomedical Physics, with a minimum grade point average of 3.3 can enroll in the Honors program of the Department of Physics and Astronomy. Prospective students should consult the departmental Undergraduate Academic Advisor as soon as they declare their major to learn about specific requirements.

Biomedical Physics Minor
The Department also offers a minor in Biomedical Physics. The requirements for a minor consist of:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2130</td>
<td>Physics for the Life Sciences I</td>
<td>4</td>
</tr>

<tr>
<td>PHY 6780</td>
<td>Research Methods in Biomedical Physics</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 24

1 Or PHY 5620 and PHY 5621.

The students should consult the departmental Undergraduate Academic Advisor for approval of the minor prior to undertaking the program.

Physics (B.A.)
This program is intended to meet the needs of several kinds of students:
1. students wishing to major in physics who have transferred to Wayne State University after one or two years at a community college, but whose background in physics and mathematics does not complement the content, level, or scheduling of remaining course requirements well enough to permit completion of the Bachelor of Science degree curriculum in a reasonable time;
2. students who wish to pursue a general course of education in the sciences with physics as an area of concentration. Those who undertake such a program are sometimes interested in the study of physics as an integrated part of a broad educational background;
3. students who decide relatively late in their college careers (for example, during the sophomore year) that they wish to major in physics.

It should be emphasized that completion of the Bachelor of Arts program instead of the Bachelor of Science program does not preclude later graduate work in physics. In most cases, it will mean that the student will spend part or all of his/her first year in graduate school making up deficiencies in his or her physics and mathematics background. Generally speaking, such deficiencies may be determined by consulting the Suggested Course Sequence of the Bachelor of Science degree in physics.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

Note: In some cases the requirements of a specific program will increase the number of credits above 120.

The University requirement for a writing intensive (WI) course in the major field is satisfied by:

1. PHY 6850 for the Bachelor of Science and Bachelor of Arts degrees in Physics
2. AST 4200 for the Bachelor of Arts in Astronomy degree
3. PHY 6780 for Bachelor of Science in Biomedical Physics degree

It should be noted in each case that the requirement is satisfied by an additional writing project beyond the normal course requirements.

Students must receive a grade of C- or better in all physics and/or astronomy courses. A cumulative grade point average of 2.0 or higher for all course work is required for graduation.

Students should consult with the Undergraduate Academic Advisor in the Physics Research Building for more detailed information concerning the various degrees and options outlined below.

Additionally, student must complete:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 2170</td>
<td>University Physics for Scientists I 1</td>
<td>4</td>
</tr>
<tr>
<td>PHY 2171</td>
<td>University Physics Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>PHY 2180</td>
<td>University Physics for Scientists II 1</td>
<td>4</td>
</tr>
<tr>

<td>University Physics Laboratory II</td>
<td>1</td>
</tr>
<tr>
<td>PHY 3300</td>
<td>Introductory Modern Physics</td>
<td>3</td>
</tr>
<tr>
<td>PHY 3310</td>
<td>Introductory Modern Physics Laboratory</td>
<td>2</td>
</tr>
</tbody>
</table>

PHY 5100 Methods of Theoretical Physics I 3
PHY 5200 Classical Mechanics I 3
PHY 5340 Optics 5
& PHY 5341 and Optics Laboratory
PHY 5620 Electronics and Electrical Measurements 5
& PHY 5621 and Electronics and Electrical Measurements Laboratory
PHY 6850 Modern Physics Laboratory 2

Select one of the following: 3-4

PHY 6400 Quantum Physics I
PHY 6500 Thermodynamics and Statistical Physics
PHY 6600 Electromagnetic Fields I

MAT 2010 Calculus I 4
MAT 2020 Calculus II 4
MAT 2030 Calculus III 4
MAT 2150 Differential Equations and Matrix Algebra 4
CSC 2000 Introduction to C++ Programming Language 3
CHM 1220 General Chemistry I 5
& CHM 1230 and General Chemistry I Laboratory

Total Credits 60-61

1 A student may present credits in PHY 2130, PHY 2140 or equivalent, in lieu of PHY 2170 and PHY 2180, with the consent of the Departmental Undergraduate advisor.

Physics and Biomedical Physics Honors Program

Undergraduate majors, in both Physics and Biomedical Physics, with a minimum grade point average of 3.3 can enroll in the Honors program of the Department of Physics and Astronomy. Prospective students should consult the departmental Undergraduate Academic Advisor as soon as they declare their major to learn about specific requirements.

Physics (B.S.)

The Bachelor of Science program offers several options. Each option is designed to meet the needs of a particular group of students although each is flexible enough to avoid limiting the student to a particular future program. Students take a logically-developed sequence of physics courses on a broad range of topics. The introductory sequence uses calculus, and later courses investigate single areas in greater depth, using more advanced mathematics. In advanced laboratory courses the physics student uses sophisticated equipment and sometimes has an opportunity to join a research team.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

Note: In some cases the requirements of a specific program will increase the number of credits above 120.
The University requirement for a writing intensive (WI) course in the major field is satisfied by:

1. PHY 6850 for the Bachelor of Science and Bachelor of Arts degrees in Physics
2. AST 4200 for the Bachelor of Arts in Astronomy degree
3. PHY 6780 for Bachelor of Science in Biomedical Physics degree

It should be noted in each case that the requirement is satisfied by an additional writing project beyond the normal course requirements.

Students must receive a grade of C- or better in all physics and/or astronomy courses. A cumulative grade point average of 2.0 or higher for all course work is required for graduation.

Students should consult with the Undergraduate Academic Advisor in the Physics Research Building for more detailed information concerning the various degrees and options outlined below.

Total Credits: 36

### Engineering and Applied Physics Option

The B.S. degree in the Engineering and Applied Physics option is intended to provide the interdisciplinary training that is required for a variety of applied fields, while still providing an understanding of the physical foundations of those fields. Programs are designed to combine fundamental physics courses with engineering and other science courses, in order to prepare students for careers in industry (particularly engineering fields) as well as graduate programs in these areas. There is sufficient flexibility in this program that a set of courses can be designed to match a student's interest in such areas as semiconductor physics, material physics, computational physics, biophysics, optics and laser physics, and other areas. Students interested in enriching their education with on-the-job experience may apply for internships with cooperating research laboratories by contacting the departmental undergraduate advisor.

**Additional requirements** beyond the Basic Requirements listed above:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>

</tbody>
</table>

Students should consult the departmental Undergraduate Academic Advisor for approval of the minor prior to undertaking the program.

AGRADE Programs (Accelerated Graduate Enrollment)

Physics AGRAGE Program

Seniors in Physics and Astronomy, with a minimum grade point average of 3.5, may enroll simultaneously in the undergraduate and graduate programs. These students can apply up to fifteen credits towards both the bachelors and masters degrees in physics. Contact Undergraduate Academic Advisor for further information.

Biomedical Physics-BME AGRAGE Program

Outstanding seniors in Biomedical Physics, who have completed at least 90 credits and have an overall GPA of at least 3.5, and major biomedical physics classes GPA at least 3.6, can apply to enter the cross-college AGRAGE program between the Biomedical Physics undergraduate program (College of Liberals Arts and Sciences) and Biomedical Engineering (BME) Master’s programs (College of Engineering). The AGRAGE program allows students to apply up to 15 credits of selected graduate courses, taken as an undergraduate, towards a Master's degree in Biomedical Engineering. The Physics courses that can be counted towards MS-BME degree include PHY 5340/PHY 5341 or PHY 5620/PHY 5621, PHY 5750, and PHY 6780. This enables students to complete an undergraduate degree in Biomedical Physics and a graduate degree in Biomedical Engineering in just 5 years of full-time study. For more details, please contact the undergraduate Physics advisor in the Department of Physics and Astronomy, or the graduate advisor in the Department of Biomedical Engineering.

Interdisciplinary Physics-ECE AGRAGE Program

Outstanding seniors in Physics (both Engineering and Applied Physics option and Advanced Physics option), who have completed at least 90 credits and have an overall GPA of at least 3.5, and major physics classes GPA at least 3.6, can apply to enter the cross-college AGRAGE program between the Physics undergraduate program (College of Liberals Arts and Sciences) and Electrical Engineering (EE) Master’s programs (College of Engineering). The AGRAGE program allows students to apply up to 12 credits of selected graduate courses, taken as an undergraduate, towards a Master's degree in Electrical Engineering. The Physics courses that can be counted towards MS-EE degree include PHY 5340/PHY 5341, PHY 5620/PHY 5621, and PHY 5100. This enables students to complete an undergraduate degree in Physics and a graduate degree in Electrical Engineering in just 5 years of full-time study. For more details, please contact the undergraduate Physics advisor in the Department of Physics and Astronomy, or the graduate advisor in the Department of Electrical and Computer Engineering.

Political Science

Office: 2040 Faculty/Administration Building; 313-577-2630
Chairperson: Daniel S. Geller
Undergraduate Academic advisor: Ryan Ferrante
http://www.clas.wayne.edu/politicalscience/

The study of political science is focused on understanding the nature and problems of government and the role of politics in contemporary society. This is accomplished through systematic exploration of the structure and processes of government at different levels and across nations, through study of individual and collective political behavior, and through analyses of policy problems and the processes through which public policies are formulated and administered. Political science contributes to the goals of general education by promoting civic literacy and cultivating an awareness of the opportunities and obligations of citizenship at local, state, and national levels.

The field of political science is of special importance to students whose career goals include:

1. Professions likely to involve participation in public affairs, including law, engineering, criminal justice, public health, social welfare and education.
2. Administrative or executive positions in government at the local, state or federal levels.
3. Teaching of political and social science at the secondary, junior college and university levels.
4. Positions in the diplomatic service and in foreign and overseas programs of the U.S. Government and of other organizations doing business abroad.
5. Leadership, research, and staff roles in citizen organizations, political parties, campaign organizations, economic and social interest groups, municipal research bureaus, and nonprofit organizations.
6. Positions associated with mass communications, such as radio, television and newspapers, where basic understanding of public affairs and governmental policies and organization is required for accurate reporting and analysis.
Political Science (B.A.)

Political science majors are offered the opportunity to develop programs of study that complement their particular interests and career goals. The major may be used to structure a broad general program or a highly concentrated and specialized one. The following requirements pertain to all B.A. majors.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. To enter the Bachelor of Arts degree program in political science, students must declare their major in accordance with the rules of the College.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees. Students wishing to apply transfer credits toward the major should consult the political science undergraduate advisor regarding departmental policies and restrictions on the use of these credits.

Major Requirements

A political science major must satisfactorily complete at least thirty-two credits of course work in the Department beyond PS 1010 or 1030. This course work must include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PS 1010</td>
<td>American Government</td>
<td>4</td>
</tr>
<tr>
<td>PS 1030</td>
<td>The American Governmental System</td>
<td></td>
</tr>
<tr>
<td>PS 2410</td>
<td>Introduction to Public Policy</td>
<td></td>
</tr>
<tr>
<td>PS 2510</td>
<td>Introduction to Political Ideologies</td>
<td></td>
</tr>
<tr>
<td>PS 2710</td>
<td>Introduction to Comparative Politics</td>
<td></td>
</tr>
<tr>
<td>PS 2810</td>
<td>World Politics</td>
<td></td>
</tr>
<tr>
<td>PS 2820</td>
<td>Introduction to Peace and Conflict Studies</td>
<td></td>
</tr>
<tr>
<td>Select one of the following:</td>
<td></td>
<td>3-4</td>
</tr>
</tbody>
</table>

Select at least four courses at the 3000 level or higher, of which at least one must be at the 4000 level or higher.

A Writing Intensive (WI) course in political science that is taken after having previously completed at least two Political Science courses at the 3000 level or higher.

Recommended Course: It is recommended that majors include PS 3600, Methods of Political Inquiry, in their programs of study.

Political Science Fields of Study

In developing their specific programs of study, students should consult with the political science undergraduate advisor. They may pursue a general program or choose to concentrate in a particular field or subfield. The following are fields in which a student may choose to concentrate. Other areas of concentration and more specialized programs may be developed in consultation with the undergraduate advisor. It is not mandatory that a student have an area of concentration; the listings are only suggestive.

American Government and Politics

Public opinion, electoral politics, and participation in the political process; the role of political parties and interest groups and of the mass media; the workings of Congress, the Presidency, and other governmental institutions. Courses relevant to this area of concentration include (but are not limited to):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<tr>
<td>PS 5820</td>
<td>International Law</td>
<td>4</td>
</tr>
<tr>
<td>PS 5850</td>
<td>Human Rights</td>
<td>4</td>
</tr>
</tbody>
</table>

1. PS 5993 does not count toward fulfillment of this requirement.
   - with co-registration in PS 5993. Any political science course at the 3000-level or higher, except PS 5630 and PS 6640, may, with the permission of the instructor, be used to fulfill this requirement.

2. To satisfy the Writing Intensive requirement, the student must demonstrate proficiency in writing on disciplinary subject matter in a form and style that conform to disciplinary standards. To use a course for this purpose, the student must obtain approval from the instructor and follow the guidelines established by the instructor to demonstrate the required proficiency. The student must also co-register in PS 5993, a zero-credit course for which the student will receive a grade of Satisfactory (S) upon certification by the instructor that the writing requirement has been fulfilled. Note that completion of the WI course has the following prerequisites: a) completion of the Intermediate Composition (IC or ICM) requirement and b) the completion of at least two Political Science courses at the 3000 level or higher.
Urban Politics and Policy
Governing cities in a federal system; economic conditions and urban problems; local policy-making and the constraints under which policy is made. Relevant courses include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>

Pre-Law Curriculum
Political science provides a useful major for students who anticipate applying to law school. For students choosing the Bachelor of Arts
program, a Public Law/Legal Studies concentration drawing upon courses such as those listed below is recommended along with courses in American Government and public policy (numbered with second digits of 0 and 4, respectively). Specific programs of study under either degree option should be developed in consultation with the department's academic advisor.

### Political Science Honors Programs

Bachelor of Arts and Bachelor of Public Affairs majors with strong academic records are encouraged to pursue departmental honors. To be eligible to enter the honors program, a major must have a cumulative grade point average of 3.3. To graduate with honors, students must:

1. Maintain a 3.3 grade point average.
2. Under the direction of one or more members of the department, complete a senior honors paper (PS 4995).
3. Complete all requirements for the Bachelor of Arts or Bachelor of Public Affairs degree.
4. Complete one 4200-level Honors seminar offered through the Honors College, see Honors Courses (HON).
5. Accumulate an additional eight credits in honors-designated course work beyond PS 4995, and the Honors Program seminar. These honors credits can be obtained from any department, including Political Science. For information about honors-designated coursework available each semester.

Students interested in participating in the program should contact the department's undergraduate advisor to determine their eligibility.

### ‘AGRADE’ Program (Accelerated Graduate Enrollment)

**Accelerated Graduate Enrollment:** Bachelor of Arts and Bachelor of Public Affairs majors with superior academic records (top twentieth percentile overall, with at least a 3.6 g.p.a. in the major) are eligible in their senior year (a minimum of 90 credit hours earned) to participate in accelerated graduate enrollment (‘AGRADE’) programs leading to either a Master of Arts degree with a major in political science or a Master of Public Administration degree. The ‘AGRADE’ programs enable students to pursue graduate and undergraduate degrees simultaneously and to apply twelve to fifteen credits of approved course work to both degrees. To participate, students must apply and be accepted into the ‘AGRADE’ program by the Departmental Graduate Committee and secure the approval of the Graduate Officer of the College of Liberal Arts and Sciences in accordance with rules and procedures established by the College. Students should contact the Department’s undergraduate advisor for further details.

### Internships

Internships in government, political campaigns, political advocacy groups, civic organizations, or public agencies provide valuable work-educational experience that enables students to relate knowledge acquired in the classroom to the world-at-large. They also provide practical training that enhances future job prospects. Academic credit may be earned for an internship through enrollment in PS 2992, Political Science Internship, a course that helps to assure the educational relevance of the internship by requiring interns to prepare papers and reports based on their experiences. Interested students should consult the department’s undergraduate advisor.

### Study Abroad Exchange Program with the University of Salford

Students may study for one or two semesters at the University of Salford in Salford, England, and earn Wayne State credits through an exchange agreement between the two universities. Applications may be obtained from the Office of Study Abroad and Global Programs (http://www.studyabroad.wayne.edu). Interested majors or prospective majors should also consult with the Department’s undergraduate advisor.

### Public Affairs (B.P.A.)

The Bachelor of Public Affairs (B.P.A.) prepares qualified students for professional and technical careers in the public service or for advanced study in public affairs and administration, the social sciences and related disciplines. The program is a structured professional curriculum that builds on the foundation of a general liberal arts education. The curriculum incorporates fundamentals of social science theory and applications of that theory to public management and policy analysis. The B.P.A. provides students with skills needed for working in city, county, state and national government, in other public and non-profit agencies, and in positions in private enterprise that deal with governmental relations. Internships afford students an opportunity to apply what they have learned in public service settings. Students interested in this program should consult the political science undergraduate advisor as early as possible in their college careers.

### Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. To declare the B.P.A. as a major, a student must follow the procedures set forth by the College of Liberal Arts and Sciences for declaring a major.

Candidates for the B.P.A. degree must:

1. Complete a total of 120 credits in course work.
2. Satisfy all of the Liberal Arts Group Requirements (p. 254), excepting that the College's foreign language requirement need not be satisfied.
3. Satisfy the University General Education Requirements (p. 35).
4. Satisfy the major requirements listed below.

All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees. Students wishing to apply transfer credits toward the B.P.A. major should consult the political science undergraduate advisor regarding departmental policies and restrictions on the use of these credits.

### Major Requirements

A Bachelor of Public Affairs major must complete a minimum of ten courses, including seven prescribed core courses and three courses within the B.P.A. elective curriculum (see concentration areas below). A Writing Intensive course in political science with a co-registration in PS 5993 is also required. Any political science elective or concentration course at the 3000-level or higher, except PS 5630 and PS 6640, may be used to fulfill this requirement. Students must demonstrate proficiency
in writing on public affairs subject matter in a form and style consistent with B.P.A. standards. Election of a corequisite to PS 5993 must have approval from the instructor and students must follow the instructor’s guidelines to demonstrate required proficiency. Upon certification by the instructor that the writing requirement has been fulfilled, a grade of Satisfactory (‘S’) will be awarded for PS 5993, a ‘zero’ credit course.

Core Curriculum
Candidates for the B.P.A. degree must satisfy the following core course requirements:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</tbody>
</table>

Other Concentrations
With the assistance of the undergraduate advisor, an area of concentration may be specifically designed consisting of political science courses related to a student’s particular career objectives. Such a concentration must consist of a minimum of three separate courses. Any proposal for substitutions of other political science courses for those within the above-designated B.P.A. elective curriculum must be submitted in writing to, and be approved by, the undergraduate advisor of the Department.

Political Science Honors Programs
Bachelor of Arts and Bachelor of Public Affairs majors with strong academic records are encouraged to pursue departmental honors. To
be eligible to enter the honors program, a major must have a cumulative grade point average of 3.3. To graduate with honors, students must:

1. Maintain a 3.3 grade point average.
2. Under the direction of one or more members of the department, complete a senior honors paper (PS 4995).
3. Complete all requirements for the Bachelor of Arts or Bachelor of Public Affairs degree.
4. Complete one 4200-level Honors seminar offered through the Honors College, see Honors Courses (HON).
5. Accumulate an additional eight credits in honors-designated course work beyond PS 4995, and the Honors Program seminar. These honors credits can be obtained from any department, including Political Science. For information about honors-designated coursework available each semester.

Students interested in participating in the program should contact the department’s undergraduate advisor to determine their eligibility.

‘AGRADE’ Program (Accelerated Graduate Enrollment)

Accelerated Graduate Enrollment: Bachelor of Arts and Bachelor of Public Affairs majors with superior academic records (top twentieth percentile overall, with at least a 3.6 g.p.a. in the major) are eligible in their senior year (a minimum of 90 credit hours earned) to participate in accelerated graduate enrollment (‘AGRADE’) programs leading to either a Master of Arts degree with a major in political science or a Master of Public Administration degree. The ‘AGRADE’ programs enable students to pursue graduate and undergraduate degrees simultaneously and to apply twelve to fifteen credits of approved course work to both degrees. To participate, students must apply and be accepted into the ‘AGRADE’ program by the Departmental Graduate Committee and secure the approval of the Graduate Officer of the College of Liberal Arts and Sciences in accordance with rules and procedures established by the College. Students should contact the Department’s undergraduate advisor for further details.

Internships

Internships in government, political campaigns, political advocacy groups, civic organizations, or public agencies provide valuable work-educational experience that enables students to relate knowledge acquired in the classroom to the world-at-large. They also provide practical training that enhances future job prospects. Academic credit may be earned for an internship through enrollment in PS 2992. Political Science Internship, a course that helps to assure the educational relevance of the internship by requiring interns to prepare papers and reports based on their experiences. Interested students should consult the department’s undergraduate advisor.

Study Abroad Exchange Program with the University of Salford

Students may study for one or two semesters at the University of Salford in Salford, England, and earn Wayne State credits through an exchange agreement between the two universities. Applications may be obtained from the Office of Study Abroad and Global Programs (http://www.studyabroad.wayne.edu). Interested majors or prospective majors should also consult with the Department’s undergraduate advisor.

Political Science Minor

Students majoring in other subjects may obtain a minor in political science by completing a minimum of twenty credits in Political Science course work. Information on combinations of courses which emphasize particular subfields of political science is presented in the listing of bachelor of arts concentrations (p. 333). For information on courses of relevance to such majors as economics, journalism, history, sociology, psychology, philosophy, criminal justice, or urban planning, students should consult the department’s undergraduate advisor. A suitable sequence for pre-law students can be provided by the undergraduate advisor.

Psychology

Office: 7th floor, 5057 Woodward; 313-577-2800
Chairperson: Scott Bowen
Associate Chairperson: Emily Grekin
Undergraduate Academic Service Officer: Shelly Seguin
Undergraduate Academic Advisors: Cody Bailey-Crow, Corinne Forys, Solaf Matti
http://www.clas.wayne.edu/psychology/

Undergraduate training offered by the Department of Psychology serves several related purposes. For the science major and the liberal arts major, the study of psychology provides an opportunity to learn the scientific approach to the study of behavior which will include material helpful in increasing self-understanding and insight into the behavior of others. For students preparing for medicine, law, education, nursing, business, and other professions, psychology provides important basic knowledge useful in these vocations. For those planning to pursue graduate study in psychology, the undergraduate program establishes a sound foundation.

Psychology Mass Advising Meeting

Attendance at one of the meetings is mandatory for all psychology majors. Students are expected to attend prior to their first advising appointment.

Prospective and current WSU students who are considering majoring or minoring in psychology should attend to learn about the major and opportunities within the field. It is also helpful for individuals who are considering pursuing psychology as a second career and/or graduate studies. Meetings will cover psychology major requirements, information about graduate school, research experience, volunteer experience, the GRE, career resources, tips for success and much more. Attendance at one of the meetings is mandatory for all psychology majors. Students are encouraged to attend as soon as possible.

RSVP here (https://wayneestate.a2z.qualtrics.com/jfe/form/SV_4YqujklnzrhRyZL/). You may attend without first RSVP’ing, but to ensure we have enough space we appreciate knowing that you are attending. Feel free to bring parents and/or interested friends.

- Psychology (B.A.) (p. 338)
- Psychology (B.S.) (p. 339)
- Psychology Minor (p. 340)
- Health Psychology Minor (p. 337)

Health Psychology Minor

Minor Requirements:
- For a minor in health psychology, a student must complete a minimum of twenty credits in psychology.
- This minor is not available to Psychology majors.
- At least three PSY courses must be taken at Wayne State.
- PSY 4993 or PSY 4994 (offered for S and U grades only) may not be counted in the twenty required credits.
• Students must have a cumulative minimum 2.0 GPA in PSY coursework to graduate.

Course Requirements:

• PSY 1010 (minimum grade C) or PSY 1020+PSY 1030 (minimum grade C)
• PSY 2020
• PSY 2410
• PSY 3120
• PSY 3310
• Choose from the following electives if needed to reach twenty credit minimum
  • PSY 2080
  • PSY 2400
  • PSY 3380

Psychology (B.A.)

Undergraduate training offered by the Department of Psychology serves several related purposes. For the science major and the liberal arts major, the study of psychology provides an opportunity to learn the scientific approach to the study of behavior which will include material helpful in increasing self-understanding and insight into the behavior of others. For students preparing for medicine, law, education, nursing, business, and other professions, psychology provides important basic knowledge useful in these vocations. For those planning to pursue graduate study in psychology, the undergraduate program establishes a sound foundation. Psychology-related employment for graduates with a bachelor’s degree has increased in recent years. Such employment, of course, has depended on the personal characteristics of the individual, on the special qualifications and training of the individual, and particularly on job opportunity.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Psychology Mass Advising / Information Meeting

Attendance at one of the meetings is mandatory for all psychology majors. Students are expected to attend prior to their first advising appointment.

Prospective and current WSU students who are considering majoring or minoring in psychology should attend to learn about the major and opportunities within the field. It is also helpful for individuals who are considering pursuing psychology as a second career and/or graduate studies. Meetings will cover psychology major requirements, information about graduate school, research experience, volunteer experience, career development, tips for success and much more. Attendance at one of the meetings is mandatory for all psychology majors. Students are encouraged to attend as soon as possible.

RSVP here (https://waynestate.az1.qualtrics.com/jfe/form/SV_4Yqjk1nzhRHylZL/). You may attend without first RSVP’ing, but to ensure we have enough space we appreciate knowing that you are attending. Feel free to bring parents and/or interested friends.

Candidates must complete minimum of 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

Major Requirements

• To graduate with a major in psychology, a student must complete satisfactorily at least thirty-four credits in PSY courses BEYOND the credits for PSY 1010 or PSY 1020+PSY 1030 (Introductory Requirement).
• Students must also attend the Psychology Mass Advising Meeting. This two hour meeting is offered approximately every two weeks at various days/times. Students need to attend only once, but must be present for the full meeting. Students are expected to attend either prior to or upon declaring major in psychology. Current schedule can be found at http://www.clas.wayne.edu/psychology/Advising (http://www.clas.wayne.edu/psychology/Advising/).
• Transfer students must complete at least twenty credits in the Psychology Department at Wayne State University.

</tbody>
</table>

Elective Courses
As needed to satisfy the minimum credit requirement (thirty-four PSY credits BEYOND the Introductory Psychology Requirement). Students usually need three to five elective PSY courses.

1. PSY 2020 is a mandatory prerequisite for other courses, such as PSY 2030, PSY 3993 and PSY 5020. Students are strongly encouraged to take PSY 2020 within one year after completion of the Introductory Psychology requirement. A minimum grade of C is required for Psychology majors. PSY 2020 can only be repeated one time.

2. PSY 2030 is a mandatory prerequisite for other courses, such as PSY 3993 and PSY 5020. Students are strongly encouraged to take PSY 2030 within one year after completion of the Introductory Psychology requirement. A minimum grade of C is required for Psychology majors. PSY 2030 can only be repeated one time.

Preparation for Psychology Graduate Work
While individual graduate programs in psychology have different requirements for admission, students who intend to do graduate work are advised to earn the B.A. or B.S. degree and select courses that are consistent with their intended area of study. Students are also encouraged to obtain research experience. A psychology advisor will help tailor a plan-of-work that is based on academic and career goals. Additional courses in mathematics, computer science, biology, and sociology are strongly recommended for students pursuing graduate work in psychology and for students who plan to apply for professional programs.

Psychology Honors Program
Students with an overall grade point average of 3.3 and a Psychology grade point average of 3.5 are eligible for admission to the Department's Honors Program. Satisfactory completion of the Honors Program will lead to a degree 'With Psychology Honors' on the diploma. Students interested in the program should obtain detailed information from the Psychology Department Undergraduate Advising Office.

Honors Sections provide smaller classes, somewhat more advanced readings, and opportunities for independent work by students. Students must complete a minimum of eighteen credits in honors coursework, including: PSY 5020 (Honors Research in Psychology), PSY 4991 (three-credit Honors Directed Study), PSY 4998 (Senior Thesis), and one additional PSY course designated as honors through an honors section or honors option contract. Students must also complete an Honors Seminar from the HON 42xx series.

Psychology (B.S.)
Undergraduate training offered by the Department of Psychology serves several related purposes. For the science major and the liberal arts major, the study of psychology provides an opportunity to learn the scientific approach to the study of behavior which will include material helpful in increasing self-understanding and insight into the behavior of others. For students preparing for medicine, law, education, nursing, business, and other professions, psychology provides important basic knowledge useful in these vocations. For those planning to pursue graduate study in psychology, the undergraduate program establishes a sound foundation. Psychology-related employment for graduates with a bachelor's degree has increased in recent years. Such employment, of course, has depended on the personal characteristics of the individual, on the special qualifications and training of the individual, and particularly on job opportunity.

Admission Requirements
Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Psychology Mass Advising / Information Meeting
Attendance at one of the meetings is mandatory for all psychology majors. Students are expected to attend prior to their first advising appointment.

Prospective and current WSU students who are considering majoring or minoring in psychology should attend to learn about the major and opportunities within the field. It is also helpful for individuals who are considering pursuing psychology as a second career and/or graduate studies. Meetings will cover psychology major requirements, information about graduate school, research experience, volunteer experience, career development, tips for success and much more. Attendance at one of the meetings is mandatory for all psychology majors. Students are encouraged to attend as soon as possible.

RSVP here (https://waynestate.az1.qualtrics.com/jfe/form/SV_4YqujklnzrhRyZL/). You may attend without first RSVP’ing, but to ensure we have enough space we appreciate knowing that you are attending. Feel free to bring parents and/or interested friends.

Candidates must complete minimum of 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

Major Requirements
- To graduate with a major in psychology, a student must complete satisfactorily at least thirty-four credits in PSY courses BEYOND the credits for PSY 1010 or PSY 1020+PSY 1030 (Introductory Requirement).
- Students must also attend the Psychology Mass Advising Meeting. This two hour meeting is offered approximately every two weeks at various days/times. Students need to attend only once, but must be present for the full meeting. Students are expected to attend either prior to or upon declaring major in psychology. Current schedule can be found at http://www.clas.wayne.edu/Psychology/Advising (http://www.clas.wayne.edu/Psychology/Advising/).
- Transfer students must complete at least twenty credits in the Psychology Department at Wayne State University.
- Bachelor of Science requires a minimum of 27 credits of non-Psychology science. See a Psychology advisor for list of applicable courses.

Degree requirements include:
## Introductory Requirement (Select one of the following):

For psychology majors, a minimum grade of C in the Introductory Psychology Requirement is a prerequisite for all other PSY courses. Students must have at least a 2.0 overall grade point average in their psychology coursework to graduate. PSY 1010 is recommended over PSY 1020 for students who intend to major in psychology.

## Preparation for Psychology Graduate Work

While individual graduate programs in psychology have different requirements for admission, students who intend to do graduate work are advised to earn the B.A. or B.S. degree and select courses that are consistent with their intended area of study. Students are also encouraged to obtain research experience. A psychology advisor will help tailor a plan-of-work that is based on academic and career goals. Additional courses in mathematics, computer science, biology, and sociology are strongly recommended for students pursuing graduate work in psychology and for students who plan to apply for professional programs.

## Psychology Honors Program

Students with an overall grade point average of 3.3 and a Psychology grade point average of 3.5 are eligible for admission to the Department’s Honors Program. Satisfactory completion of the Honors Program will lead to a degree ‘With Psychology Honors’ on the diploma. Students interested in the program should obtain detailed information from the Psychology Department Undergraduate Advising Office.

**Honors Sections** provide smaller classes, somewhat more advanced readings, and opportunities for independent work by students. Students must complete a minimum of eighteen credits in honors coursework, including: PSY 5020 (Honors Research in Psychology), PSY 4991 (three-credit Honors Directed Study), PSY 4998 (Senior Thesis), and one additional PSY course designated as honors through an honors section or honors option contract. Students must also complete an Honors Seminar from the HON 42xx series.

## Psychology Minor

**Minor Requirements:**

- For a minor in psychology, a student must complete a minimum of twenty credits in psychology.
- At least three PSY courses must be taken at Wayne State.
- PSY 4993 or PSY 4994 (offered for S and U grades only) may not be counted in the twenty required credits.
- Students must have a cumulative minimum 2.0 GPA in PSY coursework to graduate.

**Course Requirements:**

- PSY 1010 (minimum grade C) or PSY 1020 + PSY 1030 (minimum grade C)
- PSY 2020
- Three to four more PSY courses to reach twenty credit minimum
- At least one course must be at 3000-level or higher
- At least one course must not also be applied to a student’s major.
Public Health

Program Directors: Heather Dillaway
Undergraduate Academic Advisors: Christie Pagel (A-J) and Margaret Mackeverican (K-Z; AGRADE)
http://clas.wayne.edu/public-health (http://clas.wayne.edu/public-health/)

Public health is the science of protecting and improving the health of people and their communities. This work is achieved by promoting healthy lifestyles, detecting and limiting health disparities, and researching disease and injury prevention. A large part of public health is also about promoting healthcare equity, quality and accessibility.

The College of Liberal Arts and Sciences offers training in a broad range of public health issues to undergraduate students interested in careers in both public health practice and applied public health research. Students will learn to ask questions, challenge assumptions, and explore answers to promote the health and well-being of communities locally, nationally and globally. In particular, students will learn how to be a catalyst for change in Detroit and beyond and facilitate health equity for years to come. Core courses in the public health major and minor allow students to gain competencies in the following areas:

- Social determinants of health
- Health disparities and health equity
- Environmental health
- Epidemiology
- Biostatistics
- Research methods and applied methodological approaches
- Public health practice

Students wishing to pursue the major or minor in Public Health should meet with an Undergraduate Academic Advisor in Public Health (https://clas.wayne.edu/public-health/advising/).

Public Health (B.S.)

The College of Liberal Arts and Sciences and the School of Medicine offers training in public health issues and policies to students interested in a broad range of health careers. Students will learn to ask questions, challenge assumptions, and explore answers to promote the health and well-being of communities locally, nationally and globally.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.

Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees. Students must receive a grade of C or better in all Public Health core courses and a C- or better in all approved electives. A grade point average of 2.0 (C) in both Public Health and general required courses are required for graduation.

Major Requirements

Students must complete 38-41 credits distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PH 2100</td>
<td>Introduction to Public Health</td>
<td>3</td>
</tr>
<tr>
<td>PH 3100</td>
<td>Social and Behavioral Aspects of Public Health</td>
<td>3</td>
</tr>
<tr>
<td>PH 3200</td>
<td>Introduction to Biostatistics ¹</td>
<td>4</td>
</tr>
<tr>
<td>PH 3300</td>
<td>Epidemiology ¹</td>
<td>4</td>
</tr>
<tr>
<td>PH 3500</td>
<td>Environmental Health</td>
<td>3</td>
</tr>
<tr>
<td>PH 4100</td>
<td>Public Health Principles and Practice</td>
<td>2</td>
</tr>
<tr>
<td>PH 4150</td>
<td>Public Health Practicum</td>
<td>2</td>
</tr>
<tr>
<td>PH 4400</td>
<td>Methodological Approaches in Public Health</td>
<td>4</td>
</tr>
<tr>
<td>PH 5100</td>
<td>Capstone Course in Public Health ²</td>
<td>4</td>
</tr>
</tbody>
</table>

Electives (C- or better)

Select at least one public health (PH) elective (3-4 credits), and a minimum of two courses (6-8 credits) from the following:

Anthropology
- ANT 3400 Introduction to Medical Anthropology
- ANT/GLS/PH 3410 Global Health

Arabic
- ARB 5700 Medical Arabic

Biology
- BIO 2200 Introductory Microbiology
- BIO 2870 Anatomy and Physiology
- BIO 3070 Genetics
- BIO 3100 Cellular Biochemistry
- BIO 3200 Human Physiology
- BIO 3500 Ecology and the Environment
- BIO 5040 Biometry
- BIO 5640 Cancer Biology
- BIO/PSL 5680 Basic Endocrinology
- BIO 5750 Biology of Aging

Criminal Justice
- CRJ 3050 Mental Health and Crime (Criminal Justice)
- CRJ 4050 Crime and Public Health

Economics
- ECO 2550 U.S. Health Care: Policy and Economics
- ECO 5230 Environmental Economics
- ECO 5550 Economics of Health Care
- ECO 5560 Pharmaceutical Economics
- ECO 5600 Introduction to Development Economics
- ECO 6550 Advanced Economics of Health Care

History
- HIS/SOC 3440 American Medicine in the Twentieth Century
- HIS 5540 World Environmental History since 1900

Nutrition and Food Science
- NFS 2030 Nutrition and Health
- NFS 3230 Human Nutrition
- NFS 4160 Food Laws and Regulations
- NFS 5220 Community Nutrition
- NFS 5250 Nutrition and Disease

Philosophy
- PHI 1110 Ethical Issues in Health Care
Public Health to learn more about the major prior to undertaking the program.

Public Health Honors

To be recommended for an honors degree from this program, a student must maintain a cumulative g.p.a. of at least 3.30 and complete a minimum of twelve honors course credits with a B or better, including:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PH 4150</td>
<td>Public Health Practicum (Honors Section)</td>
<td>2</td>
</tr>
<tr>
<td>PH 5100</td>
<td>Capstone Course in Public Health (Honors Section)</td>
<td>4</td>
</tr>
<tr>
<td>1</td>
<td>Before enrolling in PH 3200 and 3300, students must complete STA 1020 or MAT 1800 or MAT 2010 or the equivalent with a C- or better (or place into MAT 2010).</td>
<td></td>
</tr>
<tr>
<td>PH 5100</td>
<td>Capstone Course in Public Health (Honors Section)</td>
<td>4</td>
</tr>
<tr>
<td>2</td>
<td>PH 5100 may be completed with a C- or better.</td>
<td></td>
</tr>
<tr>
<td>One Course in Public Health (PH) with an Honors Option</td>
<td>3-4</td>
<td></td>
</tr>
<tr>
<td>One 42XX level Honors Seminar</td>

</table>

The bachelor’s degree will be awarded following the completion of the undergraduate degree requirements. Graduate course work taken in this program must be completed within eight years (from the time
that the first graduate course is taken that is counted toward degree requirements) or within six years from the awarding of the bachelor’s degree, whichever comes first.

For more information, contact the Public Health undergraduate academic advisors (https://clas.wayne.edu/public-health/advising/).

Upon admission, students may elect 3-16 credits in approved graduate M.P.H. courses. These graduate level courses will complete elective bachelor’s degree requirements as well as fulfill the beginning of study toward the master’s degree.

The bachelor’s degree will be awarded following the completion of the undergraduate degree requirements. ### Religious Studies

**Office:** Room 12201, 5057 Woodward  
**Director:** Sean C. Stidd  
**Email:** sean.stidd@wayne.edu

Religious Studies aims at an academic investigation of the world’s religions, of religious history, and of the place of religion in world cultures and societies from the ancient to the present. It draws on faculty resources from a wide range of traditional academic disciplines: anthropology, history, philosophy, classics, Near Eastern studies, Asian studies, literature, art history, political science, and sociology. Religious Studies respects the beliefs and backgrounds of the students who pursue courses in this area, but it also approaches its objects of study in a thoroughly scholarly manner, maintaining both intellectual openness and critical rigor.

The Wayne State Religious Studies Program, housed in the College of Liberal Arts and Sciences, at present offers an undergraduate Religious Studies Minor and serves as an intercollegiate, interdepartmental, and interdisciplinary faculty body to sponsor visiting lectures and academic conferences on religious studies. Its Director works with a Faculty Steering Committee and group of faculty affiliated with the Program to develop curricular offerings and plan other Program activities.

This minor is designed for undergraduates majoring in other areas or disciplines and requires a minimum of eighteen credits including the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>NE 1900</td>
<td>Comparative Religion (^1)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>A course in one of the following topics:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Philosophy of Religion</td>
<td></td>
</tr>
<tr>
<td></td>
<td>PHI 2400</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Anthropology of Religion</td>
<td></td>
</tr>
</tbody>
</table>

The courses in sociology are designed for various groups of students:

1. those desiring scientific knowledge of social relationships as a part of their general education;  
2. those planning to enter a public service profession such as social and urban planning, public administration, nursing, medicine, dentistry, or law;  
3. those expecting to engage in work that will require a broad grasp of the nature of society, of public opinion, and of social change such as public affairs, journalism, public relations, communications, marketing, etc.;  
4. those anticipating a career in social and statistical research or evaluation and planning;  
5. those looking forward to the teaching of social studies and sociology;  
6. those preparing for a career in international studies or for service in foreign affairs;  
7. those majoring in sociology as a preparation for graduate professional training in social work, public health, or urban planning;  
8. those planning to pursue graduate studies in sociology.

A good background in Sociology can be a valuable component of preparation for a variety of careers, professions, and occupations. The following information summarizes some of these opportunities. Faculty advisors in Sociology can provide additional information on these and other areas as well.

### Human Services Work

Students whose occupational aspirations include working with families, or with men and women in various types of human services or therapeutic settings (Social Work, Nursing, Education, Psychology, Law, Medicine) might consider electing one or more of the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 2201</td>
<td>Race Relations in Metro Detroit</td>
<td>3</td>
</tr>
<tr>
<td>SOC 2202</td>
<td>Gendered Worlds</td>
<td>3</td>
</tr>
<tr>
<td>SOC 2204</td>
<td>Outsiders and Deviants</td>
<td>3</td>
</tr>
<tr>
<td>SOC 2203</td>
<td>Social Psychology</td>
<td>3</td>
</tr>
<tr>
<td>SOC 4202</td>
<td>Seminar in the Sociology of Gender</td>
<td>3</td>
</tr>
</tbody>
</table>

\(^1\) Suggested examples.

At least four additional religious-studies courses (12 credits minimum), either from the posted list or approved by consent of the Director of Religious Studies. Among these must be courses on least two different religious traditions, including at least one of the following:

- Judaism
- Christianity
- Islam
- Buddhism
- Hinduism

### Sociology

**Office:** 2228 Faculty/Administration Building; 313-577-2930  
**Chairperson:** Jeffrey Kentor  
[http://www.clas.wayne.edu/Sociology/](http://www.clas.wayne.edu/Sociology/)

The courses in sociology are designed for various groups of students:

1. those desiring scientific knowledge of social relationships as a part of their general education;  
2. those planning to enter a public service profession such as social and urban planning, public administration, nursing, medicine, dentistry, or law;  
3. those expecting to engage in work that will require a broad grasp of the nature of society, of public opinion, and of social change such as public affairs, journalism, public relations, communications, marketing, etc.;  
4. those anticipating a career in social and statistical research or evaluation and planning;
5. those looking forward to the teaching of social studies and sociology;

8. those planning to pursue graduate studies in sociology.

A good background in Sociology can be a valuable component of preparation for a variety of careers, professions, and occupations. The following information summarizes some of these opportunities. Faculty advisors in Sociology can provide additional information on these and other areas as well.
Business
Students who are preparing for a career in business might consider taking:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 1010</td>
<td>Understanding Human Society</td>
<td>3</td>
</tr>
<tr>
<td>SOC 1020</td>
<td>Social Problems</td>
<td>3</td>
</tr>
<tr>
<td>SOC 2203</td>
<td>Social Psychology</td>
<td>3</td>
</tr>
<tr>
<td>SOC 2300</td>
<td>Social Inequality</td>
<td>3</td>
</tr>
<tr>
<td>SOC 3200</td>
<td>Methods of Social Research</td>
<td>3</td>
</tr>
<tr>
<td>SOC 3220</td>
<td>Introduction to Social Statistics</td>
<td>3</td>
</tr>
</tbody>
</table>

Inter-Group Relations
Any student whose future occupation will entail working with peoples of diverse ethnic and racial groups might consider taking the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 2204</td>
<td>Outsiders and Deviants</td>
<td>3</td>
</tr>
<tr>
<td>SOC 2300</td>
<td>Social Inequality</td>
<td>3</td>
</tr>
<tr>
<td>SOC 2201</td>
<td>Race Relations in Metro Detroit</td>
<td>3</td>
</tr>
<tr>
<td>SOC 2202</td>
<td>Gendered Worlds</td>
<td>3</td>
</tr>
<tr>
<td>SOC 4201</td>
<td>Seminar in Race and Ethnicity</td>
<td>3</td>
</tr>
<tr>
<td>SOC 4204</td>
<td>Seminar in Aging and the Life Course</td>
<td>3</td>
</tr>
</tbody>
</table>

Crime and Criminal Justice
Students whose career goals are in the areas of criminal justice, police work, corrections, probation, law, or related fields might be advised to select their elective courses from among the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 1020</td>
<td>Social Problems</td>
<td>3</td>
</tr>
<tr>
<td>SOC 2203</td>
<td>Social Psychology</td>
<td>3</td>
</tr>
<tr>
<td>SOC 2204</td>
<td>Outsiders and Deviants</td>
<td>3</td>
</tr>
<tr>
<td>SOC 2201</td>
<td>Race Relations in Metro Detroit</td>
<td>3</td>
</tr>
<tr>

<td>Sociology of Health and Medicine</td>
<td>3</td>
</tr>
<tr>
<td>SOC 4205</td>
<td>Seminar in Medical Sociology</td>
<td>3</td>
</tr>
<tr>
<td>SOC 4204</td>
<td>Seminar in Aging and the Life Course</td>
<td>3</td>
</tr>
</tbody>
</table>

Admission Requirements
Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University. Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees. It is expected that Group Requirements will be fulfilled during the freshman and sophomore years. Language Group Requirements should normally be fulfilled before election of the major.

