

FIELD EDUCATION

All students enrolled in SW 4998, Field Practice in Social Work I and II, are required to carry professional liability insurance as a condition of field placement.

The Field Education Manual contains a description of the field education program and the policies and procedures related to the program.

Students are responsible for observing the procedures governing field work practice which are detailed in the manual. The manual is distributed to each student enrolled in SW 4998.

Field Education Health Clearances Policy

The School may require students in field placement to obtain assessments of their physical or mental health from health or mental health professionals approved by the School. The School of Social Work reserves the right to refuse to place or direct a student in field education if the physical or mental health status of the student indicates such action is warranted in order to safeguard clients, agencies, the student, other students, or the School.

The following agencies are representative of those who have worked with members of the Faculty in field instruction during recent academic years:
