PAS 8350 Physician Assistant Studies Senior Seminar II Cr. 1
The primary goal of the clinical year senior seminar is to provide the physician assistant student with resources and experiences in addition to clinical rotations. The additional work will help strengthen and augment the knowledge, skills, and behaviors students have acquired during the didactic and clinical phases of their education. The activities will serve as stepping stones towards the successful management of patients in a competent, comprehensive, and compassionate manner across varied disciplines, patient populations, and clinical settings. Offered Fall.
Prerequisites: PAS 8250 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.

PAS 8400 Clinical Practicum IV Cr. 14
Clinical Practicum IV is a continuation of the required clinical modules during the student's clinical year. During this clinical practicum, students will experience 2 to 3 of the nine required modules (internal medicine, family practice, pediatrics, women's health, surgery, behavioral medicine, emergency medicine, elective I or elective 2) plus a 4 week preceptorship. These modules will be composed of didactic course work along with preceptor-guided hands-on learning experiences in the clinical setting. Students will be educated on the evaluation, diagnosis, management and treatment of acute and chronic medical problems encountered in the inpatient and/or outpatient clinical setting. Offered Winter.
Prerequisites: PAS 8300 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $585

PAS 8450 Physician Assistant Studies Senior Seminar III Cr. 1
The primary goal of the clinical year senior seminar is to provide the physician assistant student with resources and experiences in addition to clinical rotations. The additional work will help strengthen and augment the knowledge, skills, and behaviors students have acquired during the didactic and clinical phases of their education. The activities will serve as stepping stones towards the successful management of patients in a competent, comprehensive, and compassionate manner across varied disciplines, patient populations, and clinical settings. Offered Winter.
Prerequisites: PAS 8350 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.

PCS - Peace and Conflict Studies

PCS 2000 Introduction to Peace and Conflict Studies Cr. 3
Introduction to the peace and conflict studies co-major. Survey, ranging from biology and conflict among animals to disputes involving the individual, the family, the neighborhood and region, the nation and global or international community. Definitions and approaches to peace. (Some sections linked to Peace and Justice Learning Community.) Offered Yearly.
Equivalent: HIS 2500, PS 2820

PCS 2010 Topics in Peace and Conflict Studies Cr. 1-4
Special topics relating to peace and conflict studies. Offered Every Term.
Equivalent: HIS 2520, PS 2830
Repeatable for 12 Credits

PCS 2020 Science, Technology, and War Cr. 4
Modern weapons, nuclear and otherwise are becoming increasingly available and dangerous; people with grievances seem eager to use them. Science and technology, as well as constraints of bureaucracy and society underpin weapons development and use, as technologies affect prospects and results of war and peace. History of humanity and its tools of war. Offered Yearly.
Equivalent: HIS 2510, PHY 2020, PS 2440

PCS 2050 The Study of Non-Violence Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Intellectual and social roots of non-violence and the practice of non-violence in various societies and people's life styles. Historical and political forces and movements related to non-violence. (Some sections linked to Peace and Justice Learning Community.) Offered Every Term.
Equivalent: HIS 2530, PS 2550, SOC 2050

PCS 3100 Human Trafficking and Modern Slavery Cr. 3
Utilizing a participatory interdisciplinary format, the course examines contemporary issues in globalization with particular focus on human trafficking. These are epic times, when the call for racial, gender and economic equity has never been more pronounced. As human rights come center stage, human trafficking becomes a core concern throughout the world. The class highlights the pertinent social, cultural, political, and economic causes, with an eye towards the anthropology and sociology of slavery and sex work. The class will consider evidence that inequalities, especially structural poverty, exacerbate modern slavery worldwide. Students will develop insight in policy analysis, history and forms of slavery, policy impact monitoring, and ethnographic skills. Offered Every Term.

PCS 5000 Dispute Resolution Cr. 3
Overview of the processes and actors in the field of dispute resolution including negotiation, mediation, arbitration, and conciliation. Offered Yearly.
Equivalent: CRJ 5994, PS 5890, PSY 5710

PCS 5010 Community or International Internship Cr. 3
Internship in dispute resolution, research, social service or international agencies in Detroit area, nationally, or abroad. Offered Every Term.
Prerequisites: PCS 2000 with a minimum grade of D-

PCS 5100 Advanced Special Topics Cr. 3-4
Topics may include: study of negotiating organizations and processes, advanced theory to practice applications, in-depth specialization. Offered for undergraduate credit only. Offered Intermittently.

PCS 5999 Special Readings/Research Cr. 1-4
Intensive study with faculty member on peace-related topic; may include study abroad projects. For co-majors and non-majors. Offered Every Term.
Repeatable for 4 Credits

PCS 6000 Senior Seminar in Peace and Conflict Studies Cr. 3
Students work with faculty on a semester research or creative project relevant to concepts studied in the program; serves as capstone program evaluative course. Offered for undergraduate credit only. Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Senior; enrollment is limited to Undergraduate level students.
PCS 6100 Introduction to Graduate Peace and Security Studies Cr. 3
Survey of the peace and security studies fields at the graduate level. Offered for graduate credit only. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: PS 6100

PCS 7100 Peace Making: Regional, Technological, Transnational Perspectives Cr. 3
The prerequisites for peaceful and secure borders and peace settlements. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

PCS 7800 Graduate Practicum in Peace and Security Studies Cr. 3-4
Field work or applied research in Peace and Security Studies. Offered Every Term.
Prerequisite: PCS 6100 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PH - Public Health

PH 2100 Introduction to Public Health Cr. 3
Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry
Provides both an overview of the principles and practice of public health and basic information needed to understand and analyze a variety of individual-level and population-level health problems. This course is intended for students with no previous course work in public health. Offered Every Term.

PH 2500 Race and Ethnic Disparities in Public Health Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
That racial and ethnic minorities have poorer health, worse socioeconomic status, and shorter life expectancies is well-documented in the public health literature. This course will examine the personal, community, social, and institutional structures that increase morbidity and mortality risk in these populations. Considerable attention is paid to the historical, political, social, and economic underpinnings of these inequalities. Rather than just continuing to document disparities, the class will emphasize the role health care providers, public health professionals, health policy, and community-based interventions can play in achieving health equity in racial and ethnic minorities. Offered Yearly.

PH 2550 Public Health Issues in Arab Americans and the Arab World Cr. 3
This global health course offers an investigation into the differing health attitudes, beliefs, behaviors as well as risk factors and health outcomes for persons in and from the Arab world. It offers a unique perspective on global health by comparing social determinants and health outcomes for persons living in the Arab world to Middle East, North African (MENA) populations in the US (and specifically in metro Detroit). Students will examine the roles of history, culture, geography, and health in the larger Arab world. These factors and cultural commonalities subsequently impact the health of Arab immigrants and refugees across the world and, specifically, in the United States. The course explores a range of social determinants of health including immigration history; geography; stigma; geopolitical impacts; as well as social, cultural, and religious determinants in order to provide foundational cultural competencies vital for understanding health in a global context. Offered Yearly.

PH 3050 Mental Health and Crime Cr. 3
Provides a comprehensive overview of the issues and challenges located at the intersection of mental health/illness and the criminal justice system. Attention will be focused on a range of topics, including, but not limited to, the definition of mental illness, deinstitutionalization and criminalization of the mentally ill, the impact of mental illness on criminal proceedings, treatment/intervention effectiveness, and the reentry/reintegration of mentally ill individuals. Offered Fall.
Equivalent: CRJ 3050

PH 3100 Social and Behavioral Aspects of Public Health Cr. 3
Satisfies General Education Requirement: Social Inquiry, Social Sciences
Examines the social and behavioral aspects of health, illness, and health care, and helps students develop a basic understanding of the societal factors that influence health status and public health interventions. Offered Every Term.

PH 3200 Introduction to Biostatistics Cr. 4
Provides an introduction to statistical methods used in biological and medical research and covers elementary probability theory, basic concepts of statistical inference, sampling theory, regression and correlation methods, analysis of variance, and study design. In addition, the course will examine statistical applications in biomedicine, epidemiology, public health and the life sciences. Offered Every Term.
Prerequisites: PH 2100 with a minimum grade of C- and (MAT Permit to Reg ACT/SAT with a test score minimum of 4, Math Permit to Reg - (L1-L4) with a test score minimum of 4, STA 1020 with a minimum grade of C-, MAT 1800 with a minimum grade of C, MAT 2010 with a minimum grade of C, MAT 2020 with a minimum grade of C, or STA 2210 with a minimum grade of C-)

PH 3300 Epidemiology Cr. 4
Introduces the basic concepts of epidemiology as applied to public health problems. Emphasis is placed on the principles and methods of epidemiologic investigation, including the appropriate summaries, displays, and analysis of data, and the use of classical statistical and other methodological approaches to describe the health of populations. Offered Every Term.
Prerequisites: PH 2100 with a minimum grade of C- and (MAT Permit to Reg ACT/SAT with a test score minimum of 4, Math Permit to Reg - (L1-L4) with a test score minimum of 4, STA 1020 with a minimum grade of C-, MAT 1800 with a minimum grade of C, MAT 2010 with a minimum grade of C, MAT 2020 with a minimum grade of C, or STA 2210 with a minimum grade of C-)

PH 3410 Global Health Cr. 3
Satisfies General Education Requirement: Global Learning Inquiry, Social Inquiry, Social Sciences
Introduces students to problems of disease and disorder worldwide and looks at various efforts to define and address these problems through a social science perspective. Offered Every Term.
Equivalent: ANT 3410, GLS 3410

PH 3500 Environmental Health Cr. 3
Using a public health perspective, the course will provide students with an overview of the key areas of environmental health, and it will cover factors associated with the development of environmental health problems. Students will gain a system-level understanding of the interaction of individuals and communities with the environment, the potential impact of environmental agents on population, and specific applications of public health concepts to environmental health. Offered Every Term.

PH 3550 Public Health and the City Cr. 3
Introduces the field of medical geography, or the study of geographic aspects of health and disease. Students will also be introduced to the impact that city life has on health and healthcare in the US and internationally. They will gain an understanding of how geography as a discipline contributes to an understanding health and health care in urban environments, and how social and economic contexts impact urban health. Mapping techniques will be utilized to examine the spatial patterns of disease and risk factors that may contribute to disease. Offered Yearly.
Equivalent: US 3550
PH 3600 Special Topics in Public Health Cr. 3
Topics may include but are not limited to an examination of health in families, health in the workplace, health across the life course, health of urban communities, community health interventions, access to health care, and health services administration. Offered Intermittently. Repeatable for 6 Credits

PH 3750 Reproductive Health Cr. 3
This course explores the subject of reproductive health using an interdisciplinary approach, including social, political, and biomedical perspectives. It covers gender differences in patterns of illness, delivery of health care, paying special attention to inequalities and disparities related to race, ethnicity, sexuality, and social class. That is, it will have a strong reproductive justice focus. We will also examine common intervention strategies in public health when dealing with reproductive health in local communities. Offered Intermittently.

PH 3800 Law and Public Health Cr. 3
This course introduces students to the role of law as an important determinant of health outcomes. This course is organized using the CDC's Public Health Law Program competency-based approach. Through constitutional and legal foundations, case studies and real-world examples, students will learn how the law is used as a public health tool. Special attention is paid to contemporary applications in public health law and the implications for bringing about health equity in vulnerable populations. Offered Yearly.

PH 3900 LGBTQ Health Cr. 3
Centers on LGBTQ voices and takes an intersectional socioecological approach to exploring social determinants of health, and a range of health outcomes and challenges in LGBTQ communities; and the implications for public health research, policy, and practice to improve LGBTQ health. Introduces students to key conceptual frameworks for understanding LGBTQ health across the lifespan and promoting health equity. Offered Yearly. Prerequisites: PH 2100 with a minimum grade of C-, PH 3100 with a minimum grade of C-, GSW 2500 with a minimum grade of C-, GSW 2600 with a minimum grade of C-, SOC 1020 with a minimum grade of C-, SOC 2202 with a minimum grade of C-, or SOC 2300 with a minimum grade of C-
Equivalent: SOC 3900

PH 4050 Crime and Public Health Cr. 3
Introduces students to the interface between public health and criminal justice in the United States, focusing on different aspects of the relationship. It will first describe the newly emerged epidemiological criminology, and then analyze a variety of topics on crime and public health, including, but not limited to, the health of incarcerated populations, the health of criminal justice professionals, health consequences of crime and risk behaviors, public health and law, gangs and gang violence, mental health and substance abuse, environmental justice, and public health interventions with criminal justice populations. Offered Winter. Equivalent: CRJ 4050

PH 4100 Public Health Principles and Practice Cr. 2
This required course examines practice-based approaches to improve public health. The focus will be on learning methods for community health improvement, from assessment to finding and implementing evidence-based public health interventions. Offered Every Term. Prerequisites: PH 2100 with a minimum grade of C-, PH 3100 with a minimum grade of C-, PH 3200 with a minimum grade of C-, PH 3300 with a minimum grade of C-, and PH 3500 with a minimum grade of C-
Corequisite: PH 4150
Restriction(s): Enrollment limited to students with a class of Senior; enrollment is limited to students with a major in Public Health or Public Health Honors.

PH 4150 Public Health Practicum Cr. 2
This required course is a practice-based experience that provides a hands-on, diverse approach to learning about public health practice. Students will complete a 90-hour practicum experience in a local community organization or other public health setting. Offered Every Term. Prerequisites: PH 2100 with a minimum grade of C-, PH 3100 with a minimum grade of C-, PH 3200 with a minimum grade of C-, PH 3300 with a minimum grade of C-, and PH 3500 with a minimum grade of C-
Corequisite: PH 4100
Restriction(s): Enrollment limited to students with a class of Senior; enrollment is limited to students with a major in Public Health or Public Health Honors.

PH 4250 Interprofessional Education and Public Health Cr. 4
More than 20 years ago, public health, medicine, nursing, pharmacy and dentistry professionals formed a collaborative to ensure that future professionals would be prepared to engage in a team-based approach to patient care. Today, more than 20 professional member associations have joined this effort. In this class, students will explore the unique and intertwined roles and responsibilities of health care providers; learn effective interprofessional communication strategies, ethics, and values; and learn how to establish high functioning multidisciplinary health care teams to improve patient outcomes. Offered Every Term. Prerequisites: PH 2100 with a minimum grade of C-, PH 3100 with a minimum grade of C-, PH 3200 with a minimum grade of C-, PH 3300 with a minimum grade of C-, and PH 3500 with a minimum grade of C-
Restriction(s): Enrollment limited to students with a class of Senior; enrollment is limited to students with a major in Public Health or Public Health Honors.

PH 4400 Methodological Approaches in Public Health Cr. 4
This course provides students with a review of methodological approaches in public health. Students will analyze the benefits and costs of each methodological approach, and how to best apply each method in real-world settings. Students will also critically assess scientific literature in core areas of public health. The content and assignments for this course are designed to prepare students for the Capstone Course (PH 5100). Offered Every Term. Prerequisites: PH 2100 with a minimum grade of C-, PH 3100 with a minimum grade of C-, PH 3200 with a minimum grade of C-, PH 3300 with a minimum grade of C-, and PH 3500 with a minimum grade of C-
Restriction(s): Enrollment limited to students with a major in Public Health or Public Health Honors.

PH 4600 Special Topics in Health Disparities Cr. 3
Topics may include but are not limited to an examination of health disparities by race or ethnicity, gender, income, age, nationality, or residential location. Offered Intermittently. Repeatable for 6 Credits

PH 4900 Directed Study in Public Health Cr. 1-3
Course requirements include directed readings and participation in public health research, under the direct supervision of a faculty member affiliated with the Department of Public Health in the College of Liberal Arts and Sciences. Offered Every Term. Repeatable for 3 Credits

PH 5100 Capstone Course in Public Health Cr. 4
Satisfies General Education Requirement: Writing Intensive Competency This capstone course provides the culminating curricular experience for students enrolled in Wayne State's Public Health major. A significant part of the final course grade is based on the student's completion of an individualized capstone project. Offered Every Term. Prerequisites: (PH 4100 with a minimum grade of C- and PH 4150 with a minimum grade of C-) or (PH 4250 with a minimum grade of C- and PH 4400 with a minimum grade of C-)
PHA - Pharmacy

PHA 4105 Pathophysiology I Cr. 3
Advanced pathophysiologic concepts affecting the adult human using a research-based, system-focused approach, including etiology, pathogenesis and clinical manifestations of commonly found/seen altered health states. Offered Fall.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PHA 4125 Drug Literature Evaluation and Foundations of Research Cr. 3
Critical evaluation of the medical literature and provision of foundational research skills. Offered Fall.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PHA 4205 Pathophysiology II Cr. 2
Advanced pathophysiologic concepts affecting the adult human using a research-based, system-focused approach, including etiology, pathogenesis and clinical manifestations of commonly found/seen altered health states. Offered Winter.
Prerequisite: PHA 4105
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

Course Material Fees: $70

PHA 4225 Principles of Pharmacotherapy I: Respiratory, Gastroenterology, Allergy, Ophthalmology Cr. 4
Principles of medicinal chemistry, pharmacology, and therapeutics as applied to the treatment of gastroenterologic, pulmonary, ophthalmologic, and allergic disorders, and basic self-care. Offered Winter.
Prerequisite: PHA 4105
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

Course Material Fees: $85

PHA 4235 Pharmacotherapeutic Problem Solving I: Respiratory, Gastroenterology, Allergy, Ophthalmology Cr. 2
Problem-based learning focusing on pathophysiology, pharmacology, medicinal chemistry and pharmacotherapeutics of respiratory, gastroenterologic, allergic, and ophthalmologic disorders, and basic self-care. Offered Winter.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

Course Material Fees: $70

PHA 4275 Pharmacotherapeutic Problem Solving II: Infectious Diseases, Neurology, Psychiatry Cr. 2
Problem-based learning focusing on pathophysiology, pharmacology, medicinal chemistry and pharmacotherapeutics of infectious, neurologic, and psychiatric diseases. Offered Winter.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

Course Material Fees: $70

PHA 4280 Principles of Pharmacotherapy VIII Cr. 2-3
Pharmacotherapeutic principles of special populations, men's and women's health, patient problem solving. Offered Winter.
Corequisite: PHA 5275
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PHA 6125 Principles of Pharmacotherapy VI: Oncology, Advanced Immunology Cr. 3
Principles of medicinal chemistry, pharmacology, and therapeutics as applied to the treatment of oncologic and immunologic disorders. Offered Fall.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

Course Material Fees: $70

PHA 6135 Pharmacotherapeutic Problem Solving IV: Oncology and Advanced Pharmacotherapeutics Cr. 3
Problem-based learning focusing on pathophysiology, pharmacology, medicinal chemistry and pharmacotherapeutics of neoplastic disorders and advanced pharmacotherapeutics. Offered Fall.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.
PHC 6235 Pharmacotherapeutic Problem Solving V: Drug Induced Diseases Cr. 2
Problem-based learning focusing on pathophysiology, pharmacology, medicinal chemistry, and pharmacotherapeutics of drug-induced diseases. Offered Winter.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.
Course Material Fees: $85

PHC - Pharmacology

PHC 5030 Individual Research in Pharmacology Cr. 2-5
Direct participation in laboratory research into the ways drugs affect cell processes, under the supervision of a departmental faculty advisor. Introduction to experimental protocol and current related scientific literature. Offered for graduate credit only. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

PHC 6500 Drugs and the Addictive Process Cr. 3
Introduction to general principles of drug action; specific pharmacologic, toxicologic, and pathologic effects of abused drugs; bio-psycho-social bases for addiction. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

PHC 7010 Pharmacology Lecture Cr. 4
Introductory presentation of drug actions on living tissue. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

PHC 7021 Advanced Health Assessment and Clinical Diagnosis Cr. 3
Advanced systematic focus on health assessment, anatomical and physical limitations, and impact on anesthesia practice. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $10
Equivalent: AN 7010

PHC 7031 Advanced Pharmacology I Cr. 3
Prepares students with in-depth knowledge and understanding of the Pharmacokinetics and Pharmacodynamics for the nurse anesthetist. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $15
Equivalent: AN 7100

PHC 7032 Advanced Pharmacology II Cr. 3
Prepares students with in-depth knowledge and understanding of the Pharmacokinetics and Pharmacodynamics for the anesthetist. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $15
Equivalent: AN 7110

PHC 7221 Advanced Physiology Cr. 4
Examine normal physiology with emphasis on the respiratory, renal, cardiovascular, neurological, endocrine, liver functions and and associated disease. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: AN 7220

PHC 7241 Advanced Physiology and Pathophysiology I Cr. 3
Advanced knowledge in physiology; in-depth analysis of disease processes; correlation of pathophysiology, pharmacology, and advanced principles of anesthesia care. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $10
Equivalent: AN 7240

PHC 7242 Advanced Physiology and Pathophysiology II Cr. 3
An in-depth assessment human physiology, and disease processes to include analysis of cellular structure and functions of the total body system. Offered Spring/Summer.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: AN 7241

PHC 7410 Principles of Toxicology Cr. 3
Basic concepts and principles of toxicology, including toxicity of major classes of chemicals (pesticides, solvents, metals) and organ systems (renal, immune, digestive, neuro and respiratory) affected. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: BIO 7011

PHC 7501 Chemistry and Physics for the Anesthetist Cr. 2
Analysis and principles of chemistry and physics as applied to anesthesia. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $20
Equivalent: AN 7500

PHC 7601 Regional Anesthesia and Pain Management Cr. 3
The study and application of regional anesthesia and management and treatment of acute and chronic pain. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $20
Equivalent: AN 7600

PHC 7640 Research and Statistics for the Anesthetist Cr. 3
Acquire the knowledge on qualitative and quantitative research, obtain data, and develop appropriate method to analyze data and implementation of research findings. Offered Spring/Summer.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: AN 7640

PHC 7650 Advanced Topics in Pharmacology Cr. 1-6
Modules of instruction in sharply-defined areas of current research in pharmacology and related disciplines. Each module will cover fundamental concepts, essential knowledge base, research protocols and techniques, and future issues. Offered Every Term.
Prerequisite: PHC 7010 with a minimum grade of C.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 6 Credits

PHC 7700 Recent Developments in Pharmacology Cr. 1-4
Selected topics and readings in pharmacology. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

PHC 7710 Individual Studies in Pharmacology Cr. 1-8
Offered Every Term.
Restriction(s): Enrollment is limited to students with a major in Pharmacology; enrollment is limited to Graduate level students; enrollment limited to students in a Doctor of Philosophy or Master of Science degrees.
Repeatable for 8 Credits

PHC 7730 Reproductive Sciences: Teratology Cr. 3
Principles of the science of birth defects; focus on impact of environmental poisons, medicines, and drugs of abuse on developing germ cells, embryos and fetuses. Roles of pharmacological/toxicological, physiological (maternal, placental, and fetal), genetic and nutritional factors in the teratogenic response are examined. Texts and current readings. Offered Every Other Fall.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: PSL 7730
PHC 7880 Anesthesia Seminar Cr. 1
Current developments in concepts and theories of nurse anesthesia. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: AN 7880
Repeatable for 4 Credits

PHC 7890 Seminar Cr. 1
Assigned readings and student presentation; faculty and outside speakers. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major in Pharmacology; enrollment is limited to Graduate level students; enrollment limited to students in a Doctor of Philosophy or Master of Science degrees.
Repeatable for 12 Credits

PHC 7902 Ethics and Health Care Cr. 3
Basic understanding of ethical theories and practice, and new challenges encountered in health care settings. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: AN 7902

PHC 7996 Research Cr. 1-20
Special research topics in specified areas arranged with individual faculty members. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 30 Credits

PHC 8888 Survey of Research at the Chemistry Biology Interface Cr. 3
The Chemistry Biology Interface course will teach students how to apply chemical approaches to study complete biological processes. It will commence with a basic overview of the biochemistry of biomolecules. Next, complex biological processes related to various diseases will be highlighted by introducing cell biology, model cells and organisms, and disease mechanisms. Finally, the course will highlight contemporary examples of how chemical methods are used to answer complex biological questions to show the value and innovation available by taking a multidisciplinary approach. The focus will be on development of skill sets that are applicable for research at the chemistry biology interface, rigor and transparency in data collection and analysis, and identification of cross-disciplinary research at Wayne State. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: BIO 8888, CHM 8888, PSC 8888, PSL 8888

PHC 8999 Master's Thesis Research and Direction Cr. 1-8
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students.
Repeatable for 8 Credits

PHC 9990 Pre-Doctoral Candidacy Research Cr. 1-8
Research in preparation for doctoral dissertation. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

PHC 9991 Doctoral Candidate Status I: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

PHC 9992 Doctoral Candidate Status II: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PHC 9991 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PHC 9993 Doctoral Candidate Status III: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PHC 9992 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PHC 9994 Doctoral Candidate Status IV: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PHC 9993 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PHC 9995 Candidate Maintenance Status: Doctoral Dissertation Research and Direction Cr. 0
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $402.01
Repeatable for 0 Credits

PHI - Philosophy

PHI 1010 Introduction to Philosophy Cr. 4
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Survey of some major questions that have occupied philosophers throughout history, such as Does God exist? What is a good person? Do we have free will? Is the mind the same as the brain? What can we really know? Course will acquaint students with major figures both historical and contemporary. Offered Every Term.

PHI 1020 Honors Introduction to Philosophy Cr. 3-4
Satisfies General Education Requirement: Cultural Inquiry, Honors Section, Philosophy Letters
Survey of some major questions that have occupied philosophers throughout history, such as Does God exist? What is a good person? Do we have free will? What can we really know? Course will acquaint students with major figures both historical and contemporary. Offered Intermittently.

PHI 1050 Critical Thinking Cr. 3
Satisfies General Education Requirement: Critical Thinking Competency
Knowledge and skills relevant to the critical evaluation of claims and arguments. Topics will include: the formulation and identification of deductively and inductively warranted conclusions from available evidence; the assessment of the strengths of arguments; the assessment of consistency, inconsistency, implications, and equivalence among statements; the identification of fallacious patterns of inference; and the recognition of explanatory relations among statements. Offered Every Term.

PHI 1070 Reasoning and Decision Cr. 3
Satisfies General Education Requirement: Quantitative Experience Comp Students develop quantitative reasoning skills such as statistical analysis and probabilistic reasoning. Offered Every Term.

PHI 1100 Contemporary Moral Issues Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Diversity Equity Incl Inquiry, Philosophy Letters
Critical discussion of contemporary moral issues including pornography, adultery, same-sex marriage, abortion, preferential treatment, obligations to the poor, capital punishment, terrorism, and others. Offered Every Term.
Repeatable for 9 Credits

PHI 2550 Introduction to Philosophy of Science Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters  
Distinguishing science from non-science; how scientific knowledge is established; what constitutes scientific progress; whether science is cumulative; the place of science in the enterprise of knowledge and rational belief. Offered Every Other Year.

PHI 2650 Philosophy of Psychology Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry  
Central examples of these questions and proposed answers: Could we build an intelligent computer? Is our mind just a piece of software that our brain is running? Is there a "language of thought"? Are we much less rational than we think? How can we understand each other's minds? Can there be laws in psychology? What is consciousness, and can it be studied scientifically? We will address these and other questions via the work of philosophers, psychologists and cognitive scientists. Offered Winter.  
Equivalent: PSY 2650  
PHI 2850 Introductory Symbolic Logic Cr. 3  
The logic of propositions; the general logic of predicates and relations. Offered Yearly.  
Equivalent: LIN 1850  
PHI 2860 Honors Introductory Symbolic Logic Cr. 3  
See PHI 1850. Offered Yearly.  
Equivalent: LIN 1860  
PHI 3270 Foundations of Law Cr. 3  
The legal system we live under commands, forbids, punishes, and defines responsibilities and harm. Common-sense morality: what is it, and what is its relation to law? Statutory interpretation: do judges create new law? Punishment: why do we have it, and what rights do the accused have? What is the legal concept of harm and responsibility? Offered Every Other Year.  
Prerequisites: PHI 2000-6XXX with a minimum grade of D-, CLA 1010 with a minimum grade of D-, or PS 1010-1030 with a minimum grade of D-  
PHI 3450 Existentialism Cr. 3  
Examines major philosophical views and figures in the Existentialist tradition, such as Sartre, Camus, Heidegger, de Beauvoir, Buber, Ortega y Gasset, Kierkegaard, and Nietzsche. Offered Every Other Year.  
PHI 3500 Theory of Knowledge Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters  
The distinction between knowledge and belief is germane to every field of inquiry. What is the difference between knowledge and belief? Do we know anything at all? If so, how? Are we ever in a position of being certain about beliefs pertaining to an objective world? Is our belief in an objective world based on our subjective experiences? Offered Every Term.  
PHI 3550 Metaphysics Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters  
Survey and examination of some of the enduring questions of metaphysics concerning the nature of reality. Topics include: the nature of physical objects, abstract entities, the concepts of time and change, the relation between mind and body, causation, the nature of metaphysics. Offered Yearly.  
PHI 3600 Space, Time, and the Philosophy of Physics Cr. 3  
Survey of some principal problems concerning the concepts of space and time and their relation to physical theories. Topics include: our knowledge of the geometric features of the world, the existence of space and time, time without change, the passage of time, the philosophical foundations and implications of Einstein's Special Theory of Relativity, and the explanation of motion and the General Theory of Relativity. No prior knowledge of modern physics will be presupposed. Offered Every Other Year.  
Prerequisites: PHI 2000-6XXX with a minimum grade of D-  
PHI 3700 Philosophy of Art Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters  
What are art works? Why are they so moving? What is the nature of the experience they offer? This course introduces the student to some of the schools of thought on these issues. It also attempts to deal with the specific natures of the various artistic media, such as: drama, literature, film, painting, photography, music and opera. Offered Every Term.  
PHI 3800 Topics in Philosophy Cr. 3  
Topics to be announced in Schedule of Classes. Offered Intermittently. Repeatable for 6 Credits  
PHI 4890 Honors Thesis Cr. 3  
Directed research project that culminates in the student's honors thesis. Offered Winter.  
Restriction(s): Enrollment limited to students in the Honors College.  
PHI 4995 Research Training Cr. 1-4  
Students engage in an independent research project and learn research methods in Philosophy under the supervision of a faculty member. Offered Every Term. Repeatable for 4 Credits  
PHI 5050 Advanced Symbolic Logic Cr. 4  
Formal, extensive treatment of first-order predicate logic with emphasis on the notions of a formal logical language and truth in a model, the logic of identity, definite descriptions; brief introductions to set theory and the metatheory of propositional and first-order logic; some additional advanced topics to be selected by the instructor. Offered Yearly.  
Equivalent: LIN 5050  
PHI 5210 Philosophy of Race and Racism Cr. 4  
An examination of philosophical approaches to the study of race and racism, including the metaphysics of race and the epistemology of racism and ignorance. Offered Every Other Fall.  
Prerequisites: PHI 2000-6XXX with a minimum grade of D-  
PHI 5230 Philosophy of Science Cr. 4  
Intensive investigation and discussion of special topics or particular authors in the philosophy of science. Offered Yearly.  
Prerequisites: 1 of (PHI 2400, PHI 5630, PHI 5640, PHI 2550, PHI 3500, PHI 3600, PHI 5230, PHI 5500, PHI 5530, PHI 5550, or PHI 5570)  
PHI 5240 Social and Political Philosophy Cr. 4  
Selected topics and readings from major social and political philosophers. Possible readings include Hobbes, Locke, J.S. Mill, Rawls, Simmons, Pateman, Frederick Douglass, and Charles Mills. Offered Every Other Year.  
Prerequisites: PHI 2000-ZZZZ with a minimum grade of C (may be taken concurrently)
PHI 5250 Justice and Rights in Health Care Cr. 4
This course is centered around the general question: What does justice require of a society in terms of providing health care to its members? It examines classic philosophical theories of justice including egalitarianism, libertarianism, and Rawls’ justice as fairness, before turning to the implications of these theories for health care access. Questions include: Does justice require providing universal health care? Is it compatible with offering different health care plans to different persons, or does justice require everyone have the same health care? How do issues of fairness in health care access relate to various forms of oppression in society, such as racism, classism, and sexism? Offered Fall.
Prerequisites: PHI 2000-ZZZZ with a minimum grade of C (may be taken concurrently)

PHI 5260 Philosophy of Sex and Gender Cr. 3
Explores ethical and conceptual issues surrounding sex, gender, and sexual orientation. Specific topics include conceptual analysis of sex, gender, and sexual orientation; sexual perversion, natural law, consent, marriage, adultery, “casual” sex, polygamy and polyamory, prostitution, and pornography. Offered Every Other Year.

PHI 5270 Philosophy of Law Cr. 4
Intensive investigation and discussion of special topics or particular authors in the philosophy of law. Possible readings include Austin, Hart, Fuller, Finnis, Martin Luther King, Jr., R. Dworkin, Scalia, J.S. Mill, and Shiffrin. Offered Every Other Year.

PHI 5280 History of Ethics Cr. 4
A survey and discussion of historically important moral philosophers from Plato to Mill. Offered Every Other Year.
Prerequisites: PHI 2000-6XXX with a minimum grade of D-, CLA 1010 with a minimum grade of D-, or PS 1010-1030 with a minimum grade of D-

PHI 5290 Free Will and Moral Responsibility Cr. 4
Exploration of the nature of, and relationship between, free will and moral responsibility. Questions include: What is free will? Is free will required for moral responsibility? Are freedom and responsibility compatible with determinism (the claim that the initial state of the universe plus the physical laws of nature determine everything that happens)? Does our practice of holding one another responsible reveal the nature of moral responsibility? Offered Fall.
Prerequisites: PHI 2000-ZZZZ with a minimum grade of C (may be taken concurrently)

PHI 5300 Foundations of Ethics Cr. 4
Twentieth century moral philosophers in the analytic tradition, with focus on debates in moral realism, moral epistemology, and the “Why be moral?” question; includes such philosophers as Moore, Stevenson, Foot, Mackie, Blackburn, Gibbard, Parfit, Korsgaard, and Railton. Offered Every Other Year.
Prerequisites: PHI 2000-6XXX with a minimum grade of D-, CLA 1010 with a minimum grade of D-, or PS 1010-1030 with a minimum grade of D-

PHI 5330 Ethics, Law, and Health Cr. 4
Provides a foundational understanding of how to use the tools of philosophy (especially ethics) to critically assess complex issues concerning public health, medical care, health law, and health policy. Covers foundations of normative ethical theory and of legal theory, and uses that understanding to address ethical and legal questions about discrete practical issues dealing with health. Offered Yearly.
Prerequisites: PHI 2000-ZZZZ with a minimum grade of C (may be taken concurrently)

PHI 5350 Logical Systems I Cr. 4
Metarules concerning formal systems of sentential and first-order logics; soundness, completeness; independence of axioms; introduction to recursive functions; formalization of elementary arithmetic; discussion of Godel’s incompleteness theorem and Church’s Theorem. Offered Every Other Year.
Prerequisites: MAT 5600 with a minimum grade of C, PHI 2850 with a minimum grade of C, PHI 2860 with a minimum grade of C, PHI 3500 with a minimum grade of C, or MAT 5420 with a minimum grade of C
Equivalent: MAT 5350

PHI 5400 The Presocratics and Sophists Cr. 4
Selected readings on topics in philosophers who preceded or were contemporaneous with Socrates (7th - 5th centuries B.C.E), such as Heraclitus, Parmenides, Zeno, Democritus. Offered Intermittently.
Prerequisites: PHI 2000-6XXX with a minimum grade of D-, CLA 1010 with a minimum grade of D-, or PS 1010-1030 with a minimum grade of D-

PHI 5410 Plato Cr. 4
Selected readings on topics in Plato. Offered Every Other Year.
Prerequisites: PHI 2000-6XXX with a minimum grade of D-, CLA 1010 with a minimum grade of D-, or PS 1010-1030 with a minimum grade of D-

PHI 5420 Aristotle Cr. 4
Selected readings on topics in Aristotle. Offered Every Other Year.

PHI 5450 British Empiricism Cr. 4
Topics concerning Locke, Berkeley and Hume. Offered Intermittently.
Prerequisites: PHI 2000-6XXX with a minimum grade of D-, CLA 1010 with a minimum grade of D-, or PS 1010-1030 with a minimum grade of D-

PHI 5460 Kant Cr. 4
Selected topics or readings in Kant’s philosophy. Offered Every Other Year.
Prerequisites: PHI 2000-6XXX with a minimum grade of D-, CLA 1010 with a minimum grade of D-, or PS 1010-1030 with a minimum grade of D-

PHI 5500 Topics in Metaphysics Cr. 4
Intensive investigation and discussion of special topics or particular authors in metaphysics. Offered Yearly.

PHI 5530 Topics in Epistemology Cr. 4
Intensive investigation and discussion of special topics or particular authors in the theory of knowledge. Offered Intermittently.

PHI 5550 Philosophy of Mind Cr. 4
Intensive investigation and discussion of special topics or particular authors concerned with the nature and status of the mental and theories about the mental. Offered Every Other Year.

PHI 5570 Philosophy of Language Cr. 4
Intensive investigation and discussion of philosophical problems concerning meaning, truth, and the nature of language. Offered Every Other Year.
Prerequisites: 1 of (PHI 2400, PHI 5630, PHI 5640, PHI 2550, PHI 3500, PHI 3600, PHI 5230, PHI 5500, PHI 5530, PHI 5550, or PHI 5570)
Equivalent: LIN 5570

PHI 5630 Twentieth Century Analytic Philosophy I Cr. 4
Major works, movements, and writers in the analytic tradition in the twentieth century up to the 1940s, such as Frege, Russell, Moore, the early Wittgenstein, Carnap, Ayer. Offered Intermittently.
Prerequisites: 1 of (PHI 2400, PHI 5630, PHI 5640, PHI 2550, PHI 3500, PHI 3600, PHI 5230, PHI 5500, PHI 5530, PHI 5550, or PHI 5570)

PHI 5800 Special Topics in Philosophy Cr. 2-4
Topics and prerequisites to be announced in Schedule of Classes . Offered Intermittently.
Repeatable for 8 Credits
PHI 5900 Advanced Undergraduate Research Seminar in Philosophy Cr. 4
Advanced seminar in Philosophy. Topics and instructor vary by semester. Offered Fall, Winter.
Repeatable for 12 Credits

PHI 5993 Writing Intensive Course in Philosophy Cr. 0
Satisfies General Education Requirement: Writing Intensive Competency
Disciplinary writing assignments under direction of faculty member. Must be selected in conjunction with a course designated as a corequisite; see section listing in Schedule of Classes for corequisites available each term. Satisfies the University General Education Writing Intensive Course in the Major requirement. Directed practice in rewriting assignments for the concurrently-elected course, for the purpose of perfecting skills in philosophical writing. Does not count toward the course minimums for the major or minor. Required for all majors. Offered Every Term.
Prerequisites: (AFS 2390 with a minimum grade of C, ENG 2390 with a minimum grade of C, ENG 3010 with a minimum grade of C, ENG 3020 with a minimum grade of C, or ENG 3050 with a minimum grade of C) and (PHI 3000-5040 (may be taken concurrently), PHI 5200-5340 (may be taken concurrently), or PHI 5400-6999 (may be taken concurrently))
Restriction(s): Enrollment limited to Undergraduate level students.

PHI 6990 Directed Reading Cr. 1-6
Intensive investigation by student on topic chosen by student in consultation with instructor. Offered Every Term.
Repeatable for 12 Credits

PHI 6999 Certificate Essay Direction Cr. 1-4
Individual direction for writing Certificate Essay in Health Care Ethics. Offered Every Term.
Restriction(s): Enrollment limited to students in the GC in Health Care Ethics program.
Repeatable for 4 Credits

PHI 7790 Seminar in Philosophy of Language Cr. 4
Offered Intermittently.
Prerequisites: PHI 5000-5999
Restriction(s): Enrollment limited to Graduate level students.
Repeatable for 8 Credits

PHI 7800 Seminar in Philosophy: Special Topics Cr. 4
Offered Intermittently.
Prerequisites: PHI 5000-5999
Restriction(s): Enrollment limited to Graduate level students.
Repeatable for 8 Credits

PHI 7810 Seminar in History of Philosophy Cr. 4
Study of a philosopher or period. Offered Intermittently.
Restriction(s): Enrollment limited to Graduate level students.
Repeatable for 8 Credits

PHI 7840 Seminar in Ethics Cr. 4
Offered Intermittently.
Prerequisites: PHI 5000-5999
Restriction(s): Enrollment limited to Graduate level students.
Repeatable for 8 Credits

PHI 7850 Seminar in Epistemology Cr. 4
Offered Intermittently.
Prerequisites: PHI 5000-5999
Restriction(s): Enrollment limited to Graduate level students.
Repeatable for 8 Credits

PHI 7860 Seminar in Metaphysics Cr. 4
Offered Intermittently.
Prerequisites: PHI 5000-5999
Restriction(s): Enrollment limited to Graduate level students.
Repeatable for 8 Credits

PHI 7910 Preliminary Research I Cr. 2
Provides students with the opportunity to lay the groundwork for an article of publishable quality in a specialized area of philosophy. With the help of a faculty mentor, students will develop independent philosophical research skills, evaluate current scholarship in a specialized area of philosophy, identify potential article topics in that area, develop an original idea that advances current scholarship in that area, and start the process of writing an article of publishable quality by completing at least a first draft of that article. To enroll in this course, a student must have completed 32 credits toward the Ph.D., must obtain permission from a faculty member in philosophy to serve as the mentor of the course, and must obtain the written consent of the graduate director. Offered Every Term.
Restriction(s): Enrollment limited to Graduate level students.

PHI 7920 Preliminary Research II Cr. 2
Builds on Preliminary Research I, providing students with the opportunity to lay the groundwork for a second article of publishable quality in a specialized area of philosophy. With the help of a faculty mentor, students will continue to develop independent philosophical research skills, evaluate current scholarship in a specialized area of philosophy, identify potential article topics in that area, develop an original idea that advances current scholarship in that area, and start the process of writing an article of publishable quality by completing at least a first draft of that article. To enroll in this course, a student must obtain permission from a faculty member in philosophy to serve as the mentor of the course and must obtain the written consent of the graduate director. Offered Every Term.
Prerequisite: PHI 7910
Restriction(s): Enrollment limited to Graduate level students.

PHI 7990 Directed Study in Philosophy Cr. 1-4
Directed study for graduate students in Philosophy. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

PHI 7999 Master's Essay Direction Cr. 1-4
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students.
Repeatable for 99 Credits

PHI 8999 Master's Thesis Direction and Research Cr. 1-8
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students.
Repeatable for 8 Credits

PHI 9990 Pre-Doctoral Candidacy Research Cr. 1-8
Research in preparation for doctoral dissertation. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

PHI 9991 Doctoral Candidate Status I: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

PHI 9992 Doctoral Candidate Status II: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PHI 9991 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PHI 9993 Doctoral Candidate Status III: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PHI 9992 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.
PHI 9994 Doctoral Candidate Status IV: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PHI 9993 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PHI 9995 Candidate Maintenance Status: Doctoral Dissertation Research and Direction Cr. 0
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $402.01
Repeatable for 0 Credits

PHY - Physics

PHY 1001 Perspectives in Physics, Biomedical Physics, and Astronomy Cr. 1
Survey of educational and career paths including specializations in basic research and applied disciplines; recommended for entering students and those considering or beginning a major or minor concentration. Offered Fall.
Restriction(s): Enrollment is limited to Undergraduate level students.

PHY 1020 Conceptual Physics: The Basic Science Cr. 3
Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences, Quantitative Experience Comp
This course will introduce key concepts of classical and modern physics. Students will be able to demonstrate knowledge of physics concepts starting from the foundations of measurements, describing motion, and Newton’s Laws. Building on these foundations, they will be able to explore the concepts of conserved quantities, states of matter, temperature and heat, waves and sound, electricity and magnetism, optics, atomic physics, nuclear physics, relativity, elementary particles, and cosmology. About three fourths of the class will be spent in lecture and one-fourth discussing questions and problems at the end of each chapter. Along with PHY 1020, students may take a one-credit laboratory course, PHY 1021. Students will need to do arithmetic and simple algebra roughly at the level of high school that is required by the university for you to graduate. Offered Every Term.

PHY 1021 Conceptual Physics Laboratory Cr. 1
The Conceptual Physics Laboratory is designed as introduction to research methods in physics. Students learn how to design experiments to answer physical questions, learn how to summarize and present their methods, findings and conclusions, and how to present their conclusions both in written and oral form. Students also learn how to discuss their findings and be able to defend their conclusions. Offered Every Term.
Corequisite: PHY 1020
Course Material Fees: $25

PHY 2020 Science, Technology, and War Cr. 4
Modern weapons, nuclear and otherwise are becoming increasingly available and dangerous; people with grievances seem eager to use them. Science and technology, as well as constraints of bureaucracy and society underpin weapons development and use, as technologies affect prospects and results of war and peace. History of humanity and its tools of war. Offered Yearly.
Equivalent: HIS 2510, PCS 2020, PS 2440

PHY 2130 Physics for the Life Sciences I Cr. 4
Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences
Introduction to physics for students in the life sciences, preparing for medicine, dentistry, pharmacy and health sciences and for general Liberal Arts and Sciences students. Covers motion, forces, energy, diffusion, fluids, thermal physics with many biological examples. Satisfies General Education laboratory requirement only when taken concurrently with PHY 2131. No credit after PHY 2170. Offered Every Term.
Corequisite: PHY 2131

PHY 2131 Physics for the Life Sciences Laboratory Cr. 1
Laboratory experiments in fluid mechanics, diffusion and biophysics. Satisfies General Education laboratory requirement only when taken concurrently with PHY 2130. Offered Every Term.
Course Material Fees: $25

PHY 2140 Physics for the Life Sciences II Cr. 4
Second part of introduction to physics for students in the life sciences, students preparing for medicine, dentistry, pharmacy and health sciences and for general Liberal Arts and Sciences students. Covers thermodynamics, electric fields, oscillations, waves and optics. No credit after PHY 2180. Offered Every Term.
Prerequisites: PHY 2130 with a minimum grade of C-
Corequisites: PHY 2141

PHY 2141 Physics for the Life Sciences Laboratory Cr. 1
Laboratory experiments in electric fields, fluids, optics and spectroscopy. Offered Every Term.
Course Material Fees: $25

PHY 2170 University Physics for Scientists I Cr. 4
Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences
For students specializing in physics, biology, chemistry, mathematics or engineering. Statics, kinematics, dynamics, energy and linear momentum, rotational kinematics and dynamics, angular momentum, solids and fluids, vibrations and wave motion, thermodynamics. Satisfies General Education Laboratory Requirement only when taken concurrently with PHY 2171. No credit after PHY 2175. Offered Every Term.
Prerequisites: MAT 1800 with a minimum grade of C- and MAT 2010 with a minimum grade of C- (may be taken concurrently)
Corequisites: PHY 2171

PHY 2171 University Physics Laboratory Cr. 1
Laboratory experiments in statics, kinematics, dynamics, energy and linear momentum, rotational kinematics and dynamics, angular momentum, simple harmonic motion, optics, continuum mechanics, thermodynamics. Satisfies General Education laboratory requirement only when taken concurrently with PHY 2170. Offered Every Term.
Course Material Fees: $25

PHY 2175 University Physics for Engineers I Cr. 4
Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences
For students specializing in engineering. Statics, kinematics, dynamics, energy and linear momentum, rotational kinematics and dynamics, angular momentum, solids and fluids, vibrations and wave motion, thermodynamics. No credit after PHY 2170. Offered Every Term.
Prerequisites: MAT 2010 with a minimum grade of C (may be taken concurrently)
Restriction(s): Enrollment limited to students in the College of Engineering.

Wayne State University Graduate Bulletin 2022-2023 703
PHY 2180 University Physics for Scientists II Cr. 4
Electric forces and electric fields, electrical energy, capacitance, current, resistance, direct current circuits, magnetism, induced voltage and inductance, AC circuits, electromagnetic waves, geometric and wave optics. No credit after PHY 2185. Offered Every Term.
Prerequisites: MAT 2010 with a minimum grade of D-, MAT 2020 with a minimum grade of D- (may be taken concurrently), and PHY 2170 with a minimum grade of C-
Corequisite: PHY 2181

PHY 2181 University Physics Laboratory II Cr. 1
Laboratory experiments in electrostatics, currents and circuit elements, magnetic fields, magnetic induction, AC circuits, electromagnetic waves, interference of waves. Offered Every Term.
Course Material Fees: $25

PHY 2185 University Physics for Engineers II Cr. 4
Electric forces and electric fields, electrical energy, capacitance, current, resistance, direct current circuits, magnetism, induced voltage and inductance, AC circuits, electromagnetic waves, geometric and wave optics. No credit after PHY 2180. Offered Every Term.
Prerequisites: (PHY 2170 with a minimum grade of C- or PHY 2175 with a minimum grade of C-), MAT 2010 with a minimum grade of D-, and MAT 2020 with a minimum grade of D- (may be taken concurrently)
Restriction(s): Enrollment limited to students in the College of Engineering.

PHY 2210 General Physics Laboratory Cr. 1
Consult departmental undergraduate academic advisor prior to registering for this course. No credit after PHY 1020 if taken for four credits. Offered Every Term.
Prerequisite: PHY 1020 with a minimum grade of D-
Course Material Fees: $15

PHY 3100 The Sounds of Music Cr. 4
Satisfies General Education Requirement: Natural Scientific Inquiry, Physical Sciences
For music majors and other students interested in the physical foundations of the production, perception, and reproduction of musical sounds. Makes only limited use of simple mathematics. Includes topics such as wave properties, loudness levels and the human ear, hearing loss, tone quality, frequency and pitch, musical intervals and tuning, room acoustics, the production of sound by various musical instruments, and electronic reproduction of music. Meets General Education Laboratory Requirement. Offered Fall.
Course Material Fees: $25

PHY 3300 Introductory Modern Physics Cr. 3
For physics, chemistry, engineering, mathematics majors and other interested students. Introduction to relativity, quantum phenomena, atomic structure, quantum mechanics, condensed matter physics, quantum optics, nuclear physics, elementary particles, and anti-particles. Offered Fall, Winter.
Prerequisites: ((PHY 2130 with a minimum grade of C- and PHY 2131 with a minimum grade of C- or (PHY 2170 with a minimum grade of C- and PHY 2171 with a minimum grade of C-), (PHY 2140 with a minimum grade of C- and PHY 2141 with a minimum grade of C- or (PHY 2180 with a minimum grade of C- and PHY 2181 with a minimum grade of C-)), and MAT 2020 with a minimum grade of C-
Corequisite: PHY 3310

PHY 3310 Introductory Modern Physics Laboratory Cr. 2
Laboratory course to accompany PHY 3300. Hands-on experience in logical and rigorous analysis of phenomena of modern physics. Offered Fall, Winter.
Prerequisites: ((PHY 2140 with a minimum grade of D- and PHY 2141 with a minimum grade of D- (may be taken concurrently), and PHY 2170 with a minimum grade of C- or (PHY 2180 with a minimum grade of D- and PHY 2181 with a minimum grade of D-)) and (PHY 3300 with a minimum grade of C- (may be taken concurrently) or PHY 5015 with a minimum grade of C- (may be taken concurrently))
Course Material Fees: $25

PHY 3500 Introduction to Thermal and Fluid Physics Cr. 3
Provides an introduction to physics of gases, fluids and other states of matter for majors in physics and other science, technology and mathematics fields. builds on a knowledge of the mechanics in introductory physics courses. Topics covered include: thermodynamic equilibrium; energy, work and heat; Ideal gas and kinetic theory; entropy; free energy; Maxwell relations; chemical equilibria; equilibrium between liquids, solids and gases; heat transport and kinetics; and properties of fluids. Familiarity with mathematics at the level of Calculus 3 is recommended. Offered Yearly.
Prerequisite: PHY 2170 with a minimum grade of C- or PHY 2180 with a minimum grade of C-

PHY 3700 Mathematics for Biomedical Physics Cr. 4
Training in specific applied topics of mathematics for biomedical physics majors. Offered Fall.
Prerequisites: ((PHY 2130 with a minimum grade of C-, PHY 2140 with a minimum grade of C-, PHY 2131 with a minimum grade of C-, and PHY 2141 with a minimum grade of C-) or (PHY 2170 with a minimum grade of C-, PHY 2180 with a minimum grade of C-, PHY 2171 with a minimum grade of C-, and PHY 2181 with a minimum grade of C-)) and MAT 2020 with a minimum grade of C- (may be taken concurrently)

PHY 3750 Introduction to Computational Methods Cr. 1
Introduction to the principles of computer programming with MATLAB or similar software. In addition to learning applications of the software, there will be opportunities for independent or group projects of interest to students. Offered Fall.
Prerequisites: ((PHY 2130 with a minimum grade of C- and PHY 2140 with a minimum grade of C-) or (PHY 2170 with a minimum grade of C- and PHY 2180 with a minimum grade of C-) and (PHY 5015 with a minimum grade of C- (may be taken concurrently)
Restriction(s): Enrollment is limited to students with a major in Biomedical Physics.

PHY 3990 Directed Study Cr. 1-4
Primarily for students who wish to continue in a field beyond material covered in regular courses, or who wish to study material not covered in regular courses, including certain research participation. Offered Every Term.
Repeatable for 4 Credits

PHY 4700 Introduction to Biomedical Physics Cr. 4
Basic and applied physical concepts used in biology, human anatomy, and physiology, as well as in medical diagnosis and treatment. Offered Winter.
Prerequisites: ((PHY 2130 with a minimum grade of C- and PHY 2140 with a minimum grade of C-) or (PHY 2170 with a minimum grade of C- and PHY 2180 with a minimum grade of C-)), PHY 3700 with a minimum grade of C-, and MAT 2020 with a minimum grade of D-
PHY 5100 Lasers for Medical Applications Cr. 3
Equivalency: AST 5010
Electromagnetic radiation; solar characteristics; stellar distances; magnitudes; spectral classification; celestial mechanics; binary stars; stellar motions; structure and evolution; compact and variable stars; Milky Way Galaxy and interstellar medium; galaxies and clusters of galaxies; quasars; Hubble's Law; cosmology. Offered every other winter.
Prerequisites: PHY 3300 with a minimum grade of C-

PHY 5015 Non-classical Physics for Educators Cr. 3
Equivalency: PHY 5415
Development of relativity and quantum mechanics. Emphasis on nuclear physics and elementary particles. Required math: algebra and trigonometry. Offered for undergraduate credit only. Offered winter.
Prerequisites: PHY 2130 with a minimum grade of D- and PHY 2140 with a minimum grade of D-

PHY 5100 Methods of Theoretical Physics I Cr. 3
Introduction to mathematical tools used in advanced courses in physics. Offered Fall.
Prerequisites: MAT 2030 with a minimum grade of C- and PHY 2180 with a minimum grade of C-

PHY 5200 Classical Mechanics I Cr. 4
Introduction to fundamental ideas: Newton's laws, notions of momentum, angular momentum, kinetic and potential energy, mechanical energy, conservation laws, friction and retardation forces, oscillations, resonances, gravitation, and introduction to the Lagrangian formalism. Offered Winter.
Prerequisites: PHY 2180 with a minimum grade of C- and PHY 5100 with a minimum grade of C- (may be taken concurrently)

PHY 5210 Classical Mechanics II Cr. 3
Prerequisites: PHY 5200 with a minimum grade of C- and PHY 2140 with a minimum grade of C-

PHY 5340 Optics Cr. 3
Electromagnetic radiation; geometrical, physical, and modern optics. Offered Winter.
Prerequisites: (PHY 2140 with a minimum grade of C- and PHY 2180 with a minimum grade of C-

PHY 5341 Optics Laboratory Cr. 2
Experiments involving geometrical, physical, and quantum optics. Offered Winter.
Prerequisites: ECE 5760 with a minimum grade of C (may be taken concurrently) and PHY 5340 with a minimum grade of C (may be taken concurrently)
Course Material Fees: $25

PHY 5460 Lasers for Medical Applications Cr. 3
Summarizes the wealth of recent research on the principles, technologies and application of lasers in diagnostics, therapy and surgery. Includes an overview of optics, optical components used in a typical laser, key principles of lasers and radiation interactions with tissue. The respective types of the laser (solid state, gas, dye, and semiconductor) are reviewed to provide an understanding of the wide diversity, and therefore, the large possible choice of these devices for a specific diagnosis, treatment, or surgery. Offered Winter.
Equivalent: ME 5465
PHY 6270 Survey of Nuclear Physics Cr. 3
Introduces upper-level undergraduate majors in physics and other science, technology and mathematics fields to the discoveries and research methods of nuclear physics. Nuclear physics topics covered can include nuclear collisions; nuclear structure: liquid drop model, shell model; nucleon-nucleon interaction; quarks and the strong interaction; quark-gluon plasma; alpha, beta and gamma decay; and nuclear fusion. Nuclear astrophysics topics can include compact objects; stellar nucleosynthesis; nucleosynthesis in supernovae, neutron star collisions, and the big bang. Methods of quantum mechanics are introduced, including scattering theory; Born approximation; eikonal approximation; Glauber Model; WKB theory; time dependent and time independent perturbation theory. Builds on a knowledge of quantum physics studied in PHY 6400 and is in-part a sequel to that course. Offered Every Other Fall.
Prerequisite: PHY 6400 with a minimum grade of C
Restriction(s): Enrollment is limited to Undergraduate level students.

PHY 6290 Survey of Biophysics Cr. 3
Introduction to modern biophysics with emphasis on a physical understanding of biological structure and function; biological activity; biology and light; energy, thermodynamics and statistical mechanics in biology; and techniques of experimental biophysics. Offered Yearly.
Prerequisite: PHY 3300 with a minimum grade of C- and (MAT 2030 with a minimum grade of C- or PHY 3700 with a minimum grade of C-) and (PHY 4700 with a minimum grade of C- or PHY 3500 with a minimum grade of C-)
Restriction(s): Enrollment is limited to Undergraduate level students.

PHY 6400 Quantum Physics I Cr. 4
This course introduces upper-level undergraduate majors in physics and other science, technology and mathematics fields to the methods of quantum mechanics. Topics covered will include operators and their eigenfunctions; quantization rules; solution of Schrödinger equation in 1- and 3-dimensions; angular momentum; spin; bosons and fermions; and time-independent perturbation theory. The course builds on a knowledge of modern physics as studied in introductory courses such as PHY 3300. Mathematical methods will be introduced for application to specific quantum mechanics problems. These include: Linear algebra; boundary value problems in ordinary differential equations; separation of variables in partial differential equations; Fourier transforms; orthogonal functions; Laplacian in spherical and cartesian coordinates; Legendre Functions and Spherical Harmonics; operators in Hilbert space. Offered Winter.
Prerequisites: PHY 5100 with a minimum grade of C-; PHY 3300 with a minimum grade of C-; and MAT 2150 with a minimum grade of C-

PHY 6410 Quantum Physics II Cr. 3
Applications of quantum mechanics: atoms in electric and magnetic fields, multielectron atoms, molecules, quantum statistics, solids (band structure, magnetic properties), nuclei, fundamental forces and standard model. Offered Fall.
Prerequisites: PHY 6400 with a minimum grade of C-

PHY 6450 Introduction to Material and Device Characterizations Cr. 4
Lecture/laboratory; introduction to analytic and measurement techniques for characterizing and evaluating materials, especially for potential applicability in sensor and integrated devices. Techniques include diffraction and microscopy methods, electron spectroscopies, and electrical, optical and magnetic measurements. Offered for graduate credit only. Offered Winter.
Prerequisite: (PHY 7050 (may be taken concurrently) or ECE 5500 (may be taken concurrently) or ECE 5550 (may be taken concurrently))
Restriction(s): Enrollment is limited to Graduate level students.

Course Material Fees: $60

PHY 6480 Introduction to Quantum Computing Cr. 3
Serves as an introduction to quantum computing and brings together students with different backgrounds in mathematics, physics, chemistry, and computer science to foster interdisciplinary connections in the areas of quantum computing and quantum information. A strong background in linear algebra over the complex numbers as well as differential and integral calculus is required. Familiarity with quantum physics and complexity theory will be helpful, but it is not required. Offered Fall.
Equivalent: MAT 6480

PHY 6500 Thermodynamics and Statistical Physics Cr. 4
Laws of thermodynamics, thermodynamic equilibrium, applications of kinetic theory of gases, basic introduction to classical and quantum statistical description of physical systems with large numbers of particles. Offered Fall.
Prerequisites: PHY 5100 with a minimum grade of C- and PHY 3300 with a minimum grade of C-

PHY 6570 Smart Sensor Technology I: Design Cr. 4
Introduction to various types of sensors and the design of basic analog VLSI circuit building blocks. Offered Winter.
Equivalent: BME 6470, ECE 6570

PHY 6600 Electromagnetic Fields I Cr. 4
This course introduces upper-level undergraduate majors in physics and other science, technology and mathematics fields to the methods of electricity and magnetism. Topics covered will include electrostatics; solution of the Laplace equation; electric current; magnetic field of steady currents; electromagnetic induction; Maxwell Equations; and electromagnetic waves. The course builds on a knowledge of electromagnetic phenomena as studied in introductory courses such as PHY 2180. Mathematical methods will be introduced for application to specific electromagnetism problems, including spherical and cylindrical coordinates; vector calculus in 2 and 3 dimensions; Stokes and divergence integral theorems; solution of Laplace and Wave equations by separation of variables; uniqueness of solutions for linear PDE of Elliptic and Hyperbolic type; boundary and initial value problems; scalar and vector potentials. Offered Fall.
Prerequisite: PHY 5100 with a minimum grade of C- and PHY 5200 with a minimum grade of C-

PHY 6610 Electromagnetic Fields II Cr. 3
Continuation of PHY 6600: Maxwell equations, electromagnetism and relativity, optics, wave guides and transmission lines, radiation of EM waves. Offered Winter.
Prerequisite: PHY 6600 with a minimum grade of C-

PHY 6750 Applied Computational Methods Cr. 2
Development of concepts learned in PHY 3750 or PHY 3310 for computer applications in physics research, including applications in theoretical physics, data fitting, image analysis, and integration with experimental equipment. There will be opportunities for independent as well as group projects. Offered Fall.
Prerequisite: PHY 3750 with a minimum grade of C- or PHY 3310 with a minimum grade of C-

PHY 6780 Research Methods in Biomedical Physics Cr. 3
Satisfies General Education Requirement: Writing Intensive Competency
Introduction to laboratory experience in biomedical physics research. Capstone course for biomedical physics majors. Offered Winter.
Prerequisites: PHY 3700 with a minimum grade of C- and PHY 4700 with a minimum grade of C-
PHY 6850 Modern Physics Laboratory Cr. 2
Satisfies General Education Requirement: Writing Intensive Competency
Techniques and experiments in physics of atoms, atomic nuclei, molecules, the solid state and other areas that have advanced our modern understanding of physics. Offered Winter.
Prerequisites: PHY 3300 with a minimum grade of C-
Course Material Fees: $25

PHY 6860 Computational Physics Cr. 3
Introduction to use of computers to model physical systems; description of techniques in numerical analysis including linear algebra, integration, algebraic and differential equations, data analysis and symbolic algebra. Offered Fall.
Prerequisites: PHY 3310 with a minimum grade of C- or PHY 5100 with a minimum grade of C-

PHY 6991 Special Topics Cr. 1-4
Topics and prerequisites for each section to be announced in Schedule of Classes. More than one section may be elected in a semester. Offered for graduate credit only. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 4 Credits

PHY 6992 Physics Graduate Teaching Assistant Training Cr. 1
Students solve and discuss problems from calculus-based general physics courses in front of their peers and instructor, enhancing their ability to analyze, interpret and present the material in a clear, informative way. Offered for graduate credit only. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

PHY 6995 Professional Development Seminar in Physics Cr. 2
Introduction to the conduct, skills and ethics of a professional physicist or astronomer. Topics include: critical reading of scientific literature; research ethics and professional conduct; introduction to modern research topics in physics and research in the department of physics and astronomy; careers in physics and astronomy; scientific and proposal writing; and teamwork. Offered Yearly.
Repeatable for 4 Credits

PHY 7050 Survey of Condensed Matter Physics Cr. 3
Contemporary solid state physics dealing primarily with experiments in this area and with modern descriptive models of solids. Offered Winter.
Prerequisite: PHY 6400 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PHY 7060 Survey of Elementary Particle Physics Cr. 3
This course introduces graduate students to the discoveries and research methods of elementary particle physics. Topics covered can include elementary particle dynamics; relativistic kinematics; symmetries, introduction to quantum field theory; Feynman calculus; gauge theories; the standard model and proposed modifications; experimental evidence; survey of experimental methods, detector, accelerators and colliders. Methods of quantum mechanics are introduced, including scattering theory; Born approximation; eikonal approximation; Glauber Model; WKB theory; time dependent and time independent perturbation theory. The course builds on a knowledge of quantum physics studied in courses like PHY 6400. Offered Every Other Fall.
Prerequisite: PHY 6400 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PHY 7070 Survey of Nuclear Physics Cr. 3
This course introduces graduate students to the discoveries and research methods of nuclear physics. Nuclear physics topics covered can include nuclear collisions; nuclear structure: liquid drop model, shell model; nucleon-nucleon interaction; quarks and the strong interaction; quark-gluon plasma; alpha, beta and gamma decay; and nuclear fusion. Nuclear astrophysics topics can include compact objects; stellar nucleosynthesis; nucleosynthesis in supernovae, neutron star collisions, and the big bang. Methods of quantum mechanics are introduced, including scattering theory; Born approximation; eikonal approximation; Glauber Model; WKB theory; time dependent and time independent perturbation theory. The course builds on a knowledge of quantum physics studied in courses like PHY 6400. Offered Every Other Fall.
Prerequisite: PHY 6400 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PHY 7080 Survey of Astrophysics Cr. 3
This course provides an introduction to high-energy astrophysics with a focus on X-ray astronomy. We will cover the physics of X-ray emission and absorption in an astrophysical context, as well as discussing observational techniques used to detect X-rays. Bright X-ray emitting objects are some of the most extreme in the universe, and we will discuss objects including neutron stars, black holes, cataclysmic variables, supernovae and supernovae remnants, and galaxy clusters. Offered Every Other Year.
Prerequisites: PHY 3300 with a minimum grade of C-
Restriction(s): Enrollment is limited to Graduate level students.

PHY 7090 Survey of Biophysics Cr. 3
This course introduces graduate students to the discoveries and research methods of biophysics. Biophysics topics covered can include biological structure and function; biological activity; biology and light; energy, thermodynamics and statistical mechanics in biology; and techniques of experimental biophysics. Offered Yearly.
Prerequisites: 3 of (MAT 2030 or PHY 3700), PHY 3300, and (PHY 4700 or PHY 3500)
Restriction(s): Enrollment is limited to Graduate level students.

PHY 7110 Methods of Theoretical Physics II Cr. 3
Complex variables and their applications. Homogeneous and inhomogeneous differential equations. Special functions such as gamma functions, Bessel functions, Legendre functions, Hermite functions and Laguerre functions. Fourier series. Offered Fall.
Prerequisite: PHY 5100 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PHY 7200 Advanced Mechanics Cr. 3-4
Variational principles, central forces, transformation theory, Hamilton-Jacobi theory. Offered Winter.
Prerequisite: PHY 5210 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PHY 7400 Quantum Mechanics I Cr. 3
Physical and mathematical principles of quantum mechanics. Schrodinger equation and its applications. Spin and angular momentum in quantum mechanics. The WKB approximation. Perturbation theory for time-independent and time-dependent cases. Offered Fall.
Prerequisite: PHY 6410 with a minimum grade of C and PHY 7110 (may be taken concurrently) with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PHY 7410 Quantum Mechanics II Cr. 3
Prerequisite: PHY 7400 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
PHY 7500 Statistical Mechanics Cr. 4
Classical and quantum statistical mechanics and applications. Offered Fall.
Prerequisite: PHY 6500 with a minimum grade of C and PHY 7400 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PHY 7550 Advanced Condensed Matter Physics: Solid State Cr. 3
Current topics in condensed matter physics, including electronic band structure, magnetism, superconductivity, nanophysics, and the optical properties of solids. Offered Every Other Fall.
Prerequisite: PHY 7050 with a minimum grade of C and PHY 7110 with a minimum grade of C and PHY 7400 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PHY 7560 Advanced Condensed Matter Physics: Soft Matter Cr. 3
Current topics in condensed matter physics, including the building blocks, structures, physical properties, and phase transitions in a variety of complex fluid systems such as simple liquids and liquid mixtures, colloids, polymers, liquid crystals, amphiphiles, and soft matter in living organisms. Offered Every Other Winter.
Prerequisite: PHY 7050 with a minimum grade of C and PHY 7110 with a minimum grade of C and PHY 7400 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PHY 7580 Smart Sensor Technology II: Characterization and Fabrication Cr. 4
Integration of ongoing research in integrated technology of smart sensors. Design of smart sensor devices using computer simulation. Fabrication of smart sensor. Offered Spring/Summer.
Prerequisite: PHY 6610 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PHY 7850 Data Analysis Techniques Cr. 3
Foundations in probability and statistics used in physics, biophysics and astronomy, an extensive discussion of the notions of statistical and systematic uncertainties, data correction techniques, and basic Monte Carlo techniques. Offered Yearly.
Prerequisite: MAT 2030 with a minimum grade of C or PHY 6850 with a minimum grade of C or BME 6470 with a minimum grade of B-
Restriction(s): Enrollment is limited to Graduate level students.

PHY 7850 Data Analysis Techniques Cr. 3
Foundations in probability and statistics used in physics, biophysics and astronomy, an extensive discussion of the notions of statistical and systematic uncertainties, data correction techniques, and basic Monte Carlo techniques. Offered Yearly.
Prerequisite: MAT 2030 with a minimum grade of C or PHY 6850 with a minimum grade of C or BME 6470 with a minimum grade of B-
Restriction(s): Enrollment is limited to Graduate level students.

PHY 7990 Directed Study Cr. 1-3
Application forms available in department office. Primarily for graduate students in physics who wish to study material not covered in regular courses. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 6 Credits

PHY 7996 Research in Physics Cr. 1-4
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

PHY 7999 Master's Essay Direction Cr. 1-3
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students.
POL - Polish

POL 1010 Elementary Polish I Cr. 4
Development of practical skills in understanding, reading, speaking and writing Polish; emphasis on fundamental communication skills. Offered Fall.
Course Material Fees: $5

POL 1020 Elementary Polish II Cr. 4
Continuation of POL 1010. Development of practical skills in understanding, reading, speaking and writing Polish; emphasis on fundamental communication skills. Offered Winter.
Prerequisites: POL 1010 with a minimum grade of D-
Course Material Fees: $5

POL 2010 Intermediate Polish Cr. 4
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Further development of Polish language and cultural proficiency through listening, reading, speaking and writing activities, and examination of Polish culture. Completion of this course fulfills the General Education requirement for foreign language and culture. Offered Fall.
Prerequisites: POL 1020 with a minimum grade of D-
Course Material Fees: $5

POL 2030 Polish Conversation Cr. 1
Development of Polish oral language skills through intensive speaking and listening practice. Offered Intermittently.
Prerequisites: POL 2010 with a minimum grade of D-
Repeatable for 4 Credits

POL 2035 Polish Conversation II Cr. 1
Students develop speaking and listening comprehension skills discussing a variety of topics including work, leisure time, pets, living arrangements, cooking, fashion, and shopping. Particular attention is paid to expressing opinions and arguing a point. Offered Intermittently.
Prerequisites: POL 2010 with a minimum grade of D-

POL 2060 Composition and Conversation Cr. 4
For students with rudimentary knowledge of Polish. Vocabulary and aspects of grammar not discussed in the previous courses, practiced through oral and written composition and translation exercises. Offered Every Other Winter.
Prerequisites: POL 2010 with a minimum grade of D-
Repeatable for 8 Credits

POL 2100 Polish Grammar and Usage Cr. 4
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Introductory course in Polish grammar; proper usage, vocabulary expansion. Offered Every Other Year.
Prerequisites: POL 1020 with a minimum grade of D-

POL 2200 Medical Polish I Cr. 1
One of two online Polish language courses designed to teach the vocabulary used in the medical field. POL 2200 focuses on the human musculoskeletal and digestive systems, their diseases and treatments, medical facilities and doctor-patient interactions. Offered Fall, Winter.
Prerequisites: POL 1020 with a minimum grade of D-

POL 2300 Language Skills: Advanced Speaking and Writing Cr. 2-4
Prerequisites: POL 2060 with a minimum grade of D-

POL 3050 Medical Polish II Cr. 1
One of two online Polish language courses designed to teach the vocabulary used in the medical field. POL 3050 focuses on the human cardiovascular and respiratory systems, their diseases and treatments, on dentistry, and on doctor-patient interactions. Offered Fall, Winter.
Prerequisites: POL 1020 with a minimum grade of D-

POL 3011 Digital Storytelling and Ethnic Detroit Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Students will learn about the ethnic, racial, and cultural history of Detroit and how to document elements of that history. This course introduces students to both theoretical and practical concepts around digital storytelling, drawing on extensive theoretical scholarship about placemaking, experiencing place, and the social production of heritage that spans the disciplines of anthropology, historical archaeology, heritage studies, historic preservation, media studies, and mobilities. Students will learn the practical steps involved in creating digital stories and will be introduced to best practices in multimedia development as discussed in the literature in the field of instructional technology. They will also explore the cultural, ethical and technological considerations involved in creating and disseminating digital stories. They will then create their own short digital story, which they will be able to share with the website Ethnic Layers of Detroit. Offered Yearly.
Equivalent: ANT 3111, GLS 3111, RUS 3111

POL 3410 New Soil, Old Roots: The Immigrant Experience Cr. 3
Satisfies General Education Requirement: Civ and Societies (CLAS only)
Diversity Equity Incl Inquiry
Students will learn about the ethnic, racial, and cultural history of the United States, its effects on the cultures (language, literature, religion, politics, music, art and theatre) of these ethnic groups and its influence upon American culture. Offered Fall.
Equivalent: ARM 3410, GER 3410, RUS 3410, SLA 3410

POL 3700 The Changing Face of Europe Cr. 1-2
Special topics relating to Central, Eastern and Western Europe. Offered Intermittently.
Equivalent: GER 3700, RUS 3700, SLA 3700
POL 3750 Polish and Yugoslavian Cinema Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts  
Two national cinemas introduced through milestone films and lesser-known cinematic gems produced before and after the fall of communism. Offered Every Other Winter.  
Equivalent: SLA 3750

POL 3800 Topics in Slavic Studies Cr. 3  
Special topics relating to Slavic languages, literatures and cultures, such as drama, the Gulag, and contemporary culture. Offered Yearly.  
Equivalent: RUS 3810, SLA 3800  
Repeatable for 9 Credits

POL 3990 Directed Study Cr. 1-3  
For students desiring additional work in the language at the intermediate level; for programs of work not included in scheduled course, either in language or literature. Offered Every Term.  
Prerequisites: POL 2010 with a minimum grade of D-  
Repeatable for 6 Credits

POL 5990 Directed Study Cr. 1-3  
Offered Every Term.  
Prerequisites: POL 3020 with a minimum grade of D-  
Repeatable for 12 Credits

POL 5993 Writing Intensive Course in Polish Cr. 0  
Satisfies General Education Requirement: Writing Intensive Competency  
Disciplinary writing assignments under the direction of a faculty member. Must be selected in conjunction with a designated corequisite; see section listing in Schedule of Classes for corequisites available each term. Satisfies the University General Education Writing Intensive Course in the Major requirement. Required for all majors. Offered Fall, Winter.  
Prerequisites: AF 2390 with a minimum grade of C, EN 2390 with a minimum grade of C, EN 3010 with a minimum grade of C, EN 3020 with a minimum grade of C, or EN 3050 with a minimum grade of C  
Restriction(s): Enrollment is limited to Undergraduate level students.

POL 5999 Internship in Polish Studies Cr. 3  
Internship in a public or private organization related to Polish studies. Offered for undergraduate credit only. Offered Every Term.  
Prerequisite: POL 3000 with a minimum grade of C- or POL 3030 with a minimum grade of C- or POL 3060 with a minimum grade of C-  
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Slavic Studies or Slavic Studies Honors.

PPR - Pharmacy Practice

PPR 4115 Social Administrative Sciences and Professional Development I Cr. 2  
Designed to familiarize the student with pharmacy as a profession and to facilitate an understanding of its place in health care today and in the future. Offered Fall.  
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 4245 Patient Care Lab I Cr. 1  
The Patient Care Lab sequence (PCL 1-4) is designed to allow students to begin to develop the direct patient care and pharmacy practice skills they will need to become successful practitioners. Offered Winter.  
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.  
Course Material Fees: $80

PPR 4255 Social Administrative Sciences and Professional Development II Cr. 2  
Exploration of health care delivery and payment systems, with an emphasis on pharmacy and pharmacists. Discussion of social constructs, cultural sensitivity, and health belief models as related to pharmacy practice. Offered Winter.  
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 4315 Pharmacy Jurisprudence I and Professional Responsibility Cr. 2  
Provides a foundational knowledge of pharmacy law with a combined emphasis on professional responsibility. The law component will focus on the application of Michigan state and federal laws to the practice of pharmacy. The professional responsibility component will prepare pharmacy students for their upcoming didactic and experiential learning. Offered Spring/Summer.  
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 4365 Introductory Pharmacy Practice Experience I Cr. 1  
Satisfies General Education Requirement: Writing Intensive Competency  
Beginning learning experiences for patient interviewing and counseling, interaction with healthcare professionals, pharmacy practice in various settings, interprofessional education, healthcare in the underserved population, and community service. Offered Spring/Summer.  
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 5145 Patient Care Lab II Cr. 1  
The Patient Care Lab sequence (PCL 1-4) is designed to allow students to begin to develop the direct patient care and pharmacy practice skills they will need to become successful practitioners. Offered Fall.  
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.  
Course Material Fees: $80

PPR 5155 Social Administrative Sciences and Professional Development III: Practice Management Cr. 2  
Focus on topics that will enable an understanding of how pharmacy services are managed and how to manage personnel and provide leadership. Offered Fall.  
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 5165 Introductory Pharmacy Practice Experience II Cr. 1  
Beginning learning experiences for patient interviewing and counseling, interaction with healthcare professionals, pharmacy practice in various settings, interprofessional education, healthcare in the underserved population, and community service. Offered Fall.  
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 5215 Applied Pharmacokinetics and Pharmacogenomics Cr. 2  
Application of knowledge of pharmacokinetics and pharmacogenomics to patient-specific drug dosing. Offered Winter.  
Prerequisite: PSC 5115  
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 5245 Patient Care Lab III Cr. 1  
The Patient Care Lab sequence (PCL 1-4) is designed to allow students to begin to develop the direct patient care and pharmacy practice skills they will need to become successful practitioners. Offered Winter.  
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.  
Course Material Fees: $80
PPR 5255 Social Administrative Sciences and Professional Development IV Cr. 2
Designed to enable understanding of the importance of constructing medication systems and processes around proven best practices to maximize patient safety and to begin developing the ability to conceptualize, implement, and manage these systems in all health care settings. Offered Winter.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 5265 Introductory Pharmacy Practice Experience III Cr. 1
The introductory pharmacy practice experiences are to provide a beginning learning experiences for patient interviewing and counseling, interaction with healthcare professionals, pharmacy practice in various settings, interprofessional education, healthcare in the underserved population, and community service. Offered Winter.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 5990 Directed Study in Pharmacy Practice Cr. 2
No credit after election of two credits in any of PSC 5990, PSC 5991, PSC 5992, except by written consent of department chair. Offered Every Term.
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PPR 6115 Applied Therapeutics in Self-Care Cr. 2
Application of concepts of patient assessment, therapeutics, patient education, and health care systems to patient self-care. Offered Fall.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 6145 Patient Care Lab IV Cr. 1
The Patient Care Lab sequence (PCL 1-4) is designed to allow students to begin to develop the direct patient care and pharmacy practice skills they will need to become successful practitioners. Offered Fall.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.
Course Material Fees: $80

PPR 6155 Social Administrative Sciences and Professional Development V Cr. 3
Development of and justification for a pharmacy service, including background, service objectives, service design, implementation plan, and evaluation. Offered Fall.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 6165 Community-Introductory Pharmacy Practice Experience (C-I PPE) Cr. 2
Introduction to the organization and provision of community pharmacy services. Offered Fall, Winter.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 6175 Hospital-Introductory Pharmacy Practice Experience (H-I PPE) Cr. 2
Introduction to the organization and provision of health-system pharmacy services. Offered Fall, Winter.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 6235 Social Administrative Sciences and Professional Development VI Cr. 2
Understanding, developing and evaluating population health and population-based health care programs. Offered Winter.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 6245 Pharmacy Ethics and Professional Responsibility Cr. 2
Understanding ethical precepts and applying normative principles to the practice of pharmacy in the context of professional service to the community. Offered Winter.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 6295 Clinical Capstone Cr. 2
Utilization of pharmacotherapeutic-related knowledge and skills to evaluate patient cases and practice-related problems in order to assess students’ preparedness for advanced pharmacy practice experiences. Offered Winter.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

Course Material Fees: $99

PPR 6300 Patient Perspectives of Health, Illness and Culture Cr. 2
People from various cultures (religious, ethnic, sexual orientation, disability, chronic illness, economic status) discuss in small groups how these cultures influence living with a chronic illness. Students also discuss readings on health culture and keep a journal on their course experience. Offered Spring/Summer.
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.
Equivalent: OT 6320

PPR 6320 Underserved Care: Local and Global Experiences Cr. 2
Provides the opportunity for hands-on clinical experience in local and international under-served communities. Offered Every Term.
Restriction(s): Enrollment is limited to students in the Doctor of Pharmacy program.

PPR 6520 Contemporary Issues in Nutrition Support Cr. 2
Provision of patient care in cooperation with patients, patients’ agents, prescribers, and other members of an interprofessional health care team; management and use of resources of the health care system; evaluation of a patient case and design of an optimal nutritional regimen. Offered Spring/Summer.
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PPR 6550 Psychiatric Pharmacy Cr. 2
Covers core clinical sciences beyond the required pharmacotherapy modules on psychiatric topics. Offered Spring/Summer.
Prerequisite: PHA 5155 or PHA 5225

PPR 6550 Psychiatric Pharmacy Cr. 2
Covers core clinical sciences beyond the required pharmacotherapy modules on psychiatric topics. Offered Spring/Summer.
Prerequisite: PHA 5155 or PHA 5225

PPR 6560 Foundations in Global Health Cr. 2
Provides pharmacy students an introduction to Global Health and enables them to explore their own Global Health interests through local volunteering, class discussions and group projects. Offered Fall.
Restriction(s): Enrollment limited to students with a class of PharmD Yr 3 or PharmD Yr 4; enrollment limited to students in the Doctor of Pharmacy program.

PPR 6580 Contemporary Issues in Anticoagulation Management Cr. 2
Advanced therapeutics in area of anticoagulant use. Offered Fall.
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PPR 6590 Principles of Pain Management Cr. 2
Covers core clinical sciences beyond the required pharmacotherapy modules on pain management topics. And expands on the pathophysiology, pharmacology, and therapeutics covered in the core clinical sciences courses to assist the student pharmacist in developing assessment skills emphasizing inter-professional collaboration. Offered Winter.
Prerequisite: PHA 5225
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.
PPR 6720 Clinical Applications of Diabetes Cr. 2
Advanced elective course on management of diabetes mellitus and its related disorders. Principles of student directed learning, literature discussion and evaluation, interprofessional exposure, small group learning, and hands-on activities. Offered Fall.
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PPR 6740 Advanced Topics in Ambulatory Care Pharmacy Cr. 2
The overall goal of this course is to increase pharmacy students’ knowledge of practice models for ambulatory care pharmacy and investigate career opportunities in ambulatory care pharmacy practice. Offered Winter.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 6770 Study of Medicinal Plants and Culture in Amazonia Cr. 2
Ethnobotany of indigenous plants and use of these substances in the health and beliefs of the native people. Students meet with botanists, taxonomists, pharmacists, shamans, and native people. Offered Spring/Summer.
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PPR 6780 Critical Care Pharmacy Elective Cr. 2
This course is designed to meet the needs of pharmacy students with an interest in further developing their knowledge in common acute diseases encountered in the intensive care unit and the emergency department. The format will consist of a discussion of the disease and drug therapy using patient case presentation(s), class participation, and flipped classroom teaching methods. These sessions will focus on choice and rationale for therapy, dosing and disease state guidelines, as well as monitoring parameters for assessment of efficacy, safety, and toxicity. Offered Winter.
Restriction(s): Enrollment limited to students with a class of PharmD Yr 3 or PharmD Yr 4.

PPR 6860 Principles of Pediatric Pharmacy Cr. 2-3
Common pediatric problems and diseases including poisonings, cystic fibrosis, sickle-cell anemia, placental transfer of drugs and teratology. Offered Yearly.
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PPR 7115 Special Topics: Interprofessional Education Cr. 2
This interprofessional course is for health professional student learners in the areas of advanced practice. The course allows health professional students to learn about, from and with each other, how each discipline contributes to the healthcare team, the importance of effective communication, the role of team collaboration and preparing health care professionals for collaborative practice with a focus on clinical decision making in interdisciplinary teams. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate, Medical or Professional level students.
Equivalent: MD4 8115, NUR 7115, PAS 7115, SW 7115

PPR 7195 Advance Research Scholars: Advance Pharmacy Practice Experience Cr. 4
Provides capstone research instruction aimed at project completion, writing and peer review processes, and research program advancement. Offered Fall.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PPR 7225 Vaccines in Clinical and Public Health Practice Cr. 2
Explorations of topics related to use of vaccines for infants, children and adults in practice settings that include clinics, pharmacies and public health programs. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of PharmD Yr 2 or PharmD Yr 3; enrollment limited to students in the Doctor of Pharmacy or Master in Public Health programs.

PPR 7410 Advanced Pharmacy Practice Inpatient/Acute Care Cr. 4
Experimental education designed to provide practical training experience in managing drug therapy of patients in a variety of health-care settings. Offered Every Term.
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences. Course Material Fees: $85 Repeatable for 12 Credits

PPR 7420 Advanced Pharmacy Practice Ambulatory Care Cr. 4
Experimental education designed to provide practical training experience in managing drug therapy of patients in a variety of health-care settings. Offered Every Term.
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences. Repeatable for 12 Credits

PPR 7430 Advanced Pharmacy Practice Patient Core Cr. 4
Experimental education designed to provide practical training experience in managing drug therapy of patients in a variety of health-care settings. Offered Every Term.
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences. Repeatable for 12 Credits

PPR 7530 Advanced Pharmacy Practice Patient Care Elective I Cr. 4
Experimental education designed to provide practical training experience in managing drug therapy of specialized patients in diversified health-care settings. Offered Every Term.
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences. Repeatable for 8 Credits

PPR 7540 Advanced Pharmacy Practice Non-Patient Care Elective I Cr. 4
Practical education to develop knowledge in specific areas of pharmacy practice in specialized pharmacy or health-care settings. Offered Every Term.
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences. Repeatable for 8 Credits

PPR 7550 Advanced Pharmacy Practice Hospital Cr. 4
Practical training experience in hospital pharmacy practice, including pharmacy operations and clinical services. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PPR 7560 Advanced Pharmacy Practice Community Cr. 4
Practical training experience in management of a community pharmacy, and managing drug therapy of patients in community pharmacy setting. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.
PPR 7960 Economic Evaluation of Health Care Interventions Cr. 2-3
Designed for advanced professional students (3rd year pharmacy, medicine, health sciences), students in the Master of Public Health degree program, graduate students and Fellows who would like an introduction to cost-effectiveness analysis. Offered Spring/Summer.
Restriction(s): Enrollment is limited to Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PPR 7990 Directed Study in Pharmacy Practice Cr. 1-3
Minor projects in pharmacy for students whose interests and needs are not adequately met in other scheduled classes or in the doctoral research project. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PS - Political Science

PS 1000 Introduction to Political Science Cr. 3
Satisfies General Education Requirement: Civic Literacy, Social Inquiry, Social Sciences
Introduction to the scope and method of political science. Overview of politics, political systems, nature and role of political institutions. Empirical political theory; practice in conducting political research. Offered Yearly.

PS 1010 American Government Cr. 4
Satisfies General Education Requirement: American Society Institution, Civic Literacy, Social Inquiry
Politics and functions of American governmental institutions. Policy processes and the role of citizens in the political process. No credit after PS 1030. Offered Every Term.

PS 1030 The American Governmental System Cr. 3
Satisfies General Education Requirement: American Society Institution, Civic Literacy, Social Inquiry
Structure and functions of the American political system. Governmental institutions and processes. No credit after PS 1010. Offered Every Term.

PS 1050 Understanding Political Science Statistics Cr. 4
Satisfies General Education Requirement: Quantitative Experience Comp
Applications of elementary statistical methods to the study of American government, comparative politics, and international relations. Offered Fall, Winter.

PS 1100 Changing Detroit Cr. 4
Satisfies General Education Requirement: Civic Literacy, Diversity Equity Incl Inquiry
This course is the first half of the Honors Foundation Sequence. It explores the history and development of the city of Detroit, including the challenges of deindustrialization and segregation, and guides students through the steps of civic engagement including how to identify and specify social problems, formulate workable solutions and advocate effectively for their implementation. Offered Fall.

PS 2000 Introduction to Urban Studies Cr. 4
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences
In this introductory urban studies course, students learn about the historic and contemporary forces driving urbanization with an emphasis on US cities and urban areas; the effects of these forces on diverse population groups; and challenges facing cities and strategies to resolve them. Although the course will draw from international contexts, wherever possible, experiences of and from the Detroit metro—city and suburbs—will be used to illustrate particular themes. Student learning centers on an examination of issues related to diversity, equity, and inclusion, and broader social phenomena. Offered Every Term.

PS 2206 Political Sociology Cr. 3
Examines the sociology of politics and explores sociological analysis of political processes in the United States. Offered Every Other Year.
Equivalent: SOC 2206

PS 2240 Introduction to Urban Politics and Policy Cr. 4
Satisfies General Education Requirement: Social Inquiry, Social Sciences
Influences on politics and problems of cities, forms of local political involvement, role of local public officials, impact of state and federal policies. Overview of current issues and problems in specific policy areas. Offered Yearly.

PS 2310 Introduction to Public Administration Cr. 4
Governmental and administrative structures and organizations. Concepts and techniques of public management. Impact of public bureaucracies on modern society. Offered Every Term.
Prerequisites: PS 1010 with a minimum grade of D- or PS 1030 with a minimum grade of D-

PS 2410 Introduction to Public Policy Cr. 4
Public policy-making institutions and processes. Emphasis on theory and practice of policy formation, implementation and evaluation. Various models of political decision making. Offered Every Term.
Prerequisites: PS 1010 with a minimum grade of D- or PS 1030 with a minimum grade of D-

PS 2420 Ethics and Politics of Public Policy Cr. 4
Moral and political standards for policy-making, relation of major political and social theorists to policy issues such as economic inequality, racial and sexual discrimination, the enforcement of morals, and violence and social change. Offered Yearly.

PS 2440 Science, Technology, and War Cr. 4
Modern weapons, nuclear and otherwise are becoming increasingly available and dangerous; people with grievances seem eager to use them. Science and technology, as well as constraints of bureaucracy and society underpin weapons development and use, as technologies affect prospects and results of war and peace. History of humanity and its tools of war. Offered Yearly.
Equivalent: HIS 2510, PCS 2020, PHY 2020

PS 2460 Policy and Rationality: Dilemmas of Choice Cr. 4
Individual decision-making and limitations on human cognition; collective choice; implications for policy development. Offered Yearly.

PS 2510 Introduction to Political Ideologies Cr. 4
Comparison of ideologies, political institutions, and economic systems. Democracy and authoritarianism, capitalism, socialism and communism contrasted. Offered Yearly.

PS 2550 The Study of Non-Violence Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Intellectual and social roots of non-violence and the practice of non-violence in different people's life styles. Historical and political forces and movements related to non-violence. (Some sections linked to Peace and Justice Learning Community.) Offered Every Term.
Equivalent: HIS 2530, PCS 2050, SOC 2050

PS 2700 Introduction to Canadian Studies Cr. 3
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Survey of Canada in its cultural, literary, historical, geographical and political aspects; key concepts and social patterns that define the Canadian experience. Offered Intermittently.
Equivalent: ENG 2670, GPH 2700, HIS 2700

PS 2710 Introduction to Comparative Politics Cr. 4
Comparison of the political cultures, politics, and political institutions of Eastern, Western, and Southern European political systems. Similarities and differences in public policies; European influence; parallels in developing nations. Offered Every Other Year.
PS 2810 World Politics Cr. 4
Role of power, methods of resolving international conflict, economic relations between industrialized and Third World countries, multinational corporations, terrorists, and other non-state actors. Offered Yearly.

PS 2820 Introduction to Peace and Conflict Studies Cr. 3
Introduction to the peace and conflict studies co-major. Survey, ranging from biology and conflict among animals to disputes involving the individual, the family, the neighborhood and region, the nation and global or international community. Definitions and approaches to peace. (Some sections linked to Peace and Justice Learning Community.) Offered Yearly.
Equivalent: HIS 2500, PCS 2000

PS 2830 Topics in Peace and Conflict Studies Cr. 1-4
Special topics relating to peace and conflict studies. Offered Every Term.
Equivalent: HIS 2520, PCS 2010
Repeatable for 12 Credits

PS 2992 Political Science Internship Cr. 1-4
Internship in a public or quasi-public organization, agency, civic or voluntary group, or campaign organization. Collateral reading, written work and arranged conferences with faculty supervisor. Offered Every Term.
Repeatable for 4 Credits

PS 3010 Public Opinion and Political Behavior Cr. 4
Factors that shape public opinion; patterns of political participation and electoral politics. Impact of public opinion and popular participation on the political system. Offered Yearly.
Prerequisites: PS 1010 with a minimum grade of D- or PS 1030 with a minimum grade of D-

PS 3020 Political Parties and Elections Cr. 4
Development, structure, functions and operations of American political parties; their electoral and governmental roles; comparison with other systems; possible reforms. Offered Every Other Year.
Prerequisites: PS 1010 with a minimum grade of D- or PS 1030 with a minimum grade of D-

PS 3025 Political Campaigns in America Cr. 4

PS 3030 Political Interest Groups Cr. 4
Structure, techniques and internal politics of interest groups, their roles in policy-making and relationship with other groups such as political parties, legislatures and administrative agencies. Offered Intermittently.
Prerequisites: PS 1010 with a minimum grade of D- or PS 1030 with a minimum grade of D-

PS 3040 The Legislative Process Cr. 4
Function, structure, procedures and politics of American legislative bodies with special attention to Congress. Relationships with other political institutions, especially the executive branch, and comparisons with foreign legislative institutions. Offered Yearly.
Prerequisites: PS 1010 with a minimum grade of D- or PS 1030 with a minimum grade of D-

PS 3050 Politics of the American Presidency Cr. 4
Constitutional, historical, and political bases of the presidency. Influence of courts, Congress, interest groups, the news media, and personality on the office. Offered Intermittently.
Prerequisites: PS 1010 with a minimum grade of D- or PS 1030 with a minimum grade of D-

PS 3060 State Government and Politics Cr. 4
A comparison of states in the United States in terms of their governmental structures, functions and response to changes in national and local relationships. Offered Every Other Year.

PS 3070 Michigan Politics Cr. 4
History and overview of Michigan politics: structure, process, current issues. Offered Every Term.

PS 3080 Gender and Politics Cr. 4
Satisfies General Education Requirement: Civic Literacy
Genesis and perpetuation of gender roles; feminist movements to modify these roles; impact of gender on public policy; gender-differentiated impact of public policy. Offered Intermittently.

PS 3100 American Legal Systems and Processes Cr. 4
Introduction to the American legal system and to basic concepts in American law; exploration of the role of judicial review of legislation in a democratic society, covering topics such as race and gender discrimination, affirmative action, LGBTQ+ rights, hate speech, and pornography. Offered Yearly.

PS 3120 Politics of the Criminal Justice Process Cr. 3
Satisfies General Education Requirement: Civic Literacy
Political aspects of criminal justice; politics of crime legislation, police function, prosecution, adjudication, and corrections; Federal role in criminal justice. Offered Intermittently.
Equivalent: CRJ 3120

PS 3250 Detroit Politics: Continuity and Change in City and Suburbs Cr. 4
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Detroit area political systems and processes; historical, economic, and social influences on local politics. Traditions, changes, and future challenges in Detroit and metropolitan area. Offered Every Other Year.
Equivalent: HIS 3240

PS 3430 Bureaucracy and Public Policy Cr. 4
Theory and development of modern governmental bureaucracy. Bureaucratic politics and its significance for decision making and program implementation. Normative aspects of bureaucracy, including accountability to the public and the role of bureaucrats in helping to define rational, efficient policies. Offered Every Other Year.
Prerequisites: PS 1010 with a minimum grade of D- or PS 1030 with a minimum grade of D-

PS 3450 Environmental Policy and Politics Cr. 4
Introductory course; primary focus on United States. Discussion of major environmental problems and their causes; environmental politics and the policy process. Offered Every Other Year.

PS 3510 Law, Authority and Rebellion Cr. 4
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Analysis of major theories of law, authority, freedom, and political obligation; justifications of disobedience, resistance and revolution. Offered Every Other Year.

PS 3515 American Political Thought Cr. 3-4
American political culture and thought through modern history from 1930 to the present. Variety of interpretations of American political culture including conservative, liberal, Marxist, and post-modernist. Offered Every Other Year.

PS 3520 Justice Cr. 4
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Exploration of what terms such as justice, equality, liberty, and democracy mean to adherents of varying worldviews; examination of processes for arriving at collective decisions binding on participants who disagree about fundamental principles of political morality. Offered Every Other Year.

PS 3530 Great Political Thinkers I Cr. 4
Great political thinkers from Plato to Machiavelli. Offered Every Other Year.
PS 3540 Great Political Thinkers II Cr. 4
Great political thinkers from Machiavelli to the present. Offered Every Other Year.
Restriction(s): Enrollment is limited to Undergraduate level students.

PS 3600 Methods of Political Inquiry Cr. 4
Techniques of political science research: data gathering techniques, especially survey design; data processing and analysis using computers; and the interpretation and reporting of statistical results. Offered Every Term.

PS 3710 Politics of Western Europe Cr. 4
Western Europe: driving force in world politics over centuries; lofty principles and gruesome conflict. Origins of European political systems; twentieth-century crises; ongoing process of creating united Europe. Offered Every Other Year.

PS 3715 Politics of Central and Eastern Europe Cr. 4
Central and eastern Europe: crossroads of many world civilizations and birthplace of the movements that shaped the modern world. Rise and fall (and rise?) of nationalism, communism, and democracy in the region. Offered Every Other Year.

PS 3735 Politics of Latin America Cr. 4
Political, social, economic and cultural foundations, the structure and function of institutions, and political processes in Latin America. Offered Every Other Year.

PS 3770 Politics of East Asia Cr. 4
Survey of five major polities in East Asia: China, Taiwan, Japan, South Korea, and (more briefly) North Korea. Why some of them have undergone democratization and others have not; how political factors have affected their recent economic performance; what explains conflicts and cooperation among them, and what security implications they hold for the United States. Offered Every Other Year.
Restriction(s): Enrollment is limited to Undergraduate level students.

PS 3795 Latin America in World Affairs Cr. 4
Latin America’s position in the international system; relationships between Latin American countries and the United States. Offered Every Other Year.

PS 3811 Theory of World Politics Cr. 4
Major theoretical approaches. Evaluation of the extent to which theses that devolve from realist, idealist, globalist, functionalist, feminist and decision-making approaches allow the explication of phenomena in world politics. Offered Intermittently.
Prerequisites: PS 2810 with a minimum grade of D-

PS 3820 Pan Africanism: Politics of the Black Diaspora Cr. 4
Satisfies General Education Requirement: Global Learning Inquiry Interplay of Pan Africanism as a cultural and socio-political movement in world politics from its origins as a concept to organizing practice worldwide. Offered Yearly.
Equivalent: AFS 3420

PS 3830 War Cr. 4
Major theoretical and methodological approaches to study of international conflict. Analysis of impact of domestic, state, and global system factors in explicating international war. Aspects of civil wars that have become internationalized. Offered Intermittently.
Prerequisite: PS 2810 with a minimum grade of C-

PS 3835 Middle East Conflict Cr. 4
International and regional factors affecting contemporary political landscape of the region: influence of European colonialism; emergence and persistence of Palestine-Israeli conflict; contemporary developments in the Persian Gulf and the role of U.S. policy since 9/11. Discussion of topics of current interest such as the situation in Iraq and the prospects for democratic reform in the region. Offered Intermittently.
Restriction(s): Enrollment is limited to Undergraduate level students.

PS 3991 Directed Study: WSU-Salford Exchange Cr. 3-9
Credit earned through approved upper-division course work at the University of Salford, England, as part of the W.S.U.-Salford Exchange Program. Offered Fall, Winter.

PS 4460 Techniques of Policy Analysis Cr. 4
Introduction to several major techniques used by policy analysts to measure and evaluate the effectiveness, efficiency, and equity of public policies and programs. Approaches and methodologies considered will include systems analysis, benefit-cost analysis, and simulation. This course involves quantitative data analysis. Students are expected to be proficient in basic algebra and to be computer literate. Offered Yearly.
Course Material Fees: $5

PS 4710 Democracy Cr. 4
“The worst form of government except for all the others?” How democracy has evolved from ancient Athens until today. What makes democracy work. How democratization is proceeding in Latin America, Europe, Africa, Asia. Offered Every Other Year.

PS 4725 Globalization and Politics Cr. 4
Domestic and international politics and globalization: theories and evidence. Consequences for economic development and democratization or economic inequality. Questions explored include: What is economic globalization? Is it really new? What caused its recent resurrection? What political disjunctions engendered the process and how do they vary within political institutions? How has it threatened sovereign nation-states, constrained governmental policy autonomy, and encouraged regional separatist movements? Offered Every Other Year.

PS 4810 Foreign Policies of Major Powers Cr. 4
Major issues and trends in the foreign policies of Russia, China, Japan, and the European Union. Offered Every Other Year.

PS 4990 Directed Study Cr. 1-4
Independent study assignment under the direction of a faculty member. Offered Every Term.
Repeatable for 8 Credits

PS 4995 Senior Honors Paper Cr. 4
Completion of an extended examination of a topic or research question in political science, under the direction of one or more members of the departmental faculty. Offered Every Term.

PS 5030 African American Politics Cr. 4
Nature and texture of black politics; various perspectives on politics by blacks; the impact of blacks on American politics. Offered Every Other Year.
Equivalent: AFS 5030

PS 5040 Religion and Politics Cr. 4
Religion and American political culture; religious institutions and religious movements; church lobbying in national, state, and local governments; specific manifestations of religion and politics; African Americans, women and conservative Christians. Offered Every Other Year.
Prerequisites: PS 1010 with a minimum grade of D- or PS 1030 with a minimum grade of D-

PS 5050 Mass Media and Politics Cr. 3
Role of communications media in modern politics. Historical evolution of media; political impact of newspapers, radio and television; polling and the media; political advertising; media law; mass media and the future of American democracy. Offered Every Other Year.
Prerequisites: PS 1010 with a minimum grade of D- or PS 1030 with a minimum grade of D-

PS 5110 Constitutional Law Cr. 4
Examination of the power of judicial review, barriers to court review, distribution of powers in the national government, federal-state relations, federal-state power to regulate and tax interstate commerce, and protection of property through the due process clause. Offered Yearly.
PS 5120 Constitutional Rights and Liberties Cr. 4
The Bill of Rights and the Fourteenth Amendment's due process and equal protection clauses, including rights of criminal defendants, freedom of speech and religion, race and sex discrimination. Offered Yearly.

PS 5560 Biopolitics Cr. 4
Use of the perspective of the life sciences in the study of political behavior, political evolution, political institutions, and contemporary political issues. Offered Yearly.

PS 5630 Statistics and Data Analysis in Political Science I Cr. 4
Introduction to statistical description and inference in the study of politics, administration and public policy. Introduction to statistical analysis using microcomputers. Offered Every Term.

Course Material Fees: $5

PS 5710 Politics of Europe and the European Union Cr. 3
Comparative analysis of the politics, culture and societies of major European countries; investigation of the formation and operation of the European Union. Offered Intermittently.

PS 5740 Ethnicity: The Politics of Conflict and Cooperation Cr. 4
Current ethnic (racial, linguistic, religious, and cultural) conflicts regionally, nationally and internationally. Introduction to concepts and analytic perspectives for understanding ethnicity as a factor in nation building and maintenance. Offered Yearly.

PS 5760 History and Development of Islamic Political Thought Cr. 3
Historical analysis of political Islam through study of the precepts and historical vicissitudes impacting the Islamic world from within and from external forces. Offered Every Other Year.

Prerequisites: NE 2030 with a minimum grade of D- and NE 3040 with a minimum grade of D-
Equivalent: NE 5110

PS 5820 International Law Cr. 4
Sources of international law (treaty and custom); institutions of the international system and relationship to domestic law and the courts; state sovereignty; role of United Nations and other international organizations. Application of legal norms to contemporary armed conflicts and human rights catastrophes. Offered Intermittently.

PS 5830 International Diplomacy and Conflict Cr. 3
This course presents career-relevant understanding of international conflict negotiations, mediation and diplomacy. It covers diplomatic history, theories and processes of diplomatic practice and international conflict background and settlement. Students will also enhance practical skills in diplomatic practice and policy-relevant writing through participation in negotiation simulations and preparation of planning and advisory reports. Offered Every Other Year.

PS 5850 Human Rights Cr. 4
Theoretical traditions that have inspired the human rights movement; critiques from liberal and conservative perspectives; international human rights treaties and efforts to implement their terms; controversies over cultural relativism, economic and social rights, treatment of women, and the question of non-intervention. Offered Every Other Year.

PS 5890 Dispute Resolution Cr. 3
Overview of the processes and actors in the field of dispute resolution including negotiation, mediation, arbitration, and conciliation. Offered Yearly.

Equivalent: CRJ 5994, PCS 5000, PSY 5710

PS 5991 Directed Study: WSU- Salford Exchange Cr. 3-9
Credit earned through approved upper-division course work at the University of Salford, England, as part of W.S.U.- Salford student exchange program. Offered for undergraduate credit only. Offered Fall, Winter.

Restriction(s): Enrollment is limited to Undergraduate level students.

PS 5992 Political Science AGRADE Internship Cr. 4
Internship to supplement classroom course work with practical experience gained through substantial involvement in a responsible capacity in a public or quasi-public agency or civic organization. Offered Every Term.

Restriction(s): Enrollment is limited to Undergraduate level students.

PS 5993 Writing Intensive Course in Political Science Cr. 0
Satisfies General Education Requirement: Writing Intensive Competency
Disciplinary writing assignments under the direction of a faculty member. Must be selected in conjunction with a designated corequisite; see section listing in Schedule of Classes for corequisites available each term. Satisfies the University General Education Writing Intensive Course in the Major requirement. Required for all majors. Offered Every Term.

Prerequisites: (AFS 2390 with a minimum grade of C, ENG 2390 with a minimum grade of C, ENG 3010 with a minimum grade of C, ENG 3020 with a minimum grade of C, or ENG 3050 with a minimum grade of C) and 1 of PS 3000-4999 with a minimum grade of D- and 1 of PS 3000-6999 (may be taken concurrently)

Restriction(s): Enrollment is limited to Undergraduate level students.

PS 5999 Special Topics in Political Science Cr. 1-4
Topics to be announced in Schedule of Classes. Offered Every Term. Repeatable for 16 Credits

PS 6010 Political Psychology Cr. 3
Political attitudes and behavior of both ordinary citizens and political elites using theory and research that adopt a psychological perspective. Topics include: political socialization, ideological belief systems, role of mass media in shaping beliefs and attitudes, race and gender stereotypes and their psychological and political consequences, personality and the dynamics of political leadership. Offered Yearly.

Equivalent: PSY 6020

PS 6020 Intergovernmental Relations and American Federalism Cr. 3
Legal, fiscal, political and administrative relationships among governments in the American federal system. Current issues and public policies which affect or are affected by intergovernmental relationships. Offered Every Other Year.

PS 6070 Labor and American Politics Cr. 3
Role of organized labor in American politics. Historical background, including rise of the UAW and its role in Detroit and Michigan politics. Recent declines; future of organized labor as a force in American politics. Offered Every Other Year.

PS 6100 Introduction to Graduate Peace and Security Studies Cr. 3
Survey of the peace and security studies fields at the graduate level. Offered for graduate credit only. Offered Fall, Winter.

Restriction(s): Enrollment is limited to Graduate level students.

Equivalent: PCS 6100

PS 6120 Administrative Law and Regulatory Politics Cr. 3
Constitutional and statutory status of bureaucratic agencies; administrative powers and procedures; judicial review of administrative decisions; Congressional oversight of bureaucracies. Offered Intermittently.

PS 6340 Public Sector Labor Relations Cr. 3
History, present functions, problems and current controversies surrounding public sector unions. Offered Every Other Year.

Restriction(s): Enrollment is limited to Graduate level students.

PS 6440 Regional, State, and Urban Economic Development: Policy and Administration Cr. 3
Examination of regional, state, and local economic development theory, analysis, policy and administration. Offered for graduate credit only. Offered Every Other Year.

Restriction(s): Enrollment is limited to Graduate level students.

Equivalent: ECO 6650, UP 6550
PS 6640 Statistics and Data Analysis in Political Science II Cr. 3
Modern statistical theory applied to the study of politics, administration, and public policy. Multivariate analysis: multiple regression, logistic regression, path analysis, and factor analysis. Offered Yearly.
Prerequisite: PS 5630
Course Material Fees: $5

PS 6700 Financial Management for Nonprofit Organizations Cr. 3
Conducting financial management in nonprofit organizations. Topics include: legal responsibilities, cash versus accrual basis accounting, financial statements, fund accounting, fixed assets and depreciation, contributions and budgeting. Offered Yearly.

PS 6720 Marketing, Development, and Grant Writing for Nonprofit Organizations Cr. 3
How nonprofit organizations locate and secure resources from the private sector, individual philanthropists, foundations, and governments, through marketing, development, and the writing and submission of grants. Offered for graduate credit only. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

PS 6830 Civil War and Conflict Processes Cr. 3
Introduction to literature on civil wars: origins, variables affecting their duration, termination. Peace making and peace agreements studied comparatively. Recent Balkan and African civil wars. Offered Intermittently.

PS 6850 International Organizations Cr. 3
Covers origins and significance of international institutions in world politics. Reviews theoretical approaches to international institutions and global governance, including realist, institutionalist and constructivist. Examines problems of cooperation, delegation of power, disparities of power and the development of robust international regimes in a variety of areas of global governance (security, economic, human rights). Offered Intermittently.

PS 6860 American Foreign Policy Cr. 3
Contending paradigms of realism and liberalism as they relate to programs for American foreign policy. Offered Yearly.

PS 6870 United States Foreign Relations Law Cr. 4
U.S. constitutional law and politics relating to the branches’ competencies in conduct of foreign affairs and to incorporation of international law in U.S. courts; war powers, counterterrorism, treaties, human rights litigation, immunities. Offered Every Other Year.
Prerequisite: PS 5110 with a minimum grade of D- or PS 5820 with a minimum grade of D-
Equivalent: LEX 7888

PS 7020 The New Institutionalism Cr. 3
Applies concepts of rational choice theory to explain the development of political institutions. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7030 American Political Processes Cr. 3
Political socialization, public opinion, and political behavior. Role of political parties and interest groups in the political process. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7040 American National Institutions Cr. 3
Examination of the functions, structure and processes of major American governmental institutions with special emphasis on the Congress and the courts. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7099 Topics in American Politics Cr. 3
Topics chosen by faculty; may include: gender politics, political socialization, voting behavior, political parties, and interest groups. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7120 Approaches to the Study of Urban Politics Cr. 3
Examination of aspects of the urban political process and the research methods used in studying them. Topics include forms of political participation, political structures, community power and influence, strengths and weaknesses of case studies, comparative research, aggregate and individual data. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7240 Urban Public Policy Cr. 3
Overview of major theoretical approaches to understanding urban/regional problems and politics. Focus on following regional issues: interdependence of populations across municipal borders, municipal fragmentation, racial and economic segregation, mobility of labor and capital within and across regions. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7250 Seminar in Urban Administration Cr. 3
Administration in agencies with urban-related policy and program functions. Focus on: public services delivery; urban systems development; program-project design, implementation and evaluation; and intergovernmental relations. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7300 Public Administration and its Environment Cr. 3
Emergence and evolution of public administration as both a profession and a field of study. The role of public bureaucracies in the political process and efforts to ensure administrative accountability and responsiveness to the democratic system. Administrative relationships with elected executives, legislatures, the judiciary, the media and interest groups. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7310 Public Management Internship Cr. 1-3
Internship designed to integrate graduate course work with practical knowledge and experience gained from employment in a responsible capacity in a public agency or nonprofit organization. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 6 Credits

PS 7320 Organization Theory and Behavior Cr. 3
Study of major theoretical approaches to the structure, functioning and performance of organizations and the behavior of groups and individuals within them. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7330 Public Budgeting and Finance Cr. 3
Processes of public budgeting in the United States; political dynamics of budgetary decision-making; assessment of efforts to change budget systems; basic concepts of fiscal analysis of expenditure patterns and revenue sources. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7340 Public Personnel Management Cr. 3
Examination of the public personnel systems of American governmental units; analysis of current practices and techniques for recruiting, selecting, training, promoting, compensating and removing public employees. Major issues in public personnel management such as collective bargaining, equal employment opportunity, civil service reform and employee productivity and performance. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7350 Managing Public Organizations and Programs Cr. 3
Processes and techniques for managing public organizations and providing public services. Topics include: total quality management, communication and information management, motivation and supervision of subordinates, planning and decision making. Relying on for-profit and nonprofit organizations in service delivery. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.
PS 7375 Professional Development Seminar Cr. 1-2
Analysis of managerial techniques and practices currently used by administrators in the public sector. Emphasis on managerial applications of information technology, administrative writing and presentation skills, and organizational and behavioral approaches and techniques. Content areas will vary with yearly offerings. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7410 Policy Formation and Implementation Cr. 3
Analysis of the processes through which public policy is made and implemented. Examination of the factors that promote or impede the development and realization of rational, effective, and responsive public policy. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7460 Program Evaluation Cr. 3
Theory and practice of program evaluation. Role of program evaluation in the policy process. A number of theories of evaluation will be presented, followed by a discussion of techniques. Topics include total quality management, bench marking; utilization of evaluation. Offered Every Other Year.

Prerequisite: PS 5630 with a minimum grade of C-
Restriction(s): Enrollment is limited to Graduate level students.

PS 7470 Comparative Public Policy Cr. 3
Provides a comparative introduction to the field of public policy for graduate students. Topics covered include actors and institutions involved in policy making, key concepts, major policy theories and frameworks. After establishing this conceptual foundation, students will explore substantive policy in the U.S. and international context, with attention to the sources of policy differences, such as political institutions, economic conditions and culture. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7480 Policy Analysis for Administration Cr. 3
Introduction to the conceptual foundations of public policy analysis as well as training in various policy analysis tools. Opportunities for students to do policy analysis. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7550 Topics in the History of Political Thought Cr. 3-6
Survey of selected political theorists by period or theme; emphasis on interpretation of major works. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7560 Contemporary Political and Social Theory Cr. 3-6
Analysis of selected major problems, topics, and themes in recent political and social theory. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7580 Political Theory of Public Law Cr. 3
Legal restraints on exercise of public power as conceived in works of early modern theorists (e.g., Machiavelli, Locke, Montesquieu, and Madison), and as applied in constitutional arrangements that have emerged in a range of historical settings. Topics include: role of law in totalitarian political systems; emergency rule; comparative approaches to judicial review. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: LEX 7659

PS 7660 Research Methods in Policy and Politics Cr. 3
Analytic methods in the study of politics and public policy. Formulating researchable problems, use of models, research design, measurement, data collection, and computer-based data analysis. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7700 Foundations of Nonprofit Management Cr. 3
Topics include: nonprofit organizations and their history; nonprofit policy fields; organizational types and characteristics; governance and leadership; nonprofit strategy; nonprofit management; nonprofit advocacy and lobbying; resource development. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7710 Seminar in Comparative Politics Cr. 3
Research-oriented seminar in which students learn basic approaches to the study of domestic policy-making through the comparative method, including structural, cultural, institutional, elite, and rational choice approaches. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7711 Advanced Seminar in Comparative Politics Cr. 3-6
Analysis of selected major issues, topics, and debates in the field. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 99 Credits

PS 7720 Comparative Politics of Advanced Industrial Democracies Cr. 3
Provides an in depth at the political structures and institutions of advanced industrial democracies and at the methods, concepts and theories of comparative politics that further our understanding of those countries. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7730 Seminar: Comparative Politics of Developing Countries Cr. 3
Intellectual questions and methodological strategies political scientists are addressing in the study of politics in the developing world. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7740 Political Economy Cr. 3
Seminar course; comprehensive survey of political economy: interaction between the government and the economy; microeconomics of politics. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7810 Seminar in World Politics Cr. 3
Major theoretical approaches. Students evaluate the extent to which theses that devolve from realist, idealist, Marxist, culturalist, decision-making, and alternative approaches allow us to explicate phenomena in world politics. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

PS 7811 Advanced Seminar in World Politics Cr. 3
Examination of broad range of substantive topics; student develops ability to conduct independent research in world politics subfield; introduction to alternative theoretical approaches and different methods for conducting empirical research. Major performance objective is student development of a research design. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 6 Credits

PS 7995 Directed Study Cr. 1-6
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7997 Research in Political Science Cr. 1-9
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

PS 7999 Master's Essay Direction Cr. 1-3
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students.
PS 8000 Readings in Political Science Cr. 3
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 6 Credits

PS 8600 Philosophic Problems of Social and Political Inquiry Cr. 3
Required of all doctoral students. Exploration of competing philosophies of science and their relevance to the study of politics. Study of selected problems in political inquiry, including objectivity, commensurability, and progress. Review of disciplinary history and assessments of contemporary approaches to the study of politics. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.

PS 8999 Master's Thesis Research and Direction Cr. 1-8
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students.
Repeatable for 8 Credits

PS 9990 Pre-Doctoral Candidacy Research Cr. 1-8
Research in preparation for doctoral dissertation. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

PS 9991 Doctoral Candidate Status I: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

PS 9992 Doctoral Candidate Status II: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PS 9991 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PS 9993 Doctoral Candidate Status III: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PS 9992 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PS 9994 Doctoral Candidate Status IV: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PS 9993 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PS 9995 Candidate Maintenance Status: Doctoral Dissertation Research and Direction Cr. 0
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $402.01
Repeatable for 0 Credits

PSC - Pharmaceutical Sciences

PSC 4115 Pharmacodynamics I Cr. 3
Introduction to pure drug substance formulation into dosage forms and the principles and mechanisms for developing dosage forms for safe and effective use in patients. Offered Fall.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PSC 4125 Introduction to Pharmaceutical Sciences: Medicinal Chemistry / Pharmacology / Immunology Cr. 3
Introduction to medicinal chemistry, pharmacology and biotechnology with a focus on drug discovery and drug action. Offered Fall.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PSC 4215 Pharmaceutics II Cr. 2
Basic pharmacokinetics: principles of drug administration, distribution, metabolism and excretion (ADME) using different dosage forms, and basics of administration routes. Offered Winter.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PSC 4225 Autonomic Pharmacology Cr. 2
The principles of autonomic pharmacology integrated into an understanding of the functioning of the autonomic system; the major target organs and the physiological effects of agonists and antagonists elicited through autonomic receptor subtypes. Offered Winter.
Prerequisite: PSC 4125
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PSC 5115 Pharmacokinetics Cr. 2
Conceptual knowledge-base and practical calculation applications of pharmacokinetic principles. Offered Fall.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PSC 5600 Drugs of Abuse Cr. 2
Pharmacology and toxicology, both clinical and animal, associated with recreationally-used agents; treatment of acute and chronic problems associated with these agents; concept of chronic drug administration and abuse as disease state. Offered Yearly.
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.

PSC 5870 Seminar in Pharmacology Cr. 1
Reports and discussions on current literature and recent advances in the field. Assigned topics presented by students. Offered for undergraduate credit only. Offered Every Term.
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.
Repeatable for 2 Credits

PSC 5990 Directed Study in Medicinal Chemistry Cr. 2
Offered for undergraduate credit only. Offered Every Term.
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.

PSC 5991 Directed Study in Pharmaceutics Cr. 2
Offered for undergraduate credit only. Offered Every Term.
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.

PSC 5992 Directed Study in Pharmacology Cr. 2
Offered for undergraduate credit only. Offered Every Term.
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.

PSC 6285 Pharmacy Seminar Cr. 1
Presentations on topics of current interest on basic science problems relevant to the major discipline of pharmaceutical sciences. Offered Winter.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.

PSC 6620 Veterinary Pharmacology Cr. 2
Provides an overview of veterinary pharmacology that offers a review of the chemical structure, mechanism of action, indications for use, and side effects of therapeutics. Includes topics such as toxicology, laws and regulations and common diseases/conditions of veterinary species. Offered Fall.
Restriction(s): Enrollment limited to students in the Doctor of Pharmacy program.
PSC 6800 Introduction to Research Cr. 2
Fundamental concepts and resources for responsible conduct of biomedical research and advancing scientific professional development, and data analysis and statistics. Offered Yearly.
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.

PSC 6890 Toxicology for Pharmacists Cr. 2
Exposes students to basic concepts in toxicology; serves as a knowledge base to assist in the understanding of mechanisms and rationale behind the relationship of certain drugs and their specific types of toxicities, and addresses tissue and organ-specific toxicities, drug-drug interactions, on-target and off-target effects, and risk assessment. Offered Winter.
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.

PSC 6910 Pharmaceutical Waste: Environmental Impact and Management Cr. 2-3
Course designed for advanced professional and graduate students with sufficient chemistry and/or biological sciences background who are interested in the environmental impact, management, and regulation of waste pharmaceuticals as emerging issues. Offered Winter.
Restriction(s): Enrollment is limited to Graduate or Professional level students.
Equivalent: CE 6910

PSC 7010 Advanced Drug Action and Safety I Cr. 3
Survey of advanced research topics in pharmacology. Offered Fall.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PSC 7020 Advanced Drug Discovery I Cr. 3
Survey of advanced research topics in medicinal chemistry. Offered Winter.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PSC 7040 Advanced Drug Formulation and Delivery I Cr. 3
Survey of advanced research topics in pharmaceutics. Offered Winter.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PSC 7160 Advanced Practice Basic Pharmaceutical Sciences Elective Cr. 3-6
Eight-week rotation in basic science-oriented research laboratory. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.
Repeatable for 6 Credits

PSC 7600 Drugs of Abuse: Advanced Cr. 2
Pharmacology and toxicology, both clinical and animal, associated with recreationally-used agents; treatment of acute and chronic problems associated with these agents; concept of chronic drug administration and abuse as disease state. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PSC 7700 Advanced Drug Action and Safety II Cr. 2
Continuing survey of modern research topics in pharmacology. Offered Every Other Winter.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PSC 7777 Chemistry Biology Interface Seminar Series Cr. 1
The Chemistry Biology Interface (CBI) seminar series will expose students to CBI-related research, CBI-related professional development activities, review of current literature, topics in rigor and reproducibility, and networking social activities. These activities will be in the format of presentations, panel discussions, workshops, small group discussions, or social activities. The goal is for graduate students from discipline-specific fields to move across a multi-disciplinary landscape, or for students already working in inter-disciplinary fields, such as chemical biology, to gain new expertise in specific disciplines. Beyond scholarly goals, the seminar series will enrich the graduate experience by providing career guidance, non-laboratory skill development, training in rigor and reproducibility, and professional networking. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: BIO 7777, CHM 7777

PSC 7800 Research Techniques in Medicinal Chemistry Cr. 1-4
Laboratory work employing modern techniques available in medicinal chemistry; application of basic principles to graduate study and research. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.
Repeatable for 16 Credits

PSC 7810 Research Techniques in Pharmaceutics Cr. 1-4
Laboratory work employing some of the modern techniques available in pharmaceutics: application of basic principles to graduate study and research. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.
Repeatable for 16 Credits

PSC 7820 Research Techniques in Pharmacology Cr. 1-4
Laboratory work employing some of the modern techniques available in pharmacology, including the application of basic principles to graduate study and research. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.
Repeatable for 16 Credits

PSC 7850 Pharmaceutical Sciences Colloquium Cr. 1
This course is a required seminar course for all graduate students in the Department of Pharmaceutical Sciences. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.
Repeatable for 10 Credits

PSC 7860 Introduction to Seminar Cr. 1
A required seminar course for all first year graduate students in the Department of Pharmaceutical Sciences. Students will be required to present a seminar on their research progress during their first year in the program. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PSC 7870 Second Year Seminar Cr. 1
A required seminar course for all second year PhD students in the Department of Pharmaceutical Sciences. Students will be required to present a seminar on a topic unrelated to their research. Offered Fall, Winter.
Prerequisites: PSC 7860 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
PSC 7880 Third Year Seminar Cr. 1
A required seminar course for all third year PhD students in the Department of Pharmaceutical Sciences. Students will be required to present a seminar on their research. Offered Fall, Winter.
Prerequisites: PSC 7870 with a minimum grade of C

PSC 7999 Master's Essay Direction Cr. 1-4
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.
Repeatable for 4 Credits

PSC 8650 Special Topics in Medicinal Chemistry Cr. 2
Recent developments in medicinal chemistry. Topics under investigation and of current interest offered in different semesters. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.
Repeatable for 16 Credits

PSC 8660 Special Topics in Pharmaceutics Cr. 2
Recent developments in pharmaceutics. Topics under investigation and of current interest offered in different semesters. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.
Repeatable for 16 Credits

PSC 8670 Special Topics in Medicinal Chemistry Cr. 2
Recent developments in medicinal chemistry. Topics under investigation and of current interest offered in different semesters. Offered Every Term.

PSC 8680 Special Topics in Pharmacology Cr. 2
Recent developments in pharmacology. Topics under investigation and of current interest offered in different semesters. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.
Repeatable for 16 Credits

PSC 8888 Survey of Research at the Chemistry Biology Interface Cr. 3
The Chemistry Biology Interface course will teach students how to apply chemical approaches to study complete biological processes. It will commence with a basic overview of the biochemistry of biomolecules. Next, complex biological processes related to various diseases will be highlighted by introducing cell biology, model cells and organisms, and disease mechanisms. Finally, the course will highlight contemporary examples of how chemical methods are used to answer complex biological questions to show the value and innovation available by taking a multidisciplinary approach. The focus will be on development of skill sets that are applicable for research at the chemistry biology interface, rigor and transparency in data collection and analysis, and identification of cross-disciplinary research at Wayne State. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: BIO 8888, CHM 8888, PSC 8888

PSC 8991 Doctoral Candidate Status I: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PSC 8992 Doctoral Candidate Status II: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PSC 8993 Doctoral Candidate Status III: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PSC 8994 Doctoral Candidate Status IV: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

PSC 8995 Candidate Maintenance Status: Doctoral Dissertation Research and Direction Cr. 0
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate or Professional level students; enrollment limited to students in the Pharmacy and Health Sciences.

Course Material Fees: $402.01
Repeatable for 0 Credits

PSL - Physiology

PSL 5010 Individual Research I Cr. 2-5
Direct participation in laboratory research in the physiological sciences under the supervision of a departmental faculty advisor. Introduction to experimental protocol and current related scientific literature. Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Junior or Senior.
Repeatable for 5 Credits

PSL 5680 Basic Endocrinology Cr. 3
Basic description of the human endocrine system, the endocrine control of several physiologic processes (growth, development, metabolism and reproduction), and a description of common endocrine disorders. Offered Fall.
Prerequisites: BIO 3200 with a minimum grade of C- or BIO 4120 with a minimum grade of C-
Equivalent: BIO 5680

PSL 6010 Advanced Exercise Physiology Cr. 3
Metabolic, neuromuscular, cardiovascular, and respiratory adjustments to acute and chronic exercise in health and disease, including body composition and weight control, nutritional considerations, and the effects of different environments on exercise performance. Offered Fall.
Equivalent: PT 6310

PSL 6300 Biotechnology: Techniques and Applications Cr. 2
Various biotechnical methodologies currently used in research and industry; application of these methodologies in scientific inquiries. Offered Fall.
PSL 6310 Biotechnology: Techniques and Applications Lab Cr. 2-5
Students choose one of the biotechnology techniques discussed in PSL 6300 and spend the semester in an active research laboratory learning the practice of the technique through hands-on experience. Offered Winter.
Prerequisites: PSL 6300 with a minimum grade of C (may be taken concurrently)
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7010 Basic Graduate Physiology Lecture I Cr. 4
Introduction to basic human physiology. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7011 Basic Integrative Graduate Physiology I Cr. 4
Offered Fall.
Restriction(s): Enrollment is limited to students with a major in Physiology.

PSL 7020 Basic Graduate Physiology Laboratory I Cr. 2
Introductory laboratory exercises to measure cell and membrane function; neuronal activity; electrophysiology; and hormonal actions. Offered Fall.
Restriction(s): Enrollment is limited to students with a major in Physiology.
Course Material Fees: $50

PSL 7030 Basic Graduate Physiology Lecture II Cr. 4
Functional mechanisms of the human body. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7031 Basic Integrative Graduate Physiology II Cr. 4
Offered Winter.
Restriction(s): Enrollment is limited to students with a major in Physiology.

PSL 7040 Basic Graduate Physiology Laboratory II Cr. 2
Experimental physiology of organ systems. Offered Winter.
Restriction(s): Enrollment is limited to students with a major in Physiology.
Course Material Fees: $50

PSL 7060 Current Literature in Physiology Cr. 1
Students are required to present published papers at least once each semester, and must attend all class meetings. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7215 Nanobioscience Cr. 3
Introduction to interdisciplinary research field of nanobioscience, at the interphase of biology, chemistry, and physics; specific properties of nanoscale objects. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7400 Advanced Respiratory Physiology Cr. 2
Advanced topics in respiratory physiology; guidance in critical reading and discussion of the literature. Offered Every Other Winter.
Prerequisite: PSL 7030 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate or Medical level students.

PSL 7420 Organizing and Communicating Hypothesis Testing in Physiology Cr. 2
Understanding the development of physiologically relevant hypotheses, testing hypotheses, and both written and oral presentation of physiologic studies/proposals. Students will develop substantial components of a training fellowship proposal. Offered Winter.
Prerequisite: PSL 7011 with a minimum grade of C and PSL 7031 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7550 Advanced Renal Physiology Cr. 2
A detailed study of the physiological mechanisms promoting homeostasis of the body fluid volumes and ionic composition in the mammal. Offered Every Other Fall.
Prerequisites: PSL 7030 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7600 Advanced Cardiovascular Physiology Cr. 2
Basic principles of heart dynamics and control techniques in measurement of cardiac function. Offered Fall.
Prerequisites: PSL 7030 with a minimum grade of C
Restriction(s): Enrollment is limited to students with a major in Physiology; enrollment is limited to Graduate level students; enrollment limited to students in a Doctor of Philosophy or Master of Science degrees.

PSL 7610 Biological Basis of Sleep Cr. 2
Basic physiology of human sleep; role of sleep in cognitive and physical performance; sleep disorders (such as sleep apnea, narcolepsy). Offered Every Other Winter.
Prerequisites: PSL 7030 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7640 Cell and Molecular Physiology Cr. 3
Principles and techniques in reproduction including endocrinology, gametogenesis, fertilization, implantation, embryogenesis, stem cell determination, pregnancy and parturition. Offered Every Other Fall.
Prerequisites: PSL 7010 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7650 Advanced Neurphysiology Cr. 3
Current topics in cognitive neurosciences ranging from cellular and molecular aspects to systems, network dynamics, and cognitive functions as well as neurological diseases. Offered Every Other Fall.
Prerequisites: PSL 7010 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7660 Endocrinology Cr. 4
A detailed emphasis on current research. Student participation encouraged; each student required to present a one hour lecture. Offered Winter.
Prerequisites: PSL 7010 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7690 Principles and Techniques of Reproductive Biology Cr. 3
Principles and techniques in reproduction including endocrinology, gametogenesis, fertilization, implantation, embryogenesis, stem cell determination, pregnancy and parturition. Offered Every Other Fall.
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7700 Embryonic Stem Cell Biology Cr. 3
Methods involved in production and utilization of embryonic stem cells. Lectures supplemented with text, reviews, and recent papers. Offered Every Other Winter.
Prerequisite: PSL 7690
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7710 Disease States and Reproductive Processes Cr. 1
Diseases and areas in reproductive medicine where additional research is required. Students accompany clinicians during rounds in hospital and out-patient clinics. Offered Spring/Summer.
Restriction(s): Enrollment is limited to students with a major in Medicine; enrollment is limited to Graduate level students.
PSL 7730 Reproductive Sciences: Teratology Cr. 3
Principles of the science of birth defects; focus on impact of environmental poisons, medicines, and drugs of abuse on developing germ cells, embryos and fetuses. Roles of pharmacological/toxicological, physiological (maternal, placental, and fetal), genetic and nutritional factors in the teratogenic response are examined. Texts and current readings. Offered Every Other Fall.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: PSC 7730

PSL 7775 Current Research Topics in Reproductive Science Cr. 2
Covers principles and translational components of reproduction and associated disease states including, endocrinology, infertility, contraception, recurrent pregnancy loss, menopause and reproductive immunology. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7825 Membrane Physiology: Protein Transport, Lipid Metabolism and Human Diseases Cr. 2
Covers the basic concepts of membrane transport in the mammalian secretory pathway with an emphasis on the dysregulation of key transport steps and the defective mutations of key regulators which lead to human diseases (e.g. neurodegenerative diseases, diabetes and coronary heart diseases). Offered Winter.
Prerequisite: IBS 7015 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PSL 7880 Special Problems in Physiology Cr. 1-8
Topics individually arranged with faculty. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 8 Credits

PSL 7890 Seminar Cr. 1
For graduate students in physiology. Participation in weekly departmental seminars. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 6 Credits

PSL 7996 Arranged Research Cr. 1-15
Graduate level experiences in research techniques. Special research topics in specified areas arranged with individual faculty member. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 15 Credits

PSL 8888 Survey of Research at the Chemistry Biology Interface Cr. 3
The Chemistry Biology Interface course will teach students how to apply chemical approaches to study complete biological processes. It will commence with a basic overview of the biochemistry of biomolecules. Next, complex biological processes related to various diseases will be highlighted by introducing cell biology, model cells and organisms, and disease mechanisms. Finally, the course will highlight contemporary examples of how chemical methods are used to answer complex biological questions to show the value and innovation available by taking a multidisciplinary approach. The focus will be on development of skill sets that are applicable for research at the chemistry biology interface, rigor and transparency in data collection and analysis, and identification of cross-disciplinary research at Wayne State. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: BIO 8888, CHM 8888, PHC 8888, PSC 8888

PSL 8999 Master’s Thesis Research and Direction Cr. 1-8
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students.
Repeatable for 8 Credits

PSL 9990 Pre-Doctoral Candidacy Research Cr. 1-8
Research in preparation for doctoral dissertation. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

PSL 9991 Doctoral Candidate Status I: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Prerequisite: PSL 9991 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PSL 9992 Doctoral Candidate Status II: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PSL 9992 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PSL 9993 Doctoral Candidate Status III: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PSL 9993 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PSL 9994 Doctoral Candidate Status IV: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PSL 9994 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PSL 9995 Candidate Maintenance Status: Doctoral Dissertation Research and Direction Cr. 0
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $402.01
Repeatable for 0 Credits

**PSY - Psychology**

**PSY 1010 Introductory Psychology Cr. 4**
Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry
Grade of C or better required for psychology majors. Introduction to the science of behavior. Principles, concepts, and theories of human thought and action. Selected concepts illustrated through laboratory experiments. Recommended for students intended to major in psychology. Meets General Education Laboratory Requirement. No credit after PSY 1020. Offered Every Term.

PSY 1020 Elements of Psychology Cr. 3
Satisfies General Education Requirement: Life Sciences, Natural Scientific Inquiry
Principles, theories and applications of psychological knowledge. Intended for non-psychology majors. No credit after PSY 1010. Offered Every Term.

**PSY 1030 Introductory Psychology Laboratory Cr. 1**
Principles, concepts and theories of human thought and behavior illustrated through laboratory experiments. Required of psychology majors who have AP Psych credit or took PSY 1020 to complete Introductory Requirement; Grade of C or better required for psychology majors. No credit after PSY 1010. Offered Every Term.
Prerequisites: PSY 1020 with a minimum grade of C
Restriction(s): Enrollment is limited to Undergraduate level students.
PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 2030 Statistical Methods in Psychology Cr. 4  
Primarily for psychology majors. Principles and computational methods that apply to quantitative aspects of psychological procedure; elementary correlation theory and prediction, sampling problems, tests of hypotheses, elementary test theory, interpretation of results. Students will learn how to use statistic software SPSS. Psychology majors must earn C or better and are strongly urged to complete PSY 2030 at or before the completion of 60 credit hours. Course study and/or tutoring is available for this course. Offered Every Term.  
Prerequisites: PSY 1010 with a minimum grade of C or PSY 1030 with a minimum grade of C.

PSY 2080 Introduction to Drugs, Behavior, and Society Cr. 3  
Introduction to drugs and their actions. Emphasis on psychoactive drugs, their effects, and the consequences of their use and misuse to the individual and society. Offered Every Term.  
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 2100 Psychology and the Workplace Cr. 3  
Psychology applied to workplace issues. Major topics include organizational staffing, employee training and development, organizational leadership, employee attitudes and motivation, organizational culture and climate, and employee health and well-being. Offered Every Term.  
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 2300 Psychology of Everyday Living Cr. 4  
Applications of psychological principles to everyday life. How research can be used to guide positive self-change in various contexts (e.g., stress, psychological problems, personality, persuasion, attitudes). Offered Every Term.  
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 2400 Developmental Psychology Cr. 4  
Facts, principles, theories of psychological development throughout the lifespan. Development of intellectual, emotional, perceptual, linguistic, and social behavior. Developmental trends. Offered Every Term.  
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 2410 Health Psychology Cr. 4  
Clinical, social, developmental, and biopsychosociological theory and research on relationship of psychological and behavioral factors to physical health and well-being. Positive and negative health behaviors, stress and coping, social relations and social support, psychoneuroimmunology, patient-practitioner interaction and health utilization, management of chronic illness. Offered Every Term.  
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 2450 Developmental Psychology Service Learning Laboratory Cr. 1  
The laboratory involves a project related to development that serves a community need and is conducted within the community. Participation in the project is intended to result in deeper learning of the course content in PSY 2400. Offered Intermittently.  
Prerequisites: (PSY 1010 or PSY 1020) and PSY 2400 (may be taken concurrently)

PSY 2600 Psychology of Social Behavior Cr. 4  
Social behavior of the individual as influenced by the group. Particular attention given to social perception, motivation, and learning; attitudes and values; dynamics of social groups. Offered Every Term.  
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 2650 Philosophy of Psychology Cr. 3  
Satisfies General Education Requirement: Cultural Inquiry  
Central examples of these questions and proposed answers: Could we build an intelligent computer? Is our mind just a piece of software that our brain is running? Is there a “language of thought”? Are we much less rational than we think? How can we understand each other’s minds? Can there be laws in psychology? What is consciousness, and can it be studied scientifically? We will address these and other questions via the work of philosophers, psychologists and cognitive scientists. Offered Winter.  
Equivalent: PHI 2650

PSY 3000 Evolutionary Psychology Cr. 3  
Application of evolutionary theory to the study of human behavior, including favoritism of kin, sex differences in behavior and anatomy, and life history strategies. Introduction to behavioral genetics. Description of various facets of a given behavior: its development, neural and hormonal mechanisms, phylogenetic distribution, and adaptive value, with examples. Interaction between genetic and environmental influences on behavior, including cultural values. No credit after BIO 4220. Offered Fall.  
Prerequisite: PSY 1010 or PSY 1020

PSY 3040 Psychology of Perception: Fundamental Processes Cr. 3  
Fundamental theories, concepts, and empirical studies of basic sensory processes and the perception and organization of sensory phenomena. Offered Fall, Winter.

PSY 3060 Psychology of Learning and Memory: Fundamental Processes Cr. 3  
Fundamental theories, concepts, and empirical findings in field of learning. Offered Fall, Winter.  
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 3080 Cognitive Psychology: Fundamental Processes Cr. 3  
Fundamental theories, concepts, and empirical findings in study of human cognition. Topics include: thinking, problem solving, language comprehension and production, memory and attention. Offered Every Term.  
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 3120 Brain and Behavior Cr. 3  
Introduction to the brain and its influence over behavior. Structure and function of the nervous system, neural communication, and neural mechanisms of higher nervous system functions and dysfunctions. Topics include: biological basis of sleep, sex, learning, memory, language, schizophrenia, and depression. No credit after PSY 3330. Offered Every Term.  
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-
PSY 3200 Motivation, Feeling and Emotion Cr. 3
Experimental findings in psychological and allied fields on topics of motivation, feeling, and emotion; evaluation of classical theories and an attempt to develop a theoretical approach based on factual knowledge. Offered Intermittently.
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 3250 Psychology of Gender Cr. 3
Evidenced-based understanding of similarities and differences between women and men in domains such as cognitive skills, aggression, empathy, communication, emotional expression and mental health. Exploration of biological, psychological and social theories used to explain gender identity and expression. Focus on historical and current issues related to the psychology of women, including relationships, careers and health. Offered Every Term.
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 3310 Abnormal Psychology Cr. 4
Nature and causes of various forms of abnormal behavior, including schizophrenia, depression, and neurosis, viewed from psychological, biological, cultural, developmental and historical perspectives. Diagnosis and treatment of pathological behavior. Offered Every Term.
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 3330 Systems Neuroscience Cr. 3
Systems Neuroscience explores the brain circuits that contribute to regulatory (i.e., sexual differentiation and reproductive behavior, reward and addiction, aggression and violence, physical and social pain), and higher order (i.e., learning and memory, cerebral lateralization and consciousness) experiences and behaviors. Changes in neural circuits that contribute to disorders of thought (schizophrenia), emotion (anxiety) and sensory processing (chronic pain), and neurobiological strategies for their remediation also are explored. Offered Winter.
Prerequisite: BIO 3200 with a minimum grade of C-

PSY 3350 Psychology of Personality Cr. 3
An examination of the major approaches to the study of personality. Current psychological findings in the field of personality and their implications for psychotherapy and assessment. Offered Every Term.
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 3380 Human Sexuality Cr. 3
Biological, psychological and socio-cultural aspects of human sexuality. Topics include anatomy and development, sexual behavior, and cultural influences. Offered Every Term.
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 3430 Infant Development Cr. 3
Development of the infant from conception through the toddler years. Physical, motor, perceptual, cognitive, language, social and emotional development. Current findings and their implications for parenting, programming and care. Offered Yearly.
Prerequisites: PSY 2400 with a minimum grade of D-

PSY 3440 Psychology of Child Behavior and Development Cr. 3
Developmental processes in childhood: language acquisition, cognitive development, development of peer-peer interactions. Offered Yearly.
Prerequisites: PSY 2400 with a minimum grade of D-

PSY 3460 Psychology of Adolescent Behavior and Development Cr. 3
Factors that promote the emergence of new relationships with parents, changes in peer relationships, increased independence, preparation for marriage and parenthood, and socioeconomic integration into the larger society. Biological and anthropological perspectives on sex roles. Offered Yearly.
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-

PSY 3480 Parent-Child Interaction Across the Lifespan Cr. 3
Theory and research on interactions between parents and children. Focus on normal developmental concerns, infancy through adulthood: discipline, sibling rivalry, sex-role identification, parental support. Offered Yearly.
Prerequisites: PSY 2400 with a minimum grade of D-

PSY 3490 Psychology of Adult Development and Aging Cr. 3
The adulthood and aging years from a developmental perspective, including: intelligence, memory, personality, and social behavior. Offered Intermittently.
Prerequisites: (PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-) and PSY 2400 with a minimum grade of D-

PSY 3993 Laboratory in Experimental Psychology Cr. 2
Satisfies General Education Requirement: Writing Intensive competency. Lab investigations of perceptual, sensory, learning, or cognitive processes. This capstone course will culminate in the writing of a research proposal. Course unique to WSU; students must complete course at WSU. Offered Every Term.
Prerequisites: PSY 2030 with a minimum grade of C and (ENG 2390 with a minimum grade of C, ENG 3010 with a minimum grade of C, ENG 3020 with a minimum grade of C, or ENG 3050 with a minimum grade of C)
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $15

PSY 4140 Hormones and Behavior Cr. 3
Examines the relationship between hormones and behavior, taking a biological approach to behavioral questions that have long been of interest to Psychologists, Biologists and Neuroscientists. Explores the research area of Behavioral Endocrinology, a field that seeks biologically (in particular hormone)-based explanations of behavior. Offered Winter.
Prerequisites: PSY 1010 with a minimum grade of C and (PSY 3120 with a minimum grade of C or PSY 3330 with a minimum grade of C)
Equivalent: BIO 4140

PSY 4310 Psychological Disorders of Children Cr. 3
An introduction to the methods, rationale, and empirical foundations of clinical psychology. Issues in the assessment and treatment of psychopathology in children. Offered Fall.
Prerequisites: PSY 1010 with a minimum grade of C or PSY 1020 with a minimum grade of C

PSY 4320 Introduction to Clinical Psychology Cr. 3
Prerequisites: PSY 1010 with a minimum grade of C or PSY 1020 with a minimum grade of C

PSY 4330 Social Psychology of Close Relationships Cr. 3
Scientific study of close relationships, with a focus on romantic relationships. Current theories and research findings on various dynamics of relationship functioning from a social psychological perspective. Offered Intermittently.
Prerequisite: PSY 2600 with a minimum grade of D-

PSY 4990 Directed Study and Research Cr. 2-4
Library or laboratory study of an advanced problem in psychology under the guidance of a faculty member. Offered Every Term. Repeatable for 9 Credits
PSY 4991 Honors Directed Study Cr. 2-4
Honors library or laboratory study of advanced problem in psychology under guidance of a faculty member. Offered Every Term.
Repeatable for 9 Credits

PSY 4993 Field Study Cr. 3
Assignment to a hospital, clinic or other agency under faculty supervision. Term paper on observations made in the field. Agency placement contingent upon appropriate background and training in psychology. Offered Intermittently.
Prerequisite: PSY 1010 with a minimum grade of C- or PSY 1030 with a minimum grade of C- and PSY 3310 with a minimum grade of C-
Repeatable for 6 Credits

PSY 4994 Special Projects Cr. 1-4
Departmental assignment to special projects for advanced students. Offered Every Term.
Prerequisite: PSY 1010 with a minimum grade of C or PSY 1030 with a minimum grade of C
Repeatable for 6 Credits

PSY 4995 Special Topics in Psychology Cr. 3
Topics of current interest to be announced in Schedule of Classes. Offered Intermittently.
Prerequisites: PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-
Repeatable for 6 Credits

PSY 4998 Senior Thesis Cr. 3
Research leading to the design and execution of a senior honors thesis in psychology. Offered Every Term.
Prerequisites: PSY 2020 with a minimum grade of C, PSY 2030 with a minimum grade of C, and PSY 3993 with a minimum grade of C
Restriction(s): Enrollment is limited to students with a major in Psychology Honors.

PSY 5020 Honors Research in Psychology Cr. 3
Critical evaluation of scientific literature and the planning and development of psychological research proposals. Offered Fall.
Prerequisites: PSY 2010 with a minimum grade of C, PSY 2030 with a minimum grade of C, and PSY 3993 with a minimum grade of C
Restriction(s): Enrollment is limited to students with a major in Psychology Honors.

PSY 5040 Cognitive Neuroscience Cr. 3
Brain processes and brain structures that support them, framed in terms of theoretical models and empirical evidence from brain imaging techniques and patient populations. Topics include attention, memory, space, language, and decision-making. Offered Yearly.
Prerequisites: PSY 3120 with a minimum grade of C or PSY 3330 with a minimum grade of C

PSY 5070 Neuropharmacology Cr. 3
Physiological and behavioral bases of drug action, with emphasis on brain neurotransmitters, psychopharmacology, and substance abuse disorders. Offered Fall.
Prerequisites: PSY 1010 with a minimum grade of C and (PSY 3120 with a minimum grade of C or PSY 3330 with a minimum grade of C)

PSY 5080 Cellular Basis of Animal Behavior Cr. 3
Relationship between behavior and neuroscience using a variety of animal models, each examined from the level of natural behavior progressively to the cellular level. Topics include: sensory systems, motor behavior, and learning. Offered Winter.
Equivalent: BIO 5080

PSY 5100 Applied Statistics in Psychology Cr. 4
General linear model, coding techniques, multiple correlation and regression, analysis of variance and covariance, planned and post hoc tests, use of statistical computer packages. Offered Every Term.
Prerequisites: PSY 2020 with a minimum grade of C

PSY 5330 Human Neuropsychology Cr. 3
Prerequisites: (PSY 1010 with a minimum grade of D- or PSY 1020 with a minimum grade of D-) and (PSY 3120 with a minimum grade of C or PSY 3330 with a minimum grade of C)

PSY 5360 Child Language Acquisition Cr. 3
Despite its complexity and abstractness, young children acquire language without conscious effort or explicit instruction in a span of just a few years. This feat is unique to humans and is unmatched by any other species or even the most sophisticated computers. The course will present a comprehensive introduction to the study of child language acquisition. We will use a cross-linguistic approach to discuss some of the most important issues in language acquisition. We will not only talk about what children accomplish linguistically at various ages, but also discuss various theoretical approaches to explaining how children acquire linguistic knowledge in different domains, focusing on acquiring the sound inventory, words and sentence structure. We will look at some of the methods that have been employed to collect and analyze child language data. Offered Fall.
Equivalent: ENG 5360, LIN 5360

PSY 5440 Developmental Neuropsychology Cr. 3
Neurobiology of development. Topics include: neuroplasticity throughout the life span, maturation of the brain and neural connectivity, neurodevelopment of behavioral, emotional, social and cognitive functions. This course will bridge human behavioral and animal models to illustrate the dexterity and limitations of available scientific methods to study developmental neuropsychology. Offered Intermittently.
Prerequisites: PSY 1010 with a minimum grade of C and (PSY 3120 with a minimum grade of C or PSY 3330 with a minimum grade of C)

PSY 5700 The Psychology of African Americans Cr. 4
Methodological approaches to and theories of Black behavior and personality development. Topics include: race and pathology, life-span and psycho-sexual development, personality formation, social and environmental stress and adaptation. Offered Every Term.
Equivalent: AFS 5700

PSY 5710 Dispute Resolution Cr. 3
Overview of the processes and actors in the field of dispute resolution including negotiation, mediation, arbitration, and conciliation. Offered Yearly.
Equivalent: CRJ 5994, PCS 5000, PS 5890
PSY 5900 Culture, Language and Cognition Cr. 3
Systematic investigation of the relationships among, language, cognition and culture, including issues relating to human universals, cross-cultural concept formation, metaphor, classification and the evolution of cognition and language. Offered Every Other Winter.
Prerequisites: ANT 3310 with a minimum grade of D, ANT 5320 with a minimum grade of D, LIN 3310 with a minimum grade of D, LIN 5320 with a minimum grade of D, or PSY 3080 with a minimum grade of D.
Restriction(s): Enrollment is limited to Graduate or Undergraduate level students.
Equivalent: ANT 5900, LIN 5900

PSY 6010 Family Centered Collaboration in Early Childhood Intervention and Special Education Cr. 3-4
Theories, concepts and practices of family centered intervention services for young children with special needs. Team-building and cross-disciplinary communication and collaboration with families. Offered Fall.
Equivalent: ELE 6010, SW 6010

PSY 6020 Political Psychology Cr. 3
Political attitudes and behavior of both ordinary citizens and political elites using theory and research that adopt a psychological perspective. Topics include: political socialization, ideological belief systems, role of mass media in shaping beliefs and attitudes, race and gender stereotypes and their psychological and political consequences, personality and the dynamics of political leadership. Offered Yearly.
Equivalent: PS 6010

PSY 6200 Development of Memory Cr. 3
Major theoretical models of memory development will be discussed and used to explore various aspects of the memory process from infancy to adulthood. Offered Intermittently.
Prerequisites: PSY 3080 with a minimum grade of D- or PSY 2400 with a minimum grade of D-

PSY 6500 Advanced Psychological Statistics Cr. 3
Review of core statistical procedures; in-depth exploration of concepts of correlation and regression. Brief review of descriptive statistics and methods of statistical inference. Statistical software will be introduced and used. Offered for graduate credit only. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major in Industrial/Organizational Psy.

PSY 6510 Organization Theory Cr. 3
Work organization theories, and history of social modeling; classical, neoclassical, and open system of contingency theories. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major in Industrial/Organizational Psy.

PSY 6520 Organizational Behavior Cr. 3
Employee motivation, job attitudes, leadership and management development; related aspects of organizational behavior, design and development. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major in Industrial/Organizational Psy.

PSY 6535 Psychometric Theory Cr. 3
Development, validation, and use of psychological tests and other psychological instruments. Origins and value of psychological testing. Offered Yearly.
Prerequisites: PSY 6500 with a minimum grade of B
Restriction(s): Enrollment is limited to students with a major in Industrial/Organizational Psy.

PSY 6550 Training and Employee Development Cr. 3
Theory and practice of organizational training, employee development, and management development; establishment of performance standards, performance appraisal process, evaluation of training and development programs. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major in Industrial/Organizational Psy.

PSY 6570 Research Methods in Industrial/Organizational Psychology Cr. 3
Field and lab research methods for workplace settings. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major in Industrial/Organizational Psy.

PSY 7010 History and Systems of Psychology Cr. 2-3
History and philosophical ideas that have influenced development of the scientific field of psychology. Core issues in philosophy of science; their integration with major theories, philosophies and trends in development of modern psychology. Offered Every Other Year.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7080 Human Cognition Cr. 3
Unified approach to human cognitive activity, including perception, attention, memory, language, concepts, and problem solving. Offered Every Other Year.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7120 Biological Basis of Behavior Cr. 3
Major literature relating the anatomy of the nervous system to psychological processes. Offered Every Other Year.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7150 Quantitative Methods in Psychology I Cr. 4
Introduction to statistical inference for psychologists. Bivariate measures of relationship and associated statistical tests: chi square, t-test, F test and selected rank order tests. Research methods including randomized designs, repeated measures, counter-balancing and Latin square designs, and quasi-experimental designs common to applied social science research, such as matched case controls, pre- and post- designs, and interrupted time-series. Offered Fall.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7160 Psychometrics and Factor Analysis Cr. 3
Psychometric theory and psychological measurement including Factor Analysis and Item Response Theory. Offered Winter.
Prerequisites: PSY 7150 with a minimum grade of C (must be taken at WSU)
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7200 Psychological Assessment I Cr. 4
Psychometric theory and application emphasizing reliability, validity, utility and interpretation of selected intelligence, achievement, and objective personality tests, including the WAIS-IV and MMPI-2. Required lab section includes individual supervision on interviewing, testing, and report writing. Offered Fall.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
PSY 7210 Psychological Assessment II Cr. 4
Half of the course covers child intellectual and academic assessment, based on measures such as the WISC-IV and WIAT-II. The other half addresses adult personality assessment, based on measures such as the Rorschach and TAT. Emphasis on providing feedback and writing reports for clients. Required lab section includes individual supervision on interviewing, testing and report writing. Offered Winter.
Prerequisites: PSY 7200 with a minimum grade of B (must be taken at WSU)
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7230 Assessment Practicum Cr. 1
Students learn to conduct psychological assessments of adults and children. Skills taught include how to: a) generate clinical hypotheses; b) interview patients; c) select, administer, score, and interpret a range of psychological measures; d) integrate findings to answer assessment questions; e) write assessment reports; f) give feedback; and g) both receive and provide supervision. Unique aspects of assessing specific clinical conditions or disorders will be covered. Students will present cases based on assessments they conduct in the departmental training clinic. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
Repeatable for 3 Credits

PSY 7240 Ethics, Professional Issues, and Diversity Cr. 1
Three separate sections of this course focus on ethical principles as applied to practice, research and teaching, human diversity. Offered Fall, Winter.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students; enrollment limited to students in a Doctor of Philosophy degree.
Repeatable for 3 Credits

PSY 7250 Theory of Personality Cr. 3
Major approaches to the study of personality. Current psychological research and issues in the field; implications for psychotherapy and assessment. Offered Every Other Year.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students; enrollment limited to students in a Doctor of Philosophy degree.

PSY 7270 Reasearch Methods in Clinical Psychology Cr. 3
Examines a range of methods that address the most commonly asked questions in the science of clinical psychology. Topics include defining research questions, reviewing literatures, designing studies, collecting data, and interpreting data. Specific topics include observational methods, longitudinal designs, clinical trials, program evaluation, mediators and moderators, publishing, and grant writing. Offered Winter.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students; enrollment limited to students in a Doctor of Philosophy degree.

PSY 7290 Diversity, Systems, and Inequality Cr. 3
Focuses on the impact of diversity, systems, and inequality in the U.S. on the field of psychology. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major in Psychology.

PSY 7300 Psychopathology Cr. 1,2
Basic psychological concepts of psychopathology with a focus on adult disorders. Current theory and research and their implications for clinical practice. Offered Fall, Winter.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
Repeatable for 3 Credits

PSY 7310 Developmental Psychopathology Cr. 3
Processes of development as they relate to emergence and course of psychopathology from conception through young adulthood; theory and research on major forms of psychopathology with childhood and adolescent onset. Offered Intermittently.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7330 Clinical Neuropsychology Cr. 3
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7340 Neuropathology and Behavior Cr. 3
Discussion of the current state of neuropathology and its cognitive consequences. Offered Every Other Year.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7370 Psychological Interventions I Cr. 3
Survey of intervention development, theory and research; focus on empirically-supported individual psychotherapy for adults and evidenced-based therapeutic processes. Offered Fall.
Prerequisites: PSY 7300 with a minimum grade of B
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7380 Psychological Interventions II Cr. 3
Survey of intervention development, theory and research; focus on evidence-based interventions for children and adolescents as well as systems (families, groups, communities). Offered Winter.
Prerequisites: PSY 7370 with a minimum grade of B (must be taken at WSU)
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7400 Introduction to Life-Span Developmental Psychology Cr. 3
Theory, methods and selected content areas; cognitive and social development as they relate to the entire life cycle. Offered Every Other Year.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7425 Psychology of Infant Behavior and Development Cr. 3
Prenatal development and infancy through the toddler years. Major theoretical positions and research relating to motor, perceptual, cognitive, language, social, and emotional development. Implications for parenting, programming, and care. Offered Fall.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7430 Developmental Assessment of Infants and Toddlers Cr. 3
Overview of assessment methods; training in administration of the Bayley Scales of Infant development. No credit after PSY 6470. Offered Yearly.
Prerequisite: PSY 6420 with a minimum grade of C or PSY 7400 with a minimum grade of C
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7440 Cognitive Development Cr. 3
Current theoretical perspectives and related research on cognitive development in childhood; topics include cognition, memory, concepts, and language. Offered Intermittently.
Prerequisite: PSY 7400 with a minimum grade of B
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
PSY 7450 Social Development Across the Life-Span Cr. 3
Recent perspectives on the psychological and environmental factors affecting social development across the life-span. Offered Every Other Year.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7470 Interdisciplinary Research Methods in Social, Cognitive and Developmental Psychology Cr. 3
Required of all first-year students in cognitive, developmental, and social psychology. Advanced survey of research design methods and issues across a broad array of social and behavioral fields, including cognitive, developmental, social, and personality psychology. Also covers Master’s thesis development and ethical and professional issues. Offered Intermittently.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7490 Psychology of Aging Cr. 3
Provides foundational familiarity with the diverse conceptual and empirical contributions of psychology to the scientific study of aging. The study of aging, gerontology, is multidisciplinary activity, which this course will reflect by integrating psychological approaches to aging with models of aging grounded in biology, genetics, neuroscience, as well as the social sciences. Major topics studied include research methods and design, longevity, aging of the brain and the cardiovascular system, health, and well-being, memory, intelligence, emotions, personality, social behavior, and psychopathology. Offered Intermittently.
Prerequisite: PSY 7400 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.

PSY 7500 Research Methods in Industrial/Organizational Psychology Cr. 3
Analysis of methodology and research design problems in the field of industrial psychology; discussion of professional and ethical problems. Offered Yearly.
Prerequisite: PSY 7150 with a minimum grade of B
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7510 Criterion Development and Performance Evaluation: Theory and Research Cr. 3
Nature and kinds of criteria of job performance; development and measurement of criteria; problems and issues in performance evaluation. Offered Yearly.
Prerequisite: PSY 7160 (may be taken concurrently) or PSY 7500 (may be taken concurrently)
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7520 Selection and Placement: Theory and Research Cr. 3
Principles in development and evaluation of employee selection procedures; methods for establishing job-relatedness; problems and issues in evaluation and use of employee selection procedures. Offered Every Other Year.
Prerequisite: PSY 7160 (may be taken concurrently) with a minimum grade of B or PSY 7500 (may be taken concurrently) with a minimum grade of B
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7560 Leadership and Executive Development: Theory and Research Cr. 3
Selected leadership research studies; theories relating to leadership; principles of training and development. Offered Every Other Year.
Prerequisite: PSY 7500 with a minimum grade of B
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7570 Industrial Motivation and Morale: Theory and Research Cr. 3
Meaning of motivation and incentive as used in industry; research methods for study of motivation, job satisfaction, and morale; research data and interpretations in theoretical frameworks. Offered Every Other Year.
Prerequisite: PSY 7500 with a minimum grade of B
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7590 Industrial and Organizational Psychology Cr. 3
Lecture, discussion, analysis of articles and chapters, in-class exercises. Offered Fall.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7620 Social Psychology: Research and Theory Cr. 3
Graduate-level introduction to the major theoretical and research areas of social psychology; current issues and research. Offered Fall.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7645 Social Psychology of Close Relationships Cr. 3
Social Psychological theory and research that examines the dynamics of close relationships, including relationship formation, maintenance, enhancement, and dissolution. Offered Every Other Year.
Prerequisite: PSY 7620 with a minimum grade of B
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 7745 Job Analysis and Performance Criteria Cr. 3
Job analysis methods, criterion development, and performance appraisal. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major in Industrial/Organizational Psy; enrollment is limited to Graduate level students.

PSY 7750 Organizational Staffing Cr. 3
Recruitment, screening, and personnel selection. Offered Yearly.
Prerequisites: PSY 7745 with a minimum grade of B (must be taken at WSU)
Restriction(s): Enrollment is limited to students with a major in Industrial/Organizational Psy; enrollment is limited to Graduate level students.

PSY 7770 Testing in the Workplace Cr. 3
Test development; in-depth discussion of existing tests. Offered Yearly.
Prerequisites: PSY 6535 with a minimum grade of B (must be taken at WSU)
Restriction(s): Enrollment is limited to students with a major in Industrial/Organizational Psy; enrollment is limited to Graduate level students.
Course Material Fees: $100

PSY 7780 Industrial/Organizational Psychology Cr. 1
Approved internship field placement for a period of one semester to two years. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major in Industrial/Organizational Psy; enrollment is limited to Graduate level students.
Repeatable for 4 Credits

PSY 7790 Capstone Course Cr. 3
Special topics in I/O psychology. Students write a major paper or conduct an individual project. Offered Spring/Summer.
Restriction(s): Enrollment is limited to students with a major in Industrial/Organizational Psy; enrollment is limited to Graduate level students.
PSY 7990 Directed Study Cr. 1-9
For students who wish further study of technical literature of a problem systematically reviewed in a preceding course. Intensive and systematic reading of original literature (particularly journals) dealing with topic or problem. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
Repeatable for 9 Credits

PSY 7991 Current Topics in Behavioral Neuroscience Cr. 1
Discussion of current papers in the field. Offered Fall, Winter.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
Repeatable for 12 Credits

PSY 7997 Research Problems Cr. 1-8
Original research under direction of departmental staff. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
Repeatable for 32 Credits

PSY 8000 Clinical Internship Cr. 1
Approved placement in an APA accredited internship for a one- to two-year period. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
Repeatable for 3 Credits

PSY 8040 Social Neuroscience Cr. 3
Neurobiology of social cognition. Topics include: social communication, decision making, group dynamics, face/race processing, action and gesture cognition, emotional processing, development. Offered Intermittently.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 8050 Cognitive Neuroscience Cr. 3
Concepts and methods used to study neurobiological basis of cognition, covering brain systems involved in perception, attention, memory, language, and decision making, as well as life-span development of brain, cognition and psychopathology. Offered Every Other Year.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 8060 Functional Neuroanatomy Cr. 4
Anatomical features of the human nervous system; emphasis on relationship between neural structure and behavior. Offered Every Other Year.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

Course Material Fees: $15

PSY 8065 Neurophysiology and Neural Plasticity Cr. 3
Physiological and molecular properties of neurons and the relationship of neural plasticity to behavior and development. Offered Every Other Year.
Prerequisites: PSY 8060 with a minimum grade of C (must be taken at WSU)
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 8070 Psychopharmacology Cr. 3
Psychological and biological bases of psychopharmacology; emphasis on preclinical models and development of treatments for psychological disorders. Offered Every Other Year.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 8140 Meta-Analysis Cr. 2-3
Use of quantitative techniques for summarizing research results in psychology. Offered Spring/Summer.
Prerequisites: PSY 8150 with a minimum grade of B (must be taken at WSU)
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 8150 Multivariate Analysis in Psychology Cr. 4
Extension of the general linear model to multivariate statistical techniques, including: exploratory factor analysis and principal components analysis, confirmatory factor analysis, discriminant function analysis, canonical correlation analysis, and multivariate analysis of variance. Offered Winter.
Prerequisite: PSY 7150 with a minimum grade of B
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 8170 Structural Equation Modeling Cr. 3
Practical introduction to structural equation modeling. Offered Yearly.
Prerequisites: PSY 7160 with a minimum grade of B (must be taken at WSU)
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 8190 Statistical Analysis of Longitudinal and Nested Data Cr. 3
Extends the general linear model framework to the analysis of non-independent data including data that is hierarchically nested (persons within groups) and longitudinally nested (time within persons). Techniques covered include: Multilevel Models, Latent Growth Models, and Survival Analysis. Offered Fall.
Prerequisite: PSY 7160 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.

PSY 8300 Health Psychology I Cr. 3
Theoretical and empirical review of major topics in behavioral approaches to health and illness, including: 1) theories of health behavior and behavior change; 2) psychological impact of acute and chronic physical illness; and 3) health care utilization including health disparities, patient-provider communication, and psychosocial factors that affect adherence. Offered Every Other Year.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 8310 Health Psychology II Cr. 3
Applied issues in health psychology and behavioral medicine. Focus on research and practice related to assessment and intervention with medical populations and changing health behavior. Offered Every Other Year.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 8320 Biobases of Health Psych Cr. 3
Offered Every Other Year.
Prerequisites: PSY 8300 with a minimum grade of B or PSY 8310 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.

PSY 8340 Clinical Neuropsychological Assessment Cr. 3
Review of principles and literature on neuropsychological assessment, common neuropsychological tests and test batteries, in context of actual clinical cases. Offered Every Other Year.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 8350 Community Psychology Cr. 3
Current findings, theory, and research in the field of community psychology. Emphasis on current urban problems. Offered Intermittently.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
PSY 8390 Therapeutic Intervention Practicum Cr. 1
Students learn to conduct evidence-based psychological interventions with adults, children, couples, and families. Skills taught include how to: a) develop case conceptualizations based on different theoretical models; b) apply techniques from motivational, cognitive-behavioral, relational, psychodynamic, and other therapies; c) develop and maintain the therapeutic alliance; d) track outcomes and modify approach as needed; e) terminate cases; and f) both receive and provide supervision. Unique aspects of intervening for specific clinical conditions or disorders will be covered. Students will present cases based on interventions they conduct in the departmental training clinic. Offered Every Term.
Prerequisites: PSY 7380 with a minimum grade of B (must be taken at WSU)
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
Repeatable for 3 Credits

PSY 8440 Developmental Neuropsychology Cr. 3
Neurobiology of development. Topics include: neuroplasticity throughout the life span, maturation of the brain and neural connectivity, neurodevelopment of behavioral, emotional, social and cognitive functions. This course will bridge human behavioral and animal models to illustrate the dexterity and limitations of available scientific methods to study developmental neuropsychology. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.

PSY 8500 Seminar in Industrial/Organizational Psychology Cr. 1-3
For industrial/organizational psychology students. Current topics in industrial psychology; content varies. Offered Intermittently.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
Repeatable for 15 Credits

PSY 8600 Seminar in Experimental Social Psychology Cr. 3
Review and evaluation of the literature on some current topic of research or theoretical concern. Offered Intermittently.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
Repeatable for 9 Credits

PSY 8620 Social Cognition Cr. 3
How mental representations underlie the processes of social thought and behavior. Students survey, evaluate, and discuss social cognition processes and research; group work to design and conduct tests of social-cognitive processes. Offered Every Other Winter.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.

PSY 8740 Seminar in Psychological Measurement and Statistics Cr. 2-3
Topics in measurement and statistical analysis; exploratory data analysis and related problems; multidimensional scaling and clustering techniques; time series analysis; analysis of longitudinal data; item response theory and tailored testing; statistical power. Offered Intermittently.
Prerequisites: PSY 7160 with a minimum grade of B (must be taken at WSU)
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
Repeatable for 9 Credits

PSY 8760 Seminar in Clinical Psychology Cr. 1-3
New clinical methods and scientific developments in the field of clinical psychology. Meets with continuing education seminars in clinical psychology. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
Repeatable for 9 Credits

PSY 8999 Master's Thesis Research and Direction Cr. 1-8
Offered Every Term.
Restriction(s): Enrollment is limited to students with a major in Psychology; enrollment is limited to Graduate level students.
Repeatable for 8 Credits

PSY 9990 Pre-Doctoral Candidacy Research Cr. 1-8
Research in preparation for doctoral dissertation. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

PSY 9991 Doctoral Candidate Status I: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

PSY 9992 Doctoral Candidate Status II: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PSY 9991 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PSY 9993 Doctoral Candidate Status III: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PSY 9992 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PSY 9994 Doctoral Candidate Status IV: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: PSY 9993 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PSY 9995 Candidate Maintenance Status: Doctoral Dissertation Research and Direction Cr. 0
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $402.01

PT - Physical Therapy

PT 5010 Clinical Applications I Cr. 1
First part-time integrated clinical experience for physical therapy students. Orientation to clinical education and PT practice to develop professional behaviors, observation skills, fundamentals of written and verbal communication and basic examination and intervention skills in a clinical setting. Offered Winter.
Course Material Fees: $20

PT 5020 Foundations of Physical Therapy Cr. 2
Satisfies General Education Requirement: Writing Intensive Competency
Sociological and historical background of the PT profession. Professional behavior, patient care interaction and medical terminology. Basic physical therapy care procedures, documentation, patient education, care in medical emergencies. Offered Fall.
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.
Course Material Fees: $90

PT 5030 Basic Patient Care in Physical Therapy Cr. 2
Introduction to the basic skills necessary for patient care and provide a foundation to the theory and practice of basic patient care procedures for the Physical Therapist. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Doctor of Physical Therapy degree; enrollment limited to students in the Pharmacy and Health Sciences.
Course Material Fees: $25
PT 5070 Clinical Applications II Cr. 2
Second part-time integrated clinical experience for physical therapy students. This clinical education course includes and orientation to basic and intermediate examination and intervention skills, professional behavior, communication, documentation, inter-professional collaboration and team work. Offered Fall.
Prerequisite: PT 5010 (may be taken concurrently)
Course Material Fees: $30

PT 5100 Therapeutic Exercise I Cr. 3
Foundational course designed to focus on the principles and techniques of therapeutic exercise for patients with pathological conditions to the neuromusculoskeletal system. Students will develop and administer treatment plans for specific patient problems and progress treatment plans based on patient condition and response to treatment. Offered Fall.
Prerequisite: PT 5430 and PT 5500
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.
Course Material Fees: $100

PT 5120 Human Growth and Development Cr. 2
Theories and basic principles in prenatal, physical, sensorimotor, perceptual, cognitive, social, emotional and language growth and development. Implications for physical therapy evaluation and treatment of children with developmental disabilities. Offered Spring/Summer.
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.
Course Material Fees: $10

PT 5300 Surface Anatomy Cr. 2
Laboratory-based course teaching skills for soft tissue palpation, identification of surface anatomy landmarks, soft tissue mobilization and massage. Offered Fall.
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.
Course Material Fees: $10

PT 5320 Basic Examination and Evaluation Procedures Cr. 3
Lecture and laboratory experience focusing on principles and procedures of foundational medical screening, physical therapy differentiation, and clinical reasoning and decision-making skills; basic principles and techniques for posture, integumentary, neurological, range of motion, and strength examination and evaluation, documenting progress and outcome, and the continued development of patient care skills. Offered Winter.
Prerequisite: PT 5030 and PT 5300 and PT 5505
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.
Course Material Fees: $10

PT 5400 Neurosciences for Health Care Professionals Cr. 3
Study of the human central nervous system; emphasis on sensory and motor systems and structures that contribute to normal movement. Offered Fall.
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.
Course Material Fees: $50
Equivalent: OT 5400

PT 5410 Clinical Medicine I Cr. 3
Designed to provide specific information needed by the physical therapist treating patients with a variety of diseases. Pathology, etiology, clinical signs and symptoms, prognosis, and treatment of a variety of illnesses and conditions relevant to physical therapy treatment are covered. The role of other health care specialists including physician, occupational therapist, speech pathologist, nurses and psychologists is explored. Offered Winter.
Restriction(s): Enrollment is limited to students with a major in Physical Therapy.

PT 5430 Clinical Medicine II Cr. 1
Disease processes, and medical and surgical interventions. Role of physical therapy as part of comprehensive multi-disciplinary health care team. Offered Spring/Summer.
Prerequisite: PT 5410
Restriction(s): Enrollment is limited to students with a major in Physical Therapy.

PT 5500 Kinesiology and Biomechanics Cr. 3
Normal movement and biomechanics applied to the human body. Offered Winter.
Prerequisite: PT 5505 and PT 5510 and PT 5400
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.
Course Material Fees: $20

PT 5505 Clinical Applications of Human Anatomy Cr. 3
Knowledge of basic human anatomy for students in health science professional programs; foundation for further study in clinical sciences. Offered Fall.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Occupational Therapy or Physical Therapy.
Equivalent: OT 5505

PT 5510 Clinical Applications of Human Anatomy: Laboratory Cr. 1
Examination of prosections, dissection of human cadavers; didactic study. Offered Yearly.
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.
Course Material Fees: $220
Equivalent: OT 5510

PT 5560 Pathophysiology for Health Sciences Cr. 3
Fundamental knowledge of the nature of disease for the health sciences student; physiologic and morphologic changes accompanying disease processes; mechanisms of repair and recovery. Offered Fall.
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.
Equivalent: OT 5650, RT 5650

PT 5560 Pathokinesiology Cr. 2
A continuation of PT 5500 (Kinesiology and Biomechanics), this course is designed to teach: foundational principles regarding biomaterials, key biomechanical and kinesiological principles of human movement as related to anatomy and physiology, and application of this information to clinical situations that involve alterations in movement. Analyses of pathological motion and pathokinesiology of selected joints will be included. Offered Spring/Summer.
Prerequisite: PT 5500
Corequisite: PT 5567
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.
Course Material Fees: $10

PT 5567 Special Test in Physical Therapy Cr. 1
A continuation of PT 5300 (Basic Evaluation), this course is designed to teach Special Test as part of a physical therapy examination. Student will relate the special tests to appropriate pathologies, perform and interpret the results of special tests and discuss hypotheses in light of evidence-based knowledge. Offered Spring/Summer.
Prerequisite: PT 5300
Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.

PT 5800 Clinical Education I Cr. 3
First of a four-course clinical education series. Six weeks of full-time supervised clinical experience for physical therapy students. Offered Yearly.
Course Material Fees: $20
PT 5820 Clinical Education II Cr. 3
Second of a four-course clinical education series. Six-week of full-time supervised clinical experience for physical therapy students. Offered Spring/Summer.

Restriction(s): Enrollment limited to students in the Doctor of Physical Therapy program.

Course Material Fees: $45

PT 5990 Directed Study Cr. 1-4
The remediation directed study has been designed to help students remediate for academic or clinical competency standards in the Physical Therapy program. The student will identify, based on performance areas of weakness on course content or clinical skills. Once identified a faculty mentor will assist the student in developing a plan to develop mastery of the content or clinical skills needed to be deemed competent in deficient areas and continue in the PT program. The remediation plan will then be implemented by the student. Offered Every Term.

Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.

Repeatable for 8 Credits

PT 6100 Therapeutic Exercise II Cr. 3
Advanced application of principles and techniques of therapeutic exercise; evaluation and modification of therapeutic exercise plan of care, based on physical and functional responses and characteristics of patients or clients. Offered Fall.

Prerequisite: PT 5100

Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.

Course Material Fees: $15

PT 6200 Diversity, Ethics and Legal Issues in Health Care Cr. 3
Impact of diversity and legal practice standards, including federal, state, and institutional regulations related to patient care and fiscal management of health care practice. Issues in cultural awareness, cultural sensitivity, cultural competence, ethics, and ethical decision making in personal, professional, and societal contexts. Self-analysis of personal attitudes, values, and beliefs. Offered Winter.

Prerequisite: PT 5020

Restriction(s): Enrollment is limited to students with a major in Physical Therapy.

PT 6300 Research I: Critical Thinking Cr. 2
Introduction to evidence-based practice and clinical reasoning and decision making. Identification, location, critique and analysis of evidence. Offered Fall, Winter.

Restriction(s): Enrollment limited to students in the Doctor of Physical Therapy program.

PT 6310 Advanced Exercise Physiology Cr. 3
Metabolic, neuromuscular, cardiovascular, and respiratory adjustments to acute and chronic exercise in health and disease, including body composition and weight control, nutritional considerations, and the effects of different environments on exercise performance. Offered Fall.

Equivalent: PSL 6010

PT 6400 Teaching and Learning in Health Care Cr. 2-3
Exploration of theoretical and practical issues pertinent to physical therapy profession: educational methods, adult learning theories, instructional design methodologies, evaluation, instructional management. Additional project required if elected for three credits. Offered Winter.

Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.

PT 6500 Pharmacology Cr. 2
Effects of drug distribution, absorption and excretion as pertaining to physical therapy. Major drug categories, OTC, and nutritional supplements, pertinent to acute and chronic responses to physical therapy; indications, mechanisms, effects. Offered Fall.

Prerequisite: PT 5430 and PT 5650

Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.

PT 6700 Motor Learning and Motor Control Cr. 2-3
Current theories and concepts in processes of motor skill acquisition and performance, from a behavioral objective. Additional evidence-based case reports required if elected for three credits. Offered Winter.

Prerequisite: PT 5400 with a minimum grade of C-

Restriction(s): Enrollment limited to students in the Pharmacy and Health Sciences.

PT 6750 Seminar: Complementary and Special Topics in Health Care Cr. 2
Physical, psychological, and nutritional approaches relevant to practice of physical therapy. Seminar course. Offered Winter.

Prerequisite: PT 5430 and PT 6300

Restriction(s): Enrollment is limited to students with a major in Physical Therapy.

PT 7000 Therapeutic Modalities Cr. 3
Lecture and laboratory experiences focusing on principles and procedures for using physical agents and spinal traction. Tissue inflammation and repair, pain, superficial and deep heat, cryotherapy, electrotherapy, and spinal traction included. Integumentary evaluation and wound management. Offered Fall.

Prerequisite: PT 5430 and PT 5660

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.

Course Material Fees: $30

PT 7100 Management of Patients with Orthopedic Conditions I Cr. 3
Lecture and laboratory experience focusing on knowledge, principles, clinical reasoning and decision making skills, examination and evaluation procedures, and interventions required for managing patients with impairments, functional limitations, and disabilities due to musculoskeletal pathologies of the extremity joints across the life span, and the continued development of patient care skills. Offered Fall.

Prerequisite: PT 5300 with a minimum grade of C and PT 5320 with a minimum grade of C and PT 5500 with a minimum grade of C

Restriction(s): Enrollment is limited to students with a major in Physical Therapy; enrollment is limited to Graduate level students.

Course Material Fees: $25

PT 7120 Management of Patients with Orthopedic Conditions II Cr. 3
Lecture and laboratory experience focusing on knowledge, principles, clinical reasoning and decision making skills, examination and evaluation procedures, and interventions required for managing patients with impairments, functional limitations, and disabilities due to musculoskeletal pathologies of the spinal column and extremity joints across the life span, and the continued development of patient care skills. Offered Winter.

Prerequisite: PT 7100

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.

Course Material Fees: $25
PT 7200 Management of Patients with Neurological Disorders I Cr. 3
Basic principles and techniques of assessing problems associated with neurological disorders including postural tone, sensation, superficial and developmental reflexes, quality of movement, perceptual-motor skills and functional mobility. Offered Yearly.
Prerequisite: PT 5400 and PT 6700
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $114

PT 7220 Management of Patients with Neurological Disorders II Cr. 3
Prerequisite: PT 7200
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.
Course Material Fees: $35

PT 7300 Orthotics and Prosthetics Cr. 3
Principles and techniques of prosthetic and orthotic function, component selection and application, use and training. Upper and lower extremity devices, and spinal devices, wheelchairs, ambulatory aids, assistive devices and environmental control systems. Advanced gait and movement biomechanics and evaluation. Offered Fall.
Prerequisite: PT 5500 and PT 5660 and PT 7200
Restriction(s): Enrollment is limited to students with a major in Physical Therapy; enrollment is limited to Graduate level students.
Course Material Fees: $25

PT 7320 Rehabilitation Procedures Cr. 3
Theoretical issues and treatment of patients with spinal cord injury, traumatic brain injury, problems of aging, and chronic neuromuscular conditions. Offered Fall.
Prerequisite: PT 7200 and PT 7220
Restriction(s): Enrollment is limited to students with a major in Physical Therapy; enrollment is limited to Graduate level students.
Course Material Fees: $20

PT 7400 Cardiopulmonary Rehabilitation Cr. 4
Physiology and pathophysiology of disorders of the cardiac and pulmonary systems. Evaluation and treatment of cardiopulmonary disorders. Offered Winter.
Prerequisite: PT 5100 and PT 5430 and PT 6310
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.
Course Material Fees: $20

PT 7600 Physical Therapy for Medical and Surgical Conditions Cr. 3
Management of patients with complex problems including medical and surgical conditions seen in acute care hospital settings. Offered Winter.
Prerequisite: PT 5650 and PT 5430
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.
Course Material Fees: $25

PT 7700 Research II: Design & Methodology Cr. 2
Introduction to basic principles of research theory, design, and methodology for physical therapy. Biostatistics and analysis of scientific literature relevant to physical therapy. Offered Fall.
Prerequisite: PT 6300
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.

PT 7720 Research III: Data Analysis and Interpretation Cr. 2
Basic principles of research design as it relates to the theory and practice of physical therapy Students will analyze relevant scientific literature, design, develop and implement a research project, and learn basic computer skills in utilizing a statistical analysis program. Offered Fall.
Prerequisite: PT 7700 with a minimum grade of C
Restriction(s): Enrollment is limited to students with a major in Physical Therapy; enrollment is limited to Graduate level students.
Course Material Fees: $20

PT 7740 Research IV: Research Practicum Cr. 1
Basic principles of research design as it relates to the theory and practice of physical therapy. Students will develop and implement a research project and present the results in several formats. Offered Fall.
Prerequisites: PT 6300, PT 7700, and PT 7720
Restriction(s): Enrollment is limited to Graduate level students.

PT 7990 Directed Study Cr. 1-4
Independent study: critical analysis or review of new or unique topics in health care; or physical therapy role, approach, methodology, techniques or scientific rational for professional practice. Oral and written presentation required. Elective. Offered Yearly.
Prerequisite: PT 5100
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.

PT 8000 Therapeutic Management of Pediatric Populations Cr. 3
Principles and application of the elements of physical therapy practice in the management of pediatric populations. Offered Fall.
Prerequisite: PT 5120 with a minimum grade of C and PT 6700 with a minimum grade of C and PT 7220 with a minimum grade of C
Restriction(s): Enrollment is limited to students with a major in Physical Therapy; enrollment is limited to Graduate level students.
Course Material Fees: $15

PT 8110 Geriatrics Cr. 2
Theories and basic principles of physical, sensorimotor, perceptual, cognitive, social, emotional, and language changes during the aging process. Emphasis is placed on the how the aging process impacts functional independence and contributions from all body systems. Implications for physical therapy evaluation and treatment for the aging population are examined. Offered Winter.
Restriction(s): Enrollment is limited to students with a major in Physical Therapy; enrollment is limited to Graduate level students.
Course Material Fees: $50

PT 8170 Professional Development and Reflective Practice Cr. 3
Exploration of novice vs. expert practice in physical therapy; role of reflection in developing professional skills and behaviors. Current professional and legal issues in provision of physical therapy services. Web-based course. Offered Every Term.
Restriction(s): Enrollment limited to students in the Doctor of Physical Therapy program; enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.

PT 8200 Management in Physical Therapy Practice Cr. 2
Overview of health care systems; financing and administration of physical therapy services within various health care systems. Offered Fall.
Restriction(s): Enrollment limited to students in the Doctor of Physical Therapy program; enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.
PT 8300 Differential Diagnosis for Health Sciences Cr. 3
Principles and procedures designed to facilitate the integration of previously-introduced examination and evaluation skills, in order to perform differential diagnosis for primary care practice. Offered Every Term.
Restriction(s): Enrollment limited to students in the Doctor of Physical Therapy program; enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.

PT 8400 Diagnostic Procedures for Health Sciences Cr. 2-3
Medical diagnostic procedures and application of results as related to provision of physical therapy health services, including diagnostic imaging and laboratory tests. Additional project required if elected for three credits. Offered Every Term.
Prerequisite: PT 5650 with a minimum grade of C and PT 5430 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.

PT 8500 Clinical Decision Making Cr. 3
Integration of didactic and clinical knowledge in development of diagnostic prognostic skills in physical therapy; focus on refining competencies in peer referral across health care disciplines; development of strategies for clinical decision making. Offered Yearly.
Prerequisite: PT 6100 with a minimum grade of C and PT 7120 with a minimum grade of C and PT 7220 with a minimum grade of C and PT 7400 with a minimum grade of C
Restriction(s): Enrollment limited to students in the Doctor of Physical Therapy program; enrollment is limited to Graduate level students.
Course Material Fees: $95

PT 8600 Health Promotion and Wellness Cr. 2
Dimensions of health promotion and wellness, including implementation strategies for different populations. Analysis of physical, emotional and cost benefits. Identification of needs and development of practice plan for groups and individuals. Offered Winter.
Restriction(s): Enrollment is limited to students with a major in Physical Therapy; enrollment is limited to Graduate level students.

PT 8800 Clinical Education III Cr. 4
Third in a four-course clinical education series. Twelve weeks of full-time supervised terminal clinical experience for physical therapy students with emphasis on progression to entry-level clinician. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major in Physical Therapy; enrollment is limited to Graduate level students.
Course Material Fees: $70
Repeatable for 8 Credits

PT 8820 Clinical Education IV Cr. 8
Fourth in a four-course clinical education series. Final full-time supervised terminal clinical experience for physical therapy students. Twelve week full time experience with emphasis on progression to entry-level clinician. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major in Physical Therapy; enrollment is limited to Graduate level students.
Course Material Fees: $30

PT 8850 Clinical Practicum Cr. 3
Monitored clinical practice in a focused area of physical therapy practice. Focus may include: administration and management, cardiopulmonary, neurology, orthopedics, integumentary care, pediatrics, and teaching. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the Pharmacy and Health Sciences.

PTH - Pathology

PTH 7080 Special Topics in Pathology Cr. 1-15
Frontier areas in experimental pathology and clinical laboratory sciences. Format may be lecture, laboratory, or discussion; topics to be announced in Schedule of Classes. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 20 Credits

PTH 7085 Critical Review of Scientific Publications Cr. 1
For Ph.D. students in biomedical fields. Current experimental approaches in medical research. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major in Pathology; enrollment limited to students in the PhD in Medicine program; enrollment is limited to Graduate level students.
Repeatable for 5 Credits

PTH 7090 Signal Transduction and Cell Growth Regulation Cr. 3
Signal transduction pathways, both cellular and molecular, and their alterations in cancer. Journal articles and instructor handouts used; emphasis on relationship to disease process. Offered Every Other Winter.
Prerequisites: IBS 7015 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PTH 7130 Neuropathology Cr. 2
Offered Yearly.
Prerequisites: PTH 7000 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PTH 7150 Pathology of Respiratory Tract Cr. 2
Offered Yearly.
Prerequisites: PTH 7000 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PTH 7180 Cardiovascular Pathology Cr. 2
Gross, microscopic and submicroscopic anatomy and pathophysiology of cardiovascular disease, both human and experimental. Offered Yearly.
Prerequisites: PTH 7000 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PTH 7330 Pathology of the Kidney Cr. 2
Techniques of preparing renal biopsies for light and electron microscopy and immunofluorescent studies; ultrastructure of normal kidney; physiology of kidney - acute and chronic renal failure; glomerular disease; pyelonephritis; vascular disease; and acute tubular necrosis and renal transplantation. Offered Yearly.
Prerequisites: PTH 7000 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PTH 7890 Seminar Cr. 1
Offered Yearly.
Restriction(s): Enrollment is limited to students with a major in Pathology; enrollment is limited to Graduate level students; enrollment limited to students in a Doctor of Philosophy degree.
Repeatable for 25 Credits

PTH 8000 Current Topics in Tumor Metastasis Cr. 3
Advances in research on key aspects of tumor metastasis; emphasis on molecular mechanisms, tumor invasion, angiogenesis, and organ-specific tumor metastasis. Offered Fall.
Prerequisites: IBS 7015 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

PTH 8010 Molecular Biology of Diabetes and Obesity Cr. 2
Basic principles and current research topics in the etiology and pathology of diabetes; diabetic complications and obesity. Offered Every Other Fall.
Prerequisites: IBS 7015 with a minimum grade of C
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters or Doctoral Candidate; enrollment is limited to Graduate level students.
PTh 9990 Pre-Doctoral Candidacy Research Cr. 1-8
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

PTh 9991 Doctoral Candidate Status I: Dissertation Research and Direction Cr. 7.5
Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

PTh 9992 Doctoral Candidate Status II: Dissertation Research and Direction Cr. 7.5
Offered Yearly.
Prerequisite: PTh 9991 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PTh 9993 Doctoral Candidate Status III: Dissertation Research and Direction Cr. 7.5
Offered Yearly.
Prerequisite: PTh 9992 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PTh 9994 Doctoral Candidate Status IV: Dissertation Research and Direction Cr. 7.5
Offered Yearly.
Prerequisite: PTh 9993 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

PTh 9995 Candidate Maintenance Status: Doctoral Dissertation Research and Direction Cr. 0
Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $402.01
Repeatable for 0 Credits

PYC - Psychiatry

PYC 6050 Biology of the Eye Cr. 3
Introduction to biology of eye structure/function, and to causes and clinical treatments of eye-related disorders and diseases. Offered Yearly.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $25
Equivalent: ANA 6050, BIO 6055

PYC 7010 Molecular Neuropsychopharmacology Cr. 3
First part of a two-semester in-depth study of nerve cells, their organization into functional circuits and their mediation of normal and aberrant behaviors. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

PYC 7140 Fundamentals of Neuroimaging Cr. 3
Overview of methods: PET, EEG/ERP/TMS, fundamentals of MR, structural MRI, functional MR, MR spectroscopy and DTI. Review of the application of these methods in studying disorders of the nervous system. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

PYC 7150 Fundamentals of Neuropsychiatric Disorders Cr. 3
Overview of pathophysiology, clinical manifestations, and treatment of major neuropsychiatric disorders. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the School of Medicine.

PYC 7320 MR Imaging of Neurovascular Disease Cr. 3
Recent advances in MRI technology applied to human brain vascular diseases. Methods include: 3D anatomical imaging, diffusion tensor imaging, functional brain imaging, perfusion hanging, and susceptibility weighted imaging. Offered Every Other Fall.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: BME 7720

PYC 7500 Advanced Topics in Neuroscience Cr. 1-6
Topics offered each semester in one-credit modules, relevant to ongoing research in the degree program. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

PYC 7515 Advanced Topics: Imaging, Neurodevelopment and Psychiatric Disorders Cr. 3
Advanced introduction to imaging neurodevelopment based on anatomical, biochemical and functional studies; focus on abnormal development of psychiatric disorders. Offered Every Other Winter.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Doctor of Philosophy degree.

PYC 7595 The Gut Microbiome and Translational Neuroscience Cr. 3
This combined lecture and discussion course will introduce graduate students with interests in translational neurosciences to the emerging field of the gut microbiome. Lectures will cover basics of the gut microbiome to include bacterial taxonomy, samples used to study the gut microbiome, DNA isolation, library construction and quality control and 16S rRNA sequencing on a MiSeq next generation sequencer. Additional lectures will include descriptions of sequence data download and analysis, bioinformatics, multivariate statistics, and graphical display of data. The latest published literature on the gut-brain axis will also be used for purposes of discussion and to give students an appreciation for how the gut microbial community can influence the brain and its function. Particular emphasis will be placed on how a dysbiosis in the gut microbiome can influence psychiatric diseases, substance abuse disorders and other physiological functions attributed entirely to the brain heretofore. Offered Every Other Fall.
Restriction(s): Enrollment is limited to Graduate level students.

PYC 7890 Research Seminar Cr. 1
Presentations by clinical and basic research staff and by the program's graduate students. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 8 Credits

PYC 7990 Directed Study Cr. 1-6
Independent study under the guidance of an advisor, including complete review of a problem area immediately relevant to basic or clinical neuroscience. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 10 Credits

PYC 7996 Research Problems Cr. 3
Directed laboratory rotation for graduate students in the translational neuroscience program. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

PYC 7998 Clinical Neuroscience Rotation Cr. 3,6
Neuroscience trainees become familiar with clinical issues in their chosen area of study; transfer of basic science knowledge to clinical application. Offered Every Term.
Prerequisites: PYC 7150 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 6 Credits

PYC 9990 Pre-Doctoral Candidacy Research Cr. 1-8
Research in preparation for doctoral dissertation. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

PYC 9991 Doctoral Candidate Status I: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
RCI - Rehabilitation Counseling and Community Inclusion

RCI 7110 Techniques of Rehabilitation Counseling Cr. 3
Techniques and process of counseling of counseling including: facilitative relationships, case conceptualization, goal setting, intervention, and outcome evaluation. Development of skills with respect to psychological, social, and vocational implications of disabilities on adjustment. Offered Yearly.
Prerequisite(s): CED 6080 with a minimum grade of C, CED 7000 with a minimum grade of C, CED 7001 with a minimum grade of C, CED 7080 with a minimum grade of C, RCI 7410 with a minimum grade of C, RCI 7420 with a minimum grade of C, RCI 7450 with a minimum grade of C, and RCI 7480 with a minimum grade of C Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Rehab Couns & Comm Inclusion; enrollment is limited to Graduate level students.
Equivalent: CED 7005

RCI 7450 Employment for Persons with Disabilities Cr. 3
Design and implementation of effective methods to help persons with disabilities obtain and maintain employment. Marketing and job placement skills, job-seeking skills training, job clubs, job adaptation, supported and transitional employment, employer assistance and training, and follow-along services. Offered Winter.
Prerequisite: RCI 7100 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

RCI 7470 Family and Community Support for Inclusion Cr. 3
Services that facilitate full participation of persons with disabilities in the life of their families and communities. Persons with disabilities in context of: families, family dynamics, cultural diversity, family structure, family support. Community support, supported independence, independent living centers, therapeutic recreation and related programs. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

RCI 7510 Special Topics in Rehabilitation Counseling Cr. 1-3
Emerging and contemporary issues of selected disabilities and intervention techniques aimed at improving the lives of people with disabilities. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

RCI 7515 Rehabilitation Treatment Planning and Intervention for People with Psychiatric Disabilities Cr. 2
Knowledge and skills in treatment planning and intervention with people who have psychiatric disabilities. Rehabilitation assessment, rehabilitation plan development, employment strategies, and life care planning. Offered Fall.
Prerequisite(s): RCI 7410 with a minimum grade of B- and RCI 7510 with a minimum grade of B-
Restriction(s): Enrollment is limited to Graduate level students.

RDT - Radiologic Technology

RDT 3090 Directed Study Cr. 1
Independent study of medical terminology and related vocabulary. Instructor-directed online course. Offered Fall.
Prerequisite: RDT 3100 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.

RDT 3100 Introduction to Radiologic Technology Cr. 2
Introduction to radiology and hospital procedures. Role of radiographer as a member of the health care team. Offered Spring/Summer.
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.
Course Material Fees: $50

RDT 3200 Radiation Biology and Advanced Protection Cr. 3
Radiation protection procedures; radiation interaction with matter and dosage problem solving. Offered Fall.
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.

RDT 3300 Radiographic Procedures I Cr. 3
Instruction and practical experience in procedures of positioning for the skeletal system with correlation to related anatomy in medical images. Offered Spring/Summer.
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.

RDT 3400 Clinical Education I Cr. 6
Clinical course. Student participates in supervised practice of radiographic procedures, studied in conjunction with didactic coursework. Offered Spring/Summer.
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.
Course Material Fees: $55

RDT 3500 Patient Care Cr. 3
Practical application of patient handling: patient assessment, implication of medications and contrast media. BLS certification. Offered Winter.
Prerequisite: RDT 3090 with a minimum grade of C and RDT 3100 with a minimum grade of C and RDT 6500 with a minimum grade of C Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.
Course Material Fees: $35

RDT 3600 Clinical Education II Cr. 6
Application of didactic theory in practice on patients/clients under supervision of qualified technologists in a clinical setting. Offered Fall.
Prerequisite: RDT 3400 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.
Course Material Fees: $50
RDT 3700 Radiographic Procedures II Cr. 3
Continuation of RDT 3300. Additional advanced procedures, including skull, mammography, and gastrointestinal studies. Offered Winter.
Prerequisite: RDT 3300 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.
Course Material Fees: $35

RDT 3800 Cross-Sectional Anatomy Cr. 3
Presentation of anatomical structures in sectional format, as encountered in computed tomography or magnetic resonance imaging. Offered Spring/Summer.
Prerequisite: RDT 3300 with a minimum grade of C and RDT 3700 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.

RDT 3900 Clinical Education III Cr. 6
Minimally supervised clinical experience. Skills practice to proficiency level; additional complex skills. Offered Winter.
Prerequisite: RDT 3600 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.
Course Material Fees: $35

RDT 4100 Radiographic Quality/Exposure Cr. 3
Practical application of technical exposure factor formulation; imaging systems and subsequent effects of equipment manipulation of images. Offered Fall.
Prerequisite: RDT 3200 with a minimum grade of C and RDT 3300 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.
Course Material Fees: $35

RDT 4200 Radiation Physics and Circuitry Cr. 3
Radiation physics; tubes and circuits of radiographic equipment. Offered Fall.
Prerequisite: RDT 3200 with a minimum grade of C and RDT 3500 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.

RDT 4300 Clinical Education IV Cr. 6
Continuation of RDT 3900. Offered Spring/Summer.
Prerequisite: RDT 3900 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.
Course Material Fees: $50

RDT 4400 Radiographic Pathology Cr. 3
Disease process and how they manifest in imaging modalities. Clarification of modality preference. Offered Winter.
Prerequisite: RDT 3500 with a minimum grade of C and RDT 4500 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.

RDT 4500 Clinical Education V Cr. 6
Supervised clinical experience in performing radiographic procedures on patients in clinical setting. Evaluation of outcomes; application of knowledge at a progressive level. Offered Fall.
Prerequisite: RDT 4300 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.
Course Material Fees: $75

RDT 4600 Radiology Seminar Cr. 1
Introduction to imaging modalities beyond the scope and practice of the general radiographer; emphasis on interventional procedures. Offered Winter.
Prerequisite: RDT 3500 with a minimum grade of C and RDT 3700 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.
Course Material Fees: $20

RDT 4700 Clinical Education VI Cr. 6
Continuation of RDT 4500. Offered Winter.
Prerequisite: RDT 4500 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.
Course Material Fees: $50

RDT 4800 Independent Study Cr. 1
Satisfies General Education Requirement: Writing Intensive Competency
Independent research in radiology. Offered Fall.
Prerequisite: RDT 3090 with a minimum grade of C and RDT 3500 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.

RDT 4900 Jurisprudence for Radiographers Cr. 3
Ethical and legal case studies; research and discussion correlated to philosophical theory and accepted best law practice for general situations in health care and those specific to radiography. Offered Winter.
Prerequisite: PHI 2320 with a minimum grade of C and RDT 3500 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.

RDT 6500 Pharmacology Cr. 2
Effects of drug distribution, absorption and excretion as pertaining to physical therapy. Major drug categories, OTC, and nutritional supplements, pertinent to acute and chronic responses to physical therapy; indications, mechanisms, effects. Offered Fall.
Prerequisite: RDT 3100 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiologic Technology program.

RLL - Reading, Language and Literature Education

RLL 6121 Teaching Reading in the Content Areas: Grades 6-12 Cr. 3
Teaching reading across all content areas with particular attention to readers with special needs. Offered Every Term.
Restriction(s): Enrollment limited to students in the College of Education.

RLL 6700 Second Language Literacy Development: K-12 Cr. 3
Examination of theories, organizations and instructional strategies involved in second language literacy development, and their applications in the classroom. Offered Fall, Spring/Summer.
Prerequisite: LED 6520 with a minimum grade of C-

RLL 6801 Assessment and Differentiated Instruction for Diverse Learners: Pre-K-8 Cr. 3
Assessment of literacy competencies of diverse learners; use of assessments to plan and implement differentiated instruction in grades PreK-8. Implementation with students in field component; and evaluation. Offered Every Term.
Restriction(s): Enrollment limited to students in the College of Education.
RLL 6802 Assessment and Differentiated Instruction for Diverse Learners: 6-12 Cr. 3  
Assessment of literacy competencies of diverse learners; use of assessments to plan and implement differentiated instruction in grades 6-12. Implementation with students in field component; and evaluation. Offered Every Term.  
Restriction(s): Enrollment limited to students in the College of Education.

RLL 7100 Emergent Literacy Cr. 3  
Variety of theories, organization and instructional strategies involved in the beginning stages of literacy; their application to the classroom. Offered Yearly.  
Restriction(s): Enrollment is limited to Graduate level students.

RLL 7200 Comprehension Cr. 3  
Models of comprehension, factors that affect comprehension, instructional methods, reading/writing connection, evaluation (pre-K to adult). Offered Yearly.  
Prerequisites: RLL 7100 with a minimum grade of C

RLL 7300 Literacy Across the Curriculum Cr. 3  
Theoretical bases for teaching literacy across the curriculum; strategies for organization and instruction. Action research as a tool for learning. Offered Yearly.  
Prerequisites: RLL 7100 with a minimum grade of C and RLL 7200 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

RLL 7350 Literacy Coaching for the Classroom, School, and Community Cr. 3  
Prepares educators to become literacy coaches who work with teachers, administrators, and community partners. Offered Spring/Summer.  
Restriction(s): Enrollment is limited to Graduate level students.

RLL 7400 Practicum and Seminar in Evaluation and Instruction Cr. 3  
Evaluation and literacy competencies of learners, methods of instruction, use of portfolios and reports to document progress; applied during supervised tutoring. Offered Yearly.  
Prerequisites: RLL 7100 with a minimum grade of C and RLL 7200 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.  
Repeatable for 6 Credits

RLL 7500 Theoretical Foundations for Literacy Cr. 3  
Implications of theories from sociology, psychology, linguistics, semiotics and related fields, for the development of literacy. Offered Yearly.  
Prerequisites: RLL 7100 with a minimum grade of C and RLL 7200 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

RLL 7600 Current Developments in Literacy Education Cr. 1-6  
Topics of current interest; review of literature, discussion of educational implications. Offered Yearly.  
Restriction(s): Enrollment is limited to Graduate level students.  
Repeatable for 6 Credits

RLL 7720 Survey and Analysis of Current Literature for Children: PS-Grade 3 Cr. 3  
Intensive examination of books appropriate for preprimary and primary school children. Analysis of the literary and extra-literary factors that affect the young child's experiences with fiction, nonfiction, and poetry. Offered Yearly.  
Restriction(s): Enrollment is limited to Graduate level students.

RLL 7740 Survey and Analysis of Literature for Older Children: Grades 4-8 Cr. 3  
Intensive examination of books appropriate for children in grades four through eight. Analysis of literary and extra-literary factors affecting the older child's experiences with fiction, nonfiction, and poetry. Offered Yearly.  
Restriction(s): Enrollment is limited to Graduate level students.  
Equivalent: INF 6520

RLL 7750 Survey and Analysis of Current Children's Literature: Preschool - Grade 8 Cr. 3  
Intensive examination of books for children in preschool through eighth grade. Analysis of literary and extra-literary factors affecting the child's experiences with fiction, non-fiction and poetry. Offered Intermittently.  
Restriction(s): Enrollment is limited to Graduate level students.  
Equivalent: RLL 7720, RLL 7740

RLL 7770 Literacy Assessment Cr. 3  
Focuses on diagnosis of children's literacy skills. Students will examine standardized large-scale assessment results to determine areas in need of further diagnostic assessment. Students will administer, interpret, and score formal and informal literacy assessments, write case reports, and analyze literacy processes to monitor student progress. The course content meets the Michigan State school code PA 118 and has been approved by the Michigan Department of Education. Offered Fall, Winter.  
Restriction(s): Enrollment is limited to Graduate level students.  
Equivalent: RLL 7770 with a minimum grade of C

RLL 7790 Literacy Instructional Design Cr. 3  
Focuses on assessment-driven and research-based literacy instructional design. Students will match research supported instructional practices and materials to support student strengths and needs identified through assessment. Students will also implement and assess the effectiveness of the instruction and plan for future instruction. Offered Winter.  
Prerequisite: RLL 7770 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

RLL 7800 Writing Development and Instruction Cr. 3  
Key theories on how students learn to write; key stages of the writing process, authoring cycle, and special challenges students encounter with different genres. Strategies for developing various aspects of the writing process and creation of different genres. Offered Intermittently.  
Restriction(s): Enrollment is limited to Graduate level students.

RLL 8600 Internship in Research and Teaching Cr. 3-6  
Experiences in college-level teaching and/or research through internships teaching college courses and/or collaborative research with experienced faculty. Offered Every Term.  
Restriction(s): Enrollment is limited to Graduate level students.  
Repeatable for 6 Credits

RLL 8700 Research Applications in Literacy Cr. 3  
Research designs, analysis strategies, relevant statistics useful in conducting a wide variety of contemporary literacy-related research. Offered Yearly.  
Prerequisite: EER 7630 with a minimum grade of C and EER 7640 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

RLL 8800 Seminar in Theory and Research in Literacy I: Foundational Theory and Research Cr. 3  
Foundational theories and research in literacy and related fields such as psychology, sociology, literary criticism, linguistics, and semiotics that have shaped literacy theory, research, and instruction. Includes behavioral, cognitive/metacognitive, critical and constructivist theories and research. Offered Intermittently.  
Restriction(s): Enrollment is limited to Graduate level students.
RLL 8810 Seminar in Theory and Research in Literacy II: Diversity, Contexts, and Communities Cr. 3
Examines issues of language, literacy, and culture in reading and literacy learning from preschool through adolescence with particular focus on diverse learners and linguistic diversity. Topics include emergent literacy, adolescence and youth culture, oral and written language, and the role of language in the home and community. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

RLL 8840 Practicum in Supervision and Administration of Programs in Literacy Development Cr. 3
Understanding the supervision and administration of literacy programs through investigation, experience supervising a literacy center in conjunction with faculty, and working with master’s-level students who are tutors in that program. Offered Every Term.
Prerequisite: RLL 7400 with a minimum grade of C or RDG 7400 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ROC - Radiation Oncology

ROC 5010 Introduction to Radiological Physics Cr. 4
Restriction(s): Enrollment is limited to Graduate level students.

ROC 5990 Directed Study in Medical Sciences Cr. 1-4
Introduction to modern methodology of cancer research. Students of the Division of Cancer Biology of the Department of Radiation Oncology conduct research projects under direction of research scientists. Areas of research include: molecular biology, enzyme purification, tumor biology, cellular biochemistry. Offered for graduate credit only. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

ROC 6710 Physics in Medicine Cr. 3
Applications of physics in medicine including radioactivity; interaction of radiation in matter; x-ray, CT, MRI, ultrasound, and PET imaging; nuclear medicine; radiation oncology. Offered Winter.

ROC 7000 Imaging Physics I Cr. 4
Basic theory of medical imaging. Introduction to magnetic resonance imaging and spectroscopy, ultrasound; diagnostic radiology; radiography, fluoroscopy, CT, digital radiography, and mammography. Offered Fall.
Prerequisite: ROC 5010 (may be taken concurrently) with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ROC 7010 Imaging Physics II: Nuclear Medicine Cr. 2
Physics of nuclear medicine, with emphasis on imaging. Offered Winter.
Prerequisite: ROC 7000 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ROC 7020 Physics of Radiation Therapy Cr. 3
Lecture and demonstration in physics of radiation therapy. Offered Winter.
Prerequisite: ROC 5010 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ROC 7040 Radiation Dosimetry Cr. 2
Lecture and demonstration on principles of radiation dosimetry. Dosimetry of photons, electrons, neutrons and dose from radioactive materials. Offered Winter.
Prerequisite: ROC 5010 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ROC 7060 Applied Radiobiology in Radiological Science Cr. 2
Fractionation, oxygen enhancement ratio, characterization of neutron beams and heavy particles for radiation therapy, radiosensitivity within cell division. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

ROC 7070 Radiation Safety Cr. 2
Lectures on radiation safety procedures and practices; governmental regulations on radiation safety. Offered Spring/Summer.
Prerequisite: ROC 5010 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ROC 7080 Radiotherapy Physics Laboratory Cr. 2
Practical laboratory exercises in ionometric and solid-state dosimetry techniques, quality assurance procedures for selected radiation therapy and diagnostic radiological equipment. Offered Spring/Summer.
Prerequisite: ROC 7020 with a minimum grade of C and ROC 7040 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ROC 7110 Treatment Planning Cr. 2
Practical aspects of radiotherapy treatment planning. Lectures and exercises in patient data acquisition and computerized treatment planning for a variety of sites with both teletherapy and brachytherapy. Offered Fall.
Prerequisite: ROC 7020 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ROC 7120 Radionuclide Therapy Cr. 2
Development of radionuclide technology and its medical use from its discovery to the latest developments. Offered Fall.
Prerequisite: ROC 5010 with a minimum grade of C and ROC 7020 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ROC 7130 Nuclear Medicine Physics Laboratory Cr. 2
Laboratory experiments calibration, Q.A., etc., on isotope generators, isotope calibrators, counting systems, spectrometers, cameras, spect and PET systems, Counting statistics, spectrum analysis. Offered Spring/Summer.
Prerequisite: ROC 7010 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ROC 7150 Radiation Oncology Anatomy and Physiology Cr. 2
Independent study course covering radiological (CT/MRI) anatomy and basic anatomy and medical terminology pertinent to radiation oncology. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

ROC 7160 Advanced Topics in Medical Physics Cr. 2
Advanced imaging principles for students pursuing careers in medical physics or any other profession related to diagnostic imaging. Offered Winter.
Prerequisite: ROC 5010 with a minimum grade of C and ROC 7000 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

ROC 7170 Professional Aspects of Medical Physics Cr. 2
Provide an overview of the professional aspects of clinical radiation oncology physics. Involvement in practical aspects of clinical radiation oncology physics including analysis of quality assurance and practice quality improvement initiatives, review of regulatory and external certification requirements, etc. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

ROC 7890 Seminar Cr. 1
Presentations by graduate students, staff, visitors with emphasis on topics relevant to radiation biophysics and radiological health. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
ROC 7990 Directed Study Cr. 1-5
Independent study in the uses of new technologies in clinical radiology. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 5 Credits

ROC 7999 Essay Direction Cr. 3
Preparation of an in-depth paper on a subject in radiological physics. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Medical Physics or Radiological Physics; enrollment is limited to Graduate level students.

ROC 8990 Special Problems in Radiation Biophysics Cr. 1-7
Independent study in advanced topics to be selected by the student in consultation with instructor. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major in Medical Physics or Radiological Physics; enrollment is limited to Graduate level students.
Repeatable for 7 Credits

ROC 9990 Pre-Doctoral Candidacy Research Cr. 1-8
Research in preparation for doctoral dissertation. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

ROC 9991 Doctoral Candidate Status I: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

ROC 9992 Doctoral Candidate Status II: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: ROC 9991
Restriction(s): Enrollment is limited to Graduate level students.

ROC 9993 Doctoral Candidate Status III: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: ROC 9992
Restriction(s): Enrollment is limited to Graduate level students.

ROC 9994 Doctoral Candidate Status IV: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: ROC 9993
Restriction(s): Enrollment is limited to Graduate level students.

ROC 9995 Candidate Maintenance Status: Doctoral Dissertation Research and Direction Cr. 0
Offered Every Term.
Prerequisite: ROC 9994
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $402.01

ROC 9996 Radiation Oncology Physics Clinical Rotation I Cr. 7.5
Prereq: DMP candidate in department and written consent of the program director. Required in Fall term of Year 3 of Professional Doctorate program. Offered for S and U grades only. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

ROC 9997 Radiation Oncology Physics Clinical Rotation II Cr. 7.5
Prereq: Satisfactory completion of ROC 9996 and written consent of the program director. Required in Winter term of Year 3 of Professional Doctorate program. Offered for S and U grades only. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

ROC 9998 Radiation Oncology Physics Clinical Rotation III Cr. 7.5
Prereq: Satisfactory completion of ROC 9997 and written consent of the program director. Required in Fall term of Year 4 of Professional Doctorate program. Offered for S and U grades only. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

ROC 9999 Radiation Oncology Physics Clinical Rotation IV Cr. 7.5
Prereq: Satisfactory completion of ROC 9998 and written consent of the program director. Required in Winter term of Year 4 of Professional Doctorate program. Offered for S and U grades only. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

RSE - Research, Service and Engagement

RSE 1000 Engaged Learning for the 21st Century Cr. 1
This course-based learning community offers students a chance to refamiliarize themselves with their academic goals and career aspirations, engage with campus communities, and collaborate with other students and faculty for 21st century learning. Students will develop three key skills: critical thinking, communication, and collaboration. Offered Fall, Winter.

RSE 1010 Building a Foundation for College Success Cr. 1
Satisfies General Education Requirement: Wayne Experience
This course is designed to expose students to the Wayne State University undergraduate experience. Students will gain an understanding of campus resources, institutional values, and the merits of a liberal arts education from an urban research one university. This course will aid in the development of critical and analytical thinking skills necessary for college success while determining one's academic and professional goals. Offered Fall, Winter.
Restriction(s): Enrollment limited to students with a class of Freshman.
Equivalent: BE 1060, FPC 1020

RSE 2010 STEM Learning Assistant Pedagogy Cr. 2
This course is for students who have been selected to work as learning assistants in STEM courses. This course is a service-learning experience that will allow students to learn about evidence-based pedagogical strategies that support learning in STEM disciplines, and apply these strategies as learning assistants. Students must be selected as a learning assistant before enrolling in this course. To be selected as a learning assistant students must have earned a B+ or better in the course to be served, or have a B+ in an equivalent course. A minimum GPA of 3.5 is preferred, but students with GPAs between 3.0 and 3.5 may be accepted at the discretion of the instructor and faculty mentor. Strong interpersonal skills are required. An interest in creating an inclusive community where all students belong is required. Offered Fall, Winter.

RSE 2030 STEM Learning Assistant Advanced Pedagogy Cr. 2
This course is for students who have completed at least one semester as a learning assistant in a STEM course, and are now selecting to complete a second semester as a learning assistant. This course is a service-learning experience that allows students to apply evidence-based pedagogical strategies that support learning in STEM disciplines. Students in this advanced pedagogy course will extend their learning by completing a project on pedagogy, such as a new learning activity or assessment. To be selected as a learning assistant students must have earned a B+ or better in the course to be served, or have a B+ in an equivalent course. A minimum GPA of 3.5 is preferred, but students with GPAs between 3.0 and 3.5 may be accepted at the discretion of the instructor and faculty mentor. Strong interpersonal skills are required. An interest in creating an inclusive community where all students belong is required. Offered Fall, Winter.
RSE 3000 Research, Service and Engagement in Liberal Arts and Sciences Cr. 1-4
Allows undergraduate students to pursue mentored research, service and engagement experiences in Liberal Arts and Sciences. Offered Every Term. Repeatable for 4 Credits

RSE 4100 From CLAS to Career Cr. 1
This course is specifically designed for students who are seeking professional full-time employment for at least 5 years upon graduation. Topics include: identifying your strengths and skills as a Liberal Arts and Sciences major; cover letters, résumés and LinkedIn profiles; electronic job searching, networking (both in person and online); interviewing; and professional etiquette and behavior. Offered Winter. Repeatable for 4 Credits

RT - Radiation Therapy Technology

RT 3000 Concepts of Clinical Care Cr. 3
Procedures and ethics related to the care and examination of the radiation oncology patient. Topics include: basic pharmacology, drug administration, pain management, treatment side effects and their management. Offered Fall. Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Course Material Fees: $25

RT 3010 Introductory Radiation Physics Cr. 3
Basic introduction of radiation physics including the x-ray machine, physical principles and circuitry; principles of mathematics. Offered Fall. Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.

RT 3020 Clinical Radiation Physics Cr. 3
Principles of radiation exposure; radiation producing and measuring devices; clinical application of radiation physics. Offered Winter. Prerequisite: RT 3010 with a minimum grade of C Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.

RT 3110 Clinical Aspects of Radiation Therapy Cr. 3
Basic concepts in oncology and radiation therapy technology. Topics include: cancer statistics, neoplasia, and principles of treatment and dosage. Offered Spring/Summer. Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Course Material Fees: $75

RT 3140 Topographic Anatomy and Medical Imaging Cr. 3
Procedures for imaging human structure and their relevance to radiation therapy; topographic and cross sectional anatomy, identification of anatomic structures as demonstrated through various imaging modalities and human anatomy lab sessions; fundamentals of radiographic exposure techniques and film processing. Offered Fall. Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Course Material Fees: $10

RT 3200 Therapeutic Interactions in Oncology Care Cr. 2
Issues related to professional interaction with oncology patients. Impact of cancer diagnosis on patient and family; subsequent role of radiation therapist. Approaches to effective communication. Offered Winter. Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Course Material Fees: $5

RT 3310 Clinical Practicum I Cr. 4
Introduction to clinical radiation therapy. Closely supervised patient-related activities. Emphasis on development of interpersonal communication skills in the clinical setting; medical terminology. Offered Spring/Summer. Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Course Material Fees: $79

RT 3320 Clinical Practicum II Cr. 4
Closely supervised practice in the delivery of prescribed doses of radiation utilizing common radiation equipment. Observation and performance of clinical care procedures; Development of communication skills in patient/therapist relationships. Correlation of medical imaging techniques to diagnostic workup and treatment planning. Completion of clinical competency requirements. Offered Fall. Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Course Material Fees: $79

RT 3330 Clinical Practicum III Cr. 4
Expanded supervised practice in the delivery of radiation therapy treatments. Submission of essay on radiation oncology topic. Completion of clinical competency requirements. Offered Winter. Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Course Material Fees: $65

RT 4110 Clinical Radiation Oncology Cr. 4
General presentation of malignant conditions, their etiology and methods of treatment; specific radiation treatment methodology including technical parameters of field size and direction, dosage, blocking, and patient positioning. Offered Fall. Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Course Material Fees: $15

RT 4120 Basic Clinical Dosimetry Cr. 4
Basic concepts of clinical dosimetry and treatment planning; various external beam techniques, depth dose data, and summation of isodose curves. Offered Winter. Prerequisite: RT 4110 Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Course Material Fees: $10

RT 4140 Oncologic Pathology Cr. 2
Basic principles of neoplasia, including types of growth, causative factors, biological behavior, and significance of staging procedures. Pathology of radiation injury. Offered Fall. Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Course Material Fees: $10

RT 4150 Radiobiology of Radiation Oncology Cr. 2
Biological effects of ionizing radiation on living tissue. Cell and tissue radiosensitivity; radiation syndromes and related effects. Basic radiobiological principles of radiation oncology and radiation protection. Offered Winter. Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
RT 4220 Radionuclide Physics Cr. 3
Natural radioactivity; isotopes and nuclear structure; techniques of radiation measurement. The clinical use of radionuclides. Radiation safety. Offered Fall.
Prerequisite: RT 3020 with a minimum grade of C
Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.

RT 4240 Radiation Therapy Technology Seminar Cr. 3
Issues relevant to the practice and profession of radiation therapy technology explored through group discussion and case studies. Topics include: psychosocial, cultural, economic, physical, and educational factors which affect the patient; professional, administrative, legal, and bioethical issues which influence professional practice. Offered Spring/Summer.
Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.

RT 4300 Quality Assurance Cr. 2
Principles and application of a comprehensive quality assurance program, addressing general clinical and physics factors. Contents include: tasks to be performed, with their frequency and acceptable limits; model implementation program; and legal implications. Lecture and laboratory settings. Offered Winter.
Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Course Material Fees: $15

RT 4350 Clinical Practicum IV Cr. 4
Continued supervised practice in a wide spectrum of clinical activities. Submission of a critical bibliography from current literature of radiation therapy, cancer management and related areas. Completion of clinical competency requirements. Offered Spring/Summer.
Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Course Material Fees: $10

RT 4360 Clinical Practicum V Cr. 4
Continued supervised practice in a wide spectrum of clinical activities. Submission of a critical bibliography from current literature of radiation therapy, cancer management and related areas. Completion of clinical competency requirements. Offered Spring/Summer.
Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Course Material Fees: $69

RT 4370 Clinical Practicum VI Cr. 4
Continued clinical practice under minimal supervision. Practice of procedures related to the development of various treatment plans and methods of treatment planning. Submission of report on quality assurance activities. Completion of clinical competency requirements. Offered Winter.
Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Course Material Fees: $75

RT 5650 Pathophysiology for Health Sciences Cr. 3
Fundamental knowledge of the nature of disease for the health sciences student; physiologic and morphologic changes accompanying disease processes; mechanisms of repair and recovery. Offered Winter.
Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Equivalent: OT 5650, PT 5650

RT 5990 Directed Study in Radiation Therapy Technology Cr. 1-5
Production of a paper, written assignment, or presentation to develop critical thinking, research, writing and presentation skills. Focus on career options within the field. Offered Every Term.
Restriction(s): Enrollment limited to students in the BS in Radiation Therapy Tech program.
Repeatable for 5 Credits

RUS - Russian

RUS 1010 Elementary Russian I Cr. 4
Development of practical skills in speaking, understanding, reading, and writing contemporary Russian. Offered Fall.
Course Material Fees: $5

RUS 1020 Elementary Russian II Cr. 4
Continuing development of the four skills in contemporary Russian. Offered Winter.
Prerequisites: RUS 1010 with a minimum grade of D-

RUS 2010 Intermediate Russian I Cr. 4
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Continuation of RUS 1020 with emphasis on developing speaking and reading skills. Offered Fall.
Prerequisites: RUS 1020 with a minimum grade of D-

RUS 2020 Intermediate Russian II Cr. 4
Objectives begun in RUS 2010; at more advanced level. Offered Winter.
Prerequisites: RUS 2010 with a minimum grade of D-

RUS 2030 Russian Conversation Cr. 1
Development of Russian oral language skills through intensive speaking and listening practice. Offered Fall, Winter.
Prerequisites: RUS 2020 with a minimum grade of D-

RUS 2710 Introduction to Russian Culture Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only), Foreign Culture, Global Learning Inquiry
Survey of Russian culture from the tenth century to the present day. Introduction to Russian history, art, architecture, literature, music, religious practices, intellectual thought, and cuisine, as well as various aspects of daily life from the Tsarist period to the present day. Offered Every Term.

RUS 2991 Understanding the Fairy Tale Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Introduction to the interdisciplinary context of major Russian fairy tales, exploring the different types of traditional Russian fairy tales, as outlined by Vladimir Propp, as well as the evolution of these fairy tales, emphasizing their transformation from oral and literary form into film, animation, opera, ballet, art, sculpture, and music. The course will also examine contemporary literary texts based on fairy tale motifs. All lectures and reading in English. Offered Fall, Winter.

RUS 3010 Intermediate-Advanced Russian I Cr. 4
Further development of skills; taught in two tracks at fifth and seventh semester levels. Offered Fall.
Prerequisites: RUS 2010 with a minimum grade of D-
Repeatable for 8 Credits

RUS 3020 Intermediate-Advanced Russian II Cr. 4
Further development of skills; taught in two tracks at sixth and eight semester levels. Offered Winter.
Prerequisites: RUS 2020 with a minimum grade of D-
Repeatable for 8 Credits
Equivalent: intermittently.

Special topics relating to Central, Eastern and Western Europe. Offered Year.

Modernism. Taught in English; readings in English. Offered Every Other Year.

Literary currents such as Russian modernism, Socialist Realism, and post-collapse. Close analysis of major works of prose and poetry as well as thematic concerns within historical and socio-cultural contexts; relevant intellectual, religious, political factors. Taught in English; readings in English. Offered Fall.

Equivalent:

Letters
Satisfies General Education Requirement: Diversity Equity Incl Inquiry

Students will learn about the ethnic, racial, and cultural history of Detroit and how to document elements of that history. This course introduces students to both theoretical and practical concepts around digital storytelling, drawing on extensive theoretical scholarship about placemaking, experiencing place, and the social production of heritage studies, historic preservation, media studies, and mobilities. Students will learn the practical steps involved in creating digital stories and will be introduced to best practices in multimedia development as discussed in the literature in the field of instructional technology. They will also explore the cultural, ethical and technological considerations involved in creating and disseminating digital stories. They will then create their own short digital story, which they will be able to share with the website Ethnic Layers of Detroit. Offered Yearly.

Equivalent: ANT 3111, GLS 3111, POL 3111

RUS 3410 New Soil, Old Roots: The Immigrant Experience Cr. 3
Satisfies General Education Requirement: Civic and Societies (CLAS only), Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry

Armenian, German, Jewish, Polish, Russian and Ukrainian immigration to the United States, its effects on the cultures (language, literature, religion, politics, music, art and theatre) of these ethnic groups and its influence upon American culture. Offered Fall.

Equivalent: ARM 3410, GER 3410, POL 3410, SLA 3410

RUS 3600 Nineteenth Century Russian Literature Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Major Russian writers, including Pushkin, Dostoevsky, Tolstoy, Chekhov, and others. How literature reflects and grows out of history; how culture is affected by writers and poets. Taught in English; readings in English. Offered Fall.

RUS 3650 Russian Literature Since 1900 Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters

Twentieth century Russian literature as it explores the universal questions of love, death, rebirth, spirituality, and despair against a background of war, revolution, political oppression and economic collapse. Close analysis of major works of prose and poetry as well as literary currents such as Russian modernism, Socialist Realism, and post-modernism. Taught in English; readings in English. Offered Every Other Year.

RUS 3700 The Changing Face of Europe Cr. 1-2
Special topics relating to Central, Eastern and Western Europe. Offered Intermittently.

Equivalent: GER 3700, POL 3700, SLA 3700

RUS 3810 Topics in Slavic Studies Cr. 3
Special topics relating to Slavic languages, literatures and cultures, such as drama, the Gulag, and contemporary culture. Offered Yearly.

Equivalent: POL 3800, SLA 3800

Repeatable for 9 Credits

RUS 3990 Directed Study Cr. 1-3
For students desiring additional work in the language at the intermediate level; for programs of work not included in scheduled courses, either in language or literature. Offered Every Term.

Prerequisites: RUS 2010 with a minimum grade of D-

Repeatable for 6 Credits

RUS 5600 Nineteenth Century Russian Literature Cr. 3-4
For advanced undergraduate and graduate students interested in Russian literature. Major nineteenth-century authors: Pushkin, Dostoevsky, Tolstoy, Chekhov, and others. Close readings of works introduce traditions and thematic concerns within historical and socio-cultural contexts; relevant intellectual, religious, political factors. Taught in English; readings in English. Offered Fall.

RUS 5990 Directed Study Cr. 1-3
For students who wish credit for program of work not included in regularly scheduled courses, either in language or literature. Knowledge of Russian required. Offered Every Term.

Repeatable for 12 Credits

RUS 5993 Writing Intensive Course in Russian Cr. 0
Satisfies General Education Requirement: Writing Intensive Competency Disciplinary writing assignments under the direction of a faculty member. Must be selected in conjunction with a course designated as a corequisite; see section listing in Schedule of Classes for corequisites available each term. Satisfies the University General Education Writing Intensive Course in the Major requirement. Required for all majors. Offered Fall, Winter.

Prerequisites: AFS 2390 with a minimum grade of C, ENG 2390 with a minimum grade of C, ENG 3010 with a minimum grade of C, ENG 3020 with a minimum grade of C, ENG 3050 with a minimum grade of C

Restriction(s): Enrollment is limited to Undergraduate level students.

RUS 5999 Internship in Russian Studies Cr. 3
Internship in a public or private organization related to Russian studies. Offered for undergraduate credit only. Offered Every Term.

Prerequisite: RUS 3010 with a minimum grade of C- or RUS 3020 with a minimum grade of C-

Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Slavic Studies or Slavic Studies Honors.

SAM - Sport Administration and Management

SAM 2020 History of Sport Cr. 3
Satisfies General Education Requirement: Social Inquiry

Examines the historical evolution of sport, from ancient to modern times in the United States and throughout the world. Offered Winter.

SAM 2100 Foundations of Sport Management Cr. 3
By combining theory and practical application, this course provides an overview of various facets of sports management and administration, including issues related to the recreational, amateur, interscholastic, collegiate, professional and lifestyle sports industries. Offered Fall.

SAM 3010 Ethics in Sport Cr. 3
Examines principles of ethics, and their application to sport, physical education, and sport. Students will acquire an awareness of ethical conduct and cultivate an effective, deliberative process for dealing with ethical issues in sport. Offered Winter.
SAM 3020 Sociology of Sport Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Examines the ways in which sports are entangled in social, cultural, political, and economic forces. Students will systematically investigate the complex connections among sports, society, and cultures. Offered Fall, Winter.

SAM 3030 Sports Promotion Cr. 3
This course explores foundational principles of promotions, marketing, and public relations in the sports and active lifestyle industries, including sports sponsorship and promotion, corporate motivation and involvement, and the reciprocal relationship between sports and the media. Demographics, market research, public relations, and promotional activity will be examined through an integrated approach to marketing. Offered Fall, Winter.

SAM 4020 Sport Governance Cr. 3
Covers governance structures and policy issues in sport and how policy development and strategic planning activities affect sport organizations, both amateur and professional. Offered Fall.
Prerequisite: SAM 2100

SAM 4030 Sport Finance Cr. 3
Introduces students to the concepts of financial management and sales as applied to the sports industry. Offered Winter.
Prerequisite: SAM 2100

SAM 4040 Sport Communication Cr. 3
General principles and strategies of sport communication are covered, including public relations, media relations, and publicity in a variety of settings. Effective use of technology in sport communication will be particularly emphasized. Offered Winter.
Prerequisite: SAM 2100

SAM 5000 Professional Practicum Cr. 3
Students will be introduced to various areas within the sports industry through guided fieldwork and service learning experiences. Students will analyze career placement opportunities, the internship process, and associate requirements while preparing professional materials for use in the sports industry. Offered Fall.
Prerequisite: SAM 2100

SAM 5020 Sports Promotion Cr. 3
This course explores promotions in the sports industry, focusing on the development of strategic plans and the execution of promotional activities. Offered Fall.
Prerequisite: SAM 2100

SAM 5510 Principles of Coaching Cr. 3
Specific topics on the coach and the athlete in areas of administration, motor learning, physical growth, motor skill acquisition, philosophy, psychology and sociology. Offered Spring/Summer.

SAM 5700 Sport Leadership Cr. 3
Combines theory and practical application to provide an introduction to the various segments of the sports industry, including youth, interscholastic, collegiate, professional, and commercial sports. Additionally, sociocultural, legal, historical and political concepts as applied to sport will be integrated into the curriculum to enable students to develop industry-appropriate competencies. Coursework will also emphasize strategies for career success within the sports industry. Offered Fall, Winter.

SAM 5750 Internship in Sports Management Cr. 1-6
Professional experience in public or private institutions relevant to student's field of industry specialization. Offered Fall, Winter.
Prerequisite: SAM 5000
Course Material Fees: $15
Repeatable for 6 Credits

SAM 6300 Interscholastic Athletic Directing Cr. 3
Michigan and national interscholastic athletic directing organizations; issues and skills to direct athletic programs in middle and secondary education. Philosophy, personnel, financial and general athletic policies and guidelines. Offered Yearly.
Prerequisites: SAM 2100 with a minimum grade of C

SAM 6310 Collegiate Athletic Administration Cr. 3
Provides an overview of intercollegiate athletic administration. Focuses on the history of college athletics, NCAA compliance rules and regulations, operations, finances, strategic planning, and critical issues and future trends that impact college sport. Offered Yearly.
Prerequisites: SAM 2100 with a minimum grade of C

SAM 6320 Youth Sports and Recreation Cr. 3
Explores issues related to organized and competitive sport for youth, with an emphasis on biological, psychological, and sociological perspectives. Emphasis is placed on the impact of sport managers and leaders in the delivery of youth sport programs. Offered Spring/Summer.

SAM 6410 Introduction to Sports Administration Cr. 3
Current categories of competitive sports and athletics identified and analyzed to determine potential administrative positions in their structures and the qualifications necessary for each position. Offered Fall, Winter.

SAM 6530 Professional Sport Administration Cr. 3
Introduction to the business strategies of a professional sports team, including an in depth look at breaking into the industry, the importance and value of community affairs, corporate sponsorship, business public relations and player relations. Offered Winter.
Prerequisites: SAM 2100 with a minimum grade of C

SAM 6531 Sports Event Management Cr. 3
Comprehensive study of the planning, maintenance, operations, financial considerations, customer engagement, and personnel management of sporting events and the facilities that host the events. Offered Spring/Summer.
Prerequisites: SAM 2100 with a minimum grade of C

SAM 6560 Media Design and Communication Cr. 3
Examines the use of technology in promoting, marketing, and managing sporting events and the facilities that host the events. Offered Spring/Summer.
Prerequisites: SAM 2100 with a minimum grade of C

SAM 6570 Sports Marketing Cr. 3
Concepts and principles of marketing as applied to sports. Topics include: structure of sports industry, sports markets and products, market research, and sports sponsorships. Offered Fall.
Prerequisites: SAM 2100 with a minimum grade of C

SAM 6640 Legal Issues in Health, Physical Education and Recreation Cr. 3
Identification and analysis of legal issues in the health, physical education, and recreation profession. Review of relevant litigation patterns. Offered Yearly.

SAM 6660 Risk Management in Physical Education and Sports Cr. 3
Fundamentals of safety and liability and the risks involved in managing activity-related programs. Development of knowledge and skills to recognize potential litigation in management, supervision and administration. Offered Fall.

SAM 6661 Equity and Access in Sport Cr. 3
Historical and contemporary sport and physical activity experience in context of race, socioeconomic class, gender, age, disability, and culture. Offered for graduate credit only. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

SAM 6750 Field Work in Sports Administration and Management Cr. 1-4
Professional experience in public or private institutions relevant to student's specialization. Supervision by professional supervisor and university faculty. Can be taken at any time during student's program. Offered Fall, Winter.
Repeatable for 8 Credits
SCE 2100 Integrated Science Content PK-6 Cr. 3  
Satisfies General Education Requirement: Natural Scientific Inquiry  
This course will address core integrated science content topics, concentrating on PK-6 performance expectations across all science disciplines: life/environmental science, physical science, earth/space science, and engineering/technology/design. Offered Every Term.  
Corequisite: SCE 2105

SCE 2105 Integrated Science Lab PK-6 Cr. 1  
This lab will provide the opportunity to authentically engage in science and engineering practices and scientific inquiry, use scientific modeling, and conduct controlled experiments within and integrated across the science disciplines of life/environmental science, physical science, earth/space science, and engineering/technology/design. Offered Every Term.  
Corequisite: SCE 2100

SCE 5010 Biological Sciences for Elementary and Middle School Teachers Cr. 3  
Significant biological principles, generalizations and understandings with relation to their use with children. Appropriate learning activities; experiments, field trips, text and reference materials, audio-visual resources, evaluation. Offered Every Term.  
Course Material Fees: $10

SCE 5020 Physical Sciences for Elementary and Middle School Teachers Cr. 3  
Significant principles, generalizations and understandings in the physical sciences with relation to their use with children. Appropriate learning activities including experiments, field trips, reference materials, audio-visual resources. Offered Every Term.  
Course Material Fees: $10

SCE 5030 Earth/Space Science for Elementary and Middle School Teachers Cr. 3  
Principles, generalizations and understandings related to teaching earth/space science to children. Learning activities, field trips, technology, and evaluation. Offered Every Term.  
Course Material Fees: $10

SCE 5060 Methods and Materials of Instruction in Secondary School Science I Cr. 3  
Role of science in the secondary curriculum. Problems and techniques of teaching science in the secondary schools; objectives, planning laboratory experiments, demonstrations, directed study, student projects, text and reference material, audio-visual resources, evaluation. Offered Fall.  
Restriction(s): Enrollment limited to students in the College of Education.  
Course Material Fees: $10

SCE 5070 Methods and Materials of Instruction in Secondary School Science II Cr. 3  
Restriction(s): Enrollment limited to students in the College of Education.

SCE 5100 Integrated Science Content (PK-6) Cr. 3  
Addresses core integrated science content topics, concentrating on PK-6 performance expectations across all science disciplines: life/environmental science, physical science, earth/space science, and engineering/technology/design. Offered Every Term.  
Corequisite: SCE 5105

SCE 5105 Integrated Science Lab (PK-6) Cr. 1  
The lab provides the opportunity to authentically engage in science and engineering practices and scientific inquiry. Students will use scientific modeling, and conduct controlled experiments within and integrated across the science disciplines of life/environmental science, physical science, earth/space science, and engineering/technology/design. Offered Every Term.  
Corequisite: SCE 5100

SCE 6010 Safety in the Science Classroom Cr. 2  
Principles of Laboratory safety in all K-12 science classrooms, including legal responsibilities related to the use, storage and disposal of chemicals and biological specimens as well as legal and ethical use of living organisms in the classroom. Offered Winter.  
Restriction(s): Enrollment limited to students in the College of Education.

SCE 6030 Advanced Studies in Teaching Science in the Junior High and Middle School Cr. 3  
Innovations and improvements in middle school and junior high school science teaching. Exploration of appropriate areas of study, development and selection of learning activities and materials; laboratory experiences in selected areas. Offered Every Other Year.  
Restriction(s): Enrollment limited to students in the College of Education.

SCE 6040 Advanced Studies in Teaching Science in the High School Cr. 3  
Emphasis on methods of teaching biology and the physical sciences in the high school. Recent curriculum studies, research, and current problems. Laboratory experiments, equipment, textual and reference material, audio-visual resources, and evaluation procedures. Offered Every Other Year.  
Course Material Fees: $10

SCE 6080 Teaching Environmental Studies Cr. 3  
Ecological concepts and environmental problems, possible solutions, and their implications for curriculum development and classroom teaching in K-12 educational settings. Science as a process is stressed throughout classroom activities, field trips, and assignments. Offered Every Other Year.  
Course Material Fees: $10
SCE 7010 Special Topics in Science Education Cr. 1-3
Current theories and issues related to science education: nature of science, equity, global education, interdisciplinary approaches, alternative forms of assessment and technology integration. Topics to be announced in Schedule of Classes. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students. Repeatable for 6 Credits

SED - Special Education

SED 5000 History, Philosophy, and Ethics of Teaching Students with Disabilities Cr. 2
Historical developments leading to contemporary special and inclusive education. Philosophy of inclusive education. Ethical standards for special educators. This is a prerequisite for all SED courses. Offered Fall, Winter.

SED 5010 Inclusive Teaching Cr. 2
Philosophy and practice of inclusive teaching; legal and ethical responsibilities of educators; practical, empirically supported, and classroom tested approaches; collaborations of service providers; and home-school-society relationships. Offered Yearly.

SED 5075 Consultation and Collaboration for Inclusive Teaching Cr. 2
Knowledge and skills of consultation, collaboration, and co-teaching to support students in a variety of educational settings, particularly inclusive contexts. Offered Intermittently.
Prerequisites: SED 5000 with a minimum grade of C

SED 5080 Supportive Environments, Engaged Learning Cr. 2
Prerequisites: SED 5000 with a minimum grade of C

SED 5090 Transitions for Students with Disabilities Cr. 2
Strategies for supporting students with disabilities and special needs who are in transition between schools and from school to adult life in community settings. Offered Fall, Winter.
Prerequisites: SED 5000 with a minimum grade of C

Course Material Fees: $8

SED 5110 Introduction to Teaching Students with Moderate/Significant Support Needs Cr. 3
Medical terminology and interventions for students labeled cognitively impaired. Social model framework for understanding and supporting students with moderate to significant support needs (e.g., MARSE label cognitive impairment). Offered Fall.
Prerequisites: SED 5000 with a minimum grade of C, SED 5010 with a minimum grade of C, SED 5075 with a minimum grade of C, SED 5080 with a minimum grade of C, and SED 5090 with a minimum grade of C

SED 5115 Observation and Assessment of Students with Moderate/Significant Support Needs Cr. 3
Using observation and assessment to monitor learning and plan instruction for learners with moderate to significant support needs (e.g., MARSE label cognitive impairment) in variety of educational contexts. Offered Yearly.
Prerequisites: SED 5000 with a minimum grade of C, SED 5010 with a minimum grade of C, SED 5075 with a minimum grade of C, SED 5080 with a minimum grade of C, and SED 5090 with a minimum grade of C

SED 5120 Language Development and Instruction for Students with Moderate/Significant Support Needs Cr. 2
Language-communication development and instruction for students with moderate to significant educational support needs (e.g., MARSE label cognitive impairment). Emphasis on utilizing augmentative and alternative communication systems. Offered Fall.
Prerequisites: SED 5000 with a minimum grade of C, SED 5010 with a minimum grade of C, SED 5075 with a minimum grade of C, SED 5080 with a minimum grade of C, and SED 5090 with a minimum grade of C

SED 5125 Teaching Students with Significant/Multiple Support Needs Cr. 3
Curriculum and instructional for students with significant/multiple impairments in a variety of educational contexts (e.g., students with the label SXI). Offered Yearly.
Prerequisites: SED 5000 with a minimum grade of C, SED 5010 with a minimum grade of C, SED 5075 with a minimum grade of C, SED 5080 with a minimum grade of C, and SED 5090 with a minimum grade of C

SED 5130 Teaching Students with Moderate Support Needs Cr. 3
Curriculum and instruction for students with moderate support needs (e.g., MARSE label cognitive impairment) in a variety of educational contexts. Offered Winter.
Prerequisites: SED 5000 with a minimum grade of C, SED 5010 with a minimum grade of C, SED 5075 with a minimum grade of C, SED 5080 with a minimum grade of C, and SED 5090 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

SED 6021 Introduction to Teaching Students with Autism Spectrum Disorder Cr. 3
Historical and current research on autism spectrum disorder (ASD), with professional and personal perspective. Focus on supports, services, and quality of life outcomes. Offered Intermittently.
Prerequisites: SED 5000 with a minimum grade of C, SED 5010 with a minimum grade of C, SED 5075 with a minimum grade of C, SED 5080 with a minimum grade of C, and SED 5090 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

SED 6030 Teaching Students with Cognitive, Behavior, and Communication Differences Cr. 3
Teaching students with cognitive and behavioral differences. Emphasis on strategies for supporting inclusive education. Offered Intermittently.
Prerequisites: SED 5000 with a minimum grade of C, SED 5010 with a minimum grade of C, SED 5075 with a minimum grade of C, SED 5080 with a minimum grade of C, and SED 5090 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

SED 6040 Introduction to Early Childhood Special Education Cr. 3
History, philosophy, legislation, and “best practice” of early intervention and educational programs for young children, birth to eight years old, who have developmental delays or disabilities. Offered Fall.

SED 6050 Teaching Students with Communication Differences Cr. 3
Teaching students with communication differences (i.e., students with autism spectrum disorder). Designing relationship based communication support, particularly in inclusive settings. Offered Intermittently.
Prerequisites: SED 5000 with a minimum grade of C, SED 5010 with a minimum grade of C, SED 5075 with a minimum grade of C, SED 5080 with a minimum grade of C, and SED 5090 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.
SED 6060 Teaching Students with Movement and Sensory Differences Cr. 2
Movement and sensory differences in students with autism. Strategies for increasing student engagement in learning, social interaction, and inclusive educational contexts. Emphasis on supports for inclusion and supports provided by related service providers. Offered Yearly.
Prerequisites: SED 5000 with a minimum grade of C, SED 5010 with a minimum grade of C, SED 5075 with a minimum grade of C, SED 5080 with a minimum grade of C, SED 5090 with a minimum grade of C, and SED 6021 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SED 7030 Dynamic Assessment in Early Childhood Special Education Cr. 3
Introduction to a variety of assessment tools and instruments and their administration for young children who have developmental delays or disabilities. Focus on linking assessment and intervention “best practices.” Offered Spring/Summer.
Restriction(s): Enrollment is limited to Graduate level students.

SED 7700 Trends in Inclusion for Students with Moderate/Significant Support Needs Cr. 3
Advanced seminar in Special Education. Perspectives and applications of Disability Studies in Education for teaching students who have moderate/significant support needs. Offered Yearly.
Prerequisites: SED 5000 with a minimum grade of C, SED 5010 with a minimum grade of C, SED 5075 with a minimum grade of C, SED 5080 with a minimum grade of C, SED 5090 with a minimum grade of C, SED 5110 with a minimum grade of C, SED 5125 with a minimum grade of C, SED 5130 with a minimum grade of C, and TED 7060 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SED 7750 Trends in Inclusion for Students with Autism Spectrum Disorders Cr. 3
Advanced seminar in Special Education. Examines perspectives and applications of Disability Studies in Education for teaching students who have autism spectrum disorders. Offered Yearly.
Prerequisites: SED 5000 with a minimum grade of C, SED 5010 with a minimum grade of C, SED 5075 with a minimum grade of C, SED 5080 with a minimum grade of C, SED 5090 with a minimum grade of C, SED 6021 with a minimum grade of C, SED 6030 with a minimum grade of C, SED 6050 with a minimum grade of C, SED 6060 with a minimum grade of C, and TED 7060 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SED 7760 Teaching Students with Learning Disabilities: K-12 Cr. 3
Methods, materials, and procedures for education of children with learning diversity as they relate to concerns in communication disorders and sciences. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

SED 7770 Assessment and Evaluation of Students with Autism Spectrum Disorders Cr. 3
Methods, materials and procedures for assessment of students with autism spectrum disorders. Offered Yearly.
Prerequisites: SED 5000 with a minimum grade of C, SED 5010 with a minimum grade of C, SED 5075 with a minimum grade of C, SED 5080 with a minimum grade of C, and SED 5090 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SED 7790 Language Basis of Learning Disabilities Cr. 3
Normal language acquisition and development, language pathology including neurological process involved in speech reception and production, assessment of language disorders as they relate to children and adolescents with learning disabilities. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

SED 7800 Practicum in Educating Students with Disabilities Cr. 1-24
Teaching students with disabilities with emphasis on inclusive teaching. Focus on area of certification/endorsement. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Graduate level students. Repeatable for 24 Credits

SEM 7100 Introduction to Sport & Entertainment Management Cr. 3
Provides an overview of the sport & entertainment industry, and examines issues encountered by sport and entertainment managers with special emphasis on the use of business principles to identify, attract and retain consumers. Offered Every Term.
Restriction(s): Enrollment is limited to Undergraduate level students. Equivalent: MGT 5100

SEM 7110 Sport & Entertainment Marketing Communications Cr. 3
Explores the role of sport and entertainment marketing in the attraction and retention of customers. Emphasizes branding and the linkages across marketing communications. Topical areas include advertising, sponsorship, public relations, direct marketing, social media, and sales promotion. Offered Yearly.
Prerequisite: SEM 7100 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SEM 7120 Event Planning and Management Cr. 3
Explores the nature and role of events. History, significance, impacts and role of sporting events, festivals, the arts and cultural entertainment, and business events. Cultivate business skills involved in operations, marketing, sponsorship and fundraising for events. Offered Yearly.
Prerequisite: SEM 7100 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SEM 7130 Managerial Finance in Sport & Entertainment Cr. 3
Application of financial skills and principles in sport and entertainment. Budgeting, revenue generation, profits and loss, and taxation. Offered Every Term.
Prerequisite: SEM 7100 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
SEM 7140 Sports & Entertainment Economics Cr. 3
Economic theory and principles applied to the business of sport and entertainment. Demand, costs and profit maximization, labor issues, antitrust, and tax policy examined. Strategic decision-making on current issues. Offered Yearly.
Prerequisite: SEM 7100 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
SEM 7995 Directed Study in Sport and Entertainment Management Cr. 3
Advanced independent readings and research under supervision of a graduate faculty member in areas of special interest to student and faculty member. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
SEM 8000 Special Topics in Sport and Entertainment Management Cr. 3
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 6 Credits

SLA - Slavic

SLA 2310 Short Fiction from Central Europe and Russia Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
Explores how writers use short fictional forms, such as parable, short story, fairy tale, and satire, to express important themes in the Central European experience, including violence and cruelty, freedom and imprisonment, utopian visions, and urban life. Offered Fall.
Equivalent: GER 2310

SLA 3410 New Soil, Old Roots: The Immigrant Experience Cr. 3
Satisfies General Education Requirement: Civ and Societies (CLAS only), Diversity Equity Incl Inquiry, Foreign Culture, Global Learning Inquiry Armenian, German, Jewish, Polish, Russian and Ukrainian immigration to the United States, its effects on the cultures (language, literature, religion, politics, music, art and theatre) of these ethnic groups and its influence upon American culture. Offered Fall.
Equivalent: ARM 3410, GER 3410, POL 3410, RUS 3410

SLA 3700 The Changing Face of Europe Cr. 1-2
Special topics relating to Central, Eastern and Western Europe. Offered Intermittently.
Equivalent: GER 3700, POL 3700, RUS 3700

SLA 3710 Russian and East European Film Cr. 3-4
Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only), Visual Performing Arts
Major Russian, Polish, Czech, Ukrainian and Armenian films viewed and discussed from political, historical, cultural and aesthetic points of view. Offered Yearly.

SLA 3750 Polish and Yugoslavian Cinema Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
Two national cinemas introduced through milestone films and lesser-known cinematic gems produced before and after the fall of communism. Offered Every Other Winter.
Equivalent: POL 3750

SLA 3800 Topics in Slavic Studies Cr. 3
Special topics relating to Slavic languages, literatures and cultures, such as drama, the Gulag, and contemporary culture. Offered Yearly.
Equivalent: POL 3800, RUS 3810
Repeatable for 9 Credits

SLP - Speech and Language Pathology

SLP 1010 Elementary Sign Language: American Sign Language Cr. 4
This course introduces the basics of American Sign Language (ASL). It is designed to help students with no or minimal sign language skills develop both basic skills in use of ASL and knowledge of Deaf culture, and it reviews basic grammar coupled with classroom practice to learn to communicate in signs. Offered Intermittently.

SLP 1020 Advanced Sign Language Cr. 4
This course introduces advanced use of American Sign Language (ASL). Students develop receptive and expressive abilities and learn to recognize and demonstrate more sophisticated grammatical features of American Sign Language (ASL). Offered Intermittently.
Prerequisites: SLP 1010 with a minimum grade of C

SLP 3990 Directed Study Cr. 1-3
Undergraduate study in areas not covered in scheduled curriculum, including library and field work. Offered Fall, Winter.
Repeatable for 4 Credits

SLP 4998 Honors Seminar Cr. 3
Bibilographic and research experiences; review of recent literature; research project. Offered Yearly.

SLP 5080 Phonetics Cr. 3
Multisensory study of sounds in the English language, emphasizing acoustic, physiologic, kinesiologic approaches. Offered Fall, Winter.
Equivalent: LIN 5080

SLP 5090 Anatomy and Physiology of the Speech Mechanism Cr. 3
General science of normal speech; anatomy, physiology and mechanics of respiration, phonation, resonance, articulation. Offered Fall, Spring/Summer.

SLP 5120 Speech Science Cr. 3
Speech production, acoustics of sound, perception of the speech signal. Offered Fall, Winter.
Prerequisites: SLP 5080 with a minimum grade of C (may be taken concurrently) and SLP 5090 with a minimum grade of C (may be taken concurrently)

SLP 5300 Introduction to Speech-Language Pathology Cr. 3
Speech-language pathology in clinical and educational settings; classification of communication disorders and related management strategies. Offered Every Term.

SLP 5310 Clinical Methods in Communication Disorders Cr. 3
Procedures and materials for clinical diagnosis of articulatory, language, rhythm, and voice deficits of organic and non-organic causation. Offered Fall, Winter.
Prerequisites: SLP 5080 with a minimum grade of C (may be taken concurrently), SLP 5090 with a minimum grade of C (may be taken concurrently), and SLP 5300 with a minimum grade of C

SLP 5320 Normal Language Acquisition and Usage Cr. 3
Language development in children and the associated areas of emotional and motor development; language stimulation techniques and programs. Offered Every Term.

Course Material Fees: $60

SLP 5360 Clinical Practice in Speech-Language Pathology Cr. 3
Satisfies General Education Requirement: Writing Intensive Competency Supervised experience in application of methods of diagnosis and treatment of clinical cases. Offered Every Term.
Prerequisites: SLP 5310 with a minimum grade of B, SLP 6460 with a minimum grade of B, and SLP 6480 with a minimum grade of B
Course Material Fees: $60
Repeatable for 6 Credits

Wayne State University Graduate Bulletin 2022-2023 749
SLP 6360 Advanced Clinical Practice in Speech-Language Pathology Cr. 3
Supervised experience in application of methods of diagnosis and treatment of clinical cases. Offered for graduate credit only. Offered Every Term.
Prerequisite: SLP 5360 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $60
Repeatable for 12 Credits

SLP 6460 Language and Phonological Disorders Cr. 3
Introduction to the clinical management of articulation and language disorders. Offered Fall, Winter.
Prerequisites: SLP 5080 with a minimum grade of C (may be taken concurrently), SLP 5300 with a minimum grade of C, and SLP 5320 with a minimum grade of C

SLP 6480 Organic and Fluency Disorders Cr. 3
Introduction to the clinical management of cleft palate, voice, and stuttering disorders. Offered Fall, Winter.
Prerequisites: SLP 5080 with a minimum grade of C (may be taken concurrently), SLP 5300 with a minimum grade of C, and SLP 5320 with a minimum grade of C

SLP 6640 Language Development and Disorders: Infants and Preschool Children Cr. 3
Theory, assessment and intervention with young children and their families. Emphasizes clinical problem solving, diagnosis, prevention and management in the context of cognitive, linguistic and neurological development. Offered for graduate credit only. Offered Fall.
Prerequisite: SLP 5300 with a minimum grade of C+ and SLP 5320 with a minimum grade of C+
Restriction(s): Enrollment is limited to Graduate level students.

SLP 7000 Research Methods in Communication Disorders Cr. 1
Introduction to methods of research design and methods of analysis (quantitative and qualitative) in speech and hearing sciences and disorders. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

SLP 7100 Research Methods: Evidenced- Based Practice Cr. 1
Using evidence-based practice in communication disorders and on methods for conducting original research. Offered Winter.
Prerequisite: SLP 7000 with a minimum grade of C+
Restriction(s): Enrollment is limited to students with a major in Communication Sci & Disorders or Speech-Language Pathology; enrollment is limited to Graduate level students.

SLP 7155 Special Topics in Communication Disorders Cr. 1-4
Lecture and discussion of special topics in communication disorders across the lifespan. Offered Fall.
Prerequisite: SLP 6360 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 4 Credits

SLP 7320 Professional Issues in Speech-Language Pathology Cr. 1
Practice issues, including ethics, scope of practice, multicultural concerns, professional conduct, reimbursement, and professional resources. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

SLP 7360 Internship in Speech Pathology Cr. 6
Advanced professional experience in clinical speech language pathology. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

SLP 7380 Clinical Process in Speech-Language Pathology Cr. 3
Development of clinical skills and knowledge in diagnostic and treatment processes. Introduction to professional issues, counseling and ethical practices in speech-language pathology practice. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $10
Repeatable for 9 Credits

SLP 7520 Counseling in Speech-Language Pathology Cr. 1
Basic counseling principles and techniques applied to patients and their family members during evaluation and treatment of communication and swallowing disorders. Offered Spring/Summer.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Special Educ-Speech Pathology or Speech-Language Pathology; enrollment is limited to Graduate level students.

SLP 7590 Dysphagia Cr. 3
Assessment and management of neurologic and mechanical swallowing disorders in children and adults. Offered Spring/Summer.
Prerequisite: SLP 5090 with a minimum grade of C+
Restriction(s): Enrollment is limited to Graduate level students.

SLP 7600 Phonological Disorders Cr. 3
Restriction(s): Enrollment is limited to Graduate level students.

SLP 7610 Stuttering Cr. 3
Restriction(s): Enrollment is limited to Graduate level students.

SLP 7620 Voice Disorders Cr. 2-3
The etiology, diagnosis and treatment of voice disorders in children and adults. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

SLP 7621 Craniofacial Syndromes Cr. 2
Theoretical and applied issues in resonance disorders that result from oral clefting and other craniofacial syndromes. Offered Spring/Summer.
Restriction(s): Enrollment is limited to students with a major in Speech-Language Pathology; enrollment limited to students in the MA in Liberal Arts & Sciences program; enrollment is limited to Graduate level students.

SLP 7630 Neuroscience of Communication Disorders Cr. 3
Neuroscience, neurophysiology, neuropsychology, neuroimaging, normal aging processes and neurodevelopment in communication sciences and disorders. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: AUD 7630

SLP 7640 Language Disorders in the School-Age Population Cr. 3
Assessment and intervention in assessment, diagnosis, treatment, and management of language and speech disorders in school-age populations. Emphasis on service delivery in context of curriculum and role of speech-language pathologist in school-based practice. Offered Fall.
Prerequisite: SLP 6640 with a minimum grade of C+
Restriction(s): Enrollment is limited to Graduate level students.

SLP 7660 Neuromuscular Speech Disorders Cr. 3
Theory, assessment and intervention in neurologic speech disorders in children and adults (dysarthria, acquired apraxia of speech). Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

SLP 7680 Acquired Linguistic and Cognitive Disorders in Adults Cr. 4
Restriction(s): Enrollment is limited to Graduate level students.
SLP 7700 Advanced Research Methods in Communication Disorders Cr. 1
Development of advanced research writing skills, for presentation of research in written and oral format. Development of research presentation skills; presentation of research project in departmental forum. Offered Winter.
Prerequisite: SLP 7000 with a minimum grade of C+
Restriction(s): Enrollment is limited to Graduate level students.

SLP 7990 Directed Study Cr. 1-9
Graduate study in areas not covered in scheduled curriculum, including library and field work. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

SLP 7991 Directed Study: PhD Cr. 1-9
Directed research for major, and pilot work for dissertation. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major in Speech-Language Pathology; enrollment is limited to Graduate level students; enrollment limited to students in a Doctor of Philosophy degree.
Repeatable for 9 Credits

SLP 7999 Master's Essay Direction Cr. 1-3
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students.

SLP 8390 Seminar in Speech-Language Pathology Cr. 3
Topics to be announced in Schedule of Classes. No topic may be repeated for credit. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 18 Credits

SLP 8999 Master's Thesis Research and Direction Cr. 1-8
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students.
Repeatable for 8 Credits

SLP 9990 Pre-Doctoral Candidacy Research Cr. 1-8
Research in preparation for doctoral dissertation. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

SLP 9991 Doctoral Candidate Status I: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

SLP 9992 Doctoral Candidate Status II: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: SLP 9991 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

SLP 9993 Doctoral Candidate Status III: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: SLP 9992 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

SLP 9994 Doctoral Candidate Status IV: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: SLP 9993 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

SLP 9995 Candidate Maintenance Status: Doctoral Dissertation Research and Direction Cr. 0
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $402.01
Repeatable for 0 Credits

**SOC - Sociology**

SOC 1010 Understanding Human Society Cr. 3
Satisfies General Education Requirement: Social Inquiry, Social Sciences
Analysis of basic sociological concepts and principles to give the student an understanding of the perspective that sociology brings to the study of human society. Offered Every Term.

SOC 1020 Social Problems Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences
Consideration of major contemporary social problems which reveal structural strains, value conflicts, deviations and changes in society. Analysis of socio-cultural factors creating problems and of possible solutions. Offered Every Term.

SOC 2050 The Study of Non-Violence Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Intellectual and social roots of non-violence and the practice of non-violence in different people's life styles. Historical and political forces and movements related to non-violence. (Some sections linked to Peace and Justice Learning Community.) Offered Every Term.
Equivalent: HIS 2530, PCS 2050, PS 2550

SOC 2100 Topics in Sociology Cr. 3
Specialized and topical studies of sociological themes. Topics to be announced in Schedule of Classes. Offered Intermittently.
Repeatable for 15 Credits

SOC 2200 Sociology as a Vocation I Cr. 2
Introduces students to the sociological literacy framework, the curriculum in the sociology major, the potential career paths that sociology majors can pursue, and sociology as an academic discipline and a vocation rather than just a major. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Sociology or Sociology Honors.

SOC 2201 Race Relations in Metro Detroit Cr. 3
This course introduces how race relations are intertwined with the historical trajectory and social processes Metro Detroit. It provides historical and contemporary data about racial inequality and segregation in Metro Detroit. It also considers the role of various social institutions (e.g., educational system, religious institutions, criminal justice system) in resisting and perpetuating racial inequalities in Metro Detroit. Offered Yearly.

SOC 2202 Gendered Worlds Cr. 3
Introduces the ideas that have been central to the sociological study of gender and society. Describes historical and contemporary gender inequalities, the role of various social institutions in perpetuating gender inequality, the social construction of gender, and the way gender roles vary both historically and across cultures. Offered Yearly.

SOC 2203 Social Psychology Cr. 3
Satisfies General Education Requirement: Social Inquiry, Social Sciences
Introduction to the sociological study of social psychology. This course describes the sociological aspect of the self and explores how individuals experience the self in relation to society. Offered Yearly.

SOC 2204 Outsiders and Deviants Cr. 3
Provides an overview of the sociological study of deviance, emphasizing crime and other deviant behaviors and conditions. Offered Yearly.
Equivalent: CRJ 2204
SOC 2205 Sociology of the Environment Cr. 3
Provides an introduction to the sociology of the environment, the study of the interrelationships of human social systems and the environment, with a primary focus on the social aspects of environmental concerns. Offered Yearly.

SOC 2206 Political Sociology Cr. 3
Examines the sociology of politics and explores sociological analysis of political processes in the United States. Offered Every Other Year.
Equivalent: PS 2206

SOC 2207 Sociology of Development Cr. 3
This course covers the major sociological approaches to issues of development and social change, with a focus on the problems and prospects facing the Third World. Offered Yearly.

SOC 2208 Sociology of Sport Cr. 3
Satisfies General Education Requirement: Social Inquiry
Examines the relationship between sport and society, with an emphasis on the relationship of sport to social variables, social institutions, and social problems. Offered Yearly.

SOC 2209 Sociology of Religion Cr. 3
Satisfies General Education Requirement: Social Inquiry
Explores current sociological debates as they pertain to the complex and multi-faceted relationship between religion and other social institutions. Offered Yearly.

SOC 2210 Sociology of Health and Medicine Cr. 3
Satisfies General Education Requirement: Social Inquiry
Designed to introduce the field of medical sociology. The course investigates the impacts of social and institutional variables on health behaviors and outcomes. It also considers the cultural, organizational, and economic functioning of various healthcare institutions. Offered Yearly.

SOC 2245 Blacks and Sport in the United States Cr. 3
The intersection between race and sport in the United States, examined to better understand the role of sports in our socialization and cultural construction. Offered Every Other Year.
Restriction(s): Enrollment is limited to Undergraduate level students.
Equivalent: AFS 2245

SOC 2300 Social Inequality Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences
Structure and process in society, institutions, communities, and organizations. Scientific analysis of organization, conflict, and change in the economy, government, religion, education, and family. Offered Yearly.

SOC 2500 Introduction to Urban Studies Cr. 4
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences
In this introductory urban studies course, students learn about the historic and contemporary forces driving urbanization with an emphasis on US cities and urban areas; the effects of these forces on diverse population groups; and challenges facing cities and strategies to resolve them. Although the course will draw from international contexts, wherever possible, experiences of and from the Detroit metro—city and suburbs—will be used to illustrate particular themes. Student learning centers on an examination of issues related to diversity, equity, and inclusion, and broader social phenomena. Offered Every Term.

SOC 2510 People on the Move Cr. 3
Satisfies General Education Requirement: Global Learning Inquiry, Social Inquiry, Social Sciences
Birth, death and migration investigated with respect to their social causes and consequences for society and human behavior. International migration will be a major focus of this course, since populations are always shifting in global society. Population growth and development will also be covered. Offered Every Other Year.

SOC 2600 Race and Racism in America Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Examination of the nature and practice of racism in American society from its historical foundations to its contemporary institutional forms. Offered Every Other Year.
Equivalent: AFS 2600

SOC 3050 Basic Sociological Theory Cr. 3
Introduction to sociological theory from a general conceptual framework. Major concepts, theoretical positions and recent trends in theoretical sociology will be considered. Offered Fall, Winter.
Prerequisite: SOC 2200 with a minimum grade of P

SOC 3101 Special Topics in Sociology Cr. 1
Covers introductory topics in Sociology. Offered Intermittently. Repeatable for 3 Credits

SOC 3200 Methods of Social Research Cr. 3
An elementary research methods course that covers the process of doing social research, including research design, data collection techniques, processing and analysis of data, as well as the interpretation of data. Offered Every Term.

SOC 3220 Introduction to Social Statistics Cr. 3
Introduction to major concepts in social statistics including level measurement, distributions, probability and bivariate hypothesis testing. Discussion of the role that statistics play in discussions and popular understandings of social issues. Offered Yearly.

SOC 3400 Exploring Marriage and Other Intimate Relationships Cr. 3
Students examine, from a sociological perspective, issues concerning intimate relationships. Major emphasis on description and analysis of changes in monogamous marriage. Non-traditional marital forms also examined. Focus upon the intimate relationships as they relate to personal, functional concerns of the student. Offered Every Other Year.

SOC 3440 American Medicine in the Twentieth Century Cr. 3
Major historical benchmarks in the making of the medical system in the U.S., including developments in medicine and medical knowledge, as well as social and political factors that influenced their reception and implementation. Offered Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Equivalent: HIS 3440

SOC 3710 Learning About Your Community Through Research Cr. 4
Blend of participatory, in-service, and classroom work to enhance undergraduate research skills by linking social science theories and concepts to hands-on community-based learning opportunities. Offered Fall.
Restriction(s): Enrollment is limited to Undergraduate level students.
Equivalent: LAS 3710

SOC 3840 Corrections Cr. 3
Description and analysis of legal, social and political issues affecting contemporary correctional theory and practice. Topics include: history of corrections, function and social structure of correctional institutions, institutional alternatives including diversion, probation and parole. Field trips to institutions and community correctional settings normally required. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Equivalent: CRJ 3350
SOC 3900 LGBTQ Health Cr. 3
Centers on LGBTQ voices and takes an intersectional socioecological approach to exploring social determinants of health, and a range of health outcomes and challenges in LGBTQ communities; and the implications for public health research, policy, and practice to improve LGBTQ health. Introduces students to key conceptual frameworks for understanding LGBTQ health across the lifespan and promoting health equity. Offered Yearly.
Prerequisites: PH 2100 with a minimum grade of C, PH 3100 with a minimum grade of C, GSW 2500 with a minimum grade of C, GSW 2600 with a minimum grade of C, SOC 1020 with a minimum grade of C, SOC 2202 with a minimum grade of C, or SOC 2300 with a minimum grade of C.
Equivalent: PH 3900

SOC 3990 Directed Study Cr. 1-3
For students who show evidence of ability and interest, and desire to do advanced reading. Part-time and student instructors are ineligible to supervise directed study. Offered Every Term.
Repeatable for 6 Credits

SOC 4010 Sociology as a Vocation II Cr. 1
Provides an opportunity for students to think retrospectively about their experiences in sociology and to think prospectively about their next steps in their careers. Students will systematically document the courses they took, projects they participated in, and assignments they completed in the past to build a personal academic portfolio. Offered Fall, Winter.
Prerequisite: SOC 2200 with a minimum grade of P
Restriction(s): Enrollment limited to students with a class of Junior or Senior.

SOC 4201 Seminar in Race and Ethnicity Cr. 3
Introduces contemporary, empirical, and sociological research within the sociology of race and ethnicity. Offered Yearly.

SOC 4202 Seminar in the Sociology of Gender Cr. 3
Provides an overview of the current state of knowledge in the sociology of gender with an emphasis on recent empirical research. Offered Yearly.

SOC 4203 Seminar in Global Inequality and Development Cr. 3
The primary goal of this course is to introduce students to the sociological research on global inequality and development with an emphasis on recent empirical studies. Offered Yearly.

SOC 4204 Seminar in Aging and the Life Course Cr. 3
Provides students with an overview of some major issues and research findings relating to aging and the life course with an emphasis on recent empirical studies. Offered Yearly.

SOC 4205 Seminar in Medical Sociology Cr. 3
Provides students with an overview of the current state of knowledge in medical sociology with an emphasis on recent empirical papers. Offered Yearly.

SOC 4600 Internship in Sociology Cr. 3
Serves as a culminating experience honors students in sociology. Honors students in this course pursue original research under the tutelage of a faculty member of their choosing. Offered Every Term.
Prerequisites: SOC 1010 with a minimum grade of D-, SOC 2200 with a minimum grade of D, SOC 3200 with a minimum grade of D, and SOC 3000-4999 with a minimum grade of D.
Repeatable for 6 Credits

SOC 4996 Sociology Honors Thesis Cr. 3
Serves as a culminating experience honors students in sociology. Honors students in this course pursue original research under the tutelage of a faculty member of their choosing. Offered Every Term.
Prerequisites: SOC 1010 with a minimum grade of D-, SOC 2200 with a minimum grade of D, SOC 3200 with a minimum grade of D, and SOC 3000-4999 with a minimum grade of D.
Restriction(s): Enrollment limited to students with a class of Junior or Senior; enrollment is limited to students with a major in Sociology Honors.
Equivalent: SOC 4996
Repeatable for 6 Credits

SOC 5010 Selected Sociological Topics Cr. 1-4
Topics to be announced in Schedule of Classes. Offered Yearly.
Repeatable for 20 Credits

SOC 5020 End-of-Life Issues Cr. 3-4
Physical, spiritual, legal, economic, political, cultural, and ethical issues at the end of life, examined as stories about individuals, families, and communities. Offered Yearly.

SOC 5360 Introduction to Medical Sociology Cr. 3
Topics include the definition of illness, the distribution of death and disease in society, health promotion, help-seeking behavior, socialization of health care providers, the delivery of health care, and health care reform. Offered Yearly.

SOC 5400 The Family Cr. 3
An introduction to the sociology of the family: forms of organization, interaction patterns throughout the life cycle, ethnic and cultural differences, conflict and change. Especially useful for students in social work, counseling, family and consumer resources, nursing and education, as well as the other social sciences. Offered Every Term.

SOC 5410 Marriage and Family Problems Cr. 3
Social and historical context of marriage and family problems. Power, conflict, communication and crisis as they relate to the nature and dynamics of the family. Problem solving techniques; specific family problems: divorce or child abuse. Offered Every Term.

SOC 5570 Race Relations in Urban Society Cr. 3
Theoretical orientations applied analytically to enhance an understanding of the patterned structures of privilege in society which are based on race. Inequality, segregation-desegregation, pluralism; social structural frameworks; some attention to social-psychological aspects of topics such as prejudice and racism. Offered Intermittently.
Equivalent: AFS 5570

SOC 5580 Law and the African American Experience Cr. 4
In-depth examination of the African American experience with law in the U.S.; historical development of the U.S. Constitution; legal barriers to equality and the influence of race on the law; use of law as a political instrument; participation of blacks in the legal process; comparisons with other countries. Offered for undergraduate credit only. Offered Every Other Year.
Restriction(s): Enrollment is limited to Undergraduate level students.
Equivalent: AFS 5580
SOC 5700 Seminar in Social Inequality Cr. 3
Sociological framework for analyzing several inequalities in contemporary U.S. society. Race, class, and gender as individual topics and as they intersect in society; inequalities in personal life experience. Offered Yearly.

SOC 5760 Health and Life Course Cr. 3
Personal, interpersonal and institutional significance of aging and age categories. Sociological dimensions of aging based on physical, social-psychological, and demographic backgrounds. Offered Yearly.

SOC 5800 Topics in the Sociology of Sex and Gender Cr. 3
Explores the sociology of gender, as one of the most basic organizing mechanisms in society. Covers a broad overview of gender, including the following: themes: feminist theory, bodies, masculinities, work, work & family, families, migration, and politics. Offered Yearly.
Prerequisite: SOC 4050 with a minimum grade of D-

SOC 5870 Violence in the Family Cr. 3
Analysis of the nature of violence in family and family-like relationships; prevalence and types of family violence; social and social psychological correlates of violence in families. Offered Yearly.

SOC 6050 Sociological Theory I Cr. 3
Sociological theorists before 1920, their thought and the historical context in which such thought developed. Offered Yearly.
Prerequisite: SOC 2000 with a minimum grade of C-

SOC 6060 Sociological Theory II Cr. 3
Prerequisite: SOC 6050

SOC 6070 Sociological Analysis Cr. 3
An intensive examination of a wide range of sociological studies, designed to acquaint the student with how sociologists deal with important theoretical issues, using a variety of methods and sources of data. Particular attention will be paid to the logical coherence of the studies and to the fit between data and interpretation. Offered Every Other Year.
Prerequisite: SOC 6050 with a minimum grade of B

SOC 6280 Social Statistics Cr. 3
Basic techniques for organizing and describing social data, measures of central tendency and dispersion, probability theory and hypothesis testing, tests of significance and confidence intervals, measures of association for two variables, analysis of variance. Offered Yearly.

SOC 6750 Sociology of Urban Health Cr. 3
Review of theories and research on health status and health care delivery issues in urban communities. Offered Intermittently.

SOC 7000 Internship in Applied Sociology Cr. 3
Guided internship with Detroit metropolitan private and public organizations arranged and supervised through the Program in Applied Sociology and Urban Studies. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

SOC 7010 Special Topics Cr. 1-16
Topics to be announced in Schedule of Classes. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students. Repeatable for 16 Credits

SOC 7020 End-of-Life Issues Cr. 3-4
Physical, spiritual, legal, economic, political, cultural, and ethical issues at the end of life, examined as stories about individuals, families, and communities. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: ANT 7430, NUR 7515

SOC 7030 Introduction to Graduate Studies in Sociology Cr. 1
Introduction to the profession of sociology and areas of specialization. Workshops include conference presentations, mentoring, external grants, proposal development, academic job market and publishing. Offered Yearly.
Restriction(s): Enrollment is limited to students with a major in Sociology; enrollment is limited to Graduate level students.

SOC 7050 Comparative Schools of Sociological Theory Cr. 3
This course will analyze and compare diverse theories and schools from a broad perspective. It examines early origins of sociological thought and progression of sociological theory of the 19th and 20th centuries. By studying the writings of classical social theorists like Marx, Weber, Durkheim, Du Bois, and early feminists, it will connect with 20th century social theorists (e.g., Simmel, Mead, Cooley, Parsons, Goffman, Bourdieu, Foucault) and major schools of thought (e.g., structural functionalism, symbolic interactionism, phenomenology). Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

SOC 7100 Women and Health Cr. 3
Analysis of sociological issues surrounding women and health, including gender differences in morbidity and mortality, the use of health services, interaction with providers, gender differences in mental disorder, alcoholism, drug abuse, gender roles and the professions of physicians and nurses. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

SOC 7200 Advanced Survey of Approaches and Techniques of Social Research Cr. 3
Advanced conceptual treatment of the primary concerns of social research: perspectives and types of social research, research designs, sampling techniques, data-gathering techniques and instrument construction, data analysis and presentation, interpretation and reporting of the results. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

SOC 7220 Seminar in Survey Research Methods Cr. 3
Hands-on approach to understanding the strengths and potential pitfalls of the survey method. Topics include: design of survey research (including theory, measurement and ethics), sampling (including special populations), questionnaire development and survey administration. Offered Intermittently.
Prerequisite: SOC 6800 with a minimum grade of C and SOC 7200 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SOC 7260 Qualitative Sociology Cr. 3
Introduction to qualitative theories and methods through a series of research projects. Students collect their own data, process and analyze it. Projects are presented in class; relevant literature and debates are read and discussed. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

SOC 7270 Analysis of Evaluation Data Cr. 3
Focuses on the analysis of causal effects for program evaluation data using both experimental and observational data. Models for the estimation of causal effects from experimental design are presented, including models for individual and cluster-level randomized trials, models for factorial and fractional experimental designs, and models for implementation fidelity. Models for the estimation of causal effects from non-experimental observational data include regression discontinuity analysis, propensity score methods, inverse probability weighting, sensitivity analysis to estimate selection bias and the estimation of effect bounds. Offered Intermittently.
Prerequisites: SOC 6280 with a minimum grade of B, SOC 7200 with a minimum grade of B, SOC 7260 with a minimum grade of B, and SOC 7290 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.
SOC 7280 Analysis of Complex Survey Data Cr. 3
Provides students the tools for analyzing complex, and often longitudinal, data sets with the use of statistical software packages such as SPSS and SAS. Offered Intermittently.
Prerequisites: SOC 6280 with a minimum grade of B, SOC 7200 with a minimum grade of B, SOC 7260 with a minimum grade of B, and SOC 7290 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.

SOC 7290 Advanced Social Statistics Cr. 3
Multiple and partial correlation and multiple regression, dummy variable analysis, analysis of covariance, causal models for multi-dimensional contingency tables, path analysis techniques, introductory factor analysis, Markov chains, selected additional topics. Offered Yearly.
Prerequisite: SOC 6280 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.

SOC 7500 Advanced Qualitative Methods Cr. 3
Advanced analysis of qualitative methods, including but not limited to in-depth interviewing, focus groups, ethnography, discourse analysis, field research, narrative analysis. Stages of sampling, data collection, coding, and data analysis. Offered Intermittently.
Prerequisite: SOC 7260 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.

SOC 7510 Advanced Statistics II Cr. 3
Explores three of the most widely used advanced statistical methods in the social sciences: hierarchical linear modeling (HLM), also known as multi-level modeling; event history analysis (EHA); and structural equation modeling (SEM). We will also learn logistic regression and possible extensions to other categorical outcome techniques. Each of these techniques has been developed to handle situations, data structures, outcomes, and research questions that are difficult, inappropriate, or impossible to handle using typical regression models (both linear and categorical). Offered Intermittently.
Prerequisite: SOC 6280 with a minimum grade of B and SOC 7220 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.

SOC 7520 Advanced Field Research Cr. 3
This graduate course is designed as a practice oriented, interactive seminar. Students are expected to select their own social group or geographic location in the Detroit Metro area and perform both participant observations and interviewing. We explore issues and dilemmas encountered in ethnographic research, including ethics, choosing a site, entry/access/exit, analyses, and writing about your data. This course is far more focused on the practice of doing ethnography than it is on exploring the philosophical or methodological justifications of this approach over other methodologies. Consequently, students should begin this course with an idea for a qualitative study so the material is relevant to a particular project. Offered Intermittently.
Prerequisite: SOC 7260 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.

SOC 7530 Social Network Analysis Cr. 3
Social Network Analysis (SNA) has roots in sociology and anthropology, and representative early works will be examined. Recent interdisciplinary endeavor with contributions from physicists, computer scientists, mathematicians, and statisticians make the network paradigm more accessible to empirical researchers now, and these will be introduced. Specific network applications to be discussed include health networks, collaboration networks, online social networks, communication networks, and terrorist networks. The course materials are intended to be of interest to students from a wide range of disciplinary backgrounds, including sociology, anthropology, criminal justice, public health, statistics, physics, computer science, and related fields. Offered Intermittently.
Prerequisite: SOC 6280 with a minimum grade of B and SOC 7290 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.

SOC 7760 Health and Life Course Cr. 3
Focuses on life course theory, methods, and their application. Working from a life course perspective, students will learn various theoretical and methodological approaches to analyze health as well as explain health inequality and disparities. Key concepts, such as age, period, and cohort, found in the life course literature will be covered. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

SOC 7770 Seminar in Medical Sociology Cr. 3
Converging issues of theory, research and practice in general hospitals, mental hospitals, and nursing homes. Structure of institutions and the adaptation of individuals within them. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.

SOC 7780 Topics in the Sociology of Health and Illness Cr. 3
Considers the influence of social environment and social experience on health and illness, emphasizing the unique perspectives sociology offers in the larger inter-disciplinary discussion of health and focusing on differences in health across social groups. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

SOC 7800 Topics in the Sociology of Sex and Gender Cr. 3
Explores the sociology of gender, as one of the most basic organizing mechanisms in society. Covers a broad overview of gender, including the following: themes: feminist theory, bodies, masculinities, work, work & family, families, migration, and politics. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

SOC 7810 Race Relations in Urban Society Cr. 3
Covers the historical and contemporary effects of racial segregation on racial inequality in U.S. urban environments, with a special focus on Metro Detroit. The course also assesses the role social institutions like religious organizations, politics, economics, education, and the family have played in pushing for greater racial and social equality in the region. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

SOC 7820 International Migration Cr. 3
Offers a comprehensive overview of the key current theoretical and empirical debates in the study of international migration. The goal is to explore the possibilities of a comparative (historical and cross-national) research program in the field, linking North America, European and other global experiences of migration. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
SOC 7830 Seminar in Political Sociology Cr. 3
At its core, the field of political sociology seeks to understand the societal determination of political processes, outcomes, and institutions. Political sociology also concerns relationships between states and civil societies, how best to conceptualize power and understand its workings. In this course, we will study how states form and transform society through interventions such as membership and citizenship laws, social welfare policies, and inclusion and exclusion of particular groups in political processes. Students will learn about the structure of democracy and the ways in which civil society groups influence and contest the state through social movements, formal and informal institutions, and the media which may lead to policy change, regime transitions, wars, and revolutions. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.
SOC 7840 Topics in the Sociology of Race and Ethnicity Cr. 3
Sociological scholarship in the area of race and ethnicity is robust and varied both methodologically and topically. The diversity of scholarship in this area is expected given the range of micro-, meso-, and macro-level implications that are associated with individuals’ self-identified and socially ascribed race and ethnicity. In recognition of such diversity this course will offer students the opportunity to acquire in-depth knowledge of the methodological, empirical, and theoretical literature related to a specific topics that are located within the broad area of sociology of race and ethnicity. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students. Repeatable for 6 Credits
SOC 7860 Global Social Inequality Cr. 3
This course examines social inequality around the world and its relationship to globalization, which refers to the increasing connectedness of social and economic life across borders. Global social inequality is the systematic differences in the distribution of resources among people living in different areas of the globe. Using a critical lens of intersectionality to understand the nuances of global social inequality, we consider the following: (1) What kinds of inequalities exist? (2) Why do they exist? (3) How does gender, race/ethnicity, class, and sexuality play out in a global context? We start from the premise that these are more than individual characteristics; they are socially constructed systems of inequality that intertwine with each other, and with other social inequalities like age, ability, and nationality. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.
SOC 7990 Directed Study Cr. 1-6
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students. Repeatable for 6 Credits
SOC 7995 Directed Teaching in Sociology Cr. 1
Students work under the direction of a member of the graduate faculty; planning lectures, handling class discussions, preparing exams, and grading introductory sociology students. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
SOC 7999 Master's Essay Cr. 1-3
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters, enrollment is limited to Graduate level students.
SOC 8200 Mixed Methods Cr. 3
Exposes students to research on mixed methods including methodologies, research design, and empirical applications in published work. Half of the course will focus on learning about the most commonly utilized qualitative and quantitative methodologies and the other half will focus on mixed methods approaches. Offered Intermittently.
Prerequisite: SOC 6280 with a minimum grade of B and SOC 7290 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.
SOC 8250 Longitudinal Data Analysis Cr. 3
Examines common models of longitudinal data analysis in sociology, which are also commonly used within the broader social sciences. Key topics covered in this class include linear panel analysis, event history analysis, and the analysis of repeated cross-sectional data. Offered Intermittently.
Prerequisite: SOC 6280 with a minimum grade of B and SOC 7290 with a minimum grade of B
Restriction(s): Enrollment is limited to Graduate level students.
SOC 8700 Seminar in Social Inequality Cr. 3
Sociological framework for analyzing several inequalities in contemporary U.S. society. Race, class, and gender as individual topics and as they intersect in society; inequalities in personal life experience. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
SOC 8710 Advanced Seminar in Race/Ethnicity Cr. 3
Topics include advanced theoretical and methodological debates in the sociology of race and ethnicity, an analysis of the social construction of race, and the structural implications of subordination, discrimination and privilege. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
SOC 8720 Advanced Seminar in Sex/Gender Cr. 3
Topics include advanced theoretical and methodological debates in the sociology of sex and gender, an analysis of the social construction of gender, and the structural implications of subordination, discrimination and privilege. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
SOC 8730 Demography of Aging Cr. 3
This seminar is focused on the demography of aging from an interdisciplinary health perspective. Population aging is expected to be one of the major demographic changes affecting social institutions throughout the world in the 21st century. To develop a clear understanding of the patterns, causes, and consequences of population aging, students will be introduced to theoretical and empirical population health and aging research from fields of demography, sociology, economics, epidemiology, psychology, and public health. Topics covered include basic foundations of population aging, including historical and macro-patterns as well as trends in mortality, health, and disability. Attention will also be given to possible mechanisms and disparities underlying these population patterns of health and aging. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
SOC 8801 Topics in the Sociology of Labor Cr. 3
Seminar: advanced topics in sociology of work and labor. Topics will include: social nature of work, transformation of the labor process, forms of control in the workplace, resistance, gender and race in the workplace. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students. Repeatable for 6 Credits
SOC 8802 Topics in Urban Sociology Cr. 3
Seminar topics in the area; may include: urban enclaves, suburbanization, world cities, gentrification, integration/segregation, urban environmentalism, health in cities. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students. Repeatable for 6 Credits

SOC 8803 Globalization, Gender, and Work Transformations Cr. 3
Reviews recent scholarship on globalization, gender and work transformation in the global north and south. Putting gender at the center of globalization discourses highlights the historical and cultural variability of gender relations intersecting with class, race and nationality, and highlights the impact of restructuring on workers, organizations and institutions at the local, national and regional levels. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.

SOC 8805 Sociology of Urban and Labor Studies Cr. 3
Graduate seminar which provides the theoretical foundations of the area of urban and labor sociology. Topics include: the labor process, labor markets, labor movements, globalization and work, race and inequality in urban contexts, power and politics, and migration. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students. Repeatable for 6 Credits

SOC 8990 Directed Study Cr. 2-6
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students. Repeatable for 6 Credits

SOC 8999 Master's Thesis Cr. 1-8
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students. Repeatable for 8 Credits

SOC 9990 Pre-Doctoral Candidacy Research Cr. 1-8
Research in preparation for doctoral dissertation. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students. Repeatable for 12 Credits

SOC 9991 Doctoral Candidate Status I: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

SOC 9992 Doctoral Candidate Status II: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: SOC 9991 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

SOC 9993 Doctoral Candidate Status III: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: SOC 9992 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

SOC 9994 Doctoral Candidate Status IV: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Prerequisite: SOC 9993 with a minimum grade of S
Restriction(s): Enrollment is limited to Graduate level students.

SOC 9995 Candidate Maintenance Status: Doctoral Dissertation Research and Direction Cr. 0
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $402.01 Repeatable for 0 Credits

SPA 1010 Elementary Spanish I Cr. 4
Introduction to the Spanish language and Hispanic culture through interactive and communicative reading, writing, listening and speaking activities to develop language and cultural proficiency. No experience with Spanish is needed. Offered Every Term.
Course Material Fees: $5

SPA 1020 Elementary Spanish II Cr. 4
Continuing study of the Spanish language and Hispanic culture through interactive and communicative reading, writing, listening and speaking activities to develop language and cultural proficiency. Offered Every Term.
Prerequisites: SPA 1010 with a minimum grade of C-
Course Material Fees: $5

SPA 1060 Elementary Spanish I and II Cr. 6
Designed for students with previous experience with Spanish or another Romance language who would like an abbreviated review before continuing their studies. The first third of the semester is an accelerated review of SPA 1010; the remainder of the semester covers SPA 1020 coursework. Offered Every Term.
Course Material Fees: $5

SPA 2010 Intermediate Spanish Cr. 4
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Continuing study of the Spanish language and Hispanic culture through interactive and communicative reading, writing, listening and speaking activities to develop language and cultural proficiency. Completion of this course fulfills the General Education requirement for foreign language and culture. Offered Every Term.
Prerequisites: SPA 1020 with a minimum grade of C- or SPA 1060 with a minimum grade of C-
Course Material Fees: $5

SPA 2025 Cultural Connections, Grammar and Composition I Cr. 3
Cultural readings and situations to continue to improve ability to speak, read, write and listen in the Spanish language. Offered Every Term.
Prerequisites: SPA 2010 with a minimum grade of C
Course Material Fees: $5

SPA 2400 Chicano/a Literature and Culture Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only), Diversity Equity Incl Inquiry, Global Learning Inquiry Examination of Chicano/a literature. Themes and figures in a social and historical context. Offered Every Other Year.
Equivalent: LAS 2100

SPA 2500 Puerto Rican Literature and Culture Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Civ and Societies (CLAS only), Diversity Equity Incl Inquiry Examination of Puerto Rican literature. Themes and figures in a social and historical context. Offered Every Other Year.
Equivalent: LAS 2110

SPA 2700 Anguish and Commitment: European Existentialist Literature Cr. 3-4
Satisfies General Education Requirement: Cultural Inquiry, Philosophy Letters
A team-taught interdisciplinary study in English of representative works by European existentialist writers: Dostoevsky, Hesse, Kafka, Pirandello, Sartre, Camus and Unamuno. Offered Every Other Year.
Equivalent: FRE 2700, GER 2700, ITA 2700
SPA 3025 Cultural Connections, Grammar and Composition II Cr. 3
Cultural readings and situations to continue to improve ability to speak, read, write and listen in the Spanish language, with an emphasis on vocabulary building and critical thinking. Offered Every Term.
Prerequisites: SPA 2025 with a minimum grade of C

SPA 3040 Commercial Spanish Cr. 3
Commercial Spanish for basic business, legal and banking transactions and correspondence; terminology used in banking, commerce, accounting and marketing; emphasis on translation and format of commercial documents and letters. Offered Yearly.
Prerequisites: SPA 2025 with a minimum grade of C

SPA 3050 Spanish for the Health Care Profession Cr. 3
General review of pertinent grammar and specific vocabulary groups relating to specific tasks in the health care professions. Discussions leading to cultural competencies. Exploration of cultural and social factors for communicating with Spanish-speaking patients. Offered Yearly.
Prerequisites: SPA 2025 with a minimum grade of C

SPA 3200 Conversation Cr. 3
Informal class conversations, debates and oral reports to reinforce grammatical principles and to improve pronunciation through practice and imitation. Offered Yearly.
Prerequisites: SPA 3025 with a minimum grade of C

SPA 3300 Introduction to Cultural and Literary Analysis Cr. 3
Discussion of literary and cultural readings from Spain and Spanish America; vocabulary building; speaking and reading emphasized. Offered Every Term.
Prerequisites: SPA 3025 with a minimum grade of C or SPA 3100 with a minimum grade of C

SPA 3800 Spanish for Heritage Learners Cr. 3
Prerequisites: SPA 2025 with a minimum grade of C
Equivalent: LAS 3800

SPA 4610 Introduction to Early Modern Spanish Literature Cr. 3
Spanish literature from the Renaissance to 1700. Offered Yearly.
Prerequisites: SPA 3300 with a minimum grade of C

SPA 4620 Introduction to Modern and Contemporary Spanish Literature Cr. 3
Spanish literature from 1700 to the present. Offered Yearly.
Prerequisites: SPA 3300 with a minimum grade of C

SPA 4630 Introduction to Colonial Latin American Literature Cr. 3
A historically and culturally situated introduction to the literature of Early Latin America. Offered Yearly.
Prerequisites: SPA 3300 with a minimum grade of C

SPA 4640 Introduction to Modern and Contemporary Latin American Literature Cr. 3
Literature in the twentieth and twenty-first century. Offered Every Other Year.
Prerequisites: SPA 3300 with a minimum grade of C

SPA 5000 Minor Language Practicum Cr. 3
Controlled application of active language skills for students electing a Ph.D. minor in Spanish. No degree credit toward Ph.D. Offered for graduate credit only. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

SPA 5100 Advanced Composition Cr. 3
Satisfies General Education Requirement: Writing Intensive Competency
Prerequisites: SPA 3025 with a minimum grade of C

SPA 5200 Spanish Phonetics Cr. 3
A systematic study of Spanish sounds; conducted in Spanish. Offered Yearly.
Prerequisites: SPA 3025 with a minimum grade of C

SPA 5300 Advanced Grammar and Stylistics Cr. 3
Intensive study of grammar and syntax. Free composition and conversation. Conducted in Spanish. Offered Every Other Year.
Prerequisites: SPA 3025 with a minimum grade of C or SPA 3025 with a minimum grade of C

SPA 5400 Introduction to Professional and Literary Translation Cr. 3
Introduction to the practice and principles of translation, both from English to Spanish and Spanish to English, for intermediate to advanced Spanish students. Practice in translating: literary works, legal and medical documents, commercial advertisements, and other texts, while becoming familiar with the history and aspects of the theory of translation. Students will become aware of the importance of translation in areas such as cultural diplomacy, literary studies, law, business and medicine. Offered Every Other Year.
Prerequisites: SPA 3025 with a minimum grade of C

SPA 5560 Spanish American Cultures and their Traditions Cr. 3
Spanish America before and after the discovery of the New World. Art, music, customs, contemporary institutions, through films, records, newspapers, gallery visit to Detroit Institute of Art, and the text. Offered Every Other Year.
Prerequisites: SPA 3300 with a minimum grade of C

SPA 5560 Spanish American Cultures and their Traditions Cr. 3
Spanish America before and after the discovery of the New World. Art, music, customs, contemporary institutions, through films, records, newspapers, gallery visit to Detroit Institute of Art, and the text. Offered Every Other Year.
Prerequisites: SPA 3300 with a minimum grade of C

SPA 5570 Topics in Hispanic Culture or Language Cr. 3
Specific themes, genres, movements or periods. Topics to be announced in Schedule of Classes. Offered Intermittently.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C

SPA 5600 Advanced Conversation Cr. 3
Development of advanced conversation skills for Spanish majors and minors. Students will learn strategies to effectively engage in conversations, discussions, debates, and oral presentations. The course is also designed to increase students’ awareness of current cultural processes in the Hispanic world through the oral discussion and analysis of readings, cinema, digital media, and other forms of cultural production. Offered Every Other Year.
Prerequisites: SPA 3300 with a minimum grade of C

Restriction(s): Enrollment is limited to Undergraduate level students.

SPA 5990 Directed Study Cr. 1-4
Offered Every Term.
Repeatable for 8 Credits
SPA 5999 Internship in Spanish Cr. 3
Internships allow students to apply the knowledge they have acquired through the Program and to gain practical experience in their scholarly and professional areas of interest. An internship can also allow students to explore possible areas in which they would like to pursue a career. Offered Every Term.
Prerequisite: SPA 3025 with a minimum grade of C.

SPA 6400 Introduction to Hispanic Linguistics Cr. 3
Principles of linguistics and their application to Spanish. Offered Every Other Year.
Prerequisite: SPA 5200 with a minimum grade of C.

SPA 6410 Spanish Medieval Literature: Origins to 1500 Cr. 3
Main currents and masterworks of Spanish literature from its origins to 1500. (Formerly SPA 6500.) Offered Every Other Year.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.

SPA 6420 Early Modern Spanish Studies Cr. 3
 Literary genres of the early modern period (poetry and narrative: picaresque, pastoral, morisco, and chivalric). Offered Every Other Year.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.

SPA 6440 Spanish Literature of the Eighteenth Century Cr. 3
Literature of the Spanish Enlightenment; major works and literary trends and movements in the Spanish eighteenth century up to Romanticism. (Formerly SPA 6520.) Offered Every Other Year.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.

SPA 6450 Spanish Romanticism Cr. 3
Origins and development of Romanticism in Spain: theatre, poetry, costumbrismo, and other narrative. Offered Every Other Year.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.

SPA 6470 The Spanish Novel of the Twentieth Century Cr. 3
Novelists of the twentieth century, including those of the Silver Age (1900-1936) and those associated with Tremendismo, Social Realism, and the contemporary experimental novel. (Formerly SPA 6593.) Offered Every Other Year.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.

SPA 6490 Spanish Poetry of the Nineteenth and Twentieth Centuries Cr. 3
Representative figures and trends in Modern and contemporary Spanish poetry. Post-Romanticism, Symbolism, the Silver Age (1900-1936), and contemporary poetry. Offered Every Other Year.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.

SPA 6560 Cervantes Cr. 3
A detailed study of Don Quijote. Other short works of Cervantes. Offered Every Other Year.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.

SPA 6570 The Comedia Cr. 3
Analysis of plays by Lope de Vega, Tirso de Molina, Calderon, Maria de Zayas and other dramatists of Spain’s Golden Age. Offered Every Other Year.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.

SPA 6590 Genres and Topics in Peninsular Spanish Literature Cr. 3
Topics as twentieth-century Spanish theatre, the Picaresque novel, and eighteenth-century Spanish theatre, to be announced in Schedule of Classes. Offered Every Other Year.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.
Repeatable for 9 Credits

SPA 6600 Colonial Latin American Studies Cr. 3
The writing of Colonial Latin America. Cultural encounter and negotiation seen through literature, history and the arts. Offered Every Other Year.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.

SPA 6610 Latin American Novel to 1900 Cr. 3
Development of the Latin American novel in the 19th century. Offered Every Other Year.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.

SPA 6620 Latin American Novel in the 20th and 21st Centuries Cr. 3
Roots of the modern novel in Spanish America; its stages of evolution through the vanguard period into the contemporary stage, with emphasis on representative figures such as Carpentier, Cortazar, and Garcia Marquez. Offered Every Other Year.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.

SPA 6630 Spanish American Poetry Cr. 3
Major figures of the twentieth century and their texts, from the Vanguard period to contemporary poetry. Offered Every Other Year.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.

SPA 6650 Genres and Topics in Spanish American Literature Cr. 3
Topics in the literature of Spanish America, such as the short story or theatre, to be announced in Schedule of Classes. Offered Every Other Year.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.
Repeatable for 9 Credits

SPA 6700 Spanish Literature of the Silver Age: 1900-1936 Cr. 3
Writers of the first three decades of the twentieth century; current narratological theories applied to intertextual maneuvers and philosophical concepts. Offered Intermittently.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.

SPA 6710 Unamuno's Existential Fiction Cr. 3
Important novels of Miguel de Unamuno; emphasis on characters and their agonization in a circumscribed area. Offered Intermittently.
Prerequisites: SPA 4610 with a minimum grade of C, SPA 4620 with a minimum grade of C, SPA 4630 with a minimum grade of C, or SPA 4640 with a minimum grade of C.

Wayne State University Graduate Bulletin 2022-2023 759
SPA 7010 Introduction to Literary Theory Cr. 3
Graduate-level introduction to key critical perspectives, theories, problems, and questions that have informed the discussions and analyses of twentieth- and twenty-first-century literary and cultural scholars. Specific theoretical paradigms used to determine the task of textual interpretation, locate the limits of each approach, trace the emergence of subsequent theoretical paradigms, and think about how such theories might or might not be relevant in the study of specific texts. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: FRE 7010, GER 7010, ITA 7010

SPA 7510 History of the Spanish Language Cr. 3
Origins, development and linguistic status of the Spanish language in Spain and Spanish America. Offered Every Other Year.
Prerequisite: SPA 5200 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SPA 7770 Special Studies in Spanish Literature Cr. 3
Study of the works of an outstanding writer, a literary genre, or literary trends. Offered Fall, Winter.
Prerequisites: SPA 6410-6710 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

SPA 7996 Research Project Cr. 1-4
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

SPA 7999 Master's Essay Direction Cr. 1-3
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students.

SPA 8420 Seminar in Hispanic Linguistics Cr. 3
Seminar topics will vary according to the principal divisions of Spanish linguistics: phonology, morphology, lexicography, syntax, and dialectology. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
Equivalent: LIN 7320
Repeatable for 9 Credits

SPA 8510 Seminar in the Golden Age Cr. 3
Topics to be announced in Schedule of Classes. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

SPA 8530 Seminar in Spanish Literature of the Eighteenth and Nineteenth Centuries Cr. 3
Topics to be announced in Schedule of Classes. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

SPA 8550 Seminar in Spanish Literature of the Twentieth Century Cr. 3
Topics to be announced in Schedule of Classes. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

SPA 8610 Seminar in Spanish American Narrative Cr. 3
Narrative genres in Spanish America including short story, essay, novel, short novel; development, history, period characterization. Topics to be announced in Schedule of Classes. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

SPA 8999 Master's Thesis Research and Direction Cr. 1-8
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students.
Repeatable for 8 Credits

SPA 9990 Pre-Doctoral Candidacy Research Cr. 1-8
Research in preparation for doctoral dissertation. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits

SPA 9991 Doctoral Candidate Status I: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

SPA 9992 Doctoral Candidate Status II: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

SPA 9993 Doctoral Candidate Status III: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

SPA 9994 Doctoral Candidate Status IV: Dissertation Research and Direction Cr. 7.5
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

SPA 9995 Candidate Maintenance Status: Doctoral Dissertation Research and Direction Cr. 0
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $402.01
Repeatable for 0 Credits

SSE - Social Studies Education

SSE 5720 Social Studies Disciplines for Elementary Teachers I Cr. 3
Students explore the content knowledge and major concepts of American History, Michigan Studies, and Geography to help prepare PK-6 learners to make informed decisions as citizens of a culturally diverse, democratic society and interdependent world. Offered Every Term.

SSE 6710 Methods and Materials of Instruction in Secondary Social Studies Cr. 3
Foundations of social studies instruction and curriculum; methods of teaching in middle and senior high school, including the use of state standards in the design of instruction, teaching approaches for the various social studies disciplines, their interdisciplinary application, diversity and appreciation of other cultures. Offered Every Term.
Restriction(s): Enrollment limited to students in the College of Education.

SSE 6720 Social Studies Disciplines for Elementary Teachers II Cr. 3
Students explore the content knowledge and major concepts of Political Science (Civics and Government) and Economics to help prepare PK-6 learners to make informed decisions as citizens of a culturally diverse, democratic society and interdependent world. Offered Fall.

SSE 6730 New Perspectives in Social Studies Education Cr. 3
Development of curricular lesson plans, unit plans, and other teaching strategies utilizing current approaches in social studies education. Offered Winter, Spring/Summer.
Restriction(s): Enrollment limited to students in the College of Education.
STA 1020 Elementary Statistics Cr. 3
Satisfies General Education Requirement: Quantitative Experience Comp
Descriptive statistics, correlation and regression, notions in probability, binomial and normal distributions, testing hypothesis. Offered Every Term.

STA 2210 Probability and Statistics Cr. 4
Satisfies General Education Requirement: Quantitative Experience Comp
Basic probability theory (definition of probability, conditional probability, independence, random variables, expectation and variance, normal distribution, law of large numbers, central limit theorem), descriptive statistics (histograms, scatter plots, box plots, mean, variance, quantiles, empirical rule, z-scores), statistical inference (confidence intervals for mean, t-tests, chi-square tests, linear regression, analysis of variance) and data analysis. Offered Every Term.
Prerequisites: MAT 1800 with a minimum grade of C-, MAT 2010-2350 with a minimum grade of C-, MAT Permit to Reg ACT/SAT with a test score minimum of 4, or Math Permit to Reg - (L1-L4) with a test score minimum of 4

STA 5030 Statistical Computing and Data Analysis Cr. 3
Computational aspect of statistics and data analysis for advanced undergraduate and beginning graduate students. Topics include descriptive statistics, probability distributions, hypothesis testing, ANOVA, linear regression and logistic regression. Data analysis by use of statistical packages such as R, SAS, Python, SPSS or Minitab. Satisfies Society of Actuaries Validation by Educational Experience (VEE) in Applied Statistics for regression component with a B- or better. Offered Fall.
Prerequisites: (MAT 2250 with a minimum grade of C- or MAT 2150 with a minimum grade of C-) and (MAT 2210 with a minimum grade of C-, STA 2210 with a minimum grade of C-, BE 2100 with a minimum grade of C-, ECO 5100 with a minimum grade of C-, or PH 3200 with a minimum grade of C-)

STA 5830 Applied Time Series Cr. 3
Time series models, moving average models, autoregressive models, non-stationary models, and more general models; point estimators, confidence intervals, and forecast in the time domain. Statistical analysis in the frequency domain; spectral density and periodogram. Satisfies Society of Actuaries Validation by Educational Experience (VEE) in Applied Statistics for regression component with a B- or better. Offered Intermittently.
Prerequisites: (MAT 2250 with a minimum grade of C- or MAT 2150 with a minimum grade of C-) and (MAT 2210 with a minimum grade of C-, STA 2210 with a minimum grade of C-, BE 2100 with a minimum grade of C-, ECO 5100 with a minimum grade of C-, or PH 3200 with a minimum grade of C-)

STA 5830 Design of Experiments Cr. 3
Randomized blocks; Latin and Graeco-Latin squares; factorial designs; confounding; split plot; fractional replication; balanced incomplete blocks. Offered Intermittently.
Prerequisites: (MAT 2250 with a minimum grade of C- or MAT 2150 with a minimum grade of C-) and (MAT 2210 with a minimum grade of C-, STA 2210 with a minimum grade of C-, BE 2100 with a minimum grade of C-, ECO 5100 with a minimum grade of C-, or PH 3200 with a minimum grade of C-)

STA 5830 Advanced Statistics Theory I Cr. 3
First of two basic courses for Ph.D. students in the Mathematics Department who are interested in statistics. Topics include sample distribution theory, point and interval estimations, optimal estimates, theory of hypothesis testing, and most powerful tests. Offered Every Other Fall.
Prerequisite: MAT 5610 with a minimum grade of C and MAT 5700 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

STA 7810 Advanced Statistics Theory II Cr. 3
Continuation of STA 7810. Topics include regression analysis, linear models, analysis of categorical data, nonparametric statistics, decision theory, and Bayesian inference. Offered Intermittently.
Prerequisite: MAT 7810 with a minimum grade of C or STA 7810 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.

STA 7870 Topics in Statistics Cr. 3-4
Selected topics such as statistical estimation theory; theory of statistical hypothesis testing; non-parametric methods in statistics; statistical sequential analysis; statistical multivariate analysis. Topics to be announced in Schedule of Classes. Offered Intermittently.
Prerequisite: MAT 7810 with a minimum grade of C or STA 7810 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 12 Credits
STE - Sustainable Engineering

STE 5410 Energy, Emissions, Environment (E3) Design Cr. 3
Provides students the tools to uncover the relation between energy consumption and energy generation and optimize processes to take most advantage of low emitting energy options. Exposes students to design tools and methodologies from a diverse group of sources including US EPA, DOE, EIA, and the latest in emerging research. Offered Fall.
Equivalent: AET 5410, CE 5410

STE 6100 Introduction to Sustainable Engineering Cr. 3
Economic, environmental, social, and technological perspectives relevant to the design, operation and management of engineering activities. Multiple perspectives addressed from a system sustainability view point. Offered Yearly.
Equivalent: CHE 6100

STE 6270 Sustainability Assessment and Management Cr. 3
Sustainability assessment and management for engineering design and development; theoretical, regulatory, and practical implications; Detroit and global applications. Offered Yearly.
Prerequisites: CE 4210 with a minimum grade of C-
Equivalent: CE 6270

STS - Study Skills

STS 0900 President M. Roy Wilson Summer Build Program Cr. 0
Provides an introduction to research for Wayne State University's Summer BUILD program. Elements include university and library navigation, financial literacy, math, english composition, physics, chemistry, biology, bio-chemistry, research topics and methods. Offered Spring/Summer.

SW - Social Work

SW 1010 Introduction to Social Work and Social Welfare Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Survey of selected social welfare programs in the United States; history and development; focus on issues related to poverty and dependence. This course explores issues of fairness and equality in economic, political and social systems, and identifies the values, ethics, and practice principles of the social work profession. Students attend out-of-the-classroom events on campus and in the community to learn from social workers and social justice leaders who are engaging in work with vulnerable and at-risk populations in Detroit. Offered Every Term.

SW 3010 Social Work Practice Method I Cr. 4
This is the first in a sequence of four courses. (SW 3010, 3020, 4010, and 4020), designed to develop the practice knowledge and skills necessary for BSW students to begin professional social work practice, including a service-learning project and professional skills laboratory. The purpose of this course is to provide an overview of generalist practice and the generalist intervention model. This course will introduce students to the value, philosophy, and knowledge base considerations of social work practice. Offered Fall.
Restriction(s): Enrollment limited to students in the Bachelor of Social Work program.

SW 3020 Social Work Practice Method II Cr. 3
This is the second course in a four-course sequence. Introduction to a problem-solving guide for effecting situational change; emphasis on assessment in the problem-solving process and on social work-client interactions during the middle and ending phases of social work intervention. Comparing and contrasting social work knowledge, skills and dynamics in social work practice with individuals and small groups; Analysis of student experience in the social work practicum. Offered Winter, Spring/Summer.
Prerequisite: SW 3010 with a minimum grade of D-
Restriction(s): Enrollment limited to students in the Bachelor of Social Work program.

SW 3030 Professional Writing for Social Workers Cr. 2
Introduces social work students to professional social work writing. Designed to create a foundation for grammar, usage, style, and genre-specific writing for use in all practice settings. Offered Fall.
Restriction(s): Enrollment limited to students in the Bachelor of Social Work program.

SW 3110 Diversity, Oppression and Social Justice Cr. 3
Diverse cultures, family structure, roles, immigration and assimilation experiences of marginalized groups; influence of dominant culture on these groups. Offered Fall, Winter.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Social Work or Social Work & Social Justice.

SW 3410 Foundations of Ethics and Values in Social Work Cr. 3
Beginning course in the principles, values and ethics which underlie the profession of social work. Meaning of concepts and process of thinking about and resolving ethical dilemmas, the promotion of ethical questions, and knowledge of their historical contexts. Critical interpretation and evaluation of philosophical texts, positions, and arguments. Offered Winter, Spring/Summer.
Restriction(s): Enrollment limited to students in the Bachelor of Social Work program.

SW 3510 Human Behavior in the Social Environment Cr. 3
Ecological systems perspective presented. Knowledge and theories of human development across the life span. Human behavior studied within the context of the social systems in which people live, including families, peer groups, organizations, and communities. Emphasis on how social systems promote and deter human development and the influence of diversity on human development. Offered Fall.
Restriction(s): Enrollment limited to students in the Bachelor of Social Work program.

SW 3710 Social Welfare and the Social Work Profession: History, Trends and Basic Concepts Cr. 3
History of social welfare in the United States. Basic concepts of social welfare. The profession of social work in historical perspective. Current trends and issues in social welfare and in the profession of social work. Offered Fall.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Social Work or Social Work & Social Justice.

SW 3810 Research Methods, Data Analysis, and Practice Evaluation Cr. 3
Descriptive research methods for social work concepts and skills of problem formulation; research design; description and critical analysis of research studies; integration of descriptive statistics and data analysis within social work context. Offered Winter.
Restriction(s): Enrollment limited to students in the Bachelor of Social Work program.
SW 4010 Social Work Group Theory and Practice Cr. 3
This is the third course in a four-course sequence. Social work practice related to groups; knowledge and theories related to groups. Offered Fall, Spring/Summer.
**Prerequisite:** SW 3020 with a minimum grade of D- and SW 4998 (may be taken concurrently) with a minimum grade of M
**Restriction(s):** Enrollment limited to students in the Bachelor of Social Work program.

SW 4020 Social Work Macro Theory and Practice Cr. 3
This is the final course in a four-course sequence. The course emphasizes knowledge, theory and practice in organizations, neighborhoods and communities. Students will learn a range of macro practice assessment and intervention skills to solve problems in social service organizations, social welfare systems, and communities for the purpose of empowerment, social and economic justice, and social change. Offered Fall, Winter.
**Prerequisite:** SW 4010 with a minimum grade of D- and SW 4998 (may be taken concurrently) with a minimum grade of M
**Restriction(s):** Enrollment limited to students in the Bachelor of Social Work program.

SW 4441 Field Education Seminar I Cr. 1
Understanding the learning experience through critical reflection on field and course work. Offered Fall, Spring/Summer.
**Prerequisite:** SW 4998 (may be taken concurrently) with a minimum grade of M
**Restriction(s):** Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Social Work.

SW 4442 Field Education Seminar II Cr. 1
Understanding the learning experience through critical reflection on field and course work. Offered Fall, Winter.
**Prerequisite:** SW 4998 (may be taken concurrently) with a minimum grade of M
**Restriction(s):** Enrollment is limited to Undergraduate level students; enrollment limited to students in the School of Social Work.

SW 4710 Social Welfare in the United States: Current Programs Cr. 3
Description and analysis of major social welfare programs in the United States. Offered Fall.
**Prerequisite:** SW 3710 with a minimum grade of D-
**Restriction(s):** Enrollment limited to students in the Bachelor of Social Work program.

SW 4810 Research Methods, Data Analysis, and Practice Evaluation II Cr. 3
Continuation of SW 3810. Integration of descriptive and inferential statistics and components of quantitative and qualitative designs appropriate for evaluating service delivery and related policy. Offered Fall.
**Prerequisite:** SW 3810 with a minimum grade of D-
**Restriction(s):** Enrollment limited to students in the Bachelor of Social Work program.

SW 4990 Directed Study Cr. 1-4
Individual direction in reading and research on selected topics. Offered Every Term.
**Restriction(s):** Enrollment limited to students in the Bachelor of Social Work program.
**Repeatable for 4 Credits**

SW 4991 Special Topics in Social Work Cr. 1-4
Topics of current interest to be announced in Schedule of Classes. Offered Every Term.
**Repeatable for 4 Credits**

SW 4997 Integrative Seminar in Social Work Cr. 3
This capstone course provides a framework to assist students in reviewing, analyzing and integrating their theoretical knowledge with their practice experience. Students demonstrate that they have acquired the knowledge, skills, and values needed to be competent and ethical B.S.W. level generalist practitioners. Offered Fall, Winter.
**Prerequisite:** SW 4010 with a minimum grade of D- and SW 4998 (may be taken concurrently) with a minimum grade of M and SW 4020 (may be taken concurrently) with a minimum grade of M
**Restriction(s):** Enrollment limited to students in the Bachelor of Social Work program.

SW 4998 Field Practice in Social Work Cr. 5
The ratio of clock hours to credits is 46 to 1. Field practicum for senior-level students in the BSW program. Field placements assigned by the Coordinator of Field Education. Offered Every Term.
**Restriction(s):** Enrollment limited to students in the Bachelor of Social Work program.
**Course Material Fees:** $35
**Repeatable for 10 Credits**

SW 5720 Social Services for Older Adults Cr. 3
Identification, description and analysis of the problems associated with aging; development of social work services to address these needs. Offered Yearly.
**Restriction(s):** Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Graduate Certificate, Senior or Post Bachelor.

SW 5755 Introduction to Child Welfare Cr. 3
Introduction and overview of child welfare services and practice with focus on a wide range of issues related to children and youth in care and those in need of protection from abusive and/or neglectful caretakers and environments. Offered Yearly.
**Restriction(s):** Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.

SW 6010 Family Centered Collaboration in Early Childhood Intervention and Special Education Cr. 3-4
Theories, concepts and practices of family centered intervention services for young children with special needs. Team-building and cross-disciplinary communication and collaboration with families. Offered Fall.
**Restriction(s):** Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.
**Equivalent:** ELE 6010, PSY 6010

SW 6100 Child Welfare and Social Systems: Context for Case Management Practice Cr. 3
Knowledge base for Child Welfare practice within the context of mental health, education, juvenile justice and other social systems with a significant focus on the social problems of domestic violence and substance abuse. Core case management intervention skill sets utilized for effective child welfare practice will be taught. Offered Every Term.
**Restriction(s):** Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.

SW 6500 Social Work and the Law Cr. 2
Study of the relationship between law and social work practice. Emphasis on understanding the legal processes, the relationship and interdependence of law and social work practice and the knowledge and skill needed to help integrate law into social work practice. Offered Intermittently.
**Restriction(s):** Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.
SW 6535 Youth, Delinquency, and Juvenile Justice Cr. 2-4
Provides an in depth understanding of the causes and implications of youth involved in the juvenile justice arena, focusing on assessments and social work interventions in a transcultural, multisystem context. Offered Intermittently.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.

SW 6540 Effects of Drugs and Alcohol on Physical and Social Functioning Cr. 3
Types of substances most frequently abused, their effects on physiological, psychological, social and physical functioning, and patterns of use among different age groups and populations. Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.

SW 6551 Behavioral Health and the Criminal/Legal System Cr. 3
This course is aimed at students who seek competence in forensic behavioral health, particularly within the context of social work practice, policy, and services. The class will build upon the recent neuroscience of criminality, violence, child maltreatment, partner violence, addiction, and related mental disorders. Additionally, relevant theories will be applied to provide a socio-cultural context for understanding the judicial system. Offered Fall.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.

SW 6575 Violence Prevention and Intervention Cr. 3
Addresses the ways that social work intervenes to prevent violent perpetration and reduce the harm associated with victimization by interpersonal violence such as youth violence, stalking, sexual violence, gun violence, relationship violence, bullying, and self-directed violence. Offered Intermittently.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.

SW 6585 Introduction to International Social Work Cr. 3
Introduction to global social work practice and international social welfare systems including discussion of global topics such as international adoption, immigrant populations, and human trafficking. Offered Intermittently.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.

SW 6620 Understanding Suicide Cr. 3
In this course we will explore the enigma of suicide, covering its many biopsychosocial dimensions including the historical, literary, neurobiological, psychological, social work, sociological, cultural, public health, and personal/subjective. Ecological and systems perspectives will be included. The course will explore an understanding of intervention strategies from different perspectives. Suicide has been studied from each of the above perspectives, and while there is agreement that it is a “multidimensional malaise,” bringing these dimensions together has been extremely challenging. Offered Intermittently.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.

SW 6700 Disabilities in Urban Society: Special Topics Cr. 3
Topics central to understanding living with disabilities across the life span in an urban society. Implications for persons with disabilities, their families and advocates, and their service providers. Offered for graduate credit only. Offered Fall.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.

SW 6740 Seminar in Disability Studies: Directed Study Cr. 3
Integration of theoretical and practical knowledge acquired in Graduate Certificate in Disabilities program within context of the discipline and area of interest of the student. Offered for graduate credit only. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor; enrollment limited to students in the GC in Disabilities program.

SW 6750 Practicum in Disabilities: Research Topics Cr. 4
Supervision and direction of students as they apply their knowledge and skills in an interdisciplinary, service-oriented department. Work with professionals from other disciplines and consumers of disability-related services; development of leadership and teamwork skills. Offered for graduate credit only. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor; enrollment limited to students in the GC in Disabilities program.

SW 6810 Lesbian, Gay, Bisexual, Transgender, Queer (LGBTQ) Health and Well-Being Cr. 1
Applies concepts from multiple frameworks to understand the health inequities of lesbian, gay, bisexual, transgender, and queer (LGBTQ) individuals. Offered Winter.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.

SW 6815 Mind-Body-Spirit Approaches and Social Work Practice Cr. 3
Explores the historical and cultural roots of mind-body-spirit approaches – often called complementary and alternative medicine, or integrative approaches – in contrast to the philosophical foundation of the western medical model; considers contemporary use and reviews multiple specific approaches; and presents research about their use and effectiveness. Considers application in micro, mezzo and macro social work practice. Offered Winter.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.

SW 6883 Social Work Practice with Very Young Children and Families Cr. 1
The relationship between theory, assessment and practice in the field of infant mental health. Course covers interventions for use with infants, toddlers and families, as well as the identification of appropriate interventions based upon the infant and family’s needs, cultural histories and capacities. Offered Intermittently.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.

SW 6885 Special Topics in Social Work Cr. 1-4
Topics of current interest to be announced in Schedule of Classes. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate, Senior or Post Bachelor.
SW 7025 Infant Mental Health: Theory to Practice across Early Childhood Settings Cr. 2
Theories and research-based information on infant mental health practices applied to various early childhood settings. Emphasis on interdisciplinary, relationship-based interventions aimed to promote development and learning in infants and young children. Offered Spring/Summer.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7040 Methods of Social Work Practice Cr. 3
Basic theories and principles of practice including a strengths perspective with diverse individuals and families. Emphasis on basic values, roles, skills of generalist social work practice; and on ecological systems perspective and practice principles with at-risk and oppressed populations. Skills of empowerment to achieve individual and collective social and economic justice. Offered Fall.
Prerequisite: SW 7998 (may be taken concurrently) with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 7055 Foundation Group Theory and Practice Cr. 3
Ecological systems perspective used to critically assess influence of mezzo systems on human behavior and their consistency with social values and ethics. Use of strengths perspective with diverse groups within generalist practice. Group types, process, dynamics, leadership. Planning of groups, interventions, social and economic justice. Offered Winter.
Prerequisite: SW 7998 (may be taken concurrently) with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 7065 Foundation Macro Theory and Practice Cr. 3
Ecological systems perspective used to critically assess influence of macro system on human behavior and their consistency with social values and ethics. Generalist practice and strengths perspective. Practice with diverse communities and organizations, particularly at-risk populations. Needs assessment skills; promotion of macro change and social and economic justice in an urban context. Offered Winter.
Prerequisite: SW 7998 (may be taken concurrently) with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 7070 Bridge: Micro & Mezzo Practice and Theory Cr. 4
Integrative summer bridge for advanced standing students. Practice and theoretical principles guiding social work intervention at the micro and mezzo level will be reviewed; emphasis will be given to the impact of diversity and unique concerns of populations at risk. Offered Spring/Summer.
Prerequisites: SW 7070 (may be taken concurrently)
Corequisite: SW 7620
Restriction(s): Enrollment is limited to Graduate level students.

SW 7085 Social Work Leadership Strategies Cr. 3
Leadership theories, applications and skill development. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7095 Social Entrepreneurship Cr. 3
Social entrepreneurs are change agents who challenge the status quo by using social enterprise and social innovation to address protracted social problems. This course is designed for students who want to explore social enterprise start-ups, as well as those students who are just curious about the field and want to learn more about entrepreneurship and explore career opportunities. Students will learn the requisite knowledge and skills to develop their own business feasibility plan that explores starting a new social venture, nonprofit or commercial enterprise. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7115 Special Topics: Interprofessional Education Cr. 2
This interprofessional course is for health professional student learners in the areas of advanced practice. The course allows health professional students to learn about, from and with each other, how each discipline contributes to the healthcare team, the importance of effective communication, the role of team collaboration and preparing health care professionals for collaborative practice with a focus on clinical decision making in interdisciplinary teams. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate, Medical or Professional level students.
Equivalent: MD4 8115, NUR 7115, PAS 7115, PPR 7115

SW 7140 Biomedical Components of Substance Use and Addiction Cr. 3
An examination of the bio-psychosocial aspects of substance use, addiction and recovery. Provides a broad scientific perspective on different classes of drugs and misused substances. Focuses on understanding brain anatomy and mechanisms of action in the brain, genetic factors related to substance use and addiction, physiological effects of alcohol and drug misuse, and pharmacological interventions for recovery. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7150 Health Disparities and Substance Use Cr. 3
An introduction to health disparity frameworks and an overview of the unique problems and needs of diverse populations who misuse alcohol, tobacco and other drugs. Focuses on the application of culturally sensitive intervention and prevention strategies. Offered Spring/Summer.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7160 DSM in Clinical Social Work Practice Cr. 3
Reviews the classification, epidemiology, etiology and course of a range of mental and behavioral disorders across the life span. Emphasizes the critical analysis of existing and emerging theory and provides guidelines for the critical application and limitations of the DSM diagnostic assessment and classification system of mental and behavioral disorders in clinical social work practice. Offered Winter, Spring/Summer.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7560 Lifespan Development in the Social Context Cr. 3
An examination of theories of human development and behavior and development across the lifespan through the lens of an ecological systems perspective within the context of how social systems including families, peer groups, organizations, communities and culture promote and deter human development. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7620 Bridge: Social Welfare Policy, Research and Macro Practice Cr. 4
Integrative summer bridge course covers fundamental principles of social welfare policy, research and macro practice. Students develop a deeper understanding of how policy and research impacts social services, the community and vulnerable groups. Offered Spring/Summer.
Corequisite: SW 7070
Restriction(s): Enrollment is limited to Graduate level students.

SW 7660 Human Behavior in the Social Environment II: Diversity in a Multicultural Society Cr. 3
Emphasizes the interconnectedness of oppressions with a special focus on racism, sexism, heterosexism, ableism, and classism. Presents a conception of social justice and a framework for developing a social change orientation to combat discrimination, oppression, and economic deprivation and work toward social justice. Course uses the ecological systems perspective to understand human behavior within diverse families. Offered Winter.
Prerequisites: SW 7560 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
SW 7680 Human Rights, Social Justice, and Diversity in an Urban Context Cr. 3
Introduces concepts of human rights and social justice as foundational to social work practice. Offers historical and contemporary perspective of the social work profession and its role in promoting human rights and social, economic, and environmental justice. Examines theory and perspectives on the dynamics of oppression, conflict, and social change from a social work perspective. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7700 Trauma-Informed Child Welfare Practice Cr. 3
Introduces students to the core concepts informing evidence-based assessment and intervention for traumatized children and adolescents who are in the child welfare system. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7720 Social Policy and Advocacy Cr. 3
Historical development of social welfare viewed dynamically as a function of social, economic, political and cultural transitions. Evolution of professional social work. Framework of analysis for social welfare policies, programs and agencies. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7770 Palliative Care and Elder Law Cr. 3
Overview of palliative and hospice care, fundamentals of advanced care planning, and local and national laws and policies that concern older adults and their families. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7820 Evidence for Social Work Practice Cr. 3
Examination of the basic concepts and methods of scientific inquiry used to build knowledge and evaluate the impact of social work policy and practice. Use of practice knowledge to inform social work research and the use of research findings to inform social work practice is a primary focus of the course. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7830 Research Methods in Social Work II Cr. 3
Second of two courses focused on basic concepts and methods of scientific inquiry as utilized in evaluating service delivery and in enhancing the performance of social work practitioners. Offered Yearly.
Prerequisites: SW 7820 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 7840 Community and Organization Measures Cr. 3
Knowledge and skills for practice informed research to assess communities and organizations and how measures are used in evaluation. Students will learn basic data analytics and visualization using R. Offered Winter, Spring/Summer.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7850 Evaluation Research Cr. 3
History, conceptual approaches, techniques, and methods in evaluation of professional practice interventions and social work programs. The focus is on relevant application to current practice environment. Offered Fall.
Prerequisites: SW 7840 with a minimum grade of C (may be taken concurrently) and SW 7160 with a minimum grade of C (may be taken concurrently)
Restriction(s): Enrollment is limited to Graduate level students.

SW 7880 Infant/Family Mental Health Assessment Cr. 2
Using a relationship-based model, assessments of infant and toddler socio-emotional development and parental health is emphasized. Interdisciplinary dialogue about the infant mental health perspective and the impact of culture. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7885 Ethics and Professionalism for Social Work Practice Cr. 3
Graduate seminar on social work as a profession with ethical considerations. Articulation of professional practice issues in such areas as: competencies, standards, ethics, technology, professional organization, social sanction, autonomy, accountability, inter-professional practice, or social action. Offered Spring/Summer.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7990 Directed Study Cr. 1-4
Individual direction in reading and research on selected topics. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students. Repeatable for 4 Credits

SW 7995 Introduction to Gerontology Cr. 3
Required introductory course for Graduate Certificate in Gerontology. Multidisciplinary conceptual framework for study of gerontology. Students develop knowledge and skills needed to understand gerontological theory, research, and practice. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

SW 7998 Concentration Field Work for Social Workers I Cr. 4-6
Practicum of M.S.W. program integrated with courses in social work method, human behavior and the social environment, social welfare organization and policy, and research. Field placements assigned by Coordinator of Field Education. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major in Social Work; enrollment is limited to Graduate level students; enrollment limited to students in a Master of Social Work degree; enrollment limited to students in the School of Social Work.

Course Material Fees: $35 Repeatable for 12 Credits

SW 7999 Master's Research Essay Direction Cr. 1-3
Two-semester course completed during the Advanced Year of the M.S.W. Program. Essay reflects an original synthesis of an already-published work, demonstrating a thorough understanding and mastery of a sub-area of social work, including the relevance of the problem and adequacy of intervention. Offered Fall, Winter.
Prerequisites: SW 7160 with a minimum grade of C (may be taken concurrently) or SW 7840 with a minimum grade of C (may be taken concurrently)
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment limited to students in the Master of Social Work program; enrollment is limited to Graduate level students.
Repeatable for 3 Credits

SW 8015 Intervention/Program Planning and Grant Writing Cr. 3
Strategies and approaches to comprehensive program development within the context of community and organizational practice. Offered Winter.
Prerequisites: SW 7840 with a minimum grade of C or SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8025 Community Assessment and Evaluation Cr. 1
The focus of this course is to prepare social workers to assess communities, organizations, neighborhoods, and other social groups through the use of empirically substantiated social science techniques. Using social justice-oriented, community-driven, data analysis, students will be able to contribute to an assessment and/or evaluation of any given community. Offered Fall.
Prerequisites: SW 7840 with a minimum grade of C or SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
SW 8035 Techniques of Quantitative Data Analysis Cr. 1
Focus on advanced analytic techniques with quantitative data. Offered Fall.
Prerequisites: SW 7840 with a minimum grade of C or SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8045 Techniques of Data Interpretation and Presentation Cr. 1
Presenting case, issue, or problem in context of public policy with a graphical presentation of data to a range of different audiences within the framework of social work values and ethics. Offered Fall.
Prerequisites: SW 7840 with a minimum grade of C or SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8048 Social Action Research and Evaluation Cr. 3
Concepts, practices, and methodological approaches that are central to empowerment and action-oriented research and evaluation. Students are prepared to intervene into communities, institutions, neighborhoods, and other social groups through the use of empirically substantiated social science techniques. Offered Winter.
Prerequisites: SW 7840 with a minimum grade of C or SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8065 Advanced Systems Theories and Practices Cr. 3
Applied systems approaches to achieve goals, explore planning, ensure fairness and social justice, and promote diversity. Offered Fall.
Prerequisites: SW 7840 with a minimum grade of C and SW 8998 with a minimum grade of C (may be taken concurrently)
Restriction(s): Enrollment is limited to Graduate level students.

SW 8075 Theories and Practice of Community Building and Development Cr. 3
Best practice and theories on community development and engagement. Offered Fall.
Prerequisites: (SW 7160 with a minimum grade of C or SW 7840 with a minimum grade of C) and SW 8998 with a minimum grade of C (may be taken concurrently)
Restriction(s): Enrollment is limited to Graduate level students.

SW 8085 Theories and Practice of Social Policy and Social Action Cr. 3
Theoretical frameworks and best practices to engage in social policy and social action. Offered Fall, Winter.
Prerequisites: (SW 7160 with a minimum grade of C or SW 7840 with a minimum grade of C) and SW 8998 with a minimum grade of C (may be taken concurrently)
Restriction(s): Enrollment is limited to Graduate level students.

SW 8125 Therapeutic Storytelling with Children Cr. 1
Therapeutic storytelling as a means for expressing and resolving conflicts, disappointments, and anxieties in children. Strategies for assisting children in creating their own story-narratives, focusing on reciprocal, collaborative, and other forms of storytelling. Applications to a variety of childhood disorders and clinical situations. Offered Intermittently.
Prerequisites: SW 7055 with a minimum grade of C or SW 7160 with a minimum grade of C
Restriction(s): Enrollment limited to students in the Master of Social Work or PhD in Social Work programs; enrollment is limited to Graduate level students.

SW 8180 Social Services in the Schools Cr. 3
Structure and history of education in relation to social work; implications of current legislation; identification of educational disabilities; programs and services to remediate disabilities and assist students. Offered Yearly.
Prerequisites: SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8305 Assessment for Interpersonal Social Work Practice Cr. 3
Focus on development of knowledge and skills for interpersonal social work practice. Quantitative and qualitative methods for assessment in multiple contexts with an emphasis on how assessment is a part of evidence-based practice. Offered Fall, Winter.
Prerequisites: SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8315 Integrative Theories and Practice Approaches for Interpersonal Social Work Practice Cr. 3
Introduces theories and practice approaches commonly used in interpersonal social work practice with individuals, families, and groups. Students will examine theories of change practice approaches derived from four broad categories: Cognitive-behavioral theories, humanistic theories, psychodynamic/developmental theories, and theories of systems and groups. Offered Fall.
Prerequisites: SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8320 Cognitive Behavioral Interventions in Social Work Practice Cr. 3
Theoretical knowledge and practice skills for cognitive-behavioral treatment in interpersonal social work practice, focusing on treatment of children, adolescents and adults. Offered Yearly.
Prerequisites: SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8330 Psychosocial Assessment of Children and Youth Cr. 3
Holistic approach to assessment of children and youth; focus on various aspects of assessment including interpretation of psychological test data; social work administration of behavioral scales; observation; interpretation of drawings; socialized assessment areas such as ADHD and autism. Offered Yearly.
Prerequisites: SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8340 Application of Cognitive-Behavioral Theories to Interpersonal Practice I Cr. 4
Building on the generalist foundation, this course furnishes cognitive-behavioral theories as background for understanding developmental derailments from birth through adulthood, and for structuring beginning stages of social work treatment. Focus on work with vulnerable populations. Offered Fall.
Prerequisites: (SW 7070 or SW 7055) and SW 8998 (may be taken concurrently)
Restriction(s): Enrollment is limited to Graduate level students.

SW 8345 Psychodynamic Interventions in Social Work Practice Cr. 3
Focuses on essential principles for client engagement, assessment and interventions used in psychodynamic psychotherapy. Offered Winter.
Prerequisites: SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8350 Application of Cognitive Behavioral Theories to Interpersonal Practice II Cr. 4
Continuation of SW 8340; cognitive behavioral and behavioral treatment approaches to the middle and termination phases of social work treatment. Focus on work with vulnerable populations. Offered Winter.
Prerequisites: SW 8340 and SW 8998 (may be taken concurrently)
Restriction(s): Enrollment is limited to Graduate level students.
SW 8355 Family Interventions in Social Work Practice Cr. 3
This course will focus on the theoretical knowledge and practice skills of family systems treatment with a particular emphasis on treatment delivery to families with multiple psychosocial concerns within the urban context. Through various methods of learning (case examples, role plays, class discussions), students will develop practice skills in family system level interventions including assessment and case conceptualizations, interventions, structural family therapy, strategic family interventions, Cognitive Behavioral intervention at the family system level, trauma and the family, and attachment-based family interventions. The course will examine social work values and ethics as they relate to intervening at the family system level. Offered Winter.
Prerequisites: SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8360 Application of Psychodynamic Theories to Interpersonal Practice I Cr. 4
Building on the generalist foundation, this course furnishes an integrative framework for intensive examination of psychodynamic theories of development from birth through adulthood; descriptive, etiological, and dynamic diagnosis of psychopathology; application to beginning phases of clinical social work treatment. Focus on work with vulnerable populations. Offered Fall.
Prerequisites: (SW 7070 or SW 7055) and SW 8998 (may be taken concurrently)
Restriction(s): Enrollment is limited to Graduate level students.

SW 8370 Application of Psychodynamic Theories to Interpersonal Practice II Cr. 4
Continuation of S W 8360. Course offers a psychodynamic integrative framework for evaluation of children, adolescents and adults; emphasis on the middle and termination phases of the clinical social work treatment process. Focus on work with vulnerable populations. Offered Winter.
Prerequisites: SW 8360 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8380 Application of Family Systems Theory to Interpersonal Practice I Cr. 4
Overview of family systems theories as a foundation for diagnosing family problems and initiating treatment. Application of interpersonal practice theories in working with families throughout life cycle of family, from formation to termination; transitional phases experienced by its members; obstacles to normal growth and development. Practices employed by social workers in family practice field, application of working paradigm for interpersonal practice in a variety of settings. Offered Fall.
Prerequisites: (SW 7070 or SW 7055) and SW 8998 (may be taken concurrently)
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the School of Social Work.

SW 8381 Interpersonal Practice with Children and Adolescents Cr. 3
This course will examine key evidence-based interventions for children and adolescent mental health and wellbeing. The course offers a structure to develop essential practice skills, such as engagement, treatment planning, and monitoring and evaluation of client outcomes. Students will learn the role of prevention, treatment, recovery, and long-term support to reduce and alleviate distressing symptoms and enhance health and safety of children and adolescents. The course will focus on best practices for internalizing, externalizing, and neurodevelopmental problems, child vulnerabilities and as well as environmental risk and protective factors, including bullying, child maltreatment, and trauma. Students will also learn how issues of diversity, culture, and social justice may impact the quality of therapeutic relationships. Offered Yearly.
Prerequisites: SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8390 Application of Family Systems Theory to Interpersonal Practice II Cr. 4
The major family therapy models and family theories in social work; incorporating an expanded view of recognizing biculturalism and a dual perspective of specific minorities (e.g., Arabs, Asians, Blacks, Hispanics, Native Americans and other subcultures). Advanced application of theories and conceptual frameworks for change to social work intervention with diverse family structures. Offered Winter.
Prerequisites: SW 8380 and SW 8998 (may be taken concurrently)
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in the School of Social Work.

SW 8550 Social Functioning: Human Sexuality Cr. 2
Human sexuality as it affects individuals in their relationships to others in terms of development, orientation and dysfunction. Offered Intermittently.
Prerequisites: SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8570 Dynamics and Intervention in Family Violence Cr. 3
Examination of child abuse, partner violence, and elder abuse; theories of causality; dynamics and effects on social functioning. Social work practice methods in family violence. Offered Intermittently.
Prerequisites: SW 7055 with a minimum grade of C or SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8580 Impact of Health and Disease on Social Functioning: Implications for Social Work Practice Cr. 3
Study of biological, psychological, social, and environmental factors which influence health; social work interventions for at-risk populations in health care. Offered Intermittently.
Prerequisites: SW 7055 with a minimum grade of C or SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8585 Advanced Interpersonal Practice in Trauma and PTSD Cr. 3
Examination of the major trauma therapy models and theories for advanced interpersonal social work practice across micro, mezzo, and macro levels. Advanced application of theories and intervention models for working with trauma exposed individuals and those with trauma related disorders across the life span and within an ecological and cultural context. Offered Intermittently.
Prerequisite: SW 7055 with a minimum grade of C or SW 7070 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8620 Interpersonal Practice with Couples Cr. 2
Application of interpersonal practice theories in couples therapy utilizing behavioral and social science content in relation to marriage and committed relationships, to the functional and dysfunctional aspects of marital and couple relationships, and their effects on the couple and other affected family members. Offered Intermittently.
Prerequisites: SW 7055 with a minimum grade of C or SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8690 Interpersonal Practice in Substance Abuse Cr. 3
Application of interpersonal practice theories to social work interventions with substance abuse related problems; procedures and strategies for assessment and planning; methods of intervention with individuals, families, and groups; prevention and education. Offered Yearly.
Prerequisites: SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
SW 8710 Ethical Issues in Interpersonal Practice Cr. 2
Graduate seminar on social work as a profession. Articulation of professional practice issues in such areas as: competencies, standards, professional organization, social sanction, ethics, autonomy, accountability, inter-professional practice, social action. Offered Yearly.
Prerequisites: SW 7055 with a minimum grade of C or SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8770 Advanced Policy Analysis Cr. 3
Students have the opportunity to conduct a policy analysis in an area of interest (e.g., welfare reform, corrections, homelessness, health, domestic violence) and prepare policy documents to communicate analysis findings to key stakeholders and policy makers. Offered Winter.
Prerequisites: SW 7160 with a minimum grade of C or SW 7840 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8771 Advanced Policy Analysis in Aging Cr. 3
This course builds on the content gained in the generalist social work curriculum related to policy practice. It focuses on policy that affects programs and services for older adults. Students have the opportunity to conduct a policy analysis in an area pertinent to older adults (e.g., retirement, caregiving, community-based services, long-term care, Medicare, elder abuse and neglect, age-friendly communities) and prepare policy documents to communicate analysis findings to key stakeholders and policy makers. Offered Winter, Spring/Summer.
Prerequisites: SW 7840 with a minimum grade of C or SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8772 Advanced Policy Analysis in Child and Family Wellbeing Cr. 3
This course builds on the content gained in the generalist social work curriculum related to policy practice. It focuses on policy that affects programs and services for children and families. Students have the opportunity to conduct a policy analysis in an area pertinent to children and families (e.g., child welfare, immigration, poverty, workforce participation for parents, early childhood development, educational access, juvenile justice, school-to-prison pipeline, bullying, etc.) and prepare policy documents to communicate analysis findings to key stakeholders and policy makers. Offered Winter, Spring/Summer.
Prerequisites: SW 7840 with a minimum grade of C or SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8773 Advanced Policy Analysis in Mental Health and Substance Use Cr. 3
This course builds on the content gained in the generalist social work curriculum related to policy practice. It focuses on policy that affects programs and services for people with mental health and substance use disorders. Students have the opportunity to conduct a policy analysis in an area pertinent to people with mental health and substance use disorders and prepare policy documents to communicate analysis findings to key stakeholders and policy makers. Offered Winter, Spring/Summer.
Prerequisites: SW 7840 with a minimum grade of C or SW 7160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8880 Infant Mental Health Practice Cr. 3
Advanced knowledge and skills in theory, assessment and practice in the field of infant mental health with emphasis on evidence-based practices. Offered Winter.
Prerequisite: SW 7025 with a minimum grade of C or SW 7880 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8883 Infant Mental Health Seminar I Cr. 2
Understanding and integration of knowledge and skills developed through courses and field placement experiences focused on infant mental health. Offered Fall.
Prerequisites: SW 8998 with a minimum grade of C (may be taken concurrently)
Restriction(s): Enrollment is limited to students with a major in Dual Title Infant Mental Health; enrollment is limited to Graduate level students; enrollment limited to students in a Doctor of Philosophy or Master of Social Work degrees; enrollment limited to students in the School of Social Work.

SW 8884 Infant Mental Health Seminar II Cr. 2
Supports Infant Mental Health Dual-Title students in the understanding and integration of knowledge and skills developed through courses and field placement experiences focused on infant mental health. Offered Winter.
Restriction(s): Enrollment is limited to students with a major in Dual Title Infant Mental Health; enrollment is limited to Graduate level students; enrollment limited to students in a Doctor of Philosophy or Master of Social Work degrees; enrollment limited to students in the School of Social Work.

SW 8911 Advanced Special Topics in Social Work Cr. 1-4
Topics of current interest for students in advanced year of M.S.W. program, Ph.D. program in social work or doctoral programs in related disciplines. Topics to be announced in Schedule of Classes. Offered Every Term.
Prerequisites: SW 7055 with a minimum grade of C or SW 7070 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 8996 Group Project Research and Direction Cr. 1-4
This two-semester course assists students in developing advanced competency in conducting research aimed at advancing social work practice and/or social welfare policy. Small groups of students (3-4) come together to work on an already existing research project with faculty. Project depends on the faculty. Examples of activities include: literature review, data collection, data analysis, and data presentation. The project must be discussed with faculty before registration. Offered Every Term.
Prerequisites: SW 7160 with a minimum grade of C (may be taken concurrently) or SW 7840 with a minimum grade of C (may be taken concurrently)
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 4 Credits

SW 8998 Concentration Field Work for Social Workers II Cr. 4-6
The ratio of clock hours to credits is 56.25 to 1. Practicum of M.S.W. program integrated with courses in social work method, human behavior and the social environment, social welfare organization and policy, and research. Field placements assigned by Coordinator of Field Education. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major in Social Work; enrollment is limited to Graduate level students; enrollment limited to students in a Master of Social Work degree.
Course Material Fees: $35
Repeatable for 12 Credits
SW 8999 Master's Thesis Research and Direction Cr. 1-6
The master’s thesis provides students with the opportunity to conduct a scholarly study and contribute to the knowledge base associated with some aspect of social work theory, practice, or policy. A thesis must be supervised by a faculty member. Students should register for 3 credits in the fall and 3 credits in the winter of their advanced year. Offered Every Term.
Prerequisites: SW 7160 with a minimum grade of C (may be taken concurrently) or SW 7840 with a minimum grade of C (may be taken concurrently)
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students.
Repeatable for 6 Credits

SW 9000 Directed Study: Doctoral Cr. 1-6
Independent study under guidance of a faculty member. Offered Every Term.
Restriction(s): Enrollment limited to students in the PhD in Social Work program; enrollment is limited to Graduate level students.
Repeatable for 6 Credits

SW 9050 Social Work PhD First Year Seminar Cr. 1
The goal of the first year seminar is to assist students in developing the skills and professional socialization to be successful in doctoral education. The seminar will assist students in engaging in events and personal behaviors to support professional growth to enhance productivity, build professional networks, and maintain work-life balance. Offered Winter.
Restriction(s): Enrollment limited to students in the PhD in Social Work program.

SW 9100 Social Statistics and Data Analysis Cr. 3
Application of univariate and bivariate statistics and analysis of variance to analyze data obtained from social work practice settings. Students learn to formulate appropriate research questions and hypotheses before data collection, to use SPSS to conduct analysis, and to interpret analyses and communicate findings to academics and practitioners. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

SW 9160 Knowledge Creation and Theory Development for Social Science Research Cr. 3
This doctoral-level seminar is designed to introduce students to philosophies of science that are fundamental to the development of knowledge and theory in social science disciplines. Students will leave this course with an understanding of the conceptual nature of theory and the ways theory can be applied in knowledge development. By the end of this course students will have an understanding of the evolution and history of theory development related to social work and social welfare. The course emphasizes critical thinking and understanding of the theoretical and conceptual frameworks that inform scholarly inquiry. Offered Every Other Fall.
Restriction(s): Enrollment is limited to Graduate level students.

SW 9170 Theories of Problems and Change across the Micro-Macro Continuum Cr. 3
This doctoral-level seminar is designed to introduce students to theories commonly used in social work research that span the micro-macro continuum. Students will leave this course with an understanding of the underlying concepts and assumptions associated with commonly utilized theories and the ways that these theories have been applied to social work research. In this course students will explore the ways that individual theories understand and define problems, the underlying assumptions of specific theories, and the nature of change as defined by each theory. By the end of the semester students will be able to design a multi-level research project to address a social science problem utilizing theories that span the micro-macro continuum. Offered Every Other Winter.
Prerequisite: SW 9160 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

SW 9210 Theories for Practice and Research with Individuals Cr. 3
Major theoretical systems currently used in clinical social work practices presently used with individuals, examined from six vantage points: model origin; conceptual framework; view of person-in-environment; philosophy of treatment; model effectiveness; practice controversies. Offered Yearly.
Restriction(s): Enrollment limited to students in the PhD in Social Work program; enrollment is limited to Graduate level students.

SW 9220 Theories for Practice and Research with Groups and Families Cr. 3
Theories, models and perspectives guiding social work practice with families. Offered Yearly.
Restriction(s): Enrollment limited to students in the PhD in Social Work program; enrollment is limited to Graduate level students.

SW 9230 Theories for Practice and Research with Communities and Organizations Cr. 3
Practice theory at the macro level. Two perspectives: how macro serves as a context of social work practice at levels of policy, community, organization; and theories of practice with macro systems. How a scholar imparts content and undertakes research at these levels. Offered Yearly.
Restriction(s): Enrollment limited to students in the PhD in Social Work program; enrollment is limited to Graduate level students.

SW 9240 Social Work Education Cr. 3
Standards, trends and issues of contemporary and future social work education. Critical analysis of articulation among bachelor’s, master’s, doctoral education. Emphasis on course development, designing effective learning experiences. Offered Every Other Year.
Restriction(s): Enrollment limited to students in the PhD in Social Work program.

SW 9260 Current and Historical Trends in US Social Welfare Policy Cr. 3
Critical analysis in order to understand policy contexts that frame contemporary social work problems and practice. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.

SW 9300 Applied Regression Analysis and Generalized Linear Models Cr. 3
Classic regression models, generalized linear models, including weighted least-squares, hierarchical linear models, logistic regression. Using SPSS to analyze social work practice data; interpretation of findings; communication of findings to scholars and practitioners. Offered Yearly.
Prerequisite: SW 9100 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
SW 9400 Qualitative Research Methods in Social Work Cr. 3
Examination of social work practice through case study, action research, and qualitative approaches to knowledge building. Offered Every Other Year.
Restriction(s): Enrollment limited to students in the PhD in Social Work program; enrollment is limited to Graduate level students.

SW 9410 Quantitative Research Methods in Social Work Cr. 3
Understanding and application of knowledge and skills in quantitative research methods aimed at increasing knowledge for social work practice and social welfare policy; clear, researchable questions; use of appropriate theory; selection of design; drawing of sample; and development of appropriate measures and operations within person-in-environment framework. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.

SW 9420 Research Practicum Cr. 2-3
The goal of the research practicum is to provide students with an applied research opportunity with the mentorship of a Social Work faculty member. The student project that is expected to be the outcome of the practicum should be manuscripts and abstracts appropriate for dissemination to a professional audience. Offered Every Term.
Restriction(s): Enrollment limited to students in the PhD in Social Work program; enrollment is limited to Graduate level students.

SW 9430 Dissertation Seminar Cr. 1
Development, presentation and critique of dissertation research questions, in context of social work practice or social welfare policy. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

SW 9450 Writing for Publication and Presentation Cr. 1
The goal of the writing seminar is to strengthen healthy and productive writing habits to facilitate the development, presentation and critique of research, in context of social work practice or social welfare policy. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

SW 9500 Advanced Clinical Social Work Theory Cr. 3
Broader and deeper mastery of several theories of development, personality, behavior, and psychopathology that have contributed to the knowledge base of social work. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

SW 9510 Applied Clinical Social Work Practice I Cr. 3
Structured in part as a didactic seminar and in part as a continuous case conference, this year-long course offers a balanced emphasis on the rational, technical, and ethical aspects of social work treatment and clinical supervision. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

SW 9520 Applied Clinical Social Work Practice II Cr. 3
Structured in part as a didactic seminar and in part as a continuous case conference, this year-long course offers a balanced emphasis on the rational, technical, and ethical aspects of social work treatment and clinical supervision. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

SW 9550 Advanced Clinical Practicum I Cr. 2
Practicum provides students with an intensive clinical placement experience in which they can further refine their clinical skills. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

SW 9560 Advanced Clinical Practicum II Cr. 2
Practicum provides students with an intensive clinical placement experience in which they can further refine their clinical skills. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

SW 9650 Preparing for the Job Search Cr. 1
The goal of the job search seminar is to prepare students for the job market. Although much of the class will focus on the academic job market, other options outside academia will be explored. The seminar will assist students in preparing materials and practicing skills to assist in both searching for job opportunities and preparing for conference interviews and job talks. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

SW 9679 Integrative Seminar in Social Work and Anthropology Cr. 3
Graduate-level integrative seminar that explores the intersection between social work and anthropology by critically analyzing relevant ethnographic scholarship. Offered Every Other Year.
Restriction(s): Enrollment limited to students in the PhD in Social Work program; enrollment is limited to Graduate level students.

SW 9990 Pre-Doctoral Candidacy Research Cr. 1-8
Preliminary research relevant to proposed area of dissertation research. Offered Every Term.
Restriction(s): Enrollment limited to students in the PhD in Social Work program; enrollment is limited to Graduate level students.
Repeatable for 12 Credits

SW 9991 Doctoral Candidate Status I: Dissertation Research and Direction Cr. 7.5
Dissertation research of a major social work or social welfare issue or problem. Offered Every Term.
Restriction(s): Enrollment limited to students in the PhD in Social Work program; enrollment is limited to Graduate level students.

SW 9992 Doctoral Candidate Status II: Dissertation Research and Direction Cr. 7.5
Dissertation research of a major social work or social welfare issue or problem. Offered Every Term.
Prerequisite: SW 9991 with a minimum grade of S
Restriction(s): Enrollment limited to students in the PhD in Social Work program; enrollment is limited to Graduate level students.

SW 9993 Doctoral Candidate Status III: Dissertation Research and Direction Cr. 7.5
Dissertation research of a major social work or social welfare issue or problem. Offered Every Term.
Prerequisite: SW 9992 with a minimum grade of S
Restriction(s): Enrollment limited to students in the PhD in Social Work program; enrollment is limited to Graduate level students.

SW 9994 Doctoral Candidate Status IV: Dissertation Research and Direction Cr. 7.5
Dissertation research of a major social work or social welfare issue or problem. Offered Every Term.
Prerequisite: SW 9993 with a minimum grade of S
Restriction(s): Enrollment limited to students in the PhD in Social Work program; enrollment is limited to Graduate level students.

SW 9995 Candidate Maintenance Status: Doctoral Dissertation Research and Direction Cr. 0
Continuation of dissertation research. Offered Every Term.
Restriction(s): Enrollment limited to students in the PhD in Social Work program; enrollment is limited to Graduate level students.
Course Material Fees: $402.01

SWA - Swahili

SWA 1010 Elementary Swahili I Cr. 4
Training in pronunciation, aural comprehension, oral and written expression. Supervised laboratory period for part of class preparation. Offered Fall.
Course Material Fees: $5
SWA 1020 Elementary Swahili II Cr. 4
Continuation of SWA 1010. Offered Winter.
Prerequisites: SWA 1010 with a minimum grade of D-
Course Material Fees: $5

SWA 2010 Intermediate Swahili Cr. 4
Satisfies General Education Requirement: Foreign Culture, Global Learning Inquiry
Conversational Swahili and grammar review; reading of Swahili literature.
Continuation of SWA 1020. Offered Spring/Summer.
Prerequisites: SWA 1020 with a minimum grade of D-
Course Material Fees: $5

SYE - Systems Engineering

SYE 5470 Creative Problem Solving in Design and Manufacturing Cr. 3
Equivalent: IE 5490, ME 5470

TED - Teacher Education

TED 2020 Technology Integration in Teaching Cr. 3
An introduction to various experiences exploring current technologies used to inform and support instructional strategies and practices, and content pedagogy in K-12 classrooms. Offered Every Term.

TED 2200 Foundations I: Foundations of Education in Urban Spaces Cr. 2
An examination of issues surrounding social justice in urban schools and society through the exploration of the historical, political and social trends that influence education. Offered Every Term.
Corequisite: TED 2205
Equivalent: TED 2250

TED 2205 Foundations Field Experience Cr. 1
This course offers community-based, clinical experience for pre-service teachers seeking a prekindergarten-third grade and third through sixth grade teaching license. Experience includes relevant community observations; data collection on learning, language practices, communication; and collaboration in community settings with course instructor and mentor educators. Offered Every Term.
Corequisite: TED 2200

TED 2210 Foundations II: Intersections of Culture, Language, Identity & Schooling Cr. 2
This course is designed to increase students' knowledge and appreciation of the cultural, social, political and economic realities of our complex, pluralistic society in relation to our educational system. Students will examine the historical foundations of U.S. education, with attention to groups who have historically been denied access to equitable educational experiences. This course will examine educational policies, practices, and beliefs underlying inequities in schooling. The principles of multicultural education, culturally responsive pedagogy, universal design and socio-emotional learning will be introduced as frameworks for classroom organization and instructional planning. Offered Every Term.
Equivalent: BBE 1005

TED 2220 Foundations III: Foundations of Inclusive Schooling Cr. 2
Philosophy and practices of inclusive schooling, including legal and ethical responsibilities of teachers of marginalized learners, history of disability rights movement, inclusive teaching practices, Universal Design for Learning (UDL). Offered Every Term.
Equivalent: SED 5010

TED 2250 Becoming an Urban Educator Cr. 3
Examination of issues surrounding social justice in urban schools and society through the exploration of the historical, political, and social trends that influence education. Course includes a 40-hour service learning field experience. Offered Every Term.
Restriction(s): Enrollment limited to students in the College of Education.

TED 2500 Introduction to Asian American Studies Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
This course will provide an overview of the historical and contemporary experiences of Asian Americans and Asian migrants in the United States. We will examine major themes, including race and racism, exclusion and assimilation, ethnic and pan-ethnic identities and communities, intersectionality and comparative racialization, as well as activism and social movements. We will analyze these themes within the broad dynamics of empires, wars, globalizations, migrations, and the making of the U.S. as a nation-state and a global power. Offered Yearly.
Equivalent: ASN 2500

TED 5100 Professional Engagement, Advocacy, and Instructional Planning Cr. 2
Identify sources and impact of teaching beliefs, knowledge, and practices. Design curriculum to organize and enact knowledge, experience, and standards. Develop approaches for student engagement for learning and assessment. Analyze strategies of teacher agency and advocacy. Offered Every Term.

TED 5150 Analysis of Elementary Teaching Cr. 3,5
Satisfies General Education Requirement: Writing Intensive Competency
Organization and management of classrooms. Lesson planning, teaching strategies and testing procedures. Work in classroom assigned by both an experienced public school teacher and a University faculty member. Offered Fall, Winter.
Restriction(s): Enrollment limited to students in the College of Education.
Course Material Fees: $29

TED 5350 Topics in Racial Justice in Education Cr. 3
Repeatable for 12 Credits
Topics, theories, pedagogies, and research methodologies related to racial justice in PK-12 schools and in pre-service and in-service teacher education, including white supremacy, racialization, antiracism, and decolonization. Applications to educational policies, curriculum, instruction, and co-curricular activities that are relevant to racial/ethnic minority students and educators in PK-12 schools. Implications for students and educators from diverse and intersectional perspectives. Offered Every Term.

TED 5400 Topics in LGBTQ+ Studies in Education Cr. 3
Repeatable for 12 Credits
Topics, theories, and issues related to sexual orientation, gender identity, and gender expression in PK-12 schools and in pre-service and in-service teacher education. Applications to educational policies, curriculum, instruction, and co-curricular activities that are relevant to lesbian, gay, bisexual, transgender, queer, and questioning (LGBTQ+) students and educators in PK-12 schools. Implications for students and educators from diverse and intersectional perspectives. Offered Every Term.

TED 5500 Pre-Student Teaching Field Experience for Secondary Majors Cr. 5
Field experience in secondary school settings prior to full-time student teaching. Offered Fall, Winter.
Restriction(s): Enrollment limited to students in the College of Education.

TED 5780 Directed Teaching and Conference Cr. 1-12
Directed teaching in schools at level for which students are preparing for certification. Includes regular conference in which teaching methods in various fields are explored. Offered Fall, Winter.
Restriction(s): Enrollment limited to students in the College of Education.
TED 5790 Directed Teaching and Conference for Special Groups Cr. 1-15
Directed teaching in schools at level for which advanced students are preparing for certification; discussion of educational issues. For students seeking endorsements in special areas; for example: special education, early childhood, art. Students interested in completing general elementary and special education field experiences in the same semester should see advisor for eligibility requirements. Offered Fall, Winter.
Restriction(s): Enrollment limited to students in the College of Education. Repeatable for 15 Credits
TED 5900 Post-Certification Clinical Experience Cr. 1
This course offers a school-based clinical experience for PK-12 teachers seeking to add an additional content area endorsement (i.e., ESL/BBE, math, social studies, etc.) and/or grade band endorsement (i.e., K-8, 6-12, K-12) to an existing Michigan teaching certification. Experience includes relevant classroom observations; data collection on student learning, instruction, assessment; lesson plan implementation; and collaboration with the course instructor and mentor educators. Offered Every Term.
Repeatable for 4 Credits
TED 6020 Technology Integration in Teaching Cr. 3
An introduction to various experiences exploring current technologies used to inform and support instructional strategies and practices, and content pedagogy in K-12 classrooms. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
TED 6030 Computer Applications in Teaching II Cr. 3
Use of computing resources to develop problem-solving strategies and multimedia applications for students in specific K-12 curriculum areas. Offered Fall, Winter.
Prerequisite: TED 6020
TED 6140 Local School Curriculum Planning Cr. 1-6
For classroom teachers and teacher educators. Consideration of local problems in elementary and secondary school programs. Planning for better teaching and learning. Offered Intermittently.
Repeatable for 12 Credits
TED 6200 Foundations I: Foundations of Education in Urban Spaces Cr. 2
Examines issues surrounding social justice in urban schools and society through the exploration of the historical, political and social trends that influence education. Offered Every Term.
Corequisite: TED 6205
TED 6205 Foundations Field Experience Cr. 1
Offers community-based, clinical experience for pre-service teachers seeking a prekindergarten-third grade and third through sixth grade teaching license. Experience includes relevant community observations; data collection on learning, language practices, communication; and collaboration in community settings with course instructor and mentor educators. Offered Every Term.
Corequisite: TED 6200
TED 6210 Foundations II: Intersections of Culture, Language, Identity and Schooling Cr. 2
This course is designed to increase students’ knowledge and appreciation of the cultural, social, political and economic realities of our complex, pluralistic society in relation to our educational system. Students will examine the historical foundations of U.S. education, with attention to groups who have historically been denied access to equitable educational experiences. This course will examine educational policies, practices, and beliefs underlying inequities in schooling. The principles of multicultural education, culturally responsive pedagogy, universal design and socio-emotional learning will be introduced as frameworks for classroom organization and instructional planning. Offered Winter.
TED 6220 Foundations III: Foundations of Inclusive Schooling Cr. 2
Philosophy and practices of inclusive schooling, including legal and ethical responsibilities of teachers of marginalized learners; history of disability rights movement, inclusive teaching practices, Universal Design for Learning (UDL). Offered Every Term.
TED 6370 Equity and Inclusion in Diverse Urban Education Settings Cr. 4
Clinical based course, using inclusive instructional practices for all students including, but not limited to, students with disabilities, English Language Learners, and special populations such as: at-risk, and gifted and talented in inclusive urban settings. Offered Fall.
TED 6380 Integrating Content Cr. 1-12
Current issues and trends related to integrating content areas; theory, methods, materials and strategies. Content areas announced in Schedule of Classes. Offered Yearly
Repeatable for 12 Credits
TED 7000 Introductory Master’s Seminar Cr. 2-3
Skill development in the three primary areas: information access through the variety of resources available in a university library; comprehension and evaluation of technical literature; employment of APA style in technical writing. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Graduate level students.
TED 7030 Foundations of Teaching and Learning Cr. 3
Theoretical foundations guiding classroom teaching and learning with applications to curricular and instructional practices and their implications for the experiences of children of cultural heritages. Offered Every Term.
Restriction(s): Enrollment limited to students in a Doctor of Education, Doctor of Philosophy, Education Specialist Cert or Master of Education degrees.
TED 7060 Inclusive Education, Curriculum and Pedagogy Cr. 3
This course has two emphases. First, it provides graduate students with foundational knowledge about the philosophy and sociology of inclusive education as it relates to students who are members of marginalized groups. Second, it provides students with opportunities to learn a basic framework for inclusive education, curriculum, and pedagogy. Offered Every Term.
Restriction(s): Enrollment limited to students in a Doctor of Education, Doctor of Philosophy, Education Specialist Cert or Master of Education degrees.
TED 7860 Social, Emotional and Aesthetic Perspectives on Curriculum and Instruction Cr. 3
Social, emotional and aesthetic perspectives on curriculum and instruction their significance for educational practice and student development. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.
TED 8100 Doctoral Seminar: Thought, Language, Power, Social Interaction and Learning Cr. 3
Examines the relationships between thought, language, power, and social interaction as they relate to teaching and learning. The seminal works of educational theorists who address these topics will be explored and applied to present day curricula and issues in education. This seminar will introduce socio-cultural theories and theorists and the influence their stances have had and continue to have on education across time and place. Offered Fall.
Restriction(s): Enrollment is limited to students with a major in Educational Studies; enrollment is limited to Graduate level students.
TED 8150 Pro-Seminar I: Introduction to Research in Educational Studies Cr. 1
Introduction to doctoral research in educational studies including: research and inquiry processes; educational issues and problems addressed by educational studies scholars; and tools of educational research. Offered Fall.
Restriction(s): Enrollment is limited to students with a major in Educational Studies; enrollment is limited to Graduate level students.
TED 8200 Doctoral Seminar: Education in Socio-Political Culture Cr. 3
Investigates educational issues within the social, political, and cultural arena; examines mechanisms, policies, and practices that impact teaching and learning. Offered Winter.
Restriction(s): Enrollment is limited to students with a major in Educational Studies; enrollment is limited to Graduate level students.
TED 8250 Pro-Seminar II: Introduction to Research in Educational Studies Cr. 1
Introduction to research in educational studies with emphasis on problem identification, literature review, and academic positions for educational researchers. Offered Winter.
Restriction(s): Enrollment is limited to students with a major in Educational Studies; enrollment is limited to Graduate level students.
TED 8270 Seminar: Issues in Curriculum and Instruction Cr. 2-6
For specialist and doctoral students. Analysis of basic issues in curriculum and instruction and their implications for program: early childhood, K-12, adult curricula. Critique of recent research and development efforts. Application to problems of leadership in school-wide curricular improvements. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 8 Credits
TED 8280 Research Seminar: Curriculum and Instruction I Cr. 3
Methods of research in curriculum and instruction. Critical review of types of research in curriculum and instruction. Research design. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.
TED 8350 Basic Principles of Curriculum and Instruction Cr. 3
Theoretical bases of curricular development and instructional innovation. Their application to the tasks of the curriculum maker explored as various education positions are taken and examined. Offered Intermittently.
Restriction(s): Enrollment is limited to students with a major in Educational Studies; enrollment is limited to Graduate level students.
TED 8400 Issues in Urban Education Cr. 3
Explores urban issues of global, national, and regional importance in the field of curriculum and critical social inquiry from the perspective of those who are often the least served by current educational and social arrangements. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
TED 8500 Integrating STEM Content Cr. 3
Current issues and trends related to integrating STEM content areas; theory, methods, materials, and strategies. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.
TED 8550 Doctoral Seminar: STEM Education and Research Cr. 3
Critical analysis of policy, theory, practice, and research in STEM education disciplines; Integrating STEM education deliberation, policymaking, practice, and research; Cultural/social/political and historical/contemporary bases of STEM education; Nodes of intersection of policies, theories, practice, and research as integrated STEM education. Offered Every Other Year.
Restriction(s): Enrollment is limited to students with a major in Educational Studies; enrollment is limited to Graduate level students.
TED 9130 Doctoral Seminar in Curriculum and Instruction Cr. 3
An examination of curriculum theory and concepts that apply to the development of content and instructional strategies relevant to contemporary education. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
TED 9620 Doctoral Internship in Curriculum and Instruction Cr. 3-6
Planned and supervised professional field-based experience relevant to doctoral program and projected profession. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 6 Credits

THR - Theatre

THR 1010 Introduction to the Theatre Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
Historical, critical and cultural aspects of theatre and drama discussed relative to play attendance. No credit after THR 1111. Offered Every Term.
Course Material Fees: $60

THR 1030 Introduction to Black Theatre and Performance Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Visual Performing Arts
Origins, development, and current trends with production techniques and problems related to the special area of the drama. Offered Every Term.
Course Material Fees: $10

THR 1041 Musical Theatre Appreciation Cr. 3
Satisfies General Education Requirement: Cultural Inquiry, Visual Performing Arts
Survey of American musical theatre from its multiple historical origins to the present. Development of musical theatre understanding and critical observational skills through focus on the ways in which the genre has emerged through interactions between musical theatre artists and their audiences. Offered Fall, Winter.
Course Material Fees: $10

THR 1111 Fundamentals of Theatre Cr. 3
Introduction to the aesthetic principles of theatre as an art form: with special focus on the design principles and theatre spaces. Required for theatre majors. No credit after THR 1010. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $10

THR 1121 Play Analysis Cr. 3
Reading and structural analysis of plays. Selected nineteenth and twentieth century plays. Offered Winter.
Course Material Fees: $10

THR 1211 Acting I Cr. 3
An introduction to the vocabulary of the stage, the process of acting, improvisation, and ensemble work. Offered Yearly.
Course Material Fees: $25

THR 1215 Acting II Cr. 3
Continuation of THR 1040 or THR 1211; scene study, improvisation in development of actor’s craft. Offered Yearly.
Prerequisites: THR 1040 with a minimum grade of C- or THR 1211 with a minimum grade of C-.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre or Theatre Honors; enrollment limited to students in a Bachelor of Fine Arts degree.
Course Material Fees: $25
THR 1411 Fundamentals of Crafts: Scenery and Costumes Cr. 3
An introduction to stagecraft techniques and practices used in the creation of scenery and costumes for the performing arts. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $45

THR 1451 Principles of Makeup Cr. 1
Fundamentals of theatre makeup. Laboratory projects coordinated with University Theatre productions. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre or Theatre Honors; enrollment limited to students in a Bachelor of Arts or Bachelor of Fine Arts degrees.

THR 1461 Fundamentals of Crafts: Lighting and Stage Management Cr. 3
An introduction to stagecraft techniques and practices used in the performing arts for lighting, sound, and stage management. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $30

THR 2130 Stagecraft Cr. 3
Principles of scenic construction and painting. Types and utilization of stage scenery. Laboratory projects coordinated with University Theatre productions. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major in Theatre or Theatre Honors; enrollment limited to students in the BA in Fine Arts or Bachelor of Fine Arts programs; enrollment limited to students in a Bachelor of Arts or Bachelor of Fine Arts degrees.
Course Material Fees: $30

THR 2211 Acting: Scene Study Cr. 3
Continuation of THR 1211 with concentration on working on a role; breakdown of text into actions, objectives, beats; sensory work through scene work. Offered Every Term.
Prerequisites: THR 1211 with a minimum grade of C- or THR 1040 with a minimum grade of C-
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $25

THR 2220 Fundamentals of Voice and Movement Cr. 3
Basic explorations of movement and voice focusing on the experiential study of a variety of movement and vocal techniques in order to expose the student to differing approaches and styles of voice and movement work that are commonly practiced in contemporary theatre. Offered Every Term.
Prerequisites: THR 1211 with a minimum grade of C- or THR 1040 with a minimum grade of C-
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $25

THR 2221 Stage Movement I Cr. 2
Introduction to the principles, practices, and exercises in body technique and stage movement. Offered Fall.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre or Theatre Honors; enrollment limited to students in a Bachelor of Fine Arts degree.
Course Material Fees: $50

THR 2231 Voice Lab I Cr. 2
Introduction to vocal production. Emphasis on relaxation, breathing techniques, and the production of vocal sounds. Offered Fall.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre or Theatre Honors; enrollment limited to students in a Bachelor of Fine Arts degree.
Course Material Fees: $25

THR 2251 Musical Theatre Performance I Cr. 3
Studio course; examining styles of musical theatre performance; applying acting techniques to interpret styles throughout the era of musical theatre. Offered Fall.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $25

THR 2301 Introduction to Design for the Theatre Cr. 3
Methods and materials laboratory course. Practical exercises. Prerequisite to stage, costume or lighting design; techniques of costume, lighting design; rendering, drafting, perspective, color, and design. Offered Fall.
Prerequisites: THR 1010 with a minimum grade of C- or THR 1111 with a minimum grade of C-
Course Material Fees: $30

THR 2311 Stage Management Cr. 3
Supervised studio in stage management as applied to department productions. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 3 Credits

THR 2351 Stage Management II Cr. 3
Supervised studio in stage management as applied to department productions. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 3 Credits

THR 2411 Stage Management Internship Cr. 3
Supervised studio in stage management as applied to department productions. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 3 Credits

THR 2580 Theatre Laboratory Cr. 1
Supervised laboratory in technical and managerial facets of theatre in production. Offered Every Term.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 3 Credits

THR 2581 Theatre Studio - Performance Cr. 1
Supervised studio in theatre performance requiring participation in department productions. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 3 Credits

THR 2582 Theatre Studio - Scenery/Lighting Cr. 1
Supervised studio in scenery and lighting techniques applied to department productions. Offered Fall, Winter.
Prerequisites: THR 1411 with a minimum grade of C- and THR 1461 with a minimum grade of C-
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 3 Credits

THR 2583 Theatre Studio - Costumes Cr. 1
Supervised studio in theatrical costuming applied to department productions. Offered Fall, Winter.
Prerequisites: THR 1411 with a minimum grade of C-
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 3 Credits

THR 2584 Theatre Studio - Stage Management Cr. 1
Supervised studio in stage management applied to department productions. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 3 Credits

THR 2585 Theatre Studio - Theatre Management Cr. 1
Supervised studio in theatre management as applied to department productions. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 3 Credits

THR 2586 Theatre Studio - Running Crew Cr. 1
Supervised studio in theatre production for back stage crew and/or wardrobe crew applied to department productions. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 3 Credits
THR 2587 Theatre Studio - Production Cr. 1
Supervised studio as a unique production crew or technical assignments (projection designer, puppeteer, automation specialist, etc.) required in a department production. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 3 Credits

THR 2611 Stage Management Cr. 3
Study of activities except acting that take place on stage or backstage during a technical performance and during rehearsal period. Offered Every Term.
Prerequisites: THR 1111 with a minimum grade of C- or THR 1010 with a minimum grade of C-
Course Material Fees: $20

THR 2651 Introduction to Life Skills for the Creative Entrepreneur Cr. 3
Satisfies General Education Requirement: Quantitative Experience Comp
An introduction to the quantitative and analytical skills utilized by successful entrepreneurs. Topics include: fund management, financial management, contracts, development, and marketing. This course is intended for all students preparing for a career as an independent entrepreneur, business person, artist, creator, musician, writer, and any others seeking self-determined professional opportunities. Offered Every Term.

THR 3211 Acting III Cr. 3
Study and exercise in the fundamentals of the actor's craft. Emphasis on the development of the actor's inner resources as applied to dramatic action, and consideration of basic stage techniques. Offered Fall.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre or Theatre Honors; enrollment limited to students in a Bachelor of Fine Arts degree.
Course Material Fees: $25

THR 3215 Acting IV Cr. 3
Development of the techniques and basic principles of character building. Emphasis on the development of a role through script, exercises and scene work. Offered Winter.
Prerequisites: THR 2030 with a minimum grade of C- or THR 3211 with a minimum grade of C-
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre or Theatre Honors; enrollment limited to students in a Bachelor of Fine Arts degree.
Course Material Fees: $25

THR 3221 Stage Movement II Cr. 2
Continuation of THR 2010 or THR 2221. Emphasis on character movement. Offered Winter.
Prerequisites: THR 2010 with a minimum grade of C- or THR 2221 with a minimum grade of C-
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre or Theatre Honors; enrollment limited to students in a Bachelor of Fine Arts degree.
Course Material Fees: $25

THR 3225 Stage Movement III Cr. 2
Styles of stage movement: Commedia, Moliere, Restoration. Emphasis on period deportment, manners, and dance forms. Offered Fall.
Prerequisites: THR 2020 with a minimum grade of C- or THR 3221 with a minimum grade of C-
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre or Theatre Honors; enrollment limited to students in a Bachelor of Fine Arts degree.
Course Material Fees: $25

THR 3231 Voice Lab II Cr. 2
Continuation of vocal production work and an introduction to consonant sounds. Offered Yearly.
Prerequisites: THR 2110 with a minimum grade of C- or THR 2231 with a minimum grade of C-
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre or Theatre Honors; enrollment limited to students in a Bachelor of Fine Arts degree.
Course Material Fees: $25

THR 3235 Voice Lab III Cr. 2
Continuation of vocal and articulation work and an introduction to rhythm and tempo in the speaking voice. Offered Winter.
Prerequisites: THR 2170 with a minimum grade of C- or THR 3231 with a minimum grade of C-
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre or Theatre Honors; enrollment limited to students in a Bachelor of Fine Arts degree.
Course Material Fees: $25

THR 3241 Dance Styles of Musical Theatre Cr. 3
Tap, jazz and dance of the American musical theatre tradition. Emphasis on skills for performing and auditioning for Broadway and movie musicals. Offered Yearly.
Course Material Fees: $25

THR 3301 Design Skills - Drafting I Cr. 3
Specific instruction in theatrical drafting techniques, including hand drafting and the use of 2D AutoCAD in the drafting of theatrical scenery and lighting. Offered Fall.

THR 3303 Design Skills - Drafting II Cr. 3
Specific instruction in theatrical drafting techniques using the 3 dimensional capabilities of AutoCAD Offered Every Other Winter.

THR 3315 Entertainment Design - Scenery I Cr. 2
Through instructor lead group discussions, as well as group and individual projects, this class will focus on the exploration of the theatrical text, and the design process as it relates to scenery. Studio skills, including research, sketching, drafting and model making, will be incorporated into a working process aimed at designing scenery for the theatre. Offered Winter.
Prerequisite: THR 3301 with a minimum grade of C-

THR 3322 Introduction to Costuming Cr. 2
Introduction to techniques used in costume construction and manipulation. Offered Fall.
Course Material Fees: $85

THR 3325 Entertainment Design - Costume I Cr. 2
An exploration of the role of costume designer in the contemporary theatre and live entertainment industry. Through hands on, project-based coursework, students will explore the art and history of costume design. Offered Fall.

THR 3331 Entertainment Design - Lighting I Cr. 2
An exploration of the role of lighting designer in the contemporary theatre and live entertainment industry. Through hands on, project-based coursework, students will explore the art of lighting design and its various industry applications, including theatre, dance, opera, architecture, themed entertainment, and concert performances. Offered Yearly.

THR 3341 Design Skills - Digital I Cr. 2
Students will gain a working knowledge of the fundamental concepts and features needed to master a set of software programs widely used by theatre design practitioners. Focus includes programs within the Adobe Suite - Adobe Photoshop, Illustrator and After Effects - that can become integral tools in the working processes of set, costume, lighting and projection designers. Offered Fall.
THR 3351 Visual Communication - Scenery and Lighting Cr. 2
With a focus on visual communication as a primary tool for collaboration, this course covers various techniques, workflows and professional practices used to develop a stage design from initial concept to final design. Offered Winter.
Prerequisite: THR 3301 with a minimum grade of C-

THR 3352 Visual Communication - Costumes Cr. 2
Helps the student develop those skills needed to design costumes for theatrical productions. We will explore various media and rendering techniques as well as script and character analysis. Elements and principles of design will be taught and applied through numerous rendering assignments. Offered Winter.

THR 3561 WSU Touring Theatre Cr. 1
Offered Every Term.
Repeatable for 6 Credits

THR 3570 Technical Theatre Problems Cr. 2
Participation in theatre productions as stage manager or assistant stage manager. Offered Every Term.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre or Theatre Honors; enrollment limited to students in a Bachelor of Fine Arts degree.
Course Material Fees: $40
Repeatable for 8 Credits

THR 3581 Advanced Theatre Studio - Performance Cr. 1
Supervised studio in theatre performance requiring participation in department productions. Written permission of Instructor or academic advisor required. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 6 Credits

THR 3582 Advanced Theatre Studio - Scenery/Lighting Cr. 1
Supervised studio in theatrical scenery and lighting techniques applied to department productions. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 6 Credits

THR 3583 Advanced Theatre Studio - Costumes Cr. 1
Supervised laboratory in theatrical costuming applied to department productions. Written permission of Instructor or academic advisor required. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 6 Credits

THR 3584 Advanced Theatre Studio - Stage Management Cr. 1
Supervised studio in stage management applied to department productions. Written permission of Instructor or academic advisor required. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 6 Credits

THR 3585 Advanced Theatre Studio - Theatre Management Cr. 1
Supervised studio in theatre management applied to department productions. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 6 Credits

THR 3586 Advanced Theatre Studio - Running Crew Cr. 1
Supervised laboratory as back stage crew and/or wardrobe crew for department productions. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 6 Credits

THR 3587 Advanced Theatre Studio - Production Cr. 1
Supervised studio as unique production crew or technical assignment (projection designer, puppeteer, automation engineer, etc.) in a department production. Offered Fall, Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $70
Repeatable for 6 Credits

THR 3601 Stage Management Studio - Principles Cr. 2
The principles of stage management from time management to performance management. Offered Fall.

THR 3603 Stage Management Studio - AEA Contracts Cr. 2
The study of Actors Equity Association contracts from SPT to Broadway and the history and labor laws impact on these contracts. Offered Intermittently.

THR 3605 Stage Management Studio - Health and Safety Cr. 2
An examination of all vital information about health and safety issues affecting the performing arts. Offered Intermittently.

THR 3651 Principles of Theatre Management Cr. 3
Introduction to the principles and practices of theatre management. Season selection, advertising, budgeting, marketing and fundraising are among the areas to be covered. Offered Yearly.
Course Material Fees: $20

THR 3671 Theatre Management: Marketing and Public Relations Cr. 3
Methods and approaches used by Theatre Management professionals to communicate their mission, events, and productions. Offered Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $10

THR 3675 Theatre Management: Marketing Design and Layout Cr. 3
Techniques and practices for design and layout specifically addressing the needs in Theatre and Arts Marketing; programs, posters, billboards, brochures, and web pages Offered Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $10

THR 3681 Theatre Management: Patron Services and Development Cr. 3
Methods and approaches used by Theatre Management professionals to create and maintain meaningful relationships with patrons and audience. This class will emphasize oral communication skills supported by simple use of practices found in the theatre industry Offered Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $10

THR 3731 Applied Theatre Studies: Community Possibilities Cr. 3
Fundamental theory and practical technique of applied theatre work, especially process drama and playbuilding. Focus on community situations including intergenerational dynamics, community health and social work effectiveness, and areas of outreach involvement. Offered Yearly.
Course Material Fees: $10

THR 3735 Applied Theatre Studies: Theatre in Education Cr. 3
Fundamentals of applied theatre work, especially story drama, process drama, and theatre-in-education (TIE). Focus on the artist as teacher; the visiting artist in the classroom, after-school drama programming, performing as a member of a TIE team. Offered Yearly.
THR 3738 Applied Theatre Practicum Cr. 1-4
Supervised students work in schools, with youth programs, and in community service settings, implementing applied theatre projects. Offered Yearly.
Repealable for 8 Credits

THR 3811 Africana Theatre and Dance: Concepts and Practices Cr. 3
Exploration of the interdisciplinary and global reach of black performance in theatre and dance; examination of key concepts through the analysis of performance and popular culture with scholarly and creative texts by scholars, activists, and artists from the Black Diaspora. Offered Winter.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $10

THR 3990 Directed Study Cr. 1-3
Offered Every Term.
Restriction(s): Enrollment is limited to students with a major in Theatre or Theatre Honors.
Repealable for 9 Credits

THR 4211 Acting V Cr. 3
Theories and methods of acting verse drama. Offered Fall.
Prerequisites: THR 2040 with a minimum grade of C- or THR 3215 with a minimum grade of C-
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre or Theatre Honors; enrollment limited to students in a Bachelor of Fine Arts degree.
Course Material Fees: $25
Repealable for 6 Credits

THR 4221 Stage Movement IV Cr. 2
Styles of stage movement: Shakespeare. Emphasis on Renaissance deportment, manners, and dance forms. Offered Winter.
Prerequisites: THR 3225 with a minimum grade of C-
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre or Theatre Honors; enrollment limited to students in a Bachelor of Fine Arts degree.
Course Material Fees: $25

THR 4231 Voice Lab IV Cr. 2
Continuation of vocal articulation and vocal music techniques; harmonizing them in performance. Offered Yearly.
Prerequisites: THR 3080 with a minimum grade of C- or THR 3235 with a minimum grade of C-
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre or Theatre Honors; enrollment limited to students in a Bachelor of Fine Arts degree.
Course Material Fees: $25

THR 4271 Acting for the Camera Cr. 3
Acting technique and practice with an emphasis on developing the technical and emotional adjustments required for success in Film, TV and industry acting. Units include adjusting theatre acting technique for technical and emotional adjustments required for success in Film, TV; learning to "hit marks" and to understand frame sizes; and developing video auditions. Offered Fall.
Restriction(s): Enrollment is limited to Undergraduate level students.
Course Material Fees: $25

THR 4311 Entertainment Design - Scenery II Cr. 2
A continuation of Entertainment Design – Scenery 1, this course seeks to strengthen and expand the student’s design process and presentation skills as they relate to scenery. Through the development and critique of projects that span various genres and styles, students will cultivate a greater facility in conceptualizing an approach to the myriad design challenges in the entertainment industry. Offered Fall.
Prerequisite: THR 3315 with a minimum grade of C-

THR 4315 Entertainment Design - Scenery III Cr. 2
A continuation of Entertainment Design – Scenery 2, this course seeks to refine and reinforce the student’s design process and presentation skills as they relate to scenery. Through the design and critique of projects of their own choosing, students will develop their own unique point of view and aesthetic while solidifying their facility in conceptualization. At this level, students are encouraged to seek intern opportunities outside of the academic setting to bring greater perspective to their training. Offered Winter.
Prerequisite: THR 4311 with a minimum grade of C-

THR 4321 Entertainment Design - Costume II Cr. 2
A continuation of Entertainment Design - Costume 1 with particular attention to conceptual design and costume design communication. Offered Fall.
Prerequisite: THR 3325 with a minimum grade of C-

THR 4331 Entertainment Design - Lighting II Cr. 2
An intermediate practice in the design and execution of lighting for the contemporary theatre and live entertainment industry. Through hands on, project-based coursework, students will explore the art of lighting design and its various industry applications, including plays, musical theatre, opera, and dance. Offered Winter.
Prerequisite: THR 3331 with a minimum grade of C-

THR 4335 Entertainment Design - Lighting III Cr. 2
An advanced study of the practice of lighting design in the contemporary theatre and live entertainment industry. Through hands on, project-based coursework, students will exercise their craft in the art of lighting design specifically focused on the application of advanced lighting technology to commercial entertainment including large scale musicals, operas, dance, themed entertainment, and architectural lighting applications. Offered Fall.
Prerequisite: THR 4331 with a minimum grade of C-

THR 4342 Design Skills - Digital II Cr. 1
An advanced study of software that is necessary for the growth of entertainment designers and managers. Students will gain an understanding of industry standard software, while also exploring cutting edge software that might be incorporated into their design and management work in the future. Offered Winter.

THR 4371 Entertainment Design - Projection Design Cr. 2
Specialized study in the use of projection and media as an integrated storytelling device in theatre. The course will explore and practice the design skills (conceptualization, research, and storyboard); building techniques (creating, acquiring, and manipulating visual imagery); and production practices (manipulating cues and playback software) required to develop a comprehensive working process for designing projections for the theatre. Offered Every Other Fall.
Prerequisite: THR 3341 with a minimum grade of C-

THR 4500 Qualitative Research in Dance and Theatre Arts Cr. 3
A survey of qualitative research design and methodology in dance and theatre arts with particular emphasis on empirical and exploratory research drawn from descriptive, ethnographic, case study, participatory action research, interpretive and critical approaches, among others. Offered Every Other Fall.
Prerequisites: AFS 2390 with a minimum grade of C, ENG 2390 with a minimum grade of C, ENG 3010 with a minimum grade of C, ENG 3020 with a minimum grade of C, or ENG 3050 with a minimum grade of C
Restriction(s): Enrollment limited to students with a class of Junior or Senior.
Equivalent: DNC 4500

THR 4601 Stage Management Studio: Event Management Cr. 2
An examination of the central role of events management in the cultural, tourism and arts industries. Offered Intermittently.
THR 4603 Stage Management Studio - Commerce of Theatre Cr. 2
Prepares students with the requisite skills and understanding required to seek employment in the commercial and not-for-profit entertainment industry. Offered Winter.

THR 4605 Stage Management Studio - Performance Management Cr. 2
The exploration and development of skills and techniques necessary to manage a wide range of performances. Offered Winter.

THR 4995 Theatre Capstone: Performance Cr. 3
Capstone experience for B.F.A. acting students. The course focuses on transitioning into the profession, including: auditioning approaches and techniques; showcase preparation and presentation; and developing a personal professional resume and electronic portfolios. Offered Winter.

Prerequisite: THR 4211 with a minimum grade of C-
Restriction(s): Enrollment limited to students with a class of Senior; enrollment is limited to students with a major in Theatre.

THR 4996 Theatre Capstone Experience Cr. 3
Development of a personal electronic portfolio demonstrating computer proficiency. Offered Winter.

Restriction(s): Enrollment limited to students with a class of Senior; enrollment is limited to students with a major in Theatre or Theatre Honors; enrollment is limited to students in the BA in Fine Arts program; enrollment limited to students in a Bachelor of Arts degree.

THR 4998 Capstone Honors Thesis Cr. 3
Culminating project for theatre honors students: research for scholarly/creative activity. Offered Spring/Summer.

Prerequisite: (THR 3410 may be taken concurrently) with a minimum grade of C- or THR 3460 (may be taken concurrently) with a minimum grade of C- or THR 3030 (may be taken concurrently) with a minimum grade of C- or THR 3731 (may be taken concurrently) with a minimum grade of C- or THR 3735 (may be taken concurrently) with a minimum grade of C)

Restriction(s): Enrollment limited to students with a class of Senior; enrollment is limited to students with a major in Theatre Honors; enrollment limited to students in the BA in Fine Arts or Bachelor of Fine Arts programs; enrollment limited to students in a Bachelor of Arts or Bachelor of Fine Arts degrees.

THR 5301 Design Skills - Drafting I Cr. 3
Specific instruction in theatrical drafting techniques, including hand drafting and the use of 2D AutoCAD in the drafting of theatrical scenery and lighting. Offered Fall.

Course Material Fees: $95

THR 5311 Stage Design Cr. 3
The scenic designer’s multiple analysis of a play. Practice in evolving a technique of scenic design by study of selected plays with execution of sketches and working drawings. Offered Intermittently.

Prerequisite: THR 1411 with a minimum grade of C-
Course Material Fees: $30
Repeatable for 6 Credits

THR 5315 Entertainment Design - Scenery I Cr. 2
This class will focus on the exploration of the theatrical text, and the design process as it relates to scenery. Studio skills, including research, sketching, drafting and model making, will be incorporated into a working process aimed at designing scenery for the theatre. Offered Winter.

Prerequisite: THR 5301 with a minimum grade of C-
Course Material Fees: $30

THR 5322 Introduction to Costuming Cr. 2
Introduction to techniques used in costume construction and manipulation. Offered Fall.

THR 5325 Entertainment Design - Costume I Cr. 2
Advanced costume design projects concentrating on the expression of character through design principles. Further development of drawing and rendering skills. Offered Every Other Winter.

Prerequisite: THR 5010 with a minimum grade of C- or THR 5321 with a minimum grade of C-
Course Material Fees: $30

THR 5331 Entertainment Design - Scenery I Cr. 2
The process aimed at designing scenery for the theatre. Offered Winter.

Restriction(s): Enrollment limited to students with a class of Senior; enrollment is limited to students with a major in Theatre or Theatre Honors; enrollment is limited to students in the BA in Fine Arts program; enrollment limited to students in a Bachelor of Arts degree.

THR 5335 Advanced Stage Lighting Design Cr. 3
Examination of situations and responsibilities encountered in professional lighting design. Project work based on large-scale, complex requirements. Offered Intermittently.

Prerequisites: THR 5070 with a minimum grade of C- or THR 5331 with a minimum grade of C-
Course Material Fees: $45

THR 5336 Advanced Stage Lighting Design Cr. 3
This course will focus on the exploration of the theatrical text, and the design process as it relates to lighting. Studio skills, including research, sketching, rendering and model making, will be incorporated into a working process aimed at designing lighting for the theatre. Offered Winter.

Prerequisite: THR 5331 with a minimum grade of C-
Course Material Fees: $45

THR 5422 Introduction to Scene Painting Cr. 3
Studio and demonstration course as an introduction to painting for the stage, with an emphasis on the materials, texturing techniques, three-dimensional effects and the beginning work from painter’s elevations. Offered Intermittently.

Course Material Fees: $70

THR 5426 Advanced Scene Painting Cr. 3
Studio and demonstration course for the design or technical theatre student. Materials, techniques, styles of scene painting. Offered Intermittently.

Prerequisite: THR 5422 with a minimum grade of C- or THR 5140 with a minimum grade of C-
Course Material Fees: $70

THR 5601 Stage Management - AEA Contracts Cr. 2
Continuation of THR 7060 or THR 7605; further practical studies in various theatre crafts. Offered Every Other Fall.

Prerequisite: THR 7060 with a minimum grade of C or THR 7605 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

THR 5640 Introduction to Accounting for Nonprofit Organizations Cr. 2
Introduction to accounting for nonprofit organizations. Offered Winter.

Restriction(s): Enrollment is limited to Graduate level students.

THR 5642 Research Methods and Technology in the Theatre Management Cr. 3
Explores the research methodologies and technologies used by leaders in the theatre and other arts disciplines, including website development, social media management, email marketing, data collection, ticketing systems/CRMs. Offered Intermittently.

Restriction(s): Enrollment is limited to Graduate level students.
THR 5711 Play Direction Cr. 3
Principles and theories of stage movement, blocking, casting, rehearsing. Students required to direct scenes and one-act plays for class presentation. Offered Fall.
Course Material Fees: $25

THR 5721 Playwriting Cr. 3
Introduction to the craft of writing for the stage. Students required to write a full-length dramatic script. Offered Every Other Year.
Course Material Fees: $10

THR 5751 Study Abroad: Moscow Art Theatre School Cr. 1-3
Satisfies General Education Requirement: Global Learning Inquiry
Continuation of THR 5100 or THR 5841. Theatre from English and continental eighteenth century to contemporary European and American theatres. Offered Winter.
Course Material Fees: $10
Repeatable for 3 Credits

THR 5755 Study Abroad: Directed Study in Russian Theatre Cr. 1-3
Focused studies on Russian theatre, performance, design and production; directed studies in contemporary Russian. Offered Spring/Summer.
Prerequisite: THR 5600 (may be taken concurrently) with a minimum grade of C- or THR 5751 (may be taken concurrently) with a minimum grade of C-

THR 5811 Development of the Drama I: Greek to Eighteenth Century Cr. 3
Plays from the Greek through the eighteenth century, including Shakespeare; relation of drama to an era and its theatre. Offered Fall.
Course Material Fees: $10

THR 5812 Development of the Drama II: Nineteenth Century to Modern Cr. 3
Plays and theories of the theatre from the nineteenth century to modern times; relation of drama to an era and its theatre. Offered Winter.
Course Material Fees: $10

THR 5821 Black Dramatic Literature and Performance Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Course Material Fees: $10
Equivalent: AFS 5220

THR 5831 Pioneers of the Modern Theatre Cr. 3
Readings and discussions about key figures in modern theatre, dance, and performance theory. Offered Every Other Year.
Course Material Fees: $10

THR 5841 Theatre History I Cr. 3
The development of the physical theatre and the evolution of production methods in Greek, Medieval, Renaissance, and English Restoration theatres with the correlation of the cultural environment of each period. Offered Fall.
Course Material Fees: $10

THR 5842 Theatre History II Cr. 3
Continuation of THR 5100 or THR 5841. Theatre from English and continental eighteenth century to contemporary European and American theatres. Offered Winter.
Prerequisites: THR 5100 with a minimum grade of C- or THR 5841 with a minimum grade of C-
Course Material Fees: $10

THR 593 Writing Intensive Course in Theatre Cr. 0
Satisfies General Education Requirement: Writing Intensive Competency
Disciplinary writing assignments under the direction of a faculty member. Must be selected in conjunction with a designated corequisite; see section listing in Schedule of Classes for corequisites available each term. Satisfies the University General Education Writing Intensive Course in the Major requirement. Required for all majors. Offered Every Term.
Prerequisites: (AFS 2390 with a minimum grade of C, ENG 2390 with a minimum grade of C, ENG 3010 with a minimum grade of C, ENG 3020 with a minimum grade of C, or ENG 3050 with a minimum grade of C) and (THR 5811 (may be taken concurrently) or THR 5812 (may be taken concurrently))
Restriction(s): Enrollment is limited to students with a major in Theatre or Theatre Honors; enrollment is limited to Undergraduate level students; enrollment limited to students in a Bachelor of Arts or Bachelor of Fine Arts degrees.

THR 5995 Special Topics in Theatre Cr. 1-3
Specialized studies in theatre performance, history, criticism, management, design, and technology. Topics to be announced in Schedule of Classes. Offered Every Term.
Repeatable for 6 Credits

THR 6211 Acting Studio I: Fundamentals of the Stanislavsky System Cr. 2
Open only to Hibbey Company members in the M.F.A. Acting Program. Offered for graduate credit only. A study of the Method of Active Analysis through Physical Action, a post-1991 understanding and practice of the teachings of Konstantin Stanislavski. Subject matter to be chosen from modern texts - Anton Chekhov through Eugene O'Neill. Offered Fall.
Restriction(s): Enrollment limited to students in a Master of Fine Arts degree.
Course Material Fees: $25

THR 6215 Acting Studio II: Introduction to the Michael Chekhov Cr. 2
Understanding and application of the principles and tools of the Technique: Psycho-physical approach; Imagination and Incorporation of Images; Improvisation and Ensemble work; Atmosphere; and Psychological Gesture. Subject matter to be chosen from the plays of William Shakespeare. Clues from First Folio renditions of the plays will be identified on all analysis assignments. Offered Winter.
Prerequisite: THR 6211 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $25

THR 6221 Theatrical Movement I - Introduction to Physical Awareness Cr. 1
Pilates Method of body conditioning; learning and perfecting movements of the body at beginning and intermediate levels. Offered Fall.
Restriction(s): Enrollment is limited to students with a major, minor, or concentration in Theatre; enrollment limited to students in a Master of Fine Arts degree.
Course Material Fees: $15

THR 6225 Theatrical Movement II - Introduction to Movement Analysis Cr. 1
Yoga; Laban Movement Analysis for analyzing and further strengthening the body. Offered Winter.
Prerequisite: THR 6070 with a minimum grade of C or THR 6221 with a minimum grade of C
Restriction(s): Enrollment limited to students in a Master of Fine Arts degree.
Course Material Fees: $25
THR 6231 Voice and Speech I - Foundations of Voice for the Actor Cr. 1  
Studies in vocal physiology and production using Fitzmaurice, Linklater, and Lessac techniques. Offered for graduate credit only. Offered Fall.  
**Restriction(s):** Enrollment limited to students in a Master of Fine Arts degree.  
**Course Material Fees:** $15

THR 6235 Voice and Speech II: Speech Foundations Cr. 1  
Studies in speech and phonetics through physiology, articularatory improvement, and phonetics with application to text. Offered for graduate credit only. Offered Winter.  
**Prerequisite:** THR 6050 with a minimum grade of C or THR 6231 with a minimum grade of C  
**Restriction(s):** Enrollment limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.  
**Course Material Fees:** $25

THR 6301 Foundations of Collaboration and Design Cr. 2  
Introduction to the design process and expectations for graduate-level study in theatrical design. Review of responsibilities of each portion of design team, examination of traditional and electronic methods of research. Offered Fall.  
**Restriction(s):** Enrollment limited to students in a Master of Fine Arts degree.

THR 6303 Design Skills - Drafting II Cr. 3  
Continuation of THR 5301 Design Skills – Drafting 1 for graduate students. Specific instruction in theatrical drafting techniques using the 3 dimensional capabilities of AutoCAD. Offered Winter.  
**Prerequisite:** THR 5301 with a minimum grade of C  
**Restriction(s):** Enrollment is limited to Graduate level students.

THR 6306 Design Skills - Drawing Cr. 1  
Provides each design student with the opportunity to strengthen the connection between their eye and hand, enabling the student to draw spontaneously, energetically and accurately. Designing for theatre is the act of transforming words into visual imagery and drawing is an essential tool in that transformative process. A student who hopes to progress as a designer must simultaneously develop and practice their drawing skills. Offered Fall.  
**Restriction(s):** Enrollment is limited to Graduate level students.  
**Repeatable for 6 Credits**

THR 6321 Entertainment Design - Costume II Cr. 2  
Advanced exploration of the principles of costume design as it relates to Western theatrical literature. Offered for graduate credit only. Offered Every Other Winter.  
**Prerequisite:** THR 6000 with a minimum grade of C or THR 6301 with a minimum grade of C  
**Restriction(s):** Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.  
**Course Material Fees:** $30

THR 6325 Professional Costume Design II Cr. 3  
Advanced exploration of elements, genres, and styles of costume design as it relates to Western theatrical literature and conventions. Significant project work and research. Offered Every Other Fall.  
**Prerequisite:** THR 6060 with a minimum grade of C or THR 6321 with a minimum grade of C  
**Restriction(s):** Enrollment limited to students in a Master of Fine Arts degree.  
**Course Material Fees:** $30

THR 6331 Professional Lighting Design I Cr. 3  
Examination of the responsibilities and skills needed to function as a professional lighting designer. Varied styles of theatrical production, the lighting designer’s communication with other professionals, use of computers in lighting design process, graphic presentation of lighting design concepts. Offered Yearly.  
**Prerequisite:** THR 5300 with a minimum grade of C or THR 5335 with a minimum grade of C  
**Restriction(s):** Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.  
**Course Material Fees:** $45

THR 6351 Visual Communication Scenery and Lighting Cr. 2  
With a focus on visual communication as a primary tool for collaboration, this course covers various techniques, workflows and professional practices used to develop a stage design from initial concept to final design. Offered Winter.  
**Restriction(s):** Enrollment is limited to Graduate level students.

THR 6352 Visual Communication Costumes Cr. 2  
This course is designed to help the student develop those skills needed to design costumes for theatrical productions. We will explore various media and rendering techniques as well as script and character analysis. Elements and principles of design will be taught and applied through numerous rendering assignments. Offered Winter.  
**Restriction(s):** Enrollment is limited to Graduate level students.

THR 6361 Design Studio I Cr. 2  
Studio study and application of graphics which support development and representation of the design idea. Rendering techniques, presentational styles, computer graphics. Offered Winter.  
**Prerequisite:** THR 6000 with a minimum grade of C or THR 6301 with a minimum grade of C  
**Restriction(s):** Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.  
**THR 6365 Design Studio II Cr. 2**  
Continuation of THR 6210 or THR 6361. Offered Fall.  
**Prerequisite:** THR 6210 with a minimum grade of C or THR 6361 with a minimum grade of C

THR 6381 Styles of Design Cr. 3  
Survey and analysis of theatrical styles of production in European and American theatre, related to historical theory and practice. Research and comparative analysis; some laboratory project work. Offered Winter.  
**Prerequisite:** THR 6000 with a minimum grade of C or THR 6301 with a minimum grade of C  
**Restriction(s):** Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

THR 6601 Stage Management Studio - Principles Cr. 2  
The principles of stage management from time management to performance management. Offered Fall.  
**Restriction(s):** Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

THR 6603 Stage Management Studio - AEA Contracts Cr. 2  
The study of Actors Equity Association contracts from SPT to Broadway and the history and labor laws impact on these contracts. Offered Intermittently.
THR 6605 Stage Management - Health and Safety Cr. 2
Continuation of THR 6010 or THR 6601. Offered Winter.
Prerequisite: THR 6010 with a minimum grade of C or THR 6601 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

THR 6651 Public Relations and the Arts Cr. 3
Press writing and public relations for arts organizations. Topics include: writing, media relations, controlling public image. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
Course Material Fees: $10

THR 6661 Marketing the Theatre Cr. 3
Marketing strategies for arts organizations. Topics include: subscription and membership sales, individual ticket sales. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

THR 6662 Audience Development and Community Engagement for the Arts Cr. 2
Introduces students to the principles and practice of developing audiences and community engagement. Analyzing the existing and prospective audience, understanding the needs of a community, and communication best practices, will be emphasized through audience research methodologies. Through case studies and analysis of projects, the student will gain an understanding of the different ways that engagement with the arts occurs. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.

THR 6671 Interpersonal Dynamics Cr. 2
Relationships between individuals in the work environment; understanding differing behavioral styles amongst employees in the theatre. Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

THR 6672 Legal and Ethical Issues in the Arts Cr. 3
An examination of legal requirements of nonprofit arts organizations, specifically addressing tax exemption, reporting of contributions, development considerations, and contemporary legal issues affecting artists. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.

THR 6674 Strategic Planning for Arts Organizations Cr. 2
Strategic planning for the arts introduces students to the practices in developing strategies for organization longevity and stability. Topics include: organizational analysis and establishing organizational priorities, developing and redefining mission and vision statements, developing goals and objectives to meet priorities, preparing a five-year plan for sustainability and growth including budgetary concerns. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.

THR 6675 Board Governance in the Theatre Cr. 2
How boards of directors govern theatres; how dynamics operate between management and boards. Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

THR 7211 Acting Studio III: Advanced Michael Chekhov Technique Cr. 2
Exploration of characterization through study of archetypes, centers, imaginary body, creative individuality, composition of space and connection to the audience. Subject matter will be supported by mask work and the techniques of Jacques LeCoq; and the study of High Comedy. Offered Fall.
Prerequisite: THR 6215 with a minimum grade of C or THR 6020 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $25

THR 7215 Acting Studio IV: Advanced Study of Active Analysis and Physical Approach to Acting Cr. 2
Advanced Stanislavski practices and exploration of other approaches to the study of physical theatre. Subject matter will explore contemporary, post-modern and devised texts. Offered Winter.
Prerequisite: THR 7211 with a minimum grade of C or THR 7050 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $15

THR 7221 Theatrical Movement III: Dance Techniques Cr. 1
Broadway and social dance techniques. Offered Fall.
Prerequisite: THR 6110 with a minimum grade of C or THR 6225 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $25

THR 7225 Theatrical Movement IV - Ensemble Physicality Cr. 1
Viewpoints; ensemble-generated expressive movement. Offered Winter.
Prerequisite: THR 7020 with a minimum grade of C or THR 7221 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $25

THR 7231 Voice and Speech III - Vocalizing Heightened Language & Shakespeare Cr. 1
Application of voice and speech techniques to Shakespeare and heightened language, with additional studies in verse analysis. Offered Fall.
Prerequisite: THR 6100 with a minimum grade of C or THR 6235 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $25

THR 7235 Voice and Speech IV: Musical Theatre & Singing Techniques Cr. 1
Improving the singing voice and applying the work to musical theatre performance. Continuation of Narrow phonetic transcription and Shakespearean phrasing; alliteration, antithesis, inflections, music; developing vocal power. Offered Winter.
Prerequisite: THR 7010 with a minimum grade of C or THR 7231 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $25

THR 7271 Acting for the Camera Cr. 3
Acting technique and practice with an emphasis on developing the technical and emotional adjustments required for success in Film, TV and industry acting. Units include adjusting theatre acting technique for Film and TV; learning to “hit marks” and to understand frame sizes; and developing video auditions. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $25
THR 7281 Theatre Aesthetics Cr. 3
Contemporary and classical theories of performance in drama, musical theatre, and dance. Interactions of acting, design, music, dance, script, and audience. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $10

THR 7311 Entertainment Design - Scenery II Cr. 2
A continuation of 5315 Entertainment Design – Scenery I, this course seeks to strengthen and expand the student’s design process and presentation skills as they relate to scenery. Through the development and critique of projects that span various genres and styles, students will cultivate a greater facility in conceptualizing an approach to the myriad design challenges in the entertainment industry. Offered Fall.
Prerequisite: THR 5315 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

THR 7315 Entertainment Design - Scenery III Cr. 2
A continuation of 7311 Entertainment Design – Scenery II, this course seeks to refine and reinforce the student’s design process and presentation skills as they relate to scenery. Through the design and critique of projects of their own choosing, students will develop their own unique point of view and aesthetic while solidifying their facility in conceptualization. At this level, students are encouraged to seek internship opportunities outside of the academic setting to bring greater perspective to their training. Offered Every Other Fall.
Prerequisite: THR 7311 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

THR 7321 Costume History I Cr. 2
Historical trends in fashion from ancient Egypt to Elizabethan England, as it pertains to theatre arts and its literature. Study of various periods and genres: design of costumes for plays of these periods based on a historical approach. Offered Every Other Winter.
Prerequisite: THR 6301 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

THR 7325 Costume History II Cr. 2
Continuation of THR 7321. Historical trends in fashion from Jacobean England through the 21st Century. Offered Every Other Fall.
Prerequisite: THR 7321 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

THR 7331 Entertainment Design - Lighting II Cr. 2
An intermediate practice in the design and execution of lighting for the contemporary theatre and live entertainment industry. Through hands on, project-based coursework, students will explore the art of lighting design and its various industry applications, including plays, musical theatre, opera, and dance. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

THR 7335 Entertainment Design - Lighting III Cr. 2
An advanced study of the practice of lighting design in the contemporary theatre and live entertainment industry. Through hands on, project-based coursework, students will exercise their craft in the art of lighting design specifically focused on the application of advanced lighting technology to commercial entertainment including large scale musicals, operas, dance, themed entertainment, and architectural lighting applications. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

THR 7341 Design Skills - Digital I Cr. 2
Students will gain a working knowledge of the fundamental concepts and features needed to master programs in the Adobe Creative Suite widely used by set, lighting, costume and projection designers. This course will cover Photoshop, Illustrator and After Effects. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students.

THR 7342 Design Skills - Digital II Cr. 1
Provides an advanced study of software that is necessary for the growth of entertainment designers and managers. Students will attain an advanced understanding of industry standard software, while also exploring cutting edge software that might be incorporated into their design and management work in the future. We will explore the foundations of Vectoworks (VWX), FileMake Pro, and PureData (Pd) as a group, then continue individualized study of the application of these softwares to each individual's specific discipline (Scenic Design, Lighting Design, and Stage Management). Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

THR 7371 Entertainment Design - Projection Cr. 2
Specialized study in the use of projection and media as an integrated storytelling device in theatre. Through instructor lead group discussions and critique sessions of group and individual projects, this class will focus on the exploration of the theatrical text, and the design process as it relates to projections. We will survey the brief history and fast evolution of theatrical projection design as we engage with the exploration of possibilities of this discipline. Students will cultivate a sharp awareness of the effects of added visual imagery coupled with a sensitivity to how that imagery affects the substance of what is being communicated to the audience. Designers who possess a keen awareness of how projected imagery can add to (or distract from) the telling of a story will be equipped to make strong design choices that are both compelling and supportive of the text. Offered Every Other Fall.
Restriction(s): Enrollment is limited to Graduate level students.

THR 7381 Architecture and Decor Cr. 3
Historical study of the form and elements of architecture and decoration; emphasis on theatrical design. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $20

THR 7389 Design Internship Cr. 3
Students are involved with the creative process and execution of a design element for a production at a commercial theatre in the Detroit Metro area. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

THR 7581 Repertory Theatre: Acting Cr. 1-4
Supervised experience in the Classic Theatre repertory program. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
Repeatable for 18 Credits

THR 7582 Repertory Theatre: Design Cr. 1-4
Supervised experience in practical application of design and technology specific to the design and implementation required to produce classical and contemporary theatre in a repertory model. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
Repeatable for 18 Credits

THR 7583 Repertory Theatre: Stage Management Cr. 1-4
Supervised experience in practical application of stage management techniques and processes required to produce classical and contemporary theatre in a repertory model. Offered Winter.
Restriction(s): Enrollment is limited to students with a major in Theatre; enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
Repeatable for 18 Credits
THR 7584 Graduate Practicum in Theatre Management Cr. 1-3
Supervised experience in various management assignments for WSU and for marketing and audience engagement activities for the Theatre Department. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
Repeatable for 18 Credits

THR 7601 Stage Management - Event Management Cr. 2
Continuation of THR 6020 or THR 6605. Offered Fall.
Prerequisite: THR 6020 with a minimum grade of C or THR 6605 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

THR 7603 Stage Management Studio - Commerce of Theatre Cr. 2
Prepares students with the requisite skills and understanding required to seek employment in the commercial and not-for-profit entertainment industry. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students.

THR 7605 Stage Management - Performance Management Cr. 2
Continuation of THR 7050 or THR 7601. Offered Every Other Winter.
Prerequisite: THR 7050 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

THR 7651 Leadership in the Arts Cr. 3
Modern leadership skills and techniques in theatre and in external environments. Topics include visioning, team building, consensus building, leadership communications, distinctions and similarities between leadership and management. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
Course Material Fees: $10

THR 7652 Arts Policy and Advocacy Cr. 3
All artists and arts organizations exist within a particular policy environment. It is essential that arts administrators understand arts and cultural policy in order to ensure the well-being of their organizations, play a role in improving the quality of life in their communities, to be active participants in civil society, and to be effective advocates for the place of the arts in society. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.

THR 7655 Human Resources and Financial Management for the Arts Cr. 3
Topics include: leadership, group dynamics, staffing, employment and production-related contracts, accounting and budgeting for non-profit. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
Course Material Fees: $10

THR 7661 Market Data and Decisions in the Arts Cr. 2
Market data and analyzing techniques used in theatre; making informed short-term and long-term decisions. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
Course Material Fees: $10

THR 7662 Production Management for the Theatre Cr. 2
Explores the process for managing productions including budgeting, communication, and technologies to support the creation, production, dissemination, and stewardship of creative expression. Budgets, systems, controls, resources, and leadership will be explored. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.

THR 7665 Development I: Principles of Fundraising for Not-for-Profit Arts Organizations Cr. 2
Explores the elements and best practices for managing a successful not-for-profit development department. Discussions delve into the responsibilities and practical applications of development—identifying, stewarding, cultivating, and soliciting gifts from annual to capital campaigns. Thorough, practical exploration of board development, institutional identity, proposal development strategies, and solicitation techniques is included. Students are introduced to all aspects of the development sectors: individual giving, corporate sponsorship/philanthropy, government/legislative, foundations, and special event fundraising. Each student creates a hypothetical organization for use throughout the term. An emphasis is placed on relationship development with potential funders. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
Course Material Fees: $20

THR 7671 Development II: Advanced Topics Cr. 3
Focuses on the role of the independent commercial producer, and explores the entrepreneurial skills and qualities that are necessary to be successful without the support of an organizational infrastructure. Among the topics to be covered: why produce commercially; who produces; Broadway and Off-Broadway; the challenges of creating interesting work in a commercial setting; and the unique challenges of plays and musicals. Practical matters covered include optioning and developing work, raising money, creating budgets, hiring a freelance team, and utilizing marketing/press/advertising to attract an audience. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
Course Material Fees: $10

THR 7675 Producing for the Commercial Theatre Cr. 3
Focuses on the role of the independent commercial producer, and explores the entrepreneurial skills and qualities that are necessary to be successful without the support of an organizational infrastructure. Among the topics to be covered: why produce commercially; who produces; Broadway and Off-Broadway; the challenges of creating interesting work in a commercial setting; and the unique challenges of plays and musicals. Practical matters covered include optioning and developing work, raising money, creating budgets, hiring a freelance team, and utilizing marketing/press/advertising to attract an audience. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 9 Credits

THR 7741 Dramaturgy Cr. 3
Study and preparation of dramatic texts for production; historical, sociopolitical and theoretical perspectives for production dramaturgy and literary management. Offered Intermittently.
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $10

THR 7751 Study Abroad: Directed Study in Russian Theatre Cr. 1-3
Focused studies on Russian theatre, performance, design and production; directed studies in contemporary Russian. Offered Spring/Summer.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 99 Credits

THR 7901 Research Methods in Theatre and Dance Cr. 3
Principles and methods of research; use of published research as examples in dance and theatre study and practice. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.

THR 7951 Foundations of Theatre and Dance Pedagogy Cr. 3
Historical, philosophical, cultural, and ethical dimensions of teaching and learning in multiple dance and theatre environments. Web course. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.
THR 7990 Directed Study Cr. 1-4
Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 4 Credits
THR 7999 Master's Essay Direction Cr. 1-4
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment limited to students in a Master of Arts degree.
Repeatable for 4 Credits
THR 8211 Acting Studio V: Preparation for the Profession Cr. 2
Preparation and development of the professional head shot and resume; creation of personal website, and scene selection for the industry showcase. Subject matter will explore camera acting techniques, utilizing television scripts and screenplays. Offered Fall.
Prerequisite: THR 7215 with a minimum grade of C or THR 7060 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $15
THR 8215 Acting Studio VI: Audition and Composition Cr. 2
Development and execution of the industry showcase; performance and interviews with industry specialists. Subject matter will focus on character types for the individual actor and development of an original solo piece or group devised work. Offered Winter.
Prerequisite: THR 8211 with a minimum grade of C or THR 7110 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.
Course Material Fees: $25
THR 8221 Theatrical Movement V - Acrobatics Cr. 1
Partner Russian Movement (acrobatics) and etude work. Offered Fall.
Prerequisite: THR 7100 with a minimum grade of C or THR 7225 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
Course Material Fees: $25
THR 8225 Theatrical Movement VI - Composition and Physical Devising Cr. 1
Physical composition class building on previous techniques, working toward original devised performance pieces. Offered Winter.
Prerequisite: THR 7140 with a minimum grade of C or THR 8221 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
Course Material Fees: $25
THR 8231 Voice and Speech V: Accents & Dialects for Stage and Media Cr. 1
Studies in analyzing, learning, and performing accents & dialects for stage and film. Offered Fall.
Prerequisite: THR 7090 with a minimum grade of C or THR 7235 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
Course Material Fees: $25
THR 8235 Voice and Speech VI - Media Techniques Cr. 1
Studies in the techniques needed for performance in voice-overs and camera. Offered Winter.
Prerequisite: THR 7180 with a minimum grade of C or THR 8231 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
Course Material Fees: $25
THR 8301 Design Studio III Cr. 2
Continuation of THR 6220 or THR 6365. Offered Winter.
Prerequisite: THR 6220 with a minimum grade of C or THR 6365 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
THR 8305 Design Studio IV Cr. 2
Continuation of THR 7210 or THR 8301. Offered Fall.
Prerequisite: THR 7210 with a minimum grade of C or THR 8301 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
THR 8605 Stage Management - Commerce of Theatre Cr. 2
Continuation of THR 7110 or THR 8601; further practical studies in various theatre crafts. Offered Every Other Winter.
Prerequisite: THR 7110 with a minimum grade of C or THR 8601 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
THR 8661 The Media and the Theatre Cr. 2
Writing and working with the media: press releases, public service announcements, magazine queries, radio and television spot writing; using print and electronic media through features and interviews. Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
THR 8665 Managing Groups and Teams Cr. 2
Relationships between teams; how teams can be utilized to improve work performance. Practices used to strengthen confidence in supervisory skills. Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
THR 8689 Internships in Theatre Management Cr. 3
Planning and execution of projects in theatre management; evaluation of project effectiveness. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
THR 8875 Seminar: Research Topics in Theatre and Drama Cr. 3
In-depth research on selected topics in theatre and dance. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.
THR 8941 Teaching Internship I Cr. 3
Assisting faculty members in teaching first-semester undergraduate-level courses. Offered Fall.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
THR 8945 Teaching Internship II Cr. 3
Assisting faculty members in teaching second-semester undergraduate-level courses. Offered Winter.
Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.
THR 8951 Art and Human Development Cr. 3
Integrated approaches to the arts for early childhood, youth and adolescents, and older adults. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.
Restriction(s): Enrollment is limited to Graduate level students. Repeatable for 6 Credits

THR 8965 Principles of Teaching Artistry Cr. 3
Research-based seminar on aspects of management administration, integrated arts, and assessment in multiple dance and theatre teaching artist environments. Web course. Offered Every Other Year.

Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 6 Credits

THR 8991 MFA Management Exit Project Cr. 1-3
Offered Every Term.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

THR 8992 MFA Design Exit Project Cr. 2
Demonstration in the specific design area in the skills developed by the student designer. Portfolio presentation developed in consultation between the student and the design area advisor. Offered Winter.

Prerequisite: THR 6000 with a minimum grade of C or THR 6301 with a minimum grade of C

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

THR 8995 MFA Acting Exit Project Cr. 3
Course designed to bridge from academia to the professional world. Selection, research and execution of seven monologues from a variety of period texts; development of a professional website; research and documentation of the artist's job market in a chosen geographic area. The course culminates in a final Oral Examination by each student's M.F.A. Exit Committee. Offered Winter.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

THR 8998 MFA Theatre Management Exit Project Cr. 3
Course designed to bridge from academia to the professional world. Development of a professional website and portfolio; research and documentation of the manager's job market in a chosen geographic area. The course culminates in a final Oral Examination by each student's M.F.A. Exit Committee. Offered Winter.

Restriction(s): Enrollment is limited to Graduate level students; enrollment limited to students in a Master of Fine Arts degree.

THR 8999 Master's Thesis Research and Direction Cr. 1-8
Offered Every Term.

Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students; enrollment limited to students in a Master of Arts degree.
Repeatable for 8 Credits

UCS - University Counseling Services

UCS 1000 First Year Experience Cr. 1
Satisfies General Education Requirement: Wayne Experience
During this course, you'll learn empowering strategies that have worked for others. Through collaborative learning, discussion, class presentations, co-curricular involvement, journal writing, and self-exploration exercises, you will practice these strategies that will improve your ability to stay on course with the collegiate goal of successful degree completion. Offered Intermittently.

Restriction(s): Enrollment limited to students with a class of Freshman.

UGR - Undergraduate Research

UGR 1050 Research Methods - BUILD Scholars Cr. 1
Satisfies General Education Requirement: Wayne Experience
A one-semester course that is part of the BUILD program and is designed to help students prepare for the Research-based laboratory courses. BUILD Scholars will take in the Winter Term. Offered Fall.

UP - Urban Planning

UP 3530 Urban and Regional Planning Cr. 3
Introduction to urban and regional planning concepts, including zoning, growth management and economic development. Emphasis on metropolitan Detroit. Offered Yearly.

Prerequisites: US 2000 with a minimum grade of D-
Equivalent: US 3530

UP 4460 Sustainable Cities Cr. 3
Through the lens of the planner's triangle of Environmental preservation, Equity, and Economic growth—the 3Es of sustainability—this course explores the ways in which the natural world affects and is affected by both growing and shrinking cities, and how cities may manage growth, shrinkage, or redevelopment to create a more green, just, and prosperous urban future. Offered Fall.

UP 5010 Resources and Communication in Planning Cr. 3
Introduction to the use of basic tools and techniques of professional planning practice, including data resources, computer applications, map and plan preparation, presentation techniques. Offered Yearly.

Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor.

UP 5110 Urban Planning Process Cr. 3
Scope and historical development of planning. Topics relevant to the practice of planning: theory, planning practice, social and physical development policy. Offered Yearly.

Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor.

UP 5430 Cities and Food Cr. 3
Analysis of urban food systems for their social, economic, health and environmental impacts; discussion of strategies to develop sustainable alternatives. Offered Winter.

UP 5560 Metropolitan Detroit Cr. 3
Comprehensive analysis of metropolitan Detroit: city, suburbs and surrounding region. Historical development, physical foundations, economic and political expansion, ethnic and cultural areas, geopolitical infrastructure, social change, present-day problems and current events shaping the area's spatial structure. Offered Yearly.

UP 5670 Modern American Cities Cr. 3
History of U.S. cities since World War II. Topics include suburbanization, deindustrialization, gentrification, and globalization. Offered Intermittently.

Equivalent: HIS 5670

UP 5820 Urban and Regional Economics Cr. 4
Introduction to the economic foundations of urban problems; land use, housing, poverty, transportation, local public finance; regional industry mix, income, growth and development; the national system of cities and location of firms. Offered Yearly.

Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor.

Equivalent: ECO 5800
UP 5999 Special Topics Cr. 1-4
Offered for graduate credit only. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor; enrollment is limited to Graduate level students. Repeatable for 8 Credits

UP 6120 Planning Studies and Methods Cr. 4
Economic base, population, and land use studies. Discussion of approaches used to solve selected community development problems. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor.

UP 6210 Urban Design Elements Cr. 3
Introduction to the role of urban design and the concept of design criteria, design variables, and terminology. Offered Every Other Year.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor.

UP 6260 Land Use Policy and Planning Cr. 3
Role of economics, history, and technology in shaping land use patterns within limits established by public policies and the legal system. Development of conceptual and practical skills for effective ethical intervention in local land markets. Offered for graduate credit only. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor; enrollment is limited to Graduate level students.

UP 6310 Real Estate Development Cr. 3
Process of urban real estate development; emphasis on market analysis, the construction process, and finance. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor.

UP 6320 Quantitative Techniques I Cr. 4
Statistical inference with emphasis on applications including central tendency, dispersion, hypothesis testing, correlation and regression. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor.
Equivalent: GPH 6420

UP 6340 Community Development Cr. 3
Overview of contemporary community development practice in U.S. cities with emphasis on community-based approaches and the role of non-profit organizations. Housing and economic development aspects of neighborhood revitalization; social and political development. Offered for graduate credit only. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor; enrollment is limited to Graduate level students.

UP 6350 Housing Policy and Programs Cr. 3
Governmental housing policies and programs at the Federal, state and local levels. Role of community-based organizations in housing activities. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor.

UP 6470 Environmental Planning Cr. 3
Overview of local and regional environmental planning and policy. Rationale and ethics of environmental interventions; major elements of environmental plans and impact statements; current approaches to environmental problems. Offered for graduate credit only. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor; enrollment is limited to Graduate level students.

UP 6510 Urban and Regional Systems Cr. 3
Theory course dealing with concepts, processes and organization of urban and metropolitan regions, primarily focusing on the western world experience. Primary focus on system structure and change in response to market forces, technology, and public policy. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor.

UP 6520 Transportation Policy and Planning Cr. 3
Introduction to the role of transportation in the planning process involving both regional and urban considerations. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor.

UP 6550 Regional, State, and Urban Economic Development: Policy and Administration Cr. 3
Examination of regional, state, and local economic development theory, analysis, policy and administration. Offered for graduate credit only. Offered Every Other Year.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor; enrollment is limited to Graduate level students.
Equivalent: ECO 6650, PS 6440

UP 6570 Local Economic Development: Implementation and Finance Cr. 3
Detailed examination of economic development programs available to local governments for commercial revitalization (neighborhood and downtown), and industrial development and redevelopment. Offered for graduate credit only. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor; enrollment is limited to Graduate level students.

UP 6650 Planning and Development Law Cr. 3
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor.

UP 6680 Neighborhood Decline and Revitalization Cr. 3
Examination of reasons for neighborhood change and how plans and policies can be specified and implemented for neighborhood improvement. Offered for graduate credit only. Offered Every Other Year.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor.

UP 6700 Geographic Information Systems Cr. 4
Principles and applications of GIS, including spatial statistics, computer graphics, computer cartography. Offered for graduate credit only. Offered Yearly.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor; enrollment is limited to Graduate level students.
UP 6750 State and Local Public Finance Cr. 4
Theory and practice of state and local government taxation and expenditure. Attention devoted to State of Michigan and municipalities in Detroit metropolitan area. Topics include: government organization, voting and mobility models, property and sales taxes, user charges, grants, education expenditure, and economic development. Offered Every Year.
Restriction(s): Enrollment limited to students with a class of Applicant Masters, Candidate Masters, Unranked Grad, Graduate Certificate or Post Bachelor.
Equivalent: ECO 6520

UP 7000 Detroit Revitalization Project Cr. 0
Employment placements in Detroit public and private institutions and companies for the purpose of workshop experience in practical solutions to urban and community revitalization. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

UP 7010 Planning and Decision Theory Cr. 3
Review of political, ethical, professional dimensions of planning; models of planning; communicative and group processes; negotiation and conflict resolution; decision-making in contexts characterized by uncertainty and complexity. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

UP 7130 Advanced GIS Applications Cr. 4
Use of GIS for spatial analysis and computer cartography. No credit after GPH 4600. Offered Fall.
Prerequisite: UP 6700 with a minimum grade of C
Restriction(s): Enrollment is limited to Graduate level students.

UP 7500 Master’s Professional Report Cr. 3
Applies the skills and competencies learned in the program on a project of the student's choosing. Under the close guidance of a MUP faculty member, the student will study a planning topic, issue, or community project and write a professional report based on this study with implications for local practice/policy. The goal is that the student demonstrate an understanding of urban planning theory and practice, public policy and planning processes, analytical techniques, and appropriate professional writing and analysis skills. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

UP 7700 Projects in Urban Planning Cr. 4
Development and application of research design to specified urban problems. Offered Every Other Year.
Restriction(s): Enrollment is limited to Graduate level students.

UP 7800 Internship in Planning Cr. 1-3
Practicum for MUP Program. Field placement with public or nonprofit agency assigned by Urban Planning Intern Coordinator. Offered Yearly.
Restriction(s): Enrollment is limited to Graduate level students.

UP 7810 Internship in Community Food Systems Planning Cr. 3
Practicum in community food systems planning. Field placement with public or nonprofit agency or private firm assigned by the Urban Planning Intern Coordinator. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.

UP 7990 Directed Study Cr. 1-4
Independent reading and research. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 8 Credits

UP 7996 Research Topics Cr. 1-4
Individual problems in urban planning. Offered Every Term.
Restriction(s): Enrollment is limited to Graduate level students.
Repeatable for 6 Credits

UP 7999 Master's Essay Direction Cr. 3
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students.

UP 8999 Master's Thesis Research and Direction Cr. 1-8
Offered Every Term.
Restriction(s): Enrollment limited to students with a class of Candidate Masters; enrollment is limited to Graduate level students.
Repeatable for 8 Credits

US - Urban Studies

US 2000 Introduction to Urban Studies Cr. 4
Satisfies General Education Requirement: Diversity Equity Incl Inquiry, Social Inquiry, Social Sciences
In this introductory urban studies course, students learn about the historic and contemporary forces driving urbanization with an emphasis on US cities and urban areas; the effects of these forces on diverse population groups; and challenges facing cities and strategies to resolve them. Although the course will draw from international contexts, wherever possible, experiences of and from the Detroit metro—city and suburbs—will be used to illustrate particular themes. Student learning centers on an examination of issues related to diversity, equity, and inclusion, and broader social phenomena. Offered Every Term.
Equivalent: GPH 2000, HIS 2000, PS 2000, SOC 2500

US 2200 Global Urbanism Cr. 3
Satisfies General Education Requirement: Global Learning Inquiry
The Global Urbanism course draws on directed readings, film and cases studies to illustrate the complexity of urbanity and urbanization in the developing and developed worlds – first through a comparative historical exploration of global urbanization and development, and then through a practical lens that seeks out solutions to broadly experienced problems. The class will use aspects of social science, history and urban planning as a framework for developing both inter-cultural perspectives on global urban development and also nuanced lessons for addressing similar challenges in different places. Offered Yearly.

US 2350 Black Detroit Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry
Explores the historical, cultural and structural aspects of the Black urban experience in Detroit from the late 19th Century to the present, including the role that racism, urbanization and suburbanization have played in shaping racial, spatial and economic inequality in the Detroit Metropolitan area. Utilizes an interdisciplinary approach: to interrogate the social and cultural history of Black Detroit, to examine the various forms of Black social movement activism used by Black Detroiters in the 20th Century, and to analyze ways the shifting economic and political currents shaped, and reshaped racism, class, space, and resistance in the Detroit metropolitan area. Offered Fall, Winter.
Equivalent: AFS 2350, HIS 2350

US 3530 Urban and Regional Planning Cr. 3
Introduction to urban and regional planning concepts, including zoning, growth management and economic development. Emphasis on metropolitan Detroit. Offered Yearly.
Prerequisites: US 2000 with a minimum grade of D-
Equivalent: UP 3530
US 3550 Public Health and the City Cr. 3
Introduces the field of medical geography, or the study of geographic aspects of health and disease. Students will also be introduced to the impact that city life has on health and healthcare in the US and internationally. They will gain an understanding of how geography as a discipline contributes to an understanding of health and health care in urban environments, and how social and economic contexts impact urban health. Mapping techniques will be utilized to examine the spatial patterns of disease and risk factors that may contribute to disease. Offered Yearly.
Equivalent: PH 3550

US 3650 History of Detroit Cr. 3
Satisfies General Education Requirement: Diversity Equity Incl Inquiry History of Detroit from European contact to the present, with emphasis on the late-19th and 20th centuries. Offered Fall, Winter.
Equivalent: HIS 3650

US 3900 Topics in Urban Studies and Geography Cr. 3
Special topics focused on Urban Studies and Geography. Offered Every Term.
Equivalent: GPH 3900
Repeatable for 6 Credits

US 4000 Internship Cr. 1-4
Placement in government agencies or the non-governmental sector that provide working experience related to urban issues. Offered Every Term.
Restriction(s): Enrollment is limited to Undergraduate level students.
Repeatable for 4 Credits

US 4510 Cities and Regions Cr. 3
Processes of urbanization and metropolitanization in both the western and non-western worlds. Offered Winter.
Prerequisites: US 2000 with a minimum grade of D-, GPH 2000 with a minimum grade of D-, HIS 2000 with a minimum grade of D-, PS 2000 with a minimum grade of D-, or SOC 2000 with a minimum grade of D-

US 4620 Urban Studies Senior Capstone Research Cr. 3
Satisfies General Education Requirement: Writing Intensive Competency Development and application of research design to specified urban problems. Offered Yearly.
Prerequisites: US 4420 with a minimum grade of D-, GPH 6420 with a minimum grade of D-, CRJ 4860 with a minimum grade of D-, SOC 4200 with a minimum grade of D-, or PS 3600 with a minimum grade of D-
Restriction(s): Enrollment is limited to Undergraduate level students.

WMT - Welding and Metallurgical Engineering Technology

WMT 3000 Welding Quality and Safety Cr. 3
Provides the basic knowledge of welding engineering as related to the inspection of welds. Includes an in-depth review of how various national, international structural and automotive welding standards relate to the quality of automatic, semi-automatic and manual welding processes. Understanding weld quality to determine if weldment(s) are fit for purpose is critical in developing a quality program that optimizes design and production requirements for automotive, military and aerospace weldments. Emphasis will be on process selection that minimizes rework, scrap or premature fracturing of production weldments. Examines the interrelationship between weld process, quality standards, material properties, and their effect on the performance of the weldment. Offered Yearly.

WMT 3100 Engineering Alloys Cr. 3
A firm and thorough knowledge of engineering alloys is critical in developing an optimal design for a given application while minimizing the risk of material failure. This course examines the interrelationships between processing, structure, properties, and performance of various engineering metals such as ferrous and non-ferrous metals with an emphasis on welding. The intent is to develop the ability both to select appropriate materials to meet engineering design criteria and to understand the effects of thermal treatments, hot and cold work, imperfections, forming, welding and chemical environments upon material properties and performance. Offered Yearly.
Prerequisites: ET 2200 with a minimum grade of C-

WMT 3200 Thermodynamics of Welding and Metallurgy Cr. 3
The principles and application of the fundamental laws of thermodynamics to metallurgical systems and welding engineering processes. The fundamentals will be used to obtain a thorough understanding of the basic relationships of thermodynamic driving force for phase transformations in metal and alloy systems. These fundamentals will be applied to understand the solid-solid, solid-liquid, and liquid-solid phase transformations occurring during heat-treatment and during welding processes. Offered Yearly.
Prerequisites: (ET 2200 with a minimum grade of C- or BE 1300 with a minimum grade of C-) and CHM 1020 with a minimum grade of C-

WMT 3451 Mechanical Metallurgy Cr. 3
This course will examine the strength, deformation, and failure of engineering materials from a first-principles materials science principles point of view. Established relationships between the mechanical behavior of materials and their microstructure as well as the control of mechanical behavior through materials processing and microstructural change will be studied. Emphasis will be placed on the behavior of structural defects associated with the welding of metallic alloys and how these defects affect the mechanisms of yielding, plastic deformation, strengthening, fatigue, fracture, and creep. Offered Yearly.
Prerequisites: WMT 3100 with a minimum grade of C-

WMT 3452 Physical Metallurgy Cr. 3
This course provides foundational knowledge of microstructural evolution during solidification, thermodynamics and phase transformation kinetics, alloy design, heat treatment, and the relationship between processing-microstructure-properties of metals and alloys. This course aims to teach students the crystallography principles of metallic systems, experimental tools, and techniques, solidification of metals and alloys, crystal defects in metals, diffusion kinetics, binary and ternary phase diagrams, cold working, and heat treatment. Students will also gain hands-on experience in heat treatment, metallography, and microscopy through the laboratory component. Offered Yearly.
Prerequisites: WMT 3100 with a minimum grade of C-

WMT 3453 Advanced Welding Metallurgy Cr. 3
This course provides students with the knowledge and skills they need to become a welding professional. Both theoretical foundation on advanced welding metallurgy and hands-on practical training will be focused of the course. Offered Yearly.
Prerequisites: WMT 3452 with a minimum grade of C-

WMT 3450 Failure Fracture Analysis Cr. 3
The scope of this course is to understand various types of failure modes in metals and alloys, contributing factors to failures and analytical and detection methods employed to identify and resolve failure issues. The discussion of the failures of structural members will include design considerations, material selection and mechanical and chemical loading. Offered Yearly.
Prerequisites: WMT 3451 with a minimum grade of C- and WMT 3452 with a minimum grade of C-.
WMT 4600 Metallurgy of Welding Processes Cr. 3
This course teaches the principles and applications of welding processes in addition to the standard fusion processes of shielded metal arc, gas metal arc, gas tungsten arc and flux-cored arc welding. The welding and metallurgical principles of resistance welding, gas welding, solid state welding, plasma arc, submerged arc, laser beam and electron beam welding will be addressed. There will be strong focus on the relationships between weld parameters and metallurgical fundamentals. Offered Yearly.
Prerequisites: WMT 3452 with a minimum grade of C-

WMT 4700 Welding Design Cr. 3
Offers a practical understanding and application of the design process for projects in welding engineering. The engineering aspects of the production of welded structures from the perspective of program development, concept, design and metallurgy will be taught. Students will gain further understanding of welding theory as it applies to design. Offered Yearly.
Prerequisites: WMT 3452 with a minimum grade of C-

WMT 5800 Welding Automation and Robotics Cr. 3
The scope of this course is to understand the concepts and technology associated with the operation of automatic and robotic welding systems. This course will incorporate automation and robotic technology with welding metallurgy. Students will learn to develop and edit programs to complete simple and complex welds and learn the effects of welding variables and options on weldment structural integrity as they are applied to automated and robotic weld systems. Offered Yearly.
Prerequisites: WMT 4453 with a minimum grade of C-
UNIVERSITY FACULTY

A list of university librarians and archivists (p. 873) follows the list of faculty.

The list of faculty is updated during the normal bulletin revision process. Requests to update the faculty database must be made using the faculty list amendment forms (http://bulletins.wayne.edu/faculty/update/).

A

ABBEY, ANTONIA: Ph.D., M.A., Northwestern University; B.A., University of Michigan; Professor, Psychology

ABEL, ERNEST L.: Ph.D., M.A., B.A., University of Toronto; Professor Emeritus, Psychology, Obstetrics and Gynecology

ABERLE, BELINDA: M.S.N., University of Michigan; B.S.N., Boston University; Instructor (Clinical), Nursing

ABRAMOWICZ, SARAH: J.D., Ph.D., Columbia University; B.A., Stanford University; Associate Professor, Law

ABRAMS, GARY: M.D., University of Oklahoma; Professor, Ophthalmology

ABRAMS, JUDITH: Ph.D., University of California-Los Angeles; B.A., Grinnell College; Professor, African American Studies

ABRAMS, JUDITH: Ph.D., M.S.W., M.A., University of Michigan; Professor (Clinician-Educator), Pathology

ABRAMSON, HANLEY N.: Ph.D., University of Michigan; B.S., Wayne State University; Professor Emeritus, Pharmaceutical Sciences

ABT, JEFFREY: M.F.A., B.F.A., Drake University; Professor Emeritus, Art

ACKERMAN, ROBERT M.: J.D., Harvard University; B.A., Colgate University; Professor, Law

ACKERMAN, SHARON H.: Ph.D., M.S., New York University; B.S., George Washington University; Associate Professor, Biochemistry and Molecular Biology

ADAMO, DIANE: Ph.D., University of Michigan; M.S., B.S., Wayne State University; Associate Professor, Physical Therapy

ADDEPALI, ARADHANA: M.B.B.S., Osmania Medical College; Assistant Professor (Clinician-Educator), Psychiatry

ADDONIZIO, MICHAEL F.: Ph.D., M.A., Antioch College; Associate Professor Emerita, Social Work

ADELMAN, MARTIN J.: J.D., M.S., B.A., University of Michigan; Professor Emeritus, Law

AFONSO, LUIS: M.B.B.S., Goa Medical College; Professor (Clinician-Educator), Internal Medicine

AGBAGLAH, G. GILOU: Ph.D., M.S., Universite Pierre et Marie Curie; M.S., B.S., Universite de Lome; Assistant Professor, Mechanical Engineering

AGUIN, TINA: M.D., Wayne State University; B.S., Lake Superior State University; Assistant Professor (Clinician-Educator), Obstetrics and Gynecology

AHMED, ZULFIQAR: M.D., Sindh Medical College; Clinical Assistant Professor, Anesthesiology

AHN, YOUNG-HOON: Ph.D., New York University; B.S., Pohang University Science and Technology; Associate Professor, Chemistry

AIR, ELLEN: M.D., Ph.D., University of Cincinnati; B.A., Northwestern University; Clinical Instructor, Neurosurgery

AJLUNI, VICTOR: M.D., B.S., Wayne State University; Assistant Professor (Clinician-Educator), Psychiatry and Behavioral Neurosciences

AKINS, ROBERT A.: Ph.D., Ohio State University; B.A., Wittenberg University; Professor, Biochemistry and Molecular Biology

AL-HOLOU, WAJD: M.D., University of Michigan; Assistant Professor, Neurological Surgery

AL-KATIB, AYAD: M.D., Mosul Medical College; Professor Emeritus, Internal Medicine

ALAVI, ASIF: M.D., University of Michigan; B.A., University of California; Assistant Professor (Clinician-Educator), Oncology

ALBDOUR, MAHA: Ph.D., M.S.N., Wayne State University; B.S.N., University of Jordan; Assistant Professor, Nursing

ALCEDO, JOY A.: Ph.D., University of Zurich; M.S., Dartmouth University; B.A., College of Saint Rose; Associate Professor, Biological Sciences

ALESH, ISSA: M.D., Damascus University; Assistant Professor (Clinician-Educator), Medicine

ALEXANDER, GAYLORD D.: M.D., B.S., Wayne State University; Associate Professor, Anesthesiology

ALEXANDER, LISA DORIS: Ph.D., Bowling Green State University; M.A., University of California-Los Angeles; B.A., Grinnell College; Professor, African American Studies

ALEXANDER, SHELDON: Ph.D., University of Rochester; B.A., City College of New York; Professor Emeritus, Psychology

ALHASANAT-KHALIL, DALIA: Ph.D., Wayne State University; B.S.N., University of Jordan; Assistant Professor, Nursing

ALI-FEHMI, ROUBA: M.D., Damascus University; Professor (Clinician-Educator), Pathology

ALLEN, J. LLOYD: Ph.D., University of Georgia; M.S.W., Florida International University; Assistant Professor, Social Work

ALLEN, MATHEW: Ph.D., California Institute of Technology; B.S., Purdue University; Professor and Chair, Chemistry

ALMUBARAK, YARA: Ph.D., M.S., B.S., University of Texas at Dallas; Assistant Professor, Mechanical Engineering

ALMUFAREJ, FAISAL: M.B.B.Ch., Royal College of Surgeons in Ireland; Associate Professor (Clinician-Educator), Surgery

ALTINOK, AYDIN: M.D., Hacettepe University; Associate Professor (Clinician-Educator), Radiology

ALVAREZ, ANN ROSEGRANT: Ph.D., M.S.W., M.A., University of Michigan; B.A., Antioch College; Associate Professor Emerita, Social Work

ALWARD, ABDO: M.D., Ross University School of Medicine; B.S., Wayne State University; Clinical Assistant Professor, Internal Medicine

AMENT, ERNEST: Ph.D., M.A., St. Louis University; A.B., John Carroll University; Associate Professor Emeritus, Classics, Greek and Latin

AMIRSDARI, ALIREZA: M.D., Tehran University; Assistant Professor (Clinician-Educator), Psychiatry and Behavioral Neurosciences
ANDERSEN, HANNAH: M.F.A., University of Oregon; B.F.A., Western Washington University; Lecturer, Dance

ANDERSON, GORDON F.: Ph.D., M.S., Wayne State University; B.S., Ferris State University; Professor Emeritus, Pharmacology

ANDERSON, JONATHAN: DM.A., University of North Texas; Mmus, University of North Carolina at Greensboro; B.A., Luther College; Associate Professor, Music

ARTINIAN, NANCY: Ph.D., M.S.N., Wayne State University; B.S.N., Mercy College of Detroit; Professor Emerita, Nursing, Associate Dean, Office of Health Research

ARSTONE, CRISTINA: M.D., Ph.D., Autonoma University; Associate Professor, Pharmacology

ARAS, SIDDHESH: Ph.D., Lousisiana State University Health Sciences Center; B.S., University of Mumbai; Assistant Professor, Molecular Genetics and Genomics

ASSAD, HADEEL: M.D., University of Jordan, Faculty of Medicine; Assistant Professor (Clinical), Oncology

ASY, ERIC H.: Ph.D., M.A., Princeton University; B.A., Harvard University; Professor, History

AZMI, ASFAR SOHAIL: Ph.D., M.S., B.S., Aligarh Muslim University; Associate Professor, Mechanical Engineering

AZY, LOIS J.: M.D., University of Massachusetts Medical School; B.S., Southeastern Massachusetts University; Professor (Clinician-Educator), Oncology

AYASH, LOIS J.: M.D., University of Massachusetts Medical School; B.S., Southeastern Massachusetts University; Professor (Clinician-Educator), Oncology

AZMI, ASFAH SOHAIL: Ph.D., M.S., B.S., Aligarh Muslim University; Associate Professor, Oncology (Cancer Biology)

B

BABCOCK, ELSIE: M.A.T., B.A., Wayne State University; Assistant Professor (Teaching), Education, Teacher Education

BACIEWICZ, FRANK A.: M.D., University of Virginia; B.A., Williams College; Professor (Clinician-Educator), Surgery

BADR, SAFWAN M.: M.D., Damascus University Medical School; Professor, Internal Medicine

BAGCHI, MIHIR: Ph.D., University of Vermont; M.S., Ranchi University; B.S., Bihar University; Associate Professor, Anatomy and Cell Biology
BAJJALY, STEPHEN T.: Ph.D., State University of New York at Albany; M.B.A., San Diego State University; B.S., St. Lawrence University; Professor, Information Sciences

BAKER, SUZANNE: Ph.D., M.A., Boston University; M.P.H., Wayne State University; B.S., University of Wisconsin-Madison; Assistant Professor (Teaching), Public Health

BAKER, TRACIE: Ph.D., D.V.M., University of Wisconsin; M.S., University of Alaska-Fairbanks; B.S., Cleveland State University; Assistant Professor, Pharmacology, Institute of Environmental Health Sciences

BAKOPOULOS, NATALIE: M.F.A., University of Michigan; B.S., Michigan State University; Assistant Professor, English

BALLENTINE, KESS: Ph.D., M.S.W., University of Pittsburgh; M.A., North Carolina State University; Assistant Professor, Social Work

BARAN, NICHOLAS: Ph.D., B.S., Wayne State University; Lecturer, Mathematics

BARAWI, MOHAMMED: M.D., University of Damascus; Clinical Assistant Professor, Internal Medicine

BARCELONA, JEANNE: Ph.D., University of Texas at Austin; M.A.E., Olivet Nazarene University; B.A., Saint Mary's College; Assistant Professor, Education, Kinesiology, Health and Sport Studies

BARGER, GEOFFREY R.: M.D., Jefferson University; B.A., Lewis University; Professor, Pharmacology, Psychiatry and Behavioral Neurosciences

BARDEHLE, JENNIFER L.: Ph.D., M.P.H., University of Michigan; B.A., University of Wisconsin; Professor, Information Sciences

BARTOLI, MARLA: Ph.D., M.A., University of South Florida; B.A., University of Michigan; Associate Professor (Clinical), Psychology

BARTON, ELLEN: Ph.D., M.A., Northwestern University; M.A., DePaul University; B.A., University of Detroit; Professor Emerita, English

BASHA, MAYSAA: M.D., B.A., Wayne State University; Associate Professor (Clinician-Educator), Neurology

BASKARAN, MARK: Ph.D., Physical Research Laboratory, India; M.S., M.K. University; B.S., V.H.N.S.N. College; Professor and Chair, Environmental Sciences and Geology

BASU, AMAR: Ph.D., M.S.E, B.S., University of Michigan; Associate Professor, Electrical and Computer Engineering

BATCHU, RAMESH: M.D., India Free Standing University; Associate Professor, Surgery

BATEAU, ALLEN W.: Ph.D., M.A., University of Chicago; B.A., Bard College; Professor Emeritus, Anthropology (Emeritus Faculty)

BAYBECK, BRADY P.: Ph.D., M.A., Washington University in St. Louis; B.A., University of Michigan; Associate Professor, Political Science

BAYLOR, ALFRED: M.D., Georgetown University School of Medicine; B.A., Hampton University; Assistant Professor, Surgery

BEALE, LINDA M.: LL.M., New York University; J.D., Ph.D., M.A., Cornell University; B.S., Duke University; Professor, Law

BEARD, JOHN: D.A., B.A., University of Michigan; M.A., Wayne State University; Professor Emeritus, Marketing and Supply Chain Management

BEOUDON, JOAN E.: Ph.D., M.S.I.I.S., Drexel University; M.A., Temple University; B.F.A., Massachusetts College of Art; Associate Professor, Information Sciences

BEAVERS, ALYSSA: Ph.D., Michigan State University; M.S., R.D., Iowa State University; Assistant Professor, Nutrition and Food Science

BEDI, MEL: Ph.D., University of Toledo; Pharm.D., University of Toledo; B.S., University of Toledo; B.S., Indiana State University; Assistant Professor (Research), Pharmaceutical Sciences

BEEBE-DIMMER, JENNIFER L.: Ph.D., M.P.H., University of Michigan; B.A., University of Wisconsin; Professor, Oncology (Cancer Biology)

BEEGHLY, MARJORIE: Ph.D., M.A., University of Colorado, Boulder; B.A., University of California, Santa Cruz; Professor, Psychology

BEHEN, MICHAEL E.: Ph.D., Wayne State University; Assistant Professor (Research), Pediatrics, Neurology

BEKDOCHE, BASMA: Ph.D., Boston College; M.A., B.B.A, University of Toledo; Assistant Professor (Teaching), Finance

BELGIANO, NEIL J.: D.O., Philadelphia College of Osteopathic Medicine; B.S., Siena College; Clinical Assistant Professor, Internal Medicine

BELL, BIBA: Ph.D., M.A., New York University; B.A., University of California, Santa Cruz; Assistant Professor, Dance

BELL, CYNTHIA: Ph.D., M.S.N., Indiana University; B.S.N., Indiana Wesleyan University; Associate Professor, Nursing

BELTRAMINI, RICHARD F.: Ph.D., University of Texas - Austin; M.S., B.S. University of Illinois - Urbana Champagne; Professor Emeritus, Marketing and Supply Chain Management
BELZER, MICHAEL H.: Ph.D., M.S., B.A., Cornell University; Associate Professor, Economics

BENCHALAA, ILYES: M.D., Algiers Medical School; Clinical Assistant Professor, Internal Medicine

BENINGO, KAREN A.: Ph.D., University of Michigan; B.Sc., Michigan State University; Associate Professor, Biological Sciences

BENJAMINS, JOYCE A.: Ph.D., University of Michigan; B.A., Albion College; Professor Emeritus, Emeritus, Neurology

BENKERT, RAMONA: Ph.D., University of Michigan; M.S., Wayne State University; B.S., Mercy College of Detroit; Professor, Nursing

BENSON, JOCELYN M.: Ph.D., University of Michigan; B.S., University of Utah; Assistant Professor, Nursing

BIBLIOTHECA, JULIANA: Ph.D., University of Michigan; M.S., Wayne State University; Associate Professor, Psychology

BENKERT, RAMONA: Ph.D., University of Michigan; M.S., Wayne State University; Associate Professor, Psychology

BENZ, WILLIAM A.: M.D., University of Michigan; B.A., Columbia University; Associate Professor, Psychiatry

BERICK, WILLIAM A.: M.D., University of Connecticut; M.S., University of Pennsylvania; B.A., New York University; Assistant Professor, Psychiatry

BERK, WILLIAM A.: M.D., University of Michigan; B.A., Columbia College; Associate Professor (Clinician-Educator), Psychiatry

BERK, WILLIAM A.: M.D., University of Michigan; B.A., Columbia College; Associate Professor (Clinician-Educator), Psychiatry

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology

BERGER, ELIZABETH: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Research), Anatomy and Cell Biology
BOUWMAN, DAVID L.: M.D., B.A., Johns Hopkins University; Professor, Surgery

BOWEN, DAVID: Ph.D., University of Pennsylvania; B.A., Haverford College; Associate Professor, Physics

BOWEN, SCOTT E.: Ph.D., M.A., B.A., University of Mississippi; Professor and Chair, Psychology

BOWERS, CASSANDRA: Ph.D., M.A., Wayne State University; B.A., Johnson C. Smith University; Clinical Assistant Professor, Social Work

BOWMAN, TIMOTHY D.: Ph.D., Indiana University; M.S., Indiana University; B.S., Indiana State University; Assistant Professor, Information Sciences

BOYD, MELBA: D.A., University of Michigan; M.A., B.A., Western Michigan University; Distinguished Professor, African American Studies

BRANDELL, JERROLD: Ph.D., University of Chicago; M.S.W., University of Wisconsin; B.A., University of Illinois; Distinguished Professor Emeritus, Social Work

BRANSON, J. SCOTT: Ph.D., M.A., B.A., University of Northern Colorado; Assistant Professor, Education, Theoretical and Behavioral Foundations

BRAUN, RODNEY D.: Ph.D., M.S., Northwestern University; B.S., Rose-Hulman Institute of Technology; Associate Professor, Anatomy and Cell Biology

BRAUNSCHWEIG, KARL: Ph.D., M.Mus., University of Michigan; B.A., St. Olaf College; Associate Professor, Music

BRAY, TAMARA L.: Ph.D., M.A., State University of New York; B.A., Beloit College; Professor, Anthropology

BREWSTER, ZACHARY W.: Ph.D., North Carolina State University; M.A., Western Kentucky University; B.S., Grand Valley State University; Associate Professor, Sociology

BRILL, LESLEY: Ph.D., Rutgers University; M.A., State University of New York at Binghamton; B.A., University of Chicago; Professor Emeritus, English

BROCANELLI, MARCO: Ph.D., M.A., Wayne State University; M.E., B.E., University of Rome Tor Vergata; Assistant Professor, Computer Science

BROCK, STEPHANIE L.: Ph.D., University of California, Davis; B.S., University of Washington; Professor, Chemistry

BROCKINGTON, FRANCES: M.Mus., Western Michigan University; B.S., Eastern Michigan University; Associate Professor, Music

BROCKMEYER, MONICA: Ph.D., M.S., B.S., University of Michigan; Associate Professor, Computer Science, Associate Provost

BROWER, CHARLES: J.D., University of Virginia; B.A., University of Vermont; Professor, Law

BROWN, JANET M.: M.S., Ohio State University; B.S., Michigan Technological University; Clinical Assistant Professor, Clinical Laboratory Science

BROWN, PATRICIA D.: M.D., Saint Louis University; B.S., University of California, Davis; Professor (Clinician-Educator), Internal Medicine

BROWN, R. KHARI: Ph.D., M.S.W., University of Michigan; B.A., Wayne State University; Associate Professor, Sociology

BROWN, RONALD E.: Ph.D., M.A., University of Michigan; B.S., Southern Illinois University; Associate Professor, Political Science

BROWN, SHANIQUE: Ph.D., DePaul University; M.A., Southern Illinois University; B.Sc., University of the West Indies; Assistant Professor, Psychology

BROWN, SUZANNE: Ph.D., Case Western Reserve University; M.S.W., Smith College; B.A., University of Vermont; Associate Professor, Social Work

BROWNE, KINGSLEY R.: J.D., University of Denver; M.A., University of Colorado; B.A., George Washington University; Professor, Law

BROWNLEE, SARAH J.: Ph.D., University of California, Berkeley; B.A., Princeton University; Associate Professor, Environmental Sciences and Geology

BRUMLEY, KRISTA M.: Ph.D., M.A., M.P.H., Tulane University; B.A., State University of New York at Oswego; Associate Professor, Sociology

BRUMMELTE, SUSANNE: Ph.D., M.A., University of Bielefeld; Associate Professor, Psychology

BRUNER, ROBERT R.: Ph.D., M.S., University of Chicago; B.A., Amherst College; Professor, Mathematics

BRUSATORI, MICHELLE: Ph.D., M.S., B.S., Wayne State University; Associate Professor (Research), Surgery

BRUSH, GEORGE: Ph.D., The Johns Hopkins University; A.B., Princeton University; Associate Professor, Oncology (Cancer Biology)

BRUSILOW, WILLIAM S.: Ph.D., University of Wisconsin; B.A., Princeton University; Professor, Biochemistry and Molecular Biology

BRYANT-FRIEDRICH, AMANDA: Ph.D., Ruprecht-Karls Universität; M.S., Duke University; Professor, Pharmaceutical Sciences, Dean, Graduate School

BRYZIK, WALTER: Ph.D., M.S., B.S., University of Detroit; Professor Emeritus, Mechanical Engineering

BUCELLATO, JAMES A.: Ph.D., M.A., Wayne State University; B.A., Oakland University; Senior Lecturer, Irvin D. Reid Honors College

BUCKMAN, MATTHEW: Ph.D., M.A., Wayne State University; B.A., University of Michigan; Lecturer, Mathematics

BUKOWCZYK, JOHN: Ph.D., A.M., Harvard University; B.A., Northwestern University; Professor, History

BURACK, ROBERT: M.D., B.S., University of Michigan; Professor (Clinician-Educator), Internal Medicine, Family Medicine

BURDICK, SCOTT: Ph.D., Massachusetts Institute of Technology; B.S., Purdue University; Assistant Professor, Environmental Sciences and Geology

BURGHARDT, KYLE: Pharm.D., University of Michigan; Assistant Professor, Pharmacy Practice

BURGHARDT, PAUL: Ph.D., M.S., University of South Carolina; Assistant Professor, Nutrition and Food Science

BURKS, SARAH D.: M.S.P., University of Florida; Clinical Coordinator and Assistant Professor (Clinical), Pathologists’ Assistant
BURLAKA, VIKTOR: Ph.D., M.S., University of Michigan; M.S.W., National University of Kyiv-Mohyla Academy; Ed.S., Kyiv State University of Linguistics; Associate Professor, Social Work

BURMEISTER, JACOB: Ph.D., Wayne State University; M.S., Michigan State University; B.S., Alma College; Professor (Clinician-Educator), Oncology (Radiation Oncology)

BURNHAM, WILLIAM: J.D., B.A., B.S., Indiana University; Professor Emeritus, Law

BURNESTEIN, MARK I.: M.D., B.S., University of Michigan; Clinical Assistant Professor, Radiology

BUTLER, ABIGAIL: Ph.D., University of Arizona; M.Mus., Midwestern State University; B.Mus., Keene State College; Associate Professor, Music

BUTLER, JESSICA: D.N.P., B.S.N., University of Detroit-Mercy; M.S.N., B.S., Wayne State University; Instructor (Clinical), Nursing

BUTLER, TIMOTHY: Ph.D., University of South Carolina; M.B.A., B.B.A., University of Memphis; Associate Professor, Marketing and Supply Chain Management

BYKHOVSKAIA, MARIA: Ph.D., Russia Academy of Sciences; M.S., Leningrad Polytechnic University; Professor, Neurology, Anatomy and Cell Biology

CACACE, ANTHONY T.: Ph.D., M.S., Syracuse University; B.S., State University of New York at New Paltz; Professor, Communication Sciences and Disorders

CACKETT, EDWARD M.: Ph.D., University of St. Andrews; M.S., University of Durham; Associate Professor, Physics

CACKOWSKI, FRANK C.: Ph.D./M.D. University of Pittsburgh School of Medicine; B.S. Carnegie Mellon University; Associate Professor, Oncology (Cancer Biology)

CADNAPAPHORNCHAI, PRAVIT: M.D., Mahidol University; Associate Professor Emeritus, Internal Medicine

CALA, STEVEN E.: Ph.D., Indiana School of Medicine; M.A., Texas A & M University; B.S., Purdue University; Associate Professor Emeritus, Physiology, Internal Medicine

CALKINS, STEPHEN: J.D., Harvard University; B.A., Yale University; Professor, Law

CAMPBELL, MARGARET: Ph.D., University of Michigan; M.S.N, B.S.N., Wayne State University; Professor (Research), Nursing

CANCELOSI, SUSAN E.: LL.M., University of Houston Law Center; J.D., Cornell University Law School; B.B.A., B.A., Southern Methodist University; Professor, Law

CANDELORI, LUCA: Ph.D. and M.Sc., McGill University; A.B., Harvard University; Assistant Professor, Mathematics

CANNON, HUGH M.: Ph.D., M.Phil, M.B.A., New York University; B.A., Brigham Young University; Professor Emeritus, Marketing and Supply Chain Management

CAO, ZHIQIANG: Ph.D., University of Washington; M.Eng., B.Eng., Tianjin University; Associate Professor, Chemical Engineering and Materials Science

CARBONE, JASON T.: Ph.D. Saint Louis University; M.S.W., Washington University in St. Louis; B.S., State University of New York, Plattsburgh; Assistant Professor, Social Work

CARCONE, APRIL: Ph.D., Wayne State University; M.S.W., University of Michigan; Associate Professor, Family Medicine and Public Health Sciences

CARLSON, KIRSTEN MATOY: Ph.D., University of Michigan; J.D., University of Michigan Law School; M.A., Victoria University in New Zealand; B.A., The John Hopkins University; Associate Professor, Law

CARMANY, ERIN: M.S., University of Colorado Health Sciences Center; Assistant Professor (Clinician-Educator), Molecular Genetics and Genomics

CARROLL, KEVIN: Ph.D., M.A., B.A., Wayne State University; Lecturer, Education, Administrative & Organizational Studies

CARRON, MICHAEL: M.D., University of Michigan; B.S., Michigan State University; Associate Professor (Clinician-Educator), Otolaryngology

CARTER, ERIK: Ph.D., M.S.N., University of California - San Francisco; B.S.N., University of Phoenix; Assistant Professor (Clinical), Nursing

CASEY, KENNETH: M.D., New Jersey Medical School; B.S., Georgetown University; Clinical Associate Professor, Neurological Surgery

CASEY, RITA: Ph.D., University of Texas at Austin; M.A., B.S., University of Texas at Tyler; Associate Professor, Psychology

C ASIELLES, EUGENIA: Ph.D., M.A., University of Massachusetts; M.Ed., University of Liverpool; Licenciatura, University of Oviedo; Associate Professor, Spanish

CAVANAUGH, JOHN: M.D., B.S., Michigan State University; M.S., Wayne State University; Professor, Biomedical Engineering

CELIKER, FATIH: Ph.D., University of Minnesota; M.S., B.S., Bogazici University; Professor, Mathematics

CHA, JIN K.: Ph.D., University of Oxford; B.S., Seoul National University; Professor, Chemistry

CHADWELL, MARGIT C.: M.D., B.A., Wayne State University; Associate Professor, Family Medicine and Public Health Sciences

CHALASANI, VIDYA: M.D., B.S., Andhra University; Clinical Assistant Professor, Internal Medicine

CHALHOUB, NABIL: Ph.D., University of Michigan; M.S., B.S., Wayne State University; Professor and Chair, Mechanical Engineering

CHAN, ELEANOR: M.D., B.A., University of British Columbia; Clinical Assistant Professor, Otolaryngology

CHANDLER, VINCENT: M.Mus., B.Mus., University of Michigan; Lecturer, Music

CHANDRA, SARika: Ph.D., University of Florida; M.A., Northeastern University; M.B.A., B.A., Bentley College; Associate Professor, English

CHANDRASEKAR, PRANATHARTH: M.B.B.S., Christian Medical College; Professor (Clinician-Educator), Internal Medicine

CHARBONNEAU, DEBORAH H.: Ph.D., Wayne State University; M.L.S., B.A., University of Pittsburgh; Associate Professor, Information Sciences

CHARRO, FERNANDO: Ph.D., M.S., and B.S., Universidad Autónoma de Madrid; Associate Professor, Mathematics
CONTI, ALANA: Ph.D., B.S., University of Pennsylvania; Associate Professor, Neurological Surgery

CONTI, GERRY E.: Ph.D., University of Michigan; M.S., Eastern Michigan University; B.S., Indiana University; Assistant Professor Emerita, Occupational Therapy

CONWAY, ROBERT: D.M.A., M.Mus., University of Michigan; B.Mus., New England Conservatory of Music; Associate Professor, Music

COOK, TIFFANY: Ph.D., Mayo Graduate School; B.A., West Virginia University; Associate Professor, Molecular Genetics and Genomics, Ophthalmology

COOPER, LISA: M.D., University of Michigan; B.A., Dartmouth College; Clinical Assistant Professor, Anesthesiology

COOPER-MCCANN, PATRICK: Ph.D., M.I.U.P., B.A., University of Michigan; Assistant Professor, Urban Studies and Planning

COPENHAGEN, MARY: M.F.A., B.S., Michigan State University; Lecturer, Theatre

CORBATT, JORGEILNA: Ph.D., University of Pittsburgh; Profesora En Letras, Universidad Nacional Del Sur; Professor Emeritus, Spanish

CORCORAN, GEORGE B.: Ph.D., George Washington University; M.S., Bucknell University; B.A., Ithaca College; Professor, Pharmaceutical Sciences

CORKERIAN-SALTER, BRUCE: Ph.D., M.A., University at Buffalo; Senior Lecturer, Mathematics

CORVINO, JOHN F.: Ph.D., University of Texas at Austin; B.A., St. John's University; Dean, Irvin D. Reid Honors College; Professor, Philosophy

COTE, MICHELE: Ph.D., B.A., University of Michigan; M.P.H., University of Alabama; Professor, Oncology (Cancer Biology)

COTTER, KEVIN: Ph.D., University of Minnesota; B.S., Purdue University; Associate Professor and Chair, Economics

COUMARATCH, JIRA: M.D., B.A., Wayne State University; Assistant Professor, Family Medicine and Public Health Sciences

COURTNEY, RAS MIKEY: Ph.D., M.A., University of Limerick; B.F.A., University of the Arts (Philadelphia); Assistant Professor, Dance

COUVENSKY, EDITH: M.A., Wayne State University; B.A., College of Hebrew Studies; Lecturer, Hebrew

CRAIG, CHARLES: M.D., University of Pittsburgh; B.A., Ohio Wesleyan University; Clinical Professor, Internal Medicine

CRAWFORD, KATHLEEN: Ph.D., M.A., B.A., University of Arizona; Associate Professor, Education, Assistant Dean, Teacher Education

CROST, NICHOLAS: M.D., Wayne State University; Clinical Assistant Professor, Internal Medicine

CRUSSMAN, JOHN C.: M.D., Case Western Reserve University; Professor Emeritus, Pathology

CROZIER, MARTIN: Ph.D., University of Windsor; Lecturer, Biological Sciences

CROZIER, MARTIN: Ph.D., University of Windsor; Lecturer, Biological Sciences

CUCKOVICH, CATHERINE: M.B.A., University of Michigan; B.A., University of Notre Dame; Assistant Professor (Teaching), Marketing and Supply Chain Management

CULBERT, KRISTEN: Ph.D., Michigan State University; Assistant Professor, Family Medicine and Public Health Sciences

CUMMINGS, BRIAN: Ph.D., Wayne State University School; B.S., Eastern Michigan University; Professor, Pharmaceutical Sciences, Dean, Eugene Applebaum College of Pharmacy and Health Sciences

CUNNINGHAM, PHILIP R.: Ph.D., Southern Illinois University; B.A., Murray State University; Associate Professor, Biological Sciences

CUTCHIN, MALCOLM P. Ph.D., M.A., University of Kentucky; B.A., University of Texas at Austin; Professor, Occupational Therapy

CUZZORT, LOUAN: M.D., B.S., University of Michigan; Clinical Assistant Professor, Radiology

D’ARPA, CHRISTINE: Ph.D., M.S., University of Illinois at Urbana-Champaign; B.A., Northeastern Illinois University; Assistant Professor, Information Sciences

D’MELO, RANJAN: Ph.D., M.B.A., Ohio State University; M.Com., B.Com., Sydenham College; Professor, Finance

DAILEY, RHONDA: M.D., Carver College of Medicine; Assistant Professor, Family Medicine and Public Health Sciences

DALKIRAN, EVRIM: Ph.D., Virginia Polytechnic Institute & State University; M.S., B.S., Bogazici University; Associate Professor, Industrial and Systems Engineering

DAMOISEAUX, JESSICA: Ph.D., VU University Amsterdam; M.S., B.S., Utrecht University; Associate Professor, Psychology

DANAGOULIAN, SHOOSHAN: Ph.D., Cornell University; M.S., London University; Associate Professor, Psychology

CUMMINGS, BRIAN: Ph.D., Wayne State University School; B.S., Eastern Michigan University; Professor, Pharmaceutical Sciences, Dean, Eugene Applebaum College of Pharmacy and Health Sciences

CUNNINGHAM, PHILIP R.: Ph.D., Southern Illinois University; B.A., Murray State University; Associate Professor, Biological Sciences

CUTCHIN, MALCOLM P. Ph.D., M.A., University of Kentucky; B.A., University of Texas at Austin; Professor, Occupational Therapy

CUZZORT, LOUAN: M.D., B.S., University of Michigan; Clinical Assistant Professor, Radiology

D’ARPA, CHRISTINE: Ph.D., M.S., University of Illinois at Urbana-Champaign; B.A., Northeastern Illinois University; Assistant Professor, Information Sciences

D’MELO, RANJAN: Ph.D., M.B.A., Ohio State University; M.Com., B.Com., Sydenham College; Professor, Finance

DAILEY, RHONDA: M.D., Carver College of Medicine; Assistant Professor, Family Medicine and Public Health Sciences

DALKIRAN, EVRIM: Ph.D., Virginia Polytechnic Institute & State University; M.S., B.S., Bogazici University; Associate Professor, Industrial and Systems Engineering

DAMOISEAUX, JESSICA: Ph.D., VU University Amsterdam; M.S., B.S., Utrecht University; Associate Professor, Psychology

DANAGOULIAN, SHOOSHAN: Ph.D., Cornell University; M.S., London University; Associate Professor, Psychology

CUMMINGS, BRIAN: Ph.D., Wayne State University School; B.S., Eastern Michigan University; Professor, Pharmaceutical Sciences, Dean, Eugene Applebaum College of Pharmacy and Health Sciences

CUNNINGHAM, PHILIP R.: Ph.D., Southern Illinois University; B.A., Murray State University; Associate Professor, Biological Sciences

CUTCHIN, MALCOLM P. Ph.D., M.A., University of Kentucky; B.A., University of Texas at Austin; Professor, Occupational Therapy

CUZZORT, LOUAN: M.D., B.S., University of Michigan; Clinical Assistant Professor, Radiology
DONG, ZHENG: Ph.D., University of Texas at Dallas; M.S., University of Science and Technology of China; B.S., Wuhan University; Assistant Professor, Computer Science

DORE-DUFFY, PAULA: Ph.D., Louisiana State University; Professor, Neurology

DOTY, COURTNEY: M.S., Central Michigan University; Assistant Professor (Clinical), Physician Assistant Studies

DOU, QINGPING: Ph.D., Rutgers University; B.S., Shandong University; Professor, Oncology (Cancer Biology)

DOWLING, THOMAS E.: Ph.D., Wayne State University; B.S., University of Michigan; Professor, Biological Sciences

DOYAL, GUY T.: Ph.D., M.A., University of Iowa; B.S., Butler University; Professor Emeritus, Education

DRAGHICI, SORIN: Ph.D., St. Andrews University; M.S., B.S., Politechnica University; Professor, Computer Science

DRESKER, DENNIS G.: Ph.D., M.M.B.S., University of Wisconsin; Professor, Otolaryngology

DRESKER, MARIAN J.: Ph.D., M.S., University of Wisconsin; B.S., University of California; Associate Professor, Otolaryngology

DROGAS, FREDRICK J.: M.S., Wayne State University; Lecturer, Nutrition and Food Science

DRUCKER, DANIEL: Ph.D., M.A., University of California, Berkeley; B.S., Massachusetts Institute of Technology; Professor, Mathematics

DUBEY, ELIZABETH: M.D., Wayne State University School of Medicine, B.S., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

DUBINSKY, PAUL R.: LL.M., Katholieke Universiteit; J.D., Harvard University; B.A., Yale University; Professor, Law

DUCHE, JOSHUA S.: Ph.D., M.A., University of Michigan; B.A., University of Pennsylvania; Associate Professor, Music

DUGGAN, ANNE E.: Ph.D., M.A., B.A., University of Minnesota; Professor, French

DUNBAR, JOSEPH C.: Ph.D., Wayne State University; M.S., Texas Southern University; B.S., Alcorn College; Professor and Interim Chair, Physiology

DUNCAN, LAVAL TODD: Ph.D., Harvard University; M.A., B.A., University of Louisville; Associate Professor of Teaching, English, African American Studies

DUNCAN, NORAH: D.M.A., University of Michigan; M.Mus., Wayne State University; B.A., University of Detroit; Professor and Chair, Music

DUNNE, ROBERT: M.D., B.A., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

DUQUETTE-RURY, LAUREN: Ph.D., University of Chicago; B.A., University of North Carolina; Associate Professor, Sociology

DURAND, HELEN: Ph.D., M.S., B.S., UCLA; Assistant Professor, Chemical Engineering and Materials Science

DURIC, NEBOJSA: Ph.D., B.S., University of Toronto; Professor, Oncology

DUTTA, ALOKE K.: Ph.D., Ohio University; M.S., B.S., Calcutta University; Professor, Pharmaceutical Sciences

DUTTA, SUJAY: Ph.D., Louisiana State University; M.S., B.S., Calcutta University; Associate Professor, Marketing and Supply Chain Management

DYSON, GREGORY E.: Ph.D., University of Michigan; B.A., Canisius College; Associate Professor, Oncology

E

EAMON, CHRISTOPHER D.: Ph.D., M.Arch., M.S., University of Michigan; B.S., University of Wisconsin; Associate Professor, Civil and Environmental Engineering

EBENEZER, JAZLIN: Ph.D., University of British Columbia; M.Ed., B.A., Western Washington University; B.S., Madurai University; Professor, Education, Teacher Education

EBRAHIM, SALAH A.D.: M.D., Cairo University; Associate Professor (Clinician-Educator), Pathology

ECHEVERRIA JONES, PAUL A.: M.F.A., University of Colorado; M.A., The New School; M.S., Mercy College, B.F.A., Purchase College; Assistant Professor, Communication

ECKERT, KRISTIN (STINE) D.: Ph.D., University of Maryland; M.S., Ohio University; B.A., University of Leipzig; Assistant Professor, Communication

EDELMAN, DAVID: M.D., B.S., Wayne State University; Professor (Clinician-Educator), Surgery

EDGAR, JESSIKA: M.F.A., Cranbrook Academy of Art; M.A., B.A., California State University, Northridge; Assistant Professor, Art

EDGAR, TIFFANY: M.S., United States Sports Academy; B.S., University of Toledo; Lecturer, Education, Kinesiology, Health and Sport Studies

EDWARDS, BRIAN F. P.: Ph.D., M.A., Harvard University; B.S., University of British Columbia; Professor, Biochemistry and Molecular Biology

EDWARDS, ERICA: Ph.D., Georgia State University; M.S. Ed., University of Pennsylvania; B.A., Spelman College; Assistant Professor, Education, Administrative & Organizational Studies

EDWARDS, WALTER F.: Ph.D., University of York; M.A., Lancaster University; B.A., University of Guyana; Professor, English, Director, Humanities Center

EFTEKHARI, AZY: M.Ed., B.S., University of Windsor Windsor; M.S., University of Tehran Tehran; Assistant Professor (Teaching), Accounting

EGGLY, SUSAN: Ph.D., M.A., B.A., Wayne State University; Professor, Oncology

EHRINPREIS, MURRAY: M.D., New York University; B.A., University of Michigan; Professor (Clinician-Educator), Internal Medicine

EHRMAN, ROBERT: M.D., Feinberg School of Medicine; B.A., Wesleyan University; Clinical Assistant Professor, Emergency Medicine

EISMAN, ANDRIA: Ph.D., University of Michigan; Assistant Professor, Education, Kinesiology, Health and Sport Studies

EL-SHARKAWI, MOHAMED T.: Ph.D., Radboud University; M.A., The American University in Cairo; Associate Professor, Arabic

ELLIS, BRYAN: Ph.D., Howard University; Senior Lecturer, Irvin D. Reid Honors College
ELLIS, DEBORAH: Ph.D., M.A., Michigan State University; B.A., University of Michigan; Professor, Family Medicine and Public Health Sciences

ELLIS, R. DARIN: Ph.D., M.S., G.M.I., B.S.I.E., Pennsylvania State University; Professor, Industrial and Systems Engineering, Associate Provost for Academic Programs

ELLIS, II, TERRY A.: M.D., University of Nevada; Associate Professor, Anesthesiology

ELNAGGAR, MOHAMMED I.: Ph.D., University of Manitoba; M.S. and B.S., Cairo University; Professor and Chair, Electrical and Computer Engineering

ELRICK, KATHY: Ph.D. Clemson University; M.A., Arcadia University; M.S., B.A., Illinois State University; Assistant Professor of Teaching, English

ELSAYED, MONA: M.D., M.Sc., Al-Azhar University School of Medicine; Assistant Professor (Clinician-Educator), Neurology

EMERY, LAUREE A.: Ph.D., J.D., B.A., Universidad Nacional Autonoma de Mexico; MA: Middlebury College; Senior Lecturer, Social Work

ENDICOTT, JOHN F.: Ph.D., Johns Hopkins University; B.A., Reed College; Professor Emeritus, Chemistry

ERLANDSON, ROBERT F.: Ph.D., Case Western Reserve University; B.S.E.E., Wayne State University; Professor Emeritus, Electrical and Computer Engineering

ERNST, JOY S.: Ph.D., University of Maryland; M.S.W., Rutgers University; B.A., University of Chicago; Associate Professor, Social Work

EVANS, DAVID R.: Ph.D., Wayne State University; B.S., University of Notre Dame; Professor, Biochemistry and Molecular Biology, Molecular Medicine and Genetics

EVANS, ELIZABETH: Ph.D., University of Wisconsin-Madison; B.A., University of Puget Sound; Associate Professor, English

EVELY, MARK T.: J.D., Thomas M. Cooley Law School; B.S., Wayne State University; Clinical Assistant Professor, Mortuary Science, Director

EZZEDDINE, COLLEEN: Ph.D., Wayne State University; Assistant Professor of Teaching, Communication

F

FAHLMAN, MARIANE: Ph.D., University of Toledo; M.A., Wayne State University; B.A., University of South Florida; Professor, Education, Kinesiology, Health and Sport Studies

FAIRFAX, MARILYN: M.D., University of Texas Health Sciences Center; Ph.D., Dartmouth College; Associate Professor (Clinician-Educator), Pathology

FAKHOURI, M. MAHER: M.D., Damascus University; Associate Professor (Clinician-Educator), Neurology

FALAAEE-GALUARDI, MARGARET: D.N.P., Wayne State University; M.S.N., University of Michigan; B.S.N., Northern Michigan University; Associate Professor (Clinical), Nursing

FAN, CHUANZHU: Ph.D., North Carolina State University; M.S., Chinese Academy of Agricultural Sciences; B.S., Northeast Normal University; Associate Professor, Biological Sciences

FANSELOW, RYAN T.: Ph.D., M.A., University of Maryland; B.A., University of California, Riverside; Lecturer, Philosophy

FARBER, JULIA: D.N.P., Wayne State University; B.S.N., Michigan State University; Assistant Professor (Clinical), Nursing

FARRELL, PERRY M.: A., University of Michigan; B.A., Central Michigan University; Lecturer, Communication

FASENFEST, DAVID: Ph.D., M.A., University of Michigan; B.A., City University of New York; Associate Professor, Sociology

FAVE, ELIZABETH V.: Ph.D., M.A., B.A., University of Minnesota; Professor and Chair, History

FAVA, JOSEPH: Pharm.D., Wayne State University; Assistant Professor (Clinical), Pharmacy Practice

FAVOT, MARK: M.D., George Washington University; B.S., University of Windsor; Assistant Professor (Clinician-Educator), Emergency Medicine

FEEN, HOLLY: Ph.D., University of Michigan; M.A., Wright State University; B.A., Otterbein College; Associate Professor, Education, Theoretical and Behavioral Foundations

FEHL, CHARLIE: Ph.D., University of Kansas; B.S., University of Michigan; Assistant Professor, Chemistry

FELDMAN, GERALD L.: M.D., Ph.D., Medical College of Virginia; M.S., B.A., Indiana University; Professor, Molecular Genetics and Genomics, Pathology

FERNANDEZ-MADRIGA, FELIX M.: M.D., University of Buenos Aires; Ph.D., University of Miami; Bachiller, Colegio Nacional de San Isidro; Professor, Internal Medicine, Associate Professor, Molecular Medicine and Genetics

FERNANDEZ-VALDIVIA, RODRIGO: Ph.D., Universidad Autonoma de Madrid; B.S., Universidad de San Agustin de Arequipa; Assistant Professor, Pathology

FIELD, BRADFORD S.: Ph.D., University of Maryland; M.A., Kent State University; B.A., Hiram College; Associate Professor Emeritus, English

FIGUEROA, VICTOR: Ph.D., M.A., Harvard University; B.A., University of Puerto Rico; Associate Professor, Spanish

FINDLATER, JANET E.: J.D., University of Michigan; B.A., Smith College; Associate Professor Emerita, Law

FINLEY, RUSSELL L.: Ph.D., State University of New York at Syracuse; B.S., State University of New York at Brockport; Professor, Molecular Genetics and Genomics, Biochemistry and Molecular Biology

FINO, SUSAN P.: Ph.D., M.A., Rutgers University; B.A., Johns Hopkins University; Professor, Political Science

FIRESTINE, STEVEN M.: Ph.D., Purdue University; B.S., University of Michigan; Professor and Chair, Pharmaceutical Sciences

FISCHER, THOMAS M.: Ph.D., M.A., University of California- Riverside; B.S., Michigan State University; Associate Professor, Psychology

FISHER, NATHAN: Ph.D., University of North Carolina; M.S., Columbia University; B.S., University of Minnesota; Professor, Computer Science

FITZGERALD, JOSEPH M.: Ph.D., M.A., West Virginia University; B.A., State University of New York at Buffalo; Professor Emeritus, Psychology

FITZGERALD, THOMAS P.: M.F.A., Cranbrook Academy of Art; B.F.A., Cleveland Institute of Art; Associate Professor Emeritus, Art

FITZGIBBON, JANE E.: Ph.D., M.A., Wayne State University; B.S., Central Michigan University; Senior Lecturer, Communication
FLAHERTY, LAWRENCE: M.D., St. Louis University; B.S., University of Notre Dame; Professor (Clinician-Educator), Oncology

FLAHERTY, RYAN: M.A., Eastern Michigan University; B.A. Cleveland State University; Associate Professor of Teaching, English

FLATLEY, JONATHAN: Ph.D., Duke University; B.A., Amherst College; Professor, English

FLIGIEL, ALAN: M.D., State University of New York, Downstate; B.S., City College of New York; Clinical Assistant Professor, Dermatology

FLOOD, JEANNE A.: Ph.D., University of Michigan; M.A., Loyola University; B.A., Mundelein College; Associate Professor Emeritus, English

FLORES, SAMANTHA: M.A. and B.A., Wayne State University; Lecturer, Mathematics

FORKOWSKI, FRED: M.F.A., B.S., Wayne State University; Associate Professor, Theatre

FORSYTHE, ROBERT: Ph.D., M.S., Carnegie-Mellon University; B.S., Pennsylvania State University; Professor, Finance

FOTOUIH, FARSHAD: Ph.D., Michigan State University; M.S., B.S., Western Michigan University; Professor, Computer Science, Dean, College of Engineering

FOWLER, BETH N.: Ph.D., Wayne State University; M.A., B.A. Honours, University of Windsor; Senior Lecturer, Irvin D. Reid Honors College

FOX, GREGORY H.: J.D., New York University; B.A., Bates College; Professor, Law

FOX, HILARY: Ph.D., University of Notre Dame; M.A., Western Michigan University; B.A., University of South Florida; Associate Professor, English

FRADE, PETER D.: Ph.D., M.S., B.S., Wayne State University; Associate Dean, Applied Health Sciences

FRANK, ROBERT R.: M.D., Wayne State University; B.A., Brandeis University; Professor Emeritus, Internal Medicine

FRANKLIN, MARILYN: Ph.D., Wayne State University; M.S.W., City University of New York hunter College; B.A., New York University; Assistant Professor (Clinical), Psychology

FRANKLIN, SARAH MARGARET: Ph.D., University of Cambridge; M.A., B.A., University of New Mexico; Associate Professor, Art History

FRAZIER, DARRYL T.: Ph.D. candidate, M.A., Wayne State University; Assistant Professor of Teaching, Communication

FREEMAN, D. CARL: Ph.D., M.S., Brigham Young University; B.S., University of Utah; Professor Emeritus, Biological Sciences

FRIABLEY, ANDREW: Ph.D., University of Michigan; Assistant Professor, Pediatrics

FRIDMAN, RAFAEL: Ph.D., Hebrew University Medical School; Professor, Pathology

FRIEDRICH, MARKUS: Ph.D., B.S., Ludwig-Maximilians-Universitaet; Professor, Biological Sciences

Fritz, Heather A.: Ph.D., B.A., University of North Carolina at Chapel Hill; M.S., Winston Salem State University; Assistant Professor, Occupational Therapy, Gerontology

FRITZ, NORA E.: Ph.D., D.P.T., The Ohio State University; B.S., Miami University; Assistant Professor, Physical Therapy

Fry-Mccomish, Judith: Ph.D., M.S.N., Wayne State University; B.S.N., Indiana University; Associate Professor Emerita, Nursing

Fuhlhage, Michael J.: Ph.D., University of North Carolina at Chapel Hill; M.A., University of Missouri-Columbia; B.S., University of Kansas; Assistant Professor, Communication

Fusik, James: D.M.A., Bowling Green State University; Lecturer, Music

Gabali, Ali M.: M.D., Dammam University (formerly King Faisal University); Ph.D., Rush University; Associate Professor, Pathology

Gabel, Susan L.: Ph.D., Michigan State University; M.Ed., Wayne State University; B.A., Oral Roberts University; Professor, Education, Teacher Education

Gable, Lance: J.D., Georgetown University; M.P.H., B.A., The Johns Hopkins University; Associate Professor, Law

Galens, Gary: M.D., Wayne State University; Clinical Assistant Professor, Radiology

Gallien, John: M.D., Indiana University School of Medicine; B.S. Purdue University; Assistant Professor (Clinician-Educator), Emergency Medicine

Gamarra, Dana: B.F.A., University of Detroit; Senior Lecturer, Theatre

Gangwere, Stanley K.: Ph.D., M.S., B.A., University of Michigan; Professor Emeritus, Biological Sciences

Gappy, Musib: M.D., B.S., Wayne State University; Assistant Professor (Clinical), Internal Medicine

Garcia, Hernan M.: Ph.D., University of Kansas; M.A., B.A., San Diego State University; Assistant Professor, Spanish

Garrett, Andrew: Ph.D., University of Iowa; B.S., Cedarville University; Assistant Professor, Pharmacology

Garwood, Candice: Pharm.D., University of Texas at Austin; Professor - Clinical, Pharmacy Practice

Gatti, Domencio L.: M.D., Catholic University of S. Cuore; Ph.D., University of Bari; Professor, Biochemistry and Molecular Biology

Gavan, Navanth: Ph.D., University of Sydney; M.S., National Institute of Pharmaceutical Education and Research; B.Pharm, S.G.R.S. Colege of Pharmacy; Assistant Professor, Pharmaceutical Sciences

Gavin, Sean: Ph.D., M.S., University of Illinois; B.S., State University of New York at Stony Brook; Professor, Physics

Ge, Yubin: Ph.D., M.S., Jilin University; Associate Professor, Oncology (Cancer Biology)

Geiger, Carol: D.N.P., Wayne State University; B.S.N., University of Detroit-Mercy; Instructor (Clinical), Nursing

Geistman, James H.: Ph.D., University of Nebraska at Omaha; M.S., Wayne State University; M.A., Central Michigan University; B.A., Saginaw Valley State University; Associate Professor of Teaching, Criminology and Criminal Justice

Geisz, Gabriella: M.D., Semmelweis Medical School; Assistant Professor (Clinician-Educator), Psychiatry and Behavioral Neurosciences
GELLER, DANIEL S.: Ph.D., M.A., Rutgers University; B.A., Drew University; Professor and Chair, Political Science

GEORGE, EDWIN B.: M.D., Ph.D., Case Western Reserve University; M.A., B.A., Amherst College; Associate Professor (Clinician-Educator), Neurology

GEORGE, NANCY. Ph.D., M.S.N., University of Michigan; B.S., Michigan Tech University; Associate Professor (Clinical), Nursing

GERMAN, RACHAEL: M.S., Kent State University; B.S., Central Michigan University; Lecturer, Education, Student Services Coordinator, Athletic Training, Kinesiology, Health and Sport Studies

GHOSH, SAMIRAN: Ph.D., University of Connecticut; M.S., University of Maryland; B.S., University of Calcutta; Professor, Family Medicine and Public Health Sciences, Molecular Medicine and Genetics

GIBSON, HEATHER M.: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor, Oncology

GIBSON-SCIPIO, WANDA: Ph.D., Michigan State University; M.S.N., B.S.N., Wayne State University; Associate Professor (Clinical), Nursing

GIDLOW, LIETTE: Ph.D., Cornell University; M.A., Ohio State University; B.A., University of Chicago; Professor, History

GILL, CHRISTOPHER: Ph.D., Northeastern University; M.B.A., University of Illinois, Urbana Campaign; M.S., Wayne State University; M.S.N., Salem State College; B.A. Saint Anselm College; Assistant Professor (Clinical), Nurse Anesthesia

GIORDANO, MICHAEL J.: Ph.D., M.A., University of Minnesota; B.S., Seton Hall University; Professor, French

GIORGINI-ALTHOEN, SILVIA: M.A., University of Pisa; Lecturer, Italian

GIULIANO, CHRISTOPHER: Pharm.D., University of Toledo; M.P.H., Wayne State University; Assistant Professor (Clinical), Pharmacy Practice

GLAZIER, JAMES: M.D., University College of Dublin Medical School; Clinical Professor, Internal Medicine

GLEASON-COMSTOCK, JULIE: Ph.D., University of Minnesota; Assistant Professor, Family Medicine and Public Health Sciences

GOEBEL, DENNIS: Ph.D., M.S., Wayne State University; B.S., Central Michigan University; Associate Professor, Anatomy and Cell Biology

GOEDDEKE, FRANK: Ph.D., University of Florida; M.B.A., Rollins College; M.A.S., B.S., Embry-Riddle Aeronautical University; Assistant Professor (Teaching), Management and Information Systems

GOEL, NARENDRA S.: Ph.D., University of Maryland; M.S., Poona University; M.S., Delhi University; B.S., Agra University; Professor, Computer Science

GOFF, PENRITH: Ph.D., M.A., University of California, Los Angeles; B.A., University of Kentucky; Professor Emeritus, German

GOLDBERG, DAVID: Ph.D., M.A., University of Massachusetts-Amherst; M.A., Morgan State University; B.A, Eastern Michigan University; Associate Professor, African American Studies

GOLDBERG, THEODORE: Ed.D., M.S.W., B.A., Wayne State University; Associate Professor Emeritus, Social Work

GOLMAN, HAROLD: Ph.D., University of Illinois; Ph.D., M.S., University of Chicago; Professor Emeritus, Pharmacology

GOLEBIOWSKA, EWA: Ph.D., M.A., Ohio State University; B.A., Wesleyan University; Professor, Political Science

GOLEMBIA, HENRY L.: Ph.D., University of Washington; M.A., B.Ph., Wayne State University; Professor Emeritus, English

GOLENBERG, EDWARD M.: Ph.D., State University of New York at Stony Brook; B.A., Johns Hopkins University; Professor, Biological Sciences

GOMEZ, JENNIFER: Ph.D., University of Oregon; M.S., University of Oregon; B.A., San Diego State University; Assistant Professor, Psychology

GOMEZ-LOPEZ, NARDHY: Ph.D., M.S., National Polytechnic Institute; Assistant Professor, Obstetrics and Gynecology

GONCHARUK, VIKTOR: M.D., Vinnitsa Medical School; Clinical Assistant Professor, Dermatology

GONIK, BERNARD: M.D., Michigan State University; Professor, Obstetrics and Gynecology

GONZALES, SANDRA: Ed.D., M.Ed., Columbia University; M.A., Antioch University; B.S., Michigan State University; Associate Professor, Education, Teacher Education

GONZALES-PRENDES, ANTONIO: Ph.D., M.S.W., Wayne State University; B.S., Spring Hill College; Associate Professor Emeritus, Social Work

GOODMAN, ALLEN C.: Ph.D., Yale University; B.A., University of Michigan; Professor, Economics

GOODRICH, JAIME: Ph.D., Boston College; B.A., Smith College; Professor, English

GORSKI, DAVID: M.D., B.S., University of Michigan; Ph.D., Case Western Reserve University; Professor, Surgery, Oncology

GORTNEY, JUSTINE: Pharm.D, Purdue University; Associate Professor, Pharmacy Practice

GOSHGARIAN, HARRY G.: Ph.D., M.S., University of Michigan; B.S., University of Massachusetts; Professor, Anatomy and Cell Biology

GOTTTFRIED, HEIDI: Ph.D., University of Wisconsin, Madison; M.A., B.A., University of Michigan; Associate Professor, Sociology

GOW, ALEXANDER: Ph.D., Queensland University; M.S., B.S., N.S.W.I.T.; Professor, Molecular Genetics and Genomics, Pediatrics

GRADY, KEVIN J.: M.D., Wayne State University; B.S., University of Michigan; Clinical Assistant Professor, Internal Medicine

GRANNEMAN, JAMES G.: Ph.D. University of Massachusetts; B.A., Southern Illinois University; Professor, Molecular Genetics and Genomics

GRATSON, CORINNE: M.S., Wayne State University; Assistant Professor (Clinical), Physician Assistant Studies

GRAY, HERMAN: M.D., Wayne State University; B.S., University of Michigan; Clinical Associate Professor, Pediatrics

GRAZIANA, ANNE: B.A.; Lecturer, Mathematics

GREENBERG, MIRIAM L.: Ph.D., Albert Einstein College of Medicine; M.S., Loyola University; B.A., Reed College; Professor, Biological Sciences

GREENWALD, MARGARET: Ph.D., M.A., University of Florida; B.A., College of St. Catherine; Associate Professor, Communication Sciences and Disorders

Wayne State University Graduate Bulletin 2022-2023
GROSSMAN, LAWRENCE I.: Ph.D., Albert Einstein College of Medicine; B.S., College of the City of New York; Professor, Molecular Genetics and Genomics

GROSU, DANIEL: Ph.D., M.S., University of Texas at San Antonio; B.S., Technical University of Iasi; Associate Professor, Computer Science

GROYSMAN, STANISLAV: Ph.D., B.S., Tel Aviv University; Associate Professor, Chemistry

GREKIN, EMILY: Ph.D., M.A., Emory University; B.A., Carlton College; Associate Professor, Psychology

GROGAN, JARED: Ph.D., Wayne State University; B.A., Albion College; Associate Professor Emeritus, Nursing

HAMILTON, JAMES L.: Ph.D., Duke University; B.A., Grinnell College; Professor Emeritus, Finance

HAMMER, PETER: Ph.D., J.D., University of Michigan; B.A., B.S., Gonzaga University; Professor, Law

HAN, XIANYAN: Ph.D., Wayne State University; B.S., Nankai University; Associate Professor (Clinical), Physical Therapy

HANUM, NANETTE: D.P.T., Grand Valley State University; B.S., Belhaven College; Assistant Professor (Clinical), Physical Therapy

HAO, WEILONG: Ph.D., McMaster University; M.S., B.S., Nankai University; Associate Professor, Biological Sciences

HARK, ROBERT F.: Ph.D., M.S., University of California, Berkeley; B.S., Carnegie-Mellon University; Professor, Physics

HARR, ROBERT F.: Ph.D., M.S., University of California, Berkeley; B.S., Carnegie-Mellon University; Professor, Oncology

HARRIS, CAROLYN: Ph.D., University of Utah; B.S., Purdue University; Assistant Professor, Chemical Engineering and Materials Science

HARPER, FELICITY W.K.: Ph.D., University of Georgia; B.A., Wellesley College; Associate Professor (Clinician-Educator), Oncology

HARIRI, HANAA: Ph.D., Florida State University Tallahassee; M.S., American University of Beirut; B.S., Lebanese University; Assistant Professor, Biological Sciences

HARRIS, CAROLYN: Ph.D., University of Utah; B.S., Purdue University; Assistant Professor, Chemical Engineering and Materials Science
HART, JENNIFER: Ph.D., M.A., Indiana University at Bloomington; B.A., Denison University; Associate Professor, History

HART, KIMBERLY: M.D., Wayne State University; B.A., University of Michigan; Assistant Professor (Clinician-Educator), Oncology (Radiation Oncology)

HARTING, CARLA S.: Ph.D., Ed.S., Wayne State University; M.A., Eastern Michigan State University; B.A., Michigan State University; Lecturer, Education, Administrative & Organizational Studies

HARTMAN, CARL: M.S.W., Columbia University; M.S., B.S., City College of New York; Associate Professor Emeritus, Social Work

HARTWAY, JAMES J.: Ph.D., Michigan State University; MMus, B.A., Wayne State University; Distinguished Professor Emeritus, Music

HARTWELL-KING, KATHLEEN: D.N.P., Wayne State University; B.S.N., Eastern Michigan University; Instructor (Clinical), Nursing

HASAN, M. ARIF: Ph.D., University of Illinois Urbana-Champaign; B.S., Bangladesh University of Engineering and Technology; Assistant Professor, Mechanical Engineering

HASSAN, SONIA: M.D., Wayne State University; B.A., University of Michigan; Professor (Clinician-Educator), Obstetrics and Gynecology

HASSOUN, MOHAMAD H.: Ph.D., M.S., B.S., Wayne State University; Professor, Electrical and Computer Engineering

HASTERT, THERESA: Ph.D., University of Washington; M.P.P, University of California Los Angeles; B.A., Loyola Marymount University; Assistant Professor, Oncology

HATFIELD, ADRIAN: M.F.A., Ohio University; B.F.A., B.A., The Ohio State University; Associate Professor, Art

HAUFF, NANCY: Ph.D., M.S.N, B.S.N., Wayne State University; Instructor (Clinical), Nursing

HAYES, LAUREN: Ph.D., M.A, University of Arizona; B.A., Wake Forest University; Assistant Professor, Anthropology

HAZARD VALLERAND, APRIL: Ph.D., University of Pennsylvania; M.S.N., California State University, Los Angeles; B.S.N., Mt. St. Mary's College; Professor, Nursing

HAZLETT, LINDA D.: Ph.D., Ohio State University; M.S., Medical College of Georgia; B.S., St. Mary's College; Professor and Chair, Anatomy and Cell Biology

HE, YUAN: Ph.D., University of Illinois at Urbana-Champaign; Assistant Professor, Immunology and Microbiology

HEAD, DOOREN P.: Ph.D., M.S., Wayne State University; B.S., Eastern Michigan University; Assistant Professor (Clinical) and Program Director, Occupational Therapy

HEATH, ELISABETH I.: M.D., Jefferson Medical College; B.S., Lehigh University; Professor (Clinician-Educator), Oncology

HEBERLEIN, GARRETT: Ph.D., M.S., Northwestern University; B.A., Ohio Wesleyan University; Professor Emeritus, Biological Sciences

HEGARTY, JOHN G.: M.F.A., M.A., Iowa University; B.A., Westmar College; Emeritus Professor, Art

HEILBRUN, LANCE K.: Ph.D., University of Michigan; M.S., B.A., Wayne State University; Professor, Oncology

HEINRICH, JOHN: Ph.D., B.S., University of Toledo; M.B.A., Bowling Green State University; Associate Professor, Management and Information Systems

HELFER, ARIEL: Ph.D., M.A., The University of Texas at Austin; B.A., Kenyon College; Assistant Professor, Political Science

HENDERSO, JENNIFER: D.O., Des Moines University; B.S., University of Minnesota; Clinical Assistant Professor, Anesthesiology

HENDRICKSON, TAMARA: Ph.D., California Institute of Technology; B.A., Wellesley College; Associate Professor, Chemistry

HENEin, NAEIM A.: Ph.D., University of Michigan; M.S., Alexandria University; B.S., Cairo University; Distinguished Professor Emeritus, Mechanical Engineering

HENG, HENRY (HONG-QIANG): Ph.D., University of Toronto; Professor, Molecular Genetics and Genomics, Pathology

HENSOn, JEREMY: M.D., University of the Caribbean; B.S., University of North Alabama; Clinical Assistant Professor, Internal Medicine

HERRING, MARY: Ph.D., University of Georgia; M.A., B.A., University of West Florida; Associate Professor, Political Science

HERRON, JERRY S.: Ph.D., M.A., Indiana University; B.A., University of Texas; Professor Emeritus, English

HEw-BUTLER, TAMARA: Ph.D., University of Cape Town, South Africa; D.M.P, Temple University; B.S., University of California, Los Angeles; Associate Professor, Education, Kinesiology, Health and Sport Studies

HEYDARI, AHMAD: Ph.D., M.S., Illinois State University; B.A., Illinois University; Professor and Chair, Nutrition and Food Science

HIBBERT, MELISSA: M.A., B.A.S., Siena Heights University; Assistant Professor (Clinical), Radiologic Technology

HICKEY, SEAN: Ph.D., B.S., University of New Orleans; M.S., University of Michigan; Senior Lecturer, Chemistry

HICKLING, SHAMMA J.: M.S., B.A., Fayetteville State University; Assistant Professor of Teaching, Criminology and Criminal Justice

HICKS, MEGAN: Ph.D., M.S., University of Georgia; B.A., The Ohio State University; Assistant Professor, Social Work

HIDDLESTON, ERIC D.: Ph.D., M.A., Cornell University; B.A., University of Nebraska; Associate Professor and Interim Chair, Philosophy

HIGGS, PENEOLE: I.: Ph.D., B.S., Washington State University; Associate Professor, Biological Sciences

HIGUERO, FRANCISCO J.: Ph.D., City University of New York; M.A., New York University; B.A., Escuela de Magisterio, Zaragoza; Professor Emerita, Spanish

HILL, WILLIAM: Ph.D., Wayne State University; M.A., Adelphi University; B.A., University of Michigan; Clinical Assistant Professor, Education, Interim Assistant Dean, Administrative & Organizational Studies

HILLMAN, GILDA G.: Ph.D., M.S., B.S., Hebrew University; Professor Emerita, Oncology (Cancer Biology)

HILLMAN, STEPHEN B.: Ph.D., M.S., Indiana University; B.A., University of Connecticut; Professor, Education, Theoretical and Behavioral Foundations
HINES, BILLICIA: M.F.A., University of Missouri at Kansas City; B.F.A., North Carolina Agricultural and Technical State University; Assistant Professor, Theatre

HOCHSTADT, CAROLYN: M.A., B.S., Wayne State University; Lecturer, Mathematics

HOCK, LISABETH: Ph.D., Washington University; M.A., B.A., University of Kansas; Associate Professor, German

HOFFMANN, PETER M.: Ph.D., Johns Hopkins University; M.S., Southern Illinois University; B.S., Technische Universität Clausthal; Professor and Chair, Physics

HOHN, DONOVAN: M.F.A., University of Michigan; M.A., Boston University; B.A., Oberlin College; Professor, English

HOLBERT, JOANNE: Ed.D., Indiana University; M.A., George Peabody College; B.S., University of Kansas; Associate Professor, Education, Theoretical and Behavioral Foundations

HOLLEY, ROBERT P.: Ph.D., Yale University; MLS, Columbia University; B.A., Xavier University; Professor Emeritus, Information Sciences

HOLLY, JR., JAMES: Ph.D., Purdue University; M.S., Michigan State University; B.S., Tuskegee University; Assistant Professor, Education, Teacher Education

HOLT, AVRIL GENENE: Ph.D., M.S., University of Michigan; B.S., Stillman College; Associate Professor, Anatomy and Cell Biology

HONG, FELIX T.: Ph.D., Rockefeller University; M.D., National Taiwan University School of Medicine; Professor Emeritus, Physiology

HONG, JUN SUNG: Ph.D., University of Illinois at Urbana-Champaign; M.S.W., University of Michigan; M.A., University of Washington; B.A., University of California at Irvine; Associate Professor, Social Work

HONG, ROBERT: M.D., University of California - Irvine; Ph.D., University of Iowa; B.A., Harvard University; Assistant Professor (Clinician-Educator), Otolaryngology

HONN, KENNETH V.: Ph.D., Wayne State University; Distinguished Professor, Pathology

HOOD, GLEN: Ph.D., University of Notre Dame; M.S., Texas State University; B.S., Texas State University; Assistant Professor, Biological Sciences

HOOGLAND, RENÉE: Ph.D., M.A., B.A., University of Amsterdam; Professor, English

HOOPER, CAROLYN JANE: M.A., Wayne State University; B.A., University of Georgia; Associate Professor Emeritus, Art

HOPP, FAITH: Ph.D., M.S.W., University of Michigan; B.A., Oberlin College; Associate Professor and Doctoral Program Director, Social Work, Co-Chair, Social Work and Anthropology (SWAN) Ph.D. Program

HORNER, JEFFREY T.: M.U.P., Wayne State University; B.A., Adrian College; Senior Lecturer, Urban Studies and Planning

HOU, ZHANJUN: Ph.D., M.S., China Agricultural University; B.S., Agricultural and Husbandry University of Inner Mongolia; Associate Professor (Research), Oncology

HOWARD, CANDICE: Ph.D., Eastern Michigan University; M.S., B.S., Miami University; Lecturer, Education, Kinesiology, Health and Sport Studies

HOWARD, JEFFREY L.: Ph.D., University of California, Santa Barbara; M.S., B.S., Virginia Polytechnic Institute and State University; Professor, Environmental Sciences and Geology

HOWELL, DOUGLAS B.: B.S., Johns Hopkins University; Lecturer, Physician Assistant Studies

HOWERANI, ANA: M.A., University of Michigan B.A., Denison University; Assistant Professor (Teaching), Education, Teacher Education

HSIEH, LI: Ph.D., Purdue University; M.A., Northwestern University; M.A., Fu Jen Catholic University; B.A., Soochow University; Associate Professor, Communication Sciences and Disorders

HU, BO: M.D., Ph.D., M.Sc., University of South China; Assistant Professor (Research), Neurology

HU, LIANG: Ph.D., M.A., University of Rochester; Associate Professor, Economics

HU, PO: Ph.D., University of Michigan; B.A., Yale University; Professor, Mathematics

HU, ZENQING: M.D., Ph.D., Fudan University; Ph.D., Karolinska Institute; Associate Professor, Otolaryngology

HUA, JING: Ph.D., M.S., State University of New York at Stony Brook; M.S., Institute of Automation, Chinese Academy of Sciences; B.S., Huazhong University of Science and Technology; Professor, Computer Science

HUANG, CHANGHE: Ph.D., M.S., Shanghai Institute of Technical Physics; B.S., Shanghai University of Science and Technology; Professor (Research), Surgery

HUANG, JIAN: Ph.D., Michigan State University; M.S., University of South Carolina; B.S., Beijing University; Associate Professor, Physics

HUANG, TAO: Ph.D., University of Kentucky; Ph.D., Xiamen University; M.S., Shandong Normal University; Assistant Professor, Mathematics

HUANG, YAOXIAN: Ph.D., Michigan Technological University; M.S., B.S., East China University of Science and Technology; Assistant Professor, Civil and Environmental Engineering

HUANG, YINLUN: Ph.D., M.S., Kansas State University; B.S., Zhejiang University; Professor, Chemical Engineering and Materials Science

HUANG, ZHIFENG: Ph.D., B.S., Tsinghua University; Associate Professor, Physics

HUETTEMANN, MAIK: Ph.D., University of Marburg; Professor, Molecular Genetics and Genomics, Biochemistry and Molecular Biology

HUGHES, BRET A.: M.D., Tulane University; B.A., San Jose State University; Professor (Clinician-Educator), Ophthalmology

HULL, MARGARET: M.F.A, Cranbrook Academy of Art; B.F.A., Maryland Institute College of Art; Assistant Professor, Art

HUMMER, HANS: Ph.D., University of California, Los Angeles; M.A., University of Florida; B.S., Kansas State University; Professor, History

IBRAHIM, AHMED: Ph.D., M.Sc., B.Sc., Pharmaceutical Sciences; Assistant Professor, Pharmacology, Ophthalmology, Visual and Anatomic Sciences

IBRAHIM, RAOUF A.: Ph.D., University of Edinburgh; M.S., B.S., University of Cairo; Professor Emeritus, Mechanical Engineering
IBRAHIM, SHERIF: M.D., Alexandria University; Clinical Assistant Professor, Radiology
ICHINOSE, TOMOMI: M.D., Hamamatsu University; Ph.D., Tokyo Medical and Dental University; Assistant Professor, Anatomy and Cell Biology
IQLBAL, AMIR: M.D., Sindh Medical College; Assistant Professor (Clinical Educator), Internal Medicine
IRELAND, MARK E.: Ph.D., M.S., B.S., Wayne State University; Associate Professor, Anatomy and Cell Biology
ISAKSEN, DANIEL: Ph.D., M.S., University of Chicago; B.A., University of California, Berkeley; Professor, Mathematics, Acting Associate Department Chair
ISKANDAR-DATTA, MAI: Ph.D., M.B.A., B.S., University of Missouri, Columbia; Professor, Finance
ISLAM, Md. MAHBUBUL: Ph.D., Pennsylvania State University; B.S., Bangladesh University of Engineering and Technology; Assistant Professor, Mechanical Engineering
ITZKOWITZ, JOEL B.: Ph.D., A.M., University of Michigan; A.B., Brooklyn College of the City University of New York; Associate Professor Emeritus, Classics, Greek and Latin
IYER, ARUN: Ph.D., Sojo University; M.S., B.S., University of Pune; Assistant Professor, Pharmaceutical Sciences
JABER, LINDA A.: Pharm.D., B.S., Wayne State University; Professor, Pharmacy Practice
JACKSON, CHRISTINE: Ph.D., University of Florida; B.S., Michigan State University; Professor and Chair, Management and Information Systems
JACKSON, GEORGE: Ph.D., Ohio State University; B.S. Michigan State University; Professor Emeritus, Marketing and Supply Chain Management
JACKSON, KENNETH: Ph.D., Loyola University of Chicago; M.A., Northwestern University; B.A., Michigan State University; Professor, English
JACKSON, MARION E.: Ph.D., M.A., B.A., University of Michigan; Distinguished Professor Emeritus, Art History
JACKSON, MATTHEW P.: Ph.D., Kansas State University; M.S., B.S., University of Missouri at Kansas City; Associate Professor, Immunology and Microbiology
JACOBS, MICHELLE R.: Ph.D. and M.S., Kent State University; B.S. University of Akron; Assistant Professor, Sociology
JACOBSON, JOSEPH: Ph.D., X.P.R., Harvard-Radcliffe; Professor, Psychiatry and Behavioral Neurosciences, Obstetrics and Gynecology
JACOBSON, SANDRA: Ph.D., M.A., Harvard University; B.A., Brandeis University; Professor, Psychiatry and Behavioral Neurosciences, Psychology
JACQUES, SUZANNE M.: M.D., Indiana University School of Medicine; Professor (Clinician-Educator), Pathology
JAFFEE, KIM D. Ph.D., University at Albany; M.S.W., B.S., Ohio State University; Associate Professor Emerita, Social Work
JAHNG, MI ROSIE: Ph.D., University of Missouri; M.A., University of Texas; B.A., Sookmyung Women's University; Assistant Professor, Communication
JAMEEL, CHAVON L.: Ph.D., M.Ed., Wayne State University; B.A., Kalamazoo College; Clinical Assistant Professor, Education, Teacher Education
JAMESDANIEL, SAMSON: M.D., B.S.M.S., Tamil Nadu Dr.M.G.R. Medical University; Ph.D. University of Madras; Assistant Professor (Research Educator), Family Medicine and Public Health Sciences, Assistant Professor (Research Educator), Institute of Environmental Health Sciences
JAMIL, SAMIR: M.D., Mosul University; Clinical Assistant Professor, Pediatrics
JANISSE, JAMES: Ph.D., Wayne State University; Associate Professor, Family Medicine and Public Health Sciences
JANKENS, ADRIENNE: Ph.D., Wayne State University; M.A., Central Michigan University; B.A., Valparaiso University; Assistant Professor, English
JANSONS, MARCIS: Ph.D., B.S., Rutgers University; M.S., New Jersey Institute of Technology; Associate Professor, Mechanical Engineering
JAVANBAKHT, ARASH: M.D., Mashhad University of Medical Sciences; Assistant Professor (Research Educator), Psychiatry and Behavioral Neurosciences
JAYYOUSI, THAER: Ph.D., M.S., B.S., Wayne State University; Senior Lecturer, Computer Science
JEFFERSON, LOUISE M.: Ph.D., M.A., University of Illinois; B.A., Hunter College; Associate Professor Emeritus, French
JEN, K-L CATHERINE: Ph.D., M.A. Wayne State University; B.S., University of Taiwan; Professor, Nutrition and Food Science
JENA, BHANU P.: Ph.D., Iowa State University; B.S., Utkal University; University Professor, Physiology
JENSEN SUMMERS, GAIL A.: Ph.D., University of Minnesota; M.S., Iowa State University; B.A., Southern Connecticut State College; Professor, Economics
JEONG, JEONG-WON: Ph.D., University of Southern California at Los Angeles; Assistant Professor, Pediatrics
JHA, ANAND: Ph.D., M.B.A., Indiana University; B.A., Wabash College; Associate Professor, Finance
JIANG, SHANHE: Ph.D., State University of New York; M.A., Nankai University; B.A., Wuhan University; Professor, Criminology and Criminal Justice
JIMENEZ, LINDA: M.Ed., B.S., Wayne State University; Lecturer, Education, Administrative & Organizational Studies
JOHNS, SHANTALEA: Ed.D, M.S.W. B.S.W., Wayne State University; Lecturer, Social Work
JOHNSON, CHRISTINE: M.S. in Occupational Therapy, Wayne State University; B.A. in Health Sciences, Wayne State University; Assistant Professor, Occupational Therapy Program
JOHNSON, LARS: Ph.D., M.A., University of Houston; B.A., Tougaloo College; Assistant Professor, Psychology
JOHNSON, III, OLLIE A.: Ph.D., M.A., University of California - Berkeley; M.A., B.A., Brown University; Professor and Chair, African American Studies

JOINER, MICHAEL: Ph.D., Institute of Cancer Research, University of London; M.A., B.A., Queens’ College; Professor, Oncology (Cancer Biology)

JONES, DEBORAH K.: Ph.D., Kent State University; B.A., Southern Illinois University; Associate Professor (Teaching), Accounting

JONES, KERIN A.: M.D., Wayne State University; M.S., University of Michigan; B.A., Northwestern University; Associate Professor (Clinician-Educator), Emergency Medicine

JONES, LARA: Ph.D., M.S., University of Georgia; B.S., University of North Carolina at Charlotte; Associate Professor, Psychology

JUHASZ, CSABA: M.D., University Medical School Pecs; Ph.D., Semmelweis Medical University; Professor, Pediatrics, Neurology

JULIAN, SCOTT: Ph.D., Louisiana State University; B.A., B.S., University of Central Florida; Associate Professor, Management and Information Systems

JUN, KYU-NAHM: Ph.D., University of Southern California; MPA, Seoul National University; B.A., Ewha Womans University; Associate Professor, Political Science

JUNG, YUSON: Ph.D., M.A., Harvard University; M.A., B.A., Seoul National University; Associate Professor, Anthropology

JUPENA, URBAN R.: M.F.A., Cranbrook Academy of Art; B.F.A., Philadelphia College of Art; Professor Emeritus, Art

JUZICH, MARK: M.D., Wayne State University; Professor and Chair, Ophthalmology

K

KABBANI, SARAH: M.D., B.S., American University of Beirut; Assistant Professor, Internal Medicine

KAGEN, ALISA A.: M.S.A., Central Michigan University; B.S.R.T(T), Wayne State University; Clinical Assistant Professor, Radiation Therapy Technology

KAHN, JOEL K.: M.D., B.S., University of Michigan; Clinical Assistant Professor, Internal Medicine

KAHN, STEVEN M.: Ph.D., M.A., University of Maryland; B.S., State University of New York at Stony Brook; Professor, Mathematics

KALE-PRADHAN, PRAMODINI B.: Pharm.D., Philadelphia College of Pharmacy and Science; B.S., University of Wisconsin; Clinical Professor, Pharmacy Practice

KALMAN, LAUREN: M.F.A., The Ohio State University; B.F.A., Massachusetts College of Art; Associate Professor, Art

KAMADA, VITOR: Ph.D., Georgia Institute of Technology; M.A.s, Toulouse School of Economics, State University of Campinas; B.A., University of Sao Paulo; Lecturer, Economics

KAMINSKI, EDWARD: M.D., M.S., B.S., Wayne State University; Clinical Assistant Professor, Anesthesiology

KANDOUIZ, MUSTAPHA: Ph.D., Universite de Paris; Associate Professor, Pathology

KANG, MOHAMMAD: M.D., Punjab Medical College; Assistant Professor (Clinician-Educator), Internal Medicine

KAPATOS, GREGORY: Ph.D., M.S., University of Pittsburgh; B.S., State University of New York College at Cortland; Professor Emeritus, Molecular Genetics and Genomics

KAPLAN, JENNIFER: M.D., Wayne State University; B.S., University of Michigan; Clinical Assistant Professor, Obstetrics and Gynecology

KARCHIN, PAUL E.: Ph.D., M.S., B.S., Cornell University; Professor, Physics

KARR, W. THOMAS: M.F.A., University of Alabama; B.A. University of Tennessee; Lecturer, Theatre

KASETA, MICHELE: M.Ed., B.S., Wayne State University; Assistant Professor (Teaching), Education, Teacher Education

KASHEF, MINUCHEHR: M.D., Pahlavi University; Clinical Assistant Professor, Obstetrics and Gynecology

KASHIAN, DANIEL M.: Ph.D., University of Wisconsin, Madison; M.S., B.S., University of Michigan; Professor and Associate Chair, Biological Sciences

KASHIAN, DONNA R.: Ph.D., University of Wisconsin; M.S., Michigan State University; B.S., Eastern Michigan University; Professor, Biological Sciences, Director Environmental Sciences

KASSA, MARY: Au.D., B.A., Wayne State University; Lecturer, Communication Sciences and Disorders

KASZETA, KRISTEN: M.A., Wayne State University; B.B.A, Saginaw Valley State University; Lecturer, Education, Kinesiology, Health and Sport Studies

KATO, IKUKO: M.D., Nagoya Health University; Ph.D., Fujita-Gakuen Health University; Professor, Oncology, Pathology

KAUFFMANN, LEISA A.: Ph.D., M.A., University of Illinois at Urbana-Champaign; B.A., San Francisco State University; Associate Professor, Spanish

KAUFFMANN, KRISTIANA: M.D., Wayne State University; M.P.H., University of Illinois at Chicago; B.S., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

KAUR, SATINDER: M.D., University of Kashmir Srinagar; Assistant Professor (Clinician-Educator), Obstetrics and Gynecology

KAVDIA, MAHENDRA: Ph.D., Oklahoma State University; MTech, Indian Institute of Technology; BTech, Indian Institute of Technology; Associate Professor, Biomedical Engineering

KCOMT, LUISA: Ph.D., B.S.W., University of Windsor; M.S.W., Wilfrid Laurier University; Assistant Professor, Social Work

KEASHLY, LORALEIGH: Ph.D., University of Saskatchewan; M.A., University of New Brunswick; B.A., University of Calgary; Professor, Communication, Distinguished Service Professor

KEE, CHERA: Ph.D., M.A., University of Southern California; M.A., Harvard University; B.A., Oklahoma City University; Associate Professor, English

KEISLING, JOHN: M.F.A., Florida State University; B.A., Oklahoma Baptist University; Lecturer, Theatre

KELLY, CHRISTOPHER V.: Ph.D., M.S.E., University of Michigan; B.A., Oberlin College; Associate Professor, Physics
KELLY, MARILYN: J.D., Wayne State University; M.A., Middlebury College; B.A., Eastern Michigan University; Distinguished Jurist in Residence, Law

KELLY, PATRICK J.: Ph.D., University of Illinois; M.B.A., University of Utah; B.S., Brigham Young; Professor Emeritus, Marketing and Supply Chain Management

KELLMAN, MAURICE B.: L.L.M., Harvard University; J.D., B.A., Wayne State University; Professor Emeritus, Law

KENNEY, JUSTIN: Ph.D., Temple University; B.S., B.A., Case Western Reserve University; Assistant Professor, Biological Sciences

KENTOR, JEFFREY D.: Ph.D., Johns Hopkins University; M.A., Antioch University; B.A. George Washington University; Professor, Sociology

KERNSMITH, POCO D.: Ph.D., University of California, Los Angeles; M.S.W., University of Michigan; B.A., University of California, Santa Barbara; Professor, Social Work

KERSHAW, PAUL V.: Ph.D., New York University; M.S., Rensselaer Polytechnic Institute; B.S., Boston University; Assistant Professor, History

KESSEL, DAVID H.: Ph.D., M.S., University of Michigan; B.S., Massachusetts Institute of Technology; Professor, Pharmacology, Internal Medicine

KESSELL, ERIC: Ph.D., M.P.H., University of California-Berkeley; B.A., University of Michigan; Assistant Professor (Teaching), Public Health

KETELS, KEVIN: M.B.A., Boston University; M.S., B.A., Michigan State University; Assistant Professor (Teaching), Marketing and Supply Chain Management

KEYES, PAUL H.: Ph.D., University of Maryland; B.S. Rensselaer Polytechnic Institute; Professor Emeritus, Physics

KEYS, FAYETTA: M.J., D.L., Widener University; M.S.W., University of Pennsylvania; M.L.S., University of Pittsburgh; B.A., Howard University; Clinical Associate Professor, Social Work

KAJT, LYUDMILA: M.D., Michigan State University; M.S., Wayne State University; B.S., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

KAN, ADEEBAA: M.D., Sri Venkat Sai Medical College; Clinical Instructor, Pediatrics

KAN, SAEED: J.D., Thomas M. Cooley Law School; M.A., Wayne State University; B.A., University of Michigan; Lecturer, Near Eastern and Asian Studies

KAHAWA, AYAZ: M.B.B.S., King Edward Medical University; Assistant Professor (Clinical-Educator), Neurology

KHEIBARI, ATHENA: Ph.D., University of Kentucky; M.A., Ball State University; B.A., University of Michigan; Assistant Professor, Social Work

KHOSLA, PRAMOD: Ph.D., University of Western Ontario; M.Sc., B.Sc., Newcastle University; Associate Professor, Nutrition and Food Science

KHURRAM, ALIA: Ph.D. and M.S., Southern Illinois University; M.S., Quaid-i-Azam University; B.S., University of the Punjab; Lecturer, Mathematics

KIBLER, LOUIS: Ph.D., B.A., Indiana University; Associate Professor Emeritus, Italian

KIDDER, BENJAMIN: Ph.D., University of Minnesota; B.A., Saint Olaf College; Assistant Professor, Oncology (Cancer Biology)

KIESZNOWSKI, JOSEPH C.: M.S., Wayne State University; B.S., Liberty University; Assistant Professor (Clinical), Nurse Anesthesia

KILBEY, M. MARLYNE: Ph.D., M.A., University of Houston; B.A., Oklahoma Baptist University; Professor Emerita, Psychology

KILGORE, PAUL: M.D., Wayne State University; M.P.H., B.S., University of Michigan; Associate Professor, Pharmacy Practice

KILLION, THOMAS: Ph.D., University of New Mexico; M.A., B.A., University of Connecticut; Associate Professor, Anthropology

KIM, HAROLD E.: M.D., Northwestern University; B.S., Loyola University; Professor (Clinician-Educator), Oncology (Radiation Oncology)

KIM, HYEONG-REH: Ph.D., Northwestern University; Professor, Pathology

KIM, KATHERINE: Ph.D., M.A., University of Washington; B.A., University of Southern California; Associate Professor, Philosophy

KIM, KYOUNG-YUN: Ph.D., University of Pittsburgh; M.S., B.S., Chonbuk National University; Professor, Industrial and Systems Engineering

KIM, SEONG HO: M.D., Kyung Hee University; Ph.D., M.S., University of Ulsan; Associate Professor, Oncology (Cancer Biology)

KIM, STEVE: M.D., Columbia University College of Physicians & Surgeons; B.S., Massachusetts Institute of Technology; Associate Professor (Clinician-Educator), Surgery

KIN, ANDREW D.: M.D., University of Cincinnati College of Medicine; B.S., Ohio State University; Assistant Professor (Clinical), Oncology

KING, ANDREW: M.D., Washington University in St. Louis, B.A., Northwestern University; Assistant Professor (Clinician-Educator), Emergency Medicine

KIPPERMAN, SARAH: Ph.D., M.Ed., Ed.S., Georgia State University; M.A., New York University; B.A., Indiana University; Assistant Professor, Education, Theoretical and Behavioral Foundations

KIRCHMEYER, CATHERINE: Ph.D., M.B.A., York University; B.S., B.A., University of Guelph; Associate Professor Emeritus, Management and Information Systems

KISSNER, DANA G.: M.D., University of Michigan; M.A.T., Johns Hopkins University; B.A., Barnard College; Associate Professor (Clinician-Educator) Emeritus, Internal Medicine

KLAXON, CHARLES: Ph.D., M.S., University of Cincinnati; B.A., Northern Kentucky University; Associate Professor, Criminology and Criminal Justice

KLEIN, JOHN R.: Ph.D., M.A., Brandeis University; B.A., Northwestern University; Professor, Mathematics

KLEIN, JULIE: Ph.D., D.A., M.A., B.A., University of Oregon; Professor Emerita, English

KLIN, ALINA: Ph.D., M.A., Uniersyty Jagiellonski; Senior Lecturer, Polish

KLIN, JEFFREY: M.D., Medical College of Virginia; B.S., Virginia Polytechnic Institute and State University; Professor, Emergency Medicine

KLIN, K.A.: Ph.D., B.S., University of Minnesota; Professor Emeritus, Mechanical Engineering

KLIN, LAURA: Ph.D., M.A., University of Michigan; B.A., Georgetown University; Senior Lecturer, Russian
KLISZ-HUBERT, REBECCA: M.D., B.S., Wayne State University; Instructor (Clinician-Educator), Psychiatry and Behavioral Neurosciences

KLUEH, ULRIKE: Ph.D., M.S., University of Connecticut; B.A.Sc., University of Applied Sciences Mittelhessen; Associate Professor, Biomedical Engineering

KNAPP, CHRISTINE: Ph.D., M.A., Western University; B.A.H., University of Windsor; Lecturer, French

KOCAREK, THOMAS A.: Ph.D., B.S., Ohio State University; Professor, Pharmacology, Institute of Environmental Health Sciences

KODANKO, JEREMY: Ph.D., University of California at Irvine; B.S., University Wisconsin, Madison; Associate Professor and Associate Chair, Chemistry

KOehler, Julie: Ph.D., M.A., Wayne State University; M.A., B.A., University of Michigan; Lecturer, German

Kohn, Thomas D.: Ph.D., University of Minnesota; Associate Professor, Classics, Greek and Latin

Koo, Hyun Jeong: Ph.D., University of Texas at Austin; M.S., University of Illinois at Urbana-Champaign; M.S., Yonsei University; B.S., Hanyang University; Assistant Professor, Engineering Technology, Civil Engineering

Kopetz, Catalina: Ph.D., University of Maryland, College Park; M.S., Universite de Savoie; B.S., Babes-Bolyai University; Associate Professor, Psychology

Korkis, Bianca: Pharm.D., University of Michigan; Assistant Professor (Clinical), Pharmacy Practice

Korzeniewski, Steven: Ph.D., M.S., Michigan State University; Associate Professor Clinical, Family Medicine and Public Health Sciences

Kosir, Mary Ann: M.D., Wayne State University; B.S., University of Detroit; Professor Clinician Educator, Surgery

Koto, Jerry C.: Ph.D., M.S., State University of New York at Buffalo; B.S., Tatung Institute of Technology; Associate Professor, Mechanical Engineering

KubiaK, Sheryl: Ph.D., M.S.W, University of Michigan; B.A., Madonna University; Professor, Social Work

Kulik, Noel: Ph.D., University of North Carolina; M.A., B.S., Wayne State University; Associate Professor, Education, Kinesiology, Health and Sport Studies

Kumar, Ashok: Ph.D., Post Graduate Institute of Medical Education and Research; Assistant Professor, Ophthalmology, Anatomy and Cell Biology

Kumar, Rohini: Ph.D., University of Wisconsin-Madison; M.S., B.S., Bangalore University; Associate Professor, Mathematics

Kumar, V. Arun: M.D., Calcutta National Medical College; M.P.H., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

Kumasi, Kafi D.: Ph.D., Indiana University; M.L.I.S., Wayne State University; B.S., University of Michigan; Associate Professor, Information Sciences

Kuo, Tuan Huey: Ph.D., Cornell University; Professor Emeritus, Pathology

Kraft, Shelly Jo: Ph.D., University of Illinois; M.A., B.A., Michigan State University; Associate Professor, Communication Sciences and Disorders

Kral, Michael: Ph.D, McGill University; Ph.D, M.A., California School of Professional Psychology; B.A., University of Guelph; Associate Professor, Social Work

Krawetz, Stephen A.: Ph.D., B.S., University of Toronto; Professor, Obstetrics and Gynecology, Molecular Medicine and Genetics

Krell, Willane S.: M.D., Wayne State University; B.S., University of Michigan; Associate Professor (Clinician-Educator), Internal Medicine

Krischer, Karen K.: Ph.D., B.S., University of Oklahoma; Clinical Associate Professor, Clinical Laboratory Science

Krishnan, K.S.: Ph.D., University of Pennsylvania; M.S., Indian Statistical Institute; B.A., Vivekananda College; Associate Professor Emeritus, Marketing and Supply Chain Management

Kritzman, Brian: M.F.A., Cranbrook Academy of Art; B.F.A., Wayne State University; Associate Professor, Art, Interim Chair, Department of Art and Art History

Krugel, Richard: M.D., B.S., University of Michigan; Assistant Professor (Clinician-Educator), Orthopaedic Surgery

Krumen, Marc W.: Ph.D., M.A., Yale University; B.S., Cornell University; Professor, History

Ku, Jerry C.: Ph.D., M.S., State University of New York at Buffalo; B.S., Tatung Institute of Technology; Associate Professor, Mechanical Engineering

KubiaK, Sheryl: Ph.D., M.S.W, University of Michigan; B.A., Madonna University; Professor, Social Work

Kuhn, Donald M.: Ph.D., University of South Carolina; B.S., Presbyterian College; Professor, Psychiatry and Behavioral Neurosciences, Associate Professor, Molecular Medicine and Genetics

Kuhnen, Claas: M.F.A., Bowling Green University; Diploma, HAWK University of Applied Sciences and Arts; Lecturer, Art and Art History

Kulchania, Manoj: Ph.D., University of Pittsburgh; M.S., Indiana University; B.S., Indian Institute of Technology; Associate Professor, Finance

Kulik, Noel: Ph.D., University of North Carolina; M.A., B.S., Wayne State University; Associate Professor, Education, Kinesiology, Health and Sport Studies

Kumar, Ashok: Ph.D., Post Graduate Institute of Medical Education and Research; Assistant Professor, Ophthalmology, Anatomy and Cell Biology

Kumar, Rohini: Ph.D., University of Wisconsin-Madison; M.S., B.S., Bangalore University; Associate Professor, Mathematics

Kumar, V. Arun: M.D., Calcutta National Medical College; M.P.H., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

Kumasi, Kafi D.: Ph.D., Indiana University; M.L.I.S., Wayne State University; B.S., University of Michigan; Associate Professor, Information Sciences

Kuo, Tuan Huey: Ph.D., Cornell University; Professor Emeritus, Pathology
KUPSKY, WILLIAM J.: M.D., Harvard University; B.S., Massachusetts Institute of Technology; Professor (Clinician-Educator), Pathology, Neurology

KWON, SUNGJOUNG: Ph.D., Drexel University; M.S. Michigan State University; M.B.A., B.S., Sogan University; Assistant Professor, Finance

LAGINA, ANTHONY: M.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Clinician-Educator), Emergency Medicine

LAI, MING-CHIA: Ph.D., M.S., Pennsylvania State University; Professor, Mechanical Engineering

LAI, QIN: Ph.D., Texas A & M University; M.Ed., B.S., Beijing University of Physical Education; Associate Professor, Education, Kinesiology, Health and Sport Studies

LALA, MONIK: M.D., American University of the Caribbean; B.S., University of Michigan; Clinical Instructor, Radiology

LAM, MAI T.: Ph.D., M.S.E., B.S.E., University of Michigan; Assistant Professor, Biomedical Engineering

LAMBORN, LEROY L.: J.S.D., Columbia University; LL.M., Yale University; LL.B., Western Reserve University; A.B., Oberlin College; Professor Emeritus, Law

LANCASTER, WAYNE: Ph.D., Wayne State University; M.S., University of Dayton; B.S., Adrian College; Professor Emeritus, Molecular Genetics and Genomics, Obstetrics and Gynecology

LAND, SUSAN: Ph.D., Wayne State University; Associate Professor (Research), Obstetrics and Gynecology

LANNI, MELINDA: M.A., B.A., Wayne State University; Lecturer, Mathematics

LANZA, JANINE: Ph.D., M.A., Cornell University; B.A., University of Chicago; Associate Professor, History, Director, Gender, Sexuality and Women's Studies

LARSON, MATTHEW: Ph.D., Arizona State University; M.A., Wayne State University; B.A., Sienna Heights University; Associate Professor, Criminality and Criminal Justice

LARSON-VOLTZ, EVAN: M.F.A., Cranbrook Academy of Art; B.A., University of Wisconsin-Milwaukee; Associate Professor, Art

LASCH, JONATHAN: D.M.A., University of Michigan; M.Mus., B.Mus., University of Hartford; Assistant Professor , Music

LASH, LAWRENCE H.: Ph.D., Emory University; B.A., Case Western Reserve University; Professor, Pharmacology

LASLEY, ROBERT D.: Ph.D., State University of New York; M.S., University of Virginia; B.A., University of North Carolina-Chapel Hill; Professor and Graduate Officer, Physiology

LATAWIEC, AMY: Ph.D., M.A., B.A., Wayne State University; Associate Professor of Teaching, English

LAVERNZ, STEVEN: Ph.D., Purdue University; M.S., B.S., Iowa State University; Assistant Professor, Civil and Environmental Engineering

LAWSON, DAVID M.: Ph.D., Cornell University; M.S. and B.S., Virginia Polytechnic Institution; Professor Emeritus, Physiology

LEAN, SHARON F.: Ph.D., University of California, Irvine; M.A., Facultad Latinoamericana de Ciencias Sociales; B.A., Brown University; Associate Professor, Political Science

LEANER, N. PONTUS: Ph.D., Duke University; M.A., Duke University B.A., Georgia State University; Associate Professor, Psychology

LEBLEDZIK, CATHERINE: Ph.D., M.A., University of Virginia; B.S., Pennsylvania State University; Associate Professor, Mathematics

LEBOLD, SUSAN M.: J.D., B.S. The Ohio State University; M.S.W. Boston University; Lecturer, Social Work

LEDGERWOOD, ANNA M.: M.D., Marquette University; B.A., Gonzaga University; Professor, Surgery

LEDGERWOOD, DAVID: Ph.D., University of Windsor; Professor, Psychiatry and Behavioral Neurosciences

LEE, CHEOL: Ph.D., M.S., State University of New York at Buffalo; M.B.A., B.A., Sung Kyun Kwan University; Professor, Accounting

LEE, JAE-SOO: Ph.D., Carnegie Mellon; M.S., Georgia Institute of Technology; M.S., University of Missouri; B.S., Korean Advance Institute of Science and Technology, Associate Professor, Management and Information Systems

LEE, KYUNGHEE: Ph.D., M.S., B.S., Korea Advanced Institute of Science and Technology; Assistant Professor, Management and Information Systems

LEE, PEI-CHUNG: Ph.D., Case Western Reserve University; M.S., National Yang-Ming University, Taiwan; B.S., National Tsing-Hua University, Taiwan; Assistant Professor, Biological Sciences

LEFF, TODD: Ph.D., University of Indiana; Associate Professor, Pathology

LEIRSTEIN, CHRISTOPHER: M.A., B.S., Wayne State University; Senior Lecturer, Mathematics

LENHOFF, SARAH W.: Ph.D., Michigan State University; M.S., Pace University; B.A., University of Georgia; Assistant Professor, Education, Administrative & Organizational Studies

LERNER, STEPHEN A.: M.D., A.B., Harvard University; Professor Emeritus, Internal Medicine

LESNIK, JULIE: Ph.D., University of Michigan; B.A., Northern Illinois University; Associate Professor, Anthropology

LEVI, ARIEL: Ph.D., Yale University; B.A., University of California at Los Angeles; Associate Professor (Teaching), Management and Information Systems

LEVINE, DIANE: M.D., B.S., Wayne State University; Associate Professor (Clinician-Educator), Internal Medicine

LEVY, PHILIP: M.D., New York Medical College; M.P.H., University of Michigan; Professor, Emergency Medicine

LEVY, SHELDON G.: Ph.D., M.A., University of Michigan; A.B., College of Wooster; Professor, Psychology

LEWALSKI, PHILIP A.: M.D., B.S., Wayne State University; Assistant Professor (Clinician-Educator), Emergency Medicine

LEWIS, JENNIFER: Ph.D., University of Michigan; M.A., B.A., University of California; Associate Professor, Education, Teacher Education
LEWIS, NICHOLAS: M.D., Wayne State University; B.S. University of Michigan; Clinical Assistant Professor, Radiology

LI, BIN: Ph.D., University of North Carolina at Chapel Hill; M.A., B.A., Beijing Foreign Studies University; Senior Lecturer, Information Sciences

LI, HENGGUANG: Ph.D., Pennsylvania State University; B.S., Peking University; Professor and Chair, Mathematics

LI, JING: Ph.D., National University of Singapore; M.S., B.S., West China University of Medical Sciences; Professor, Oncology (Cancer Biology)

LI, JUN: M.D., Anhui Medical University; Ph.D., Hahnemann University; Professor and Chair, Neurology

LI, LI: Ph.D., University of Texas; B.S., University of Science and Technology of China; Professor, Internal Medicine, Molecular Medicine and Genetics

LI, WEN: Ph.D., Stony Brook University; B.S., Peking University; Professor, Chemistry

LIAO, GENE Y.: D.Eng., University of Michigan; Mechanical Engineer (Professional Degree), Columbia University; M.S., University of Texas at Arlington; B.S., National Central University; Professor, Engineering Technology, Graduate Program Director, Electric-drive Vehicle Engineering & Alternative Energy Technology

LICHTENBERG, PETER: Ph.D., M.S., Purdue University; B.A., Washington University; Professor, Psychology, Director, Institute of Gerontology

LIEBLER, MICHAEL LYNN: M.A.T., B.A., Oakland University; Associate Professor of Teaching, English

LIENING, MARYELLEN: M.A., Wayne State University; B.A., Michigan State University; Instructor (Clinical), Communication Sciences and Disorders

LIKAHA, OSUMAKA: Ph.D., University of Minnesota; M.A., B.A., University of Lubumbashi; Associate Professor, History

LIN, FENG: Ph.D., M.A.Sc., University of Toronto; B.Eng, Shanghai Jiao-Tong University; Professor, Electrical and Computer Engineering

LIN, HO-SHENG: M.D., Yale University School of Medicine; B.S., University of California, Irvine; Professor (Clinician-Educator), Otolaryngology

LINTVEDT, RICHARD L.: Ph.D., University of Nebraska; B.A., Lawrence University; Professor Emeritus, Chemistry

LINZ, THOMAS H.: Ph.D., University of Kansas; B.S., Truman State University; Assistant Professor, Chemistry

LIPARI, MELISSA: Pharm.D., Wayne State University; Clinical Assistant Professor, Pharmacy Practice

LIPCHIK, ANDREW: Ph.D., Purdue University; B.S., Xavier University; Assistant Professor, Pharmaceutical Sciences

LISAK, ROBERT P.: M.D., Columbia University; B.A., New York University; Professor, Neurology, Immunology and Microbiology

LIST, KARIN: Ph.D., M.Sc., University of Copenhagen; Associate Professor, Pharmacology

LITTLEJOHN, EDWARD J.: LL.M., J.S.D., Columbia University; J.D., Michigan State University; B.A., Wayne State University; Professor Emeritus, Law

LIU, HAIEN: Ph.D., Purdue; M.S., Huazhong University of Science and Technology; Assistant Professor, Chemical Engineering and Materials Science

LIU, HAIYONG: Ph.D., University of California, Los Angeles; M.A., Wayne State University; B.A., Beijing University; Professor, Chinese

LIU, JOHN: Ph.D., University of Southern California; M.S., New Mexico State University; M.S., Peking Depart; B.S., Peking University; Associate Professor, Electrical and Computer Engineering

LIU, WANG: Ph.D., Shanghai Institute of Physiology, Chinese Academy of Sciences; Associate Professor, Pharmaceutical Sciences

LIU, XING: Ph.D., University of South Carolina; Assistant Professor, Management and Information Systems

LIU, YANCHAO: Ph.D., University of Wisconsin; M.S., University of Arkansas; B.S., Huazhong University of Science and Technology; Assistant Professor, Industrial and Systems Engineering

LIU, YOUCHENG: M.D., Nanjing Medical University; M.P.H., Beijing Medical University; Associate Professor, Family Medicine and Public Health Sciences

LIU, ZHENFEI: Ph.D., University of California at Irvine; B.S., Peking University; Assistant Professor, Chemistry

LLOPE, WILLIAM J.: Ph.D., M.S., State University of New York at Stony Brook; B.A., University of Michigan; Associate Professor, Physics

LOBKOVICH, ALISON: Pharm.D., Wayne State University; B.S., Wayne State University; Assistant Professor (Clinical), Pharmacy Practice

LOH, CAROLYN G.: Ph.D., M.U.P., B.A., University of Michigan; Associate Professor, Urban Studies and Planning

LOLAR, SARA: M.S., Wayne State University; Assistant Professor (Clinical), Physician Assistant Studies

LOMBARD, LAWRENCE B.: Ph.D., Stanford University; A.B., Cornell University; Professor, Philosophy

LONARDO, FULVIO: M.D., 2nd Medical School, Naples, Italy; Professor (Clinician-Educator), Pathology

LONG, JUSTIN: J.D., University of Pennsylvania; A.B., Harvard University; Associate Professor, Law

LONG, LUCY: Ph.D., University of Utah; B.S., Beijing University of Aeronautics and Astronautics; Assistant Professor, Chemistry

LOUGHERY, BRIAN: Ph.D., Wayne State University; M.S., San Diego State University; B.S., University of Notre Dame; Assistant Professor (Clinical), Oncology (Radiation Oncology)

LOVE-SCHROPSHIRE, NORMA: D.S.W., University of St. Thomas; M.S.W., University of Minnesota; Assistant Professor (Clinical), Physician Assistant Studies

LOW, JAMES T.: Ph.D., M.B.A., B.A., University of Michigan; Associate Professor Emeritus, Marketing and Supply Chain Management

LU, SHIYONG: Ph.D., State University of New York at Stony Brook; M.E., Institute of Computing Technology, Chinese Academy of Sciences; B.E., University of Science and Technology of China; Professor, Computer Science

LUBLIN, ELIZABETH DORN: Ph.D., University of Hawaii; M.A., University of Michigan; B.A., Yale University; Associate Professor, History
LUBORSKY, MARK: Ph.D., University of Rochester; B.A., Hobart College; Professor, Anthropology

LUCA, FRANCESCA: Ph.D., University of Calabria; Associate Professor, Molecular Genetics and Genomics

LUCAS, CHARLES E.: M.D., Wayne State University; B.S., University of Detroit; Professor, Surgery

LUCAS, LORI: Ed.S. Wayne State University; Assistant Professor (Teaching), Education, Teacher Education

LUMLEY, MARK: Ph.D., M.S., University of Florida; B.S., Wayne State University; Distinguished Professor, Psychology, Director, Clinical Training

LUND, CHRISTOPHER C.: J.D., University of Texas; B.A., Rice University; Professor, Law

LUNDAHL, LESLIE: Ph.D., M.S., University of Wisconsin; B.S., DePaul University; Assistant Professor, Psychiatry and Behavioral Neurosciences

LUPOVITCH, HOWARD: Ph.D., Columbia University; M.A., B.A., University of Michigan; Associate Professor, History

LUQMAN, ALI: M.D., University of Miami; Assistant Professor, Neurological Surgery

LYNCH, WILLIAM: Ph.D., M.A., Cornell University; M.S., Virginia Polytechnic Institute; B.A., Rensselear Polytechnic Institute; Professor, History

LYONS, BARRY J.: Ph.D., M.A., University of Michigan; B.A., Washington University; Associate Professor, Anthropology

LYSACK, CATHERINE L.: Ph.D., B.A., B.M.R., University of Manitoba; M.Sc., Queen's University; Professor, Occupational Therapy

MACALL, HEATHER: M.F.A, University of Wisconsin; B.A., Kent State University; Associate Professor, Art

MACDONALD, KATIE: M.F.A., Cranbrook Academy of Art; B.A., University of Wisconsin-La Crosse; Lecturer, Art

MACDONELL, KAREN: Ph.D., Loyola University; M.S., DePaul University; B.A., Kalamazoo College; Associate Professor Research Educator, Family Medicine and Public Health Sciences

MACK, SHIRLEY A.: Ph.D., M.A., Wayne State University; B.S., Western Michigan University; Lecturer, Education, Theoretical and Behavioral Foundations

MADDOEN, ERIN: Ph.D., University of Wisconsin; M.P.H., University of New Mexico; Assistant Professor, Family Medicine and Public Health Sciences

MADDIPATI, KRISHNA RAO: Ph.D., India Non-Medical School; Associate Professor (Research), Pathology

MADIGAN, BRIAN: Ph.D., University of Minnesota; M.A., University of New Brunswick; M.A., B.A., Rutgers University; Associate Professor, Art History

MAGIDSON, DAVID J.: Ph.D., University of Utah; M.S., B.S., University of Wisconsin; Professor, Theatre

MAGNUS, LAUREN: Ph.D., M.A., B.S., Wayne State University; Assistant Professor (Clinical), Education, Theoretical and Behavioral Foundations

MAGUIRE, KATHERYN C.: Ph.D., B.S., University of Texas at Austin; M.A., University of North Texas; Professor and Chair, Communication

MAHABIR, NARESH: M.A., B.A., Wayne State University; Lecturer, Mathematics

MAHAS, RACHEL: Ph.D., University of Toledo; M.P.H., Georgia Southern University; M.P.H. Program Director and Assistant Professor Clinical, Family Medicine and Public Health Sciences

MAHER, SARA F.: D.Sc.P.T., Oakland University; M.P.T., B.S., Wayne State University; B.A., Western Michigan University; Associate Professor (Clinical), Physical Therapy

MAHMUD, SYED M.: Ph.D., University of Washington; B.S.E.E., Bangladesh University of Engineering and Technology; Associate Professor, Electrical and Computer Engineering

MAHONEY, JOAN: Ph.D., Cambridge University; J.D., Wayne State University; A.M., A.B., University of Chicago; Professor Emerita, Law

MAIER, JORDAN M.: Wayne State University; B.A., University of Michigan; Assistant Professor (Clinician-Educator), Oncology (Radiation Oncology)

MAJUMDAR, ABHIJIT: Ph.D., McGill University; M.Sc., B.Sc., Indian Institute of Technology-Kharagpur; Associate Professor, Physics

MAKAR-LIMANOV, LEONID: Ph.D., M.S., Moscow State University; Associate Professor, Physics

MANKE, CHARLES W.: M.S., Ph.D., University of California at Berkeley; B.S, Oregon State University; Professor, Chemical Engineering and Materials Science, Associate Dean, Faculty Affairs

MANNING, MARK: Ph.D., M.S., University of Massachusetts; B.A., Brown University; Assistant Professor, Oncology

MARRERO, KAREN: Ph.D., M.A., M.Phil, Yale University; M.A., B.A., University of Windsor; Associate Professor, History

MANINGANG, MANISH W.: M.S., Ph.D., University of California at Berkeley; B.S, University of California at Berkeley; Professor, Chemical Engineering and Materials Science, Associate Dean, Faculty Affairs
MEISEL, JEROME: Ph.D., B.S.E.E., Case Institute of Technology; M.S.E.E., Massachusetts Institute of Technology; Professor Emeritus, Electrical and Computer Engineering

MEJABI, OLEG: Ph.D., Lehigh University; M.Sc., University of Manchester Institute of Science and Technology; B.Eng, Ahmadu Bello University; Associate Professor, Industrial and Systems Engineering

MELLER, VICTORIA H.: Ph.D., University of North Carolina-Chapel Hill; B.S., Cornell University; Professor and Chair, Biological Sciences

MENALDI, JOSE: M.S., University of Texas-Arlington; B.S., Michigan Tech University; Professor, Mathematics

MENDEZ-KRAMER, VERALUCIA: M.A., B.A., Madonna University; B.S., Wayne State University; Program Director and Assistant Professor (Clinical), Pathologists’ Assistant

MENKULASI, FATMIR: Ph.D., Virginia Tech; Assistant Professor, Civil and Environmental Engineering

MEROLLA, DAVID M.: Ph.D., M.A., B.A., Kent State University; Associate Professor and Chair, Sociology

MESSMAN, ANNE: M.D., George Washington University; B.S., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

MEYER, DAVID B.: Ph.D., B.A., Wayne State University; M.S., University of Michigan; Professor Emeritus, Anatomy and Cell Biology

MICHALOPOULOU, GEORGINA: Ph.D., M.A., Hofstra University; Associate Professor (Clinician-Educator), Psychiatry and Behavioral Neurosciences

MICHALOS, THOMAS: Ph.D., M.A., B.S., Wayne State University; Lecturer, Education, Theoretical and Behavioral Foundations

MICHELS, JAMES: Ph.D., M.A., B.A., University of Michigan; A.A., Mott Community College; Assistant Professor, Italian

MIGDAL, STEPHAN D.: M.D., B.S., Wayne State University; Professor (Clinician-Educator) Emeritus, Internal Medicine

MIKA, JOSEPH J.: Ph.D., M.L.S., B.A., University of Pittsburgh; Professor Emeritus, Information Sciences

MILLER, AMANDA: Ph.D., University of Kansas; M.Ed., Northern Arizona University; B.A., Gustavus Adolphus ; Assistant Professor, Education, Teacher Education

MILLER, ANNA G.: M.A., B.A., Wayne State University; Assistant Professor (Teaching), Education, Teacher Education

MILLER, CAROL J.: Ph.D., M.S., B.S., University of Michigan; Professor, Civil and Environmental Engineering

MILLER, DOUGLAS A.: Pharm.D., Philadelphia College of Pharmacy and Science; B.S., Ohio State University; Professor Emeritus, Pharmacy Practice

MILLER, FRED R.: Ph.D., University of Wisconsin; Professor Emeritus, Pathology, Oncology

MILLER, MARGIE: M.S.N., B.S.N., Wayne State University; Instructor (Clinical), Nursing

MILLER, RUSSELL W.: M.Mus, B.Mus, Wayne State University; Associate Professor, Music, Associate Chair

MILLER, STEVEN R.: M.D., Wayne State University; B.S. Michigan Technological University; Associate Professor (Clinical), Oncology (Radiation Oncology)

MILLIS, SCOTT: M.D., University of Cincinnati; Professor, Physical Medicine and Rehabilitation

MINADEO-RICHARDSON: Ph.D., M.S., University of Wisconsin; A.B., Syracuse University; Professor Emeritus, Classics, Greek and Latin

MINIC, ZELJKA: Ph.D., Wayne State University; B.S., University of Detroit Mercy; Assistant Professor (Research-Educator), Emergency Medicine

MIRANDA-HARTSUFF, TRICIA: Ph.D., M.P.H., University of Michigan; B.A., Trinity University; Associate Professor; Public Health

MITRA, BHEMATI: Ph.D., Cornell University; M.S., Indian Institute of Technology, B.S., Calcutta University; Professor, Biochemistry and Molecular Biology

MITRA, RAHUL: Ph.D., Purdue University; M.A., Bowling Green State University; B.S., University of Calcutta; Associate Professor, Communication

MITRA, SANTANU: Ph.D., Louisiana State University; M.B.A., University of New Hampshire; C.A., Institute of Chartered Accountants of India; B. Com, M.Com., University of Calcutta; Professor, Accounting

MIXON, ANITA J.: Ph.D., University of Illinois, Urbana-Champaign; M.A., University of Alabama; B.A., Columbia College; Assistant Professor, Communication

MIZUKAMI, HIROSHI: Ph.D., University of Illinois; B.A., International Christian University of Tokyo; Professor Emeritus, Biological Sciences

MODI, SACHIN B.: Ph.D., Indiana University; M.S., University of Cincinnati; B.Eng., University of Pune; Professor and Chair, Marketing and Supply Chain Management

MOGK, JOHN E.: J.D., B.B.A., University of Michigan; Diploma of Comparative Law, University of Stockholm; Professor, Law

MOHAMED, RAYMAN: Ph.D., Cornell; M.Sc., University of South Florida; B.Sc., University of Guyana; Professor and Chair, Urban Studies and Planning

MOHAMED, WAZIM: M.B.B.S., Kasturba Medical College; Associate Professor (Clinician-Educator), Neurology

MOHAN, INSIF: Pharm.D., B.H.S., Wayne State University; Associate Professor, Pharmacy Practice

MOHAN, RAMZI M.: M.D., M.Sc., Baghdad University; B.S., Mosul University; Professor, Oncology (Cancer Biology)

MOHANNAD, SAIMA: M.F.A., Parsons School of Design at The New School; B.F.A., Eastern Michigan University; Professor, Art

MOHNEY, GRETCHEN: Ph.D., M.A., Western Michigan University; B.S., Mercyhurst College; Lecturer, Education, Program Director, Athletic Training, Kinesiology, Health and Sport Studies

MOIN, ALI: M.D., B.A., University of California; Clinical Associate Professor, Dermatology

MOIN, KAMAR: Ph.D., University of Montana; M.S., University of Wisconsin; B.S., University of Minnesota; Professor (Research), Pharmacology
MOISI, MARC: M.D., New York School of Medicine; Assistant Professor, Neurological Surgery

MOLDAVANOVA, ALISA V.: Ph.D., M.P.A., University of Kansas; B.A., Odessa National Mechnikov University; Associate Professor, Political Science

MOLDENHAUER, JUDITH A.: M.F.A., University of Wisconsin, Madison; M.A., Stanford University; B.F.A., University of Illinois, Urbana; Professor, Art

MONKS, TERRENCE J.: Ph.D., St. Mary's Hospital Medical School, University of London; B.Sc., Hatfield Polytechnic; Professor, Pharmaceutical Sciences

MONPLAISIR, LESLIE: Ph.D., University of Missouri-Rolla; M.S., University of Birmingham; Professor, Industrial and Systems Engineering, Associate Dean, College of Engineering

MONSELL, EDWIN M.: M.D., University of North Carolina; Ph.D., Duke University; B.A., Williams College; Professor (Clinician-Educator), Otolaryngology

MONTAZER, SHIRIN: Ph.D., M.A., B.A., University of Toronto; Assistant Professor, Neurological Surgery

MOISAVI MOJAB, SEYED ZIAE: Ph.D., M.S., Wayne State University; B.S., Oakland University; Professor (Clinician-Educator), Physical Therapy

MUIR, ANDREW: D.P.T., Wayne State University; Assistant Professor (Clinical), Biomedical Engineering

MUKHOPADHYAY, ASHIS: Ph.D., Kansas State University; B.Sc., B.Sc., Technical University; Associate Professor, Pharmaceutical Sciences

MUNDU, BRIAN: M.S., Wayne State University; B.A., University of Michigan; Associate Professor, Physics

MURTHY, KESAVARADHA: Ph.D., McGill University; M.S., B.S., Bogazici University; Associate Professor, Ophthalmology

MURPHY, KEVIN: Ph.D., Queens College; M.A., B.A., Michigan State University; Professor, Marketing and Supply Chain Management

MURPHY, PATRICK: M.D., New Jersey College of Medicine; B.A., College of Holy Cross; Associate Professor (Clinician-Educator), Ophthalmology

MURPHY, WILLIAM: M.D., American University of the Caribbean; B.S., Wayne State University; Clinical Assistant Professor, Internal Medicine

MUTCHNICK, MILTON G.: M.D., B.S., Wayne State University; Professor, Internal Medicine

MUTCHNICK, MILTON G.: M.D., B.S., Wayne State University; Professor, Internal Medicine

816 University Faculty
MUZIK, OTTO: Ph.D., M.S., Technical University of Vienna, Austria; Professor, Pediatrics, Radiology

MYHR, KAREN L.: Ph.D., B.S., University of Michigan; Assistant Professor (Research), Biological Sciences, Adjunct Assistant Professor, Anatomy and Cell Biology

NA, NAZIRI, GHOULAM-ABBAS: Ph.D., Case Western Reserve University; Lecturer, Electrical and Computer Engineering

NA, NAZRI, CHRISTOPHER: M.A., B.A., Wayne State University; Senior Lecturer, Communication

NA, NAZELLI, CHRISTOPHER: M.A., B.A., Wayne State University; Senior Lecturer, Communication

NA, NAJOR, MICHELE (SHELLY) A.: Ph.D., M.A., B.A., Wayne State University; Senior Lecturer, Communication

NA, NAJOR-DURACK, ANWAR: Ph.D., Ed.S., M.S.W., B.S., Wayne State University; Clinical Assistant Professor, Social Work

NA, NAJICHOWSKI, ADRIAN: Ph.D., M.S., Wayne State University; B.S., Kettering University; Assistant Professor, Oncology

NA, NANDWANA, BINDIYA: M.S., Wayne State University; Assistant Professor (Clinical), Physician Assistant Studies

NA, NANTAIS-SMITH, LEANNE: Ph.D., M.S.N., Wayne State University; M.A., Wayne State University; Assistant Professor, Nursing

NA, NANTWI, KWAKU D.: Ph.D., Wayne State University; M.S., B.S., Eastern Illinois University; Associate Professor, Anatomy and Cell Biology

NA, NARAYANAN, SANDRA: M.D., B.S., University of Miami; Associate Professor (Clinician-Educator), Neurological Surgery, Neurology

NA, NARDOILLO, JOSEPH: Pharm.D., University of Rhode Island; Assistant Professor (Clinical), Pharmacy Practice

NA, NASH, TAMMON A.: M.D., Wayne State University; M.S., University of Michigan; Assistant Professor (Clinician-Educator), Pathology

NA, NASSER, SAM: M.D., Wayne State University; B.S., Michigan State University; Clinical Professor, Orthopaedic Surgery

NA, NATHAN, GEOFFREY S.: Ph.D., M.A., University of Hawaii; B.A., University of Toronto; Professor Emeritus, English

NA, NAUGHTON, THOMAS J.: Ph.D., State University of New York at Buffalo; M.A., Boston College; B.A., Northeastern University; Associate Professor, Management and Information Systems

NA, NAVA, GUANRMINA: M.D., B.A., University of Rochester; Assistant Professor (Clinician-Educator), Surgery

NA, NAWARA, JAMES E.: M.A., University of Illinois - Chicago; B.A., School of the Art Institute of Chicago, Professor Emeritus, Art

NA, NAZELLI, CHRISTOPHER: M.A., B.A., Wayne State University; Senior Lecturer, Mathematics

NA, NAZRI, GHOULAM-ABBAS: Ph.D., Case Western Reserve University; Lecturer, Electrical and Computer Engineering

NE, NEALE, ANN V.: Ph.D., M.A., B.A., Wayne State University; M.P.H., University of Texas; Professor, Family Medicine and Public Health Sciences

NE, NEUMANN, TRACY: Ph.D., New York University; M.A. Cornell University; B.A., University of Michigan; Associate Professor, History

NE, NEVILLE, AMY J.D.: Wayne State University; B.S., Central Michigan University; Lecturer, Law

NE, NEWAZ, GOLAM M.: Ph.D., M.S., University of Illinois at Urbana-Champaign; B.S., Texas A & M University; Professor, Mechanical Engineering, Biomedical Engineering

NE, NEWMAN, ANDREW: Ph.D., City University of New York; B.A., Bard College; Associate Professor, Anthropology

NE, NG, SIMON: Ph.D., M.S., B.S., University of Michigan; Professor, Chemical Engineering and Materials Science, Associate Dean, Research

NE, NGUYEN, HIEN: Ph.D., University of Illinois at Urbana-Champaign; B.S., Tufts University; Professor, Chemistry

NE, NIKOLLA, ERANDA: Ph.D., M.S.E., University of Michigan; B.S., Oakland University; Associate Professor, Chemical Engineering and Materials Science

NE, NIKOLOVA, KRISTINA: Ph.D., University of Toronto; M.S.W., University of Windsor; B.Sc., Western University; Assistant Professor, Social Work

NE, NJUS, DAVID L.: Ph.D., Harvard University; B.S., Massachusetts Institute of Technology; Professor, Biological Sciences

NE, NOEL, SAMANTHA: Ph.D., M.A., Duke University; B.A., Brooklyn College; Associate Professor, Art History

NE, NOKLEBY, MATTHEW: Ph.D., Rice University; M.S.E.E., B.S.E.E., Brigham Young University; Assistant Professor, Electrical and Computer Engineering

NE, NOVAK, JULIE M.: Ph.D., North Dakota State University; M.S., Cornell University; B.S., University of Minnesota; Associate Professor, Communication

NE, NTIRI, DAPHNE: Ph.D., M.A., Michigan State University; B.A., Fourth Bay College, University of Sierra Leone; Professor, African American Studies

O, O'CONNELL, MARY ELIZABETH: Pharm.D., University of Minnesota; B.S., Wayne State University; Professor, Pharmacy Practice

O, O'DONNELL, LISA A.: Ph.D., M.S.W., B.A., University of Michigan; Assistant Professor, Social Work

O, O'LEARY, DONAL S.: Ph.D., University of Texas; B.A., Miami University; Professor, Physiology

O, O'NEIL, BRIAN J.: M.D., B.S., Wayne State University; Associate Professor, Emergency Medicine

O, OFEN, NOA: Ph.D., M.Sc., Weizmann Institute of Science; B.A., University of Haifa; Associate Professor, Psychology

O, OKOH, FRANK: Ph.D., M.S., Queen's University; B.S., Imperial College of Science and Technology; Professor, Mathematics

O, OLMSTED, JENNIFER: Ph.D. Northwestern University; M.A., University of North Carolina; B.A., Bryn Mawr College; Associate Professor, Art History
ONOLEMHEMEN, DURRENDA O.: Ph.D., M.S.S.W., University of Wisconsin, Madison; B.S., Edgewood College; Associate Professor, Social Work

ORASY, MONA: M.D., University of Western Ontario; B.Sc., McMaster University; Clinical Assistant Professor, Obstetrics and Gynecology

ORING, SHERYL A.: M.F.A., University of California - San Diego; B.S., University of Colorado; Professor, Art, Chair, Art and Art History

ORTMAN, WILLIAM: J.D., University of Chicago Law School; B.A., Swarthmore College; Assistant Professor, Law

OSBORN, RICHARD M.: D.B.A., Kent State University; M.B.A., Washington State University; B.A., Indiana University; Professor Emeritus, Management and Information Systems

OSHAGAN, HAYG H.: Ph.D., M.A., University of Wisconsin-Madison; B.A., University of Pennsylvania; Associate Professor, Communication

OSMAN, YAHYA: M.B.B.S., University of Khartoum; Assistant Professor (Clinician-Educator), Internal Medicine

OSTREA, ENRIQUE: M.D., B.S., A.A., University of the Philippines; Professor, Pediatrics

OUELLETTE, DANIEL J.: M.S., Eastern Michigan University; B.S., University of Michigan; Lecturer, Computer Science

OUTLAW, ANGULIQUE: Ph.D., M.A., B.A., Wayne State University; Associate Professor (Research), Family Medicine and Public Health Sciences

OZBEKI, MOHAMMAD ALI E.: Ph.D., Penn State University; M.B.A., University of Detroit Mercy; M.S., University of Michigan; Lecturer, Mechanical Engineering

OZGUN-KOCA, S. ASLI: Ph.D., Ohio State University; M.A., Middle East Technical University; B.A., Hacettepe University; Professor, Education, Teacher Education

PACHECO, OMAR M.: B.S., Wayne State University; Lecturer, Mathematics

PADGETT, DONYALE R.: Ph.D., Howard University; M.A., B.A., Wayne State University; Associate Professor, Communication

PADMANABHAN, KARUR R.: Ph.D., M.Sc., Poona University; Associate Professor, Physics

PAJE, DAVID: M.D., University of the Philippines; Clinical Associate Professor, Internal Medicine

PALAZZOLO, THOMAS J.: M.A., University of Detroit Mercy; Lecturer, Computer Science

PAN, ZHUO-HAN: Ph.D., State University of New York at Buffalo; B.S., University of Science and Technology; Professor, Anatomy and Cell Biology

PANDYA, ABHILASH: Ph.D., Wayne State University; M.S., B.S., University of Michigan; Associate Professor, Electrical and Computer Engineering

PANISCH, LISA S.: Ph.D., University of Texas at Austin; M.S.W., Florida State University; B.A., University of North Florida; Assistant Professor, Social Work

PAPUGA, SHIRLEY: Ph.D., University of Colorado; B.A., Kalamazoo College; Associate Professor, Environmental Sciences and Geology

PARAJULI, PRAHLAD: Ph.D., M.Phil, University of Delhi; M.Sc., University of North Bengal; Assistant Professor, Neurological Surgery

Pardo, Vicky: D.H.S., University of Indianapolis; M.H.S., University of Indianapolis; B.Sc., University of Ottawa; Assistant Professor, Physical Therapy

Park, Joo Won: Ph.D., M.Mus., University of Florida; B.Mus., Berklee College of Music; Assistant Professor, Music

Park, Joonkyu: Ph.D., B.S., Yonsei University, South Korea; Assistant Professor, Pharmacology

Parker, Dennis: Pharm.D., University of Michigan; B.S., Eastern Michigan University; Clinical Associate Professor, Pharmacy Practice

Parker, Graham: Ph.D., B.S., University of St. Andrews; Assistant Professor (Research), Pediatrics

Parnell, Regina: Ph.D., Wayne State University; M.S., Rush University; B.S., Loyola University; Clinical Assistant Professor, Occupational Therapy

Parrish, Charles J.: Ph.D., University of North Carolina; M.A., B.A., University of Florida; Professor, Political Science

Partridge, Robert: Ph.D., M.A., Wichita State University; B.A., Southwestern College; Associate Professor, Psychology

Pasquinelli, Sydney: Ph.D., University of Pittsburgh; M.A., Wake Forest University; B.A., Wayne State University; Lecturer, Communication

Past, Elena: Ph.D., M.A., University of Pennsylvania; B.A., University of Texas at Austin; Associate Professor, Italian

Patel, Pragnesh: M.D., Wayne State University; Assistant Professor (Clinician-Educator), Internal Medicine

Patrick, Stephan: Ph.D., Wright State University; B.S., Urbana University; Professor, Oncology (Cancer Biology)

Patterson, Debra: Ph.D., M.A., Michigan State University; M.S.W., B.A. Wayne State University; Professor, Social Work, Associate Dean of Academic and Faculty Affairs

Paul, Mary: The Joffrey Ballet; Complexions Contemporary Ballet; Lecturer, Dance

Pavka, Evan: M.Arch., McGill University; Assistant Professor, Art

Paxton, James: M.D., M.B.A., University of Cincinnati; B.A., Case Western Reserve University; Clinical Assistant Professor, Emergency Medicine

Paz, Gil: Ph.D., Cornell University; M.S., B.A., Israel Institute of Technology; Assistant Professor, Physics

Pearline, Sarah: M.F.A., Yale University; B.F.A., New York University; Assistant Professor, Theatre

Pearson, Claire: M.D., Central America Health Science University School of Medicine; B.A., B.S., University of Colorado at Denver; Clinical Instructor, Emergency Medicine

Pearson, Frederic S.: Ph.D., M.A., University of Michigan; B.A., Oakland University; Professor, Political Science

Pearson, Virginia L.: Ph.D., M.Ed., Texas Woman’s University; B.S., Texas State College for Women; Associate Professor Emeritus, Education
PEDRONI, THOMAS: Ph.D., M.S., University of Wisconsin at Madison; B.A., Miami University; Associate Professor, Education, Teacher Education

PEDUZZI-NELSON, JEAN: Ph.D., Wayne State University; B.S., University of Michigan; Associate Professor, Anatomy and Cell Biology, Physical Medicine and Rehabilitation - Oakwood

PELLET, PHILIP: Ph.D., University of Chicago; B.S. Ohio University; Professor and Chair, Immunology and Microbiology

PEOPLES-PETERSON, DANITA: M.D., B.A., Wayne State University; Clinical Assistant Professor, Dermatology

PEPIN, MARIE-EVE: D.P.T., MGH Institute of Health Sciences; M.S., Oakland University; B.S., McGill University; Clinical Assistant Professor, Physical Therapy

PERELLI, SHERI: D.M., Case Western Reserve University; M.B.A., University of Chicago; M.A., B.A., University of Michigan; Associate Professor (Teaching), Management and Information Systems

PERNICE, FRANCESCA: Ph.D., Michigan State University; M.S., Eastern Michigan University; B.A., Oakland University; Associate Professor, Education, Theoretical and Behavioral Foundations

PERRINE, SHANE: Ph.D., Kent State University/Ohio State University; B.S., Marshall University; Assistant Professor (Research), Psychiatry and Behavioral Neurosciences

PERRY, TAM E.: Ph.D., M.A., University of Michigan; M.S.S.W., University of Texas, Austin, B.A., Vanderbilt University; Associate Professor, Social Work

PETERS, JEREMY: M.B.A., University of Cambridge; B.A. University of Michigan; Assistant Professor, Music

PETRIELLO, MICHAEL: Ph.D., University of Kentucky; B.S., Muhlenberg College; Assistant Professor, Pharmacology, Institute of Environmental Health Sciences

PETROV, ALEXEY A.: Ph.D., M.S., University of Massachusetts, Amherst; B.S., St. Petersburg Technical University; Professor, Physics

PFLUM, MARY KAY H.: Ph.D., Yale University; B.A., Carleton College; Professor, Chemistry

PHILIP, PHILIP A.: Ph.D., University of London; M.B.Ch.B., University of Baghdad; Professor, Oncology

PHILLIPS, JESSICA: Ph.D, M.S., Wayne State University; B.S., B.A., University of Michigan; Assistant Professor (Clinical), Nurse Anesthesia

PIERER, BARBARA: Ph.D., M.S.N., Wayne State University; B.S.N., Michigan State University; Professor Emerita, Nursing

PIROFESA, JOHN J.: Ed.D., M.Ed., B.Ed., University of Miami; Professor, Education, Theoretical and Behavioral Foundations

PILAT, MARY J. P.: Ph.D., M.S., B.A., Wayne State University; Clinical Assistant Professor, Physician Assistant Studies

PILE, LORI A.: Ph.D., University of Cincinnati; B.Sc., University of Toledo; Associate Professor, Biological Sciences

PILIAWSKY, MONTE: Ph.D., M.A., Tulane University; B.A., University of New Orleans; Senior Lecturer, Education, Theoretical and Behavioral Foundations

PINEAU, RICHARD: M.P.A., G.C.E.D., M.A., B.A., Wayne State University; Senior Lecturer, Mathematics

PIPER-AIKEN, KIMMERLY (KIM) S.: Ph.D., Indiana University; M.A., B.A., Colorado State University; Senior Lecturer, Communication

PIQUE-REGI, ROGER: Ph.D., University of Southern California; Associate Professor, Molecular Genetics and Genomics

PISZCZEK, MATTHEW: Ph.D., M.S., B.S., Michigan State University; Assistant Professor, Management and Information Systems

PITTS, LEONIDAS C.: Ph.D., M.A., University of Chicago; B.A., University of Illinois at Chicago; Senior Lecturer, Classics, Greek and Latin, Associate Chair, Classical and Modern Languages, Literatures, and Cultures

PITTS, DAVID K.: Ph.D., M.S., Wayne State University; B.S., Michigan State University; Associate Professor, Pharmaceutical Sciences

POCIASK, FREDRICK: Ph.D., Wayne State University; M.S., B.S., Oakland University; Associate Professor, Physical Therapy

PODGORSKI, IZABELA: Ph.D., Oakland University; Associate Professor, Pharmacology

POGODZINSKI, BEN: Ph.D., Michigan State University; M.P.P., Georgetown University, B.S., University of Michigan; Associate Professor, Education, Administrative & Organizational Studies

POKORSKI, PHILIP: Ph.D., M.S., B.S., Wayne State University; Assistant Professor - Clinical, Pharmaceutical Sciences

POLIN, LISA A.: Ph.D., Wayne State University; B.S., Michigan State University; Associate Professor (Research), Oncology

PONNAPALLI, AJAY RAMI: Ph.D., Florida International University ; Instructor, Management and Information Systems

POOLE, COLIN F.: Ph.D., Keene University; M.Sc., Bristol University; B.Sc., Leeds University; Professor, Chemistry

POPADIC, ALEKSANDAR: Ph.D., University of Georgia; B.S., University of Belgrade; Professor, Biological Sciences

PORT, ANDREW: Ph.D., A.M., Harvard University; B.A., Yale University; Professor, History

POTHUKUCHI, KAMESHWARI: Ph.D., M.Arch., M.U.P., University of Michigan, B.Arch., University of Bombay; Distinguished Service Professor, Urban Studies and Planning

POTOFF, JEFFREY: Ph.D. Cornell University; B.S. Michigan State University; Professor and Chair, Chemical Engineering and Materials Science

POULIK, JANET M.: M.D., Universite Paul Sabatier, Toulouse, France; Professor, Pathology

POWELL, ISAAC J.: M.D., Indiana University; M.S., Howard University; B.S., University of Michigan; Professor (Clinician-Educator), Urology

POWELL, RONALD R.: Ph.D., University of Illinois; M.S., Western Michigan University; A.B., University of Missouri; Professor Emeritus, Information Sciences

POWERS, EVA M.: M.A., Wayne State University; B.S., University of Michigan; Associate Professor, Dance

PRASAD, ANANDA S.: Ph.D., University of Minnesota; M.B.B.S., B.S., Patna University; Distinguished Professor, Oncology

PRICE, KELLY R.: Ph.D., University of Michigan; B.S., University of Utah; Associate Professor Emeritus, Finance
PRINCE, VALERIE: Ph.D., M.A., University of Michigan; B.A., Hampton University; Associate Professor, African American Studies

PRITCHETT-JOHNSON, BRANDI L.: Ph.D., M.A., Western Michigan University; B.A., Clark Atlanta University Assistant Professor (Clinical), Education, Theoretical and Behavioral Foundations

PROGOVAC, LJILJANA: Ph.D., University of Southern California at Los Angeles; M.A., University of Beograd; B.A., University of Novi Sad; Professor, English

PRUCHNIC, JEFFREY: Ph.D., M.A., Pennsylvania State University; B.A., University of Pittsburgh at Johnstown; Associate Professor, English

PRUNEAU, CLAUDE A.: Ph.D., M.Sc., B.Sc., Universite Laval; Professor, Physics

PRZYZLENK, KARIN: Ph.D., University of Western Ontario; B.S., University of Saskatchewan; Professor, Physiology, Director, Cardiovascular Research Institute

PURRENTON, KRISTEN: Ph.D., M.P.H., M.A., B.S., University of Michigan; Assistant Professor, Oncology (Cancer Biology)

PUSCHECK, ELIZABETH: M.D., Washington University; M.S., University of Chicago; Professor (Clinician-Educator), Obstetrics and Gynecology

PUTATUNDA, SUSIL: Ph.D., Indian Institute of Technology; M.S., University of Mysore; B.S., Institution of Engineers; Professor, Chemical Engineering and Materials Science

PUTSCHKE, JOERN: Ph.D., Technical University of Munich; Dipl, University of Marburg; Associate Professor, Physics

PYLYPCHUK, VALERY: Dr. Sci., Moscow Institute for Problems in Mechanics, Russian Academy of Sciences; Lecturer, Mechanical Engineering

QIN, JULIA YA: LL.M., S.J.D., Harvard University; LL.B., Peking University; Professor, Law

QUINN-GRZEBYK, TAMARA: Ph.D., Wayne State University; M.B.A. Walsh College; M.S. University of Phoenix; Assistant Professor (Teaching), Management and Information Systems

QUINTERO, LUISA: Ph.D., Wayne State University; B.A., University of Michigan; B.A., University of Medellin; Lecturer, Spanish

QURESHI, FAISAL: M.D., King Edward Medical College, Lahore, Pakistan; Professor (Clinician-Educator), Pathology

QURAN, MARILYNN: M.A., B.A., Wayne State University; Professor Emeritus, English

RABANIV, IAN: Ph.D., University of Michigan; B.A., University of Toronto; Assistant Professor (Clinician-Educator), Oncology

RABANIV, NATA: Ph.D., University of Connecticut; M.A., University of Montana; B.A., Pyatigorsk State Linguistic Academy; Associate Professor, English

RACKOWSKI, JOSEPH: Ph.D., Medical College of Ohio; B.S., University of Pittsburgh; Associate Professor (Clinician-Educator), Oncology (Radiation Oncology)

RAM, JEFFREY L.: Ph.D., California Institute of Technology; B.A., University of Pennsylvania; Professor, Physiology

RANNEY, FRANCES: Ph.D., Miami University; M.A., University of Cincinnati; B.A., Wilmington College; Associate Professor Emerita, English

RAPOLLI, MIHAELA: M.D., University of Medicine and Pharmacy Carol Davila; Assistant Professor - Clinical, Surgery

RAPPOLEE, DANIEL: Ph.D., University of California, San Francisco; B.S., University of California, Santa Barbara; Associate Professor, Obstetrics and Gynecology

RAPPORT, LISA J.: Ph.D., M.A., University of California-Los Angeles; B.A. University of Michigan; Professor, Psychology

RASHID, MARILYNN: M.A., B.A., Wayne State University; Lecturer, Spanish

RASPA, RICHARD: Ph.D., M.A., University of Notre Dame; B.S., St. Joseph's College; Professor Emeritus, English

RATANATHARATHORN, VORAVIT: M.D., Ramathibodi Hospital School of Medicine; B.S., Mahidol University; Professor, Oncology

RATLIFF, MARTHA: Ph.D., M.A.T., University of Chicago; B.A. Carleton College; Professor Emerita, English

RATNAM, MANOHAR: Ph.D., Indian Institute of Science; M.S., B.S., University of Mysore; Professor, Oncology (Cancer Biology)

RATNER, HILARY H.: Ph.D., M.S., University of Massachusetts; B.A., Kent State University; Professor Emerita, Psychology

RAY, BRAD: Ph.D., North Carolina State University; M.A., DePaul University Chicago; B.S., Northern Michigan University; Associate Professor, Social Work

RAZ, AYRAHAM: Ph.D., The Weizmann Institute of Science; M.S., B.S., The Ben-Gurion University of the Negev; Professor, Oncology (Cancer Biology), Pathology

RAZ, NAFTALI: Ph.D., University of Texas at Austin; B.A., Hebrew University; Professor, Psychology

RAZ, SARAH: Ph.D., M.A., University of Texas at Austin; B.A., Hebrew University; Associate Professor, Psychology

RAZ, SYED: M.D., McMaster University; M.S., University of Michigan; B.S., University of Toronto; Assistant Professor (Clinician-Educator), Otolaryngology

REDDY, KALADHAR B.: Ph.D., Osmania University; Professor, Pathology

REED, ASHLEY: Ph.D., Kent State University; M.S., University of Kentucky; B.S., Central Michigan University; Lecturer, Education, Kinesiology, Health and Sport Studies

REED, JOHN R.: Ph.D., University of Rochester; B.A., University of Minnesota; Distinguished Professor Emeritus, English
REID, IRVIN D.: Ph.D., M.A., Wharton School of Business, University of Pennsylvania; M.S., B.S., Howard University; Professor Emeritus, Management and Information Systems, President Emeritus

REID, KRISTINA: D.P.T., Wayne State University, M.S., P.T., Oakland University; Assistant Professor, Physical Therapy, Program Director

REINERS, JOHN J.: Ph.D., Purdue University; B.S., University of Minnesota; Professor, Pharmacology, Institute of Environmental Health Sciences

REINHARD, TONIA: M.S., Wayne State University; Lecturer, Nutrition and Food Science

REINSTEIN, ALAN: D.B.A., University of Kentucky; M.B.A., University of Detroit; M.S., B.A., State University of New York; George R. Husband Professor, Accounting

REMIAIS, STEPHEN M.: Ph.D., M.S., Purdue University; B.S., Michigan State University; Assistant Professor, Civil and Environmental Engineering

RESSA, THEODOTO: Ph.D., M.A., Ohio State University; B.Ed. Maseno University-Kenya; Assistant Professor, Education, Teacher Education

RETISH, AARON: Ph.D., M.A., Ohio State University; B.A., University of Wisconsin, Madison; Associate Professor, History

REVANKAR, SANJAY: M.D., University of Illinois, College of Medicine; Professor (Clinician-Educator), Internal Medicine

REYES, MILAGROS P.: M.D., University of the Philippines; Professor Emeritus, Internal Medicine

REY, VIRGINIA: Ph.D., M.A., University of Michigan; M.S.N., Wayne State University; B.S., Boston University; Professor Emeritus, Nursing

RICHARDSON, MARSHA L.: Ph.D., Indiana University; M.A., B.S., University of Oklahoma; Professor, History

RICKL, JEREMY: Ph.D., Virginia Tech; M.S., B.S., Michigan Technological University; Associate Professor, Industrial and Systems Engineering

RICKS-BATES, ANITA: M.F.A., Wayne State University; M.A., Eastern Michigan University; Lecturer and Program Coordinator Visual Art Education, Education, Teacher Education

RIELL, JAMES A.: Ph.D., M.S., Michigan State University; B.S., Calvin College; Professor Emeritus, Physiology

RIORDAN, EDWARD A.: D.B.A., University of Kentucky; M.B.A., University of Missouri; B.A., Michigan State University; Professor Emeritus, Marketing and Supply Chain Management

RISHI, ARUN: Ph.D., M.S., University College of London; Professor, Oncology (Cancer Biology)

RISNER, DOUG S.: Ph.D., M.F.A., B.F.A., University of North Carolina at Greensboro; Professor, Dance

ROBBINS, JESSICA: Ph.D., University of Michigan; B.A., Williams College; Associate Professor, Anthropology

ROBERTS, KATHRYN: Ph.d., Michigan State University; M.S., Indiana University; B.S., Butler University; Associate Professor, Education, Teacher Education

ROBERTS, PETER: M.A., B.S., Michigan State University; Assistant Professor, Education, Kinesiology, Health and Sport Studies

ROBICHAUD, REBECCA: J.D., University of Notre Dame Law School; B.A., Michigan State University, James Madison College; Assistant Professor (Clinical), Law

ROCHE, JOSEPH A.: Ph.D., University of Maryland, Baltimore; B.P.T., Christian Medical College; Assistant Professor, Physical Therapy

RODGERS, MARY T.: Ph.D., California Institute of Technology; B.S., Illinois State University; Professor, Chemistry

ROELOFS, LAURA L.: D.M.A., M.Mus., Catholic University of America; B.Mus., Boston University; Associate Professor Emeritus, Music

ROJAS, GRACIELA: M.D., Northwestern University; B.S., University of Notre Dame; Assistant Professor (Clinician-Educator), Internal Medicine

ROMAN, LOUIS J.: Ph.D., B.A., Rutgers University; Professor Emeritus, Chemistry

RONNICK, MICHELE VALERIE: Ph.D., Boston University; M.A., University of Florida; B.A., University of South Florida; Professor, Classics, Greek and Latin

RORABACHER, DAVID B.: Ph.D., Purdue University; B.S., University of Michigan; Professor Emeritus, Chemistry

ROSS, MELVIN: M.F.A., Tyler School of Art, Temple University; B.F.A., Drake University; Professor, Art, Elaine L. Jacob Endowed Chair

ROSENBERG, DAVID: M.D., B.A., University of Michigan; Professor and Chair, Psychiatry and Behavioral Neurosciences

ROSSI, NOREEN F.: M.D., Yale University School of Medicine; B.S., University of Michigan; Professor, Internal Medicine, Associate Professor, Physiology

ROSSMAN, SOL: Ph.D., M.A., University of Michigan; B.A., Wayne State University; Associate Professor Emeritus, French

ROTH, BRAD R.: Ph.D., University of California at Berkeley; LL.M., Columbia Law School; J.D., Harvard Law School; B.A., Swarthmore College; Professor, Political Science, Law

RUSCH, JOHN A.: J.D., University of Pennsylvania; A.B., Princeton University; Associate Professor, Law
SAAD, ALINE: Pharm.D., Wayne State University; B.S., American University of Beirut; Associate Professor (Clinical), Pharmacy Practice

SAATCHI, SORAYA (LAYLA): Ph.D., M.A., B.A., Wayne State University; Senior Lecturer, Irvin D. Reid Honors College

SADAGURSKI, MARIANNA: Ph.D., B.Sc., Tel Aviv University; Assistant Professor, Biological Sciences

SAED, GHASSAN: M.D., University of Michigan; Ph.D., University of Essex; Associate Professor, Obstetrics and Gynecology

SAIFULLAH, ABUSAYEED: Ph.D., Washington University in St Louis; M.S., University of Windsor; B.S., Bangladesh University of Engineering and Technology; Assistant Professor, Computer Science

SAKAMOTO, TAKESHI: Ph.D., Kanazawa University; B.S., Nihon University; Associate Professor, Physics

SAKER, MAHA: M.A., University of Salford; B.A., Damascus University; Senior Lecturer, Arabic

SAKR, WAEL A.: M.D., University of Damascus; Professor and Chair, Pathology

SALAYMEH, AREEJ: M.S., Jordan University of Science and Technology; B.S., Yarmouk University; Lecturer, Computer Science

SALCH, ANDREW: Ph.D., M.A., University of Rochester; B.S. Portland State University; Associate Professor, Mathematics

SALIMNIA, HOSSEIN: Ph.D., Laval University; Clinical Professor, Pathology

SALINTRI, FRANCINE: Pharm.D., B.H.S, Wayne State University; B.S., B.Ed., University of Windsor; Associate Professor - Clinical, Pharmacy Practice

SALLEY, STEVEN: Ph.D., M.S., B.S., University of Detroit; Professor, Chemical Engineering and Materials Science

SALVO, JAMES: Ph.D., University of Illinois; B.A., Purdue University; Lecturer, Education, Administrative & Organizational Studies

SAMANTRAY, JULIE: M.B.B.S., Siram Chandra Bhana Medical College, Utkal University; Clinical Assistant Professor, Internal Medicine

SAMAVATI, LOBELIA: M.D., University of Cologne; Associate Professor, Internal Medicine

SAMIMI-ABIANEH, OMID: Ph.D., M.S., University of Alabama-Huntsville; Assistant Professor, Mechanical Engineering

SAMUEL, PREETHY : Ph.D., Wayne State University; M.O.T., Loma Linda University; B.O.T., Christian Medical College; Associate Professor, Occupational Therapy Program

SANKAR, ANDREA: Ph.D., M.A., B.A., University of Michigan; Professor, Anthropology

SANO, DAHLIA: M.D., AI-Mustansirya University, School of Medicine; Assistant Professor (Clinical), Oncology

SANTA LUCIA, JOHN: Ph.D., University of Rochester; B.S., Clarkson University; Professor, Chemistry

SARBAUGH-THOMPSON, MARJORIE E.: Ph.D., University of Michigan; M.P.A., B.S., Western Michigan University; Professor, Political Science

SARHAN, NABIL J.: Ph.D., M.S., Pennsylvania State University; B.Sc.E.E., Jordan University of Science and Technology; Associate Professor, Electrical and Computer Engineering

SAVITSKIE, MARK: M.B.A., B.S., Wayne State University; Associate Professor (Teaching), Accounting

SAVOLAINEN, JUKKA: Ph.D., State University of New York, Albany; M.A., B.S., University of Helsinki, Finland; Professor, Criminology and Criminal Justice, Sociology

SAWILOWSKY, SHERMO S.: Ph.D., M.A., University of South Florida; B.ReSt., Rabbinical College of America; Professor, Education, Administrative & Organizational Studies

SAYDAVIN, GHULAM: M.B.B.S., Govt. Medical College; Assistant Professor (Clinician-Educator), Internal Medicine

SCHACTER, HANNAH: Ph.D., University of California, Los Angeles; B.A., Hamilton College; Assistant Professor, Psychology

SCHENK, ALAN S.: LL.M., New York University; LL.B., B.S., University of Illinois; Distinguished Professor, Law

SCHIFFER, CHARLES A.: M.D., New York University; B.A., Brandeis University; Professor, Oncology

SCHILLER, MARTHA: D.P.T., University of St. Augustine; M.S.A., Central Michigan University; B.S. University of Western Ontario; Clinical Assistant Professor, Physical Therapy
SCHINDLER, ROSLYN ABT: Ph.D., M.A., University of Pennsylvania; B.A., Hunter College, City University of New York; Associate Professor Emeritus, German

SCHLEGEL, H. BERNHARD: Ph.D., Queen's University; B.Sc., University of Waterloo; Professor Emeritus, Chemistry

SCHMITT-SANDS, CATHERINE: Ph.D., M.A., B.A., Wayne State University; Assistant Professor (Teaching), Marketing and Supply Chain Management

SCHRADER, JARED: Ph.D., Northwestern University; B.S., Colorado State University; Associate Professor, Biological Sciences

SCHROEDER, KIMBERLY A.: M.L.I.S., Wayne State University; B.S., Michigan State University; Lecturer, Information Sciences

SCHULTZ, SHEREN: M.S., University of Texas at Arlington; B.S., Michigan Technological University; Senior Lecturer, Mathematics

SCHURLKNIGHT, DONALD E.: Ph.D., M.A., University of Pennsylvania; B.A., Duke University; Professor Emeritus, Spanish

SCHUTTE, DEBRA: Ph.D., M.S.N., B.S.N., The University of Iowa; Associate Professor, Nursing

SCHWARTZ, ANN: Ph.D., M.P.H., B.S., University of Michigan; M.S., Wayne State University; Professor, Oncology (Cancer Biology)

SCHWARZ, ALFRED: Ph.D., M.A., Harvard University; B.A., University of Minnesota; Professor Emeritus, English

SCHWIEBERT, LOREN J.: Ph.D., M.S., Ohio State University; B.S., Heidelberg University; Associate Professor and Chair, Computer Science

SCRIVENER, MICHAEL: Ph.D., B.A., State University of New York at Buffalo; M.A., State University of New York at Binghamton; Distinguished Professor Emeritus, English

SEBZDA, ERIC: Ph.D., University of Toronto; Associate Professor, Immunology and Microbiology

SECORD, ELIZABETH: M.D., State University of New York HSC Medical School; B.A., Arizona State University; Professor (Clinician-Educator), Pediatrics

SEDLER, ROBERT A.: J.D., B.A., University of Pittsburgh; Distinguished Professor, Law

SEEGER, MATTHEW: Ph.D., Indiana University; M.A., Northern Illinois University; B.A., University of Evansville; Professor, Communication

SEIKALY, MAY: Ph.D., Oxford University; M.A., University of California, Los Angeles; B.A., Beirut College of Women; Associate Professor Emeritus, Near Eastern and Asian Studies

SELWA, JAMES F.: M.D., M.B.A., B.S., University of Michigan; Assistant Professor (Clinician-Educator), Neurology

SETTLAGE, RACHEL: J.D., M.S.F.S., Georgetown University; B.A., University of California at Berkeley; Associate Professor, Law

SEYMOUR, ERLENE: M.D., Wayne State University; B.S., University of Michigan; Assistant Professor (Clinician-Educator), Oncology

SEYOUNG, JENNIFER: M.D., Addis Ababa University; Associate Professor (Clinician-Educator), Internal Medicine

SHAH, ASHOK: M.D., Municipal Medical College; Assistant Professor (Clinician-Educator), Psychiatry and Behavioral Neurosciences

SHAH, NAUSHEEN: Ph.D., University of Chicago; B.Sc., George Mason University; Assistant Professor, Physics

SHAHIN, GASSAN: M.D., Damascus University; Clinical Assistant Professor, Radiology

SHAIKH, NAVIRED: M.B.B.S., Liaquat Medical College; Clinical Assistant Professor, Internal Medicine

SHARMA, AJIT: Ph.D., B.A., University of Michigan; M.S., National Institute of Industrial Engineering, India; B.Tech., National Institute of Foundry and Forge Technology, India; Assistant Professor, Management and Information Systems

SHAVIRO, STEVEN: Ph.D., M.A., B.A., Yale University; DeRoy Professor, English

SHAW, MELVIN: Ph.D., M.S., Case Institute of Technology; B.S., Brooklyn College; Professor Emeritus, Electrical and Computer Engineering

SHEN, BO: Ph.D., University of Maryland; M.E., Shanghai Institute of Physical Education; B.B., Central China Normal University; Professor, Education, Kinesiology, Health and Sport Studies

SHENG, SHIJIE: Ph.D., B.A., Yale University; M.A., Beijing Foreign Studies University and Temple University; B.A., Yangzhou University; Associate Professor, Political Science

SHERIN, DONALD: M.A., B.S., Wayne State University; Senior Lecturer, Mathematics

SHERWIN, ROBERT: M.D., Wayne State University; Associate Professor (Clinician-Educator), Emergency Medicine

SHI, DONGPING: M.D., Beijing Medical University; Medical Director, Pathologists' Assistant

SHI, WEISONG: Ph.D., Chinese Academy of Sciences; B.E., Xidian University; Professor, Computer Science

SHIELDS, ANTHONY: M.D., Harvard Medical School; Ph.D., B.S., Massachusetts Institute of Technology; Professor, Oncology (Cancer Biology)

SHIELDS, CAROLYN: Ph.D., University of Saskatchewan; M.A., B.A., Queen's University; Professor, Education, Administrative & Organizational Studies

SHIELDS, GARY: M.B.A., Wayne State University; B.B.A., Kent State University; Assistant Professor (Teaching), Management and Information Systems

SHIENER, GERALD A.: M.D., Michigan State University; B.S., Wayne State University; Clinical Assistant Professor, Psychiatry and Behavioral Neurosciences

SHINKI, KAZUHIKO: Ph.D., University of Wisconsin-Madison; M.S., University of Tokyo; B.S., Waseda University; Assistant Professor, Mathematics
SHISHEVA, ASSIA C.: Ph.D., B.S., Sofia University; Professor, Physiology, Molecular Medicine and Genetics

SHREVE, GINA: Ph.D., M.S., University of Michigan; B.S., Michigan State University; Associate Professor, Chemical Engineering and Materials Science

SHUSTER, WILLIAM: Ph.D., Ohio State University; B.S., University of Michigan; Professor and Chair, Civil and Environmental Engineering

SIMON, MICHAEL: M.D., B.S., University of Illinois; M.P.H., University of Michigan; Professor (Clinician-Educator), Oncology

SIMON, VALERIE A.: Ph.D., M.A., University of Denver; M.A., American University; B.A., Loyola University; Professor, Psychology

SIMPSON, THOMAS H.: Ph.D., M.A., Michigan State University; B.A., Butler University; Associate Professor, Communication Sciences and Disorders

SINGH, HARPREET: Ph.D., M.E., University of Roorkee; B.Sc., Punjab University; Professor, Electrical and Computer Engineering

SINGH, LAWAN: Ph.D., Indian Institute of Science; M.Sc., Gujarat University; B.Sc., D M College of Science; Assistant Professor, Anatomy and Cell Biology, Ophthalmology

SINGH, NAMITA: Ph.D., M.E., B.E., University of Rajasthan; Professor Emeritus, Industrial and Systems Engineering

SINGH, TRIOCHAN: Ph.D., M.S., University of California; B.S., Punjab University; Professor Emeritus, Mechanical Engineering

SISK, LORI A.: M.B.A., Bowling Green State University; Assistant Professor, Marketing and Supply Chain Management

SIY, PEPE: Ph.D., University of Akron; M.S.E.E., University of California; B.S.E.E., Mapua Institute of Technology; Professor Emeritus, Electrical and Computer Engineering

SKINNER, OLIVENNE: Ph.D., M.A., University of North Carolina-Chapel Hill; B.A., New York University; Assistant Professor, Psychology

SKLAR, ELIZABETH S.: Ph.D., M.A., University of Pennsylvania; B.A., Swarthmore College; Professor Emerita, English

SKOFF, ROBERT P.: Ph.D., Boston University; B.S., Spring Hill College; Professor, Anatomy and Cell Biology, Ophthalmology

SLOANE, BONNIE F.: Ph.D., Rutgers University; M.A., B.S., Duke University; Distinguished Professor, Pharmacology

SMIELIAUSKAS, FABRICE: Ph.D., Harvard University; M.A., B.A., University of Toronto; Assistant Professor, Economics, Pharmacy Practice

SMITH, BRAD: Ph.D., M.S., University of Cincinnati; B.S., Eastern Michigan University; Professor and Chair, Criminology and Criminal Justice

SMITH, RICHARD: Ph.D., University of California-Berkeley; M.F.A., Western Michigan University; M.S.W., B.A., University of Michigan; Professor, Social Work

SMITHERMAN, LYNN C.: M.D., University of Cincinnati; B.S., McGill University; Assistant Professor (Clinician-Educator), Pediatrics

SMOLENSKI, STEFAN: D.N.P., B.S.N., Wayne State University; Instructor (Clinical), Nursing

SMOLINSKI, KATHRYN M.: J.D., Wayne State University Law School; M.S.W., University of Michigan; B.A., University of Michigan; Assistant Professor (Clinical), Law

SMULLER, MARGARET A.: Ph.D., University of Florida; M.B.A., University of Toronto; B.A., Queen's University; Associate Professor, Finance, Associate Dean, Academic and Financial Affairs

SMYLLIE, LAURA: M.D., Wayne State University; B.S., Michigan State University; B.S., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

SMYTHE, MAUREEN A.: Pharm.D., B.S., Wayne State University; Clinical Professor, Pharmacy Practice

SOBECK, JOANNE L.: Ph.D., Wayne State University; M.S.W., Western Michigan University; B.S.W., Northern Michigan University; Associate Professor and Associate Dean for Research, Social Work, Director, Center for Social Work Practice and Policy Research

SOBEL, JACK D.: M.D., University of Witwatersrand; Professor, Obstetrics and Gynecology, Internal Medicine

SODJA, ANN: Ph.D., University of California; M.S., Ohio State University; A.B., Ursuline College; Associate Professor Emeritus, Biological Sciences

SOKOL, REBECCA: Ph.D., M.S.P.H., University of North Carolina-Chapel Hill; B.S. Central Michigan University; Assistant Professor, Social Work

SOMERS, CHERYL: Ph.D., M.A., Ball State University; B.S., Michigan State University; Professor, Education, Assistant Dean, Theoretical and Behavioral Foundations

SOMERS, TONI M.: Ph.D., M.Ed., B.A., University of Toledo; M.B.A., Bowling Green State University; Professor and Associate Dean, Management and Information Systems

SONDHEIMER, JAMES H.: M.D., Albert Einstein College of Medicine; M.A., City University of New York; Associate Professor (Clinician-Educator), Internal Medicine

SONUJY, TOLULOPE: M.D., M.S., University of Michigan; B.S., University of California - Los Angeles; Assistant Professor (Clinical), Emergency Medicine

SOOD, SANDEEP: M.B.B.S., All India Institute of Medical Sciences; Professor, Neurological Surgery

SOPORY, PRADIP: Ph.D., University of Wisconsin-Madison; M.A., University of Southern California; B.E., University of Kashmir; Associate Professor, Communication

SOSNE, GABRIEL: M.D., Albert Einstein College of Medicine; B.A., Yeshiva College; Assistant Professor, Ophthalmology and Cell Biology

SOSNOWSKY, WILLIAM P.: Ed.D., M.A., B.S., Wayne State University; Professor Emeritus, Education, Administrative & Organizational Studies

SOUBANI, AYMAN: M.B.B.S., University of Jordan; Professor (Clinician-Educator), Internal Medicine

SPALDING, ALBERT D.: J.D., M.B.A., George Washington University; M.A., California State University; M.S., Northcentral University; B.B.A., University of Michigan; Associate Professor Emeritus, Accounting

SPALDING, JOHN W.: Ph.D., M.A., University of Michigan; B.S., Northwestern University; Associate Professor Emeritus, Communication

SPANNAUS, TIMOTHY W.: Ph.D., Wayne State University; M.S., B.S., University of Illinois; Senior Lecturer, Education, Administrative & Organizational Studies
SPEER, ANDREW: Ph.D., B.S., Central Michigan University; Assistant Professor, Psychology
SPENCER, MAVIS: M.S.W., Wayne State University; B.A., University of Detroit; Associate Professor Emeritus, Social Work
SPENCER, MILTON H.: Ph.D., Cornell University; M.A., B.S., New York University; Professor Emeritus, Finance
SPERONE, FELICE G.: M.A., University of Illinois at Chicago; Lecturer, Environmental Sciences and Geology
SPEYER, CECILIA: Ph.D., M.S., Wayne State University; B.S., Oakland University; Assistant Professor, Surgery
SPIELMANN, STEPHANIE B.A.: Ph.D., M.A., University of Toronto; B.A., Wilfrid Laurier University; Associate Professor, Psychology
SPINELLI, DONALD: Ph.D., Ohio State University; M.A., B.A., State University of New York at Buffalo; Professor Emeritus, French
SPRUIT, JESSICA: D.N.P., Case Western University; M.S.N., Rush University; B.S.N., Michigan State University; Clinical Assistant Professor, Nursing
SPURR, STEPHEN J.: Ph.D., University of Chicago; LL.M., New York University; J.D., University of Michigan; A.B., Oberlin College; Professor, Economics
SPYERS-DURAN, PETER: Ed.D., Nova University; M.A., University of Chicago; Professor Emeritus, Information Sciences
SSEMAKULA, MUKASA E.: Ph.D., M.S., B.S., University of Manchester Institute of Science and Technology; Professor, Engineering Technology
STANKOVIC, CURT: M.D., Universidad Iberoamericana; Clinical Assistant Professor, Pediatrics
STANLEY, CHANTA: D.N.P., B.S.N., Wayne State University; Instructor (Clinical), Nursing
STANLEY, JEFFREY: Ph.D., University of Western Ontario; M.S., B.S., University of Waterloo; Professor, Psychiatry and Behavioral Neurosciences
STARZynski, LAURA: Ph.D., M.A., University of Illinois at Chicago; B.A., Southwestern University; Associate Professor of Teaching, Criminology and Criminal Justice
STEINBERG, JOEL D.: M.D., Wayne State University; B.S., University of Michigan; Associate Professor (Clinician-Educator) Emeritus, Internal Medicine
STEINER, CHRISTOPHER: Ph.D., Michigan State University; B.S. University of California-Los Angeles; Associate Professor, Biological Sciences
STEINLE, JENA: Ph.D., University of Kansas Medical Center; B.S., University of Bridgeport; Professor, Anatomy and Cell Biology. Ophthalmology
STEMMER, PAUL M.: Ph.D., Michigan State University; B.S., University of Cincinnati; Associate Professor (Research), Pharmaceutical Sciences
STEMMLER, TIMOTHY L.: Ph.D, University of Michigan; M.S., B.A., St. Louis University; Professor, Pharmaceutical Sciences
STEPHEN, LANIER: Ph.D., University of Tennessee Center for Health Sciences; Professor, Pharmacology, Vice President, Office of the Vice President for Research
STEPHENS, GERALYN: Ed.D., M.Ed., Wayne State University; B.A., Eastern Michigan University; Clinical Associate Professor, Education, Teacher Education
STERN, GUY: Ph.D., M.A., Columbia University; B.A., Hofstra College; Distinguished Professor Emeritus, German
STERN, LOUIS L.: Ph.D., M.B.A., Northwestern University; B.S., Marquette; Associate Professor Emeritus, Marketing and Supply Chain Management
STERN, MYLES: Ph.D., Michigan State University; M.B.A., B.A., University of Michigan; Associate Professor, Accounting
STEVENSON, RONALD J.: Ph.D., B.A., Wayne State University; M.A., Baylor University; Senior Lecturer, Communication
STEWART, BRITTANY: Pharm.D., B.S., Wayne State University; Assistant Professor - Clinical, Pharmacy Practice
STEWART, KIMBERLY: M.A., Wayne State University; B.A., Western Michigan University; Instructor (Clinical), Communication Sciences and Disorders
STEWART, MARYANNE: Ed.D., Walden University; M.B.A., University of Phoenix; B.S., University of Windsor; Assistant Professor (Clinical), Clinical Laboratory Science
STIDD, SEAN C.: Ph.D, M.A., University of Illinois at Urbana-Champaign; B.S., Harvey Mudd College; Senior Lecturer, Philosophy
STILLO, JONATHAN: Ph.D., City University of New York; B.A., Central Connecticut State University; Assistant Professor, Anthropology
STIVALE, CHARLES J.: Ph.D., University of Illinois; M.A., Sorbonne-Paris; B.A., Knox College; Distinguished Professor Emeritus, French
STOCKDILL, JENNIFER L.: Ph.D., California Institute of Technology; B.S., Virginia Polytechnic Institute and State University; Associate Professor, Chemistry
STOLTMAN, JEFFREY J.: Ph.D., Syracuse University; M.A., Western Kentucky University; B.A., Canisius College; Associate Professor, Marketing and Supply Chain Management
STONE, CHAD: M.D., University of Connecticut; B.A., Central Connecticut State University; Clinical Assistant Professor, Pathology
STOYCHEFF, ELIZABETH: Ph.D., M.A., Ohio State University; B.A., University of Iowa; Associate Professor, Communication
STRABBING, JADA: Ph.D., Princeton University; B.A., University of Oxford; B.A., Kenyon College; Associate Professor, Philosophy
STRATE, JOHN: Ph.D., M.A., University of Michigan; B.A., Macalester College; Associate Professor, Political Science
STRAUSS, DAVID J.: Ph.D., The Ohio State University; M.S.Ed., Indiana University; B.A., Bucknell University; Lecturer, Economics
STROZIER, ROBERT M.: Ph.D., M.A., University of Chicago; B.M.E., Georgia Institute of Technology; Professor Emeritus, English
SUGAWA, CHOICHI: M.D., University of Tokyo; Professor, Surgery
SUKARI, AMMAR: M.D., University of Aleppo, Syria; Assistant Professor (Clinician-Educator), Oncology
SUN, JING: Ph.D., University of Pittsburgh; M.S., Peking University; B.A., Beijing Foreign Studies University; Assistant Professor, Management and Information Systems
SUN, SHENGYI: Ph.D., Cornell University; B.S., The University of Hong Kong; Assistant Professor, Molecular Genetics and Genomics

SUNNARAGHAVAN, HARINI: Ph.D., Rutgers, State University of New Jersey; B.S.E., University of Michigan; Associate Professor, Biomedical Engineering

SURBER, SARAH: Ph.D., J.D., West Virginia University; M.S., B.A., Marshall University; Assistant Professor, Public Health

SUSAK, CHRISTOPHER: M.A., Wayne State University; B.A., Baldwin-Wallace University; Associate Professor of Teaching, English

SUJAS, SUSMIT: Ph.D., Jawaharlal Nehru University; Associate Professor, Anatomy and Cell Biology, Ophthalmology

SWERDLOW, PAUL: M.D., Harvard Medical School; B.S., Massachusetts Institute of Technology; Professor, Oncology, Pediatrics

SWIDER, SARAH C.: Ph.D., M.A., University of Wisconsin; Associate Professor of Teaching, English

SYKES, ELIZABETH: M.D., Royal Free Hospital School of Medicine; Clinical Assistant Professor, Pathology

TAHA, WAEL: M.D., Aleppo University, Syria; Clinical Assistant Professor, Internal Medicine

TAINSKY, MICHAEL: Ph.D., Cornell University; Professor, Oncology (Cancer Biology)

TAINSKY, SCOTT: Ph.D., M.A., University of Michigan; B.A., New York University; Professor, Management and Information Systems

TAN, CHIN-AN: Ph.D., B.S., University of California - Berkeley; M.S., California Institute of Technology; Professor, Mechanical Engineering

TANGARI, ANDREA: Ph.D., M.B.A., University of Arkansas; B.S., Indiana University; Associate Professor, Marketing and Supply Chain Management

TARAZA, DINU: Ph.D., B.S., Polytechnic Institute of Bucharest; Professor Emeritus, Mechanical Engineering

TARRAF, WASSIM: Ph.D., M.B.A., Wayne State University; B.S., Lebanese American University; Assistant Professor, Occupational Therapy

TARRAS, SAMANTHA: M.D., Wayne State University; B.S., University of Michigan; Assistant Professor (Clinician-Educator), Surgery

TASCHKA, SYLVIA: Ph.D., M.A., Friedrich-Alexander University, Erlangen; Assistant Professor of Teaching, History

TAUB, JEFFREY W.: M.D., University of Western Ontario; Professor, Pediatrics

TAYLOR, JOHN: Ph.D., M.B.A., B.A., Michigan State University; Associate Professor, Marketing and Supply Chain Management

TAYLOR, KRISTIN T.: Ph.D., North Carolina State University; M.C.P., University of Cincinnati; B.A., Ohio University; Associate Professor, Political Science

TAYLOR, MATT: M.F.A., University of Florida; B.A., Winthrop University; Assistant Professor, Theatre

TEKLEAB, AMANUEL: Ph.D., University of Maryland; B.S., Addis Ababa University; Professor, Management and Information Systems

TEMPLIN, THOMAS: Ph.D., M.A., B.A., Wayne State University; Professor (Research), Nursing

TENNENBERG, STEVEN: M.D., Cornell University; B.A., Yeshiva College; Professor (Clinician-Educator), Surgery

TESSLER, COREY N.: M.S., B.S., Eastern Michigan University; Lecturer, Computer Science

TEHAKUR, CHIRTA: Ph.D., University of Wurzburg; M.S., B.S., Barkatullah University; Assistant Professor (Research), Pharmaceutical Sciences

THEIS, KEVIN: Ph.D., Michigan State University; B.S., State University of New York; B.A., Le Moyne College; Assistant Professor, Immunology and Microbiology

THEJUT, KRISTIN C.: J.D., Wayne State University; B.A., University of Michigan; Lecturer, Law, Director, Legal Research and Writing

THIPPARTHI, RAGHAVENDAR: Ph.D., University of Hyderabad; Associate Professor, Immunology and Microbiology

THOMAS, JAMES: Ph.D., University of Texas; M.A., Villanova University; B.A., St. Ambrose College; Professor, Theatre

THOMAS, JULE: Ph.D., Wayne State University; M.A., Central Michigan University; B.A., Lake Superior State University; Associate Professor of Teaching, English

THOMAS, ROBERT A.: Ph.D., M.S., Wayne State University; B.S., City University of New York; Lecturer, Biological Sciences

THOMAS, SHIRLEY A.: Ph.D., University of Michigan; M.S.W., University of Denver; B.A., Adams State College; Clinical Assistant Professor, Social Work

THOMAS, TRICIA: PhD, MSN, BSN, Walden University, University of Michigan; Associate Professor, Nursing

THOMPSON, HAYLEY: Ph.D., M.S., University of Pittsburgh; B.A., Colgate University; Associate Professor, Oncology

THOMPSON, THOMAS L.: Ph.D., M.A., University of Texas, Arlington; B.J., University of Texas, Austin; Professor, Political Science, Director, Center for Urban Studies

THUMMEL, RYAN: Ph.D., University of Kansas Medical Center; B.A., University of Notre Dame; Assistant Professor, Anatomy and Cell Biology

TIBBS, MILLIE: M.F.A., Rhode Island School of Design; B.A., Vassar University; Associate Professor, Art

TINI, DENNIS: M.A., B.A., Wayne State University; Distinguished Professor Emeritus, Music

TISDALE, ELLEN: Ph.D., Case Western Reserve University; M.S., Clemson University; Associate Professor, Pharmacology

TIURA, ANGELA: Ph.D., M.A., B.A., Wayne State University; Associate Professor, Family Medicine and Public Health Sciences

TODI, SOKOL: Ph.D., University of Iowa; Professor and Chair, Pharmacology, Professor, Neurology

TOMCO, DAJENA: Ph.D., B.S., Wayne State University; Senior Lecturer, Chemistry

TOMSAK, ROBERT: M.D., Ph.D, Case Western Reserve; Professor (Clinician-Educator), Ophthalmology, Neurology
TONG, STEPHANIE T.: Ph.D., M.A., Michigan State University; B.A., University of California-Davis; Associate Professor, Communication

TORABI, KOROSH: Ph.D., Purdue University; M.S., Illinois Institute of Technology; M.S., Sharif University of Technology; B.S., University of Istahan; Assistant Professor, Chemical Engineering and Materials Science

TORO, PAUL A.: Ph.D., M.A., University of Rochester; B.A., State University of New York at New Paltz; Professor, Psychology

TOROK, JOSEPH: M.A., B.A., Eastern Michigan University; Associate Professor of Teaching, English

TOSCANO, FRANCESCA: Ph.D., M.A., Boston College; Master in Economics and Finance; XV edition, University of Naples Federico II; M.Sc., B.A., University of Salerno; Assistant Professor, Finance

TOUMA, RABIH: M.D., Lebanese University Faculty of Medical Sciences; Clinical Associate Professor, Internal Medicine

TOWNER, ELIZABETH: Ph.D., Eastern Michigan University; M.S., Eastern Michigan University; B.A., George Washington University; Assistant Professor, Family Medicine and Public Health Sciences

TRACEY, MONICA: Ph.D., Ed.S., M.A., Wayne State University; B.S., Central Michigan University; Professor, Education, Administrative & Organizational Studies

TRENTACOSTA, CHRISTOPHER: Ph.D., M.A., University of Delaware; B.A., Loyola College; Associate Professor, Psychology

TREPANIER, ANGELA M.: M.S., University of Minnesota; B.S., University of Michigan; Professor, Molecular Genetics and Genomics

TREW, JAYANT SINGH: Ph.D., M.B.A., Wayne State University; B.E., Madras University; Lecturer, Industrial and Systems Engineering

TRIMBLE, THOMAS: Ph.D., M.A., B.A., Wayne State University; Associate Professor of Teaching, English

TRIMBINI, SARAH: Doktor der Naturwissenschaften, Max-Planck-Institute for Polymer Research, University of Mainz; Vor-Diplom, Diplom, University of Konstanz; Professor, Chemistry

TROFFKIN, ERIC: M.F.A., Cranbrook Academy of Art; B.A. Amherst College; Associate Professor, Art

TRUJILLO-PAGAN, NICOLE: Ph.D., University of Michigan; B.A., Emmanuel College; Associate Professor, Sociology, Participating Faculty, Latino/a and Latin American Studies

TRUSKINOVSKY, YULYA: Ph.D., Duke University; M.A., Tufts University; B.A., University of Minnesota; Assistant Professor, Economics

TSE, HARLEY Y.: Ph.D., University of California at San Diego; M.B.A., Rutgers University; B.S., California Institute of Technology; Professor, Immunology and Microbiology, Associate Professor, Neurology

TSENG, YAN YUAN: Ph.D., University of Illinois at Chicago; B.S., National Yang-Ming University; Associate Professor, Molecular Genetics and Genomics

TSILIMINGRAS, DENNIS: M.D., Wayne State University; M.P.H., Boston University; B.A., Wayne State University; Associate Professor (Research Educator), Family Medicine and Public Health Sciences

TSOU, WEI-LING: Ph.D., National Yang Ming University; M.S., B.S., Taipei Medical University; Assistant Professor (Research), Pharmacology

TUCKER, JAMES D.: Ph.D., Oregon Health Sciences University; B.S., University of California-Davis; Professor Emeritus, Biological Sciences

TUOHEY, TERENSE: Ph.D., Kent State University; M.Mus., Eastman School of Music; B.Mus., Marywood College; Associate Professor Emeritus, Music

TURCHYN, NATALIYA: Ph.D., B.S., Wayne State University; Senior Lecturer, Biological Sciences

TURLO, GERALD E.: M.D., B.A., Wayne State University; Assistant Professor (Clinician-Educator), Internal Medicine

TURSKI, CHERYL: M.F.A., American Repertory Theatre/Moscow Art Theatre School/Harvard University; B.A., University of Notre Dame; Assistant Professor, Theatre

TUTAG-LEHR, VICTORIA: Pharm.D., Wayne State University; B.S., Ferris State University; Professor - Clinical, Pharmacy Practice

TWINER, MICHAEL: M.D.; Assistant Professor (Clinical Scholar), Emergency Medicine

TYBURSKI, JAMES: M.D., B.S., State University of New York; Professor (Clinician-Educator), Surgery

TYSH, CHRIS: M.A., B.A., Sorbonne; Associate Professor of Teaching, English

UBERTI, JOSEPH P.: M.D., Ph.D., B.S., Wayne State University; Professor, Oncology

ULMER, JASMINE: Ph.D., M.Ed., B.A., University of Florida; Assistant Professor, Education, Administrative & Organizational Studies

UMIRBAEV, UALBAI: Ph.D., D.Sc., Sobolev Institute of Mathematics; M.S., Novosibirsk State University; Professor, Mathematics

VAIDYA, RAHUL: M.D., McGill University; B.Sc., Dalhousie University; Assistant Professor, Neurosurgery

VAISHAMPAYAN, NITIN: M.D., Wayne State University; B.A., Kalamazoo College; Assistant Professor (Clinician-Educator), Oncology (Radiation Oncology)

VAISHAMPAYAN, ULKA N.: M.B.B.S., Byramjee Jeejeebhoy Medical School; Professor (Clinician-Educator), Oncology

VANBERKUM, MARK: Ph.D., Baylor College of Medicine; M.Sc., B.Sc., University of Toronto; Professor, Biological Sciences

VANBURKUM, SANDRA: Ph.D., M.A., University of Minnesota; B.A., Hamline University; Professor, History

VANDER WEG, JOHN D.: Ph.D., M.Mus, B.Mus, University of Michigan; Professor Emeritus, Music

VARTY, NICOLE: Ph.D., Wayne State University; M.A., Eastern Michigan University; B.S., Lee University; Associate Professor of Teaching, English

VASIN, ALEXANDER: Ph.D., Kazan Institute of Biochemistry and Biophysics; B.S., Kazan State University; Assistant Professor (Research), Neurology

VASSALLO, MARIO J.: M.A., B.S., Central Michigan University; Lecturer, Education, Kinesiology, Health and Sport Studies
VELILLA, MARC-ANTHONY: M.D., M.S., Wayne State University; B.S., University of Michigan; Assistant Professor (Clinician-Educator); Emergency Medicine

VENKATACHALAM, SARAVANAN: Ph.D., M.S., Texas A&M University; B.E., PSG College of Technology; Associate Professor, Industrial and Systems Engineering

VENKATARAMAN, PREETI: M.D., Northeastern Ohio University College of Medicine; B.S., Youngstown State University; Clinical Assistant Professor, Pediatrics

VERANI, CLAUDIO N.: Ph.D., Max-Planck-Institut für Strahlenchemie und Ruhr-Universität; M.Sc., B.S., Universidade Federal de Santa Catarina; Professor, Chemistry

VERMA, HARISH: Ph.D., M.S., M.B.A, Michigan State University; B. Tech, Indian Institute of Technology; Associate Professor Emeritus, Marketing and Supply Chain Management

VERNIER, RICHARD: Ph.D., B.A., University of California, Berkeley; Professor Emeritus, French

VEVE, MICHAEL: Pharm.D., Albany College of Pharmacy & Health Sciences; MPH, Wayne State University; Assistant Professor (Clinical), Pharmacy Practice

VICTOR, BRYAN: Ph.D., Wayne State University; M.S.W., University of Michigan â€“ Ann Arbor; B.A., Michigan State University; Assistant Professor, Social Work

VILLASENOR, SALLY: D.N.P., M.S.N., B.S.N., Wayne State University; B.A., Albion College; Assistant Professor (Clinical), Nursing

VINCENTINI, ANDREW: M.Ed., B.S., Wayne State University; Lecturer, Mathematics

VINEBERG, SUSAN N.: Ph.D., B.A., University of California, Berkeley; Associate Professor, Philosophy

VIOLA, NERISSA T.: Ph.D., Syracuse University; B.S., University of Philippines; Associate Professor, Oncology (Cancer Biology)

VISGER, JOAN: M.S.N., University of Phoenix; B.S., Wayne State University; Assistant Professor (Clinical), Nursing

VLASOPOLOS, ANCA: Ph.D., M.A., University of Michigan; B.A., Wayne State University; Assistant Professor (Clinical), Nursing

VOHRA, VARUN: Pharm.D.; Assistant Professor (Clinical); Emergency Medicine

VOLOSHIN, SERGEI A.: Ph.D., Dipl, Moscow Engineering Physics Institute; Professor, Physics

VOLZ, WILLIAM H.: J.D., Wayne State University; M.B.A., Harvard University; M.A., University of Michigan; B.A., Michigan State University; Distinguished Service Professor; Accounting, Business Law

VOORHEIS, FRANK L.:; Professor Emeritus, Finance

VROOM, PHYLLIS I.: Ph.D., University of Michigan; M.S.W., B.A., Wayne State University; Associate Professor Emeritus, Social Work; Dean Emeritus

VULTEE, FREDERICK (FRED): Ph.D., M.A., University of Missouri; B.A., University of North Carolina at Chapel Hill; Associate Professor, Communication

VURAL, ALI: Ph.D., Medical University of South Carolina; B.S., Middle East Technical University; Assistant Professor (Research), Pharmacology

W

WADDLES, BRANDON: Ph.D., Florida State University, Tallahassee, M.M., Westminster Choir College of Rider University, B.A., Morehouse College.; Lecturer, Music

WADEHRA, JOGINDRA M.: Ph.D., New York University; M.S., University of Nebraska; M.Sc., B.Sc., University of Delhi; Professor, Physics, Associate Chair

WAGNER, KAY-UWE: Ph.D., University of Halle-Wittenberg; M.Sc., B.S., University of Leipzig; Professor, Oncology

WAGSTER, JOHN D.: Ph.D., M.S., Texas A & M University; B.S., University of Tennessee; Associate Professor Emeritus, Finance

WAINEO, EVA: M.D., Wayne State University; B.A., University of Michigan; Instructor (Clinician-Educator), Psychiatry and Behavioral Neurosciences

WAKADE, ARUN R.: Ph.D., M.S., State University of New York; B.S., University of Bombay; Professor Emeritus, Pharmacology

WALCZYK, MARY L.: D.N.P University of Detroit Mercy; M.S., Wayne State University; B.S., Mercy College of Detroit; Assistant Professor (Clinical), Nurse Anesthesia

WALKER, PAUL: Ph.D., Temple University; B.S., Albright College; Professor, Anatomy and Cell Biology, Associate Professor, Psychiatry and Behavioral Neurosciences

WALKER, TARA: D.N.P., Wayne State University; B.S.N., University of Rochester; Instructor (Clinical), Nursing

WALKER, THOMAS D.: Ph.D., University of Illinois at Urbana-Champaign; M.A., University of Chicago; M.M., Northwestern University; B.M., University of Colorado at Boulder; Associate Dean and Professor, School of Information Sciences

WALKER, THOMAS D.: Ph.D., University of Illinois; M.A., University of Chicago; M.M., Northwestern University; B.M., University of Colorado; Associate Dean and Professor, Information Sciences

WALSTER, DIAN E.: Ph.D., M.Lib., University of Washington; B.A., Central Washington State College; Professor, Information Sciences

WALTER-MCCABE, HEATHER: J.D., Indiana University; M.S.W., Indiana University; B.A., Indiana University; Associate Professor, Social Work; Associate Professor, Law

WALTERS, KENNETH R.: Ph.D., Princeton University; B.A., Bowdoin College; Associate Professor Emeritus, Classics, Greek and Latin

WALZ, DANIEL A.: Ph.D., Wayne State University; M.S., St. Louis University; B.S., St. John Fisher College; Professor, Physiology, Associate Dean, Research and Graduate Programs

WANG, CAISHENG: Ph.D., Montana State University; M.S., B.S., Chongqing University; Associate Professor, Electrical and Computer Engineering

WANG, CHENG: Ph.D., M.A., University of Notre Dame; B.A., Nanjing University; Assistant Professor, Sociology

WANG, GAN: Ph.D., Chinese Academy of Sciences; B.S., Shandong University; Associate Professor, Pharmacology, Institute of Environmental Health Sciences

WANG, JIAN: Ph.D., McGill University; Associate Professor, Pathology
WANG, JIANJUN: Ph.D., B.Sc., Nanjing University; M.S. Beijing Medicinal Chemistry Institute; Professor, Biochemistry and Molecular Biology

WANG, JIE M.: M.D., Ph.D., Sun Yat-Sen University; Assistant Professor, Pharmaceutical Sciences

WANG, LE VI: Ph.D., McGill University; M.E., Shanghai Institute of Mechanical Engineering; Professor, Electrical and Computer Engineering

WANG, PEI-YONG: Ph.D., Courant Institute of Mathematical Sciences, New York University; M.S., Institute of Mathematics, Academia Sinica; B.S., Tsinghua University; Associate Professor, Mathematics

WAREHAM, JENNIFER: Ph.D., M.A., B.A., University of South Florida; Professor, Criminology and Criminal Justice

WARGO-AIKENS, JULIE: Ph.D., M.S., Pennsylvania State University; B.A., Duke University; Associate Professor, Psychiatry and Behavioral Neurosciences

WASHINGTON, OLIVIA: Ph.D., Wayne State University; M.S.N., B.S.N., State University of New York at Buffalo; Associate Professor Emeritus, Nursing

WASSERMAN, RENATA M.: Ph.D., Brandeis University; M.A., Universidade de Sao Paulo; B.A., Ohio University; Professor Emerita, English

WATTEN, BARRETT: Ph.D., B.A., University of California, Berkeley; M.F.A., University of Iowa; Professor, English

WEBSKAYA, D. M.: M.D., Loma Linda University; B.A., Andrews University; Professor, Surgery, Chair

WEBBER, JOHN: M.D., Wayne State University; B.S., University of Michigan; Assistant Professor, Surgery

WEI, WEI-ZEN: Ph.D., Brown University; M.S., State University of New York; B.S., National Taiwan University; Professor, Oncology (Cancer Biology), Immunology and Microbiology

WEIMER, DANIEL F.: M.A., University of Michigan; B.S., Bowling Green State University; Associate Professor (Teaching), Accounting

WEINBERGER, JARRETT: M.D., Wayne State University; Assistant Professor (Clinician-Educator), Internal Medicine

WEINER, KAREN: M.S.W., University of Illinois; B.A., Northern Illinois University; Lecturer, Social Work

WEIR, MARY M. (MARGI): M.F.A., University of California Los Angeles; M.A. New Mexico State University; B.A. Wheaton College; Associate Professor, Art

WEISFELD, GLENN E.: Ph.D., University of Chicago; M.S., Tufts University; B.S., University of Wisconsin; Professor Emeritus, Psychology

WEISZ, ARLENE A.: Ph.D., M.S.W., University of Illinois at Chicago; B.A., University of Michigan; Professor Emerita, Social Work

WELCH, ANITA: Ph.D., University of Kansas; M.S., Pittsburg State University; M.A. University of Connecticut; B.A., University of Missouri-Kansas City; Professor, Education, Teacher Education

WELCH, ROBERT D.: M.D., Wayne State University; B.S., Michigan State University; Associate Professor (Clinician-Educator), Emergency Medicine

WELLMAN, VINCENT A.: J.D., Yale University; B.A., Pomona College; Associate Professor, Law

WESSELLS, ROBERT J.: Ph.D., The Ohio State University; B.S., Miami University; Associate Professor, Physiology

WHALEN, LAUREL L.: Ph.D., M.A., Wayne State University; B.A., Albion College; Lecturer, Education, Kinesiology, Health and Sport Studies

WHITE, JENNELL: M.D., Morehouse School of Medicine; Assistant Professor Research, Pharmacology

WHITE, KATHERINE: LL.M., George Washington University; J.D., University of Washington; B.S.E., Princeton University; Professor, Law

WHITE, MICHAEL: M.D., Wayne State University; B.S., Nazareth College; Assistant Professor (Clinician-Educator), Surgery

WHITMAN, R. DOUGLAS: Ph.D., Brandeis University; M.A., Queen’s University; B.S., Syracuse University; Professor Emeritus, Psychology

WICKARD, MARY: M.S., Central Michigan University; Lecturer, Nutrition and Food Science

WILBURN, JOHN: M.D., Ross University School of Medicine; B.S., University of Michigan; Clinical Assistant Professor, Emergency Medicine

WILBURN, JOSHUA J.: Ph.D., Princeton University; B.A., University of Texas, Austin; Associate Professor, Philosophy

WILHELM, SHEILA: Pharm.D., University of Michigan; Professor - Clinical, Pharmacy Practice

WILKINS, LILLIAN (LEE) C. BLACK: Ph.D., M.A., University of Oregon; B.A., B.J., University of Missouri; Professor Emerita, Communication

WILLIAMS, BARBARA: M.A., Central Michigan University; B.S.N., Mercy College of Detroit; Instructor (Clinical), Nursing

WILLIAMS, DAVID L.: Ph.D., M.A., Wayne State University; B.A., University of Wisconsin; Associate Professor Emeritus, Marketing and Supply Chain Management

WILLIAMS, KIDADA: Ph.D. University of Michigan; M.A., B.S., Central Michigan University; Associate Professor, History

WILLIAMS, RALPH E. II: M.D., Wayne State University; B.S., Oakland University; Clinical Assistant Professor, Family Medicine and Public Health Sciences

WINEMAN, JUDITH: M.S.S.W., Columbia University; B.A., University of Michigan; Senior Lecturer, Social Work

WINER, IRA S.: M.D., Ph.D., University of Michigan; B.S., Boston University; Assistant Professor (Clinical Scholar), Oncology

WINTER, CHARLES H.: Ph.D., University of Minnesota; B.S., Hope College; Professor, Chemistry, Associate Chair

WINTER, STEVEN : J.D., Columbia University; B.A., Yeshiva University; Distinguished Professor, Law

WINTERS, LISA ZE: Ph.D., M.A., B.A., University of California at Berkeley; Associate Professor, English
WINTERS, MARGARET: Ph.D., University of Pennsylvania; M.A., University of California at Riverside; B.A., Brooklyn College; Professor Emeritus, French, Linguistics

WISCHUSEN, MARY A.: Ph.D., M.A., Rutgers University; B.A., Chestnut Hill College; Associate Professor Emerita, Music

WITHEY, JEFFREY: Ph.D., University of Michigan, B.A., Johns Hopkins University; Professor, Immunology and Microbiology, Graduate Director, Biochemistry, Microbiology, And Immunology

WOLF, JOHN: M.F.A., University of Alabama; B.S., Lindenwood University; Professor, Theatre

WOODARD, JOHN L.: Ph.D., Wayne State University; M.A., University of Dayton; A.B. Ripon College; Professor, Psychology

WOODLAND, JOHN: M.F.A., University of Michigan; B.A., Otterbein College; Associate Professor, Theatre

WORMSER, HENRY C.: Ph.D., University of Wisconsin; M.S., B.S., Temple University; Professor Emeritus, Pharmaceutical Sciences

WREN, PATRICIA A.: Ph.D., M.P.H., University of Michigan; M.S., B.A., DePaul University; Professor and Chair, Public Health

WU, CHUNG-TSE: Ph.D., M.S., University of California, Los Angeles; B.S. National Taiwan University; Assistant Professor, Electrical and Computer Engineering

WU, GEN SHENG: Ph.D., Peking Union Medical College; Professor, Oncology (Cancer Biology)

WU, GUOJUN: Ph.D., Fudan University; Associate Professor, Oncology (Cancer Biology)

WU, HAI-YOUNG: Ph.D., City University of New York; B.S., National Chung-Hsing University; Associate Professor, Pharmacology

WU, NANCY: Ph.D., University of Michigan; B.S., University of California - Los Angeles; Senior Lecturer, Chemistry

WU, SEAN-FENG: Ph.D., M.S.M.E., Georgia Institute of Technology; Distinguished Professor, Mechanical Engineering

WU, XIN: Ph.D., M.S., University of Michigan; Associate Professor, Mechanical Engineering

WU, YUNING: Ph.D., M.A., University of Delaware; LL.B., Renmin University; Professor, Criminology and Criminal Justice

XIE, YOUNING: Ph.D., University of Texas Health Science Center at Houston; M.S. University of Saskatchewan; B.S., Jinan University; Associate Professor, Oncology (Cancer Biology)

XU, CHENG-ZHONG: Ph.D., University of Hong Kong; M.S., B.Sc., Nanjing University; Professor, Electrical and Computer Engineering

XU, JINPING: M.D.,M.S., Shandong Medical University; Professor, Family Medicine and Public Health Sciences

XU, LIHAO: Ph.D., California Institute of Technology; M.Sc., B.Sc., Shanghai Jiao Tong University; Associate Professor, Computer Science

XU, SHUNBIN: M.D., Peking Union Medical College; Ph.D., The Johns Hopkins University; Associate Professor, Ophthalmology

XU, SUXUAN (SUE): Ph.D., The University of Georgia; Assistant Professor - Teaching, Nutrition and Food Science

XU, YONG: M.S.,Ph.D., California Institute of Technology; B.Sc., Tsinghua University; Professor, Electrical and Computer Engineering

Y

YAN, TINGTING: Ph.D., Arizona State University; M.S., Fudan University; B.A., Zhongnan University; Professor, Marketing and Supply Chain Management

YANAL, ROBERT J.: Ph.D., M.A., University of Illinois at Chicago; B.A., University of Pittsburgh; Professor Emeritus, Philosophy

YANG, JAY M.D., University of Michigan; B.A., Johns Hopkins University; Assistant Professor (Clinician-Educator), Oncology

YANG, KAI: Ph.D., M.S., University of Michigan; B.S., China Petroleum University; Professor, Industrial and Systems Engineering

YANG, KI-EUN: Ph.D., M.S., Wayne State University; B.S., National Taiwan University; Professor, Biomedical Engineering, Director, Bioengineering Center

YANG, QINGYU: Ph.D., M.S., University of Iowa; B.S. University of Science and Technology of China; Associate Professor, Industrial and Systems Engineering

YANG, ZENG-QUAN: Ph.D., Tokyo Medical and Dental University; M.S., Peking Normal University; Associate Professor, Oncology (Cancer Biology)

YANG, ZHE: Ph.D., Chinese Academy of Sciences; Associate Professor, Biochemistry and Molecular Biology

YAPRAK, ATTILA: Ph.D., Georgia State University; M.B.A., B.S., Indiana University; Professor, Marketing and Supply Chain Management

YAPRAK, ECE: Ph.D., M.S., Wayne State University; B.S., University of Michigan, Dearborn; Professor and Chair, Engineering Technology

YARANDI, HOSSEIN: Ph.D., M.A., Indiana University; B.S., Tehran University; Professor, Nursing

YAREMA, SANDRA L.: Ph.D., Wayne State University; M.S., Lawrence Technological University; B.S., Oakland University; Clinical Associate Professor, Education, Teacher Education

YEH, CHIH-PING: Ph.D., M.S., Texas A & M University; B.S.E.E., Tamkang University; Associate Professor, Engineering Technology

YI, ZHENGPING: Ph.D., M.S., B.S., Nanjing University; Professor, Pharmaceutical Sciences

YILDIRIM, MURAT: Ph.D., M.S., B.S., Georgia Institute of Technology; Assistant Professor, Industrial and Systems Engineering

YILDIZ, HAKAN: Ph.D., M.S., Carnegie Mellon University; B.Sc., Bilkent University; Associate Professor, Marketing and Supply Chain Management

YING, HAO: Ph.D., University of Alabama at Birmingham; M.S., B.S., Donghua University; Professor, Electrical and Computer Engineering

YINGST, DOUGLAS ROY: Ph.D., University of Southern California, Los Angeles; B.A., McPherson College; Associate Professor Emeritus, Physiology
YOO, GEORGE: M.D., B.S., University of Kansas; Professor, Oncology, Otolaryngology

YOO, YOUNG-RO: Ph.D., Cornell University; B.A., Seoul National University; Associate Professor, Economics

YOUNG, GEORGIA: D.N.A.P., Texas Wesleyan University; M.S., University of Detroit Mercy, B.S., Saint Joseph's College of Maine; Assistant Professor (Clinical), Nurse Anesthesia

YOUNG, KELLY M.: Ph.D., Wayne State University; M.A., B.A., Ball State University; Associate Professor, Communication

YU, BEONGCHEON: Ph.D., Brown University; M.A., University of Kansas; B.A., Seoul National University; Professor Emeritus, English

YU, FU-SHIN: Ph.D., Wayne State University; B.S., Wuhan University; Professor, Ophthalmology, Anatomy and Cell Biology

YU, MIN: Ph.D., University of Wisconsin-Madison; M.A., B.A., Beijing Normal University; Associate Professor, Education, Teacher Education

ZACKS, ERIC A.: J.D., Harvard University; B.A., University of Michigan; Associate Professor, Law

ZAJAC, JOSEPH B.: M.F.A., B.F.A., Eastern Michigan University; Professor Emeritus, Art

ZAK, IMAD: M.D., University of Jordan; Clinical Associate Professor, Radiology

ZALMAN, MARVIN: Ph.D., M.A., State University of New York, Albany; J.D., Brooklyn Law School; B.A., Cornell University; Professor, Criminology and Criminal Justice

ZE WINTERS, LISA: Ph.D, M.A., A.B., University of California-Berkeley; Associate Professor, African American Studies

ZHANG, JIATO: Ph.D., Tsinghua University; B.S., Wuhan University; Assistant Professor, Biomedical Engineering

ZHANG, JINSHENG: Ph.D., University of Fribourg; M.S., Wayne State University; M.S., B.S., Hebei Normal University; Professor and Chair, Communication Sciences and Disorders, Professor, Otolaryngology

ZHANG, KE: Ph.D., M.S., Pennsylvania State University; B.A., Nankai University; Professor, Education, Administrative & Organizational Studies

ZHANG, KEZHONG: Ph.D., Fudan University; B.S., Shandong University; Professor, Molecular Genetics and Genomics

ZHANG, LIVING: Ph.D. Wayne State University; M.S. and B.S. Shanghai Jiao Tong University; Associate Professor, Biomedical Engineering

ZHANG, REN: Ph.D., University of Texas Health Science at Houston; Associate Professor, Molecular Genetics and Genomics, Internal Medicine

ZHANG, SHENG: Ph.D., Pennsylvania State University; Ph.D., Chinese Academy of Sciences; M.S., Xian Jiaotong University; B.S., Northwestern University of China; Associate Professor, Mathematics

ZHANG, XIANGMIN: Ph.D., University of Toronto; M.A., B.A., Peking University; Associate Professor, Information Sciences

ZHANG, XIANGMIN: Ph.D., M.S., Chinese Center for Disease Control and Prevention; B.Med., Henan Medical College; Assistant Professor (Research), Pharmaceutical Sciences

ZHAM, XIAOHONG: Ph.D., M.S., University of Texas; B.S., Beijing Normal University; Associate Professor, Oncology (Cancer Biology)

ZHAM, YIFAN: Ph.D., University of Maryland; Associate Professor, Nutrition and Food Science

ZHAM, YONGLI: Ph.D., University of Virginia; M.S., Guangxi University; B.S., Sichuan University; Assistant Professor, Civil and Environmental Engineering

ZHAM, YUNSHUANG: Ph.D., University of California, Los Angeles (UCLA); M.A., B.A., Peking University; Assistant Professor, Chinese

ZHAM, YUXIN: Ph.D., University of Texas at Austin; M.A., Columbia University; Assistant Professor, Management and Information Systems

ZHANG, ZHIBING: M.D., Ph.D., Tongji Medical School, Huazhong University of Science & Technology; Associate Professor, Physiology, Associate Professor, Obstetrics and Gynecology

ZHANG, ZHIMIN: Ph.D., University of Maryland at College Park; M.S., B.S., University of Science and Technology; Professor, Mathematics

ZHAO, YANG: Ph.D., Pennsylvania State University; M.S.E.E., Ohio State University; B.S., Zhejiang University; Professor, Electrical and Computer Engineering

ZHONG, ZICHUN: Ph.D., M.S., University of Texas at Dallas; M.S., B.S., The University of Electronic Science and Technology of China; Assistant Professor, Computer Science

ZHOU, KEQUAN: Ph.D., University of Maryland; Professor, Nutrition and Food Science

ZHOU, SASHA: Ph.D., M.P.H., B.A., University of Michigan; Assistant Professor, Public Health

ZHOU, ZHIXIAN: Ph.D., Florida State University; B.S., Lanzhou University; Associate Professor, Physics

ZHU, DONGXIAO: Ph.D., M.A., University of Michigan; M.A., Eastern Michigan University; M.S., Peking University; B.S., Shandong University; Associate Professor, Computer Science

ZHU, YINGXI E.: Ph.D., University of Illinois at Urbana-Champaign; B.S., Tsinghua University; Professor, Chemical Engineering and Materials Science

ZHU, ZICHUN: Ph.D., M.S., University of Texas; B.S., Wuhann University; Professor, Electrical and Computer Science

ZHU, ZICHU: Ph.D., University of Michigan at College Park; M.S., B.S., University of Science & Technology; Associate Professor, Physiology

ZOMER, MARILYN: F.A., M.A., School of the Art Institute of Chicago; B.A., Purdue University; Associate Professor Emerita, Art

ZIMMERMAN, RICK S.: Ph.D., University of Wisconsin; M.S., University of Wisconsin; B.A., Stanford University; Professor, Nursing

ZIMMICKI, KATHERINE: D.N.P., M.S.N., Wayne State University; B.S.N., Mercy College of Detroit; Assistant Professor (Clinical), Nursing

ZINBERG, EPHRAIM: B.A., Touro University; M.D., State University of New York Downstate; Clinical Professor, Orthopaedic Surgery
ZINGAS, ALKIS P.: M.D., B.S., Wayne State University; Clinical Professor, Radiology

ZONDER, JEFFREY: M.D., Wayne State University; B.A., Duke University; Professor (Clinician-Educator), Oncology

ZOUHIR, ABDERRAHMANE: Ph. D., University of Sidi Mohamed Ben Abdellah; Ph.D., M.A., University of Illinois at Urbana-Champaign; Diplôme d’Études Approfondies (DEA); B.A., University of Moulay Ismail; Associate Professor, Arabic

ZUK, CONOR: D.O., Michigan State University; Clinical Assistant Professor, Radiology

ZULIANI, GIANCARLO: M.D., Wayne State University; B.A., Cornell University; Associate Professor (Clinician-Educator), Otolaryngology

ZUNIGA, ROXANA: Ph.D., M.A., Wayne State University; B.A., Oakland University; Lecturer, Spanish

A list of university librarians and archivists (p. 873) follows the list of faculty.

The list of faculty is updated during the normal bulletin revision process. Requests to update the faculty database must be made using the faculty list amendment forms (http://bulletins.wayne.edu/faculty/update/).

A

ABBEE, ANTONIA: Ph.D., M.A., Northwestern University; B.A., University of Michigan; Professor, Psychology

ABEL, ERNEST L.: Ph.D., M.A., B.A., University of Toronto; Professor Emeritus, Psychology, Obstetrics and Gynecology

ABERLE, BELINDA: M.S.N., University of Michigan; B.S.N., Boston University; Instructor (Clinical), Nursing

ABRAMOWICZ, SARAH: J.D., Ph.D., Columbia University; B.A., Stanford University; Associate Professor, Law

ABRAMS, GARY: M.D., University of Oklahoma; Professor, Ophthalmology

ABRAMS, JUDITH: Ph.D., George Washington University; M.S., Rutgers University; B.A., Michigan State University; Professor, Oncology (Cancer Biology)

ABRAMSON, HANLEY N.: Ph.D., University of Michigan; B.S., Wayne State University; Professor Emeritus, Pharmaceutical Sciences

ABT, JEFFREY: M.F.A., B.F.A., Drake University; Professor Emeritus, Art

ACKERMAN, ROBERT M.: J.D., Harvard University; B.A., Colgate University; Professor, Law

ACKERMAN, SHARON H.: Ph.D., M.S., New York University; B.S., George Washington University; Associate Professor, Biochemistry and Molecular Biology

ADAMO, DIANE: Ph.D., University of Michigan; M.S., Wayne State University; Associate Professor, Physical Therapy

ADDEPALI, ARADHANA: M.B.B.S., Osmania Medical College; Assistant Professor (Clinician-Educator), Internal Medicine

ADDONIZIO, MICHAEL F.: Ph.D., M.A., Michigan State University; M.P.P., University of Michigan; B.A., College of the Holy Cross; Professor, Education, Administrative & Organizational Studies

ADELMAN, MARTIN J.: J.D., M.S., B.A., University of Michigan; Professor Emeritus, Law

AFONSO, LUIS: M.B.B.S., Goa Medical College; Professor (Clinician-Educator), Internal Medicine

AGBAGLAH, G. GILOU: Ph.D., M.S., Universite Pierre et Marie Curie; M.S., B.S., Universite de Lome; Assistant Professor, Mechanical Engineering

AGUIN, TINA: M.D., Wayne State University; B.S., Lake Superior State University; Assistant Professor (Clinician-Educator), Obstetrics and Gynecology

AHMED, ZULFIQAR: M.D., Sindh Medical College; Clinical Assistant Professor, Anesthesiology

AIH, YOUNG-HOON: Ph.D., New York University; B.S., Pohang University Science and Technology; Associate Professor, Chemistry

AIR, ELLEN: M.D., Ph.D., University of Cincinnati; B.A., Northwestern University; Clinical Instructor, Neurosurgery

AJLUNI, VICTOR: M.D., B.S., Wayne State University; Assistant Professor (Clinician-Educator), Psychiatry and Behavioral Neurosciences

AKINS, ROBERT A.: Ph.D., Ohio State University; B.A., Wittenberg University; Professor, Biochemistry and Molecular Biology

AL-HOLOU, WAJD: M.D., University of Michigan; Assistant Professor, Neurological Surgery

AL-KATIB, AYAD: M.D., Mosul Medical College; Professor Emeritus, Internal Medicine

ALAVI, ASIF: M.D., University of Michigan; B.A., University of California; Assistant Professor (Clinician-Educator), Oncology

ALBOUJ, MAHA: Ph.D., M.S.N., Wayne State University; B.S.N., University of Jordan; Assistant Professor, Nursing

ALCEDO, JOY A.: Ph.D., University of Zurich; M.S., Dartmouth University; B.A., College of Saint Rose; Associate Professor, Biological Sciences

ALESH, ISSA: M.D., Damascus University; Assistant Professor (Clinician-Educator), Medicine

ALEXANDER, GAYLORD D.: M.D., B.S., Wayne State University; Associate Professor, Anesthesiology

ALEXANDER, LISA DORIS: Ph.D., Bowling Green State University; M.A., University of California-Los Angeles; B.A., Grinnell College; Professor, African American Studies

ALEXANDER, SHELDON: Ph.D., University of Rochester; B.A., City College of New York; Professor Emeritus, Psychology

ALHASANAT-KHALIL, DALIA: Ph.D., Wayne State University; B.S.N., University of Jordan; Assistant Professor, Nursing

ALI-FEHMI, ROUBA: M.D., Damascus University; Professor (Clinician-Educator), Pathology

ALLEN, J. LLOYD: Ph.D., University of Georgia; M.S.W., Florida International University; Assistant Professor, Social Work
ALLEN, MATHEW: Ph.D., California Institute of Technology; B.S., Purdue University; Professor and Chair, Chemistry

ALMUBARAK, YARA: Ph.D., M.S., B.S., University of Texas at Dallas; Assistant Professor, Mechanical Engineering

ALMUFARREJ, FAISAL: M.B.B.Ch., Royal College of Surgeons in Ireland; Associate Professor (Clinician-Educator), Surgery

ALTINOK, DENIZ: M.D., Hacettepe University; Associate Professor (Clinician-Educator), Radiology

ALVAREZ, ANN ROSEGRANT: Ph.D., M.S.W., M.A., University of Michigan; B.A., Antioch College; Associate Professor Emerita, Social Work

ALWARD, ABDU: M.D., Ross University School of Medicine; B.S., Wayne State University; Clinical Assistant Professor, Internal Medicine

AMENT, ERNEST: Ph.D., M.A., St. Louis University; A.B., John Carroll University; Associate Professor Emeritus, Classics, Greek and Latin

AMIRSAADRI, ALIREZA: M.D., Tehran University; Associate Professor (Clinician-Educator), Psychiatry and Behavioral Neurosciences

ANDERSEN, HANNAH: M.F.A., University of Oregon; B.F.A., Western Washington University; Lecturer, Dance

ANDERSON, GORDON F.: Ph.D., M.S., Wayne State University; B.S., Ferris State University; Professor Emeritus, Pharmacology

ANDERSON, JONATHAN: DM.A., University of North Texas; Mmus, University of North Carolina at Greensboro; B.A., Luther College; Associate Professor, Music

ASHARE, JOANNE: M.S.N., B.S.N., Wayne State University; Instructor (Clinical), Nursing

ASHINGDER, PHYLIS A.: M.A., University of Michigan; B.A., Indiana University; Associate Professor Emerita, Art

ASSAD, HADEEL: M.D., University of Jordan, Faculty of Medicine; Assistant Professor (Clinical), Oncology

AUBERT, DANIELLE: M.F.A., Yale University; B.A., University of Virginia; Associate Professor, Art

AUDRITSH, NICOLE: D.N.P., Wayne State University; B.S.N., Madonna University; Instructor (Clinical), Nursing

AULICINO, MICHAEL: M.D., University of Michigan; Clinical Assistant Professor, Internal Medicine

APOLLO, KAREN K.: M.S.A, Central Michigan University; B.S., Wayne State University; Assistant Professor (Clinical), Clinical Laboratory Science, Program Director

AUSKALIS, DORIOTRO: M.D., University of Rochester; Associate Professor, Obstetrics and Gynecology

AUBERT, DANIELLE: M.F.A., Yale University; B.A., University of Virginia; Associate Professor, Art

AUER, GREGORY: Ph.D., M.S., B.S., Wayne State University; Professor (Research Educator), Surgery

AVERSAY, IVAN: Ph.D., M.S., B.S., University of Michigan; Associate Professor Emeritus, Pathology

AVOYAL, RAYMOND: Ph.D., Stanford University; M.S., California Institute of Technology; B.S., Cornell University; Professor Emeritus, Electrical and Computer Engineering

AVVEY, ANDREW: Ph.D., University of Western Ontario; M.S., B.S., Wayne State University; Associate Professor (Clinical), Obstetrics and Gynecology

AWONUGA, AWONIYI: M.D., University of Ibadan; Associate Professor (Clinician-Educator), Obstetrics and Gynecology

ARKING, ROBERT: Ph.D., Temple University; B.S., Dickinson College; Professor Emeritus, Biological Sciences

ARKIN, D. RANDALL: Ph.D., B.S., Virginia Polytechnic Institute; Professor, Anatomy and Cell Biology, Obstetrics and Gynecology

ARKINS, RAYMOND: Ph.D., University of Texas at Austin; M.S., B.S., Wayne State University; Clinical Assistant Professor, Internal Medicine

ARKOWITZ, JACOB: M.D., University of Pennsylvania; B.S., University of California, San Francisco; Assistant Professor, Surgery

ARKTAN, SUZAN: Ph.D., Oakland University; M.S., Oakland University; Associate Professor (Clinician-Educator), Obstetrics and Gynecology

ARONOV, RIMMA: M.D., New York University School of Medicine; B.S., Elmhurst College; Assistant Professor (Clinician-Educator), Radiology

ARTALEJO, CRISTINA: M.D., Ph.D., Autonoma University; Associate Professor, Pharmacology

ARTIS, JOHNNY: M.D., University of California, San Francisco; Associate Professor, Surgery

ARTY, LUCY: Ph.D., University of California, San Francisco; Assistant Professor, Surgery

ARTUS, JOSEPH D.: Ph.D., University of Windsor; Professor Emeritus, Pathology

ARTINIAN, DAVID J.: Ph.D., M.S., Wayne State University; Associate Professor, Obstetrics and Gynecology

ARTISO, RAYMOND: Ph.D., University of California, San Francisco; Associate Professor, Surgery

ARTURO, IVAN: M.D., University of Pennsylvania; B.S., Wayne State University; Assistant Professor, Surgery

ARTUS, JOSEPH D.: Ph.D., University of Windsor; Professor Emeritus, Pathology

ARYA, POONAM: Ph.D., State University of New York at Buffalo; M.A., M.Ed., B.A., B.Ed., Delhi University; Professor, Education, Teacher Education

ASH, ERIC H.: Ph.D., M.A., Princeton University; B.A., Harvard University; Professor, History

ASHARE, JOANNE: M.S.N., B.S.N., Wayne State University; Instructor (Clinical), Nursing

ASHINGDER, PHYLIS A.: M.A., University of Michigan; B.A., Indiana University; Associate Professor Emerita, Art

ASSAD, HADEEL: M.D., University of Jordan, Faculty of Medicine; Assistant Professor (Clinical), Oncology

AUBERT, DANIELLE: M.F.A., Yale University; B.A., University of Virginia; Associate Professor, Art

AUDRITSH, NICOLE: D.N.P., Wayne State University; B.S.N., Madonna University; Instructor (Clinical), Nursing

AULICINO, MICHAEL: M.D., University of Michigan; Clinical Assistant Professor, Pathology

AUNER, GREGORY: Ph.D., M.S., B.S., Wayne State University; Professor (Research Educator), Surgery

AVERSAY, IVAN: Ph.D., M.S., B.S., Moscow Physical-Technical Institute, Russian Academy of Sciences; Associate Professor, Electrical and Computer Engineering

AWONUGA, AWONIYI: M.D., University of Ibadan; Associate Professor (Clinician-Educator), Obstetrics and Gynecology
AYASH, LOIS J.: M.D., University of Massachusetts Medical School; B.S., Southeastern Massachusetts University; Professor (Clinician-Educator), Oncology

AYOOBI, MOHSEN: Ph.D., Louisiana State; M.Sc. and B.Sc., Isfahan University; Assistant Professor, Engineering Technology

AYORINDE, EMMANUEL: Ph.D., M.S., B.S., University of Nottingham; Associate Professor, Mechanical Engineering

AZMI, ASAF SOHAIL: Ph.D., M.S., B.S., Aligarh Muslim University; Associate Professor, Oncology (Cancer Biology)

B

BABCOCK, ELSIE: M.A.T., B.A., Wayne State University; Assistant Professor (Teaching), Education, Teacher Education

BACIEWICZ, FRANK A.: M.D., University of Virginia; B.A., Williams College; Professor (Clinician-Educator), Surgery

BADR, SAFawan M.: M.D., Damascus University Medical School; Professor, Internal Medicine

BAGCHI, MIHIR: Ph.D., University of Vermont; M.S., Ranchi University; B.S., Bihar University; Associate Professor, Anatomy and Cell Biology

BAJJALY, STEPHEN T.: Ph.D., State University of New York at Albany; M.B.A., San Diego State University; B.S., St. Lawrence University; Professor, Information Sciences

BAKER, SUZANNE: Ph.D., M.A., Boston University; M.P.H., Wayne State University; B.S., University of Wisconsin-Madison; Assistant Professor (Teaching), Public Health

BAKER, TRACIE: Ph.D., Michigan State University; M.S., R.D., Iowa State University; B.F.A., Massachusetts College of Art; Associate Professor, Nutrition and Food Science

BAKOPoulos, NATALIE: M.F.A., University of Michigan; B.S., Michigan State University; Assistant Professor, English

BALLEJA, KATHERINE: Ed.D., Central Michigan University; M.A., Saginaw Valley State University; B.A., Alma College; Assistant Professor (Teaching), Education, Teacher Education

BAGAMWALLA, SABRINA: J.D., American University Washington College of Law; B.A., Bryn Mawr College; Assistant (Clinical) Professor, Law

BALINT, KATHERINE: D.N.P., Wayne State University; M.S.N., Madonna University; B.S.N., Nazareth College; Assistant Professor (Clinical), Nursing

BALLENTINE, KESS: Ph.D., M.S.W., University of Pittsburgh; M.A., North Carolina State University; B.S., Pennsylvania State University; Assistant Professor, Social Work

BALON, RICHARD: M.D., Charles University; Professor (Clinician-Educator), Psychiatry and Behavioral Neurosciences

BALTES, BORIS: Ph.D., M.A., Northern Illinois University; M.B.A., University of Wisconsin; Professor, Psychology, Associate Provost for Faculty Affairs

BANDYOPADHYAY, SUDENSHA: M.D., Calcutta National Medical College; Associate Professor (Clinician-Educator), Pathology

BANNON, MICHAEL: Ph.D., M.Phil., Yale University; M.S., University of Louisville; B.A., Lewis University; Professor, Pharmacology, Psychiatry and Behavioral Neurosciences

BARAN, NICHOLAS: Ph.D., B.S., Wayne State University; Lecturer, Mathematics

BARAWI, MOHAMMED: M.D., University of Damascus; Clinical Assistant Professor, Internal Medicine

BARCELONA, JEANNE: Ph.D., University of Texas at Austin; M.A.E., Olivet Nazarene University; B.A., Saint Mary's College; Assistant Professor, Education, Kinesiology, Health and Sport Studies

BARGER, GEOFFREY R.: M.D., Jefferson University; B.A., Villanova University; Associate Professor (Clinician-Educator), Neurology

BARNES, MICHAEL J.: M.F.A., National Theatre Conservatory; B.F.A., University of Oklahoma; Associate Professor, Theatre

BARNETT, DOUGLAS: Ph.D., M.A., University of Rochester; B.A., Boston University; Professor, Psychology

BARRETTE, CATHERINE M.: Ph.D., M.A., University of Arizona; B.A., Michigan State University; Associate Professor, Spanish

BARTELL, LAURA: J.D., Harvard University; B.A., Stanford University; Professor, Law

BARTOI, MARLA: Ph.D., M.A., University of South Florida; B.A., University of Michigan; Associate Professor (Clinical), Psychology

BARTON, ELLEN: Ph.D., M.A., Northwestern University; M.A., DePaul University; B.A., University of Detroit; Professor Emerita, English

BASHA, MAYSA: M.D., B.A., Wayne State University; Associate Professor (Clinician-Educator), Neurology

BASKARAN, MARK: Ph.D., Physical Research Laboratory, India; M.S., M.K. University; B.S., V.H.N.S.N. College; Professor and Chair, Environmental Sciences and Geology

BASU, AMAR: Ph.D., M.S.E, B.S., University of Michigan; Associate Professor, Electrical and Computer Engineering

BATCHU, RAMESH: M.D., India Free Standing University; Associate Professor; Surgery

BATTLEAU, ALLEN W.: Ph.D., M.A., University of Chicago; B.A., Bard College; Professor Emeritus, Anthropology (Emeritus Faculty)

BAYBECK, BRADY P.: Ph.D., M.A., Washington University in St. Louis; B.A., University of Michigan; Associate Professor, Political Science

BAYLOW, ALFRED: M.D., Georgetown University School of Medicine; B.A., Hampton University; Assistant Professor, Surgery

BEALE, LINDA M.: LL.M., New York University; J.D., Ph.D., M.A., Cornell University; B.S., Duke University; Professor, Law

BEARD, JOHN: D.A., B.A., University of Michigan; M.A., Wayne State University; Professor Emeritus, Marketing and Supply Chain Management

BEAUDOUIN, JOAN E.: Ph.D., M.S.L.I.S., Drexel University; M.A., Temple University; B.F.A., Massachusetts College of Art; Associate Professor, Information Sciences

BEAVERS, ALYSSA: Ph.D., Michigan State University; M.S., R.D., Iowa State University; Assistant Professor, Nutrition and Food Science

BEDI, MEL: Ph.D., University of Toledo; Pharm.D., University of Toledo; B.S., University of Toledo; B.S., Indiana State University; Assistant Professor (Research), Pharmaceutical Sciences
BEEBE-DIMMER, JENNIFER L.: Ph.D., M.P.H., University of Michigan; B.A., University of Wisconsin; Professor, Oncology (Cancer Biology)

BEEGHLY, MARJORIE: Ph.D., M.A., University of Colorado, Boulder; B.A., University of California, Santa Cruz; Professor, Psychology

BEHEN, MICHAEL E.: Ph.D., Wayne State University; Assistant Professor (Research), Pediatrics, Neurology

BEKDACHE, BASMA: Ph.D., Boston College; M.A., B.B.A, University of Toledo; Assistant Professor (Teaching), Finance

BELGIANO, NEIL J.: D.O., Philadelphia College of Osteopathic Medicine; B.S., Siena College; Clinical Assistant Professor, Internal Medicine

BELL, BIBA: Ph.D., M.A., New York University; B.A., University of California, Santa Cruz; Assistant Professor, Dance

BELL, CYNTHIA: Ph.D., M.S.N., Indiana University; B.S.N., Indiana Wesleyan University; Associate Professor, Nursing

BELTRAMINI, RICHARD F.: Ph.D., University of Texas - Austin; M.S., B.S. University of Illinois - Urbana Champagne; Professor Emeritus, Marketing and Supply Chain Management

BELZER, MICHAEL H.: Ph.D., M.S., B.A., Cornell University; Associate Professor, Economics

BENINGO, KAREN A.: Ph.D., University of Michigan; B.Sc., Michigan State University; Associate Professor, Biological Sciences

BENJAMINS, JOYCE A.: Ph.D., University of Michigan; B.A., Albion College; Professor Emeritus, Neurology

BENKERT, RAMONA: Ph.D., University of Michigan; M.S.N., Wayne State University; B.S.N., Mercy College of Detroit; Professor, Nursing

BENSON, JOCELYN M.: J.D., Harvard University; MPhil, Oxford University; B.A., Wellesley College; Associate Professor, Law

BEPLER, GEROLD: M.D., Ph.D., Philipps University; Professor, Oncology (Cancer Biology), Chair

BERG, CYNTHIA: Ph.D., M.S., Wayne State University; M.S., University of Wisconsin; Associate Professor, Music, Interim Associate Chair

BERTRAM, SPENCER: M.D., Ross University School of Medicine; Clinical Assistant Professor, Neurosurgery

BERTRAM, SPENCER: M.D., Ross University School of Medicine; Clinical Assistant Professor, Neurosurgery

BERVILL, CREIGS C.: Ph.D., University of Wisconsin; M.S.W., Atlanta University; B.A., Morehouse College; Professor Emeritus, Social Work

BEYDOUN, RAIFIC M.: Damascus University; Associate Professor (Clinician-Educator), Pathology

BHAGWAT, ASHOK S.: Ph.D., Pennsylvania State University; M.S., Indian Institute of Technology; B.A., University of Bombay; Professor, Chemistry

BIALECKI, DOUGLAS: M.B., M.S., University of Illinois; Associate Professor, Music, Interim Associate Chair

BIESCHBACH, RICHARD A.: J.D., University of Michigan Law School; B.A., University of Michigan; Dean and Professor, Law

BILLINGS, B. ANTHONY: Ph.D., Texas A & M University; M.B.A., B.B.A., University of Texas at Austin; Professor, Accounting

BINIENDA, JULIANN: Ph.D., M.A., B.A., Wayne State University; Professor, Family Medicine and Public Health Sciences

BIR, CYNTHIA: Ph.D., M.S., Wayne State University; M.S., University of Michigan; B.S.N., Nazareth College; Professor and Chair, Biomedical Engineering

BISHOR, CARTER R.: M.D., B.S., University of Cincinnati; Professor, Oncology, Internal Medicine

BISWAS, ABHUYIT: Ph.D., University of Houston; M.B.A., University of Central Oklahoma; M.A., B.A., University of Calcutta; Professor and Kmart Endowed Chair, Marketing and Supply Chain Management

BLAND, KEIVA: M.D., B.S., Howard University; Assistant Professor (Clinician-Educator), Surgery

BLASZKIEWICZ, JACEK: Ph.D., Eastman School of Music; Assistant Professor, Music

BLEDSOE, TIMOTHY: Ph.D., University of Nebraska; M.A., University of Arkansas; B.A., Louisiana State University; Professor, Political Science

BLESSMAN, JAMES E.: M.D., Michigan State University; M.P.H., University of Washington; B.S., University of Michigan; Assistant Professor, Family Medicine and Public Health Sciences

BOCK, CATHRYN: Ph.D., M.P.H., University of Michigan; B.A., Wheaton College; Associate Professor, Oncology

BOCKNEK, ERIKA: Ph.D., Michigan State University; M.A., University of Connecticut; B.A., Pennsylvania State University; Assistant Professor, Education, Theoretical and Behavioral Foundations

BOEDER, RUTH: Ph.D., M.L.I.S, M.A., Wayne State University; B.A., Concordia University; Assistant Professor of Teaching, English

BOERNER, JULIE: Ph.D., Mayo Clinic Foundation Graduate School; M.S., B.S., University of Wisconsin; Associate Professor, Oncology (Cancer Biology)

BOGG, TIM: Ph.D., M.A., B.S., University of Illinois, Urbana-Champaign; Associate Professor, Psychology

BOJAB, SYDNEY: M.A., Indiana University, B.A., Miami University; Instructor - Clinical, Communication Sciences and Disorders

BOLLIG-FISCHER, ALICIA: Ph.D., Michigan State University; B.A., B.S., St Cloud State University; Assistant Professor, Oncology (Cancer Biology)
BONAWITZ, ACHIM: Ph.D., Princeton University; M.A., Cornell University; B.A., McMaster University; Associate Professor Emeritus, German

BONVICINI, GIOVANNI: Laurea in Fisica, University of Bologna; Professor, Physics

BOOZA, JASON: Ph.D., M.A., Wayne State University; B.S., University of Detroit; Assistant Professor, Family Medicine and Public Health Sciences

BORLAND, SARAH B.: M.Ed., Wayne State University; B.S., University of Wisconsin; Clinical Assistant Professor and Program Director, Radiologic Technology

BORSCZ, GEORGE S.: Ph.D., Dartmouth College; B.A., Miami University; Associate Professor, Psychology

BOSU, AMIANGSHU S.: Ph.D., M.S., University of Alabama; B.S., Bangladesh University of Engineering and Technology; Assistant Professor, Computer Science

BOUR, JAMES: Ph.D., University of Michigan; B.Sc., Hope College; Assistant Professor, Chemistry

BOUWMAN, DAVID L.: M.D., B.A., Johns Hopkins University; Professor, Surgery

BOWEN, DAVID: Ph.D., University of Pennsylvania; B.A., Haverford College; Associate Professor, Physics

BOWEN, SCOTT E.: Ph.D., M.A., B.A., University of Mississippi; Professor and Chair, Psychology

BOWERS, CASSANDRA: Ph.D., M.A., Wayne State University; B.A., Johnson C. Smith University; Clinical Assistant Professor, Social Work