Major Requirements
Students majoring in sociology are required to elect a minimum of thirty-three credits in the field of sociology, including six required courses:

<table>
<thead>
<tr>

</tr>
<tr>
<td>Electives (at least 6 credits at the 4000/5000 level)</td>
<td>15</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 33

For SOC 4996, students are required to complete the first five required sociology courses with a grade of D- or better prior to enrollment. SOC 4996 also must also be completed with a grade of D- or better. In addition to required courses, all sociology majors are required to take at least fifteen credits in sociology elective courses. Students must maintain a 2.0 GPA within the major.

Sociology Honors Program
The honors designation is available to sociology students who fulfill all requirements for the major and who maintain a cumulative grade point average of at least 3.3 and at least 3.3 in sociology courses. Honors students must demonstrate the ability to do original work by writing an Honors Thesis during their senior year. The Sociology Honors Program is
at least fourteen credits and leads to a degree designation ‘With Honors in Sociology.’

Requirements for the Honors Degree are:

1. satisfaction of all requirements for a major in sociology;
2. completion of Honors section of SOC 3220 with grade of C or better;
3. completion of Honors Section SOC 4996 with a grade of C or better; or SOC 4999
4. At least one additional sociology course with the Honors designation (3 credits min.)
5. an approved Honors Thesis; and
6. at least one 4200-level seminar (HON 4200-HON 4280) offered through the Honors Program of the College of Liberal Arts and Sciences.

AGRADE Program (Accelerated Graduate Enrollment)

The Department of Sociology permits academically superior majors to petition for admission into the College’s AGRADE Program. AGRADE procedures enable qualified seniors in the Department to enroll simultaneously in the undergraduate and graduate programs of the College and apply a maximum of fifteen credits towards both a bachelor’s degree and a master’s degree in the major field. Students who have a 3.6 GPA and who have completed 90 credits of their Bachelors degree can apply for AGRADE.

For more details about the AGRADE Program, contact the Undergraduate advisor in Sociology (313-577-2930), or the Graduate Office of the College of Liberal Arts and Sciences (313-577-2690).

Sociology Minor

The minor in sociology requires 20 credits of coursework in sociology, including:

Urban Studies and Planning

Office: 3198 Faculty Administration Building; 313-577-2701; Fax: 313-577-0022
Chairperson: Rayman Mohamed
http://www.CLAS.wayne.edu/DUSP/

The field of urban studies explores contemporary cities and urban trends and addressed some of today’s most pressing problems. Globally, complex systems of urban settlement house the overwhelming majority of the population and dominate their residents’ social, economic, cultural, and intellectual lives. In the U.S., in particular, exploring the development and transformation of metropolitan regions is essential to understanding some of the most significant dynamics affecting the nation. Especially pertinent are the powerful forces of suburbanization, political fragmentation, and residential segregation along lines of race and class that reshaped our society in the latter half of the 20th century. These forces structure the resources, activities, and opportunities that unite and divide Americans. Wayne State’s Detroit location offers a powerful vantage point from which students may gain valuable insight these complex dynamics.

The profession of urban planning takes major responsibility for the development of comprehensive plans and programs for local communities as well as larger regional units. These plans visualize future conditions of social, economic, physical and environmental change, and provide an estimate of the community’s long-range needs for various facilities and services. Professional urban planners perform a variety of tasks such as developing plans for housing, transportation, rehabilitation of blighted metropolitan areas, and improving the appearance and efficiency of communities. The program seeks to prepare individuals for working with local and state public agencies, nonprofit organizations and for consultants and others in the private sector.

- Urban Studies Minor (p. 346)
- Urban Sustainability Minor (p. 346)

Urban Studies (B.A.)

The field of urban studies explores contemporary cities and urban trends and addressed some of today’s most pressing problems. Globally, complex systems of urban settlement house the overwhelming majority of the population and dominate their residents’ social, economic, cultural, and intellectual lives. In the U.S., in particular, exploring the development and transformation of metropolitan regions is essential to understanding some of the most significant dynamics affecting the nation. Especially pertinent are the powerful forces of suburbanization, political fragmentation, and residential segregation along lines of race and class that reshaped our society in the latter half of the 20th century. These forces structure the resources, activities, and opportunities that unite and divide Americans. Wayne State’s Detroit location offers a powerful vantage point from which students may gain valuable insight these complex dynamics.

Admission Requirements

Admission requirements for this program are satisfied by the general requirements for undergraduate admission (p. 23) to the University.
Candidates must complete 120 credits in course work including satisfaction of the University General Education Requirements (p. 35) and the College of Liberal Arts and Sciences Group Requirements (p. 254), as well as the Departmental major requirements cited below. All course work must be completed in accordance with the regulations of the University (p. 11) and the College (p. 253) governing undergraduate scholarship and degrees.

**Major Requirements**

Students majoring in Urban Studies are required to complete a minimum of thirty-five credits. This consists of the completion of twenty-six credits in seven core courses, one three or four-credit research methods course, and five to six credits of additional urban-related electives, as outlined in the following curriculum.

**Code** | **Title** | **Credits**
--- | --- | ---
US 2000 | Introduction to Urban Studies | 4
PS 2240 | Introduction to Urban Politics and Policy | 4
GPH 3130 | Introductory Urban Geography | 4
GPH 3600 | Introduction to Geographic Information Systems | 4
US 4510 | Cities and Regions | 3
ECO 5800/UP 5820 | Urban and Regional Economics | 4
US 4620 | Urban Studies Senior Capstone Research | 3

**Research Methods Courses**

Select one of the following: 4

- CRJ 3550 | Research Methods in Criminal Justice
- GPH 6420 | Quantitative Techniques I
- PS 3600 | Methods of Political Inquiry
- SOC 3200 | Methods of Social Research

**Elective Courses in Urban Studies**

Select 5 credits of the following: 5

- AFS 3160 | Black Urban History
- AFS 3180 | Black Social Movements
- ANT 2200 | Lost Cities and Ancient Civilizations
- ANT 3020 | Introduction to Archaeology
- ANT 5060 | Urban Anthropology
- ANT 5280 | Field Work in Archaeology of the Americas
- ANT 5500 | Historical Archaeology
- CRJ/GSW 2750 | Diversity Issues in Criminal Justice
- CRJ 3120 | Politics of the Criminal Justice Process
- CRJ 5995 | Special Topics in Criminal Justice
- ECO 5600 | Introduction to Development Economics
- ELR 2500 | Introduction to Labor Studies
- GPH 4600 | Advanced Geographic Information Systems
- HIS 2050 | Modern America: Since 1877
- HIS 5665 | Global Cities
- HIS 5670 | Modern American Cities
- PS 3250/HIS 3240 | Detroit Politics: Continuity and Change in City and Suburbs
- SOC 1020 | Social Problems
- SOC 2600 | Race and Racism in America
- SOC 5400 | The Family
- SOC/AFS 5570 | Race Relations in Urban Society
- SOC 6750 | Sociology of Urban Health
- UP 3530 | Urban and Regional Planning
- US 3650 | History of Detroit
- US 4000 | Internship
- UP 5650 | Metropolitan Detroit

**Total Credits** | **35**

**Urban Studies Honors Program**

Students with a grade point average of 3.3 or higher may be admitted to the Honors Program in Urban Studies. The honors major must elect one semester of a 4000-level Honors College seminar and accumulate at least fifteen credits in honors-designated course work. Honors courses from any Department in the College, including this one, all contribute to the fifteen-credit requirement. The honors major student is permitted to follow a course of study somewhat independent of standard requirements, through the election of Honors Directed Study.

**Urban Studies Minor**

The requirements for a minor in Urban Studies include at least three courses from the core requirements for the Urban Studies Major (p. 346), including:

**Code** | **Title** | **Credits**
--- | --- | ---
US 2000 | Introduction to Urban Studies | 4
GPH 3130 | Introductory Urban Geography | 4
US 4510 | Cities and Regions | 3

* This course cannot be listed or cross-listed as part of a student’s declared major program.

The remainder of a student’s 18 credits must be completed by selecting courses from the list of Urban Studies Electives, or from additional courses not included in the list but approved by the student’s faculty advisor within the Department of Urban Studies and Planning.

**Urban Sustainability Minor**

The Minor in Urban Sustainability will provide students with an opportunity to further their understanding of the myriad issues in fostering environmental preservation, equity, and economic development (the 3-Es of sustainability) in urban areas, while providing them with a foundation for advancing their academic and professional interests in the many directions related to sustainability. The minor requires the completion of 18 credits.

**Requirements**

**Code** | **Title** | **Credits**
--- | --- | ---
US/GPH/HIS/PS 2000/SOC 2500 | Introduction to Urban Studies | 4
GPH 3130 | Introductory Urban Geography | 4
US 4510 | Cities and Regions | 3

Select two electives from the following: 7

- ANT 2400 | Food and Culture
- ANT 3100 | World Cultures
- ANT 3410 | Global Health
- ANT 5060 | Urban Anthropology
- BIO 1500 | Basic Life Diversity
- BIO 3500 | Ecology and the Environment
- BIO 4130 | General Ecology
- BIO 5440 | Terrestrial Ecology

**Total Credits** | **18**

Total Credits 18
School of Medicine

Dean: Mark Schweitzer, M.D.

The Wayne State University School of Medicine has been operating and granting degrees as a college of medicine since 1868. Originally called the Detroit Medical College, it was founded by Detroit native Theodore A. McGraw, M.D.