BOWMAN, TIMOTHY D.: Ph.D., Indiana University; M.I.S., Indiana University; B.S., Indiana State University; Assistant Professor, Information Sciences

BOYD, MELBA: D.A., University of Michigan; M.A., B.A., Western Michigan University; Distinguished Professor, African American Studies

BRANDELL, JERROLD: Ph.D., University of Chicago; M.S.W., University of Wisconsin; B.A., University of Illinois; Distinguished Professor Emeritus, Social Work

BRANSON, J. SCOTT: Ph.D., M.A., B.A., University of Northern Colorado; Assistant Professor, Education, Theoretical and Behavioral Foundations

BRAUN, RODNEY D.: Ph.D., M.S., Northwestern University; B.S., Rose-Hulman Institute of Technology; Associate Professor, Anatomy and Cell Biology

BRAUNSCHWEIG, KARL: Ph.D., M.Mus., University of Michigan; B.A., St. Olaf College; Associate Professor, Music

BRAY, TAMARA L.: Ph.D., M.A., State University of New York; B.A., Beloit College; Professor, Anthropology

BREWSTER, ZACHARY W.: Ph.D., North Carolina State University; M.A., Western Kentucky University; B.S., Grand Valley State University; Associate Professor, Sociology

BRILL, LESLEY: Ph.D., Rutgers University; M.A., State University of New York at Binghamton; B.A., University of Chicago; Professor Emeritus, English

BROCANELLI, MARCO: Ph.D., Ohio State University; M.E., B.E., University of Rome Tor Vergata; Assistant Professor, Computer Science

BROCK, STEPHANIE L.: Ph.D., University of California, Davis; B.S., University of Washington; Professor, Chemistry

BROCKINGTON, FRANCES: M.Mus., Western Michigan University; B.S., Eastern Michigan University; Associate Professor, Music

BROCKMEYER, MONICA: Ph.D., M.S., B.S., University of Michigan; Associate Professor, Computer Science, Associate Provost

BROWER, CHARLES: J.D., University of Virginia; B.A., University of Vermont; Professor, Law

BROWN, JANET M.: M.S., Ohio State University; B.S., Michigan Technological University; Clinical Assistant Professor, Clinical Laboratory Science

BROWN, PATRICIA D.: M.D., Saint Louis University; B.S., University of California, Davis; Professor (Clinician-Educator), Internal Medicine

BROWN, R. KHARI: Ph.D., M.S.W., University of Michigan; B.A., Wayne State University; Associate Professor, Sociology

BROWN, RONALD E.: Ph.D., M.A., University of Michigan; B.S., Southern Illinois University; Associate Professor, Political Science

BROWN, SHANIQUE: Ph.D., DePaul University; M.A., Southern Illinois University; B.Sc., University of the West Indies; Assistant Professor, Psychology

BROWN, SUZANNE: Ph.D., Case Western Reserve University; M.S.W., Smith College; B.A., University of Vermont; Associate Professor, Social Work

BROWNE, KINGSLEY R.: J.D., University of Denver; M.A., University of Colorado; B.A., George Washington University; Professor, Law

BROWNLEE, SARAH J.: Ph.D., University of California, Berkeley; B.A., Princeton University; Associate Professor, Environmental Sciences and Geology

BRUMLEY, KRISTA M.: Ph.D., M.A., M.P.H., Tulane University; B.A., State University of New York at Oswego; Associate Professor, Sociology

BRUMMELTE, SUSANNE: Ph.D., M.A., University of Bielefeld; Associate Professor, Psychology

BRUNER, ROBERT R.: Ph.D., M.S., University of Chicago; B.A., Amherst College; Professor, Mathematics

BRUSATORI, MICHELLE: Ph.D., M.S., B.S., Wayne State University; Associate Professor (Research), Surgery

BRUSH, GEORGE: Ph.D., The Johns Hopkins University; A.B., Princeton University; Associate Professor, Oncology (Cancer Biology)

BRUSILOW, WILLIAM S.: Ph.D., University of Wisconsin; B.A., Princeton University; Professor, Biochemistry and Molecular Biology

BRYANT-FRIEDRICH, AMANDA: Ph.D., Ruprecht-Karls Universität; M.S., Duke University; Professor, Pharmaceutical Sciences, Dean, Graduate School

BRYZIK, WALTER: Ph.D., M.S., B.S., University of Detroit; Professor Emeritus, Mechanical Engineering

BUCCCELLATO, JAMES A.: Ph.D., M.A., Wayne State University; B.A., Oakland University; Senior Lecturer, Irvin D. Reid Honors College

BUCKMAN, MATTHEW: Ph.D., M.A., Wayne State University; B.A., University of Michigan; Lecturer, Mathematics
BUKOWCZYK, JOHN: Ph.D., A.M., Harvard University; B.A., Northwestern University; Professor, History

BURACK, ROBERT: M.D., B.S., University of Michigan; Professor (Clinician-Educator), Internal Medicine, Family Medicine

BURDICK, SCOTT: Ph.D., Massachusetts Institute of Technology; B.S., Purdue University; Assistant Professor, Environmental Sciences and Geology

BURGHARDT, KYLE: Pharm.D., University of Michigan; Assistant Professor, Pharmacy Practice

BURGHARDT, PAUL: Ph.D., M.S., University of South Carolina; Assistant Professor, Nutrition and Food Science

BURKS, SARAH D.: M.S.P., University of Florida; Clinical Coordinator and Assistant Professor (Clinical), Pathologists' Assistant

BURLAKA, VIKTOR: PhD., M.S., University of Michigan; M.S.W., National University Of Kyiv-Mohyla Academy; Ed.S., Kyiv State University of Linguistics; Associate Professor, Social Work

BURMEISTER, JACOB: Ph.D., Wayne State University; M.S., Michigan State University; B.S., Alma College; Professor (Clinician-Educator), Oncology (Radiation Oncology)

BURKHARDT, KYLE: Pharm.D., University of Michigan; Assistant Professor, Pharmacy Practice

BURKS, SARAH D.: M.S.P., University of Florida; Clinical Coordinator and Assistant Professor (Clinical), Pathologists' Assistant

BURLAKA, VIKTOR: PhD., M.S., University of Michigan; M.S.W., National University Of Kyiv-Mohyla Academy; Ed.S., Kyiv State University of Linguistics; Associate Professor, Social Work

BURMEISTER, JACOB: Ph.D., Wayne State University; M.S., Michigan State University; B.S., Alma College; Professor (Clinician-Educator), Oncology (Radiation Oncology)

BURNHAM, WILLIAM: J.D., B.A., B.S., Indiana University; Professor Emeritus, Law

BURNSTEIN, MARK I.: M.D., B.S., University of Michigan; Clinical Assistant Professor, Radiology

BUTLER, ABIGAIL: Ph.D., University of Arizona; M.Mus., Midwestern State University; B.Mus., Keene State College; Associate Professor, Music

BUTLER, JESSICA: D.N.P., B.S.N., University of Detroit-Mercy; M.S.N., B.S., Wayne State University; Instructor (Clinical), Nursing

BUTLER, TIMOTHY: Ph.D., University of South Carolina; M.B.A., B.B.A., University of Memphis; Associate Professor, Marketing and Supply Chain Management

BYKHOVSKAIA, MARIA: Ph.D., Russia Academy of Sciences; M.S., Leningrad Polytechnic University; Professor, Neurology, Anatomy and Cell Biology

C

CACCACE, ANTHONY T.: Ph.D., M.S., Syracuse University; B.S., State University of New York at New Paltz; Professor, Communication Sciences and Disorders

CACKETT, EDWARD M: Ph.D., University of St. Andrews; M.S., University of Durham; Associate Professor, Physics

CACKOWSKI, FRANK C.: Ph.D./M.D. University of Pittsburgh School of Medicine; B.S. Carnegie Mellon University; Associate Professor, Oncology (Cancer Biology)

CADNAPAPHORNCHAI, PRAVIT: M.D., Mahidol University; Associate Professor Emeritus, Internal Medicine

CALA, STEVEN E.: Ph.D., Indiana School of Medicine; M.A., Texas A & M University; B.S., Purdue University; Associate Professor Emeritus, Physiology, Internal Medicine

CALKINS, STEPHEN: J.D., Harvard University; B.A., Yale University; Professor, Law

CAMPBELL, MARGARET: Ph.D., University of Michigan; M.S.N, B.S.N., Wayne State University; Professor (Research), Nursing

CANCELOSI, SUSAN E.: LL.M., University of Houston Law Center; J.D., Cornell University Law School; B.B.A., B.A., Southern Methodist University; Professor, Law

CANELILO, LUCA: Ph.D. and M.Sc., McGill University; A.B., Harvard University; Assistant Professor, Mathematics

CANNON, HUGH M.: Ph.D., M.Phil, M.B.A., New York University; B.A., Brigham Young University; Professor Emeritus, Marketing and Supply Chain Management

CAO, ZHIQIANG: Ph.D., University of Washington; M.Eng., B.Eng., Tianjin University; Associate Professor, Chemical Engineering and Materials Science

CARBONE, JASON T.: Ph.D, Saint Louis University; M.S.W., Washington University in St. Louis; B.S., State University of New York; Plattsburgh; Assistant Professor, Social Work

CARTER, ERIK: Ph.D., University of Arizona; M.Mus., Midwestern State University; Associate Professor (Clinician-Educator), Otolaryngology

CARRON, MICHAEL: M.D., University of Michigan; B.S., Michigan State University; Associate Professor (Clinician-Educator), Otolaryngology

CASEY, ERIN: M.S., University of Colorado Health Sciences Center; Assistant Professor (Clinician-Educator), Molecular Genetics and Genomics

CARROLL, KEVIN: Ph.D., M.A., B.A., Wayne State University; Lecturer, Education, Administrative & Organizational Studies

CARRON, MICHAEL: M.D., University of Michigan; B.S., Michigan State University; Associate Professor (Clinician-Educator), Otolaryngology

CASEY, RITA: Ph.D., University of Texas at Austin; M.A., B.S., University of Texas at Tyler; Associate Professor, Psychology

CASNIELLES, EUGENIA: Ph.D., M.A., University of Massachusetts; M.Ed., University of Liverpool; Licenciatura, University of Oviedo; Associate Professor, Spanish

CANCELOSI, SUSAN E.: LL.M., University of Houston Law Center; J.D., Cornell University Law School; B.B.A., B.A., Southern Methodist University; Professor, Law

CANNON, HUGH M.: Ph.D., M.Phil, M.B.A., New York University; B.A., Brigham Young University; Professor Emeritus, Marketing and Supply Chain Management

CAO, ZHIQIANG: Ph.D., University of Washington; M.Eng., B.Eng., Tianjin University; Associate Professor, Chemical Engineering and Materials Science

CARBONE, JASON T.: Ph.D, Saint Louis University; M.S.W., Washington University in St. Louis; B.S., State University of New York; Plattsburgh; Assistant Professor, Social Work

CARROLL, KEVIN: Ph.D., M.A., B.A., Wayne State University; Lecturer, Education, Administrative & Organizational Studies

CARRON, MICHAEL: M.D., University of Michigan; B.S., Michigan State University; Associate Professor (Clinician-Educator), Otolaryngology

CARTER, ERIK: Ph.D., M.S.N., University of California - San Francisco; B.S.N., University of Phoenix; Assistant Professor (Clinical), Nursing

CASEY, KENNETH: M.D., New Jersey Medical School; B.S., Georgetown University; Clinical Associate Professor, Neurological Surgery

CASEY, RITA: Ph.D., University of Texas at Austin; M.A., B.S., University of Texas at Tyler; Associate Professor, Psychology

CASNIELLES, EUGENIA: Ph.D., M.A., University of Massachusetts; M.Ed., University of Liverpool; Licenciatura, University of Oviedo; Associate Professor, Spanish

CANCELOSI, SUSAN E.: LL.M., University of Houston Law Center; J.D., Cornell University Law School; B.B.A., B.A., Southern Methodist University; Professor, Law

CANNON, HUGH M.: Ph.D., M.Phil, M.B.A., New York University; B.A., Brigham Young University; Professor Emeritus, Marketing and Supply Chain Management

CAO, ZHIQIANG: Ph.D., University of Washington; M.Eng., B.Eng., Tianjin University; Associate Professor, Chemical Engineering and Materials Science

CARBONE, JASON T.: Ph.D, Saint Louis University; M.S.W., Washington University in St. Louis; B.S., State University of New York; Plattsburgh; Assistant Professor, Social Work

CARTER, ERIK: Ph.D., University of Arizona; M.Mus., Midwestern State University; Associate Professor (Clinician-Educator), Otolaryngology

CHA, JIN K.: Ph.D., University of Oxford; B.S., Seoul National University; Professor, Chemistry

CHADWELL, MARGIT C.: M.D., B.A., Wayne State University; Associate Professor, Family Medicine and Public Health Sciences

CHALASANI, VIDYA: M.D., B.S., Andhra University; Clinical Assistant Professor, Family Medicine and Public Health Sciences

CHALHOUB, NABIL: Ph.D., University of Michigan; M.S., Wayne State University; Professor and Chair, Mechanical Engineering

Wayne State University Graduate Bulletin 2022-2023 837
CHAN, ELEANOR: M.D., B.A., University of British Columbia; Clinical Assistant Professor, Otolaryngology

CHANDLER, VINCENT: M.Mus., B.Mus., University of Michigan; Lecturer, Music

CHANDRA, SARITA: Ph.D., University of Florida; M.A., Northeastern University; M.B.A., B.A., Bentley College; Associate Professor, English

CHANDRASEKAR, PRANATHARTHI: M.B.B.S., Christian Medical College; Professor (Clinician-Educator), Internal Medicine

CHARBONNEAU, DEBORAH H.: Ph.D., Wayne State University; M.L.S., B.A., University of Pittsburgh; Associate Professor, Information Sciences

CHARRO, FERNANDO: Ph.D., M.S., and B.S., Universidad Autónoma de Madrid; Associate Professor, Mathematics

CHELMENEV, EDUARD: Ph.D., University of Louisville; B.S., Perm State University; Associate Professor, Chemistry

CHELST, KENNETH R.: Ph.D., Massachusetts Institute of Technology; M.S., New York University School of Engineering and Sciences; B.A., Yeshiva University; Professor, Industrial and Systems Engineering

CHEN, JIMMY CHING-MING: Ph.D., Texas A&M University; M.S., B.S., National Taiwan University; Assistant Professor, Engineering Technology

CHEN, KANG: Ph.D., Cornell University; B.S., National University of Singapore; Assistant Professor, Obstetrics and Gynecology

CHEN, PAI-VEN: Ph.D., University of Texas at Austin; M.S., B.S., National Chiao Tung University; Assistant Professor, Electrical and Computer Engineering

CHEN, WEI: Ph.D., M.S., University of Michigan; M.S., University of Toledo; B.S., Shanghai Jiao Tong University; Associate Professor, Oncology (Cancer Biology)

CHEN, WEN: Ph.D., Simon Fraser University; M.S., Nanyang Technological University; Diploma, Northeastern University; Associate Professor, Engineering Technology

CHEN, XUEQIN: Ph.D., University of Michigan; M.S., B.S., Nankai University; Associate Professor, Physiology

CHEN, YONGSHENG: Ph.D., M.Sc., B.S., Northeastern University, Shenyang; Assistant Professor (Research), Neurology

CHENG, MARK MING-CHENG: Ph.D., B.S., National Tsing-Hua University; Associate Professor, Electrical and Computer Engineering

CHER, MICHAEL L.: M.D., Washington University; B.S., Stanford University; Professor and Chair, Urology

CHERNYAK, VLADIMIR: Ph.D., Russian Academy of Science, Institute of Spectroscopy; M.S., Moscow Physics and Technology Institute; Professor, Chemistry

CHERRY, ALINA: Ph.D., M.A., New York University; B.A., Georgia State University; Associate Professor, French

CHES, SIMONE: Ph.D., M.A., University of California at Santa Barbara; B.A., Smith College; Associate Professor, English

CHESTANG, LEON W.: Ph.D., University of Chicago; M.S.W., Washington University; B.A., Blackburn College; Professor Emeritus, Social Work

CHIKE, KEFENTSE: Ph.D., Michigan State University; M.A., Temple University; B.A., Wayne State University; Lecturer, African American Studies

CHINEA, JORGE L.: Ph.D., University of Minnesota; M.A., B.A., State University of New York at Binghamton; Professor, History, Director, Latino/a and Latin American Studies

CHINNAM, RATNA BABU: Ph.D., M.S., Texas Tech University; B.S., Manipal Institute of Technology; Professor and Chair, Industrial and Systems Engineering

CHINNI, SREENIVASA R.: Ph.D., University of Louisville; M.S., M.Phil., B.S., Sri Venkateswara University; Associate Professor (Research), Urology, Pathology

CHOI, LYDIA: M.D., University of Medicine & Dentistry of New Jersey; B.S., Stanford University; Assistant Professor (Clinician-Educator), Surgery, Oncology

CHOI, ANNE: J.D., University of Michigan Law School; M.U.P., University of Michigan; B.A., Cornell University; Assistant Professor (Clinical), Law

CHOJNACKI, RONETTE: M.H.A., Colorado State University Global; B.S., Oakland University; Assistant Professor, Clinical Laboratory Science

CHOPRA, TEENA: M.B.B.S., Dayanand Medical College; Assistant Professor (Clinician-Educator), Internal Medicine

CHOW, CHRISTINE: Ph.D., California Institute of Technology; M.A., Columbia University; B.A., Bowdoin College; Professor, Chemistry

CHRISOMALIS, STEPHEN: Ph.D., McGill University; B.A., McMaster University; Professor, Anthropology

CHU, XIANG-QIANG: Ph.D., Massachusetts Institute of Technology; M.S., B.S., Peking University; Assistant Professor, Physics

CHUNG, CHARLES S.: Ph.D., B.S., Washington University; Assistant Professor, Physiology

CHUNG, SUNG-GON: Ph.D., Pennsylvania State University; M.B.A., Columbia Business School; B.S.B.A., Yonsei University; Associate Professor, Accounting

CINABRO, DAVID A.: Ph.D., University of Wisconsin-Madison; B.A., University of Chicago; Professor, Physics

CLABO, LAURIE LAUZON: Ph.D., University of Rhode Island; MN, Dalhousie University; B.S.N., University of Windsor; Professor, Nursing, Dean

CLANCY, KRISTA: Ph.D., Wayne State University; M.A., Eastern Michigan University; B.A., Western Michigan University; Lecturer, Education, Theoretical and Behavioral Foundations

CLARKE, ALLANA: M.F.A., Mount Royal School of Art, Maryland Institute College of Art; B.F.A, New Jersey City University; Assistant Professor, Art

COBB, ALFRED L.: Ph.D., University of Cincinnati; M.A., University of Missouri, Columbia; B.A., Berea College; Associate Professor Emeritus, German

COCKERN, SALOME: Ph.D., Howard University; Assistant Professor (Clinician-Educator), Pediatrics

COHN, JONATHAN A.: M.D., B.S., State University of New York; M.S., University of Maryland; Professor (Clinician-Educator), Internal Medicine
COHN, WILLIAM S.: Ph.D., University of Wisconsin; B.A., Oberlin College; Professor, Mathematics

COLEMAN, NICOLE: Ph.D. University of Connecticut; M.A., University of Bonn; Assistant Professor, German

COLLINS, CHRISTOPHER: M.Mus., Northern Illinois University; B.Mus., Wayne State University; Professor, Director of Jazz Studies and Valade Endowed Chair in Jazz, Music

COLOMA, ROLAND: Ph.D., M.A., Ohio State University; M.A., B.A., University of California, Riverside; Professor, Education, Teacher Education

COMARTIN, ERIN: Ph.D. and M.S.W., Wayne State University; B.A., Oakland University; Associate Professor, Social Work

COMMISSARIS, RANDALL L.: Ph.D., Michigan State University; B.S., Alma College; Associate Professor, Pharmaceutical Sciences

CONTI, ALANA: Ph.D., B.S., University of Pennsylvania; Associate Professor, Neurological Surgery

CONTI, GERRY E.: Ph.D., University of Michigan; M.S., Eastern Michigan University; B.S., Indiana University; Assistant Professor Emerita, Occupational Therapy

CONWAY, ROBERT: D.M.A., M.Mus., University of Michigan; B.Mus., New England Conservatory of Music; Associate Professor, Music

COOK, TIFFANY. Ph.D., Mayo Graduate School; B.A., West Virginia University; Associate Professor, Molecular Genetics and Genomics, Ophthalmology

COOPER, LISA: M.D., University of Michigan; B.A., Dartmouth College; Clinical Assistant Professor, Anesthesiology

COOPER-MCCANN, PATRICK: Ph.D., M.U.P, B.A., University of Michigan; Assistant Professor, Urban Studies and Planning

COPENHAGEN, MARY: M.F.A., B.S., Michigan State University; Lecturer, Theatre

CORBATT, JORGE M: Ph.D., University of Pittsburgh; Profesora En Letras, Universidad Nacional Del Sur; Professor Emeritus, Spanish

CORCORAN, GEORGE B.: Ph.D., George Washington University; M.S., Bucknell University; B.A., Ithaca College; Professor, Pharmaceutical Sciences

CORNELL-SALTER, BRUCE: Ph.D., M.A., University at Buffalo; B.S., Aquinas College; Senior Lecturer, Mathematics

CORVINO, JOHAN F.: Ph.D., University of Texas at Austin; B.A., St. John’s University; Dean, Irvin D. Reid Honors College, Professor, Philosophy

COTE, MICHELE: Ph.D., B.A., University of Michigan; M.P.H., University of Alabama; Professor, Oncology (Cancer Biology)

COTTER, KEVIN: Ph.D., University of Minnesota; B.S., Purdue University; Associate Professor and Chair, Economics

COURTNEY, RAS MIKEY: Ph.D., M.A., University of Limerick; B.F.A., University of the Arts (Philadelphia); Assistant Professor, Dance

COVENSKY, EDITH: M.A., Wayne State University; B.A., College of Hebrew Studies; Lecturer, Hebrew

CRAIG, CHARLES: M.D., University of Pittsburgh; B.A., Ohio Wesleyan University; Clinical Professor, Internal Medicine

CRAWFORD, KATHLEEN: Ph.D., M.A., B.A., University of Arizona; Associate Professor, Education, Assistant Dean, Teacher Education

CRETU, NICHOLAS: M.D., Wayne State University; Clinical Assistant Professor, Internal Medicine

CRISMAN, JOHN C.: M.D., Case Western Reserve University; Professor Emeritus, Pathology

CROWLEY, CHRISTOPHER B.: Ph.D., University of Wisconsin-Madison; M.S.Ed., University of Pennsylvania; B.A., St. Lawrence University; Assistant Professor, Education, Teacher Education

CROZIER, MARTIN: Ph.D., University of Windsor; Lecturer, Biological Sciences

CUCKOVICH, CATHERINE: M.B.A., University of Michigan; B.A., University of Notre Dame; Assistant Professor (Teaching), Marketing and Supply Chain Management

CULBERT, KRISTEN: Ph.D., Michigan State University; Assistant Professor, Family Medicine and Public Health Sciences

CUMMINGS, BRIAN: Ph.D., Wayne State University School; B.S., Eastern Michigan University; Professor, Pharmaceutical Sciences, Dean, Eugene Applebaum College of Pharmacy and Health Sciences

CUNNINGHAM, PHILIP R.: Ph.D., Southern Illinois University; B.A., Murray State University; Associate Professor, Biological Sciences

CUTCHIN, MALCOLM P. Ph.D., M.A., University of Kentucky; B.A., University of Texas at Austin; Professor, Occupational Therapy

CUZZORT, LOUAN: M.D., B.S., University of Michigan; Clinical Assistant Professor, Radiology

D

D'ARPA, CHRISTINE: Ph.D., M.S., University of Illinois at Urbana-Champaign; B.A., Northeastern Illinois University; Assistant Professor, Information Sciences

D’MELO, RANJAN: Ph.D., M.B.A., Ohio State University; M.Com., B.Com., Sydenham College; Professor, Finance

DALEY, RHONDA: M.D., Carver College of Medicine; Assistant Professor, Family Medicine and Public Health Sciences

DALKIRAN, EVRIM: Ph.D., Virginia Polytechnic Institute & State University; M.S., B.S., Bogazici University; Associate Professor, Industrial and Systems Engineering

DAMOISEAUX, JESSICA: Ph.D., VU University Amsterdam; M.S., B.S., Utrecht University; Associate Professor, Psychology

DANAGOULIAN, SHOOSHAN: Ph.D., Cornell University; M.S., London School of Economics; M.A., University of Pennsylvania and Cornell University; B.A., Johns Hopkins University; Assistant Professor, Economics

DANIELS, DEREK E.: Ph.D., M.A., Bowling Green State University; B.A., University of Houston; Associate Professor, Communication Sciences and Disorders

DARAMOLA, OLUBUNMI: Ph.D., University of Michigan; M.S.N., Wayne State University; B.N.Sc., University of Ife; Assistant Professor (Clinical), Nursing
DAUGHERTY, ANA: Ph.D., M.A., Wayne State University; B.S., Westmont College; Assistant Professor, Psychology

DAVENPORT, SAMEERAH: Ph.D., M.A., B.S., Wayne State University; Lecturer, Education, Theoretical and Behavioral Foundations

DAVIDSON, ALEXANDER: Ph.D., B.A., Concordia University; Assistant Professor, Marketing and Supply Chain Management

DAVIDSON, KENNETH S.: Ph.D., M.A., University of Michigan; B.A., Yale University; Associate Professor Emeritus, Psychology

DAVIS, CASSANDRA: Ph.D., University of Arkansas; M.B.A., Rockhurst University; B.S., B.A., University of Missouri - Columbia; Assistant Professor, Marketing and Supply Chain Management

DAVIS, NICHOLAS G.: Ph.D., Rockefeller University; B.S., Massachusetts Institute of Technology; Professor, Pharmacology, Surgery

DEBRA, ENNIS: Ph.D., University of Maryland; B.A., University of Michigan; Assistant Professor Emeritus, Law

DAY, KATHRYN M.: J.D., Northwestern University; B.A., University of Michigan; Lecturer, Law

DAYTON, CAROLYN: Ph.D., Michigan State University; M.S.W., University of Michigan; B.A., Kalamazoo College; Associate Professor, Social Work

DE BENEDICTIS, RAFFAELE: Ph.D., University of Toronto; M.A., Wayne State University; B.A., University of Windsor; Assistant Professor, Italian

DEBARDELE, NINA: Ph.D., State University of New York at Buffalo; M.Ed., University of Rochester; B.A., State University of New York; Associate Professor, Education, Teacher Education

DECAMPOS, HUGO: Ph.D., Michigan State University; M.B.A., Arizona State University; M.I.M., Thunderbird School of Global Management; B.S., Brigham Young University; Assistant Professor, Marketing and Supply Chain Management

DEEGAN-KRAUSE, KEVIN: Ph.D., M.A., University of Notre Dame; B.A., Georgetown University; Associate Professor, Political Science

DEGIFIS, VANESSA: Ph.D., M.A., University of Chicago; B.A., University of California, Santa Barbara; Associate Professor, Near Eastern and Asian Studies, Chair, Department of Classical and Modern Languages, Literatures, and Cultures

DEGRACIA, DONALD J.: Ph.D., Wayne State University; B.S., Michigan Technological University; Professor, Physiology

DELANEY-BLACK, VIRGINIA: M.D., Dartmouth Medical School; M.P.H., Harvard University; Professor, Pediatrics, Vice Dean

DELAURA, PAMELA: M.F.A., Temple University; B.F.A., State University of New York at Buffalo; Associate Professor, Art

DENCHEV, KRASSMIR: M.D., Medical University, Sofia; Clinical Assistant Professor, Anesthesiology

DENG, DA: Ph.D., BEng, National University of Singapore; Assistant Professor, Chemical Engineering and Materials Science

DENICOLO, CHRISTINA: Ph.D., University of Colorado; M.A., University of Michigan; B.A., Western Michigan University; Associate Professor, Education, Teacher Education

DEOL, ABHINAV: M.B.B.S., Government Medical College; Associate Professor (Clinician-Educator), Oncology

DEOL, BIBANBANT: M.D., Government Medical College of Amristar; Assistant Professor (Clinician-Educator), General Medicine

DEPAULA, NIC: Ph.D., State University of New York at Albany; M.R.P., State University of New York at Albany; B.A., State University of New York at Albany; Instructor, School of Information Sciences

DEPAULA, NIC: Ph.D., M.R.P., B.A., State University of New York at Albany; Assistant Professor, School of Information Sciences

DEPPE, GUNTER: M.D., Bochum University; B.S., Hann Munden; Professor, Obstetrics and Gynecology

DIAZ, VICKI M.: Ph.D., M.S.N., B.S.N., University of Florida; Associate Professor (Clinician-Educator), Neurosurgical Medicine

DICKSON, JENNIFER: D.P.T., M.P.T., B.S., Oakland University; Clinical Assistant Professor, Physical Therapy

DICKSON, MARCUS W.: Ph.D., M.A., University of Maryland at College Park; B.A., West Virginia Wesleyan College; Professor, Psychology

DIEBEL, LAWRENCE N.: M.D., Wayne State University; B.S., Aquinas College; Professor (Clinician-Educator), Surgery

DILLOF, ANTHONY: M.B.B.S., Columbia University; A.B., Harvard University; Professor, Law

DIMITRIJEVSKI, TRIFUN: M.D., M.S., B.S., Wayne State University; Assistant Professor (Clinician-Educator), Emergency Medicine

DING, YUCHUAN: M.D., Beijing University School of Medicine; Ph.D., Australian National University; M.S., Peking Union Medical College; Professor, Neurosurgical Medicine

DION, JILL: B.A., Wayne State University; Lecturer, Theatre

DITOMMASO, ANDREA: Ph.D., B.A., Johns Hopkins University; Professor Emeritus, Italian

DITRICH, TIMOTHY: Ph.D., University of Colorado - Boulder; M.S. Cornell University; B.S., University of Wisconsin - Madison; Assistant Professor, Civil and Environmental Engineering

DIWADKAR, JYOTNSA: Ph.D., University of Pittsburgh; M.S., Indiana State University; B.S., St. Xavier’s College; Senior Lecturer, Mathematics

DIWADKAR, VAIBHAV: Ph.D., Vanderbilt University; B.A., Coe College; Associate Professor, Psychiatry and Behavioral Neurosciences

DIZAZZO-MILLER, ROSANNA: Ph.D., Nova Southeastern University; M.O.T., Eastern Michigan University; B.A., Adrian College; Associate Professor, Occupational Therapy Program

DJURIC, ANA: Ph.D., M.S., University of Windsor; M.E., B.S., Belgrade University; Assistant Professor, Engineering Technology

DOLAN, JOHN F.: LL.B., University of Illinois; Distinguished Professor Emeritus, Law

DOLCOURT, BRAM: M.D., New York Medical College; M.S., B.A., Brandeis University; Assistant Professor (Clinician-Educator), Emergency Medicine
DOLMAN, HEATHER: M.D., Wright State University; Assistant Professor (Clinician-Educator), Surgery

DOMBKOWSKI, ALAN: Ph.D., University of Michigan; Associate Professor, Pediatrics

DOMBROWSKI, RACHAEL: Ph.D., University of Illinois Chicago; M.P.H., B.S., University of Michigan; Assistant Professor, Education, Kinesiology, Health and Sport Studies

DOMINELLO, MICHAEL: D.O., University of New England; B.S., Fairfield University; Assistant Professor (Clinician-Educator), Oncology (Radiation Oncology)

DONG, MING: Ph.D., University of Cincinnati; B.S., Shanghai Jiao Tong University; Professor, Computer Science

DONG, ZHENG: Ph.D., University of Texas at Dallas; M.S., University of Science and Technology of China; B.S., Wuhan University; Assistant Professor, Computer Science

DORE-DUFFY, PAULA: Ph.D., Louisiana State University; Professor, Neurology

DOTY, COURTNEY: M.S., Central Michigan University; Assistant Professor (Clinical), Physician Assistant Studies

DOU, QINGPING: Ph.D., Rutgers University; B.S., Shandong University; Professor, Oncology (Cancer Biology)

DOWLING, THOMAS E.: Ph.D., Wayne State University; B.S., University of Michigan; Professor, Biological Sciences

DOYAL, GUY T.: Ph.D., M.A., University of Iowa; B.S., Butler University; Professor Emeritus, Education

DRAGHICI, SORIN: Ph.D., M.S., Politecnica University; Professor, Computer Science

DRESCHER, DENNIS G.: Ph.D., M.M.B.S., University of Wisconsin; Professor, Otolaryngology

DRESCHER, MARIAN J.: Ph.D., M.S., University of Wisconsin; B.S., University of California; Associate Professor, Otolaryngology

DROGAS, FREDRICK J.: M.S., Wayne State University; Lecturer, Nutrition and Food Science

DRUCKER, DANIEL: Ph.D., M.A., University of California, Berkeley; S.B., Massachusetts Institute of Technology; Professor, Mathematics

DUBEY, ELIZABETH: M.D., Wayne State University School of Medicine, B.S., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

DUBINSKY, PAUL R.: M.D., B.S., Wayne State University; Professor, Pathology

DUBINSKY, PAUL R.: M.D., B.S., Wayne State University; Professor, Pathology

DUCHEONI, ANNE E.: Ph.D., M.A., B.A., University of Minnesota; Professor, French

DUCHEONI, ANNE E.: Ph.D., M.A., B.A., University of Minnesota; Professor, French

DUNBAR, JOSEPH C.: Ph.D., Wayne State University; M.S., Texas Southern University; B.S., Alcorn College; Professor and Interim Chair, Physiology

DUNCAN, LAVAL TODD: Ph.D., Harvard University; M.A., B.A., University of Louisville; Associate Professor of Teaching, English, African American Studies

DUNCAN, NORAH: D.M.A., University of Michigan; M.Mus., Wayne State University; B.A., University of Detroit; Professor and Chair, Music

DUNN, ROBERT: M.D., B.A., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

DUQUETTE-RURY, LAUREN: Ph.D., University of Chicago; B.A., University of North Carolina; Associate Professor, Sociology

DURAND, HELEN: Ph.D., M.S., B.S., UCLA; Assistant Professor, Chemical Engineering and Materials Science

DURIC, NEBOJSA: Ph.D., B.S., University of Toronto; Professor, Oncology

DUTTA, ALOK E.: Ph.D., Ohio University; M.S., B.S., Calcutta University; Professor, Pharmaceutical Sciences

DUTTA, SUJAY: Ph.D., Louisiana State University; M.S., B.S., Calcutta University; Associate Professor, Marketing and Supply Chain Management

DYSON, GREGORY E.: Ph.D., University of Michigan; B.A., Canisius College; Associate Professor, Oncology

E

EAMON, CHRISTOPHER D.: Ph.D., M.Arch., M.S., University of Michigan; B.S., University of Wisconsin; Associate Professor, Civil and Environmental Engineering

EBENEZER, JAZLIN: Ph.D., University of British Columbia; M.Ed., B.A., Western Washington University; B.S., Madurai University; Professor, Education, Teacher Education

EBRAHIM, SALAH A.D.: M.D., Cairo University; Associate Professor (Clinician-Educator), Pathology

ECHEVERRIA JONES, PAUL A.: M.F.A., University of Colorado; M.A., The New School; M.S. Mercy College, B.F.A., Purchase College; Assistant Professor, Communication

ECKERT, KRISTIN (STINE) D.: Ph.D., University of Maryland; M.S., Ohio University; B.A., University of Leipzig; Assistant Professor, Communication

EDELMAN, DAVID: M.D., B.S., Wayne State University; Professor (Clinician-Educator), Surgery

EDGAR, JESSIKA: M.F.A., Cranbrook Academy of Art; M.A., California State University, Northridge; Assistant Professor, Art

EDGAR, TIFFANY: M.S., United States Sports Academy, B.S., University of Toledo; Lecturer, Education, Kinesiology, Health and Sport Studies

EDWARDS, BRIAN F. P.: Ph.D., M.A., Harvard University; B.S., University of British Columbia; Professor, Biochemistry and Molecular Biology

EDWARDS, ERICA: Ph.D., Georgia State University; M.S., Spelman College; Assistant Professor, Education, Administrative & Organizational Studies

EDWARDS, WALTER F.: Ph.D., University of York; M.A., Lancaster University; B.A., University of Guyana; Professor, English, Director, Humanities Center

EFFEKHARI, AZY: M.Ed., B.S., University of Windsor Windsor; M.S., University of Tehran Tehran; Assistant Professor (Teaching), Accounting

EGGLY, SUSAN: Ph.D., M.A., B.A., Wayne State University; Professor, Oncology
EHRINPREIS, MURRAY: M.D., New York University; B.A., University of Michigan; Professor (Clinician-Educator), Internal Medicine

EHRMAN, ROBERT: M.D., Feinberg School of Medicine; B.A., Wesleyan University; Clinical Assistant Professor, Emergency Medicine

EISMAN, ANDRIA: Ph.D., University of Michigan; Assistant Professor, Education, Kinesiology, Health and Sport Studies

EL-SHARKAWI, MOHAMED T.: Ph.D., Radboud University; M.A., The American University in Cairo; Associate Professor, Arabic

ELLIS, BRYAN: Ph.D., Howard University; Senior Lecturer, Irvin D. Reid Honors College

ELLIS, DEBORAH : Ph.D., M.A., Michigan State University; B.A., University of Michigan; Professor , Family Medicine and Public Health Sciences

ELLIS, R. DARIN: Ph.D., M.S., G.M.I., B.S.I.E., Pennsylvania State University; Professor, Industrial and Systems Engineering, Associate Provost for Academic Programs

ELLIS, II, TERRY A.: M.D., University of Nevada; Associate Professor, Anesthesiology

ELNAGGAR, MOHAMMED I.: Ph.D., University of Manitoba; M.S. and B.S., Cairo University; Professor and Chair, Electrical and Computer Engineering

ELRICK, KATHY: Ph.D. Clemson University; M.A., Arcadia University; M.S., B.A., Illinois State University; Assistant Professor of Teaching, English

ELSAYED, MONA: M.D., M.Sc., Al-Azhar University School of Medicine; Assistant Professor (Clinician-Educator), Neurology

EMERY, LAUREE A.: Ph.D., J.D., B.A., Universidad Nacional Autonoma de Mexico; MA: Middlebury College; Senior Lecturer, Social Work

ENDICOTT, JOHN F.: Ph.D., Johns Hopkins University; B.A., Reed College; Professor Emeritus, Chemistry

ERLANDSON, ROBERT F.: Ph.D., Case Western Reserve University; B.S.E.E., Wayne State University; Professor Emeritus, Electrical and Computer Engineering

ERNST, JOY S.: Ph.D., University of Maryland; M.S.W, Rutgers University; B.A., University of Chicago; Associate Professor; Social Work

EVANS, DAVID R.: Ph.D., Wayne State University; B.S., University of Notre Dame; Professor, Biochemistry and Molecular Biology, Molecular Medicine and Genetics

EVANS, ELIZABETH: Ph.D., University of Wisconsin-Madison; B.A., University of Puget Sound; Associate Professor, English

EVELY, MARK T.: J.D., Thomas M. Cooley Law School; B.S., Wayne State University; Clinical Assistant Professor, Mortuary Science, Director

EZZEDDINE, COLLEEN: Ph.D., Wayne State University; Assistant Professor of Teaching, Communication

FAHLMAN, MARIANE: Ph.D., University of Toledo; M.A., Wayne State University; B.A., University of South Florida; Professor, Education, Kinesiology, Health and Sport Studies

FAIRFAX, MARYLYNN: M.D., University of Texas Health Sciences Center; Ph.D., Dartmouth College; Associate Professor (Clinician-Educator), Pathology

FAKHOURLI, MAHER: M.D., Damascus University; Associate Professor (Clinician-Educator), Neurology

FALAHEE-GALUARDI, MARGARET: D.N.P., Wayne State University; M.S.N., University of Michigan; B.S.N., Northern Michigan University; Assistant Professor (Clinical), Nursing

FAN, CHUANZHU: Ph.D., North Carolina State University; M.S., Chinese Academy of Agricultural Sciences; B.S., Northeast Normal University; Associate Professor, Biological Sciences

FANSELOW, RYAN T.: Ph.D., M.A., University of Maryland; B.A., University of California, Riverside; Lecturer, Philosophy

FARNER, JULIA: D.N.P., Wayne State University; B.S.N., Michigan State University; Assistant Professor (Clinical), Nursing

FARRELL, PERRY M.A.: University of Michigan; B.A., Central Michigan University; Lecturer, Communication

FASENFEST, DAVID: Ph.D., M.A., University of Michigan; B.A., City University of New York; Associate Professor, Sociology

FAUE, ELIZABETH V.: Ph.D., M.A., B.A., University of Minnesota; Professor and Chair, History

FAVA, JOSEPH: Pharm.D., Wayne State University; Assistant Professor (Clinical), Pharmacy Practice

FAVOT, MARK: M.D., George Washington University; B.S., University of Windsor; Assistant Professor (Clinician-Educator), Emergency Medicine

FEEN, HOLLY: Ph.D., University of Michigan; M.A., Wright State University; B.A., Otterbein College; Associate Professor, Education, Theoretical and Behavioral Foundations

FEHL, CHARLIE: Ph.D., University of Kansas; B.S., University of Michigan; Assistant Professor, Chemistry

FELDMAN, GERALD L.: M.D., Ph.D., Medical College of Virginia; M.S., B.A., Indiana University; Professor, Molecular Genetics and Genomics, Pathology

FERNANDEZ-MADRID, FELIX: M.D., University of Buenos Aires; Ph.D., University of Miami; Bachiller, Colegio Nacional de San Isidro; Professor, Internal Medicine, Associate Professor, Molecular Medicine and Genetics

FERNANDEZ-VALDIVIA, RODRIGO: Ph.D., Universidad Autonoma de Madrid; B.S., Universidad de San Agustin de Arequipa; Assistant Professor, Pathology

FIELD, BRADFORD S.: Ph.D., University of Maryland; M.A., Kent State University; B.A., Hiram College; Associate Professor Emeritus, English

FIGUEROA, VICTOR: Ph.D., M.A., Harvard University; B.A., University of Puerto Rico; Associate Professor, Spanish

FINDLATER, JANET E.: J.D., University of Michigan; B.A., Smith College; Associate Professor Emerita, Law

FINLEY, RUSSELL L.: Ph.D., State University of New York at Syracuse; B.S., State University of New York at Brockport; Professor, Molecular Genetics and Genomics, Biochemistry and Molecular Biology

FINO, SUSAN P.: Ph.D., M.A., Rutgers University; B.A., Johns Hopkins University; Professor, Political Science

FIRESTONE, STEVEN M.: Ph.D., Purdue University; B.S., University of Michigan; Professor and Chair, Pharmaceutical Sciences
FISCHER, THOMAS M.: Ph.D., M.A., University of California - Riverside; B.S., Michigan State University; Associate Professor, Psychology

FISHER, NATHAN: Ph.D., University of North Carolina; M.S., Columbia University; B.S., University of Minnesota; Professor, Computer Science

FITZGERALD, JOSEPH M.: Ph.D., M.A., West Virginia University; B.A., State University of New York at Buffalo; Professor Emeritus, Psychology

FITZGERALD, THOMAS P.: M.F.A., Cranbrook Academy of Art; B.F.A., Cleveland Institute of Art; Associate Professor Emeritus, Art

FITZGIBBON, JANE E.: Ph.D., M.A., Wayne State University; B.S., Central Michigan University; Senior Lecturer, Communication

FRAHERTY, LAWRENCE: M.D., St. Louis University; B.S., University of Notre Dame; Professor (Clinician-Educator), Oncology

FRAHERTY, RYAN: M.A., Eastern Michigan University; B.A. Cleveland State University; Associate Professor of Teaching, English

FLATLEY, JONATHAN: Ph.D., Duke University; B.A., Amherst College; Professor, English

FLIGIEL, ALAN: M.D., State University of New York, Downstate; B.S., City College of New York; Clinical Assistant Professor, Dermatology

FLOOD, JEANNE A.: Ph.D., University of Michigan; M.A., Loyola University; B.A., Mundelein College; Associate Professor Emeritus, English

FLORES, SAMANTHA: M.A. and B.A., Wayne State University; Lecturer, Mathematics

FLORKOWSKI, FRED: M.F.A., B.S., Wayne State University; Associate Professor, Theatre

FORSYTHE, ROBERT: Ph.D., M.S., Carnegie-Mellon University; B.S., Pennsylvania State University; Professor, Finance

FOTOUI, FARSHAD: Ph.D., Michigan State University; M.S., B.S., Western Michigan University; Professor, Computer Science, Dean, College of Engineering

FOWLER, BETH N.: Ph.D., Wayne State University; M.A., B.A. Honours, University of Windsor; Senior Lecturer, Irvin D. Reid Honors College

FOX, GREGORY H.: J.D., New York University; B.A., Bates College; Professor, Law

FOX, HILARY: Ph.D., University of Notre Dame; M.A., Western Michigan University; B.A., University of South Florida; Associate Professor, English

FRADE, PETER D.: Ph.D., M.S., B.S., Wayne State University; Associate Dean, Applied Health Sciences

FRANK, ROBERT R.: M.D., Wayne State University; B.A., Brandeis University; Professor Emeritus, Internal Medicine

FRANKLIN, MARY: Ph.D., Wayne State University; M.S.W., City University of New York hunter College; B.A., New York University; Assistant Professor (Clinical), Psychology

FRANKLIN, SARAH MARGARET: Ph.D., University of Cambridge; M.A., B.A., University of New Mexico; Associate Professor, Art History

FRAZIER, DARRYL T.: Ph.D. candidate, M.A., Wayne State University; Assistant Professor of Teaching, Communication

FREEMAN, D. CARL: Ph.D., M.S., Brigham Young University; B.S., University of Utah; Professor Emeritus, Biological Sciences

FRIBLEY, ANDREW: Ph.D., University of Michigan; Assistant Professor, Pediatrics

FRIDMAN, RAFAEL: Ph.D., Hebrew University Medical School; Professor, Pathology

FRIEDRICH, MARKUS: Ph.D., B.S., Ludwig-Maximilians-Universitaet; Professor, Biological Sciences

FRITZ, HEATHER A.: Ph.D., B.A., University of North Carolina at Chapel Hill; M.S., Winston Salem State University; Assistant Professor, Occupational Therapy, Gerontology

FRITZ, NORA E.: Ph.D., D.P.T., The Ohio State University; B.S., Miami University; Assistant Professor, Physical Therapy

FRY-MCCOMISH, JUDITH: Ph.D., M.S.N., Wayne State University; B.S.N., Indiana University; Associate Professor Emerita, Nursing

FUHLHAGE, MICHAEL J.: Ph.D., University of North Carolina at Chapel Hill; M.A., University of Missouri-Columbia; B.S., University of Kansas; Assistant Professor, Communication

FUSIK, JAMES: D.M.A., Bowling Green State University; Lecturer, Music

G

GABALLI, ALI M.: M.D., Dammam University (formerly King Faisal University); Ph.D., Rush University; Associate Professor, Pathology

GABEL, SUSAN L.: Ph.D., Michigan State University; M.Ed., Wayne State University; B.A., Oral Roberts University; Professor, Education, Teacher Education

GABLE, LANCE: J.D., Georgetown University; M.P.H., B.A., The Johns Hopkins University; Associate Professor, Law

GALENS, GARY: M.D., Wayne State University; Clinical Assistant Professor, Radiology

GALLIEN, JOHN: M.D., Indiana University School of Medicine; B.S. Purdue University; Assistant Professor (Clinician-Educator), Emergency Medicine

GAMARRA, DANA: B.F.A., University of Detroit; Senior Lecturer, Theatre

GANGWERE, STANLEY K.: Ph.D., M.S., B.A., University of Michigan; Professor Emeritus, Biological Sciences

GAPPY, MUSIB: M.D., B.S., Wayne State University; Assistant Professor (Clinical), Internal Medicine

GARCIA, HERNAN M.: Ph.D., University of Kansas; M.A., B.A., San Diego State University; Assistant Professor, Spanish

GARRETT, ANDREW: Ph.D., University of Iowa; B.S., Cedarville University; Assistant Professor, Pharmacology

GARWOOD, CANDICE: Pharm.D., University of Texas at Austin; Professor - Clinical, Pharmacy Practice

GATTI, DOMENICO: M.D., Catholic University of S. Cuore; Ph.D., University of Bari; Professor, Biochemistry and Molecular Biology

GAVANE, NAVANTH: Ph.D., University of Sydney; M.S., National Institute of Pharmaceutical Education and Research; B.Pharm, S.G.R.S. College of Pharmacy; Assistant Professor, Pharmaceutical Sciences

GAVIN, SEAN: Ph.D., M.S., University of Illinois; B.S., State University of New York at Stony Brook; Professor, Physics
GE, YUBIN: Ph.D., M.S., Jilin University; Associate Professor, Oncology

GEIGER, CAROL: D.N.P., Wayne State University; B.S.N., University of Detroit-Mercy; Instructor (Clinical), Nursing

GEISTMAN, JAMES H.: Ph.D., University of Nebraska at Omaha; M.S., Wayne State University; M.A., Central Michigan University; B.A., Saginaw Valley State University; Associate Professor of Teaching, Criminology and Criminal Justice

GEISZT, GABRIELLA: M.D., Semmelweis Medical School; Assistant Professor (Clinician-Educator), Psychiatry and Behavioral Neurosciences

GELLER, DANIEL S.: Ph.D., M.A., Rutgers University; B.A., Drew University; Professor and Chair, Political Science

GEORGE, EDWIN B.: M.D., Ph.D., Case Western Reserve University; M.A., B.A., Amherst College; Associate Professor (Clinician-Educator), Neurology

GEORGE, NANCY: Ph.D., M.S.N., University of Michigan; B.S., Michigan Tech University; Associate Professor (Clinical), Nursing

GERMAN, RACHAEL: M.S., Kent State University; B.S., Central Michigan University; Lecturer, Education, Student Services Coordinator, Athletic Training, Kinesiology, Health and Sport Studies

GHOSH, SAMIRAN: Ph.D., University of Connecticut; M.S., University of Maryland; B.S., University of Calcutta; Professor, Family Medicine and Public Health Sciences, Molecular Medicine and Genetics

GIBSON, HEATHER M.: Ph.D., Wayne State University; B.S., Michigan State University; Assistant Professor, Oncology

GIBSON-SCIPIO, WANDA: Ph.D., Michigan State University; M.S.N., B.S.N., Wayne State University; Associate Professor (Clinical), Nursing

GIDLOW, LIETTE: Ph.D., Cornell University; M.A., Ohio State University; B.A., University of Chicago; Professor, History

GILL, CHRISTOPHER: Ph.D., Northeastern University; M.B.A., University of Illinois, Urbana Campaign; M.S., Wayne State University; M.S.N., Salem State College; B.A. Saint Anselm College; Assistant Professor (Clinical), Nurse Anesthesia

GIORDANO, MICHAEL J.: Ph.D., M.A., University of Minnesota; B.S., Seton Hall University; Professor, French

GIORGINI-ALTHOEN, SILVIA: M.A., University of Pisa; Lecturer, Italian

GIULIANO, CHRISTOPHER: Pharm.D., University of Toledo; M.P.H., Wayne State University; Assistant Professor (Clinical), Pharmacy Practice

GLAZIER, JAMES: M.D., University College of Dublin Medical School; Clinical Professor, Internal Medicine

GLEASON-COMSTOCK, JULIE: Ph.D., University of Minnesota; Assistant Professor, Family Medicine and Public Health Sciences

GOEBEL, DENNIS: Ph.D., M.S., Wayne State University; B.S., Central Michigan University; Associate Professor, Anatomy and Cell Biology

GOEDDEKE, FRANK: Ph.D., University of Florida; M.B.A., Rollins College; M.A.S., B.S., Embry-Riddle Aeronautical University; Assistant Professor (Teaching), Management and Information Systems

GOEL, NARENDRA S.: Ph.D., University of Maryland; M.S., Poona University; M.S., Delhi University; B.S., Agra University; Professor, Computer Science

GOFF, PENRITH: Ph.D., M.A., University of California, Los Angeles; B.A., University of Kentucky; Professor Emeritus, German

GOLDBERG, DAVID: Ph.D., M.A., University of Massachusetts-Amherst; M.A., Morgan State University; B.A, Eastern Michigan University; Associate Professor, African American Studies

GOLDBG, THEODORE: Ed.D., M.S.W., B.A., Wayne State University; Associate Professor Emeritus, Social Work

GOLDBERG, HAROLD: Ph.D., University of Illinois; Ph.D., M.S., University of Chicago; Professor Emeritus, Pharmacology

GOLDBIOWSKA, EWA: Ph.D., M.A., Ohio State University; B.A., Wesleyan University; Professor, Political Science

GOLEMBIA, HENRY L.: Ph.D., University of Washington; M.A., B.Ph., Wayne State University; Professor Emeritus, English

GOLENBERG, EDWARD M.: Ph.D., State University of New York at Stony Brook; B.A., Johns Hopkins University; Professor, Biological Sciences

GOMEZ, JENNIFER: Ph.D., University of Oregon; M.S., University of Oregon; B.A., San Diego State University; Assistant Professor, Psychology

GOMEZ-LOPEZ, NARRO: Ph.D., M.S., National Polytechnic Institute; Assistant Professor, Obstetrics and Gynecology

GONCHARUK, VIKTOR: M.D., Vinnitsa Medical School; Clinical Assistant Professor, Dermatology

GONIK, BERNARD: M.D., Michigan State University; Professor, Obstetrics and Gynecology

GONZALES, SANDRA: Ed.D., M.Ed., Columbia University; M.A., Antioch University; B.S., Michigan State University; Associate Professor, Education, Teacher Education

GONZALES-PRENDES, ANTONIO: Ph.D., M.S.W., Wayne State University; B.S., Spring Hill College; Associate Professor Emeritus, Social Work

GOODMAN, ALLEN C.: Ph.D., Yale University; B.A., University of Michigan; Professor, Economics

GOODRICH, JAIME: Ph.D., Boston College; B.A., Smith College; Professor, English

GORSKI, DAVID: M.D., B.S., University of Michigan; Ph.D., Case Western Reserve University; Professor, Surgery, Oncology

GORTNEY, JUSTINE: Pharm.D., Purdue University; Associate Professor, Pharmacy Practice

GOSHGARIAN, HARRY G.: Ph.D., M.S., University of Michigan; B.S., University of Massachusetts; Professor, Anatomy and Cell Biology

GOTTTFRIED, HEIDI: Ph.D., University of Wisconsin, Madison; M.A., B.A., University of Michigan; Associate Professor, Sociology

GOW, ALEXANDER: Ph.D., Queensland University; M.S., B.S., N.S.W.I.T.; Professor, Molecular Genetics and Genomics, Pediatrics

GRADY, KEVIN J.: M.D., Wayne State University; B.S., University of Michigan; Clinical Assistant Professor, Internal Medicine

GRANNECE, JAMES G.: Ph.D. University of Massachusetts; B.A., Southern Illinois University; Professor, Molecular Genetics and Genomics

GRATSON, CORinne: M.S., Wayne State University; Assistant Professor (Clinical), Physician Assistant Studies

844 University Faculty
GRAY, HERMAN: M.D., Wayne State University; B.S., University of Michigan; Clinical Associate Professor, Pediatrics

GRAZIANA, ANNE: B.A.; Lecturer, Mathematics

GREENBERG, MIRIAM L.: Ph.D., Albert Einstein College of Medicine; M.S., Loyola University; B.A., Reed College; Professor, Biological Sciences

GREENWALD, MARGARET: Ph.D., M.A., University of Florida; B.A., College of St. Catherine; Associate Professor, Communication Sciences and Disorders

GREENWALD, MARK: Ph.D., M.A., University of Florida; B.A., Oberlin College; Professor, Psychiatry and Behavioral Neurosciences, Adjunct Associate Professor, Psychology

GREER, BERTIE: Ph. D., Kent State University; M.B.A., B.S., University of Toledo; Associate Professor and Associate Dean, Marketing and Supply Chain Management

GREER, JEANNETTA M.: M.S., B.S.R.T(T), Wayne State University; Director (Academic), Radiation Therapy Technology

GREGORY, SIOBHAN: M.F.A., University of Illinois at Chicago; M.A., Wayne State University; B.A., Pratt University; Senior Lecturer, Art

GREKIN, EMILY: Ph.D., M.A., Emory University; B.A., Carlton College; Associate Professor, Psychology

GROGAN, JARED: Ph.D., Wayne State University; M.A. University of Windsor; B.A., Laurentian University; Associate Professor of Teaching, English

GROSSMAN, LAWRENCE I.: Ph.D., Albert Einstein College of Medicine; B.S., College of the City of New York; Professor, Molecular Genetics and Genomics

GROSU, DANIEL: Ph.D., M.S., University of Texas at San Antonio; B.S., Technical University of Iasi; Associate Professor, Computer Science

GROYSMAN, STANISLAV: Ph.D., B.S., Tel Aviv University; Associate Professor, Chemistry

GRYNAVISKI, JEFFREY D.: Ph.D., M.A., Duke University; B.A., William and Mary; Associate Professor and Director of Graduate Programs, Political Science

GU, HAIDONG: Ph.D., Ohio State University; M.S., Chinese Academy of Medical Sciences; B.S., Fudan University; Associate Professor, Biological Sciences

GUAN, XIYING: Ph.D., University of Oklahoma, M.S., B.S., China University of Geoscience; Assistant Professor, Communication Sciences and Disorders

GUIN, ANDREW R.: Ph.D., M.C.R.P., University of North Carolina; B.A., University of Wisconsin; Assistant Professor, Urban Studies and Planning

GUPTA, SMITI: Ph.D., M.S., Wayne State University; B.S., Panjab University; Associate Professor, Nutrition and Food Science

GURSEL, ETI: M.D., University of Ankaka; Associate Professor (Clinician-Educator), Surgery

GURSEL, TOLGA: M.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Clinician-Educator), Surgery

GUTIERREZ, JESUS: Ph.D., City University of New York; M.A., Fordham University; Diplome, Institute Catholique; B.Ph., Universidad de Comillas; Professor Emeritus, Spanish

H

HAAS, RANDY: Ph.D. University of Arizona; M.A., B.A., Northern Arizona University; Assistant Professor, Anthropology

HAASE, DONALD P.: Ph.D., University of North Carolina, Chapel Hill; M.A., B.A., University of Cincinnati; Professor, German

HABEL, DEBORAH L.: M.B.A., University of Michigan; B.S., Oakland University; Associate Professor (Teaching), Accounting

HABER, BRIAN: M.D.; Assistant Professor (Clinical), Emergency Medicine

HABIB, LUZETTE: M.D., B.S., University of Michigan; Clinical Assistant Professor, Pathology

HAGLUND, VALDOR L.: M.S., B.S., Wayne State University; Assistant Professor (Clinical), Nurse Anesthesia

HALEY, RICHARD: M.F.A., B.A., University of California, Davis; M.A., California State University, Sacramento; Lecturer, Art

HALL, NOAH D.: J.D., B.S., University of Michigan; Professor, Law

HAM, STEVEN D.: D.O., University of Health Sciences; M.A., B.A., University of Kansas; Assistant Professor (Clinician-Educator), Neurological Surgery

HAMEISTER, DAWN: Ph.D., University of Michigan; M.S.N, B.S.N., Wayne State University; B.A., Albion College; Associate Professor Emeritus, Nursing

HAMEL, LAUREN: Ph.D., M.A., B.A., Michigan State University; Assistant Professor, Oncology

HAMILTON, JAMES L.: Ph.D., Duke University; B.A., Grinnell College; Professor Emeritus, Finance

HAMMER, PETER: Ph.D., J.D., University of Michigan; B.A., B.S., Gonzaga University; Professor, Law

HAN, XIAOYAN: Ph.D., Wayne State University; M.S., B.S., Nankai University; Professor, Electrical and Computer Engineering

HANCOCK, CHRISTINE: Ph.D., University of Kansas; M.A., Boise State University; B.A., Grinnell College; Assistant Professor, Education, Teacher Education

HANKIN, JANET: Ph.D., University of Wisconsin, Madison; M.A., B.A., Case Western Reserve University; Professor, Sociology

HANNA-JOHNSON, MELANIE: M.D., Wayne State University; B.S., University of Michigan; Assistant Professor (Clinician-Educator), Internal Medicine

HANNIGAN, JOHN: Ph.D., M.A., State University of New York at Binghamton; B.S., Fairfield University; Professor, Psychology, Obstetrics and Gynecology

HANNUM, NANETTE: D.P.T., Grand Valley State University; B.S., Belhaven College; Assistant Professor (Clinical), Physical Therapy

HAO, WEILONG: Ph.D., McMaster University; M.S., B.S., Nankai University; Associate Professor, Biological Sciences

HARI, V.: Ph.D., M.S., University of Madras; B.S., Annamalai University; Associate Professor Emeritus, Biological Sciences

Wayne State University Graduate Bulletin 2022-2023 845
HARIRI, HANAA: Ph.D., Florida State University Tallahassee; M.S., American University of Beirut; B.S., Lebanese University; Assistant Professor, Biological Sciences

HARPER, FELICITY W.K.: Ph.D., University of Georgia; B.A., Wellesley College; Associate Professor (Clinician-Educator), Oncology

HARR, ROBERT F.: Ph.D., M.S., University of California, Berkeley; B.S., Carnegie-Mellon University; Professor, Physics

HARRIS, CAROLYN: Ph.D., University of Utah, B.S., Purdue University; Assistant Professor, Chemical Engineering and Materials Science

HART, JENNIFER: Ph.D., M.A., Indiana University at Bloomington; B.A., Denison University; Associate Professor, History

HART, KIMBERLY: M.D., Wayne State University; B.A., University of Michigan; Assistant Professor (Clinician-Educator), Oncology (Radiation Oncology)

HARTING, CARLA S.: Ph.D., Ed.S., Wayne State University; Distinguished Professor Emeritus, Music

HARTWELL-KING, KATHLEEN: D.N.P., Wayne State University; B.S.N., Eastern Michigan University; Instructor (Clinical), Nursing

HASAN, M. ARIF: Ph.D., University of Illinois Urbana-Champaign; B.S., Bangladesh University of Engineering and Technology; Assistant Professor, Mechanical Engineering

HASSAN, SONIA: M.D., Wayne State University; B.A., University of Michigan; Professor (Clinician-Educator), Obstetrics and Gynecology

HASSOUN, MOHAMAD H.: Ph.D., M.S., B.S., Wayne State University; Professor, Electrical and Computer Engineering

HASTERT, THERESA: Ph.D., University of Washington; M.P.P., University of California Los Angeles; B.A., Loyola Marymount University; Assistant Professor, Oncology

HATFIELD, ADRIAN: M.F.A., Ohio University; B.F.A., B.A., The Ohio State University; Associate Professor, Art

HAUFF, NANCY: Ph.D., M.S.N, B.S.N., Wayne State University; Instructor (Clinical), Nursing

HAYES, LAUREN: Ph.D., M.A, University of Arizona; B.A., Wake Forest University; Assistant Professor, Anthropology

HAZARD VALLERAND, APRIL: Ph.D., University of Pennsylvania; M.S.N., California State University, Los Angeles; B.S.N., Mt. St. Mary's College; Professor, Nursing

HAZLETT, LINDA D.: Ph.D., Ohio State University; M.S., Medical College of Georgia; B.S., St. Mary's College; Professor and Chair, Anatomy and Cell Biology

HE, YUAN: Ph.D., University of Illinois at Urbana-Champaign; Assistant Professor, Immunology and Microbiology

HEAD, DOREEN P.: Ph.D., M.S., Wayne State University; B.S., Eastern Michigan University; Assistant Professor (Clinical) and Program Director, Occupational Therapy

HEATH, ELISABETH I.: M.D., Jefferson Medical College; B.S., Lehigh University; Professor (Clinician-Educator), Oncology

HEBERLEIN, GARRETT: Ph.D., M.S., Northwestern University; B.A., Ohio Wesleyan University; Professor Emeritus, Biological Sciences

HEGARTY, JOHN G.: M.F.A., M.A., Iowa University; B.A., Westmar College; Emeritus Professor, Art

HEILBRUN, LANCE K.: Ph.D., University of Michigan; M.S., B.A., Wayne State University; Professor, Oncology

HENDERSON, JENNIFER: D.O., Des Moines University; B.S., University of Minnesota; Clinical Assistant Professor, Anesthesiology

HENDRICKSON, TAMARA: Ph.D., California Institute of Technology; B.A., Wellesley College; Associate Professor, Chemistry

HENEIN, NAEIM A.: Ph.D., University of Michigan; M.S., Alexandria University; B.S., Cairo University; Distinguished Professor Emeritus, Mechanical Engineering

HENRY (HONG-QIANG), HENG: Ph.D., University of Toronto; Professor, Molecular Genetics and Genomics, Pathology

HENSON, JEREMY: M.D., University of the Caribbean; B.S., University of North Alabama; Clinical Assistant Professor, Internal Medicine

HERRING, MARY: Ph.D., University of Georgia; M.A., B.A., University of West Florida; Associate Professor, Political Science

HERRON, JERRY S.: Ph.D., M.A., Indiana University; B.A., University of Texas; Professor Emeritus, English

HEW-BUTLER, TAMARA: Ph.D., University of Cape Town, South Africa; D.M.P., Temple University; B.S., University of California, Los Angeles; Associate Professor, Education, Kinesiology, Health and Sport Studies

HEYDARI, AHMAD: Ph.D., M.S., Illinois State University; B.A., Illinois University; Professor and Chair, Nutrition and Food Science

HIBBERT, MELISSA: M.A., B.A.S., Siena Heights University; Assistant Professor (Clinical), Radiologic Technology

HICKEY, SEAN: Ph.D., B.S., University of New Orleans; M.S., University of Michigan; Senior Lecturer, Chemistry

HICKLE, SHAMMA J.: M.S., B.A., Fayetteville State University; Assistant Professor of Teaching, Criminology and Criminal Justice

HICKS, MEGAN: Ph.D., M.S., University of Georgia; B.A., The Ohio State University; Assistant Professor, Social Work

HIDDLESTON, ERIC D.: Ph.D., M.A., Cornell University; B.A., University of Nebraska; Associate Professor and Interim Chair, Philosophy

HIGGS, PENELope I.: Ph.D., B.S., Washington State University; Associate Professor, Biological Sciences

HIGUERO, FRANCISCO J.: Ph.D., City University of New York; M.A., New York University; B.A., Escuela de Magisterio, Zaragoza; Professor Emeritus, Spanish
HILL, WILLIAM: Ph.D., Wayne State University; M.A., Adelphi University; B.A., University of Michigan; Clinical Assistant Professor, Education, Interim Assistant Dean, Administrative & Organizational Studies

HILLMAN, GILDA G.: Ph.D., M.S., B.S., Hebrew University; Professor Emerita, Oncology (Cancer Biology)

HILLMAN, STEPHEN B.: Ph.D., M.S., Indiana University; B.A., University of Connecticut; Professor, Education, Theoretical and Behavioral Foundations

HINSON, BILLICIA: M.F.A., University of Missouri at Kansas City; B.F.A., North Carolina Agricultural and Technical State University; Assistant Professor, Theatre

HOCHSTADT, CAROLYN: M.A., B.S., Wayne State University; Lecturer, Mathematics

HOCK, LISABETH: Ph.D., Washington University; M.A., B.A., University of Kansas; Associate Professor, German

HOFFMANN, PETER M.: Ph.D., Johns Hopkins University; M.S., Southern Illinois University; B.S., Technische Universität Clausthal; Professor and Chair, Physics

HOHN, DONOVAN: M.F.A., University of Michigan; M.A., Boston University; B.A., Oberlin College; Professor, English

HOLBERT, JOANNE: Ed.D., Indiana University; M.A., George Peabody College; B.S., University of Kansas; Associate Professor, Education, Theoretical and Behavioral Foundations

HOLLEY, ROBERT P.: Ph.D., Yale University; MLS, Columbia University; B.A., Xavier University; Professor Emeritus, Information Sciences

HOLLY, JR., JAMES: Ph.D., Purdue University; M.S., Michigan State University; B.S., Tuskegee University; Assistant Professor, Education, Teacher Education

HOLT, AVRIL GENENE: Ph.D., M.S., University of Michigan; B.S., Stillman College; Associate Professor, Anatomy and Cell Biology

HONG, FELIX T.: Ph.D., Rockefeller University; M.D., National Taiwan University School of Medicine; Professor Emeritus, Physiology

HONG, JUN SUNG: Ph.D., University of Illinois at Urbana-Champaign; M.S.W., University of Michigan; M.A., University of Washington; B.A., University of California at Irvine; Associate Professor, Social Work

HONG, ROBERT: M.D., University of California - Los Angeles; Ph.D., University of Iowa; B.A., Harvard University; Assistant Professor (Clinician-Educator), Otolaryngology

HONN, KENNETH V.: Ph.D., Wayne State University; Distinguished Professor, Pathology

HOOD, GLEN: Ph.D., University of Notre Dame; M.S., Texas State University; B.S., Texas State University; Assistant Professor, Biological Sciences

HOOGLAND, RENÉE: Ph.D., M.A., B.A., University of Amsterdam; Professor, English

HOOPER, CAROLYN JANE: M.A., Wayne State University; B.A., University of Georgia; Associate Professor Emeritus, Art

HOPP, FAITH: Ph.D., M.S.W., University of Michigan; B.A., Oberlin College; Associate Professor and Doctoral Program Director, Social Work, Co-Chair, Social Work and Anthropology (SWAN) Ph.D. Program

HORNER, JEFFREY T.: M.U.P., Wayne State University; B.A., Adrian College; Senior Lecturer, Urban Studies and Planning

HOU, ZHANJUN: Ph.D., M.S., China Agricultural University; B.S., Agricultural and Husbandry University of Inner Mongolia; Associate Professor (Research), Oncology

HOWARD, CANDICE: Ph.D., Eastern Michigan University; M.S., B.S., Miami University; Lecturer, Education, Kinesiology, Health and Sport Studies

HOWARD, JEFFREY L.: Ph.D., University of California, Santa Barbara; M.S., B.S., Virginia Polytechnic Institute and State University; Professor, Environmental Sciences and Geology

HOWELL, DOUGLAS B.: B.S., Johns Hopkins University; Lecturer, Physician Assistant Studies

HOWRANI, ANA: M.A., University of Michigan B.A., Denison University; Assistant Professor (Teaching), Education, Teacher Education

HU, BO: M.D., Ph.D., M.Sc., University of South China; Assistant Professor (Research), Neurology

HU, LIANG: Ph.D., M.A., University of Rochester; Associate Professor, Economics

HU, PO: Ph.D., University of Michigan; B.A., Yale University; Professor, Mathematics

HU, ZHENGQING: M.D., Ph.D., Fudan University; Ph.D., Karolinska Institute; Associate Professor, Otolaryngology

HU, ZHANG: Ph.D., University of New York at Stony Brook; M.S., Institute of Automation, Chinese Academy of Sciences; B.S., Huazhong University of Science and Technology; Professor, Computer Science

HUANG, CHANGHE: Ph.D., M.S., Shanghai Institute of Technical Physics; B.S., Shanghai University of Science and Technology; Professor (Research), Surgery

HUANG, JIAN: Ph.D., Michigan State University; M.S., University of South Carolina; B.S., Beijing University; Associate Professor, Physics

HUANG, TAO: Ph.D., University of Kentucky; Ph.D., Xiamen University; M.S., Shandong Normal University; Assistant Professor, Mathematics

HUANG, YAOXIAN: Ph.D., Michigan Technological University; M.S., B.S., East China University of Science and Technology; Assistant Professor, Civil and Environmental Engineering

HUANG, YINLUN: Ph.D., M.S., Kansas State University; B.S., Zhejiang University; Professor, Chemical Engineering and Materials Science

HUANG, ZHIFENG: Ph.D., B.S., Tsinghua University; Associate Professor, Physics

HUYTTEBAMMAN, MAIK: Ph.D., University of Marburg; Professor, Molecular Genetics and Genomics, Biochemistry and Molecular Biology

HUGHES, BRETT A.: M.D., Tulane University; B.A., San Jose State University; Professor (Clinician-Educator), Ophthalmology

HULL, MARGARET: M.F.A, Cranbrook Academy of Art; B.F.A., Maryland Institute College of Art; Assistant Professor, Art
HUMMER, HANS: Ph.D., University of California, Los Angeles; M.A., University of Florida; B.S., Kansas State University; Professor, History

IBRAHIM, AHMED: Ph.D., M.Sc., B.Sc., Pharmaceutical Sciences; Assistant Professor, Pharmacology, Ophthalmology, Visual and Anatomic Sciences

IBRAHIM, RAOUF A.: Ph.D., University of Edinburgh; M.S., B.S., University of Cairo; Professor Emeritus, Mechanical Engineering

IBRAHIM, SHERIF: M.D., Alexandria University; Clinical Assistant Professor, Radiology

ICHINOSE, TOMOMI: M.D., Hamamatsu University; Ph.D., Tokyo Medical and Dental University; Assistant Professor, Anatomy and Cell Biology

IQBAL, AMIR: M.D., Sindh Medical College; Assistant Professor (Clinical Educator), Internal Medicine

IRELAND, MARK E.: Ph.D., M.S., B.S., Wayne State University; Associate Professor, Anatomy and Cell Biology

ISAKSEN, DANIEL: Ph.D., M.S., University of Chicago; B.A., University of California, Berkeley; Professor, Mathematics, Acting Associate Department Chair

ISKANDAR-DATTA, MAI: Ph.D., M.B.A., B.S., University of Missouri, Columbia; Professor, Finance

ISLAM, Md. MAHBUBUL: Ph.D., Pennsylvania State University; B.S., Bangladesh University of Engineering and Technology; Assistant Professor, Mechanical Engineering

ITZKOWITZ, JOEL B.: Ph.D., A.M., University of Michigan; A.B., Brooklyn College of the City University of New York; Associate Professor Emeritus, Classics, Greek and Latin

IYER, ARUN: Ph.D., Sojo University; M.S., B.S., University of Pune; Assistant Professor, Pharmaceutical Sciences

J

JABER, LINDA A.: Pharm.D., B.S., Wayne State University; Professor, Pharmacy Practice

JACKSON, CHRISTINE: Ph.D., University of Florida; B.S., Michigan State University; Professor and Chair, Management and Information Systems

JACKSON, GEORGE: Ph.D., Ohio State University; B.S. Michigan State University; Professor Emeritus, Marketing and Supply Chain Management

JACKSON, KENNETH: Ph.D., Loyola University of Chicago; M.A., Northwestern University; B.A., Michigan State University; Professor, English

JACKSON, MARION E.: Ph.D., M.A., B.A., University of Michigan; Distinguished Professor Emeritus, Art History

JACKSON, MATTHEW P.: Ph.D., Kansas State University; M.S., B.S., University of Missouri at Kansas City; Associate Professor, Immunology and Microbiology

JACOBS, MICHELLE R.: Ph.D. and M.S., Kent State University; B.S. University of Akron; Assistant Professor, Sociology

JACOBSON, JOSEPH: Ph.D., X.P.R., Harvard-Radcliffe; Professor, Psychiatry and Behavioral Neurosciences, Obstetrics and Gynecology

JACOBSON, SANDRA: Ph.D., M.A., Harvard University; B.A., Brandeis University; Professor, Psychiatry and Behavioral Neurosciences, Psychology

JACOBS, MICHELLE R.: Ph.D. and M.S., Kent State University; B.S. and Microbiology University of Missouri at Kansas City; Associate Professor, Immunology

JACKSON, MATTHEW P.: Ph.D., Kansas State University; M.S., B.S., Distinguished Professor Emeritus, Art History

JACKSON, MARION E.: Ph.D., M.A., B.A., University of Michigan; Associate Professor, Anatomy and Cell Biology

JACKSON, SANDRA: Ph.D., M.A., Harvard University; B.A., Brandeis University; Professor, Psychiatry and Behavioral Neurosciences, Psychology

JACQUES, SUZANNE M.: M.D., Indiana University School of Medicine; Professor (Clinician-Educator), Pathology

JAFFEE, KIM D: Ph.D., University at Albany; M.S.W., B.S., Ohio State University; Associate Professor Emerita, Social Work

JAHNG, MI ROSIE: Ph.D., University of Missouri; M.A., University of Texas; B.A., Sooemyung Women's University; Assistant Professor, Communication

JAMEEL, CHAOYN L.: Ph.D., M.Ed., Wayne State University; B.A., Kalamazoo College; Clinical Assistant Professor, Education, Teacher Education

JAMESDANIEL, SAMSON: M.D., B.S.M.S., Tamil Nadu Dr.M.G.R. Medical University; Ph.D. University of Madras; Assistant Professor (Research Educator), Family Medicine and Public Health Sciences, Assistant Professor (Research Educator), Institute of Environmental Health Sciences

JAMIL, SAMIR: M.D., Mosul University; Clinical Assistant Professor, Pediatrics

JANISSE, JAMES: Ph.D., Wayne State University; Associate Professor, Family Medicine and Public Health Sciences

JANKENS, ADRIENNE: Ph.D., Wayne State University; M.A., Central Michigan University; B.A., Valparaiso University; Assistant Professor, English

JANSONS, MARCIS: Ph.D., B.S., Rutgers University; M.S., New Jersey Institute of Technology; Associate Professor, Mechanical Engineering

JAVANBAKHT, ARASH: M.D., Mashhad University of Medical Sciences; Assistant Professor (Research Educator), Psychiatry and Behavioral Neurosciences

JAYYOUSI, THAER: Ph.D., M.S., B.S., Wayne State University; Senior Lecturer, Computer Science

JEFFERSON, LOUISE M.: Ph.D., M.A., University of Illinois; B.A., Hunter College; Associate Professor Emeritus, French

JEN, K.L. CATHERINE: Ph.D., M.A. Wayne State University; B.S., University of Taiwan; Professor, Nutrition and Food Science

JENA, BHANU P.: Ph.D., Iowa State University; B.S., Utkal University; University Professor, Physiology

JENSEN SUMMERS, GAIL A.: Ph.D., University of Minnesota; M.S., Iowa State University; B.A., Southern Connecticut State College; Professor, Economics

JEONG, JI-HOE: Ph.D., University of Southern California at Los Angeles; Assistant Professor, Pediatrics

JHA, ANAND: Ph.D., Indiana University; B.A., Wabash College; Associate Professor, Finance

Jiang, Shanhe: Ph.D., State University of New York; M.A., Nankai University; B.A., Wuhan University; Professor, Criminology and Criminal Justice

JIMENEZ, LINDA: M.Ed., B.S., Wayne State University; Lecturer, Education, Administrative & Organizational Studies
JOHNS, SHANTALEA: Ed.D, M.S.W. B.S.W., Wayne State University; Lecturer, Social Work

JOHNSON, CHRISTINE: M.S. in Occupational Therapy, Wayne State University; B.A. in Health Sciences, Wayne State University; Assistant Professor, Occupational Therapy Program

JOHNSON, LARS: Ph.D., M.A., University of Houston; B.A., Tougaloo College; Assistant Professor, Psychology

JOHNSON, III, OLLIE A.: Ph.D., M.A., University of California - Berkeley; M.A., B.A., Brown University; Professor and Chair, African American Studies

JOINER, MICHAEL: Ph.D, Institute of Cancer Research, University of London; M.A., B.A., Queens' College; Professor, Oncology (Cancer Biology)

JONES, DEBORAH K.: Ph.D., Kent State University; B.A., Southern Illinois University; Associate Professor (Teaching), Accounting

JONES, KERIN A.: M.D., Wayne State University; M.S., University of Michigan; B.A., Northwestern University; Associate Professor (Clinician-Educator), Emergency Medicine

JONES, LARA: Ph.D., M.S., University of Georgia; B.S., University of North Carolina at Charlotte; Associate Professor, Psychology

JUHASZ, CSABA: M.D., University Medical School Pecs; Ph.D., Semmelweis Medical University; Professor, Pediatrics, Neurology

JULIAN, SCOTT: Ph.D., Louisiana State University; B.S., B.A., University of Central Florida; Associate Professor, Management and Information Systems

JUN, KYU-NAHM: Ph.D., University of Southern California; MPA, Seoul National University; B.A., Ewha Womans University; Associate Professor, Political Science

JUNG, YUSON: Ph.D., M.A., Harvard University; M.A., B.A., Seoul National University; Associate Professor, Anthropology

JUPENA, URBAN R.: M.F.A., Cranbrook Academy of Art; B.F.A., Philadelphia College of Art; Professor Emeritus, Art

JUZYCH, MARK: M.D., Wayne State University; Professor and Chair, Ophthalmology

K

KABBANI, SARAH: M.D., B.S., American University of Beirut; Assistant Professor, Internal Medicine

KAGEN, ALISA A.: M.S.A., Central Michigan University; B.S.R.T(T), Wayne State University; Clinical Assistant Professor, Radiation Therapy Technology

KAHN, JOEL K.: M.D., B.S., University of Michigan; Clinical Assistant Professor, Internal Medicine

KAHN, STEVEN M.: Ph.D., M.A., University of Maryland; B.S., State University of New York at Stony Brook; Professor, Mathematics

KALE-PRADHAN, PRAMODINI B.: Pharm.D, Philadelphia College of Pharmacy and Science; B.S., University of Wisconsin; Clinical Professor, Pharmacy Practice

KALMAN, LAUREN: M.F.A., The Ohio State University; B.F.A., Massachusetts College of Art; Associate Professor, Art

KAMADA, VITOR: Ph.D., Georgia Institute of Technology; M.A.s, Toulouse School of Economics, State University of Campinas; B.A., University of Sao Paulo; Lecturer, Economics

KAMINSKI, EDWARD: M.D., M.S., B.S., Wayne State University; Clinical Assistant Professor, Anesthesiology

KANDOUZ, MUSTAPHA: Ph.D., Universite de Paris; Associate Professor, Pathology

KANG, MOHAMMAD: M.D., Punjab Medical College; Assistant Professor (Clinician-Educator), Internal Medicine

KAPATOS, GREGORY: Ph.D., M.S., University of Pittsburgh; B.S., State University of New York College at Cortland; Professor Emeritus, Molecular Genetics and Genomics

KAPLAN, JENNIFER: M.D., Wayne State University; B.S., University of Michigan; Clinical Assistant Professor, Obstetrics and Gynecology

KARCHIN, PAUL E.: Ph.D., M.S., B.S., Cornell University; Professor, Physics

KARR, W. THOMAS: M.F.A., University of Alabama; B.A. University of Tennessee; Lecturer, Theatre

KASETA, MICHELE: M.Ed., B.S., Wayne State University; Assistant Professor (Teaching), Education, Teacher Education

KASHEF, MINUCHEHR: M.D., Pahlavi University; Clinical Assistant Professor, Obstetrics and Gynecology

KASHIAN, DANIEL M.: Ph.D., University of Wisconsin, Madison; M.S., B.S., University of Michigan; Professor and Associate Chair, Biological Sciences

KASHIAN, DONNA R.: Ph.D., University of Wisconsin; M.S., Michigan State University; B.S., Eastern Michigan University; Professor, Biological Sciences, Director Environmental Sciences

KASSA, MARY: Au.D., B.A., Wayne State University; Lecturer, Communication Sciences and Disorders

KASZETA, KRISTEN: M.A., Wayne State University; B.B.A, Saginaw Valley State University; Lecturer, Education, Kinesiology, Health and Sport Studies

KATO, IKUKO: M.D., Nagoya Health University; Ph.D., Fujita-Gakuen Health University; Professor, Oncology, Pathology

KAUFFMANN, LEISA A.: Ph.D., M.A., University of Illinois at Urbana-Champaign; B.A., San Francisco State University; Associate Professor, Spanish

KAUFFMANN, KRISTIANA: M.D., Wayne State University; M.P.H., University of Illinois at Chicago; B.S., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

KAUR, SATINDER: M.D., University of Kashmir Srinagar; Assistant Professor (Clinician-Educator), Obstetrics and Gynecology

KAVDIA, MAHENDRA: Ph.D., Oklahoma State University; M.Tech, Indian Institute of Technology; B.Tech, Indian Institute of Technology; Associate Professor, Biomedical Engineering

KCOMT, LUISA: Ph.D., B.S.W., University of Windsor; M.S.W., Wilfrid Laurier University; Assistant Professor, Social Work

KEASHLY, LORALEIGH: Ph.D., University of Saskatchewan; M.A., University of New Brunswick; B.A., University of Calgary; Professor, Communication, Distinguished Service Professor
KESSLER, ERIC: Ph.D., M.P.H., University of California-Berkeley; B.A., Massachusetts Institute of Technology; Professor, Pharmacology, Internal Medicine

KESSEL, DAVID H.: Ph.D., M.S., University of Michigan; B.S., Boston University; Assistant Professor, History

KESSEL, ERIC: Ph.D., M.P.H., University of California-Berkeley; B.A., University of Michigan; Assistant Professor (Teaching), Marketing and Supply Chain Management

KEYES, PAUL H.: Ph.D., University of Maryland; B.S. Rensselaer Polytechnic Institute; Professor Emeritus, Physics

KEYS, FAYETTA: M.J., D.L., Widener University; M.S.W., University of Pennsylvania; M.L.S., University of Pittsburgh; B.A., Howard University; Clinical Associate Professor, Social Work

KHAI, LYUMLA: M.D., Michigan State University; M.S., Wayne State University; B.S., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

KHAHAN, ADEEBA: M.D., Sri Venkati Sai Medical College; Clinical Instructor, Pediatrics

KLAN, SAEEED: J.D., Thomas M. Cooley Law School; M.A., Wayne State University; B.A., University of Michigan; Lecturer, Near Eastern and Asian Studies

KHAWAJA, AYAZ: M.B.B.S., King Edward Medical University; Assistant Professor (Clinical-Educator), Neurology

KHEIBARI, ATHENA: Ph.D., University of Kentucky; M.A., Ball State University; B.A., University of Michigan; Assistant Professor, Social Work

KOYOS, PRAMOD: Ph.D., University of Western Ontario; M.Sc., B.Sc., Newcastle University; Associate Professor, Nutrition and Food Science

KHURRAM, ALI: Ph.D. and M.S., Southern Illinois University; M.S., Quaid-i-Azam University; B.S., University of the Punjab; Lecturer, Mathematics

KIBLER, LOUIS: Ph.D., B.A., Indiana University; Associate Professor Emeritus, Italian

KIDDER, BENJAMIN: Ph.D., University of Minnesota; B.A., Saint Olaf College; Assistant Professor, Oncology (Cancer Biology)

KIESZOWSKI, JOSEPH C.: M.S., Wayne State University; B.S., Liberty University; Assistant Professor (Clinical), Nurse Anesthesia

KILBEY, M. MARLYNE: Ph.D., M.A., University of Houston; B.A., Oklahoma Baptist University; Professor Emerita, Psychology

KILGORE, PAUL: M.D., Wayne State University; M.P.H., B.S., University of Michigan; Associate Professor, Pharmacy Practice

KILLION, THOMAS: Ph.D., University of New Mexico; M.A., B.A., University of Connecticut; Associate Professor, Anthropology

KIM, HAROLD E.: M.D., Northwestern University; B.S., Loyola University; Professor (Clinician-Educator), Oncology (Radiation Oncology)

KIM, HYEONG-REH: Ph.D., Northwestern University; Professor, Pathology

KIM, KYOUNG-YUN: Ph.D., University of Pittsburgh; M.S., Chonbuk National University; Professor, Industrial and Systems Engineering

KIM, SEONG HO: M.D., Kyung Hee University; Ph.D., M.S., University of Ulsan; Associate Professor, Oncology (Cancer Biology)

KIM, STEVE: M.D., Columbia University College of Physicians & Surgeons; B.S., Massachusetts Institute of Technology; Associate Professor (Clinician-Educator), Surgery

KIN, ANDREW D.: M.D., University of Cincinnati College of Medicine; B.S., Ohio State University; Assistant Professor (Clinical), Oncology

KING, ANDREW: M.D., Washington University in St. Louis, B.A., Northwestern University; Assistant Professor (Clinician-Educator), Emergency Medicine

KIPERMAN, SARAH: Ph.D., M.Ed., Ed.S., Georgia State University; M.A., New York University; B.A., Indiana University; Assistant Professor, Education, Theoretical and Behavioral Foundations

KIRCHMEYER, CATHERINE: Ph.D., M.B.A., York University; B.S., University of Guelph; Associate Professor Emeritus, Management and Information Systems

KISSNER, DANA G.: M.D., University of Michigan; M.A.T, Johns Hopkins University; B.A., Barnard College; Associate Professor (Clinician-Educator) Emeritus, Internal Medicine

KLAM, CHARLES: Ph.D., M.S., University of Cincinnati; B.A., Northern Kentucky University; Associate Professor, Criminology and Criminal Justice

KLEIIN, JOHN R.: Ph.D., M.A., Brandeis University; B.A., Northwestern University; Professor, Mathematics

KLEIIN, JULIE: Ph.D., D.A., M.A., B.A., University of Oregon; Professor Emerita, English

KLIN, ALINA: Ph.D, M.A., Uniwersytet Jagiellonski; Senior Lecturer, Polish
KLINE, JEFFREY: M.D., Medical College of Virginia; B.S., Virginia Polytechnic Institute and State University; Professor, Emergency Medicine

KLINE, K.A.: Ph.D., B.S., University of Minnesota; Professor Emeritus, Mechanical Engineering

KLINE, LAURA: Ph.D., M.A., University of Michigan; B.A., Georgetown University; Senior Lecturer, Russian

KLISZ-HUBERT, REBECCA: M.D., B.S., Wayne State University; Instructor (Clinician-Educator), Psychiatry and Behavioral Neurosciences

KLUEH, ULRIKE: Ph.D., M.S., University of Connecticut; B.A.Sc., University of Applied Sciences Mittelhessen; Associate Professor, Biomedical Engineering

KNAPP, CHRISTINE: Ph.D., M.A., Western University; B.A.H., University of Windsor; Lecturer, French

KOCAREK, THOMAS A.: Ph.D., B.S., Ohio State University; Professor, Pharmacology, Institute of Environmental Health Sciences

KODANKO, JEREMY: Ph.D., University of California at Irvine; B.S., University Wisconsin, Madison; Associate Professor and Associate Chair, Chemistry

KOEHLER, JULIE: Ph.D., M.A., Wayne State University; M.A., B.A., University of Michigan; Lecturer, German

KOHN, THOMAS D.: Ph.D., University of Minnesota; B.A., Carleton College; Associate Professor, Classics, Greek and Latin

KOO, HYUN JEONG: Ph.D., University of Texas at Austin; M.S., University of Illinois at Urbana-Champaign; M.S., Yonsei University; B.S., Hanyang University; Assistant Professor, Engineering Technology, Civil Engineering

KOPETZ, CATALINA: Ph.D., University of Maryland, College Park; M.S., Universite de Savoie; B.S., Babes-Bolyai University; Associate Professor, Psychology

KORKIS, BIANCA: Pharm.D., University of Michigan; Assistant Professor (Clinical), Pharmacy Practice

KORZEWSKI, STEVEN: Ph.D., M.S., Michigan State University; Associate Professor Clinical, Family Medicine and Public Health Sciences

KOSIR, MARY ANN: M.D., Wayne State University; B.S., University of Detroit; Professor Clinician Educator, Surgery

KOTOV, ALEXANDER: Ph.D., M.S., University of Illinois at Urbana-Champaign; B.S., Tver State Technical University; Assistant Professor, Computer Science

KOTTAM, ANUPAMA: M.D., Gandhi Medical College; Assistant Professor (Clinician-Educator), Internal Medicine

KOU, ZHIFENG: Ph.D., M.S., North Dakota State University; B.S., Shanghai Tiedao University; B.S., Shanghai Institute of Railway Technology; Associate Professor, Biomedical Engineering

KOYVOUUMIJAN, SARKIS: M.D., B.S., Wayne State University; Assistant Professor (Clinician-Educator), Emergency Medicine

KOVARI, LADISLAU C.: Ph.D., University of Tennessee; M.S., B.S., University of Bucharest; Professor, Biochemistry and Molecular Biology, Adjunct Associate Professor, Pharmaceutical Sciences

KOWLURU, RENU: Ph.D., Central Drug Research Institute and Kanpur University; M.S., Lucknow University; Professor, Anatomy and Cell Biology, Ophthalmology

KOWLURU, RENU: Ph.D., Central Drug Research Institute and Kanpur University; M.S., Lucknow University; Professor, Anatomy and Cell Biology, Ophthalmology

KRAFT, SHELLEY JO: Ph.D., University of Illinois; M.A., B.A., Michigan State University; Associate Professor, Communication Sciences and Disorders

KRAL, MICHAEL: Ph.D, McGill University; Ph.D, M.A., California School of Professional Psychology; B.A., University of Guelph; Associate Professor, Social Work

KRAWETZ, STEPHEN A.: Ph.D., B.S., University of Toronto; Professor, Obstetrics and Gynecology, Molecular Medicine and Genetics

KRELL, WILLIANE S.: M.D., Wayne State University; B.S., University of Michigan; Associate Professor (Clinician-Educator), Internal Medicine

KRISHER, KAREN K.: Ph.D., B.S., University of Oklahoma; Clinical Associate Professor, Clinical Laboratory Science

KRISHNAN, K.S.: Ph.D., University of Pennsylvania; M.S., Indian Statistical Institute; B.A., Vivekananda College; Associate Professor Emeritus, Marketing and Supply Chain Management

KRITZMAN, BRIAN: M.F.A., Cranbrook Academy of Art; B.F.A., Wayne State University; Associate Professor, Art, Interim Chair, Department of Art and Art History

KRUGEL, RICHARD: M.D., B.S., University of Michigan; Assistant Professor (Clinician-Educator), Orthopaedic Surgery

KRUMAN, MARC W.: Ph.D., M.A., Yale University; B.S., Cornell University; Professor, History

KU, JERRY C.: Ph.D., M.S., State University of New York at Buffalo; B.S., Tatung Institute of Technology; Associate Professor, Mechanical Engineering

KUBIAK, SHERYL: Ph.D., M.S.W, University of Michigan; B.A., Madonna University; Professor, Social Work

KUHN, DONALD M.: Ph.D., University of South Carolina; B.S., Presbyterian College; Professor, Psychiatry and Behavioral Neurosciences, Associate Professor, Molecular Medicine and Genetics

KUHNEN, CLAAS: M.F.A., Bowling Green University; Diploma, HAWK University of Applied Sciences and Arts; Lecturer, Art and Art History

KULCHANIA, MANOJ: Ph.D., University of Pittsburgh; M.S., Indiana University; B.S., Indian Institute of Technology; Associate Professor, Finance

KULIK, NOEL: Ph.D., University of North Carolina; M.A., B.A., Wayne State University; Associate Professor, Education, Kinesiology, Health and Sport Studies

KUMAR, ASHOK: Ph.D., Post Graduate Institute of Medical Education and Research; Assistant Professor, Ophthalmology, Anatomy and Cell Biology

KUMAR, ROHINI: Ph.D., University of Wisconsin-Madison; M.S., B.S., Bangalore University; Associate Professor, Mathematics
KUMAR, V. ARUN: M.D., Calcutta National Medical College; M.P.H., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

KUMASI, KAFI D.: Ph.D., Indiana University; M.L.I.S., Wayne State University; B.S., University of Michigan; Associate Professor, Information Sciences

KUO, TUAN HUEY: Ph.D., Cornell University; Professor Emeritus, Pathology

KUPSKEY, WILLIAM J.: M.D., Harvard University; B.S., Massachusetts Institute of Technology; Professor (Clinician-Educator), Pathology, Neurology

KWON, SUNGJOUNG: Ph.D., Drexel University; M.S. Michigan State University; M.B.A., B.S., Sogan University; Assistant Professor, Finance

LAGINA, ANTHONY: M.D., Wayne State University; B.S., Michigan State University; Assistant Professor (Clinician-Educator), Emergency Medicine

LAI, MING-CHIA: Ph.D., M.S., Pennsylvania State University; Professor, Mechanical Engineering

LAI, QIN: Ph.D., Texas A & M University; M.Ed., B.S., Beijing University of Physical Education; Associate Professor, Education, Kinesiology, Health and Sport Studies

LALA, MONIK: M.D., American University of the Caribbean; B.S., University of Michigan; Clinical Instructor, Radiology

LAM, MAI T.: Ph.D., M.S.E., B.S.E., University of Michigan; Assistant Professor, Biomedical Engineering

LAMBERTON, LEROY L.: J.S.D., Columbia University; LL.M., Yale University; LL.B., Western Reserve University; A.B., Oberlin College; Professor Emeritus, Law

LANCASTER, WAYNE: Ph.D., Wayne State University; M.S., University of Dayton; B.S., Adrian College; Professor Emeritus, Molecular Genetics and Genomics, Obstetrics and Gynecology

LAND, SUSAN: Ph.D., Wayne State University; Associate Professor (Research), Obstetrics and Gynecology

LANNI, MELINDA: M.A., B.A., Wayne State University; Lecturer, Mathematics

LANZA, JANINE: Ph.D., M.A., Cornell University; B.A., University of Chicago; Associate Professor, History, Director, Gender, Sexuality and Women's Studies

LARSON, MATTHEW: Ph.D., Arizona State University; M.A., Wayne State University; B.A., Sienna Heights University; Associate Professor, Criminology and Criminal Justice

LARSON-VOLTZ, EVAN: M.F.A., Cranbrook Academy of Art; B.A., University of Wisconsin-Milwaukee; Associate Professor, Art

LASCH, JONATHAN: D.M.A., University of Michigan; M.Mus., B.Mus., University of Hartford; Assistant Professor, Music

LASH, LAWRENCE H.: Ph.D., Emory University; B.A., Case Western Reserve University; Professor, Pharmacology

LASLEY, ROBERT D.: Ph.D., State University of New York; M.S., University of Virginia; B.A., University of North Carolina-Chapel Hill; Professor and Graduate Officer, Physiology

LATAWIEC, AMY: Ph.D., M.A., B.A., Wayne State University; Associate Professor of Teaching, English

LAVERNZ, STEVEN: Ph.D., Purdue University; M.S., B.S., Iowa State University; Assistant Professor, Civil and Environmental Engineering

LAWSON, DAVID M.: Ph.D., Cornell University; M.S. and B.S., Virginia Polytechnic Institution; Professor Emeritus, Physiology

LEAN, SHARON F.: Ph.D., University of California, Irvine; M.A., Facultad Latinoamericana de Ciencias Sociales; B.A., Brown University; Associate Professor, Political Science

LEANDER, N. PONTUS: Ph.D., Duke University; M.A., Duke University B.A., Georgia State University; Associate Professor, Psychology

LEBIEDZIK, CATHERINE: Ph.D., M.A., University of Virginia; B.S., Pennsylvania State University; Associate Professor, Mathematics

LEBOLD, SUSAN M.: J.D., B.S. The Ohio State University; M.S.W Boston University; Lecturer, Social Work

LEDGERWOOD, ANNA M.: M.D., Marquette University; B.A., Gonzaga University; Professor, Surgery

LEDGERWOOD, DAVID: Ph.D., University of Windsor; Professor, Psychiatry and Behavioral Neurosciences

LEE, CHEOL: Ph.D., M.S., State University of New York at Buffalo; M.B.A., B.A., Sung Kyun Kwan University; Professor, Accounting

LEE, JAE-GUL: Ph.D., Carnegie Mellon; M.S., Georgia Institute of Technology; M.S., University of Missouri; B.S., Korea Advance Institute of Science and Technology; Associate Professor, Management and Information Systems

LEE, KYUN-GHEE: Ph.D., M.S., B.S., Korea Advanced Institute of Science and Technology; Assistant Professor, Management and Information Systems

LEE, PEI-CHUNG: Ph.D., Case Western Reserve University; M.S., National Yang-Ming University, Taiwan; B.S., National Tsing-Hua University, Taiwan; Assistant Professor, Biological Sciences

LEFF, TODD: Ph.D., University of Indiana; Associate Professor, Pathology

LEIRSTEIN, CHRISTOPHER: M.A., B.S., Wayne State University; Senior Lecturer, Mathematics

LENOFF, SARAH W.: Ph.D., Michigan State University; M.S., Pace University; B.A., University of Georgia; Assistant Professor, Education, Administrative & Organizational Studies

LENNER, STEPHEN A.: M.D., A.B., Harvard University; Professor Emeritus, Internal Medicine

LESNIK, JULIE: Ph.D., University of Michigan; B.A., Northern Illinois University; Associate Professor, Anthropology

LEVI, ARIEL: Ph.D., Yale University; B.A., University of California at Los Angeles; Associate Professor (Teaching), Management and Information Systems

LEVINE, DIANE: M.D., B.S., Wayne State University; Associate Professor (Clinician-Educator), Internal Medicine

LEVY, PHILIP M.D., New York Medical College; M.P.H., University of Michigan; Professor, Emergency Medicine
LEWALSKI, PHILIP A.: M.D., B.S., Wayne State University; Assistant Professor (Clinician-Educator), Emergency Medicine

LEWIS, JENNIFER: Ph.D., University of Michigan; M.A., B.A., University of California; Associate Professor, Education, Teacher Education

LEWIS, NICHOLAS: M.D., Wayne State University; B.S. University of Michigan; Clinical Assistant Professor, Radiology

LI, BIN: Ph.D., University of North Carolina at Chapel Hill; M.A., B.A., Beijing Foreign Studies University; Senior Lecturer, Information Sciences

LI, HENGUANG: Ph.D., Pennsylvania State University; B.S., Peking University; Professor and Chair, Mathematics

LI, JING: Ph.D., National University of Singapore; M.S., B.S., West China University of Medical Sciences; Professor, Oncology (Cancer Biology)

LI, JUN: M.D., Anhui Medical University; Ph.D., Hahnemann University; Professor and Chair, Neurology

LI, LI: Ph.D., University of Texas; B.S., University of Science and Technology of China; Professor, Internal Medicine, Molecular Medicine and Genetics

LI, WEN: Ph.D., Stony Brook University; B.S., Peking University; Professor, Chemistry

LIAO, GENE Y.: D.Eng., University of Michigan; Mechanical Engineer (Professional Degree), Columbia University; M.S., University of Texas at Arlington; B.S., National Central University; Professor, Engineering Technology, Graduate Program Director, Electric-drive Vehicle Engineering & Alternative Energy Technology

LICHENBERG, PETER: Ph.D., M.S., Purdue University; B.A., Washington University; Professor, Psychology, Director, Institute of Gerontology

LIEBLER, MICHAEL LYNN: M.A.T., B.A., Oakland University; Associate Professor of Teaching, English

LIENING, MARYELLEN: M.A., Wayne State University; B.A., Michigan State University; Instructor (Clinical), Communication Sciences and Disorders

LIKAKA, OSUMAKA: Ph.D., University of Minnesota; M.A., University of Lubumbashi; Associate Professor, History

LIN, FENG: Ph.D., M.A.Sc., University of Toronto; B.Eng, Shanghai Jiao-Tong University; Professor, Electrical and Computer Engineering

LIN, HO-SHENG: M.D., Yale University School of Medicine; B.S., University of California, Irvine; Professor (Clinician-Educator), Otolaryngology

LINTVEDT, RICHARD L.: Ph.D., University of Nebraska; B.A., Lawrence University; Professor Emeritus, Chemistry

LINZ, THOMAS H.: Ph.D., University of Kansas; B.S., Truman State University; Assistant Professor, Chemistry

LIPARI, MELISSA: Pharm.D., Wayne State University; Clinical Assistant Professor, Pharmacy Practice

LIPCHIK, ANDREW: Ph.D., Purdue University; B.S., Xavier University; Assistant Professor, Pharmaceutical Sciences

LISAk, ROBERT P.: M.D., Columbia University; B.A., New York University; Professor, Neurology, Immunology and Microbiology

LIST, KARIN: Ph.D., M.Sc., University of Copenhagen; Associate Professor, Pharmacology

LITTLEJOHN, EDward J.: LL.M., J.S.D., Columbia University; J.D., Michigan State University; B.A., Wayne State University; Professor Emeritus, Law

LIU, HAIPENG: Ph.D., Purdue; M.S., Huazhong University of Science and Technology, Assistant Professor, Chemical Engineering and Materials Science

LIU, HAIYONG: Ph.D., University of California, Los Angeles; M.A., Wayne State University; B.A., Beijing University, Professor, Chinese

LIU, JOHN: Ph.D., University of Southern California; M.S., New Mexico State University; M.S., Peking Deport; B.S., Peking University; Associate Professor, Electrical and Computer Engineering

LIU, WANQING: Ph.D., Shanghai Institute of Physiology, Chinese Academy of Sciences; Associate Professor, Pharmaceutical Sciences

LIU, XING: Ph.D., University of South Carolina; Assistant Professor, Management and Information Systems

LIU, YANCHAQ: Ph.D., University of Wisconsin; M.S., University of Arkansas; B.S., Huazhong University of Science and Technology; Assistant Professor, Industrial and Systems Engineering

LIU, YOUCHENG: M.D., Nanjing Medical University; M.P.H., Beijing Medical University; Associate Professor, Family Medicine and Public Health Sciences

LIU, ZHENFENG: Ph.D., University of California at Irvine; B.S., Peking University; Assistant Professor, Chemistry

LLOPE, WILLIAM J.: Ph.D., M.S., State University of New York at Stony Brook; B.A., University of Michigan; Associate Professor, Physics

LOBKOVICH, ALISON: Pharm.D., Wayne State University; B.S., Wayne State University; Assistant Professor (Clinical), Pharmacy Practice

LOH, CAROLYN G.: Ph.D., M.U.P., B.A., University of Michigan; Associate Professor, Urban Studies and Planning

LOLAR, SARA: M.S., Wayne State University; Assistant Professor (Clinical), Physician Assistant Studies

LOMBARD, LAWRENCE B.: Ph.D., Stanford University; A.B., Cornell University; Professor, Philosophy

LONARDO, FULVIO: M.D., 2nd Medical School, Naples, Italy; Professor (Clinician-Educator), Pathology

LONG, JUSTIN: J.D., University of Pennsylvania; A.B., Harvard University; Associate Professor, Law

LONG, LUO: Ph.D., University of Utah; B.S., Beijing University of Aeronautics and Astronautics; Assistant Professor, Chemistry

LOUGHERY, BRIAN: Ph.D., Wayne State University; M.S., San Diego State University; B.S., University of Notre Dame; Assistant Professor (Clinical), Oncology (Radiation Oncology)

LOVE-SCHROPSHIRE, NORMA: D.S.W., University of St. Thomas; M.S.W., University of Michigan; B.S., Eastern Michigan University; Lecturer, Social Work

LOW, JAMES T.: Ph.D., M.B.A., B.A., University of Michigan; Associate Professor Emeritus, Marketing and Supply Chain Management
LJU, SHIYONG: Ph.D., State University of New York at Stony Brook; M.E., Institute of Computing Technology, Chinese Academy of Sciences; B.E., University of Science and Technology of China; Professor, Computer Science

LUBLIN, ELIZABETH DORN: Ph.D., University of Hawaii; M.A., University of Michigan; B.A., Yale University; Associate Professor, History

LUBORSKY, MARK: Ph.D., University of Rochester; B.A., Hobart College; Professor, Anthropology

LUCA, FRANCESCA: Ph.D., University of Calabria; Associate Professor, Molecular Genetics and Genomics

LUCAS, CHARLES E.: M.D., Wayne State University; B.S., University of Detroit; Professor, Surgery

LUCAS, LORI: Ed.S., Wayne State University; Assistant Professor (Teaching), Education, Teacher Education

LUND, CHRISTOPHER C.: J.D., University of Texas; B.A., Rice University; Professor, Law

LUNDAHL, LESLIE: Ph.D., M.S., University of Wisconsin; B.S., DePaul University; Assistant Professor, Psychiatry and Behavioral Neurosciences

LUPOVITCH, HOWARD: Ph.D., Columbia University; M.A., B.A., University of Wisconsin; Associate Professor, History

LUQMAN, ALI: M.D., University of Miami; Assistant Professor, Neurological Surgery

LYCH, WILLIAM: Ph.D., M.A., Cornell University; M.S., Virginia Polytechnic Institute; B.A., Rensselear Polytechnic Institute; Professor, History

LYONS, BARRY J.: Ph.D., M.A., University of Michigan; B.A., Washington University; Associate Professor, Anthropology

LYSACK, CATHERINE L.: Ph.D., B.A., B.M.R., University of Manitoba; M.Sc., Queen's University; Professor, Occupational Therapy

MACALI, HEATHER: M.F.A, University of Wisconsin; B.A., Kent State University; Associate Professor, Art

MACDONALD, KATIE: M.F.A., Cranbrook Academy of Art; B.A., University of Wisconsin-La Crosse; Lecturer, Art

MACDONELL, KAREN: Ph.D., Loyola University; M.S., DePaul University; B.A., Kalamazoo College; Associate Professor Research Educator, Family Medicine and Public Health Sciences

MACK, SHIRLEY A.: Ph.D., B.A., Wayne State University; B.S., Western Michigan University; Lecturer, Education, Theoretical and Behavioral Foundations

MADDEN, ERIN: Ph.D., University of Wisconsin; M.P.H., University of New Mexico; Assistant Professor, Family Medicine and Public Health Sciences

MADDIPATI, KRISHNA RAO: Ph.D., India Non-Medical School; Associate Professor (Research), Pathology

MADIGAN, BRIAN: Ph.D., University of Minnesota; M.A., University of New Brunswick; M.A., B.A., Rutgers University; Associate Professor, Art History

MAGIDSON, DAVID J.: Ph.D., University of Utah; M.S., B.S., University of Wisconsin; Professor, Theatre

MAGNUS, LAUREN: Ph.D., M.A., B.S., Wayne State University; Assistant Professor (Clinical), Education, Theoretical and Behavioral Foundations

MAGUIRE, KATHRYN C.: Ph.D., B.S., University of Texas at Austin; M.A., University of North Texas; Professor and Chair, Communication

MAHABIR, NARESH: M.A., B.A., Wayne State University; Lecturer, Mathematics

MAHAS, RACHEL: Ph.D., University of Toledo; M.P.H., Georgia Southern University; M.P.H. Program Director and Assistant Professor Clinical, Family Medicine and Public Health Sciences

MAHER, SARA F.: D.Sc.P.T., Oakland University; M.P.T., B.S., Wayne State University; B.A., Western Michigan University; Associate Professor (Clinical), Physical Therapy

MAHENDRA, SYED M.: Ph.D., University of Washington; B.S.E.E., Bangladesh University of Engineering and Technology; Associate Professor, Electrical and Computer Engineering

MAHONEY, JOAN: Ph.D., Cambridge University; J.D., Wayne State University; A.M., A.B., University of Chicago; Professor Emerita, Law

MAIER, JORDAN: M.D., Wayne State University; B.A., University of Michigan; Assistant Professor (Clinician-Educator), Oncology (Radiation Oncology)

MAJUMDER, ADHIP N.: D.Sc., University of Aarhus; Ph.D., M.S., University of London; B.S., University of Kalyani; Professor Emeritus, Internal Medicine

MAJUMDER, ABHIJIT: Ph.D., McGill University; M.Sc., B.Sc., Indian Institute of Technology-Kharagpur; Associate Professor, Physics

MAKAR-LIMANOV, LEONID: Ph.D., M.S., Moscow State University; Professor, Mathematics

MALEK, MOH: Ph.D., University of Nebraska-Lincoln; M.S., California State University Fullerton; B.A., The Claremont Colleges, Pitzer College; Associate Professor, Physical Therapy