In 1879, a second medical college, the Michigan College of Medicine, opened in Detroit. The two colleges soon united to become the Detroit College of Medicine. In 1919, the Detroit College of Medicine and Surgery, as it was then known, became an official part of the Detroit Board of Education and thus an important unit in the rapidly developing Colleges of the City of Detroit. In 1933, the name of the Colleges of the City of Detroit changed to Wayne University in honor of the American Revolutionary War hero, Gen. Anthony Wayne. Wayne University became a state institution in 1956.

The School of Medicine entered its second century with a period of substantial growth and the creation of a new campus in midtown Detroit. With the opening of the Gordon H. Scott Hall of Basic Medical Sciences in 1971, the size of the entering class was increased to 256 students. With a recent increase to 290 medical students in entering classes, the Wayne State University School of Medicine is the largest single-campus medical school in the country, and the fourth largest overall.

Mission of the School

The primary mission of the Wayne State University School of Medicine is to educate a diverse student body in an urban setting and within a culture of inclusion, through high quality education, clinical excellence, pioneering research, local investment in our community and innovative technology, to prepare physician and biomedical scientific leaders to achieve health and wellness for our society.

The School of Medicine offers educational programs leading to the following degrees:

- Doctor of Medicine
- Doctor of Philosophy
- Master of Science

Graduate education in clinical fields, continuing medical education and post-doctoral training programs are offered. Two hundred and ninety students are admitted annually to the M.D. program and approximately 380 students are enrolled in doctoral or Master’s degree study in more than twenty program and concentration areas, predominantly in the basic medical sciences. More than 2,000 learners are post-graduate trainees as medical residents, post-doctoral fellows or fellows in twenty-nine clinical research programs. The combined M.D./Ph.D. program admits highly qualified candidates each fall to participate in a rigorous seven- to eight-year program of study supported by scholarships from the University.

Continuing education programs, seminars and colloquia serve the faculty and students, as well as professionals throughout the community, as a resource for ongoing developments in the health sciences. In addition to degree programs, the School of Medicine offers courses in many basic medical science disciplines appropriate for students in other colleges and schools within the University. Non-degree enrollment in basic science courses at the graduate level is permitted on a limited basis for qualified students.

Research focusing on human health is the foundation of activities in the School of Medicine. Fundamental and applied research in biomedical sciences, clinical specialties and health care systems is directed by faculty. Research programs are supported by more than ninety million dollars annually through research grants, contracts and gifts. Members of the faculty serve on scientific boards, panels, study groups and in professional leadership roles in health care regionally, nationally and internationally. The research facilities of the School of Medicine are modern, well-equipped and growing with the pace of technological advances.

Clinical services provided by the faculty, post-graduates and students are rendered predominantly through the Detroit Medical Center and Henry Ford Health System institutions. Through affiliations between the Detroit Medical Center and Wayne State University and the Henry Ford Health System and Wayne State University, DMC and Henry Ford serve as the primary teaching hospitals for the School of Medicine. The School is also closely affiliated with the John D. Dingell Veterans Administration Medical Center for education, research and clinical programs. The School of Medicine perceives a responsibility to the population of the Detroit metropolitan region as a whole, both as an educational institution and as a supplier of physicians who are highly-skilled providers of medical care.

Facilities: Wayne State University Medical School

Gordon H. Scott Hall provides facilities for pre-clinical and basic science education, basic science departments and research laboratories for basic and clinical programs. The dean’s offices and the dean’s administrators’ offices are located here.

The Helen Vera Prentis Lande Medical Research Building houses research laboratories for clinical and basic science faculty.

The Vera P. Shiffman Medical Library houses a full medical reference library, as well as computer instruction facilities.

The Louis M. Elliman Clinical Research Building provides research laboratories, experimental surgical suites and specialized research facilities for the Departments of Internal Medicine, Surgery, Pediatrics and Neurology.

The C.S. Mott Center for Human Growth and Development provides research space for programs in human reproduction, growth and development.

The Hudson-Webber Cancer Research Center is the translational research flagship facility for Wayne State University cancer research in partnership with the Barbara Ann Karmanos Cancer Institute.

The Richard J. Mazurek, M.D., Medical Education Commons plays a key role in enriching medical education by providing access to spaces and services that enhance campus life, including a convenient location for students, faculty, health professionals and guests; state-of-the-art classrooms and laboratories; and educational opportunities such as a modern patient simulation technology, the Kado Clinical Skills Center.

In addition to training at the Detroit Medical Center (DMC), medical students may train at eighteen other medical facilities, as well as hundreds of local physician offices.

The Wayne State University Physician Group (WSAPG) affiliated with the Wayne State University School of Medicine. Many WSUPG physicians serve as faculty and teach medical students and hospital residents.

The School of Medicine is an active partner in nationally- and regionally-recognized research programs, and has defined several areas of noted excellence, including cancer, women’s and children’s medicine, cardiology and cardiovascular health, the neurosciences and ophthalmology.

Facilities: Detroit Medical Center and Other Clinical Education Partners

The Detroit Medical Center includes:

Children’s Hospital of Michigan, which specializes in medical research and treatment of infants and children - in particular, pediatric hematology,
oncology, cardiac surgery and the treatment of renal disease - and houses the state’s poison control center.

Detroit Receiving Hospital and University Health Center, which specializes in the treatment of adult emergency and trauma cases, and includes special facilities for the care of emergency psychiatry, burn and spinal injuries. The University Health Center, connected to the hospital, is one of the country’s largest multidisciplinary outpatient facilities, with twelve primary care service groups and more than twenty-five medical specialty services for ambulatory care.

Sinai-Grace Hospital, a full-service hospital offering a wide range of outpatient services.

Harper Hospital, which specializes in oncology, cardiology general surgery and a number of additional surgical specialties and sub-specialties.

Huron Valley-Sinai Hospital, located in a northern suburb, provides community hospital inpatient and outpatient services.

Hutzel Hospital, which includes among its areas of excellence obstetrics, gynecology, gynecologic oncology, ophthalmology, neonatology, perinatology and orthopedic surgery.

Rehabilitation Institute of Michigan, which uses an interdisciplinary approach to help physically disabled people reach their maximum level of independence.

Kresge Eye Institute, which is a major center for research and treatment of eye diseases.

Barbara Ann Karmanos Cancer Institute, which provides comprehensive cancer prevention, screening, diagnostics, treatment and supportive care to more than 10,000 new patients annually, and is a National Institutes of Health National Cancer Institute Comprehensive Cancer Center.

Gershenson Radiation Oncology Center, which provides technologically advanced radiation oncology services for all DMC facilities. Unique services include neutron therapy, Gamma Knife procedures and total body irradiation.

Henry Ford Hospital is a 802-bed tertiary care hospital, education and research complex located in Detroit’s New Center area. The hospital is a multi-organ transplantation center and Level 1 trauma center. Henry Ford Hospital is listed in ‘Best Hospitals in America’ its doctors are routinely named among America’s best. Henry Ford Hospital received the 2011 Malcolm Baldridge award, the nation’s highest honor for innovation and performance excellence in health care.

Oakwood Hospital & Medical Center has 632 beds, and is a full-service teaching hospital in partnership Wayne State University that has served southeast Michigan for more than fifty years. OHMC is the tertiary hub for the three community hospitals of the Oakwood Healthcare System, providing high-level clinical care in a setting designed around the individuality of each patient. OHMC offers state-of-the art emergency medicine, general medicine and outpatient surgery, diagnostic imaging, labor and delivery/neonatal intensive care, pediatrics, intensive care and coronary units. Also opened in 2005, is the Fitzgerald Pavilion, the latest in fully integrated surgical suites. This $110 million expansion brings the next generation of surgical care to southeast Michigan and offers the best surgical care.

The John D. Dingell VA Medical Center is a 108-bed full service medical center that provides primary, secondary and tertiary care. The medical center provides acute medical, surgical, psychiatric, neurological, and dermatological inpatient care. Primary care, medical and surgical specialties are also provided, as are mental health clinics that include substance abuse treatment, a day treatment center and a community-based psychiatric program with the goal of maintaining patients in their home community. The medical center also operates a 109-bed nursing home care unit and a Health Care for Homeless Veterans program.

St. John Health is comprised of seven hospitals plus more than 125 medical facilities in southeast Michigan offering heart, cancer, obstetrics, neurosciences, orthopedics, physical rehabilitation, behavioral medicine, surgery, emergency and urgent care.

Crittenton Hospital Medical Center provides a full continuum of clinical programs nationally ranked for quality excellence and a medical staff of nearly 500 physicians, representing a wide range of medical specialties providing primary, secondary and tertiary-level care. Crittenton has newly-renovated facilities and cutting-edge technology for providing patients with the most advanced medical care on both an inpatient and outpatient basis. Crittenton provides a campus for residents from Wayne State University’s School of Medicine who are specializing in Family Medicine and Otolaryngology.

Shiffman Medical Library and Medical Learning Resource Centers

Director: Sandra Martin

The Shiffman Medical Library serves as the health sciences library for Wayne State University, including the School of Medicine, and the Eugene Applebaum College of Pharmacy and Health Sciences. The library encourages all Wayne State University students to take advantage of the wide range of health information resources and reference assistance available. In addition, the library provides open and restricted access computing areas for WSU students, faculty and staff. In keeping with its ongoing outreach mission, the library welcomes community residents conducting research, seeking health information and for other educational purposes. Online and remote access to digital information resources of the Shiffman Medical Library and all university libraries require a WSU AccessID. Contact the library at askmed@wayne.edu or 313-577-1088, or consult the School of Medicine website for instructions on accessing electronic biomedical information.

When not in use, a twenty-seat computer training lab is set aside for study. The library makes available course materials that are placed on reserve at its service desk, which also provides copies of textbooks, media and a variety of other resources.

Student Affairs

Assistant Dean of Student Affairs and Career Development:
Lisa MacLean, M.D.
Phone: 313-577-1463

Services include: career and supportive counseling; crisis intervention; liaison for referrals; guidance for residency application; support for student government and organization activities as well as oversight of Special Events, the Health and Wellness Program and the Medical Student Faculty Mentoring Program. The staff is committed to assisting students in every way possible as the students work toward M.D. degrees. These programs are part of the School’s commitment to provide each matriculant with support services so that the rigorous educational program can be presented within as comfortable an environment as possible.

Services for Students

Health Services: Students are required to have personal comprehensive health insurance coverage through the School of Medicine health insurance plan. Students may qualify for the waiver program.
of their premedical requirements, they must maintain a satisfactory academic record that substantially contributes to a broad cultural background.

A student is urged to select additional subjects that will contribute to their background, including a course in statistics, ethics, and biochemistry. It is recommended that students complete lab work in these sciences.

Required subjects for baccalaureate preparation are:

- Organic and inorganic chemistry
- General biology
- General chemistry
- College writing or composition
- Calculus

Applicants must have completed two years of course work, including the prerequisite courses at a U.S. or Canadian college or university. Canadian citizens are considered non-resident for both admission and tuition purposes.

Academic Requirements for Admission

Wayne State University School of Medicine requires applicants for admission to have earned a bachelor's degree.

Required subjects for baccalaureate preparation are:

- General physics
- Inorganic and organic chemistry
- General biology
- College writing or composition

It is recommended that students complete lab work in the above science courses, and take a course in statistics, ethics, and biochemistry. The student is urged to select additional subjects which will contribute substantially to a broad cultural background.

It is to be noted that when students are accepted before completion of their premedical requirements, they must maintain a satisfactory scholastic average in their continued premedical work to warrant enrollment in the School of Medicine.

The Medical College Admission Test is required of all applicants for admission into the first-year class. Students seeking admission should take this test no later than September of the year prior to matriculation. After a preliminary review of application credentials, interviews are held with those applicants who warrant further consideration.

Admission to the First-Year Class

The School of Medicine adheres to the acceptance procedures of the Association of American Medical Colleges, including the 'Early Decision Plan.' Admission procedures of the School are:

1. No place in the first-year class shall be offered to an applicant more than one year before the actual start of instruction for that class.
2. Following the receipt of an offer of a place in the first-year class, a student shall be allowed three weeks in which to make a decision.
3. No student who has at any time been requested to withdraw for any reason from a medical school in which he/she has been registered will be accepted by the WSU School of Medicine. Students who have been dropped for poor scholarship by the School of Medicine should not expect favorable consideration for readmission.
4. Any applicant accepted by the School of Medicine who does not complete enrollment must apply for readmission and meet all requirements in force at the time of the new application.

Selection Factors

The Committee on Admissions will select applicants who, in its judgment, will make the best students and physicians. Consideration is given to the entire record, including grade point average, Medical College Admission Test scores, recommendations and interview results (one-on-one interview and multiple mini-interviews), as these reflect an applicant's personality, maturity, character and suitability for medicine. Additionally, the committee regards as desirable certain health care experiences, such as volunteering or working in hospitals, hospices, nursing homes or doctor's offices. The committee also values experience in biomedical laboratory research. Following an initial screening process, students with competitive applications are selected to complete a secondary application. Special encouragement is given to candidates from medically underserved areas in Michigan.

As a state-supported school, the institution must give preference to Michigan residents; however, out-of-state applicants are encouraged to apply. An applicant's residency is determined by university regulations. Applicants must be a U.S. or Canadian citizen or U.S. permanent resident to be eligible for admission. Students whose educational backgrounds include work outside the United States must have completed two years of course work, including the prerequisite courses at a U.S. or Canadian college or university. Canadian citizens are considered non-resident for both admission and tuition purposes. Interviews are required but are scheduled only with those applicants who are given serious consideration. Students are urged to apply by November 1.

Application and Acceptance Policies

The School of Medicine adheres to the acceptance procedures of the Association of American Medical Colleges, including the 'Early Decision Plan.' Admission procedures of this School are:

1. An American Medical College Application Services application must be filed between June 1 and December 31 of the year preceding anticipated matriculation.
2. Applicants must respond to acceptance offer within three weeks of the offer.

Diversity and Integrated Student Services
This unit supports the medical school to maintain its representation of diversity across economic, personal and social dimensions. This is accomplished through pipeline outreach programs and special projects that present a combination of academic and extracurricular activities designed to inform high school, undergraduate and post-baccalaureate students about career opportunities in medicine and other health professions, and prepare them to gain admission.

A special program feature of the unit is the Post Baccalaureate Program. This medical school preparatory program offers an opportunity to a small number of applicants who are Michigan residents, and whose undergraduate academic achievement has been compromised by certain disadvantaging factors to gain admission into medical school. Successful completion of this special one year program facilitates entry into medical school for those selected applicants from disadvantaged backgrounds.

Registration Requirements

Physical Examination
Each student must present proof of a physical examination at or before registration for the first year. Students are also required to be annually tested for TB (skin test or chest x-ray). Additional vaccines and titers may be required.

Health Insurance
Health insurance is mandatory and students must demonstrate proof of insurance at registration. Students have the option of purchasing the group plan offered by the Medical School, which can be purchased at registration.

Disability Insurance is mandatory and can be purchased at registration.

Criminal Background Check: All accepted applicants to the medical school will be required to complete a criminal background check through AMCAS and Certiphi, the selected vendor for criminal background checks.

Transcripts
Transcripts of all university-level work must be on file in the Registrar's Office for each medical student, including the degree statement from the university from which the student obtained his/her degree.
College of Nursing

The Wayne State University College of Nursing is regionally, nationally, and internationally recognized for educating graduate and undergraduate students as practitioners and scholars in the nursing profession. The College is committed to research and scholarly activity which contributes to the discipline of nursing and excels in the development, application, and dissemination of such knowledge to promote human health and well-being.

Nursing is an academic discipline and a profession. As a discipline, nursing develops knowledge concerning human beings, their care, health, and the environment. Concepts derived from such research order the discipline and profession of nursing as well as give identity to nursing practice and direct inquiry and theory development. As a profession, nursing creatively uses knowledge in response to the health care needs of society. Both of these functions are enhanced by the scholarly environment of the University and its multicultural urban setting as a context for professional nursing practice.

Consistent with this view of the nursing profession, the College supports the importance of the liberal arts, humanities, and the sciences in nursing education. The faculty believes that programs designed for the preparation of nurses must be composed of the intellectual, social, cultural, and technical components of liberal and professional education that are available to students within an institution of higher learning. The faculty also affirms the necessity and value of clinical practice within a professional nursing program. Experience within a variety of clinical and vulnerable populations is one of the primary modes for the development of nursing practice competencies.

Learners from diverse backgrounds enter the College to begin or continue their education and thereby add to the richness of this learning environment. The faculty supports the right of students to question, challenge and debate within the context of inquiry as an essential ingredient to their development. Continuing evaluation on the part of the students and the faculty is essential to advancing nursing knowledge and sustaining the integrity of the program.

The faculty of the College of Nursing, as members of the academic community, recognizes that its professional functions extend beyond contributions to formal teaching. Research, practice, and community service are important expectations of the faculty. The faculty views as essential, academic freedom, shared governance, opportunity to develop knowledge, and responsibility to incorporate new knowledge into teaching and nursing practice. The faculty assumes responsibility for enhancing the image of the College of Nursing and the University locally, nationally, and internationally through various avenues including research, scholarship, practice, consultation, and participatory decision making.

Accreditation

The baccalaureate program is approved by the Michigan State Board of Nursing, and graduates are admitted to the licensing examination for professional nurses in the State of Michigan. The baccalaureate, master's and doctorate in nursing practice programs of the College are accredited by the Commission for Collegiate Nursing Education (CCNE).

Academic Regulations

For complete information regarding academic rules and regulations of the University, students should consult the Academic Regulations (p. 11) section of this bulletin. The following additions and amendments pertain to College of Nursing students.

Academic Regulations Terminology

1. Professional course is any course required in the professional nursing curriculum.
2. Satisfactory grade is a grade of C (2.0) or better.
3. Unsatisfactory grade is a grade below 2.0, or a mark of X or an unauthorized mark of WP or WF.
4. Probation is a restricted status in the nursing program.
5. Exclusion from the program means that the student may not register in the program. (Continued registration in the University will necessitate that the student processes a Change of College to another academic program.)

Attendance

Regular punctual attendance in classes and clinical practice is expected. It is imperative that students maintain a perfect or near-perfect attendance record. Tardiness and/or failure to report to class can result in a lowering of the final course grade or exclusion from the course.

First Day of Class: Due to the nature of clinical courses and time requirements, first day class attendance is MANDATORY. Unexcused absences from the first day of any course may result in an administrative withdrawal for the student for that class and could delay progression in the program. If a student is removed from a class for non-attendance, clinical space in the subsequent class offering is not guaranteed.

Travel Requirements: It is the responsibility of the student to make all travel arrangements necessary to complete degree requirements. This includes travel arrangements required to reach all clinical agencies.

Examinations