MALINOWSKI, CHRISTINE: D.N.P., B.S.N., Wayne State University; Instructor (Clinical), Nursing

MANKE, CHARLES W.: M.S., Ph.D., University of California at Berkeley; B.S, Oregon State University; Professor, Chemical Engineering and Materials Science, Associate Dean, Faculty Affairs

MANNING, MARK: Ph.D., M.S., University of Massachusetts; B.A., Brown University; Assistant Professor, Oncology

MARAWAR, ROHIT: M.B.B.S., Government Medical College and Hospital Nagpur; Assistant Professor (Clinician-Educator), Neurology

MARBACK, RICHARD C.: Ph.D., University of Illinois at Chicago; M.A., University of Chicago; B.A., Illinois Wesleyan University; Professor, English

MARINOVA, NADEJDA K.: Ph.D., University of Southern California; M.S., Georgia Institute of Technology; B.A., Georgia College and State University; Assistant Professor, Political Science

MARKMAN, BARRY S.: Ph.D., Emory University; M.A., Hollins College; B.S., University of Maryland; Professor and Program Coordinator, Education, Administrative & Organizational Studies
MARKOU, KYPROS: M.Mus., New England Conservatory of Music; Perf. Dipl., Royal College of Music; Professor, Music

MAROTTI, ARTHUR F.: Ph.D., Johns Hopkins University; A.B., Fordham College; Distinguished Professor Emeritus, English

MARRERO, KAREN: Ph.D., M.A., M.Phil, Yale University; M.A., B.A., University of Windsor; Associate Professor, History

MARSH, H. MICHAEL: B.Sc. (Med.), M.B., B.S., University of Sydney; Professor, Anesthesiology

MARSHALL, SHARON: M.D., University of Missouri, Columbia; B.A., University of Missouri, St. Louis; Associate Professor (Clinician-Educator), Pediatrics

MARTIN, RAUL: M.A., B.A., Wayne State University; Lecturer, Mathematics

MARTIN, AARON: Ph.D., M.A., Wayne State University; B.A., Oakland University; Senior Lecturer, Irvin D. Reid Honors College

MARTIN, JAMES E.: Ph.D., M.B.A., Washington University; B.A., Antioch College; Professor Emeritus, Management and Information Systems, Industrial Relations

MARTIN, JEFFREY: Ph.D., M.S., University of North Carolina-Greensboro; B.S., Brock University; B.A., Bowling Green State University; Professor, Education, Information Science and Technology; Assistant Professor, Management and Information Systems

MARTIROSOV, AMBER LANAE: Pharm.D., Virginia Commonwealth University; M.Sc., University of Texas; Assistant Professor - Clinical, Pharmacy Practice

MARIYA, LISA: Ph.D., Case Western Reserve University; B.A., College of William and Mary; Associate Professor, English

MARUPUDI, NEENA: M.D., Penn State University; M.S., B.S., Johns Hopkins University; Assistant Professor, Neurological Surgery

MASON, PATRICK: M.S., Oakland University; B.S., Oakland University; Lecturer, Education, Information Science and Technology; Assistant Professor, Educational Psychology

MASOUD, SARA: Ph.D., M.S., University of Arizona; B.S., Sharif University of Technology; Assistant Professor, Industrial and Systems Engineering

MASTERS, MARICK: Ph. D., B.S., University of Illinois; M.P.A., Southern Illinois University; Professor, Management and Information Systems, Chair, Accounting and Finance

MASTROMATTEO, JAMES: M.D., Wayne State University; B.S., Oakland University; Clinical Assistant Professor, Radiology

MASUDA, RIE: M.A., University of Northern Iowa; B.A., Kansai Gaidai University; Lecturer, Japanese

MATEKA, JASON H.: Ph.D., M.S., University of Toronto; B.S. University of Guelph; Professor, Physiology, Internal Medicine

MATHERLY, LARRY H.: Ph.D., Pennsylvania State University; B.S., New Mexico State University; Professor, Oncology (Cancer Biology), Pharmacology

MATTIE, HOWARD: Ph.D., M.S., Wayne State University; B.S., University of the West Indies; Professor, Chemical Engineering and Materials Science

MATTI, ANDREA: Ph.D., Michigan State University; B.Sc., Madonna University; Senior Lecturer, Chemistry

MATTINGLY, RAYMOND R.: Ph.D., University of Virginia; M.A., B.A., University of Cambridge; Professor Emeritus, Pharmacology

MATTOO, TEJ: M.D., University of Kashmir; Professor (Clinician-Educator), Pediatrics

MAUN, CAROLINE: Ph.D., University of Tennessee; M.A., North Carolina State University; B.A., Eckerd College; Associate Professor and Chair, English

MAURER, JOHN G.: Ph.D., M.B.A., Michigan State University; B.S., University of Detroit; Professor Emeritus, Management and Information Systems

MCCAUGHTRY, NATHAN: Ph.D., University of Alabama; M.S., B.A., University of Wisconsin, LaCrosse; Assistant Dean and Professor, Education, Kinesiology, Health and Sport Studies

MCCONACHIE, SEAN: Pharm.D., Wayne State University; B.S., Michigan State University; Assistant Professor - Clinical, Pharmacy Practice

MCCORMICK, PATRICIA K.: Ph.D., Michigan State University; M.A., Howard University/Michigan State University; B.A., University of Michigan; Associate Professor, Communication

MCDOUGAL, DARELL: Ph.D., Michigan State University; M.S., B.S., Michigan State University; Associate Dean and Professor, Communication

MCGRATH, ERIC: M.D., Wayne State University; Assistant Professor (Clinician-Educator), Pediatrics

MCDEVITT, KAREN: Ph.D., M.I.S., B.I.S., Wayne State University; Senior Lecturer, Communication

MCELHURRY, SHAWN: Ph.D., M.S., Michigan State University; B.S., Central Michigan University; Associate Professor, Civil and Environmental Engineering

MCGRATH, ERIC: M.D., Wayne State University; Assistant Professor (Clinician-Educator), Pediatrics

MCINTYRE, CARMEN: M.D., Wayne State University; B.S., University of Michigan; Assistant Professor, Psychiatry and Behavioral Neurosciences

MCKINSEY, T. MICHAEL: Ph.D., Indiana University; M.A., Kansas State University; B.A., Southern Methodist University; Professor Emeritus, Philosophy

MCLEOD, DANIKA L.: M.A., Xavier University; Assistant Professor of Teaching, Criminology and Criminal Justice

MCLEOD, MICHAEL: J.D., University of Michigan; M.P.H., University of North Carolina at Chapel Hill; Assistant Professor Clinical Educator, Family Medicine and Public Health Sciences

MCNAMEE, KATHLEEN: Ph.D., Duke University; A.B., Manhattanville College; Professor Emeritus, Classics

MCNAMEE, KATHLEEN: Ph.D., Duke University; A.B., Manhattanville College; Professor Emerita, Classics, Greek and Latin

MCNEILL, CYNTHERA: D.N.P., Wayne State University; B.S., Coppin State University; Instructor (Clinical), Nursing

MCQUEEN, JAMIE: M.S., B.S., Wayne State University; Clinical Assistant Professor, Physician Assistant Studies

MCWINNIE, DAVID: M.D., University of Toronto School of Medicine; Clinical Assistant Professor, Radiology
MEADE, JILL: Ph.D., Wayne State University; Assistant Professor (Clinician-Educator), Pediatrics

MEHREGAN, DAVID: M.D., Wayne State University; B.A., University of Michigan; Professor (Clinician-Educator) and Chair, Dermatology

MEHRMOHAMMADI, MOHAMMAD: Ph.D., University of Texas at Austin; M.Sc., Illinois Institute of Technology; B.Sc., Sharif University of Technology; Assistant Professor, Biomedical Engineering

MEISEL, JEROME: Ph.D., B.S.E.E., Case Institute of Technology; M.S.E.E., Massachusetts Institute of Technology; Professor Emeritus, Electrical and Computer Engineering

MEJAB, OULGIBENGA: Ph.D., Lehigh University; M.Sc., University of Manchester Institute of Science and Technology; B.Eng, Ahmadu Bello University; Associate Professor, Industrial and Systems Engineering

MELLER, VICTORIA H.: Ph.D., University of North Carolina-Chapel Hill; B.S., Cornell University; Professor and Chair, Biological Sciences

MENALDI, JOSE: M.S., University of Texas-Arlington; B.S., Michigan Tech University; Professor, Mathematics

MENDES-KRAMER, VERALUCIA: M.A., B.A., Madonna University; B.S., Wayne State University; Program Director and Assistant Professor (Clinical), Pathologists’ Assistant

MENKULASI, FATMIR: Ph.D., Virginia Tech; Assistant Professor, Civil and Environmental Engineering

MEROLLA, DAVID M.: Ph.D., M.A., B.A., Kent State University; Associate Professor and Chair, Sociology

MESSMAN, ANNE: M.D., George Washing University; B.S., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

MEYER, DAVID B.: Ph.D., B.A., Wayne State University; M.S., University of Michigan; Professor Emeritus, Anatomy and Cell Biology

MICHALOPOULOU, GEORGIA: Ph.D., M.A., Hofstra University; Associate Professor (Clinician-Educator), Psychiatry and Behavioral Neurosciences

MICHALOS, THOMAS: Ph.D., M.A., B.S., Wayne State University; Lecturer, Education, Theoretical and Behavioral Foundations

MICHELS, JAMES: Ph.D., M.A., Wayne State University; B.A., University of Michigan; A.A., Mott Community College; Assistant Professor, Italian

MIGDAL, STEPHAN D.: M.D., B.S., Wayne State University; Professor (Clinician-Educator) Emeritus, Internal Medicine

MIKA, JOSEPH J.: Ph.D., M.L.S., B.A., University of Pittsburgh; Professor Emeritus, Information Sciences

MILLER, AMANDA: Ph.D., University of Kansas; M.Ed., Northern Arizona University; B.A., Gustavus Adolphus ; Assistant Professor, Education, Teacher Education

MILLER, ANNA G.: M.A., B.A., Wayne State University; Assistant Professor (Teaching), Education, Teacher Education

MILLER, CAROL J.: Ph.D., M.S., B.S., University of Michigan; Professor, Civil and Environmental Engineering

MILLER, DOUGLAS A.: Pharm.D., Philadelphia College of Pharmacy and Science; B.S., Ohio State University; Professor Emeritus, Pharmacy Practice

MILLER, FRED R.: Ph.D., University of Wisconsin; Professor Emeritus, Pathology, Oncology

MILLER, MARGIE: M.S.N., B.S.N., Wayne State University; Instructor (Clinical), Nursing

MILLER, RUSSELL W.: M.Mus, B.Mus, Wayne State University; Associate Professor, Music, Associate Chair

MILLER, STEVEN R.: M.D., Wayne State University; B.S. Michigan Technological University; Associate Professor (Clinical), Oncology (Radiation Oncology)

MILLIS, SCOTT: M.D., University of Cincinnati; Professor, Physical Medicine and Rehabilitation

MINADEO, RICHARD W.: Ph.D., M.S., University of Wisconsin; A.B., Syracuse University; Professor Emeritus, Classics, Greek and Latin

MINIC, ZELJKA: Ph.D., Wayne State University; B.S., University of Detroit Mercy; Assistant Professor (Research-Educator), Emergency Medicine

MIRANDA-HARTSUFF, TRICIA: Ph.D., M.P.H., University of Michigan; B.A., Trinity University; Associate Professor, Public Health

MITRA, BHARATI: Ph.D., Cornell University; M.S., Indian Institute of Technology; B.S., Calcutta University; Professor, Biochemistry and Molecular Biology

MITRA, RAHUL: Ph.D., Purdue University; M.A., Bowling Green State University; B.S., University of Calcutta; Associate Professor, Communication

MITRA, SANTANU: Ph.D., Louisiana State University; M.B.A., University of New Hampshire; C.A., Institute of Chartered Accountants of India; B.Com, M.Com., University of Calcutta; Professor, Accounting

MIXON, ANITA J.: Ph.D., University of Illinois, Urbana-Champaign; M.A., University of Alabama; B.A., Columbia College; Assistant Professor, Communication

MIZUKAMI, HIROSHI: Ph.D., University of Illinois; B.A., International Christian University of Tokyo; Professor Emeritus, Biological Sciences

MODI, SACHIN B.: Ph.D., Indiana University; M.S., University of Cincinnati; B.Eng., University of Pune; Professor and Chair, Marketing and Supply Chain Management

MOGK, JOHN E.: J.D., B.B.A., University of Michigan; Diploma of Comparative Law, University of Stockholm; Professor, Law

MOHAMED, RAYMAN: Ph.D., Cornell; M.Sc., University of South Florida; B.Sc., University of Guyana; Professor and Chair, Urban Studies and Planning

MOHAMED, WAZIM: M.B.B.S., Kasturba Medical College; Associate Professor (Clinician-Educator), Neurology

MOHAMMAD, INSAF: Pharm.D., B.H.S., Wayne State University; Assistant Professor, Pharmacy Practice

MOHAMMAD, RAMZI M.: M.D., M.Sc., Baghdad University; B.S., Mosul University; Professor, Oncology (Cancer Biology)

MOHAMMAD, SAIMA: M.F.A., Parsons School of Design at The New School; B.F.A., Eastern Michigan University; Lecturer, Art

MOHNEY, GRETCHEN: Ph.D., M.A., Western Michigan University; Instructor, Mercyhurst College; Lecturer, Education, Program Director, Athletic Training, Kinesiology, Health and Sport Studies
MOIIN, ALI: M.D., M.A., B.A., University of California; Clinical Associate Professor, Dermatology

MOIN, KAMIR: Ph.D., University of Montana; M.S., University of Wisconsin; B.S., University of Minnesota; Professor (Research), Pharmacology

MOISI, MARC: M.D., New York School of Medicine; Assistant Professor, Neurological Surgery

MOLDAVANOVA, ALISA V.: Ph.D., M.P.A., University of Kansas; B. A., Odessa National Mechnikov University; Associate Professor, Political Science

MOLDENHAUER, JUDITH A.: M.F.A., University of Wisconsin, Madison; M.A., Stanford University; B.F.A., University of Illinois, Urbana; Professor, Art

MONKS, TERRENCE J.: Ph.D., St. Mary's Hospital Medical School, University of London; B.Sc., Hatfield Polytechnic; Professor, Pharmaceutical Sciences

MONTAILISIR, LESLIE: Ph.D., University of Missouri-Rolla; M.S., University of Birmingham; Professor, Industrial and Systems Engineering, Associate Dean, College of Engineering

MONSELL, EDWIN M.: M.D., University of North Carolina; Ph.D., Duke University; B.A., Williams College; Professor (Clinician-Educator), Otolaryngology

MONTAZER, SHIRIN: Ph.D., M.A., B.A., University of Toronto; Assistant Professor, Industrial Engineering

MONTILUS, GUERIN: Ph.D., McGill University; M.A., University of Toronto; Professor Emeritus, Political Science

MOURSAD, FAHRIZ: Ph.D., Wayne State University; B.E., University of Tehran; Professor, Computer Engineering

MOOSAVI MOJAB, SEYED ZIAE: Ph.D., M.S., Wayne State University; B.S., University of Tehran; Assistant Professor, Computer Engineering

MOUGOUE, MBODJA: Ph.D., M.A., University of New Orleans; M.A., B.Sc., Technical University; Associate Professor, Pharmaceutical Sciences

MOUGOU ME, B.Row: Ph.D., M.A., Wayne State University; B.A., Yaounde University; Professor, Finance

MOUL, ANDREW: D.P.T., Wayne State University; Assistant Professor, Clinical Sciences

MOURE, KATHLEEN: Ph.D., M.A., University of Michigan; B.A., Oakland University; Assistant Professor (Clinician-Educator), Psychology and Behavioral Neurosciences

MOORE, TAUSA: M.A., University of Memphis; B.A., Michigan State University; Instructor (Clinical), Communication Disorders and Disorders

MOORE, WHITNEY: Ph.D., University of Kansas; M.S., Colorado State; B.S., West Virginia University; Assistant Professor, Education, Kinesiology, Health and Sport Studies

MOORE, WILLIAM S.: Ph.D., University of Connecticut; B.S., Michigan State University; Professor Emeritus, Biological Sciences

MOORMAN, JESSICA D.: Ph.D., University of Michigan; M.H.S. Johns Hopkins Bloomberg School of Public Health; B.A., University of Michigan; Assistant Professor, Communication

MOOSSI, MEENA: M.D., University of Michigan; Clinical Assistant Professor, Dermatology

MORAN, TIMOTHY L.: Ph.D., M.A., Wayne State University; B.A., Michigan State University; Senior Lecturer, Irvin D. Reid Honors College

MORUKHOVICH, BORIS S.: Ph.D., M.S., Byelorussian State University; Distinguished Professor, Mathematics

MORGAN, CAROLINE G.: Ph.D., Princeton University; B.S., Swarthmore College; Professor, Physics

MORGAN, FRED: Ph.D., M.B.A., Michigan State University; B.S.B.A., Purdue University; Professor, Marketing and Supply Chain Management

MORGAN, KERI: M.S., B.A., Clarion University of Pennsylvania; M.A., Edinboro University of Pennsylvania; Instructor (Clinical), Communication Sciences and Disorders

MORREALE, MARY K.: M.D., Wayne State University; B.A., University of Michigan; Associate Professor (Clinician-Educator), Psychiatry and Behavioral Neurosciences

MORRIS, ROBERT T.: M.D., University of Minnesota, B.S., Saint John's University; Professor (Clinician-Educator), Oncology

MORTON, PATRICIA: Ph.D., M.A., Purdue University; B.S., Texas State University; Assistant Professor, Sociology, Family Medicine and Public Health Sciences

MOSELEY, JAMES L.: Ed.D., Wayne State University; Associate Professor Emeritus, Education, Teacher Education

MOSE, LYNETTE R.: Pharm.D., University of Illinois at Chicago; Clinical Associate Professor and Chair, Pharmacy Practice

MOSS, DAVID R.: J.D., Columbia University; B.A., Swarthmore College; Clinical Associate Professor, Law, Director, Clinical Education

MOSS, JENNIFER SHERIDAN: Ph.D., M.A., Columbia University; B.A., Montclair State College; Associate Professor, Classics, Greek and Latin

MOSTAFA, GAMAL: M.B.B.Ch., Cairo University School of Medicine; Professor Clinician Educator, Surgery

MOSZCZYNSKA, ANNA B.: Ph.D., M.Sc., University of Toronto; M.S., B.Sc., Technical University; Associate Professor, Pharmaceutical Sciences

MOSZCZYNSKA, ANNA B.: Ph.D., M.Sc., University of Toronto; M.S., B.Sc., Technical University; Associate Professor, Pharmaceutical Sciences

MOUROUGUE, MOBODJA: Ph.D., M.A., University of New Orleans; M.A., University of Paris; B.A., Yaounde University; Professor, Finance

MUELLER, PATRICK: Ph.D., St. Louis University; Associate Professor, Physiology

MUIEN, DONALD: M.D., B.S., Wayne State University; Clinical Assistant Professor, Ophthalmology

MUKHOPADHYAY, ASHIS: Ph.D., Kansas State University; M.Sc., B.Sc., University of Calcutta; Associate Professor, Physics

MUNDO, BRIAN: M.S., Wayne State University; B.E., University of Michigan; Lecturer, Biomedical Engineering

MURAT, ALPER: Ph.D., McGill University; M.S., B.S., Bogazici University; Associate Professor, Industrial and Systems Engineering

MURPHY, KATHLEEN: M.D., Wayne State University; B.S., University of Michigan; Clinical Assistant Professor, Internal Medicine

MURPHY, PATRICK: M.D., New Jersey College of Medicine; B.A., College of Holy Cross; Associate Professor (Clinician-Educator), Ophthalmology
MURRAY, WILLIAM: M.D., American University of the Caribbean; B.S., Wayne State University; Clinical Assistant Professor, Internal Medicine

MUTCHNICK, MILTON G.: M.D., B.S., Wayne State University; Professor, Internal Medicine

MUZIK, OTTO: Ph.D., M.S., Technical University of Vienna, Austria; Professor, Pediatrics, Radiology

MYHR, KAREN L.: Ph.D., B.S., University of Michigan; Assistant Professor (Research), Biological Sciences, Adjunct Assistant Professor, Anatomy and Cell Biology

M

NADGорNY, BОRIS Е.: Ph.D., State University of New York at Stony Brook; B.S., Moscow Institute of Physics and Technology; Professor, Physics

NAIK, RATNA: Ph.D., West Virginia University; M.Sc., B.Sc., Mysore University; Professor, Physics, Associate Dean, College of Liberal Arts and Sciences

NAILI, ALICIA M.: J.D., B.A., Wayne State University; Lecturer, Communication

NAJOR, MICHELE (SHELLY) A.: Ph.D., M.A., B.A., Wayne State University; Senior Lecturer, Communication

NAJOR-DURACK, ANWAR: Ph.D., Ed.S., M.S.W., B.S., Wayne State University; Clinical Assistant Professor, Social Work

NALICHOWSKI, ADRIAN: Ph.D., M.S., Wayne State University; B.S., Kettering University; Assistant Professor, Oncology

NANDWANA, BINDIYA: M.S., Wayne State University; Assistant Professor (Clinical), Physician Assistant Studies

NANTAIS-SMITH, LEANNE: Ph.D., M.S.N., Wayne State University; M.A., B.S.N., B.A., Michigan State University; Associate Professor (Clinical), Nursing

NANTWI, KWAKU D.: Ph.D., Wayne State University; M.S., B.S., Eastern Illinois University; Associate Professor, Anatomy and Cell Biology

NARAYANAN, SANDRA: M.D., B.S., University of Miami; Associate Professor (Clinician-Educator), Neurological Surgery, Neurology

NARDOULLO, JOSEPH: Pharm.D., University of Rhode Island; Assistant Professor (Clinical), Pharmacy Practice

NASH, TAMMON A.: M.D., Wayne State University; M.S., University of Michigan; Assistant Professor (Clinician-Educator), Pathology

NASSER, SAM: M.D., Wayne State University; B.S., Michigan State University; Clinical Professor, Orthopaedic Surgery

NATHAN, GEOFFREY S.: Ph.D., M.A., University of Hawaii; B.A., University of Toronto; Professor Emeritus, English

NAUGHTON, THOMAS J.: Ph.D., State University of New York at Buffalo; M.A., Boston College; B.A., Northeastern University; Associate Professor, Management and Information Systems

NAVA, GUILERMINA: M.D., B.A., University of Rochester; Assistant Professor (Clinician-Educator), Surgery

NAWARA, JAMES E.: M.A., University of Illinois - Chicago; B.A., School of the Art Institute of Chicago; Professor Emeritus, Art

NAZELLI, CHRISTOPHER: M.A., B.A., Wayne State University; Senior Lecturer, Mathematics

NAZRI, GHOLAM-ABBAS: Ph.D., Case Western Reserve University; Lecturer, Electrical and Computer Engineering

NEALE, ANN V.: Ph.D., M.A., B.A., Wayne State University; M.P.H., University of Texas; Professor, Family Medicine and Public Health Sciences

NEUMANN, TRACY: Ph.D., New York University; M.A. Cornell University; B.A., University of Michigan; Associate Professor, History

NEVILLE, AMY: J.D., Wayne State University; B.S., Central Michigan University; Lecturer, Law

NEWAZ, GOLAM M.: Ph.D., M.S., University of Illinois at Urbana-Champaign; B.S., Texas A & M University; Professor, Mechanical Engineering, Biomedical Engineering

NEWMAN, ANDREW: Ph.D., City University of New York; B.A., Bard College; Associate Professor, Anthropology

NG, SIMON: Ph.D., M.S., B.S., University of Michigan; Professor, Chemical Engineering and Materials Science, Associate Dean, Research

NGUYEN, HIEN: Ph.D., University of Illinois at Urbana-Champaign; B.S., Tufts University; Professor, Chemistry

NIKOLLA, ERANDA: Ph.D., M.S.E., University of Michigan; B.S., Oakland University; Associate Professor, Chemical Engineering and Materials Science

NIKOLOVA, KRISTINA: Ph.D., University of Toronto; M.S.W., University of Windsor; B.Sc., Western University; Assistant Professor, Social Work

NJUS, DAVID L.: Ph.D., Harvard University; B.S., Massachusetts Institute of Technology; Professor, Biological Sciences

NOEL, SAMANTHA: Ph.D., M.A., Duke University; B.A., Brooklyn College; Associate Professor, Art History

NOKLEBY, MATTHEW: Ph.D., Rice University; M.S.E.E, B.S.E.E., Brigham Young University; Assistant Professor, Electrical and Computer Engineering

NOVAK, JULIE M.: Ph.D., North Dakota State University; M.S., Cornell University; B.S., University of Minnesota; Associate Professor, Communication

NTIRI, DAPHNE: Ph.D., M.A., Michigan State University; B.A., Fourth Bay College, University of Sierra Leone; Professor, African American Studies

O

O'CONNELL, MARY ELIZABETH: Pharm.D., University of Minnesota; B.S., Wayne State University; Professor, Pharmacy Practice

O'DONNELL, LISA A.: Ph.D., M.S.W., B.A., University of Michigan; Assistant Professor, Social Work

O'LEARY, DONAL S.: Ph.D., University of Texas; B.A., Miami University; Professor, Physiology

O'NEIL, BRIAN J.: M.D., B.S., Wayne State University; Associate Professor, Emergency Medicine

OFEN, NOA: Ph.D., M.Sc., Weizmann Institute of Science; B.A., University of Haifa; Associate Professor, Psychology
OKOH, FRANK: Ph.D., M.S., Queen's University; B.S., Imperial College of Science and Technology; Professor, Mathematics

OLMSTED, JENNIFER: Ph.D. Northwestern University; M.A., University of North Carolina; B.A., Bryn Mawr College; Associate Professor, Art History

ONOLEMHEMHEN, DURRENDA O.: Ph.D., M.S.S.W., University of Wisconsin, Madison; B.S., Edgewood College; Associate Professor, Social Work

ORADY, MONA: M.D., University of Western Ontario; B.Sc., McMaster University; Clinical Assistant Professor, Obstetrics and Gynecology

ORING, SHERYL A.: M.F.A., University of California - San Diego; B.S., University of Colorado; Professor, Art; Chair, Art and Art History

ORTMAN, WILLIAM: J.D., University of Chicago Law School; B.A., Swarthmore College; Assistant Professor, Law

OSBORN, RICHARD M.: D.B.A., Kent State University; M.B.A., Washington State University; B.A., Indiana University; Professor Emeritus, Management and Information Systems

OSHAGAN, HAYG H.: Ph.D., M.A., University of Wisconsin-Madison; B.A., University of Pennsylvania; Associate Professor, Communication

OSMAN, YAHYA: M.B.B.S., University of Khartoum; Assistant Professor (Clinician-Educator), Internal Medicine

OSTREA, ENRIQUE: M.D., B.S., A.A., University of the Philippines; Professor, Pediatrics

OUELLETTE, DANIEL J.: M.S., Eastern Michigan University; B.S., University of Michigan; Lecturer, Computer Science

OUTLAW, ANGELIQUE: Ph.D., M.A., B.A., Wayne State University; Associate Professor (Research), Family Medicine and Public Health Sciences

OZBEKI, MOHAMMAD ALI E.: Ph.D., Penn State University; M.B.A., University of Detroit Mercy; M.S., University of Michigan; Lecturer, Mechanical Engineering

OZGUN-KOCA, S. ASLI: Ph.D., University of Colorado; M.A., Kalamazoo College; Associate Professor, Pharmacology

PADETT, DONYALE R.: Ph.D., Howard University; M.A., B.A., Wayne State University; Associate Professor, Communication

PADMANABHAN, KARUR R.: Ph.D., M.Sc., Poona University; Associate Professor, Physics

PAJE, DAVID: M.D., University of the Philippines; Clinical Associate Professor, Internal Medicine

PALAZZOLO, THOMAS J: M.A., University of Detroit Mercy; Lecturer, Computer Science

PAN, ZHUO-HAN: Ph.D., State University of New York at Buffalo; B.S., University of Science and Technology; Professor, Anatomy and Cell Biology

PANDYA, ABHILASH: Ph.D., Wayne State University; M.S., B.S., University of Michigan; Associate Professor, Electrical and Computer Engineering

PANISCH, LISA S.: Ph.D., University of Texas at Austin; M.S.W., Florida State University; B.A., University of North Florida; Assistant Professor, Social Work

PAPUGA, SHIRLEY: Ph.D., University of Colorado; B.A., Kalamazoo College; Associate Professor, Environmental Sciences and Geology

PARAJULI, PRAHLAD: Ph.D., M.Phil, University of Delhi; M.Sc., University of North Bengal; Assistant Professor, Neurological Surgery

PARD, VICKY: D.H.S., University of Indianapolis; M.H.S., University of Indianapolis; B.Sc., University of Ottawa; Assistant Professor, Physical Therapy

PARK, JOO WON: Ph.D., M.Mus., University of Florida; B.Mus., Berklee College of Music; Assistant Professor, Music

PARKER, DENNIS: Pharm.D., University of Michigan; B.S., Eastern Michigan University; Clinical Associate Professor, Pharmacy Practice

PARKER, GGRAHAM: Ph.D., B.S., University of St. Andrews; Assistant Professor (Research), Pediatrics

PARKER, PRAGNESH: M.D., Wayne State University; Assistant Professor (Clinician-Educator), Internal Medicine

PATRICK, STEPHAN: Ph.D., Wright State University; B.S., Urbana University; Professor, Oncology (Cancer Biology)

PATTERSON, DEBRA: Ph.D., M.A., Michigan State University; M.S.W., B.A. Wayne State University; Professor, Social Work, Associate Dean of Academic and Faculty Affairs

PAUL, MARY: The Joffrey Ballet; Complexions Contemporary Ballet; Lecturer, Dance

PAXTON, JAMES: M.D., M.B.A., University of Cincinnati; B.A., Case Western Reserve University; Clinical Assistant Professor, Emergency Medicine

PEARL, IL: Ph.D., Cornell University; M.S., B.A., Israel Institute of Technology; Assistant Professor, Physics

PEARLINE, SARAH: M.F.A., Yale University; B.F.A., New York University; Assistant Professor, Theatre

PEARSON, CLAIRE: M.D., Central America Health Science University School of Medicine; B.A., B.S., University of Colorado at Denver; Clinical Instructor, Emergency Medicine
PEARSON, FREDERIC S.: Ph.D., M.A., University of Michigan; B.A., Oakland University; Professor, Political Science

PEARSON, VIRGINIA L.: Ph.D., M.Ed., Texas Woman’s University; B.S., Texas State College for Women; Associate Professor Emeritus, Education

PEDRONI, THOMAS: Ph.D., M.S., University of Wisconsin at Madison; B.A., Miami University; Associate Professor, Education, Teacher Education

PEDUZZI-NELSON, JEAN: Ph.D., Wayne State University; B.S., University of Michigan; Associate Professor, Anatomy and Cell Biology, Physical Medicine and Rehabilitation - Oakwood

PELLETT, PHILIP: Ph.D., University of Chicago; B.S. Ohio University; Professor and Chair, Immunology and Microbiology

PEOPLES-PETERSON, DANITA: M.D., B.A., Wayne State University; Clinical Assistant Professor; Dermatology

PEPIN, MARIE-EVE: D.P.T., MGH Institute of Health Sciences; M.S., Oakland University; B.S., McGill University; Clinical Assistant Professor, Physical Therapy

PERELLI, SHERI: D.M., Case Western Reserve University; M.B.A., University of Chicago; M.A., B.A., University of Michigan; Associate Professor (Teaching), Management and Information Systems

PERNICE, FRANCESCA: Ph.D., Michigan State University; M.S., Eastern Michigan University; B.A., Oakland University; Associate Professor, Education, Theoretical and Behavioral Foundations

PERRINE, SHANE: Ph.D., Kent State University/Ohio State University; B.S., Marshall University; Assistant Professor (Research), Psychiatry and Behavioral Neurosciences

PETERS, JEREMY: M.B.A., University of Cambridge; B.A. University of Michigan; Assistant Professor, Management and Information Systems

PIERIE, MIHAEL: Ph.D., University of Kentucky; B.S., Muhlenberg College; Assistant Professor, Pharmacology, Institute of Environmental Health Sciences

PIETROFESA, JOHN J.: Ed.D., M.Ed., B.Ed., University of Miami; Professor, Education, Theoretical and Behavioral Foundations

PILAT, MARY J.: Ph.D., M.S., B.A., Wayne State University; Clinical Assistant Professor, Physician Assistant Studies

PILE, LORI A.: Ph.D., University of Cincinnati; B.Sc., University of Toledo; Associate Professor, Biological Sciences

PILIAWSKY, MONTE: Ph.D., M.A., Tulane University; B.A., University of New Orleans; Senior Lecturer, Education, Theoretical and Behavioral Foundations

PINEAU, RICHARD: M.P.A., G.C.E.D., M.A., B.A., Wayne State University; Senior Lecturer, Mathematics

PIPER-AIKEN, KIMMERLY (KIM) S.: Ph.D., Indiana University; M.A., B.A., Colorado State University; Senior Lecturer, Communication

PIQUE-REGI, ROGER: Ph.D., University of Southern California; Associate Professor, Molecular Genetics and Genomics

PISZCZEK, MATTHEW: Ph.D., M.S., B.S., Michigan State University; Assistant Professor, Management and Information Systems

PITTS, DAVID K.: Ph.D., M.S., Wayne State University; B.S., Michigan State University; Associate Professor, Pharmaceutical Sciences

POCIASK, FREDRICK: Ph.D., Wayne State University; M.S., B.S., Oakland University; Associate Professor, Physical Therapy

PODOROMAKI, LZABLA: Ph.D., Oakand University; Associate Professor, Pharmacology

POGODZINSKI, BEN: Ph.D., Michigan State University; M.P.P., Georgetown University, B.S., University of Michigan; Associate Professor, Education, Administrative & Organizational Studies

POKORSKI, PHILIP: Ph.D., M.S., B.S., Wayne State University; Assistant Professor - Clinical, Pharmaceutical Sciences

POLIN, LISA A.: Ph.D., Wayne State University; B.S., Michigan State University; Associate Professor (Research), Oncology

PONNAPALLI, AJAY RAMI: Ph.D., Florida International University; Instructor, Management and Information Systems

POOLE, COLIN F.: Ph.D., Keele University; M.Sc., Bristol University; B.Sc., Leeds University; Professor, Chemistry

POPADIC, ALEKSANDAR: Ph.D., University of Georgia; B.S., University of Belgrade; Professor, Biological Sciences

PORT, ANDREW: Ph.D., A.M., Harvard University; B.A., Yale University; Professor, History

POTHUKUCHI, KAMESHWARI: Ph.D., M.Arch., M.U.P., University of Michigan; Assistant Professor, Management and Information Systems

POWELL, ISAAC J.: M.D., Indiana University; M.S., Howard University; B.S., University of Michigan; Professor (Clinician-Educator), Urology

POWELL, RONALD R.: Ph.D., University of Illinois; M.S., Western Michigan University; A.B., University of Missouri; Professor Emeritus, Information Sciences
POWERS, EVA M.: M.A., Wayne State University; B.S., University of Michigan; Associate Professor, Dance

PRASAD, ANANDA S.: Ph.D., University of Minnesota; M.B.B.S., B.S., Patna University; Distinguished Professor, Oncology

PRICE, KELLY R.: Ph.D., University of Michigan; B.S., University of Utah; Associate Professor Emeritus, Finance

PRINCE, VALERIE: Ph.D., M.A., University of Michigan; B.A., Hampton University; Associate Professor, African American Studies

Pritchett-Johnson, Brandy L.: Ph.D., M.A., Western Michigan University; B.A., Clark Atlanta University; Assistant Professor (Clinical), Education, Theoretical and Behavioral Foundations

PROGOVAC, LJILJANA: Ph.D., University of Southern California at Los Angeles; M.A., University of Beograd; B.A., University of Novi Sad; Professor, English

Pruchnic, Jeffrey: Ph.D., M.A., Pennsylvania State University; B.A., University of Pittsburgh at Johnstown; Associate Professor, English

Pruneau, Claude A.: Ph.D., M.Sc., B.Sc., Universite Laval; Professor, Physics

PRZYKLENK, KARIN: Ph.D., University of Western Ontario; B.S., University of Saskatchewan; Professor, Physiology, Director, Cardiovascular Research Institute

Purrrington, Kristen: Ph.D., M.P.H., M.A., B.S., University of Michigan; Associate Professor, Oncology (Cancer Biology)

Puschcheck, Elizabeth: M.D., Washington University; M.S., University of Chicago; Professor (Clinician-Educator), Obstetrics and Gynecology

Putatunda, Susil: Ph.D., Indian Institute of Technology; M.S., University of Mysore; B.S., Institution of Engineers; Professor, Chemical Engineering and Materials Science

Putschke, Joern: Ph.D., Technical University of Munich; Dipl, University of Marburg; Associate Professor, Physics

Pylypchuk, Valery: Dr. Sci., Moscow Institute for Problems in Mechanics, Russian Academy of Sciences; Lecturer, Mechanical Engineering

Qin, Julia Ya: LL.M., S.J.D., Harvard University; LL.B., Peking University; Professor, Law

Quinn-Grzebyk, Tamara: Ph.D., Wayne State University; M.B.A. Walsh College; M.S. University of Phoenix; Assistant Professor (Teaching), Management and Information Systems

Quintero, Luisa: Ph.D., Wayne State University; B.A., University of Michigan; B.A., University of Medellin; Lecturer, Spanish

Qureshi, Faisal: M.D., King Edward Medical College, Lahore, Pakistan; Professor (Clinician-Educator), Pathology

Rabinak Davie, Christine: Ph.D., M.S., University of Michigan; B.S., University of Iowa; Associate Professor, Pharmacy Practice

Rabuffetti, Federico: Ph.D., Northwestern University; B.Sc., Universidad de la Republica; Associate Professor, Chemistry

Ragowsky, Arik A.: Ph.D., M.Sc., Tel-Aviv University; B.A., Bar-Ilan University; Associate Professor, Management and Information Systems

Rajamani, Kumar: M.D., B.J. Medical College; Professor (Clinician-Educator), Neurology

Rajko, Jessica: M.F.A., Arizona State University; B.A., Hope College; Assistant Professor, Dance

Rakhlin, Natalia: Ph.D., University of Connecticut; M.A., University of Montana; B.A., Pyatigorsk State Linguistic Academy; Associate Professor, English

Rakowski, Joseph: Ph.D., Medical College of Ohio; B.S., University of Pittsburgh; Associate Professor (Clinician-Educator), Oncology (Radiation Oncology)

Ram, Jeffrey L.: Ph.D., California Institute of Technology; B.A., University of Pennsylvania; Professor, Physiology

Ranney, Frances: Ph.D., Miami University; M.A., University of Cincinnati; B.A., Wilmington College; Associate Professor Emerita, English

Rapolti, Mihaela: M.D., University of Medicine and Pharmacy Carol Davila; Assistant Professor - Clinical, Surgery

Rap polee, Daniel: Ph.D., University of California, San Francisco; B.S., University of California, Santa Barbara; Associate Professor, Obstetrics and Gynecology

Rapport, Lisa J.: Ph.D., M.A., University of California-Los Angeles; B.A., University of Michigan; Professor, Psychology

Rashid, Marilynn: M.A., B.A., Wayne State University; Lecturer, Spanish

Raspa, Richard: Ph.D., M.A., University of Notre Dame; B.S., St. Joseph's College; Professor Emeritus, English

Ratanatharthorn, Voravit: M.D., Ramathibodi Hospital School of Medicine; B.S., Mahidol University; Professor, Oncology

Ratliff, Martha: Ph.D., M.A.T., University of Chicago; B.A. Carleton College; Professor Emerita, English

Ratnam, Manohar: Ph.D, Indian Institute of Science; M.S., B.S., University of Mysore; Professor, Oncology (Cancer Biology)

Ratner, Hilary H.: Ph.D., M.S., University of Massachusetts; B.A., Kent State University; Professor Emerita, Psychology

Ray, Brad: Ph.D., North Carolina State University; M.A., DePaul University Chicago; B.S., Northern Michigan University; Associate Professor, Social Work

Raz, Avraham: Ph.D., The Weizmann Institute of Science; M.S., B.S., The Ben-Gurion University of the Negev; Professor, Oncology (Cancer Biology), Pathology

Raz, Naftali: Ph.D., University of Texas at Austin; B.A., Hebrew University; Professor, Psychology

Raz, Sarah: Ph.D., M.A., University of Texas at Austin; B.A., Hebrew University; Associate Professor, Psychology

Raza, Syed: M.D., McMaster University; M.S., University of Michigan; B.S., University of Toronto; Assistant Professor (Clinician-Educator), Otolaryngology

Reddy, Kaladhar B.: Ph.D., Osmania University; Professor, Pathology
REED, ASHLEY: Ph.D., Kent State University; M.S., University of Kentucky; B.S., Central Michigan University; Lecturer, Education, Kinesiology, Health and Sport Studies
REED, JOHN R.: Ph.D., University of Rochester; B.A., University of Minnesota; Distinguished Professor Emeritus, English
REID, IRVIN D.: Ph.D., M.A., Wharton School of Business, University of Pennsylvania; M.S., B.S., Howard University; Professor Emeritus, Management and Information Systems, President Emeritus
REID, KRISTINA: D.P.T., Wayne State University, M.S., P.T., Oakland University; Assistant Professor, Physical Therapy, Program Director
REINERS, JOHN J.: Ph.D., Purdue University; B.S., University of Minnesota; Professor, Pharmacology, Institute of Environmental Health Sciences
REINHARD, TONIA: M.S., Wayne State University; Lecturer, Nutrition and Food Science
REINSTEIN, ALAN: D.B.A., University of Kentucky; M.B.A., University of Detroit; M.S., B.A., State University of New York; George R. Huband Professor, Accounting
REMIA, STEPHEN M.: Ph.D., M.S., Purdue University; B.S., Michigan State University; Assistant Professor, Civil and Environmental Engineering
RESKO, STELLA M: Ph.D., M.S.W., B.S.S.W., Ohio State University; Associate Professor, Social Work
RESSA, THEODOTO: Ph.D., M.A., Ohio State University; B.Ed. Maseno University-Kenya; Assistant Professor, Education, Teacher Education
RETISH, AARON: Ph.D., M.A., Ohio State University; B.A., University of Wisconsin, Madison; Associate Professor, History
REVANKAR, SANJAY M.: University of Illinois, College of Medicine; Professor (Clinician-Educator), Internal Medicine
REYES, MILAGROS P.: M.D., University of the Philippines; Professor Emeritus, Internal Medicine
REYNOLDS, A.JA: Ph.D., University of Illinois-Chicago; M.Ed., University of Illinois-Chicago; B.A. Pennsylvania State University; Assistant Professor, Education, Teacher Education
REYNOLDS, CHRISTIAN: Ph.D., Wayne State University; B.S., Oregon State University; Assistant Professor (Research-Educator), Emergency Medicine
REYNOLDS, ROBERT G.: Ph.D., M.S., M.A., B.S., University of Michigan; Professor, Computer Science
RICE, VIRGINIA: Ph.D., M.A., University of Michigan; M.S.N., Wayne State University; B.S., Boston University; Professor Emeritus, Nursing
RICHMOND, MARSHA L.: Ph.D., Indiana University; M.A., B.S., University of Oklahoma; Professor, History
RICKLI, JEREMY: Ph.D, Virginia Tech; M.S., B.S., Michigan Technological University; Associate Professor, Industrial and Systems Engineering
RICKS-BATES, ANITA: M.F.A., Wayne State University; M.A., Eastern Michigan University; Lecturer and Program Coordinator Visual Art Education, Education, Teacher Education
RICO-FERRER, JOSE ANTONIO: Ph.D., Emory University; M.A., Villanova University; B.A. Universidad de Grenada; Associate Professor, Spanish
RIGBY, JAMES H.: Ph.D., University of Wisconsin; B.S., Case Western Reserve University; Professor Emeritus, Chemistry
RIGHTMER, JEFFREY: D.B.A., M.B.A., Lawrence Technology University; B.B.A. Arizona State University; Assistant Professor (Teaching), Marketing and Supply Chain Management
RILLEMA, JAMES A.: Ph.D., M.S., Michigan State University; B.S., Calvin College; Professor Emeritus, Physiology
RIORDAN, EDWARD A.: D.B.A., University of Kentucky; M.B.A., University of Missouri; B.A., Michigan State University; Professor Emeritus, Marketing and Supply Chain Management
RISHI, ARUN: Ph.D., M.S., University College of London; Professor, Oncology (Cancer Biology)
RISNER, DOUG S.: Ph.D., M.F.A., B.F.A., University of North Carolina at Greensboro; Professor, Dance
ROBBINS, JESSICA: Ph.D., University of Michigan; B.A., Williams College; Associate Professor, Anthropology
ROBERTS, KATHRYN: Ph.D., Michigan State University; M.S., Indiana University; B.S., Butler University; Associate Professor, Education, Teacher Education
ROBERTS, PETER: M.A., B.S., Michigan State University; Assistant Professor, Education, Kinesiology, Health and Sport Studies
ROBICHAUD, REBECCA: J.D., University of Notre Dame Law School; B.A., Michigan State University, James Madison College; Assistant Professor (Clinical), Law
ROCHE, JOSEPH A.: Ph.D., University of Maryland, Baltimore; B.P.T., Christian Medical College; Assistant Professor, Physical Therapy
RODGERS, MARY T.: Ph.D., California Institute of Technology; B.S., Illinois State University; Professor, Chemistry
ROLOFSON, LAURA L.: D.M.A., M.Mus., Catholic University of America; B.Mus., Boston University; Associate Professor Emeritus, Music
ROJAS, GRACIELA: M.D., Northwestern University; B.S., University of Notre Dame; Assistant Professor (Clinician-Educator), Internal Medicine
ROMANO, LOUIS J.: Ph.D., B.A., Rutgers University; Professor Emeritus, Chemistry
RONNICK, MICHELE VALERIE: Ph.D., Boston University; M.A., University of Florida; B.A., University of South Florida; Professor, Classics, Greek and Latin
RORABACHER, DAVID B.: Ph.D., Purdue University; B.S., University of Michigan; Professor Emeritus, Chemistry
ROSAS, MELVIN: M.F.A., Tyler School of Art, Temple University; B.F.A., Drake University; Professor, Art, Elaine L. Jacob Endowed Chair
ROSENBERG, DAVID: M.D., B.A., University of Michigan; Professor and Chair, Psychiatry and Behavioral Neurosciences
ROSSI, NOREEN F.: M.D., Yale University School of Medicine; B.S., University of Detroit; Professor, Internal Medicine, Associate Professor, Physiology
ROSSMAN, SOL: Ph.D., M.A., University of Michigan; B.A., Wayne State University; Associate Professor Emeritus, French
ROTH, BRAD R.: Ph.D., University of California at Berkeley; LL.M., Columbia Law School; J.D., Harvard Law School; B.A., Swarthmore College; Professor, Political Science, Law

ROTHCHILD, JOHN A.: J.D., University of Pennsylvania; A.B., Princeton University; Associate Professor, Law

ROTHE, ANNE: Ph.D., University of California, Los Angeles; M.A., Humboldt-Universität zu Berlin; Associate Professor, German

ROTHE, ERHARD W.: Ph.D., M.S., B.S., University of Michigan; Professor Emeritus, Chemical Engineering and Materials Science

ROUCHDY, ALEYA: Ph.D., M.A., University of Texas at Austin; B.A., American University of Cairo; Professor Emeritus, Arabic, Linguistics

ROWLEY, JAMES A.: M.D., New York University; B.A., Swarthmore College; Professor (Clinician-Educator), Internal Medicine

ROZZELLE, ARLEN: M.D., University of Massachusetts; B.A., Wellesley College; B.S., Massachusetts Institute of Technology; Professor (Clinician-Educator), Surgery

RUDEN, DOUGLAS: Ph.D., Harvard University; B.S., Caltech; Professor, Obstetrics and Gynecology

RURY, AARON: Ph.D., University of Michigan; B.S., University of Illinois at Urbana-Champaign; Assistant Professor, Chemistry

RUSH, JOANNE E.: D.N.P., University of Iowa, M.S., Wayne State University, B.S., University of Texas, Arlington; Assistant Professor (Clinical), Nurse Anesthesia

RUSSELL, BRUCE A.: Ph.D., M.A., B.S., University of California, Davis; Professor, Philosophy

RYBAK, MICHAEL J.: Pharm.D., Wayne State University; B.S., Northeastern University; Professor, Pharmacy Practice

RYMER, JONE M.: Ph.D., M.A., State University of New York, Buffalo; B.S., University of Minnesota; Professor Emeritus, Marketing and Supply Chain Management

RYZEWSKI, KRYSTA: Ph.D., Brown University; M.Phil., University of Cambridge; B.A., Boston University; Associate Professor and Chair, Anthropology

S

SAAD, ALINE: Pharm.D., Wayne State University; B.S., American University of Beirut; Associate Professor (Clinical), Pharmacy Practice

SAATCHI, SORAYA (LAYLA): Ph.D., M.A., B.A., Wayne State University; Senior Lecturer, Irvin D. Reid Honors College

SADAGURSKI, MARIANNA: Ph.D., B.Sc., Tel Aviv University; Assistant Professor, Biological Sciences

SAED, GHASSAN: M.D., University of Michigan; Ph.D., University of Essex; Associate Professor, Obstetrics and Gynecology

SAIFULLAH, ABUSAYEED: Ph.D., Washington University in St Louis; M.S., University of Windsor; B.S., Bangladesh University of Engineering and Technology; Assistant Professor, Computer Science

SAKAMOTO, TAKESHI: Ph.D., Kanazawa University; B.S., Nihon University; Associate Professor, Physics

SAKER, MAHA: M.A., University of Salford; B.A., Damascus University; Senior Lecturer, Arabic

SAKR, WAEL A.: M.D., University of Damascus; Professor and Chair, Pathology

SALAYMEH, AREEJ: M.S., Jordan University of Science and Technology; B.S., Yarmouk University; Lecturer, Computer Science

SALCH, ANDREW: Ph.D., M.A., University of Rochester; B.S. Portland State University; Associate Professor, Mathematics

SALIMNIA, HOSSEIN: Ph.D., Laval University; Clinical Professor, Pathology

SALINITRI, FRANCINE: Pharm.D., B.H.S, Wayne State University; B.S., B.Ed., University of Windsor; Associate Professor - Clinical, Pharmacy Practice

SALLEY, STEVEN: Ph.D., M.S., B.S., University of Detroit; Professor, Chemical Engineering and Materials Science

SALVO, JAMES: Ph.D., University of Illinois; B.A., Purdue University; Lecturer, Education, Administrative & Organizational Studies

SAMANTRAY, JULIE: M.B.B.S., Siriram Chandra Bhana Medical College, Utkal University; Clinical Assistant Professor, Internal Medicine

SAMAVATI, LOBELIA: M.D., University of Cologne; Associate Professor, Internal Medicine

SAMIMI-ABIANEH, OMID: Ph.D., M.S., University of Alabama-Huntsville; Assistant Professor, Mechanical Engineering

SAMUEL, PREETHY: Ph.D., Wayne State University; M.O.T., Loma Linda University; B.O.T., Christian Medical College; Associate Professor, Occupational Therapy Program

SANKAR, ANDREA: Ph.D., M.A., B.A., University of Michigan; Professor, Anthropology

SANO, DAHLIA: M.D., Al-Mustansirya University, School of Medicine; Assistant Professor (Clinical), Oncology

SANTA LUCIA, JOHN: Ph.D., University of Rochester; B.S., Clarkson University; Professor, Chemistry

SARBAUGH-THOMPSON, MARJORIE E.: Ph.D., University of Michigan; M.P.A., B.S., Western Michigan University; Professor, Political Science

SARHAN, NABIL J.: Ph.D., M.S., Pennsylvania State University; B.S., Jordan University of Science and Technology; Associate Professor, Electrical and Computer Engineering

SAVITSKIE, MARK: M.B.A., B.S., Wayne State University; Associate Professor (Teaching), Accounting

SAVOLAINEN, JUKKA: Ph.D., State University of New York, Albany; M.A., B.A., University of Helsinki, Finland; Professor, Criminology and Criminal Justice, Sociology

SAWILOWSKY, SHLOMO S.: Ph.D., M.A., University of South Florida; B.ReSt., Rabbinical College of America; Professor, Education, Administrative & Organizational Studies

SAYDAIN, GHULAM: M.B.B.S., Govt. Medical College; Assistant Professor (Clinician-Educator), Internal Medicine

SCHACTER, HANNAH: Ph.D., University of California, Los Angeles; B.A., Hamilton College; Assistant Professor, Psychology

SCHENK, ALAN S.: LL.M., New York University; LL.B., B.S., University of Illinois; Distinguished Professor, Law
SCHIFFER, CHARLES A.: M.D., New York University; B.A., Brandeis University; Professor, Oncology

SCHILLER, MARTHA: D.P.T., University of St. Augustine; M.S.A., Central Michigan University; B.S. University of Western Ontario; Clinical Assistant Professor, Physical Therapy

SCHINDLER, ROSLYN A.T.: Ph.D., M.A.A., University of Pennsylvania; B.A., Hunter College, City University of New York; Associate Professor Emeritus, German

SCHLEGEL, H. BERNHARD: Ph.D., Queen’s University; B.Sc., University of Waterloo; Professor Emeritus, Chemistry

SCHMITT-SANDS, CATHERINE: Ph.D., M.A.A., B.A., Wayne State University; Assistant Professor (Teaching), Marketing and Supply Chain Management

SCHRADER, JARED: Ph.D., Northwestern University; B.S., Colorado State University; Associate Professor, Biological Sciences

SCHROEDER, KIMBERLY A.: M.L.I.S., Wayne State University; B.S., Michigan State University; Lecturer, Information Sciences

SCHULTZ, SHEREN: M.S., University of Texas at Arlington; B.S., Michigan Technological University; Senior Lecturer, Mathematics

SCHURLKNOTT, DONALD E.: Ph.D., M.A.A., University of Pennsylvania; B.A., Duke University; Professor Emeritus, Spanish

SCHUTTE, DEBRA: Ph.D., M.S.N., B.S.N., The University of Iowa; Associate Professor, Nursing

SCHWARTZ, ANN: Ph.D., M.P.H., B.S., University of Michigan; M.S., Wayne State University; Professor, Oncology (Cancer Biology)

SCHWARZ, ALFRED E.: Ph.D., M.A., Harvard University; B.A., University of Minnesota; Professor Emeritus, English

SCHWIEBERT, LOREN J.: Ph.D., M.S., Ohio State University; B.S., Heidelberg University; Associate Professor and Chair, Computer Science

SCRIVENER, MICHAEL: Ph.D., B.A., State University of New York at Buffalo; M.A., State University of New York at Binghamton; Distinguished Professor Emeritus, English

SEBZDA, ERIC: Ph.D., University of Toronto; Associate Professor, Immunology and Microbiology

SECORD, ELIZABETH: M.D., State University of New York HSC Medical School; B.A., Arizona State University; Professor (Clinician-Educator), Pediatrics

SEDLER, ROBERT A.: J.D., B.A., University of Pittsburgh; Distinguished Professor, Law

SEEGER, MATTHEW: Ph.D., Indiana University; M.A., Northern Illinois University; B.A., University of Evansville; Professor, Communication

SEIKALY, M.B.: Ph.D., Oxford University; M.A., University of California, Los Angeles; B.A., Beirut College of Women; Associate Professor Emeritus, Near Eastern and Asian Studies

SELWA, JAMES F.: M.D., M.B.A., B.S., University of Michigan; Assistant Professor (Clinician-Educator), Neurology

SETTLAGE, RACHEL: J.D., M.S.F.S., Georgetown University; B.A., University of California at Berkeley; Associate Professor, Law

SEYMOUR, ERLENE: M.D., Wayne State University; B.S., University of Michigan; Assistant Professor (Clinician-Educator), Oncology

SEYOUNG, BERHANE: M.D., Addis Ababa University; Associate Professor (Clinician-Educator), Internal Medicine

SHAH, ASHOK: M.D., Municipal Medical College; Assistant Professor (Clinician-Educator), Psychiatry and Behavioral Neurosciences

SHAH, NAUSHEEN: Ph.D., University of Chicago; B.Sc., George Mason University; Assistant Professor, Physics

SHAHIN, GASSAN: M.D., Damascus University; Clinical Assistant Professor, Radiology

SHAIKH, NAVEED: M.B.B.S., Liaquat Medical College; Clinical Assistant Professor, Internal Medicine

SHARMA, AJIT: Ph.D., M.B.A., University of Michigan; M.S., National Institute of Industrial Engineering, India; B.Tech., National Institute of Foundry and Forge Technology, India; Assistant Professor, Management and Information Systems

SHAVIRO, STEVEN: Ph.D., M.A.A., B.A., Yale University; DeRoy Professor, English

SHAW, MELVIN P.: Ph.D., M.S., Case Institute of Technology; B.S., Brooklyn College; Professor Emeritus, Electrical and Computer Engineering

SHEHATA, BAHIG M.: M.D., Assiut University School of Medicine; Professor (Clinician-Educator), Pathology

SHEKHAR, MALATHY: Ph.D., The Indian Institute of Science; M.Phil., B.S., University of Madras; Professor, Oncology (Cancer Biology)

SHELLABARGER, MICHAEL: M.Mus., Northwestern University; B.Mus., Central Michigan University; Lecturer, Music

SHEN, BO: Ph.D., University of Maryland; M.E., Shanghai Institute of Physical Education; B.B., Central China Normal University; Professor, Education, Kinesiology, Health and Sport Studies

SHENG, SHIJIE: Ph.D., University of Florida; Professor, Pathology

SHENG, YUMIN: Ph.D., Yale University; M.A., Beijing Foreign Studies University and Temple University; B.A., Yangzhou University; Associate Professor, Political Science

SHERRY, DONALD: M.A.A., B.S., Wayne State University; Senior Lecturer, Mathematics

SHERWIN, ROBERT: M.D., Wayne State University; Associate Professor (Clinician-Educator), Emergency Medicine

SHI, DONGPING: M.D., Beijing Medical University; Medical Director, Pathologists’ Assistant

SHI, WEISONG: Ph.D., Chinese Academy of Sciences; B.E., Xidian University; Professor, Computer Science

SHEILDS, ANTHONY: M.D., Harvard Medical School; Ph.D., B.S., Massachusetts Institute of Technology; Professor, Oncology (Cancer Biology)

SHEILDS, CAROLYN: Ph.D., University of Saskatchewan; M.A., B.A., Queen’s University; Professor, Education, Administrative & Organizational Studies
SHIELDS, GARY: M.B.A., Wayne State University; B.B.A., Kent State University; Assistant Professor (Teaching), Management and Information Systems

SHIENER, GERALD A.: M.D., Michigan State University; B.S., Wayne State University; Clinical Assistant Professor, Psychiatry and Behavioral Neurosciences

SHINKI, KAZUHIKO: Ph.D., University of Wisconsin-Madison; M.S., University of Tokyo; B.S., Waseda University; Assistant Professor, Mathematics

SHISHEVA, ASSIA C.: Ph.D., B.S., Sofia University; Professor, Physiology, Molecular Medicine and Genetics

SHREVE, GINA: Ph.D., M.S., University of Michigan; B.S., Michigan State University; Associate Professor, Chemical Engineering and Materials Science

SHUSTER, WILLIAM: Ph.D., Ohio State University; B.S., University of Michigan; Professor and Chair, Civil and Environmental Engineering

SIMON, MICHAEL: M.D., B.S., University of Illinois; M.P.H., University of Michigan; Professor (Clinician-Educator), Oncology

SIMON, VALERIE A.: Ph.D., M.A., University of Denver; M.A., American University; B.A., Loyola University; Professor, Psychology

SIMPSON, THOMAS H.: Ph.D., M.A., Michigan State University; B.A., Butler University; Associate Professor, Communication Sciences and Disorders

SINGH, HARPREET: Ph.D., M.E., University of Roorkee; B.Sc., Punjab University; Professor, Electrical and Computer Engineering

SINGH, LALIT: Ph.D., M.S., University of California; B.Sc., Gujarat University; Assistant Professor, Anatomy and Cell Biology, Ophthalmology

SINGH, NANA: Ph.D., M.E., B.E., University of Rajasthan; Professor Emeritus, Industrial and Systems Engineering

SINGH, TRILOHAN: Ph.D., M.S., University of California; B.S., Punjabi University; Professor Emeritus, Mechanical Engineering

SISK, LORI A.: M.B.A., Bowling Green State University; Assistant Professor, Marketing and Supply Chain Management

SIY, PEPE: Ph.D., University of Akron; M.S.E.E., University of California; B.S.E.E., Mapua Institute of Technology; Professor Emeritus, Electrical and Computer Engineering

SKINNER, OLIVENNE: Ph.D., M.A., University of North Carolina-Chapel Hill; B.A., New York University; Assistant Professor, Psychology

SKLAR, ELIZABETH S.: Ph.D., M.A., University of Pennsylvania; B.A., Swarthmore College; Professor Emerita, English

SKOFF, ROBERT P.: Ph.D., Boston University; B.S., Spring Hill College; Professor, Anatomy and Cell Biology, Ophthalmology

SLOANE, BONNIE F.: Ph.D., Rutgers University; M.A., B.S., Duke University; Distinguished Professor, Pharmacology

SMIELIAUSKAS, FABRICE: Ph.D., Harvard University; M.A., B.A., University of Toronto; Assistant Professor, Economics, Pharmacy Practice

SMITH, BRAD: Ph.D., M.S., University of Cincinnati; B.S., Eastern Michigan University; Professor and Chair, Criminology and Criminal Justice

SMITH, RICHARD: Ph.D., University of California-Berkeley; M.F.A., Western Michigan University; M.S.W., B.A., University of Michigan; Professor, Social Work

SMITHERMAN, LYNN C.: M.D., University of Cincinnati; B.S., McGill University; Assistant Professor (Clinician-Educator), Pediatrics

SMOLENSKI, STEFAN: D.N.P., B.S.N., Wayne State University; Instructor (Clinical), Nursing

SMOLINSKI, KATHRYN M.: J.D., Wayne State University Law School; M.S.W., University of Michigan; B.A., University of Michigan; Assistant Professor (Clinical), Law

SMOLLER, MARGARET A.: Ph.D., University of Florida; M.B.A., University of Toronto; B.A., Queen's University; Associate Professor, Finance, Associate Dean, Academic and Financial Affairs

SMYIE, LAURA: M.D., Wayne State University; B.S., Michigan State University; B.S., University of Michigan; Assistant Professor (Clinician-Educator), Emergency Medicine

SMYTE, MAUREEN A.: Pharm.D., B.S., Wayne State University; Clinical Professor, Pharmacy Practice

SOBECK, JOANNE L.: Ph.D., Wayne State University; M.S.W., Western Michigan University; B.S.W., Northern Michigan University; Associate Professor and Associate Dean for Research, Social Work, Director, Center for Social Work Practice and Policy Research

SOBEL, JACK D.: M.D., University of Witwatersrand; Professor, Obstetrics and Gynecology, Internal Medicine

SODJA, ANN: Ph.D., University of California; M.S., Ohio State University; A.B., Ursuline College; Associate Professor Emeritus, Biological Sciences

SOKOL, REBECCAH: Ph.D., M.S.P.H., University of North Carolina-Chapel Hill; B.S. Central Michigan University; Assistant Professor, Social Work

SOMERS, CHERYL: Ph.D., M.A., Ball State University; B.S., Michigan State University; Professor, Education, Assistant Dean, Theoretical and Behavioral Foundations

SOMERS, TONI M.: Ph.D., M.Ed., B.A., University of Toledo; M.B.A., Bowling Green State University; Professor and Associate Dean, Management and Information Systems

SONDHEIMER, JAMES H.: M.D., Albert Einstein College of Medicine; M.A., City University of New York; Associate Professor (Clinician-Educator), Internal Medicine

SONJUYI, TOLULOPE: M.D., M.S., University of Michigan; B.S., University of California - Los Angeles; Assistant Professor (Clinical), Emergency Medicine

SOOD, SANDEEP: M.B.B.S., All India Institute of Medical Sciences; Professor, Neurological Surgery

SOPORY, PRADEEP: Ph.D., University of Wisconsin-Madison; M.A., University of Southern California; B.E., University of Kashmir; Associate Professor, Communication

SOSNE, GABRIEL: M.D., Albert Einstein College of Medicine; B.A., Yeshiva College; Assistant Professor, Ophthalmology, Anatomy and Cell Biology

SOSNOWSKY, WILLIAM P.: Ed.D., M.A., B.S., Wayne State University; Professor Emeritus, Education, Administrative & Organizational Studies
SOUBANI, AYMAN: M.B.B.S., University of Jordan; Professor (Clinician-Educator), Internal Medicine

SPALDING, ALBERT D.: J.D., M.B.A., George Washington University; M.A., California State University; M.S., Northcentral University; B.B.A., University of Michigan; Associate Professor Emeritus, Accounting

SPALDING, JOHN W.: Ph.D., M.A., University of Michigan; B.S., Northwestern University; Associate Professor Emeritus, Communication

SPANNAUS, TIMOTHY W.: Ph.D., Wayne State University; M.S., B.S., University of Illinois; Senior Lecturer, Education, Administrative & Organizational Studies

SPEER, ANDREW: Ph.D., B.S., Central Michigan University; Assistant Professor, Psychology

SPEER, MAVIS: M.S.W., Wayne State University; B.A., University of Detroit; Associate Professor Emeritus, Social Work

SPEER, MILTON H.: Ph.D., Cornell University; M.A., B.S., New York University; Professor Emeritus, Finance

SPERONE, FELICE G.: M.A., University of Illinois at Chicago; Lecturer, Environmental Sciences and Geology

SPEYER, CECILIA: Ph.D., M.S., Wayne State University; B.S., Oakland University; Assistant Professor, Surgery

SPIELMANN, STEPHANIE B.A.: Ph.D., M.A., University of Toronto; Wilfrid Laurier University; Associate Professor, Psychology

SPINELLI, DONALD: Ph.D., Ohio State University; M.A., B.A., State University of New York at Buffalo; Professor Emeritus, French

SPRUIT, JESSICA: D.N.P., Case Western University; M.S.N., Rush University; B.S.N., Michigan State University; Clinical Assistant Professor, Nursing

SPURR, STEPHEN J.: Ph.D., University of Chicago; LL.M., New York University; J.D., University of Michigan; A.B., Oberlin College; Professor, Economics

SPYERS-DURAN, PETER: Ed.D., Nova University; M.A., University of Chicago; Professor Emeritus, Information Sciences

SSEMAKULA, MUKASA E.: Ph.D., M.S., B.S., University of Manchester Institute of Science and Technology; Professor, Engineering Technology

STANKOVIC, CURT: M.D., Universidad Iberoamericana; Clinical Assistant Professor, Pediatrics

STANLEY, CHANTA: D.N.P., B.S.N., Wayne State University; Instructor (Clinical), Nursing

STANLEY, JEFFREY: Ph.D., University of Western Ontario; M.S., B.S., University of Waterloo; Professor, Psychiatry and Behavioral Neurosciences

STARZYNSKI, LAURA: Ph.D., M.A., University of Illinois at Chicago; B.A., Southwestern University; Associate Professor of Teaching, Criminology and Criminal Justice

STEINBERG, JOEL D.: M.D., Wayne State University; B.S., University of Michigan; Associate Professor (Clinician-Educator) Emeritus, Internal Medicine

STEINER, CHRISTOPHER: Ph.D., Michigan State University; B.S., University of California-Los Angeles; Associate Professor, Biological Sciences

STEINLE, JENA: Ph.D., University of Kansas Medical Center; B.S., University of Bridgeport; Professor, Anatomy and Cell Biology, Ophthalmology

STEMMER, PAUL M.: Ph.D., Michigan State University; B.S., University of Cincinnati; Associate Professor (Research), Pharmaceutical Sciences

STEMMLER, TIMOTHY L.: Ph.D, University of Michigan; M.S., B.A., St. Louis University; Professor, Pharmaceutical Sciences

STEPHEN, LANIER: Ph.D., University of Tennessee Center for Health Sciences; Professor, Pharmacology, Vice President, Office of the Vice President for Research

STEFFENS, GERALYN: Ed.D., M.Ed., Wayne State University; B.A., Eastern Michigan University; Clinical Associate Professor, Education, Teacher Education

STERN, GUY: Ph.D., M.A., Columbia University; B.A., Hofstra College; Distinguished Professor Emeritus, German

STERN, LOUIS L.: Ph.D., M.B.A., Northwestern University; B.S., Marquette; Associate Professor Emeritus, Marketing and Supply Chain Management

STERN, MYLES: Ph.D., Michigan State University; M.B.A., B.A., University of Michigan; Associate Professor, Accounting

STEVENSEN, RONALD J.: Ph.D., B.A., Wayne State University; J.D., M.B.A., Hofstra University; Senior Lecturer, Communication

STEWARD, BRITTANY: Pharm.D., B.S., Wayne State University; Assistant Professor - Clinical, Pharmacy Practice

STEWARD, KIMBERLY: M.A., Wayne State University; B.A., Western Michigan University; Instructor (Clinical), Communication Sciences and Disorders

STEWARD, MARYANNE: Ed.D., Walden University; M.B.A., University of Phoenix; B.S., University of Windsor; Assistant Professor (Clinical), Clinical Laboratory Science

STIDD, SEAN C.: Ph.D., M.A., University of Illinois at Urbana-Champaign; B.S., Harvey Mudd College; Senior Lecturer, Philosophy

STILLO, JONATHAN: Ph.D., City University of New York; B.A., Central Connecticut State University; Assistant Professor, Anthropology

STIVALE, CHARLES J.: Ph.D., University of Illinois; M.A., Sorbonne-Paris; B.A., Knox College; Distinguished Professor Emeritus, French

STOCKDILL, JENNIFER L.: Ph.D., California Institute of Technology; B.S., Virginia Polytechnic Institute and State University; Associate Professor, Chemistry

STOLTMAN, JEFFREY J.: Ph.D., Syracuse University; M.A., Western Kentucky University; B.A., Canisius College; Associate Professor, Marketing and Supply Chain Management

STONE, CHAD: M.D., University of Connecticut; B.A., Central Connecticut State University; Clinical Assistant Professor, Pathology

STOCHEFF, ELIZABETH: Ph.D., M.A., Ohio State University; B.A., University of Iowa; Associate Professor, Communication

STRABBING, JADA: Ph.D., Princeton University; B.A., University of Oxford; B.A., Kenyon College; Associate Professor, Philosophy

STRATE, JOHN: Ph.D., M.A., University of Michigan; B.A., Macalester College; Associate Professor, Political Science
STRAUSS, DAVID J.: Ph.D., The Ohio State University; M.S.Ed., Indiana University; B.A., Bucknell University; Lecturer, Economics

STROZIER, ROBERT M.: Ph.D., M.A., University of Chicago; B.M.E., Georgia Institute of Technology; Professor Emeritus, English

SUGAWA, CHOICHI: M.D., University of Tokyo; Professor, Surgery

SUKARI, AMMAR: M.D., University of Aleppo, Syria; Assistant Professor (Clinician-Educator), Oncology

SUN, JING: Ph.D., University of Pittsburgh; M.S., Peking University; B.A., Beijing Foreign Studies University; Assistant Professor, Management and Information Systems

SUN, SHENGYI: Ph.D., Cornell University, B.S., The University of Hong Kong; Assistant Professor, Molecular Genetics and Genomics

SUNDARARAGHAVAN, HARINI: Ph.D., Rutgers, State University of New Jersey; B.S.E., University of Michigan; Associate Professor, Biomedical Engineering

SURBER, SARAH: Ph.D., J.D., West Virginia University; M.S., B.A., Marshall University; Assistant Professor, Public Health

SUSAK, CHRISTOPHER: M.A., Wayne State University; B.A., Baldwin-Wallace University; Associate Professor of Teaching, English

SUVAS, SUSMIT: Ph.D., Jawaharlal Nehru University; Associate Professor, Anatomy and Cell Biology, Ophthalmology

SWERDLOW, PAUL: M.D., Harvard Medical School; B.S., Massachusetts Institute of Technology; Professor, Oncology, Pediatrics

SWIDER, SARAH: Ph.D., M.A., University of Wisconsin; M.S., Cornell University; B.A., Saint Michael’s College; Associate Professor, Sociology

SYKES, ELIZABETH: M.D., Royal Free Hospital School of Medicine; Clinical Assistant Professor, Pathology

TAHA, WAELE: M.D., Aleppo University, Syria; Clinical Assistant Professor, Internal Medicine

TAINSKY, MICHAEL: Ph.D., Cornell University; Professor, Oncology (Cancer Biology)

TAINSKY, SCOTT: Ph.D., M.A., University of Michigan; B.A., New York University; Professor, Management and Information Systems

TAN, CHIN-AN: Ph.D., B.S., University of California - Berkeley; M.S., California Institute of Technology; Professor, Mechanical Engineering

TANGARI, ANDREA: Ph.D., M.B.A., University of Arkansas; B.S., Indiana University; Associate Professor, Marketing and Supply Chain Management

TARAZA, DINU: Ph.D., B.S., Polytechnic Institute of Bucharest; Professor Emeritus, Mechanical Engineering

TARRAF, WASSIM: Ph.D., M.B.A., Wayne State University; B.S., Lebanese American University; Assistant Professor, Occupational Therapy

TARRAS, SAMANTHA: M.D., Wayne State University; B.S., University of Michigan; Assistant Professor (Clinician-Educator), Surgery

TASCHKA, SYLVIA: Ph.D., M.A., Friedrich-Alexander University, Erlangen; Assistant Professor of Teaching, History

TAUB, JEFFREY W.: M.D., University of Western Ontario; Professor, Pediatrics

TAYLOR, JOHN: Ph.D., M.B.A., B.A., Michigan State University; Associate Professor, Marketing and Supply Chain Management

TAYLOR, KRISTIN T.: Ph.D., North Carolina State University; M.C.P., University of Cincinnati; B.A., Ohio University; Associate Professor, Political Science

TAYLOR, MATT: M.F.A., University of Florida; B.A., Winthrop University; Assistant Professor, Theatre

TEKLEAB, AMANUEL: Ph.D., University of Maryland; B.S., Addis Ababa University; Professor, Management and Information Systems

TEMPLIN, THOMAS: Ph.D., M.A., B.A., Wayne State University; Professor (Research), Nursing

TENNENBERG, STEVEN: M.D., Cornell University; B.A., Yeshiva College; Professor (Clinician-Educator), Surgery

TESSLER, COREY N.: M.S., B.S., Eastern Michigan University; Lecturer, Computer Science

THAKUR, CHIRTA: Ph.D., University of Wurzburg; M.S., B.S., Barkatullah University; Assistant Professor (Research), Pharmaceutical Sciences

THEIS, KEVIN: Ph.D., Michigan State University; B.S., State University of New York; B.A., LeMoyne College; Assistant Professor, Immunology and Microbiology

THEUT, KRISTIN C.: J.D., Wayne State University; B.A., University of Michigan; Lecturer, Law, Director, Legal Research and Writing

THIPPATHI, RAGHAVENDAR: Ph.D., University of Hyderabad; Associate Professor, Immunology and Microbiology

THOMAS, JAMES: Ph.D., University of Texas; M.A., Villanova University; B.A., St. Ambrose College; Professor, Theatre

THOMAS, JULE: Ph.D., Wayne State University; M.A., Central Michigan University; B.A., Lake Superior State University; Associate Professor of Teaching, English

THOMAS, ROBERT A.: Ph.D., M.S., Wayne State University; B.S., City University of New York; Lecturer, Biological Sciences

THOMAS, SHIRLEY A.: Ph.D., University of Michigan; M.S.W., University of Denver; B.A., Adams State College; Clinical Assistant Professor, Social Work

THOMAS, TRICIA: PhD, MSN, BSN, Walden University, University of Michigan; Associate Professor, Nursing

THOMPSON, HAYLEY: Ph.D., M.S., University of Pittsburgh; B.A., Colgate University; Associate Professor, Oncology

THOMPSON, THOMAS L.: Ph.D., M.A., University of Texas, Arlington; B.J., University of Texas, Austin; Professor, Political Science, Director, Center for Urban Studies

THUMMEL, RYAN: Ph.D., University of Kansas Medical Center; B.A., University of Notre Dame; Assistant Professor, Anatomy and Cell Biology

TIBBS, MILLIE: M.F.A., Rhode Island School of Design; B.A., Vassar University; Associate Professor, Art

TINI, DENNIS: M.A., B.A., Wayne State University; Distinguished Professor Emeritus, Music
TISDALE, ELLEN: Ph.D., Case Western Reserve University; M.S., Clemson University; Associate Professor, Pharmacology

TIURA, ANGELA: Ph.D., M.A., B.A., Wayne State University; Associate Professor, Family Medicine and Public Health Sciences

TODI, SOKOL: Ph.D., University of Iowa; Professor and Chair, Pharmacology, Professor, Neurology

TOMSAK, ROBERT: M.D., Ph.D., Case Western Reserve; Professor (Clinician-Educator), Ophthalmology, Neurology

TONG, STEPHANIE T.: Ph.D., M.A., Illinois Institute of Technology; M.S., Sharif University of Technology; B.S., University of Istahan; Assistant Professor, Chemical Engineering and Materials Science

TROFFKIN, ERIC: M.F.A., Cranbrook Academy of Art; B.A. Amherst of Konstanz; Professor, Chemistry

TRIMPIN, SARAH: Doktor der Naturwissenschaften, Max-Planck-Institute for Polymer Research, University of Mainz; Vor-Diplom, Diplom, University of Konstanz; Professor, Chemistry

TROFFKIN, ERIC: M.F.A., Cranbrook Academy of Art; B.A. Amherst College; Associate Professor, Art

TRUJILLO-PAGAN, NICOLE: Ph.D., University of Michigan; B.A., Emmanuel College; Associate Professor, Sociology, Participating Faculty, Latino/a and Latin American Studies

TRUSKINOVSKY, YULYA: Ph.D., Duke University; M.A., Tufts University; B.A., University of Minnesota; Assistant Professor, Economics

TREWN, JAYANT SINGH: Ph.D., M.B.A., Wayne State University; Assistant Professor (Research), Pharmacology

TREYNOR, JAMES D.: Ph.D., M.A., B.A., Wayne State University; Associate Professor, Neurosurgery

UBE, ANNA: M.D., B.S., Wayne State University; Assistant Professor, Oncology

UBERTI, JOSEPH P.: M.D., Ph.D., B.S., Wayne State University; Professor, Oncology

UIMIRBAEV, UALBAI: Ph.D., D.Sc., Sobolev Institute of Mathematics; M.S., Sharif University of Technology; B.S., University of California-Davis; Associate Professor, Mathematics

ULMER, JASMINE: Ph.D., M.Ed., B.A., University of Florida; Assistant Professor, Education, Administrative & Organizational Studies

UMIRBAEV, UALBAI: Ph.D., D.Sc., Sobolev Institute of Mathematics; M.S., Novosibirsk State University; Professor, Mathematics

VAIDYRA, RAHUL: M.D., McGill University; B.Sc., Dalhousie University; Assistant Professor, Neurosurgery

VAISHAMPAYAN, NITIN: M.D., Wayne State University; B.A., Kalamazoo College; Assistant Professor (Clinician-Educator), Oncology (Radiation Oncology)

VAISHAMPAYAN, ULKA N.: M.B.B.S., Byramjee Jeejeebhoy Medical College; Assistant Professor (Clinician-Educator), Oncology

VANBERKUM, MARK: Ph.D., Baylor College of Medicine; M.Sc., B.Sc., University of Toronto; Professor, Biological Sciences

VAYSER, IRYNA: Ph.D., B.S., Wayne State University; Associate Professor, Pharmacology
VANBURKLEQ, SANDRA: Ph.D., M.A., University of Minnesota; B.A., Hamline University; Professor, History

VANDER WEG, JOHN D.: Ph.D., M.Mus, B.Mus, University of Michigan; Professor Emeritus, Music

VARTY, NICOLE: Ph.D., Wayne State University; M.A., Eastern Michigan University; B.S., Lee University; Associate Professor of Teaching, English

VASIN, ALEXANDER: Ph.D., Kazan Institute of Biochemistry and Biophysics; B.S., Kazan State University; Assistant Professor (Research), Neurology

VASSALLO, MARIO J.: M.A., B.S., Central Michigan University; Lecturer, Education, Kinesiology, Health and Sport Studies

VELILLA, MARC-ANTHONY: M.D., M.S., Wayne State University; B.S., University of Michigan; Assistant Professor (Clinician-Educator), Pediatrics

VERANI, CLAUDIO N.: Ph.D., Max-Planck-Institut für Strahlenchemie and Ruhr-Universität; M.Sc., B.S., Universidade Federal de Santa Catarina; Professor, Chemistry

VERMA, HARISH: Ph.D., M.S., M.B.A, Michigan State University; B. Tech, Indian Institute of Technology; Associate Professor Emeritus, Marketing and Supply Chain Management

VERNIER, RICHARD: Ph.D., B.A., University of California, Berkeley; Professor Emeritus, French

VEVE, MICHAEL: Pharm.D., Albany College of Pharmacy & Health Sciences; MPH, Wayne State University; Assistant Professor (Clinical), Pharmacy Practice

VICTOR, BRYAN: Ph.D., Wayne State University; M.S.W., University of Michigan; Assistant Professor, Social Work

VILLASENOR, SALLY: D.N.P, M.S.N., B.S.N., Wayne State University; B.A., Albion College; Assistant Professor (Clinical), Nursing

VINCENTINI, ANDREW: M.Ed., B.S., Wayne State University; Lecturer, Mathematics

VINEBERG, SUSAN N.: Ph.D., B.A., University of California, Berkeley; Associate Professor, Philosophy

VIOLA, NERISSA T.: Ph.D., Syracuse University; B.S., University of Philippines; Associate Professor, Oncology (Cancer Biology)

VISGER, JOAN: M.S.N., University of Phoenix; B.S., Wayne State University; Assistant Professor (Clinical), Nursing

VLASOPOLOS, ANCA: Ph.D., M.A., University of Michigan; B.A., Wayne State University; Professor Emerita, English

VOHRA, VARUN: Pharm.D.; Assistant Professor (Clinical), Emergency Medicine

VOLOSHIN, SERGEI A.: Ph.D., Dipl, Moscow Engineering Physics Institute; Professor, Physics

VOLZ, WILLIAM H.: J.D., Wayne State University; M.B.A., Harvard University; M.A., University of Michigan; B.A., Michigan State University; Distinguished Service Professor, Accounting, Business Law

VOORHEIS, FRANK L.:; Professor Emeritus, Finance

VROOM, PHYLLIS I.: Ph.D., University of Michigan; M.S.W., B.A., Wayne State University; Associate Professor Emeritus, Social Work, Dean Emeritus

VULTEE, FREDERICK (FRED): Ph.D., M.A., University of Missouri; B.A., University of North Carolina at Chapel Hill; Associate Professor, Communication

VURAL, ALI: Ph.D., Medical University of South Carolina; B.S., Middle East Technical University; Assistant Professor (Research), Pharmacology

W

WADDLES, BRANDON: Ph.D., Florida State University, Tallahassee, M.M., Westminster Choir College of Rider University, B.A., Morehouse College.; Lecturer, Music

WADEHRA, JOGINDRA M.: Ph.D., New York University; M.S., University of Nebraska; M.Sc., B.Sc., University of Delhi; Professor, Physics, Associate Chair

WAGNER, KAY-UWE: Ph.D., University of Halle-Wittenberg; M.Sc., B.S., University of Leipzig; Professor, Oncology

WAGSTER, JOHN D.: Ph.D., M.S., Texas A & M University; B.S., University of Tennessee; Associate Professor Emeritus, Finance

WAINEO, EVA: M.D., Wayne State University; B.A., University of Michigan; Instructor (Clinician-Educator), Psychiatry and Behavioral Neurosciences

WAKADE, ARUN R.: Ph.D., M.S., State University of New York; B.S., University of Bombay; Professor Emeritus, Pharmacology

WALCZYK, MARY L.: D.N.P University of Detroit Mercy; M.S., Wayne State University; B.S., Mercy College of Detroit; Assistant Professor (Clinical), Nurse Anesthesia

WALKER, PAUL: Ph.D., Temple University; B.S., Albright College; Professor, Anatomy and Cell Biology, Associate Professor, Psychiatry and Behavioral Neurosciences

WALKER, TARA: D.N.P, Wayne State University; B.S.N., University of Rochester; Instructor (Clinical), Nursing

WALKER, THOMAS: Ph.D., University of Illinois at Urbana-Champaign; M.A., University of Chicago; M.M., Northwestern University; B.M., University of Colorado at Boulder; Associate Dean and Professor, School of Information Sciences

WALKER, THOMAS D.: Ph.D., University of Illinois at Urbana-Champaign; M.A., Northwestern University; M.M., University of Colorado; Associate Dean and Professor, School of Information Sciences

WALKER, DIAN E.: Ph.D., M.Libr., University of Washington; B.A., Central Washington State College; Professor, Information Sciences

WALSTER, DIAN E.: Ph.D., M.Libr., University of Washington; B.A., Central Washington State College; Professor, Information Sciences

WALTER-MCCABE, HEATHER: J.D., Indiana University; M.S.W., Indiana University; B.A., Indiana University; Associate Professor, Social Work, Associate Professor, Law

WALTERS, KENNETH R.: Ph.D., Princeton University; B.A., Bowdoin College; Associate Professor Emeritus, Classics, Greek and Latin
WALZ, DANIEL A.: Ph.D., Wayne State University; M.S., St. Louis University; B.S., St. John Fisher College; Professor, Physiology, Associate Dean, Research and Graduate Programs

WANG, CAISHENG: Ph.D., Montana State University; M.S., B.S., Chongqing University; Associate Professor, Electrical and Computer Engineering

WANG, CHENG: Ph.D., M.A., University of Notre Dame; B.A., Nanjing University; Assistant Professor, Sociology

WANG, GAN: Ph.D., Chinese Academy of Sciences; B.S., Shandong University; Associate Professor, Pharmacology, Institute of Environmental Health Sciences

WANG, JIAN: Ph.D., McGill University; Associate Professor, Pathology

WANG, JIANJUN: Ph.D., B.Sc., Nanjing University; M.S. Beijing Medicinal Chemistry Institute; Professor, Biochemistry and Molecular Biology

WANG, JIEMEI: M.D., Ph.D., Sun Yat-Sen University; Assistant Professor, Pharmaceutical Sciences

WANG, LE YI: Ph.D., McGill University; M.E., Shanghai Institute of Mechanical Engineering; Professor, Electrical and Computer Engineering

WANG, PEI-YONG: Ph.D., Courant Institute of Mathematical Sciences, New York University; M.S., Institute of Mathematics, Academia Sinica; B.S., Tsinghua University; Associate Professor, Mathematics

WAREHAM, JENNIFER: Ph.D., M.A., B.A., University of South Florida; Professor, Criminology and Criminal Justice

WARGO-AIKENS, JULIE: Ph.D., M.S., Pennsylvania State University; B.A., Duke University; Associate Professor, Psychiatry and Behavioral Neurosciences

WASHABAUGH, EDWARD PETER: Ph.D., B.S.E., University of Michigan; Assistant Professor, Biomedical Engineering

WASHINGTON, OLIVIA: Ph.D., Wayne State University; M.S.N., B.S.N., State University of New York at Buffalo; Associate Professor Emeritus, Nursing

WASSERMAN, RENATA M.: Ph.D., Brandeis University; M.A., Universidade de Sao Paulo; B.A., Ohio University; Professor Emerita, English

WATTEN, BARRETT: Ph.D., B.A., University of California, Berkeley; M.F.A., University of Iowa; Professor, English

WEAVER, DONALD W.: M.D., Loma Linda University; B.A., Andrews University; Professor, Surgery, Chair

WEBBER, JOHN: M.D., Wayne State University; B.S., University of Michigan; Assistant Professor, Surgery

WEI, WEI-ZEN: Ph.D., Brown University; M.S., State University of New York; B.S., National Taiwan University; Professor, Oncology (Cancer Biology), Immunology and Microbiology

WEIMER, DANIEL F.: M.A., University of Michigan; B.S., Bowling Green State University; Associate Professor (Teaching), Accounting

WEINBERG, JONATHAN: J.D., Columbia University; A.B., Harvard University; Professor, Law

WEINBERGER, JARRETT: M.D., Wayne State University; Assistant Professor (Clinician-Educator), Internal Medicine

WEINER, KAREN: M.S.W., University of Illinois; B.A., Northern Illinois University; Lecturer, Social Work

WEIR, MARY M. (MARGI): M.F.A., University of California Los Angeles; M.A. New Mexico State University; B.A. Wheaton College; Associate Professor, Art

WEISFELD, GLENN E.: Ph.D., University of Chicago; M.S., Tufts University; B.S., University of Wisconsin; Professor Emeritus, Psychology

WEISZ, ARLENE A.: Ph.D., M.S.W., University of Illinois at Chicago; B.A., University of Michigan; Professor Emerita, Social Work

WELCH, ANITA: Ph.D., University of Kansas; M.S., Pittsburg State University; M.A. University of Connecticut; B.A., University of Missouri-Kansas City; Professor, Education, Teacher Education

WELCH, ROBERT D.: M.D., Wayne State University; B.S., Michigan State University; Associate Professor (Clinician-Educator), Emergency Medicine

WELLMAN, VINCENT A.: J.D., Yale University; B.A., Pomona College; Associate Professor, Law

WESSELLS, ROBERT J.: Ph.D., The Ohio State University; B.S., Miami University; Associate Professor, Physiology

WHALEN, LAUREL L.: Ph.D., M.A., Wayne State University; B.A., Albion College; Lecturer, Education, Kinesiology, Health and Sport Studies

WHITE, JENNELL: M.D., Morehouse School of Medicine; Assistant Professor Research, Pharmacology

WHITE, KATHERINE: LL.M., George Washington University; J.D., University of Washington; B.S.E., Princeton University; Professor, Law

WHITE, MICHAEL: M.D., Wayne State University; B.S., Nazareth College; Assistant Professor (Clinician-Educator), Surgery

WHITMAN, R. DOUGLAS: Ph.D., Brandeis University; M.A., Queen’s University; B.S., Syracuse University; Professor Emeritus, Psychology

WIDTH, MARY M., Central Michigan University; Lecturer, Nutrition and Food Science

WILBURN, JOHN: M.D., Ross University School of Medicine; B.S., University of Michigan; Clinical Assistant Professor, Emergency Medicine

WILBURN, JOSHUA J.: Ph.D., Princeton University; B.A., University of Texas, Austin; Associate Professor, Philosophy

WILHELM, SHEILA: Pharm.D., University of Michigan; Professor - Clinical, Pharmacy Practice

WILKINS, LILLIAN (LEE) C. BLACK: Ph.D., M.A., University of Oregon; B.A., B.J., University of Missouri; Professor Emerita, Communication

WILLIAMS, BARBARA: M.A., Central Michigan University; B.S.N., Mercy College of Detroit; Instructor (Clinical), Nursing

WILLIAMS, DAVID L.: Ph.D., M.A., Wayne State University; B.A., University of Wisconsin; Associate Professor Emeritus, Marketing and Supply Chain Management

WILLIAMS, KIDADA: Ph.D. University of Michigan; M.A., B.S., Central Michigan University; Associate Professor, History

WILLIAMS, RALPH E. II: M.D., Wayne State University; B.S., Oakland University; Clinical Assistant Professor, Family Medicine and Public Health Sciences

WINEMAN, JUDITH: M.S.S.W., Columbia University; B.A., University of Michigan; Senior Lecturer, Social Work
WINER, IRA S.: M.D., Ph.D., University of Michigan; B.S., Boston University; Assistant Professor (Clinical Scholar), Oncology

WINTER, CHARLES H.: Ph.D., University of Minnesota; B.S., Hope College; Professor, Chemistry, Associate Chair

WINTER, STEVEN: J.D., Columbia University; B.A., Yeshiva University; Distinguished Professor, Law

WINTERS, LISA ZE: Ph.D., M.A., B.A., University of California at Berkeley; Associate Professor, English

WINTERS, MARGARET: Ph.D., University of Pennsylvania; M.A., University of California at Riverside; B.A., Brooklyn College; Professor Emeritus, French, Linguistics

WISCHUSEN, MARY A.: Ph.D., M.A., Rutgers University; B.A., Chestnut Hill College; Associate Professor Emerita, Music

WITHEY, JEFFREY: Ph.D., University of Michigan, B.A., Johns Hopkins University; Professor, Immunology and Microbiology, Graduate Director, Biochemistry, Microbiology, And Immunology

WOLF, JOHN: M.F.A., University of Alabama; B.S., Lindenwood University; Professor, Theatre

WOODARD, JOHN L.: Ph.D., Wayne State University; M.A., University of Dayton; A.B. Ripon College; Professor, Psychology

WOODLAND, JOHN: M.F.A., University of Michigan; B.A., Otterbein College; Associate Professor, Theatre

WORMSER, HENRY C.: Ph.D., University of Wisconsin; M.S., B.S., Temple University; Professor Emeritus, Pharmaceutical Sciences

WREN, PATRICIA A.: Ph.D., M.P.H., University of Michigan; M.S., B.A., DePaul University; Professor and Chair, Public Health

XU, CHENG-ZHONG: Ph.D., University of Hong Kong; M.S., B.Sc., Nanjing University; Professor, Electrical and Computer Engineering

XU, JINPING: M.D., Shandong Medical University; Professor, Family Medicine and Public Health Sciences

XU, LIHAO: Ph.D., California Institute of Technology; M.Sc., B.Sc., Shanghai Jiao Tong University; Associate Professor, Computer Science

XU, SHUNBIN: M.D., Peking Union Medical College; Ph.D., The Johns Hopkins University; Associate Professor, Ophthalmology

XU, SUXUAN (SUE): Ph.D., The University of Georgia; Assistant Professor - Teaching, Nutrition and Food Science

XU, YONG: M.S., Ph.D., California Institute of Technology; B.Sc., Tsinghua University; Professor, Electrical and Computer Engineering

Y

YAN, TINGTING: Ph.D., Arizona State University; M.S., Fudan University; B.A., Zhongnan University; Professor, Marketing and Supply Chain Management

YANAL, ROBERT J.: Ph.D., M.A., University of Illinois at Chicago; B.A., University of Pittsburgh; Professor Emeritus, Philosophy

YANG, JAY: M.D., University of Michigan; B.A., Johns Hopkins University; Assistant Professor (Clinician-Educator), Oncology

YANG, KAI: Ph.D., M.S., University of Michigan; B.S., China Petroleum University; Professor, Industrial and Systems Engineering

YANG, KING-HAY: Ph.D., M.S., Wayne State University; B.S., National Taiwan University; Professor, Biomedical Engineering, Director, Bioengineering Center

YANG, QINGYU: Ph.D., M.S., University of Iowa; B.S. University of Science and Technology of China; Associate Professor, Industrial and Systems Engineering

YANG, ZENG-QUAN: Ph.D., Tokyo Medical and Dental University; M.S., Peking Normal University; Associate Professor, Oncology (Cancer Biology)

YANG, ZHE: Ph.D., Chinese Academy of Sciences; Associate Professor, Biochemistry and Molecular Biology

YAPRAK, ATTLA: Ph.D., Georgia State University; M.B.A., B.S., Indiana University; Professor, Marketing and Supply Chain Management

YAPRAK, ECE: Ph.D., M.S., Wayne State University; B.S., University of Michigan, Dearborn; Professor and Chair, Engineering Technology

YARANDI, HOSSEIN: Ph.D., M.A., Indiana University; B.S., Tehran University; Professor, Nursing

YAREMA, SANDRA L.: Ph.D., Wayne State University; M.S., Lawrence Technological University; B.S., Oakland University; Clinical Associate Professor, Education, Teacher Education

YEH, CHIHING: Ph.D., M.S., Texas A & M University; B.S.E.E., Tamkang University; Associate Professor, Engineering Technology

YI, ZHENGPING: Ph.D., M.S., B.S., Nanjing University; Professor, Pharmaceutical Sciences

YILDIRIM, MURAT: Ph.D., M.S., B.S., Georgia Institute of Technology; Assistant Professor, Industrial and Systems Engineering
YILDIZ, HAKAN: Ph.D., M.S., Carnegie Mellon University; B.Sc., Bilkent University; Associate Professor, Marketing and Supply Chain Management

YING, HAO: Ph.D., University of Alabama at Birmingham; M.S., B.S., Donghua University; Professor, Electrical and Computer Engineering

YINGST, DOUGLAS ROY: Ph.D., University of Southern California, Los Angeles; B.A., McPherson College; Associate Professor Emeritus, Physiology

YOO, GEORGE: M.D., B.S., University of Kansas; Professor, Oncology, Otolaryngology

YOON, YOUNG-RO: Ph.D., Cornell University; B.A., Seoul National University; Associate Professor, Economics

YOUNG, GEORGE: M.D., B.S., University of Kansas; Professor, Oncology, Otolaryngology

YOUNG, KELLY M.: Ph.D., Wayne State University; M.A., B.A., Ball State University; Associate Professor, Communication

YU, BEONGCHEON: Ph.D., Brown University; M.A., University of Kansas; B.A., Seoul National University; Professor Emeritus, English

YU, FU-SHIN: Ph.D., Wayne State University; B.S., Wuhan University; Professor, Ophthalmology, Anatomy and Cell Biology

YU, MIN: Ph.D., University of Wisconsin-Madison; M.A., B.A., Beijing Normal University; Associate Professor, Education, Teacher Education

Z

ZACKS, ERIC A.: J.D., Harvard University; B.A., University of Michigan; Associate Professor, Law

ZAJAC, JOSEPH B.: M.F.A., B.F.A., Eastern Michigan University; Professor Emeritus, Art

ZAK, IMAD: M.D., University of Jordan; Clinical Associate Professor, Radiology

ZALMAN, MARVIN: Ph.D., M.A., State University of New York, Albany; J.D., Brooklyn Law School; B.A., Cornell University; Professor, Criminology and Criminal Justice

ZE WINTERS, LISA: Ph.D, M.A., A.B., University of California-Berkeley; Associate Professor, African American Studies

ZHANG, JIATO: Ph.D., Tsinghua University; B.S., Wuhan University; Assistant Professor, Biomedical Engineering

ZHANG, JINGSHENG: Ph.D., University of Fribourg; M.S., Wayne State University; M.S., B.S., Hebei Normal University; Professor and Chair, Communication Sciences and Disorders, Professor, Otolaryngology

ZHANG, KE: Ph.D., M.S., Pennsylvania State University; B.A., Nankai University; Professor, Education, Administrative & Organizational Studies

ZHANG, KEZHONG: Ph.D., Fudan University; B.S., Shandong University; Professor, Molecular Genetics and Genomics

ZHANG, LIYING: Ph.D, Wayne State University; M.S. and B.S. Shanghai Jiao Tong University; Associate Professor, Biomedical Engineering

ZHANG, REN: Ph.D., University of Texas Health Science at Houston; Associate Professor, Molecular Genetics and Genomics, Internal Medicine

ZHU, ZHE (ALBERT): Ph.D., University of Virginia; M.A., M.H., B.A., University of Iowa; B.A., Wuhang University; Assistant Professor, Public Health

ZHU, YINGXI E.: Ph.D., University of Illinois at Urbana-Champaign; B.S., Tsinghua University; Professor, Chemical Engineering and Materials Science

ZHU, ZHE (ALBERT): Ph.D., University of Virginia; M.A., University of Iowa; B.A., Wuhang University; Assistant Professor, Public Health

ZHU, ZHEN: Ph.D., Pennsylvania State University; M.S., B.S., Bucknell University; Associate Professor, Economics
ELLIS-DANQUAH, LAVENTRA: M.L.I.S., Wayne State University; B.A., University of Michigan; Librarian IV, Interim Director
GERACI, ALIQA: M.L.I.S., Long Island University; M.A., City University of New York; B.A., State University of New York, Empire State College; Director
GOOLDNER, DANIEL: M.L.I.S., Wayne State University; B.A., Virginia Commonwealth University; Archivist III
GREENLEE, MICHAEL: M.L.I.S., University of Illinois Urbana; B.S., University of Illinois; Librarian I
HAYES, CLAYTON: M.L.I.S., M.A., B.S., Wayne State University; Librarian II
HENNING, TAYLOR FISK: M.S.L.I.S., University of Illinois Urbana-Champaign; M.A., B.A., Florida State University; Archivist I
HU, QIAN (ELLA): Ph.D., Purdue University; M.L.S., Indiana University; M.E., Huazhong University of Science and Technology; B.E., Dalian University of Technology; Librarian III
Jiang, Minhao: M.S., University of Illinois Urbana; B.A., Wuhan University; Librarian II
JONES, LOUIS E.: Ph.D., Wayne State University; M.A., University of Delaware; M.P.S., Cornell University; B.A., Morehouse College; Archivist IV
LALONDE, MICHELLE M.: J.D., LL.M., Western Michigan University Thomas M. Cooley Law School; M.L.I.S., Wayne State University; B.G.S., University of Michigan; Librarian III, Adjunct Professor, Law
LEBOVITZ, SARAH: M.S.I.M., University of Michigan Ann Arbor; B.A., Colorado College; Archivist I
LISTON, KAREN: A.M.L.S., B.A., University of Michigan; Librarian III
MARTINEZ, IDA: M.L.I.S., Dominican University; B.A., University of Notre Dame; Librarian II
MCGINNIS, RHONDA: M.L.S., M.A., Indiana University; B.A., Ohio Wesleyan University; Librarian III
MOWRY, AMELIA: M.S.I.S., University of Michigan; B.A., B.S., Ohio University; Librarian III
NEIRINK, PAUL S.: M.L.I.S., Wayne State University; B.A., Michigan State University; Librarian III
NUCCILLI, MARIA: M.L.I.S., B.A., Wayne State University; Librarian II
OLDFIELD, MONIQUE: M.L.I.S., Wayne State University; M.S.W., University of Michigan; B.A., Wayne State University; Librarian III
POLAK, ELLIOT: M.A., University of Wisconsin-Madison; B.S., California State University Northridge; Assistant Dean
POLGAR, KATHRYN: J.D., University of Detroit Mercy; M.L.I.S., Wayne State; B.A., University of Michigan Ann Arbor; Librarian II
RAFFERTY, SHAE: M.S.I., B.A., University of Michigan Ann Arbor; Archivist I
ROUAN, KATRINA: M.L.I.S., Wayne State University; B.A., Grand Valley State University; Librarian III
SAMSON, MICHAEL: M.S.L.S., L.L.M., Wayne State University; L.L.B., M.S., University of Bucharest; Librarian IV
STRASSEL, GAVIN: M.S.I., B.A., University of Michigan; Archivist II

THOMAS, VIRGINIA C.: J.D., M.B.A., Illinois Institute of Technology
Chicago-Kent College of Law; A.M., University of Chicago; B.A., DePaul
University; Librarian IV, Director

VAQUILAR, SERENA: M.L.I.S., Wayne State University; M.A., B.A.,
California State University, Northridge; Librarian I

WALLACE, MARY J.: M.A., B.F.A., Wayne State University; Archivist III

WOLFORD, CATHERINE: M.L.I.S., Wayne State University; B.A., Albion
College; Librarian IV

WU, WENDY GANG: M.S., Linkoping University; B.A., Chongqing
University of Medical Sciences; Librarian IV
INDEX

A

Academic Calendar 2022-2023 .......................................................... 10
Academic Regulations ................................................................. 38
Academic Regulations ................................................................. 336
Academic Regulations for the College of Education ................... 94
Academic Regulations for the College of Engineering ............... 135
Academic Regulations for the College of Fine, Performing, and
Communication Arts ................................................................. 180
Academic Regulations for the College of Liberal Arts and Sciences ... 227
Academic Regulations for the College of Nursing ...................... 322
Academic Regulations for the Mike Ilitch School of Business ..... 72
Academic Services ........................................................................ 100
ACC - Accounting ...................................................................... 375
Accounting (M.S.A.) ................................................................. 76
Accreditation ................................................................................. 14
ACO - Art: Core ......................................................................... 378
ACR - Art: Ceramics ................................................................... 379
ACS - Art: Special Seminars ...................................................... 379
ADA - Art: Digital Art ................................................................ 380
Administration and Supervision (Education Specialist Certificate) . 101
Administration of the University ................................................ 12
Administrative and Organizational Studies .................................. 100
Admission: Graduate School ...................................................... 35
Admissions Policies and Procedures (J.D. Program) .................... 220
ADN - Art: Design ....................................................................... 380
ADR - Art: Drawing ..................................................................... 381
Adult Gerontology Nurse Practitioner Acute Care (Graduate Certificate) ..................................................... 331
Advanced Studies in School Psychology (Graduate Certificate) .... 126
ADX - Art and Design Exposure ................................................ 382
AED - Art Education ..................................................................... 382
AET - Alternative Energy Technology ......................................... 383
AFA - Art: Design and Merchandising ........................................ 384
AFI - Art: Fibers ......................................................................... 385
AFS - African American Studies ................................................ 386
AGD - Art: Graphic Design ......................................................... 388
AGRADE - Accelerated Graduate Enrollment ......................... 74
AH - Art History .......................................................................... 389
AIA - Art: Interior Design ........................................................... 391
AID - Art: Industrial Design ........................................................ 392
Alcohol and Drug Abuse Studies (Graduate Certificate) ............ 365
Alternative Energy Technology (Graduate Certificate) .............. 175
Alternative Energy Technology (M.S.) ........................................ 175

AME - Art: Metalsmithing .............................................................. 393
AN - Anesthesia ......................................................................... 394
ANA - Anatomy and Cell Biology ............................................... 396
Anatomy and Cell Biology .......................................................... 303
Anatomy and Cell Biology (M.S. and Ph.D.) ............................. 303
Anesthesiology ............................................................................ 294
ANT - Anthropology .................................................................. 397
Anthropology ............................................................................... 229
Anthropology and Urban Sustainability (Ph.D. Dual-Title) ........ 231
Anthropology (M.A.) ................................................................. 229
Anthropology (Ph.D.) ............................................................... 230
APA - Art: Painting .................................................................... 403
APH - Art: Photography ................................................................ 404
Applied Behavior Analysis (Graduate Certificate) ................. 126
Applied Behavior Analysis (M.S.) ............................................. 127
Applied Health Sciences ............................................................ 339
Applied Mathematics (M.A.) ..................................................... 263
APR - Art: Printmaking ............................................................... 405
APX - Academic Pathways for Excellence ................................. 406
ARB - Arabic .............................................................................. 406
Archival Administration (Graduate Certificate) ......................... 211
ARM - Armenian ....................................................................... 407
ART - Art Courses ..................................................................... 407
Art and Art History ..................................................................... 182
Art Education (M.Ed.) ............................................................... 120
Art History (M.A.) .................................................................... 189
Art (M.A.) .................................................................................. 183
Art (M.F.A.) ............................................................................... 185
Arts Administration (M.A.) ........................................................ 205
ASE - American Sign Language ................................................ 408
ASL - Art: Sculpture ................................................................... 408
ASN - Asian Studies ................................................................. 409
AST - Astronomy ....................................................................... 410
AT - Art Therapy ......................................................................... 410
Athletic Training (M.S.) ............................................................ 106
ATR - Athletic Training ............................................................. 411
AUD - Audiology ........................................................................ 413
Audiology (Au.D.) ....................................................................... 242
Automotive Supply Chain Management (Executive M.S.) ......... 78

B

BA - Business Administration ...................................................... 415
Basic Medical Sciences (M.S.) .................................................. 299
BBE - Bilingual/Bicultural Education ........................................ 417
BE - Basic Engineering ............................................................... 418

PAA - Pathologists’ Assistant .............................. 688
PAS - Physician Assistant Studies ......................... 691
Pathologists’ Assistant (M.S) ............................. 339
Pathology .................................................. 313
Pathology (Ph.D) .......................................... 313
PCS - Peace and Conflict Studies .......................... 693
Peace and Conflict Studies ............................... 269
Pediatric Anesthesia (Graduate Certificate) ............... 269
Pediatric Nurse Practitioner Acute Care (Graduate Certificate) ................................. 332
Pediatric Nurse Practitioner Primary Care (Graduate Certificate) ................................ 332
Pediatrics .................................................. 296
PH - Public Health ....................................... 694
PHA - Pharmacy ......................................... 696
Pharmaceutical Sciences .................................. 347
Pharmaceutical Sciences and Urban Sustainability (Ph.D Dual-Title) ......................... 350
Pharmaceutical Sciences (M.S) ......................... 347
Pharmaceutical Sciences (Ph.D) ...................... 349
Pharmacology ............................................. 314
Pharmacology and Urban Sustainability (Ph.D Dual-Title) ................................. 316
Pharmacology (M.S) – Applied Pharmacology and Environmental Xenobiotics .......... 314
Pharmacology (Ph.D) ...................................... 315
Pharmacy .................................................. 352
Pharmacy (Pharm.D) ..................................... 352
Pharmacy Practice ........................................ 352
PHC - Pharmacology .................................... 697
PHI - Philosophy ......................................... 698
Philosophy ............................................... 270
Philosophy (M.A) ........................................ 270
Philosophy (Ph.D) ........................................ 270
PHY - Physics ........................................... 703
Physical Medicine and Rehabilitation - DMC .............. 297
Physical Therapy (D.P.T) .................................. 343
Physician Assistant Studies (M.S) ......................... 345
Physics and Astronomy ................................... 271
Physics (M.A) ........................................... 271
Physics (M.S) ........................................... 272
Physics (Ph.D) ........................................... 273
Physiology ................................................ 316
Physiology (M.S) ........................................ 316
Physiology (Ph.D) ........................................ 316
POL - Polish ............................................. 709
Political Science ........................................... 274
Political Science and Law (M.A./J.D. Joint Degree) ...... 275
Political Science (M.A) .................................. 274
Political Science (Ph.D) .................................. 276
Polymer Engineering (Graduate Certificate) .................. 142
Post-Bachelor’s Teaching Certificate ....................... 96
PPR - Pharmacy Practice ................................. 710
Program Evaluation (M.A) ................................ 102
Programs Offered by the College of Engineering ........... 174
PS - Political Science ..................................... 713
PSC - Pharmaceutical Sciences .......................... 719
PSL - Physiology ......................................... 721
PSY - Psychology ......................................... 723
Psychiatric Mental Health Nurse Practitioner (Graduate Certificate) ......................... 333
Psychiatry and Behavioral Neurosciences .................. 297
Psychology ............................................... 278
Psychology and Infant Mental Health (Ph.D Dual-Title) .......................................... 279
Psychology (M.A) ........................................ 278
Psychology (Ph.D) ........................................ 278
PT - Physical Therapy ..................................... 731
PTH - Pathology ......................................... 735
Public Administration (M.P.A) ............................ 275
Public Health AGRADE .................................. 318
Public Health (Bridge Graduate Certificate) .................. 319
Public Health (M.PH) ..................................... 317
Public Health Programs ................................... 317
Public History and Library and Information Science (M.A.PH./M.L.I.S. Joint Degree) ........ 257
Public Library Services to Children and Young Adults (Graduate Certificate) ................. 213
Public Relations AGRADE Program ......................... 201
PYC - Psychiatry ........................................... 736

R
Radiology .................................................. 297
RAS - Radiologist Assistant Studies ......................... 737
RCI - Rehabilitation Counseling and Community Inclusion ...................................... 737
RDT - Radiologic Technology ............................ 737
Reading (Education Specialist Certificate) .................. 123
Records and Registration ................................... 47
Risk and Crisis Communication (Graduate Certificate) .......................................... 201
